Sessional Dates

This Calendar is applicable for the Fall 2023, Winter 2024, and Summer 2024 sessions.

Sessional dates are key dates in the term, such as the start/end date of classes, holidays, and the final period. A complete list of academic and financial deadlines for students can be found on the [Office of the Registrar website](#).

Fall 2023

Date	Activity
September 4	Labour Day (Holiday) - University closed
September 6	Fall-Winter Session classes begin in F and Y courses
September 19	Last day to add F & Y courses for Fall-Winter Session
October 9	Thanksgiving Day (Holiday) - University closed
October 10 - 13	Fall Reading Week - No classes University is open
December 5	Last day of classes for F courses. Classes in Y courses break for holidays.
December 6	Study Break
December 7 - 20	Final Exams for F Session courses. Term tests may be held in Y courses
December 21 - January 2, 2024	December Holiday - University closed

Winter 2024

Date	Activity
January 8	Classes begin in S courses; Y courses resume
January 21	Last day to add S courses for Winter
February 19	Family Day (Holiday) - University closed
February 20 - 23	Reading Week - No Classes University is open
March 29	Good Friday - University closed
April 5	Last day of classes for S & Y courses
April 8	Make-up Day
April 9 - 10	Study Break
April 11 - 25	Final Exams for S & Y courses

Summer 2024

Date	Activity
May 6	Classes begin in all F and Y Courses
May (TBA)	Last day to add F & Y courses for Summer Session
May 20	Victoria Day (Holiday) - University closed
June 17	Last day of classes for F courses for Summer Session
June 18	Study Break
June 19 - 21	Final Exams for F courses for Summer Session
July 1	Canada Day (Holiday) - University closed
July 2	Classes begin in S courses; Y courses resume

July (TBA)	Last day to add S courses for Summer
August 5	Civic Day (Holiday) - University closed
August 12	Last day of classes for S and Y courses
August 13	Make-up Day
August 14	Study Break for S and Y courses
August 15 - 17	Final Exams for S and Y courses

How to Use the Calendar

Understanding the Calendar

This Calendar serves as an academic information guide and statement of the most important rules and regulations for students seeking to enrol at the University of Toronto Mississauga, and is published annually online. It outlines the rules, regulations, and academic curriculum to inform students throughout their enrolment and pursuit of their goals.

The academic information listed in this Calendar is applicable for the year(s) to which the Calendar applies. For each program of study offered by the University, the courses necessary to complete the minimum requirements of the program are made available annually. We must, however, reserve the right otherwise to change the content of courses, instructors and instructional assignments, enrolment limitations, prerequisites and corequisites, grading policies, requirements for promotion and timetables without prior notice.

Please note that not all courses listed in this Calendar are offered every year. For a complete listing of courses offered this academic year, see the [Timetable website](#).

Using the Right Calendar for Your Degree Requirements

Students must follow the degree requirements listed in the Calendar for the Session they were admitted to the university as a degree student. For example, if you were admitted to the University beginning in September 2021, you would follow the degree requirements listed in the 2021-2022 Calendar. The degree type a student will receive depends on the program(s) they complete. In the Program Section, each program title lists the degree received (for instance, "English (Arts)," "Geography (Science)," etc.).

The word "credit," is used in the listing of degree requirements, means a full course or two half courses. In order to obtain academic standing in a course, a student must receive at least a passing grade (50%) in that course. Additionally, credits earned are applied toward your degree requirements chronologically in the order in which they were completed.

Enrolment Limitations

The University makes every reasonable effort to plan and control enrolment to ensure that all of our students are qualified to complete the programs to which they are admitted, and to strike a practicable balance between enrolment and available instructional resources.

Sometimes such a balance cannot be struck and the number of qualified students exceeds the instructional resources that we can reasonably make available while at the same time maintaining the quality of instruction. In such cases, we must reserve the right to limit enrolment in the programs, courses or sections listed in the calendar, and to withdraw courses or sections for which enrolment or resources are insufficient. The University will not be liable for any loss, damages, or other expenses that such limitations or withdrawals might cause.

Changes in Programs of Study and/or Courses

If the University must change the content of programs of study or withdraw them, all reasonable advance notice and alternative instruction will be given. The University will not, however, be liable for any loss, damages, or other expenses that such changes might cause.

Statement Regarding In-Person Learning

The University of Toronto delivers academic programs through an in-person learning environment. All students should therefore plan to attend on-campus activities in-person in order to successfully complete their program/ degree unless: (i) students have been approved by the University to participate in off-campus activities (such as study abroad or work terms), or (ii) the calendar entry for a program/degree explicitly states that no in-person activities are required.

While the University strives to maintain an in-person learning environment, the University reserves the right to alter the

manner in which it delivers its courses and co-curricular opportunities in response to health and safety emergencies and public health guidance.

Registration Guides

Important information for students regarding specific registration, enrolment, payment, and other academic and financial information can be found in the Registration Guide, which can be accessed on the Office of the Registrar website. Students should familiarize themselves with this resource, and use it alongside this Calendar.

Understanding Courses

Definition of a Course

A course is a unit of teaching that focuses on a specific discipline area (e.g. English or Mathematics), and takes place within a specific timeframe. It will be led by an instructor (or instructors), and have a fixed roster of students, who may receive a grade and academic credit upon its completion.

Credit Value

Each course is assigned a credit value:

- Full-year courses are worth 1.0 credit (indicated by a "Y" in the course code).
- Half-year courses are worth a 0.5 credit (indicated by an "H" in the course code).

A few courses held over a full year are valued at a 0.5 credit ("H5Y") and a few courses held over one-half a year are valued at 1.0 credit ("Y5F" or "Y5S"). Students should ensure they accurately identify the credit value of each course.

Instructional Hours

The total number of instructional hours is listed as part of the course details to understand the expected number of hours spent in lecture, tutorials, etc before you enrol. For example, "48L" = 48 lecture hours, "24T" = 24 tutorial hours.

- L = Lectures
- P = Practical work in laboratories or studios
- S = Seminars
- T = Tutorials

In the Fall/Winter Session, the normal period of instruction is 24 weeks, with each term being 12 weeks.

Other Symbols Used in the Calendar

- (I) - Open to first-year students (shown after 200+ course number).
- The comma (,) the semi-colon (;) the ampersand (&) and the plus sign (+) all mean "AND."
- The slash (/) means "OR"

How to Read a Course Code

Each course at the University of Toronto is assigned a unique course code to provide information such as: which area of study the course belongs to, the level of study, which U of T campus it is offered at, its credit value, and more.

For example, ENG101H5:

Component	Example	Explanation
Course Designation	ENG101H5	The first three characters in a course code (i.e., ANT, AST, BIO) indicate the department offering the course. Most courses are listed under the department that is responsible for that subject. For example, ANT = Anthropology courses.
Course Number	ENG101H5	The course number generally indicates the level of difficulty. For example, a 100 level course normally indicates an introductory course, a 400-level course is an intensive course at the senior level.
Course Suffixes	ENG101H5	The "Y" or "H" following the Course Number in this Calendar indicates the credit value:

Component	Example	Explanation
		<ul style="list-style-type: none"> Y = a full credit course, for which 1.0 credit is given. H = a half-credit course, for which 0.5 credit is given.
Campus Code	ENG101H5	<p>The eighth and last character in a course code indicates which campus a particular course is offered.</p> <ul style="list-style-type: none"> UTM = 5 St. George = 1 UTSC = 3

Course Sections Listed in the Timetable

On the [Timetable website](#), students can determine the type of meeting sections that are required for each course, including lectures, practicals, and tutorials, and when the course is offered, and delivery mode.

By searching a course code in the Timetable website, students will find additional information to help them plan their weekly course schedule. For example, searching ENG100H5 on the Timetable website may indicate that ENG100H5F is being offered with one available lecture section of LEC9101:

Component	Example	Explanation
Section Code	ENG100H5 F LEC9101	<p>Section codes will appear next to the course code on the Timetable website to identify the period of instruction:</p> <ul style="list-style-type: none"> F = Course given in the Fall term, or the first term of the Summer session. S = Course given in the Winter term, or the second term of the Summer session. Y = Course extending over both the Fall and Winter Session, or over the entire Summer Session. <p>Not all courses listed in this Calendar will be offered in any one single session. Check the Timetable website for each session for the specific courses offered in that session.</p>
Meeting Section	LEC9101	<p>The first 3 characters denote type of meeting section:</p> <ul style="list-style-type: none"> LEC = Lecture PRA = Practical (Lab) TUT = Tutorial
Meeting Section Number	LEC9101	<p>The last four digits indicate the meeting section number (for example LEC9101).</p> <p>Meeting sections that are listed as 9999 are online synchronous. All other courses will have their delivery mode listed clearly on the Timetable website.</p>

Honours Bachelor of Arts (HBA)

To qualify for an Honours Bachelor of Arts (HBA) degree, a student must meet the following requirements:

Course Requirements

Complete at least 20.0 credits (i.e. with a grade of 50% or more or CR), meeting the following criteria:

- At least 13.0 credits at the 200+ level including a minimum of 6.0 credits at the 300/400 level (no more than 1.0 credit at the 300/400 level of transfer credit may be counted with the exception of courses taken through an official university exchange program)
- No more than 15.0 credits may have the same three-letter designator (e.g. "ANT," "ENG," etc.)

Distribution Requirements

- Complete at least 1.0 credit from each of the following divisions: Humanities, Sciences, Social Sciences. See Note 3 below for details.

Grade Requirement

- Achieve a Cumulative GPA of 1.85 or more by the time of graduation.
- Students who meet all the requirements for the Honours Bachelor of Arts, but have a cumulative GPA below 1.85 may elect to graduate with a 4-year Bachelor of Arts degree provided they are in good standing (i.e., CGPA is 1.50 or more).

Program Requirements for an Honours Bachelor of Arts Degree

- One Specialist in an Arts area, OR
- Two Major programs in an Arts area, OR
- One Major in an Arts area plus one Major in a Science area, OR
- One Major and two Minors. At least one Major, or both Minors, must be in the Arts area for an HBA

Considerations for combining programs:

- Students who combine programs must check the program requirements listed in this Calendar to ensure that their chosen programs have 12 distinct credits among them. Students who combine one Major in the Arts with one Major in Science may be eligible to receive either an HBA or HBSc. In such cases, students will be awarded an HBSc unless notification is given to the Office of the Registrar.
- While planning for the upcoming year, students may apply for as many programs as they wish on ACORN. However, students must make timely decisions on their final selection as soon as possible. No more than three programs may be listed on ACORN under the "Currently Enrolled" section, with no more than two Specialists or two Majors. Students who wish to combine programs must adhere to one of the appropriate combinations listed above.
- For degree completion, it is not permissible to complete more than one program type (Specialist, Major, Minor) containing the same final four-digit program code. For example, students may not complete a Major in English (ERMA1645) and a Minor in English (ERMIN1645).

Notes:

1. Effective as of September 2020, a maximum of 6.0 credits at the 100-level for degree credit is no longer being enforced. Instead, students must complete a minimum of 13.0 credits at the 200+level and higher, including a minimum of 6.0 credits at the 300+ level.

2. Students may consult with an Academic Advisor in the Office of the Registrar regarding degree requirements. Consult the departmental program advisor regarding program requirements.
3. On distribution requirements:
 - Not all courses offered fulfill distribution requirements.
 - Some courses have two assigned distributions. In these cases, the course will count towards one distribution requirement, but cannot fulfill two requirements simultaneously.
 - Courses used to fulfill program requirements may also be used to fulfill distribution requirements.
 - Students who are unsure about their distribution requirements or who need information on another U of T campus should contact the Office of the Registrar.
 - Students wishing to use transfer credit(s) to fulfill distribution are responsible for confirming with the Office of the Registrar that the credit is acceptable for this purpose.

Honours Bachelor of Science (HBSc)

To qualify for an Honours Bachelor of Science (HBSc) degree, a student must meet the following requirements:

Course Requirements

Complete at least 20.0 credits (i.e. with a grade of 50% or more or CR), meeting the following criteria:

- At least 13.0 credits at the 200+ level including a minimum of 6.0 credits at the 300/400 level (no more than 1.0 credit at the 300/400 level of transfer credit may be counted with the exception of courses taken through an official university exchange program).
- No more than 15.0 credits may have the same three-letter designator (e.g. "ANT," "ENG," etc.)

Distribution Requirements

- Complete at least 1.0 credit from each of the following divisions: Humanities, Sciences, Social Sciences. See Note 3 for details.

Grade Requirement

- Achieve a Cumulative GPA of 1.85 or more by the time of graduation.
- Students who meet all the requirements for the Honours Bachelor of Science except for the GPA requirement may elect to graduate with a 4-year Bachelor of Science degree provided they are in Good Standing (i.e., CGPA is 1.50 or more).

Program Requirements for an Honours Bachelor of Science Degree

- One Specialist in a Science area, OR
- Two Major programs in a Science area, OR
- One Major in a Science area plus one Major in an Arts, OR
- One Major and two Minors. At least one Major, or both the Minors, must be in the Science area for an HBSc

Considerations for combining programs:

- Students who combine programs must check the program requirements listed in this Calendar to ensure that their chosen programs have 12 distinct credits among them. Students who combine one Major in the Arts with one Major in Science may be eligible to receive either an HBA or HBSc. In such cases, students will be awarded an HBSc unless notification is given to the Office of the Registrar.
- While planning for the upcoming year, students may apply for as many programs as they wish on ACORN. However, students must make timely decisions on their final selection as soon as possible. No more than three programs may be listed on ACORN under the "Currently Enrolled" section, with no more than two Specialists or two Majors. Students who wish to combine programs must adhere to one of the appropriate combinations listed above.
- For degree completion, it is not permissible to complete more than one program type (Specialist, Major, Minor) containing the same final four-digit program code. For example, students may not complete a Major in English (ERMA1645) and a Minor in English (ERMIN1645).

Notes:

1. Effective as of September 2020, a maximum of 6.0 credits at the 100-level for degree credit is no longer being enforced. Instead, students must complete a minimum of 13.0 credits at the 200+level and higher, including a minimum of 6.0 credits at the 300+ level.
2. Students may consult with an Academic Advisor in the Office of the Registrar regarding degree requirements. Consult the departmental program advisor regarding program requirements.
3. On distribution requirements:
 - Not all courses offered fulfill distribution requirements.
 - Some courses have two assigned distributions. In these cases, the course will count towards one distribution requirement, but cannot fulfill two requirements simultaneously.
 - Courses used to fulfill program requirements may also be used to fulfill distribution requirements.
 - Students who are unsure about their distribution requirements or who need information on another U of T campus should contact the Office of the Registrar.
 - Students wishing to use transfer credit(s) to fulfill distribution are responsible for confirming with the Office of the Registrar that the credit is acceptable for this purpose.

Bachelor of Commerce (BCom)

This is a four-year, honours degree program. To qualify for a Bachelor of Commerce (BCom) degree, a student must meet the following requirements:

Course Requirements

Obtain standing in at least 20.0 credits, meeting the following criteria:

- At least 13.0 credits at the 200+ level including a minimum of 6.0 credits at the 300/400 level (no more than 1.0 credit at the 300/400 level of transfer credit may be counted with the exception of courses taken through an official university exchange program).
- No more than 15.0 credits may be taken for degree credit from the following: COM(G)/ MGD/MGT/MGM (see [Commerce \(BCom, HBA\) Program](#)).

Distribution Requirement

- Complete at least 1.0 credit from each of the following divisions: Humanities, Sciences, Social Sciences. See Note 3 for details.

Grade Requirement

- Achieve a Cumulative GPA of 1.85 or more by the time of graduation.
- Students who meet all the requirements for the BCom but have a cumulative GPA of less than 1.85 may elect to graduate with a Bachelor of Arts degree, provided that they are in good standing (CGPA of 1.50 or more). In doing so, students who elect to graduate with a BA degree will not be eligible to upgrade to a BCom degree, but may upgrade their BA to an HBA. For more information, refer to [Upgrading a U of T Mississauga Bachelors Degree](#).

Program Requirements

- Complete the requirements of a specialist program in [Commerce \(BCom, HBA\)](#).

Notes:

1. Effective as of September 2020, a maximum of 6.0 credits at the 100-level for degree credit is no longer being enforced. Instead, students must complete a minimum of 13.0 credits at the 200+level and higher, including a minimum of 6.0 credits at the 300+ level.
2. Students may consult with an Academic Advisor in the Office of the Registrar regarding degree requirements. Consult the departmental program advisor regarding program requirements.
3. On distribution requirements:
 - Not all courses offered fulfill distribution requirements.
 - Some courses have two assigned distributions. In these cases, the course will count towards one distribution requirement, but cannot fulfill two requirements simultaneously.
 - Courses used to fulfill program requirements may also be used to fulfill distribution requirements.
 - Students who are unsure about their distribution requirements or who need information on another U of T campus should contact the Office of the Registrar.
 - Students wishing to use transfer credit(s) to fulfill distribution are responsible for confirming with the Office of the Registrar that the credit is acceptable for this purpose.

Bachelor of Business Administration (BBA)

This is a four-year, honours degree program. To qualify for a Bachelor of Business Administration (BBA) degree, a student must meet the following requirements:

Course Requirements

Obtain standing in at least 20.0 credits, meeting the following criteria:

- At least 13.0 credits at the 200+ level including a minimum of 6.0 credits at the 300/400 level (no more than 1.0 credit at the 300/400 level of transfer credit may be counted with the exception of courses taken through an official university exchange program).
- No more than 15.0 credits may be taken for degree credit from the following: COM/MGD/MGT/MGM

Distribution Requirement

- Complete the distribution requirement, which consists of at least 1.0 credit from each of the following divisions: Humanities, Sciences, Social Sciences. See Note 3 below for details.

Grade Requirement

- Achieve a Cumulative GPA of 1.85 or more by the time of graduation.
- Students who meet all the requirements for the Bachelor of Business Administration (BBA) but have a cumulative GPA below 1.85 may graduate with a Bachelor of Arts (BA) degree provided they are in Good Standing (i.e., cumulative GPA is 1.50 or above). In doing so, students who elect to graduate with a BA degree will not be eligible to upgrade to a BBA degree, but may upgrade their BA to an HBA. For more information, refer to [Upgrading a U of T Mississauga Bachelors Degree](#).

Program Requirements

- Complete the requirements of a specialist program in Management (HBA, BBA).

Notes:

1. Effective as of September 2020, a maximum of 6.0 credits at the 100-level for degree credit is no longer being enforced. Instead, students must complete a minimum of 13.0 credits at the 200+ level and higher, including a minimum of 6.0 credits at the 300+ level.
2. Students may consult with an Academic Advisor in the Office of the Registrar regarding degree requirements. Consult the departmental program advisor regarding program requirements.
3. On distribution requirements:
 - Not all courses offered fulfill distribution requirements.
 - Some courses have two assigned distributions. In these cases, the course will count towards one distribution requirement, but cannot fulfill two requirements simultaneously.
 - Courses used to fulfill program requirements may also be used to fulfill distribution requirements.
 - Students who are unsure about their distribution requirements or who need information on another U of T campus should contact the Office of the Registrar.
 - Students wishing to use transfer credit(s) to fulfill distribution are responsible for confirming with the Office of the Registrar that the credit is acceptable for this purpose.

Upgrading and Second Degrees

Upgrading a U of T Mississauga Bachelors Degree

Students who have previously graduated with a Bachelor of Arts (BA) or Bachelor of Science (BSc) degree may choose to upgrade to an Honours degree in the same field. For example, a BA may be upgraded to an Honours Bachelor of Arts and a BSc may be upgraded to an Honours Bachelor of Science.

Participation in the graduation ceremony is only allowed for the conferral of the initial bachelor degree.

Second Degree Requirements

Students beginning a second degree at U of T Mississauga are normally granted 5.0 transfer credits: 4.0 credits at the 100 level, and 1.0 credit at the 200 level, regardless of the number of previous degrees held. As such, second degree students are typically granted Year 2 standing and receive their Distribution Requirements.

Current students from another division of U of T should contact the Office of University Admissions and Outreach concerning admission to U of T Mississauga. Also see [Admission with Post-Secondary Studies](#) section in this Calendar.

University of Toronto alumni may complete a second degree provided the second degree does not include a program(s) in any of the same discipline(s) as the first degree. For example, if a student completed a previous degree including a program in English, they may not complete a second degree including a program in English. This includes Programs of Study with the same 4-digit code (e.g. ERMAJ1645 and ERMIN1645). For guidance, please seek academic advising support in the Office of the Registrar. Students who have a degree with a Major/Specialist in either Commerce, Management or Economics cannot do a BCom or a BBA as a second degree. This is due to the extensive overlap of courses in these degree programs.

Students who are graduates of another university may apply to take a similar degree in a different area of study, and should refer to the [Admissions](#) section of this Calendar.

Admissions

General Admission Information

Admission information, requirements, and applications can be found at www.utm.utoronto.ca/future or by contacting U of T Mississauga's Student Recruitment & Admissions Office at:

Student Recruitment and Admissions
University of Toronto Mississauga
3359 Mississauga Road, Room 1270, Innovation Complex
Mississauga, ON L5L 1C6
Canada

Tel: 905-828-5400

Fax: 905-569-4301

Send us an email at: uoft.me/askutm

Applicants must present a satisfactory academic record equivalent to the Ontario Secondary School Diploma, from recognized academic institutions and meet the published academic requirements to be considered. The admissions qualifications outlined are the minimum qualifications. Meeting them does not guarantee admission to the University.

Applicants whose qualifications do not meet the minimum requirements may be considered, but such candidates will have to offer written evidence of exceptional ability or extenuating circumstances.

English Language Requirement

English is the language of instruction and examination at the University, and success in our degree programs requires a high level of English language proficiency.

Applicants whose first language is not English (i.e. is not the first language they learned at home as a child) are required to provide evidence of adequate English facility for admission consideration, unless they qualify for an exemption. For details, please visit www.utm.utoronto.ca/future-students/apply/english-language-requirements

Applicants who meet the admission and program-specific requirements, but not the University's English Language Requirements, may be admitted with the condition that they successfully complete an [Academic Culture and English \(ACE@UTM\) program](#).

Admission from Secondary School

Ontario

Applicants must present the Ontario Secondary School Diploma, with six Grade 12 "U" or "M" courses (or equivalent) including 12U English/Anglais (ENG4U/EAE4U - applicants from French-language high schools may substitute FEF4U/FIF4U or equivalent), and meet prerequisites for their intended program of study.

Canada (Outside Ontario)

Applicants from Québec must present the Diplôme d'études collégiales (DEC) with 12 academic CEGEP subjects including English/Anglais (two terms) or the Quebec high school diploma with six Grade 12 academic subjects, including English.

Applicants from other Canadian provinces and territories must present their high school/secondary school diploma, and meet prerequisites for their intended program of study. For more information, please visit www.utm.utoronto.ca/future-students/admissions/canadian-high-school.

United States

Applicants studying in the US high school system must present Grade 12 graduation. Competitive applicants should be enrolled in a rigorous academic course load and have taken the highest level of course available to them in the prerequisite subjects.

Test optional assessment has been adopted for students applying for Fall 2022 and 2023 admission. Students who cannot or choose not to submit test results will not be disadvantaged in the admissions process; however, students who have written SAT or ACT tests previously, and wish to have these considered in their assessment, are encouraged to submit their scores.

Details are available at www.future.utoronto.ca/international/welcome-us-students.

International

Applicants who have studied in a country outside of Canada or the United States should go to <https://www.utm.utoronto.ca/future-students/admissions/international-st...> for specific admission requirements.

Secondary School Transfer Credits

Applicants who have been admitted and have taken any Advanced Placement, International Baccalaureate, French Baccalaureate, GCE, or CAPE subjects during secondary school may be eligible for transfer credit. Transfer credits are assessed after an offer of admission has been accepted, and after the University receives official final results directly from the examining board. Details are available at www.utm.utoronto.ca/transfer

Admission with Previous Post-Secondary School

Applicants who have acceptable standing at other accredited post-secondary institutions may be considered for admission. Admission will be based on an applicant's overall academic record and the most recent year of full-time studies. Competitive applicants usually have a strong Cumulative Grade Point Average (CGPA) in addition to all program prerequisites.

Admitted students with previous post-secondary studies outside of the U of T Faculty of Arts & Science, U of T Scarborough, and the John H. Daniels Faculty of Architecture, Landscape and Design must apply and pay for the Transfer Credit Application. For more information, please visit www.utm.utoronto.ca/transfer.

Students have 12 months from the start of their first academic year at U of T Mississauga to request changes to their assessment. Changes may include: submission of outstanding course outlines for review, departmental interviews (if applicable), reassessment or credit adjustment requests, and requesting generic and unspecified credits without exclusions be marked as "extra".

U of T Faculty of Arts and Science (FAS), U of T Scarborough (UTSC), and the John H. Daniels Faculty of Architecture, Landscape and Design

Admitted students transferring from the Faculty of Arts & Science and/or U of T Scarborough and/or the John H. Daniels Faculty of Architecture, Landscape and Design are not required to submit the Transfer Credit Application. All U of T courses, grades achieved, and Cumulative Grade Point Average will be retained and remain on ACORN.

Transfer credit assessments from studies completed before attending FAS and/or UTSC and/or Daniels will also be retained.

Post-secondary studies completed after attending FAS and/or UTSC and/or Daniels will need to be assessed for equivalencies. Applicants will be contacted if they are required to submit a Transfer Credit Application and/or additional documentation.

Upon admission, students must abide by U of T Mississauga rules and regulations. Only U of T Mississauga programs (subject POSTs) may be used to satisfy program and degree requirements for graduation. Furthermore, all previous

Faculty of Arts & Science, U of T Scarborough, or John H. Daniels Faculty of Architecture, Landscape, and Design courses and grades will be subject to U of T Mississauga policies.

Other Divisions at U of T

Candidates who have acceptable standing at other undergraduate divisions of the University (i.e., Faculty of Applied Science and Engineering; Faculty of Kinesiology and Physical Education; Faculty of Music) must submit the Transfer Credit Application. For more information, please visit www.utm.utoronto.ca/transfer.

Grades for courses from these divisions will not be retained, included in the Cumulative Grade Point Average (CGPA), or remain on ACORN.

Colleges of Applied Arts & Technology (CAAT)

U of T Mississauga grants a maximum of 3.0 transfer credits to students who have studied at a publicly-funded Ontario CAAT for four full-time semesters (or equivalent) and a maximum of 5.0 transfer credits to students who have studied for six full-time semesters (or equivalent) or more.

Exceptions occur where students have completed CAAT programs when collaborative transfer agreements with U of T Mississauga existed or when a student is admitted to pursue Commerce/Management at U of T Mississauga. For more information, please visit www.utm.utoronto.ca/future-students/admissions/transfer-students.

Other Universities

Applicants who have studied at an accredited university (or other equivalent post-secondary institution) but did not graduate with a university degree can receive a maximum of 10.0 transfer credits.

Applicants who have earned a university degree may only receive a maximum of 5.0 transfer credits. Applicants may not complete a second degree in the same field of study as their first degree. For more information, please visit www.utm.utoronto.ca/future-students/admissions/transfer-students.

Second Undergraduate Degree

Applicants who hold an undergraduate degree, or equivalent, from another post-secondary institution, and wish to complete a second undergraduate degree in a different field of study, may apply for admission into a degree program at U of T Mississauga. Before applying, applicants are urged to determine whether a second degree is necessary for their purposes. For example, courses taken as a non-degree student may satisfy admission requirements for a graduate or professional program.

Students may not complete a second degree in the same field of study as their first degree. For example: students who have a degree with a Major/Specialist in Commerce, Management, or Economics cannot pursue a Bachelor of Commerce (BCom) or Bachelor of Business Administration (BBA) as a second degree. This is due to the extensive overlap of courses between these degrees.

Students may receive a maximum of 5.0 transfer credits towards a second degree. For more information, please visit www.utm.utoronto.ca/future-students/admissions/second-degree.

U of T Mississauga Alumni

Students who have completed their first degree at U of T Mississauga and wish to be admitted to a second undergraduate degree program are recommended to seek academic advising in the [Office of the Registrar](#) prior to applying.

See also [Second Degree Requirements](#)

U of T St. George and U of T Scarborough Alumni

Students who have completed their first degree at U of T (but not U of T Mississauga) and wish to be admitted to a second undergraduate degree program must apply using [U of T Internal Application](#). Students may apply to complete the same degree type (HBA or HBSoc), but are not permitted to complete a similar program area of study at U of T Mississauga that they have previously completed.

Admission to Non-Degree Studies

Non-Degree students are those who are registered in degree courses, but are not progressing toward a degree.

Non-Degree students have no admission to or association with a program of study. Accordingly, they have no ongoing rights to register for courses. Registration in a particular course remains a matter of divisional discretion in every case. Some courses are not available to Non-Degree students (e.g. Management [MGM and MGT]).

The policy governing Non-Degree students is the Governing Council Policy, "Association, Admission, and Registration" which can be found at <http://uoft.me/nondeg>.

Non-Degree with Previous Degree Completed

Applicants who have completed degree studies at an accredited institution with strong grades may be eligible for admission to Non-Degree Studies to take further courses for their own purposes, including admission to graduate studies or professional programs. Students admitted as degree students cannot become Non-Degree students at U of T Mississauga until they have completed an honours degree. For more information, please visit www.utm.utoronto.ca/future-students/admissions/non-degree-visiting.

Non-Degree Visiting Students

Applicants with a valid Letter of Permission (LOP) and an academic transcript showing they are in good academic standing from another accredited North American university may apply to U of T Mississauga as Non-Degree Visiting students, taking courses for transfer credit at their home university. Non-Degree Visiting student status does NOT imply future acceptance as either a degree student, or a Non-Degree student at U of T Mississauga. Returning Non-Degree Visiting U of T Mississauga students must re-apply for admission to each session. For more information, please visit <https://www.utm.utoronto.ca/future-students/admissions/non-degree-visit...>.

Note: Former U of T Mississauga students, who are currently registered at another North American university, and wish to take U of T Mississauga courses to count towards their degree at their home university, must apply to U of T Mississauga as a Visiting Student.

Non-Degree Bridging Students

Canadian Citizens, Permanent Residents, or Convention Refugees who are at least 20 years of age in the year the pathway begins, and who have been away from formal education for at least 3 years, may be eligible for the [UTM Bridging Pathway](#).

Non-Degree Refugee Students

Convention Refugees or Permanent Residents who are at least 18 years of age in the year the pathway begins and who cannot provide final, official transcripts, may be eligible for the UTM Refugee Pathway. For more information, please visit <https://www.utm.utoronto.ca/future-students/admissions/refugee-pathway>.

Non-Degree Senior Citizen Students

Canadian Citizens or Permanent Residents of Canada who are at least 65 years of age by the first day of a term may register at U of T Mississauga as part-time, Non-Degree students. They do not have to meet the academic requirements for admission.

While senior citizens must pay tuition fees, they are eligible for an exemption from compulsory non-academic incidental fees. For more information, please visit <https://www.utm.utoronto.ca/future-students/admissions/senior-citizen-s...>.

Admission with Restrictions

Admission on Probation

Applicants who do not meet U of T Mississauga's requirements for admission may, on appeal, be admitted because of extenuating circumstances. They may be given a clear offer of admission or they may be subject to the following conditions:

- They may be admitted on probation, in which case they will be on probation until the end of the first Fall-Winter session in which they are registered.
- At the end of the first Fall-Winter session they will be assessed as follows:
 - Students with a Cumulative Grade Point Average (CGPA) of 1.50 or more will be in good standing;
 - Students with a CGPA of less than 1.50 will be suspended for one calendar year. They will remain on probation upon return, and will be under the regulations for academic status outlined in Academic Status of U of T Mississauga Calendar.

Students on probation are at risk of academic suspension. They are strongly urged to consult an Academic Advisor in the Office of the Registrar before registering for courses. They should consider a reduced course load during the Fall-Winter session and should avoid compressed, intensive summer courses. While on probation, students are not eligible to enrol in courses for transfer credit at another university or post-secondary institution.

Restricted to a Reduced Course Load

Students restricted to a reduced course load on admission may take a maximum of 3.0 credits in the Fall-Winter session and a maximum of 1.5 credits in the Summer session. Once they have earned at least 4.0 credits at U of T Mississauga with a minimum Cumulative Grade Point Average (CGPA) of 2.0, these students may request to have this restriction removed by meeting with an Academic Advisor at the Office of the Registrar.

Deferring Admission

Applicants who are considering taking a year off between high school and university may request a one year deferral of admission. All conditions of the offer of admission must be satisfied before a deferral request is considered. If granted, the deferral of admission will also include a deferral of any entrance scholarship(s) awarded and the residence guarantee, if applicable.

To request a deferral, students must log in to the Join U of T applicant website and submit the Deferral Request Form under the "More About Your Offer" section. For deadlines and additional information about deferring an offer of admission, please visit www.utm.utoronto.ca/future-students/admissions/defer.

Students who attend any post-secondary institution while their offer of admission is deferred will be required to reapply to U of T Mississauga. Any post-secondary studies, regardless of which (if any) courses are completed, may change the basis of admission and the original offer will be invalid.

Course Enrolment

Using Acorn

Students enrol in courses online through U of T's Accessible Campus Online Resource Network (ACORN). Within established deadlines, students can use ACORN to add, waitlist, drop courses, change sections, list current courses, obtain final grades, and confirm intention to graduate.

Students using ACORN can view their entire academic record, request or declare programs (minors, majors, specialists), order transcripts, print tax forms, print invoices and view their financial account balances and detailed charge and payment information. A [step-by-step guide](#) on how to use ACORN is available online.

Year of Study

Each student is assigned a course enrolment start time based on their year of study. A student's year of study depends upon the total number of credits that have been passed, and/or awarded as transfer credits:

Number of Passed Credits	Equivalent Year
0 - 3.5	1
4.0 - 8.5	2
9.0 - 13.5	3
14.0+	4

Choosing Courses

Students plan their own program, selecting from among all courses offered, subject to the following rules:

1. The degree and program requirements, distribution requirements and other regulations set out in the Calendar and departmental handbooks must be satisfied.
2. All prerequisite, corequisite and exclusion requirements must be met.

It is the student's responsibility to check course prerequisites, corequisites and exclusions prior to enrolling. Students who enrol in a course for which they are ineligible may be removed from the course.

Definition of Registration

Registration is a two-step process:

1. enrolling in the courses for which you are eligible; and
2. paying or deferring your fees by the published deadline.

Any student enrolling in courses after the registration deadline will be charged a [late registration fee](#). Students should be aware that permission to register after the end of the registration period may be refused.

Registration Status

After course enrolment, students are required to complete their registration by paying or deferring their fees. This will change their ACORN registration status from *invited* to *registered*. A registered status will secure a student's enrolment in the courses that they have selected.

Students requiring written proof of registration may request a [Confirmation of Enrolment Letter](#) online. An administrative fee is charged for this request. All other requests should be made at the Office of the Registrar.

Course Loads

Full-Time versus Part-Time Status

Students who are enrolled in 3.0 credits or more in the Fall-Winter session (September to April) are considered to be full-time, and should attempt to balance their course load evenly between the Fall and Winter terms.

Students who are enrolled in 1.5 credits or more in the Summer session (May to August) are considered to be full-time.

Students are considered to be part-time if they are enrol in 2.5 credits or less in the Fall-Winter session, or 1.0 credit or less in the Summer session.

The standard course load for a 20.0 credit, four-year honours degree is 5.0 credits per year.

Course Overloads

The maximum credit load in the Fall-Winter session combined is 6.0 credits (a maximum of 3.0 credits per term) and in the Summer session it is 2.0 credits (a maximum of 1.0 credits per term). Students who wish to exceed these limits are required to complete an [online course overload petition](#) before registering in the course.

Enrolment in credits over the maximum must be approved prior to registration but no later than the first day of classes. The Office of the Registrar will make every effort to consult with students in unapproved course overloads. Students who enrol in more than the maximum course load without prior petition approval, may not receive accommodations for conflicting tests, assignments, lecture material, in-class participation, etc.

To calculate course loads, students need to consult the [Timetable](#) to determine when the course is offered and the duration of the course.

Course Conflicts

Students are strongly discouraged from enrolling in courses where scheduled lectures, tutorials or practicals conflict with other courses in which they have already enrolled.

Students who enrol in courses with conflicting lectures, tutorials or practicals may not receive accommodations for conflicting exams, assignments, lecture material, in-class participation, etc.

Corequisites, Exclusions, Extras, Prerequisites, Recommended Preparation

Corequisite

A requirement to be undertaken concurrently with another course. A student who withdraws from a course must also withdraw from any course for which the cancelled course is a corequisite, unless the department giving the latter course agrees to waive the corequisite. The corequisite will be waived if a student has previously obtained standing in it, or if the department consents.

Exclusion

An exclusion is a course that is deemed to have content that significantly overlaps with another course. Exclusions will be listed below the course description.

Students should not enrol in a course that lists a current course they are taking, or a course they have already passed, as an exclusion. Where a student needs to take a given course for program requirements, but has already successfully completed a course that is listed as an exclusion, they should consult with the departmental advisor of their program. If

the departmental sponsor confirms that the given course is required for program and the exclusion the student has taken is not allowable to fulfill program requirements, then the course may be taken as an extra (EXT).

The most recently taken course is assigned as extra (EXT) with one exception. An exception occurs when the required course is a full course and the previously taken exclusion is a half course; in this case, the previously taken half course exclusion becomes extra (EXT) and the current full course retains its degree credit standing.

Although it might not be noted in this Calendar, some courses offered at other U of T campuses may be exclusions to U of T Mississauga courses and vice versa. If courses have similar titles or content, it is the student's responsibility to contact the offering department at U of T Mississauga to determine if the course can be taken for credit.

Extra Course

These appear on official transcripts with the notation "EXT." Extra courses do not count towards the total number of credits required for a degree and are not included in the GPA, but may be used to satisfy distribution, program, prerequisite, or corequisite requirements.

Prerequisite

A course (or other qualification) that a student has successfully completed that is required as preparation for a course. If students consider that they have equivalent preparation, they may ask the department concerned to waive the stated prerequisite. Students who enrol in a course for which they lack the prerequisite may be removed from the course at any time.

Recommended Preparation

Background material, or courses that may enhance a student's understanding of a course.

Supplemental Courses

These are courses taken after the maximum number of courses allowed (for degree credit) at the 100 level and courses with the same three-letter designator have been passed. These supplemental courses will not count for degree credit but will count in the GPA, program and distribution requirements.

Auditing Courses

The U of T Mississauga does not recognize the auditing of courses. However, the Committee on Standing may recommend that a current student do so when permission has been received to write a deferred exam and where the instructor and/or course content could be different from when the student originally took the course.

Taking Courses at U of T St. George/U of T Scarborough

U of T Mississauga students are eligible to take courses at other U of T campuses. Enrolment for U of T Mississauga students in U of T Scarborough or U of T St. George courses opens when enrolment restrictions are lifted later in the enrolment period providing there is still space available in the course, and providing the course is not restricted

Students must check with their U of T Mississauga academic department before enrolling in a course on other U of T campuses if they wish to have it fulfill their program requirements. The academic department can ensure that the courses are acceptable toward program requirements

Students should check the Calendar and Timetable from the other campuses for eligibility in individual courses. U of T Mississauga academic and financial deadlines still apply to courses taken at other campuses, with the exception of the Late Withdrawal after the Drop Date (LWD), and Credit/No Credit (CR/NCR) option.

Taking Courses at Other Universities with a Letter of Permission (LOP)

A letter of permission is prior confirmation from U of T Mississauga that an intended course at another Canadian university is acceptable for transfer credit.

Students may take a maximum of 5.0 credits elsewhere for transfer credit on a letter of permission, but only 1.0 transfer credit may be used to satisfy the degree requirement of 300/400 level courses in accordance with the course requirements listed under each degree type (see [Degree Requirements](#)).

To be eligible for a letter of permission, and receive credit, students must:

1. have a cumulative GPA of 1.50 or more;
2. earn a minimum grade of 60% for the credit to be transferred (provided that the passing mark in the course is 50%).

NOTE: The grade associated with a transfer credit will not appear on a student's transcript and is not included in the calculation of GPAs.

Letters of permission are only granted for study at universities in Canada. Before students leave to study at the other institution, they should contact their academic department to determine if the course(s) are appropriate in content. Students who study in other countries must submit the [Post-admission Transfer Credit Application](#) after they have completed the course(s) and have returned from studying abroad.

Students have **one year** from the date of their original transfer credit assessment, or from the date of their first registration at U of T Mississauga, whichever is later, to request changes to their assessment. **There is no guarantee that they will receive transfer credit for these courses.**

The deadline to apply for a letter of permission is generally four to eight weeks before the start of the semester in which they wish to study elsewhere (refer to the Office of the Registrar website for deadlines).

After students have completed the courses for which they have been approved for a letter of permission (earning a minimum grade of C- or 60%), they must have a transcript of results sent to U of T Mississauga's Transfer Credit Unit, Office of the Registrar, from the other institution at which they studied. Students who do not send a transcript of results will not receive credit for the course(s) taken on that letter of permission and **will not be granted** another letter of permission.

If a student fails a course taken elsewhere on a letter of permission, they may not be granted another letter of permission.

Students admitted with transfer credit should consult U of T Mississauga's Transfer Credit Unit, Office of the Registrar, about the number of courses they may take on a letter of permission. Refer to the regulations on the [Letter of Permission request form](#) for further details.

Studying Elsewhere without a Letter of Permission (LOP)

If students do not obtain a letter of permission before they study elsewhere, they must apply afterwards for Post-admission Transfer Credit Assessment for the course(s) completed elsewhere. There is no guarantee that they will be awarded any transfer credit for these courses. See also www.utm.utoronto.ca/lop.

A student who is suspended from the University will not be eligible to earn transfer credits from another institution during the suspension period.

In order to obtain Post-admission Transfer Credit Assessment, students must apply and pay a processing fee using the form available at <https://student.utm.utoronto.ca/transfercredit/choose.php>.

Students have **one year** from the date of their original transfer credit assessment, or from the date of their first registration at U of T Mississauga, whichever is later, to request changes to their assessment.

Repeating Passed Courses

Students may repeat a specific passed course only once, regardless of the grade earned. Students (both degree and non-degree) may only repeat any course in which they have already obtained credit (i.e., a mark of 50% or higher or CR) under the following conditions:

1. When students need to achieve a higher grade in a course for entry to a limited-enrolment program;
2. When students need to achieve a minimum grade in a course to satisfy a course prerequisite;
3. When students need to demonstrate a level of performance for an external credential or future graduate study.

Both the original and the repeated course will appear on the student's academic record. The repeated course will be designated "extra" (will not be included in GPA calculations or in the degree credit count) unless the student designates it as a Second Attempt for Credit (see below). If the student chooses the Second Attempt for Credit option, the first attempt will be designated "extra."

Students who wish to repeat a course under these circumstances should obtain appropriate advising in the Office of the Registrar prior to submitting their [Course Enrolment Exception Form online](#). Eligible students may enrol provided there is space available and only after other degree students have had an opportunity to enrol.

Second Attempt for Credit (SAC)

Degree students at the University of Toronto Mississauga may designate up to a total of 1.0 repeated credits to be counted toward GPA calculations and in the degree credit count (referred to as Second Attempt for Credit, or SAC). In these cases, the first attempt will be designated "extra" (will not be included in GPA calculations or in the degree credit count), and the second attempt will count toward credit totals and GPA.

SAC requests are made by submitting their [Second Attempt for Credit \(SAC\) form online](#). The choice is restricted to repeated courses previously approved with a Course Enrolment Exception form but is not restricted as to year, level of course, or campus.

In courses with a final exam, the SAC option must be requested no later than the last day of classes in the term in which the course was offered. In courses with no final exam, the deadline to request SAC is before the date of the final test or the due date of the final assignment.

SAC requests are made by submitting their [Second Attempt for Credit \(SAC\) form online](#) through the Office of the Registrar. This option is not available for non-degree and second-degree students.

Credit/No Credit (CR/NCR)

Students at the University of Toronto Mississauga may select up to a total of 2.0 credits to be assessed on a Credit/No Credit basis.

To achieve a status of CR (Credit), a student must achieve a final mark of at least 50%. Marks below that will be assessed as NCR (No Credit). Courses with a final status of CR will count as degree credits but will have no effect on the student's GPA. These courses may be used to meet Distribution Requirements, but cannot be used to satisfy program requirements.

Courses with a final status of NCR will not count as degree credits and will not be included in the GPA calculation.

Students may exercise this option for a total of 2.0 credits within the total number of credits required for a degree. CR/NCR requests are made on ACORN. The choice is not restricted as to year, level of course or campus. This option is not available to non-degree students.

In courses with a final exam, the CR/NCR option must be requested or cancelled no later than the last day of classes in the term in which the course was offered. In courses with no final exam, the deadline to request or cancel CR/NCR is before the date of the final test or the due date of the final assignment.

The CR/NCR option cannot be used for a course in which the student has committed an academic offence. If a student has requested the CR/NCR option in a course in which they commit an academic offence, the CR/NCR option will be revoked and the percentage grade will stand as the course grade.

Warning: Some programs specify that courses with a grade of CR/NCR will not count as part of the 4.0 credits required for program entry. Program entry requirements are detailed in departmental listings in this calendar.

Dropping Courses

Students who wish to drop a course, or courses, must do so on ACORN by the academic drop deadline. Academic dates and deadlines can be found on the Office of the Registrar website.

Students who have been charged or sanctioned with an academic offence may not drop a course. For information regarding dropping of courses after the deadline dates, see [Petitions](#).

Students should note that non-attendance is NOT the same as dropping a course. If a student does not attend class, they are still responsible for all fees associated with that course and will be assigned a grade.

Deadlines for Dropping Courses

Academic and financial deadlines are very different. Pay close attention to the dates as financial deadlines are much earlier than academic deadlines.

- An academic deadline is the last day to drop a course from your academic record and GPA.
- Students who wish to drop a course after the posted academic deadline must request a [Late Withdrawal after the Drop Date \(LWD\) online](#) by the last day of classes.
- A financial deadline is the last day to drop a course(s) and receive a refund.
- For all U of T Mississauga students, U of T Mississauga academic and financial deadlines apply to courses taken at other campuses, with the exception of the Late Withdrawal after the Drop Date (LWD) option, and Credit/No Credit (CR/NCR) option.

Visit the Office of the Registrar website for a full list of [important academic and financial dates and deadlines](#).

Late Withdrawal after the Drop Date (LWD)

Once the academic deadline for dropping a course has passed, the only method of dropping a course without petition is by using the [Late Withdrawal after the Drop Date \(LWD\)](#) option online.

Students may request to withdraw from a course via the LWD option from a total of no more than 3.0 credits, provided such a request is made by the last day of classes in the relevant term provided that they have not completed the course at the time of requesting LWD. In a course with a final exam, completing a course means writing the final exam. In a course without a final exam, completing a course means writing the final test/assignment.

Withdrawals under this procedure will be noted on a student's academic record by the course status LWD (Late Withdrawal after the Drop Date), but will not have an effect on a student's GPA or other elements of the academic record. A student may not request to have the course reinstated once an LWD has been applied for and granted.

Please note: students who are granted an LWD remain responsible for the course fees. Students who have been sanctioned for committing an academic offence in a course, written the final examination or completed the final assignment/test in a course without a final exam are not permitted to request LWD from a course.

Late Withdrawal Without Academic Penalty (WDR)

In the event there are extenuating circumstances preventing a student from completing a course, students would need to petition for [Late Withdrawal Without Academic Penalty \(WDR\)](#).

Experiential and International Opportunities

Experiential Opportunities

Experiential learning courses require a minimum of 10 hours per 0.5 credits, and 20 hours per 1.0 credits of experiential learning.

Experiential learning is learning by doing through carefully chosen experiences that are supported by reflection, critical analysis and synthesis, and includes feedback on the effectiveness of students' learning efforts.

Experiential learning can occur inside or outside the classroom and will typically involve a relationship that goes beyond an individual instructor and student. Within the classroom, lab or tutorial, experiential learning can take place in laboratory experiences that involve student-initiated projects and experiments, participation in case studies, role-playing, simulations or debates, in circumstances that require students to reflect on what they have learned in these experiences.

Experiential learning often promotes strong relationships between academic studies and either career exploration or community involvement through creative interactions with a business, community group, research project or the physical environment. Outside the classroom, experiential learning can occur in field trips, service learning, courses that involve assisting faculty with research projects, internships and practicum.

Research Opportunity Program (ROP)

The Research Opportunity Program (ROP) provides an opportunity for students to earn 0.5 - 1.0 credit by participating in a faculty member's research project.

The ROP is an instructor-based approval program. Each 299Y5, 399Y5 and 499Y5 course will bear the three-letter designator of the academic discipline concerned, i.e., ENG399Y5, SOC399Y5 etc. Not all departments will necessarily participate in the ROP each year.

Registered University of Toronto undergraduate students in a degree program are eligible to submit an application and participate in the ROP. Visiting students and exchange students from partner institutions may also be eligible to participate in the ROP with approval from the Experiential Education Unit, Office of Vice-Principal Academic and Dean.

Note:

- Students are permitted to accept and complete more than one ROP299/399/499 course, as long as they are not within the same term.
- Students are encouraged to review all prerequisites and instructor preferences prior to the time of application.
- Students are encouraged to speak with an Academic Advisor in the Office of the Registrar or the Undergraduate Advisor for the program concerning prerequisites, exclusions, or program/degree requirements.

The ROP application and approval process is done online through the ROPAPP using a student's UTORid. For more information, please visit www.utm.utoronto.ca/experience/rop.

Professional Experience Year (PEY)

U of T's Professional Experience Year Co-op Program (PEY Co-op) is a work-integrated learning program that helps undergraduate students gain 12 to 16 months of paid work experience before they graduate. PEY does not qualify for degree credit. However, upon completion, PEY will appear on a student's transcript.

Eligibility

Students who meet the following requirements are encouraged to apply:

- Second-year undergraduate UTM students enrolled in an Information Security, Bioinformatics Specialist, or Computer Science Specialist/Major/Minor program offered by the Department of Mathematical & Computational Sciences (MCS)
- Have also completed CSC207H5/CSC207H1/CSCB07H3

Notably, international students require a valid Co-op Work Permit. Currently, only international students at UTM who are enrolled in an Information Security Specialist, Computer Science Specialist, or Computer Science Major program meet this requirement.

Application Process

For students interested in participating in the program, please visit the MCS Department website:
<https://www.utm.utoronto.ca/math-cs-stats/home>

Fees

There are fees associated with this Program. Please see the PEY Co-op Program Fee Schedule for more information on fees: <https://engineeringcareers.utoronto.ca/eligibility-fees>

Contact

For inquiries, please contact Yvette Ye, Academic Advisor & Undergraduate Program Administrator, CSC:
yvette.ye@utoronto.ca.

International Opportunities

International Exchanges

Students from all faculties and departments are encouraged to participate in the exchange programs offered at U of T's partner institutions and co-ordinated through the Centre for International Experience. These exchanges allow students to experience new cultures and languages in an academic setting while earning credits towards their U of T degree.

Exchanges may be for one or more terms, typically up to a full year. International exchanges are available around the world. Funding support is available for many international opportunities.

More information is available at:

Student Exchange Program
 Centre for International Experience
 33 St. George Street
 Toronto, ON M5S 2E3

Tel: 416-978-1800
 Email: student.exchange@utoronto.ca
 Website: www.utm.utoronto.ca/international/outbound-opportunities

Summer Abroad

Administered through the University of Toronto's Woodsworth College (Faculty of Arts & Science), the Summer Abroad programs are designed to give students an exciting and educational international experience.

Students complete a University of Toronto undergraduate degree course, equivalent to 1.0 credit, in three to six weeks. Courses are relevant to the host site, and include field trips that complement the lectures, enabling them to observe and experience what they study in the classroom. Most instructors are University of Toronto professors and, with the exception of language courses, all teaching is done in English.

Typically, Summer Abroad courses are at the second- and third-year level, and are offered in disciplines such as environmental studies, history, political science, literature, art, management, architecture, criminology, archeology and languages. Hands-on research experience in international laboratories is offered through the science Abroad program. Most courses have no prerequisites, and all University of Toronto students in good standing are eligible to apply. The courses and grades show on students' transcripts as regular University of Toronto credits and are calculated into their cumulative GPA.

For further information contact:

The Professional & International Programs Office
Woodsworth College, University of Toronto
119 St. George Street, 3rd Floor
Toronto, ON
M5S 1A9

Tel: 416-978-8713
summer.abroad@utoronto.ca
www.summerabroad.utoronto.ca

Final Examinations

U of T Mississauga Final Examinations

A final examination, common to all sections of the course, and counting for between one-third and two-thirds of the final mark, must be held in each undergraduate course, unless an exemption has been granted. Department Chairs may grant exemptions to instructors from holding final examinations in 200-, 300- and 400-level courses. In any course where there is a final examination, the Department Chair may allow a reduction in the value of the examination from one-third of the final mark to no less than one-quarter of the final mark.

Final examinations are held at the end of each term. Students who make personal commitments during the examination period do so at their own risk. Students are expected to be available for the entire examination period. Information regarding dates and times of examinations will not be given by telephone. The examination schedule is available at www.utm.utoronto.ca/exams. Please note that students cannot re-write an examination that they have already attempted.

Students taking courses during the day may be required to write evening examinations, and students taking evening courses may be required to write examinations during the day. Students taking Monday to Friday day or evening courses may be required to write Saturday or Sunday examinations. Final exam start times are 9:00 a.m., 1:00 p.m., and 5:00 p.m.

The ratio of term marks to examination mark will be the same for all sections of multi-section courses that have final examinations.

In the event of a University closure due to unforeseen circumstances such as inclement weather, other emergency, etc., which results in the cancellation of final examinations, the final examination will be rescheduled to the day following the end of the exam period.

Examination Conflicts

U of T Mississauga students who have:

1. two University of Toronto final examinations in the same time slot, or
2. three consecutive final examinations -- e.g., 1 p.m., 5 p.m. on a Monday, and 9 a.m. on a Tuesday (Note: This accommodation does not apply to the deferred examination period), or
3. three examinations on one day,

should submit an online [Examination Conflict\(s\) & Religious Accommodation Reporting Form](#) to the Office of the Registrar by no later than the deadline listed on the U of T Mississauga examination schedule.

Students who are enrolled in a scheduled course conflict (lecture to lecture) at the time the exam schedule is produced will not be accommodated for scenarios 2 and 3 above.

In the case where a regularly scheduled course or test at another U of T division conflicts with a UTM final exam, the regularly scheduled course or test will take precedence. The student is responsible for contacting the Office of the Registrar to ensure that the conflict is declared so that appropriate arrangements to reschedule the final exam can be made.

Accommodation for Religious Reasons

Students must complete an [Examination Conflict\(s\) & Religious Accommodation Reporting Form](#). The reporting form must be submitted to the Office of the Registrar by the date listed on the U of T Mississauga examination schedule.

Rules of Conduct for Examinations

1. No person will be allowed in an examination room during an exam except the students concerned and those supervising the exam.
2. Students must appear at the exam room at least fifteen minutes before the posted start time of the exam.
3. Students are required to bring two pieces of photo ID to each exam. One MUST be a valid U of T student ID card (TCard) and the other must be government-issued (e.g. driver's licence, passport).
4. Bags, purses, coats/jackets, books are to be deposited in areas designated by the Chief Presiding Officer (CPO) and are not to be taken to the exam desk or table. Students may place their wallets in the clear, sealable, plastic bag and put them on the floor under their chair. The student must not touch or open the bag during the exam.
5. All electronic devices with storage, including but not limited to, cell phones, smart watches, smart devices tablets, laptops, calculators, etc., must be turned off, sealed in the clear, plastic bags provided and placed under the desk for the duration of the examination. The student must not touch or open the bag during the exam.
6. The CPO has authority to assign seats to students.
7. Students cannot communicate with one another, in any manner whatsoever, during the examination.
8. Students may not leave the exam room unescorted for any reason, and this includes using the washroom.
9. No materials may be used at an exam except those authorized by the Instructor or Chief Presiding Officer.
10. Students who bring any unauthorized material into an examination room, or who assist or obtain assistance from other students or from any unauthorized source, are liable to penalties/sanctions as listed in the university's Code of Behaviour on Academic Matters, including the loss of academic credit, suspension or expulsion.
11. Students who are less than 30 minutes late for a final exam may enter the exam room and begin writing. No extra time will be given. Students who are more than 30 minutes late for a final exam must report immediately to the Office of the Registrar in the Innovation Complex, Room 1235.
12. To ensure minimal disruption at the beginning and end of an exam, students must remain seated at their desks for at least the first 30 minutes and the final 10 minutes of an examination.
13. During the last 10 minutes of an exam, students are to remain in their seats until the exam is over and the CPO has collected all exams.
14. At the conclusion of an exam, students must stop writing. The CPO may seize the papers of students who fail to observe this requirement. The CPO will write a detailed anomaly (see above) and inform the student that this matter will be reported to the Office of the Dean and a penalty may be imposed.
15. Exam books and other material issued for the exam cannot be removed from the exam room, except by authority of the CPO.
16. U of T Mississauga is not responsible for personal property left in exam rooms.

Missed Final Exams

In addition to using the Absence Declaration on ACORN, students are still required to submit proper medical or other documentation to support a formal petition for deferred exams. For more information on petitions, please see [Petitions](#).

Students should consult with the Office of the Registrar if the period of absence will be lengthy and affect more than one exam.

External Exams

Students are normally required to write final U of T Mississauga exams on campus. However, if special circumstances arise, they may petition to write a final exam at an external examination centre.

In-class Courses

Students taking in-class courses who are unable to attend the campus to write their final examination(s) and have an exceptional reason, may petition for permission to write the examination at an external examination centre. To do so, the student must submit an online petition under the "Other" category no later than four weeks before the beginning of the examination period. In the petition, the student must clearly indicate the following: that it is a request for an external exam, the name of the centre that the student intends to write at and appropriate contact information.

If the petition is granted, the examination will be written on the originally scheduled date and time at the external examination centre. A fee of \$50 per examination plus applicable shipping costs is to be paid to the Office of the Registrar at U of T Mississauga. Students are responsible for any fees charged by the external examination centre. **Such permission is granted only in exceptional circumstances.**

Online Courses

In order to be eligible to write a final examination at an external examination centre, students must be located more than 125 km travel distance from campus and have no other exams on campus during the examination period. If the student is eligible and requires invigilation at an external examination centre (i.e., other than UTM), they must submit a petition under the "Other" category no later than 4 weeks after the start of term.

In the petition, the student must clearly indicate the following:

1. that it is a request for an external exam
2. the name of the centre that the student intends to write at and appropriate contact information.

Before the petition is submitted students should review the helpful articles available on AskRegistrar related to [External Examinations -- Online Courses](#).

If the petition request is submitted by the deadline, and the proposed external examination centre is confirmed by the Office of the Registrar, the student may proceed with making arrangements and payment with the centre. The student is responsible for any fees charged by the external examination centre. If the proposed external examination centre cannot be confirmed for any reason, the student will be required to find an alternate location. For more information, students should contact the Office of the Registrar.

Deferred Examinations

Deferred examinations will normally be scheduled in the week following the regular exam period or, in the case of December exams, during Reading Week in February.

Students who miss a deferred exam will receive a mark of zero for the exam in the calculation of the final grade. Only under exceptional circumstances (e.g., hospitalization or severe personal emergency), and when supported with strong and compelling evidence, will a petition for a further deferred exam be considered. Students who are granted further deferrals of unwritten final examinations will write the exam the next academic session in which the course is offered.

Students who missed their final exam due to illness or extenuating circumstances are advised to read [Deferred Examinations](#) on the Office of the Registrar website for more information.

Ordering a Copy of Your Final Exam (Examination Reproduction)

After the release of final marks, a reproduction of the examination can be obtained from the Office of the Registrar at U of T Mississauga by submitting the [Exam Reproduction Request\(s\) form](#). A \$16 fee applies.

Requests for an exam reproduction must be made within six months of the date of the exam. After that date, all examinations are destroyed.

Request a Re-Check or Re-read

Requests for clerical re-checks and examination re-reads must be made within six months of the date of the exam.

Students who feel that an error has been made in the calculation of their exam grade, may request a clerical re-check with the relevant department.

Students who feel there is merit for additional marks should complete an [Exam Re-Read Request\(s\) form](#).

In completing the request, students must demonstrate that their answer is substantially correct, using evidence other than their own opinion, such as: lecture notes, textbooks, similar questions in tests, etc. Failure to do so may result in the instructor refusing to re-read an examination.

Please note that the exam grade may increase, decrease or remain unchanged.

Grades and Academic Record

Final Grades

Final grades are normally available on ACORN within two weeks following the end of each examination period.

GPA's are available on ACORN and are generally calculated only after all final grades have been posted.

Academic standing is also available on ACORN and is assessed following GPA calculations. Academic standing is assessed twice a year: at the end of the Fall-Winter session and the end of the Summer session. See [Academic Standing](#) for more details on how status is assessed and its implications.

Students may view their final grades on ACORN once they are posted, and they are expected to check the status of their final grades online. In accordance with Ontario's Freedom of Information and Protection of Privacy Act, the Office of the Registrar protects student privacy and will not disclose final grades to students or their designates over the phone, email, or other means of communication.

Grading Scheme

Students are assigned a grade in each course as follows:

Percentage	Grade	Value	Grade Definitions
90 - 100	A+	4.0	Excellent
85 - 89	A	4.0	
80 - 84	A-	3.7	
77 - 79	B+	3.3	Good
73 - 76	B	3.0	
70 - 72	B-	2.7	
67 - 69	C+	2.3	Adequate
63 - 66	C	2.0	
60 - 62	C-	1.7	
57 - 59	D+	1.3	Inadequate
53 - 56	D	1.0	
50 - 52	D-	0.7	
0 - 49	F	0.0	Some evidence of familiarity with subject matter and some evidence that critical and analytic skills have been developed.
Credit	CR	No Value	Little evidence of even superficial understanding of subject matter; weakness in critical and analytical skills, with limited or irrelevant use of literature.
			Used in a Credit/No Credit evaluation

Other notations that do not have grade point values and are not included in GPA calculations are:

Notation	Description and definition
AEG	AEGROTAT STANDING: For graduating students who have missed their final exam, credit may be assigned on the basis of term work and medical evidence. Authorized only by the Committee on Standing by petition. This option occurs only in extreme circumstances and is rarely offered.
CR/NCR	CREDIT/NO-CREDIT: CR denotes a final mark of at least 50%. Marks below that will be assessed as NCR.
EXT	EXTRA COURSE: Not-for-degree credit.
GWR	GRADE WITHHELD PENDING REVIEW: Applied to students charged with an unresolved academic offence.
IPR	COURSE IN PROGRESS: A final grade is not available as the course is still in progress.

Notation	Description and definition
LWD	LATE WITHDRAWAL AFTER THE DROP DATE: If the deadline to drop a course has passed, students may submit a request for a late withdrawal by the appropriate deadline. A notation of LWD will appear on the transcript in lieu of a numerical grade, and will have no impact on the GPA. This notation will appear next to the course code and title under the session in which the course was taken. While there is no academic penalty, students remain responsible for all applicable tuition fees associated with the course.
NGA	NO GRADE AVAILABLE: Applied temporarily to a course with an unresolved final mark.
SDF	STANDING DEFERRED: This notation will appear on a transcript in lieu of a numerical grade when the completion of a course has been delayed due to exceptional circumstances. Authorized by the Committee on Standing, this notation is by approval only, via petition.
WDR	LATE WITHDRAWAL WITHOUT ACADEMIC PENALTY: By approval only, the Committee on Standing will authorize a WDR notation for an incomplete course that has been dropped after the relevant deadline. In cases where a student has faced exceptional circumstances outside of their control, a petition may be submitted online. While there is no academic penalty, students remain responsible for all applicable tuition fees associated with the course.

Grade Point Average

There are three types of grade point averages:

- **Sessional GPA** is based on all passed and failed courses completed in a single term (i.e., Fall or Winter) or session (Summer). Sessional GPA is calculated three times during the academic year: Fall term (September-December), Winter term (January-April), or Summer session (May-August).
- **Annual GPA** is based on all passed and failed courses completed in the Fall-Winter session only (September-April), and is calculated at the end of the Winter term.
- **Cumulative GPA** takes into account all passed and failed courses.

GPA's are calculated at the end of each session only after the majority of final grades have been approved at the end of each session. Final grades are normally available on ACORN within two weeks of the last day of the exam period.

Grade point average (GPA) is the weighted sum of the grade points earned, divided by the number of courses in which grade points were earned. Full courses are weighted as two, and half courses are weighted as one. Any courses taken as non-degree and non-degree visiting student will be included.

Courses noted as "AEG" or "CR" or "NCR" or "EXT" or "GWR" or "IPR" or "PASS" or "LWD" or "NGA" or "SDF" or "WDR" are not included in the average nor are transfer credits or courses taken on a letter of permission.

The minimum cumulative GPA required to remain in good standing is 1.50. More information on grade calculation can be found in the [Term Work, Tests, and Appeals](#) section of this Calendar.

The minimum grade requirement to graduate with an honours degree is a cumulative GPA of 1.85. More information on degree requirements can be found in the [Degree Requirements](#) section of this Calendar.

Every course in which students remain registered after the last date to withdraw without academic penalty (LWD) will appear on their transcript.

[UTM's CGPA Calculator](#) is available online and can be accessed by logging in with a UTORid. Students may also use the [U of T GPA Calculator](#) which does not require a UTORid.

Academic Standing

There are four kinds of academic standing: In Good Standing; On Probation; On Suspension; Refused Further Registration.

Students who have attempted at least 0.5 credits at the university will be assessed for academic standing as follows:

1. Students who achieve a cumulative GPA of at least 1.50 are considered to be in **good standing**.
2. Students will be **on academic probation** if they:
 - have a cumulative GPA of less than 1.50, or

- return from suspension, or
 - have been admitted on academic probation.
3. Students who, at the end of any session (Fall/Winter or Summer) during which they are on probation:
 - have a cumulative GPA of 1.50 or more will be in good standing;
 - have a cumulative GPA of less than 1.50, but a sessional (Summer) or annual (Fall/Winter) GPA of 1.70, or more, will continue on probation;
 - have a cumulative GPA of less than 1.50, and a sessional (Summer) or annual (Fall/Winter) GPA of less than 1.70, will be **suspended for one calendar year** unless they have been suspended previously, in which case they will be **suspended for three calendar years**.
 4. Students who return from a three-year suspension and are again liable for suspension will be **refused further registration** to the University of Toronto.

Students whose academic performance has resulted in probation, suspension or refusal of further registration will be notified by email. If students who are suspended or refused further registration have already enrolled in the next session before their status was known, the Office of the Registrar will cancel the students' registration in that session and refund their tuition fees.

Transcript

A transcript of a student's record reports grades of all courses completed with standing by the end of the previous session and courses currently in progress (IPR), along with course average, academic status (including record of probation, suspension and refusal of further registration), and completion of degree and Subject POST (program of study). Final grades are added to each student's record at the end of each term.

Individual courses that a student drops by the appropriate academic drop deadline are not shown. Courses in which a student is granted Late Withdrawal After the Drop Date (LWD) will appear on the transcript with the notation LWD. Courses in which a student is granted withdrawal without academic penalty by petition will appear on the transcript with the notation WDR.

Digital copies (eTranscript) or paper copies of the transcript can be ordered through ACORN account or other methods described at <https://registrar.utoronto.ca/transcripts>.

An \$18 fee for each transcript is applied. Payment can be made online using a credit card.

In accordance with the university's policy on access to student records, a student's transcript will not be released to a third party without the student's authorization.

Language Citation

The Language Citation at the University of Toronto Mississauga is an official notation on a student's transcript that the student has progressed to an advanced level in the study of a language. The Language Citation will consist of a notation on the transcript that reads: "Completed Requirements of Language Citation in [name of language]." Students should visit the [Department of Language Studies website](#) for details on earning a citation.

Notes:

1. There are two sessions (Summer and Fall/Winter) in each calendar year and status is assessed at the end of each session. Status is not assessed following the Fall term.
2. Courses attempted are those in which a student was enrolled on the deadline to drop a course without academic penalty unless an LWD (Late Withdrawal After the Drop Date) or a WDR (Late Withdrawal) has been approved for the course.
3. Cumulative GPA and sessional GPA/annual GPA will be calculated for students who have course grades pending due to SDF, GWR or NGA. Academic status will be assessed excluding these courses.
4. Students who finish the Fall-Winter session or the Summer session on probation and who have been granted deferred standing in a course, are advised to enrol in a maximum of 5.0 further courses (Fall/Winter) minus the weight of the course in which they have been granted a further deferral. Students on academic probation (less than 1.50 CGPA) are advised NOT to enrol in summer session courses.

Graduation

Students who appear as though they have met (or will meet) the basic degree requirements required to graduate (i.e. 20.0 complete/in-progress credits for an HBA/HBSC/BCom/BBA degree) will have a request to graduate entered on their ACORN record. Students who confirm their request to graduate and are assessed as “complete” will have their degrees conferred at the next available convocation ceremony whether or not they are able to attend. Completing a degree requires the completion of program and degree requirements.

Planning for Graduation

Using Degree Explorer, the University of Toronto’s degree planning tool (www.acorn.utoronto.ca/degree-explorer/), students can review their academic history, degree requirements or use the planner to determine how future course choices might meet their program and/or degree requirements.

Students who have confirmed their request to graduate can check Degree Explorer at the end of March for June Convocation, or September for November Convocation to see if their Subject POSTs have been confirmed by the relevant department(s). They can view their eligibility to graduate in early May for June Convocation, or October for November Convocation.

Students should meet regularly with their program advisor(s) and an Academic Advisor in the Office of the Registrar to make sure all program and degree requirements are being met. It is recommended that students make an appointment prior to entering their final year.

Policy on Debts Owed to the University

Parchments, transcripts and letters of eligibility to graduate are withheld until all outstanding U of T fees, library fines, health service missed appointments fees, damaged departmental equipment fees and payment for all deferred exams have been paid in full (see Outstanding Fees). However, indebted graduands will be allowed to participate in convocation and have their names appear in the convocation program. Degree parchments are held by the Office of Convocation for pick up one year following each graduation ceremony.

Petitions

Definition of Petitions

A petition is a student's formal request for an exception to the rules and regulations of the University. A request must be submitted via the [online petition system](#).

The reasons that support the petition must be clear and concise and supporting documentation must be submitted to the Office of the Registrar. The onus is on the petitioner to demonstrate the validity of the request(s). All petitions are considered in confidence by or on behalf of the Committee on Standing.

The University is governed by a series of rules and regulations that are intended to ensure that all our students are treated equitably and fairly. We acknowledge, however, that in some instances there are valid reasons why students should be granted an exception from these rules. In considering petitions, the Committee on Standing is sensitive to the needs of students who are experiencing problems that are beyond their power to foresee or control, but may not always be able to grant the request.

Students who feel they have genuine difficulties complying with a particular regulation(s) should consult an Academic Advisor in the Office of the Registrar as soon as they are aware that a problem exists.

For a complete list of all petition types and guidelines for submission see the [Office of the Registrar website](#) under the Petitions section.

Deferred Examinations

In case of illness or extenuating circumstances at the time of a final examination, afflicted students should consider not writing. Instead, they should seek medical attention on the day of the exam, declare their absence on their ACORN account, and [petition online](#) within 72 hours of the missed examination. All supporting documents and payment must also be submitted within 72 hours of the missed examination. Students cannot re-write an examination that they have already attempted.

The examination period is published well in advance and students are expected to be available during this period. Students who make personal commitments during the examination period do so at their own risk.

Students who are granted a petition to defer their final exam are not excused from any of the work of the course, but may be allowed to write their examination at a later date.

Students will be required to pay a non-refundable fee of \$72 for each deferred examination.

Students who miss a deferred examination will receive a mark of zero for the examination in the calculation of the final grade. Only under exceptional circumstances (e.g., hospitalization, severe personal emergency), and when supported by strong documentation, will a petition for a further deferral be granted. Students should seek academic advising in the Office of the Registrar when submitting a request for a further deferral of their unwritten final examination. Students who are granted further deferrals of unwritten final examinations write the exam the next academic session in which the course is offered.

When a student's petition for a deferred examination in a given course is granted, an "SDF" notation is assigned in place of the original grade on a student's transcript. Courses with the notation SDF are not included in grade point average calculation. If the student does not write the deferred examination, the "SDF" notation will be replaced by the original grade with a grade of "0" for the final examination in the calculation of the final grade. If a petition for a further deferral is granted, the SDF notation will remain on record until the deferred exam has been graded and the amended grade has been approved.

A student who writes a deferred examination in a course that serves as a prerequisite for subsequent courses may enrol in those courses at the discretion of the department, provided that the term mark in the prerequisite (deferred) course is at

least 60%. Failure to pass the prerequisite course or to meet other departmental grade standards may result in cancellation of enrolment in the subsequent courses.

Late Withdrawal Without Academic Penalty (WDR)

Petitions requesting late withdrawal from courses must be filed within six months after the end of the session in which a course was taken. Late withdrawal petitions are not granted if the student has completed the course (i.e., written the final examination or completed the final major assignment/test in a course without a final exam).

Students who have been sanctioned for committing an academic offence in a course are not permitted to request late withdrawal from a course. Please note that when late withdrawal without academic penalty is granted, a permanent notation of "WDR" is placed on the academic record in lieu of a course grade.

Extension of Time Beyond the End of Term

Instructors have the authority to grant an extension of time for students to submit completed term work before the end of the examination period. Petitions concerning extensions of time to complete term work later than the end of the exam period must be filed by the last day of the examination period. The student is expected to consult the instructor about a proposed deadline before petitioning for an extension of time.

When a petition for an extension of time in a given course is granted, an "SDF" notation is assigned in place of the original grade on a student's transcript. Courses with the notation SDF are not included in grade point average calculation. If the student does not hand in the term work by the deadline, the "SDF" notation will be replaced by the original grade with a grade of "0" for the term work in the calculation of the final grade. If a petition for a further extension is granted, the SDF notation will remain on record until the term work has been graded and the amended grade has been approved.

Supporting Documentation for Petition

Petitions must be supported by original documentation; photocopies and faxes are not acceptable.

It is the responsibility of the student to provide medical or other supporting documentation. Any cost incurred in obtaining documentation (e.g. a doctor's note) is the responsibility of the student.

If the illness is cited as the reason for the petition, it must be accompanied by an original U of T Verification of Student Illness or Injury Form (available at <https://www.utm.utoronto.ca/registrar/forms>) stating that the student was examined and diagnosed at the time of the illness and, in the case of exams, on the day of the exam or immediately after (i.e. the next day), and must indicate a serious degree of incapacitation on academic functioning (e.g. unable to attend classes, write a test/examination). A statement from a physician that merely confirms a report of illness and/or disability made by the student is not acceptable.

If support has been obtained from someone other than a practitioner listed on the U of T Verification of Student Illness or Injury Form then a Verification of Extenuating Circumstances Form is acceptable.

Other documentation can include, but is not limited to: letter of support from Accessibility, automobile collision or police reports, death certificate, and supporting documentation from employers, lawyers and other related personnel.

Appeals

If a student's initial petition request is denied, they may appeal (through the following process).

1. Committee on Standing: The Committee on Standing will review an appeal with new information not presented in the original petition request within 90 days of the original petition decision date. Appeals must be submitted in writing to the Office of the Registrar.
2. U of T Mississauga Academic Appeals Subcommittee: In order to appeal the decision of the Committee on Standing, students may download the appeal form from the [Academic Appeals Subcommittee website](#). Appeals must be submitted by fax or e-mail within 90 days of the decision of the Committee on Standing.

3. Academic Appeals Committee of the Academic Board of Governing Council: Appeals of the U of T Mississauga Academic Appeals Subcommittee must include a Notice of Appeal Form. Students looking to file an appeal to the Academic Board of Governing Council should carefully read and follow the instructions outlined at <https://governingcouncil.utoronto.ca/processes/academic-appeals>

Program Selection

Definition

A program is a sequence of courses in one or more disciplines that are grouped together to form a cohesive area of study. A Program of Study is also referred to as a Subject POST.

Specialists, Majors and Minors

- **Specialist Programs:** consist of 10.0 to 18.0* credits (out of the total of 20.0 credits required for a degree) including at least 4.0 credits at the 300/400 level, 1.0 credit at the 400 level.
- **Major Programs:** consist of 6.5 to 9.0* credits, including at least 2.0 credits at the 300/400 level.
- **Minor Programs:** consist of 4.0 to 4.5* credits, including at least 1.0 credit at the 300/400 level.

*Courses may have prerequisites not listed in the program, but which must also be taken.

Program Enrolment

Eligibility

Students must enrol in the appropriate program, or combination of programs in the session in which they have completed, or will complete, 4.0 credits. All degree students must enrol in at least one specialist, two majors, or one major and two minors. A maximum of 3 programs are allowed as long as one is a minor.

Students who are admitted with 4.0 transfer credits or more, must enrol in a program.

Students admitted as “non-degree students” are not permitted to enrol in a program.

Some programs also require specific standing in individual courses and/or a minimum grade point average. See [Program Requirements](#) and the specific requirements for each program for more information.

U of T Mississauga students may only enrol and complete programs listed in this Calendar. Enrolment in programs offered at other U of T campuses or divisions is not permitted.

Choosing a Program

Students enrol in programs online via ACORN, the online student information system.

For limited enrolment programs, see the [Office of the Registrar website](#) for dates and deadlines for program enrolment.

Program Requirements

Every program in this Calendar lists its requirements – the courses that must be completed in order to successfully complete the curriculum. Specific program requirements for each program can be found in this Calendar under List of Programs.

Upon enrolment in a program at the end of the Winter term or Summer session, students are expected to follow the program completion requirements listed in the Calendar for the upcoming academic year (e.g., if you enrolled into a program in the Summer of 2020, you would follow the program completion requirements listed in the 2020-2021 Calendar). Make sure to check the program requirements each time you consider adding or changing courses, or if you consider changing programs of study.

Please note that completion of a program is only one part of the degree requirements. For more information, see [Degree Requirements](#).

NOTE: In some programs there may be occasions when anatomical, biochemical, physiological or pharmacological observations are made by students on themselves or on fellow students. These include some common diagnostic or immunization procedures. Unless a valid reason exists, students are expected to participate in such exercises. If any investigative work does not form part of the program, participation is voluntary.

Self-Designed Program of Study

Students wishing to pursue a program other than, or in addition to, those listed in this section may propose a Self-Designed Program of Study. Students considering this alternative should discuss their proposal with the related department(s). If the proposal involves more than one department, it must first be presented to the Office of the Vice-Principal, Academic and Dean. **Consultation should take place as early as possible in the student's academic career and proposals must be submitted no later than upon completion of 8.5 credits.**

Students will be required to present a coherent grouping of courses designed to meet their individual needs, and substantially different from any program existing in the U of T Mississauga calendar. All proposals will need to be approved by the Office of the Vice-Principal, Academic and Dean on the basis of academic rigour, breadth and coherence. If the proposal is approved, successful completion of the courses will be accepted as fulfilling the degree requirement and noted on the transcript with the appropriate Subject POST code as indicated below.

Self-Designed Program of Study (Arts)

Specialist Program - ERSPE0408

Major Program - ERMAJ0408

Self-Designed Program of Study (Science)

Specialist Program - ERSPE0755

Major Program - ERMAJ0755

Symbols and Terms Used in Program Descriptions

- **(P.I.):** Permission of instructor required to enrol.
- **(G):** Course available only on the St. George Campus.
- **AND:** Comma (,); Semi-colon (;); Ampersand (&); Plus Sign (+)
- **OR:** The slash (/)
- **"First Year," "Second Year," etc.:** Sequences of courses are given as guides, but need not be followed in the exact order listed, provided all pre- and co-requisites are observed.
- **Higher Years:** Second, Third and Fourth Years
- **200 level:** Courses numbered in the 200s ONLY
- **200+ level:** Courses numbered in the 200s, 300s, 400s
- **300+ level:** Courses numbered in the 300s or 400s

Combined Degree Programs

The Combined Degree Programs (CDP) in Honours Bachelor of Science/Master of Teaching or Honours Bachelor of Arts /Master of Teaching is designed for students interested in pursuing professional teacher preparation.

Students earn a bachelor's degree from UTM and an accredited professional Master of Teaching (MT) degree at the Ontario Institute for Studies in Education (OISE). They will be recommended to the Ontario College of Teachers for an Ontario Teacher's Certificate of Qualifications as elementary or secondary school teachers. Distinct advantages include:

- early application to the MT program (in Year 3) and conditional admission to the MT program;
- eligibility for certification as a teacher in Ontario; and
- eligibility to apply for doctoral study.

This CDP permits the completion of both degrees in six years with 1.0 credit that may be counted towards both the undergraduate and graduate degrees. For more information, please visit the School of Graduate Studies Calendar.

Term Work, Tests, and Appeals

Term Work

Assignments (or equivalent work) and examinations (including term tests) are normally required for standing in courses. In courses where only one form of evaluation is used, a single piece of work should not normally count for all of the final mark. Self-evaluation by individual students or groups of students is not permissible unless the specific consent of the Committee on Academic Standards is received.

No later than the first day of classes, a syllabus will be accessible to students via the Timetable. The information on this page will include the methods by which student performance will be evaluated, and their relative weight in the final mark, including any discretionary factor and the due dates. These methods must be in accordance with applicable university and faculty policies.

Once the weight of each component of the course work is given, it may not be changed unless approved by a majority of the students are present and voting at a regularly scheduled meeting of the class. Notice of a vote must be announced at the regularly scheduled class meeting prior to that at which the vote will be conducted.

Instructors shall return by the deadline one or more marked assignments and/or term tests worth a combined total of at least 15% of the total course mark for H courses and 25% for Y courses. The deadline for returning such marked work shall be the last regular class meeting prior to the academic drop date, with one exception: for courses that run the entire Fall/Winter Session (Y5Y or H5Y courses), the deadline shall be the last regular class meeting of the first week of classes in January.

All term work must be submitted on or before the last day of classes in the course concerned, unless an alternate date is specified by the instructor. Students who for reasons beyond their control wish to seek an extension of this deadline must obtain approval from their instructor for an extension of the deadline. This extension may be for no longer than the end of the final examination period. If additional time beyond this period is required, students must petition through the Office of the Registrar for a further extension of the deadline. See [Extension of Time Beyond the End of Term](#) under the Petitions section of this Calendar.

Assignments are the property of the student and must be returned. Students must make any inquiries about the mark on a graded piece of work within one month of the return date of the work. Unclaimed term work must be kept by the instructor/department for one year after the end of the course.

Study Breaks, Reading Weeks, and Examination Periods

Study Breaks take place immediately following the last day of classes of each term. Reading Weeks are scheduled in the Fall (four days following Thanksgiving Monday) and in the Spring (four days following Family Day).

During Study Breaks or Reading Weeks:

- No new content may be introduced
- Optional review sessions may be held
- Instructors may offer extended office hours, at their discretion
- Presentations that are being graded may not be held
- Term tests may not be held
- Make up tests may be scheduled during study break
- Make up tests may be scheduled during reading week, only if mutually agreed upon by instructor and students.

During the Examination Periods:

- No make-up tests or mid-term tests may be held
- Oral exams (including presentation exams) must be scheduled through the Office of the Registrar as per all other exams.

Re-marking Pieces of Term Work

A student who believes that their written term work has been unfairly marked may ask the person who marked the work for re-evaluation. Students have up to one month from the date of return of an item of term work to inquire about the mark. If the student is not satisfied with this re-evaluation, they may appeal to the instructor in charge of the course if the work was not marked by the instructor (e.g., was marked by a TA). Such re-marking may involve the entire piece of work, and may raise or lower the mark.

Any appeal of the mark beyond the instructor in the course may only be made for term work worth at least 20% of the course mark. Such appeals must be made in writing to the Department Chair/Institute Director within one month after the work was returned, explaining in detail why the student believes that the mark is inappropriate. The appeal must summarize all previous communications between the student and previous markers of the work. The student must submit the original marked piece of work.

If the Department Chair/Institute Director believes that re-marking is justified, they shall select an independent reader. The student must agree in writing to be bound by the results of the re-reading process or abandon the appeal.

Where possible, the independent reader should be given a clean, anonymous copy of the work. Without knowing the original assigned mark, the reader will determine a mark for the work. The marking of the work should be considered within the context of the course of instruction for which it was submitted. If the new mark differs substantially from the original mark, the department will determine a final mark taking into account both available marks.

The final level of appeal is to the Office of the Vice-Principal, Academic and Dean. Appeals must already have been considered at the two previous levels (Instructor, followed by Department Chair/Institute Director), with the decision reviewed by the head of the academic unit (i.e., Chair or Director), before they will be considered by the Office of the Dean. Appeals must be submitted in writing, and include all previous correspondence, as soon as possible after the student receives the final response from the academic unit, but no later than one month after. Appeals to the Office of the Dean about the marking of term work will be reviewed to ensure that appropriate procedures have been followed in earlier appeals, that the student has been treated fairly, and that the standards applied have been consistent with those applied to other students doing the assignment. Any mark resulting from such an appeal will become the new mark, whether it is higher or lower or the same as the previous one. This process applies only to term work; requests for re-reads of final examinations are handled directly by the Office of the Registrar.

Grades Review and Department Appeals

The Office of the Vice-Principal, Academic and Dean administers the grading regulations and reviews course grades submitted by department chairs. The department is responsible for assigning the official course grades, which are communicated to the students through ACORN.

Each chair may appoint a departmental review committee to review grades submitted by instructors. The committee may ask for clarification of any anomalous results or distributions, or disparity between sections of the same course. Both the departmental review committee, through the chair, and the divisional review committee, through the dean, have the right, in consultation with the instructor of the course, to adjust marks where there is an obvious and unexplained discrepancy between the marks submitted and the perceived standards of the university. Final marks are official, and may be communicated to the student only after the review procedure has taken place.

Grades, as an expression of the instructor's best judgment of each student's overall performance, will not be determined by any system of quotas.

Departmental Appeals

Issues arising within a course that concern the pedagogical relationship of the instructor and the student, such as essays, term work, term tests, grading practices, or conduct of instructors, fall within the authority of the department. Students are entitled to seek resolution of these issues, either orally or in writing to the course instructor and, if needed, the department chair for resolution.

Following a response from the department chair, students may submit an appeal, in writing, to the Vice-Principal, Academic and Dean.

Term Tests

No term test, or combination of term tests in an individual course, held in the last two weeks of classes at the end of term, may have a total weight greater than 25% of the final mark.

All term tests must be held on or before the last day of classes, and no term test may be scheduled during study break or the examination period. Term tests may be held outside of regularly scheduled class time (including Saturdays), provided that the term test date and time are available to students in the course syllabus before the first class.

Missed Term Tests

Students who miss a term test will be assigned a mark of zero for that test unless they are granted special consideration.

If the term test was missed for reasons entirely beyond the student's control, they must consult the missed test policy in their course syllabus, and follow the instructions outlined to request special consideration for this term work. This request must explain the reason for missing the test and include appropriate documentation (e.g. Verification of Student Illness or Injury form).

A student who is granted special consideration by the instructor may be granted a makeup test or a redistribution of weighting of other graded work. If the course has no other term work as part of the evaluation, a makeup test will be given. In no case may the weighting of the final examination in a 100-level course be increased beyond two-thirds of the total course mark.

If the student is granted permission to take a makeup test and misses it, then they are assigned a mark of zero for the test unless the instructor is satisfied that missing the makeup test was unavoidable. Students are not automatically entitled to a second makeup test.

Withdrawal and Returning from Absences

Declaration of Temporary Absence

U of T Mississauga students are required to declare their absence from a class, for any reason, through their ACORN accounts in order to receive academic accommodation for any course work such as missed tests, late assignments, and final examinations. Absences include those due to illness, death in the family, religious accommodation or other circumstances beyond their control. Students declare absences via their ACORN account on the day of their absence (or by the day after, at the latest).

In addition, students must also follow the absence policies of the department and the instructor, which may require additional documentation.

Once they have submitted the required information, they will be redirected to specific U of T Mississauga course policies regarding academic accommodation, which may include submission of an official Verification of Student Illness or Injury form or other documentation.

Voluntary Absence

All students in good academic standing or on academic probation may take a voluntary leave from their studies without formal authorization. No specific documentation or approval is required.

How to take a voluntary leave

To take a voluntary leave from studies, students have the option to:

- a) choose not to complete registration in a given academic period (e.g., Fall/Winter session, Fall or Winter Term), or
- b) cancel their current registration in a given academic period.

For students who have already completed registration, read below for more information on [cancelling registration](#). If you are an international student considering a voluntary leave from your studies, you must refer to the [Leave of Absence Policy for International Students](#) for further information.

While on leave

While on a voluntary leave, students will not pay any tuition, incidental, or ancillary fees; are not considered for scholarships or awards; cannot normally access University services including health services (with the exception of their Registrar's Office); participate in student internships; or undertake undergraduate research. A student who chooses to take a voluntary leave from their studies is not exempt from academic deadlines, financial responsibilities, current or future policies, and fees schedules. Students who cancel their registration part-way through a term are responsible for any outstanding balance owed to the University. Students on leave may contact the UTM Office of the Registrar's office for advising and for more information on [how to return from an absence](#).

Cancelling Registration

Students who find it necessary to stop attending all of their courses for the Fall-Winter or Summer session must drop all of their courses, including those they are waitlisted for, and cancel their registration on ACORN as soon as possible or, at the latest, by the last date to cancel courses without academic penalty. If students withdraw from a session within a refund period, they must cancel their registration for the session on ACORN before a reversal of fees is issued (see schedule at <https://studentaccount.utoronto.ca>).

Additionally, students are advised that they must:

1. pay all outstanding fees;

2. return any books to the Library and pay any outstanding fines;
3. vacate any laboratory or athletic lockers and return any university equipment in their possession.

Not attending classes is not the same as withdrawing from a session. Students will still be given a mark based on work submitted and missed assignments will be marked accordingly. Merely ceasing to participate in class, including attending and submitting assignments, will result in a poor or failing grade.

If a newly-admitted student withdraws from all courses and cancels their registration, they must reapply for admission should they wish to return to UTM in the future.

Undergraduate Leave of Absence Policy for International Students

Approved Leave of Absence will be permitted for international undergraduate students at UTM who have completed at least one academic term (e.g. Fall 2019 or Winter 2020) with academic standing that is not “On Suspension” or “Refused Further Registration”. Students may request a leave of one term (Fall or Winter) or one academic session (Fall-Winter), for up to a maximum of two consecutive academic years. A Leave of Absence will not be approved for newly admitted (first year or transfer) students who have not yet begun their studies at UTM. Please refer to the policy “Deferring Admission” in the UTM Academic Calendar.

Students may request a leave for the following reasons:

- Serious health, personal or family issues
- Issues related to child birth or child care
- Military service

Students may extend an already approved leave up to and not exceeding two years. Extension beyond two consecutive years will not be approved. Students may elect to continue the leave beyond two years; however, the continuation of the leave will not be documented as an Approved Leave of Absence.

Students do not pay tuition or incidental fees for the period covered by the leave. While on an approved leave, students are not permitted to register for courses, use university student services, participate in student internships, or undergraduate research. They are not eligible for scholarships or awards. A student who has obtained approval for a Leave of Absence under this policy is not exempt from academic deadlines, financial responsibilities, current or future policies, and fees schedules.

Return from Absence (Voluntary Leave or Withdrawal)

Students who were previously registered as degree or non-degree students who have completed at least one course at UTM, and who have not been registered in the past 12 months must submit an application for re-registration through the UTM Office of the Registrar.

Students will need to complete a request to reactivate their student record online (www.utm.utoronto.ca/registrar/forms) and pay a fee if their last AND most recent registration was at U of T Mississauga as a degree or non-degree student with academic standing (i.e., grades or late withdrawals) and wish to return after an absence of at least 12 consecutive months. All outstanding fees must be paid and any financial holds must be cleared before a student record is reactivated.

Students who were previously registered but did not obtain standing in at least one course (i.e., grades or late withdrawals) must re-apply for admission through the Ontario Universities Application Centre. Students previously registered as non-degree visiting students must submit a new visiting student application by the deadline prior to each session.

Students who studied elsewhere during their absence from U of T Mississauga should follow the procedure outlined in [Studying Elsewhere without an LOP](#).

It is recommended that students planning to return from a voluntary leave and complete the re-registration process, make an appointment with an academic advisor to discuss their academic plans, their degree and program requirements, and any changes in Faculty policies or procedures since their last registration.

NOTE: If a degree student reactivates their record, but does not enrol in a course and pay tuition within 12 months, the reactivation becomes invalid.

Fees

Fees normally consist of tuition, incidental and ancillary fees (including items such as the U of T Mississauga shuttle bus, Health and Counselling Centre, athletics, student services, and student organizations).

Fees are based on the normal length of time it takes to complete a full-time program (i.e. four consecutive years for a BBA/BCom/HBA/HBSc). Students who stay for more than the normal length of time for their program may face higher tuition fee levels in the subsequent years.

Domestic student and international student fees are established by the Governing Council, and are subject to change any time upon approval. For detailed information, please consult the [Student Accounts website](#).

Tuition fees are assessed by course or program, depending on the program(s) of study you are registered in. The University reserves the right to alter the fees and other charges described in the Calendar.

Course Fees

Course fees are assessed based on the number of credits a student is enrolled in. When a course is added, the course fee is charged immediately (not including waitlisted courses), regardless of when the course begins. When a course is dropped, the course fee is reversed in accordance with the refund schedule, which can be found on the [Student Accounts website](#).

Program Fees

Program fees are assessed when a student is registered in a specialized deregulated fee program with enrolment in a minimum number of credits. As the minimum number of credits can vary by program, see below for further details:

- Students who are in the Commerce Specialist are charged a flat program fee if enrolled in 3.0 credits or more, and a deregulated per course fee if enrolled in 2.5 credits or less.
- Students who are in Bioinformatics; Commerce (major); Communication, Culture, Information & Technology (CCIT); Computer Science; Digital Enterprise Management; Human Resource Management and Industrial Relations; Information Security; Interactive Digital Media; Management; Technology, Coding & Society; and Visual Culture and Communication are charged a flat program fee if enrolled in 4.0 credits or more, and a deregulated per course fee if enrolled in 3.5 credits or less.

Students with a documented, permanent disability who are registered with the Accessibility Services, may opt to pay the deregulated per course fee instead of the deregulated program fee by speaking with the Accessibility Services.

Students who accept a deregulated program Subject POST (Program of Study) will be back-charged deregulated fees for all courses commencing with the session after 4.0 credits were completed.

Tuition Fee Invoice

Tuition fees will be posted on a student's financial account on ACORN after enrolment in at least one course has taken place. The invoice will provide a detailed breakdown of the fees for each term or session that a student has registered in, including tuition fees, incidental and ancillary fees, and other applicable fees. Additionally, a student's current invoice will also update as funds are credited to their account through payments made by the student, or University of Toronto scholarships, awards, bursaries or grants.

Returning students may review current or past tuition fee invoices, including any outstanding balances owed to the university from a previous session. Students may print a copy of their invoice at any time, as they will not be mailed.

Payments

Students must pay their tuition fees or request a fee deferral by the appropriate deadline in order to complete their registration. Students who do not pay or defer their fees will be removed from their courses, and will be subject to the late registration fee if they wish to re-enrol in courses for the upcoming term or session.

Tuition fees are paid through the bank, on ACORN using a credit card, or through other available options. Students must take a printout of their ACORN invoice to the bank if they pay their fees in person. Fees cannot be paid at the Office of the Registrar. For a complete list of payment options, visit the [Student Accounts website](#).

Fee Deferral

A fee deferral is a special, temporary arrangement to ensure that a student may register by the appropriate deadline, with an understanding that fees must be paid once their financial aid is received. Students who are registered on the basis of an approved fee deferral remain financially responsible for their outstanding balance, and must make their payments by the appropriate deadline(s) in order to avoid service charges. Fee deferrals may be requested on ACORN.

More information can be found under [Outstanding Fees](#). Further information on fee deferrals can be found on the [Student Accounts website](#).

Eligibility

Students who are receiving financial aid (i.e., OSAP or other government student loans) or scholarships, and are not able to make a tuition payment on their own by the deadline may request a fee deferral in order to register for the upcoming session(s).

Students who are receiving a U of T scholarship or award may be eligible if the amount of their award is greater than the Minimum Payment to Register, as listed on their invoice. Students who receive financial sponsorship (for example, by their home government) may register via sponsorship by sending the appropriate documents to the Student Accounts office.

In order to be approved for a fee deferral, students must not have any outstanding fees from a previous session.

Outstanding Fees

Fees that remain unpaid by the published deadlines will incur a monthly service charge of 1.5% compounded (19.56% per annum). Payments made by continuing or returning students will first be applied to outstanding university debts and then to current or upcoming fees.

The following are recognized University obligations:

1. Tuition fees
2. Academic and other incidental fees
3. Residence fees and charges
4. Library fines
5. Bookstore accounts
6. Loans made by colleges, faculties or the university
7. Health and Counselling Centre account
8. Office of the Registrar accounts
9. Unreturned or damaged instruments, materials and equipment;
10. Orders for the restitution, rectification or payment of damages, fines, bonds for good behaviour, and requirement of public service work imposed under the authority of the Code of Student Conduct.

The following academic sanctions will be imposed on students with outstanding University obligations:

1. Official transcripts of record will not be issued.

2. The University will not release either the official document which declares the degree, diploma or certificate earned nor provide oral confirmation or written certification of degree or enrolment status to external enquirers. Indebted graduands will be allowed to participate in convocation and have their names appear in the convocation program.
3. Registration will be refused or withdrawn to continuing or returning students.

Students are responsible for paying their fees as shown on ACORN. Outstanding fees are transferred to an external collections agency. For more information on outstanding fees, visit the [Student Accounts website](#).

Refunds

Students who drop one or more courses may be eligible for a fee refund depending on the course drop date(s) recorded on ACORN. Refund schedules for program fees and course fees are different. Fee refund schedules are available on the [Student Accounts website](#).

Financial Aid

University of Toronto Advance Planning for Students (UTAPS)

UTAPS is a financial aid program for full-time students who are Canadian citizens, permanent residents or protected persons (recognized convention refugees) and are eligible for need-based government student assistance or funding from a First Nations band.

The University's Policy on Student Financial Support states that students should have access to the resources required to meet their financial needs as calculated by the Ontario Student Assistance Program (OSAP). UTAPS funding is based on OSAP methodology as it provides a uniform, verified way of assessing student need.

For students who are assessed by OSAP as requiring maximum assistance and whose assessed need is not fully covered by government aid, the University will ensure that the unmet need is met. Students receiving funding from another province/territory or a First Nations band are also eligible for consideration.

Visit the [UTAPS website](#) for additional information.

U of T Mississauga Grant

Students who have explored all other avenues of financial assistance (e.g., family support, OSAP, lines of credit, part-time employment, etc.) and still have unmet financial need may apply for a [University of Toronto Mississauga Grant](#).

Ontario Student Assistance Plan (OSAP)

The online application for the Ontario Student Assistance Program (OSAP) is available to Ontario residents who are Canadian citizens, permanent residents, or Protected Persons. OSAP is designed to assist with educational and living expenses in the form of loans, grants and bursaries.

OSAP loans for full-time students are interest-free and non-repayable while the student remains enrolled in at least a 60% course load at all times throughout the year, or a 40% course load for a student with a documented permanent disability. No averaging of course loads is permitted. For example, if a student enrolls in 80% of a course load in the first term and 40% in the second term, the course loads cannot be averaged to 60%. In this case, the student would be eligible for full-time loans or interest relief in the first term only and may apply for [part-time assistance](#) in the second term.

Information concerning OSAP may be obtained from Financial Aid Advisors in the UTM Office of the Registrar, the [University Registrar's Office](#), or from the [OSAP website](#).

Bursaries for Students with Disabilities

Non-repayable assistance is available for OSAP recipients who have educational expenses as a result of a documented permanent disability. Information and applications are available from the [U of T Mississauga Accessibility Services](#) or the [University Registrar's Office](#).

Part-Time Assistance

A number of programs are available to students who study on a part-time basis. Forms of assistance include Part-time OSAP and the Noah Meltz Bursary. More information can be obtained at the [University Registrar's Office](#).

Students from Out-of-Province and the United States

Students from other Canadian provinces or the United States should apply through their provincial or governmental financial aid authority. Links to financial aid programs are available at the [University Registrar's Office website](#).

Scholarships and Awards

Recognition of Exceptional Academic Achievement

Dean's List Scholar

This designation is given to U of T Mississauga degree students having a Cumulative Grade Point Average (CGPA) of 3.50 or higher, at the end of the Fall/Winter or Summer Session in which the fifth, tenth, fifteenth, and twentieth credit offered by the university has been passed. A notation will be added to the student's academic transcript in late June (for students who satisfy the requirements at the end of Fall/Winter session) and in late October (for students who satisfy the requirements at the end of Summer session). There is no monetary value associated with the Dean's List Scholar recognition.

High Distinction

Students who graduate with a Cumulative GPA of 3.50 or above are described as graduates "With High Distinction." This achievement is noted on the diploma and transcript.

Distinction

Students who graduate with a Cumulative GPA of 3.20 to 3.49 are described as graduates "With Distinction." This achievement is noted on the diploma and transcript.

Scholarships

U of T Mississauga scholarships are awarded to degree students on the basis of one or more of the following criteria: academic merit, volunteer experience, student involvement and/or financial need. Awards may be in the form of a monetary gift, medals or certificates. Many of U of T Mississauga's awards recipients are automatically selected based on specified criteria, however, some awards require applications. Additional information on scholarships and other awards is available through the [Office of the Registrar website](#) and through [U of T's Award Explorer](#).

Advising Support

Students are responsible for seeking guidance from a responsible university officer if they are in any doubt regarding information in this Calendar. Academic Advisors are available in the Office of the Registrar to offer support and guidance for all students seeking clarification on information listed in this Calendar. Faculty advisors or undergraduate assistants in each academic department can offer program-specific support. Students with questions or concerns about course content, tests or assignments within the term should first work directly with the relevant teaching assistant or instructor. If the outcome is unsatisfactory, they should speak with the department's discipline representative and if necessary after that, with the chair of the department in which the course is offered. If there are questions or concerns around a university rule (such as late course withdrawal, deferral of a final exam, suspensions) or about fees or refunds, students should contact the Office of the Registrar.

Office of the Registrar

The Office of the Registrar provides information related to degree requirements, university rules and regulations, interpretation of this Calendar, and support for personal, academic, or financial concerns that influence academic performance from admissions to graduation.

For more information about our office, please visit www.utm.utoronto.ca/registrar.

Departmental Advising

Departmental advisors offer detailed information on their respective programs (specialists, majors and minors), individual courses and instructors. Students can find the name and contact information for their departmental advisor under the "Faculty and Staff Listing" section on each program page in this Calendar.

Student Affairs and Services

The Division of Student Affairs is committed to providing a living and learning environment that promotes student success both inside and outside of the classroom. There are many elements that contribute to student success. The Dean of Student Affairs leads a team of professionals who provide services in these areas:

- Accessibility Services
- Career & Employment Resources
- Centre for Student Engagement
- Community Service Learning
- Diversity & Equity
- Health & Counselling
- Indigenous Student Supports
- International Student Support & Study Abroad
- Leadership Programs
- Orientation & Transition Programs
- Department of Recreation, Athletics & Wellness
- Student Housing & Residence Life

For more information, please visit www.utm.utoronto.ca/sas.

Student Organizations (Ulife)

Ulife is a one-stop website listing a large and diverse directory of student clubs, organizations, activities and opportunities on all three campuses. The many student organizations include student governments, academic societies and clubs spanning social, academic, service, culture, faith and athletic interests. www.ulife.utoronto.ca.

Rights and Responsibilities

As members of the University of Toronto community, students assume certain responsibilities and are guaranteed certain rights and freedoms. The University has several policies that are approved by the Governing Council and which apply to all students. Each student must become familiar with the policies. The University will assume that they have done so. The rules and regulations of the University are listed in this Calendar. In applying to the University, the student assumes certain responsibilities to the University and, if admitted and registered, shall be subject to all rules, regulations and policies cited in the Calendar, as amended from time to time.

University policies can be found at www.governingcouncil.utoronto.ca/policies.

Those which are of particular importance to students are:

- Code of Behaviour on Academic Matters
- Code of Student Conduct
- Discipline Codes
- Guidelines Concerning Access to Student Academic Records
- Policy on Official Correspondence with Students
- Policy on Sexual Violence and Sexual Harrassment
- University Assessment and Grading Practices Policy
- Officials of the University of Toronto

Registration and Fees

By virtue of enrolment, students accept responsibility for payment of associated fees, and agree to ensure that the accuracy of personal information such as their current mailing address, telephone number, and utoronto.ca email address is maintained. A student's registration is not complete until they have paid tuition and incidental fees, or have made appropriate arrangements to pay. Students who defer their fee payment pending receipt of the Ontario Student Assistance Program (OSAP) or other awards, acknowledge that they continue to be responsible for payment of all charges, including any service charges that may be assessed. The University reserves the right to alter the fees and other charges described in the Calendar. For details, see the [Student Accounts website](#). Students who are still registered in a course after the final date to drop will receive a grade for that course, even if they have never attended, have stopped attending, or did not write the final examination. They are responsible for applicable fees regardless of any subsequent changes. Receipt of registration material, or any campus publication, submission of a registration form, or payment of fees, does not necessarily constitute eligibility to register in the coming session. Students who are suspended will be informed of their academic status, via their U of T email address shortly after final grades are posted on ACORN. They will not be permitted to register in any courses until after their suspension period is completed. Any fees paid toward tuition and other applicable fees will be refunded in full.

Academic Responsibilities

Student success at U of T Mississauga depends upon the student's response to the opportunities provided. Students who enrol in courses agree by virtue of that enrolment to abide by all of the academic and non-academic policies, rules and regulations of the University as set out in the Calendar. Instructors, advisors, counsellors and support services can help, however it is the responsibility of students to ensure that:

- they monitor their own records using ACORN and Degree Explorer;
- course selection is correct, timely and complete, with particular attention to deadlines;
- all course, program and degree requirements are met;
- they adhere to the university's policy on academic honesty;
- contact information and emergency contact information is correctly recorded on ACORN; and
- information sent to them via their utoronto.ca email account is monitored, read and understood.

Course descriptions, curriculum information, prerequisites, corequisites, exclusions, academic advisory information, and information on each program area are available in this Calendar. Students should read all information regarding the

programs they are interested in, including all course descriptions, prerequisite and exclusionary information, and degree requirements. This information will help students select the courses they need to complete their program(s) of choice and degree in a timely manner. When researching courses and programs, students are encouraged to pay particular attention to exclusions, prerequisites, and corequisites. Misunderstanding, misapprehension or incorrect advice received from another student will not be accepted as a reason for exemption from any regulation, deadline, program or degree requirement. Staff and faculty are always available to give guidance to students; however, it must be clearly understood that the ultimate responsibility rests with the student for completeness and correctness of course selection; for compliance with prerequisite, corequisite and exclusion requirements, or other course entry requirements; for completion of program requirements; for proper observance of distribution requirements; and for observance of regulations, deadlines, etc.

For more information on support services available to students, please see [Advising Support](#).

Copyright in Instructional Settings

If a student wishes to record, photograph, or otherwise reproduce lecture presentations, course notes or other similar materials provided by instructors, they must obtain the instructor's written consent beforehand. Otherwise, all such reproduction is an infringement of copyright and is absolutely prohibited. In the case of private use by students with disabilities, the instructor's consent will not be unreasonably withheld.

Personal Information

Personal information provided at the time of admission becomes part of your student record and should be kept up-to-date at all times. This information is a vital part of the student's official university record and is used to issue statements of results, transcripts, graduation information, diplomas and other official documents and information. The university is also required by law to collect certain information for the federal and provincial governments; this is reported only in aggregate form and is considered confidential by the university. Any change in the following must therefore be reported immediately to the Office of the Registrar:

- Legal name
- Legal status in Canada

Any change of the following must be recorded on ACORN:

- Permanent address and telephone number
- Mailing address and telephone number while attending U of T Mississauga (if different than above)
- Emergency contact information

Student Accounts with the University

Student Number

Each student at the University of Toronto is assigned a unique identification number. The number is confidential. The University, through the Policy on Access to Student Academic Records, strictly controls access to student numbers. The University assumes and expects that students will protect the confidentiality of their student identification number.

Student Card (TCard)

A TCard is a wallet-sized photo identification card that all University of Toronto students are required to have. It is used for identification purposes within the university, such as evidence of registration, as a library card, for participation in student activities, athletic association privileges, signing up for academic and financial advising, identification at examinations, on Mississauga Transit and to utilize the campus meal plan.

The loss of the student TCard must be reported promptly to the TCard Office (www.utm.utoronto.ca/tcard). The card becomes invalid when a student is not actively registered with the university. There is a replacement fee of \$20 for lost or stolen cards. The university is not responsible for funds accumulated on the TCard if it has been lost.

University Email Address

The University's official method of corresponding with students regarding registration, enrolment status, student accounts and other important areas of business, is through their University of Toronto email address. It is the student's responsibility to check their utoronto.ca email on a regular basis.

UTORid

A UTORid is a student-specific account name that allows access to a variety of services, such as: ACORN, Quercus, utoronto.ca email, Degree Explorer, online services of the Office of the Registrar, UTMail+ and the on-campus wireless network.

Notice of Collection of Personal Information

The University of Toronto respects your privacy.

Personal information that you provide to the University is collected pursuant to section 2(14) of the University of Toronto Act, 1971. It is collected for the purpose of administering admissions, registration, academic programs, university-related student activities, activities of student societies, safety, financial assistance and awards, graduation and university advancement, and reporting to the government. This includes advising notes created to document interactions with students in support of their academic program. These notes may be accessed by authorized departments also involved in advising, to collaboratively support student success.

In addition, the Ministry of Advanced Education and Skills Development has asked that we notify you of the following: The University of Toronto is required to disclose personal information such as Ontario Education Numbers, student characteristics and educational outcomes to the Ministry of Advanced Education and Skills Development under s. 15 of the Ministry of Training, Colleges and Universities Act, R.S.O. 1990, Chapter M.19, as amended. The ministry collects this data for purposes such as planning, allocating and administering public funding to colleges, universities and other post-secondary educational and training institutions and to conduct research and analysis, including longitudinal studies, and statistical activities conducted by or on behalf of the ministry for purposes that relate to post-secondary education and training. Further information on how the Ministry of Advanced Education and Skills Development uses this personal information is available on the ministry's website. At all times it will be protected in accordance with the Freedom of Information and Protection of Privacy Act. If you have questions, please refer to www.utoronto.ca/privacy.

Academic Honesty

Honesty and fairness are considered fundamental to the university's mission, and, as a result, all those who violate those principles are dealt with as if they were damaging the integrity of the university itself. When students are suspected of cheating or a similar academic offence, they are typically surprised at how formally and seriously the matter is dealt with -- and how severe the consequences can be if it is determined that cheating did occur. The University of Toronto treats cases of cheating and plagiarism very seriously.

Examples of offences for which you will be penalized include (but are not limited to):

- Using any unauthorized aids on an exam or test (e.g., "cheat sheets," cell phones, electronic devices, etc.)
- Representing someone else's work or words as your own -- plagiarism
- Falsifying documents or grades
- Purchasing an essay
- Submitting someone else's work as your own
- Submitting the same essay or report in more than one course (without permission)
- Looking at someone else's answers during an exam or test
- Impersonating another person at an exam or test or having someone else impersonate you
- Making up sources or facts for an essay or report.

As a student it is your responsibility to ensure the integrity of your work and to understand what constitutes an academic offence. If you have any concerns that you may be crossing the line, always ask your instructor. Your instructor can explain, for example, the nuances of plagiarism and how to use secondary sources appropriately; he or she will also tell

you what kinds of aids -- calculators, dictionaries, etc. -- are permitted in a test or exam. Ignorance of the rules does not excuse cheating or plagiarism.

This information is taken from a series of University of Toronto policies written to help students understand the university's rules and decision-making structures. To view these policies, please go to www.governingcouncil.utoronto.ca/policies.htm.

All of the policies and procedures surrounding academic offences are dealt with in one policy: "The Code of Behaviour on Academic Matters." Students should also thoroughly review the information at the [Academic Integrity website](#).

Officials of the University

Officials of the University of Toronto

A list of officials of the University of Toronto can be found at:
www.governingcouncil.utoronto.ca

Office of the University Ombudsperson

As part of the University's commitment to ensuring that the rights of its individual members are protected, the University Ombudsperson investigates complaints from any member of the University not handled through regular University channels. The Ombudsperson is independent of all administrative structures of the University and is accountable only to Governing Council.

In handling a complaint, the Ombudsperson has access to all relevant files and information and to all appropriate University officials. All matters are held in strict confidence, unless the individual involved approves otherwise. The Ombudsperson offers advice and assistance and can recommend changes in academic or administrative procedures where this seems justified. Services are available by appointment at all three U of T campuses.

For more information, please visit www.ombudsperson.utoronto.ca.

utm.anthro@utoronto.ca

What is anthropology? Derived from the Greek anthropos (human) and logia (study), anthropology is the study of humankind from its beginnings to the present day.

Nothing human is alien to anthropology. Indeed, of the many disciplines that concern themselves with humans, only anthropology seeks to understand the whole panorama of human existence -- in geographic space and evolutionary time - through comparative and holistic study.

Our programs focus on the four traditional subfields of anthropology: biological, archaeological, sociocultural and linguistic. We also have strengths in forensic anthropology and medical anthropology. Our faculty members study a broad array of topics which can be viewed at: <https://www.utm.utoronto.ca/anthropology/research/research-interests>

The common goal that links our vastly different projects is to advance knowledge of who we are and how we came to be that way. We are all dedicated to disseminating anthropological knowledge through teaching, research, writing and other forms of outreach. Our goal as a department is to train our anthropology students in the fundamentals of all the discipline's subfields. We aim to produce students who are curious about the world in its complexity, and who are well versed in the skills, theories and databases of one or more of our discipline's subfields.

Apart from being employed as faculty in universities and colleges, anthropologists find jobs in national and international

governmental bodies, in international agencies dedicated to, for example, human rights, as well as in business and industry. For additional information see *Anthropology as a Career* by Wm. C. Sturtevant and *The Study of Anthropology* by Morton Fried, available at the library in the Hazel McCallion Academic Learning Centre and the Department's career page www.utm.utoronto.ca/anthropology/undergraduate/careers.

Anthropology Programs

Anthropology - Specialist (Arts)

Enrolment Requirements:

Limited Enrolment – Enrolment in this program is limited. To qualify, students must have completed 4.0 credits and achieved a minimum grade of 63% in each of [ANT101H5](#) and [ANT102H5](#) and [ISP100H5](#). Students applying to enrol after second year must have completed 8.0 credits (including [ANT101H5](#) and [ANT102H5](#) and [ISP100H5](#)), and achieved a minimum average of 63% in ANT courses and [ISP100H5](#).

Completion Requirements:

10.5 credits are required.

First Year: [ANT101H5](#) and [ANT102H5](#) and [ISP100H5](#)

Second Year:

1. ([ANT200H5](#) and [ANT201H5](#)) or (1.0 credit from [ANT202H5](#) or [ANT203H5](#) or [ANT220H5](#))
2. [ANT204H5](#) and [ANT206H5](#) and [ANT207H5](#)

Higher Years:

6.5 additional ANT credits. At least 4.0 credits must be at the 300/400 level, including 1.0 credit at the 400 level.

NOTE: [JAL253H5](#), [JAL351H5](#), [JAL353H5](#), [JAL355H5](#) and [JAL453H5](#) are social science credits and can be used to fulfill ANT program requirements.

[ERSPE1775](#)

Anthropology - Specialist (Science)

Enrolment Requirements:

Limited Enrolment – Enrolment in this program is limited. To qualify, students must have completed 4.0 credits and achieved a minimum grade of 63% in each of [ANT101H5](#) and [ANT102H5](#) and [ISP100H5](#). Students applying to enrol after second year must have completed 8.0 credits (including [ANT101H5](#) and [ANT102H5](#) and [ISP100H5](#)), and achieved a minimum average of 63% in ANT courses and [ISP100H5](#).

Completion Requirements:

10.5 credits are required.

First Year: [ANT101H5](#), [ANT102H5](#), [ISP100H5](#)

Second Year:

1. [ANT200H5](#), [ANT201H5](#), [ANT202H5](#), [ANT203H5](#), [ANT220H5](#)

2. ANT204H5
3. ANT206H5 or ANT207H5

Higher Years:

5.5 additional ANT credits, of which at least 4.0 must be ANT science courses. At least 3.5 of the 5.5 credits must be at the 300/400 level, including 1.0 credit at the 400 level.

ERSPE0105

Anthropology - Major (Arts)

Enrolment Requirements:

Limited Enrolment – Enrolment in this program is limited. To qualify, students must have completed 4.0 credits and achieved a minimum grade of 63% in each of ANT101H5 and ANT102H5 and ISP100H5. Students applying to enrol after second year must have completed 8.0 credits (including ANT101H5 and ANT102H5 and ISP100H5), and achieved a minimum average of 63% in ANT courses and ISP100H5.

Completion Requirements:

7.5 credits are required.

First Year: ANT101H5 and ANT102H5 and ISP100H5

Second Year:

1. ANT204H5 and ANT206H5 and ANT207H5
2. (ANT200H5 and ANT201H5) or (1.0 credit from ANT202H5 or ANT203H5 or ANT220H5)

Higher Years:

3.5 additional ANT credits. At least 1.0 credit must be at the 300 level, including 0.5 credit at the 400 level.

NOTE: JAL253H5, JAL351H5, JAL353H5, JAL355H5 and JAL453H5 are social science credits and can be used to fulfill ANT program requirements.

ERMAJ1775

Anthropology - Major (Science)

Enrolment Requirements:

Limited Enrolment – Enrolment in this program is limited. To qualify, students must have completed 4.0 credits and achieved a minimum grade of 63% in each of ANT101H5 and ANT102H5 and ISP100H5. Students applying to enrol after second year must have completed 8.0 credits (including ANT101H5 and ANT102H5 and ISP100H5), and achieved a minimum **average** of 63% in ANT courses and ISP100H5.

Completion Requirements:

7.5 credits are required.

First Year: ANT101H5 and ANT102H5 and ISP100H5

Second Year:

1. ANT200H5 and ANT201H5 and ANT202H5 and ANT203H5 and ANT220H5
2. ANT204H5
3. ANT206H5 or ANT207H5

Higher Years:

2.5 additional ANT credits, of which at least 2.0 must be ANT science courses. At least 1.0 of the 2.5 credits must be at the 300 level, including 0.5 credit at the 400 level.

ERMAJ0105

Anthropology - Minor (Arts)

Completion Requirements:

4.0 credits are required.

First Year: ANT101H5 and ANT102H5

Second Year: 1.5 credits from ANT200H5 or ANT201H5 or ANT202H5 or ANT203H5 or ANT204H5 or ANT206H5 or ANT207H5 or ANT220H5

Higher Years: 1.5 additional ANT credits. At least 1.0 must be at the 300/400 level.

NOTES: JAL253H5, JAL351H5, JAL353H5, JAL355H5 and JAL453H5 are social science credits and can be used to fulfill ANT program requirements.

ERMIN1775

Anthropology Courses

ANT101H5 • Introduction to Biological Anthropology and Archaeology

Anthropology is the global and holistic study of human biology and behaviour, and includes four subfields: biological anthropology, archaeology, sociocultural anthropology and linguistic anthropology. The material covered is directed to answering the question: What makes us human? This course is a survey of biological anthropology and archaeology.

Exclusions: ANT100Y1 or ANTA01H3

Distribution Requirements: Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

ANT102H5 • Introduction to Sociocultural and Linguistic Anthropology

Anthropology is the global and holistic study of human biology and behaviour, and includes four subfields: biological anthropology, archaeology, sociocultural anthropology and linguistic anthropology. The material covered is directed to answering the question: What makes us human? This course is a survey of sociocultural and linguistic anthropology. In some years, students may have the option of participating in an international learning experience during Reading Week that will have an additional cost and application process.

Exclusions: ANT100Y1 or ANTA02H3

International Component: International - Optional

Distribution Requirements: Social Science

Total Instructional Hours: 24L/12T
Mode of Delivery: In Class

ANT200H5 • Introduction to the Practice of Archaeology

Archaeological theory, method and technique. Principles of scientific research will be applied to archaeological information. The course will cover the following topics: how archaeology applies the scientific method; how archaeological projects are planned and organized; how archaeological data are recovered through survey, excavation and other means; how archaeological data are organized and analyzed to produce information about the human past; the major theoretical paradigms that archaeologists use to interpret the human past.

Prerequisites: ANT101H5
Exclusions: ANT200Y5 or ANT200Y1
Distribution Requirements: Science
Total Instructional Hours: 24L/12P
Mode of Delivery: In Class

ANT201H5 • World Archaeology

Archaeological survey of human cultural development from a global perspective, including: the elaboration of material culture; the expansion of social inequality; the development of diverse food procurement (hunter-gatherer-fisher) and food production (herding-agricultural) economies; and the changes in patterns of mobility over time and between world areas, with the growth of village and city life. Students will engage with the current state of archaeological research and some of the major issues archaeologists address in their recreations of archaeologically-based human history.

Prerequisites: ANT101H5
Exclusions: ANT200Y5 or ANT200Y1
Recommended Preparation: ANT102H5
Distribution Requirements: Science
Total Instructional Hours: 24L/12P
Mode of Delivery: In Class

ANT202H5 • Biological Anthropology: Human Variation and Adaptation

Biological anthropology deals with the diversity and evolution of human beings and their living and fossil relatives, and how they have adapted to their environments. This course will introduce students to basic concepts of human genetics and Mendelian inheritance. The course will also describe the biological and evolutionary factors that have produced the fascinating diversity observed in human populations, and illustrate different ways in which humans have adapted to their environments.

Prerequisites: ANT101H5 or BIO152H5
Exclusions: ANT203Y5 or ANT203Y1 or ANTB15H3

Distribution Requirements: Science
Total Instructional Hours: 24L/12T
Mode of Delivery: In Class

ANT203H5 • Biological Anthropology: Primatology and Palaeoanthropology

Biological anthropology deals with the diversity and evolution of human beings and their living and fossil relatives, and how they have adapted to their environments. This course will introduce students to the remarkable biological diversity of our taxonomic order: the primates. The course will also discuss the rich fossil evidence for human evolution and its interpretation.

Prerequisites: ANT101H5 or BIO153H5
Exclusions: ANT203Y5 or ANT203Y1 or ANTB14H3
Distribution Requirements: Science
Total Instructional Hours: 24L/12P
Mode of Delivery: In Class

ANT204H5 • Sociocultural Anthropology

A general introductory course emphasizing social and political organization, economics, and the development of theory. Specific cases of social dynamics are drawn from both traditional and contemporary societies.

Prerequisites: ANT102H5
Exclusions: ANT204Y5 or ANT207H1 or ANTB19H3
Distribution Requirements: Social Science
Total Instructional Hours: 24L/12T
Mode of Delivery: In Class

ANT205H5 • Introduction to Forensic Anthropology

Introduction to the field of forensic anthropology. Outlines the areas in which forensic anthropologists may contribute to a death investigation and introduces basic concepts relating to the recovery and analysis of human remains.

Prerequisites: ANT101H5 or BIO152H5
Distribution Requirements: Science
Total Instructional Hours: 24L/12P
Mode of Delivery: In Class

ANT206H5 • Culture and Communication

Introduction to linguistic anthropology and sociolinguistics. This includes: the issue of meaning in language, the use of language in context, the role of language in the organization of human activity, language and identity, the sequential organization of talk-in-interaction.

Prerequisites: ANT102H5
Exclusions: ANT206Y5 or ANT253H1 or ANTB21H3

Distribution Requirements: Social Science
Total Instructional Hours: 24L/12T
Mode of Delivery: In Class

ANT207H5 • Being Human: Classic Thought on Self and Society

The question of what it means to be human has been at the core of anthropology for over two centuries, and it remains as pressing now as it ever was. This course introduces students to some classic attempts at addressing this question with specific reference to the nature of personhood and social life. By engaging with the writings of Marx, Weber, Freud, and DeBeauvoir among other great thinkers of the modern age, students will develop deeper knowledge of the major theories guiding anthropological research. We will pay close attention to how arguments are constructed in these texts and focus on the methodologies that these pioneers of social thought developed in their inquiries. The course covers enduring topics ranging from the production of social inequality, what it means to be an individual, how collective life is shaped by economic markets, and the role of religion in shaping human experience, to develop an understanding of central issues facing the world today.

Prerequisites: [ANT102H5](#)
Exclusions: [ANT204Y5](#)
Distribution Requirements: Social Science
Total Instructional Hours: 24L/12T
Mode of Delivery: In Class

ANT208H5 • The Culture Machine: The Anthropology of Everyday Life

This course will introduce students to culture and social theory via the lens of popular culture. Commodities, advertising, and new technologies will be considered in light of their cultural content. The course may consider the marketing of identities, gender, sexualities, bodies, ethnicity, religion, and ideology, as well as resistance.

Distribution Requirements: Social Science
Total Instructional Hours: 24L
Mode of Delivery: In Class

ANT209H5 • War, Trade and Aid: The Anthropology of Global Intervention

This course explores how anthropology approaches the study of various interventions into human life and society. These forms of intervention--nation building, human rights, and development--differ in the scale and scope of their projects and in what they hope to accomplish. They also have much in common. Each is explicitly concerned with improving the conditions under which people live, and yet each has also been criticized for making things worse rather than better. This course will explore why this might

be the case by focusing on examples taken from around the world.

Distribution Requirements: Social Science
Total Instructional Hours: 24L
Mode of Delivery: In Class

ANT210H5 • Fantasies, Hoaxes and Misrepresentations of the Ancient World

Have you ever wondered why television programs like Ancient Aliens are so popular or if they have any merit? Have you also wondered why outrageous ideas about the human past seem to be more popular than the message science presents? This course critically evaluates the anatomy of significant hoaxes, outrageous claims, and just plain old "bad archaeology" in popular culture. Students will develop the tools to critically evaluate potential hoaxes and fictional accounts of the past by investigating a wide variety of cases that range from attempts to rewrite history using fake discoveries, to the simply outrageous claims created in order to promote racist agendas, to make money, or just for the fun of duping an unsuspecting public.

Distribution Requirements: Science
Total Instructional Hours: 24L
Mode of Delivery: In Class

ANT211H5 • Sex, Evolution and Behaviour

This course provides an introduction to the evolutionary significance of mating behaviours and sexual reproduction in modern humans. Students will explore human sexual behaviour with an emphasis on the evolutionary explanations for our mating strategies in relation to other primates. Through lectures, films and readings students will examine such topics as sexual selection, anatomy, sexual development, social organization, and mating patterns.

Exclusions: [ANT331H5](#)
Distribution Requirements: Science
Total Instructional Hours: 24L
Mode of Delivery: In Class

ANT212H5 • Who am I? Topics in Identity and Difference

Who am I? This course gives a sociocultural anthropological answer to this question by focusing on culture as a fundamental means by which humans make society. In particular, it considers how the symbolic systems through which humans conceptualise the world and communicate with one another play a fundamental role in defining identity (who you are) and difference (who you aren't). Through cross-cultural comparison, the course shows how the identities and differences we often

consider 'natural' - sex, gender, age, race, ethnicity and others - are in fact the product of culture and society. Thus, who you are is a question that must be answered in relation to categories others will recognise and allow you to be.

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

ANT214H5 • Anthropology of Food and Nutrition

This course explores human food use and nutrition from a broad anthropological perspective. It examines archaeological evidence of dietary patterns of human ancestors and examines contemporary phenomena such as the preference for sweetness and lactase persistence that are the legacy of ancestral adaptations. It explores significant food revolutions, from the origins of agriculture to the relatively recent phenomenon of biotechnological food production and looks at both the positive and negative effects of these changes on patterns of human growth and health. The goal of the course is to provide students with a basic understanding of nutrition science that is contextualized in contemporary anthropological debates about the costs of changing food systems.

Distribution Requirements: Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

ANT215H5 • How Should One Live? An Introduction to the Anthropology of Ethics

Few questions are more obviously important than that which Socrates poses in Plato's Republic: "how should one live?" This course considers the various ways this question has been asked and the answers it has received across a range of very different contexts. It begins with Socrates' address to the Athenian assembly in The Apology and his conclusion that the examined life is the only one worth living. We then turn to the Greek past and the Homeric background against which the reflective life, that Socrates exemplified, stood in stark contrast. With this background in place we will proceed to consider the various ways in which the question of how one should live has been answered across a range of social settings. Drawing on ethnography as well journalism and documentary film we will consider, for instance, Rastafarianism, Jainism, living "off-grid" in North America, deaf communities in the US, transgenderism, and non-binary gender identity.

Recommended Preparation: [ANT102H5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

ANT216H5 • Racketeers, Smugglers and Pirates: Anthropology of Illegality

This course will explore anthropological approaches to the study of various forms of illegal activities. Denaturalizing the state-imposed categories of legality and illegality, the course will examine how the legal-illegal divide is constructed contingently, and unpack moralities, inequalities, precarities, and forms of politics that illegal activities both rely on and make possible. The course will bring together recent ethnographies of racketeering, gang violence, piracy, human trafficking and contraband smuggling from different world regions.

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

ANT217H5 • Anthropology of Law

The course is designed to introduce the key concepts, issues, and methods of legal anthropology as a specific field of study in relation to the larger history of the discipline. The course will explore how anthropological works understand and examine the legal and social orders, political and normative authorities, frames of rights, regimes of crime and punishment, and forms of justice-seeking. Accounting for different understandings of law and everyday legal practices, the course readings include canonical texts of legal anthropology as well as recent ethnographies of law.

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

ANT218H5 • The Social Conquest of Earth

This course is a quest for the secret of human uniqueness. The success of Homo sapiens, has been described as "a spectacular evolutionary anomaly" that has resulted in human domination of the Earth's biosphere. We will use the comparative method to journey through the Animal Kingdom in hopes of discovering the preadaptive elements that enabled such incredible evolutionary success. On our way we will survey chimpanzee warfare, tool using octopuses, eusocial ants, and night-time hunter-gatherer sentinels - all of which will allow us to better understand the forces that shaped unparalleled cooperative networks in humans. Finally, we will investigate the cognitive and behavioural blessings and curses associated with the drive to belong to a group. The goal of the course is to equip students with a greater understanding of the human condition - and how to leverage this understanding to improve their lives.

Distribution Requirements: Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

ANT219H5 • How Do We Know? The Social Anthropology of Knowledge

“How do we know what we know?” is a question that has long concerned anthropologists. And in a world like ours – where “fake news,” religious credos and conspiracy theories coexist with common sense, mainstream media and scientific truth(s) – the question seems more important than ever. This course explore anthropological insights into knowledge and the question of how we know. To do so we will examine a range of contemporary knowledge-making activities which may include surveillance, witchcraft, conspiracy, governance, Artificial Intelligence and Big Data.

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

ANT220H5 • Introduction to the Anthropology of Health

This course introduces students to the many strategies anthropologists use to understand patterns of health and disease in human populations through time. It will serve as an entry point into the Anthropology of Health focus and will be a prerequisite for later courses in Growth and Development, Infectious Disease, and the Advanced Seminar in the Anthropology of Health. In this course, the concept of health is examined using bioarchaeology, biomedicine, medical anthropology, and epidemiology. The course examines evolutionary, epigenetic, and life history approaches to understanding chronic disease risk in human populations, culminating in an investigation of the role of poverty and social inequality on disease burden. Although the course is designed as an introduction to the Health focus, it is suitable for students seeking training in pre-health disciplines and is open to all students possessing the necessary prerequisites.

Prerequisites: [ANT101H5](#) and [ANT102H5](#)

Exclusions: [ANT208H1](#)

Distribution Requirements: Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

ANT221H5 • The Trust Paradox

The ultimate question that all life is bound to ask is: how do I survive? Our species, evolved a uniquely human answer, which led to our ascendance as the most dominant on the planet but at what cost? This course explores a central human paradox: how altruism, community, kindness, and war and genocide are all driven by the same core adaptation. We'll call this the Trust Paradox and the evolution of this suite of traits, best described as coalitionary cognition, is one of the most complex and ancient in our species. We will explore how this, often imperceptible drive, is responsible for our capacity for both cooperation and competition, and allowed us to navigate increasingly complex social

landscapes. But in our vast modern world, has this blessing become a curse?

Distribution Requirements: Science

Total Instructional Hours: 24L

Mode of Delivery: Online

ANT241H5 • Anthropology and the Indigenous Peoples of Turtle Island (in Canada)

This course will examine the relationship between the field of anthropology and Indigenous people of Turtle Island. We will examine the past, present, and future manifestations of this relationship. This course will emphasize Indigenous, decolonial, and community scholars. Students will be encouraged to think critically and reflect on their own world views.

Exclusions: [ANT241Y5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

ANT299H5 • Research Opportunity Program

This courses provides a richly rewarding opportunity for students in their second year to work in the research project of a professor in return for 299H5 course credit. Students enrolled have an opportunity to become involved in original research, learn research methods and share in the excitement and discovery of acquiring new knowledge. Based on the nature of the project, projects may satisfy the Sciences or Social Sciences distribution requirement. Participating faculty members post their project descriptions for the following summer and fall/winter sessions in early February and students are invited to apply in early March. See [Experiential and International Opportunities](#) for more details.

Mode of Delivery: In Class

ANT300H5 • Cultural Heritage Management: The Past in the Present and for the Future

Cultural Heritage Management, also known as cultural resource management or applied archaeology, aims to protect traces of the past such as artifacts, archaeological sites and cultural landscapes, that have meaning for people in the present. This course takes a broad look at cultural heritage, why it matters in the present, and why we need to preserve aspects of it for the future. Topics may include stakeholders and the politics of the past, mechanisms for the protection of heritage and archaeological sites, the heritage management industry, and the methods used to identify, document, and mitigate impacts to archaeological sites, and to preserve the materials recovered.

Total Instructional Hours: 24L

Mode of Delivery: In Class

ANT306H5 • Forensic Anthropology Field School

Introduction to the field of forensic anthropological field techniques and scene interpretation. A 2-week field school will be held on the U of T Mississauga campus (Monday to Friday 9 a.m. to 5 p.m., two weeks in August). Weekly 2-hour classes will be held during the fall term. In these classes, students will examine casts, maps, photos and other evidence collected in the field, for the purposes of scene reconstruction and presentation in court. Limited Enrolment and Application Process: see Anthropology department website for more details.

Prerequisites: [ANT205H5](#)

Course Experience: University-Based Experience

Distribution Requirements: Science

Total Instructional Hours: 104P

Mode of Delivery: In Class

ANT310H5 • Political Anthropology of Ancient States

Today most people live in state-level societies. But 8,000 years ago, no one did. Why such a dramatic change? This comparative analysis of ancient, complexly organized societies is focused on understanding the processes involved in the functioning of states, examining how various political, social, economic, and religious orientations affected state information, cohesion,

maintenance and dissolution. What were the range of alternatives explored in the earliest and later complexly organized societies that developed around the world?

Prerequisites: [ANT200H5](#) and [ANT201H5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

ANT312H5 • Archaeological Analysis

This course will introduce the process of archaeological research, from project design through report write-up. The student will create a project proposal, choose methods of survey and excavation, describe and organize data for analysis, and summarize findings in a project report.

Prerequisites: [ANT200H5](#) and [ANT201H5](#)

Exclusions: [ARH312Y1](#)

Distribution Requirements: Science

Total Instructional Hours: 12L/24P

Mode of Delivery: In Class

ANT313H5 • China, Korea and Japan in Prehistory

The exploration of the remarkable prehistories of China, the Koreas and Japan challenge western thought on agricultural origins, complex hunter-gatherers, urbanization and the development of centralized authority. This course evaluates current thinking about these issues in the three regions and examines the impact of local archaeological practice on the construction of narratives about the past.

Prerequisites: [ANT200H5](#) and [ANT201H5](#)

Distribution Requirements: Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

ANT314H5 • History of Archaeological Theory

This course examines major schools of archaeological thought over time. We will explore how theoretical approaches to archaeological explanations of the human past affect and are affected by how archaeologists investigate research questions and interpret archaeological evidence. Readings include historically important key works as well as recent syntheses.

Prerequisites: [ANT200H5](#) and [ANT201H5](#)

Distribution Requirements: Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

ANT316H5 • South Asian Archaeology

This course surveys the archaeology of South Asia (modern-day India, Pakistan, Sri Lanka and northern regions) from the Palaeolithic to the Medieval Period (+200,000 ya to ca. 1600 CE/AD) using a comparative framework. South Asia is a place where many external cultural traditions mixed with indigenous traditions to create new socioeconomic and sociopolitical entities and sequences. While we will examine classic examples of hunter-gatherer groups, early villages, urban settlements, regional polities, and large empires through time, we will also stress the contemporaneity of groups of people with very different lifestyles -- hunter-gatherers participated in trading networks with town and city dwellers, pastoral nomads moved through settled village regions during their annual migrations. The impact of archaeological research on the region today is seen through the politicization of South Asian prehistory and history that has strongly affected both interpretations of the past and modern political events. Cases such as the debate over the identity of the Harappans and the existence of the Aryans will be evaluated from both an archaeological and a political perspective.

Prerequisites: [ANT200H5](#) and [ANT201H5](#) or [HIS282H5](#) or [RLG205H5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

ANT317H5 • Archaeology of Indigenous Eastern North America

This course is a survey from an archaeological perspective of Indigenous history in Ontario and the Eastern Woodlands of North America from earliest times until colonization. Themes examined will include technology, subsistence, shelter, landscape use, art, and trade and how these vary in time and space.

Prerequisites: [ANT200H5](#) and [ANT201H5](#)

Exclusions: [ANT317H1](#)

Distribution Requirements: Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

ANT318H5 • Archaeological Fieldwork

Introduction to archaeological field methods. Practical component of the field school takes place on the UTM campus during the last two weeks of August (Monday-Friday 9:00 am – 5:00 pm). Morning lectures (week one) covering note taking, map making, cultural landscapes, material culture identification and survey and excavation methods, are followed by afternoons in the field applying skills taught that morning. Week two is spent excavating at an archaeological site. During weekly laboratory sessions September – December students learn to process, identify, and catalogue artifacts recovered during the field component. Limited Enrolment and Application

Process: see Anthropology department website for more details.

Prerequisites: [ANT200H5](#) and [ANT201H5](#)

Course Experience: University-Based Experience

Distribution Requirements: Science

Total Instructional Hours: 27L/101P

Mode of Delivery: In Class

ANT320H5 • Archaeological Approaches to Technology

Using hands-on learning as a primary approach, this course focuses on insights into social and cultural processes provided by the study of ancient and historic technology. Experimental, ethnographic, archaeological, and textual data are used to examine topics such as organization and control of production, style of technology, and the value of objects. Throughout, we will discuss social and cultural as well as economic and functional reasons for the development and adoption of new technologies.

Prerequisites: [ANT200H5](#) and [ANT201H5](#)

Recommended Preparation: [ANT204H5](#) or [ANT207H5](#)

Distribution Requirements: Science

Total Instructional Hours: 12L/24P

Mode of Delivery: In Class

ANT322H5 • Anthropology of Youth

This course will present various perspectives on the nature and dynamics of youth culture. The course will examine one or more of the following: capitalism and youth cultures, ethnomusicology, and discourses of "youth." Topics may include North American subcultures (such as punk and hip-hop) and/or ethnographies of youth from other parts of the world. The course may also use frameworks from cultural studies and semiotics.

Prerequisites: [ANT204H5](#) or [ANT207H5](#)

Exclusions: [ANT322H1](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

ANT327H5 • Agricultural Origins: The Second Revolution

A second revolution in human existence began when people developed agriculture long after the origin of modern humans and Upper Palaeolithic culture. This course critically evaluates the shift to agriculture in the context of current ecological and archaeological perspectives. The concept of "agriculture" is evaluated by considering plant and animal domestication as well as resource management in a broad range of contexts.

Prerequisites: [ANT200H5](#) and [ANT201H5](#)

Distribution Requirements: Science

Total Instructional Hours: 24L
Mode of Delivery: In Class

ANT331H5 • The Biology of Human Sexuality

Human sexual behaviours will be examined through the lens of evolutionary theory. Through lectures and readings, students will examine such topics as genetic, hormonal, and environmental determinants of sex, sexual selection, and the influence of sex on life history and behaviour. Students will discuss research that has been published in this area, and will develop critical assessments of the literature and films.

Prerequisites: ANT202H5 or ANT203H5 or ANT211H5
Exclusions: ANT330H5 and ANT331Y5
Recommended Preparation: ANT211H5
Distribution Requirements: Science
Total Instructional Hours: 24L
Mode of Delivery: In Class

ANT332H5 • Human Origins I: Early Ancestors to Homo

What does it mean to be human? Paleoanthropologists address this question by using fossil evidence to piece together our evolutionary history. Who we are today is a product of our biological and geological past. We will begin this quest by looking at ourselves as primates, and then we will traverse back through time to study primate origins, evolution, adaptations, and behaviour until we reach our genus, Homo.

Prerequisites: ANT202H5 and ANT203H5
Exclusions: ANT332Y5 or ANT335Y1 or ANTC16H3 or ANTC17H3
Distribution Requirements: Science
Total Instructional Hours: 24L/12P
Mode of Delivery: In Class

ANT333H5 • Human Origins II: The genus Homo

What does it mean to be human? This course will examine the evolutionary journey through the genus Homo by examining the fossil evidence and the archeological record. Through this examination we will discover the unique biological and behavioural characteristics of modern humans.

Prerequisites: ANT332H5
Exclusions: ANT332Y5 or ANT335Y1 or ANTC16H3 or ANTC17H3
Distribution Requirements: Science
Total Instructional Hours: 24L/12P
Mode of Delivery: In Class

ANT334H5 • Human Osteology

In this course students are given hands-on experience in the identification of the normal anatomy of the adult human skeleton with accompanying muscle function. Metrical variation, growth and development, bone histology, and methods of individual identification are introduced.

Prerequisites: ANT202H5 and ANT203H5
Exclusions: ANT334Y5 or ANT334H1 or ANT334Y1 or ANTC47H3
Distribution Requirements: Science
Total Instructional Hours: 12L/36P
Mode of Delivery: In Class

ANT335H5 • Anthropology of Gender

Survey of the function of gender roles from evolutionary and cultural perspectives. Cross-cultural variation in human sexual behaviour and gender will be examined. In some years, as part of this course, students may have the option of participating in an international learning experience that will have an additional cost and application process. See Anthropology department website for more details.

Prerequisites: ANT204H5 or ANT206H5 or ANT207H5
Exclusions: ANT331Y5 or ANT343Y1 or ANT343H1 or ANTC15H3
Recommended Preparation: ANT202H5 and ANT203H5
International Component: International - Optional
Distribution Requirements: Social Science
Total Instructional Hours: 24L/12S
Mode of Delivery: In Class

ANT337H5 • Anthropology of Growth and Development

This course examines the fundamental biological principles of growth and how these are expressed throughout evolution. It explores the evolution of growth patterns among primates and hominins and compares patterns of growth among the living primates. The course examines human growth and development throughout infancy, childhood, and adolescence and explores the influence of genetic, epigenetic, and endocrine processes on the plasticity of human growth that ultimately produces the variability observed in our species. The goal of the course is to provide students with a complex understanding of how evolutionary and environmental processes interact in the production of growth and health in human populations.

Prerequisites: (ANT202H5 or ANT203H5) and ANT220H5
Distribution Requirements: Science
Total Instructional Hours: 24L
Mode of Delivery: In Class

ANT338H5 • Laboratory Methods in Biological Anthropology

This lab methods course focuses on laboratory techniques used by biological anthropologists to assess growth, health, and risk of chronic disease in human populations. In this course students will gain practical, hands-on experience in nutrition assessment, anthropometry, physical activity and sleep assessment, and human energy expenditure. State-of-the-art instruments and software are employed, ensuring students gain valuable knowledge of data management and analysis using applications suitable in both clinical and research settings.

Prerequisites: ([ANT202H5](#) or [ANT203H5](#)) and [ANT220H5](#)

Distribution Requirements: Science

Total Instructional Hours: 12L/24P

Mode of Delivery: In Class

ANT340H5 • Osteological Theory and Methods

This course instructs students in the osteological methods used to interpret the life course of past populations, and the theory underlying these analyses. We will explore how skeletal analyses are employed to interpret group identity and behaviour using a biocultural approach and will address ethical issues pertaining to human remains, including the goals of descendant populations. The theoretical underpinnings of osteobiographical analyses, biological distance studies, paleopathology, and paleodemography will be outlined. Students will observe human morphological skeletal variation as a result of taphonomic processes, sex, age, pathological conditions, and non-metric variance.

Prerequisites: [ANT334H5](#)

Exclusions: [ANT334Y5](#) or [ANTC48H3](#)

Distribution Requirements: Science

Total Instructional Hours: 24L/24P

Mode of Delivery: In Class

ANT341H5 • Anthropology of Infectious Disease

Infection is situated at the intersection of social and biological experience. This course examines why infectious disease occupies such a central position in our contemporary understanding of health. It examines the many theoretical and methodological approaches currently used to understand how humans experience infectious illness. Perspectives from bioarchaeology, demography, environmental anthropology, medical history, biocultural anthropology, and medical anthropology are used to examine the way epidemics and infections have been understood throughout human history and how those understandings continue to shape human perceptions of risk, the body and identity. Social inequality is a major focus of inquiry; the course explores how colonialism, globalization and injustice lead to

significant and persistent health inequalities for many populations.

Prerequisites: ([ANT202H5](#) or [ANT204H5](#)) and [ANT220H5](#)

Distribution Requirements: Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

ANT350H5 • Globalization and the Changing World of Work

The course uses ethnographic material to examine ways in which global forces have changed the nature of work in different sites since World War Two -- North America, Europe, and the countries of the South are selectively included.

Prerequisites: [ANT204H5](#) or [ANT207H5](#)

Exclusions: [ANT350H1](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

ANT351H5 • Money, Markets, Gifts: Topics in Economic Anthropology

Sociocultural anthropology has, since its inception, questioned the assumption that "the economy" ought to be understood as a domain distinguishable from other fields of human interaction, such as religion and kinship, or from power, politics, affect, and morality. This class offers a set of introductory readings that range from the analysis of non-Western forms of exchange and value to the study of capitalism; from stock-markets to the anti-globalization movement.

Prerequisites: [ANT204H5](#) or [ANT207H5](#)

Exclusions: [ANT378H1](#) and [ANTC19H3](#) and [ANTC20H3](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

ANT352H5 • Protest, Power and Authority: Topics in Political Anthropology

This course explores ethnographically the social and cultural practices through which the exercise of power is legitimized, authorized, and contested, examining such topics as nation-building, non-governmental activism, human rights, and the global "war on terror."

Prerequisites: [ANT204H5](#) or [ANT207H5](#) or [POL113H5](#) or [POL200Y5](#)

Exclusions: [ANTC32H3](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

ANT353H5 • Queer Bodies: Gender, Disability, and Illness

This course explores key concepts in medical anthropology, disability studies, and gender and queer studies by examining how gender and sexuality matter in the contexts of illness and disability across a range of institutional, social, and national contexts. Students will learn to think critically about the body as a site of power configured in the social and material fields of health/illness, dis/ability, race, and gender and sexuality.

Prerequisites: ANT204H5 or ANT207H5

Exclusions: ANT381H5S - Special Topics in Sociocultural and Linguistic Anthropology (Winter 2021)

Distribution Requirements: Social Science

Total Instructional Hours: 12L/12S

Mode of Delivery: In Class

ANT354H5 • Capitalism and its Rebels

This class explores different forms of rebellion, insurgency, protest and political mobilization from an anthropological perspective, focusing specifically on anti-capitalist mobilizations. Grounded in ethnographies that range from studies of piracy, hacking, and the occupy movements, to struggles against the privatization of water and social movements organizing for "the commons," this course offers key insight into contemporary social movements, their deep groundings in the past, and the implications they might have for the future.

Prerequisites: ANT204H5 or ANT207H5

Exclusions: ANT322H5 in Spring 2014

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

ANT355H5 • Disabled Cyborgs and Racist Robots: Bodies, Technologies, and Social Justice

How does technology mediate our ideas about the social differences of disability, race, and gender? By rethinking the role of technology in reproducing social disparities and challenging bioethical debates about enhancement, students will emerge with the tools to reimagine the relationship between technology, the human body, and social justice.

Prerequisites: 8.0 credits of which 0.5 credits must be a social sciences or humanities course at the 200-level or higher

Distribution Requirements: Social Science

Total Instructional Hours: 12L/12S

Mode of Delivery: In Class

ANT356H5 • War, Peace, and Revolution in the Middle East: Anthropological Perspectives on Political Conflicts

This course will explore political violence and social change in the modern Middle East. What forms of loyalty, authority or rivalry have accompanied political violence? What economic activities and relations have been shaped by political conflict and peace in the region? What are the historical origins of nation-states, political regimes, and social movements in the region? By taking a historical and anthropological look at political conflict and change, this course will examine the transformations of the region in the last two centuries.

Prerequisites: ANT204H5 or ANT207H5

Distribution Requirements: Social Science

Total Instructional Hours: 12L/12S

Mode of Delivery: In Class

ANT357H5 • Nature, People and Power: Topics in Environmental Anthropology

This course examines anthropological approaches to the environment and environmentalism. Through key readings on indigenous peoples and conservation, traditional ecological knowledge, community-based natural resource management, ecotourism and the human dimensions of climate change, the course explores the complex social, cultural and political encounters that produce 'the environment' as a resource in need of management.

Prerequisites: ANT204H5

Exclusions: ANT351H1 and ANT457H5

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

ANT358H5 • Field Methods in Sociocultural Anthropology

This course investigates how sociocultural and/or linguistic anthropologists collect data, conduct fieldwork, and interpret research results. The course will benefit students who want to gain an appreciation of research design and practice and those considering graduate-level work in anthropology or another social science.

Prerequisites: ANT204H5 or ANT207H5

Exclusions: ANT369H1 and ANTC60H3

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

ANT360H5 • Anthropology of Religion

This course considers anthropological approaches to western and non-western religions and religious phenomena.

Prerequisites: [ANT204H5](#) or [ANT207H5](#)
Exclusions: [ANT356H1](#) and [ANTC33H3](#)
Distribution Requirements: Social Science
Total Instructional Hours: 24L
Mode of Delivery: In Class

ANT362H5 • Language in Culture and Society

The course aims to introduce students to theoretical questions and contemporary research in linguistic anthropology. Topics include language ideologies, language and media, language and embodiment, as well as core theories in linguistic anthropology.

Prerequisites: [ANT204H5](#) or [ANT207H5](#) and [ANT206H5](#)
Distribution Requirements: Social Science
Total Instructional Hours: 24L
Mode of Delivery: In Class

ANT363H5 • Magic and Science

What's the difference between magic and science? Is there one? This course explores anthropological approaches to magic and science and related topics, raising basic questions about the nature of knowledge: what can we know about the world, and how can we know it? Through close readings of key anthropological texts, we consider what--if anything--differentiates magic and science, belief and truth, subjectivity and objectivity, irrationality and rationality.

Prerequisites: [ANT204H5](#) or [ANT207H5](#)
Distribution Requirements: Social Science
Total Instructional Hours: 12L/12S
Mode of Delivery: In Class

ANT364H5 • Fieldwork in Language, Culture, and Society

This course will give students hands-on experience in methods for recording, transcribing, coding, and analyzing ethnographic data in linguistic anthropology. Students will synthesize weekly reading materials focused on these methods with actual, collaborative, in-class practice on a designated topic in the anthropology of everyday social interaction. Through this synthesis students will come to discern the relationship between everyday instances of communication between people and what the patterns of speech in this interaction may say about larger society. Students will be expected to develop their own analyses of the data collected under the guidance of the instructor and to formulate a final project.

Prerequisites: [ANT204H5](#) or [ANT206H5](#) or [JAL353H5](#)
Distribution Requirements: Social Science
Total Instructional Hours: 24L/12P
Mode of Delivery: In Class

ANT365H5 • Meaning, Self, Society

Humans, to paraphrase Clifford Geertz, are suspended in webs of meaning that they themselves have spun. This course introduces students to the tools anthropologists and others have developed in order to analyze and understand these "webs of meaning." Readings in philosophy, cultural theory and ethnography will be used to engage with questions regarding the construction of meaning in relation to ethnic identity, social structure, gender, political economy, personhood, and religion. Drawing on classic texts and the tools of semiotics, students will learn to apply the lens of symbolic analysis to interpret a range of contemporary social phenomena.

Prerequisites: [ANT204H5](#) or [ANT207H5](#)
Distribution Requirements: Social Science
Total Instructional Hours: 24L
Mode of Delivery: In Class

ANT367H5 • Sister Species: Lessons from the chimpanzee

Chimpanzees are our closest living relatives. In this course we will examine chimpanzee behavior, ecology, morphology, physiology, language, intelligence, and genetics. Through lectures, labs, films and writing assignments we will get an intimate look at every aspect of chimpanzee biology and behavior. Among questions asked will be: Why do animals use or not use tools? Why are animals aggressive? How does physiology influence what chimpanzees can eat and what's healthy to eat? Can chimpanzees use language? Do chimpanzees use medicine? Just how different are chimpanzee bones, muscles, and brains from our own? Throughout the class we will turn to use chimpanzees as a model to better understand ourselves and our place in nature.

Prerequisites: [ANT202H5](#) and [ANT203H5](#)
Distribution Requirements: Science
Total Instructional Hours: 24L
Mode of Delivery: In Class

ANT368H5 • World Religions and Ecology

A study of the responses of selected world religious traditions to the emergence of global ecological concerns. Key concepts and tenets of the traditions and their relevance for examination of the environment crisis. In some years, students may additionally have the option of participating in an international learning experience during Reading Week that will have an additional cost and application process.

Prerequisites: [ANT204H5](#) or [ANT207H5](#) or [RLG101H5](#) or [ENV100Y5](#)
Exclusions: [RLG311H5](#)
International Component: International - Optional
Distribution Requirements: Social Science

Total Instructional Hours: 24L
Mode of Delivery: In Class

ANT369H5 • Religious Violence and Nonviolence

Religious violence and nonviolence as they emerge in the tension between strict adherence to tradition and individual actions of charismatic figures. The place of violence and nonviolence in selected faith traditions.

Prerequisites: ANT204H5 or ANT207H5 or RLG101H5
Exclusions: RLG317H5
Distribution Requirements: Social Science
Total Instructional Hours: 24L
Mode of Delivery: In Class

ANT370H5 • Environment, Culture and Film

Our present environmental challenge constitutes of the most pressing areas of contemporary social, cultural, ethical and ecological concern. Acid rain, poisoned air, forest clear-cutting, ozone depletion, global climate change, toxic waste sites--the list goes on--all weigh heavily on our personal and intellectual lives. This course attempts to introduce students to both the scope and seriousness of present ecological concerns, as well as some core principles and concepts in the field of the intersection of environment and culture, through the lens of feature films. Themes such as the precautionary principle, urban/rural dualisms, ecofeminism, deep ecology, and the overwhelming burden placed on poor populations by environmental destruction are but a few of the areas which will be examined through the use of feature films, both classic and contemporary. We will do this in part by touching on some of the major writers and classic essays in the field, Class lectures will be supplemented by audiovisuals, guest lectures and class discussions.

Prerequisites: ANT204H5 or ANT207H5 or ENV100Y5
Distribution Requirements: Social Science
Total Instructional Hours: 36L
Mode of Delivery: In Class

ANT380H5 • Special Topics in Biological Anthropology and Archaeology

Special course on selected topics in biological anthropology and/or archaeology; focus of topic changes each year. The contact hours for this course may vary in terms of contact type (L,S,T,P) from year to year, but will be between 24-36 contact hours in total. See the UTM Timetable.

Prerequisites: Appropriate 200-level prerequisite core course requirement(s) will be posted on the departmental website along with the Special Topics title and description

prior to course registration.
Distribution Requirements: Science
Total Instructional Hours: 24L
Mode of Delivery: In Class

ANT381H5 • Special Topics in Sociocultural and Linguistic Anthropology

Special course on selected topics in sociocultural and/or linguistic anthropology; focus of topic changes each year. The contact hours for this course may vary in terms of contact type (L,S,T,P) from year to year, but will be between 24-36 contact hours in total. See the UTM Timetable.

Prerequisites: Appropriate 200-level prerequisite core course requirement(s) will be posted on the departmental website along with the Special Topics title and description prior to course registration.
Distribution Requirements: Social Science
Total Instructional Hours: 24L
Mode of Delivery: In Class

ANT397H5 • Independent Study

This independent study course is designed to offer students advanced supervised reading and initial research planning on an anthropological topic not covered in other courses, or covered only briefly. Students who wish to pursue this option with a specific faculty member should approach the faculty member early - before the start of the academic term - to negotiate the reading and study program.

Prerequisites: Permission of Instructor and Permission of Department
Distribution Requirements: Science, Social Science
Mode of Delivery: In Class

ANT397Y5 • Independent Study

This independent study course is designed to offer students advanced supervised reading and initial research planning on an anthropological topic not covered in other courses, or covered only briefly. Students who wish to pursue this option with a specific faculty member should approach the faculty member early - before the start of the academic term - to negotiate the reading and study program.

Prerequisites: Permission of Instructor and Permission of Department
Distribution Requirements: Science, Social Science
Mode of Delivery: In Class

ANT398H5 • Independent Reading

This independent reading course is designed to offer students advanced supervised reading on an anthropological topic not covered in other courses, or covered only briefly. Students who wish to pursue this option with a specific faculty member should approach the faculty member early - before the start of the academic term - to negotiate the reading program.

Prerequisites: Permission of Instructor and Permission of Department

Distribution Requirements: Science, Social Science

Mode of Delivery: In Class

ANT398Y5 • Independent Reading

This independent reading course is designed to offer students advanced supervised reading on an anthropological topic not covered in other courses, or covered only briefly. Students who wish to pursue this option with a specific faculty member should approach the faculty member early - before the start of the academic term - to negotiate the reading program.

Prerequisites: Permission of Instructor and Permission of Department

Distribution Requirements: Science, Social Science

Mode of Delivery: In Class

ANT399H5 • Research Opportunity Program

This course provides senior undergraduate students who have developed some knowledge of a discipline and its research methods an opportunity to work in the research project of a professor in return for course credit. Students enrolled have an opportunity to become involved in original research, develop their research skills and share in the excitement and discovery of acquiring new knowledge. Based on the nature of the project, projects may satisfy the Sciences or Social Sciences distribution requirement. Participating faculty members post their project descriptions for the following summer and fall/winter sessions in early March. See [Experiential and International Opportunities](#) for more details.

Exclusions: ANT399Y5

Mode of Delivery: In Class

ANT399Y5 • Research Opportunity Program

This course provides senior undergraduate students who have developed some knowledge of a discipline and its research methods an opportunity to work in the research project of a professor in return for course credit. Students enrolled have an opportunity to become involved in original research, develop their research skills and share in the excitement and discovery of acquiring new

knowledge. Based on the nature of the project, projects may satisfy the Sciences or Social Sciences distribution requirement. Participating faculty members post their project descriptions for the following summer and fall/winter sessions in early March. See [Experiential and International Opportunities](#) for more details.

Exclusions: ANT399H5

Mode of Delivery: In Class

ANT402H5 • Wild Nights: Sleep, evolution, and performance in the 21st century

Sleep is essential to cognitive function and health in humans, yet the ultimate reasons for sleep - that is, 'why' we sleep - remains mysterious. This course integrates research findings from human sleep studies, the ethnographic record, and the ecology and evolution of mammalian and primate sleep to better understand sleep along the human lineage and in the modern world. Students will learn how to use 'wearable' technology, such as actigraphy, for scientific research. The goal of the course is to empower students with the theoretical and technological tools to be able to not only critically assess their own sleep-wake behaviour and performance but also popular generalizations about how to maximize long-term health outcomes.

Prerequisites: (ANT202H5 or ANT203H5 or ANT220H5) and 2.0 credits in 300-400 level Anthropology or Psychology or Biology courses

Recommended Preparation: Priority may be given to students who are considering a Master's thesis in anthropology, psychology, or biology. Basic statistics.

Distribution Requirements: Science

Total Instructional Hours: 24L/12T

Mode of Delivery: Online, In Class

ANT403H5 • Social Learning and Cultural Patterns

Social learning is fundamental to human experience, through which individuals, societies, and generations share information and practices, and form cultural patterns and norms. Learning how to do something is also learning how to be a member of a society. Understanding social learning enables us to make the connections between the population-level, intergenerational cultural phenomena and the measurable individual-level process. This course uses case studies from anthropology, psychology, and biology to discuss the social, psychological, and biological foundations of social learning and the roles of social learning in enabling the accumulation of knowledge in human societies and shaping cultural patterns.

Prerequisites: At least 1.5 credits from (ANT200H5 or ANT201H5 or ANT202H5 or ANT204H5 or ANT206H5 or ANT218H5) and 2.0 credits at the 300-400 level in Anthropology or Psychology or Biology courses

Distribution Requirements: Science

Total Instructional Hours: 24S

Mode of Delivery: In Class

ANT404H5 • Current Topics in Palaeoanthropology

This course will introduce students to cutting-edge developments in the palaeoanthropological field. The weekly seminars will be strongly research-based, incorporating the latest discoveries, publications and debates. This course will also involve an in-class practical component during which the extensive cast collection in the department will be utilized, together with new 3D methods for fossil visualization. The goal of this course is to: 1) reinforce key theoretical concepts traditionally applied in the field, and 2) provide students with knowledge of the more recent debates and methodological approaches currently pushing the boundaries of palaeoanthropology.

Prerequisites: [ANT202H5](#) and [ANT203H5](#) and 1.0 credits in 300-level anthropology courses and departmental approval.

Recommended Preparation: [ANT332H5](#) and [ANT333H5](#)

Distribution Requirements: Science

Total Instructional Hours: 12P/12S

Mode of Delivery: In Class

ANT405H5 • Behind Bars: Anthropology of Institutions and Confinement

This course explores confinement, institutions, and incarceration from a broad anthropological perspective. Bioarchaeological, archaeological, and ethnographic research on institutions (e.g., asylums, poorhouses, prisons) will be critically examined. The goal of the course is to provide students with a complex understanding of institutionalization through time and how health vulnerabilities are created and recreated.

Prerequisites: [ANT200H5](#) and [ANT220H5](#)

Distribution Requirements: Science

Total Instructional Hours: 24S

Mode of Delivery: In Class

ANT407H5 • Quantitative Methods in Archaeology and Biological Anthropology

This course will provide students with the basic analytic background necessary to evaluate quantitative data in biological anthropology and archaeology. Students will be introduced to foundational statistical concepts and research methods suitable for anthropological exploration. The focus will be on analysing univariate and bivariate data using both nonparametric and parametric statistical techniques, hypothesis testing, and methods of data collection. The goal of this course is for students to learn

how to manipulate simple datasets, ask and answer theoretically relevant questions, and choose the appropriate statistical test for a given research problem. Students will receive hands-on training during lab components and will learn how to analyse data using relevant statistical software. Students will have access to a number of biological anthropology and archaeology datasets for class assignments. No prior knowledge of statistics and mathematics is required.

Prerequisites: ([ANT200H5](#) and [ANT201H5](#)) or ([ANT202H5](#) and [ANT203H5](#))

Exclusions: [ANTC35H3](#) and [BIO360H5](#) and [BIO361H5](#) and [ECO220Y5](#) and [ECO227Y5](#) and [PSY201H5](#) and [PSY202H5](#) and [SOC300Y5](#) and ([SOC350H5](#) and [SOC351H5](#)) and [STA218H5](#) and [STA220H5](#) and [STA221H5](#) and [STA256H5](#) and [STA258H5](#) and [STA260H5](#)

Distribution Requirements: Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

ANT414H5 • People and Plants in Prehistory

The relationship between plants and people through time offers important insights into our past, particularly human-environmental interaction, plant domestication, and agricultural origins and development. Students will learn archaeological plant remains identification and interpretation skills through a combination of laboratory and seminar sessions. In some years, students may additionally have the option of participating in an international learning experience during Reading Week that will have an additional cost and application process. Skills learned in this course are also useful in forensic investigations. Students will develop a project based on archaeological material from Japan and/or Ontario in consultation with the instructor.

Prerequisites: [ANT200H5](#) and [ANT201H5](#) and 0.5 credit at a 300-level archaeology course, or permission of department

International Component: International - Optional

Distribution Requirements: Science

Total Instructional Hours: 12L/24P

Mode of Delivery: In Class

ANT415H5 • Faunal Archaeo-Osteology

Examination and interpretation of faunal material from archaeological sites, to obtain cultural information regarding the site occupants.

Prerequisites: ([ANT200H5](#) and [ANT201H5](#)) and ([ANT306H5](#) or [ANT308H5](#) or [ANT312H5](#) or [ANT318H5](#))

Exclusions: [ANT415Y5](#) and [ANT415Y1](#)

Recommended Preparation: [ANT312H5](#) or ([ANT334H5](#) and [ANT340H5](#))

Distribution Requirements: Science

Total Instructional Hours: 12L/36P
Mode of Delivery: In Class

ANT416H5 • Advanced Archaeological Analysis

This course will involve students in applied laboratory methods in archaeology. Each student will engage in an individual research project on an archaeological data set. Techniques will include basic description, measurement, quantitative analysis and qualitative analysis. The primary focus will be ceramic and lithic analysis.

Prerequisites: ANT312H5
Exclusions: ANT312Y1
Distribution Requirements: Science
Total Instructional Hours: 12L/24P
Mode of Delivery: In Class

ANT418H5 • Advanced Archaeological Fieldwork

Practical experience for students who completed ANT318H5 and are ready for more advanced field experiences. During practical component (last two weeks of August, Monday-Friday 9:00 am – 5:00 pm) students have responsibility for recording/documenting an archaeological site in the field, including survey and detailed mapping. Students also act as mentors to ANT318 students during pedestrian and subsurface survey, and excavation. During weekly laboratory sessions September – December students process, identify, and catalogue artifacts, and learn to write an archaeological report and site record form. Limited Enrolment and Application Process: see Anthropology department website for more details.

Prerequisites: ANT318H5
Course Experience: University-Based Experience
Distribution Requirements: Science
Total Instructional Hours: 27L/101P
Mode of Delivery: In Class

ANT430H5 • Special Problems in Biological Anthropology and Archaeology

Special seminar on selected topics in biological anthropology and/or archaeology; focus of seminar changes each year.

Prerequisites: Appropriate 200-level and/or 300-level prerequisite core course requirement(s) will be posted on the departmental website along with the Special Topics title and description prior to course registration.
Distribution Requirements: Science
Total Instructional Hours: 24S
Mode of Delivery: In Class

ANT431H5 • Special Problems in Sociocultural and Linguistic Anthropology

Special seminar on selected topics in sociocultural and/or linguistic anthropology; focus of seminar changes each year.

Prerequisites: Appropriate 200-level and/or 300-level prerequisite core course requirement(s) will be posted on the departmental website along with the Special Topics title and description prior to course registration.
Distribution Requirements: Social Science
Total Instructional Hours: 24S
Mode of Delivery: In Class

ANT432H5 • Advanced Seminar in Biological Anthropology and Archaeology

Special seminar on selected topics in any scientific aspect of anthropology, including one or more sub-fields; focus of seminar changes each year. The contact hours for this course may vary in terms of contact type (L,S,T,P) from year to year, but will be between 24-36 contact hours in total. See the UTM Timetable.

Prerequisites: Appropriate 200-level and/or 300-level prerequisite core course requirement(s) will be posted on the departmental website along with the Special Topics title and description prior to course registration.
Distribution Requirements: Science
Total Instructional Hours: 24S
Mode of Delivery: In Class

ANT433H5 • Advanced Seminar in Sociocultural and Linguistic Anthropology

Special seminar on selected topics in any social science aspect of anthropology, including one or more sub-fields; focus of seminar changes each year. The contact hours for this course may vary in terms of contact type (L,S,T,P) from year to year, but will be between 24-36 contact hours in total. See the UTM Timetable.

Prerequisites: Appropriate 200-level and/or 300-level prerequisite core course requirement(s) will be posted on the departmental website along with the Special Topics title and description prior to course registration.
Distribution Requirements: Social Science
Total Instructional Hours: 24S
Mode of Delivery: In Class

ANT434H5 • Palaeopathology

The study of diseases and maladies of ancient populations. The course will survey the range of pathology

on human skeletons, (trauma, infection, syphilis, tuberculosis, leprosy, anemia, metabolic disturbances, arthritis and tumors).

Prerequisites: ANT334H5

Corequisites: ANT340H5

Distribution Requirements: Science

Total Instructional Hours: 12L/36P

Mode of Delivery: In Class

ANT436H5 • Theory and Methods in Molecular Anthropology

Survey of theory and methods in molecular anthropology, a subdiscipline of anthropology that attempts to understand human evolution and the variation observed in our species using molecular information.

Prerequisites: (ANT202H5 and ANT203H5) and 1.0 credits in 300 level Anthropology courses

Exclusions: ANT336H5

Distribution Requirements: Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

ANT437H5 • Advanced Seminar in the Anthropology of Health

This course is the culmination of the undergraduate Anthropology of Health focus and aims to prepare students for workplace application and graduate study in a wide range of clinical and research domains. The course brings together diverse branches of biological investigation (human biology, nutrition, growth and development, chronic and communicable disease) and undertakes a critical examination of theory and methods used in the study of human health. It traces the historical development of the powerful biomedical paradigm that dominates health research today and uses a critical lens to examine the systems used to measure and classify health and disease. It explores evolutionary and biological approaches to understanding human health by examining the concepts of adaptation and plasticity, genetic and epigenetic approaches, developmental origins and life history theories, social determinants of health, and critical medical anthropology. The course explores the profoundly influential role of social inequality on the production and reproduction of health in historical and contemporary populations.

Prerequisites: (ANT202H5 or ANT204H5) and ANT220H5

Distribution Requirements: Science

Total Instructional Hours: 24S

Mode of Delivery: In Class

ANT438H5 • The Development of Thought in Biological Anthropology

This course will present a world-wide perspective of biological anthropological research and how it developed in different countries. To be discussed will be variation in approaches, subjects studied, philosophical attitudes, and the emergence of common themes in the study of physical anthropology.

Prerequisites: (ANT202H5 and ANT203H5) and 1.0 credit in 300 level Biological Anthropology course

Distribution Requirements: Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

ANT439H5 • Advanced Forensic Anthropology

Forensic anthropologists are responsible for the search, recovery, and analysis of human skeletal remains in modern contexts. This course will explore the knowledge and skills used by forensic anthropologists to reconstruct the biological profile of the deceased, make an identification, contribute to the determination of manner and mode of death, understand the events that took place at the scene, and to provide an estimate of time since death.

Prerequisites: ANT205H5 and ANT334H5

Corequisites: ANT340H5

Recommended Preparation: ANT306H5

Distribution Requirements: Science

Total Instructional Hours: 12L/36P

Mode of Delivery: In Class

ANT441H5 • Advanced Bioarchaeology

This course provides students with problem-based, experiential learning in bioarchaeology, including methods of analysis, theoretical issues, and the excavation, documentation and interpretation of a burial. Labs will address analyses and approaches used in CRM when consulting for Indigenous groups and contract archaeologists. Students will collaborate to excavate, analyze, and interpret data, generating a bioarchaeological report of the excavated cemetery.

Prerequisites: ANT340H5

Exclusions: ANTD35H3

Distribution Requirements: Science

Total Instructional Hours: 12L/36P

Mode of Delivery: In Class

ANT455H5 • TOXIC! The anthropology of toxicity

The presence of toxic chemicals is a defining feature of contemporary life. But while toxicity is everywhere, it is not

everywhere the same. Considering toxicity through medical and environmental anthropology, science and technology studies, and environmental justice, we will gain new perspectives on the politics of evidence, the nature of health, and the nature of nature. Creative, hands-on assignments will help us understand the toxic worlds around us at UTM.

Prerequisites: ANT204H5 or ANT207H5

Exclusions: ANT433H5S - Advanced Seminar in Sociocultural and Linguistic Anthropology (Winter 2021)

Distribution Requirements: Social Science

Total Instructional Hours: 24S

Mode of Delivery: In Class

ANT460H5 • Theory in Sociocultural Anthropology

Survey of major theoretical perspectives developed in social and cultural anthropology. The main ideas and underlying assumptions of each perspective will be critiqued and evaluated for their contributions to the field.

Prerequisites: ANT204H5 or ANT207H5

Exclusions: ANTD24H3

Distribution Requirements: Social Science

Total Instructional Hours: 24S

Mode of Delivery: In Class

ANT462H5 • Living and Dying: Topics in Medical Anthropology and Global Health

This course is concerned with contemporary medical knowledge practices, with particular emphasis on Western medicine and Public Health. Through a set of key readings in sociocultural medical anthropology, students will explore topics such as the art and science of medicine, end of life rites and rituals, expertise, and the politics and perils of intervention. This is an advanced, writing-intensive seminar that will particularly appeal to sociocultural anthropology students, and those interested in pursuing a career in the health professions.

Prerequisites: ANT204H5

Distribution Requirements: Social Science

Total Instructional Hours: 24S

Mode of Delivery: In Class

ANT463H5 • Anthropologies of Water: On Meaning, Value, and Futures

This class delves into the topic of water from an anthropological perspective by thinking of water not only as resource but also as meaningful substance, symbol, and mediator of human and non-human relations. Class will consist mainly of discussions of ethnographic readings but also of hands-on class exercises, field-trips, and auto-ethnographic work. In some years, students may

additionally have the option of participating in an international learning experience during Reading Week that will have an additional cost and application process.

Prerequisites: ANT204H5 or ENV100Y5 or permission of department

International Component: International - Optional

Distribution Requirements: Social Science

Total Instructional Hours: 24S

Mode of Delivery: In Class

ANT464H5 • The End of Coal: An Ethnographic Approach

“Coal is Dead” is a phrase often heard these days, and yet it is quite emphatically not. While coal prices are plunging, countries like China are currently building new coal plants all over Africa. Coal, in other words, is increasingly declared dead even as it is decidedly undead, raising the question of what social, political, cultural, and economic processes make this so-called transition so protracted and piece-meal. This class thus offers a social and cultural approach to the protracted energy transition, asking how the study of coal offers insight into questions of history, politics, race, class, and gender. In some years, students may additionally have the option of participating in an international learning experience during Reading Week that will have an additional cost and application process.

Prerequisites: ANT204H5 or ENV100Y5 or permission of department

International Component: International - Optional

Distribution Requirements: Social Science

Total Instructional Hours: 24S

Mode of Delivery: In Class

ANT465H5 • The Anthropology of Islam

This course offers an upper-level overview of anthropological research on Islam and cultures of the Muslim world. In this seminar-style class, we will critically examine how anthropologists have approached the study of Islam and Muslim communities and whether there is something we can call the “anthropology of Islam.” We will approach these questions through the critical reading of challenging theoretical texts from the mid-20th to 21st century, but also by examining various manifestations of the Islamic tradition and the diversity and complexity of Muslim cultures around the world, including in sub-Saharan Africa, the Middle East, North Africa, and Europe.

Prerequisites: 1.0 credit at the 300-level sociocultural anthropology course or Permission of Instructor

Distribution Requirements: Social Science

Total Instructional Hours: 36S

Mode of Delivery: In Class

ANT467H5 • Are Media Turning Humans into Cyborgs?

The contemporary world is profoundly shaped by mass media. We might even ask if media technologies have changed what it means to be human. Democratic politics, globalized economic flows, and new religious practices all depend on modern technologies of communication, as does the discipline of anthropology. How might we make sense of how social media, television, radio, and film have shaped our lives from an ethnographic perspective? In this course, we will pursue this question through a series of studies of media use, production, and circulation in a wide range of cultural contexts, including the exploring centrality of media to the production of anthropological knowledge. Developing some of the themes that students might have been exposed to in [ANT102H5](#) (Introduction to Sociocultural and Linguistic Anthropology) and [ANT204H5](#) (Sociocultural Anthropology), students will also be guided in pursuing their own research interests in this upper-level seminar.

Prerequisites: [ANT204H5](#) or [ANT207H5](#) or permission of the department

Distribution Requirements: Social Science

Total Instructional Hours: 24S

Mode of Delivery: In Class

ANT497H5 • Advanced Independent Study

This independent study course is designed to offer students advanced supervised reading, research and planning for a publishable report on an anthropological topic not covered in other courses, or covered only briefly. Students who wish to pursue this option with a specific faculty member should approach the faculty member early - before the start of the academic term - to negotiate the research and study program.

Prerequisites: Permission of Instructor and Permission of Department

Distribution Requirements: Science, Social Science

Mode of Delivery: In Class

ANT497Y5 • Advanced Independent Study

This independent study course is designed to offer students advanced supervised reading, research and planning for a publishable report on an anthropological topic not covered in other courses, or covered only briefly. Students who wish to pursue this option with a specific faculty member should approach the faculty member early - before the start of the academic term - to negotiate the research and study program.

Prerequisites: Permission of Instructor and Permission of Department

Distribution Requirements: Science, Social Science

Mode of Delivery: In Class

ANT498H5 • Advanced Independent Reading

This independent reading course is designed to offer students advanced supervised reading on an anthropological topic not covered in other courses, or covered only briefly. Students who wish to pursue this option with a specific faculty member should approach the faculty member early - before the start of the academic term - to negotiate the reading program.

Prerequisites: Permission of Instructor and Permission of Department

Distribution Requirements: Science, Social Science

Mode of Delivery: In Class

ANT498Y5 • Advanced Independent Reading

This independent reading course is designed to offer students advanced supervised reading on an anthropological topic not covered in other courses, or covered only briefly. Students who wish to pursue this option with a specific faculty member should approach the faculty member early - before the start of the academic term - to negotiate the reading program.

Prerequisites: Permission of Instructor and Permission of Department

Distribution Requirements: Science, Social Science

Mode of Delivery: In Class

ANT499H5 • Research Opportunity Program

This course provides senior undergraduate students who have developed some knowledge of a discipline and its research methods an opportunity to work in the research project of a professor in return for course credit. Students enrolled have an opportunity to become involved in original research, develop their research skills and share in the excitement and discovery of acquiring new knowledge. Based on the nature of the project, projects may satisfy the Sciences or Social Sciences distribution requirement. Participating faculty members post their project descriptions for the following summer and fall/winter sessions in early March. See [Experiential and International Opportunities](#) for more details.

Prerequisites: Permission of Instructor and Permission of Department

Mode of Delivery: In Class

ANT499Y5 • Research Opportunity Program

This course provides senior undergraduate students who have developed some knowledge of a discipline and its research methods an opportunity to work in the research project of a professor in return for course credit. Students enrolled have an opportunity to become involved in original research, develop their research skills and share in the excitement and discovery of acquiring new knowledge. Participating faculty members post their project descriptions for the following summer and fall/winter sessions in early March. See [Experiential and International Opportunities](#) for more details.

Prerequisites: Permission of Instructor and Permission of Department

Mode of Delivery: In Class

JAL351H5 • Language and Culture: Area study

This course offers an in-depth study of a particular region or language from a linguistic and anthropological perspective. In some cases this will involve focusing on a particular language or speech community (e.g., Vietnamese) including its historical development and the ways in which its boundaries have been defined. In other cases, it will involve a broader, regional approach (e.g., mainland Southeast Asia). Topics vary from year to year but may include semantic and grammatical structure, language variation and use, language pragmatics, poetry and poetics, literacy and orality, political discourse, historical linguistics and comparative reconstruction, language contact and shift.

Prerequisites: [ANT204H5](#) or [ANT206H5](#) or [JAL253H5](#) or [LIN256H5](#) or permission of department

Exclusions: [ANT361H5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

JAL355H5 • Language and Gender

Ways in which gender influences the use of language and behaviour in conversational interaction: ways in which language reflects cultural beliefs about gender.

Prerequisites: [LIN256H5](#) or [JAL253H5](#) or [ANT204H5](#) or [WGS200Y5](#)

Exclusions: [JAL355H1](#) or [LINC28H3](#) or [WSTC28H3](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

JAL453H5 • Language and Social Theory

This seminar course considers the intersection of linguistics and anthropology, bringing ideas from contemporary and classical social theory to bear on questions central to both fields of study. Topics vary from year to year but may include any of the following: linguistic relativity; register formation; language variation; linguistic ideologies; racialization; political discourse; pragmatic and semiotic theory; language reform.

Prerequisites: [ANT204H5](#) or [ANT206H5](#) or [JAL253H5](#) or [LIN256H5](#) or permission of department

Exclusions: [ANT425H1](#) and [ANT466H5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24S

Mode of Delivery: In Class

Arabic Courses

ARA210H5 • Arab Culture I

This course introduces the Arab culture in general terms and familiarizes students with some fundamental realities of the Arab world (e.g. family, gender roles, social etiquette, etc.) with a general introduction to values and religious practices. The course is taught in English.

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ARA212Y5 • Introductory Arabic

This introductory course is designed for beginners, i.e., students with NO prior knowledge of the Arabic language. The course provides a basic proficiency in Modern Standard Arabic. The students will have ample practice of reading and writing the Arabic alphabet and will master the Arabic sounds and their phono-syntactic features. A foundation of grammar will familiarize the students with word formation, word order, and sentence structures. By the end of the course, the students should be able to fully read Arabic, comprehend simple reading, produce complete sentences to express basic information orally and in writing, and to conduct basic conversations in Modern Standard Arabic. **All students are REQUIRED to complete the Arabic Language Assessment Questionnaire before enrolling in this course.** Please visit <https://www.utm.utoronto.ca/language-studies/language-course-assessment-questionnaires> and complete the Arabic Language Assessment Questionnaire by no later than August 29th. Late assessment submissions will not be accepted.

Prerequisites: All students who are enrolling in an ARA language course for the FIRST time are required to complete a language assessment questionnaire. Please visit <https://www.utm.utoronto.ca/language-studies/language-course-assessment-questionnaires>

[studies/language-course-assessment...](https://www.utm.utoronto.ca/language-studies/language-course-assessment-questionnaires)

Exclusions: [ARA211H5](#) or [ARA211Y5](#) or ([LGGA40H3](#) and [LGGA41H3](#)) or ([NMC210Y1](#) or [NML210Y1](#)) or higher, native speakers.

Distribution Requirements: Humanities

Total Instructional Hours: 72L/24P

Mode of Delivery: In Class

ARA300Y5 • Intermediate Arabic for Heritage Learners

This is an Arabic language course for heritage students, i.e. of Arab origins, who may have had passive exposure to Arabic but have never formally studied the reading and writing of Arabic. This course is also designed to help students with interest in Islamic studies who may have been exposed to elementary Qur'anic teaching but were never taught the alphabet, and who cannot communicate in spoken or written Arabic. In this course, students will begin by learning how to sound, read and write the Arabic alphabet. They will study Arabic grammar, develop reading comprehension, and practice writing skills that advance gradually throughout the course. Each unit of the course is fully supported by a range of comprehension, vocabulary-building, grammar reinforcement activities, and reading & writing exercises. Language analysis will be based on the reading of excerpts of authentic Arabic texts from contemporary literature, magazines and newspapers. By the end of this course, students will have completed the prerequisites to take Arabic reading, literature, and advanced language courses. Please visit <https://www.utm.utoronto.ca/language-studies/language-course-assessment-questionnaires> and complete the Arabic Language Assessment Questionnaire by no later than August 29th. Late assessment submissions will not be accepted.

Prerequisites: As determined by assessment questionnaire (<https://www.utm.utoronto.ca/language-studies/language-course-assessment-questionnaires>).

Exclusions: [ARA211H5](#) and [ARA311H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 72L/24P

Mode of Delivery: In Class

ARA305Y5 • Introductory Egyptian Colloquial Arabic

This is an introductory course designed for high beginner level students, who desire to acquire fluency in spoken Egyptian Arabic, commonly known as Egyptian or Cairene Arabic. The course follows a teaching approach that places emphasis on the development of the listening and speaking skills of spoken Egyptian Arabic. This course develops communicative skills in Egyptian colloquial Arabic along parallel tracks of vocabulary and grammar. Therefore, student must be independently comfortable with the Arabic alphabet and must have developed elementary reading ability. The course is designed for students who have completed the beginner level of modern Standard Arabic [ARA212Y5](#), and are now ready to branch out into their first experience of a major spoken dialect.

Prerequisites: [ARA212Y5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 72L/24P

Mode of Delivery: In Class

ARA312Y5 • Intermediate Arabic

This course is for students who have basic background information in formal Arabic. To study this course, students should be able to write and speak simple sentences to express basic information in formal Arabic. The course builds on the skills that students have learned in [ARA212Y5](#). By the end of this course, students should be able to use formal Arabic at an intermediate low level using ACTFL guidelines. Everyday language in the Egyptian and Levantine accents will be provided occasionally as supplementary materials for students' information only. However, students' skills will be assessed using formal Arabic only, which is the focus of this course.

Prerequisites: [ARA212Y5](#)

Exclusions: Native users or [NMC310Y1](#) or [NML310Y1](#) or [LGGC42H3](#) or [LGGC43H3](#) or [ARA211H5](#) or [ARA311H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 72L/24P

Mode of Delivery: In Class

ARA400Y5 • Advanced Arabic for Heritage Learners

This course develops the student's communication skills in grammar, writing, reading, and formal registers of speaking, into an advanced level. It caters to the students who have completed the intermediate high level: [ARA300](#), or whose language assessment reflects an intermediate level of proficiency of Arabic as a heritage language. The teaching of this course will also focus on error analysis to develop the student's ability to distinguish between their version of heritage spoken language and that of the

erudite Arabic, [الفصحى](#), as used formally across the Arab world. By the end of the course, the student will be able to write in a formal academic register, sustain oral expressions and deliver oral presentations in formal Arabic.

Prerequisites: [ARA300Y5](#) or appropriate language level as indicated by the Arabic Language Assessment Questionnaire (<https://www.utm.utoronto.ca/language-studies/language-course-assessment-questionnaires>).

Exclusions: [ARA412Y5](#) and [NML410Y1](#)

Distribution Requirements: Humanities

Total Instructional Hours: 72L/24P

Mode of Delivery: In Class

ARA408H5 • Arabs in Western Literature and Arts: Reception and Interpretation

(Offered in English). This survey course examines representative fiction and non-fiction texts, painting, films, operas, comics and video games to explore salient incidences of encounter, impact, and reception of the Arabs in medieval and modern Western thought. Examples of topics of analysis are Islamic imagery in Dante's *Inferno*, motifs of storytelling and narrative structures from the *One Thousand and One Night* in Boccaccio's *Decameron* and Chaucer's *Canterbury Tales*... From the Moors in Spain, to the Arabs in Sicily, from Shakespeare's *Othello* to the Victorian Gothic *Vathek*, the course will move on to explore the extension of the French Orientalists' influence beyond European painting to operas, and later in cinema, exploring works such as *Il Seraglio*, *Lawrence Arabia*, *Casablanca* and others. Current representations of the Arabs in Western films, TV shows, comics, and video games will be analyzed to trace continuity and discontinuity of the earlier reception. Students who take this course to be counted towards the Language Citation must complete written course work in Arabic.

Prerequisites: Open to all students who have completed 9.0 credits.

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ARA410H5 • Advanced Arabic Reading I: Reading the Sacred and the Legendary

This is the first of two intensive advanced reading courses in the Arabic language. Throughout this course, the students will also be familiar with different sacred texts such as *Tafsīr* (Quranic exegesis) and *Qīṣas al-Anbiyā'* (Tales of the Prophets) to the fables focused on the description of amazing and mythological creatures such as Qazvīnī's *'Ajā'ib al-Makhlūqāt wa Gharā'ib al-Mawjūdāt* (Marvels of Creatures and Strange things existing) and *Kalīla wa Dimna* as well as the epic of the legendary Arabic hero *Dhāt al-Himma* in *Sīrat Dhāt al-Himma*.

Prerequisites: [ARA311H5](#) or [ARA312Y5](#)

Corequisites: [ARA412Y5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/24P

Mode of Delivery: In Class

ARA411H5 • Advanced Arabic Reading II: Literary Journeys into the Past

This is the second of two intensive advanced reading courses in the Arabic language. This course will concentrate on works relating to history which includes universal histories in the world from creation up to their own eras; biographies of individuals and biographical dictionaries, advice literature that guide rulers to govern efficiently; poetry by poets and poetesses; maqāmāt or works of rhymed prose; mystical texts; travelogues that describe the adventures and observations of travelers to faraway lands; annalistic chronicles that record events from year to year; and chancery documents that shed light on the way medieval administrations worked.

Prerequisites: [ARA311H5](#) or [ARA312Y5](#)

Corequisites: [ARA412Y5](#)

Recommended Preparation: [ARA410H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/24P

Mode of Delivery: In Class

ARA412Y5 • Advanced Arabic

This course uses differentiated instruction and assessment methods to provide Arabic language instruction to two groups of students: 1) advanced learners of Arabic as a foreign language, and 2) heritage students who may have native or native-like proficiency in the Arabic language. Both groups of learners will have customized study materials and assessment schemes that provide for their specific learning needs and language abilities.

Prerequisites: ([ARA312Y5](#) or [ARA311H5](#)). Students who have not completed [ARA312Y5](#) or [ARA311H5](#) must obtain permission from the department before enrolling.

Exclusions: [NML410Y1](#) or [ARA400Y5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 72L/24P

Mode of Delivery: In Class

Art History

Art History offers students an exciting forum for developing critical skills in interpreting visual imagery and understanding the significance of art in a variety of cultures and historical periods, including the contemporary moment. Courses span the history of art from the ancient to the contemporary worlds, and investigate art from Europe, North and South America, and Asia. The Art History programs (Specialist, Major, Minor) train students in foundational methods of interpretation as well as the newest approaches in the field.

Specialization in this program may lead to curatorial work in galleries, museums, or corporations; careers in illustration, advertising, web design, film, and graphic design; journalism; teaching at the high school or university level following graduate study; independent artistic activities; or simply to deeper engagement with, and enjoyment of, art.

Students registering in their first year in Art History are encouraged to contact the undergraduate counsellor during the registration period for guidance. CCIT students considering double-majoring in an art program should also meet the undergraduate counsellor to discuss their studies.

Art and Art History

The UTM and Sheridan joint Art & Art History program is the longest standing partnership of its type in Canada. It combines the study of art history at UTM with studio art courses at Sheridan Institute. The program offers six core studios that students complete in their initial two years of study: drawing, painting, sculpture/installation, print media, design and photography. In these studios, students are introduced to contemporary art practices through problem-based learning, which encourages a range of personal approaches and solutions to visual expression. In the upper-level studios, students go on to further expertise in two of the core-studio streams, developing a body of self-directed artwork in a class environment of discussion and exchange.

At UTM, students in the joint program enrol in Art History courses in the Department of Visual Studies. These courses provide students with the opportunity to engage in the academic study of art and architecture. Students will learn to analyze visual objects, considering their form, materials and techniques, meaning and historical and political contexts. Courses span the history of art from the ancient to the contemporary world, across Europe, North America and Asia.

Students graduate with two prestigious and practical credentials that reflect the program's dual focus: an Honours Bachelor of Arts from the University of Toronto and a Diploma in Art & Art History from Sheridan. Students must achieve a minimum 2.0 GPA in order to be granted the Sheridan Diploma in Art & Art History.

Many graduates of the program remain involved with education by teaching at the primary, secondary, or post-secondary level; others have pursued graduate studies in studio art, art history, conservation, curatorial practice, or related fields in the humanities, leading to an M.F.A., M.A., or Ph.D. degree. A number of graduates are practicing artists who exhibit their work in artist-run, public, and private galleries, both nationally and internationally. Graduates have also flourished in commercial art, including graphic design, advertising, illustration, web design, and art direction. With its strong art history component, this program has enabled graduates to pursue administrative or curatorial positions in museums and galleries, as well as work in art criticism and journalism.

Students registering in their first year in Art History or Art & Art History (joint program with Sheridan) are encouraged to contact the program director and Art & Art History program coordinator during the registration period if they have any questions. CCIT students considering double-majoring in an art program should also meet the FAH and FAS faculty and consult with them about their studies.

Art Programs

Art and Art History - Specialist (Arts)

Completion Requirements:

12.5 credits are required, comprised of 0.5 credit of [ISP100H5](#) and 7.0 credits in FAS and 5.0 credits in FAH or VCC or VST offered at UTM (see detailed notes below). The following program structure is highly recommended:

First Year:

1. [FAH101H5](#) and [ISP100H5](#)
2. 1.0 additional credit in FAH at the 200 level
3. 2.0 credits from [FAS143H5](#) or [FAS145H5](#) or [FAS147H5](#) or [FAS232H5](#) or [FAS236H5](#) or [FAS248H5](#) (All of these courses are open to first-year students.)

Second Year:

1. [VCC101H5](#)
2. 1.0 credit of FAH at the 200 level
3. Remaining uncompleted credit(s) from the FAS course list identified in 'First Year' (above).

Third Year:

1. 1.0 credit of FAH or VCC at the 300/400 level
2. 2.0 credits of FAS at the 300/400 level

Fourth Year:

1. 1.0 credit of FAH or VCC or VST at the 300/400 level
2. 2.0 credits of FAS at the 300/400 level

NOTES:

1. Completion of the Art & Art History Specialist Program **must include:** [FAH101H5](#) and [VCC101H5](#) and [ISP100H5](#) and [FAS143H5](#) and [FAS145H5](#) and [FAS147H5](#) and [FAS232H5](#) and [FAS236H5](#) and [FAS248H5](#). Of the total 12.0-12.5 credits in the program, 4.0 credits of FAH or VCC or VST or FAS must be at the 300/400 level with 1.0 credit in FAH or VCC or VST at the 400 level and 1.0 credit of FAS at the 400 level.

2. Students must take at least 2.0 credits, but no more than 2.5 credits, of FAH at the 200 level. Of these 2.0-2.5 credits, at least 1.5 credits must be completed at UTM (see Note 3 below for the required area distribution and Note 4 below for the St. George exceptions allowed). VCC 200 level courses do not satisfy FAH 200 level requirements.

3. **At least 0.5 credit of FAH at the 200-level must be completed in each of the following three areas:** Ancient & Medieval; 15th-18th Centuries; and 19th-21st Centuries. See the departmental website (www.utm.utoronto.ca/dvs) for the distribution of courses by area.

4. 0.5 credit of FAH at the 200 level may be taken at St. George in an area not covered by current UTM offerings (i.e. one of the following courses – [FAH248H1](#) or [FAH260H1](#) or [FAH262H1](#) or [FAH270H1](#) or [FAH272H1](#)).

5. For the complete list of VCC courses that satisfy Art & Art History program requirements, please see the departmental website (www.utm.utoronto.ca/dvs).

6. **As studio space is limited in the 100-level and 200-level FAS courses, priority will be given during the first registration period to students enrolled in the Art & Art History Major or Specialist, Art History Major or Specialist, CCIT Major, VCC Specialist, and to newly admitted students who indicated the Art & Art History code on their application. Students committed to the program should make sure that they are officially registered in the program as soon as possible.**

7. **All 300 and 400 level FAS courses are to be enrolled in on ACORN.** Students are required to have completed 1.5 credits in FAH or VCC before beginning their 300/400 level FAS courses.

8. It is recommended that students take at least one of the following 'practicum' courses: [FAH451H5](#) or [FAS453H5](#) or [FAS454H5](#) or [FAS455H5](#).

9. No more than 17.0 credits of FAH and FAS may be completed.

10. Students enrolling in any FAS course will be required to pay a fee of \$60-\$120 per half-credit course (\$120-\$240 per full-credit course) in ancillary fees to cover consumable materials used in studio as well as take-away materials. These charges will be automatically added to UofT student account upon enrolment in the course on ACORN. For details on ancillary fees, please see the Student Accounts website (www.fees.utoronto.ca).

[ERSPE0714](#)

Art History - Specialist (Arts)

Completion Requirements:

10.5 credits are required distributed across 4 areas (see notes below).

The following program structure is highly recommended:

First Year:

1. [FAH101H5](#) and [VCC101H5](#)
2. [ISP100H5](#)
3. 1.0 credit in FAH at the 200 level

Second Year:

1. 2.0 credits in FAH at the 200 level
2. 0.5 credit in FAH or VCC at the 300 level

Third Year: 3.0 credits in FAH at the 300/ 400 level, of which at least 1.5 must be at the 300 level.

Fourth Year: 2.5 credits in FAH or VCC or VST at the 300/400 level, of which 1.0 must be at the 400 level.

NOTES:

1. Completion of the Art History Specialist Program **must include:** [FAH101H5](#) and [VCC101H5](#) and [ISP100H5](#) and 3.0 credits of FAH at the 200 level and 4.0 credits of FAH or VCC or VST at the 300/400 level, of which 1.0 must be at the 400 level.
2. **2.0 credits from each of the following four areas are required:** Ancient & Medieval; 15th-18th Centuries; 19th-21st

Centuries; and Visual Culture & Theory. Some courses may satisfy more than one of the distribution requirements. See the departmental website (www.utm.utoronto.ca/dvs) for the distribution of courses by area.

3. For the complete list of VCC courses that satisfy Art History program requirements, please see the departmental website (www.utm.utoronto.ca/dvs).

4. **No St. George courses may be substituted for the required 100 or 200 level courses** (see Note 5 below for exceptions).

5. **No more than 4.0 credits in FAH may be taken at the 200 level.** VCC 200 level courses do not satisfy FAH 200 level requirements. 0.5 credit of FAH at the 200 level may be taken at St. George in an area not covered by current UTM offerings (i.e. one of the following courses – [FAH248H1](#) or [FAH260H1](#) or [FAH262H1](#) or [FAH270H1](#) or [FAH272H1](#)).

6. Courses in other programs which have a significant Art History or Visual Culture content, such as offerings in CCIT, Cinema Studies, Philosophy, Drama, English History, East Asian Studies, and Near & Middle Eastern Civilizations, may be substituted for up to 1.0 credit of FAH or VCC credit. Permission of the Art History Program Director prior to enrolment is required. For possible courses options with appropriate course content, please consult the DVS Undergraduate Counsellor.

7. No more than a total of 16.0 credits of FAH may be completed.

8. **Recommended Language Study:** Students wishing to pursue graduate studies in Art History must acquire a basic reading knowledge of at least two languages. A minimum of 2.0 credits in one language, or 1.0 credit each in two languages (for a total of 2.0 credits) is recommended. German, French, and Italian are recommended.

ERSPE0615

Art and Art History - Major (Arts)

Completion Requirements:

8.5 credits are required, comprised of 0.5 credit of [ISP100H5](#) and 4.0 credits in FAS courses and 4.0 credits in FAH or VCC or VST courses offered at UTM (see detailed notes below). The following program structure is highly recommended:

First Year:

1. [FAH101H5](#) and [ISP100H5](#)
2. 0.5 additional credit in FAH at the 200 level
2. 2.0 credits from [FAS143H5](#) or [FAS145H5](#) or [FAS147H5](#) or [FAS232H5](#) or [FAS236H5](#) or [FAS248H5](#) (All of these courses are open to first-year students.)

Second Year:

1. Remaining uncompleted credit(s) from the FAS course list identified in 'First Year' (above).
2. 2.0 credit of FAH at the 200 level

Third & Fourth Years:

1. 1.0 credit of FAH or VCC or VST at the 300/400 level
2. 1.0 credit of FAS at the 300/400 level

NOTES:

1. Completion of the Art & Art History Major Program **must include:** [FAH101H5](#) and [ISP100H5](#) and [FAS143H5](#) and [FAS145H5](#) and [FAS147H5](#) and [FAS232H5](#) and [FAS236H5](#) and [FAS248H5](#). Of the total 8.5 credits in the program, 2.0 credits from FAH or VCC or VST or FAS must be at the 300/400 level.
2. Students must take at least 2.0 credits, but no more than 2.5 credits, of FAH at the 200 level, of which 2.0 credits must be completed at UTM (see Note 3 below for the required area distribution and Note 4 below for the St. George exceptions allowed). VCC 200 level courses do not satisfy FAH 200 level requirements.
3. **At least 0.5 credit of FAH must be completed in each of the following three areas:** Ancient & Medieval; 15th-18th Centuries; and 19th-21st Centuries. See the departmental website (www.utm.utoronto.ca/dvs) for the distribution of courses by area.
4. 0.5 credit of FAH at the 200 level may be taken at St. George in an area not covered by current UTM offerings (i.e. one of the following courses – [FAH248H1](#) or [FAH260H1](#) or [FAH262H1](#) or [FAH270H1](#) or [FAH272H1](#)).
5. For the complete list of VCC courses that satisfy Art & Art History program requirements, please see the departmental website (www.utm.utoronto.ca/dvs).
6. **As studio space is limited in the 100-level and 200-level FAS courses, priority will be given during the first registration period to students enrolled in the Art & Art History Major or Specialist, Art History Major or**

Specialist, CCIT Major, VCC Specialist, and to newly admitted students who indicated the Art & Art History code on their application. Students committed to the program should make sure that they are officially registered in the program as soon as possible.

7. **All 300 and 400 level FAS courses are to be enrolled in on ACORN.** Students are required to have completed 1.5 credits in FAH or VCC before beginning their 300/400 level FAS courses.
8. It is recommended that students take at least one of the following 'practicum' courses: FAH451H5 or FAS453H5 or FAS454H5 or FAS455H5.
9. No more than 13.0 credits of FAH and FAS may be completed.
10. Students enrolling in any FAS course will be required to pay a fee of \$60-\$120 per half-credit course (\$120-\$240 per full-credit course) in ancillary fees to cover consumable materials used in studio as well as take-away materials. These charges will be automatically added to UofT student account upon enrolment in the course on ACORN. For details on ancillary fees, please see the Student Accounts website (www.fees.utoronto.ca).

ERMAJ0714

Art History - Major (Arts)

Completion Requirements:

7.5 credits are required distributed across 4 areas (see notes below).

The following program structure is highly recommended:

First Year:

1. FAH101H5 and VCC101H5
2. ISP100H5
3. 0.5-1.0 credit in FAH at the 200 level

Second Year: 2.0-2.5 credits in FAH at the 200 level

Third Year: 2.0 credits in FAH or VCC at the 300/ 400 level.

Fourth Year: 1.0 credits in FAH or VCC or VST at the 400 level.

NOTES:

1. Completion of the Art History Major Program **must include:** FAH101H5 and VCC101H5 and ISP100H5 plus 2.0 credits of FAH at the 200 level and 3.0 credits of FAH or VCC or VST at the 300/400 level, of which 0.5 credit must be at the 400 level.
2. **A minimum of 1.0 credit from each of the following four areas are required:** Ancient & Medieval; 15th-18th Centuries; 19th-21st Centuries; and Visual Culture & Theory. It is highly recommended that students take at least one 300/400 level course in at least three of the four areas. Some courses may satisfy more than one of the distribution requirements. See the departmental website (www.utm.utoronto.ca/dvs) for the distribution of courses by area.
3. For the complete list of VCC courses that satisfy Art History program requirements, please see the departmental website (www.utm.utoronto.ca/dvs).
4. **No St. George courses may be substituted for the required 100 or 200 level courses** (see Note 5 below for exceptions).
5. **VCC 200 level courses do not satisfy FAH 200 level requirements.** 0.5 credit of FAH at the 200 level may be taken at St. George in an area not covered by current UTM offerings (i.e. one of the following courses – FAH248H1 or FAH260H1 or FAH262H1 or FAH270H1 or FAH272H1).
6. Courses in other programs which have a significant Art History or Visual Culture content, such as offerings in CCIT, Cinema Studies, Philosophy, Drama, English History, East Asian Studies, and Near & Middle Eastern Civilizations, may be substituted for up to 1.0 credit of FAH or VCC credit. Permission of the Art History Program Director prior to enrolment is required. For possible courses options with appropriate course content, please consult the DVS Undergraduate Counsellor.
7. No more than a total of 10.0 credits of FAH may be completed.
8. **Recommended Language Study:** Students wishing to pursue graduate studies in Art History must acquire a basic reading knowledge of at least two languages. A minimum of 2.0 credits in one language, or 1.0 credit each in two languages (for a total of 2.0 credits) is recommended. German, French, and Italian are recommended.

ERMAJ0615

Art History - Minor (Arts)

Completion Requirements:

4.0 credits in FAH are required, including:

1. FAH101H5
2. 2.0 FAH credits at the 200 level, of which at least 0.5 credit must be in Ancient & Medieval, 0.5 credit must be in 15th-18th centuries, and 0.5 credit must be in 19th-21st centuries
3. 1.5 credits in FAH/ VCC/ VST at the 300/400 level.

The following program structure is highly recommended:

First Year: 1.0 credits: FAH101H5 and 0.5 credit in FAH at the 200 level

Higher Years: 1.5 credits in FAH at the 200 level 1.5 credits in FAH/VCC/VST at the 300/400 level

NOTES:

1. Students without pre- and co-requisites or written permission of the instructor can be de-registered from courses at any time.
2. See the departmental website at www.utm.utoronto.ca/dvs for the distribution of courses by area.
3. No St. George courses may be substituted for the required 100-level and 200-level courses. However, 0.5 credit at the 200-level in FAH may be taken at St. George in an area not covered by U of T Mississauga's offerings (i.e. one of the following courses: FAH248H1, FAH260H1, FAH262H1, FAH270H1, FAH272H1).

ERMIN0615

Certificate in Curatorial Studies

This certificate, taken in conjunction with a Major or Specialist degree in Art History or Art and Art History, will help prepare students for graduate work in Curatorial Studies or Museum Studies as well as work in the Arts and Culture sector.

Enrolment Requirements:

Limited Enrolment - Students must be in good standing in the Major or Specialist program in either Art History or Art and Art History, and have a minimum CGPA of 2.5.

Completion Requirements:

2.5 credits are required.

- FAH289H5
- FAH310H5
- FAH451H5
- VST410H5
- FAH498H5 or FAH479 or another course in which the study of curating is foregrounded (this course must be approved for certificate credit in advance; see Undergraduate Counsellor)

1.5 credits of these courses may be counted toward both the Certificate and the Art History or Art and Art History Major or Specialist.

ERCER0714

- FAH courses are offered at University of Toronto Mississauga.
- FAS courses are offered at Sheridan College.

Art Courses

Fine Art History

FAH101H5 • Introduction to Art History

An overview of the art and architecture of the past and present, as well as an introduction to the discipline of art history and its methodologies. Emphasis on representative monuments and key approaches to interpretation.

Exclusions: FAH101H1 or FAH102H1 or FAH105H5 or FAH202H5 or VPHA46

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

FAH205H5 • Art in Antiquity

This course offers a survey of the arts of antiquity. Emphasis is placed on major works of sculpture, painting, and architecture. Decorative arts are also treated.

Exclusions: FAH207H1 or VPHB52

Recommended Preparation: FAH101H5 or FAH105H5 or FAH202H5

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

FAH215H5 • Early Medieval Art and Architecture

An overview of major monuments and themes in the art and architecture of Western Europe and the Mediterranean World from the third until the eleventh century.

Exclusions: (FAH102Y5 or FAH261H1 or FAH267H5 or FAH271H5) or VPHB53

Recommended Preparation: FAH101H5

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

FAH216H5 • Later Medieval Art and Architecture

An overview of major monuments and themes in the art and architecture of Western Europe and the Mediterranean World from the eleventh through the fifteenth century.

Exclusions: FAH102Y5 or FAH261H1 or FAH267H5 or FAH271H5 or VPHB53

Recommended Preparation: FAH101H5

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

FAH274H5 • Renaissance Art and Architecture

A selective survey of the major art centres, types of artistic production, personalities, and trends in Italy and the North, from the early fifteenth century to the mid-sixteenth. The creation and diffusion of art are addressed through an understanding of historical techniques (media), cultural determinants such as patronage, and significant works of art.

Exclusions: FAH230H1 or VPHB74H3

Recommended Preparation: FAH101H5 or FAH105H5 or FAH202H5

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

FAH275H5 • Introduction to Indigenous Art in Canada

This survey course will introduce students to the advanced technological and innovative material contributions of Indigenous cultural knowledge towards the reshaping of Canadian Culture, Identity and Art today; beginning with the Mississaugas of the New Credit First Nations. Specificity of place, nation, geographical territory, the intervention of colonial government policy, and social movements will be reviewed as they relate to the creation and collection of Indigenous art and established art

markets. Object and image making, new technologies, performance art, ceremony, land, hunting, activism, social engagement, and community arts will be covered, as will fashion, dance, song, and storytelling.

Recommended Preparation: [FAH101H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

FAH279H5 • Baroque Art and Architecture

An introduction to art and society in Europe, ca. 1600 to ca. 1800 CE. Tensions between the Catholic Church and Protestantism; the rise of powerful, competing courts; the growth of increasingly complex urban centres; and the entry of the "wider public" into the art market all create new roles for representation in Europe. Developments in painting, prints, sculpture, architecture, urban planning, and festivals are considered.

Exclusions: [FAH231H1](#) or VPHB64

Recommended Preparation: [FAH101H5](#) or [FAH105H5](#) or [FAH202H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

FAH281H5 • An Introduction to Islamic Art and Architecture

This course surveys art and architecture of the Islamic worlds, beginning with the emergence of Islam in the seventh century. It examines works of art ranging from the monumental (palaces, mosques, shrines) to the portable (textiles, jewelry, books), spanning the Islamic world from Spain to Central and East Asia. A range of materials and artistic techniques will be considered, as will several religious and secular contexts and different patterns in patronage and workshop production.

Recommended Preparation: [FAH101H5](#) or [FAH202H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

FAH282H5 • Gardens, Homes, and Palaces in the Muslim World

How did Muslims live in the pre-modern world, and, how did they interact with their surrounding environment? This course introduces examples of homes, palaces, and gardens dating from the 8th to the 18th centuries. The course includes examples from the Arab world, Turkey, Iran, and South Asia.

Recommended Preparation: [FAH101H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

FAH285H5 • Art and Religion

An introduction to the art of the major world religions (examples will mostly be taken from Christianity, Hinduism, and Islam but may also extend to Judaism, Buddhism, and religions of indigenous peoples), examining debates within these traditions around the status of the image as well as the relationship of religious images with the secular notion of 'art.'

Recommended Preparation: [FAH101H5](#) or [FAH105H5](#) or [FAH202H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

FAH287H5 • European Art of the Nineteenth Century

Surveys major developments in European art and architecture from the late eighteenth through the end of the nineteenth century, including Neoclassicism, Romanticism, Orientalism, Realism, the Pre-Raphaelite Brotherhood, Impressionism, Post-Impressionism, and Symbolism. Artistic responses to political change, urbanisation, capitalism, colonialism, the Academy, and the Salon will be explored as well as changing constructions of gender, race, class, and national identities through visual media.

Note:

As part of this course, students may have the option of participating in an international learning experience that will have an additional cost and application process.

Exclusions: [FAH208H1](#) or [FAH282H1](#) or [FAH245H1](#)

Recommended Preparation: [FAH101H5](#) or [FAH105H5](#) or [FAH202H5](#)

International Component: International - Optional

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

FAH288H5 • European and North American Art of the Earlier Twentieth Century

Surveys principal developments in modern art and architecture from the late 19th century through 1945. Topics covered include key movements, such as Fauvism, Expressionism, Cubism, Futurism, Constructivism, Suprematism, de Stijl, Dada, and Surrealism, and key concepts, such as the avant-garde, abstraction, the readymade, the unconscious, and the primitive. Readings include manifestos and other writings by artists as well as art historical texts.

Exclusions: [FAH246H1](#) or [VPHB58](#)

Recommended Preparation: [FAH101H5](#) or [FAH105H5](#) or [FAH202H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

FAH289H5 • Art Since 1945

Examines many divergent international art movements and controversies in painting, sculpture, video, installation art, performance, and other new forms, from 1945 to the present.

Exclusions: [FAH246H1](#) or [VPHB58](#)

Recommended Preparation: ([FAH101H5](#) or [FAH105H5](#) or [FAH202H5](#)) and [FAH288H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

FAH290H5 • Topics in Modern Art and Architecture

An examination of a topic in modern art and or architecture. Topics vary from year to year; the content in any given year depends upon the instructor.

Recommended Preparation: [FAH101H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

FAH291H5 • History of Photography

Examines the history of photography in Euro-American visual culture and explores how this medium of mass communication has transformed our perceptions and conceptions of art, society, and culture over the past two centuries. Reviews key imagemakers and areas of production concluding with the impact of digital imaging.

Exclusions: [FAH252H5](#) or [FAH391H5](#)

Recommended Preparation: ([FAH101H5](#) or [FAH105H5](#) or [FAH202H5](#)) and ([VCC101H5](#) or [VCC201H5](#))

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

FAH292H5 • Canadian Art

This course examines the history of art produced in Canada, from the pre-contact period to today. Diverse visual traditions and their intersections will be studied, as will the changing roles of art in Canadian society.

Exclusions: [FAH248H5](#): Canadian Painting 1665-1960 (formerly [FAH286H1](#)) or [VPHB60H3](#): Canadian Visual Art

Recommended Preparation: [FAH101H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

FAH295H5 • Topics in Art History

An examination of a topic in art history. Topics vary from year to year; the content in any given year depends upon the instructor.

Recommended Preparation: [FAH101H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

FAH299Y5 • Research Opportunity Program

This course provides a richly rewarding opportunity for students in their second year to work on the research project of a professor in return for 299Y course credit. Students enrolled have an opportunity to become involved in original research, learn research methods, and share in the excitement and discovery of acquiring new knowledge. Participating faculty members post their project descriptions for the following summer and fall/winter sessions in early February and students are invited to apply in early March. See [Experiential and International Opportunities](#) for more details.

Distribution Requirements: Humanities

Mode of Delivery: In Class

FAH301H5 • History and Practices of Visual Resource Collecting

This course investigates the theoretical and philosophical bases and practical realities of digitizing the visual arts in the context of scholarly research, collection development, publishing, information studies and education in the global environment. Students will examine the historical development and impact of digitization on image collecting as well as current practices and issues facing professionals. A practical, hands-on approach will be an essential part of the course.

Prerequisites: ([FAH101H5](#) or [FAH105H5](#) or [FAH202H5](#)) and ([VCC101H5](#) or [VCC201H5](#)) and 1.0 credits in

FAH/VCC at the 200 level or permission of instructor

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

FAH310H5 • Curating Matters: Contexts and Issues in Contemporary Curatorial Practice

This course will introduce students to the major critical texts, theories, and debates circulating in the burgeoning international field of contemporary curatorial studies. The course will include lectures, case studies, practice-related assignments, encounters with artists and art professionals, and student presentations that are intended to raise issues and engage debate about contemporary exhibition practices and account for theoretical perspectives and historical context. One objective of this course is to trouble preconceptions of the role of the curator in order to observe the complexity of curatorial models across and beyond art institutions. The class will address the implications of shifting cultural, social, and political contexts for artistic and curatorial practice and their sites.

Prerequisites: (FAH101H5 or FAH105H5 or FAH202H5) and FAH289H5 and 0.5 additional credit in FAH/VCC

Exclusions: VPSB73 or VIS320H1

Recommended Preparation: FAH288H5 and FAH289H5 and FAH388H5

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

FAH315H5 • Photomontage: History, Theory, and Practice

This course investigates the history, theory, and practice of photomontage from its roots in combination printing in the mid-19th century to its key role in the modernist "isms of art"

in Europe and North America including Dada, Surrealism, Constructivism, and the Bauhaus to the rise of digital photomontage in the current Photoshop era. It explores a range of practices and applications of photomontage in avant-garde art, commercial advertising, mass media, humorous satire, propaganda, and political activism.

Prerequisites: (FAH101H5 or VCC101H5) and FAH291H5.

Distribution Requirements: Humanities

Mode of Delivery: In Class

FAH317H5 • Spirit Photography

From the haunted images of William Mumler in the 1860's to contemporary manifestations of digital ghost hunting, the search for elusive and invisible spirits by means of the camera lens has been an ongoing preoccupation in the history of photography for over 150 years. Starting with the emergence of phantasmagoric visual entertainments (ca. 1800), this course reviews this rich and fascinating history in Europe and North America but also with a few non-Western cultural examples (e.g., Japan, Philippines) focusing on key case studies in spirit photographic practice. The course considers various reasons why

people have wanted to believe in the veracity of these phenomena (e.g., followers of the religious movement of Spiritualism) as well as why others have wanted to debunk spirit photography as a hoax or fraud (e.g., Harry Houdini and P.T. Barnum). Exploring theories derived from deconstruction and psychoanalysis, we seek to understand the philosophical and psychological significance of spirit photography introducing constructs such as hauntology, spectrality, the uncanny, and the work of mourning. The course also reviews how contemporary artists (e.g., Oursler, Beloff) have incorporated motifs and themes related to spirit photography in their works.

Prerequisites: (FAH101H5 or VCC101H5) and FAH291H5

Exclusions: FAH492H5 (Fall 2017)

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

FAH329H5 • Early Christian Art and Architecture

Examines art and architecture during the emergence of Christianity in the West until ca. 600, focusing primarily on Italy. Assesses the connections between polytheistic, imperial Roman art and new Christian traditions in a variety of media, including mosaics, metalwork, wall painting, and sculpture. Also considers the role of primary texts in the interpretation of Early Christian art.

Prerequisites: (FAH101H5 or FAH202H5) and

(FAH215H5 or FAH216H5) or permission of instructor

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

FAH332H5 • Studies in Baroque Painting

Thematically organized treatment of major figures (Caravaggio, Carracci, Poussin) in the context of art theory and viewer response.

Prerequisites: (FAH101H5 or FAH105H5 or FAH202H5) and (FAH274H5 or FAH279H5)

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

FAH337H5 • Court Art and Patronage in the Middle Ages

Art and architecture of royal and imperial families from ca. 800 to 1400 in western Europe, including Norman, Capetian, Plantagenet, and Hohenstaufen dynasties. Topics include the role of courts in the development and diffusion of new styles, and monuments as expressions of

piety, chivalry, and political propaganda. May be taken for credit for the Specialist/Major programs in Architecture (St. George).

Prerequisites: (FAH101H5 or FAH105H5 or FAH202H5) and (FAH216H5 or FAH217H5)
Exclusions: FAH316H1 or FAH327H1
Distribution Requirements: Humanities
Total Instructional Hours: 24S
Mode of Delivery: In Class

FAH338H5 • Multicultural Middle Ages

This course examines medieval works of art and architecture that challenge long-held ideas about the European Middle Ages as monocultural and exclusively Christian. It considers the mobility of people, objects, and ideas through migration, trade, diplomacy, conquest, and pilgrimage, and focuses on particular places where multiculturalism flourished, including Spain, Sicily, and Venice. It also evaluates multiculturalism from different eras, from the Middle Ages to the contemporary world, to better understand its different meanings and manifestations, as well as its impact on art history.

Prerequisites: FAH101H5 and (FAH215H5 or FAH216H5)
Recommended Preparation: At least 1.0 credits at the 200 level in FAH
Distribution Requirements: Humanities
Total Instructional Hours: 24S
Mode of Delivery: In Class

FAH343H5 • Pilgrimage

Examines the experience of pilgrimage from an interdisciplinary perspective, with focus on major Christian and Islamic shrines in the Middle Ages. Considers monuments associated with sites such as Santiago, Jerusalem, and Mecca, as well as objects collected by pilgrims. May be taken for credit for the Specialist/Major programs in Religion (U of T Mississauga), Christianity & Culture (St. George), and Architecture (St. George).

Prerequisites: (FAH101H5 or FAH105H5 or FAH202H5) and FAH216H5
Exclusions: FAH316H1
Distribution Requirements: Humanities
Total Instructional Hours: 24S
Mode of Delivery: In Class

FAH351H5 • Gothic Architecture

Study of origins, architecture and decoration of the Gothic Cathedral in the Ile-de-France, treating function and symbolism, intellectual and social contexts, and initial diffusion of the style to other countries. Considers post-medieval Gothic as well.

Prerequisites: (FAH101H5 or FAH105H5 or FAH202H5) and (FAH216H5 or FAH217H5)
Exclusions: FAH328H1 or VPHC42
Distribution Requirements: Humanities
Total Instructional Hours: 24S
Mode of Delivery: In Class

FAH353H5 • The sculptor-architect GianLorenzo Bernini

Topics in the sculpture, architecture, methods and biographical legacy of the principal 17th-century artist of the Roman baroque, GianLorenzo Bernini. Focus of the course changes from year to year. May be taken for credit for the Specialist/Major programs in Religion (U of T Mississauga), Christianity & Culture (St. George), and Architecture (St. George).

Prerequisites: FAH101H5 and (FAH274H5 or FAH279H5).
Exclusions: FAH352H5
Distribution Requirements: Humanities
Total Instructional Hours: 24S
Mode of Delivery: In Class

FAH356H5 • Colonial Latin American Art and Architecture

This lecture course will examine processes of cultural transfer and transformation in the planning of cities, churches, and viceregal palaces from the early days of contact through the Baroque in the Viceroyalties of Mexico and Peru and in Brasil. The persistence of indigenous beliefs and forms will be tracked in painting, sculpture, and architecture alongside the emergence of unique genres (i.e., castas, feather paintings), building types, and forms based on the particular makeup of a colonial society.

Prerequisites: (FAH101H5 or FAH105H5 or FAH202H5) or permission of instructor
Recommended Preparation: FAH274H5 and FAH279H5 and HIS290H5 and LAS200Y1 and HIS291Y1
Distribution Requirements: Humanities
Total Instructional Hours: 24S
Mode of Delivery: In Class

FAH360H5 • Art and Visual Culture of the Eighteenth Century

This course examines European painting, sculpture, architecture, landscape architecture, print culture, decorative arts, exhibition strategies, and art criticism of the eighteenth century. Key artists and writers to be studied from the age of enlightenment and revolution include Blake, Burke, David, Diderot, Fragonard, Girodet, Goya, Hogarth, Reynolds, Vigée-Lebrun, Watteau, Winckelmann, Boullée, Ledoux and Wright of Derby.

Prerequisites: ([FAH101H5](#) or [FAH105H5](#) or [FAH202H5](#)) and at least 1.5 credits in FAH at the 200-level

Recommended Preparation: [FAH279H5](#) and [FAH287H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

FAH362H5 • Modern Craft

This course examines ideas, practices, and politics of craft that have emerged in the modern period in response to the industrial and digital revolutions, and other significant social and political changes. Topics covered include the place of craft in modern and contemporary art; gendered, classed, and raced understandings of craft; craft's relationship to the environment; and Indigenous perspectives and practices.

Prerequisites: [FAH101H5](#) and ([FAH287H5](#) or [FAH288H5](#))

Exclusions: [FAH392H5](#) (Craft - 20209)

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

FAH375H5 • All Our Relations: Indigenous Land Stewardship and Art

This class embraces land- and earth-based skills as tools in the production and maintenance of revitalization efforts in Indigenous culture and knowledge. Throughout the course students will lead the development, production and maintenance of a Community Medicine Garden initiative to be located in the heart of the UTM campus. Topics include environmental liberation, food sovereignty, kinship, gardening as resistance, patriarchy, land stewardship, landscaping with regional indigenous plants, Indigenous feminisms, place-based knowledge and knowledge sharing. Activities will include: film screenings, community feasts, public readings, drumming circles, and guests speakers with Traditional Indigenous knowledge carriers, artists, environmental activists, and local grassroots community-based partners.

Prerequisites: [FAH101H5](#) and [FAH275H5](#)

Course Experience: University-Based Experience

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

FAH380H5 • New Genres in Contemporary Art

A study of artistic genres in contemporary art, including: video, performance, installation, site-specificity and digital media. Such new genres will be studied as alternative modes of artistic practice collaborative, ephemeral, institutionally critical, and discursive, and as a means to address questions and issues such as public space,

community, networks of information, and global capitalism and activism.

Prerequisites: ([FAH101H5](#) or [FAH105H5](#) or [FAH202H5](#)) and ([FAH288H5](#) or [FAH289H5](#))

Recommended Preparation: [FAH289H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

FAH382H5 • Artists and Craftsmen from the Muslim World

What do we know about the pre-modern artists of the Muslim world? This course explores the lives of artist from the Muslim world and what we know about their education, status, styles, techniques and influences. The course includes examples of a calligrapher, a painter, a metalworker, a ceramicist, and an architect.

Prerequisites: [FAH101H5](#) and [FAH281H5](#) or [FAH282H5](#)

Exclusions: [FAH395H5](#) - Topics course: Artists and Craftsmen from the Muslim World

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

FAH383H5 • Cities in the Early modern Muslim World: Istanbul, Isfahan, and Delhi

This course explores the three major cities of the pre-modern Muslim empires: Istanbul under the Ottomans, Isfahan under the Safavids, and Delhi under the Mughals. The course addresses the urban formation, architectural style, and visual symbolism of these cities.

Prerequisites: [FAH101H5](#) and ([FAH281H5](#) or [FAH282H5](#))

Exclusions: [FAH395H5](#) Topics course: Cities in the Early modern Muslim World: Istanbul, Isfahan, and Delhi

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

FAH385H5 • Modern and Contemporary Art of India

This course traces a chronology of South Asian art from its genealogies in late colonial image-making traditions from the 1850s to the present, situating modernist 'high' art in terms of its conversation with the broader field of cultural practice in modern India: cinema, vernacular bazaar prints, rural and tribal craft traditions, practices of popular devotion, and 'classical' artistic traditions. It investigates the theoretical and political concerns animating South Asian cultural practices and their criticism (nationalism, Marxism, secularism, anti-fundamentalism, Islam, feminism, postcolonialism, issues of diaspora and

globalization), and addresses the key question of how to approach practices of modernism and postmodernism in the postcolony.

Prerequisites: (FAH101H5 or FAH105H5 or FAH202H5) and VCC201H5 and (FAH288H5 or FAH289H5) or permission of instructor

Exclusions: FAH364H1 or FAH365H1 or FAH392H5 - Topic: Contemporary South Asian Art

Recommended Preparation: VCC302H5

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

FAH388H5 • Theory in Art History

Investigates the historical development of the Western discipline of art history through the theories that have shaped it; topics covered include formalism, semiotics, psychoanalysis, the social history of art, feminism, post-colonialism, queer studies and deconstruction.

Prerequisites: (FAH101H5 or FAH105H5 or FAH202H5) and at least 1.0 credits in FAH/VCC

Exclusions: FAH351H1

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

FAH390H5 • Topics in Modern Art and Architecture

An examination of a topic in modern art and or architecture. Topics vary from year to year; the content in any given year depends upon the instructor. This will be a lecture course for approximately 30 students.

Prerequisites: FAH101H5 and FAH287H5 or (FAH288H5 or FAH289H5) or permission of instructor

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

FAH392H5 • Topics in Modern Art/Architecture

An examination of a topic in modern art and or architecture. Topics vary from year to year; the content in any given year depends upon the instructor. This will be a lecture course for approximately 30 students.

Prerequisites: (FAH101H5 or FAH105H5 or FAH202H5) and (FAH287 or FAH288H5 or FAH289H5) or permission of instructor

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

FAH393H5 • Topics in Ancient Greco-Roman Art

An examination of a topic in the art and architecture of classical antiquity. Topics vary from year to year; the area of study and content in any given year depends upon the instructor. This will be a lecture course for approximately 30 students.

Prerequisites: (FAH101H5 or FAH105H5 or FAH202H5) and (FAH203H5 or FAH204H5 or FAH205H5) or permission of instructor

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

FAH394H5 • Topics in Early Modern Art and Architecture

An in-depth examination of a topic in early modern (Renaissance and/or Baroque) art and/or architecture. Topics vary from year to year, and the content in any given year depends upon the instructor. A seminar course limited to approx. 30 students.

Prerequisites: FAH101H5 and (FAH287 or FAH288H5 or FAH289H5) or permission of instructor

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

FAH395H5 • Topics in Islamic Art and Architecture

An examination of a topic in Islamic art and or architecture. Topics vary from year to year; the content in any given year depends upon the instructor. This will be a lecture course for approximately 30 students.

Prerequisites: (FAH101H5 or FAH202H5) and (FAH287 or FAH288H5 or FAH289H5) or permission of instructor

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

FAH396H5 • Topics in Medieval Art and Architecture

An examination of a topic in medieval art and or architecture. Topics vary from year to year; the content in any given year depends upon the instructor. This will be a lecture course for approximately 30 students.

Prerequisites: FAH101H5 and (FAH215H5 or FAH216H5) or permission of instructor

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

FAH399Y5 • Research Opportunity Program (ROP)

This course provides a richly rewarding opportunity for students in their third year or beyond to work on the research project of a professor in art history/theory in return for 399Y course credit. Students enrolled have an opportunity to become involved in original research, enhance their research skills, and share in the excitement and discovery of acquiring new knowledge. Participating faculty members post their project descriptions for the following summer and fall/winter session on the ROP website in mid-February and students are invited to apply at that time. See [Experiential and International Opportunities](#) for more details.

Exclusions: FAH299Y5

Distribution Requirements: Humanities

Mode of Delivery: In Class

FAH415H5 • Theory and Criticism of Photography

Introduces a variety of approaches for interpreting, criticizing, evaluating, and theorizing photographs and photography in general. Examines how the thinking of photography is revisioned via major theoretical models.

Prerequisites: [FAH101H5](#) and ([FAH291H5](#) or [FAH391H5](#)) and a minimum of 0.5 at the 300/400 level in FAH

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

FAH423H5 • Topics in the Art of the Medieval Mediterranean

Examines the art and architecture of the Mediterranean basin, including Western Christian, Byzantine, Islamic, and Jewish art, from the first century through the fifteenth. Considers their points of convergence as well as their distinct differences and priorities. Organized around key works of scholarship that have defined the emerging field of Mediterranean studies, along with primary sources. Considers works in all media, from monumental arts to textiles, metalwork, manuscripts, and ceramics. Also makes use of local museum holdings.

Prerequisites: ([FAH101H5](#) or [FAH105H5](#) or [FAH202H5](#)) and [FAH216H5](#) and at least 1.0 credit in FAH/VCC at the 300/400 level.

Recommended Preparation: [FAH105H5](#) and [FAH267H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

FAH424H5 • Medieval Collecting and Display

This course examines collections of medieval art assembled during the Middle Ages and today. It considers the formation of collections within religious and secular institutions of the Middle Ages (treasuries), and the ways in which objects entered such collections through diplomacy, war, dowries, wills, and new commissions. It examines how the collections expressed historical memory, family ties, religious ideas, and political ideologies, and how the objects were displayed. The course also examines collections of medieval art in the GTA, including those at the Aga Khan Museum, Art Gallery of Ontario, Royal Ontario Museum, and University of Toronto Art Centre. A variety of methodologies will be explored, including Digital Humanities.

Prerequisites: [FAH215H5](#) or [FAH216H5](#) and at least 1.0 credit in FAH/VCC at the 300/400 level.

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

FAH434H5 • Art and Architecture of Medieval Rome

This seminar examines the art and architecture of Rome from the first century CE through the fourteenth. It focuses on the city's art and image in the wake of Christianization and its often ambivalent attitudes toward its classical past. Works in all media, from large-scale churches, wall paintings, and icons will be considered, along with liturgical arts and manuscripts. Medieval texts will figure prominently as well.

Prerequisites: ([FAH101H5](#) or [FAH105H5](#) or [FAH202H5](#)) and ([FAH216H5](#) or [FAH217H5](#) or [FAH205H5](#)) and 0.5 at the 300/400 level in Medieval Art or permission of instructor

Recommended Preparation: [FAH267H5](#) or [FAH343H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

FAH435H5 • Women and Art in the Middle Ages

An interdisciplinary study, including feminist analysis, of the roles of women in the Middle Ages, their representation in medieval art, and their impact on varying aspects of the art as subject, object, patron or artist.

Prerequisites: ([FAH101H5](#) or [FAH105H5](#) or [FAH202H5](#)) and ([FAH216H5](#) or [FAH217H5](#)) and at least 0.5 FAH at the 300/400 level.

Exclusions: [FAH425H1](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

FAH451H5 • Curating Now: Turning Concepts into Curatorial Projects

Students will research and develop a curatorial project proposal in the form of an exhibition, a public installation, a public event, a performance, a website, etc., as the culminating assignment for the course. The emphasis of the course will be on the application of knowledge gained in FAH310H5 and consideration of the multi-level preparatory stages entailed in the mounting of a curatorial project, placing particular emphasis on conceptualization and methodology, and on the premise that curatorial practice is an intellectual endeavour that manifests its ideas in form. Students will learn how to turn a concept into a project proposal and become equipped to develop innovative solutions to future challenges in curatorial practice.

Prerequisites: (FAH101H5 or FAH105H5 or FAH202H5) and FAH310H5

Exclusions: FAH480H5 or VIS320H5

Enrolment Limits: Intended for advanced students with high standing in the Art History or Art & Art History Program.

Course Experience: University-Based Experience

Distribution Requirements: Humanities

Total Instructional Hours: 36S

Mode of Delivery: In Class

FAH453H5 • The Archive and the Formless

This course is a study of twentieth-century and contemporary art history that draws upon philosophies of the archive (as the formalization of knowledge in terms of origins and ends) and the formless (as a deconstructive force of these very same knowledge formations). Through close readings of key texts by Georges Bataille, Sigmund Freud, Walter Benjamin, Jacques Derrida, and Giorgio Agamben, an understanding of the complex interrelations between the archive and the formless, and their bearing upon twentieth-century and contemporary art history is developed.

Prerequisites: (FAH101H5 or FAH105H5 or FAH202H5) and (FAH288H5 or FAH289H5) and 1.0 credit in FAH/VCC at the 300-400 level or permission of instructor

Recommended Preparation: FAH388H5

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

FAH454H5 • Contemporary Jewish Art

This course examines the significance of the visual arts for the study of contemporary Jewish culture, for the construction of Jewish identities, and as an example of Jewish secularization. It does so through a survey of contemporary Jewish artistic production and visual expression with numerous and comparative examples drawn from producers in North America, Europe, and

Israel. In addition, the course is attuned to the social and political dimensions and implications of contemporary Jewish art making. It will be organized thematically and cover a range of topics from the challenges faced by visual artists grappling with the Second Commandment and its prohibition of images to the continuing impact of the idea of diaspora on contemporary Jewish artists. The course will also situate its subject matter in relation to larger debates about the emergence of postmodern subjectivities and the place (or displacement) of religion and religious themes in contemporary art in general.

Prerequisites: (FAH101H5 or FAH105H5 or FAH202H5) and FAH288H5 and FAH289H5, and at least 1.0 credit in FAH or VCC at the 300/400 level.

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

FAH455H5 • Photography and Humour

What makes a photograph funny? What are the ways in which photography as a visual and narrative medium induces laughter and provides amusement? This course explores such questions by focusing on major photographic genres and humorists (e.g., Weegee, Parr, Heartfield, Fontcuberta) and by analyzing key historical and contemporary images that mock conventional assumptions about the nature of photography and its claims to truth, identity, and reference. The course will be structured as a seminar featuring directed discussion and class presentations.

Prerequisites: (FAH101H5 or VCC101H5) and (FAH291H5 or FAH391H5) and 1.0 credit in FAH or VCC at the 300/400 level or permission of instructor

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

FAH457H5 • Exile and Modern Art

Investigates the role of exile, expatriation, and alienation in art of the late 19th and 20th centuries. Considering the idea of psychological and/or physical displacement as key to the condition of modernity and the formation of artistic modernisms, the course analyzes artistic strategies of representing, coping with, and/or enacting displacement and alienation (of the artist, the viewer, the object) in the work of Gauguin, Dada artists, Pollock, Morimura, Hatoum, Wodiczko, Whiteread, and others.

Prerequisites: (FAH101H5 or FAH105H5 or FAH202H5) and (FAH287H5 or FAH288H5) and 0.5 credit in FAH/VCC at the 300-level or permission of instructor

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

FAH460H5 • Art and Animation

This seminar examines the age-old dream of creating animate art, from lifelike paintings and moving statues to automata and androids. In addition to tracing historical shifts in the way Western culture has imagined its artificial counterparts through works of literature, fine arts, and film, a major focus of the course will be the effect these creations have on conceptions of the human. Readings include Castle, Dick, Freud, Hawthorne, Hoffman, Shelley, Stafford, Ovid, and Villiers de l'Isle-Adam.

Prerequisites: Must be a third- or fourth-year student currently enrolled in one of the following programs: Art History, Art & Art History, Visual Culture and Communication, or literature studies (English, French, Italian, German). Preference will be given to students in Art History, Art & Art History, and Visual Culture and Communication.

Recommended Preparation: (FAH101H5 or FAH105H5 or FAH202H5) and (FAH287H5 or FAH288H5)

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

FAH462H5 • Islamic Art and the Museum

This course explores how museum displays construct cultural narratives for the consumption of the viewer. It focuses on Islamic art. By examining recent (21st-century) Islamic art museums and gallery installations in North America and Europe, the course addresses the topics of art collecting, orientalism, the colonial gaze, Islamophobia, and the current visual narratives of Islam and Muslims through the arts. In the first part of the course students are introduced to Islamic art through the collections of some of the main international museums including the British Museum (BM) in the UK, the Louvre in France, the Royal Ontario Museum (ROM) in Canada, and the Metropolitan Museum of Art (MET) in New York. Students will explore the ways in which Islamic art galleries and exhibitions have evolved to reflect academic approaches including post-colonial and object studies. Students will then use the skills acquired in the course and on-line museum collections to develop and propose an Islamic art exhibition thus experiencing the process of developing an object-based narrative, writing it, presenting it, as well as responding to peer review.

Prerequisites: [FAH101H5 and (FAH281H5 or FAH282H5)] and at least 1.0 credit in FAH/VCC at the 300/400 level] or permission of instructor.

Exclusions: FAH486H1 (20201) or FAH495H5 (20189) or FAH495H5 (20201) or FAH495H5 (20211).

Course Experience: University-Based Experience

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

FAH465H5 • Icon, Artwork, Fetish

This seminar explores the conceptual categories of icon, artwork and fetish in order to think about the frames of value, desire and power within which images circulate, and the ongoing relationships between art, religion, and commerce. Readings drawn from critical theory, art history, anthropology, religious studies, film studies and psychoanalysis will prepare students to research case studies on the transcultural and transdisciplinary careers of particular objects/images of their choosing.

Prerequisites: (FAH101H5 or FAH105H5 or FAH202H5) and (FAH288H5 or FAH289H5) and 1.0 credit in FAH or VCC at the 300/400 level or permission of instructor

Recommended Preparation: (VCC302H5 or VCC304H5) and FAH388H5

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

FAH470H5 • The History of Art History

An introduction for advanced students in art history to the historiography and institutional history of the discipline of art history. This reading-intensive course will focus on major figures and key texts from the 19th century to the present, including Burckhardt, Wölfflin, Riegl, Warburg, Panofsky, Hauser, Baxandall, Schapiro, Alpers, Clarke, Nochlin, and others.

Prerequisites: (FAH101H5 or FAH105H5 or FAH202H5) and 1.5 in FAH at the 200-level and at least 1.0 in FAH/VCC at the 300 level or permission of instructor

Recommended Preparation: FAH388H5

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

FAH472H5 • Early Modern Mobile Objects

This course concerns the global circulation of objects or things in the early modern world (ca. 1500-1700) when new trade routes brought about an unprecedented mobilization of artifacts of visual culture, foodstuffs and other goods. We will be concerned with the manifold appearances of uprooted objects, new arrangements, and the invisible layers of skill, materials, and manufacture that resulted from heightened exchange. Objects of study will range broadly: porcelain, tableware and foodstuffs, screens and silver, naturalia and their elaborate mounts, miniatures, prints and books, paintings (Dutch Still Life, Las Meninas) which put the world of things on display.

Prerequisites: (FAH101H5 and FAH274H5) or FAH279H5 and 1.0 credit in FAH/VCC at the 300/400 level or permission of instructor

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

FAH473H5 • The Nature of Landscape

This seminar takes a historical and comparative view of "landscape" as the representation of land, situating it within European ideas about "nature" and its relationship to ideas about who we are as humans. It compares Western landscape painting traditions with visual forms from other traditions that could be seen as "landscapes," but might be based on very different ideas. These include Indigenous art from Canada, as well as East and South Asian forms. Understanding these multiple traditions equips students for a more globally oriented, historically informed, and critical approach to modern and contemporary art concerned with the environment and our existence in the geological age lately dubbed the Anthropocene. The seminar readings provide the basis for final research papers pertaining to the broad theme of landscape or eco-aesthetics in modern or contemporary art, as well as in other image practices across a range of global traditions.

Prerequisites: FAH101H5 and (FAH287H5 or FAH288H5) and 1.0 credit in FAH/VCC at the 300/400 level.

Distribution Requirements: Humanities

Mode of Delivery: In Class

FAH475H5 • Topics in Contemporary Indigenous Art

A senior research and creation seminar exploring topics that advance conversations in Contemporary Indigenous art. This course will look at a selection of influential Canadian and International Indigenous Art projects by living artists as case studies. Topic will vary with faculty research interests; the course may cover such matters as environmental justice, accountability in accomplice-building between Indigenous and non-Indigenous artists, and the influence of social movements in shaping local and international conversations on Indigenous Art and culture from Alcatraz and Idle No More to Standing Rock. May include a practical workshop component. May include a research, curatorial or art project.

Prerequisites: FAH101H5 and FAH275H5 and FAH375H5

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

FAH479H5 • Studies in Curatorial Practice

Students who have demonstrated unusual ability in earlier years will be encouraged to undertake, under the supervision of one or more staff members, special research projects culminating in a major research paper. Not more than two half-courses in Independent Studies may be taken in a single year. Students must have written

consent of their faculty supervisor(s) and the undergraduate counsellor before registering.

Prerequisites: Six FAH credits including FAH310H and permission of instructor

Distribution Requirements: Humanities

Mode of Delivery: In Class

FAH480H5 • Studies in Ancient Art

Students who have demonstrated unusual ability in earlier years will be encouraged to undertake, under the supervision of one or more staff members, special research projects culminating in a major research paper. Students must have written consent of their faculty supervisor(s) and the undergraduate counsellor before registering.

Note:

Not more than two half-credit courses in Independent Studies may be taken in a single year.

Prerequisites: (FAH105H5 or FAH202H5) and 3.0 credits of FAH including 0.5 credit at the 300+ level and permission of instructor

Distribution Requirements: Humanities

Mode of Delivery: In Class

FAH481H5 • Studies in Ancient Art

Students who have demonstrated unusual ability in earlier years will be encouraged to undertake, under the supervision of one or more staff members, special research projects culminating in a major research paper. Students must have written consent of their faculty supervisor(s) and the undergraduate counsellor before registering.

Note:

Not more than two half-credit courses in Independent Studies may be taken in a single year.

Prerequisites: 3.0 credits in FAH including 0.5 credit at the 300 or 400-level and permission of instructor

Distribution Requirements: Humanities

Mode of Delivery: In Class

FAH482H5 • Studies in Medieval Art

Students who have demonstrated unusual ability in earlier years will be encouraged to undertake, under the supervision of one or more staff members, special research projects culminating in a major research paper. Not more than two half-courses in Independent Studies may be taken in a single year. Students must have written consent of their faculty supervisor(s) and the undergraduate counsellor before registering.

Prerequisites: Six FAH courses including a 300+ level half course and permission of instructor

Distribution Requirements: Humanities
Mode of Delivery: In Class

FAH483H5 • Studies in Medieval Art

Students who have demonstrated unusual ability in earlier years will be encouraged to undertake, under the supervision of one or more staff members, special research projects culminating in a major research paper. Not more than two half-courses in Independent Studies may be taken in a single year. Students must have written consent of their faculty supervisor(s) and the undergraduate counsellor before registering.

Prerequisites: 3.0 credits in FAH including 0.5 at the 300 or 400-level and permission of instructor
Distribution Requirements: Humanities
Mode of Delivery: In Class

FAH484H5 • Studies in Renaissance Art

Students who have demonstrated unusual ability in earlier years will be encouraged to undertake, under the supervision of one or more staff members, special research projects culminating in a major research paper. Not more than two half-courses in Independent Studies may be taken in a single year. Students must have written consent of their faculty supervisor(s) and the undergraduate counsellor before registering.

Prerequisites: Six FAH courses including a 300+ level half course and permission of instructor
Distribution Requirements: Humanities
Mode of Delivery: In Class

FAH485H5 • Studies in Renaissance Art

Students who have demonstrated unusual ability in earlier years will be encouraged to undertake, under the supervision of one or more staff members, special research projects culminating in a major research paper. Students must have written consent of their faculty supervisor(s) and the undergraduate counsellor before registering.

Note:
 Not more than two half-credit courses in Independent Studies may be taken in a single year.

Prerequisites: 3.0 credits in FAH including 0.5 at the 300 or 400-level and permission of instructor
Distribution Requirements: Humanities
Mode of Delivery: In Class

FAH486H5 • Studies in Baroque Art

Students who have demonstrated unusual ability in earlier years will be encouraged to undertake, under the supervision of one or more staff members, special

research projects culminating in a major research paper. Students must have written consent of their faculty supervisor(s) and the undergraduate counsellor before registering.

Note:
 Not more than two half-credit courses in Independent Studies may be taken in a single year.

Prerequisites: 3.0 credits in FAH including 0.5 credit at the 300 or 400-level and permission of instructor
Distribution Requirements: Humanities
Mode of Delivery: In Class

FAH487H5 • Studies in Baroque Art

Students who have demonstrated unusual ability in earlier years will be encouraged to undertake, under the supervision of one or more staff members, special research projects culminating in a major research paper. Not more than two half-courses in Independent Studies may be taken in a single year. Students must have written consent of their faculty supervisor(s) and the undergraduate counsellor before registering.

Prerequisites: Six FAH courses including a 300+ level half course and permission of instructor
Distribution Requirements: Humanities
Mode of Delivery: In Class

FAH488H5 • Studies in Modern Art

Students who have demonstrated unusual ability in earlier years will be encouraged to undertake, under the supervision of one or more staff members, special research projects culminating in a major research paper. Students must have written consent of their faculty supervisor(s) and the undergraduate counsellor before registering.

Note:
 Not more than two half-credit courses in Independent Studies may be taken in a single year.

Prerequisites: 3.0 credits in FAH including 0.5 credit at the 300 or 400-level and permission of instructor
Distribution Requirements: Humanities
Mode of Delivery: In Class

FAH489H5 • Studies in Modern Art

Students who have demonstrated unusual ability in earlier years will be encouraged to undertake, under the supervision of one or more staff members, special research projects culminating in a major research paper. Not more than two half-courses in Independent Studies may be taken in a single year. Students must have written consent of their faculty supervisor(s) and the undergraduate counsellor before registering.

Prerequisites: Six FAH courses including a 300+ level half course and permission of instructor

Distribution Requirements: Humanities

Mode of Delivery: In Class

FAH490H5 • Topics in Ancient Art and Architecture

An in-depth examination of a topic in ancient art and/or architecture. Topics vary from year to year, and the content in any given year depends upon the instructor. A seminar course limited to 20 students.

Prerequisites: (FAH101H5 or FAH105H5 or FAH202H5) and (FAH203H5 or FAH204H5 or FAH205H5) and 1.0 credits in FAH/VCC at the 300/400 level

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

FAH491H5 • Topics in Medieval Art and Architecture

An in-depth examination of a topic in Medieval art and or architecture. Topics vary from year to year, and the content in any given year depends upon the instructor. A seminar course limited to 20 students.

Prerequisites: FAH101H5 and (FAH215H5 or FAH216H5) and 1.0 credit in FAH or VCC at the 300 or 400 level

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

FAH492H5 • Topics in Modern Art and Architecture

An in-depth examination of a topic in modern art and/or architecture. Topics vary from year to year, and the content in any given year depends upon the instructor. A seminar course limited to 20 students.

Prerequisites: (FAH101H5 or FAH105H5 or FAH202H5) and (FAH287H5 or FAH288H5) and at least 1.0 in FAH/VCC at the 300/400 level, or permission of instructor

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

FAH493H5 • Topics in Early Modern Art and Architecture

An in-depth examination of a topic in early modern (Renaissance and/or Baroque) art and/or architecture. Topics vary from year to year, and the content in any given year depends upon the instructor. A seminar course limited to 20 students.

Prerequisites: (FAH101H5 or FAH105H5 or FAH202H5) and (FAH274H5 or FAH279H5) and 1.0 credits in FAH/VCC at the 300/400 level

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

FAH494H5 • Topics in Contemporary Art and Theory

An in-depth examination of a topic in contemporary art and/or theory. Topics vary from year to year, and the content in any given year depends upon the instructor. A seminar course limited to 20 students.

Prerequisites: (FAH101H5 or FAH105H5 or FAH202H5) and (FAH288H5 or FAH289H5) and 1.0 credits in FAH or VCC at the 300/400 level

Recommended Preparation: FAH288H5 and FAH289H5 and FAH388H5

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

FAH495H5 • Topics in Islamic Art and Architecture

An examination of a topic in Islamic art and or architecture. Topics vary from year to year; the content in any given year depends upon the instructor. This will be a lecture course for approximately 20 students.

Prerequisites: (FAH101H5 or FAH202H5) and (FAH287H5 or FAH288H5) and at least 1.0 in FAH/VCC at the 300/400 level, or permission of instructor

Exclusions: FAH486H1 Case Studies at the Royal Ontario Museum: Exhibiting Islamic Art and Material Culture

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

FAH496H5 • Topics in Modern Art and Architecture

An in-depth examination of a topic in modern art and/or architecture. Topics vary from year to year, and the content in any given year depends upon the instructor. A seminar course limited to 20 students.

Prerequisites: (FAH101H5 or FAH105H5 or FAH202H5) and (FAH287H5 or FAH288H5) and at least 1.0 in FAH/VCC at the 300/400 level, or permission of instructor

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

FAH498H5 • Topics in Curatorial Studies

An in-depth examination of a topic in Curatorial Studies. Topics vary from year to year, and the content in any given year depends upon the instructor. A seminar course limited to 20 students. FAH498H5 may be counted toward the Curatorial Studies Certificate.

Prerequisites: (FAH101H5 or FAH105H5 or FAH202H5) and FAH289H5 and FAH310H5 and 0.5 additional credit in FAH/VCC

Recommended Preparation: FAH288H5

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

VST410H5 • Internship in Visual Studies

This internship course provides an opportunity for students to gain practical experience at an institution or business closely related to the arts and to visual studies. This is especially tailored for mature and self-disciplined students in their final year of study, who are ready to apply knowledge acquired in previous courses and are planning a career in the arts and cultural sector. Students registered in any DVS program are eligible to apply. Students work closely with the DVS internship coordinator to establish suitability. Regular updates and a final report and presentation will be required. The final grade for the course will be based on these, along with the assessment of the employer.

Prerequisites: Minimum completion of 5.5 credits in DVS Programs and 8.0 additional credits and minimum CGPA 2.5 and permission of internship coordinator.

Course Experience: Partnership-Based Experience

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

VST410Y5 • Internship in Visual Studies

This internship course provides an opportunity for students to gain practical experience at an institution or business closely related to the arts and to visual studies. This is especially tailored for mature and self-disciplined students in their final year of study, who are ready to apply knowledge acquired in previous courses and are planning a career in the arts and cultural sector. Students registered in any DVS program are eligible to apply. Students work closely with the DVS internship coordinator to establish suitability. Regular updates and a final report and presentation will be required. The final grade for the course will be based on these, along with the assessment of the employer.

Prerequisites: Minimum of 5.5 credits in DVS program courses and 8.0 additional credits and minimum CGPA 2.5 and permission of internship coordinator

Exclusions: VST410H5

Course Experience: Partnership-Based Experience

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

Fine Art Studio

FAS143H5 • Drawing I

Campus: Sheridan

(Offered at Sheridan College) Students explore the use of drawing to investigate contemporary approaches to the production of artwork. Students experiment with a variety of traditional and unconventional materials to investigate figurative drawing, observational drawing, conceptual drawing, and methods of rendering illusionistic space.

Exclusions: VIS205H1 or VPSA70

Distribution Requirements: Humanities

Total Instructional Hours: 72P

Mode of Delivery: In Class

FAS145H5 • Painting I

Campus: Sheridan

(Offered at Sheridan College) Students explore techniques and subject matter of 20th-century painting in relation to contemporary painting practices. Students apply both observational and conceptual approaches through experimentation with painting's formal elements, traditional and non-traditional painting materials, collage, and abstraction.

Exclusions: FAS230Y1 or VIS201H1 or VPSA61

Distribution Requirements: Humanities

Total Instructional Hours: 72P

Mode of Delivery: In Class

FAS147H5 • Photography I

Campus: Sheridan

(Offered at Sheridan College) Students build skills using a manual-operation camera, processing B&W film, creating silver-based photographic prints in the darkroom, and in acquiring basic digital processing and printing techniques in colour photography. Students apply their use of photography as a tool for artistic expression and as a medium for communication through discussion, analysis and interpretation.

Exclusions: VIS217H1 or VIS218H or VPSB67

Distribution Requirements: Humanities

Total Instructional Hours: 72P

Mode of Delivery: In Class

FAS232H5 • Print Media I

Campus: Sheridan

(Offered at Sheridan College) Students learn relief and intaglio processes by exploring and experimenting with the materials and techniques demonstrated in class, and integrating them with formal and contextual concerns.

Exclusions: [VIS203H1](#) or [VIS303H1](#)
Distribution Requirements: Humanities
Total Instructional Hours: 72P
Mode of Delivery: In Class

FAS234H5 • Print Media II

Campus: Sheridan
(Offered at Sheridan College) Students explore the basics of screen printing using hand-drawn and cut stencil imagery. Students are encouraged to link ideas with screen printing methods most suited to their goals. Students integrate digital and photo-based imagery using software, digital photos, and scans. Focus is placed upon individual development through exploration and production.

Corequisites: [FAS232H5](#) or permission of instructor
Exclusions: [VIS206H1](#) or [VIS207H1](#) or [VIS309H1](#)
Distribution Requirements: Humanities
Total Instructional Hours: 72P
Mode of Delivery: In Class

FAS236H5 • Design I

Campus: Sheridan
(Offered at Sheridan College) Students develop an awareness of applied design thinking and theories. Students use design techniques and tools to address a range of design issues through a variety of approaches and media. Students broaden their conception of design and its application in other design and art-related disciplines through creative experimentation. The fundamental principles of design and concept development are explored by students through projects involving typography, images, colour, layout and design software for print and the Web.

Exclusions: [FAS146H5](#)
Distribution Requirements: Humanities
Total Instructional Hours: 72P
Mode of Delivery: In Class

FAS243H5 • Drawing II

Campus: Sheridan
(Offered at Sheridan College) Students explore the use of drawing to investigate contemporary approaches to the production of artwork. Students experiment with a variety of traditional and experimental materials to investigate figurative drawing, zines, and independent studio research.

Prerequisites: [FAS143H5](#) or permission of instructor
Exclusions: [VIS205H1](#) or [VIS211H1](#) or [VIS305H1](#) or

VPSB74

Distribution Requirements: Humanities
Total Instructional Hours: 72P
Mode of Delivery: In Class

FAS245H5 • Painting II

Campus: Sheridan
(Offered at Sheridan College) Students complete problem-based paintings, each over a three-week period, in response to illustrated discussion/lectures on Canadian and international contemporary painting practices. Students write visiting artist reviews and are introduced to in-depth peer critiques, a range of painting media and techniques, and portfolio documentation.

Prerequisites: [FAS145H5](#) or permission of instructor
Exclusions: [FAS230Y1](#) or [VIS201H1](#) or [VIS301H1](#) or VPSB62
Distribution Requirements: Humanities
Total Instructional Hours: 72P
Mode of Delivery: In Class

FAS246H5 • Design II

Campus: Sheridan
(Offered at Sheridan College) Students continue to develop their investigation of design thinking, theories, techniques and tools. Students study different design strategies and problem solving with practical assignments. Diverse assignments encourage students to articulate a critical awareness of the values associated with their choice of imagery, formal elements and methods of construction.

Prerequisites: [FAS146H5](#) or [FAS236H5](#) or permission of instructor
Distribution Requirements: Humanities
Total Instructional Hours: 72P
Mode of Delivery: In Class

FAS247H5 • Photography II

Campus: Sheridan
(Offered at Sheridan College) Students explore historical and contemporary uses of the medium that emphasize technical, aesthetic and conceptual considerations. Students utilize a variety of printing methods, including fibre-based printing, sequencing and other techniques that further develop the creative aspects of the medium. Use of the video camera and basic video editing are also introduced.

Prerequisites: [FAS147H5](#) or permission of instructor
Exclusions: [VIS318H1](#) or VPSB75
Distribution Requirements: Humanities
Total Instructional Hours: 72P
Mode of Delivery: In Class

FAS248H5 • Sculpture I

Campus: Sheridan

(Offered at Sheridan College) Students delve into basic sculptural processes such as casting, mold-making and construction in both traditional and non-traditional materials. Students explore formal and conceptual concerns relative to contemporary sculpture practices that include considerations of representation, abstraction, form and space, scale and installation.

Exclusions: VIS204H1 or VIS306H1 or VPSA71

Distribution Requirements: Humanities

Total Instructional Hours: 72P

Mode of Delivery: In Class

FAS258H5 • Sculpture II

Campus: Sheridan

(Offered at Sheridan College) Students create a strong individualized methodology for developing ideas from initial research, sketches and models, through material and process exploration to a final artwork. Students begin by building an armature and modelling from life with clay in order to develop their powers of observation and hand-skills. Using mold making and woodworking techniques, students apply the sculptural aspects of space and time at the scale of the human body.

Prerequisites: FAS248H5

Exclusions: VIS204H1

Distribution Requirements: Humanities

Total Instructional Hours: 72P

Mode of Delivery: In Class

FAS330Y5 • Experimentation in Past and Present Techniques

Campus: Sheridan

(Offered at Sheridan College) This course is a practical investigation of techniques in art that have both historical precedents and contemporary applications. Media covered may include some of the following: mosaic, bas-relief in wood, encaustic, metalpoint drawing, and fresco. Students collaborate to create a mural for a public site.

Prerequisites: Any FAS200 level course and 1.5 credits in FAH/VCC and permission of instructor

Distribution Requirements: Humanities

Total Instructional Hours: 144P

Mode of Delivery: In Class

FAS334Y5 • Print Media III

Campus: Sheridan

(Offered at Sheridan College) Students use lithography, digital printing, screen printing, relief printing and etching to establish a personalized approach to print media. Students conduct independent research and technical explorations leading to sophisticated and resolved work.

Students present a biographical overview of contemporary and historical print makers to further contextualize their own work, and to become aware of how the medium of print is evolving.

Prerequisites: FAS234H5 and 1.5 credits in FAH/VCC and permission of instructor

Exclusions: VIS309H1

Distribution Requirements: Humanities

Total Instructional Hours: 144P

Mode of Delivery: In Class

FAS343Y5 • Drawing III

Campus: Sheridan

(Offered at Sheridan College) Students explore the use of drawing to investigate contemporary approaches to the production of artwork. Students work with a variety of traditional and unconventional drawing materials and processes to develop a portfolio of artworks.

Prerequisites: FAS243H5 and 1.5 credits in FAH/VCC and permission of instructor

Exclusions: VIS305H1 or VPSC55

Distribution Requirements: Humanities

Total Instructional Hours: 144P

Mode of Delivery: In Class

FAS345Y5 • Painting III

Campus: Sheridan

(Offered at Sheridan College) Students develop independent research habits to support self-directed projects in painting that are discussed in a peer critique setting. Students compose an artist statement of their intentions and procedures, write gallery and visiting artist reviews, prepare a contemporary Canadian or international artist presentation, and document their artwork.

Prerequisites: FAS245H5 and 1.5 credits in FAH/VCC and permission of instructor

Exclusions: VIS305H1 or VPSC54

Distribution Requirements: Humanities

Total Instructional Hours: 144P

Mode of Delivery: In Class

FAS346Y5 • Design III

Campus: Sheridan

(Offered at Sheridan College) Students develop the skills necessary to create real-world art and design-related projects. Students create full or partial design mockups, work in teams, and submit proposals to design competitions within or outside the school. Students explore contemporary art and design via simulated workplace assignments, visual presentation, field trips, guest critics, discussion and critique.

Prerequisites: FAS246H5 and 1.5 credits in FAH/VCC and permission of instructor

Distribution Requirements: Humanities

Total Instructional Hours: 144P

Mode of Delivery: In Class

FAS347Y5 • Photography III

Campus: Sheridan

(Offered at Sheridan College) Students develop a critically informed photography practice by integrating the history and theory of photography with their production of original work in either an analogue or digital format. Students work with digital imaging technologies, production of digital prints, video, as well as the use of strobe lighting.

Prerequisites: FAS247H5 and 1.5 credits in FAH/VCC and permission of instructor

Exclusions: VIS318H1

Distribution Requirements: Humanities

Total Instructional Hours: 144P

Mode of Delivery: In Class

FAS348Y5 • Sculpture III

Campus: Sheridan

(Offered at Sheridan College) Students develop independent research habits to support self-directed projects in sculpture that are discussed in a peer critique setting. Students compose an artist statement of their intentions and procedures, write visiting artist reviews and responses to assigned readings, prepare a contemporary Canadian or international artist presentation, and document their artwork.

Prerequisites: FAS258H5 and 1.5 credits in FAH/VCC and permission of instructor

Exclusions: VIS306H or VPSB63

Distribution Requirements: Humanities

Total Instructional Hours: 144P

Mode of Delivery: In Class

FAS349Y5 • Video, Sound and Performance

Campus: Sheridan

(Offered at Sheridan College) This studio-based course investigates issues of identity, gender, activism, and the body within public and private space. Fieldwork will be emphasized: the locus of the classroom becomes part of a critical inquiry of everyday life or specific public events. Assignments take into consideration the temporal nature of performance, video, sound, and interactivity. Students are exposed to a range of interdisciplinary and trans-media approaches such as digital video production and projection, multi-track sound editing, installations and interventions, and online interactivity. Through readings, presentations, discussions, workshops, topical assignments, and critiques, students develop a body of

work that investigates experimental time-based processes.

Prerequisites: FAS143H5 and FAS145H5 and FAS147H5 and FAS232H5 and FAS236H5 and FAS248H5, and 1.5 credits in FAH/VCC/VST and permission of instructor

Distribution Requirements: Humanities

Total Instructional Hours: 144P

Mode of Delivery: In Class

FAS359Y5 • Video and Sound

Campus: Sheridan

(Offered at Sheridan College) Students explore the use of sound and video to investigate contemporary approaches to the production of time-based artwork. Students work with analogue and digital editing processes, live sound performance, site-specific soundworks, single-channel video, video installation, and will develop a professional portfolio website.

Prerequisites: FAS143H5 and FAS145H5 and FAS147H5 and FAS232H5 and FAS236H5 and FAS248H5, and an additional 0.5 credit in FAS at the 200-level and 1.5 credits in FAH/VCC/VST and permission of instructor

Exclusions: VIS302H1

Distribution Requirements: Humanities

Total Instructional Hours: 144P

Mode of Delivery: In Class

FAS369Y5 • Performance-Based Art

Campus: Sheridan

(Offered at Sheridan College) Students integrate history, theory and production to develop critically informed performance practices with documentation in video and still photography.

Prerequisites: FAS143H5 and FAS145H5 and FAS147H5 and FAS232H5 and FAS236H5 and FAS248H5, and an additional 0.5 credit in FAS at the 200-level, and 1.5 credits in FAH/VCC/VST and permission of instructor

Exclusions: VIS303H1

Distribution Requirements: Humanities

Total Instructional Hours: 144P

Mode of Delivery: In Class

FAS434Y5 • Individual Investigations in Print Media

Campus: Sheridan

(Offered at Sheridan College) Students conduct independent research and develop a body of work using print medium(s) of their choice. Students present information on their educational and professional goals after graduation, write an artist's statement about their

work, review and discuss articles and videos, and mount a group exhibition of their work.

Prerequisites: FAS334Y5 and 1.5 credits in FAH/VCC and permission of instructor

Exclusions: VIS311H1 or VIS401H1 or VIS402H1 or VIS403H1 or VIS404H1

Course Experience: University-Based Experience

Distribution Requirements: Humanities

Total Instructional Hours: 144P

Mode of Delivery: In Class

FAS443Y5 • Individual Investigations in Drawing

Campus: Sheridan

(Offered at Sheridan College) Students explore the use of drawing to investigate contemporary approaches to the production of artwork. Students work with a variety of traditional and unconventional drawing materials and processes to develop a professional website portfolio. Students participate in peer critiques, and write reflective essays and artist statements.

Prerequisites: (FAS343Y5 or FAS349Y5 or FAS359Y5 or FAS369Y5) and 1.5 credits in FAH/VCC and permission of instructor

Exclusions: VIS305H1

Course Experience: University-Based Experience

Distribution Requirements: Humanities

Total Instructional Hours: 144P

Mode of Delivery: In Class

FAS445Y5 • Individual Investigations in Painting

Campus: Sheridan

(Offered at Sheridan College) Students develop independent research habits to support self-directed projects in painting that are discussed in a peer critique setting. Students write an artist statement of their intentions and procedures, prepare a Canadian and international MFA program presentation, and document their artwork.

Prerequisites: FAS345Y5 and 1.5 credits in FAH/VCC and permission of instructor

Exclusions: VIS401H1 or VIS402H1 or VIS403H1 or VIS404H1

Course Experience: University-Based Experience

Distribution Requirements: Humanities

Total Instructional Hours: 144P

Mode of Delivery: In Class

FAS446Y5 • Individual Investigations in Design

Campus: Sheridan

(Offered at Sheridan College) Students learn to integrate professional art and design strategies, and to research, coordinate and fully realize their own long-term projects. Students work collaboratively on large projects as well as work on mandatory and optional assignments from a range of possible assignments.

Prerequisites: FAS346Y5 and 1.5 credits in FAH/VCC and permission of instructor

Course Experience: University-Based Experience

Distribution Requirements: Humanities

Total Instructional Hours: 144P

Mode of Delivery: In Class

FAS447Y5 • Individual Investigations in Photography

Campus: Sheridan

(Offered at Sheridan College) Students develop a critically informed photography practice by integrating the history and theory of photography with their production of original work in either an analogue or digital format. Students prepare a presentation comparing two Canadian and/or international MFA programs, in addition to preparing responses to readings and technical assignments.

Prerequisites: (FAS347Y5 or FAS349Y5 or FAS359Y5 or FAS369Y5) and 1.5 credits in FAH/VCC and permission of instructor

Exclusions: VIS401H1 or VIS402H1 or VIS403H1 or VIS404H1

Course Experience: University-Based Experience

Distribution Requirements: Humanities

Total Instructional Hours: 144P

Mode of Delivery: In Class

FAS448Y5 • Individual Investigations in Sculpture

Campus: Sheridan

(Offered at Sheridan College) Students produce a coherent body of self-directed artwork based on independent research and written proposals. In-progress and completed artworks are discussed in a peer critique setting. Students write an artist statement of their intentions and procedures, prepare a Canadian and international MFA program presentation, and document their artwork.

Prerequisites: FAS348Y5 or FAS349Y5 or FAS359Y5 or FAS369Y5 and 1.5 credits in FAH/VCC and permission of instructor

Exclusions: VIS401H1 or VIS402H1 or VIS403H1 or VIS404H1

Course Experience: University-Based Experience

Distribution Requirements: Humanities

Total Instructional Hours: 144P

Mode of Delivery: In Class

FAS450Y5 • Advanced Project

Campus: Sheridan

(Offered at Sheridan College) In this directed study, students undertake two semesters of independent research under the mentorship of a full-time Art and Art History studio faculty member. Students develop and present a body of artwork and a written and illustrated thesis for discussion, evaluation and critique. Advanced Project students must have a B+ standing in a completed fourth-year studio. A written proposal must be submitted to, and approved by, the department before registration.

Prerequisites: 1.0 FAS 400-level course and FAS451H5 and FAS452H5 and 1.5 credits in FAH/VCC and permission of the Department.

Exclusions: VIS311H1 or VIS401H1 or VIS402H1 or VIS403H1 or VIS404H1

Course Experience: University-Based Experience

Distribution Requirements: Humanities

Total Instructional Hours: 144P

Mode of Delivery: In Class

FAS451H5 • Advanced Project

Campus: Sheridan

(Offered at Sheridan College) In this directed study, students undertake a semester-long period of independent research under the mentorship of a full-time Art and Art History studio faculty member. Students develop and present a body of artwork and a written and illustrated thesis for discussion, evaluation and critique. Advanced Project students must have a B+ standing in a completed fourth-year studio. A written proposal must be submitted to, and approved by, the department before registration.

Corequisites: 1.0 FAS 400-level credits and Permission of the Department

Exclusions: VIS311H1 or VIS401H1 or VIS402H1 or VIS403H1 or VIS404H1

Course Experience: University-Based Experience

Distribution Requirements: Humanities

Total Instructional Hours: 72P

Mode of Delivery: In Class

FAS452H5 • Advanced Project

Campus: Sheridan

(Offered at Sheridan College) In this directed study, students undertake a semester-long period of independent research under the mentorship of a full-time Art and Art History studio faculty member. Students develop and present a body of artwork and a written and illustrated thesis for discussion, evaluation and critique. Advanced Project students must have a B+ standing in a completed fourth-year studio. A written proposal must be submitted to, and approved by, the department before registration.

Corequisites: 1.0 FAS 400-level credits and Permission of the Department

Exclusions: VIS311H1 or VIS401H1 or VIS402H1 or VIS403H1 or VIS404H1

Course Experience: University-Based Experience

Distribution Requirements: Humanities

Total Instructional Hours: 72P

Mode of Delivery: In Class

FAS453H5 • Art Education Practice

Campus: Sheridan

(Offered at Sheridan College) Students investigate the principles of educational theory and practice for teaching the visual arts to learners including children, adolescents and adults, within a variety of educational settings.

Prerequisites: For Art and Art History majors/specialists: 4.0 FAS credits and 1.5 FAH/VCC credits, Permission of the Department. For Art History majors/specialists: 1.0 credits in FAH at the 300/400 level and Permission of the Department.

Distribution Requirements: Humanities

Total Instructional Hours: 12P/24S

Mode of Delivery: In Class

FAS454H5 • Professional Practice

Campus: Sheridan

(Offered at Sheridan College) Students explore the requirements of establishing a career as a practicing visual artist. Topics covered include portfolio development, finding and securing artist residency and exhibition opportunities, ways to support yourself as an artist, grant writing, photo documentation, peer group support, marketing and bookkeeping.

Prerequisites: For Art and Art History Majors/Specialists: 4.0 FAS credits and 1.5 FAH/VCC credits and permission of the department. For Art History Majors/Specialists: 1.0 credits in FAH at the 300/400 level and permission of the department.

Distribution Requirements: Humanities

Total Instructional Hours: 12P/24S

Mode of Delivery: In Class

FAS455H5 • Teaching Art in the School and Community

Campus: Sheridan

(Offered at Sheridan College) In this practicum course, students gain hands-on teaching experience in a setting of their choice and interact with administrators, teachers, and community leaders.

Prerequisites: For Art and Art History majors/specialists: 4.0 FAS credits, 1.5 FAH/VCC credits and Permission of the Department. For Art History majors/specialists: 1.0 credits in FAH at the 300/400 level and Permission of the Department.

Recommended Preparation: FAS453H5

Course Experience: Partnership-Based Experience

Distribution Requirements: Humanities

Total Instructional Hours: 24P/15S

Mode of Delivery: In Class

Astronomy, of all the sciences, is perhaps the most wide-ranging in its content and in its implications. The study of astronomy covers vastly different orders of magnitude in scale - from physics at the scale of a single atom all the way to physics on the scale of the size of the universe itself. It embraces such fundamental topics as the origin of the planets and moons of the solar system, the formation and evolution of stars and galaxies, the earliest moments of the universe's history, the behaviour of matter in environments never experienced on earth, the conditions for life on earth and elsewhere, and in general, the influence of the universe on humankind's thinking throughout the ages. Astronomy is also one of the oldest and most universal scientific disciplines. Cultures around the world and throughout human history have constructed knowledge about the universe via observations of the night sky.

Modern astronomy research is conducted through observations with large telescopes on high mountaintops or even in space. These observatories give us access to photons emitted by objects both in our local galactic neighborhood and in extremely distant galaxies, which we try to understand in conjunction with theoretical physical models and large scale computer simulations. As such, astronomy is a highly interdisciplinary field, drawing in knowledge and techniques from physics, optics, mathematics, computer science, earth and atmospheric science, and statistics. Because of its breadth, it has always formed a valuable part of a general education. Students who focus on astronomy as a major or specialist will emerge from their studies with valuable and widely applicable skills in all of these subject areas.

Astronomy offers several courses of potential interest to every student at U of T Mississauga. Some courses are designed for students outside the sciences (AST101H5, AST201H5, AST115H5), some for students with some background in science (AST110H5, AST252H5), and some for students enrolled in an Astronomy major or Astronomical Sciences specialist program (AST221H5, AST222H5).

Non-science students may be interested in the following courses:

- AST101H5 - Exploring the Solar System - introduces students to the local environment of the solar system, from early naked-eye observations of the motions of the planets through to the development of modern telescopes and observatories - both on the ground and in space - and the discoveries they have yielded.
- AST201H5 - Exploring the Universe - surveys the structure and evolution of the stars, galaxies, and the universe as a whole.

- AST115H5 - Cultural Astronomy - surveys astronomy from a historical and cultural perspective, framing scientific knowledge around the ways human cultures have interpreted observations of the night sky throughout history and around the world.

Students with some science background may be interested in the following courses:

- AST110H5 - Introduction to Astronomical Observations - provides an introduction to observing and analysis. This course is intended for students with some background in the sciences, as well as students planning to pursue the Astronomical Sciences specialist or Astronomy major programs.
- AST252H5 - Life in the Universe - is a unique interdisciplinary course that examines the broad topics of the origin and evolution of life in the universe - both life as we know it on Earth, and life as it might be on other planets and moons in the solar system and in exoplanetary systems. This course is intended for students who have some background in the sciences.

UTM also offers a Specialist program in Astronomical Sciences and a major program in Astronomy. Two introductory astrophysics courses intended for students in these programs are currently offered at UTM:

- AST221H5 - Introduction to Astrophysics I - focuses on stars and stellar systems - from their structure and energy generation mechanisms, to their evolution, to the planetary systems they host.
- AST222H5 - Introduction to Astrophysics II - expands outward to study the formation and evolution of galaxies and the universe, from the Big Bang through to today.

Students interested in either the Astronomical Sciences or the Astronomy program should consult the Astronomy faculty advisor at U of T Mississauga as early as possible in their first year. The faculty advisor can also provide information and advice about the astronomy courses and programs available on the St. George Campus.

Students should also review the [Degree Requirements](#) section prior to selecting courses

Astronomy Programs

Astronomical Sciences - Specialist (Science)

Enrolment Requirements:

Limited Enrolment — Enrolment in this program limited.

For students applying in 2021-2022 for program entry in the 2022-2023 Academic Year, 4.0 credits are required, including the following:

1. [AST110H5](#)
2. [MAT102H5](#)
3. ([MAT135H5](#) and [MAT136H5](#)) or [MAT135Y5](#) or [MAT137Y5](#) or [MAT157Y5](#)
4. ([PHY136H5](#) and [PHY137H5](#)) or ([PHY146H5](#) and [PHY147H5](#))

For students applying in 2022-2023 (and beyond) for program entry in the 2023-2024 Academic Year (and beyond), 4.0 credits are required, including the following:

1. [AST110H5](#)
2. [MAT102H5](#)

3. (MAT135H5 and MAT136H5) or (MAT137H5 and MAT139H5) or (MAT157H5 and MAT159H5) or MAT135Y5 or MAT137Y5 or MAT157Y5
4. (PHY136H5 and PHY137H5) or (PHY146H5 and PHY147H5)
5. ISP100H5

Completion Requirements:

14.0-14.5 credits are required.

First Year:

1. AST110H5
2. MAT102H5
3. (MAT135H5 and MAT136H5) or (MAT137H5 and MAT139H5) or (MAT157H5 and MAT159H5) or MAT135Y5 or MAT137Y5 or MAT157Y5
4. MAT223H5 or MAT240H5
5. (PHY136H5 and PHY137H5) or (PHY146H5 and PHY147H5)
6. For students entering the program in 2023-2024 (and beyond): ISP100H5

Second Year:

1. AST221H5 and AST222H5
2. MAT232H5 or MAT233H5
3. MAT236H5 and MAT244H5
4. PHY241H5 and PHY245H5
5. PHY242H5 or JCP221H5

Third Year:

1. AST320H5
2. JCP265H5 or CSC108H5 or AST325H1
3. JCP321H5 and JCP322H5
4. MAT311H5 and MAT334H5
5. PHY325H5 and PHY347H5

Fourth Year:

1. AST399Y5 or AST425Y1
2. JCP421H5
3. PHY451H5
4. STA220H5 or STA256H5

ERSPE1025

Astronomy - Major (Science)

Enrolment Requirements:

Limited Enrolment — Enrolment in this program limited.

4. [PHY241H5](#) and [PHY245H5](#)
5. [PHY242H5](#) or [JCP221H5](#)

Higher Years:

1. [AST320H5](#)
2. [JCP321H5](#)
3. [JCP322H5](#) or 0.5 credit at the 300/400-level approved by the faculty advisor.

[ERMAJ2204](#)

Astronomy Courses

AST101H5 • Exploring the Solar System

This course explores Earth's local family, consisting of two types of major planets, newly identified dwarf planets, many moons orbiting the planets, and millions of smaller objects such as comets and meteoroids. This course examines how these groups are similar and different, how

the solar system formed, and how our solar system compares to the systems of other stars.

Exclusions: [AST101H1](#) or [AST121H1](#) or [AST221H1](#) or [ASTA01H3](#)

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

AST110H5 • Introduction to Astronomical Observations

This course gives a quantitative, scientific introduction to observing, concentrating on objects that can be seen with the naked eye or with binoculars. The measurements will be combined with calculations to yield quantitative conclusions and predictions. This is the first course for students following the major in astronomy or the specialist

in astronomical sciences, but it is also suitable for students with the appropriate background who want to understand more fully the celestial phenomena visible to them.

Recommended Preparation: SPH4U and MHF4U and MCV4U

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

AST115H5 • Cultural Astronomy

This course will explore the historic and ongoing relationship between astronomy and human culture. In this course, students will approach astronomical concepts through the lens of archaeoastronomy – the exploration of astronomical practices in ancient cultures, and ethnoastronomy – the study of modern astronomical practices by cultures around the world. Topics will include cultural interpretations of the motions of the stars, planets, moon, and sun, methods of navigation and timekeeping, puzzles that have inspired important shifts in our understanding of the Universe, and varying cultural conceptions of what science is and how it is done.

Exclusions: [AST101H5](#) or [AST101H1](#) or [AST215H5](#) or [AST210H1](#) or [ASTB03H3](#)

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

AST201H5 • Exploring the Universe

The Universe extends from the Sun to the most distant regions we can observe. This course explores our Sun, the other stars, the Milky Way galaxy in which our Sun lives, other galaxies that are far outside our Milky Way, and the most distant objects we can observe. In addition, the course presents evidence that everything we observe is just a small fraction of what exists in the Universe. The course content considers how the Universe began and evolved over time and the possibility of life beyond Earth.

Exclusions: [AST121H1](#) or [AST201H1](#) or [AST210H1](#) or [AST221H1](#) or [AST222H1](#) or [ASTA02H3](#) or [ASTB23H3](#)

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

AST221H5 • Astrophysics I – Planets, Sun and Stars

This course explores the astrophysics of planets, Sun and stars, including their observed variety, structure, formation and evolution.

Prerequisites: [\[MAT135H5 and MAT136H5\]](#) or [\[MAT137H5 and MAT139H5\]](#) or [\[MAT157H5 and MAT159H5\]](#) or [MAT135Y5](#) or [MAT137Y5](#) or [MAT157Y5](#)

and ([PHY146H5](#) and [PHY147H5](#))

Exclusions: [AST221H1](#)

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

AST222H5 • Astrophysics II – Stellar Systems, Galaxies and the Universe

This course explores the astrophysics of the Milky Way, other galaxies, and the Universe.

Prerequisites: [AST221H5](#)

Exclusions: [AST222H1](#)

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

AST252H5 • Life in the Universe

This course addresses the question of life beyond Earth. Starting with our current understanding of how life began and evolved on Earth, the course explores possibility that life might have developed elsewhere in the Universe. It summarizes the evidence that the conditions necessary for life might exist today or existed in the past on other planets in our solar system. This search for evidence of life is then extended to the thousands of planets that have been discovered orbiting other stars.

Exclusions: [AST251H1](#)

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

AST299Y5 • Research Opportunity Program

This courses provides a richly rewarding opportunity for students in their second year to work in the research project of a professor in return for 299Y course credit. Students enrolled have an opportunity to become involved in original research, learn research methods and share in the excitement and discovery of acquiring new knowledge. Participating faculty members post their project descriptions for the following summer and fall/winter sessions in early February and students are invited to apply in early March. See [Experiential and International Opportunities](#) for more details.

Course Experience: University-Based Experience

Distribution Requirements: Science

Mode of Delivery: In Class

AST320H5 • Astrophysics III – Unsolved Problems in Astrophysics

This course explores the formation, equilibrium, and evolution of structure on various astronomical scales through the investigation of major open questions in modern astrophysics. Topics may include exoplanet formation and evolution, supermassive black holes, the progenitors of type Ia supernovae, galaxy evolution, and the nature of dark matter.

Prerequisites: AST222H5

Exclusions: AST320H1

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

AST399Y5 • Research Opportunity Program

This course provides third-year undergraduate students (after completing at least 9.0 credits) who have developed some knowledge of astronomical research with an opportunity to assist in a research project of a professor in return for course credit. Students enrolled in this course have the opportunity to enhance their research skills and share in the excitement of acquiring new knowledge and in the discovery process of science. Participating faculty members post their project descriptions for the following summer and fall/winter sessions in early February, and students are invited to apply in early March. See Experiential and International Opportunities for more details.

Course Experience: University-Based Experience

Distribution Requirements: Science

Mode of Delivery: In Class

CPS489Y5 • Introduction to Research in the Chemical and Physical Sciences

Students will work toward the completion of an experimental or theoretical research project in an area of study within the chemical and physical sciences, namely, astronomy, chemistry, earth sciences or physics. Projects will be based on current trends in research and students will work to complete their projects with guidance provided by a team of facilitators and faculty advisors consisting of course coordinators and a researcher from the Department of Chemical and Physical Sciences. In addition to the rigorous development of research skills, the course will also provide students with training and practical experience in project management techniques and practical research, literary and communications skills development. CPS489Y5 requires submitting an application to the department Application forms may be found at <http://uoft.me/cpsforms>. Applications should be submitted to the CPS Undergraduate Assistant.

Prerequisites: (2.0 credits at the 300 level from BIO or CHM or JBC or JCP or ERS or ESS or PHY) and (1.0

credit from BIO206H5 or BIO314H5 or CHM372H5 or CHM373H5 or CHM394H5 or CHM395H5 or CHM396H5 or CHM397H5 or ERS201H5 or ERS202H5 or PHY324H5 or PHY347H5 or JCP321H5 or JCP322H5 or PHY325H5 or PHY332H5 or PHY333H5 or PHY343H5 or PHY351H5)

Exclusions: BIO400Y5 or BIO481Y5 or CBJ481Y5 or CHM489Y5 or ERS470Y5 or ERS471H5 or ERS472H5 or PHY489Y5 or BCH472Y1 or BCH473Y1 or CHM499Y1 or CSB497H1 or CSB498Y1 or CSB499Y1 or ESS491H1 or ESS492Y1 or MGY480Y1 or PHY478H1 or PHY479Y1 or BIOD98Y3 or CHMD90Y3 or CHMD91H3 or ESSD09H3 or ESSD10H3 or PSCD10H3

Course Experience: University-Based Experience

Distribution Requirements: Science

Total Instructional Hours: 240P

Mode of Delivery: In Class

JCB487Y5 • Advanced Interdisciplinary Research Laboratory

Students will work together as members of a multidisciplinary team toward the completion of an interdisciplinary experimental or theoretical research project. Teams will be comprised of at least three students, with representation from at least three areas of specialization, namely, astronomy, biology, chemistry, earth sciences or physics. The interdisciplinary projects will be based on current trends in research and student teams will work to complete their projects with guidance provided by a team of faculty advisors from the Biology Department and the Department of Chemical and Physical Sciences. In addition to the rigorous development of research skills, the course will also provide students with training and practical experience in project management techniques and teamwork skills development. JCB487Y5 requires submitting an application to the department before the end of June for Fall enrolment. Application forms may be found at <http://uoft.me/cpsforms>. Application should be submitted to the CPS Undergraduate Assistant. Registration on ACORN is also required.

Prerequisites: (2.0 credits at the 300 level from BIO or CHM or JBC or JCP or ERS or ESS(G) or PHY) and (1.0 credit from BIO206H5 or BIO314H5 or CHM372H5 or CHM373H5 or CHM394H5 or CHM395H5 or CHM396H5 or CHM397H5 or ERS201H5 or ERS202H5 or PHY324H5 or PHY347H5). Normally taken in 4th year. Students must obtain approval from the faculty member(s) who will serve as the supervisor(s) in advance of the start of the course.

Exclusions: BIO400Y5 or BIO481Y5 or CBJ481Y5 or CHM489Y5 or ERS470Y5 or ERS471H5 or ERS472H5 or PHY489Y5 or BCH472Y1 or BCH473Y1 or CHM499Y1 or CSB497H1 or CSB498Y1 or CSB499Y1 or ESS491H1 or ESS492Y1 or MGY480Y1 or PHY478H1 or PHY479Y1 or BIOD98Y3 or CHMD90Y3 or CHMD91H3 or ESSD09H3 or ESSD10H3 or PSCD10H3

Course Experience: University-Based Experience

Distribution Requirements: Science

Total Instructional Hours: 240P

Mode of Delivery: In Class

Admissions to the Bioinformatics Specialist Program (ERSPE1868) are administratively suspended as of 2023-2024. Summer 2023 was the final opportunity for students to request enrolment in this subject post. Students enrolled in the program will be allowed to continue.

Bioinformatics is an interdisciplinary science that combines Biology, Computer Science, Statistics, Mathematics and Chemistry. Bioinformatics is the managing of large amounts of biological information generated from research using advanced computational methods/programs.

The Specialist program includes various courses in genetics and molecular biology which will put into context the vast amounts of genomic data and how it is isolated, sequenced and analyzed. Furthermore, the computer science courses will give you the foundation to write your own computer programs as needed to analyze large amounts of data that would not be able to be done by hand in a timely manner. This program also provides a solid foundation in mathematics and statistics that will also help you to design and analyze experiments.

Bioinformatics is used in research that looks at the genetic make-up of an entire organism. Some of its many applications are in medicine or biology.

This program is offered through the Department of Mathematical and Computational Sciences.

Note: Faculty advisors are available for consultation about program selection upon request.

Biology is the study of living organisms and involves observation and analysis of the tree of life. The foundation of biology is based upon the core concepts of evolution: natural selection and speciation. The study of biology is applicable to such major problems as conservation, overpopulation, pollution, medicine and disease.

Career opportunities open to graduates in Biology include teaching; governmental research in areas such as environmental problems, natural resources, wildlife management, conservation, pollution and pest control; business and industry, including biological supply companies, pharmaceuticals, food and dairy industries and biotechnology; medical, dental and related fields including physiological or microbiological research.

The Biology undergraduate advisor is available for help with choosing courses and discussing program requirements.

Effective biological training involves careful study of real organisms, both living and dead. Consequently, almost all Biology courses with laboratories involve students in one or more of the following activities with animals, plants, and/or microorganisms: collecting and preserving organisms from the field; dissecting or handling preserved or euthanized specimens (or properly anaesthetized living specimens); observing and making measurements on organisms maintained under laboratory conditions approved by the Canadian Council of Animal Care. Completion of Specialist or Major programs in Biology will require students to participate in many such activities. Therefore, **students who have objections to such activities should not attempt to major or specialize in Biology at U of T Mississauga**. Students in non-Biology programs who wish to take a Biology course with minimal direct contact with organisms should consult the Biology Undergraduate Advisor.

In obtaining organisms for study in our courses and in studying outdoor natural areas, the Biology Department takes measures to avoid any impacts on threatened organismal groups or rare habitats, and to limit below sustainable levels the impacts of our collecting and measuring on local animal and plant populations.

Students wishing to pursue a program in Biology should take CHM, MAT and a full course equivalent in BIO in their first year.

Students should also review the Degree Requirements section prior to selecting courses

Program website: <http://www.utm.utoronto.ca/biology>

Biology Programs

Biology - Specialist (Science)

Enrolment Requirements:

Enrolment in this program is limited to students who have completed 4.0 credits, including 60% or better in both BIO152H5 and BIO153H5, and who have achieved a cumulative GPA of at least 2.5.

Students who have not attained the standard required to enter the Specialist Program may enrol in the Major or Minor Programs. If their GPA rises to 2.5, and they have completed CHM110H5, CHM120H5, BIO152H5, BIO153H5, BIO202H5, BIO203H5, BIO205H5, BIO206H5, and BIO207H5, they will then be eligible to switch to the Specialist Program. All students (including transfer students) must complete 4.0 UTM credits before requesting this program.

Note: CGPA for enrolment in this program is calculated based on a minimum of 4.0 credits completed at UTM with final percentage grades (i.e. CR/ NCR courses are not applicable).

Completion Requirements:

13.5 credits are required, including at least 6.0 credits at the 300/400 level, of which 1.0 credit must be at the 400 level.

First Year:

1. BIO152H5 and BIO153H5
2. CHM110H5 and CHM120H5
3. (MAT132H5 and MAT134H5) or MAT134Y5 or (MAT135H5 and MAT136H5) or MAT135Y5 or (MAT137H5 and MAT139H5) or MAT137Y5
4. 1.0 credit from: CLA201H5 or ENV100Y5 or (ERS101H5 or ERS120H5) or PHY136H5 or PHY137H5 or PSY100Y5 or WRI173H5 or WRI307H5

Note - (MAT132H5 and MAT134H5) - Calculus for Life Sciences is highly recommended.

Second Year:

1. BIO202H5 and BIO203H5 and BIO205H5 and BIO206H5 and BIO207H5 and BIO259H5

Third and Fourth Years:

1. BIO313H5 or BIO314H5 or BIO409H5
2. BIO360H5
3. 5.5 additional UTM BIO credits. At least 5.0 of these credits must be at the 300 level or above, of which at least 1.0 must be at the 400 level

It is recommended that students in the specialist program include at least 0.5 credit from each of four of the following groups:

- **Ecology and Field Biology:** BIO311H5 or BIO312H5 or BIO313H5 or BIO329H5 or BIO330H5 or BIO331H5 or BIO333H5 or BIO373H5 or BIO376H5 or BIO378H5 or BIO412H5 or BIO416H5 or BIO444H5 or BIO464H5
- **Biology of Whole Organisms:** BIO325H5 or BIO326H5 or BIO329H5 or BIO354H5 or BIO356H5 or BIO376H5 or BIO378H5
- **Genetics and Evolution:** BIO329H5 or BIO341H5 or BIO342H5 or BIO347H5 or BIO407H5 or BIO422H5 or BIO427H5 or BIO443H5 or BIO445H5 or BIO464H5
- **Cell, Molecular and Developmental Biology:** BIO314H5 or BIO315H5 or BIO324H5 or BIO362H5 or (BIO370Y5 or BIO371H5) or BIO368H5 or BIO372H5 or BIO374H5 or BIO375H5 or BIO380H5 or BIO404H5 or BIO407H5 or BIO408H5 or BIO417H5 or BIO419H5 or BIO422H5 or BIO458H5 or BIO475H5 or BIO476H5 or BIO477H5
- **Physiology and Behaviour:** BIO208H5 or BIO304H5 or BIO310H5 or BIO312H5 or (BIO318Y5 or BIO328H5) or BIO320H5 or BIO324 or BIO368H5 or BIO405H5 or BIO408H5 or BIO409H5 or BIO410H5 or BIO411H5 or BIO414H5 or BIO429H5 or BIO434H5

Up to 1.0 credit may be taken from the following biology-related courses: GGR227H5 or GGR305H5 or GGR307H5 or GGR309H5 or GGR311H5 or GGR312H5 or CHM347H5 or CHM361H5 or CHM362H5 or CHM372H5 or CHM373H5 or PHY332H5 or PHY333H5 or PSY290H5 or PSY355H5 or PSY357H5 or PSY392H5 or PSY395H5 or PSY397H5 or ANT334H5 or ANT336H5 or ANT340H5.

Additional courses: BIO361H5 or BIO400Y5 or BIO481Y5 or JCB487Y5

Note:

1. Students wishing to emphasize cell biology, molecular biology, microbiology, physiology or genetics, should take CHM242H5 and CHM243H5 in second year. Such students should take (MAT132H5 and MAT134H5) or

MAT134Y5 or (MAT135H5 and MAT136H5) or MAT135Y5 or (MAT137H5 and MAT139H5) or MAT137Y5, a prerequisite, in their first year.

2. No substitute statistics course will be allowed for BIO360H5.
3. Students may take no more than 2.0 credits combined in ROP, Internship Program, or Individual Project / Thesis courses at the 300/400-level for credit toward their Biology program.
4. Students must consult with the Undergraduate Advisor before enrolling in any St. George course that they wish to use for credit toward any Biology program.

ERSPE2364

Biotechnology - Specialist (Science)

Enrolment Requirements:

Enrolment in this program is limited. Students who wish to enrol at the end of first year (4.0 credits) must obtain a grade of at least C (63%) in both CHM110H5 and CHM120H5, and a cumulative grade point average of at least 2.50 to qualify. Students who do not meet these criteria after first year can apply to enter the Specialist at the end of second year (8.0 credits) with the following new requirements: a grade of at least 70% in CHM242H5 and a cumulative grade point average of at least 2.50. All students (including transfer students) must complete 4.0 UTM credits before requesting this program.

Note: CGPA for enrolment in this program is calculated based on a minimum of 4.0 credits completed at UTM with final percentage grades (i.e. CR/ NCR courses are not applicable).

Completion Requirements:

15.0 credits are required, including at least 7.0 at the 300/400 level, of which 1.5 must be at the 400 level.

First Year: BIO152H5, BIO153H5; CHM110H5, CHM120H5; (MAT132H5 and MAT134H5*) or MAT134Y5 or (MAT135H5 and MAT136H5) or MAT135Y5 or (MAT137H5 and MAT139H5) or MAT137Y5; MGM101H5, MGM102H5

* **Note** - (MAT132H5 and MAT134H5) or MAT134Y5 - Calculus for Life Sciences is highly recommended.

Second Year: BIO200H5, BIO202H5/ BIO203H5, BIO206H5, BIO207H5; CHM211H5, CHM242H5, CHM243H5; BIO259H5

Third and Fourth Years:

1. BIO314H5, BIO315H5, BIO360H5, BIO370Y5, BIO372H5, BIO374H5; CHM311H5, CHM361H5; JBC472H5
2. 1.0 credit from: BIO304H5, BIO310H5, BIO312H5, BIO324H5, BIO341H5, BIO342H5, BIO347H5, BIO362H5, BIO368H5, BIO375H5, BIO380H5, BIO409H5, BIO429H5; CHM333H5 (note: CHM231H5 is prerequisite for this course), CHM341H5, CHM345H5, CHM347H5, CHM362H5, CHM372H5, CHM373H5
3. 1.0 credit from UTM CHM/BIO courses at the 400 level.

NOTE: No substitute statistics course will be allowed for BIO360H5.

It is recommended that students in this program consider taking a research project or internship course in either Biology (BIO400Y5/ BIO481Y5) or Chemistry (CPS489Y5) or JCB487Y5. Other 4th-year courses directly relevant to this program are BIO443H5, BIO476H5, BIO477H5, CHM414H5 and CHM462H5.

Students may take no more than 2.0 credits combined in ROP, Internship Program, or Individual Project / Thesis courses at the 300/400-level for credit toward their Biology program.

Students must consult with the Undergraduate Advisor before enrolling in any St. George course that they wish to use for credit toward any Biology program.

ERSPE1118

Comparative Physiology - Specialist (Science)

Enrolment Requirements:

Enrolment in this program is limited. Students wishing to enrol at the end of the first year (4.0 credits) must obtain a grade of at least 63% in both CHM110H5 and CHM120H5 and a cumulative grade point average of at least 2.50 to qualify. Students who do not meet these criteria can apply to enter the Specialist at the end of second year (8.0 credits) with the following new criteria: a grade of at least 70% in both BIO202H5 and BIO203H5 and a cumulative grade point average of at least 2.50. All students (including transfer students) must complete 4.0 UTM credits before requesting this program.

Note: CGPA for enrolment in this program is calculated based on a minimum of 4.0 credits completed at UTM with final percentage grades (i.e. CR/ NCR courses are not applicable).

Completion Requirements:

14.5 credits are required, including at least 5.0 at the 300/400 level, of which 1.0 credit must be at the 400 level.

First Year:

1. BIO152H5 and BIO153H5
2. CHM110H5 and CHM120H5
3. (MAT132H5 and MAT134H5) or MAT134Y5 or (MAT135H5 and MAT136H5) or MAT135Y5 or (MAT137H5 and MAT139H5) or MAT137Y5
4. 1.0 credit from CLA201H5 or ENV100Y5 or ERS101H5 or PHY136H5 or PHY137H5 or PSY100Y5 or WRI173H5 or WRI307H5

Note: (MAT132H5 and MAT134H5) - Calculus for Life Sciences is highly recommended.

Second Year:

1. BIO202H5 and BIO203H5 and BIO205H5 and BIO206H5 and BIO207H5 and BIO208H5 and BIO209H5 and BIO259H5

Third and Fourth Years:

1. BIO304H5 and BIO310H5 and BIO312H5 and BIO360H5 and BIO409H5;
2. CHM242H5 and CHM243H5
3. At least 2.0 credits from: BIO320H5 or BIO347H5 or BIO354H5 or BIO361H5 or BIO368H5 or BIO372H5 or BIO404H5 or BIO408H5 or BIO410H5 or BIO411H5 or BIO412H5 or BIO414H5 or BIO417H5 or BIO419H5 or BIO422H5 or BIO429H5 or BIO481Y5 or CHM361H5 or CHM362H5 or JCB487Y5 or PHY332H5 or PHY333H5 or PSY290H5 or PSY395H5
4. 1.0 additional BIO credit taken at U of T Mississauga campus

No substitute statistics course will be allowed for BIO360H5. Students may take no more than 2.0 credits combined in ROP, Internship Program, or Individual Project / Thesis courses at the 300/400-level for credit toward their Biology program. Students must consult with the Undergraduate Advisor before enrolling in any St. George course that they wish to use for credit toward any Biology program.

ERSPE0482

Ecology and Evolution - Specialist (Science)

Enrolment Requirements:

Enrolment is limited to students who have completed 4.0 credits (including [BIO152H5](#) and [BIO153H5](#)) with a cumulative grade point average of 2.50. All students (including transfer students) must complete 4.0 UTM credits before requesting this program.

Note: CGPA for enrolment in this program is calculated based on a minimum of 4.0 credits completed at UTM with final percentage grades (i.e. CR/ NCR courses are not applicable).

Completion Requirements:

14.5 credits are required, including at least 6.0 credits at the 300/400 level, of which 1.0 credits must be at the 400 level.

First Year:

1. [BIO152H5](#) and [BIO153H5](#)
2. [CHM110H5](#) and [CHM120H5](#)
3. ([MAT132H5](#) and [MAT134H5](#)) or [MAT134Y5](#) or ([MAT135H5](#) and [MAT136H5](#)) or [MAT135Y5](#) or ([MAT137H5](#) and [MAT139H5](#)) or [MAT137Y5](#)
4. 1.0 credit from: [CLA201H5](#) or [ENV100Y5](#) or [ERS101H5](#) or [PHY136H5](#) or [PHY137H5](#) or [PSY100Y5](#) or [WRI173H5](#) or [WRI307H5](#)

Note: ([MAT132H5](#) and [MAT134H5](#)) - Calculus for Life Sciences is highly recommended.

Second Year:

1. [BIO202H5](#) and [BIO203H5](#) and [BIO205H5](#) and [BIO206H5](#) and [BIO207H5](#) and [BIO259H5](#)

Third and Fourth Years:

1. [BIO313H5](#) and [BIO342H5](#) and [BIO360H5](#) and [BIO443H5](#)
2. 1.0 credit from courses in organismal biology: [BIO325H5](#) or [BIO326H5](#) or [BIO339H5](#) or [BIO354H5](#) or [BIO356H5](#) or ([BIO370Y5](#) or [BIO371H5](#))
3. 0.5 credit from field courses: [BIO332H5](#) or [BIO416H5](#) or [BIO444H5](#) other 2-week Ontario Universities Program in Field Biology (OUPFB) Courses
4. 2.0 credits from core ecology/evolutionary biology courses: [BIO311H5](#) or [BIO329H5](#) or [BIO330H5](#) or [BIO331H5](#) or [BIO333H5](#) or [BIO341H5](#) or [BIO361H5](#) or [BIO373H5](#) or [BIO376H5](#) or [BIO378H5](#) or [BIO406H5](#) or [BIO427H5](#) or [BIO445H5](#) or [BIO464H5](#) or [GGR312H5](#) or [JBH471H5](#)
5. 1.0 credit from other UTM biology courses at the 300/ 400 level.
6. 1.0 credit from related courses from other departments: [MAT222H5](#) or [MAT232H5](#) or [STA302H5](#) or [STA322H5](#) or [GGR227H5](#) or [GGR278H5](#) or [GGR305H5](#) or [GGR307H5](#) or [GGR309H5](#) or [GGR311H5](#) or from courses listed in #4, #5 and #6

Note:

No substitute statistics course will be allowed for [BIO360H5](#).

Students may take no more than 2.0 credits combined in ROP, Internship Program, or Individual Project / Thesis courses at the 300/400-level for credit toward their Biology program.

Students must consult with the Undergraduate Advisor before enrolling in any St. George course that they wish to use for credit toward any Biology program.

Molecular Biology - Specialist (Science)

Enrolment Requirements:

Enrolment in this program is limited. Students wishing to enrol at the end of first year (4.0 credits) must obtain a grade of at least 'C' (63%) in both CHM110H5 and CHM120H5 and a cumulative grade point average of at least 2.50 to qualify. Students who do not meet these criteria can apply to enter the Specialist at the end of second year (8.0 credits) with the following new criteria: a grade of at least 70% in BIO206H5 and a cumulative grade point average of at least 2.50. All students (including transfer students) must complete 4.0 UTM credits before requesting this program.

Note: CGPA for enrolment in this program is calculated based on a minimum of 4.0 credits completed at UTM with final percentage grades (i.e. CR/ NCR courses are not applicable).

Completion Requirements:

15.0 credits are required.

First Year:

1. BIO152H5 and BIO153H5
2. CHM110H5 and CHM120H5
3. (MAT132H5 and MAT134H5) or MAT134Y5 or (MAT135H5 and MAT136H5) or MAT135Y5 or (MAT137H5 and MAT139H5) or MAT137Y5.
4. 1.0 credit from: CLA201H5 or ENV100Y5 or (ERS101H5 or ERS120H5) or PHY136H5 or PHY137H5 or PSY100Y5 or WRI173H5 or WRI307H5

Note: (MAT132H5 and MAT134H5) - Calculus for Life Sciences is highly recommended.

Second Year:

1. BIO206H5 and BIO207H5 and BIO259H5
2. 1.0 credit from BIO202H5 or BIO203H5 or BIO205H5
3. CHM242H5 and CHM243H5

Third Year:

1. BIO314H5 and BIO315H5 and BIO342H5 and BIO360H5 and BIO370Y5 and BIO372H5
2. CHM361H5 and CHM362H5 and CHM372H5 and CHM373H5
3. 0.5 credit from BIO304H5 or BIO310H5 or BIO324H5 or BIO341H5 or BIO347H5 or BIO362H5 or BIO368H5 or BIO374H5 or BIO375H5 or BIO380H5 or CHM347H5 or PHY332H5 or PHY333H5 or BCH335H1 or BCH340H1

Fourth Year:

1. BIO477H5 or BIO419H5**
2. 1.0 credit from BIO403H5 or BIO407H5 or BIO408H5 or BIO411H5 or BIO417H5 or BIO419H5 or BIO422H5 or BIO429H5 or BIO443H5 or BIO458H5 or BIO476H5 or BIO477H5 or BIO481Y5 or BCH441H1 or CHM444H5 or CHM462H5 or CPS489Y5 or JBC472H5 or JCB487Y5 or JCP463H5 or CSB435H1 or CSB450H1 or CSB459H1 or CSB472H1 or CSB473H1 or CSB474H1 or CSB475H1 or MGY425H1 or MGY428H1 or MGY440H1 or MGY445H1 or MGY451H1 or MGY452H1 or MGY470H1 or MIJ485H1

** Please note that both BIO477H5 and BIO419H5 can be taken, but each will be counted only once in the total 1.5 credits required in this section.

Note:

1. Students intending to continue into Graduate Studies should consider including a course in independent research in Year 4.
2. Students may take no more than 2.0 credits combined in ROP, Internship Program, Individual Project/ Thesis courses at the 300/400-level for credit toward their Biology program.
3. No substitute statistics course will be allowed for BIO360H5.

ERSPE1237

Biology - Major (Science)

Enrolment Requirements:

Enrolment in this program is limited to students who have completed 4.0 credits (including BIO152H5 and BIO153H5) and who have achieved a CGPA of at least 2.0. All students (including transfer students) must complete 4.0 UTM credits before requesting this program.

Note: CGPA for enrolment in this program is calculated based on a minimum of 4.0 credits completed at UTM with final percentage grades (i.e. CR/ NCR courses are not applicable).

Completion Requirements:

8.0 credits are required including at least 2.0 at the 300/400 level.

1. BIO152H5, BIO153H5; CHM110H5, CHM120H5; (MAT132H5 and MAT134H5*) or MAT134Y5 or (MAT135H5 and MAT136H5) or MAT135Y5 or (MAT137H5 and MAT139H5) or MAT137Y5

* **Note** - MAT132H5 and MAT134H5 - for Life Sciences is highly recommended.

2. BIO202H5, BIO203H5, BIO205H5, BIO206H5, BIO207H5, BIO259H5
3. 2.0 in UTM Biology courses at the 300 or 400 level.

Note:

- **Completion of this program with the Biology for Health Sciences - Major or Biology - Minor programs will not satisfy the 12.0 distinct credit requirement for degree completion. Students should be aware of the distinct credit requirement for their degree (see section 8.6 - HBSc Degree Requirements for full details). Please choose programs accordingly.**
- PSL201Y1, offered on the St. George campus, will not meet the Physiology requirements for the Biology Major program and cannot be used for this program.
- Students may take no more than 2.0 credits combined in ROP, Internship Program, or Individual Project / Thesis courses at the 300/400-level for credit toward their Biology program.
- Students must consult with the Undergraduate Advisor before enrolling in any St. George course that they wish to use for credit toward any Biology program.

ERMAJ2364

Biology for Health Sciences - Major (Science)

This program focuses on areas of biological science that relate to the health of humans and will provide a strong foundation for students interested in pursuing a career in the health sciences.

Enrolment Requirements:

Enrolment in this program is limited to students who have completed 4.0 credits (including [BIO152H5](#) and [BIO153H5](#)) and who have achieved a CGPA of at least 2.5. All students (including transfer students) must complete 4.0 UTM credits before requesting this program.

Note: CGPA for enrolment in this program is calculated based on a minimum of 4.0 credits completed at UTM with final percentage grades (i.e. CR/ NCR courses are not applicable).

Completion Requirements:

8.5 credits are required including at least 2.0 at the 300/400 level.

1. [BIO152H5](#), [BIO153H5](#); [CHM110H5](#), [CHM120H5](#); ([MAT132H5](#) and [MAT134H5](#)*) or [MAT134Y5](#) or ([MAT135H5](#) and [MAT136H5](#)) or [MAT135Y5](#) or ([MAT137H5](#) and [MAT139H5](#)) or [MAT137Y5](#)

* **Note:** [MAT132H5](#) and [MAT134H5](#) - for Life Sciences is highly recommended.

2. [BIO202H5](#), [BIO206H5](#), [BIO207H5](#), [BIO208H5](#), [BIO209H5](#), [BIO259H5](#), [BIO304H5](#), [BIO310H5](#), [BIO380H5](#)
3. 1.0 credit from any of the courses listed below:

Cell, Molecular, and Biotechnology Stream: [BIO200H5](#), [BIO314H5](#), [BIO315H5](#), [BIO324H5](#), [BIO360H5](#), [BIO368H5](#), [BIO370Y5](#)/ [BIO371H5](#), [BIO372H5](#), [BIO374H5](#), [BIO375H5](#), [BIO404H5](#), [BIO417H5](#), [BIO419H5](#), [BIO422H5](#), [BIO475H5](#), [BIO476H5](#), [BIO477H5](#); [JBC472H5](#)

Neuroscience Stream: [BIO320H5](#), [BIO360H5](#), [BIO403H5](#), [BIO408H5](#), [BIO409H5](#), [BIO411H5](#), [BIO429H5](#)

Genes and Behaviour Stream: [BIO315H5](#), [BIO318Y5](#)/ [BIO328H5](#), [BIO329H5](#), [BIO341H5](#), [BIO342H5](#), [BIO347H5](#), [BIO360H5](#), [BIO361H5](#), [BIO405H5](#), [BIO407H5](#), [BIO414H5](#), [BIO422H5](#), [BIO427H5](#), [BIO443H5](#)

Note:

Completion of this program with the Biology - Major or Biology - Minor programs will not satisfy the 12.0 distinct credit requirement for degree completion. Students should be aware of the distinct credit requirement for their degree (see section 8.6 - HBSc Degree Requirements for full details). Please choose programs accordingly.

[ERMAJ1149](#)

Paleontology - Major (Science)

Enrolment Requirements:

Enrolment in this program is limited to students who have completed 4.0 credits (including [BIO152H5](#) and [BIO153H5](#)) and who have achieved a CGPA of at least 2.0. All students (including transfer students) must complete 4.0 UTM credits before requesting this program.

Note: CGPA for enrolment in this program is calculated based on a minimum of 4.0 credits completed at UTM with final percentage grades (i.e. CR/ NCR courses are not applicable).

Completion Requirements:

9.5 credits are required.

First Year:

1. BIO152H5 and BIO153H5
2. CHM110H5 and CHM120H5
3. (MAT132H5 and MAT134H5)* or MAT134Y5 or (MAT135H5 and MAT136H5) or MAT135Y5 or (MAT137H5 and MAT139H5) or MAT137Y5
4. ENV100Y5 or ERS101H5 or ERS120H5 or ERS111H5

***Note** - MAT132H5 and MAT134H5 - Calculus for Life Sciences is highly recommended.

Second Year: BIO208H5 and BIO209H5 and BIO259H5 and ERS201H5 and ERS202H5 and ERS203H5 and ESS261H1

Third Year and Fourth Year: BIO354H5 and BIO356H5 and ERS325H5 and ESS331H1

ERMAJ1004

Biology - Minor (Science)

Enrolment Requirements:

Enrolment in this program is limited to students who have completed 4.0 credits (including BIO152H5 and BIO153H5) and who have achieved a CGPA of at least 2.0. All students (including transfer students) must complete 4.0 UTM credits before requesting this program.

Note: CGPA for enrolment in this program is calculated based on a minimum of 4.0 credits completed at UTM with final percentage grades (i.e. CR/ NCR courses are not applicable).

Completion Requirements:

1. BIO152H5, BIO153H5
2. 1.0 credit from: BIO202H5, BIO203H5, BIO205H5, BIO206H5, BIO207H5, BIO208H5, BIO209H5
3. 2.0 additional Biology credits, at least 1.0 credit at the 300/400 level.

Note:

- Completion of this program with the Biology for Health Sciences - Major or Biology - Major programs will **not** satisfy the 12.0 distinct credit requirement for degree completion. Students should be aware of the distinct credit requirement for their degree (see section 8.6 - HBSc Degree Requirements for full details). Please choose programs accordingly.
- Four of the seven courses in requirement 2 (above) require CHM110H5, CHM120H5 as a prerequisite.

ERMIN2364

IMPORTANT: It is strongly recommended that all Biology students meet with the Undergraduate Advisor at the end of their third year of study to review their program progress.

Biology Courses

BIO152H5 • Introduction to Evolution and Evolutionary Genetics

The scientific method and the modern theory of evolution as an introduction to biology. The principles of evolution,

transmission and evolutionary genetics are developed in lectures and laboratories.

Note:

Although 12U CHM and MAT are not prerequisites for BIO152H5, students intending to pursue a major or any specialist program in Biology must note that CHM110H5 and CHM120H5 and (MAT134Y5 or MAT135Y5 or MAT137Y5) are requirements for these programs.

Prerequisites: Grade 12 SBI4U Biology (minimum grade of 70%)

Exclusions: BIO130H1 or BIOA01H3

Distribution Requirements: Science

Total Instructional Hours: 24L/12T/15P

Mode of Delivery: In Class

BIO153H5 • Diversity of Organisms

The consequences of Darwinian evolution: adaptations of organisms as a product of the main evolutionary mechanism - natural selection. The roles of natural selection and other mechanisms in the diversification of life are reviewed, along with the diversity of structures and life cycles in bacteria, protists, animals, plants and fungi.

Prerequisites: BIO152H5

Exclusions: BIO120H1 or BIOA02H3

Distribution Requirements: Science

Total Instructional Hours: 24L/12T/18P

Mode of Delivery: In Class

BIO200H5 • Introduction to Pharmacology: Pharmacokinetic Principles

Topics include absorption, distribution, biotransformation, elimination, calculation of dosages, variability in drug response and adverse drug reactions.

Prerequisites: BIO152H5 and BIO153H5 and CHM110H5 and CHM120H5

Exclusions: PCL201H1 or JBC201H5

Distribution Requirements: Science

Total Instructional Hours: 36L/12T

Mode of Delivery: In Class

BIO201H5 • The Biology Behind the News

News stories are used to explore areas of biology, to learn about the process of science, and to find and assess the validity of information. The topics for the course modules will change yearly because the course is designed to give students the tools to explore the biology behind the news, not to teach a comprehensive survey of biological facts. Reading, writing, and research skills are emphasized. This is a biology course for students in the Humanities and Social Sciences as well as other non-Biology Sciences.

Exclusions: Any BIO course (except BIO211H5) taken previously or concurrently.

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

BIO202H5 • Introductory Animal Physiology

Diversity of structure and function in animals at the tissue and organ system level. Focus is on morphology and processes that sustain life and maintain homeostasis, including water balance, gas exchange, acquisition and transport of oxygen and nutrients, temperature regulation, electrical and chemical signal transmission, sensory processing, and locomotion. Principles and mechanisms of animal form and function are developed in lectures and laboratories.

Prerequisites: BIO152H5 and BIO153H5 and CHM110H5 and CHM120H5

Exclusions: BIO204H5 or (BIO270H1 or BIO271H1) or (BIOB32H3 or BIOB34H3)

Distribution Requirements: Science

Total Instructional Hours: 24L/10T/15P

Mode of Delivery: In Class

BIO203H5 • Introductory Plant Morphology and Physiology

Introduction to the morphology and physiology of plants. Students will learn that plants require energy to support metabolism and growth, and that these processes are highly regulated in order to achieve homeostasis. Topics covered include: biology of the plant cell, plant morphology, plant respiration and photosynthesis, transport processes, regulation of growth and development, and plant ecophysiology. Principles and mechanisms of plant form and function are developed in lectures and laboratories.

Prerequisites: BIO152H5 and BIO153H5 and CHM110H5 and CHM120H5

Exclusions: BIO204H5 or BIO251H1

Distribution Requirements: Science

Total Instructional Hours: 24L/10T/15P

Mode of Delivery: In Class

BIO205H5 • Ecology

An introduction to the scientific study of ecology, emphasizing the structure and dynamics of populations, communities and ecosystems. Topics include population growth and regulation, competition, predation, biodiversity, succession, and nutrient cycling. Classic models and studies will be supplemented with both plant and animal examples.

Prerequisites: (BIO152H5 and BIO153H5) or (ENV100Y5 for students in Environmental Programs)

Exclusions: BIOB50H3

Distribution Requirements: Science

Total Instructional Hours: 24L/18P

Mode of Delivery: In Class

BIO206H5 • Introductory Cell and Molecular Biology

An introduction to the molecular biology of the cell with an emphasis on similarities and differences between prokaryotic and eukaryotic cells. Topics include the structure and function of: macromolecules, membranes, ribosomes, nuclei, intracellular organelles, etc. Other topics include: the central dogma of molecular biology (replication, transcription and translation), protein targeting, organization of the genome, gene regulation and regulation of the cell cycle. Tutorials will emphasize and consolidate concepts from lecture and text through individual and group assignments.

Prerequisites: [BIO152H5](#) and [CHM110H5](#) and [CHM120H5](#)

Exclusions: [BIO230H1](#) or [BIO255H1](#) or [BIOB10Y3](#) or [BIOB11H3](#) or [BIOB12H3](#)

Distribution Requirements: Science

Total Instructional Hours: 36L/6T/18P

Mode of Delivery: In Class

BIO207H5 • Introductory Genetics

The principles of Mendelian inheritance and modern genetics are illustrated using examples from medical research, evolutionary biology, agriculture and conservation biology. Topics covered include: chromosome theory of inheritance, basic eukaryotic chromosome mapping, gene and chromosome mutation, the lac system, the extranuclear genome, population and quantitative genetics. In tutorials, students will work through problem sets related to lecture material as well as probability and statistical analysis.

Prerequisites: [BIO152H5](#) and [BIO153H5](#) and [BIO206H5](#)

Exclusions: [BIO260H1](#) or [HMB265H1](#) or [BIOC15H3](#)

Distribution Requirements: Science

Total Instructional Hours: 36L/18T

Mode of Delivery: In Class

BIO208H5 • Fundamentals of Human Anatomy and Physiology I

The integration of the major organ systems involved in human biomechanics. A comparative approach is taken, placing the structure and function of the skeletal, muscular and nervous systems in an evolutionary context.

Prerequisites: [BIO152H5](#) and [BIO153H5](#)

Exclusions: [BIO210H5](#) or [BIO210Y5Y](#) or [BIOB33H3](#) or [BIOB35H5](#)

Distribution Requirements: Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

BIO209H5 • Fundamentals of Human Anatomy and Physiology II

The structure and function of the human body. Topics include integrating different organ systems, such as endocrine, cardiovascular, respiratory, and urogenital systems. An emphasis is placed on integration of structure and function of the major organ systems. As part of this course, students may have the option of participating in an international learning experience that will have an additional cost and application process.

Prerequisites: [BIO208H5](#)

Exclusions: [BIO210H5](#) or [BIO210Y5Y](#) or [BIOB33H3](#) or [BIOB35H5](#)

International Component: International - Optional

Distribution Requirements: Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

BIO211H5 • The History of Our Living Planet

This course provides a survey of major events in the evolution of life and Earth's geological history. It includes overviews of science as a process, geological principles, climate, and evolution. Special focus will be on major events including origin of life, the Cambrian explosion, plant and animal radiations onto land, the Mesozoic evolution of dinosaurs, and the Cenozoic diversification of mammals. This is a biology course for students in the Humanities and Social Sciences as well as other non-Biology Sciences.

Exclusions: Any BIO course (except [BIO201H5](#)) taken previously or concurrently.

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

BIO259H5 • Introduction to Biological Data

This course introduces students to the exploration and analysis of biological data through computation. Students will learn to import biological datasets, parse and manipulate the data, and develop an intuition for basic statistical thinking through practical exercises and lectures.

Prerequisites: [BIO152H5](#) and [BIO153H5](#)

Exclusions: [BIOB20H3](#)

Distribution Requirements: Science

Total Instructional Hours: 24L/12T/24P

Mode of Delivery: In Class

BIO299Y5 • Research Opportunity Program

This program provides a richly rewarding opportunity for students in their second year to work in the research project of a professor in return for 299Y course credit. Students enrolled have an opportunity to become involved in original research, learn research methods and share in the excitement and discovery of acquiring new knowledge. Participating faculty members post their project descriptions for the following summer and fall/winter sessions in early February and students are invited to apply in early March. See [Experiential and International Opportunities](#) for more details.

Distribution Requirements: Science

Mode of Delivery: In Class

BIO304H5 • Physiology of Neurons and Muscle

The course will provide students with knowledge of the physiology of neurons, muscle and sensory systems by demonstrating the biophysical, ionic, and molecular bases of cellular excitability. Topics include the forces that govern ion movement through solution, the electrical properties of the cell membrane, the molecular properties of ion channels, and the molecular physiology of neuronal excitability, synaptic transmission, neuromodulation, and muscle contraction.

Prerequisites: [BIO202H5](#) or [BIO204H5](#) or [BIO206H5](#) or ([BIO208H5](#) and [BIO209H5](#)) or [BIO210Y5](#)

Exclusions: [CJH332H1](#) or [CSB332H1](#)

Recommended Preparation: [PHY100H5](#)

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

BIO310H5 • Physiology of Regulatory Systems

Principles of cardiovascular, renal, respiratory and digestive physiology of animals and their control by the neural and endocrine systems.

Prerequisites: [BIO202H5](#) or [BIO204H5](#) or ([BIO208H5](#) and [BIO209H5](#)) or [BIO210Y5](#)

Exclusions: [PSL300H1](#) and [PSL301H1](#)

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

BIO311H5 • Landscape Ecology

Landscape ecology asks how spatial patterns originate and how they affect ecological processes like forest dynamics, nutrient cycling, species interactions, and the distribution and population dynamics of plants and

animals. Lectures and computer labs introduce students to concepts and methods of landscape ecology and their application to current issues of land-use management and global change. The students will learn to apply GIS, spatial statistics, landscape metrics, and modelling to address problems in conservation, biodiversity, and ecosystem management. Note: Students interested in this course will need to meet with the course instructor before being approved and permitted to enroll.

Prerequisites: [BIO205H5](#) and ([BIO259H5](#) or [STA215H5](#)) and permission of instructor *[STA215H5](#) will no longer be accepted as an appropriate prerequisite course AFTER 2022-2023 Academic year. Beginning 2023-2024 Academic year all students will be required to complete [BIO259H5](#) as the statistics prerequisite course.

Exclusions: [GGR311H5](#)

Recommended Preparation: [BIO360H5](#)

Distribution Requirements: Science

Total Instructional Hours: 24L/24P

Mode of Delivery: In Class

BIO312H5 • Plant Physiology

This course focuses on the principal physiological processes in plants and the regulation of these processes in response to environmental factors with an emphasis on the relationship between structure and function from the molecular to the whole-plant level. The course will provide the basis to understand how plants sense and respond to changing environmental conditions. This will enable students to understand why rising atmospheric carbon dioxide and global climate warming impact photosynthesis, plant metabolism and ultimately whole plant and ecosystem performance. Concepts discussed during lectures will be demonstrated in a series of practical labs.

Prerequisites: [BIO203H5](#) or [BIO204H5](#)

Distribution Requirements: Science

Total Instructional Hours: 36L/15P

Mode of Delivery: In Class

BIO313H5 • Methods and Experimental Design in Ecology

This course will provide Biology Majors and Specialists particularly interested in ecology with integrated, practical exposure to field and laboratory research methods on plant, animal, and microbial communities including study design, data collection, statistical analysis, and interpretation of results.

Prerequisites: [BIO205H5](#) or [BIO259H5](#) or [STA215H5](#) or [PSY201H5](#) or equivalent.

Distribution Requirements: Science

Total Instructional Hours: 36P

Mode of Delivery: In Class

BIO314H5 • Laboratory in Cell and Molecular Biology

Students are introduced to commonly employed techniques in cell biology such as cellular fractionation, polyacrylamide gel electrophoresis, western blotting, and immunolocalization. Students will also perform some advanced molecular biology techniques including the cloning and transformation of genes, DNA sequencing and the expression of proteins in bacterial and/or model systems. Each week, a two-hour lecture provides an introduction and theoretical basis for the lab.

Prerequisites: [BIO206H5](#)

Distribution Requirements: Science

Total Instructional Hours: 24L/48P

Mode of Delivery: In Class

BIO315H5 • Human Cell Biology

This course uses the information learned in prerequisite courses to cover advanced details in specific areas. The course will also introduce students to many exciting new topics in the structure and function of normal and diseased cells. Areas of focus include cell adhesion, intercellular communication, signal transduction, the cytoskeleton, chemotaxis, motor proteins, receptor mediated endocytosis and intracellular trafficking with an eye towards understanding their underlying roles in the disease process. Throughout the course, students will learn about the underlying approaches, methods and experimentation used by biomedical researchers including polyacrylamide gel electrophoresis, western blotting, immunolocalization, pharmacological intervention and various means of localizing proteins within cells.

Prerequisites: [BIO206H5](#) and [BIO207H5](#)

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

BIO318Y5 • Animal Behaviour

This course will cover the adaptive (evolved) behaviours of organisms that result from interactions with the biological environment. We ask why animals behave in a particular way, i.e. how does their behaviour enhance success in survival or reproduction? Examples involve adaptive strategies in competing with rivals, choosing mates, and avoiding parasites. We also ask how adaptive behaviour is controlled; what are the genetic, developmental, and physiological mechanisms underlying behaviour? Assignments involve observing and analyzing (suggesting alternative explanations/ hypotheses) for behaviour, followed by a use of these skills to critique a published scientific paper.

Prerequisites: [BIO152H5](#) and [BIO153H5](#)

Exclusions: [BIO328H5](#) or [PSY252H5](#) or [PSY352H5](#)

Distribution Requirements: Science

Total Instructional Hours: 48L/72P

Mode of Delivery: In Class

BIO320H5 • Sensory and Cognitive Ecology

The acquisition and transduction of environmental information will be explored in the context of decision making and adaptive behaviour. This course will focus on the form and function of visual, auditory, tactile, and chemical senses and signals, and animal communication writ large. Post-acquisition, cognitive processes concerned with learning and memory will also be discussed. A comparative approach will be taken throughout to examine the ways that different animals and animal groups rely on different sources of information and a diverse variety of sensory and cognitive mechanisms. All topics will be covered in the context of species-specific ecology and evolution.

Prerequisites: [BIO202H5](#) or [BIO204H5](#)

Exclusions: [PSY362H5](#)

Distribution Requirements: Science

Total Instructional Hours: 24L/10T

Mode of Delivery: In Class

BIO324H5 • Plant Biochemistry

This course examines plants as the biochemical motors and sustainers of life on earth. The major pathways of plant metabolism are surveyed to provide students with an integrated model of plant cells as autonomous biochemical networks. This course further emphasizes the specialized metabolism of economically significant plant species, the biosynthesis of pharmacologically and agriculturally important metabolites, and the role of biotechnology in engineering exotic plant metabolism in industrial settings.

Prerequisites: [BIO203H5](#) and [BIO206H5](#) and [CHM120H5](#) or permission of instructor

Exclusions: [CSB475H1](#)

Recommended Preparation: [BIO312H5](#) and [CHM242H5](#) and [CHM362H5](#)

Distribution Requirements: Science

Total Instructional Hours: 36L/12T

Mode of Delivery: In Class

BIO325H5 • Biomechanics

From the form of an organism one can read its evolutionary history. This course addresses the use of organ systems to find and process food, escape enemies by locomotion, reproduce by pollination vectors, filter nutrients, exchange gases, coordinate and make decisions. Content includes the mechanics of moving in fluids by swimming and flying, sending and receiving of signals at body surfaces, the microstructure of materials. Forces are seen to have adaptively affected the shape and leverage of skeletons.

Prerequisites: [BIO152H5](#) and [BIO153H5](#)
Recommended Preparation: [BIO202H5](#) or [BIO204H5](#)
Distribution Requirements: Science
Total Instructional Hours: 48P
Mode of Delivery: In Class

BIO326H5 • Ornithology

Ecology, evolution, form, function, diversity, and conservation of birds. Practical sessions focus on observation and assessment of local avian populations using field ornithology techniques and approaches.

Prerequisites: [BIO152H5](#) and [BIO153H5](#) and [BIO205H5](#)
Exclusions: [EEB386H1](#)
Recommended Preparation: [BIO202H5](#)
International Component: International - Optional
Distribution Requirements: Science
Total Instructional Hours: 24L/36P
Mode of Delivery: In Class

BIO328H5 • Lectures in Animal Behaviour

This course will cover the adaptive (evolved) behaviours of organisms that result from interactions with the biological environment. We ask why animals behave in a particular way, i.e. how does their behaviour enhance success in survival or reproduction? Examples involve adaptive strategies in competing with rivals, choosing mates, and avoiding parasites. We also ask how adaptive behaviour is controlled; what are the genetic, developmental, and physiological mechanisms underlying behaviour? Assignments involve observing and analyzing (suggesting alternative explanations/ hypotheses) for behaviour, followed by a use of these skills to critique a published scientific paper. No laboratory or field work is included. Note: This is a half-credit (0.5) course that is offered over the full academic year.

Prerequisites: [BIO152H5](#) and [BIO153H5](#)
Exclusions: [BIO318Y5](#) or [PSY252H5](#) or [PSY352H5](#)
Distribution Requirements: Science
Total Instructional Hours: 48L
Mode of Delivery: In Class

BIO329H5 • Conservation Biology

Conservation of biodiversity, from genes to ecosystems. Topics include identifying biodiversity across levels of organization; understanding major threats to biodiversity (land use change, climate change, overharvesting); evaluating conservation actions (protected areas, reintroductions, assisted migration, restoration); and ethical considerations pertaining to conservation practices.

Prerequisites: [BIO205H5](#) and [BIO259H5](#)
Exclusions: [BIOC63H3](#) or [EEB215H1](#) or [EEB255H1](#) or [EEB365H1](#)

Distribution Requirements: Science
Total Instructional Hours: 24L/12T
Mode of Delivery: In Class

BIO330H5 • Plant Ecology

A survey of the population and community ecology of plants. Topics include resource acquisition, growth and reproduction, mutualisms, competition, defence, invasions, disturbance, population dynamics, and community structure. Interactions with other plants, diseases, and animals particularly are emphasized.

Prerequisites: ([BIO203H5](#) or [BIO204H5](#)) and [BIO205H5](#)
Distribution Requirements: Science
Total Instructional Hours: 24L/12T
Mode of Delivery: In Class

BIO331H5 • Ecology of Communities

This course will cover the theoretical foundations of community ecology, including the role of species interactions and environment structure on patterns of diversity and implications of community ecology in conservation. It will provide practical experience working with tools used to analyze community structure. Discussion and evaluation of the primary literature is a key component of this course. Students will also complete written assignments.

Prerequisites: [BIO205H5](#) and ([BIO259H5](#) or [BIO360H5](#))
Distribution Requirements: Science
Total Instructional Hours: 24L/12P
Mode of Delivery: In Class

BIO332H5 • Biology Field Research

A two-week Biology field research experience offered in one of the summer terms. The location, subject of the research, and instructor will change according to a regular cycle. Details will be made available on the Department of Biology website well in advance of a change to location. Please note that this course can only be completed once. There will be additional costs for travel and accommodation.

Prerequisites: 6.0 credits and current registration in a Biology, Ecology, Environment/Geography or Earth Science program and permission of the instructor. Appropriate upper level BIO prerequisite core course requirements will be posted on the Biology department website. Any additional unique prerequisites for the course will be posted one year in advance of the move to a new location or with a change of instructor.
Recommended Preparation: [STA215H5](#) or equivalent 200-level STA course
Distribution Requirements: Science
Total Instructional Hours: 12L/80P
Mode of Delivery: In Class

BIO333H5 • Freshwater Ecology

A functional analysis of freshwater ecosystems, with emphasis on lakes. Lectures cover water chemistry; the physical structure of lakes; the different ways that algae, zooplankton, benthic invertebrates, and fish have evolved to succeed in these habitats and interact with one another; and the impact of man on freshwater systems. Students must be available to participate in a mandatory weekend field trip to a lake on one of two weekends in late September or early October. Students not available for one of those weekends should not register for this course. Ancillary fees for this course apply. Please check the Departmental website for full details.

Prerequisites: [BIO205H5](#) and [CHM110H5](#) and [CHM120H5](#)

Exclusions: [BIO332Y5](#) or [BIO337H5](#)

Distribution Requirements: Science

Total Instructional Hours: 24L/32P

Mode of Delivery: In Class

BIO335H5 • Mycology

A study of the biology of fungi with emphasis on their life histories, morphology, classification, ecology and significance to man. Laboratory sessions include the collection, culture, and identification of a wide variety of fungi. In addition, several experiments illustrating important aspects of fungal physiology and development are performed in the laboratory.

Prerequisites: ([BIO152H5](#) and [BIO153H5](#)) or any 200 level course in BIO.

Distribution Requirements: Science

Total Instructional Hours: 24L/36P

Mode of Delivery: In Class

BIO339H5 • Plant Identification and Systematics

Lectures provide an introduction to principles and underlying philosophy of plant classification, phylogenetic reconstructions, flowering plant, evolution, phylogeny, pollination, breeding systems, and speciation in plants. Laboratories focus on gaining proficiency in recognizing important plant families by sight and identifying unknown plants by using keys and published Floras.

Prerequisites: ([BIO203H5](#) or [BIO204H5](#)) plus 0.5 credit from [BIO205H5](#) and [BIO206H5](#) and [BIO207H5](#)

Exclusions: [EEB337H1](#)

Distribution Requirements: Science

Total Instructional Hours: 24L/36P

Mode of Delivery: In Class

BIO341H5 • Advanced Genetics

The following topics are covered at an advanced level: extensions to Mendelian genetics, linkage and advanced

mapping analyses, mutation, extrachromosomal inheritance, quantitative genetics, population and evolutionary genetics and genetics of behaviour.

Prerequisites: [BIO206H5](#) and [BIO207H5](#)

Distribution Requirements: Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

BIO342H5 • Evolutionary Biology

An introduction to the concepts and importance of evolutionary biology. The course will focus on how genetic variation arises and is maintained, mechanisms of evolutionary change and how these mechanisms lead to adaptation, sexual selection, speciation and co-evolution. Throughout the course we will consider how fossils, experiments, genetics and molecular systematics can be used to understand evolution.

Prerequisites: [BIO207H5](#)

Recommended Preparation: ([BIO259H5](#) or [BIO360H5](#) or [STA215H5](#)) (strongly recommended)

Distribution Requirements: Science

Total Instructional Hours: 36L/12T

Mode of Delivery: In Class

BIO347H5 • Epigenetics

Epigenetic phenomena play key roles in environmental interactions, development, and in disease. Underlying molecular mechanisms that regulate chromatin structure and gene expression are explored, including DNA methylation, histone modifications, or non-coding RNAs. Examples focus predominantly on eukaryotes (e.g. plants, insects, humans) and highlight how epigenetic marks are set, maintained, and involved in shaping phenotypic outcomes. The course will also enable students to apply knowledge and basic principles to recent scientific literature in this dynamic field.

Prerequisites: [BIO206H5](#) and [BIO207H5](#)

Exclusions: [BIOD19H3](#) or [CSB458H1](#)

Recommended Preparation: [BIO202H5](#) and [BIO203H5](#)

Distribution Requirements: Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

BIO353H5 • Plant Development

The course addresses key concepts, with emphasis on unique plant-related aspects. Integrates plant development at the levels of the cell, tissue, organ and organism, with knowledge from diverse fields of Biology. Topics will include embryology, environmental interactions, signaling, developmental transitions, developmental diversity, evolution and development, and tools for discovery research.

Prerequisites: [BIO203H5](#)

Exclusions: [CSB340H51](#)

Recommended Preparation: None

Distribution Requirements: Science

Total Instructional Hours: 24L/10T/15P

Mode of Delivery: In Class

BIO354H5 • Vertebrate Form and Function

The design and adaptive consequences of vertebrate structure. Mechanisms of locomotion, digestion, gas exchange, circulation and sensory perception are compared at the organ level. Students conduct individual laboratory dissections on selected vertebrates.

Prerequisites: [BIO152H5](#) and [BIO153H5](#) and [[BIO208H5](#) and [BIO209H5](#)] or [BIO210Y5](#)

Distribution Requirements: Science

Total Instructional Hours: 24L/36P

Mode of Delivery: In Class

BIO356H5 • Major Features of Vertebrate Evolution

The evolution of the vertebrates as evidenced by the fossil record. The origin and adaptive radiation of major groups including amphibians and reptiles is emphasized. Principles and knowledge will be demonstrated through written assignments and essays.

Prerequisites: ([BIO208H5](#) and [BIO209H5](#)) or [BIO210Y5Y](#)

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

BIO360H5 • Biometrics I

This course takes students from hypothesis testing to the application of testing means, chi-square tests, regression analysis and analysis of variance in Biology. Students will learn to choose an appropriate statistical test, independently analyze case studies with R software, and write empirical scientific reports.

Prerequisites: [BIO259H5](#) or [STA215H5](#) *[STA215H5](#) will no longer be accepted as an appropriate prerequisite course AFTER 2022-2023 Academic year. Beginning 2023-2024 Academic year all students will be required to complete [BIO259H5](#) as the statistics prerequisite course.

Exclusions: [ECO220Y5](#) or [PSY202H5](#) or [STA221H5](#)

Distribution Requirements: Science

Total Instructional Hours: 36L/24P

Mode of Delivery: In Class

BIO361H5 • Biometrics II

This course is a sequel to [BIO360H5](#) in which topics in biological statistics are explored at an advanced level. Multiple regression, concepts of power, multi-factor analysis of variance, advanced experimental designs, logistic regression, Monte Carlo techniques, generalized linear models and principal component analyses are explored using R software.

Prerequisites: [BIO360H5](#)

Exclusions: [ECO220Y5](#)

Distribution Requirements: Science

Total Instructional Hours: 24L/24T

Mode of Delivery: In Class

BIO362H5 • Bioinformatics

Bioinformatics uses and develops computational tools to understand biological processes from the level of single molecules to whole genomes and organisms. The biotechnology revolution has meant that bioinformatics is now used in many cutting edge biological research areas from medicine to phylogenetics. This course will introduce core concepts, practices and research topics including DNA/Protein alignment, DNA sequence analysis, interacting with scientific databases, and genome sequencing technology. This course includes computer-based practicals wherein students will apply bioinformatic tools and be introduced to basic computer programming - no previous experience is required.

Prerequisites: [BIO206H5](#) and [BIO207H5](#)

Distribution Requirements: Science

Total Instructional Hours: 12L/36P

Mode of Delivery: In Class

BIO368H5 • Medicinal Plants and Human Health

This botanical survey of medicinal plants integrates phytochemistry, ethnobotany, herbalism, pharmacology, and the molecular basis of human disease. It examines traditional herbal medicine and modern phytochemical research as sources of plant-based drugs used in the treatment of disease. The biosynthesis of therapeutic plant compounds and their mechanisms of action in the human body are emphasized. Students will critically examine and debate claims made in the health, herbal, and supplement literature.

Prerequisites: [BIO203H5](#) and [BIO206H5](#)

Exclusions: [NFS400H1](#)

Recommended Preparation: [CHM242H5](#)

Distribution Requirements: Science

Total Instructional Hours: 36L/12T

Mode of Delivery: In Class

BIO370Y5 • Microbiology

In-depth discussion of bacterial structure and ultrastructure; physiology and nutrition; growth and cultivation; nature of viruses (bacteriophage and a limited survey of animal viruses and their properties); microbial genetics; immunology; the role of micro-organisms in medicine, industry, agriculture and ecology.

Prerequisites: [BIO206H5](#) and [BIO207H5](#)

Exclusions: [BIO371H5](#)

Distribution Requirements: Science

Total Instructional Hours: 48L/72P

Mode of Delivery: In Class

BIO371H5 • Microbiology Lectures

In-depth discussion of bacterial structure and ultrastructure; physiology and nutrition; growth and cultivation; nature of viruses (bacteriophage and a limited survey of animal viruses and their properties); microbial genetics; immunology; the role of micro-organisms in medicine, industry, agriculture and ecology.

Prerequisites: [BIO206H5](#) and [BIO207H5](#)

Exclusions: [BIO370Y5](#)

Distribution Requirements: Science

Total Instructional Hours: 48L

Mode of Delivery: In Class

BIO372H5 • Molecular Biology

This course provides an overview of the field of molecular biology, including DNA replication, DNA repair, homologous recombination, genome structure, chromatin regulation, transcription cycle, RNA splicing, translation, and genetic code. The course will enable students to learn the fundamental concepts of molecular biology and master critical thinking and problem-solving in the field of molecular biology.

Prerequisites: [BIO206H5](#) and [BIO207H5](#) and [CHM242H5](#)

Exclusions: [JBC372H5](#) or [CHM360Y5](#) or [JLM349H1](#) or [MGB311Y1](#)

Recommended Preparation: [CHM361H5](#)

Distribution Requirements: Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

BIO373H5 • Environmental Microbiology

A lecture course on the interaction of microorganisms with other organisms and their environment. As the most abundant form of life, microorganisms have an enormous impact on the Earth. Subject areas include microbial evolution and biodiversity, metabolism and biogeochemical cycling, and how molecular biology has revolutionized our understanding of microbial life.

Prerequisites: [BIO205H5](#) and [BIO206H5](#)

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

BIO374H5 • Modern Biotechnology

This course is designed to introduce students to biotechnology and its applications in a variety of fields, including medicine, food & beverage, agriculture, forensics, fisheries and environmental protection. The course explores the principles and methods of genetic, tissue and organismal engineering involving species from bacteria to humans. The social and ethical issues associated with biotechnologies such as GMOs, stem cells and cloning will also be discussed. Topics include: Recombinant DNA Technology, Genomics & Bioinformatics, Protein Technology, Microbial Biotechnology, Plant Biotechnology, Animal Biotechnology, Forensic Biotechnology, Environmental Biotechnology, Aquatic Biotechnology, Medical Biotechnology, Biotechnology Regulations, and Careers in Biotechnology.

Prerequisites: [BIO206H5](#)

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

BIO375H5 • Introductory Medical Biotechnology

This course reviews a full range of discoveries from medical biotechnology, which includes drugs, smart phone apps, and medical devices. The course reviews a range of biotechnology products with respect to: regulatory path for experiments to support for new biotechnologies; key science concepts behind the technology, patents, and the business context.

Prerequisites: Completion of 2.0 credits in Biology, plus ([BIO259H5](#) or [BIO360H5](#) or [STA215H5](#) or [STA220H5](#) or [PSY201H5](#))

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

BIO376H5 • Marine Ecology

This course addresses the diversity of marine life, and the physical, chemical, and biological processes occurring in marine ecosystems. Students will explore current methods and theories in marine ecology and consider the societal importance of marine resources with a special emphasis on Canada's coasts.

Prerequisites: [BIO152H5](#) and [BIO153H5](#) and [BIO205H5](#)

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

BIO378H5 • The Biology of Marine Mammals: evolution, physiology, ecology and conservation

This course provides an introduction to the biological study of marine mammals and their populations. It explores the evolution of marine mammals, their adaptations to aquatic environments, as well as their population and behavioural ecology. The course also investigates threats to marine mammal populations and their national and global conservation.

Prerequisites: [BIO152H5](#) and [BIO153H5](#) and [BIO202H5](#) and [BIO205H5](#)

Distribution Requirements: Science

Total Instructional Hours: 24L/24T

Mode of Delivery: In Class

BIO380H5 • Human Development

Reproduction and embryonic development in humans are emphasized. After a general review of human reproduction, the formation of sperm and eggs is analyzed, followed by an in-depth analysis of fertilization in vivo and in vitro. Early embryonic developmental processes are studied with a view to how the embryo becomes organized so that all of the tissues and organs of the adult body form in the right places at the proper times. The course ends with an in-depth analysis of limb development and organ regeneration. The relevance of the material to such topics as human infertility, contraception, cloning, biotechnology and disease is continually addressed.

Prerequisites: [BIO206H5](#) and [BIO207H5](#)

Recommended Preparation: [BIO202H5](#) or [BIO204H5](#) or [BIO315H5](#)

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

BIO399Y5 • Research Opportunity Program

This course provides third year undergraduate students (after completion of at least 9.5 but not more than 14 credits), who have developed some knowledge of Biology and its research methods, another opportunity to work in the research project of a professor in return for course credit. Students enrolled have the opportunity to become involved in original research, enhance their research skills and share in the excitement of acquiring new knowledge and in the discovery process of science. Participating faculty members post their project descriptions for the following summer and fall/winter sessions in early February and students are invited to apply in early March. See [Experiential and International Opportunities](#) for more details.

Distribution Requirements: Science

Mode of Delivery: In Class

BIO400Y5 • Biology Internship

Through a part-time, unpaid, 200-hour work placement, fourth year students apply biology content and skills. Placements are made throughout the GTA in both the private (e.g. pharmaceutical or biotech companies) or public (e.g. Peel Region Medical Office, hospitals, Great Lakes Laboratory) sector. Biweekly class meetings plus year-end report and presentation are required. Students in a biology specialist program are given priority. Updated application information will be on-line at www.utm.utoronto.ca/intern by February 1st of each year. Please see the Internship Office (DV 3201D) for more information.

Prerequisites: Fourth year standing in Biology Specialist or Major Program, 3.0 CGPA and permission of instructor

Exclusions: Students may not have concurrent enrolment in any other internship, research, or ROP course.

Course Experience: Partnership-Based Experience

Distribution Requirements: Science

Mode of Delivery: In Class

BIO403H5 • Developmental Neurobiology

An advanced student-led course examining contemporary topics in neurobiology. Students will read, criticize, and present on current areas of neurobiology, which could include the cell and molecular basis for neural disease, developmental neurobiology, sensory reception, neurophysiology, neural communication, and information processing.

Prerequisites: [BIO304H5](#)

Exclusions: [BIO483H5](#) (Winter 2021)

Distribution Requirements: Science

Total Instructional Hours: 24L/12S

Mode of Delivery: In Class

BIO404H5 • Invertebrate Neurobiology

Neurobiology, the biological study of the nervous system, investigates the electrical and chemical processes animals use to regulate internal events and interface with their environments. Invertebrates have provided crucial neurobiological insights and are often more accessible study systems than vertebrates. This course addresses some key historical contributions, and discusses the future of invertebrate systems, where recent technological advances are opening up new ways to explore invertebrate neurobiology and evolution. Students will do practicals, using computer simulations of neurons, to develop an understanding of neurons and other excitable cells.

Prerequisites: [BIO304H5](#)
Distribution Requirements: Science
Total Instructional Hours: 24L/24P
Mode of Delivery: In Class

BIO405H5 • Evolutionary Perspectives on Behaviour

Areas of focus may change from year to year. Each year, advanced topics considered will fall under one of more of the research areas of behavioural ecology, cognitive ecology, evolutionary neuroscience, and/or neuroethology and use as examples a variety of animals, sometimes including humans, and atypical model systems.

Prerequisites: [BIO304H5](#) and ([BIO320H5](#) or [BIO318Y5](#) or [BIO328H5](#))
Exclusions: [PSY362H5](#)
Distribution Requirements: Science
Total Instructional Hours: 12L/24S
Mode of Delivery: In Class

BIO406H5 • Current Topics in Ecology and Evolution

A combination of lectures and tutorials. The course will emphasize group discussion and critiques of current publications in the field. The theme of the course is expected to be topical and current and to vary from year to year, with the interests of the faculty member(s) teaching the course. Course themes are expected to range from structure and function of whole ecosystems (e.g. the collapse of fisheries) to evolutionary ecology (e.g. the evolution of emergent diseases).

Prerequisites: [BIO205H5](#) and ([BIO259H5](#) or [STA215H5](#) or [BIO360H5](#)) *[STA215H5](#) will no longer be accepted as an appropriate prerequisite course AFTER the 2022-2023 Academic year. Beginning in the 2023-2024 Academic year all students will be required to complete [BIO259H5](#) or [BIO360H5](#) as the statistics prerequisite course.
Recommended Preparation: [BIO313H5](#)
Distribution Requirements: Science
Total Instructional Hours: 12L/24T
Mode of Delivery: In Class

BIO407H5 • Behaviour Genetics

State of the art techniques used in the genetic, molecular, statistical and neurobiological analysis of behaviour are discussed. We focus on behaviour-genetic analysis of olfaction, foraging, rhythms and sex in three model systems (the worm *C. elegans*, the fruit fly *D. melanogaster* and the mouse). We discuss how information from these model organisms can be used to shed light on behaviour genetics of non-model organisms including humans.

Prerequisites: [BIO207H5](#) and [BIO318Y5](#) and ([BIO259H5](#) or [BIO360H5](#) or [STA215H5](#)) *[STA215H5](#) will no longer be

accepted as an appropriate prerequisite course AFTER 2022-2023 Academic year. Beginning 2023-2024 Academic year all students will be required to complete [BIO259H5](#) or [BIO360H5](#) as the statistics prerequisite course.

Recommended Preparation: [BIO206H5](#) and [BIO215H5](#) and [BIO304H5](#)
Distribution Requirements: Science
Total Instructional Hours: 36S
Mode of Delivery: In Class

BIO408H5 • Neural Circuit Structure and Function

This course covers contemporary topics in systems neuroscience, focusing on the relationship between the circuit structure and function of mammalian brains. We review the current understanding of topics concerning signal transduction and the peripheral circuits, information processing in the central nerve system, neuronal cell types and connectivity, development and critical period plasticity of sensory cortices, and motor control. Students present and critique the latest research progress on these issues.

Prerequisites: [BIO202H5](#) or [BIO304H5](#) or Permission of Instructor.
Exclusions: [BIO483H5](#) Winter 2019
Distribution Requirements: Science
Total Instructional Hours: 36L
Mode of Delivery: In Class

BIO409H5 • Laboratory in Animal Physiology

Experiments are designed to familiarize students with techniques and experimental design commonly used in the study of physiology. A one-hour lecture each week provides an experimental and theoretical basis for each laboratory. Topics include pharmacology, enzyme kinetics, neurophysiology, respiration, and metabolic rate.

Prerequisites: [BIO304H5](#) and ([BIO202H5](#) or [BIO204H5](#) or [BIO310H5](#))
Distribution Requirements: Science
Total Instructional Hours: 12L/48P
Mode of Delivery: In Class

BIO410H5 • Insect Physiology

A lecture course with a seminar component designed to introduce the student to the physiological characteristics of insects. The physiology of the integument, metamorphosis, reproduction, diapause and the physiological basis of insect control are discussed in detail.

Prerequisites: [BIO202H5](#) or [BIO204H5](#)
Distribution Requirements: Science

Total Instructional Hours: 24L/24S

Mode of Delivery: In Class

BIO411H5 • Topics in Molecular and Cellular Physiology

An advanced, student-led seminar course on contemporary subjects in cell physiology. Students will examine, review, criticize and present primary literature on fundamental topics such as ion transport, water transport, membrane excitability, intracellular transport, and secretion applied to a variety of physiological systems. Emphasis will be placed on understanding how diverse cell types carry out specific physiological functions.

Prerequisites: BIO315H5

Recommended Preparation: BIO314H5

Distribution Requirements: Science

Total Instructional Hours: 48S

Mode of Delivery: In Class

BIO412H5 • Climate Change Biology

Climate change is affecting life on earth at all levels from cells to ecosystems. As a result, shifts in the distribution of species, the timing of biological events, and large impacts on natural resources, agriculture, and forestry may be seen. This course explores past climate, predictions of future climate, impacts of climate change on biological systems, and potentials for adaptation. Mitigation of climate change impacts on biological systems will also be discussed.

Prerequisites: BIO205H5 and (BIO202H5 or BIO203H5) and (GGR377H5 or BIO312H5 or BIO330H5 or BIO331H5 or BIO333H5)

Recommended Preparation: BIO313H5

Distribution Requirements: Science

Total Instructional Hours: 48L

Mode of Delivery: In Class

BIO414H5 • Advanced Integrative Physiology

The integration of cardiovascular, renal, respiratory and muscle physiology will be examined with a problem-based approach. The response of these systems to challenges such as altitude, depth under water, and exercise will be examined. Laboratory activities will give students hands on experience measuring physiological variables of these systems with primarily human subjects, while other examples will be used to examine the diversity of response to environmental challenges throughout the animal kingdom.

Prerequisites: BIO304H5 and BIO310H5

Exclusions: HMB472H1 or KPE360H1 or KPE462H1

Distribution Requirements: Science

Total Instructional Hours: 24L/15T/15P

Mode of Delivery: In Class

BIO416H5 • Field Course in Ecology

Students may choose from a variety of field courses offered through a cooperative arrangement among ecologists at ten Ontario universities. Courses involve a two-week period at a field site in early May or late August, and require a major paper or project report be submitted within six weeks of course completion. A fee for room and board is usually charged over and above tuition. Lists of courses available are posted at <http://www.oupfb.ca/info.html>. Please check this link in January for application dates. Information can also be found on the UTM Biology website.

Distribution Requirements: Science

Mode of Delivery: In Class

BIO417H5 • Molecular and Structural Genomics

Genetic information shapes almost all aspects of life. How is this information organized and inherited? How does it influence individuals and how does help to understand disease? The course explores the structure and function of chromatin i.e. the management of biological information. We will explore how the genome is packaged, expressed, replicated and repaired. We will look into chromosome sets and inheritance, accessibility of the genome to the molecular machinery, DNA repair, and modern techniques in research and diagnostics.

Prerequisites: BIO206H5 and BIO207H5

Exclusions: BIO484H5 (Winter 2020)

Recommended Preparation: BIO347H5

Distribution Requirements: Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

BIO419H5 • Molecular Aspects of Gene Regulation

Gene expression is regulated during development in multicellular organisms. The study of gene regulation is tightly linked to our understanding of cell types and functions. This course provides an overview of the molecular aspects of gene expression, including transcription, regulatory RNAs, chromatin regulation, and genomic regulation. Students will read, critique, and present recently published research articles on gene regulation in eukaryotes.

Prerequisites: (BIO207H5 and BIO372H5) or permission of instructor

Exclusions: BIO484H5 (Fall 2018) or MGY420H1

Distribution Requirements: Science

Total Instructional Hours: 24L/12S

Mode of Delivery: In Class

BIO422H5 • Environmental Epigenetics

Organisms show a remarkable plasticity that allows them to grow and survive in an ever-changing environment. Epigenetic mechanisms provide a fascinating layer of regulation that integrates the genome and environment. In addition, epigenetic marks can contribute to lasting effects across generations without changes in the underlying DNA sequence. This course explores how plant and animal epigenomes respond to change such as stresses or developmental transitions. Influences on genome function, phenotype, and how epigenetic marks are transmitted will be discussed interactively drawing on recent primary literature and modern technological advances.

Prerequisites: [BIO312H5](#) and [BIO347H5](#)

Exclusions: [BIOD19H3](#)

Recommended Preparation: [BIO341H5](#) and [BIO372H5](#)

Distribution Requirements: Science

Total Instructional Hours: 12L/24S

Mode of Delivery: In Class

BIO427H5 • Data Science in Biology

Biology has become a data-driven science with the arrival of complex datasets. Extracting information from these large-scale experiments requires approaches that unify statistics and computer science. The course will focus on strengthening mathematical intuition on core topics such as hypothesis testing and statistical models while connecting these to machine learning.

Prerequisites: [BIO360H5](#)

Exclusions: [BIO429H5](#) or [CSC311H1](#) or [CSC311H5](#) or [CSC413H1](#) or [CSC413H5](#) or [CSCC11H3](#) or [STA314H1](#) or [STA314H5](#)

Recommended Preparation: [BIO361H5](#)

Distribution Requirements: Science

Total Instructional Hours: 36S

Mode of Delivery: In Class

BIO429H5 • Data analysis in Neurobiology

This course explains the fundamental principles of biological data analysis by focusing on neuroscience datasets. Students will learn methods for sampling data, testing hypotheses, multiple linear regression, PCA, clustering through both lectures and practical exercises. These methods will be discussed in the context of current research in understanding brain functions.

Prerequisites: [BIO360H5](#) or permission of instructor

Exclusions: [BIO427H5](#) or [CSC311H1](#) or [CSC311H5](#) or [CSC413H1](#) or [CSC413H5](#) or [CSCC11H3](#) or [STA314H1](#) or [STA314H5](#)

Distribution Requirements: Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

BIO434H5 • Social and Developmental Determinants of Human Health

This course encourages students to explore the relationship between social conditions and health outcomes. Topics may vary across years. Topics include the importance of the early years, interactions between the environment and the genes, epigenetic influences on health, sensitive periods of development, the influence of nutrition on health, the interaction between social policy, medical care, social class and human health. The students direct the learning experience in groups as they engage in case-based and problem-based learning. Note: Students interested in this course must contact the Biology Undergraduate Advisor to enroll.

Prerequisites: permission of instructor

Distribution Requirements: Science

Total Instructional Hours: 24L/24S

Mode of Delivery: In Class

BIO443H5 • Phylogenetic Principles

Lectures will provide an in-depth coverage of modern methods of phylogenetic reconstruction including molecular systematics based on DNA sequences. The principles and philosophy of classification will be taught with an emphasis on 'tree-thinking', one of the most important conceptual advances in evolutionary biology. Tutorials will focus on recent developments in the study of evolutionary patterns while gaining proficiency in reading, presenting, and critiquing scientific papers.

Prerequisites: [BIO206H5](#) and [BIO207H5](#)

Exclusions: [EEB462H1](#)

Recommended Preparation: [BIO259H5](#) or [BIO314H5](#) or [BIO360H5](#) or [STA215H5](#) or [PSY201H5](#)

Distribution Requirements: Science

Total Instructional Hours: 36L/12S

Mode of Delivery: In Class

BIO444H5 • Urban Field Ecology and Evolution

This course will introduce students to the fundamentals of urban ecology and evolution using the Greater Toronto Area as a model to study the topic. The course will focus on understanding how ecological and evolutionary processes are influenced by urban development, human behaviour, and the built environment, and how the environment can feed back to shape cities and socio-ecology, including human behaviour and well-being. Students will be introduced to principles of the scientific process including making observations, stating hypotheses, experimental design, conducting experiments, data collection, statistical analysis and interpretation, and scientific writing and oral presentations. The course will focus on all major habitats in urban areas to understand how urban environmental change of air, water and land influence the ecology and evolution of populations, communities and ecosystems.

Prerequisites: [BIO152H5](#) and [BIO153H5](#) and ([BIO205H5](#) or [BIO342H5](#)) and ([BIO259H5](#) or [STA215H5](#))

Distribution Requirements: Science

Total Instructional Hours: 14L/98P

Mode of Delivery: In Class

BIO445H5 • Evolutionary Ecology

This course focuses on the interface between ecology and evolution. Research has shown that biotic and abiotic ecological factors drive evolution, and in turn, evolution feeds back to influence the ecological processes and patterns of populations and communities. Throughout this course we will focus on this dynamic interplay over short and long time spans in animals, plants, fungi, and other microbes. While covering the concepts and questions of this field we will also consider the theory, methods, and statistics used to bring new insights to evolutionary ecology. Students will be expected to participate in discussions, present methods and concepts to the class, and complete written assignments.

Prerequisites: [BIO342H5](#)

Exclusions: [EEB324H1](#)

Distribution Requirements: Science

Total Instructional Hours: 48L

Mode of Delivery: In Class

BIO458H5 • Genomics

The genome has been referred to as the blueprint of life and consists of the full complement of genes and genetic material carried by an organism. The ongoing revolution in DNA sequencing allows biologists to observe the variety of genetic and genomic structures that underpin the diversity of life. In addition, applications of genomic technologies have facilitated new fields of research such as personalized medicine and evolutionary genomics. The lectures will focus on the diversity of genomic structures, their functions and evolutionary origins. The course also has computer-based practicals that provide hands-on training with cutting-edge bioinformatic tools for analysis of genome-scale datasets and next generation sequencing data.

Prerequisites: [BIO206H5](#) and [BIO207H5](#) and ([BIO362H5](#) or [CSC108H5](#)) and permission of instructor

Distribution Requirements: Science

Total Instructional Hours: 12L/36P

Mode of Delivery: In Class

BIO464H5 • Conservation and Biodiversity

Biodiversity is the sum of species diversity, and also the interaction of species at population, at ecosystem and at migration-route levels; it is one barometer of environmental health. Conservation biology applies ecological and genetic principles to the problem of declining biodiversity. We discuss the species concept,

quantification and cost-benefit analysis of biodiversity and extinction, causes, consequence, diagnosis and treatment of population declines, as well as the effects of different land uses on biodiversity and reserve design. A key part of this course is a case study by each student. Note: Students from a wide range of programs are encouraged to enrol.

Prerequisites: [BIO152H5](#) and [BIO153H5](#) and [BIO205H5](#) and permission of instructor

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

BIO475H5 • Virology

Virology examines the biology of viruses infecting all forms of life including humans and other animals, plants, eukaryotic microorganisms, and bacteria. The scope ranges from the molecular biology of virus replication to virus evolution and ecology. Current issues surrounding virology and society are incorporated into the course including vaccines, emerging viruses, and even consideration of practical applications of viruses.

Prerequisites: permission of instructor and ([BIO370Y5](#) or [BIO371H5](#) or [BIO372H5](#))

Exclusions: [CSB351Y1](#)

Recommended Preparation: [BIO373H5](#)

Distribution Requirements: Science

Total Instructional Hours: 24L/24S

Mode of Delivery: In Class

BIO476H5 • Molecular Basis of Disease

This advanced course explores the primary concepts of pathogenesis and investigates current research in the field of molecular pathology. Specific disease topics include inflammation, injury and repair, neoplasia, immune disorders, infectious disease, cardiovascular disease, and toxicology. Analysis of the primary literature is a key component of this course.

Prerequisites: [BIO310H5](#) and [BIO315H5](#)

Recommended Preparation: [BIO341H5](#) and [BIO372H5](#)

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

BIO477H5 • The Human Genome and Cancer Biology

The first part of the course examines the structure and molecular biology of the human genome. Topics will include: the sequencing of the human genome; variation between genomes; and various aspects of functional genomics such as a brief overview of how gene expression is regulated and how genomics is being utilized in health and medicine. Techniques such as high throughput sequencing will be covered. The second part

of the course examines the molecular and genetic basis of cancer including the role of oncogenes, tumor suppressor genes and cell cycle regulating proteins in the development of this disease. It also looks at cancer from a functional genomics perspective. Lectures and seminars involve presentations and discussion of recently published research articles.

Prerequisites: ([BIO370Y5](#) or [BIO372H5](#)) and permission of instructor

Exclusions: [MGY470H1](#)

Recommended Preparation: [BIO314H5](#) and [BIO315H5](#)

Distribution Requirements: Science

Total Instructional Hours: 36L/12S

Mode of Delivery: In Class

BIO481Y5 • Biology Research Project

Students in this course will conduct a research project under the supervision of a faculty member in the Department of Biology. The course is open to third and fourth year students. Students learn how to design, carry out, and evaluate the results of a research project. Students are required to write and present a research proposal, write a term paper, and present a seminar on the results of their research project. All students interested in a research project must approach potential faculty supervisors several months in advance of the beginning of term. Students must obtain permission from the faculty member whom they would like to serve as their project supervisor. Students must meet with the course coordinator periodically throughout the academic year.

Prerequisites: permission of instructor

Exclusions: [BIO400Y5](#) or [JCB487Y5](#)

Course Experience: University-Based Experience

Distribution Requirements: Science

Mode of Delivery: In Class

BIO483H5 • Selected Topics in Biology I

The focus of this advanced course will reflect the expertise and research of the Instructor. Students will actively participate in the discussion, criticism and interpretations of recent scientific papers. Implications and applications of these research advances will be explored. Current year's topic will be listed on the Biology department website. The contact hours for this course may vary in terms of contact type (L,S,T,P) from year to year, but will be between 24-36 contact hours in total. See the UTM Timetable.

Prerequisites: Appropriate 200 and/or 300 level prerequisites core course requirement(s) will be posted on the Biology departmental website along with the Special Topics title and description prior to course registration.

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

BIO484H5 • Selected Topics in Biology II

The focus of this advanced course will reflect the expertise and research of the Instructor. Students will actively participate in the discussion, criticism and interpretations of recent scientific papers. Implications and applications of these research advances will be explored. Current year's topic will be listed on the Biology department website. The contact hours for this course may vary in terms of contact type (L,S,T,P) from year to year, but will be between 24-36 contact hours in total. See the UTM Timetable.

Prerequisites: Appropriate 200 and/or 300 level prerequisites core course requirement(s) will be posted on the Biology departmental website along with the Special Topics title and description prior to course registration.

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

CBJ481Y5 • Independent Project in Bioinformatics

This course is intended for students in the Bioinformatics Specialist degree program. Possible areas in which the research may take place include: functional genomics (e.g., microarray and proteomic data analysis); systems biology; and the development of novel analytical methods for large datasets. Students will be required to produce a written document of their project and present it orally. In order to enrol in this course, students must obtain, several months in advance, approval from a faculty member(s) who will serve as supervisor(s).

Prerequisites: permission of instructor

Corequisites: [BIO477H5](#)

Recommended Preparation: [CSC343H5](#) and [BIO372H5](#)

Enrolment Limits: Priority is given to students enrolled in Computer Science Specialist, Information Security Specialist, Bioinformatics Specialist or Computer Science Major programs.

Distribution Requirements: Science

Mode of Delivery: In Class

JBC472H5 • Seminars in Biotechnology

An introduction to current research in biochemistry and biotechnology, through seminars and literature reviews, presented by invited speakers and students. Subject areas include biotechnology, biomaterials, enzyme engineering, biosensors, drug delivery, spectrometry, separations chemistry, and bioinformatics.

Prerequisites: [BIO372H5](#) and [CHM361H5](#) and ([CHM362H5](#) or [BIO315H5](#))

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

JBH471H5 • Worlds Colliding: The History and Ecology of Exploration, Contact, and Exchange

An examination of contact in world history through both an ecological and a historical lens. Precise topics will depend on the year, but the focus will be on the creation of global systems and ecological challenges that continue to shape our world. In some years, students may have the option of participating in an international learning experience during Reading Week that will have an additional cost and application process. Students interested in this course will need to be approved for enrollment by the department and course instructors.

Prerequisites: 2.0 HIS credits or 1.0 BIO credit at the 300 level and permission of instructor.

Exclusions: UTM290H5 Winter 2018 or Winter 2019

International Component: International - Optional

Distribution Requirements: Humanities, Science

Total Instructional Hours: 24S

Mode of Delivery: In Class

JCB487Y5 • Advanced Interdisciplinary Research Laboratory

Students will work together as members of a multidisciplinary team toward the completion of an interdisciplinary experimental or theoretical research project. Teams will be comprised of at least three students, with representation from at least three areas of specialization, namely, astronomy, biology, chemistry, earth sciences or physics. The interdisciplinary projects will be based on current trends in research and student teams will work to complete their projects with guidance provided by a team of faculty advisors from the Biology Department and the Department of Chemical and Physical Sciences. In addition to the rigorous development of research skills, the course will also provide students with training and practical experience in project management techniques and teamwork skills development. JCB487Y5 requires submitting an application to the department before the end of June for Fall enrolment. Application forms may be found at <http://uoft.me/cpsforms>. Application should be submitted to the CPS Undergraduate Assistant. Registration on ACORN is also required.

Prerequisites: (2.0 credits at the 300 level from BIO or CHM or JBC or JCP or ERS or ESS(G) or PHY) and (1.0 credit from BIO206H5 or BIO314H5 or CHM372H5 or CHM373H5 or CHM394H5 or CHM395H5 or CHM396H5 or CHM397H5 or ERS201H5 or ERS202H5 or PHY324H5 or PHY347H5). Normally taken in 4th year. Students must obtain approval from the faculty member(s) who will serve as the supervisor(s) in advance of the start of the course.

Exclusions: BIO400Y5 or BIO481Y5 or CBJ481Y5 or CHM489Y5 or ERS470Y5 or ERS471H5 or ERS472H5 or PHY489Y5 or BCH472Y1 or BCH473Y1 or CHM499Y1 or CSB497H1 or CSB498Y1 or CSB499Y1 or ESS491H1 or ESS492Y1 or MGY480Y1 or PHY478H1 or PHY479Y1 or BIOD98Y3 or CHMD90Y3 or CHMD91H3 or ESSD09H3 or ESSD10H3 or PSCD10H3

Course Experience: University-Based Experience

Distribution Requirements: Science

Total Instructional Hours: 240P

Mode of Delivery: In Class

Biomedical Communications explores the visualization of bioscience knowledge for diverse audiences. The minor in Biomedical Communications is for students interested in interdisciplinary studies in health, science and visual communication. Enrolment and completion of the program requires concurrent enrolment in a science major plus an additional minor, or a science specialist program.

Most BMC minor courses emphasize visual or media-based communication of bioscience topics, and careful consideration of target audience characteristics and needs.

Students should also review the Degree Requirements section prior to selecting courses

Biomedical Communications Programs

Biomedical Communications - Minor (Science)

Biomedical Communications (Science) is offered through the Biology Department.

Enrolment Requirements:

Enrolment in this program requires the student meet one of the following two conditions: 1) concurrent enrolment in a science major and any minor; or 2) enrolment in a science specialist program. A minimum CGPA of 2.20 is required. All students (including transfer students) must complete BIO152H5, BIO153H5, HSC200H5 plus 2.5 additional UTM credits **before** requesting this program.

Note: CGPA for enrolment in this program is calculated based on a minimum of 4.0 credits completed at UTM with final percentage grades (i.e. CR/ NCR courses are not applicable).

Completion Requirements:

1. BIO152H5 and BIO153H5 and HSC200H5

2. 2.5 credits from the following of which at least 1.0 credit must be at the 400 level : [HSC300H5](#) or [HSC301H5](#) or [HSC302H5](#) or [HSC307H5](#) or [HSC401H5](#) or [HSC402H5](#) or [HSC404H5](#) or [HSC405H5](#) or [HSC406H5](#)

[ERMIN0840](#)

Biomedical Communications Courses

HSC200H5 • Imaging Technologies for Scientific Visual Communication

Introduction to image and media technologies central to modern digital communication, with emphasis on their use in science communication and education. Topics include the appropriate use of visual media, design strategies, design for legibility and scientific image conventions. Tutorial sessions will introduce vector and bitmap image creation and manipulation tools.

Prerequisites: [BIO152H5](#) and [BIO153H5](#)

Exclusions: [HSC302H5](#)

Distribution Requirements: Science

Total Instructional Hours: 12L/24P

Mode of Delivery: In Class

HSC300H5 • Written Communication for Health Care

This course presents the principles of communicating effective audience-specific health information in both print and electronic media. Students will learn to analyze the form, content, language, and imagery of written health communication; to locate the published research behind health reports in the popular media; and to communicate clear, accurate health information to medical professionals, general audiences, and readers with low literacy skills.

Prerequisites: [BIO152H5](#)

Distribution Requirements: Science

Total Instructional Hours: 12L/24S

Mode of Delivery: In Class

HSC301H5 • Data and Information Visualization

This course presents the principles of information design: the clear, concise and truthful presentation of data in static and interactive graphics. Visualization is used to explore data, reveal patterns, and to communicate to different audiences. Topics range from human visual perception

and cognition, to the critical interpretation of design and accuracy in information graphics. Practical application of

course material will require students to develop information graphics for peer review and critique.

Prerequisites: [HSC200H5](#)

Exclusions: [CCT470H5](#)

Distribution Requirements: Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

HSC302H5 • Biocommunication Visualization

This course covers analysis and development of visual media for medical or scientific topics. Lectures include: light/form; proportion/scale; scientific visual conventions; media appropriate for target audience and reproduction. Topics may include: physiology, anatomical/biological subjects, patient education or health promotion. Classes consist of lectures with computer lab explorations.

Prerequisites: [HSC200H5](#)

Exclusions: [HMB304H1](#)

Distribution Requirements: Science

Total Instructional Hours: 12L/24P

Mode of Delivery: In Class

HSC307H5 • Visual Presentation Design for Life Sciences

This course teaches students basic graphic and multimedia design theory, and skills required to create effective scientific posters and oral-visual presentations. Topics include the communication objectives of different presentation types; human visual perception and design; and theories of multimedia learning. Students will create media using evidence-based design principles.

Prerequisites: [BIO152H5](#) and [BIO153H5](#) and [HSC200H5](#)

Distribution Requirements: Science

Total Instructional Hours: 18L/18P

Mode of Delivery: In Class

HSC401H5 • Health and Science Communication Design

This course presents the principles of health and science communication and examines the characteristics of effective audience-specific media design. Included are issues of learning context, target audience analysis, and effective information design in the development of tools that communicate concepts to the general public. Students will analyze existing media, conduct an

information needs assessment, and design an *interactive learning tool* on a current health or science-related topic.

Prerequisites: HSC200H5 and one of the following courses: HSC300H5 or HSC301H5 or HSC302H5 or HSC307H5

Distribution Requirements: Science

Total Instructional Hours: 12L/12P/12S

Mode of Delivery: In Class

HSC402H5 • Digital Learning Environments in Biology and Health Science

This course focuses on the design, development and evaluation of digital learning environments for biology and health sciences education. An overview of learning management systems, knowledge object design, collaborative knowledge building environments, simulations, tutorials, and games will be presented. Emerging communications technologies will be discussed in theory, explored through examples, and applied through prototype design.

Prerequisites: HSC200H5 and one of the following courses: HSC300H5 or HSC301H5 or HSC302H5 or HSC307H5

Distribution Requirements: Science

Total Instructional Hours: 12L/24P

Mode of Delivery: In Class

HSC403H5 • Visualization of Forensic Demonstrative Evidence

This course examines the visual representation of forensic demonstrative evidence in Canadian courtrooms. A case-based approach simulates professional practice. Forensic anthropology, biology and visual communication theory are explored in new media for presentation. Visual problem solving skills are developed through collaboration. In class, presentations and practica are combined with critical analysis of visualizations.

Prerequisites: 10.0 credits, including ANT205H5 or ANT306H5 or (BIO208H5 and BIO209H5) or BIO210Y5 or FSC239Y5

Distribution Requirements: Science

Total Instructional Hours: 12L/24P

Mode of Delivery: In Class

HSC404H5 • Advanced Visual Media for Anthropological Data

This course examines the visual representation of physical evidence in archaeology, and physical/biological anthropology. Photography, traditional illustration, and digital rendering are used to produce scientific graphics in support of published research. Through practical and analytical exercises students will gain an understanding of the media and techniques used to visually represent data.

Prerequisites: (HSC200H5 and one of the following courses: HSC300H5 or HSC301H5 or HSC302H5 or HSC307H5) or permission of instructor

Distribution Requirements: Science

Total Instructional Hours: 12L/24P

Mode of Delivery: In Class

HSC405H5 • Digital Forensic Facial Reconstruction

This course examines the technical, anatomical, and sociological considerations involved in the three-dimensional digital forensic facial reconstruction. Human facial anatomy, traditional reconstruction techniques, and the use of 3D animation software are the core areas of study. Using this knowledge, students reconstruct the facial identity of an individual known only from cranial skeletal remains.

Prerequisites: (HSC200H5 and one of the following courses: HSC300H5 or HSC301H5 or HSC302H5 or HSC307H5) or permission of instructor

Distribution Requirements: Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

HSC406H5 • Advanced Written Communication for Health Care

This course builds on skills developed in HSC300H. Topics include: communication of epidemiological data and of best evidence in medical and health science research. Students learn to think critically about health and science research, interpret complex or contentious evidence from the medical literature, and produce in-depth health information documents in a range of formats.

Prerequisites: HSC300H5

Distribution Requirements: Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

Business, Science and Entrepreneurship

The Business Minor has been designed for students whose primary focus is a science discipline, but who recognize that obtaining an understanding of the fundamentals of business, will provide them with a competitive advantage and distinguish them from other applicants for both summer jobs and after graduation. Students will learn fundamental business knowledge that will complement their science education and support their future success.

Students who are accepted into the minor will be exposed to more than one field of study (Fundamentals of Accounting, Human Resources, Marketing, Finance, Strategy, Operations), hence making themselves more marketable for endeavors they choose to pursue post undergraduate studies. Students will have two skill sets to utilize in the workplace as having a strong knowledge of a specific science discipline coupled with the fundamentals of business will allow students the opportunity to evaluate and make decisions while taking into account both the science as well as the business imperatives that typically drive these organizational decisions.

In addition, the courses in the business minor are being structured so that they tie back to science oriented business scenarios. For example, an accounting course may involve analysis of resource statements of pharmaceutical or chemical companies. Similarly, a strategy course may involve the analysis of how companies have effectively introduced a new drug to the mass consumer market.

Business, Science and Entrepreneurship Programs

Business, Science and Entrepreneurship - Minor (Science)

Enrolment Requirements:

Limited Enrolment — Enrolment in this program is limited to students who meet the following criteria:

1. Enrolled in a UTM Science Specialist or Major Subject Post.
2. Completion of 4.0 credits.
3. Cumulative Grade Point Average (CGPA): Determined annually by the Institute for Management & Innovation (IMI) to ensure a balance between enrolment and teaching resources. **NOTE:** Completion of ECO101H5 or ECO100Y5 in the first year of study before enrolment in the program is strongly recommended.

Completion Requirements:

ECO101H5 or ECO100Y5, IMI201H5, IMI202H5, IMI203H5, IMI301H5, IMI302H5, IMI303H5, IMI400H5.

Note: Students are required to remain enrolled in a Science Specialist or Major program in order to complete this Minor in Business, Science, and Entrepreneurship program.

Canadian Studies explores the Canadian nation, imagination, and experience from an interdisciplinary perspective. The courses offered as part of the Major and Minor programs present a wide-ranging and diverse view of Canada from both humanities and social science perspectives, including Anthropology, Communications, Drama, English, Economics, Environment, French, Geography, History, Political Science, Sociology, and Women and Gender Studies. The core courses in the program provide a strong foundation for students who then choose additional courses from a wide variety of electives that fit their own interests and academic goals. The program is flexible and introduces students to several academic disciplines, methods of inquiry, and theoretical approaches to the study of Canada. It provides an excellent foundation for graduate studies and allows students to fulfill the entrance requirements of the Faculty of Education.

Students should also review the [Degree Requirements](#) section prior to selecting courses

Chemistry has a vital role in modern science-based industry and in the improved material well-being and health of our society. It is being applied increasingly to the growth of our understanding of medicine, biology, materials science, geology, and many other branches of science. Chemistry also has a major role to play in solving our world-wide problems of energy conservation, environmental pollution, nuclear waste disposal and, through its important contributions to agriculture, even famine. Many of our future advances will originate from the kind of interdisciplinary research in which chemists trained to solve problems from the molecular to the bulk level must be involved.

As an academic university-based discipline, Chemistry stands in the centre of the sciences and is recognized as a sound basis for the kind of imaginative and disciplined thinking that has application beyond science to many other occupations and endeavours. At U of T Mississauga, we offer a Chemistry Program that enables a student to complete a Specialist Degree in Chemistry over a four-year period on the campus. A Major Program is also available for students who want a significant background in Chemistry. The Chemistry faculty are moving strongly towards a distinctive teaching and research specialization in the border regions between Chemistry and Biology and also offers a Specialist Program in Biological Chemistry. Our analytical chemistry has a strong focus in this direction as well and the Department supports Specialist and Major Programs in Environmental Analysis and a Specialist Program in Forensic Science-Chemistry.

The programs in Chemistry offered at U of T Mississauga provide a very suitable preparation for those who intend to

prepare for professional programs such as medicine, enter the work force in industry, teach chemistry in high school, or continue into a graduate program. Students are urged to consult the faculty advisor for help in choosing the appropriate courses and programs.

It is very important to plan one's program in advance and to consult regularly (at least once a year) with a faculty advisor. It is particularly desirable to take specific courses in the year of study for which they are designed (e.g., CHM200 level courses in Year 2); serious timetable clashes are likely to arise if this advice is not followed. While some deviations from the Specialist/Major/Minor programs listed are possible, students should consult the program advisor before departing from the recommended programs.

Students should also review the Degree Requirements section prior to selecting courses

Chemistry Programs

Biological Chemistry - Specialist (Science)

Enrolment Requirements:

Limited Enrolment — Enrolment in this program is limited.

For students applying in 2021-2022 for program entry in the 2022-2023 Academic Year, 4.0 credits are required, including the following:

1. CHM110H5 and CHM120H5 (minimum grade of 65% in CHM120H5)
2. (MAT132H5 and MAT134H5, minimum grade of 65% in MAT134H5) or (MAT135H5 and MAT136H5, minimum grade of 65% in MAT136H5) or MAT134Y5 (minimum grade of 65%) or MAT135Y5 (minimum grade of 65%) or MAT137Y5 (minimum grade of 65%) or MAT157Y5 (minimum grade of 65%)
3. A minimum CGPA of 2.5

For students applying in 2022-2023 (and beyond) for program entry in the 2023-2024 Academic Year (and beyond), 4.0 credits are required, including the following:

1. CHM110H5 and CHM120H5 (minimum grade of 65% in CHM120H5)
2. (MAT132H5 and MAT134H5, minimum grade of 65% in MAT134H5) or (MAT135H5 and MAT136H5, minimum grade of 65% in MAT136H5) or (MAT137H5 and MAT139H5) or (MAT157H5 and MAT159H5) or MAT134Y5 (minimum grade of 65%) or MAT135Y5 (minimum grade of 65%) or MAT137Y5 (minimum grade of 65%) or MAT157Y5 (minimum grade of 65%)
3. ISP100H5
4. A minimum CGPA of 2.5

NOTE: Completion of BIO152H5 prior to enrolment is recommended.

Completion Requirements:

14.0-14.5 credits are required.

First Year:

1. BIO152H5
2. CHM110H5 and CHM120H5
3. (MAT132H5 and MAT134H5) or (MAT135H5 and MAT136H5) or (MAT137H5 and MAT139H5) or (MAT157H5 and MAT159H5) or MAT134Y5 or MAT135Y5 or MAT137Y5 or MAT157Y5
4. (PHY136H5 and PHY137H5) or (PHY146H5 and PHY147H5)

- For students entering the program in 2023-2024 (and beyond): ISP100H5

Second Year:

- CHM211H5 and CHM231H5 and CHM242H5 and CHM243H5
- JCP221H5
- BIO206H5 and BIO207H5
- 0.5 credit of MAT or CSC or STA (at any level)

Third Year:

- CHM333H5 and (CHM341H5 or CHM345H5) and CHM347H5 and CHM361H5 and CHM362H5 and CHM372H5 and CHM373H5
- BIO372H5

Fourth Year:

- CHM399Y5 or CHM489Y5 or CPS489Y5 or CPS400Y5 or JCB487Y5 or (BCH472Y1 or BCH473Y1, with permission of the CHM Program Advisor)
- 1.5 credits from the following courses: BIO324H5 or CHM412H5 or CHM444H5 or CHM462H5 or CHM485H5 or JCP410H5 or JCP422H5 or JCP463H5 or JBC472H5 or CHM447H1 or CHM479H1 or any 400 level BCH lecture course.

Note:

- Enrolment in certain BCH courses at the St. George campus is limited.
- (MAT132H5 and MAT134H5) or (MAT135H5 and MAT136H5) or (MAT137H5 and MAT139H5) or (MAT157H5 and MAT159H5) or (MAT134Y5 or MAT135Y5 or MAT137Y5 or MAT157Y5) is required for all 200-level CHM courses. For MAT157Y5, permission is required from the CHM Program Advisor.
- Students cannot count more than 1.0 credits total in ROP, Internship or Research Project/ Thesis courses at the 300/400 level for credit toward their Chemistry program.
- BIO207H5 has a pre-requisite of BIO152H5 and a co-requisite of BIO153H5.

ERSPE1995

Chemistry - Specialist (Science)

Enrolment Requirements:

Limited Enrolment — Enrolment in this program is limited.

For students applying in 2021-2022 for program entry in the 2022-2023 Academic Year, 4.0 credits are required, including the following:

- CHM110H5 and CHM120H5 (minimum grade of 65% in CHM120H5)
- (MAT132H5 and MAT134H5, with a minimum grade of 65% in MAT134H5) or (MAT135H5 and MAT136H5, with a minimum grade of 65% in MAT136H5) or MAT134Y5 (minimum grade of 65%) or MAT135Y5 (minimum grade of 65%) or MAT137Y5 (minimum grade of 65%) or MAT157Y5 (minimum grade of 65%)
- A minimum CGPA of 2.5

For students applying in 2022-2023 (and beyond) for program entry in the 2023-2024 Academic Year (and beyond), 4.0 credits are required, including the following:

- CHM110H5 and CHM120H5 (minimum grade of 65% in CHM120H5)
- (MAT132H5 and MAT134H5, with a minimum grade of 65% in MAT134H5) or (MAT135H5 and MAT136H5, with a minimum grade of 65% in MAT136H5) or (MAT137 and MAT139) or (MAT157 and MAT159) or MAT134Y5

(minimum grade of 65%) or MAT135Y5 (minimum grade of 65%) or MAT137Y5 (minimum grade of 65%) or MAT157Y5 (minimum grade of 65%)

3. ISP100H5
4. A minimum CGPA of 2.5

Completion Requirements:

13.5 credits are required.

First Year:

1. CHM110H5 and CHM120H5
2. (MAT132H5 and MAT134H5) or (MAT135H5 and MAT136H5) or (MAT137H5 and MAT139H5) or (MAT157H5 and MAT159H5) or MAT134Y5 or MAT135Y5 or MAT137Y5 or MAT157Y5
3. (PHY136H5 and PHY137H5) or (PHY146H5 and PHY147H5)
4. ISP100H5

Second Year:

1. CHM211H5 and CHM231H5 and CHM242H5 and CHM243H5
2. JCP221H5
3. MAT232H5

Third Year:

1. CHM311H5 and CHM331H5 and CHM361H5 and CHM394H5 and CHM396H5
2. CHM341H5 or CHM345H5
3. JCP321H5

Fourth Year:

1. (CHM395H5 and CHM397H5) or CHM399Y5 or CHM489Y5 or CPS489Y5 or CPS400Y5 or CPS401Y5 or JCB487Y5
2. 1.5 credits lecture courses from: CHM412H5 or CHM414H5 or CHM416H5 or CHM436H5 or CHM442H5 or CHM444H5 or CHM462H5 or JCP421H5 or JCP422H5 or JCP410H5 or JCP463H5
3. 1.0 credit from: CHM333H5 or CHM341H5 or CHM345H5 or CHM347H5 or CHM362H5 or CHM372H5 or CHM373H5 or CHM395H5 or CHM397H5 or CHM412H5 or CHM414H5 or CHM416H5 or CHM436H5 or CHM442H5 or CHM444H5 or CHM462H5 or CHM485H5 or CPS398H5 or FSC311H5 or JCP321H5 or JCP322H5 or JCP410H5 or JCP421H5 or JCP422H5 or JCP463H5

Note:

1. For MAT157H5, permission is required from the CHM Program Advisor
2. MAT212H5 has the following requirements: Prerequisite - MAT233H5 or (MAT232H5 or MAT257Y5 as a corequisite); and Corequisite - MAT223H5 or MAT240H5
3. (MAT132H5 and MAT134H5) or (MAT135H5 and MAT136H5) or (MAT137H5 and MAT139H5) or (MAT157H5 and MAT159H5) or MAT134Y5 or MAT135Y5 or MAT137Y5 is required for all 200-level CHM courses.
4. Students cannot take more than 2.0 credits total in ROP, Internship or Research Project/ Thesis courses at the 300/ 400 level for credit toward this Chemistry program.

ERSPE1376

Chemistry - Major (Science)

Enrolment Requirements:

Limited Enrolment — Enrolment in this program is limited.

For students applying in 2021-2022 for program entry in the 2022-2023 Academic Year, 4.0 credits are required, including the following:

1. CHM110H5 and CHM120H5 (minimum grade of 60% in CHM120H5)
2. (MAT132H5 and MAT134H5) or (MAT135H5 and MAT136H5) or MAT134Y5 or MAT135Y5 or MAT137Y5 or MAT157Y5

For students applying in 2022-2023 (and beyond) for program entry in the 2023-2024 Academic Year (and beyond), 4.0 credits are required, including the following:

1. CHM110H5 and CHM120H5 (minimum grade of 60% in CHM120H5)
2. (MAT132H5 and MAT134H5) or (MAT135H5 and MAT136H5) or (MAT137H5 and MAT139H5) or (MAT157H5 and MAT159H5) or MAT134Y5 or MAT135Y5 or MAT137Y5 or MAT157Y5
3. ISP100H5

Completion Requirements:

8.0-8.5 credits are required.

First Year:

1. CHM110H5 and CHM120H5
2. (MAT132H5 and MAT134H5) or (MAT135H5 and MAT136H5) or (MAT137H5 and MAT139H5) or (MAT157H5 and MAT159H5) or MAT134Y5 or MAT135Y5 or MAT137Y5 or MAT157Y5
3. For students entering the program in 2023-2024 (and beyond): ISP100H5

Second Year:

1. CHM211H5 and CHM231H5 and CHM242H5 and CHM243H5
2. JCP221H5

Higher Years:

1. (CHM372H5 and CHM373H5) or (CHM394H5 and CHM395H5) or (CHM396H5 and CHM397H5)
2. 1.5 credits from lecture courses: CHM311H5 or CHM331H5 or CHM333H5 or CHM341H5 or CHM345H5 or CHM347H5 or CHM361H5 or CHM362H5 or CHM436H5 or CHM412H5 or CHM414H5 or CHM416H5 or CHM442H5 or CHM444H5 or CHM462H5 or JCP321H5 or JCP322H5 or JCP410H5 or JCP421H5 or JCP422H5 or JCP463H5
3. 1.0 credit from: CHM311H5 or CHM331H5 or CHM333H5 or CHM341H5 or CHM345H5 or CHM347H5 or CHM361H5 or CHM362H5 or CHM372H5 or CHM373H5 or CHM394H5 or CHM395H5 or CHM396H5 or CHM397H5 or CHM399Y5 or CHM412H5 or CHM414H5 or CHM416H5 or CHM436H5 or CHM442H5 or CHM444H5 or CHM462H5 or CHM485H5 or CHM489Y5 or CPS489Y5 or CPS398H5 or CPS400Y5 or FSC311H5 or JCP321H5 or JCP322H5 or JCP410H5 or JCP421H5 or JCP422H5 or JCP463H5 or JBC472H5 or JCB487Y5

Note:

1. (MAT132H5 and MAT134H5) or (MAT135H5 and MAT136H5) or (MAT137H5 and MAT139H5) or (MAT157H5 and MAT159H5) or MAT134Y5 or MAT135Y5 or MAT137Y5 or MAT157Y5 is required for all 200-level CHM/ JCP courses.

2. For a balanced training in Chemistry, students should take CHM311H5 and (CHM331H5 or CHM333H5) and (CHM341H5 or CHM345H5) and JCP321H5.

ERMAJ1376

Chemistry - Minor (Science)

Enrolment Requirements:

Limited Enrolment — Enrolment in the Chemistry Minor Program is based on completion of 4.0 credits including

1. CHM110H5 and CHM120H5 (minimum grade of 60% in CHM120H5)
2. (MAT132H5 and MAT134H5) or (MAT135H5 and MAT136H5) or (MAT137H5 and MAT139H5) or (MAT157H5 and MAT159H5) or MAT134Y5 or MAT135Y5 or MAT137Y5 or MAT157Y5

Completion Requirements:

4.0 credits in CHM/ JCP are required.

First Year:

1. CHM110H5 and CHM120H5

Higher Years:

1. 2.0 credits from: CHM211H5 or CHM231H5 or CHM242H5 or CHM243H5 or CHM311H5 or CHM331H5 or CHM333H5 or CHM341H5 or CHM345H5 or CHM347H5 or CHM361H5 or CHM362H5 or CHM372H5 or CHM373H5 or CHM394H5 or CHM395H5 or CHM396H5 or CHM397H5 or CHM412H5 or CHM414H5 or CHM416H5 or CHM436H5 or CHM442H5 or CHM444H5 or CHM462H5 or JCP221H5 or JCP321H5 or JCP322H5 or JCP410H5 or JCP421H5 or JCP422H5 or JCP463H5 or FSC311H5

2. 1.0 credits at 300/400 level from: CHM311H5 or CHM331H5 or CHM333H5 or CHM341H5 or CHM345H5 or CHM347H5 or CHM361H5 or CHM362H5 or CHM372H5 or CHM373H5 or CHM394H5 or CHM395H5 or CHM396H5 or CHM397H5 or CHM412H5 or CHM414H5 or CHM416H5 or CHM436H5 or CHM442H5 or CHM444H5 or CHM462H5 or JCP321H5 or FSC311H5 or JCP322H5 or JCP410H5 or JCP421H5 or JCP422H5 or JCP463H5

Notes:

- (MAT132H5 and MAT134H5) or (MAT135H5 and MAT136H5) or (MAT137H5 and MAT139H5) or (MAT157H5 and MAT159H5) or MAT134Y5 or MAT135Y5 or MAT137Y5 or MAT157Y5 is required for all 200-level CHM/ JCP courses.

ERMIN1376

Chemistry Courses

CHM101H5 • The Science of Human Health

This course is intended for humanities and social science students who wish to gain knowledge of the science behind our well-being that may help them to make

personal, social and political decisions in their future. Chemistry will be taught on a need-to-know basis in order to consider some contemporary applications. The course will focus on three themes in the realm of human health: nutrition for the prevention of disease, diagnostic tests for the detection of disease and drug discovery for the treatment of disease. Among the questions that may be addressed are "What is the nutritional difference between vitamins from foods and those from supplements?", "Should ketchup be considered a vegetable?", "How do diagnostic strips work?", "What advances in microfluidics have provided inexpensive diagnostics for use in remote

areas?", "How are drug targets identified?", and "What is the path from drug discovery to bringing a drug to market?". The roles of nutritional, analytical and medicinal chemistry in these processes will be studied. (Please note the course exclusion: Students are ineligible to register for this course if they have taken any previous or current CHM/JCP course).

Exclusions: CHM201H5 and any CHM/JCP course taken previously or concurrently

Distribution Requirements: Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

CHM110H5 • Chemical Principles 1

Matter and its transformations are studied at the macroscopic level. Topics include stoichiometry, phases of matter, equilibria, thermodynamics and electrochemistry.

Prerequisites: Grade 12 Chemistry (SCH4U) (minimum grade of 70) and Grade 12 Advanced Functions (MHF4U0) (minimum grade of 70) and Grade 12 Calculus and Vectors (MCV4U) highly recommended

Corequisites: Recommended Corequisite: (MAT132H5 and MAT134H5) or (MAT135H5 and MAT136H5) or (MAT137H5 and MAT139H5) or (MAT157H5 and MAT159H5) or (MAT134Y5 or MAT135Y5 or MAT137Y5 or MAT157Y5); this recommended corequisite is a prerequisite for all 200 level CHM courses.

Exclusions: CHM135H1 or CHM151Y1 or CHM140Y5 or CHMA11H3

Distribution Requirements: Science

Total Instructional Hours: 36L/12T/18P

Mode of Delivery: In Class

CHM120H5 • Chemical Principles 2

Building on the subject matter of CHM110H5, molecular events are studied at the microscopic level. Topics include atomic and molecular structure, intermolecular forces of attraction, reaction kinetics, and organic chemical reactions and mechanisms.

Prerequisites: CHM110H5

Corequisites: Recommended Corequisite: (MAT132H5 and MAT134H5) or (MAT135H5 and MAT136H5) or (MAT137H5 and MAT139H5) or (MAT157H5 and MAT159H5) or (MAT134Y5 or MAT135Y5 or MAT137Y5 or MAT157Y5); this recommended corequisite is a prerequisite for all 200 level CHM courses.

Exclusions: CHM136H1 or CHM151Y1 or CHM140Y5 or CHMA10H3

Distribution Requirements: Science

Total Instructional Hours: 36L/12T/18P

Mode of Delivery: In Class

CHM211H5 • Fundamentals of Analytical Chemistry

A rigorous introduction to the theory and practice of analytical chemistry. Development and applications of basic statistical concepts in treatment and interpretation of analytical data; direct and indirect precipitations; volumetric methods; acid-base, complexometric, redox and precipitation titrations; introduction to instrumental methods; potentiometry and absorption spectroscopy. Applications in biomedical, forensic and environmental areas will be considered.

Prerequisites: CHM110H5 and a minimum grade of 60% in CHM120H5 and [(MAT132H5 and MAT134H5) or (MAT135H5 and MAT136H5) or (MAT137H5 and MAT139H5) or (MAT157H5 and MAT159H5) or (MAT134Y5 or MAT135Y5 or MAT137Y5 or MAT157Y5)]

Exclusions: CHM217H1 or CHMB16H3

Distribution Requirements: Science

Total Instructional Hours: 24L/12T/48P

Mode of Delivery: In Class

CHM231H5 • Inorganic Chemistry I

Atomic structure; periodic properties of the elements; bonding theories-ionic, covalent (valence bond and molecular orbital) and metallic; structure and bonding in coordination compounds of main group elements and transition metals; descriptive chemistry of the metals. Reaction mechanisms.

Prerequisites: CHM110H5 and a minimum grade of 60% in CHM120H5 and [(MAT132H5 and MAT134H5) or (MAT137H5 and MAT139H5) or (MAT157H5 and MAT159H5) or (MAT135H5 and MAT136H5) or (MAT134Y5 or MAT135Y5 or MAT137Y5 or MAT157Y5)]

Exclusions: CHM238Y1 or CHMB31H3

Distribution Requirements: Science

Total Instructional Hours: 36L/10T/28P

Mode of Delivery: In Class

CHM242H5 • Introductory Organic Chemistry I

Fundamentals of organic chemistry emphasizing reactions of alkanes and alkenes. The first half of a two-course sequence (with CHM243H5) required in the Chemistry major and specialist programs.

Prerequisites: CHM110H5 and a minimum grade of 60% in CHM120H5 and [(MAT132H5 and MAT134H5) or (MAT135H5 and MAT136H5) or (MAT137H5 and MAT139H5) or (MAT157H5 and MAT159H5) or (MAT134Y5 or MAT135Y5 or MAT137Y5 or MAT157Y5)]

Exclusions: CHM136H1 or CHMB41H3 or CHMB43Y3

Distribution Requirements: Science

Total Instructional Hours: 36L/12T

Mode of Delivery: In Class

CHM243H5 • Introductory Organic Chemistry II

The chemistry of benzene, alcohols, aldehydes, ketones, carboxylic acid, esters, acid chlorides, amides and amines will be covered. As well, electrophilic aromatic substitution, protection and deprotection of alcohols, nucleophilic acyl substitution, nucleophilic addition, carbonyl alpha-substitution reaction, keto-enol tautomerism, carbonyl condensation and amines will be introduced. The emphasis will be on organic mechanisms and application of organic reactions to multistep synthesis. Continues from [CHM242H5](#).

Prerequisites: [CHM242H5](#)

Exclusions: [CHM247H1](#) or [CHM249H1](#) or [CHMB42H3](#)

Distribution Requirements: Science

Total Instructional Hours: 36L/48P

Mode of Delivery: In Class

CHM299Y5 • Research Opportunity Program

This course provides a richly rewarding opportunity for students in their second year to work in the research project of a professor in return for 299Y course credit. Students enrolled have an opportunity to become involved in original research, learn research methods and share in the excitement and discovery of acquiring new knowledge. This course does not count as one of the requirements in the Chemistry Minor, Chemistry Major, Chemistry Specialist or Biological Chemistry Specialist programs. Participating faculty members post their project descriptions for the following summer and fall/winter sessions in early February and students are invited to apply in early March. See [Experiential and International Opportunities](#) for more details.

Prerequisites: Completion of at least 4.0 credits and no more than 10.0 credits, which must include [CHM110H5](#) and [CHM120H5](#) with a minimum grade of 60% and [([MAT132H5](#) and [MAT134H5](#)) or ([MAT135H5](#) and [MAT136H5](#)) or ([MAT137H5](#) and [MAT139H5](#)) or ([MAT157H5](#) and [MAT159H5](#)) or ([MAT134Y5](#) or [MAT135Y5](#) or [MAT137Y5](#) or [MAT157Y5](#))].

Distribution Requirements: Science

Mode of Delivery: In Class

CHM311H5 • Instrumental Analytical Chemistry

Introduction to the basic theory and practice underlying important techniques in analytical chemistry, chosen from three major areas of instrumental analysis: spectroscopy, electrochemistry and separation science. Specific topics will include fluorescence spectroscopy, atomic spectroscopy, x-ray fluorescence, voltammetry, high resolution gas and liquid chromatography, mass spectrometry, and a brief introduction to computer applications, including Fourier transform methods. A problem-based approach will be used to explore these

methods in a wide variety of practical applications, which will include individualized student assignments.

Prerequisites: [CHM211H5](#)

Exclusions: [CHM317Y1](#) or ([CHMC16H3](#) and [CHMC11H3](#))

Recommended Preparation: [JCP221H5](#)

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

CHM323H5 • Introduction to Computational Chemistry

This course covers the foundations of computational chemistry with a focus on practical applications and does not require a background in programming or quantum mechanics. An array of methods for predicting the structural, electronic, thermodynamic, and spectroscopic properties of chemical species will be addressed, as well as how the calculated results can complement experimental observations. Relevant fundamental theories to computational chemistry will be covered on a need-to-know basis. Students will follow an individualized study path and select the chemical systems to which each method will be applied.

Prerequisites: [CHM243H5](#)

Recommended Preparation: [CHM231H5](#) and [JCP221H5](#)

Distribution Requirements: Science

Total Instructional Hours: 12L/36T

Mode of Delivery: In Class

CHM331H5 • Inorganic Chemistry II: Advanced Inorganic Chemistry

Chemistry of metallic elements. Organometallics. Main group and transition elements. Rings, cages and clusters. Lanthanides and Actinides. Applications of IR, UV-VIS and multinuclear NMR spectroscopy. Symmetry. Inorganic synthesis. Non-aqueous solvents. Structure and bonding. Catalysis and industrial processes.

Prerequisites: [CHM231H5](#) and [CHM242H5](#)

Corequisites: [CHM243H5](#)

Exclusions: [CHM338H1](#) or [CHMC31Y3](#)

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

CHM333H5 • Bioinorganic Chemistry

Principles of inorganic chemical reactions and their application to biochemical systems: kinetics, mechanisms and thermodynamics of ligand exchange, acid-base and redox reactions involving metalloproteins and their model compounds; mechanisms of catalysis by metalloenzymes and their model compounds; metal ion related diseases; metals in chemotherapy.

Prerequisites: [CHM231H5](#) and [CHM242H5](#)

Corequisites: [CHM243H5](#)

Exclusions: [CHM437H1](#) or [CHMD69H3](#)

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

CHM341H5 • Organic Chemistry: Mechanism and Structure

Stereochemistry and conformational analysis; mechanisms of important types of organic reaction; pericyclic reactions; reactive intermediates.

Prerequisites: [CHM243H5](#)

Exclusions: [CHM348H1](#) or [CHMC41H3](#)

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

CHM345H5 • Organic Synthesis

Methods used for forming carbon-carbon bonds will be reviewed, including reactions of the various types of nucleophilic carbon and the use of organometallic reagents. Other topics include functional group interconversions, oxidation and reduction and the role of elements such as boron, silicon and tin in organic synthesis.

Prerequisites: [CHM243H5](#)

Exclusions: [CHM342H1](#) or [CHMC42H3](#)

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

CHM347H5 • Organic Chemistry of Biological Compounds

The chemistry of selected classes of naturally occurring molecules such as those below, with emphasis on structure, stereochemistry, properties and synthesis. Amino acids, peptides, proteins, carbohydrates, lipids, nucleosides, nucleotides, and nucleic acids.

Prerequisites: [CHM243H5](#)

Exclusions: [CHM347H1](#) or [CHMC47H3](#)

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

CHM361H5 • Structural Biochemistry

An introduction to the molecular anatomy and properties of the major cellular biomolecules: proteins, nucleic acids, carbohydrates and lipids. The course also covers the structural organization of membranes and other macromolecular complexes. Enzyme mechanisms and

membrane transport phenomena will be examined in the context of quantitative analyses these processes and of structure/function relationships.

Prerequisites: [CHM243H5](#)

Exclusions: [BCH210H1](#) or [BCH242Y1](#) or [BCH311H1](#) or [BIOC12H3](#) or [CHMB62H3](#)

Recommended Preparation: [BIO206H5](#) and [JCP221H5](#)

Distribution Requirements: Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

CHM362H5 • Metabolism and Bioenergetics

Basic principles of biological energetics. Metabolic pathways for carbohydrate and lipid synthesis and degradation. Survey of amino acid and nucleotide metabolism. Integration and cellular regulation of metabolism. Intracellular signal transduction mechanisms.

Prerequisites: [CHM361H5](#)

Exclusions: [BCH210H1](#) or [BCH242Y1](#) or [BIOC13H3](#) or [CHMB62H3](#)

Recommended Preparation: [BIO206H5](#) and [JCP221H5](#)

Distribution Requirements: Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

CHM372H5 • Techniques in Biological Chemistry I

The first in a sequence of two laboratory courses intended to complement [CHM361H5](#) and [CHM362H5](#). Experiments are designed to familiarize students with techniques commonly used to study the chemical and physical properties of biological molecules. Topics covered in the first half also include a wide range of chromatographic and/or fractionation methods to separate proteins and/or subcellular organelles, enzyme kinetics, electrophoresis to study proteins and their complexes. The theoretical basis for each experiment will be covered in a 1-hour lecture each week.

Prerequisites: [CHM243H5](#)

Corequisites: [CHM361H5](#)

Exclusions: [CHM371H5](#) or [BCH370H1](#) or [BCH371H1](#)

Distribution Requirements: Science

Total Instructional Hours: 12L/48P

Mode of Delivery: In Class

CHM373H5 • Techniques in Biological Chemistry II

The second in a sequence of two laboratory courses intended to complement [CHM361H5](#) and [CHM362H5](#). [CHM373H5](#) carries on from [CHM372H5](#) with a particular emphasis on protein purification, enzyme kinetics and protein characterization (e.g., kinetics, reactions, binding,

depending on the protein studied). Techniques covered include classic biochemical techniques used in studying proteins and protein complexes, such as chromatography and fluorescence methods. The theoretical basis for each experiment will be covered in a 1-hour lecture each week.

Prerequisites: [CHM372H5](#)

Corequisites: [CHM361H5](#)

Exclusions: [CHM371H5](#) or [BCH370H1](#) or [BCH371H1](#)

Distribution Requirements: Science

Total Instructional Hours: 12L/48P

Mode of Delivery: In Class

CHM394H5 • Chemical Synthesis Laboratory I

The first in a sequence of two laboratory courses in synthetic chemistry. This laboratory course comprises the synthesis of inorganic and organic compounds supplemented by physical measurements (e.g., ir, uv, ¹H NMR spectra, magnetic susceptibility, etc.) of the products where appropriate. Approximately six weeks each will be spent on two groups of foundational experiments, one in organic and one in inorganic synthesis to illustrate techniques of chemical synthesis. The central role of the carbonyl group in organic synthesis is elaborated, an organic unknown is identified both chemically and spectroscopically and the synthetic chemistry of the first row transition elements is explored.

Prerequisites: [CHM231H5](#) and [CHM243H5](#)

Exclusions: [CHM393H5Y](#)

Distribution Requirements: Science

Total Instructional Hours: 48P

Mode of Delivery: In Class

CHM395H5 • Chemical Synthesis Laboratory II

The second in a sequence of two laboratory courses in synthetic chemistry that builds on the foundations established in [CHM394H5](#). Students choose their own experiments in this course from offerings comprising the synthesis of organic, organometallic and inorganic compounds and in computational chemistry. Techniques such as working at low temperatures and in inert atmospheres (e.g., glove box) are introduced. Depending on the experiments actually chosen, a mixed organic unknown is separated and identified, organic rearrangements and the synthetic chemistry of elements from across the Periodic Table including main group, transition elements and lanthanides are explored. A highlight is an optional four week independent synthesis project in any area of synthetic chemistry adapting procedures from the published, including recent, research literature.

Prerequisites: [CHM394H5](#)

Corequisites: ([CHM331H5](#) or [CHM333H5](#)) and ([CHM341H5](#) or [CHM345H5](#))

Distribution Requirements: Science

Total Instructional Hours: 48P

Mode of Delivery: In Class

CHM396H5 • Analytical and Physical Chemistry Instrumentation Laboratory I

This analytical and physical chemistry laboratory course represents an integration of the study of fundamental physical chemistry with wide-ranging applications to instrumental methods of analysis, such as separation science, electrochemistry and spectroscopy. The course will provide a solid hands-on grounding in many of the major topics covered in analytical and physical chemistry, and the optimization of instrumental analytical measurements by the application of physical principles. Students select from a variety of instruments to customize their program, and develop their own analytical methods to address analytical problems of interest to the student.

Prerequisites: [CHM211H5](#) and [JCP221H5](#)

Exclusions: [CHM391H5](#) or [CHM317H1](#) or [CHM410Y1](#) or [CHMC16H3](#)

Recommended Preparation: [CHM311H5](#)

Course Experience: University-Based Experience

Distribution Requirements: Science

Total Instructional Hours: 48P

Mode of Delivery: In Class

CHM397H5 • Analytical and Physical Chemistry Instrumentation Laboratory II

This analytical and physical chemistry laboratory course carries on from CHM396 to introduce more advanced topics in instrumental methods of analysis and physical chemistry concepts. The course will include experimental modules focused on instrument design and computer interfacing, molecular spectroscopy (e.g. fluorescence, infrared and Raman, and NMR), plasmon resonance methods for biomolecule determinations and kinetic analysis, microfluidics and lab-on-a-chip technologies. The course will provide practical experience in the optimization of instrumental analytical measurements, experiment design, and topics of relevance to research in analytical and physical chemistry.

Prerequisites: [CHM396H5](#)

Corequisites: [CHM311H5](#)

Course Experience: University-Based Experience

Distribution Requirements: Science

Total Instructional Hours: 48P

Mode of Delivery: In Class

CHM399Y5 • Research Opportunity Program

This course provides third-year undergraduate students (after completion of 8.0 credits) who have developed some knowledge of Chemistry and its research methods,

an opportunity to work in the research project of a professor in return for course credit. Students enrolled have the opportunity to become involved in original research, enhance their research skills and share in the excitement of acquiring new knowledge and in the discovery process of science. This course does not count as one of the requirements in the Chemistry Minor program. Participating faculty members post their project descriptions for the following summer and fall/winter sessions in early February and students are invited to apply in early March. See [Experiential and International Opportunities](#) for more details.

Prerequisites: 8.0 credits, including CHM110H5 and CHM120H5 with a minimum grade of 60% and [(MAT132H5 and MAT134H5) or (MAT135H5 and MAT136H5) or (MAT137H5 and MAT139H5) or (MAT157H5 and MAT159H5) or (MAT134Y5 or MAT135Y5 or MAT137Y5 or MAT157Y5)] and 2.0 credit of CHM/ JCP at the 200-level.

Course Experience: University-Based Experience

Distribution Requirements: Science

Mode of Delivery: In Class

CHM412H5 • Analytical Methods of Biomolecule Analysis

An exploration of biomolecule analysis methodologies, with an emphasis on nucleic acid analysis, will be done from the perspective of the Analytical Biochemist. The course will begin with brief reviews of the structure and function of biomolecules, solid-phase synthesis, extraction, pre-concentration and amplification methods. This will be followed by an exploration of established and emerging techniques for target biomolecule determinations, including: bioprobes, microarrays, biosensors and DNA sequencing technologies (including single molecule approaches). Current examples of implementation in the fields of proteomics and genomics will be discussed throughout the course, with an emphasis on life sciences and diagnostic testing applications. Course work will include independent literature reviews and student presentations.

Prerequisites: CHM311H5

Recommended Preparation: CHM243H5

Distribution Requirements: Science

Total Instructional Hours: 24L/12S

Mode of Delivery: In Class

CHM414H5 • Advanced Topics in Analytical Chemistry

An overview of both recent and fundamental developments of instrumentation that are revolutionizing the field of analytical chemistry, with an emphasis on applications in biological chemistry and biotechnology. Topics will include specialized mass spectrometry techniques, including secondary ion, fast atom bombardment and ion cyclotron resonance mass spectrometry methods; GC/MS and LC/MS interfaces; a survey of surface-oriented techniques including x-ray

photoelectron spectroscopy, Auger electron spectroscopy, Raman spectroscopy, attenuated total reflection methods, total internal reflection fluorescence methods; Fourier transform theory and methods; microcomputer interfacing and chemometrics. Course work will include independent literature reviews and student presentations.

Prerequisites: CHM311H5

Recommended Preparation: JCP321H5

Distribution Requirements: Science

Total Instructional Hours: 24L/12S

Mode of Delivery: In Class

CHM416H5 • Separations, Chromatography and Microfluidics

Separation science will be explored by building on a survey of fundamental physical principles to understand processes of extraction, and technologies such as solid phase microextraction, supercritical fluid extraction, immunoaffinity extraction and molecularly imprinted polymers. Plate and rate theory will be developed to consider various forms of gas and liquid chromatographic methods, including hyphenated techniques that bridge to information detectors such as mass spectrometers. New opportunities for chromatography and separations by movement to small scale size will be considered by focusing on microfluidics, electro-osmotic flow and chip based microdevice applications. Applications examples will focus on problems in life sciences, forensics and environmental chemistry. Course work will include independent literature reviews and student presentations.

Prerequisites: CHM311H5

Exclusions: CHM416H1

Distribution Requirements: Science

Total Instructional Hours: 24L/12S

Mode of Delivery: In Class

CHM436H5 • Metal-based Chemistry for Synthesis of Small Molecules and Functional Materials

Modern metal-mediated (inorganic) reactions useful in organic synthesis. Applications of advanced organometallic chemistry. Selected solid-state compounds: metal-organic frameworks, nanoparticles and related materials for separation, catalysis, diagnostics.

Prerequisites: CHM231H5 and CHM243H5

Distribution Requirements: Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

CHM442H5 • Strategy & Control in Modern Drug Synthesis

Applications of advanced fundamentals to, and recent developments in, multi-step organic synthesis.

Prerequisites: CHM341H5 or CHM345H5
Recommended Preparation: CHM394H5 and CHM395H
Distribution Requirements: Science
Total Instructional Hours: 24L
Mode of Delivery: In Class

CHM444H5 • An Introduction to Medicinal Chemistry and Molecular Recognition

An introduction to drug discovery, design and development. This course will focus on the potential of proteins (enzymes, receptors, receptor structure and signal transduction) as targets for molecular therapeutic intervention. The strategies of finding a drug target, optimizing target interactions and synthetic molecular therapeutic development will all be considered and discussed. The modern technologies of targeting protein-protein interactions will also be covered.

Prerequisites: CHM361H5
Distribution Requirements: Science
Total Instructional Hours: 24L
Mode of Delivery: In Class

CHM462H5 • Advances in Chemical Biology

Discussion course based on published research in biological chemistry and applications of chemistry to study processes of biological significance.

Prerequisites: CHM361H5
Recommended Preparation: CHM347H5 and CHM371H5
Distribution Requirements: Science
Total Instructional Hours: 24L
Mode of Delivery: In Class

CHM485H5 • Dissertation Based on Literature Research

A dissertation will be written based on literature research of a topic of current interest in the field of chemistry. The research will be conducted under the supervision of a chemistry faculty member other than the student's CPS489Y5 supervisor. The research topic must not overlap that of the student's CPS489Y5 project. The goals of this course are to achieve literature research expertise as well as in-depth knowledge of a particular chemistry topic, while perfecting scientific writing and oral presentation skills. Evaluation is based on a final written report describing the aims and results of the research, as well as an oral presentation of the work. The course is normally taken in the student's fourth year, in either the Fall or Winter terms, but may be taken in the Summer term. Enrolment in CHM485H5 requires submitting an application to the department before the end of the term prior to that in which it is intended to undertake the

research. Independent Studies Application Forms may be found at <http://uoft.me/cpsforms>. Applications should be submitted to the CPS Undergraduate Assistant. Registration on ACORN is also required. Students are encouraged to consult with, and obtain the consent of, prospective supervisors before applying for enrolment.

Prerequisites: 2.5 CHM/JCP credits at 300 level.
Distribution Requirements: Science
Total Instructional Hours: 24L
Mode of Delivery: In Class

CHM489Y5 • Introduction to Research in Chemistry

An experimental or theoretical research topic in chemistry will be investigated under the supervision of a chemistry faculty member other than the student's CHM485H5 supervisor. The research topic must not overlap that of the student's CHM485H5 research topic. In addition to learning to plan, conduct and evaluate a research program, students will receive training in written and oral presentation skills. Evaluation is based on interim and final written reports describing the aims and results of the research, as well as interim and final oral presentations of the work. The course is normally taken in the student's fourth year. Enrolment in CHM489Y5 requires submitting an application to the department in the spring term, with the application due date being the final day of classes. Independent Studies Application Forms may be found at <http://uoft.me/cpsforms>. Applications should be submitted to the CPS Undergraduate Assistant. Registration on ACORN is also required. Acceptance into the course is dependent on the student having achieved a satisfactory GPA, and reaching agreement with a potential supervisor. Students must consult with prospective supervisors before applying for enrolment, and must list at least two faculty members as possible supervisors. This course is restricted to students in the Chemistry Major, Biological Chemistry Specialist, and Chemistry Specialist Programs.

Prerequisites: 2.0 300 level credits in CHM/JCP and 1.0 credit from BIO206H5 and BIO314H5 and CHM372H5 and CHM373H5 and CHM394H5 and CHM395H5 and CHM396H5 and CHM397H5 and PHY324H5, with 0.5 credits from the 300-level CHM laboratory courses listed.
Exclusions: CHM499Y1 or JCB487Y5 or CHMD90Y3
Distribution Requirements: Science
Total Instructional Hours: 240P
Mode of Delivery: In Class

CPS398H5 • Teaching Opportunity Program in Sciences

A scholarly, active learning project in which students integrate and apply their understanding of science and pedagogy by observing, actively participating in, and reflecting on the teaching and learning process under the supervision of an experienced instructor/mentor. This course may be taken in either the Summer, Fall or Winter terms. Enrolment requires submitting an application to the

department before the end of the term prior to that in which it is intended to undertake the research. Independent Studies Application Forms may be found at <http://uoft.me/cpsforms>. Students should plan for the course in March of the previous academic year and register as soon as their registration period begins. Students are encouraged to consult with, and obtain the consent of, prospective supervisors before applying for enrolment. Enrolment will depend on the availability of positions.

Prerequisites: This course is "by Instructor Approval". At least 10.0 courses completed and enrolment in a life, mathematical, or physical science major or specialist program; an average of B-(CGPA 2.7) or higher.

Course Experience: University-Based Experience

Distribution Requirements: Science

Total Instructional Hours: 30L

Mode of Delivery: In Class

CPS400Y5 • Chemical and Physical Sciences Internship

This internship opportunity will allow students to apply theoretical and practical skills acquired during their undergraduate education in order to gain vital industry experience. Students will be trained in effective job searching skills (writing a CV and a Cover Letter, participating in job interviews) and will gain valuable experiences that are sought after by employers in both public and private sectors. Students will be placed with various employers in the GTA based on their interest and skill set, and on the employer needs and availability. The placement is a 200 h unpaid internship. The Course Coordinator/Instructor(s) will schedule biweekly meetings to discuss the setup and progress of the student projects. Student attendance is mandatory. At the end of the term, students must submit a written report and prepare an oral presentation about the outcomes of their work experience. In order to be considered for the internship, students must apply for the course. The Course Coordinator will approve enrolment in the course based on the number of internship opportunities available, which will vary from year-to-year, and student qualifications (e.g. GPA, experience, qualifications related to the requirements of the available placement(s), and interview performance).

Prerequisites: For Chemistry Internships ([CHM372H5](#) or [CHM394H5](#) or [CHM396H5](#)) and an additional 1.0 credit from any 300/400 level CHM/JCP/JBC/BCH/FSC courses. For Earth Science/Geology Internships: ([ERS301H5](#) and [ERS303H5](#)) and an additional 1.0 credit from any 300/400 level courses. For Physics Internships: ([PHY324H5](#) and [PHY347H5](#)) and an additional 1.0 credit from any 300 or 400 level PHY/JCP courses.

Recommended Preparation: For Chemistry Internships: ([CHM373H5](#) or [CHM395H5](#) or [CHM397H5](#)) For Earth Science & Geology Internships: [ERS302H5](#) and [ERS311H5](#) and [ERS401H5](#) For Physics Internships [PHY325H5](#) and [PHY332H5](#) and [PHY333H5](#)

Enrolment Limits: Students must be in their fourth year of study and registered in one of following Programs:

Chemistry Major, Chemistry Specialist, Biological Chemistry Specialist, Earth Science Major, Earth Science Specialist, Geology Specialist, Physics Major, Biomedical Physics Specialist.

Course Experience: Partnership-Based Experience

Distribution Requirements: Science

Mode of Delivery: In Class

CPS401Y5 • Research and Development in Science Education

This course is intended for students in a CPS or Environmental Science Major or Specialist program. It provides an experiential learning opportunity with secondary school students and teachers. Students will research the literature of science pedagogy and acquire pedagogical content knowledge, particularly that of problem-based learning and the use of case studies. Then, through the creation of original, problem-based learning materials for Grades 11 and 12 classes and the preparation of teachers' notes for these materials, they will enhance their subject specialization knowledge. They will then assist a teacher in implementing their materials in a school or, where the materials involve experiments, in the field or in the UTM teaching laboratories. The course is normally taken in the student's fourth year. Enrollment requires submitting an application to the CPS Department in the spring term, with the application due date being the final day of classes. Independent Studies Application Forms may be found at <http://uoft.me/cpsforms>. Applications should be submitted to the CPS Undergraduate Assistant. Registration on ACORN is also required.

Prerequisites: Enrolment in a CPS or Environmental Science Major or Specialist program with a minimum CGPA of 2.7 and 9.0 credits, including at least 2.0 credits at the 200-level in CHM or ERS or ENV or GGR or PHY

Course Experience: University-Based Experience

Distribution Requirements: Science

Total Instructional Hours: 240P

Mode of Delivery: In Class

CPS489Y5 • Introduction to Research in the Chemical and Physical Sciences

Students will work toward the completion of an experimental or theoretical research project in an area of study within the chemical and physical sciences, namely, astronomy, chemistry, earth sciences or physics. Projects will be based on current trends in research and students will work to complete their projects with guidance provided by a team of facilitators and faculty advisors consisting of course coordinators and a researcher from the Department of Chemical and Physical Sciences. In addition to the rigorous development of research skills, the course will also provide students with training and practical experience in project management techniques and practical research, literary and communications skills development. [CPS489Y5](#) requires submitting an application to the department Application forms may be

found at <http://uoft.me/cpsforms>. Applications should be submitted to the CPS Undergraduate Assistant.

Prerequisites: (2.0 credits at the 300 level from BIO or CHM or JBC or JCP or ERS or ESS or PHY) and (1.0 credit from BIO206H5 or BIO314H5 or CHM372H5 or CHM373H5 or CHM394H5 or CHM395H5 or CHM396H5 or CHM397H5 or ERS201H5 or ERS202H5 or PHY324H5 or PHY347H5 or JCP321H5 or JCP322H5 or PHY325H5 or PHY332H5 or PHY333H5 or PHY343H5 or PHY351H5)

Exclusions: BIO400Y5 or BIO481Y5 or CBJ481Y5 or CHM489Y5 or ERS470Y5 or ERS471H5 or ERS472H5 or PHY489Y5 or BCH472Y1 or BCH473Y1 or CHM499Y1 or CSB497H1 or CSB498Y1 or CSB499Y1 or ESS491H1 or ESS492Y1 or MGY480Y1 or PHY478H1 or PHY479Y1 or BIOD98Y3 or CHMD90Y3 or CHMD91H3 or ESSD09H3 or ESSD10H3 or PSCD10H3

Course Experience: University-Based Experience

Distribution Requirements: Science

Total Instructional Hours: 240P

Mode of Delivery: In Class

FSC311H5 • Forensic Chemistry

This course focuses on the analysis of physical evidence based on the principles of analytical chemistry. Students will gain knowledge in the theory and operation of forensically relevant chemical and instrumental techniques used for the analysis of evidentiary items, including drug/alcohol analysis, gunshot residue, explosives, paint analysis, etc. Students will also develop skills relating to the interpretation, limitation, and implications of analytical results in a forensic context. (Priority given first to Forensic Science Specialists and Majors; then Minors.)

Prerequisites: CHM211H5 and (CHM110H5 and CHM120H5) or CHM140Y5

Recommended Preparation: FSC239Y5 and CHM311H5

Distribution Requirements: Science

Total Instructional Hours: 36L/36P

Mode of Delivery: In Class

JBC472H5 • Seminars in Biotechnology

An introduction to current research in biochemistry and biotechnology, through seminars and literature reviews, presented by invited speakers and students. Subject areas include biotechnology, biomaterials, enzyme engineering, biosensors, drug delivery, spectrometry, separations chemistry, and bioinformatics.

Prerequisites: BIO372H5 and CHM361H5 and (CHM362H5 or BIO315H5)

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

JCB487Y5 • Advanced Interdisciplinary Research Laboratory

Students will work together as members of a multidisciplinary team toward the completion of an interdisciplinary experimental or theoretical research project. Teams will be comprised of at least three students, with representation from at least three areas of specialization, namely, astronomy, biology, chemistry, earth sciences or physics. The interdisciplinary projects will be based on current trends in research and student teams will work to complete their projects with guidance provided by a team of faculty advisors from the Biology Department and the Department of Chemical and Physical Sciences. In addition to the rigorous development of research skills, the course will also provide students with training and practical experience in project management techniques and teamwork skills development. JCB487Y5 requires submitting an application to the department before the end of June for Fall enrolment. Application forms may be found at <http://uoft.me/cpsforms>. Application should be submitted to the CPS Undergraduate Assistant. Registration on ACORN is also required.

Prerequisites: (2.0 credits at the 300 level from BIO or CHM or JBC or JCP or ERS or ESS(G) or PHY) and (1.0 credit from BIO206H5 or BIO314H5 or CHM372H5 or CHM373H5 or CHM394H5 or CHM395H5 or CHM396H5 or CHM397H5 or ERS201H5 or ERS202H5 or PHY324H5 or PHY347H5). Normally taken in 4th year. Students must obtain approval from the faculty member(s) who will serve as the supervisor(s) in advance of the start of the course.

Exclusions: BIO400Y5 or BIO481Y5 or CBJ481Y5 or CHM489Y5 or ERS470Y5 or ERS471H5 or ERS472H5 or PHY489Y5 or BCH472Y1 or BCH473Y1 or CHM499Y1 or CSB497H1 or CSB498Y1 or CSB499Y1 or ESS491H1 or ESS492Y1 or MGY480Y1 or PHY478H1 or PHY479Y1 or BIOD98Y3 or CHMD90Y3 or CHMD91H3 or ESSD09H3 or ESSD10H3 or PSCD10H3

Course Experience: University-Based Experience

Distribution Requirements: Science

Total Instructional Hours: 240P

Mode of Delivery: In Class

JCP221H5 • Thermodynamics

An introduction to equilibrium thermodynamics with application to ideal and non-ideal systems: covering the concepts of work and heat, the laws of thermodynamics, internal energy, enthalpy and entropy, the chemical potential, states of matter, phase rules and phase diagrams, and chemical equilibria. Kinetics topics include rate laws, both differential and integrated, rate constants, activated complex theory, and temperature effects.

Prerequisites: [(CHM110H5 and CHM120H5 with a minimum grade of 60% in CHM120H5) or (PHY136H5 and PHY137H5) or (PHY146H5 and PHY147H5)] and [(MAT132H5 and MAT134H5) or (MAT135H5 and MAT136H5) or (MAT137H5 and MAT139H5) or (MAT157H5 and MAT159H5) or MAT134Y5 or MAT135Y5 or MAT137Y5 or MAT157Y5]

Exclusions: CHM220H1 or CHM221H1 or CHM225Y1 or CHMB20H3 or CHMB23H3

Recommended Preparation: MAT212H5 or MAT223H5 or MAT232H5 or MAT233H5 or MAT236H5 or MAT240H5 or MAT242H5 or MAT244H5

Distribution Requirements: Science

Total Instructional Hours: 36L/12T

Mode of Delivery: In Class

JCP265H5 • Introduction to Scientific Computing

This course is an introduction to computing in the physical sciences. Students will gain experience utilizing numerical software tools used in both academic and industrial settings. A variety of numerical techniques will be covered, with topics to include: curve fitting, numerical approximations of derivatives and integrals, root finding, solutions of differential equations, Fourier series, Monte Carlo methods, and more. Students will also acquire skills in data analysis and visualization. No prior experience in computer programming is required.

Prerequisites: [PHY146H5 or PHY136H5 (minimum grade of 80%)] and [PHY147H5 or PHY137H5 (minimum grade of 80%)] and [(MAT135H5 and MAT136H5) or (MAT137H5 and MAT139H5) or (MAT135Y5 or MAT137Y5)]

Exclusions: CSC108H5 or CSC108H1 or CSC120H1 or CSC148H1 or CSCA08H3

Distribution Requirements: Science

Total Instructional Hours: 24L/24P

Mode of Delivery: In Class

JCP321H5 • Quantum Mechanics I: Foundations

A first course covering basic concepts of quantum chemistry and physics. Topics include: de Broglie waves and wave-particle duality, the postulates of quantum mechanics, the Schrödinger equation, the square potential well and potential barriers, the harmonic oscillator, the rigid rotor, atoms, molecules and solids.

Prerequisites: (PHY136H5 and PHY137H5) or (PHY146H5 and PHY147H5) and (JCP221H5 or PHY245H5) and (MAT212H5 or MAT223H5 or MAT232H5 or MAT242H5 or MAT244H5)

Exclusions: CHM326Y1 or PHY256H1 or PHY356H1 or PHYB56H3 or PHYC56H3

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

JCP322H5 • Statistical Mechanics

Statistical methods for bridging the quantum behaviour of atoms and molecules to their macroscopic properties in solid, liquid and gaseous states. The course introduces partition functions, canonical ensembles, and their

application to thermodynamic properties such as entropy, heat capacity, equilibrium constants, reaction rates, and Bose-Einstein/Fermi-Dirac distribution functions.

Prerequisites: JCP321H5

Exclusions: CHM328H1 or CHMC20H3 or PHY452H1

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

JCP410H5 • Modelling of Biochemical Systems

An introduction to mathematical modelling of complex biological systems, with a focus on biochemical kinetic models, their numerical simulation, and methods for analytically and computationally studying their behaviour. This is a one-term independent-study project course: students will be given a set of directed readings, then assisted in selecting an existing model from the literature. After reproducing existing results, students will be tasked with extending the model in a direction of their own choosing; this can include exploring different parameter regimes, incorporating new or different aspects of the underlying biology, or applying different analytical techniques. Students will work with the instructor to select a suitable project, matching their background and interests. Formal lectures will be replaced with a series of weekly meetings with the instructor to discuss progress and plans.

Prerequisites: (JCP221H5 or PHY241H5) and PHY245H5 and (MAT212H5 or MAT223H5 or MAT232H5 or MAT242H5 or MAT244H5)

Distribution Requirements: Science

Total Instructional Hours: 24S

Mode of Delivery: Online, In Class

JCP421H5 • Quantum Mechanics II: Applications

The course offers an in-depth examination of the fundamental principles of quantum theory and a guide to its applications. Topics may vary but will include: time-independent Schrodinger equation, quantum dynamics in Heisenberg and Schrodinger pictures, time-independent perturbation theory, WKB approximation, variational method, spin, addition of angular momentum, time-dependent perturbation theory, scattering.

Prerequisites: JCP321H5 and PHY325H5

Exclusions: PHYC563H3 or PHY456H1

Distribution Requirements: Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

JCP422H5 • NMR Spectroscopy

Fundamentals of NMR spectroscopy including classical and quantum descriptions, NMR parameters and

relaxation times, product operators, multi-dimensional NMR, and solid-state techniques.

Prerequisites: (JCP221H5 or PHY241H5) and PHY245H5 and (MAT212H5 or MAT223H5 or MAT232H5 or MAT242H5 or MAT244H5)

Recommended Preparation: JCP321H5 and CHM361H5

Distribution Requirements: Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

JCP463H5 • Techniques in Structural Biology

Biochemical and biophysical approaches to studies of protein interactions, structures, and dynamics. Theory and

practice of specific experimental approaches will provide a fundamental understanding on information potential and technique limitations. Specific applications from the current literature will be discussed. Student evaluations will include oral presentations describing studies using the techniques.

Prerequisites: CHM361H5 or (PHY332H5 or PHY333H5)

Recommended Preparation: CHM362H5 and JCP221H5

Distribution Requirements: Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

Chinese Programs

Chinese Language & Culture - Minor (Arts)

The Minor in Chinese Language and Culture is for advanced language learners who would like to improve their written and oral communication skills in both academic and professional settings. Students in this program will also advance their linguistic knowledge and cultural literacy from cross-cultural perspectives.

Enrolment Requirements:

Enrolment in this program is limited and based on completion of 4.0 credits, including:

- CHI211H5 and CHI212H5 (with an average grade of 63% across both courses); and
- a minimum CGPA of 2.3.

NOTE: The Chinese Language Minor is intended for students who have near-native proficiency level in Chinese so that they can be fully engaged in course materials and lectures conducted in Chinese. Students' proficiency level will be evaluated based on the language placement questionnaire first. If the results of the questionnaire meet the language proficiency requirement, students will be permitted to enrol in courses. If the results are not satisfying or borderline, a one-

on-one interview with Professor Chiu-Hung Chen will be arranged in order to determine students' qualification for enrolling in courses.

Completion Requirements:

4.0 credits are required.

- CHI211H5 and CHI212H5
- 2.0 credits from the following: CHI308H5 or CHI310H5 or CHI311H5 or CHI312H5 or CHI313H5 or CHI314H5
- 1.0 credit from the following: CHI408H5 or CHI409H5 or CHI410H5 or CHI411H5 or HIS431H5

ERMIN2021

Chinese Courses

CHI101H5 • Introductory Chinese for Students with Prior Background

This course is designed for students who have some prior knowledge of Chinese. Potential students for this course are able to speak and understand elementary Mandarin or any Chinese dialects but with minimal literacy skills (reading and writing), or are able to read and write with either traditional or simplified character at beginner level. This course focuses on phonetics and literacy of Modern Standard Chinese (Mandarin) and addresses integrated skills of listening, speaking, reading, writing and translation.

Prerequisites: NOTE: All students who are enrolling in a CHI language course for the first time (do not have the prerequisite) are required to complete a language assessment questionnaire. Students who have not completed an assessment cannot be approved for course enrolment. Please visit www.utm.utoronto.ca/language-studies/chineselanguage-course-questionnai...

Exclusions: CHI100Y5 or CHI101Y5 or EAS100Y1 or EAS101Y1 or LGG60H3 or LGG61H3

Distribution Requirements: Humanities

Total Instructional Hours: 24L/24T

Mode of Delivery: In Class

CHI103H5 • Introductory Chinese I

Intended for students with none or minimal background in Mandarin or any Chinese dialects, this course provides a comprehensive introduction to phonetics and written form of Modern Standard Chinese (Mandarin) and covers the topics of functional Chinese at beginner level. All students are REQUIRED to complete the Chinese Language Assessment Questionnaire before enrolling in this course. Please visit <https://www.utm.utoronto.ca/language-studies/language-course-assessment-questionnaires> and complete the Chinese Language Assessment Questionnaire by no later than August 29th. Late assessment submissions will not be accepted.

Prerequisites: All students are REQUIRED to complete the Chinese Language Assessment Questionnaire (<https://www.utm.utoronto.ca/language-studies/language-course-assessment-questionnaires>) before enrolling in this course.

Exclusions: CHI100Y5 or EAS100Y1 or EAS101Y1 or LGG60H3 or LGG61H3

Distribution Requirements: Humanities

Total Instructional Hours: 36L/12P

Mode of Delivery: In Class

CHI104H5 • Introductory Chinese II

As the second half of Introductory Chinese, this course continues to expand students' knowledge and develop their language skills of Mandarin. More topics of functional Chinese are covered in this course. **Students who have not completed the listed prerequisite of CHI103H5 are REQUIRED to complete the Chinese Language Assessment Questionnaire** (<https://www.utm.utoronto.ca/language-studies/language-course-assessment...>).

Prerequisites: CHI103H5 or as indicated by the Chinese Language Assessment Questionnaire (<https://www.utm.utoronto.ca/language-studies/language-course-assessment...>).

Exclusions: CHI100Y5 or EAS100Y1 or EAS101Y1 or LGG60H3 or LGG61H3

Distribution Requirements: Humanities

Total Instructional Hours: 36L/12P

Mode of Delivery: In Class

CHI203H5 • Intermediate Low Chinese I

As a continuation of Introductory Chinese, this course aims at developing students' language comprehension, expanding their vocabulary and grammar, and improving their skills in listening, speaking, reading, writing and translation in Modern Standard Chinese (Mandarin) at intermediate level. The course content is focused on functional topics. **Students who have not completed the listed prerequisite are REQUIRED to complete the Chinese Language Assessment Questionnaire**

(<https://www.utm.utoronto.ca/language-studies/language-course-assessment...>) by August 29th. Late assessment submissions will not be accepted.

Prerequisites: CHI104H5 or as indicated by the Chinese Language Assessment Questionnaire (<https://www.utm.utoronto.ca/language-studies/language-course-assessment...>).

Exclusions: CHI200Y5 or CHI201H5 or CHI202H5 or EAS200Y1 or EAS201H1 or LGGB60H3 or LGGB61H3 or LGGB62H3 or LGGB63H3 or LGGB64H3 or LGGB65H3

Distribution Requirements: Humanities

Total Instructional Hours: 36L/12P

Mode of Delivery: In Class

CHI204H5 • Intermediate Low Chinese II

As the second half of Intermediate Chinese, this course continues to develop students' language comprehension, expand their vocabulary and grammar, and improve their skills in listening, speaking, reading, writing and translation in Modern Standard Chinese (Mandarin) at the intermediate level. The course content is focused on functional topics. Students who have not completed the listed prerequisite for this course are **REQUIRED to complete the Chinese Language Assessment Questionnaire before enrolling in this course**. Please visit <https://www.utm.utoronto.ca/language-studies/language-course-assessment-questionnaires> and complete the assessment questionnaire by no later than August 29th. Late assessment submissions will not be accepted.

Prerequisites: CHI203H5 or as indicated by the Chinese Language Assessment Questionnaire (<https://www.utm.utoronto.ca/language-studies/language-course-assessment...>).

Exclusions: CHI200Y5 or CHI201H5 or EAS200Y1 or EAS201H1 or LGGB60H3 or LGGB61H3 or LGGB62H3 or LGGB63H3 or LGGB64H3 or LGGB65H3

Distribution Requirements: Humanities

Total Instructional Hours: 36L/12P

Mode of Delivery: In Class

CHI211H5 • Chinese for Academic Purposes I

This course, designed for native or near-native speakers of Mandarin Chinese, develops rhetorical knowledge and critical thinking skills for effective academic reading and writing. Students will also receive training in conducting effective formal presentations with supporting media and public speaking skills.

Prerequisites: Appropriate language level as indicated in the Chinese Language Assessment Questionnaire (<https://www.utm.utoronto.ca/language-studies/language-course-assessment-questionnaires>) or interview.

Exclusions: CHI200Y5 or CHI201Y5 or CHI201H5 or

CHI202H5 or EAS200Y1 or EAS201H1 or LGGB60H3 or LGGB61H3 or LGGB62H3 or LGGB63H3 or LGGB64H3 or LGGB65H3

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

CHI212H5 • Chinese for Academic Purposes II

This course, designed for native or near-native speakers of Mandarin Chinese, continues the study of rhetorical knowledge and critical thinking skills for effective academic reading and writing. It also prepares students for upper level courses which demand in-depth reading, writing, as well as professional presentation skills.

Prerequisites: CHI211H5 or appropriate language level as indicated by the Chinese Language Assessment Questionnaire (<https://www.utm.utoronto.ca/language-studies/language-course-assessment-questionnaires>) or interview.

Exclusions: CHI200Y5 or CHI201Y5 or CHI202H5 or EAS200Y1 or EAS201H1 or LGGB60H3 or LGGB61H3 or LGGB62H3 or LGGB63H3 or LGGB64H3 or LGGB65H3

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

CHI303H5 • Intermediate High Chinese I

This course, designed for second-language learners of Mandarin Chinese, aims to: 1) develop listening and speaking skills in handling daily routines and social situations related to personal lives; 2) improve reading and writing skills in narration and description on everyday topics; and 3) cultivate cultural knowledge that facilitates effective intercultural communication. **Students who have not completed the listed prerequisite are REQUIRED to complete the Chinese Language Assessment Questionnaire**

(<https://www.utm.utoronto.ca/language-studies/language-course-assessment...>) by August 29th. Late assessment submissions will not be accepted.

Prerequisites: CHI204H5 or as indicated by the Chinese Language Assessment Questionnaire (<https://www.utm.utoronto.ca/language-studies/language-course-assessment...>).

Exclusions: CHI201H5 and CHI202H5 and LGGB60H3 and LGGB61H3 and EAS300Y1.

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

CHI304H5 • Intermediate High Chinese II

This course, designed for second-language learners of Mandarin Chinese, is the second half of Intermediate High

Chinese. It continues to: 1) develop listening and speaking skills in handling daily routines and social situations related to personal lives; 2) improve reading and writing skills in narration and description on everyday topics; and 3) cultivate cultural knowledge that facilitates effective intercultural communication. **Students who have not completed the listed prerequisite are REQUIRED to complete the Chinese Language Assessment Questionnaire** (<https://www.utm.utoronto.ca/language-studies/language-course-assessment...>) by August 29th. Late assessment submissions will not be accepted.

Prerequisites: [CHI303H5](#) or as indicated by the Chinese Language Assessment Questionnaire (<https://www.utm.utoronto.ca/language-studies/language-course-assessment...>).

Exclusions: [CHI201H5](#) or [CHI202H5](#) or [EAS300Y1](#) or [LGGC60H3](#) or [LGGC61H3](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

CHI308H5 • Chinese Cultural Studies Seminar

This seminar course provides a platform for critical discussion of what we call "Chinese culture". Students will consider ideas of invented traditions, the essentialization of culture, and questions about modern states and regions. Topics may include Chinese civilization, customs, rituals, religion, philosophy, ideology, morals, literature, folk art and craft, performance arts, martial arts, cuisine, medicine, etc. The discussions will draw from historical and contemporary topics.

Prerequisites: [CHI211H5](#) and [CHI212H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

CHI310H5 • Chinese for Career Development

This course is designed for near-native or native speakers of Mandarin Chinese who are interested in advancing their careers in Chinese-speaking regions and in North America. Students will develop knowledge in career planning from cross-cultural perspectives, from job search, to applications and interview processes in Chinese-speaking regions of Asia and in North America. They will build a solid foundation for reading, writing, and speaking Chinese in a business setting.

Prerequisites: [CHI211H5](#) and [CHI212H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

CHI311H5 • Classical Chinese Literature

This course will examine representative genres of traditional Chinese literature—poetry, prose, fiction, and drama—with an emphasis on language structure, style, and the influence on modern Chinese society and culture. We will also analyze the aesthetic features of classics and discuss the influences of traditional Chinese society on literature in terms of religion, philosophy, the imperial system, gender, family, and ethnicity.

Prerequisites: [CHI211H5](#) and [CHI212H5](#)

Exclusions: [EAS358Y1](#) and [EAS306Y1](#) and [LGGC66H3](#) and [LGGC67H3](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

CHI312H5 • Chinese Diaspora Literature and Culture

This course examines literary and cinematic works as well as visual art by authors of the Chinese diaspora. The course covers topics such as multiculturalism, racism, cultural preservation, invented traditions, and agency through the lens of overseas Chinese writers and creators.

Prerequisites: [CHI211H5](#) and [CHI212H5](#)

Exclusions: [LGGC62H3](#) or [LGGC63H3](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

CHI313H5 • The Wisdom of Life in Traditional Chinese Culture

This course explores different thought systems, ideas and the wisdom of human life rooted in traditional Chinese culture from the following two approaches: a theoretical discussion of the purpose, meaning, and value of human life, ideals and ways of life, existential questions and multiple solutions; and a historical as well as critical examination of the conventional wisdom originated by Chinese cultural figures like Laozi, Confucius, Mencius, Sima Qian, Zhu Xi, Qian Mu, Qian Zhongshu and more. The goal of the course is to facilitate student consideration of the essence of human life and the understanding of contemporary Chinese views by ascertaining traditional Chinese erudition. Through the examination of traditional Chinese scholarship, students will develop an understanding of the connection between such teachings and contemporary Chinese views.

Prerequisites: [CHI211H5](#) and [CHI212H5](#)

Exclusions: [EAS414H1](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

CHI314H5 • Chinese Culture through Media

This course examines Chinese cultural traditions and values through contemporary media produced in China, Taiwan and Hong Kong. Background readings and literary works will provide students with the necessary historical and cultural context for each work. Class discussions will focus on the political, social and cultural transformations presented in the media. Special attention will be paid to topics such as family, class issues, gender and identity.

Prerequisites: CHI211H5 and CHI212H5

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

CHI403H5 • Advanced Chinese I

This course, designed for second-language learners of Mandarin Chinese, aims to: 1) develop listening and speaking skills in handling most informal and some formal communicative tasks; 2) strengthen reading and writing skills in expository and persuasive essays on familiar cultural and social topics; 3) cultivate cultural knowledge that facilitates effective intercultural communication.

Students who have not completed the listed prerequisite are REQUIRED to complete the Chinese Language Assessment Questionnaire (<https://www.utm.utoronto.ca/language-studies/language-course-assessment...>) by August 29th. Late assessment submissions will not be accepted.

Prerequisites: CHI304H5 or as indicated by the Chinese Language Assessment Questionnaire

(<https://www.utm.utoronto.ca/language-studies/language-course-assessment...>).

Exclusions: EAS401H1

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

CHI404H5 • Advanced Chinese II

This course, designed for second-language learners of Mandarin Chinese, is the second half of Advanced Chinese. It continues to: 1) develop listening and speaking skills in handling most informal and some formal communicative tasks; 2) strengthen reading and writing skills in expository and persuasive essays on familiar cultural and social topics; and 3) cultivate cultural knowledge that facilitates effective intercultural communication. **Students who have not completed the listed prerequisite are REQUIRED to complete the Chinese Language Assessment Questionnaire (<https://www.utm.utoronto.ca/language-studies/language-course-assessment...>) by August 29th. Late assessment submissions will not be accepted.**

Prerequisites: CHI403H5 or as indicated by the Chinese Language Assessment Questionnaire

(<https://www.utm.utoronto.ca/language-studies/language-course-assessment...>).

Exclusions: EAS402H1

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

CHI408H5 • Reading Confucianism in Modern Chinese

This advanced level course covers seminal readings on Confucianism written in modern Chinese language. The course examines Confucian doctrines and the development of Confucianism from ancient time to the contemporary era. Critical reading and essay writing skills will be emphasized.

Prerequisites: CHI211H5 and CHI212H5

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

CHI409H5 • Influence of Confucianism on Chinese Culture

This advanced level course discusses the cultural influence of Confucianism on Chinese writing, philosophy, religion, education, literature, customs, ethics, society and so forth. The readings covered in this course are mainly in modern Chinese language. Critical reading and essay writing skills will be stressed.

Prerequisites: CHI211H5 and CHI212H5

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

CHI410H5 • Modern Chinese Literature Studies

This seminar course offers a critical examination of modern Chinese literature. modern Chinese literature. The primary focus will be on representative works of poetry, prose, drama, and fiction. Discussions will emphasize historical, cultural, and social-political contexts. Emphasis will be placed on building writing skills in literary criticism and analyzing literary devices and themes.

Prerequisites: CHI211H5 and CHI212H5

Exclusions: EAS284H1 or EAS309H1 or EAS334H1

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

CHI411H5 • Theory and Practice in English/Chinese Translation

This course is an introduction to the major theories, methods and techniques involved in translating from English into Chinese. The course focuses on practical training for novice translators. Through practice, students will familiarize themselves with the translation process and develop a variety of translation skills and strategies. Students will discuss and reflect upon issues encountered

during translation and develop decision-making ability to deal with translation challenges. This course provides a solid foundation for students to continue their studies in translation at the advanced level.

Prerequisites: CHI211H5 and CHI212H5

Exclusions: ECTB61H3

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

The Cinema Studies program is devoted to the stylistic, historical, and theoretical analysis of film. Students learn about film as a unique mode of communication in the 20th and 21st centuries, while also investigating what it is that film can be said to share with allied art forms. In addition to surveys of major world cinemas, students in the program will also be concerned with many questions about the relation between aesthetics and politics as well as how moving images have an impact on personal and cultural identities and on society in general.

Program website: www.utm.utoronto.ca/dvs

Cinema Studies Programs

Cinema Studies - Major (Arts)

The Cinema Studies program is devoted to the stylistic, historical, and theoretical analysis of film. Students learn about film as a unique mode of communication in the 20th and 21st centuries, while also investigating what it is that film can be said to share with allied art forms. Surveys of major world cinemas and oeuvres, and courses on particular genres and forms, introduce students to a range of cinematic traditions and practices. Throughout the program, students consider the impact moving images have on personal and cultural identities and on society in general, and engage with questions about the relation between aesthetics and politics. The Cinema Studies program develops students' visual analysis, critical thinking, and writing skills, which are relevant to many different possible careers.

Enrolment Requirements:

Limited Enrolment – Enrolment in this program is limited to students who have completed a minimum of 4.0 credits, including [CIN101H5](#) and [CIN102H5](#) and [ISP100H5](#).

Completion Requirements:

7.5 credits are required, including [CIN101H5](#), [CIN102H5](#), [ISP100H5](#), and 6.0 additional credits from CIN and/or cross-listed courses. Within the 6.0 additional credits:

- 2.0 credits must be at the 200-level;
- 2.0 credits must be at the 300-level or above; and
- 0.5 must be at the 400-level.

At least 5.0 credits must be CIN courses. Students must take a minimum of 1.0 credits in courses dedicated to “Auteurs,” a minimum of 1.0 credits in courses dedicated to “Cinemas in Context,” and a minimum of 1.0 credits in courses dedicated to “Genres.” A list of courses that count in each area is available on the Department website. Non-CIN courses may also count for credit in these areas with permission of the program director.

Recommended Structure of Program Requirements:

First Year:

- [CIN101H5](#) and [CIN102H5](#)
- [ISP100H5](#)
- an optional 0.5 CIN credit at the 200-level

Second Year: 1.5-2.0 credits of CIN (or cross-listed courses) at the 200- and/or 300-level

Third Year: 2.0 credits of CIN (or cross-listed courses) at the 200-level or above

Fourth Year: 2.0 credits of CIN (or cross-listed courses) at the 300-level or above, including at least 0.5 credit at the 400-level

NOTE: Cross-listed courses may count for up to 2.0 credits toward the CIN Major. Non-cross-listed courses with significant Cinema Studies content in other programs may be allowed to count for program credit only with permission, prior to enrolment, from the program director.

Cross-listed courses:

[DRE350H5](#) Film Genres in Performance (HUM)
[DRE352H5](#) Stage to Screen (HUM)
[FRE393H5](#) French Society through Film (HUM)
[FRE397H5](#) Colonialism and Post-colonialism in French Cinema (HUM)

ERMAJ0797

Cinema Studies - Minor (Arts)

Completion Requirements:

4.0 credits are required, including at least 1.0 credit at the 300 level or above.

First Year: CIN101H5 and a further 0.5 credit in CIN at the 200 level.

Higher Years: 3.0 credits from any remaining CIN courses at the 200 level or above, VCC205H5, VCC334H5, VCC427H5, VST410H5, GER353H5, GER354H5, PHL221H5.

NOTES:

1. A maximum of 1.0 credit may be taken from: DRE350H5, DRE352H5, FRE393H5, FRE397H5, ITA242H5, ITA243H5, ITA246H5, ITA247H5, ITA307H5, ITA309H5, ITA313H5, ITA342H5, ITA343H5, RLG331H5, SPA275H5, WGS341H5.
2. Some of the choices listed above are only available to students who are enrolled in a program sponsored by the Department or Unit offering the course, and/or who have completed the specified prerequisites.

ERMIN0797

Cinema Studies Courses

CIN101H5 • An Introduction to Cinema Studies

Introduction to film analysis, concepts of film style and narrative. Topics include documentary, avant-garde, genres, authorship, ideology, and representation.

Exclusions: INI115Y1 or NEW115Y1 or VIC115Y1 or ERI201H5 or ERI202H5 or CIN202H5 or CIN205Y5 or CIN105H1 or ENGB70H3

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T/36P

Mode of Delivery: In Class

CIN102H5 • Modernity and the Moving Image

Looking at a few periods of intense technological change—for example, with the invention of photography, and the introduction of sound, of colour, of television—we will consider the ways in which artists, filmmakers, studios, and media conglomerates have responded to such changes and to accompanying ideas about the role that moving technology plays in our conception of history and the future.

Prerequisites: CIN101H5

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T/36P

Mode of Delivery: In Class

CIN203H5 • The Films of Alfred Hitchcock

The establishment of film as a serious art form is coincident with the earliest critical writing on Alfred Hitchcock that emerged in the 1950s. Since then, Hitchcock has remained one of the most important filmmakers of all time, spawning not only a massive body of critical scholarship but also legions of imitators. This course will serve as an introduction to both the films (such as *Psycho* and *North by Northwest*) and related issues: questions of suspense, authorship, morality, and spectatorship.

Recommended Preparation: CIN101H5 or CIN202H5

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T/36P

Mode of Delivery: In Class

CIN204H5 • The Films of Martin Scorsese

This course will examine the films of Martin Scorsese, one of the most influential figures in the history of cinema. Scorsese's films will be understood in relation to questions about imitation and originality, genre, violence, male

hysteria, and also as meditations on the history of film itself.

Recommended Preparation: [CIN101H5](#) or [CIN202H5](#)
Distribution Requirements: Humanities
Total Instructional Hours: 24L/12T/36P
Mode of Delivery: In Class

CIN205H5 • Canadian Auteurs

This course will offer a comparative study of a selection of major contemporary Canadian filmmakers, including Denys Arcand, Atom Egoyan, David Cronenberg, Sara Polley, Denis Villeneuve, Ruba Nadda, Denis Côté, Guy Maddin, Michael Snow, and Joyce Wieland.

Recommended Preparation: [CIN101H5](#) or [CIN202H5](#)
Distribution Requirements: Humanities
Total Instructional Hours: 24L/12T/36P
Mode of Delivery: In Class

CIN206H5 • Auteurs

This course will look closely at the work of a single director. Emphasis will be given to the aesthetic, historical, cultural, and philosophical contexts that inform the director's work. We will also tend closely to the style and central preoccupations of the director under examination.

Recommended Preparation: [CIN101H5](#)
Distribution Requirements: Humanities
Total Instructional Hours: 24L/12T/36P
Mode of Delivery: In Class

CIN207H5 • East Asian Cinema

This course is an introduction to East Asian cinema from the 1960s to the present, including films from Hong Kong, Taiwan, China, Japan, and Korea. With an emphasis on formal aesthetic analysis of short and feature-length films, we will examine film waves, genres, film festivals, and interconnected film industries. Throughout the course, we will consider not only the production, exhibition, and reception spaces of East Asian cinema but also critically examine its definitions and borders.

Recommended Preparation: [CIN101H5](#)
Distribution Requirements: Humanities
Total Instructional Hours: 24L/12T/36P
Mode of Delivery: In Class

CIN208H5 • The Films of Abbas Kiarostami: Being and Movement

This course will survey the work of the Iranian filmmaker, Abbas Kiarostami, and will do so with an especial interest in the way that Kiarostami's films raise important questions about tradition, judgment, and the fluidity of self and world.

Recommended Preparation: [CIN101H5](#)
Distribution Requirements: Humanities
Total Instructional Hours: 24L/12T/36P
Mode of Delivery: In Class

CIN210H5 • Contemporary Southeast Asian Cinemas

This course is an introduction to contemporary Southeast Asian cinemas from the 2000s to the present. Since the turn of the millennium, the cinematic innovation of Southeast Asia has been aided by an increase in productive interaction and transnational modes of collaborations and co-productions. These waves of cinema augur new possibilities for considering cross-cultural, cross-boundary ways of being, seeing and knowing that can challenge formulaic and essentialist understandings of the region. Through formal aesthetic analysis of short and feature-length films, and the study of Asia-based and international institutions of cinema, we will examine the multifarious potential of contemporary Southeast Asian in spurring the rethinking of the histories, concepts, and borders of the region.

Recommended Preparation: [CIN101H5](#)
Distribution Requirements: Humanities
Total Instructional Hours: 24L/12T/36P
Mode of Delivery: In Class

CIN215H5 • Bollywood in Context

India has arguably the most popular and prolific film industry in the world. This course contextualizes the relatively recent 'Bollywood' phenomenon within the history of Indian commercial cinema and key aspects of modern Indian culture, emphasizing the popular cinema's role in constructing historically changing ideas of national and gendered identity. It also challenges the assumptions of film theories developed in relation to Hollywood or European cinema by introducing film theory concepts that address South Asian image-cultures (such as darshan, frontality, melodrama, and interruption).

Exclusions: [VCC390H5](#) - Topic: Bollywood, [CIN302H5](#)
Recommended Preparation: ([CIN101H5](#) or [CIN202H5](#)) and ([VCC101H5](#) or [VCC201H5](#))
Distribution Requirements: Humanities
Total Instructional Hours: 24L/12T/36P
Mode of Delivery: In Class

CIN250H5 • Introduction to the Fundamentals of Cinematic Language

This hands-on studio-based course will examine fundamentals of cinematic language and production. Students will work individually and in teams to create a series of works that focus on aesthetics and skill development. 24L, 12T, 24P

Distribution Requirements: Humanities
Total Instructional Hours: 24L/12T/24P
Mode of Delivery: In Class

CIN290H5 • Topics in Cinema Studies

The course may have a historical, genre, theoretical, auteur, or other focus. See the Department of Visual Studies website at www.utm.utoronto.ca/dvs for the current topic.

Recommended Preparation: CIN101H5
Distribution Requirements: Humanities
Total Instructional Hours: 24L/12T/36P
Mode of Delivery: In Class

CIN301H5 • Topics in Cinema Studies

The course may have a historical, genre, theoretical, auteur, or other focus. Students should contact the program director for the current topic.

Recommended Preparation: (CIN101H5 or CIN202H5)
 or at least 1.0 credits in courses that count toward Cinema Studies programs.
Distribution Requirements: Humanities
Total Instructional Hours: 24L/36P
Mode of Delivery: In Class

CIN302H5 • Topics in Cinema Studies

The course may have a historical, genre, theoretical, auteur, or other focus. Students should contact the program director for the current topic.

Recommended Preparation: (CIN101H5 or CIN202H5)
 or at least 1.0 credits in courses that count towards Cinema Studies programs.
Distribution Requirements: Humanities
Total Instructional Hours: 24L/36P
Mode of Delivery: In Class

CIN303H5 • Global Auteurs

This course is devoted to three major international filmmakers: Michael Haneke (Austria), Olivier Assayas (France), and Hou Hsiao-Hsien (Taiwan). While different in many important respects, these filmmakers are nevertheless linked by their tendency to make international films that are themselves meditations on national identity in an increasingly globalized world. Screenings will include *Caché*, *Code Unknown*, *Carlos*, *Demonlover*, *The Flight of the Red Balloon*, and *Goodbye South, Goodbye*, to name just a few.

Recommended Preparation: (CIN101H5 or CIN202H5)
 or (VCC101H5 or VCC201H5)
Distribution Requirements: Humanities

Total Instructional Hours: 24L/36P
Mode of Delivery: In Class

CIN304H5 • The Violent Image

It is commonly believed that violent images produce violent, or desensitized people. In this class, we will examine the multiple forms of violence in film, television, and videogames as well as the variety of discourses about violence and images. Rather than confirming the moral logic of condemnation of the violent image, we will ask instead what good a violent image might do.

Recommended Preparation: (CIN101H5 or CIN202H5 or CIN205Y5) or at least 1.0 credit in courses that count towards Cinema Studies programs.
Distribution Requirements: Humanities
Total Instructional Hours: 24L/36P
Mode of Delivery: In Class

CIN305H5 • Taiwan New Wave in Our Time

The film *In Our Time* (1982), which combined short works by four directors (Edward Yang, Jim Tao, Ke Yizheng, and Zhang Yi), is regarded as the beginning of Taiwan New Cinema, generally considered to have ended in the late 1980s. Figures such as Hou Hsiao Hsien, Wang Tung, Chu Tien-wen, Wu Nien-Jen, Hung Hung, Hsiao Yeh, Tsai Chin, and Sylvia Chang played key roles, as directors, screenwriters, producers, and/or actors. From examining films within the era to their impact on contemporary global cinema, this course asks: how may a film be transnationally and transgenerationally re-animated for shifting eras and constellations of viewers? This course speculates that the time of the Taiwan New Wave is still beckoning, even from beyond the contested shores of Taiwan. 24L, 24P

Recommended Preparation: CIN101H5 or at least 1.0 credit in courses that count towards Cinema Studies programs.
Distribution Requirements: Humanities
Total Instructional Hours: 24L/24P
Mode of Delivery: In Class

CIN306H5 • The Comedic Image

Comedies routinely depend on the performance of the unthinkable in the ordinary. Our laughter follows from the saying or doing of the unsayable and the undoable. Comedy is in this way both a form of bad manners and also a uniquely philosophical genre, insofar as saying the unsayable means that we are able to recognize more than what we see or typically say. This course will survey the history of comedy and its relation to thought, perception, and social values.

Recommended Preparation: (CIN101H5 or CIN202H5)
 or at least 1.0 credits in courses that count toward the

Cinema Studies minor.

Distribution Requirements: Humanities

Total Instructional Hours: 24L/36P

Mode of Delivery: In Class

CIN307H5 • Movement

Since the advent of cinema, filmmakers and film theorists have repeatedly attempted to define film as a unique art form on the basis of its most defining characteristic: movement. Painters can represent movement, but film is movement itself. Not surprisingly, many filmmakers who are recognized as significant artists are most easily identified by the distinctive style of their camera movement. This class will be devoted to a consideration of the nature, meaning, and styles of movement in film.

Recommended Preparation: (CIN101H5 or CIN202H5) or (VCC101H5 or VCC201H5)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/36P

Mode of Delivery: In Class

CIN308H5 • East and Southeast Asian Cinemas of Migration

Migration, voluntary and involuntary, has intensified in an unprecedented manner in recent history. More than ever, it is critical to examine forms of proximity, hospitality, and regionality. Including films by migrants, films about the migrant experience, and the migratory routes of cinema itself, this course addresses the ethics, politics, and praxis of mobility and displacement. How, through East and Southeast Asian cinemas, could we envision counter-bodies and counter-strategies with which we may collectively imagine and inhabit the world? 24L, 24P

Recommended Preparation: CIN101H5 or at least 1.0 credit in courses that count towards Cinema Studies programs.

Distribution Requirements: Humanities

Total Instructional Hours: 24L/24P

Mode of Delivery: In Class

CIN309H5 • Colour and the Moving image

Considering philosophical, scientific, and historical discourses about colour, this course explores a variety of ways of analyzing colour style in film and video art. As we begin to come to terms with the perceptual instability of colour as a positive phenomenon, we will consider how and why dominant histories of film style have been written, especially as the taming of colour has been central to an ongoing categorical distinction between narrative cinema and the avant-garde, morality and hedonism.

Exclusions: CIN401H5 (Winter 2021)

Recommended Preparation: CIN101H5 and at least 1.0 credit in courses that count towards Cinema Studies

programs.

Distribution Requirements: Humanities

Total Instructional Hours: 24L/24P

Mode of Delivery: In Class

CIN310H5 • Melodrama

Film and Televisual melodramas regularly enact a conflict between personal desire and social expectation. This course will cover a range of films and television melodramas and consider the social contexts in which these works emerge, and often as critiques of the very cultures to which they belong or reject. 24L, 36P

Exclusions: CIN301H5 Topics course Melodrama.

Recommended Preparation: CIN101H5 and at least 1.0 credit in courses that count towards Cinema Studies programs.

Distribution Requirements: Humanities

Total Instructional Hours: 24L/36P

Mode of Delivery: In Class

CIN315H5 • From Script to Screen

This is a screenwriting course where students will be introduced to key narrative tools, scriptwriting conventions and components so they can develop an understanding and appreciation of the process from script to screen. From a comparative analysis of screenplays and completed short and feature films with varying budgets in the global cinema landscape, students will learn to use freely available specialized software to craft their own short film materials, including logline, synopsis, treatment, and screenplay.

Recommended Preparation: CIN101H5

Distribution Requirements: Humanities

Total Instructional Hours: 24L/24P

Mode of Delivery: In Class

CIN317H5 • Production: Independent Cinema

What can the title cards and credits of a film tell us about its journey to the screen? Outside of the studio system model adopted in various countries, there are established pathways and structures for the development, financing, production, sales, distribution and exhibition of independent cinema. This class asks how, from idea to completion, an independent film is able to find funding and reach an international audience. Focusing on the transnational ecosystems that sustain the passage of independent cinema around the world, we will examine case studies of films from Asia, Europe and North America.

Recommended Preparation: CIN101H5

Distribution Requirements: Humanities

Total Instructional Hours: 24L/24P

Mode of Delivery: In Class

CIN399Y5 • Research Opportunity Program

This course provides a richly rewarding opportunity for students in their third year or beyond to work on the research project of a professor in Cinema Studies in return for 399Y course credit. Students enrolled have an opportunity to become involved in original research, enhance their research skills, and share in the excitement and discovery of acquiring new knowledge. Participating faculty members post their project descriptions for the following summer and fall/winter session on the ROP website in mid-February and students are invited to apply at that time. See [Experiential and International Opportunities](#) for more details.

Distribution Requirements: Humanities
Mode of Delivery: In Class

CIN400H5 • Topics in Cinema Studies

The course may have a historical, genre, theoretical, auteur, or other focus. Students should contact the Department for the current topic.

Prerequisites: [CIN101H5](#) or at least 2.0 credits in courses that count towards Cinema Studies programs.
Distribution Requirements: Humanities
Total Instructional Hours: 36P/24S
Mode of Delivery: In Class

CIN401H5 • Topics in Cinema Studies

The course may have a historical, genre, theoretical, auteur, or other focus. Students should contact the Department for the current topic.

Prerequisites: [CIN101H5](#) or at least 2.0 credits in courses that count towards Cinema Studies programs.
Distribution Requirements: Humanities
Total Instructional Hours: 36P/24S
Mode of Delivery: In Class

CIN402H5 • Avant-Garde Film and Video

This course will look at alternative forms of filmmaking and television production. If there is a defining feature of avant-garde film and video, it is a general resistance to the thematic and stylistic norms of mainstream production and popular culture as way of seeing for all. Thus, in this course, we will be looking at both highly personal and sometimes autobiographical works of art.

Prerequisites: ([CIN101H5](#) or [CIN202H5](#)) and 1.0 credits at the 300 level in CIN or permission of instructor
Distribution Requirements: Humanities
Total Instructional Hours: 36P/24S
Mode of Delivery: In Class

CIN403H5 • Queerscapes, Screenscapes, Escapes: Gender and Sexuality Across East and Southeast Asian Cinemas

"Queerness is not yet here." José Esteban Muñoz begins *Cruising Utopia* with the provocation that queerness is a mode of desire that allows for an escape from the conditions of the present. How does queer studies contribute to the building of and the continued hope for a more just world? Through cinema, theory, and philosophy, this course makes the claim that investigating queerness in the world marks a critical move away from restrictive modes of identification and holds open life's horizons of possibility. Course texts emphasize queer cinemas of Asia and their transnational connections. 24S, 24P

Prerequisites: [CIN101H5](#) or at least 2.0 credits in courses that count towards Cinema Studies programs.
Distribution Requirements: Humanities
Total Instructional Hours: 24P/24S
Mode of Delivery: In Class

CIN404H5 • Film Noir and the Problem of Style

By way of an introduction to some of the key instances of film noir, this course is concerned with what we will call the paradox of style; namely, that style can indicate both what is specific and also what is general, what is unique and what is repeatable. We will look at the way in which this paradox is amplified by issues of gender, genre, fashion, and power that seem to concern so many films in this tradition. 24S, 30P

Prerequisites: [CIN101H5](#) or at least 2.0 credits in courses that count towards Cinema Studies programs.
Exclusions: [CIN401H5](#) topics course "Film Noir and the Problem of Style".
Distribution Requirements: Humanities
Total Instructional Hours: 30P/24S
Mode of Delivery: In Class

CIN405H5 • Cinema and Emotion

This interdisciplinary course looks at such difficult emotions as shame, jealousy, forgiveness, and love, and how film complicates our understanding of them. 24S, 30P

Prerequisites: [CIN101H5](#) or at least 2.0 credits in courses that count towards Cinema Studies programs.
Exclusions: [CIN401H5](#) topic: Difficult Emotions, Moving Images
Distribution Requirements: Humanities
Total Instructional Hours: 30P/24S
Mode of Delivery: In Class

CIN408H5 • Potential Cinema: Theories, Visions, and Practices of Decoloniality from East and Southeast Asia

Inspired by Ariella Aïsha Azoulay's *Potential History: Unlearning Imperialism*, this course investigates films from East and Southeast Asia and considers the ways in which we might recognize theories, visions, and practices that might constitute "cinemas of decoloniality." In this course, we will look to filmmakers' aesthetic engagement with archival and imagined time and the collision of pasts, presents, and futures in order to consider how contentious histories of memory and forgetting can have effects on the politics of the present. How, through and with cinema, could there be space not only to retell and reframe histories of coloniality and decolonization but also to experience and practice the potential decolonization of ways of being, seeing, and thinking?

Prerequisites: CIN101H5 or a minimum 2.0 credits in courses that count towards Cinema Studies programs.

Distribution Requirements: Humanities

Total Instructional Hours: 36P/24S

Mode of Delivery: In Class

CIN410H5 • Creating Mobile Cinemas

This class will introduce students to low-budget aesthetic approaches to cinema across fiction and documentary genres. The class will involve a hybrid of cinema research and creation. During the first half of the semester, we will study a selection of feature-length works and shorts. The second half of the semester will be dedicated towards students creating 10-15 minute pieces of their own inspired by what they have studied.

Prerequisites: CIN101H5 and 1.0 at the 300/400-level in CIN

Distribution Requirements: Humanities

Total Instructional Hours: 24P/24S

Mode of Delivery: In Class

CIN430H5 • Making a Short Film

This is a production course that introduces students to the four stages of filmmaking: development, production, post production, and release. Through learning the practical aspects of filmmaking such as scriptwriting, budgeting, key crew positions, basic technical proficiency of equipment, and understanding the film festival circuit and online platform, students will make a 5-10 minute fiction short film. Equipment and funds will not be provided but students will be able to complete the assignments on a smartphone with recommendation of free video editing software.

Prerequisites: CIN101H5 and 1.0 credit at the 300/400-level in CIN

Distribution Requirements: Humanities

Total Instructional Hours: 24P/24S

Mode of Delivery: In Class

VST410H5 • Internship in Visual Studies

This internship course provides an opportunity for students to gain practical experience at an institution or business closely related to the arts and to visual studies. This is especially tailored for mature and self-disciplined students in their final year of study, who are ready to apply knowledge acquired in previous courses and are planning a career in the arts and cultural sector. Students registered in any DVS program are eligible to apply. Students work closely with the DVS internship coordinator to establish suitability. Regular updates and a final report and presentation will be required. The final grade for the course will be based on these, along with the assessment of the employer.

Prerequisites: Minimum completion of 5.5 credits in DVS Programs and 8.0 additional credits and minimum CGPA 2.5 and permission of internship coordinator.

Course Experience: Partnership-Based Experience

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

VST410Y5 • Internship in Visual Studies

This internship course provides an opportunity for students to gain practical experience at an institution or business closely related to the arts and to visual studies. This is especially tailored for mature and self-disciplined students in their final year of study, who are ready to apply knowledge acquired in previous courses and are planning a career in the arts and cultural sector. Students registered in any DVS program are eligible to apply. Students work closely with the DVS internship coordinator to establish suitability. Regular updates and a final report and presentation will be required. The final grade for the course will be based on these, along with the assessment of the employer.

Prerequisites: Minimum of 5.5 credits in DVS program courses and 8.0 additional credits and minimum CGPA 2.5 and permission of internship coordinator

Exclusions: VST410H5

Course Experience: Partnership-Based Experience

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

Classical Civilization or Classics is the study of the cultures of the Ancient Mediterranean, and in particular the cultures of the Greek and Roman worlds. The study of literatures, classical languages, art, philosophy, political thought and history, as well as its receptions in later periods, offers an ideal insight into the development of many societies of the modern world, providing an indispensable access to many Humanities subjects. Beyond being a corner stone for the Humanities, the ancient Mediterranean world can in itself offer students the opportunity for a deep engagement with cross-cultural exchange, social structures, global markets and geopolitics in a well-attested, ancient world. Doing Classics in the Department of Historical Studies means studying fascinating material in its historical contexts, and asking broader social and political questions that can give an insight into the challenges of our current society. Additionally, it provides training in core skills, such as close reading, analytical thinking, and the formulation of strong arguments. All of this makes learning about the ancient world not only fun, but also offers a crucial foundation for the study of any other subject, and for any professional career.

The program provides a broad survey of Greek and Roman culture not only for students with a commitment to intensive study in this area but also for students in other programs seeking a further grounding for their particular interests (whether literary, historical, philosophical, or linguistic).

U of T Mississauga's programs in Classical Civilization (CLA) include courses in: (i) Greek and Roman history, (ii) Greek and Latin literature (in translation), (iii) mythology and religion, (iv) the Greek and Latin contribution to modern English scientific and technical terminology. Courses of type (i) may be counted for credit towards History programs. Courses in Latin (LAT) and Greek (GRK) are offered at U of T Mississauga by the Department of Language Studies (see Language Courses section of this calendar).

For other courses that can be counted for credit to the program in Classical Civilization, see the respective program descriptions for the Major Program ERMAJ0382 and the Minor Program ERMIN0382.

Students should also review the Degree Requirements section prior to selecting courses

Program website <http://www.utm.utoronto.ca/historicalstudies/>

Classical Civilization Programs

Classical Civilization - Major (Arts)

Enrolment Requirements:

Limited Enrolment — Students enrolling at the end of first year (4.0 credits) must obtain a CGPA of at least 1.80. Students applying to enrol after second year (8.0 credits) must obtain a CGPA of at least 2.00.

Completion Requirements:

7.0 credits are required, including 4.0 at the 300+ level.

First Year: 1.0 credits from the following list: [CLA101H5](#), [CLA230H5](#), [CLA231H5](#), [CLA233H5](#), [CLA237H5](#).

Higher Years: 6.0 additional CLA credits at the 200+ level, including at least 4.0 credits at the 300+ level.

Up to 2.0 credits in the following areas may be substituted for CLA courses. [DRE356H5](#), [DRE358H5](#), [DRE420H5](#) and [DRE422H5](#) may be substituted when those courses are taught as ancient drama. RLG courses may be substituted when those courses focus on religion in the ancient Greek or Roman Mediterranean. Courses in ancient Art (e.g. [FAH205H5](#)) or ancient Philosophy (e.g. [PHL300H5](#)) may be substituted for CLA courses. Courses in Latin (LAT) and Greek (GRK), offered at U of T Mississauga by the Department of Language Studies (see p.219) may be substituted for 200-level CLA courses. Students are invited to contact instructors for further information.

[ERMAJ0382](#)

Classical Civilization - Minor (Arts)

Completion Requirements:

4.0 credits are required, including 1.0 at the 300+ level.

First Year: 1.0 credit from the following list: [CLA101H5](#), [CLA230H5](#), [CLA231H5](#), [CLA233H5](#), [CLA237H5](#).

Higher Years: 3.0 additional CLA courses at the 200+ level, including at least 1.0 at the 300/400 level.

Up to 1.0 credit in the following areas may be substituted for CLA courses. [DRE356H5](#), [DRE358H5](#), [DRE420H5](#) and [DRE422H5](#) may be substituted when those courses are taught as ancient drama. RLG courses may be substituted when those courses focus on religion in the ancient Greek or Roman Mediterranean. Courses in ancient Art (e.g. [FAH205H5](#)) or ancient Philosophy (e.g. [PHL300H5](#)) may be substituted for CLA courses. Courses in Latin (LAT) and Greek (GRK), offered at U of T Mississauga by the Department of Language Studies (see p. 219) may be substituted for 200 level CLA courses. Students are invited to contact instructors for further information.

ERMIN0382

Classical Civilization Courses

CLA101H5 • Introduction to Classical Civilization

An introduction to ancient Greco-Roman civilization that highlights some of the most salient artistic, cultural, historical, and social achievements of these two societies.

Exclusions: [CLA160H1](#) or [CLAA04H3](#)
Distribution Requirements: Humanities
Total Instructional Hours: 24L/12T
Mode of Delivery: In Class

CLA201H5 • Latin and Greek in Scientific Terminology

The study of technical and scientific terms derived from Latin and Greek: word elements, formation, analysis. The course is designed to give students in any field of specialization a better grasp of the derivation and basic meaning of English words formed from Latin and Greek elements.

Exclusions: [CLA201H1](#)
Distribution Requirements: Humanities
Total Instructional Hours: 36L
Mode of Delivery: In Class

CLA204H5 • Introduction to Classical Mythology

A survey of the myths and legends of the ancient Greek and Roman Mediterranean world in ancient art and literature. Consideration may also be given to their reception in modern art and literature and some modern theories of myth.

Exclusions: [CLA204H1](#) or [CLAB05H3](#)
Distribution Requirements: Humanities
Total Instructional Hours: 24L/12T
Mode of Delivery: In Class

CLA207H5 • Introduction to Greek and Roman Literature

This course provides an introduction to Greek and Roman literature. Detailed interpretations of key works from a variety of genres are complemented by discussions of

more general issues like literacy levels, orality, literary rhetoric, performance contexts and intertextuality.

Recommended Preparation: [CLA101H5](#)
Distribution Requirements: Humanities
Total Instructional Hours: 24L/12T
Mode of Delivery: In Class

CLA220H5 • Introduction to Greek and Roman Archaeology

This course introduces students to archaeology in the ancient Mediterranean, covering key archaeological methods and material from the Greek Bronze Age through the Roman Empire. Students develop essential skills to recognize and analyze ancient material culture.

Exclusions: [CLA210H1](#)
Distribution Requirements: Humanities
Total Instructional Hours: 24L/12T
Mode of Delivery: In Class

CLA230H5 • Introduction to Greek History

An introduction to the diverse history of the Greek world, tracing mainly political but also social developments from the Bronze Age of the mid-second millennium BCE to the first century CE.

Exclusions: [CLA230H1](#) or [CLAB05H3](#)
Recommended Preparation: [CLA101H5](#)
Distribution Requirements: Humanities
Total Instructional Hours: 24L/12T
Mode of Delivery: In Class

CLA231H5 • Introduction to Roman History

An introduction to the history of Rome, focusing mainly on its political and military history but also tracing the most salient social and cultural developments, from its inconspicuous beginnings in the eighth century BCE to Rome's Mediterranean Empire in the imperial period and its dissolution in the sixth century CE.

Exclusions: [CLA231H1](#) or [CLAB06H3](#)
Recommended Preparation: [CLA101H5](#)
Distribution Requirements: Humanities
Total Instructional Hours: 24L/12T
Mode of Delivery: In Class

CLA233H5 • Introduction to Roman Culture & Society

An introduction to the cultural and social history of ancient Rome and those living in the Roman world. Topics may vary from year to year but include daily life and

demography, the Roman family, gender and sexuality, the Roman political system and the army, religion, Roman entertainments (the circus, gladiatorial games, the theatre), and Latin literature.

Exclusions: [CLA233H1](#) or [CLAB06H3](#)
Recommended Preparation: [CLA101H5](#)
Distribution Requirements: Humanities
Total Instructional Hours: 24L/12T
Mode of Delivery: In Class

CLA234H5 • Ancient Science and Technology

A general introduction to early technology, its achievements and limitations, the origins and development of ancient science, including ancient medicine, and their interaction with philosophy.

Exclusions: [CLA203H1](#)
Distribution Requirements: Humanities
Total Instructional Hours: 36L
Mode of Delivery: In Class

CLA237H5 • Introduction to Greek Culture & Society

An introduction to the society and culture of the ancient Greek world and those who were in contact with it. Topics may vary from year to year but include daily life and demography, social customs, gender and sexuality, literature, art, as well as religion and religious festivals (such as processions, theatrical performances and athletic competitions such as the Olympic Games).

Exclusions: [CLA232H1](#) or [CLAB05H3](#)
Recommended Preparation: [CLA101H5](#) or [CLA204H5](#)
Distribution Requirements: Humanities
Total Instructional Hours: 24L/12T
Mode of Delivery: In Class

CLA299Y5 • Research Opportunity Program

This course provides a richly rewarding opportunity for students in their second year to work in the research project of a professor in return for 299Y course credit. Students enrolled have an opportunity to become involved in original research, learn research methods and share in the excitement and discovery of acquiring new knowledge. Participating faculty members post their project descriptions for the following summer and fall/winter sessions in early February and students are invited to apply in early February. See [Experiential and International Opportunities](#) for more details.

Note:

This course may be substituted for 1.0 credits at the 300+ level.

Prerequisites: Completion of at least 4.0 and not more than 9.0 credits.

Distribution Requirements: Humanities

Mode of Delivery: In Class

CLA300H5 • Greek Tragedy and Comedy

Greek drama from the origins of tragedy in the sixth century B.C. to New Comedy, with close study of selected plays of Aeschylus, Sophocles, Euripides, Aristophanes, and Menander, and attention to Aristotle's Poetics.

Exclusions: [CLA382H1](#) or [CLA383H1](#) or [CLAC01H3](#)
Recommended Preparation: [CLA204H5](#) or [CLA237H5](#)
Distribution Requirements: Humanities
Total Instructional Hours: 24L
Mode of Delivery: In Class

CLA301H5 • Greek Epic

The Iliad and the Odyssey, with comparative study of related texts.

Prerequisites: [CLA204H5](#) or [CLA230H5](#) or [CLA237H5](#)
Exclusions: [CLA236H1](#) or [CLAC11H3](#)
Distribution Requirements: Humanities
Total Instructional Hours: 24L
Mode of Delivery: In Class

CLA302H5 • Roman Epic

The Aeneid of Virgil and/or other Roman epics with comparative study of related texts.

Prerequisites: [CLA204H5](#) or [CLA231H5](#) or [CLA233H5](#)
Exclusions: [CLA236H1](#) or [CLAC11H3](#)
Distribution Requirements: Humanities
Total Instructional Hours: 24L
Mode of Delivery: In Class

CLA303H5 • The Ancient Novel

The human and social climate in which prose fiction arose; the Greek romances of love and adventure (Heliodorus, Longus, Chariton), and the more ironical and socially conscious works of the Roman writers (Petronius, The Satyricon, and Apuleius, The Golden Ass).

Prerequisites: [CLA204H5](#) or [CLA230H5](#) or [CLA231H5](#) or [CLA233H5](#) or [CLA237H5](#)
Exclusions: [CLA303H1](#) or [CLAC12H3](#)
Distribution Requirements: Humanities
Total Instructional Hours: 24L
Mode of Delivery: In Class

CLA307H5 • Greek and Roman Lyric Poetry

This course discusses Greek and Roman lyric poetry in its wider literary, cultural and political contexts. Poets who will be discussed include, among others, Sappho, Theocritus, Catullus and Horace. Some of the poems featured in this course belong to the best and most beautiful literature written in Graeco-Roman antiquity.

Prerequisites: [CLA207H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

CLA308H5 • Religion in the Ancient Greek World

A study of the religious cults and forms of worship current in the ancient Greek world. The course will consider religion in the ancient Greek city-states, but attention will also be paid to the so-called 'mystery religions', Greek beliefs about the afterlife, and intellectual reflection on religion in Greek literature.

Prerequisites: Prerequisite for CLA students: ([CLA204H5](#) or [CLA230H5](#) or [CLA237H5](#)) and for RLG students: any pertinent RLG course at the 200+ level.

Exclusions: [CLA308H1](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

CLA310H5 • Religion in the Roman Empire

A close study of the religious cults and forms of worship current in the Roman Empire during the first four centuries C.E. The course will concentrate on the so-called 'pagan' cults, but their interaction with Jews and the early Christians, as well as the rise of Christianity, will also be considered. Attention will also be paid to the imperial cult ("emperor worship"); the so-called 'mystery religions' and 'oriental religions'; the diversity of local religion across the empire; oracles, private religiosity and intellectual reflection on religion in the ancient Greek and Roman writers.

Prerequisites: Prerequisite for CLA students: ([CLA231H5](#) or [CLA233H5](#)) and for RLG students: any pertinent RLG course at the 200+ level.

Exclusions: [CLA310H1](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

CLA319H5 • Women and Gender in Antiquity

A study of gender in the ancient Mediterranean, with a focus on female and male sexuality and socialization; their economic, religious, and political roles; and aspects of daily life.

Prerequisites: [CLA204H5](#) or [CLA230H5](#) or [CLA231H5](#) or [CLA233H5](#) or [CLA237H5](#)

Exclusions: [CLA219H1](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

CLA320H5 • The Etruscans

A close study of the history, culture, society, religion, art and archaeology of the Etruscans (1000–100 BCE) and of their contacts with Greek and Roman society and culture.

Prerequisites: [CLA230H5](#) or [CLA231H5](#) or [CLA233H5](#) or [CLA237H5](#)

Exclusions: [CLA391H5](#) (Fall 2022)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

CLA337H5 • Pompeii and Herculaneum: Everyday Life and Death in Roman Cities

Focusing on Roman Pompeii and Herculaneum, this course studies the experiences of townspeople: the freeborn (male and female), freed persons, and slaves; the demography of a Roman town and its public infrastructure; the interior design of Roman houses; local politics; leisure activities; economy; and religious beliefs and funerary practices.

Prerequisites: [CLA231H5](#) or [CLA233H5](#)

Exclusions: [CLA391H5](#) (Winter 2019)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

CLA359H5 • The Persian Empire: 559-331 BCE

This course offers an examination of the history and culture of the first multicultural superstate of the ancient world, the Achaemenid Empire. Through a close analysis of ancient sources, this course not only investigates governmental structures but also the daily life in the Eastern Mediterranean from the sixth to the fourth centuries BCE.

Prerequisites: [CLA230H5](#) or [CLA231H5](#) or [CLA233H5](#) or [CLA237H5](#)

Exclusions: [NMC349H1](#)

Distribution Requirements: Humanities
Total Instructional Hours: 24L
Mode of Delivery: In Class

CLA360H5 • Early Greece

This course offers an exploration into the early Greek world, tracing political, economical, and social developments from a world of local rulers in the second millennium BCE until the Persian Wars in the early fifth century BCE. An in-depth study of the many forms of available ancient sources will create a vivid picture of early Greek communities, of state organization, and society.

Prerequisites: [CLA230H5](#) or [CLA237H5](#)
Exclusions: [CLA362H1](#) or [CLA363H1](#)
Distribution Requirements: Humanities
Total Instructional Hours: 24L
Mode of Delivery: In Class

CLA361H5 • Classical Greece

A close study of the Greek Mediterranean world during the period, which already in antiquity, was described as 'Classical'. Through an in-depth study of ancient sources, this course explores the political, economic, social, religious and cultural developments of the Greek states in the time period from the Persian Wars in the early 5th century to the rise of Macedon in the second half of the fourth century BCE.

Prerequisites: [CLA230H5](#) or [CLA237H5](#)
Exclusions: [CLA335H5](#) or [CLA363H1](#)
Distribution Requirements: Humanities
Total Instructional Hours: 24L
Mode of Delivery: In Class

CLA362H5 • Alexander the Great and the Hellenistic World

This course offers an in-depth study of the Hellenistic World from the reign of Alexander the Great in the fourth century BCE to a Greek world under Roman dominance in the first century CE, spanning geographically from the Mediterranean basin via the Levant and Mesopotamia to modern-day Afghanistan. A close examination of different types of ancient sources will trace the political, cultural, economic and social developments of kings, regions and cities that shaped this period.

Prerequisites: [CLA230H5](#) or [CLA237H5](#)
Exclusions: [CLA347H5](#), [CLA64H1](#)
Distribution Requirements: Humanities
Total Instructional Hours: 24L
Mode of Delivery: In Class

CLA365H5 • Trade in the Ancient Mediterranean

This course explores questions of trade and exchange in the ancient Mediterranean. A close study of ancient primary material examines aspects of the ancient economy, trade goods, ships and shipwrecks, ports and harbours, and cross-cultural interaction.

Prerequisites: [CLA230H5](#) or [CLA231H5](#) or [CLA233H5](#) or [CLA237H5](#)
Exclusions: [CLA372H1](#)
Distribution Requirements: Humanities
Total Instructional Hours: 24L
Mode of Delivery: In Class

CLA367H5 • The Roman Republic

A survey of the salient political, constitutional, social, economic, military, religious, and cultural developments in the Roman Republic, from the late sixth century to the final decades of the first century BC.

Prerequisites: [CLA231H5](#) or [CLA233H5](#)
Exclusions: [CLA367H1](#)
Distribution Requirements: Humanities
Total Instructional Hours: 24L
Mode of Delivery: In Class

CLA368H5 • Augustus and the Julio-Claudians

A survey of the salient political, constitutional, social, economic, military, religious and cultural developments in the Roman Empire in the age of Augustus and during the reigns of the Julio-Claudian emperors (ca. 44 BCE-68CE).

Prerequisites: [CLA231H5](#) or [CLA233H5](#)
Exclusions: [CLA368H1](#)
Recommended Preparation: [CLA367H5](#)
Distribution Requirements: Humanities
Total Instructional Hours: 24L
Mode of Delivery: In Class

CLA369H5 • The High Roman Empire, 68-305 CE

A survey of the salient political, constitutional, social, economic, military, religious and cultural developments in the Roman Empire, from the 'year of the four emperors' (68 CE) to the fourth century CE.

Prerequisites: [CLA231H5](#) or [CLA233H5](#)
Exclusions: [CLA369H1](#)
Recommended Preparation: [CLA368H5](#)
Distribution Requirements: Humanities
Total Instructional Hours: 24L
Mode of Delivery: In Class

CLA370H5 • Late Antiquity

A survey of the salient political, constitutional, social, economic, military, religious and cultural developments in the Roman Empire from the fourth century to the age of Justinian.

Prerequisites: [CLA231H5](#) or [CLA233H5](#)

Exclusions: [CLA378H1](#)

Recommended Preparation: [CLA369H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

CLA390H5 • Topics in Greek History & Culture

A detailed study of a topic of Greek history, literature, or material culture. Topics will vary from year to year. See Department of Historical Studies web site at <https://www.utm.utoronto.ca/historical-studies/students/courses/topic-c...> for more details.

Prerequisites: [CLA230H5](#) or [CLA237H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

CLA391H5 • Topics in Roman History & Culture

A detailed study of a topic of Roman history, literature, or material culture. Topics will vary from year to year. See Department of Historical Studies web site at <https://www.utm.utoronto.ca/historical-studies/students/courses/topic-c...> for more details.

Prerequisites: [CLA231H5](#) or [CLA233H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

CLA395H5 • Topics in Classics

An in-depth examination of historical issues. Content in any given year depends on instructor. See Department of Historical Studies web site at <https://www.utm.utoronto.ca/historical-studies/students/courses/topic-c...> for more details.

Prerequisites: At least 0.5 200 level credits in Classical Civilization.

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

CLA399Y5 • Research Opportunity Program

For senior undergraduate students who have developed some knowledge of a discipline and its research methods, this course offers an opportunity to work on the research project of a professor. Students enrolled have an opportunity to become involved in original research, develop their research skills and share in the excitement and discovery of acquiring new knowledge. Project descriptions for the following fall-winter session are posted on the ROP website in mid-February and students are invited to apply at that time. See [Experiential and International Opportunities](#) for more details.

Prerequisites: Completion of at least 8.0, and not more than 10.0, credits.

Distribution Requirements: Humanities

Mode of Delivery: In Class

CLA404H5 • Advanced Topics in Classics

A critical exploration of selected topics of Greek or Roman history, literature, philosophy, or material culture. Topics will vary from year to year.

Prerequisites: At least 2.5 credits in Classics, including at least 1.5 credits at the 300 level.

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

CLA497Y5 • Independent Reading

Student-initiated project of reading and research, supervised by a member of the Department. Primarily intended for students in a Major program. After obtaining a supervisor, a student must apply to the Department of Historical Studies. A maximum of 1.0 credit in a reading course is permitted.

Distribution Requirements: Humanities

Mode of Delivery: In Class

CLA499H5 • Independent Reading

Student-initiated project of reading and research, supervised by a member of the Department. Primarily intended for Majors. After obtaining a supervisor, a student must apply to the Department of Historical Studies. A maximum of two reading courses, amounting to 1.0 credit, is permitted.

Prerequisites: At least 2.5 credits in Classics, including at least 1.5 credits at the 300 level.

Distribution Requirements: Humanities

Mode of Delivery: In Class

CLA499Y5 • Research Opportunity Program

For senior undergraduate students who have developed some knowledge of a discipline and its research methods, this course offers an opportunity to work on the research project of a professor. Students enrolled have an opportunity to become involved in original research, develop their research skills and share in the excitement and discovery of acquiring new knowledge. Project descriptions for the following fall-winter session are posted on the ROP website in mid-February and students are invited to apply at that time. See [Experiential and International Opportunities](#) for more details.

Prerequisites: Completion of at least 8.0, and not more than 10.0 credits.

Distribution Requirements: Humanities

Mode of Delivery: In Class

GRK211H5 • Introductory Ancient Greek I

An introduction to Ancient Greek for students who have no knowledge of the language. This course also serves as a preparation for Intermediate Greek courses.

Exclusions: [GRK100Y1](#) or [GRK101H1](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/24P

Mode of Delivery: In Class

GRK212H5 • Introductory Ancient Greek II

An introduction to Ancient Greek for students who have no knowledge of the language. This course also serves as a preparation for Intermediate Greek courses.

Prerequisites: [GRK211H5](#) or [GRK101H1](#)

Exclusions: [GRK100Y1](#) or [GRK102H1](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/24P

Mode of Delivery: In Class

GRK213H5 • Introductory Ancient Greek III

The final course of the introduction to Ancient Greek for students who have some training in the language. This course also serves as a preparation for Intermediate Greek courses.

Prerequisites: [GRK212H5](#) or [GRK102H1](#)

Exclusions: [GRK200Y1](#) or [GRK201H1](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/24P

Mode of Delivery: In Class

GRK221H5 • Intermediate Ancient Greek

Reading of selections of Ancient Greek prose and verse with a systematic study of the Greek Language.

Prerequisites: [GRK213H5](#) or [GRK201H1](#)

Exclusions: [GRK200H1](#) or [GRK202H1](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24T/24P

Mode of Delivery: In Class

LAT211H5 • Introductory Latin I

An introduction to Latin for students who have no knowledge of the language. This course also serves as a preparation for Intermediate Language courses.

Exclusions: [LAT211H5](#) or [LAT100Y5](#) or [LAT101H1](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/24T

Mode of Delivery: In Class

LAT212H5 • Introductory Latin II

A continuation of the introduction to Latin for students who have some training in the language, but have not completed a whole credit course at university or a final-year (Grade 12) course in secondary school. This course also serves as a preparation for Intermediate Language courses.

Prerequisites: [LAT211H5](#) or [LAT101H1](#)

Exclusions: [LAT100Y5](#) or [LAT102H1](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/24T

Mode of Delivery: In Class

LAT213H5 • Introductory Latin III

The final course of the introduction to Latin for students who have some training in the language. This course also serves as a preparation for Intermediate Latin courses.

Prerequisites: [LAT212H5](#) or [LAT102H1](#)

Exclusions: [LAT200Y5](#) or [LAT201H1](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/24T

Mode of Delivery: In Class

LAT221H5 • Intermediate Latin

Reading of selections of Latin prose and verse with a systematic study of the Latin Language.

Prerequisites: LAT213H5 or LAT201H1 or Grade 12 Latin (with permission of instructor)

Exclusions: LAT200Y5 or LAT202H1

Distribution Requirements: Humanities

Total Instructional Hours: 24L/24T

Mode of Delivery: In Class

The Commerce programs combine economics and the various sub-disciplines of business and management enabling students to develop analytical skills and gain knowledge of institutions. This background is useful for solving problems and making decisions in business and government environments.

Commerce graduates frequently become professional accountants, economists, actuaries, financial analysts, marketing analysts, managers of firms and government, or proprietors of small businesses. Some commerce students choose to do post-graduate studies; law schools and MBA programs have been favoured by recent graduates.

The Specialist Program in Accounting allows students to complete the prerequisite studies for professional accounting qualifications within the BCom. The BCom has also been approved to participate in the CFA Institute's University Affiliation Program. There is also a Specialist Program in Marketing and Commerce.

Commerce is a deregulated fees program and, therefore, tuition fees for students enrolled in this program are higher than for other regulated fee programs. Fees are charged on a program and not a per course basis. See www.fees.utoronto.ca for more information on fee structures.

Professional Skills Development Program (PSDP)

The Professional Skills Development Program (PSDP) has been created exclusively for Commerce and BBA/Management students as a way to encourage skill development beginning in the second year through to final year. The information and skills gained through participation in this program will help students to:

- Strengthen technical and soft skills necessary for workplace success
- Increase awareness of marketability on the job market and confidence in abilities
- Effectively make the transition from school to the workplace
- Manage their career by navigating through the working world more effectively

By participating in the program, students will be officially recognized and rewarded for their co-curricular activities through a transcript notation. Students will need to earn a minimum of at least 46 PSDP skill points over the course of their academic program. Upon completion of this requirement, students can submit an application to the PSDP Advisory Committee for transcript notation consideration. For more information and program details, please visit www.utm.utoronto.ca/management

Commerce Programs

Commerce - Specialist (BCom)

Enrolment Requirements:

This program leads to the Bachelor of Commerce degree. This Specialist program cannot be combined with the Management (Major or Specialist), Digital Enterprise Management Specialist, or Human Resource Management Specialist.

Limited Enrolment — Admission to this program is based on the following criteria:

- Completion of at least 4.0 credits
- A final mark of at least 63% in each of the following courses:
 - ([ECO101H5](#) and [ECO102H5](#)) or [ECO100Y5](#)
 - [MGM101H5](#) and [MGT120H5](#)
 - [MAT133Y5](#) or [MAT135Y5](#) or [MAT137Y5](#) or [MAT157Y5](#) or ([MAT132H5](#) and [MAT134H5](#)) or ([MAT135H5](#) and [MAT136H5](#)) or ([MAT137H5](#) and [MAT139H5](#))
- A weighted average of the grades earned in the courses above that meets the program's annual admission cutoff, which is determined annually by the Department of Management. This will vary from year to year and is based on capacity and the applicant pool.

Note:

- Applicants with transfer credits in any of the courses listed above will be assigned a 63% for each applicable transfer credit for program admission. Students can choose to retake these courses at UofT and their UofT grade will be considered in their weighted average instead.
- Application for admission to the program is made during the Subject POST request periods for all students.
- Please see the full list below for equivalent UTSG and UTSC courses

Completion Requirements:

This program has a total of 13.0 credits.

First Year (3.0 credits):

- [MGM101H5](#) and [MGT120H5](#); and
- ([ECO101H5](#) and [ECO102H5](#)) or [ECO100Y5](#); and
- [MAT133Y5](#) or [MAT135Y5](#) or [MAT137Y5](#) or [MAT157Y5](#) or ([MAT132H5](#) and [MAT134H5](#)) or ([MAT135H5](#) and [MAT136H5](#)) or ([MAT137H5](#) and [MAT139H5](#))

Higher Years:

Management (5.0 credits):

1. [MGT220H5](#) and [MGT223H5](#) and [MGT231H5](#) and [MGT232H5](#)
2. 1.0 credit from: [MGT300H5](#) or [MGT201H5](#) or [MGT252H5](#) or [MGT260H5](#) or [MGT262H5](#) or [MGT270H5](#) or [MGT353H5](#) or [MGT363H5](#) or ([MGT371H5](#) or [MGT422H5](#)) or [MGT374H5](#) or [MGT393H5](#)
3. 1.0 credit in MGT at the 400 level
4. 1.0 credit in MGT at the 200/300/400 level

Economics (5.0 credits):

1. [ECO200Y5](#) or [ECO204Y5](#) or [ECO206Y5](#)
2. [ECO202Y5](#) or [ECO208Y5](#) or [ECO209Y5](#)
3. [ECO220Y5](#) or [ECO227Y5](#) or ([STA256H5](#) and [STA258H5](#)) or ([STA256H5](#) and [STA260H5](#))
4. 2.0 credits in ECO at 300/400 level, of which no more than 1.0 credits may be in Economic History

Note:

Note that Management and Commerce students can only use 1.0 ROP credit towards program completion.

Please note the following list of acceptable equivalents for application to the POST:

<u>MGT120H5</u>	UTSC: <u>MGAB01H3</u> and <u>MGAB02H3</u> UTSG: <u>RSM219H1</u>

Commerce: Finance - Specialist (BCom)

Enrolment Requirements:

This program leads to a Bachelor of Commerce (BCom) degree. This Specialist program cannot be combined with the Management (Major or Specialist), Digital Enterprise Management Specialist, or Human Resource Management Specialist.

Limited Enrolment: Admission to this program is based on the following criteria:

- Completion of at least 4.0 credits
- A final mark of at least 63% in each of the following courses:
 - MGM101H5 and MGT120H5
 - (ECO101H5 and ECO102H5) or ECO100Y5
 - MAT133Y5 or MAT135Y5 or MAT137Y5 or MAT157Y5 or (MAT132H5 and MAT134H5) or (MAT135H5 and MAT136H5) or (MAT137H5 and MAT139H5)
- A weighted average of the grades earned in the courses above that meets the program's annual admission cutoff. This is determined annually by the Department of Management and will vary from year to year, based on capacity and applicant pool.

Note:

- Applicants with transfer credits for any of the courses listed above will be assigned a 63% for each applicable transfer credit for program admission. Students can choose to retake these courses at UofT and their UofT grade will be considered in their weighted average instead.
- Application for admission to the program is made during the Subject POST request periods for all students.
- Please see the full list below for equivalent UTSG and UTSC courses.

Completion Requirements:

This program has a total of 16.0 credits

First Year (3.0 credits):

1. MGM101H5 and MGT120H5
2. (ECO101H5 and ECO102H5) or ECO100Y5
3. MAT133Y5 or MAT135Y5 or MAT137Y5 or MAT157Y5 or (MAT132H5 and MAT134H5) or (MAT135H5 and MAT136H5) or (MAT137H5 and MAT139H5)

Higher Years:

Management (8.0 credits):

1. MGT201H5 and MGT220H5 and MGT223H5 and MGT252H5 and MGT262H5
2. 0.5 credit from: MGT336H5 or MGT353H5 or MGT363H5 or MGT341H5 or MGT371H5 or MGT373H5 or MGT374H5
3. MGT231H5 and MGT232H5
4. MGT301H5 and MGT330H5
5. 2.0 credits from: MGT430H5 or MGT431H5 or MGT433H5 or MGT434H5 or MGT435H5 or MGT438H5 or MGT439H5 or MGT440H5 or MGT442H5 or MGT443H5 or MGT444H5 or MGT495H5
6. 0.5 credit in MGT at 300/400 level (cannot double count courses)
7. 0.5 credit in MGT at 400 level (cannot double count courses)

Economics (5.0 credits):

1. ECO200Y5 or ECO204Y5 or ECO206Y5
2. ECO202Y5 or ECO208Y5 or ECO209Y5
3. ECO220Y5 or ECO227Y5 or (STA256H5 and STA258H5) or (STA256H5 and STA260H5)
4. ECO375H5
5. 1.0 credit from: ECO348H5 or ECO349H5 or ECO352H5 or ECO365H5 or ECO460H5 or ECO461H5 or ECO463H5 or ECO475H5
6. 0.5 credit in ECO at the 300/400-level (cannot double count courses)

Note:

The prerequisite for ECO375H5 is a minimum of 70% obtained within ECO220Y5.

Management and Commerce students can only use 1.0 ROP credit towards program completion.

Please note the following list of acceptable equivalents for application to the POST:

<u>MGT120H5</u>	UTSC: <u>MGAB01H3</u> and <u>MGAB02H3</u> UTSG: <u>RSM219H1</u>
<u>MGM101H5</u>	UTSC: <u>MGTA05H3</u> or (<u>MGTA01H3</u> and <u>MGTA02H3</u>) UTSG: <u>RSM100H1</u>
<u>ECO101H5</u> and <u>ECO102H5</u>	UTSG: <u>ECO100Y1</u> or (<u>ECO101H1</u> and <u>ECO102H1</u>) UTSC: <u>MGEA02H3</u> and <u>MGEA06H3</u> UTM: <u>ECO100Y5</u>
<u>MAT133Y5</u>	UTSC: <u>MATA32H3</u> and <u>MATA33H3</u> UTSG: <u>MAT133Y1</u> or (<u>MAT135H1</u> and <u>MAT136H1</u>) UTM: <u>MAT135Y5</u> or (<u>MAT135H5</u> and <u>MAT136H5</u>) or (<u>MAT132H5</u> and <u>MAT134H5</u>) or <u>MAT137Y5</u> or <u>MAT157Y5</u>

ERSPE2034

Commerce: Marketing - Specialist (BCom)

This program leads to a Bachelor of Commerce (BCom) degree. This Specialist program cannot be combined with the Management (Major or Specialist), Digital Enterprise Management Specialist, or Human Resource Management Specialist.

Enrolment Requirements:

Limited Enrolment — Admission to this program is based on the following criteria:

- Completion of at least 4.0 credits
- A final mark of at least 63% in each of the following courses:
 - MGM101H5 and MGT120H5
 - (ECO101H5 and ECO102H5) or ECO100Y5
 - MAT133Y5 or MAT135Y5 or MAT137Y5 or MAT157Y5 or (MAT132H5 and MAT134H5) or (MAT135H5 and MAT136H5) or (MAT137H5 and MAT139H5)

- A weighted average of the grades earned in the courses above that meets the program's annual admission cutoff, which is determined annually by the Department of Management. This will vary from year to year and is based on capacity and the applicant pool.

Note:

- Applicants with transfer credits for any of the courses listed above will be assigned a 63% for each applicable transfer credit for program admission. Students can choose to retake these courses at UofT and their UofT grade will be considered in their weighted average instead.
- Application for admission to the program is made during the Subject POST request periods for all students.
- Please see the full list below for equivalent UTSG and UTSC courses

Completion Requirements:

This program has a total of 16.5 credits.

First Year (3.0 credits):

1. MGM101H5 and MGT120H5
2. (ECO101H5 and ECO102H5) or ECO100Y5
3. MAT133Y5 or MAT135Y5 or MAT137Y5 or MAT157Y5 or (MAT132H5 and MAT134H5) or (MAT135H5 and MAT136H5) or (MAT137H5 and MAT139H5)

Higher Years:

Management: (8.5 credits)

1. MGT201H5 and MGT220H5 and MGT223H5 and MGT231H5 and MGT232H5 and MGT252H5
2. MGT301H5 and MGT353H5
3. MGT452H5 and MGT453H5 and MGT455H5
4. 0.5 credit from: MGT262H5 or MGT363H5 or MGT371H5 or MGT374H5 or MGT393H5
5. 0.5 credits from: MGT450H5 or MGT451H5
6. 2.0 credits from: MGT354H5 or MGT355H5 or MGT373H5 or MGT450H5 or MGT451H5 or MGT458H5 or CCT260H5* or CCT302H5* or CCT356H5* or CCT456H5* or GGR252H5 (cannot include any courses already used above)

***Note:** It is recommended that students interested in pursuing the marketing stream consider completing CCT109H5 and CCT110H5 to ensure access to some upper year CCT courses. Students have the option to select some CCT courses to fulfill elective requirements in which prerequisites are strictly enforced.

****Note:** MGT450H5 and MGT451H5 can fulfil only one

Economics: (5.0 credits)

1. ECO200Y5 or ECO204Y5 or ECO206Y5
2. ECO202Y5 or ECO208Y5 or ECO209Y5
3. ECO220Y5 or ECO227Y5 or (STA256H5 and STA258H5) or (STA256H5 and STA260H5)
4. 2.0 credits in ECO at 300/400 level. ECO375H5 Recommended.

No more than 1.0 Economic History credit

Note:

Note that Management and Commerce students can only use 1.0 ROP credit towards program completion.

Please note the following list of acceptable equivalents for application to the POST:

<u>MGT120H5</u>	UTSC: <u>MGAB01H3</u> and <u>MGAB02H3</u> UTSG: <u>RSM219H1</u>

ERSPE2380

Commerce - Major (HBA)

Enrolment Requirements:

This program must be taken as part of an Honours degree. This Major program cannot be combined with the Management (Major or Specialist), Digital Enterprise Management Specialist, or Human Resource Management Specialist.

Limited Enrolment — Admission to this program is based on the following criteria:

- Completion of at least 4.0 credits
- A final mark of at least 63% in each of the following courses:
 - (ECO101H5 and ECO102H5) or ECO100Y5
 - MGM101H5 and MGT120H5
 - MAT133Y5 or MAT135Y5 or MAT137Y5 or MAT157Y5 or (MAT132H5 and MAT134H5) or (MAT135H5 and MAT136H5) or (MAT137H5 and MAT139H5)
- A weighted average of the grades earned in the courses above that meets the program's annual admission cutoff, which is determined annually by the Department of Management. This will vary from year to year and is based on capacity and the applicant pool.

Note:

- Applicants with transfer credits in any of the courses listed above will be assigned a 63% for each applicable transfer credit for program admission. Students can choose to retake these courses at UofT and their UofT grade will be considered in their weighted average instead.
- Application for admission to the program for all students is made during the Subject POST request periods.
- Please see the full list below for equivalent UTSG and UTSC courses.

Completion Requirements:

This program has a total of 7.5 credits.

First Year (3.0 credits):

1. MGM101H5 and MGT120H5
2. (ECO101H5 and ECO102H5) or ECO100Y5
3. MAT133Y5 or MAT135Y5 or MAT137Y5 or MAT157Y5 or (MAT132H5 and MAT134H5) or (MAT135H5 and MAT136H5) or (MAT137H5 and MAT139H5)

Higher Years (4.5 credits):

1. ECO220Y5 or ECO227Y5 or (STA256H5 and STA258H5) or (STA256H5 and STA260H5)
2. MGT220H5 and MGT223H5 and MGT252H5 and MGT231H5 and MGT232H5
3. 1.0 credit from MGT330H5 and MGT363H5 and MGT371H5 and MGT374H5 and MGT393H5 or any 400-level MGT course.

Note:

Note that Management and Commerce students can only use 1.0 ROP credit towards program completion.

Please note the following list of acceptable equivalents for application to the POST:

<u>MGT120H5</u>	UTSC: <u>MGAB01H3</u> and <u>MGAB02H3</u> UTSG: <u>RSM219H1</u>

ERMAJ1111

Certificate in Effective Business Practices & Leadership Skills

The Certificate in Effective Business Practices & Leadership Skills provides eligible students the opportunity to participate in a 4-month (non-credit) paid work placement while completing their program of study. Through the certificate, students will gain authentic learning experiences and apply what they are learning in the classroom to workplace environments. This certificate must be completed concurrently with any Department of Management program.

Although every effort is made to support students in securing a paid work placement, students must receive an offer of employment to complete the certificate. The Department of Management cannot guarantee that students will secure a paid work placement.

Enrolment Requirements:

Limited Enrolment: Enrolment in the Certificate in Effective Business Practices & Leadership Skills is limited due to the experiential learning component. Students wishing to enrol at the end of their second year of study (minimum 7.0 credits) must have a minimum CGPA of 2.5. Please note that the CGPA requirement varies from year to year, based on the applicant pool, but will not fall below 2.5. Additionally, students must meet the following enrolment criteria:

1. Concurrent enrolment in one of the following programs:
 - Human Resource Management, Specialist (BBA);
 - Management, Specialist (BBA);
 - Management, Major (HBA);
 - Commerce, Specialist (BCom);
 - Commerce: Accounting, Specialist (BCom);
 - Commerce: Finance, Specialist (BCom);
 - Commerce: Marketing, Specialist (BCom); or
 - Commerce, Major (HBA)
2. Completion of the following courses prior to request for enrolment:
 - **MGT231H5 - Business Finance I**
3. Completion of at least 5 points prior to the admission deadline in the Professional Skills Development Program (must include Resume Critique or Mock Interview)
4. Submission of an application to the Department of Management.
5. Participation in an enrolment interview.

Completion Requirements:

- MGT231H5, MGT262H5, MGT300H5, MGT010H5 (**NOTE**: This is a zero-credit course)
- 0.5 credit from 400-level course list: MGM464H5 or MGT430H5 or MGT433H5 or MGT434H5 or MGT437H5 or MGT455H5 or MGT463H5 or MGT491H5 or MGT492H5 or MGT493H5 or MGT494H5
- 15 Professional Skills Development Program points (must include Resume Critique or Mock Interview and Career Investment Planning Session)
- Workplace Preparation Workshops
- Work-Integrated Learning Experience (minimum 10-week internship in the Summer term)

To earn the Certificate students must concurrently be enrolled in a Commerce or Management program.

ERCER2020

Notes:

1. **The program requirements in effect at the time the student is admitted to the program must be met in order to fulfill the Degree requirements.**
2. Students interested in combining a BCom degree with an Economics Specialist Program should refer to the appropriate Program of Study for details.
3. Students are encouraged to take one course towards the Distribution Requirement (see Degree Requirements) in First Year.
4. During the Fall-Winter session, Commerce students must take ECO204Y5 and ECO209Y5. They will not have access to ECO200Y5 or ECO202Y5.

The Institute of Communication, Culture, Information & Technology (ICCIT) offers interdisciplinary programs at the University of Toronto Mississauga:

- CCIT Major
- Digital Enterprise Management (DEM) Specialist
- Professional Writing and Communication Major and Minor
- Technology, Coding & Society

ICCIT programs combine academic courses in the arts and sciences with hands-on applied courses in digital media and technology. The focus of these ICCIT programs is on the generation, diffusion, and social impact of new technologies, and complex interactions between media, knowledge and communication technologies and individuals, organizations and society.

In addition to receiving an honours degree from the University of Toronto, ICCIT students who successfully complete CCIT Major or DEM Specialist programs have the opportunity to obtain a Certificate in Digital Communications from Sheridan College.

Entry into ICCIT programs is limited and students are urged to read the program information in the calendar carefully and to consult the institute. For more detailed information, refer to www.utm.utoronto.ca/iccit

Certificate of Completion in Media Studies

The Certificate of Completion in Media Studies has been administratively suspended, pending review. New students cannot currently enroll in workshops to complete this Certificate of Completion.

The Certificate of Completion in Media Skills offers students in an ICCIT program the opportunity to refine and build their connections with media concepts, technologies, ideas, industries, peers, mentor, and community outside of the formal classroom. Through a series of self-curated workshops, students will direct their own learning and engage with their community in unique ways. Workshops will enrich classroom learning by providing students with active learning opportunities to hone and practice technical skills; learn about professional and industry application; hear from industry leaders and experts as well as ICCIT faculty and alumni; and network with their peers and mentors.

Students currently registered in any ICCIT program (i.e. DEM Specialist, CCIT Major, TCS Major, PWC Major and Minor) are eligible to participate in these workshops and earn the Certificate of Completion in Media Skills. ICCIT students will automatically have access to the ICCIT Media Skills Workshop Quercus where they can explore the current roster of available workshops and register for those that fit best with their personal interests as well as personal and professional goals. Completion of a minimum of ten (10) workshops will earn students the Certificate of Completion in Media Skills.

The Certificate of Completion in Media Skills is an optional certificate that students may choose to complete in combination with their ICCIT program/ subject post. Students may also register and attend standalone Media Skills workshops without completing the Certificate of Completion in Media Skills. Students are also eligible to complete both this Certificate of Completion in Media Skills and the Professional Experience Certificate in Digital Media, Communication and Technology (also offered through ICCIT).

Laptop Requirement

Delivering rich and meaningful educational experiences is at the forefront of ICCIT's teaching efforts.

To facilitate this end, students accepted into ICCIT's CCIT, DEM and TCS programs are expected to have a laptop with the recommended minimum technical requirements to support industry-standard software, including the Adobe Creative Cloud. For more detailed information, refer to <https://www.utm.utoronto.ca/iccit/programs/communication-culture-information-technology-ccit/technical-requirements>.

ICCIT Advising

E-Mail: iccit.advising@utoronto.ca

Students should also review the [Degree Requirements](#) section prior to selecting courses

Program website: <http://www.utm.utoronto.ca/iccit>

Communication, Culture, Information and Technology Programs

Digital Enterprise Management - Specialist (Arts)

Digital Enterprise Management (DEM) is a specialist program, providing students with the skills and knowledge for utilizing digital technologies to solve business management and organizational problems in creative and innovative ways. Students study, build, and critically analyze enterprise-grade emerging technologies in addition to studying the traditional managerial fields such as finance, law, economics, organizational studies, risk management, design, and project

management. Understanding the challenges and demands of managing organizations that use and/or develop digital technologies will prepare students for both traditional and digital enterprises.

Enrolment Requirements:

Limited Enrolment — Admission is based on academic performance (CGPA) in a minimum of 4.0 credits that must include a minimum grade of 65% in each of CCT109H5 and CCT110H5 and CCT112H5. Each year the ICCIT program sets a minimum required CGPA. This will vary from year to year and is based, in part, on supply and demand. All students (including transfer students) must complete 4.0 U of T credits before requesting this program.

Courses completed as CR/NCR will not count as part of the 4.0 credits required for program entry. Tuition fees for students enrolling in the DEM Specialist Program will be higher than for other Arts and Science Programs.

Completion Requirements:

13.5 credits are required.

First Year: CCT109H5 and CCT110H5 and CCT112H5

Second Year:

- CCT203H5 and CCT206H5 and CCT219H5 and CCT221H5 and CCT224H5 and CCT225H5 and CCT261H5

Higher Years:

1. CCT321H5 and CCT324H5 and (CCT328H5 or MGD428H5) and (CCT325H5 or MGD425H5) and CCT354H5 and CCT355H5 and CCT361H5
2. CCT424H5 and CCT461H5 and MGD421H5 and MGD426H5
3. 1.0 credit from CCT401H5 or CCT410H5 or CCT476H5 or MGD415H5 or MGD427H5.
4. 2.0 credits of CCT or MGD at the 300- or 400-level. Cannot include any courses already used above.

Notes:

1. Students cannot combine the Digital Enterprise Management Program with the CCIT Major program, or the Management Major Program or the Commerce Major program or Technology, Coding and Society major program.
2. Students are encouraged to review CCT 300 and 400 level elective courses in advance, and take necessary 200 level CCT courses to meet prerequisites in higher years.
3. Student who cannot complete CCT219H5, due to exclusion with ECO100Y5 or ECO101H5 or ECO102H5, will need to take 0.5 credit from any 200-level or higher CCT or MGD course in its place.

ERSPE1307

CCIT - Major (Arts)

Communication, Culture Information & Technology (CCIT) is an undergraduate interdisciplinary major program, the curriculum for which provides students with a foundation in the analysis, evaluation and interpretation of communication and digital media using appropriate methodologies. CCIT provides students the opportunity to design a range of communication media and digital artifacts suitable for collaboration, communication, learning, and exploration.

Enrolment Requirements:

Limited Enrolment — Admission is based on academic performance (CGPA) in a minimum of 4.0 credits that must include a minimum grade of 65% in each of CCT109H5 and CCT110H5. Each year the ICCIT program sets a minimum required CGPA. This will vary from year to year and is based, in part, on supply and demand. All students (including transfer students) must complete 4.0 U of T credits before requesting this program.

Courses with a grade of CR/NCR will not count as part of the 4.0 credits required for program entry. Tuition fees for students enrolling in the CCIT Major program will be higher than for other Arts and Science programs.

Completion Requirements:

8.0 credits are required including at least 4.0 at the 300/400 level. Program must be taken in combination with another major or two minors.

First Year: (1.0 credit required)

CCT109H5 and CCT110H5

Second Year: (3.0 credits required)

1. CCT204H5 and CCT208H5 and CCT218H5
2. 0.5 credit from CCT200H5 or CCT206H5 or CCT210H5 or CCT222H5
3. 0.5 credit from CCT205H5 or CCT212H5 or CCT260H5
4. 0.5 credit from any 200-level CCT course

Higher Years: (4.0 credits required)

Minimum of 4.0 credits from any 300/400 level CCT/VCC courses, of which 1.0 credit must be at the 400 level.

NOTES:

1. All 200-level and higher CCT courses are restricted to students in CCIT programs.
2. Students may take a maximum of 2.0 credits of VCC courses.
3. Students accepted into the CCT major prior to 2022 are still eligible to complete the Sheridan Certificate until 2024.

ERMAJ1034

Professional Writing and Communication - Major (Arts)

Professional Writing and Communication (PWC) program aims to produce critical thinkers and flexible, reflective writers and editors who apply their knowledge of language across a range of academic disciplines and professional practices. PWC students transform complex ideas into engaging and exciting writing for a diversity of audiences across multiple platforms. Through intensive training in writing and editing processes, graduates harness the power of narrative to research, write and publish original work.

Enrolment Requirements:

Limited Enrolment — Enrolment in this program is limited. 4.0 credits are required, including the following:

1. CCT109H5 (with a minimum grade of 65%);
2. CCT110H5 (with a minimum grade of 65%);
3. WRI173H5 (with a minimum grade of 65%); and
4. A minimum CGPA (see note below).

NOTES:

1. The minimum CGPA and grade(s) required for program entry are determined annually based on demand. It is, however, never below the stated minimums above.
2. All students (including transfer students) must complete 4.0 U of T credits before requesting this program.
3. Courses completed as CR/NCR will not be counted as part of the 4.0 credits required for program entry.

Completion Requirements:

8.0 credits are required.

First Year:

1. CCT109H5
2. CCT110H5
3. WRI173H5 or WRI203H5

Second Year:

1. WRI273H5 or WRI292H5 or WRI293H5
2. 0.5 credit from any 200-level WRI course

Higher Years:

5.5 credits from any 300 or 400 level WRI courses, including the options of CCT417H5 or CCT454H5. 0.5 credit must be at the 400-level.

ERMAJ1302

Technology, Coding & Society - Major (Arts)

The Technology, Coding, and Society (TCS) major program focuses on the impact of technologies, including hardware, platform and associated software, on people and on society more generally. Students learn essential computer coding skills, are taught theories on the use of digital platforms from humanistic and social science perspectives, learn to analyze the data that digital platforms produce, and then apply these concepts through practical labs and through optional work-integrated learning opportunities. Since the TCS Major is within the Institute of Communication, Culture, Information and Technology (ICCIT), students can concurrently obtain a Professional Experience Certificate in Digital Media, Communication, and Technology from ICCIT.

Enrolment Requirements:

Limited Enrolment — Admission is based on academic performance (CGPA) in a minimum of 4.0 credits that must include a minimum grade of 65% in each of CCT109H5, CCT110H5 and CCT111H5. Enrolment in this program is determined annually and is limited to students who have a CGPA of at least 2.4. Tuition fees for students enrolling in any CCIT Specialist/Major programs will be higher than for other Arts and Science programs.

Completion Requirements:

8.0 credits are required including at least 3.5 at the 300/400 level. Program must be taken in combination with another major or two minors.

First Year: (1.5 credits required)

- CCT109H5, CCT110H5, CCT111H5

Second Year: (3.0 credits required)

- CCT205H5, CCT208H5, CCT211H5, CCT212H5 and CCT285H5
- 0.5 credits from the following courses: CCT202H5 or CCT221H5 or CCT226H5 or CCT286H5

Third and Higher Years: (3.5 credits required)

- CCT320H5, CCT380H5, CCT432H5, and CCT477H5
- 1.5 credits from the following courses: CCT308H5 or CCT382H5 or CCT383H5 or CCT410H5 or CCT416H5 or CCT478H5

Note:

1. 300/400-level CCT courses are restricted to students in ICCIT programs only.
2. It is your responsibility to ensure that the prerequisites for courses listed in the calendar have been met. Students without the prerequisites can be removed at any time. No waivers will be granted.

ERMAJ1040

Professional Writing and Communication - Minor (Arts)

Professional Writing and Communication (PWC) program aims to produce critical thinkers and flexible, reflective writers and editors who apply their knowledge of language across a range of academic disciplines and professional practices. PWC students transform complex ideas into engaging and exciting writing for a diversity of audiences across multiple platforms. Through intensive training in writing and editing processes, graduates harness the power of narrative to research, write and publish original work.

Enrolment Requirements:

Limited Enrolment — Enrolment in this program is limited. 4.0 credits are required, including the following:

1. WRI173H5 (with a minimum grade of 65%); and
2. A minimum CGPA (see note below).

NOTES:

1. The minimum CGPA required for program entry is determined annually based on demand.
2. All students (including transfer students) must complete 4.0 UofT credits before requesting this program.
3. Courses completed as CR/NCR will not be counted as part of the 4.0 credits required for program entry.

Completion Requirements:

4.0 credits are required.

First & Second Years:

1. First Year: WRI173H5 (0.5 credit)
2. Second Year: A minimum of 0.5 WRI credit at the 200-level

Third & Fourth Years: 3.0 WRI credits at the 300- or 400-level with a minimum of 0.5 credit at the 400-level.

Note:

Students are encouraged to review 300 and 400-level WRI courses in advance, and take necessary 200-level WRI courses to meet prerequisites in higher years.

ERMIN1302

Professional Experience Certificate in Digital Media, Communication and Technology

The Professional Experience Certificate in Digital Media, Communication and Technology program provides eligible students the opportunity to integrate work placements into their ICCIT program of study. The certificate offers students authentic learning experiences outside the classroom that involve the application of skills and concepts learned in the classroom through a 12-16 week non-credit paid work term and a course-based internship. This certificate program must be taken in addition to any of the current ICCIT programs.

Students enrolled in the certificate program also complete two professional practice courses in class (1.0 credit), CCT273H5 Professional Practice and Communication, and CCT373H5 Career Planning and Development, as well as 0.5 credit from CCT409H5 Special Topics in Work-Based Learning or CCT410H5 CCIT Internship I or WRI410H5 Internship I that count toward their program requirements.

Students will be eligible to apply for this certificate program at the end of their second year of study. Requests to enrol in this certificate program subject post will only be assessed through the Spring term via Acorn with notification of acceptance/invitations made available in the Summer.

Students will be awarded the certificate via a transcript notation upon successful completion of the four required courses and one 12-16 week full-time work placement.

Enrolment Requirements:

Limited Enrolment: Enrolment in the Certificate Program in ICCIT is limited to students who have met the following criteria:

1. Concurrently enrolled in one of the following ICCIT programs:
 - Communication, Culture, Information and Technology (CCIT) Major;
 - Professional Writing & Communication (PWC) Major;
 - Digital Enterprise Management (DEM) Specialist;
 - Technology, Coding and Society (TCS) Major.
2. Have completed CCT110H5 Rhetoric and Media or WRI173H5 Creative Non-Fiction or WRI203H5 Expressive Writing.
3. Have completed CCT273H5 Professional Practice and Communication with a minimum course grade of 70%.
4. Have achieved an overall minimum CGPA of 2.5. The CGPA requirement for entry will be set each year in relation to the number of applicants, with the minimum being 2.5.

Completion Requirements:

2.0 credits and one 12-16 week full-time work placement.

Required courses:

1. CCT110H5 or WRI173H5 or WRI203H5
2. CCT273H5 and CCT373H5
3. CCT409H5 or CCT410H5 or WRI410H5

ERCER1033

Communication, Culture, Information and Technology Courses

CCT109H5 • Contemporary Communication Technologies

This course examines different information and communication technologies (ICTs) through the analysis of such genres as contemporary written, visual, oral, electronic and musical forms. It illustrates a range of theoretical perspectives that seek to explain the relationship between communication and technology. This course will also examine, briefly, the history of ICTs.

Distribution Requirements: Social Science

Total Instructional Hours: 24L/11P

Mode of Delivery: In Class

CCT110H5 • Rhetoric and Media

This course critically examines the written, visual, aural, and dynamic rhetoric as it pertains to communications for academic and other purposes across a range of digital and interactive media discourses.

Prerequisites: [CCT109H5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L/11T

Mode of Delivery: In Class

CCT111H5 • Critical Coding

This experiential learning course introduces students to the practice and theory of coding, programming, and basic development of user-oriented software. The lectures illustrate a core range of software development concepts that provide the foundations needed for the practical coding of front-end applications such as mobile interfaces or of back-end software such as introductory artificial intelligence or social media analysis. The practicals are lab-based and focus on applying these theoretical skills to solving problems grounded in a critical understanding of the interaction between people, culture, and society, by developing software or apps in languages such as Java, Objective C, Swift, Python.

Corequisites: [CCT109H5](#) and [CCT110H5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

CCT112H5 • Foundations of Management

This course introduces students to the foundational principles and analytical tools from the management discipline in link with today's economic and technological advancements. Particular emphasis is given to the interconnections between information and communications technologies, innovation, the role of managers and their decision-making processes, and related social, cultural, and economic institutions.

Distribution Requirements: Social Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

CCT200H5 • Race, Media and Culture

This course provides an introduction to the intersecting fields of critical race, media, and cultural studies. We will pay particular attention to dynamics of social difference and power and the communication strategies and technologies through which these are navigated, reproduced and interrupted. Students will be introduced to critical and analytical tools for understanding the cultural and media circulation, regulation and reimagination of things like race, sexuality, time, gender, class, indigeneity, space, ethnicity, ability and nationality. These critical tools equip students with the skills to write, design and build ethical innovations in new media and culture.

Prerequisites: [CCT109H5](#) and [CCT110H5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L/11T

Mode of Delivery: In Class

CCT202H5 • Human-Machine Communication

From voice responsive cars and virtual assistants to social robots and smart toys, people are increasingly interacting with communicative technologies in their daily lives. In this course students will consider the implications of this evolution in communication practice – informing design, ethics, efficacy, privacy, and other implications. Human-machine communication is a specific area of study within communication encompassing human-computer interaction, human-robot interaction, and human-agent interaction.

Prerequisites: [CCT109H5](#) and [CCT110H5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

CCT203H5 • Business Research Methods

This course provides an introduction to research design, conduct, and analysis for making informed business decisions. The course will focus on basic methodologies, qualitative and quantitative methods, data sources, reliability, validity, and other measurement issues, data collection and research design, ethics in research, and report writing and presentation.

Prerequisites: [CCT109H5](#) and [CCT110H5](#)

Exclusions: [CCT208H5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

CCT204H5 • Design Thinking I

An introduction to the basic concepts and skills of design thinking as an interdisciplinary subject. Emphasizes creative and critical thinking in the design process; provides the student with the theory and operational skills necessary to solve design problems in the realms of symbolic and visual communication, material objects, environments, and organized services and activities.

Prerequisites: [CCT109H5](#) and [CCT110H5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

CCT205H5 • Digital Innovation and Cultural Transformation

This course examines a range of theoretical perspectives and worldviews that assess the cultural and social changes brought about by modern technology. These perspectives will be used to analyze the potential problems initiated by the introduction of digital and computing technologies to various contexts. Possible topics include: cybernetics; media convergence; artificial intelligence/life; smart technology; digital environmentalism and digital warfare.

Prerequisites: [CCT109H5](#) and [CCT110H5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

CCT206H5 • Law, Technology and Culture

This course will provide a detailed review of copyright, trademark and patent law with a special emphasis on how they apply to digital media. This course will also review the law of contract as it applies to digital industries and investigate the relevant tort law. In addition, other regulatory issues will be discussed such as

telecommunications and broadcasting law both from a Canadian and an international perspective.

Prerequisites: [CCT109H5](#) and [CCT110H5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L/11T

Mode of Delivery: In Class

CCT208H5 • Communications Research Methods

This course is a survey of research methodologies in the field of communication and media. A central goal of the course is to train students how to critically assess methods commonly used in social science research. Students will also become familiar with how to properly collect and interpret quantitative and qualitative social science research data.

Prerequisites: [CCT109H5](#) and [CCT110H5](#)

Exclusions: [CCT203H5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L/8T

Mode of Delivery: In Class

CCT210H5 • Signs, Referents, and Meaning

How written or spoken statements, gestures, and aesthetic objects come to have meanings. How we recognize and fail to recognize such meanings. The nature, systems, and processes of interpretation. The role of mental models.

Prerequisites: [CCT109H5](#) and [CCT110H5](#)

Exclusions: [CCT213H5](#) or [VIC223YI](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L/11T

Mode of Delivery: In Class

CCT211H5 • Fundamentals of User Interface Programming

This experiential learning course introduces students to the practice and theory of coding, programming, and development of user interfaces. The lectures illustrate an advanced range of software development concepts needed for the practical coding of user interfaces across a variety of devices. The practicals are lab-based and focus on applying these theoretical skills to design, implementation, and testing of user interface software components. Students will have the opportunity to acquire project management and software engineering skills (Scrum, Agile), programming languages (Java, Javascript, Objective C, Swift, and other mobile and web programming languages), and evaluation methodologies (unit testing, bug tracking).

Prerequisites: CCT109H5 and CCT110H5 and CCT111H5

Distribution Requirements: Social Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

CCT212H5 • Hacker Culture

By subverting and re-appropriating technologies, hackers influence both the evolution of computing and the politics of digital media. Hacking contributes to shaping the future of entrepreneurship, free speech, surveillance, and intellectual property. The course will examine the cultural, social, and legal facets of hacking in fields ranging from software production to political activism and the hacker underground. It will be based on social science research on hackers as well as concrete examples of data re-appropriation and technology modification.

Prerequisites: CCT109H5 and CCT110H5

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

CCT218H5 • Foundations of Media and Technology Studies

An introduction to foundational theories for studying the relationship between media, technology and society. The course presents technology as a social practice and considers a wide variety of concepts and methods for studying its cultural and political significance.

Prerequisites: CCT109H5 and CCT110H5

Distribution Requirements: Social Science

Total Instructional Hours: 24L/11T

Mode of Delivery: In Class

CCT219H5 • Media Economics I

This course presents economic principles that explain how markets help organize exchange and production among competing but nevertheless cooperating economic units. Theories of consumer demand, the economic nature and function of business firms, optimal business decision rules of monopoly, oligopoly, and anti-combines regulations, as well as game theory, are presented. Efficiency criteria pertaining to the operation of firms and markets, the role of property rights, and the scope for public policy, are also examined.

Prerequisites: CCT109H5 and CCT110H5 and CCT112H5

Exclusions: CCT319H5 or ECO100Y5 or (ECO101H5 or ECO102H5)

Distribution Requirements: Social Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

CCT221H5 • Digital Marketing I (DEM)

Techniques for developing a comprehensive marketing strategy will be developed with particular emphasis on digital products and services. The nature of digital markets, approaches to advertising, pricing and such areas as versioning will also be discussed.

Prerequisites: CCT109H5 and CCT110H5 and CCT112H5

Exclusions: CCT322H5 or MGT252H5 or MGT352H5

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

CCT222H5 • Political Economy of Communication, Culture, and Technology

The course analyzes the relationship between media systems, communication technologies, and power. As an introduction to a political economy approach, this course surveys how media, culture, information and technologies are produced, circulated, and consumed, with attention to both historical developments and contemporary practices in the digital era. The course provides a basic understanding of media systems, technologies, and culture production in relation to the market, the state, and civil society. Students will develop a basic understanding of the political, economic, cultural, and regulatory environment in which media, culture, and technologies are produced, and pay particular attention to the implications of processes such as globalization, digitization, marketization, and commodification for social life.

Prerequisites: CCT109H5 and CCT110H5

Distribution Requirements: Social Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

CCT224H5 • Organizational Studies I

This course provides a comprehensive overview of the activities and processes that take place in organizations. Major emphasis is placed on the investigation of the varied measures that can be developed to assess and subsequently improve the performance of the organization. The interpretation of measures in managerial decision-making will also be investigated in detail.

Prerequisites: CCT109H5 and CCT110H5

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

CCT225H5 • Information Systems

This course has been designed to provide students with a basic understanding of the role of computers and

communication systems in modern organizations. Unlike programming courses, the focus here is on the application of computer-based systems to support information requirements for problem solving and managerial decision-making. Topics include concepts of information, humans as information processors, survey of hardware and software applications, introduction to information systems analysis and design.

Prerequisites: CCT224H5

Exclusions: MGM371H5 or MGT371H5 or RSM327H1 or MGAC70H3

Distribution Requirements: Social Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

CCT226H5 • Data Analysis I

This course introduces students to the basic tools of data analysis, most particularly statistics and modeling that are critical for subsequent courses in Marketing and Data Analysis II. Students are introduced to basic principles of descriptive and inferential statistics with a focus on the types of data that they will typically encounter in a digital environment.

Prerequisites: CCT109H5 and CCT110H5 and CCT112H5

Distribution Requirements: Social Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

CCT250H5 • Technology and Creative Expression

Advances in technology have provided users ready access to empowering technologies of creative expression. This emergence of prosumer and amateur production technology has both destabilized and revolutionized established practice in digital imaging, time based media, gaming, and design. This course provides a survey of contemporary theories, technologies and critical challenges in a variety of media of creative expression.

Prerequisites: CCT109H5 and CCT110H5

Distribution Requirements: Social Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

CCT260H5 • Web Development and Design I

This course will explore foundational techniques of web development and design in the context of human-centred technologies, and design of experiences, interfaces and interactions. Topics include development of semantic web properties using contemporary programming techniques; standards-based design of responsive accessible systems; and production of rich media for online displays.

Prerequisites: CCT109H5 and CCT110H5

Distribution Requirements: Social Science

Total Instructional Hours: 36P

Mode of Delivery: In Class

CCT261H5 • Speculative Design I

This introductory course in information architecture is a foundation of user interface design. Information architects work in organizations to design interfaces that enable users to find and navigate complex data via technology. Using architectural and design concepts to create and organize user-friendly information structures, this course includes exploring theories and hands-on practice with information organization, structure, categorization, representation, navigation and modeling.

Prerequisites: CCT109H5 and CCT110H5

Distribution Requirements: Social Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

CCT270H5 • Principles in Game Design

This course will address the principles and methodologies behind the rules and play of games. It will foster a solid understanding of how games function to create experiences, including rule design, play mechanics, game balancing and the integration of visual, tactile, audio, and textual components into games.

Prerequisites: CCT109H5 and (CCT110H5 or ENG110H5)

Distribution Requirements: Social Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

CCT273H5 • Professional Practice and Communication

This professional practice course provides students with basic skills in professional communication, acumen, and problem solving that will help them develop personally and professionally.

Prerequisites: 70% in CCT110H5 or (WRI173H5 or WRI203H5).

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

CCT285H5 • Immersive Environment Design

Students will develop skills in the areas of bitmap/vector graphics, audio/visual production and editing, 2D/3D modeling and animation, and video game design. Students will produce immersive environments while

addressing and engaging issues of remix culture and intellectual property.

Prerequisites: CCT109H5 and (CCT110H5 or ENG110H5)

Distribution Requirements: Social Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

CCT286H5 • Interactive Media Design

This course provides students with the opportunity to learn the skills necessary to produce responsive web content. Students will develop skills in the areas of website design, interactive and animated web content, mobile app development, and mobile game development.

Prerequisites: CCT109H5 and (CCT110H5 or ENG110H5) and CCT285H5

Distribution Requirements: Social Science

Total Instructional Hours: 36P

Mode of Delivery: In Class

CCT295H5 • Topics in Communication, Culture, Information and Technology

An in depth examination of selected topics in communication, culture, information and technology. Topics vary from year to year, and the content in any given year depends on the instructor. The contact hours for this course may vary in terms of contact type (L, S, T, P) from year to year, but will be between 24-36 contact hours in total. See the UTM Timetable.

Prerequisites: CCT109H5 and CCT110H5

Distribution Requirements: Social Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

CCT300H5 • Critical Analysis of Media

This course offers an overview of critical theoretical concepts and applies them to contemporary media. Students will use concepts from social theory, media studies and technology studies to critically analyze the many facets of the evolution and pervasiveness of digital media.

Prerequisites: CCT210H5 or CCT218H5

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

CCT301H5 • Design for Online Cultures

This course builds upon the concepts introduced in CCT218H5, Introduction to Digital Culture, through an exploration of the design and development of online information services (e.g. websites, digital libraries). It

examines the standards, modeling approaches, and methods for testing. Students will experiment with different approaches to design of websites or other online services for different types of delivery devices (e.g. desktops, mobiles).

Prerequisites: CCT218H5

Distribution Requirements: Social Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

CCT302H5 • Developing and Managing Communication Campaigns and Projects

Communication campaigns and projects, whether they involve marketing, politics, or advertising require the establishment of objectives, tasks, and milestones. Furthermore developing and managing campaigns requires the development of knowledge and skills relating to the management of teams. Students will acquire analytic skills allowing them to understand the development and management of communication campaigns and projects. Current theory and research will comprise an integral part of the course as will study of the appropriate software tools. A significant component of the assessment for this course will be a group project that will involve the design of a communication campaign or project which will be presented to a group of experts.

Prerequisites: A minimum of 8.0 credits.

Course Experience: University-Based Experience

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

CCT303H5 • Communicating In and Between Organizations

This course examines the nature of communications in organizations. Communications are the glue that holds organizations together. Understanding theoretically and practically the multi-faceted functions of communication in and between organizations is essential for anyone seeking to develop a career in an organization whether it be private or public. Students will acquire analytic skills allowing them to understand organizational communication from a variety of different perspectives. They will also be required to develop and actively critique practical examples of organizational communication.

Prerequisites: CCT210H5 or CCT218H5

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

CCT304H5 • Visual Communication and Digital Environments

This is a project-based course that focuses on analyzing and evaluating the persuasive impact of the images we use every day to make decisions about our social networks, what we buy, how we live, what we care about, and who we are. Students will learn about rhetorical devices used in visual communications and then work in teams to create a persuasive awareness campaign for an NGO, Government Agency, Healthcare organization or other social interest group as the final project.

Prerequisites: CCT210H5

Course Experience: University-Based Experience

Distribution Requirements: Social Science

Total Instructional Hours: 24L/8T

Mode of Delivery: In Class

CCT305H5 • Design and Implementation of Multimedia Documents

The principles and techniques of user-centered, functional design are introduced and applied to the analysis of software interfaces and the creation of multimedia documents. The roles of shared metaphors and mental models in clear, concise and usable designs are emphasized. Students will produce multimedia documents, which make effective use of text, colour, user input, audio, still, and time-based images.

Prerequisites: CCT204H5 or CCT250H5

Distribution Requirements: Social Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

CCT306H5 • Interpersonal Communication

An introduction to the cognitive, social, dyadic and group factors that shape communication and relational development between people. The objective of this course is for students to learn and apply the communication processes involved in encoding and decoding messages that help us understand others around us. Students will learn concepts, theories, and skills related to interpersonal communication. Topics include impression management, interpersonal influence, relational development, and conversational skills.

Prerequisites: Completion of 8.0 credits

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

CCT307H5 • Critical Infrastructure Studies

This course explores how infrastructures shape society, culture, and understanding of the human condition. We examine different infrastructures from electric networks to communication networks, data farms, environmental sensing systems, smart cities, and satellite technologies and our reliance on them. We will also examine how these infrastructures are sustained and maintained. By building on critical theories and approaches to infrastructures and their impact, the course investigates the power of infrastructure to establish the conditions of our daily lives.

Prerequisites: CCT218H5

Exclusions: CCT207H5

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

CCT308H5 • Advanced Research Methodologies

This course provides students with an in-depth study and critical analysis of research methodologies within the discipline of communications and new media. Students will learn to explicitly identify generalizable findings, ethical concerns, study limitations, and new contributions to the field of knowledge using existing studies in qualitative, quantitative and mixed methodologies. Students will also gain experience in identifying and assessing problems within a research design and develop the ability to recommend revisions and/or new contexts and techniques for replicating the studies.

Prerequisites: CCT203H5 or CCT208H5

Distribution Requirements: Social Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

CCT310H5 • Popular Culture and Society

How does consumerism affect symbolic production, circulation and transactions? Major modern theories of mass communication will be presented (Fiske, Bourdieu, Benjamin, Jenkins, Frankfurt school, and Marxist approaches). Students will explore new structures of mass communication in relation to popular culture systems, and their economic, technological and institutional dimensions. Topics include Disney, Hollywood, celebrity culture, social media, and user generated content in digital environments.

Prerequisites: CCT210H5

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

CCT311H5 • Game Design and Theory

This course provides an introduction to games studies. It reviews the history of games, from board and card games through to the latest digital games. It enables students to understand the medium of games through various lenses such as critical theory and ethnography. Students are introduced to the concepts of game narrative, the influence of technology in digital games, and the emergence of game paradigms such as casual games, serious games, game 'modding', and subversive play.

Prerequisites: CCT270H5

Distribution Requirements: Social Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

CCT312H5 • Interactive Story Telling for Game Development

Campus: Sheridan

(Offered at Sheridan College) This course will address traditional storytelling and the challenges of interactive narrative. Students will develop a solid understanding of traditional narrative theory as well as experimental approaches to storytelling in literature, theatre and film with relevance to game development.

Prerequisites: CCT270H5

Distribution Requirements: Social Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

CCT314H5 • Mind, Media and Representation

This course applies a variety of theoretical and practical approaches to consider the multiple and often conflicting ways representations in media are produced and consumed. The study of representations is approached from the perspective that they are best understood as both discursive and ideological. Questions to be examined include: What does it mean for historical and contemporary representations to carry economic, ideological and discursive power? To what extent do audiences hold power to resist or negotiate with representations? How might we interrogate the notion that we live in a post-feminist, post-racialized society in which older ideas about gender, race and power no longer apply or need re-thinking?

Prerequisites: A minimum of 8.0 credits including CCT109H5 and CCT110H5.

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

CCT316H5 • Communication and Advertising

A study of theories in communication and meaning with different reference to advertising, advertising messages, and advertising management.

Prerequisites: CCT210H5

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

CCT317H5 • Creative and Experimental Coding

This course will instruct students in the use of programming languages such as Python or Processing for novel applications, including cases from animation, design, and information visualization. Appropriate use of code libraries, platforms and programming techniques will be developed. Assessment will be based on both programming and the expressive use of programs in their case context.

Prerequisites: CCT211H5

Distribution Requirements: Social Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

CCT318H5 • Sustainability and the Digital Enterprise

This course focuses on investigating the impacts of the digital enterprise on sustainability. The course presents an overview of the sustainability challenges and the concrete approaches to solving those challenges with the use of technology. The course uses an active learning approach allowing students the opportunity to learn while working on different sustainability projects linked to digital enterprises.

Prerequisites: Minimum of 8.0 credits including CCT112H5

Distribution Requirements: Social Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

CCT320H5 • Communication, Technology, and Social Change

This course explores how media and media technology have shifted the nature of existing political and social orders. We will focus on how social movements and political change engage media and technology to disrupt social norms and practices that perpetuate inequality. This will bring us in contact with theories of social movement mobilization, political communication, and digital media. We may also explore the ways that legacy and digital media have changed to be in service of misinformation and state repression.

Prerequisites: CCT212H5 or CCT218H5 or CCT222H5

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: Online, In Class

CCT321H5 • Introduction to Finance

This course will provide students with an understanding of investment appraisal from a financial standpoint. It will provide them with the necessary tools to construct the financial component of a business plan and analyze the financial performance of a company. It will examine the practical problems of capital budgeting and highlight the techniques of performing ongoing monitoring of a company's financial health and risks.

Prerequisites: CCT112H5 and (CCT219H5 or CCT319H5) and CCT224H5

Exclusions: MGM230H5 or MGT230H5 or MGT331Y1 or MGT337Y5

Distribution Requirements: Social Science

Total Instructional Hours: 36P

Mode of Delivery: In Class

CCT324H5 • Organizational Studies II

Overview of individual and group behaviour in organizations, including motivation, communication, decision making, influence and group dynamics. Examination of major aspects of organizational design including structure, environment, technology, goals, size, inter-organizational relationships, innovation and change.

Prerequisites: CCT224H5

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

CCT325H5 • Media Economics II

This course explores macroeconomics through the analysis of national and international crises. The course begins with a discussion of the nature of economics, a brief examination of markets, and a discussion of crisis and growth. We survey the institutions and dynamics of growth in the post WWII period, their breakdown in the 1960s and the spread of international crisis in the 1970s, and the crises of various economic policy responses from the 1980s to the present. After this historical overview, we explore macroeconomic theory and its development over the last 50 years. We study the Keynesian model and its emphasis on employment and output, its crisis in the late 1960s and early 1970s, the rise of monetarist alternatives, the elaboration of aggregate supply and demand models highlighting prices instead of employment, the surge of supply-side and rational expectations economics during the Reagan administration and the continuing debates among economists over the merits and problems of the various theoretical approaches. The course closes with an examination the various forms of crises tied to the

emergence of information and communications technologies and the knowledge economy.

Prerequisites: CCT219H5 or CCT319H5 or ECO100Y5 or (ECO101H5 or ECO102H5).

Exclusions: MGD425H5

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

CCT328H5 • Project Management

Approaches to the management of complex technical projects will be investigated. Topics include project estimating, costing and evaluation, organizing and managing project teams, quantitative methods for project planning and scheduling, introduction to computer-based project management tools. The course may involve an applied field project.

Prerequisites: A minimum of 8.0 credits.

Exclusions: MGD428H5

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

CCT331H5 • Social Media and Society

This course introduces students to critical approaches to social media drawing from theories and fields including software studies, platform studies, critical theory and political economy. The course provides students with tools and theories to analyze and understand current social media connectivity, and how social media platforms function as socio-cultural systems.

Prerequisites: CCT218H5 or CCT222H5

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

CCT332H5 • Canadian Communication Policy

This course examines the policy and regulatory frameworks that shape media, culture, and technology in Canada. The course surveys the historical development of communication policy in Canada, broadly understood, and introduces students to issues and debates in the development of communication policy for specific sectors such as broadcasting, creative industries, platforms, and the internet.

Prerequisites: CCT109H5 and CCT110H5

Distribution Requirements: Social Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

CCT333H5 • Social Innovation

This course introduces students to the strategies and processes of social innovation through usability studies, systems analysis, and artifact prototyping for new products or services for underserved groups. Students will learn various techniques of understanding user needs requirements and design methodologies, and apply this knowledge to create socially innovative prototypes to apply to real world situations. By the end of this course, students will have worked in groups to develop design alternatives for a technological artifact or system of their choosing, gain knowledge of human-centred design strategies and learn how to become change agents through case studies, best practice analyses, and relevant readings.

Prerequisites: CCT250H5

Course Experience: University-Based Experience

Distribution Requirements: Social Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

CCT334H5 • History and Theory of Game Production

Campus: Sheridan

(Offered at Sheridan College) This course will examine the principles, theory and practice behind the production of games. By examining the history and contributions of early founders such as Atari and Activision, all the way to present-day leaders such as Electronic Arts and Sony, students will gain an understanding of how the global video game industry operates. The lectures and practical work will foster an approach to the understanding of game production issues including technology, law, marketplace and audience demand.

Prerequisites: CCT109H5 and CCT110H5

Distribution Requirements: Social Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

CCT335H5 • Technology and the City

Technology continues to reshape the physical contours of our built environments as much as it redefines our conceptualization of how we inhabit and interact within them. This course investigates how urban form, space, infrastructure and communication are mediated by new and evolving technologies.

Prerequisites: CCT109H5 and CCT110H5

Distribution Requirements: Social Science

Total Instructional Hours: 24L/11T

Mode of Delivery: In Class

CCT336H5 • Comics and Digital Culture

Campus: Sheridan

(Offered at Sheridan College) Examining the medium of comics and graphic novels and its evolution in an era of digital production and dissemination. Starting from a foundational understanding of the visual grammar of comics, students create their own graphic narratives and later explore the dynamics of digital dissemination by creating viral and memetic content for an Internet audience.

Distribution Requirements: Social Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

CCT340H5 • Gender, Media and Technology

This course brings a gendered lens to the study of media and technology. The course explores the (re)production and (re)presentation of gender through communicative practices in a variety of mediums, including print media, TV, activist media, video games and online platforms. The course develops an understanding of gender ideologies and how media, technologies, and communication help produce gender. The course examines the way gender identities are constructed by mainstream and alternative media; gendered divisions of media and digital labour; the relationship between ICTs and the performance of gender and sexuality; masculinities, gender politics; feminist theory; and the construction and negotiation of gender in relation to mediated environments.

Prerequisites: CCT109H5 and CCT110H5 and (CCT200H5 or CCT210H5 or CCT222H5 or WRI173H5 or WRI203H5)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

CCT341H5 • Introduction to IT Consulting

Information Technology (IT) Consulting is a growing profession that embodies the use of computer-supported collaborative tools in the execution of business functions. In this course students engage with the principles of Computer Supported Co-operative Work (CSCW) through an experiential opportunity to work with a real client. Students create an IT Consulting company and take on the role of consultants, learning core skills (soft and hard) necessary for this profession, including client management, communication, ideation, analysis and solution development, project management, presentation skills, and web design. Using case studies we discuss consulting lessons learned and problems to avoid within the context of industry best practices.

Prerequisites: Minimum of 8.0 credits.

Course Experience: Partnership-Based Experience

Distribution Requirements: Social Science

Total Instructional Hours: 24P

Mode of Delivery: In Class

CCT351H5 • Theory and Practice of Animation

Campus: Sheridan

(Offered at Sheridan College) This course introduces the student to the history of animation from the earliest exploration of the animated image in the early 1900's to the most current computer, traditional and web-based practices. This course will focus on important stylistic, narrative and technological developments.

Prerequisites: A minimum of 8.0 credits including CCT109H5 and CCT110H5.

Distribution Requirements: Social Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

CCT352H5 • History and Practice of Design

This course examines the historical development of communication design from the industrial revolution to the present. The student will focus on the emergence of design practice and theory in changing economic, technological and social contexts.

Prerequisites: CCT204H5

Distribution Requirements: Social Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

CCT353H5 • Digital Media: Video

This course will explore the theoretical and practical aspects of producing narrative time based imagery within a digital environment. The conceptual and digital tools as well as workflows and delivery systems that have been developed to produce images will be explored.

Prerequisites: A minimum of 8.0 credits including CCT109H5 and CCT110H5.

Distribution Requirements: Social Science

Total Instructional Hours: 48P

Mode of Delivery: In Class

CCT354H5 • Digital Marketing II

This course examines digital marketing strategies and the role of online and mobile advertising platforms. Students will explore how emerging technologies are used to facilitate B2B and B2C transactions. A number of domains will be covered (search, display, programmatic trading, mobile, social, etc.) to give students a comprehensive understanding of both existing marketing strategies and emerging trends. This class will emphasize the strengths and weaknesses of various approaches to digital marketing while helping students develop a greater

understanding of the different elements of marketing campaigns from formulation and implementation to integration and assessment.

Prerequisites: CCT221H5 or CCT322H5

Exclusions: CCT356H5 or MGT414H5 (Winter 2022) or MGT450H5

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

CCT355H5 • Critical Approaches to Innovation

This course provides students with a survey of critical theories appropriate to the study of technological innovation. Students will: 1) explore theories of the social, cultural, and ecological impacts of technological innovation; 2) apply these theoretical lenses to the study of trends in innovation; and 3) propose a product or approach to innovation using social, cultural, or ecological criteria.

Prerequisites: CCT224H5

Distribution Requirements: Social Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

CCT356H5 • Online Advertising and Marketing

This course investigates the industrial practices and tools of effectively marketing and promoting goods and services online. Topics include analysis of contemporary online advertisement design, the effective use of social media technologies in product marketing, planning online campaigns that reinforce and complement existing marketing and advertising efforts, and understanding key metrics used to evaluate a campaign's effectiveness.

Prerequisites: CCT260H5

Exclusions: CCT354H5

Distribution Requirements: Social Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

CCT357H5 • Digital Media: Photography

This course will explore the theoretical and practical aspects of producing theme based single and sequential imagery within a digital environment. We will explore the conceptual and digital tools as well as workflows and delivery systems that have been developed to produce images.

Prerequisites: CCT109H5 and CCT110H5

Distribution Requirements: Social Science

Total Instructional Hours: 48P

Mode of Delivery: In Class

CCT360H5 • Web Development and Design II

This course will introduce advanced standards-based frameworks that support the development of responsive front-end systems. Key concepts covered in this course include the application of advanced markup and design strategies, scripting languages applied to dynamic interactions, frameworks and code version control, and foundations of server-side implementations.

Prerequisites: CCT260H5

Distribution Requirements: Social Science

Total Instructional Hours: 36P

Mode of Delivery: In Class

CCT361H5 • Speculative Design II

In this course students are introduced to programming languages regularly used in management operations. Students will learn what these languages are, when and why they are applied, and how to read and write basic scripting code. The goal of this course is to familiarize students with scripting so that they can communicate more effectively with programmers in business settings.

Prerequisites: CCT261H5

Distribution Requirements: Social Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

CCT365H5 • Surveillance

From the Orwellian Big Brother to Foucault's panopticon, surveillance has become an everyday facet of modern life. From a surveillance studies perspective surveillance can be applied as a framework for understanding social, political, and technological interrelationships. This framework can help us study more effectively power, identity, persuasion, and control associated with the spread of Information Communication Technologies (ICT's). This course will introduce students to viewpoints, vision and visibility in surveillance studies. The class will look at a range of topics from information politics, identification, privacy, security, suspicion, social sorting, bodies, borders and biometrics to explore a range of perspectives under the surveillance studies umbrella. It will introduce students to key issues surrounding data, discrimination, and visibility in a global context to undercover the watched world.

Prerequisites: CCT109H5 and CCT110H5 and CCT206H5 or CCT222H5

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

CCT371H5 • Sound as Media

Sound as Media will provide students with an immersive introduction to the field of sound studies. The course offers a counterpoint to surveys of visual media by exploring acoustic technologies in historical, cultural and spatial context. By considering examples such as the gramophone, public address system, boombox, and MP3 player as well as the theories that account for them, students will develop an understanding of media forms that engage the ear as well as the eye. They will in turn, have the opportunity to apply this understanding to the final project which will give them hands-on experience with creating a sound-based documentary.

Prerequisites: A minimum of 8.0 credits including CCT109H5 or CCT110H5 or CCT111H5

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

CCT373H5 • Career Planning and Development

The transition from university studies to professional settings necessitates the articulation of how acquired skill sets, education, professional contacts, supporting resources, and related experiences connect to and influence career trajectories. To facilitate agility in navigating the ever-shifting global economy, within and outside of the classroom students are provided with a mixture of structured, self-directed, independent, and team activities that aid in the development and refinement of professional identities, community networks, communication approaches, and problem solving skills.

Prerequisites: CCT273H5

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

CCT374H5 • Critical Histories of Information Technologies

The course approaches current information and communication technologies from critical and historical perspectives. It investigates the interests, motives and tactics of news media, pop culture producers, amateurs, universities, corporations, and governments in promoting, sustaining, and interpreting information and communication systems. It also asks how the focus will be on media and information technologies, more theoretical or methodological readings will necessarily cover other systems. Case studies may include investigations of orality, writing, the printing press, industrialized printing, and electronic media from the telegraph and the telephone to broadcasting and the internet.

Prerequisites: CCT218H5

Distribution Requirements: Social Science

Total Instructional Hours: 24L/12T
Mode of Delivery: In Class

CCT380H5 • Human-Computer Interaction and Communication

The emphasis in this course will be on theoretical, methodological, and empirical issues in the study of Human-Computer Interaction. Intelligent interface designs, usability assessment, user modeling and the accessibility of the technology for the disabled are among the topics to be examined. Related behavioural investigations concerning the ease and efficiency of users' interactions with computerized environments will also be discussed.

Prerequisites: CCT109H5 and CCT110H5
Distribution Requirements: Social Science
Total Instructional Hours: 36P
Mode of Delivery: In Class

CCT381H5 • Media Audiences

Audiences are social constructions which must be imagined to be actualized. Beginning with an exploration of the nature and role of audiences from early 20th century media, students explore how audiences make meaning of popular media platforms today. How are audiences situated within media texts, what role does this play in how media is generated and circulated, and how do audiences both enact and resist media influence? Broadcast models, interactive models, audience reading, gender, culture, race, and audience feedback are investigated.

Prerequisites: CCT210H5
Distribution Requirements: Social Science
Total Instructional Hours: 24L
Mode of Delivery: In Class

CCT382H5 • Prototyping Digital Games

This course explores the fundamentals of the process of game design through prototyping. It focuses on the contexts and components of game design, such as design iteration and user testing along relevant dimensions such as art style, narrative, and game balance. Students will be introduced to design across different genres and types of digital games, including games for education, serious games, indie, and AAA games. Working in collaborative groups, students will learn and practice the appropriate methodology to design game mechanics, characters, art assets and other appropriate deliverables in order to create a game or high-fidelity prototype.

Prerequisites: (CCT211H5 or CCT285H5) and CCT270H5
Distribution Requirements: Social Science
Total Instructional Hours: 24L/12P
Mode of Delivery: In Class

CCT383H5 • The Interactive Society

This course introduces students to the theoretical and practical study of how interactive digital media and systems affect, influence and reshape our society and what does it mean to be a "user" in the information-centric society. It will expose students to specific theoretical issues such as privacy by design, usable privacy, marginalized and at-risk user groups, the digital divide, behavioural modification (persuasion) through new media, ICT4D (info tech for development) and empowerment/alienation through intelligent interactive systems. Focus will be on developing skills that will enable students to propose changes (design, policy, framework) to existing and future envisioned interactive technologies that address the issues analyzed.

Prerequisites: A minimum of 8.0 credits including CCT109H5 and CCT110H5.
Distribution Requirements: Social Science
Total Instructional Hours: 36P
Mode of Delivery: In Class

CCT386H5 • Information Practice in Virtual Worlds: Exploration of Information Environments

Virtual environments, immersive 3D environments accessed via computers or virtual reality headsets, comprise a unique and futuristic communication environment. Virtual environments have the potential to support a wide variety of activities related to information creation, distribution, and reception and can support social, economic, and cultural causes. Compared to everyday information practices, however, those enacted in virtual worlds are uniquely characterized by multimodality, synchronicity, digital embodiment and geographic distribution of users. In this course, students engage in participatory learning in virtual environments, using avatars to assess how the world's technological and social affordances support and constrain information practices. Using theories of gaming, virtuality, and information lifecycles, students critically analyse how information is produced and used in these environments.

Prerequisites: A minimum of 8.0 credits including CCT109H5 and CCT110H5.
Distribution Requirements: Social Science
Total Instructional Hours: 24L/12T
Mode of Delivery: In Class

CCT390H5 • Digital Media and Communications Abroad

Students on International exchange programs are encouraged to seek out courses in digital media and technologies that enrich their learning within an international context. This course is intended as an opportunity for students to study global issues and contexts abroad that provide a comparator to the

Canadian media and communications landscape.

Prerequisites: Permission of ICCIT Director.

Distribution Requirements: Social Science

Total Instructional Hours: 36S

Mode of Delivery: In Class

CCT391H5 • Topics in Communication, Culture, Information and Technology

Campus: Sheridan

(Offered at Sheridan College) An in-depth examination of selected CCIT topics. Topics will vary from year to year and the content in any given year depends on the instructor. The contact hours for this course may vary in terms of contact type (L, S, T, P) from year to year, but will be between 24-36 contact hours in total. See the UTM Timetable.

Prerequisites: A minimum of 8.0 credits.

Distribution Requirements: Social Science

Total Instructional Hours: 36P

Mode of Delivery: In Class

CCT395H5 • Topics in Communication, Culture, Information & Technology

An in-depth examination of selected topics in communication, culture and information technology. Topics vary from year to year, and the content in any given year depends upon the instructor. The contact hours for this course may vary in terms of contact type (L, S, T, P) from year to year, but will be between 24-36 contact hours in total. See the UTM Timetable.

Prerequisites: A minimum of 8.0 credits.

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

CCT399Y5 • Research Opportunity Program (ROP)

This course provides an opportunity for third or higher year students to assist with the research project of a professor in return for 399Y course credit. Students have an opportunity to become involved in original research and enhance their research skills. Based on the nature of the project, projects may satisfy the Humanities, Sciences or Social Sciences distribution requirement. Participating faculty members post their project description for the following summer and fall/winter session on the ROP website in mid-February and students are invited to apply at that time. See [Experiential and International Opportunities](#) for more details.

Prerequisites: A minimum of 10.0 credits or permission of instructor

Exclusions: [CCT299Y5](#) or [VCC399Y5](#)

Mode of Delivery: In Class

CCT400H5 • Advanced Project

Majors and specialists are given the opportunity to develop a critical perspective on selected issues in CCIT. Students design and implement an advanced project on a topic of interest by engaging with advanced readings. A central aim is to refine the skills in critical analysis and in oral and written communication.

Prerequisites: A minimum of 13.0 credits

Distribution Requirements: Social Science

Total Instructional Hours: 24S

Mode of Delivery: In Class

CCT401H5 • Advanced Thesis Course

Students will carry out a research project on a topic of their choosing which is related to their specific program focus in Digital Enterprise Management. Students will meet as a group for selected seminars emphasizing advanced research skills and thesis writing. Students will develop a research proposal, conduct research, and produce a research paper.

Prerequisites: [CCT203H5](#) or [CCT208H5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24S

Mode of Delivery: In Class

CCT402H5 • Creating, Protecting and Managing Digital Artifacts

Digital artifacts play an increasingly important role in our society. It is essential that in the digitization of these artifacts appropriate attention is paid to their representation, protection and management. Students will review the theories and practices of representation. They will investigate the technologies associated with the storage of digital artifacts as well as investigating appropriate legal perspectives. This varied knowledge will be integrated into a study of best practices in the management of digital artifacts.

Prerequisites: A minimum of 13.0 credits including [CCT206H5](#).

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

CCT403H5 • Finance, Innovation and the Digital Firm

Students will learn about financial aspects of digital industries. They will gain knowledge about how financial and other incentives shape the decisions of agents in the

digital marketplace. Such a knowledge helps to identify industry trends aiding their own decisions when participating in Internet related industries. Topics covered include online and traditional media industries, aspects of e-commerce and marketing, open source software and crowd-sourcing. A highly effective way to gain such knowledge is by covering a relevant topic in an academic essay. This way the students will also improve their writing skills, and learn better how to cover financial aspects of their chosen topic in a scholarly manner.

Prerequisites: A minimum of 13.0 credits.
Distribution Requirements: Social Science
Total Instructional Hours: 24L
Mode of Delivery: In Class

CCT404H5 • Remote Work, Technology and Collaboration

This project-based course aims to demonstrate how collaboration is a critical capability often overlooked. During the course students will integrate their learning and experience and first hand see how, in combination with collaboration it can lead to creatively solving problems in areas as varied as business, health care delivery, urban planning and development. In addition to lectures, students will have the benefit of a series of guest lecturers. A large, group based project will serve to integrate learning and allow students the benefit of experiential learning.

Prerequisites: A minimum of 13.0 credits.
Recommended Preparation: CCT204H5
Distribution Requirements: Social Science
Total Instructional Hours: 36L
Mode of Delivery: In Class

CCT405H5 • Individual Project

A research project carried out under the supervision of a faculty member. Students will carry out a research project on a selected topic related to CCIT. Students must obtain signed permission from the faculty member who they would like to have as their supervisor.

Prerequisites: A minimum of 13.0 credits.
Exclusions: CCT401H5
Distribution Requirements: Social Science
Mode of Delivery: In Class

CCT406H5 • Capstone Design Project

Campus: Sheridan
(Offered at Sheridan College) An applied project-based capstone course in which groups will be paired with an identified client with real-life needs in digital media creation. Students will work in small cross-functional teams to develop and present proposals to client representatives and a panel of industry experts. Students

will also be taught the arts of networking, proposal writing and project management.

Prerequisites: A minimum of 13.0 credits including CCT204H5 or CCT260H5.
Distribution Requirements: Social Science
Total Instructional Hours: 36P
Mode of Delivery: In Class

CCT407Y5 • Advanced Field Experiences in CCIT

This course provides students the opportunity to test their skills, immerse themselves within a different cultural or social context and explore communication and technology issues through an intense field experience either in Canada or abroad. The type of field experience varies from year to year and some experiences may evolve through collaborations with other disciplines or through special industry projects. The advanced field experience may involve travel and participation in international conferences or other relevant activities. Students are responsible for travel expenses.

Prerequisites: Permission of the ICCIT Director.
Exclusions: CCT409H5
Distribution Requirements: Social Science
Mode of Delivery: In Class

CCT409H5 • Special Topics in Work-Based Learning

An advanced unpaid field placement working on specially designed projects that explore collaborative, collective and global approaches to practical knowledge application. The placements may include international internships, collaborative group internships and community-based initiatives. The projects may vary from year to year depending on the external partners. Students will engage with others in the course through an online class component and complete individual reports and critical evaluations of the work experience.

Prerequisites: A minimum 13.0 credits and CGPA of 2.5.
Exclusions: CCT410H5
Distribution Requirements: Social Science
Mode of Delivery: In Class

CCT410H5 • CCIT Internship I

This course is a practical internship and is available only upon application from students registered in the CCIT/DEM/TCS programs. Through a placement, students will apply the expertise in communication, culture, and information technology that they have gained through previous courses. Students must plan well in advance for the placement and work closely with the placement officer for CCIT to determine eligibility and suitability. A report and presentation will be required at the

end of the placement. These, along with the employer's assessment, will provide the main part of the course mark.

Prerequisites: Completion of 13.0 credits with a minimum CGPA of 2.5 and approval of the internship coordinator/instructor, and evidence of additional career development (e.g. workshops, networking events, and professional communication with faculty, librarians, staff, and peers).

Exclusions: CCT409H5 and WRI410H5.

Distribution Requirements: Social Science

Total Instructional Hours: 14S

Mode of Delivery: In Class

CCT411H5 • CCIT Internship II

This course is a practical internship and is available upon application from students registered in any CCIT program who have completed CCT410H5. The course is intended for students who have the opportunity to continue their CCT410H5 internship for a second semester. A report and presentation will be required at the end of the placement. These, along with the employer's assessment, will provide the main part of the course mark.

Prerequisites: (Completion of 13.0 credits including CCT409H5 or CCT410H5 or WRI410H5) and minimum CGPA of 2.5 and permission of Internship Coordinator.

Exclusions: WRI411H5

Distribution Requirements: Social Science

Total Instructional Hours: 12S

Mode of Delivery: In Class

CCT412H5 • Self-Directed Research Project: Advanced Studio Practices

Campus: Sheridan

(Offered at Sheridan College) This course facilitates a student-led research project to be carried out under the supervision of a faculty member. This is an opportunity to develop a critical and practical perspective on selected issues and practices within CCIT. Students design and implement an advanced project on a topic of interest using advanced creative and critical production skills. The aim is to redefine and articulate critical ideas through the process of making creative work. Students must obtain signed permission from a potential supervising faculty member.

Prerequisites: 1.0 credit from CCT305H5 or CCT351H5 or CCT353H5 or CCT357H5 or CCT360H5.

Distribution Requirements: Social Science

Mode of Delivery: In Class

CCT414H5 • Special Topics in Knowledge, Media and Design

An in-depth examination of selected topics in interactive digital media with emphasis on knowledge, media and design. The contact hours for this course may vary in

terms of contact type (L, S, T, P) from year to year, but will be between 24-36 contact hours in total. See the UTM Timetable.

Prerequisites: A minimum of 13.0 credits

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

CCT416H5 • Social Data Analytics

This course highlights the research in analysis for social data and builds skills to undertake those analysis. It is a lab-intensive course intended to build up data analytic skills for novice and intermediate researchers. Students look at recent studies using "big data" which are primarily theoretical, including critiques of data analytics and concerns surrounding data ethics. Students learn a programming language -- Python -- and how to scrape social data, store and collect it, run basic statistics, generate visuals, and create a report based on a project of interest.

Prerequisites: CCT203H5 or CCT208H5

Distribution Requirements: Social Science

Total Instructional Hours: 24P

Mode of Delivery: In Class

CCT417H5 • Alternative Media

This course examines the history, politics and aesthetics of a range of alternative, underground and radical media, as well as their relation to mainstream media. Students will study and experiment with a range of alternative media, including zines, graffiti, hacking, and culture jamming, for example. Students will gain hands-on experience in the creation of alternative media.

Prerequisites: Minimum of 13.0 credits.

Distribution Requirements: Social Science

Total Instructional Hours: 24S

Mode of Delivery: In Class

CCT418H5 • Work, Media and Technology

The course analyses the political, historical, and technical relationships between media, technology, and work in contemporary capitalism. The course will examine the power and social relationships that structure work in contexts such as media, creative industries, and the platform or "gig" economy. The course will focus on critical theories of work and will engage with case studies of the intersection of work, media and technology. The aim of the course is to build a tool kit for encountering an increasingly casualized and digitally-mediated labour market.

Prerequisites: CCT222H5 or CCT319H5

Distribution Requirements: Social Science

Total Instructional Hours: 24S

Mode of Delivery: In Class

CCT419H5 • User Experience Design - UXD and Board Games

This course allows students to explore issues related to user interface, user experience, materiality, gamification and game theory. Board games represent a space to consider social interaction, the use of materials, the role of emotion in design (UX), knowledge sharing and the role gamification plays in influencing behaviour. Students will be exposed to professional and research publications related to design, game theory, user experience and game mechanics.

Prerequisites: A minimum of 13.0 credits.

Distribution Requirements: Social Science

Total Instructional Hours: 36S

Mode of Delivery: In Class

CCT420H5 • Information Technology and Globalization

The variety of ways in which various information technologies influence and are influenced by globalization will be critically examined. The class will explore metaphors or ways of thinking about society and technology to critically examine the complex process and the diverse consequences of globalization. Topics may shift focus yearly but will include the economy, culture, politics, social movements, migration, social identity, war and global conflict, etc.

Prerequisites: A minimum of 13.0 credits including [CCT109H5](#) and [CCT110H5](#).

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

CCT423H5 • Game Development Project

Campus: Sheridan

(Offered at Sheridan College) This course will provide the opportunity to develop a practical understanding of the game development cycle. Students will design and develop an original game in support of a specific narrative, set of rules or play mechanics.

Prerequisites: [CCT311H5](#) or [CCT312H5](#)

Distribution Requirements: Humanities, Social Science

Total Instructional Hours: 36P

Mode of Delivery: In Class

CCT424H5 • Organizational Studies III

An in-depth study of the development of innovative strategies for organizations with an emphasis on digital

enterprises. The nature of strategic innovation will be studied and a variety of analytic frameworks introduced. Concepts will be explored through a combination of lectures and case studies.

Prerequisites: [CCT112H5](#) and ([CCT219H5](#) or [CCT319H5](#) or [CCT321H5](#)) and ([CCT221H5](#) or [CCT322H5](#)) and [CCT324H5](#).

Exclusions: [MGT400H5](#) or [MGM400H5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

CCT430H5 • Networked Life

The rise of information and communication technologies in contemporary societies has highlighted the interdependent nature of relationships; person-person, person-machine, machine-person, and machine-machine. Network analysis offers a point-of-view with which we can analyze networks to understand the roles of people and technology, identify the source of existing or potential issues, and the exchange of resources and information. This course applies network theory and methodology to examine how technology is used to maintain and build personal networks. It will further explore how personal networks intersect with larger institutional networks (e.g. corporations and universities) and informal networks (e.g. online communities and sports clubs). In the process, students will be guided in how to identify, measure, and collect data on selected networks, how to then analyze this data using a variety of analytic techniques.

Prerequisites: [CCT203H5](#) or [CCT208H5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

CCT431H5 • Drones, Robots, Artificial Intelligence

Drones, robots, and artificial intelligence are three interrelated technologies that are changing the most fundamental considerations of how society and sociality should operate. Work, war, consumption, and even love are being reconfigured. This course will address debates concerning the cultural, political, economic, military, and economic considerations surrounding the growing use of these technologies.

Prerequisites: A minimum of 13.0 credits.

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

CCT432H5 • Ethics and Code

A self-driving car should always protect pedestrians, even if that implies serious threat for the vehicle's passengers. Current ethical challenges within our computational

cultures has brought forward dilemmas involving code such as designing killer robots, the use of technology to predict and prevent crimes before they happen, and platform surveillance in social media. Students in this course will use theories and case based examples to examine questions such as what is meant with ethics in new media and critical computing, can we program computational systems according to ethical models, and does digital culture force us to rethink what ethics are?

Prerequisites: A minimum of 13.0 credits.

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

CCT433H5 • Sustainable Design

Campus: Sheridan

(Offered at Sheridan College) This course immerses students in sustainable design methodologies based upon whole systems analysis, applying the quadruple bottom line of people, profit, planet, and culture to understand and design for environmental issues and social change. During this course, students will apply the process and rhetoric of sustainable systems thinking to the re-design of an object or service applying such methodologies as cradle-to-cradle, 'design-for-environment', pricing based on full cost accounting, greening of the supply chain, and corporate responsibility. Throughout the course, students will examine the need for sustainable design through case studies, best practice analyses, and relevant readings

Prerequisites: A minimum of 13.0 university credits including [CCT204H5](#) or [CCT250H5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

CCT434H5 • Design Thinking II

Campus: Sheridan

(Offered at Sheridan College) An advanced project-based seminar on the art and creative directions of design thinking. Combining traditional and innovative creativity methods, a variety of design projects are conceptualized and drafted for proposal or implementation. This course embraces design thinking as a holistic, interdisciplinary approach that integrates methodical creativity and overarching design principles, such as aesthetics, futures-thinking, progress and metadesign.

Prerequisites: [CCT204H5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

CCT435H5 • Media and Outer Space

Examines the relationship between media studies and Outer Space inhabitation and exploration. Through

analysis of military, technological, industrial, scientific, design, artistic, and civilian projects, films, novels, science fictions, and other media forms, the class investigates and reveals the historical, social, cultural, and political implications of our mediated relation with Outer Space. Technologies and topics include: the space race and the Cold War, space imagery, extreme environments, space travel, space suits, space vehicles, and space habitats, satellites, extra-terrestrial intelligence, mining, extraction, terraforming, radiation, gravity, and levitation.

Prerequisites: A minimum of 13.0 credits

Exclusions: [CCT495H5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

CCT440H5 • Power, Privilege and Technology

How is social inequality reproduced and encoded in technology systems and in digital media? In what ways do technology and media creations inform and influence perceptions, beliefs, and practices that impact girls and women, communities of colour, Indigenous groups, LGBTQ+ and other minoritized people? This course will address overlapping and intersectional issues of power, privilege, oppression, and sociotechnical imaginaries - all related to networks, big data and predictive analytics, algorithms, digital gig economies, and interactive multimedia like social media and virtual reality.

Prerequisites: [CCT200H5](#) and [CCT222H5](#)

Exclusions: [CCT395H5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

CCT448H5 • Game Design as Problem Solving

Campus: Sheridan

(Offered at Sheridan College) In this course, learners will identify and analyze the problems associated with game design such as The Door Problem and The Stamp Collecting Dilemma. Applying their own creativity and various schools of game theory such as Player-Centric Design, learners will prepare game mechanics that address and attempt to solve these problems.

Prerequisites: [CCT311H5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 36P

Mode of Delivery: In Class

CCT449H5 • Immersive VR Journalism

Campus: Sheridan

(Offered at Sheridan College) This course focuses on creating digitally produced stories designed to provide a

first-person, interactive experience with news events, animation and documentary film. 3D gaming, 3D drawing tools, and immersive technologies will be used to engage the audience member, creating a sense of 'presence'. Four theoretical domains will be discussed as part of a new narrative design framework foundational to Immersive VR Journalism: VR presence, narrative, cognition and journalistic ethics.

Prerequisites: [CCT312H5](#) or [CCT351H5](#) or [CCT353H5](#) or [CCT357H5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 36P

Mode of Delivery: In Class

CCT450H5 • Designing Interactive Books

Campus: Sheridan

(Offered at Sheridan College) This advanced self-directed project-based course allows students who are already familiar with the principles of page layout and interactive multimedia to design and publish in iBooks. The principles and practice of creative concept development and art direction are actively applied. Students will develop original content in text, digital media, and engage in the creative application of iBooks Author's widgets as a writer, editor, illustrator, and designer. Balancing an industry-ready mindset with an avant-garde spirit, students are also encouraged to investigate this medium as an art form in alternative, experimental directions.

Prerequisites: [CCT204H5](#) and [CCT305H5](#) or permission of instructor

Distribution Requirements: Social Science

Total Instructional Hours: 36P

Mode of Delivery: In Class

CCT451H5 • Digital Media: Advanced Audio Production

Campus: Sheridan

(Offered at Sheridan College) This course explores how to design and produce a soundtrack for film or television. The foundations of technical theory and nomenclature will be provided, as well as aesthetic guidelines. Practical exercises will explore: voice recording, use of library sound effects, creative sound design, sound editing and processing technology and soundtrack mixing.

Prerequisites: [CCT353H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 36P

Mode of Delivery: In Class

CCT452H5 • Graphic Design and Popular Culture

Campus: Sheridan

(Offered at Sheridan College) This course will continue from where History and Practice of Design leaves off; from the beginning of the Post-Modern period or c.1975. It will study the history of graphic design to the present in roughly chronological order; it will focus on specific topics rather than on movements, schools or chronological events. Topics will highlight how social trends, political forces, technological innovation and continuing folk traditions all contribute to the visual environment we all inhabit today. Topics will emphasize popular culture as a force shaping graphic design while also referring to a theoretical graphic design discourse.

Prerequisites: [CCT204H5](#) and [CCT352H5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

CCT453H5 • Digital Media: Advanced Video Production

Campus: Sheridan

(Offered at Sheridan College) This course focuses on advanced theoretical and practical aspects of video production and editing. Storytelling techniques, the relationship of form to content, and montage strategies will be investigated. Over the course of the term students will work in teams to direct, film and edit video using digital technologies.

Prerequisites: [CCT353H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 48P

Mode of Delivery: In Class

CCT454H5 • Documentary Practices

This course explores the form and practice of documentary. Objectivity, ethics, censorship, representation, reflexivity, responsibility to the audience and authorial voice will be examined. Students will engage in practical engagement with documentary forms including the expanded field of documentary using tools such as photography, audio, video, 360 video, VR and new technologies.

Prerequisites: A minimum of 13.0 credits.

Distribution Requirements: Humanities

Total Instructional Hours: 36P

Mode of Delivery: In Class

CCT456H5 • Analysis and Visualization of Open Data

Campus: Sheridan

(Offered at Sheridan College) This course explores the open data/open government movement with the goal of understanding the promises and perils of the open data movement, better understanding what conclusions can and cannot be extrapolated from open data standards, using common visualization tools to make better sense of large open data sets, and concluding with a design competition where students build a prototype application that leverages open data sources to develop new services.

Prerequisites: CCT356H5

Distribution Requirements: Social Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

CCT457H5 • Digital Media: Advanced Photography Production

Campus: Sheridan

(Offered at Sheridan College) This course focuses on advanced theoretical and practical aspects of digital image production and editing. Production techniques, professional practices and workflows, the relationship of form to content, and digital darkroom strategies will be investigated. Over the course of the term students will work individually and in teams to create and edit images using professional grade digital technologies.

Prerequisites: CCT357H5

Distribution Requirements: Social Science

Total Instructional Hours: 48P

Mode of Delivery: In Class

CCT460H5 • Advanced Web Design

Campus: Sheridan

(Offered at Sheridan College) This course builds on the client-side web development skill of the Intermediate Web Design courses by adding a server-side programming and database design component. Students will learn the theoretical and practical aspects of implementing a database including data modelling, development, communication and security. Additionally, server-side programming will be introduced as a means of communication and interaction between client-side web pages and database data, allowing students to develop a dynamic database driven website.

Prerequisites: CCT260H5 and CCT360H5

Recommended Preparation: Solid experience with static HTML is mandatory. Previous exposure to the logic of a programming language is advised.

Distribution Requirements: Social Science

Total Instructional Hours: 36P

Mode of Delivery: In Class

CCT461H5 • Speculative Design III

Emerging technologies have the potential to transform business models and architectures. In this course students learn the functional and technical underpinnings of selected emerging technologies and critically analyse how these technologies are impacting business functions. Students also gain hands-on experience with emerging technologies and consider how they may be applied or adapted to solve management issues.

Prerequisites: CCT361H5

Distribution Requirements: Social Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

CCT470H5 • Information Visualization

Visual literacy and the visualization of information are increasingly important competencies in a growing number of fields. This course will explore the history of visually representing information, consider issues related to data visualization and approaches to visually representing data. In addition, students will develop a better understanding of what visualization works best for various types of data, what makes for a strong visualization and the importance of narrative in the construction of graphic data representation.

Prerequisites: CCT210H5 and (CCT286H5 or CCT304H5)

Distribution Requirements: Social Science

Total Instructional Hours: 24P

Mode of Delivery: In Class

CCT472H5 • Media Archaeology

This course examines media as technical objects with specific histories and a contemporary presence. In the contemporary context where media technologies are programmed to become obsolete, residual forms and practices provide materials traces for analysis. The class will focus on the evolution of media forms, looking particularly at early, antiquated, and obsolete practices and technologies of communication in order to recover their material traces, and to situate them in their historical, social, cultural, and political contexts. Through texts, archival materials, and case studies, old media will be brought back to life to question notions of authenticity, authority, preservation, archiving, temporality, agency, power, evolution, decay, and death.

Prerequisites: A minimum of 13.0 credits and 2.3 CGPA

Distribution Requirements: Social Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

CCT473H5 • Career Strategies

In this course students will learn about various challenges that new graduates, future managers, and future

executives will face in the workplace. Students will learn the theoretical as well as practical techniques that will help them succeed after graduating from their undergraduate programs.

Prerequisites: Minimum of 13.0 credits.
Distribution Requirements: Social Science
Total Instructional Hours: 24L
Mode of Delivery: In Class

CCT475H5 • Thesis in Integrated Learning in Digital Media, Communication, and Technology

This capstone project course carried out independently under the supervision of a faculty member requires students to reflect on the experiences they gained during their two work placements connected with the Professional Experience Certificate in Digital Media, Communication, and Technology, and develop a comprehensive case study that integrates theories learned within ICCIT and their work placements. **Students will be required to participate in one-on-one consultations with the course instructor.**

Prerequisites: CCT273H5 and CCT373H5
Distribution Requirements: Social Science
Mode of Delivery: In Class

CCT476H5 • Foundations of Operations Management

Operations Management deals with the functions of an enterprise that create value for the customers. The scope of study covers all processes involved in the design, production and physical distribution of goods and services. With global competition continuously increasing, a firm's survival depends upon how well it integrates the operations function into the enterprise's general planning and strategy. It is thus essential for business managers to acquire an understanding and appreciation of operations.

Prerequisites: A minimum of 13.0 credits including CCT224H5.
Distribution Requirements: Social Science
Total Instructional Hours: 24L
Mode of Delivery: In Class

CCT477H5 • UX Design - Understanding Users

The focus of the course is on understanding the experiences of users and their communities as affected by their interaction with digital technologies in information-centric societies. Students will learn the theoretical framework and practical aspects of advances user-centered design principles (such as participatory design and techno-centric ethnographies). This course represents an opportunity for students to enrich their

understanding of the deep interconnections between human factors, human needs, interactive technologies, information, as projected on several dimensions: cultural, societal, ergonomic, and economic.

Prerequisites: CCT380H5
Exclusions: CCT485H5
Distribution Requirements: Social Science
Total Instructional Hours: 36P
Mode of Delivery: In Class

CCT478H5 • UX Design - Prototyping and Evaluation

The course investigates how people interact with interactive digital systems from an evaluation and formal testing perspective, and introduces students to the methods of User Experience Assessment and User Experience Analysis (UXA). This studio-based experiential course examines how interactive systems are implemented and deployed to meet users' needs, with a focus on formal Human Computer Interaction (HCI) evaluation methods. Students will acquire the capacity to evaluate systems and to critically assess different HCI and UX validation methods which are based on industry approaches carried out by User Research Analysis.

Prerequisites: CCT380H5
Exclusions: CCT480H5
Distribution Requirements: Social Science
Total Instructional Hours: 36P
Mode of Delivery: In Class

CCT481H5 • Augmented Places and Social Media Spaces

Increasingly we are seeing a hybridization of information and location, where media provide a framework or environment for users (participants) to construct reality and relationships. The course explores emergence of new ubiquitous communication practices and the increasingly pervasive use of technology for the augmentation of people, places, and objects. In this course, students will explore various approaches to context-based information systems, and the shaping of social media spaces.

Prerequisites: A minimum of 13.0 credits.
Distribution Requirements: Social Science
Total Instructional Hours: 24L
Mode of Delivery: In Class

CCT482H5 • Interactive Electronic Design

Campus: Sheridan
(Offered at Sheridan College) This course investigates the emerging field of critical making, which encourages students to approach social, communication and cultural issues through material engagement versus the literal and

oral media more traditionally used in social science research. Students will not only explore core tensions and challenges regarding technology's role and influence in society, but engage these challenges directly through the design and physical creation of alternative technological prototypes. Basic mechanics, electronics and programming will be taught, with an understanding that thinking materially is rare for many most social science students. No previous knowledge is assumed.

Prerequisites: A minimum of 13.0 credits.

Distribution Requirements: Social Science

Total Instructional Hours: 36P

Mode of Delivery: In Class

CCT483H5 • Play, Performance and Community in Digital Games

Students will explore the complex relationship between games and play. Starting with an overview of the major play theories, students will learn how cognitive, philosophical and social theories of play are used to guide and inform game design. The increasingly prominent role of the player in the co-creation and performance of digital games will be examined. Students will also explore the emergence of player communities and consider the various issues that this introduces into design and management process, including important new questions about governance, player and creative freedoms, and immaterial labour.

Prerequisites: A minimum of 13.0 credits, including CCT270H5.

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

CCT486H5 • Digital Platforms: A Global Perspective

From Apple, Amazon, and Facebook to LINE, WeChat and TikTok, digital platforms dominate contemporary life. This course provides an intellectual voyage of the global spread of digital platforms from the days when they were not yet recognized as platforms to the contemporary era when users can hardly think of an internet without platforms. We will explore questions concerning the penetration of platforms into the social fabric of our digital life on a global scale while paying attention to the local conditions and specificity. Students will engage with key concepts, theories, and approaches related to platform studies through readings and discussions about different types of platforms, ranging from e-commerce and social media to live-streaming and on-demand service matching.

Prerequisites: A minimum of 13.0 credits

Exclusions: CCT490H5

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

CCT487H5 • Advanced Communication Policy in a Global Context

This course provides students with a theoretical and practical understanding of media, technology, and cultural policy in a global context. The course focuses on issues such as national identity and globalization, media convergence, intellectual property, global media regulation, security and privacy by examining how media, communication, and cultural policy is created, influenced, and contested by a range of actors.

Prerequisites: CCT206H5 and CCT332H5

Distribution Requirements: Social Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

CCT490H5 • Topics in Communication, Culture, Information and Technology

An in-depth examination of selected topics in communication, culture, information and technology. Topics vary from year to year, and the content in any given year depends upon the instructor. The contact hours for this course may vary in terms of contact type (L, S, T, P) from year to year, but will be between 24-36 contact hours in total. See the UTM Timetable.

Prerequisites: A minimum of 13.0 credits.

Distribution Requirements: Social Science

Total Instructional Hours: 24S

Mode of Delivery: In Class

CCT491H5 • Topics in Communication, Culture, Information and Technology

Campus: Sheridan

(Offered at Sheridan College) An in-depth examination of selected CCIT topics. Topics will vary from year to year and the content in any given year depends upon the instructor. The contact hours for this course may vary in terms of contact type (L, S, T, P) from year to year, but will be between 24-36 contact hours in total. See the UTM Timetable.

Prerequisites: A minimum of 13.0 credits including

CCT109H5 and CCT110H5 and permission of instructor

Distribution Requirements: Social Science

Total Instructional Hours: 36P

Mode of Delivery: In Class

CCT495H5 • Topics in Communication, Culture, Information & Technology

An in-depth examination of selected topics in communication, culture, information and technology. Topics vary from year to year and the content in any given year depends on the instructor. The contact hours for this course may vary in terms of contact type (L, S, T, P) from

year to year, but will be between 24-36 contact hours in total. See the UTM Timetable.

Prerequisites: A minimum of 13.0 credits.
Distribution Requirements: Social Science
Total Instructional Hours: 24L
Mode of Delivery: In Class

CCT499Y5 • Research Opportunity

This course provides an opportunity for third or higher year students to assist with the resource project of a profession in return for 499Y credit. Students have an opportunity to become involved in original research and enhance their research skills. Participating faculty members post their project description for the following summer and fall/winter session on the ROP website in mid-February and students are invited to apply at that time. See [Experiential and International Opportunities](#) for more details.

Prerequisites: A minimum of 13.0 credits or permission of instructor
Distribution Requirements: Social Science
Mode of Delivery: In Class

MGD415H5 • E-Business Strategies

Electronic business, the extensive use of the web and the Internet, is radically changing existing businesses. New Internet businesses are also being created at an unprecedented rate. New business models, e-business technologies, payment mechanisms, legal and regulatory issues (e.g., intellectual property rights, privacy and security) and the economics of e-business will be investigated from a research and practical perspective.

Prerequisites: [CCT112H5](#) and [CCT355H5](#)
Exclusions: [MGT415H5](#) or [MGT471H5](#)
Distribution Requirements: Social Science
Total Instructional Hours: 24L
Mode of Delivery: In Class

MGD421H5 • Technological Entrepreneurship

This course explores the methods and frameworks of entrepreneurship through an experiential learning model (learning by doing). Students will begin the process of developing a new business venture, exploring their own business ideas and developing a business plan and pitch while working in teams. Topics include the business model, customers and markets, financial models, competition, intellectual property, funding and investment and characteristics of entrepreneurial teams.

Prerequisites: [CCT112H5](#) and ([CCT219H5](#) or [CCT319H5](#)) and ([CCT321H5](#) or [MGM230H5](#)) and ([CCT221H5](#) or [CCT322H5](#) or [MGT252H5](#)) and ([CCT324H5](#) or [MGT262H5](#))

Distribution Requirements: Social Science
Total Instructional Hours: 36L
Mode of Delivery: In Class

MGD426H5 • Enterprise Risk Management

This course will address the identification and management of risks that are specific to digital industries such as network penetration, transaction processing interruption and flow disruption, provision of audit and backup facilities. The course will also integrate technical security issues along with managerial and legal considerations.

Prerequisites: [CCT112H5](#) and [[CCT219H5](#) or [CCT319H5](#) or [ECO100Y5](#) or ([ECO101H5](#) or [ECO102H5](#))] and ([CCT321H5](#) or [MGM230H5](#)) and ([CCT221H5](#) or [CCT322H5](#) or [MGT252H5](#)) and ([CCT324H5](#) or [MGT262H5](#))
Distribution Requirements: Social Science
Total Instructional Hours: 24L
Mode of Delivery: In Class

MGD427H5 • Advanced Legal Issues

This course will build on the foundations established in [CCT206H5](#). Issues relating to the protection of digital rights, taxation, privacy, jurisdiction and regulation will be examined in detail through the use of recent legal scholarship and evolving case law.

Prerequisites: [CCT112H5](#) and [CCT206H5](#)
Exclusions: [MGM390H5](#) or [MGT393H5](#) or [MGT394H5](#) or [MGT423H5](#) or [MGT429H5](#)
Distribution Requirements: Social Science
Total Instructional Hours: 24L
Mode of Delivery: In Class

MGD429H5 • Data Analysis II

This course offers an overview of data analytics principles, approaches, and technologies that allow businesses to generate business intelligence. Business intelligence refers to all the means required to collect, exploit and analyze data in order to provide the right information to decision-makers at the right time. This course is designed for individuals interested in Business Intelligence practices and analysis from a management point of view, without a detailed focus on statistical or programming methods.

Prerequisites: [CCT226H5](#) and [CCT221H5](#) or [CCT322H5](#)
Distribution Requirements: Social Science
Total Instructional Hours: 24L
Mode of Delivery: In Class

WRI173H5 • Creative Non-Fiction

This course is an introduction to creative nonfiction as both a genre and a methodological tool for a variety of fields. It explores creative narrative approaches by professional writers in the form of journalism, documentary, ethnography, memoir, and narrative essay. This course also serves to begin and/or strengthen students' own writing practice through craft-oriented workshops. Students explore ideas about product and process, form and meaning. Students will experiment with syntactic structures to explore how the form of language serves, or fails to serve, intention and the expression of meaning that may be understood and interpreted by others.

Exclusions: [WRI203H5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

WRI225H5 • Community and Writing

Writing communication is a social act that both shapes and is shaped by community. Students in this course develop a narrative portfolio based on research into the experiences of individuals within a community that interests them. The course aims to enhance students' storytelling by incorporating aspects of community such as unwritten rules, community language and nomenclature, rituals, history, ironic juxtaposition, and profiles of community members. Readings include a mix of student-authored and contemporary professional works.

Prerequisites: [WRI173H5](#) or [WRI203H5](#)

Exclusions: [WRI325H5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

WRI227H5 • Social Media and Content Creation

Examines theory and offers practice in creating content for Social Media. The course explores the growth of the Web, from information gathering to interactive and cooperative information/opinion dissemination. Students will critically examine the rhetorical practices of Social Media users and how these practices currently shape communications. Students will create and maintain individual content creation projects.

Prerequisites: [WRI173H5](#) or [WRI203H5](#)

Exclusions: [WRI327H5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

WRI273H5 • Specialized Prose

Examines theory and offers practice in nonfiction narrative with a specialized purpose. Students will explore conceptions of genre and the way genre shapes, and is shaped by, the social context of communications.

Prerequisites: [WRI173H5](#) or [WRI203H5](#)

Exclusions: [WRI303H5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

WRI291H5 • Introduction to Journalism

This course provides an introduction to journalism and examines journalism's role in a democratic society. Students learn the fundamentals of journalistic writing, with a focus on news and reporting. The course examines news formats and styles, sources, interviews, research, structure, and other fundamentals. The course functions as a newsroom, with students producing several reported articles throughout the term, and includes guest talks and workshops with practicing journalists.

Prerequisites: [WRI173H5](#) or [WRI203H5](#)

Exclusions: [WRI378H5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

WRI292H5 • Narrative Inquiry

In this course, students design and carry out writing through a series of research techniques. Students learn to select and evaluate expert and scientific information from primary sources and produce content for an array of different media. A critical reading program exposes students to research-based writing. Assignments are aimed at developing professional skills across different forms and topics.

Prerequisites: [WRI173H5](#) or [WRI203H5](#)

Exclusions: [WRI392H5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

WRI293H5 • Introduction to Technical Communication

Introduction to Technical Communication serves as an introduction to the academic and professional fields of technical writing and communication. It explores strategies for analyzing organizational contexts, including professional audiences, professional purposes for writing, and organizational cultures. Assignments will build skills in technical writing, document design, documentation, accessibility, and ethical considerations for communication in professional settings.

Prerequisites: [WRI173H5](#) or [WRI203H5](#)
Distribution Requirements: Social Science
Total Instructional Hours: 24L

WRI299Y5 • Research Opportunity Program

This course provides a richly rewarding opportunity for students in their second year to work in the research project of a professor in return for 299Y course credit. Students enrolled have an opportunity to become involved in original research, learn research methods and share in the excitement and discovery of acquiring new knowledge. Participating faculty members post their project descriptions for the following summer and fall/winter sessions in early February and students are invited to apply in early March. See [Experiential and International Opportunities](#) for more details.

Course Experience: University-Based Experience
Distribution Requirements: Social Science
Mode of Delivery: In Class

WRI306H5 • Writing for the Academic Sciences

Examines conventions and standard practices when scientists write for other scientists in academic science journals, in conference and poster presentations, and in grant applications. This course focuses on presenting primary and secondary research. Humanities and social science students will gain specialized skills in technical writing and editing. Science students will learn the writing practices expected in professional labs and research groups. Students will present an article-length paper presenting primary research findings and a conference poster presenting the same findings to a scientific audience.

Prerequisites: Completion of 8.0 credits with a minimum CGPA of 2.0
Exclusions: [WRI490H5](#)
Distribution Requirements: Social Science
Total Instructional Hours: 24L
Mode of Delivery: In Class

WRI307H5 • Writing about Science

Examines the best practices of science writers and journalists who, based on research published in science journals, communicate scientific information to an educated audience which lacks specialized training. Science students will learn techniques for educating and informing public audiences. Humanities and social science students will learn to access and present current scientific information in engaging narrative. This course examines scientific writing and journalistic writing about science.

Prerequisites: Completion of 8.0 credits with a minimum CGPA of 2.0
Distribution Requirements: Social Science
Total Instructional Hours: 24L
Mode of Delivery: In Class

WRI310H5 • Social and Professional Languages

Examines language by approaching it through its social users -- ethnic groups, genders, and social classes -- and its contextualized usages -- the languages of publishing, advertising, law, technical communications, academe and the electronic media. The course explores the functions of these languages and the roles of such forces as dictionaries, social change, and new communications technologies in the evolution of these languages.

Prerequisites: [WRI227H5](#) or [WRI273H5](#) or [WRI291H5](#) or [WRI292H5](#) or [WRI293H5](#)
Distribution Requirements: Social Science
Total Instructional Hours: 24L
Mode of Delivery: In Class

WRI320H5 • History and Writing

Examines written history as rhetoric and considers various conceptions of history and procedures for historical research and writing with reference to a range of models from Thucydides to contemporary writers of specialized and local histories. Students will conceptualize, design, and carry out primary source historical research to produce original history using locally available sources and materials.

Prerequisites: Completion of 8.0 credits with a minimum CGPA of 2.0
Course Experience: University-Based Experience
Distribution Requirements: Social Science
Total Instructional Hours: 24L
Mode of Delivery: In Class

WRI330H5 • Oral Rhetoric

Examines the rhetoric of speech drawing on theorists from Plato to Havelock to Ong, and considers implications of "great leap models" that present orality and literacy on a continuum. This course considers a range of oral practices from informal to formal, and from spontaneous to research-based and examines a range of rhetorical modes: dialogue, storytelling, reporting, debate and presentational address. Significant course time will be devoted to students' oral performance, both individual and team-based.

Prerequisites: [WRI227H5](#) or [WRI273H5](#) or [WRI291H5](#) or [WRI292H5](#) or [WRI293H5](#)
Distribution Requirements: Social Science
Total Instructional Hours: 24L
Mode of Delivery: In Class

WRI340H5 • Critical Reading and Listening

This course approaches reading and listening as time-bound processes by which we sense and make sense of the world around us. Reading and listening are not to be reduced merely to how we consume written or aural texts, but rather will be explored as the perceptual and cognitive activities that structure our sense of time, space, self and environment. We will place a particular emphasis on reading and listening in contemporary digital culture by engaging selectively with fundamental concepts in critical theory, as well as recent work in media and sound studies.

Prerequisites: [WRI227H5](#) or [WRI273H5](#) or [WRI291H5](#) or [WRI292H5](#) or [WRI293H5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

WRI360H5 • Finance and Writing

Examines organizational discourse with special attention to financial analysis and financial documents as rhetorical elements. Students will design and carry out primary research into organizations such as publicly listed companies and non-profit organizations and will examine different modes for reporting research findings. Principles of discourse analysis and genre theory provide a conceptual framework. Students do not need backgrounds in accounting or finance to manage this course.

Prerequisites: Completion of 8.0 credits with a minimum CGPA of 2.0

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

WRI363H5 • Communicating in a World of Data

This course examines how professionals in a variety of contexts communicate data. The course explores the growing relevance and allure of data in all its forms. Students will learn to interpret data to tell a story through numbers by creating infographics, writing informative articles from their own data mining, and presenting further findings at the end of the semester.

Prerequisites: Completion of 8.0 credits with a minimum CGPA of 2.0

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

WRI365Y5 • Editing: Principles and Practice

Examines theory and practice of editing in a professional communications environment. The course will consider principles of editing and the editorial process as it applies to various forms of writing, from daily news, to magazines, books, web pages and blogs. Study will include examination of the building blocks of an editor's skills - grammar, spelling, syntax, punctuation - and the means employed by an editor working with a writer to achieve clarity, accuracy and immediate comprehension.

Prerequisites: [WRI227H5](#) or [WRI273H5](#) or [WRI291H5](#) or [WRI292H5](#) or [WRI293H5](#)

Exclusions: [WRI365H5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 48L

Mode of Delivery: In Class

WRI370H5 • Writing about Place

Examines writing about geographic places and the multiple rhetorics --- scientific, historical, geographical, social, political, economic --- that come into play. Students will design and carry out original primary research to develop their writing projects.

Prerequisites: [WRI227H5](#) or [WRI273H5](#) or [WRI291H5](#) or [WRI292H5](#) or [WRI293H5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

WRI375H5 • Writing about Environment and Ecology

Examines the evolving rhetoric of scientific, journalistic, legal and political writing about environmental issues. The course will consider eco-linguistic theory and eco-critical discourse analysis. Through theory and applied research, including primary research, and writing, students will consider protocols, research standards, and ethics in writing about environment and appraise current issues around the emerging language of sustainability.

Prerequisites: Completion of 8.0 credits with a minimum CGPA of 2.0

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

WRI380H5 • Podcasting

This course offers the skills and techniques needed to script, record and publish podcasts to the Web. Students will design and carry out original primary research to script, edit and produce independent podcasts. The course also explores the growing popularity of podcasts, and modern societies' shift into a secondary orality.

Prerequisites: Completion of 8.0 credits with a minimum CGPA of 2.0

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

WRI390H5 • Independent Studies

A research/writing project designed by the student in consultation with a faculty member. Independent Study students will produce a substantial body of writing at a high professional standard submitted in weekly installments and will develop their drafts in editing sessions with other Independent Studies students. Students will also design and carry out a reading program. Students may not take WRI390H5 and WRI391H5 in the same term.

Prerequisites: 8.0 credits including 1.5 WRI credits with a mark of 77% or higher in each and permission of course instructor or the PWC Director.

Distribution Requirements: Social Science

Mode of Delivery: In Class

WRI391H5 • Independent Studies

A research/writing project designed by the student in consultation with a faculty member. Independent Study students will produce a substantial body of writing at a high professional standard submitted in weekly installments and will develop their drafts in editing sessions with other Independent Studies students. Students will also design and carry out a reading program. The Project Supervisor will be chosen in consultation with the Program Coordinator. Students may not take WRI390H5 and WRI391H5 in the same term.

Prerequisites: 8.0 credits including 1.5 WRI credits with a mark of 77% or higher in each and permission of instructor or the PWC Director.

Distribution Requirements: Social Science

Mode of Delivery: In Class

WRI395H5 • Re-languaging: Writing Across Cultures and Languages

Explores the practice and experience of writing across cultures, languages, and space. We examine writing as inflected through questions of translation, migration, colonialism, and social identity. Students will consider these themes through a historical and theoretical lens to sharpen analytic and writerly skills.

Prerequisites: Completion of 8.0 credits with a minimum CGPA of 2.0

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

WRI399Y5 • Research Opportunity Program

This courses provides a richly rewarding opportunity for students in their third year to work in the research project of a professor in return for 399Y course credit. Students enrolled have an opportunity to become involved in original research, learn research methods and share in the excitement and discovery of acquiring new knowledge. Participating faculty members post their project descriptions for the following summer and fall/winter sessions in early February and students are invited to apply in early March. See Experiential and International Opportunities for more details.

Prerequisites: A minimum of 10.0 credits or permission of instructor

Distribution Requirements: Social Science

Mode of Delivery: In Class

WRI410H5 • Professional Writing and Communication Internship 1

This course is a practical internship and is available only upon application from PWC Majors. Through a placement, students will apply their expertise in writing, editing and communications. Students must plan well in advance for their placement and work closely with CCIT/PWC placement officer to determine eligibility and suitability. A report of the placement, samples of work completed on the placement and a presentation about it will be required at the end of the placement. These, and the employer's assessment, will determine the course mark.

Prerequisites: Completion of 13.0 credits with a minimum CGPA of 2.5 and approval of the internship coordinator/instructor, and evidence of additional career development (e.g. workshops, networking events, and professional communication with faculty, librarians, staff, and peers).

Exclusions: CCT410H5 and CCT409H5

Distribution Requirements: Social Science

Mode of Delivery: In Class

WRI411H5 • Professional Writing and Communication Internship II

This course is a practical internship and is available only upon application from PWC Majors who have completed WRI410H5. The course is intended for students who have the opportunity to continue their WRI410H5 internship for a second semester. A report of the placement, samples of work completed on the placement and a presentation about it will be required at the end of the placement. These, and the employer's assessment, will determine the course mark.

Prerequisites: (Completion of 13.0 credits including WRI410H5 or CCT410H5 or CCT409H5) and minimum CGPA of 2.5 and permission of the Internship Coordinator.

Exclusions: CCT411H5

Distribution Requirements: Social Science

Mode of Delivery: In Class

WRI420H5 • Making a Book

Examines principles, procedures and practices in book publishing. Students, working collaboratively, will collect material for, design, edit, typeset, print and assemble books. Students will consider philosophical, aesthetic, and economic factors that guide publishing, editing and design decisions. Students who do not receive formal permission may not take this course.

Prerequisites: A minimum of 3.0 WRI credits and permission of instructor

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

WRI430H5 • Journalistic Investigation

This course examines principles and practices in journalistic investigation and writing, and provides an introduction to the main socio-political issues related to contemporary journalism. The course will consider various models and formats of journalistic writing. Students will design and carry out investigative projects that culminate in a series of journalistic articles. The course will also analyze the Canadian media industry and its evolving labour market.

Prerequisites: A minimum of 1.5 WRI credits and (WRI291H5 or WRI378H5)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

WRI470H5 • Writing Futures

This course examines *speculative non-fiction* and explores ways writers communicate about research, projections, and plans for humanity's future. Students will consider how writing and other cultural forms act not only as "products" of science and reportage but as tools of knowledge-making. Students will produce portfolios that respond to and add to the literature of speculative non-fiction.

Prerequisites: 3.0 WRI credits

Exclusions: WRI490H5

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

WRI483H5 • Character, Narrator and Psychic Space

This course examines the central role of characterization and character development in nonfiction prose. Students explore the theory of psychic space, working to understand how the creation of that space operates to advance audience engagement. Classwork explores the furnishing and unfurnishing of psychic space in relation to meaning and characterization. Students focus on a small set of characters they develop over time via a writing portfolio. The course considers the impacts of place, incident, narrative arc, and complication-resolution models, with reference to theories by Gerke, French, Wolfe, and Van Manen. Weekly exercises and assignments focus on developing believable, memorable characters. Readings include a mix of student-authored and contemporary professional works.

Prerequisites: 2.0 WRI credits

Distribution Requirements: Social Science

Mode of Delivery: In Class

WRI488H5 • Food and Writing

This course examines narrative approaches to researching and writing about food-related topics. Students will design and carry out research projects that culminate in a series of life stories, narrative articles/chapters, or personal essays that investigate complex relationships surrounding food in society.

Prerequisites: 2.0 WRI credits

Exclusions: Food and Writing taken previously as WRI490H5

Distribution Requirements: Social Science

Mode of Delivery: In Class

WRI490H5 • Special Topics in Writing

An in-depth examination of topics in writing. Topics vary from year to year, and the content in any given year depends upon the instructor. The contact hours for this course may vary in terms of contact type (L, S, T, P) from year to year, but will be between 24-36 contact hours in total. See the UTM Timetable.

Prerequisites: 2.5 WRI credits and permission of instructor

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

WRI499Y5 • Research Opportunity Program

This courses provides a richly rewarding opportunity for students in their fourth year to work in the research project of a professor in return for 499Y course credit. Students enrolled have an opportunity to become involved in

original research, learn research methods and share in the excitement and discovery of acquiring new knowledge. Participating faculty members post their project descriptions for the following summer and fall/winter sessions in early February and students are invited to apply in early March. See [Experiential and International Opportunities](#) for more details.

Prerequisites: A minimum of 13.0 credits.

Distribution Requirements: Social Science

Mode of Delivery: In Class

www.utm.utoronto.ca/math-cs-stats/welcome

Computer science is concerned in the broadest sense with the study of computation and applications of computing. Its development has been stimulated by collaborations with many areas including engineering, the physical and life sciences, mathematics and statistics and commerce. However, computer science is much more than a set of techniques used in these application areas. Computer science as a discipline encompasses a wide range of research areas. For example, "human-computer interaction" is the study of computer usage patterns and the design of interfaces between users and computing systems. "Software engineering" includes both the process of building software and the study of software production as a business. "Systems" (networks, operating systems, databases, compilers) is concerned with the design

and analysis of complex computing systems. "Numerical analysis" involves the design, testing, and analysis of numerical methods for solving computational problems in science and engineering. "Cryptography" is the study of the hiding of information. "Theory" encompasses computability -- what can and cannot be computed by machines; complexity -- the relative effort required to perform various computations; and verification -- the formal proof of the correctness of programs.

Course offerings in the Computer Science program are intended to serve a wide variety of students, ranging from those whose primary interest is in information processing to those interested in applying computing to other fields. For more information on Computer Science programs consult www.utm.utoronto.ca/mcs

While we welcome inquiries from all interested students, Computer Science at the University of Toronto is limited to students applying directly from high school. Applicants who have completed any post-secondary studies (including studies at other divisions at the University of Toronto) are not eligible to pursue a Specialist and/or Major in Computer Science at U of T Mississauga.

Students should also review the [Degree Requirements](#) section prior to selecting courses

Computer Science Programs

Bioinformatics - Specialist (Science)

Enrolment Requirements:

Admissions to the Bioinformatics Specialist Program (ERSPE1868) are administratively suspended as of 2023-2024. Summer 2023 is the final opportunity for students to request enrolment in this subject post. Students enrolled in the program will be allowed to continue.

Limited Enrolment — Enrolment in this program is limited. Students who wish to enrol at the end of the first year (4.0 credits) must have passed all the courses listed for the first year, attained at least 60% in all 100-level computer science and mathematics courses, and have a minimum Cumulative Grade Point Average (CGPA) of 2.0.

NOTES:

1. Only [CSC148H5](#) and [MAT102H5](#), taken at the UTM campus, will be accepted.
2. Transfer students who have completed any postsecondary studies outside of UTM (including studies at other divisions at the University of Toronto) are not eligible to pursue a Specialist and/ or Major in Computer Science at U of T Mississauga.

The Bioinformatics Specialist is a deregulated fees program and as such, tuition fees for students enrolled in this program are higher than for other regulated fee programs. Fees are charged on a program and not a per-course basis. See www.fees.utoronto.ca for more information on the fee structures.

Completion Requirements:

14.0 credits are required.

First Year:

1. [BIO152H5](#) and [BIO153H5](#)
2. [CHM110H5](#) and [CHM120H5](#)
3. [CSC108H5](#) and [CSC148H5](#)
4. [MAT102H5](#)
5. [([MAT132H5](#) or [MAT135H5](#) or [MAT137H5](#) or [MAT157H5](#)) and ([MAT134H5](#) or [MAT136H5](#) or [MAT139H5](#) or [MAT159H5](#))] or [MAT134Y5](#) or [MAT135Y5](#) or [MAT137Y5](#) or [MAT157Y5](#)

Second Year:

1. BIO206H5 and BIO207H5
2. CHM242H5
3. CSC207H5 and CSC236H5 and CSC263H5
4. MAT223H5 or MAT240H5

Third Year:

1. MAT232H5 and MAT244H5
2. STA246H5 or STA256H5 or ECO227Y5

Fourth Year:

1. BIO314H5 and BIO372H5 and BIO477H5
2. CSC413H5 or CSC321H5 or CSC411H5 or CSC311H5
3. CSC343H5 and CSC373H5
4. MAT332H5
5. At least 1.0 credit from the following list of recommended courses, of which at least 0.5 credit must be at the 400-level: BIO315H5 or BIO341H5 or BIO370Y5 or BIO371H5 or BIO380H5 or BIO443H5 or BIO481Y5 or CBJ481Y5 or CHM361H5 or CSC310H5 or CSC338H5 or CSC363H5 or JCP410H5 or STA302H5 or STA348H5

NOTES:

1. If BIO477H5 is not offered in the fourth year of a student's studies, he or she must take an additional 0.5 credit from the recommended 400-level courses.
2. Students intending to take CHM361H5 as one of their fourth year recommended courses must take CHM243H5 as a prerequisite course..

ERSPE1868

Computer Science - Specialist (Science)

Enrolment Requirements:

Limited Enrolment — Enrolment in this program is limited to students with a minimum of 4.0 credits, including the following:

1. CSC148H5 (see minimum grade note below)
2. MAT102H5 (see minimum grade note below)
3. MAT134H5 or MAT136H5 or MAT139H5 or MAT159H5 or MAT134Y5 or MAT135Y5 or MAT137Y5 or MAT157Y5 or MAT233H5
4. ISP100H5
5. A cumulative grade point average (CGPA), determined annually. It is never lower than 2.5.
6. All students must complete 4.0 U of T credits before requesting this program. Courses with a grade of CR/NCR will not count as a part of the 4.0 credits required for program entry.

NOTES:

1. The minimum grade required in CSC148H5 and MAT102H5 is determined annually. It is never lower than 65%. Only CSC148H5 and MAT102H5, taken at the UTM campus, will be accepted.
2. Transfer students who have completed any postsecondary studies outside of UTM (including studies at other divisions at the University of Toronto) are not eligible to pursue a Specialist and/ or Major in Computer Science at U of T Mississauga.
3. Due to the limited enrolment nature of this program, students are strongly advised to develop alternate plans if they need to instead enroll in other programs.

The Computer Science Specialist is a deregulated fees program and as such, tuition fees for students enrolled in this program are higher than for other regulated fee programs. Fees are charged on a program and not a per-course basis. See www.fees.utoronto.ca for more information on the fee structures.

Completion Requirements:

12.0-13.0 credits are required.

First Year:

1. [CSC108H5](#) and [CSC148H5](#) and [ISP100H5](#)
2. [MAT102H5](#)
3. [([MAT132H5](#) or [MAT135H5](#) or [MAT137H5](#) or [MAT157H5](#)) and ([MAT134H5](#) or [MAT136H5](#) or [MAT139H5](#) or [MAT159H5](#))] or [MAT134Y5](#) or [MAT135Y5](#) or [MAT137Y5](#) or [MAT157Y5](#)

Second Year:

1. [CSC207H5](#) and [CSC209H5](#) and [CSC236H5](#) and [CSC258H5](#) and [CSC263H5](#)
2. [MAT223H5](#) or [MAT240H5](#)
3. [MAT232H5](#) or [MAT233H5](#) or [MAT257Y5](#)
4. [STA246H5](#) or [STA256H5](#) or [ECO227Y5](#)

Higher Years:

1. [CSC311H5](#) and [CSC343H5](#) and [CSC363H5](#) and [CSC369H5](#) and [CSC373H5](#)
2. [CSC358H5](#) or [CSC458H5](#)
3. 2.0 credits from any 300/400 level CSC course or [GGR335H5](#) or [GGR337H5](#) or [GGR437H5](#). At least 1.0 credit must come from 400-level courses, and no more than 1.0 credit of GGR courses may count to this requirement.

NOTE:

1. In addition to the course requirements above, students must complete an integrative learning experience. This requirement may be met by participating in the Professional Experience Year (PEY) Co-op program* or by completing one of the following half-courses: [CSC318H5](#), [CSC367H5](#), [CSC375H5](#), [CSC376H5](#), [CSC409H5](#), [CSC420H5](#), [CSC427H5](#), [CSC477H5](#), [CSC490H5](#).

* Please be advised that the PEY Co-op Program only applies to UTM Computer Science students in their second year of study. For more information about the PEY Co-op Program, including eligibility requirements, please visit the [Experiential and International Opportunities](#) page of the UTM Academic Calendar.

2. Students are strongly encouraged to familiarize themselves with the 100-level calculus pre-requisites to select the correct courses.

[ERSPE1688](#)

Information Security - Specialist (Science)

Enrolment Requirements:

Limited Enrolment — Enrolment in this program is limited to students with a minimum of 4.0 credits, including the following:

1. [CSC148H5](#) (see minimum grade note below);
2. [MAT102H5](#) (see minimum grade note below);
3. [MAT134H5](#) or [MAT136H5](#) or [MAT139H5](#) or [MAT159H5](#) or [MAT134Y5](#) or [MAT135Y5](#) or [MAT137Y5](#) or [MAT157Y5](#) or [MAT233H5](#);

4. ISP100H5; and
5. A cumulative grade point average (CGPA), determined annually. It is never lower than 2.5.
6. All students must complete 4.0 U of T credits before requesting this program. Courses with a grade of CR/NCR will not count as a part of the 4.0 credits required for program entry.

NOTES:

1. The minimum grade required in CSC148H5 and MAT102H5 is determined annually. It is never lower than 65%. Only CSC148H5 and MAT102H5, taken at the UTM campus, will be accepted.
2. Transfer students who have completed any postsecondary studies outside of UTM (including studies at other divisions at the University of Toronto) are not eligible to pursue a Specialist and/ or Major in Computer Science at U of T Mississauga.
3. Due to the limited enrolment nature of this program, students are strongly advised to develop alternate plans if they need to instead enroll in other programs.

The Information Security Specialist is a deregulated fees program and as such, tuition fees for students enrolled in this program are higher than for other regulated fee programs. Fees are charged on a program and not a per course basis. See www.fees.utoronto.ca for more information on the fee structures.

Completion Requirements:

12.5-13.0 credits are required.

First Year:

1. CSC108H5 and CSC148H5 and ISP100H5
2. MAT102H5
3. [(MAT132H5 or MAT135H5 or MAT137H5 or MAT157H5) and (MAT134H5 or MAT136H5 or MAT139H5 or MAT159H5)] or MAT134Y5 or MAT135Y5 or MAT137Y5 or MAT157Y5 or MAT233H5
4. MAT223H5 or MAT240H5

Second Year:

1. CSC207H5 and CSC209H5 and CSC236H5 and CSC258H5 and CSC263H5
2. MAT224H5 or MAT240H5
3. MAT232H5 or MAT257Y
4. STA246H5 or STA256H5 or ECO227Y5

Third Year:

1. CSC343H5 and CSC347H5 and CSC363H5 and CSC369H5 and CSC373H5
2. MAT301H5 and MAT302H5

Fourth Year:

1. CSC358H5 or CSC458H5
2. 1.0 credit from the following: CSC409H5 or CSC422H5 or CSC423H5 or CSC427H5 or CSC490H5

NOTES:

1. In addition to the course requirements above, students must complete an integrative learning experience. This requirement may be met by participating in the Professional Experience Year (PEY) Co-op program* or by completing one of the following half-courses: CSC318H5, CSC367H5, CSC375H5, CSC376H5, CSC409H5, CSC420H5, CSC427H5, CSC477H5, CSC490H5.

* Please be advised that the PEY Co-op Program only applies to UTM Computer Science students in their second year of study. For more information about the PEY Co-op Program, including eligibility requirements, please visit the [Experiential and International Opportunities](#) page of the UTM Academic Calendar.

2. Students are strongly encouraged to familiarize themselves with the 100-level calculus pre-requisites to select the correct courses.

Note:

[ERSPE1038](#)

Computer Science - Major (Science)

Enrolment Requirements:

Limited Enrolment — Enrolment in this program is limited to students with a minimum of 4.0 credits, including the following:

1. [CSC148H5](#) (see minimum grade note below)
2. [MAT102H5](#) (see minimum grade note below)
3. [MAT134H5](#) or [MAT136H5](#) or [MAT139H5](#) or [MAT159H5](#) or [MAT134Y5](#) or [MAT135Y5](#) or [MAT137Y5](#) or [MAT157Y5](#) or [MAT233H5](#)
4. [ISP100H5](#)
5. A cumulative grade point average (CGPA), determined annually. It is never lower than 2.5.
6. All students must complete 4.0 U of T credits before requesting this program. Courses with a grade of CR/NCR will not count as a part of the 4.0 credits required for program entry.

NOTES:

1. The minimum grade required in [CSC148H5](#) and [MAT102H5](#) is determined annually. It is never lower than 60%. Only [CSC148H5](#) and [MAT102H5](#), taken at the UTM campus, will be accepted.
2. Transfer students who have completed any postsecondary studies outside of UTM (including studies at other divisions at the University of Toronto) are not eligible to pursue a Specialist and/ or Major in Computer Science at U of T Mississauga.
3. Due to the limited enrolment nature of this program, students are strongly advised to develop alternate plans if they need to instead enroll in other programs.

The Computer Science Major is a deregulated fees program and as such, tuition fees for students enrolled in this program are higher than for other regulated fee programs. Fees are charged on a program and not a per-course basis. See www.fees.utoronto.ca for more information on the fee structures.

Completion Requirements:

7.5-8.0 credits are required.

First Year:

1. [CSC108H5](#) and [CSC148H5](#) and [ISP100H5](#)
2. [MAT102H5](#)
3. [([MAT132H5](#) or [MAT135H5](#) or [MAT137H5](#) or [MAT157H5](#)) and ([MAT134H5](#) or [MAT136H5](#) or [MAT139H5](#) or [MAT159H5](#))] or [MAT134Y5](#) or [MAT135Y5](#) or [MAT137Y5](#) or [MAT157Y5](#) or [MAT233H5](#)

Second Year:

1. [CSC207H5](#) and [CSC236H5](#)
2. 1.0 credit from the following [CSC209H5](#) or [CSC258H5](#) or [CSC263H5](#)

3. [MAT223H5](#) or [MAT240H5](#)
4. [STA246H5](#) or [STA256H5](#) or [ECO227Y5](#)

Higher Years:

1. 2.0 credits from any 300/400 level CSC course or [GGR335H5](#) or [GGR337H5](#) or [GGR437H5](#). At least 0.5 credit must come from 400-level courses, and no more than 0.5 credit of GGR courses may count to this requirement.

NOTE:

1. In addition to the course requirements above, students must complete an integrative learning experience. This requirement may be met by participating in the Professional Experience Year (PEY) Co-op program* or by completing one of the following half-courses: [CSC318H5](#), [CSC367H5](#), [CSC375H5](#), [CSC376H5](#), [CSC409H5](#), [CSC420H5](#), [CSC427H5](#), [CSC477H5](#), [CSC490H5](#).

* Please be advised that the PEY Co-op Program only applies to UTM Computer Science students in their second year of study. For more information about the PEY Co-op Program, including eligibility requirements, please visit the [Experiential and International Opportunities](#) page of the UTM Academic Calendar.

2. Students are strongly encouraged to familiarize themselves with the 100-level calculus pre-requisites to select the correct courses.

[ERMAJ1688](#)

Computer Science - Minor (Science)

Completion Requirements:

4.0 credits are required.

First Year: [CSC108H5](#) and [CSC148H5](#) and [MAT102H5](#)

Second Year:

1. [CSC207H5](#) and [CSC236H5](#)
2. One of [CSC209H5](#) or [CSC258H5](#) or [CSC263H5](#)

Third and Fourth Years: 1.0 credit from any 300/400 level CSC course (except for [CSC392H5](#) and [CSC393H5](#) and [CSC492H5](#) and [CSC493H5](#)) or [GGR335H5](#) or [GGR337H5](#) or [GGR437H5](#). No more than 0.5 credit of GGR courses may count to this requirement.

NOTES:

1. Students in the CSC minor are limited to 1.5 credits of computer science courses at the 300/ 400-level. Enrolment in additional CSC courses is restricted to students in CSC specialist and major programs.
2. Only [CSC148H5](#) and [MAT102H5](#), taken at the UTM campus, will be accepted.

[ERMIN1688](#)

Enrolment is restricted in all CSC specialist and major programs. [CSC108H5](#), [CSC148H5](#), [MAT102H5](#) and [\(MAT132H5,MAT134H5\) / \(MAT135H5,MAT136H5\) / \(MAT137H5, MAT139H5\) / \(MAT157H5, MAT159H5\)](#) are the standard first year courses for students who plan to continue in a Computer Science program.

Notes:

1. All CSC programs require MAT102H5, (MAT132H5, MAT134H5) / (MAT135H5, MAT136H5) / (MAT137H5, MAT139H5) / (MAT157H5, MAT159H5) and CSC148H5. To take these courses, you must have obtained a minimum of 70% in Grade 12 Advanced Functions (MHF4U) or equivalent, and you must have completed Grade 12 Calculus and Vectors (MCV4U) or equivalent. A minimum of 70% in MCV4U is recommended.
2. All CS majors and specialists contain a half-credit writing requirement. For students who enter a CS major or specialist in 2021-2022 (or earlier), the recommended course to satisfy this requirement is either CSC290H5 or ISP100H5. Students can also satisfy the writing requirement with any of CCT110H5, ENG100H5, HSC200H5, HSC300H5, LIN204H5, WRI203H5, or WRI173H5. For students who enter a CS major or specialist in 2022-2023 and beyond, ISP100H5 is the required course to satisfy the writing requirement.
3. Students enrolled in any of the Computer Science programs are strongly encouraged to consider participating in the Professional Experience Year (PEY) Co-op program. For information, visit the University of Toronto Engineering Career Center (ECC).
4. Students in any University of Toronto program are limited to to 1.5 credits of third and fourth-year CSC courses. Enrolment in additional CSC courses is restricted to students in CSC specialist and major programs.
5. CSC courses are offered on all three campuses of the University of Toronto. Some course numbers are unique to a specific campus, and others are shared between campuses. When a course with a common number is offered at U of T Mississauga, students are expected to take the course at the U of T Mississauga, even if that course is offered on a different campus in a different academic term. Due to enrolment pressures, U of T Mississauga students may not always be able to enrol in courses unique to the other campuses.

Computer Science Courses

CBJ481Y5 • Independent Project in Bioinformatics

This course is intended for students in the Bioinformatics Specialist degree program. Possible areas in which the research may take place include: functional genomics (e.g., microarray and proteomic data analysis); systems biology; and the development of novel analytical methods for large datasets. Students will be required to produce a written document of their project and present it orally. In order to enrol in this course, students must obtain, several months in advance, approval from a faculty member(s) who will serve as supervisor(s).

Prerequisites: permission of instructor

Corequisites: BIO477H5

Recommended Preparation: CSC343H5 and BIO372H5

Enrolment Limits: Priority is given to students enrolled in Computer Science Specialist, Information Security Specialist, Bioinformatics Specialist or Computer Science Major programs.

Distribution Requirements: Science

Mode of Delivery: In Class

CSC104H5 • The Why and How of Computing

A broad introduction to the field of computer science, intended for non-computer scientists. Topics include: history of computing; digital information representations; computer chip logic design; cryptography; social issues in computing; operating systems; problem solving and algorithms; a challenging programming introduction. This

is a rigorous course intended to teach computer science, and will not teach the use of any particular software products. A robust understanding of modern computers and their use is assumed.

Exclusions: any CSC course

Distribution Requirements: Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

CSC108H5 • Introduction to Computer Programming

Structure of computers; the computing environment. Programming in a language such as Python. Program structure: elementary data types, statements, control flow, functions, classes, objects, methods, fields. List: searching, sorting and complexity.

Prerequisites: Grade 12 Advanced Functions (MHF4U).

Exclusions: CSC108H1 or CSC120H1 or CSCA08H3 or CSCA20H3

Distribution Requirements: Science

Total Instructional Hours: 36L/24P

Mode of Delivery: In Class

CSC148H5 • Introduction to Computer Science

Abstract data types and data structures for implementing them. Linked data structures. Encapsulation and information-hiding. Object-oriented programming. Specifications. Analyzing the efficiency of programs. Recursion. This course assumes programming experience in a language such as Python, C++, or Java, as provided by CSC108H5. Students who already have this

background may consult the Computer Science faculty advisor for advice about skipping [CSC108H5](#).

Prerequisites: [CSC108H5](#)

Exclusions: [CSC148H1](#) or [CSCA48H3](#) or [CSC111H1](#)

Distribution Requirements: Science

Total Instructional Hours: 36L/24P

Mode of Delivery: In Class

CSC199H5 • Computer Science Seminar

Introduction to a topic of current interest in computer science intended for a general audience. Content will vary from year to year.

Prerequisites: permission of instructor

Distribution Requirements: Science

Mode of Delivery: In Class

CSC207H5 • Software Design

An introduction to software design and development concepts, methods, and tools using a statically-typed object-oriented programming language such as Java. Topics from: version control, build management, unit testing, refactoring, object-oriented design and development, design patterns, advanced IDE usage, regular expressions, and reflection. Representation of floating-point numbers and introduction to numerical computation.

Prerequisites: 60% in [CSC148H5](#) (Only [CSC148H5](#) taken at the UTM campus will be accepted.)

Exclusions: [CSC207H1](#) or [CSCB07H3](#)

Distribution Requirements: Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

CSC209H5 • Software Tools and Systems Programming

Software tools and development in a Unix/Linux environment, using a machine-oriented programming language (typically C). Core topics: software tools (shell utilities and make), processes and program execution, the memory model, system calls, file processing, interprocess communication (pipes and signals), and an introduction to concurrency, including multithreading.

Prerequisites: [CSC207H5](#)

Exclusions: [CSC209H1](#) or [CSCB09H3](#)

Distribution Requirements: Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

CSC236H5 • Introduction to the Theory of Computation

Mathematical induction; correctness proofs for iterative and recursive algorithms; recurrence equations and their solutions (including the "Master Theorem"); introduction to automata and formal languages.

Prerequisites: [CSC148H5](#) and [MAT102H5](#)

Exclusions: [CSC236H1](#) or [CSC240H1](#) or [CSCB36H3](#)

Distribution Requirements: Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

CSC258H5 • Computer Organization

An introduction to computer organization and architecture, using a common CPU architecture. Core topics: data representations and computer arithmetic, processor organization, the memory hierarchy and caching, instruction set and addressing modes, and quantitative performance evaluation of computing systems. Students will program in assembly and will evaluate simulated processor architectures.

Note:

Students wishing to complete [CSC385H1](#) (Microprocessor Systems) should consider enrolling in [CSC258H1](#) and/or to self-study the use of hardware design languages to create digital logic.

Prerequisites: [CSC148H5](#)

Exclusions: [CSC258H1](#) or [CSCB58H3](#)

Distribution Requirements: Science

Total Instructional Hours: 24L/24P

Mode of Delivery: In Class

CSC263H5 • Data Structures and Analysis

Algorithm analysis: worst-case, average-case, and amortized complexity. Standard abstract data types, such as graphs, dictionaries, priority queues and disjoint sets. A variety of data structures for implementing these abstract data types, such as balanced search trees, hashing, heaps and disjoint forests. Design, implementation and comparison of data structures. Introduction to lower bounds.

Prerequisites: [CSC207H5](#) and [CSC236H5](#) and ([STA107H5](#) or [STA246H5](#) or [STA256H5](#) or [ECO227Y5](#))

Exclusions: [CSC263H1](#) or [CSC265H1](#) or [CSCB63H3](#)

Distribution Requirements: Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

CSC290H5 • Communication Skills for Computer Scientists

Targeted instruction and significant practice in the communications required for careers in computer science. The curriculum covers written, oral and interpersonal communication. Students will hand in short pieces of writing each week, will make oral presentations several times in the semester, and will work together in simulated project meetings and other realistic scenarios of pair and small group interaction. This can be used to satisfy the writing requirement in CSC programs.

Prerequisites: CSC148H5

Exclusions: CSC290H1

Distribution Requirements: Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

CSC299Y5 • Research Opportunity Program

This course provides a richly rewarding opportunity for students in their second year to work in the research project of a professor in return for 299Y course credit. Students enrolled have an opportunity to become involved in original research, learn research methods and share in the excitement and discovery of acquiring new knowledge. Participating faculty members post their project descriptions for the following summer and fall/winter sessions in early February and students are invited to apply in early March. See Experiential and International Opportunities for more details.

Distribution Requirements: Science

Mode of Delivery: In Class

CSC300H5 • Computers and Society

Privacy and Freedom of Information; recent Canadian legislation and reports. Computers and work; employment levels, quality of working life. Electronic fund transfer systems; transborder data flows. Computers and bureaucratization. Computers in the home; public awareness about computers. Robotics. Professionalism and the ethics of computers. The course is designed not only for science students, but also those in social sciences or humanities.

Prerequisites: Any CSC half-course and CGPA 2.0

Exclusions: CSC300H1 or CSCD03H3

Enrolment Limits: Priority is given to students enrolled in Computer Science Specialist, Information Security Specialist, Bioinformatics Specialist or Computer Science Major programs.

Distribution Requirements: Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

CSC301H5 • Introduction to Software Engineering

An introduction to agile development methods appropriate for medium-sized teams and rapidly-moving projects. Basic software development infrastructure; requirements elicitation and tracking; estimation and prioritization; teamwork skills; basic UML; design patterns and refactoring; security.

Prerequisites: CSC209H5

Exclusions: CSC301H1 or CSCC01H3

Enrolment Limits: Priority is given to students enrolled in Computer Science Specialist, Information Security Specialist, Bioinformatics Specialist or Computer Science Major programs.

Distribution Requirements: Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

CSC309H5 • Programming on the Web

An introduction to software development on the web. Concepts underlying the development of programs that operate on the web; survey of technological alternatives; greater depth on some technologies. Operational concepts of the internet and the web, static client content, dynamic client content, dynamically served content, n-tiered architectures, web development processes, and security on the web. Assignments involve increasingly more complex web-based programs.

Prerequisites: CSC209H5 and CSC263H5

Exclusions: CSC309H1 or CSCC09H3

Enrolment Limits: Priority is given to students enrolled in Computer Science Specialist, Information Security Specialist, Bioinformatics Specialist or Computer Science Major programs.

Distribution Requirements: Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

CSC310H5 • Information Theory

An introduction to reliable and accurate transmission of information. Entropy, lossless and lossy data compression, optimal compression, information channels, channel capacity, error-correcting codes, and digital fountain codes. Course concepts form the basis for practical applications such as ZIP and MP3 compression, channel coding for DSL lines, communication in deep space and to mobile devices, CDs and disk drives, the development of the Internet, as well as linguistics and human perception.

Prerequisites: CSC148H5 and MAT223H5 and (STA246H5 or STA256H5 or ECO227Y5)

Exclusions: CSC310H1

Distribution Requirements: Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

CSC311H5 • Introduction to Machine Learning

An introduction to methods for automated learning of relationships on the basis of empirical data. Classification and regression using nearest neighbour methods, decision trees, linear models, and neural networks. Clustering algorithms. Problems of overfitting and of assessing accuracy. Basics of reinforcement learning.

Prerequisites: CSC207H5 and (MAT223H5 or MAT240H5) and MAT232H5 and (STA246H5 or STA256H5)

Exclusions: CSC411H5 or CSC311H1 or CSCC11H3

Enrolment Limits: Priority is given to students enrolled in Computer Science Specialist, Information Security Specialist, Bioinformatics Specialist or Computer Science Major programs.

Distribution Requirements: Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

CSC318H5 • The Design of Interactive Computational Media

User-centered design of interactive systems. Methodologies, principles, metaphors, task analysis, and other topics. Interdisciplinary design; the role of industrial design and the behavioural sciences. Interactive hardware and software; concepts from computer graphics. Classes of direct manipulation systems, extensible systems, rapid prototyping tools. Additional topics in interactive computational media. Students work on projects in interdisciplinary teams. Enrolment limited, but non-computer scientists welcome.

Prerequisites: CSC207H5

Exclusions: CSC318H1 or CSCC10H3

Enrolment Limits: Priority is given to students enrolled in Computer Science Specialist, Information Security Specialist, Bioinformatics Specialist or Computer Science Major programs.

Distribution Requirements: Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

CSC322H5 • Introduction to Algebraic Cryptography

(Cross list with MAT302H5) The course will take students on a journey through the methods of algebra and number theory in cryptography, from Euclid to Zero Knowledge Proofs. Topics include: block ciphers and the Advanced Encryption Standard (AES); algebraic and number-theoretic techniques and algorithms in cryptography, including methods for primality testing and factoring large numbers; encryption and digital signature systems based

on RSA, factoring, elliptic curves and integer lattices; and zero-knowledge proofs.

Prerequisites: (MAT224H5 or MAT240H5) and MAT301H5

Exclusions: MAT302H5 or MATC16H3

Enrolment Limits: Priority is given to students enrolled in Computer Science Specialist, Information Security Specialist, Bioinformatics Specialist or Computer Science Major programs.

Distribution Requirements: Science

Total Instructional Hours: 36L/12T

Mode of Delivery: In Class

CSC324H5 • Principles of Programming Languages

Major topics in the development of modern programming languages. Syntax specification, type systems, type inference, exception handling, information hiding, structural recursion, run-time storage management, and programming paradigms. Two non-procedural programming paradigms: functional programming (illustrated by languages such as Lisp, Scheme, ML or Haskell) and logic programming (illustrated by languages such as Prolog, XSB or Coral).

Prerequisites: CSC207H5 and CSC236H5

Exclusions: CSC324H1 or CSCC24H3

Enrolment Limits: Priority is given to students enrolled in Computer Science Specialist, Information Security Specialist, Bioinformatics Specialist or Computer Science Major programs.

Distribution Requirements: Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

CSC333H5 • Forensic Computing

Introduction to the tools and techniques of the digital detective. Electronic discovery of digital data, including field investigation methods of the computer crime scene. Focus on the computer science behind computer forensics, network forensics and data forensics. Forensic topics include: computer structure, data acquisition from storage media, file system analysis, network intrusion detection, electronic evidence, Canadian computer crime case law.

Prerequisites: CSC209H5

Enrolment Limits: Priority is given to students enrolled in Computer Science Specialist, Information Security Specialist, Bioinformatics Specialist or Computer Science Major programs.

Distribution Requirements: Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

CSC338H5 • Numerical Methods

Computational methods for solving numerical problems in science, engineering and business. Linear and non-linear equations, approximation, optimization, interpolation, integration and differentiation. The aim is to give students a basic understanding of floating-point arithmetic and the implementation of algorithms used to solve numerical problems, as well as a familiarity with current numerical computing environments. Course concepts are crucial to a wide range of practical applications such as computational finance and portfolio management, graphics and special effects, data mining and machine learning, as well as robotics, bioinformatics, medical imaging and others.

Prerequisites: CSC148H5 and (MAT134H5 or MAT136H5 or MAT139H5 or MAT159H5 or MAT134Y5 or MAT135Y5 or MAT137Y5 or MAT157Y5 or MAT233H5) and (MAT223H5 or MAT240H5) and (CSC263H5 or 1.0 MAT credit at the 200+ level).

Exclusions: CSC336H1 or CSC350H5 or CSC350H1 or CSC351H1 or CSCC37H3

Enrolment Limits: Priority is given to students enrolled in Computer Science Specialist, Information Security Specialist, Bioinformatics Specialist or Computer Science Major programs.

Distribution Requirements: Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

CSC343H5 • Introduction to Databases

Introduction to database management systems. The relational data model. Relational algebra. Querying and updating databases: the query language SQL. Application programming with SQL. Integrity constraints, normal forms, and database design. Elements of database system technology: query processing, transaction management.

Prerequisites: CSC263H5

Exclusions: CSC343H1 or CSCC43H3

Enrolment Limits: Priority is given to students enrolled in Computer Science Specialist, Information Security Specialist, Bioinformatics Specialist or Computer Science Major programs.

Distribution Requirements: Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

CSC347H5 • Introduction to Information Security

An investigation of many aspects of modern information security. Major topics cover: Techniques to identify and avoid common software development flaws which leave software vulnerable to crackers. Utilizing modern operating systems security features to deploy software in a protected environment. Common threats to networks and networked computers and tools to deal with them.

Cryptography and the role it plays in software development, systems security and network security.

Prerequisites: CSC209H5 and CSC236H5

Enrolment Limits: Priority is given to students enrolled in Computer Science Specialist, Information Security Specialist, Bioinformatics Specialist or Computer Science Major programs.

Distribution Requirements: Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

CSC358H5 • Principles of Computer Networks

Introduction to computer networks and systems programming of networks. Basic understanding of computer networks and network protocols. Network hardware and software, routing, addressing, congestion control, reliable data transfer, and socket programming.

Prerequisites: CSC209H5 and CSC258H5 and CSC263H5

Exclusions: CSC358H1 or CSC457H1

Enrolment Limits: Priority is given to students enrolled in Computer Science Specialist, Information Security Specialist, Bioinformatics Specialist or Computer Science Major programs.

Distribution Requirements: Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

CSC363H5 • Computational Complexity and Computability

Introduction to the theory of computability: Turing machines, Church's thesis, computable and non-computable functions, recursive and recursively enumerable sets, reducibility. Introduction to complexity theory: models of computation, P, NP, polynomial time reducibility, NP-completeness, further topics in complexity theory.

Prerequisites: (CSC236H5 or CSC238H5) or MAT202H5

Exclusions: CSCC63H3 or CSC463H1

Enrolment Limits: Priority is given to students enrolled in Computer Science Specialist, Information Security Specialist, Bioinformatics Specialist or Computer Science Major programs.

Distribution Requirements: Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

CSC367H5 • Parallel Programming

Introduction to aspects of parallel programming. Topics include computer instruction execution, instruction-level parallelism, memory system performance, task and data parallelism, parallel models (shared memory, message passing), synchronization, scalability and Amdahl's law,

Flynn taxonomy, vector processing and parallel computing architectures.

Prerequisites: CSC209H5 and CSC258H5

Exclusions: CSC367H1

Enrolment Limits: Priority is given to students enrolled in Computer Science Specialist, Information Security Specialist, Bioinformatics Specialist or Computer Science Major programs.

Distribution Requirements: Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

CSC369H5 • Operating Systems

Principles of operating systems. The operating system as a control program and as a resource allocator. Core topics: processes and threads, concurrency (synchronization, mutual exclusion, deadlock), processor, scheduling, memory management, file systems, and protection.

Prerequisites: CSC258H5 and CSC209H5

Exclusions: CSC369H1 or CSCC69H3

Enrolment Limits: Priority is given to students enrolled in Computer Science Specialist, Information Security Specialist, Bioinformatics Specialist or Computer Science Major programs.

Distribution Requirements: Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

CSC373H5 • Algorithm Design and Analysis

Standard algorithm design techniques: divide-and-conquer, greedy strategies, dynamic programming, linear programming, randomization, network flows, approximation algorithms and others (if time permits). Students will be expected to show good design principles and adequate skills at reasoning about the correctness and complexity of algorithms.

Prerequisites: CSC263H5

Exclusions: CSC373H1 or CSC375H1 or CSCC73H3

Enrolment Limits: Priority is given to students enrolled in Computer Science Specialist, Information Security Specialist, Bioinformatics Specialist or Computer Science Major programs.

Distribution Requirements: Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

CSC375H5 • Algorithmic Intelligence in Robotics

Robots of the future will need to operate autonomously in unstructured and unseen environments. It is imperative that these systems are built on intelligent and adaptive algorithms. This course will introduce fundamental

algorithmic approaches for building an intelligent robot system that can autonomously operate in unstructured environments such as homes and warehouses. This course introduces the broad philosophy of "Sense-Plan-Act", and covers algorithms in each of these areas -- how should the robot perceive the world, how to make long term decisions and how to perform closed-loop control of articulated robots.

Prerequisites: CSC209H5 and (MAT223H5 or MAT240H5) and (STA246H5 or STA256H5) and CSC376H5

Recommended Preparation: CSC258H5 and CSC301H5

Enrolment Limits: Priority is given to students enrolled in Computer Science Specialist, Information Security Specialist, Bioinformatics Specialist or Computer Science Major programs.

Distribution Requirements: Science

Total Instructional Hours: 24L/24P

Mode of Delivery: In Class

CSC376H5 • Fundamentals of Robotics

An introduction to robotics covering basic methodologies, tools, and concepts to build a foundation for advanced topics in robotics. The course covers robot manipulators; kinematics; motion planning; and control. Topics covered in lecture will be implemented and explored in a practical environment using robots from different application domains.

Prerequisites: (MAT223H5 or MAT240H5) and CSC209H5 and CSC258H5

Recommended Preparation: CSC338H5

Enrolment Limits: Priority is given to students enrolled in Computer Science Specialist, Information Security Specialist, Bioinformatics Specialist or Computer Science Major programs.

Distribution Requirements: Science

Total Instructional Hours: 24L/24P

Mode of Delivery: In Class

CSC384H5 • Introduction to Artificial Intelligence

Theories and algorithms that capture (or approximate) some of the core elements of computational intelligence. Topics include: search, logical representations and reasoning, classical automated planning, representing and reasoning with uncertainty, learning, decision making (planning) under uncertainty. Assignments provide practical experience, in both theory and programming, of the core topics.

Prerequisites: CSC263H5 and (STA246H5 or STA256H5 or ECO227Y5)

Exclusions: CSC384H1 or CSCD84H3

Enrolment Limits: Priority is given to students enrolled in Computer Science Specialist, Information Security Specialist, Bioinformatics Specialist or Computer Science

Major programs.

Distribution Requirements: Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

CSC389H5 • Computing Education

Introduction to computing education research (CER) and pedagogical content knowledge. Introduction to learning theories and their application to computing. Foundational and influential CER work. High-impact practices and practical applications to evaluation, assessment, and feedback. This course is writing intensive.

Prerequisites: Permission of the instructor and 1.0 CSC credit at the 200 level

Enrolment Limits: Priority is given to students enrolled in Computer Science Specialist, Information Security Specialist, Bioinformatics Specialist or Computer Science Major programs.

Distribution Requirements: Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

CSC392H5 • Computer Science Implementation Project

This course involves a significant implementation project in any area of Computer Science. The project may be undertaken individually or in small groups. The project is offered by arrangement with a Computer Science faculty member.

Prerequisites: A minimum of 8.0 credits and Permission of Instructor

Enrolment Limits: Priority is given to students enrolled in Computer Science Specialist, Information Security Specialist, Bioinformatics Specialist or Computer Science Major programs.

Course Experience: University-Based Experience

Distribution Requirements: Science

Mode of Delivery: In Class

CSC393H5 • Computer Science Expository Work

This course involves a significant literature search and expository work in any area of Computer Science. This work must be undertaken individually. It is offered by arrangement with a Computer Science faculty member.

Enrolment Limits: Priority is given to students enrolled in Computer Science Specialist, Information Security Specialist, Bioinformatics Specialist or Computer Science Major programs.

Course Experience: University-Based Experience

Distribution Requirements: Science

Mode of Delivery: In Class

CSC397H5 • Topics in Computer Science

Introduction to a topic of current interest in computer science intended for CSC majors and specialists. Content will vary from year to year. The contact hours for this course may vary in terms of contact type (L, T, P) from year to year, but will be between 24-48 contact hours in total. See the UTM Timetable.

Prerequisites: Appropriate prerequisite requirement(s) will be available on the UTM timetable along with the topic title prior to course registration.

Enrolment Limits: Priority is given to students enrolled in Computer Science Specialist, Information Security Specialist, Bioinformatics Specialist or Computer Science Major.

Distribution Requirements: Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

CSC398H5 • Topics in Computer Science

Introduction to a topic of current interest in computer science intended for CSC majors and specialists. Content will vary from year to year. This course may include a practical or tutorial component, depending on the topic chosen for the year. The contact hours for this course may vary in terms of contact type (L, T, P) from year to year, but will be between 24-48 contact hours in total. See the UTM Timetable.

Prerequisites: Appropriate prerequisite requirement(s) will be available on the UTM timetable along with the topic title prior to course registration.

Enrolment Limits: Priority is given to students enrolled in Computer Science Specialist, Information Security Specialist, Bioinformatics Specialist or Computer Science Major programs.

Distribution Requirements: Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

CSC399Y5 • Research Opportunity Program

This course provides a richly rewarding opportunity for students in their third or fourth year to work in the research project of a professor in return for 399Y course credit. Students enrolled have an opportunity to become involved in original research, learn research methods and share in the excitement and discovery of acquiring new knowledge. Participating faculty members post their project descriptions for the following summer and fall/winter sessions in early February and students are invited to apply in early March. See [Experiential and International Opportunities](#) for more details.

Enrolment Limits: Priority is given to students enrolled in Computer Science Specialist, Information Security

Specialist, Bioinformatics Specialist or Computer Science Major programs.

Distribution Requirements: Science

Mode of Delivery: In Class

CSC404H5 • Video Game Design

An introduction to the concepts and techniques for the design and development of electronic games. Topics include: game history, social issues and story elements. The software engineering, artificial intelligence and graphics elements for video games. Level and model design. Audio elements. Real-world aspects of the gaming industry, including the business of game development, design teams and game promotion. Assignments test practical skills in game development, with a team implementation of a complete video game as a course project.

Prerequisites: Two of ([CSC301H5](#) or [CSC318H5](#) or [CSC384H5](#) or [CSC418H1](#))

Exclusions: [CSC404H1](#)

Distribution Requirements: Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

CSC409H5 • Scalable Computing

We investigate computation in the large -- utilizing many CPUs with large amounts of memory, large storage and massive connectivity -- to solve computationally complex problems involving big data, serving large collections of users, in high availability, global settings. Our investigation covers both theoretical techniques and current, applied tools used to scale applications on the desktop and in the cloud. Topics include caching, load balancing, parallel computing and models of computation, redundancy, failover strategies, use of GPUs, and noSQL databases.

Prerequisites: [CSC309H5](#) and [CSC369H5](#) and [CSC373H5](#)

Enrolment Limits: Priority is given to students enrolled in Computer Science Specialist, Information Security Specialist, Bioinformatics Specialist or Computer Science Major programs.

Distribution Requirements: Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

CSC413H5 • Neural Networks and Deep Learning

An introduction to neural networks and deep learning. Backpropagation and automatic differentiation. Architectures: convolutional networks and recurrent neural networks. Methods for improving optimization and generalization. Neural networks for unsupervised and reinforcement learning.

Prerequisites: [CSC311H5](#) or [CSC411H5](#)

Exclusions: [CSC321H5](#) or [CSC321H1](#) or [CSC413H1](#) or [CSC421H1](#)

Enrolment Limits: Priority is given to students enrolled in Computer Science Specialist, Information Security Specialist, Bioinformatics Specialist or Computer Science Major programs.

Distribution Requirements: Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

CSC415H5 • Introduction to Reinforcement Learning

Reinforcement learning is a powerful paradigm for modeling autonomous and intelligent agents interacting with the environment, and it is relevant to an enormous range of tasks, including robotics, game playing, consumer modeling and healthcare. This course provides an introduction to reinforcement learning intelligence, which focuses on the study and design of agents that interact with a complex, uncertain world to achieve a goal. We will study agents that can make near-optimal decisions in a timely manner with incomplete information and limited computational resources. The course will cover Markov decision processes, reinforcement learning, planning, and function approximation (online supervised learning). The course will take an information-processing approach to the concept of mind and briefly touch on perspectives from psychology, neuroscience, and philosophy.

Prerequisites: [CSC311H5](#)

Exclusions: [CSC498H5](#) (Winter 2021 and Fall 2021)

Enrolment Limits: Priority is given to students enrolled in Computer Science Specialist, Information Security Specialist, Bioinformatics Specialist or Computer Science Major programs.

Distribution Requirements: Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

CSC420H5 • Introduction to Image Understanding

This class is an introduction to fundamental concepts in image understanding, the sub-discipline of artificial intelligence that tries to make the computers "see". It will survey a variety of interesting vision problems and techniques. Specifically, the course will cover image formation, features, object and scene recognition and learning, multi-view geometry and video processing. It will also feature recognition with RGB-D data. The goal of the class will be to grasp a number of computer vision problems and understand basic approaches to tackle them for real-world applications.

Prerequisites: [CSC263H5](#) and ([CSC338H5](#) or CGPA 3.5)

Exclusions: [CSC420H1](#)

Enrolment Limits: Priority is given to students enrolled in

Computer Science Specialist, Information Security Specialist, Bioinformatics Specialist or Computer Science Major programs.

Distribution Requirements: Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

CSC422H5 • Cryptography and Computational Complexity

A rigorous introduction to the theory of cryptography from the perspective of computational complexity. The relationship of cryptography to the "P=NP" question. As time permits, topics will be chosen from: (i) definitions of different kinds of pseudorandom generators, relationships between them, and ways of constructing them; (ii) secure sessions using shared private key cryptography and public key cryptography; (iii) signature schemes.

Prerequisites: CSC363H5

Recommended Preparation: MAT301H5

Distribution Requirements: Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

CSC423H5 • Computer Forensics

Investigation of digital devices that contain evidence, including mobile and handheld devices. Topics include the analysis of memory dumps, event logs, and application caches using existing digital forensic tools as well as the development of new tools to uncover evidence and to work around the use of anti-forensics. Tools and investigations must be clearly documented, so this course contains a significant writing component.

Prerequisites: CSC333H5 and CSC369H5

Enrolment Limits: Priority is given to students enrolled in Computer Science Specialist, Information Security Specialist, Bioinformatics Specialist or Computer Science Major programs.

Distribution Requirements: Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

CSC427H5 • Computer Security

Network attacks and defenses, operating system vulnerabilities, application security (e-mail, Web, databases), viruses, spyware, social engineering attacks, privacy and digital rights management. The course will cover both attack techniques and defense mechanisms.

Prerequisites: CSC347H5 and CSC369H5

Enrolment Limits: Priority is given to students enrolled in Computer Science Specialist, Information Security Specialist, Bioinformatics Specialist or Computer Science Major programs.

Distribution Requirements: Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

CSC428H5 • Human-Computer Interaction

Understanding human behaviour as it applies to user interfaces: work activity analysis, observational techniques, questionnaire administration and unobtrusive measures. Operating parameters of the human cognitive system, task analysis and cognitive modelling techniques and their application to designing interfaces. Interface representations and prototyping tools. Cognitive walkthroughs, usability studies and verbal protocol analysis. Case studies of specific user interfaces.

Prerequisites: CSC318H5 and (STA246H5 or STA256H5 or ECO227Y5)

Exclusions: CSC428H1

Recommended Preparation: A course in PSY and CSC209H5

Enrolment Limits: Priority is given to students enrolled in Computer Science Specialist, Information Security Specialist, Bioinformatics Specialist or Computer Science Major programs.

Distribution Requirements: Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

CSC458H5 • Computer Networks

Computer networks with an emphasis on systems programming of real networks and applications. Computer network architectures, protocol layers, network programming, and performance analysis. Transmission media, encoding systems, switching, multiple access arbitration. Network routing, congestion control, flow control. Transport protocols, real-time, multicast, social networks.

Prerequisites: CSC209H5 and CSC258H5 and CSC263H5

Exclusions: CSC458H1 and CSCD58H3

Distribution Requirements: Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

CSC469H5 • Operating Systems Design and Implementation

An in-depth exploration of the major components of operating systems with an emphasis on the techniques, algorithms, and structures used to implement these components in modern systems. Project-based study of process management, scheduling, memory management, file systems, and networking is used to build insight into the intricacies of a large concurrent system.

Prerequisites: CSC369H5

Exclusions: CSC469H1

Enrolment Limits: Priority is given to students enrolled in Computer Science Specialist, Information Security

Specialist, Bioinformatics Specialist or Computer Science Major programs.

Distribution Requirements: Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

CSC475H5 • Introduction to Reinforcement Learning

This course provides an introduction to reinforcement learning intelligence, which focuses on the study and design of agents that interact with a complex, uncertain world to achieve a goal. The course covers Markov decision processes, reinforcement learning, planning, and function approximation (online supervised learning). Applications to computer vision, robotics, etc. are explored, and common RL algorithms are analyzed and implemented.

Prerequisites: CSC311H5 and STA256H5

Enrolment Limits: Priority is given to students enrolled in Computer Science Specialist, Information Security Specialist, Bioinformatics Specialist or Computer Science Major programs.

Distribution Requirements: Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

CSC476H5 • Introduction to Continuum Robotics

An introduction to continuum robots. Topics include continuum robot design; mechanisms and actuation; kinematic modeling; motion planning and control; and sensing. Topics covered in the lecture will be implemented and explored in a practical environment using continuum robots.

Prerequisites: CSC338H5 and CSC376H5 and MAT224H5

Recommended Preparation: CSC384H5 and CSC411H5

Enrolment Limits: Priority is given to students enrolled in Computer Science Specialist, Information Security Specialist, Bioinformatics Specialist or Computer Science Major programs.

Distribution Requirements: Science

Total Instructional Hours: 24L/24P

Mode of Delivery: In Class

CSC477H5 • Introduction to Mobile Robotics

An introduction to mobile robotic systems from a computational, as opposed to an electromechanical, perspective. Definitional problems in robotics and their solutions both in practice and by the research community. Topics include algorithms, probabilistic reasoning and

modeling, optimization, inference mechanisms, and behavior strategies.

Prerequisites: CSC209H5 and (MAT223H5 or MAT240H5) and MAT232H5 and (STA246H5 or STA256H5) and CSC376H5

Recommended Preparation: CSC384H5 and CSC311H5 and MAT224H5

Enrolment Limits: Priority is given to students enrolled in Computer Science Specialist, Information Security Specialist, Bioinformatics Specialist or Computer Science Major programs.

Distribution Requirements: Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

CSC478H5 • Robotic Perception

This course focuses on perception algorithms for robotics applications and sensors. The aim is to provide an understanding of the challenges encountered when deploying perception algorithms on a robot and introduce some of the tools and algorithms typically used to address these challenges. The algorithms will also be implemented and evaluated using real-world data from common use-cases.

Prerequisites: CSC373H5 and (CSC311H5 or CSC321H5) and CSC376H5

Exclusions: CSC498H5 (Winter 2022)

Recommended Preparation: CSC338H5

Enrolment Limits: Priority is given to students enrolled in Computer Science Specialist, Information Security Specialist, Bioinformatics Specialist or Computer Science Major programs.

Distribution Requirements: Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

CSC479H5 • Advanced Algorithms for Robotics

Enabling safe and interactive robotic autonomy requires broad technical capabilities for perception, decision-making, and control. Building such capabilities involves numerous complex design decisions and algorithmic challenges. Following upon a first exposure to robotics, this course will provide advanced algorithmic and learning based tools for the development and deployment of intelligent robotic systems. It will focus on presenting state estimation, robotic vision, and learning-based planning and control techniques and present these techniques in different robotic application settings.

Prerequisites: CSC311H5 and CSC375H5

Recommended Preparation: CSC376H5 and CSC413H5

Distribution Requirements: Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

CSC488H5 • Compilers and Interpreters

Compiler organization, compiler writing tools, use of regular expressions, finite automata and content-free grammars, scanning and parsing, runtime organization, semantic analysis, implementing the runtime model, storage allocation, code generation.

Prerequisites: CSC258H5 and CSC263H5 and CSC324H5

Exclusions: CSC488H1

Recommended Preparation: CSC209H5

Enrolment Limits: Priority is given to students enrolled in Computer Science Specialist, Information Security Specialist, Bioinformatics Specialist or Computer Science Major programs.

Distribution Requirements: Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

CSC490H5 • Capstone Design Course

This course gives students experience solving a substantial problem that may span several areas of Computer Science. Students will define the scope of the problem, develop a solution plan, produce a working implementation, and present their work using written, oral and (if suitable) video reports. Class time will focus on the project, but may include some lectures. The class will be small and highly interactive. Topics, themes and required preparation will vary by instructor.

Prerequisites: Appropriate prerequisite requirement(s) will be available on the UTM timetable along with the topic title prior to course registration.

Exclusions: CSC490H1 or CSC491H1

Enrolment Limits: Priority is given to students enrolled in Computer Science Specialist, Information Security Specialist, Bioinformatics Specialist or Computer Science Major programs.

Distribution Requirements: Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

CSC492H5 • Computer Science Implementation Project

This course involves a significant implementation project in any area of Computer Science. The project may be undertaken individually or in small groups. The project is offered by arrangement with a Computer Science faculty member.

Prerequisites: At least three 300-level CSC half-courses and permission of the department.

Exclusions: CSC494H1 or CSC495H1 or CSCD94H3 or CSCD95H3

Enrolment Limits: Priority is given to students enrolled in Computer Science Specialist, Information Security Specialist, Bioinformatics Specialist or Computer Science Major programs.

Course Experience: University-Based Experience

Distribution Requirements: Science

Mode of Delivery: In Class

CSC493H5 • Computer Science Expository Work

This course involves a significant literature search and expository work in any area of Computer Science. This work must be undertaken individually. It is offered by arrangement with a Computer Science faculty member.

Prerequisites: At least three 300-level CSC half-courses and permission of the department.

Enrolment Limits: Priority is given to students enrolled in Computer Science Specialist, Information Security Specialist, Bioinformatics Specialist or Computer Science Major programs.

Course Experience: University-Based Experience

Distribution Requirements: Science

Mode of Delivery: In Class

CSC496H5 • Topics in Robotics

Introduction to a topic of current interest in robotics intended for CSC majors and specialists. Content will vary from year to year but will always maintain a robotics focus. The contact hours for this course may vary in terms of contact type (L, T, P) from year to year, but will be between 24-48 contact hours in total. See the UTM Timetable.

Prerequisites: CSC376H5. Additional required prerequisite(s) will be available on the UTM timetable along with the topic title prior to course registration.

Enrolment Limits: Priority is given to students enrolled in Computer Science Specialist, Information Security Specialist, Bioinformatics Specialist or Computer Science Major.

Distribution Requirements: Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

CSC497H5 • Topics in Computer Science

Introduction to a topic of current interest in computer science intended for CSC majors and specialists. Content will vary from year to year. This course may include a practical or tutorial component, depending on the topic chosen for the year. The contact hours for this course may vary in terms of contact type (L, T, P) from year to year, but will be between 24-48 contact hours in total. See the UTM Timetable.

Prerequisites: Appropriate prerequisite requirement(s) will be available on the UTM timetable along with the topic title prior to course registration.

Enrolment Limits: Priority is given to students enrolled in Computer Science Specialist, Information Security

Specialist, Bioinformatics Specialist or Computer Science Major programs.

Distribution Requirements: Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

CSC498H5 • Topics in Computer Science

Introduction to a topic of current interest in computer science intended for CSC majors and specialists. Content will vary from year to year. This course may include a practical or tutorial component, depending on the topic chosen for the year. The contact hours for this course may vary in terms of contact type (L, T, P) from year to year, but will be between 24-48 contact hours in total. See the UTM Timetable.

Prerequisites: Appropriate prerequisite requirement(s) will be available on the UTM timetable along with the topic title prior to course registration.

Enrolment Limits: Priority is given to students enrolled in Computer Science Specialist, Information Security Specialist, Bioinformatics Specialist or Computer Science Major programs.

Distribution Requirements: Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

CSC499Y5 • Research Opportunity Program

This course provides a richly rewarding opportunity for students in their third or fourth year to work in the research project of a professor in return for 499Y course credit. Students enrolled have an opportunity to become involved in original research, learn research methods and share in the excitement and discovery of acquiring new knowledge. Participating faculty members post their project descriptions for the following summer and fall/winter sessions in early February and students are invited to apply in early March. See [Experiential and International Opportunities](#) for more details.

Enrolment Limits: Priority is given to students enrolled in Computer Science Specialist, Information Security Specialist, Bioinformatics Specialist or Computer Science Major programs.

Distribution Requirements: Science

Mode of Delivery: In Class

The Criminology, Law and Society Specialist is intended for students who wish to go on to graduate studies in this or a similar area.

The Major provides a broad foundation for students who may have an academic or civic interest in law, crime and criminal justice and might include:

- students who at a later stage may wish to pursue more advanced work in areas related to, for example, criminology, law or social work;
- students wanting to know more about the topics of the sociology of crime, particularly as these become issues of public policy.

Students should also review the Degree Requirements section prior to selecting courses

Program website: <https://www.utm.utoronto.ca/sociology>

Criminology, Law and Society Programs

Criminology, Law & Society - Specialist (Arts)

Enrolment Requirements:

Limited Enrolment - Space in the Specialist Program in Criminology, Law & Society is limited. To be considered for enrolment, students must meet the following minimum criteria. **Meeting the minimum requirements does not guarantee admission.**

For students applying in 2022-2023 for program entry in the 2023-2024 Academic Year:

1. **Registration Status:** Current enrolment in the Criminology, Law & Society Major program.
2. **Credits:** A minimum of 8.0 credits.
3. **Prerequisite Courses:** (SOC109H5 or SOC209H5) and SOC205H5 and SOC221H5 and SOC222H5 and SOC231H5 with a minimum average of 73% across all courses. SOC209H5 will be accepted in place of SOC109H5 with no grade requirement and excluded from the calculation of minimum average of 73% across all courses.
4. **Cumulative Grade Point Average (CGPA):** The Department of Sociology determines the minimum CGPA annually in relation to the number of applicants. It is never below 2.00.

Note: Students who have taken SOC209H5 will use this credit in lieu of SOC109H5. No specific grade in SOC209H5 is required. The achieved grade in SOC209H5 will be included in the CGPA calculation used to determine admission eligibility.

For students applying in 2023-2024 (and beyond) for program entry in the 2024-2025 Academic Year (and beyond):

1. **Registration Status:** Current enrolment in the Criminology, Law & Society Major program.
2. **Credits:** A minimum of 8.0 credits.
3. **Prerequisite Courses:** (SOC109H5 or SOC209H5) and SOC205H5 and SOC221H5 and SOC222H5 and SOC231H5 and ISP100H5 with a minimum average of 73% across all courses. SOC209H5 will be accepted in place of SOC109H5 with no grade requirement and excluded from the calculation of minimum average of 73% across all courses.
4. **Cumulative Grade Point Average (CGPA):** The Department of Sociology determines the minimum CGPA annually in relation to the number of applicants. It is never below 2.00.

Note: Students who have taken SOC209H5 will use this credit in lieu of SOC109H5. No specific grade in SOC209H5 is required. The achieved grade in SOC209H5 will be included in the CGPA calculation used to determine admission eligibility.

Completion Requirements:

10.0-10.5 credits are required, including 5.0 credits at the 300/400 level

First Year:

- SOC100H5
- SOC109H5 or SOC209H5
- For students entering the program in 2024-2025 (and beyond): ISP100H5

Higher Years:

- SOC205H5 and SOC221H5 and SOC222H5 and SOC231H5
- SOC350H5 and SOC387H5 and SOC440Y5
- 3.5 credits from courses listed in Group A below
- 0.5 credit from courses listed in Group A, B or C below

- 1.0 credit from courses listed in Group C below

Note: The credits used to satisfy the bulleted requirements listed above must include 3.0 credits at the 300/400 level.

Group A - Criminology, Law & Society Courses:

SOC206H5, SOC208H5, SOC210H5, SOC211H5, SOC216H5, SOC219H5, SOC301H5, SOC303H5, SOC306H5, SOC310H5, SOC311H5, SOC312H5, SOC316H5, SOC320H5, SOC321H5, SOC322H5, SOC323H5, SOC324H5, SOC325H5, SOC326H5, SOC327H5, SOC328H5, SOC329H5, SOC330H5, SOC331H5, SOC333H5, SOC337H5, SOC338H5, SOC339H5, SOC346H5, SOC351H5, SOC353H5, SOC357H5, SOC358H5, SOC363H5, SOC365H5, SOC366H5, SOC371H5, SOC378H5, SOC379H5, SOC382H5, SOC393H5, SOC394H5, SOC401H5, SOC403H5, SOC405H5, SOC406H5, SOC420H5, SOC421H5, SOC423H5, SOC424H5, SOC429H5, SOC432H5, SOC446H5, SOC447H5, SOC448H5, SOC450H5, SOC456H5, SOC475H5, SOC493H5, SOC494H5

Group B - Interdisciplinary Elective Courses:

ANT205H5, ANT209H5, ANT217H5, ANT306H5, ANT352H5, ANT354H5, ANT369H5, ANT439H5, FSC220H5, FSC239Y5, FSC271H5, FSC360H5, FSC406H5, PHL246H5, PHL265H5, PHL271H5, PHL274H5, PHL275H5, PHL277Y5, PHL365H5, PHL370H5, PHL374H5, PHL376H5, POL209H5, POL210H5, POL215H5, POL216H5, POL310Y5, POL340Y5, POL343Y5, PSY220H5, PSY230H5, PSY240H5, PSY270H5, PSY328H5, PSY340H5, PSY341H5, PSY344H5, PSY346H5, PSY440H5, SOC253H5, SOC263H5, SOC275H5, SOC302H5, SOC318H5, SOC332H5, SOC342H5, SOC348H5, SOC359H5, SOC364H5, SOC375H5, SOC380H5, SOC388H5, SOC425H5, SOC455H5, SOC457H5, SOC460H5, SOC463H5, WGS215H5, WGS350H5, WGS351H5, WGS365H5, WGS373H5, WGS420H5

Group C – Enrichment Courses:

SOC230H5, SOC299H5, SOC299Y5, SOC382H5, SOC399H5, SOC399Y5, SOC401H5, SOC403H5, SOC406H5, SOC410H5, SOC411H5, SOC412H5, SOC413H5, SOC414H5, SOC415H5, SOC416H5, SOC417H5, SOC418H5, SOC419H5, SOC420H5, SOC421H5, SOC423H5, SOC439Y5, SOC450H5, SOC452H5, SOC456H5, SOC467H5, SOC480Y5, SOC485H5, SOC499H5, SOC499Y5

ERSPE0727

Criminology, Law & Society - Major (Arts)

Enrolment Requirements:

Limited Enrolment: Space in the Major Program in Criminology, Law & Society is limited. To be considered for enrolment, students must meet the following minimum criteria. **Meeting the minimum requirements does not guarantee admission.**

For students applying in 2022-2023 for program entry in the 2023-2024 Academic Year:

1. **Credits:** A minimum of 4.0 credits.
2. **Prerequisite Course(s):** Students must have a final mark of at least 67% in SOC100H5 OR a final mark of at least 70% in each of SOC109H5 and 0.5 credit of SOC at the 200 level or above. (See Note below.)
3. **Cumulative Grade Point Average (CGPA):** The Department of Sociology determines the minimum CGPA annually in relation to the number of applicants. It is never below 2.00.

Note: Students who have taken SOC209H5 will use this credit in lieu of SOC109H5. No specific grade in SOC209H5 is required. The achieved grade in SOC209H5 will be included in the CGPA calculation used to determine admission eligibility.

For students applying in 2023-2024 (and beyond) for program entry in the 2024-2025 Academic Year (and beyond):

1. **Credits:** A minimum of 4.0 credits.
2. **Prerequisite Course(s):** Students must have a final mark of at least 67% in SOC100H5 OR a final mark of at least 70% in each of SOC109H5 and 0.5 credit of SOC at the 200 level or above. (See Note below.)
3. **ISP100H5**
4. **Cumulative Grade Point Average (CGPA):** The Department of Sociology determines the minimum CGPA annually in relation to the number of applicants. It is never below 2.00.

Note: Students who have taken SOC209H5 will use this credit in lieu of SOC109H5. No specific grade in SOC209H5 is required. The achieved grade in SOC209H5 will be included in the CGPA calculation used to determine admission eligibility.

Completion Requirements:

7.0-7.5 credits are required.

First Year:

- SOC100H5
- SOC109H5 or SOC209H5
- *For students entering the program in 2024-2025 (and beyond):* ISP100H5

Higher Years:

- SOC205H5 and SOC221H5 and SOC222H5
- 1.0 credit from Group A, B, or C (below) at the 400-level
- 1.0 credit from Group A, B, or C (below) at the 300-level
- 1.0 credit from Group A, B, or C (below) at the 300-/400-level
- 1.5 credits from Group A, B or C (below) at any level

Note: The credits used to satisfy the higher year requirements listed above must include 3.0 credits from Group A.

Group A - Criminology, Law & Society Courses:

SOC206H5, SOC208H5, SOC210H5, SOC211H5, SOC216H5, SOC219H5, SOC301H5, SOC303H5, SOC306H5, SOC310H5, SOC311H5, SOC312H5, SOC316H5, SOC320H5, SOC321H5, SOC322H5, SOC323H5, SOC324H5, SOC325H5, SOC326H5, SOC327H5, SOC328H5, SOC329H5, SOC330H5, SOC331H5, SOC333H5, SOC337H5, SOC338H5, SOC339H5, SOC346H5, SOC351H5, SOC353H5, SOC357H5, SOC358H5, SOC363H5, SOC365H5, SOC366H5, SOC371H5, SOC378H5, SOC379H5, SOC382H5, SOC393H5, SOC394H5, SOC401H5, SOC403H5, SOC405H5, SOC406H5, SOC420H5, SOC421H5, SOC423H5, SOC424H5, SOC429H5, SOC432H5, SOC446H5, SOC447H5, SOC448H5, SOC450H5, SOC456H5, SOC475H5, SOC493H5, SOC494H5

Group B - Interdisciplinary Elective Courses:

ANT205H5, ANT209H5, ANT217H5, ANT306H5, ANT352H5, ANT354H5, ANT369H5, ANT439H5, FSC220H5, FSC239Y5, FSC271H5, FSC360H5, FSC406H5, PHL246H5, PHL265H5, PHL271H5, PHL274H5, PHL275H5, PHL277Y5, PHL365H5, PHL370H5, PHL374H5, PHL376H5, POL209H5, POL210H5, POL215H5, POL216H5, POL310Y5, POL340Y5, POL343Y5, PSY220H5, PSY230H5, PSY240H5, PSY270H5, PSY328H5, PSY340H5, PSY341H5, PSY344H5, PSY346H5, PSY440H5, SOC231H5, SOC253H5, SOC263H5, SOC275H5, SOC302H5, SOC318H5, SOC332H5, SOC342H5, SOC348H5, SOC350H5, SOC359H5, SOC364H5, SOC375H5, SOC380H5, SOC387H5, SOC388H5, SOC425H5, SOC455H5, SOC457H5, SOC460H5, SOC463H5, WGS215H5, WGS350H5, WGS351H5, WGS365H5, WGS373H5, WGS420H5

Group C - Enrichment Courses:

SOC230H5, SOC299H5, SOC299Y5, SOC382H5, SOC399H5, SOC399Y5, SOC401H5, SOC403H5, SOC406H5, SOC410H5, SOC411H5, SOC412H5, SOC413H5, SOC414H5, SOC415H5, SOC416H5, SOC417H5, SOC418H5

SOC419H5, SOC420H5, SOC421H5, SOC423H5, SOC439Y5, SOC440Y5, SOC450H5, SOC452H5, SOC456H5,
SOC467H5, SOC480Y5, SOC485H5, SOC499H5, SOC499Y5

Where is home? Need it be in one place? Is it always attached to territory? Diaspora and transnational studies examines the historical and contemporary movements of peoples and the complex problems of identity and experience to which these movements give rise as well as the creative possibilities that flow from movement. The program is comparative and interdisciplinary, drawing from the social sciences, history and the arts. Students are required to take two linked half-courses that offer an introduction to a broad array of themes and disciplinary methodologies. The program offers a wide selection of additional courses, giving students the opportunity to learn about a range of diasporic communities as well as key debates in the field. Students will complete the program with 1.0 credit 400 level capstone course (or two linked half-courses).

Students should also review the **Degree Requirements** section prior to selecting courses

Program website : <http://www.utm.utoronto.ca/historicalstudies/>

Diaspora and Transnational Studies Programs

Diaspora and Transnational Studies - Major (Arts)

Completion Requirements:

7.0 credits, including at least 2.0 300/400-level credits. Students must successfully complete the equivalent of 7.0 credits, fulfilling ALL of the following requirements:

1. DTS201H5 and DTS202H5
2. 5.0 credits from the list of electives below
3. 1.0 400-level credits, of which 0.5 must be from the following list of St. George courses: DTS401H1, DTS402H1, DTS403H1, DTS404H1, DTS405H1, DTS406H1 (should be taken in the fourth year of study).

Diaspora and Transnational Studies Courses

DTS201H5 • Introduction to Diaspora and Transnational Studies I

An interdisciplinary introduction to the study of diaspora, with particular attention to questions of history, globalization, cultural production and the creative imagination. Material will be drawn from Toronto as well as from diasporic communities in other times and places.

Exclusions: [DTS201H1](#) or [DTSB01H3](#)

Distribution Requirements: Humanities, Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

DTS202H5 • Introduction to Diaspora and Transnational Studies II

A continuation of [DTS201H5](#). An interdisciplinary introduction to the study of diaspora, with particular attention to questions of history, globalization, cultural production and the creative imagination. Material will be drawn from Toronto as well as from diasporic communities in other times and places.

Exclusions: [DTS200Y1](#) and [DTS202H1](#) and [DTSB02H3](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

DTS301H5 • Topics in Diaspora and Transnational Studies

An examination of issues on Diaspora and Transnational Studies. Content in any given year depends on instructor.

See Department of Historical Studies website at www.utm.utoronto.ca/historicalstudies for details.

Recommended Preparation: [DTS201H5](#) or [DTS202H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

DTS401H5 • Advanced Topics in Diaspora and Transnational Studies

An in-depth examination of issues on Diaspora and Transnational Studies. Content in any given year depends on instructor. See Department of Historical Studies website at www.utm.utoronto.ca/historicalstudies for details.

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

christina.fortes@utoronto.ca

Earth Science is concerned with the origin, evolution and structure of Earth (and other planets), through the analysis of physical, chemical and biological processes.

In the last 40 years the field has been revolutionized by the discovery that the Earth's surface is a mosaic of plates that is continually moving, growing at mid-ocean ridges, and being consumed beneath mountain ranges. Modern global data sets provided by satellites continue to improve our understanding of these processes and of their environmental impact. Although exploration for natural resources continues to be the traditional vocation of geoscientists in the community, they are now playing a vital role responding to increased public and scientific awareness of environmental problems and issues.

Despite increasing sophistication in computer, satellite and analytical techniques, field observation remains a cornerstone of Earth Science. A career in Earth Science therefore can lead not only to laboratory or office-based opportunities, but also offers scope to work in many parts of the world, under a range of field conditions. Oil and mining companies engaged in exploration and development, and those involved with environmental hazards, such as waste disposal, are all major employers of Earth Scientists. Provincial and Federal Geological Surveys also employ Earth Scientists and offer summer field assistantships. Other employment opportunities are in consulting, universities, and museums.

U of T Mississauga offers Specialist, Major and Minor programs in Earth Sciences. We also offer a Specialist program in Environmental Geosciences (HBSc), which meets the academic requirements for certification as a Professional Geologist in Ontario. These programs have four main aims: (1) to teach the fundamental processes involved in the global Earth system, with emphasis on the interactions between the solid Earth and its oceans, atmosphere and biosphere; (2) to understand the principal aspects of a sustainable and sufficient supply of natural resources; (3) to study the cause and mitigation of hazards such as earthquakes, volcanic eruptions and groundwater contamination, and (4) to learn how to minimize and adjust to global and environmental change. This approach, by focusing on a more global environmental perspective, should appeal to students who have a general interest in geological processes and their fundamental effects on the environment.

Students may combine Earth Science courses with those from other fields. A specialist in Geology is also available for students interested in pursuing careers in the resource industries or graduate studies in Geology. Many of our courses will be useful to students specializing in other fields such as Commerce, Geography, History and Biology.

Students should also review the [Degree Requirements](#) section prior to selecting courses

Earth Science Programs

Earth Science - Specialist (Science)

Enrolment Requirements:

Limited Enrolment – Enrolment in this program is based on completion of 4.0 credits, including [ISP100H5](#) and one of the following courses with a minimum grade of 60%: [ERS101H5](#) or [ERS111H5](#) or [ENV100Y5](#).

Completion Requirements:

14.5-15.0 credits are required, including at least 5.0 at the 300/400 level, of which 1.0 credit must be at the 400 level.

First Year:

1. [ERS101H5](#) or [ERS111H5](#) or [ENV100Y5](#)
2. [ISP100H5](#)
3. [CHM110H5](#) and [CHM120H5](#)
4. ([MAT132H5](#) and [MAT134H5](#)) or ([MAT135H5](#) and [MAT136H5](#)) or ([MAT137H5](#) and [MAT139H5](#)) or [MAT137Y5](#)
5. ([PHY136H5](#) and [PHY137H5](#)) or ([PHY146H5](#) and [PHY147H5](#))
6. [BIO152H5](#) and [BIO153H5](#)

Second Year: [ERS201H5](#) and [ERS202H5](#) and [ERS203H5](#) and [ERS211H5](#) and [ERS225H5](#) and [STA220H5](#)

Third and Fourth Years:

1. [ERS301H5](#) and [ERS303H5](#) and [ERS311H5](#) and [ERSE315H5](#) and [ERS325H5](#).
2. 4.0 additional credits from [GGR201H5](#) or [GGR217H5](#) or [JGE378H5](#) or [PHY351H5](#) or [JCB487Y5](#) or any ERS course at the 300/400 level. Of these 4.0 credits, 1.0 credit must be at the 400 level.

NOTES:

1. No more than 1.0 credit from [CPS489Y5](#) or [ERS399Y5](#) or [ERS499Y5](#) or [ERS470Y5](#) or [ERS471H5](#) or [JCB487Y5](#) can be counted toward the Earth Science Specialist program.
2. Students interested in future certification by the Association of Professional Geologists of Ontario in their Geology and Environmental Geoscience oriented streams may benefit from taking courses in one of the following two pathways:

Resources, Hazards & Tectonics Pathway: [ERS302H5](#), [ERS304H5](#), [ERS402H5](#), [ERS403H5](#), [ERS404H5](#), [ERS425H5](#), [JGE378H5](#), and 0.5 credit from [CPS489Y5](#)/ [ERS399Y5](#)/ [ERS470Y5](#)/ [ERS471H5](#)/ [ERS472H5](#)/ [JCB487Y5](#).

Earth, Climate, & Life Pathway: [ERS304H5](#), [ERS312H5](#), [ERS411H5](#), [ERS412H5](#), [ERS425H5](#), [GGR201H5](#), [GGR217H5](#), and 0.5 credit from [CPS489Y5](#)/ [ERS399Y5](#)/ [ERS470Y5](#)/ [ERS471H5](#)/ [ERS472H5](#)/ [JCB487Y5](#).

[ERSPE1465](#)

Geology - Specialist (Science)

Enrolment Requirements:

Admissions to the Geology Specialist are administratively suspended as of 2019-2020. Students currently enrolled in the program will be allowed to continue.

Limited Enrolment — Enrolment in this program is based on completion of 4.0 credits including ([ERS101H5](#) and [ERS111H5](#)) or [ENV100Y5](#) (with a minimum grade of 60%).

Completion Requirements:

14.0 credits are required.

First Year:

1. ([ERS101H5](#) and [ERS111H5](#)) or [ENV100Y5](#)
2. [CHM110H5](#) and [CHM120H5](#)
3. ([MAT132H5](#) and [MAT134H5](#)) or ([MATH135H5](#) and [MAT136H5](#)) or [MAT134Y5](#) or [MAT135Y5](#) or [MAT137Y5](#)
4. ([PHY136H5](#) and [PHY137H5](#)) or ([PHY146H5](#) and [PHY147H5](#))

Second Year:

1. [ERS201H5](#) and [ERS202H5](#) and [ERS203H5](#) and [ERS211H5](#)
2. 0.5 credit from [ERS225H5](#) or [GGR217H5](#) or [GGR214H5](#) or [BIO356H5](#) or [ESS261H1](#)
3. 0.5 credit from [CHM211H5](#) or [CHM231H5](#) or [ESS211H1](#) or [JCP221H5](#)
4. 1.0 credit from [MAT212H5](#) or [MAT223H5](#) or [STA220H5](#) or [STA221H5](#)

Third Year:

1. [ERS325H5](#)
2. 2.5 credits from [ERS301H5](#) or [ERS302H5](#) or [ERS303H5](#) or [ERS304H5](#) or [ERS311H5](#) or [ERS312H5](#) or [ERS315H5](#) or [ESS312H1](#)/ or [ESS322H1](#) or [ESS345H1](#)

Fourth Year:

1. [ESS420H1](#)
2. 2.5 credits from 400 level courses in ERS or ESS (St. George) or ([JCB487Y5](#) or [ERI398H5](#) or [CPS400Y5](#))

NOTE: [MAT212H5](#) has the following requirements: Prerequisite - [MAT233H5](#) or ([MAT232H5](#) or [MAT257Y5](#) as a corequisite); and Corequisite - [MAT223H5](#) or [MAT240H5](#).

[ERSPE0509](#)

Earth Science - Major (Science)

Enrolment Requirements:

Limited Enrolment — Enrolment in this program is based on completion of 4.0 credits, including [ISP100H5](#) and one of the following courses with a minimum grade of 60% is required: [ERS101H5](#) or [ERS111H5](#) or [ENV100Y5](#).

Completion Requirements:

8.5 credits are required, including at least 3.0 at the 300/400 level.

First Year:

1. [ERS101H5](#) or [ERS111H5](#) or [ENV100Y5](#)
2. [ISP100H5](#)
3. ([MAT132H5](#) and [MAT134H5](#)) or ([MAT135H5](#) and [MAT136H5](#)) or ([MAT137H5](#) and [MAT139H5](#)) or [MAT134Y5](#) or

MAT135Y5 or MAT137Y5

4. (CHM110H5 and CHM120H5) or (PHY136H5 and PHY137H5) or (PHY146H5 and PHY147H5)

Second Year:

1. ERS201H5 and ERS202H5 and ERS203H5

2. 0.5 credit from ERS211H5 or ERS225H5 or GGR214H5 or GGR217H5 or GGR227H5 or GGR272H5 or GGR276H5 or GGR278H5

Higher Years: 3.0 additional credits at the 300/400 level from ERS301H5 or ERS302H5 or ERS303H5 or ERS304H5 or ERS311H5 or ERS312H5 or ERS315H5 or ERS325H5 or ERS381H5 or ERS401H5 or ERS402H5 or ERS403H5 or ERS404H5 or ERS411H5 or ERS412H5 or ERS425H5 or PHY351H5 or JGE378H5 or CPS400Y5.

NOTE: GGR272H5 is a prerequisite for GGR278H5.

ERMAJ1465

Earth Science - Minor (Science)

Enrolment Requirements:

Limited Enrolment — Enrolment in this program is based on completion of 4.0 credits including ERS101H5 or ERS111H5 or ENV100Y5 (A minimum grade of 60% in one of these courses is required.)

Completion Requirements:

4.0-4.5 credits are required.

First Year: ERS101H5 or ERS111H5 or ENV100Y5

Higher Years:

1. 1.5 credits from ERS201H5 or ERS202H5 or ERS203H5 or ERS211H5 or ERS225H5

2. 2.0 credits of Earth Science (ERS) from: ERS301H5 or ERS302H5 or ERS303H5 or ERS304H5 or ERS311H5 or ERS312H5 or ERS315H5 or ERS325H5 or ERS381H5 or ERS401H5 or ERS402H5 or ERS403H5 or ERS404H5 or ERS411H5 or ERS412H5 or JGE378H5 or PHY351H5

ERMIN1465

Earth Science Courses

CPS489Y5 • Introduction to Research in the Chemical and Physical Sciences

Students will work toward the completion of an experimental or theoretical research project in an area of study within the chemical and physical sciences, namely, astronomy, chemistry, earth sciences or physics. Projects will be based on current trends in research and students will work to complete their projects with guidance provided by a team of facilitators and faculty advisors consisting of course coordinators and a researcher from the Department of Chemical and Physical Sciences. In

addition to the rigorous development of research skills, the course will also provide students with training and

practical experience in project management techniques and practical research, literary and communications skills development. CPS489Y5 requires submitting an application to the department Application forms may be found at <http://uoft.me/cpsforms>. Applications should be submitted to the CPS Undergraduate Assistant.

Prerequisites: (2.0 credits at the 300 level from BIO or CHM or JBC or JCP or ERS or ESS or PHY) and (1.0 credit from BIO206H5 or BIO314H5 or CHM372H5 or CHM373H5 or CHM394H5 or CHM395H5 or CHM396H5 or CHM397H5 or ERS201H5 or ERS202H5 or PHY324H5 or PHY347H5 or JCP321H5 or JCP322H5 or PHY325H5 or PHY332H5 or PHY333H5 or PHY343H5 or PHY351H5)

Exclusions: BIO400Y5 or BIO481Y5 or CBJ481Y5 or CHM489Y5 or ERS470Y5 or ERS471H5 or ERS472H5 or PHY489Y5 or BCH472Y1 or BCH473Y1 or CHM499Y1 or CSB497H1 or CSB498Y1 or CSB499Y1 or ESS491H1 or ESS492Y1 or MGY480Y1 or PHY478H1 or PHY479Y1 or

BIOD98Y3 or CHMD90Y3 or CHMD91H3 or ESSD09H3
or ESSD10H3 or PSCD10H3

Course Experience: University-Based Experience

Distribution Requirements: Science

Total Instructional Hours: 240P

Mode of Delivery: In Class

ERS101H5 • Planet Earth

We discuss the age and origin of the Earth, the nature of its deep interior, the origin of mountains, oceans, earthquakes and volcanoes, and show how these features are related in a unifying theory known as Plate Tectonics, that explains how the evolution of the Earth's surface is driven by internal processes. Practicals will include laboratory exercises devoted to the understanding and recognition of minerals, rocks and geological structures.

Exclusions: ESS102H1 or ESS105H1 or EESA07H3 or EESB15H3 or ERS120H5

Recommended Preparation: Review of Grade 9/10 Physical Science.

Distribution Requirements: Science

Total Instructional Hours: 24L/24P

Mode of Delivery: In Class

ERS111H5 • Earth, Climate & Life

Life as we know it is completely dependent on our planet. The Earth is an integrated system, where the ocean, atmosphere, life and planet interact with and affect one another. The evolution of the smallest organisms has drastically changed Earth's climate, and small changes in Earth's climate have a profound effect on the distribution of life. Understanding how organisms feed, breath, grow, and reproduce are integral to mitigating large-scale climate changes and organic cycles, and how this will affect the Earth as a system. Processes such as plate tectonics produces an ever changing surface, and has been a major control on how and when life evolved and flourished. After introducing how the Earth works, topics discussed will include how life on Earth has evolved, how large-scale geological processes affect climate and life and how ecosystems have changed in response to weather and climate change. We will also discuss the effect that our species has had on this planet; from the sudden shifts in stability of Earth's systems, to feedback cycles, to use of resources and sustainability.

Exclusions: ERS103H5 or ESS103H1 or ESS102H1 or EESA05H3 or EESA06H3 or EESB15H3

Distribution Requirements: Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

ERS201H5 • Earth Materials

To truly understand the Earth, and the rocks that form it, we must study their basic building blocks – minerals. Minerals are all around us; in rocks and sediments, in soils, in our bones and teeth, and in building materials.

This course will examine the complex nature of minerals and crystals from a geological, physical and chemical perspective and will introduce the petrology of volcanic rocks, intrusive plutonic rocks, metamorphic rocks formed in the depths of mountain ranges and sedimentary rocks deposited through time. The course will train students in the use of optical mineralogy (rock slices under a microscope); a key analytical method in petrology and by doing so aims to provide students with detailed knowledge and skills inherent to all geologists, and to give a unique perspective of the Earth from the study of the small scale minerals and rocks.

Prerequisites: ERS101H5 or ERS111H5 or ERS103H5 or ERS120H5 or ENV100Y5

Exclusions: ESS321H1 or ESS221H1 or EESC35H3

Distribution Requirements: Science

Total Instructional Hours: 24L/36P

Mode of Delivery: In Class

ERS202H5 • Dynamic Earth

An introduction to geological time and the dynamic evolution of the surface of the Earth. Lectures discuss the processes involved in the deformation of Earth's crust including mechanical principals, stress, and strain. Particular focus on the structure of rocks. Practical exercises focus on the geometry of rock units and determining the geological history of an area from information presented in geological maps, cross sections, and stereographic projections.

Prerequisites: ERS201H5 or permission of instructor

Exclusions: ESS241H1

Distribution Requirements: Science

Total Instructional Hours: 24L/36P

Mode of Delivery: In Class

ERS203H5 • Magmatic Systems and Igneous Petrology

To truly understand the Earth, and the rocks that form it, we must study their basic building blocks – minerals. Minerals are all around us; in rocks and sediments, in soils, in our bones and teeth, and in building materials. This course will examine the complex nature of minerals and crystals from a geological, physical and chemical perspective and will introduce the petrology of volcanic rocks, intrusive plutonic rocks, metamorphic rocks formed in the depths of mountain ranges and sedimentary rocks deposited through time. The course will train students in observations and interpretations of minerals in hand samples and in the use of optical mineralogy (rock slices under a microscope). These are key analytical methods in petrology and by doing so aims to provide students with detailed knowledge and skills inherent to all geologists, and to give a unique perspective of the Earth from the study of the small scale minerals and rocks.

Prerequisites: ERS201H5

Exclusions: ESS322H1 and ERS222H1

Distribution Requirements: Science
Total Instructional Hours: 24L/36P
Mode of Delivery: In Class

ERS211H5 • Sedimentology and Stratigraphy

Sedimentology and stratigraphy concerns the origin, formation, accumulation, alteration, and preservation of sediments in the geological record. This course will focus on the reconstruction, correlation, and interpretation of ancient carbonate and siliciclastic paleoenvironments and facies based on the analysis of sedimentary structures, depositional environments, stratigraphic successions, and fossils. The interplay between biological and geological factors responsible for sedimentary deposits will form the core of the course, including the physical transport and biological accumulation of sediments, the effects of climate-driven sea-level change on sediment deposition, the importance of resource management and sustainability. This course will include a laboratory component with hand samples, thin sections, and physical models, in addition to a field trip, allowing for first-hand experience with describing and interpreting sedimentological units.

Prerequisites: [ERS101H5](#) or [ERS120H5](#) or [ERS111H5](#) or [ERS103H5](#) or [ENV100H5](#)
Exclusions: [ESS331H1](#) or [ESS332H1](#) or [ERS313H5](#)
Distribution Requirements: Science
Total Instructional Hours: 36L/24P
Mode of Delivery: In Class

ERS225H5 • Field Methods

Fieldwork is at the heart of being a geologist. Skills gained during fieldwork are key as part of a Geologist's toolbox, and are highly regarded in a career. This course introduces fieldwork to students during a week-long fieldtrip in late August looking at outcrops of igneous, metamorphic and sedimentary rocks around Ontario. Skills taught will include basic geological observation, description and interpretation, the collection of field notes, geological measurements and presentation of the data. Enrolment approval into the course is by application only; Registration in ACORN is required; priority will be given to Earth Science Specialists, or Environmental Geoscience Specialists. Please see the UTM CPS Earth Science Fieldtrip page for more information.

Prerequisites: [ERS101H5](#) or [ERS120H5](#) or [ERS111H5](#) or [ERS103H5](#) or [ENV100H5](#)
Corequisites: [ERS201H5](#)
Exclusions: [ERS325H5](#) or [ERS425H5](#) or [ESS234H1](#) or [ESS324H1](#)
Distribution Requirements: Science
Total Instructional Hours: 66P
Mode of Delivery: In Class

ERS299Y5 • Research Opportunity Program

This courses provides a richly rewarding opportunity for students in their second year to work in the research project of a professor in return for 299Y course credit. Students enrolled have an opportunity to become involved in original research, learn research methods and share in the excitement and discovery of acquiring new knowledge. Participating faculty members post their project descriptions for the following summer and fall/winter sessions in early February and students are invited to apply in early March. See [Experiential and International Opportunities](#) for more details.

Course Experience: University-Based Experience
Distribution Requirements: Science
Mode of Delivery: In Class

ERS301H5 • Geochemistry

Since the creation of the Solar System and Earth 4.5 billion years ago, Earth's natural processes have differentiated the chemical elements, generating distinct differences in composition between the oceans and the atmosphere, and Earth's crust, mantle and core. These differences allow Earth Scientists to understand and quantify these processes, as well as track the rocks and deposits formed out of these processes. This course will focus on the application of geochemistry to understand Earth processes, such as the generation of magma and volcanic eruptions, the formation of ore bodies and Earth surface processes. We will utilize the state-of-the-art equipment available at UTM, including Scanning Electron Microscopy and ICP-OES, to analyze rock samples to determine their origin based on their chemistry, giving students valuable skills in sample preparation and experimental practices.

Prerequisites: 1.5 credits from ([ERS201H5](#) or [ERS202H5](#) or [ERS203H5](#) or [ERS211H5](#) or [ERS225H5](#)) or permission of instructor.
Exclusions: [ENV233H1](#) or [ESS311H1](#)
Distribution Requirements: Science
Total Instructional Hours: 12L/24P
Mode of Delivery: In Class

ERS302H5 • Tectonics

This course will focus on how the plate tectonic system works, from the composition and structure of the earth, to the evolution of plate tectonics through Earth history, to modern tectonic hazards including earthquakes and volcanoes. A major portion of the course will focus on the analysis and interpretation of major structural provinces as they relate to Earth's plate boundary interactions including convergent, divergent, and transform settings.

Prerequisites: [ERS202H5](#) and 1.0 credits from ([ERS201H5](#) or [ERS203H5](#) or [ERS211H5](#) or [ERS225H5](#))
Exclusions: [ESS445H1](#)

Distribution Requirements: Science

Total Instructional Hours: 36P

Mode of Delivery: In Class

ERS303H5 • Geophysics

This course will focus on important geophysical concepts and methods that are used to understand the interior of the Earth and the theory of Plate Tectonics. Major topics include gravity, isostasy, magnetism, heat flow, and seismology. Students will learn to apply basic geophysical equations to address real-life geoscience problems. They will also be introduced to common applied-geophysical techniques used for subsurface sensing, with applications to resource exploration and engineering and environmental studies.

Prerequisites: [(MAT132H5 and MAT134H5) or (MAT135H5 and MAT136H5) or (MAT137H5 and MAT139H5) or MAT137Y5] and [(PHY136H5 and PHY137H5) or (PHY146H5 and PHY147H5)] and ERS202H5 and 1.0 credits from (ERS201H5 or ERS203H5 or ERS211H5 or ERS225H5).

Exclusions: JPE395H1

Distribution Requirements: Science

Total Instructional Hours: 36L/24T

Mode of Delivery: In Class

ERS304H5 • Geological Remote Sensing

This course is an introduction to remote sensing technologies and geological applications. Students will learn about imaging of the Earth by electromagnetic waves and the state-of-the-art remote sensing systems and technologies for geological mapping and exploration. Topics may include remote sensing fundamentals and physical principles, remote sensing systems for geological applications, geological mapping and resource exploration. Students will also acquire skills in image processing, data integration, information extraction, and validation for geological applications.

Prerequisites: 1.5 credits from any 200 level ERS course

Exclusions: GGR337H1

Distribution Requirements: Science

Total Instructional Hours: 36L/24P

Mode of Delivery: In Class

ERS311H5 • Sedimentology and Basin Analysis

This course will focus on principles of correlation, facies concepts, dynamic processes, and their geologic records in modern and ancient sedimentary environments, with focus on basins. Factors that influence sedimentary formation and evolution will be investigated, including sea level and sediment supply. Emphasis will be placed on sequence stratigraphic approaches to the evaluation of sedimentary systems. Sustainable management of oil,

water, and gas resources within sedimentary basins will be covered.

Prerequisites: ERS211H5 and 1.0 credits from

(ERS201H5 or ERS202H5 or ERS203H5 or ERS225H5)

Exclusions: ESS331H1

Distribution Requirements: Science

Total Instructional Hours: 36L/24P

Mode of Delivery: In Class

ERS312H5 • Oceanography

The world's oceans cover approximately 70% of the Earth Surface and Canada has extensive coastlines along three major ocean basins. This course will provide an understanding of chemical, biological, physical and geologic aspects of the oceans. Emphasis will be placed on the geological and geophysical processes that form and shape the ocean basins and continental margins. In addition, this course will offer an insight into the paleoceanographic evolution of our planet and present day environmental threats such as pollution, habitat destruction, acidification and ocean warming. Even though this course does not include specific lab or tutorial sessions, three relevant exercises will be included.

Prerequisites: ERS201H5 or ERS202H5 or ERS203H5 or ERS211H5 or GGR214H5 or GGR217H5 or GGR227H5

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

ERS315H5 • Environmental Geology

This course will focus on Earth processes as they relate to human activities. Topics include sustainability global climate change on short and long timescales; groundwater flow and contamination/human engineering of Earth processes; geological aspects of pollution and waste disposal; and environmental impact of extracting/using minerals, energy, soil, and other Earth resources. A field trip will give students a first-hand experience in aspects of human/planet interaction.

Prerequisites: Two of: ERS201H5 or ERS202H5 or ERS203H5 or ERS211H5

Exclusions: ESS205H1 or JEE337H1 or EESA05H3

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

ERS325H5 • Field Camp I

This course, held on the north shore of Lake Huron in the summer, covers geological mapping skills, stratigraphic section measurements, and the recognition of rock types, fossils and geological structures in an authentic field-based learning environment in order to interpret ancient geological environments (approx. 12 days of field

instruction). Students in this course receive an instructor lead introduction to the regional geology at whitefish falls, Ontario, before engaging in individual or small group projects in which geologic maps of a defined region will be assembled over 5-6 days of student-led field work. Students will complete an oral field examinations at the end of the field days. Students must pay a course fee, which includes transportation and accommodation at the camp, but does not include the cost of food nor does it cover any course fees charged by the Office of the Registrar. Note: This course is identical to [ESS330H1](#) (formerly [GLG340H1](#)). U of T Mississauga students must register in the Summer Session, and provide consent waivers and the course fee to the Undergraduate Assistant for Earth Sciences in the Department of Chemical and Physical Sciences. This field camp is usually held in early May. Registration and fee payment deadline: mid-March. For specific yearly course information, please see the UTM CPS Earth Science Fieldtrip page for more information on dates, required field gear and other information.

Prerequisites: [ERS202H5](#) and [ERS203H5](#)

Exclusions: [ESS330H1](#) (formerly [GLG340H1](#)) or [ESSC16H3](#), D07H3

Course Experience: University-Based Experience

Distribution Requirements: Science

Mode of Delivery: In Class

ERS381H5 • Special Topics in Earth Sciences

A survey of current thinking in Earth science. Topics may include obtaining data in the field or lab and analyzing it, an interdisciplinary research project, and supervised readings. The contact hours for this course may vary in terms of contact type (L,S,T,P) from year to year, but will be between 24-36 contact hours in total. See the UTM Timetable.

Prerequisites: Enrolment in ERS Major or ERS Specialist or Environmental Geosciences Specialist or Geology Specialist Program and 1.0 ERS or ESS 300-level credits

Exclusions: [ESS381H1](#)

Distribution Requirements: Science

Mode of Delivery: In Class

ERS399Y5 • Research Opportunity Program

This course provides a richly rewarding opportunity for third or higher year students to work on the research project of a professor in earth sciences in return for 399Y course credit. Students enrolled have an opportunity to become involved in original research, enhance their research skills and share in the excitement and discovery of acquiring new knowledge. Participating faculty members post their project description for the following summer and fall/winter session on the ROP website in mid-February and students are invited to apply at that

time. See [Experiential and International Opportunities](#) for more details.

Course Experience: University-Based Experience

Distribution Requirements: Science

Mode of Delivery: In Class

ERS401H5 • Earth Resources

The formation and global distribution of precious and industrial mineral deposits are introduced. Exploration methods and mining practices are discussed in terms of environmental effects and issues. Basic aspects of the economics and strategic importance of mineral reserves are also covered. Weekly field trips are included.

Prerequisites: [ERS201H5](#) and [ERS202H5](#) and [ERS203H5](#)

Exclusions: [ERS419H5](#)

Distribution Requirements: Science

Total Instructional Hours: 24L/48P

Mode of Delivery: In Class

ERS402H5 • Advanced Structural Geology

This course will cover stress, strain and rheology, the analysis and interpretation of structural features in complexly folded and faulted strata and in plutonic and metamorphic rocks, and basic rock mechanics. Methods include strain analysis, stereographic projection, construction of balanced cross-sections, and geomorphometry.

Prerequisites: [ERS202H5](#) and 1.0 credits from ([ERS201H5](#) or [ERS203H5](#) or [ERS211H5](#) or [ERS225H5](#))

Exclusions: [ESS441H1](#)

Distribution Requirements: Science

Total Instructional Hours: 36L/36P

Mode of Delivery: In Class

ERS403H5 • Earthquake Seismology

Why do earthquakes occur and how do they cause damage? What is a seismogram and what can it tell us about earthquakes and the Earth's structure? Earthquakes tend to strike suddenly and without warning. Because of their destructive power, tremendous efforts and monetary resources are dedicated to advancing earthquake science and designing effective hazard mitigation controls. This course will provide an overview of the physics of earthquakes and seismic wave propagation, and current seismic hazard mitigation plans and policies. Concepts covered in this course include stress and strain relations, elastic wave equation, body and surface waves, seismic instrumentation and data, global earth structure, earthquake location, seismic source theory, earthquake mechanics, ground motion, the seismic cycle and earthquake recurrence models, seismic

hazard analysis, and human-induced earthquakes.

Prerequisites: [(MAT132H5 and MAT134H5) or (MAT135H5 and MAT136H5) or (MAT137H5 and MAT139H5) or (MAT134Y5 or MAT135Y5 or MAT137Y5)] and [(PHY136H5 and PHY137H5) or (PHY146H5 and PHY147H5)] and 1.0 credit from ERS201H5 or ERS202H5 or ERS203H5

Exclusions: JPE493H1 or PHY493H1

Distribution Requirements: Science

Total Instructional Hours: 36L/24P

Mode of Delivery: In Class

ERS404H5 • Volcanology and Geothermal Systems

Volcanic eruptions are one of the most dangerous and volatile geological hazard. In the 20th Century, almost 100,000 people are believed to have been killed in volcanic eruptions, with another 4.7 million directly affected by them, but, at the end of the 20th century, over 500 million people lived within the hazard zone of a volcano worldwide; cities such as Tokyo, Mexico City, Naples and Seattle are besieged by the threat of nearby volcanoes. Volcanoes also provide fertile soils, near-unlimited geothermal power generation potential and are an intricate part of the Earth system. This course aims to study the mechanism through which volcanoes form, erupt and evolve, their impact on our society and the benefits they provide in the form of geothermal energy. This will be accomplished through discussion, lab and scenario based learning exercises that will take place over one weekend (approx. 16 hours).

Prerequisites: ERS203H5 and 1.0 credits from any other ERS200/300 level courses.

Distribution Requirements: Science

Total Instructional Hours: 48P

Mode of Delivery: In Class

ERS411H5 • Paleobiology

This course will focus on the evolving history of organisms and their ecosystems on Earth, including aspects of geochemistry and taphonomy. This course will investigate the interactions between Earth and Life over the past 3.5 billion years, emphasizing how the paleontological record is used to understand the complex nature of our evolving Earth.

Prerequisites: 1.5 credits from (ERS201H5 or ERS202H5 or ERS203H5 or ERS211H5 or ERS225H5)

Distribution Requirements: Science

Total Instructional Hours: 36P

Mode of Delivery: In Class

ERS412H5 • Climate Through Time

The goals of this course are to discuss the geologic record of climate change and present an overview of the methods used to reconstruct the earth's climate history and the techniques used to determine the timing of environmental changes. Topics to be addressed will include paleoclimatic reconstruction, climate and climatic variation, dating methods, and climate proxies. In addition, periods of past climate change will be highlighted with particular emphasis on climate change during the recent past. This will be put into perspective with modern day and future global change.

Prerequisites: 1.0 credit from ERS201H5 or ERS202H5 or ERS203H5

Exclusions: ESS205H1 or ESS461H1 or EESB03H3 or ERS321H5

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

ERS425H5 • Geology of North America

This course will provide students with a first-hand field exposure to geologic outcrops in North America, where knowledge gained during classroom instruction throughout their studies can be applied to textbook examples of a variety of real-world geologic features. The course is structured around one major field trip during the fall break where student-led group work on rock outcrops is done, followed by the provision of individual presentations and the preparation of field reports. There is a nonrefundable fee associated with this course beyond tuition. Students must register on ROSI, on a first-come first-serve and non-refundable deposit basis. The deposit must be received by the Department within one week from the first day of enrollment or the student will be dropped automatically from the course. Students should contact the Department by March of the academic year preceding the course to find out more details about the specific field trip plans.

Prerequisites: Enrolment in ERS Major or ERS Specialist or Geology Specialist Program and 1.5 credits at ERS or ESS 300 level

Exclusions: ESS420H1

Course Experience: University-Based Experience

Distribution Requirements: Science

Mode of Delivery: In Class

ERS471H5 • Research Project

Arrangements for these independent research projects must be made with an Earth Science Faculty member prior to registration. This course requires the student to submit a completed application to the CPS Undergraduate Assistant. Registration in the course is required. The application form can be downloaded from www.utm.utoronto.ca/cps/undergraduate/resources/independent-studies-application-form. Copies of the completed report must be submitted one week prior

to the end of term classes. Students may take both ERS471H5 and ERS472H5 in the same term. A component of the mark will be based on an oral presentation made at the end of the course.

Prerequisites: Any 2.0 credits from ERS or ESS(St. George Campus) at the 300-level and a minimum grade average of 75% in the last 5 courses

Exclusions: ERS470Y5 or ESS491H1 or ESS492Y1 or EESD09H3 or EESD10Y3

Distribution Requirements: Science

Mode of Delivery: In Class

ERS472H5 • Research Project

Arrangements for these independent research projects must be made with an Earth Science Faculty member prior to registration. This course requires the student to submit a completed application to the CPS Undergraduate Assistant. Registration in the course is required. The application form can be downloaded from www.utm.utoronto.ca/cps/undergraduate/resources/independent-studies-application-form. Copies of the completed report must be submitted one week prior to the end of term classes. Students may take both ERS471H5 and ERS472H5 in the same term. A component of the mark will be based on an oral presentation made at the end of the course.

Prerequisites: Any 2.0 credits from ERS or ESS(St. George Campus) at the 300-level and a minimum grade average of 75% in the last 5 courses

Exclusions: ERS470Y5 or ESS491H1 or ESS492Y1 or EESD09H3 or EESD10Y3

Distribution Requirements: Science

Mode of Delivery: In Class

ERS499Y5 • Research Opportunity Program

This course provides a richly rewarding opportunity for a fourth or higher year students to work on the research project of a professor in Earth Science in return for 499Y5 course credit. Students enrolled have an opportunity to become involved in original research, enhance their research skills and share in the excitement and discovery of acquiring new knowledge. Participating faculty members post their project description for the following summer and fall/winter session on the ROP website in mid-February and students are invited to apply at that time. See Experiential and International Opportunities for more details.

Prerequisites: Any 2.0 credits from the ERS300 level or ESS300(G) level and a 75% average in the last five courses taken.

Exclusions: ERS471H5 or ERS472H5 or ESS491H1 or ESS492Y1 or EESD09H3 or EESD10Y3

Recommended Preparation: Completed program requirements for entry into fourth year level Earth Science courses.

Course Experience: University-Based Experience

Distribution Requirements: Science

Mode of Delivery: In Class

JCB487Y5 • Advanced Interdisciplinary Research Laboratory

Students will work together as members of a multidisciplinary team toward the completion of an interdisciplinary experimental or theoretical research project. Teams will be comprised of at least three students, with representation from at least three areas of specialization, namely, astronomy, biology, chemistry, earth sciences or physics. The interdisciplinary projects will be based on current trends in research and student teams will work to complete their projects with guidance provided by a team of faculty advisors from the Biology Department and the Department of Chemical and Physical Sciences. In addition to the rigorous development of research skills, the course will also provide students with training and practical experience in project management techniques and teamwork skills development. JCB487Y5 requires submitting an application to the department before the end of June for Fall enrolment. Application forms may be found at <http://uoft.me/cpsforms>. Application should be submitted to the CPS Undergraduate Assistant. Registration on ACORN is also required.

Prerequisites: (2.0 credits at the 300 level from BIO or CHM or JBC or JCP or ERS or ESS(G) or PHY) and (1.0 credit from BIO206H5 or BIO314H5 or CHM372H5 or CHM373H5 or CHM394H5 or CHM395H5 or CHM396H5 or CHM397H5 or ERS201H5 or ERS202H5 or PHY324H5 or PHY347H5). Normally taken in 4th year. Students must obtain approval from the faculty member(s) who will serve as the supervisor(s) in advance of the start of the course.

Exclusions: BIO400Y5 or BIO481Y5 or CBJ481Y5 or CHM489Y5 or ERS470Y5 or ERS471H5 or ERS472H5 or PHY489Y5 or BCH472Y1 or BCH473Y1 or CHM499Y1 or CSB497H1 or CSB498Y1 or CSB499Y1 or ESS491H1 or ESS492Y1 or MGY480Y1 or PHY478H1 or PHY479Y1 or BIOD98Y3 or CHMD90Y3 or CHMD91H3 or EESD09H3 or EESD10H3 or PSCD10H3

Course Experience: University-Based Experience

Distribution Requirements: Science

Total Instructional Hours: 240P

Mode of Delivery: In Class

JGE378H5 • Natural Hazards

Earth is a dangerous place and risk is an inherent feature of life on this planet. Some of the events and processes that we call "hazardous," such as earthquakes, volcanic eruptions, floods, tsunamis, cyclones, and forest fires are natural environmental processes. We define them as hazards only when they pose a threat to human interests. In this course we will examine natural hazards as well as some technological hazards, their causes, their potential impacts on people, and their management and mitigation.

Prerequisites: 9.0 credits

Exclusions: GGR378H5 or ERS317H5

Recommended Preparation: ENV100Y5 and ERS103H5 and ERS120H5 and GGR112H5

Distribution Requirements: Social Science, Science

Total Instructional Hours: 24L/12T

Mode of Delivery: Online, In Class

Economics is a social science that encompasses a particular range of human behaviour and has a strong influence on the structure, well-being, and development of a society.

Much of human activity is directed towards the satisfaction of material wants. In many areas of the world, the greater part of human effort must be directed towards meeting the most elemental demands for food, clothing, and shelter. Even in technologically-advanced societies, where these basic requirements can be met with comparative ease, the desire for more goods and services never appears to be fully satisfied. In consequence, every society - regardless of whether it is capitalist, socialist or communist in political orientation - is both competitive and cooperative. It is competitive because its members contend with one another to satisfy their individual wants from a limited supply of productive resources. It is cooperative because the greatest supply of goods is available when the activity of producing them is coordinated and organized. Economics deals with any issue arising out of the conflict between the demand for goods and services, and a limited supply of resources to satisfy those demands.

Undergraduate training in Economics is intended to familiarize students with the discipline of economic thinking, and to equip them for intelligent appraisal of contemporary economic problems. It is also intended to make students aware of the nature of economic science, and of the directions in which economic theory is moving.

Economic theory now makes considerable use of mathematics in some of its enquiries. A student who chooses to specialize in Economics should take at least one basic course in mathematics. More such courses may be taken, as several Economics courses draw on mathematical analysis.

Owing to advances in economic theory, an undergraduate degree is not sufficient to become a professional economist. For this or other reasons, graduate work may be necessary. Students who wish to do graduate work should seek advice from the department concerning their choice of courses.

Students should also review the [Degree Requirements](#) section prior to selecting courses

Program website : <http://www.utm.utoronto.ca/economics>

Economics Programs

Economics - Specialist (Arts)

Enrolment Requirements:

Limited Enrolment – Enrolment in this program is limited to students with:

- [[ECO100Y5](#) (minimum 70%) or (a minimum 70% grade in each of [ECO101H5](#) and [ECO102H5](#)); and
- [ECO206Y5](#) (minimum 60%) and [ECO208Y5](#) (minimum 60%); and
- [ECO227Y5](#) (minimum 60%) or [[STA258H5](#) (minimum 60%) and [STA260H5](#) (minimum 60%)]]; and
- One of the following:
 - [MAT135Y5](#) (minimum 63%) and [MAT223H5](#) (minimum 63%); or
 - [MAT135H5](#) (minimum 63%) and [MAT136H5](#) (minimum 63%) and [MAT223H5](#) (minimum 63%); or
 - [MAT133Y5](#) (minimum 80%) and [MAT233H5](#) (minimum 63%); or
 - [MAT134Y5](#) (minimum 63%) and [MAT223H5](#) (minimum 63%); or
 - [MAT132H5](#) (minimum 63%) and [MAT134H5](#) (minimum 63%) and [MAT223H5](#) (minimum 63%); or
 - [MAT137Y5](#) (minimum 60%) and [MAT223H5](#) (minimum 63%); or
 - [MAT137H5](#) (minimum 60%) and [MAT139H5](#) (minimum 60%) and [MAT223H5](#) (minimum 63%)

Students should apply for this program at the end of their second year (8.0 credits), once they have completed the prerequisites listed above. It is recommended that students apply to the Economics Major program (ERMAJ1478) at the end of their first year (4.0 credits).

Students enrolled in this program cannot be simultaneously enrolled in the Financial Economics Specialist (ERSPE2722), Eco Major (ERMAJ1478), Eco Minor (ERMIN1478), or Commerce and Finance (ERSPE2034) program.

Completion Requirements:

13.0 credits are required.

First Year:

1. ECO100Y5 or (ECO101H5 and ECO102H5)
2. MAT133Y5 or MAT134Y5 or (MAT132H5 and MAT134H5) or MAT135Y5 or (MAT135H5 and MAT136H5) or MAT137Y5 or (MAT137H5 and MAT139H5);
3. MAT223H5 or MAT233H5

Higher Years:

1. ECO206Y5 and ECO208Y5 and [ECO227Y5 or (STA258H5 and STA260H5)]
2. ECO325H5 and ECO326H5 and ECO375H5
3. 1.0 credit in Economic History from: (ECO302H5 and ECO303H5) or ECO322Y5 or ECO323Y5
4. 5.0 additional 300+ level ECO credits, including at least 1.0 at the 400 level

Specialist Programs

Note:

1. Economics Specialist Program ERSPE1478 leads to an Honours BA degree.
2. Economics (Commerce and Finance) Specialist Program ERSPE0137 can only be taken jointly with the Specialist program in Commerce, and thus leads to a BCom degree.
3. Enrolment in Economics (Commerce) Specialist Program ERSPE0137 Program is open only to those who have been admitted to the BCom degree program.
4. ECO205Y5, ECO244Y5 and ECO261H5 cannot be used to fulfill the requirements for this program.

ERSPE1478

Economics - Specialist (BCom)

This program can only be taken jointly with a Commerce Specialist program. Students must be actively enrolled in a Commerce (BCom) Specialist Program in order to be admitted to this Economics program. Students must complete one of the following Commerce programs in order to complete this program: ERSPE1704, ERSPE2034, ERSPE2273.

Enrolment Requirements:

Limited Enrolment — This program may only be taken jointly with a Specialist program in Commerce which leads to a BCom degree. Students must be actively enrolled in one of these Commerce Specialist (BCom) Programs in order to qualify for this Economics Specialist program: ERSPE1704 or ERSPE2034 or ERSPE2273.

Additionally, enrolment in this program is limited to students with [70% in ECO100Y5 or (70% in each of ECO101H5 and ECO102H5)] and [80% in MAT133Y5 or (63% in MAT134Y5 or MAT135Y5) or (63% in MAT132H5 and MAT134H5) or (63% in MAT135H5 and MAT136H5) or 60% in MAT137Y5 or (60% in MAT137H5 and MAT139H5)] and 63% in MGT120H5 and a minimum CGPA which is determined annually.

Students enrolled in this program cannot be simultaneously enrolled in any other Economics program: Financial Economics Specialist (ERSPE2722), Economics Specialist (ERSPE1478), Economics Major (ERMAJ1478), Economics Minor (ERMIN1478).

Completion Requirements:

Within a BCom degree, 15.0 credits are required.

First Year:

1. ECO100Y5 or (ECO101H5 and ECO102H5)

2. MAT133Y5 or MAT134Y5 or (MAT132H5 and MAT134H5) or MAT135Y5 or (MAT135H5 and MAT136H5) or MAT137Y5 or (MAT137H5 and MAT139H5)
3. MGT120H5 and MGM101H5

Higher Years:

1. MGT Requirements (5.0 credits)
 - a. MGT220H5 and MGT223H5 and MGT231H5 and MGT232H5
 - b. 1.0 credit from: MGT252H5 or MGT262H5 or MGT353H5 or MGT363H5 or (MGT371H5 or MGT422H5) or MGT374H5 or MGT393H5
 - c. 1.0 credit in MGT at 200+ level
 - d. 1.0 credit in MGT at 400 level
2. ECO Requirements (6.0 credits)
 - a. ECO206Y5 and ECO208Y5 and [ECO227Y5 or (STA258H5 and STA260H5)]
 - b. ECO375H5
 - c. 1.0 credit in Economic History from: ECO302H5 or ECO303H5 or ECO322Y5 or ECO323Y5
 - d. ECO325H5 and ECO326H5
 - e. 0.5 credit in ECO at the 300+ level
3. Writing Component (1.0 credit). 1.0 credit chosen from the following:
 - o ANT204H5
 - o any CLA course(s), (excluding CLA201H5)
 - o ECO302H5 or ECO303H5 or ECO320Y5 or ECO320H5 or ECO321H5 or ECO335H5 or ECO336H5 or ECO343H5 or ECO344H5 or ECO373Y5 or ECO399Y5 or ECO433H5 or ECO435H5 or ECO456H5 or ECO463H5 or ECO475H5 (only one ECO course from the list may be taken)
 - o any PHL course(s), (excluding PHL245H5 or PHL246H5 or PHL247H5 or PHL344H5 or PHL345H5 or PHL346H5 or PHL347H5)
 - o any SOC course(s), (excluding SOC300Y5)
 - o any course(s) from ENG or FAH or HIS or HPS or LIN or POL or RLG or WRI

ERSPE0137

Economics and Political Science - Specialist (Arts)

Enrolment Requirements:

Limited Enrolment — Enrolment in this program is limited. Students enrolling at the end of first year (4.0 credits) must obtain:

- A mark of at least 70% in 1.0 credit of POL;
- A mark of at least 63% in ECO100Y5 or (63% in each of ECO101H5 and ECO102H5);
- MAT133Y5 (with a mark of at least 63%) or MAT134Y5 or (MAT132H5 and MAT134H5) or MAT135Y5 or (MAT135H5 and MAT136H5) or MAT137Y5 or (MAT137H5 and MAT139H5);
- ISP100H5; and
- A minimum CGPA of 2.00

Students enrolling at the end of second year (8.0 credits) must obtain:

- 2.0 credits of POL (with a mark of at least 70% in each course);
- A mark of at least 63% in ECO100Y5 or (63% in each of ECO101H5 and ECO102H5);
- MAT133Y5 (with a mark of at least 63%) or MAT134Y5 or (MAT132H5 and MAT134H5) or MAT135Y5 or (MAT135H5 and MAT136H5) or MAT137Y5 or (MAT137H5 and MAT139H5);
- ISP100H5; and
- A minimum CGPA of 2.30

Completion Requirements:

14.5 credits are required.

ISP100H5 (0.5 credit)

Economics: 7.0 credits

1. ECO100Y5 or (ECO101H5 and ECO102H5)
2. MAT133Y5 or MAT134Y5 or (MAT132H5 and MAT134H5) or MAT135Y5 or (MAT135H5 and MAT136H5)
3. (ECO200Y5 or ECO204Y5 or ECO206Y5) and (ECO202Y5 or ECO208Y5 or ECO209Y5) and [ECO220Y5 or ECO227Y5 or (1.0 credit from STA256H5 or STA258H5 or STA260H5)]
4. (ECO302H5 and ECO303H5) or ECO322Y5 or ECO323Y5
5. 1.0 credit of ECO at the 300/400-level

Political Science: 7.0 credits in POL, including at least 1.0 credit at the 400 level and no more than 1.0 credit at the 100 level.

1. POL200Y5 and (POL215H5 and POL216H5) and POL309Y5
2. 1.0 credit each (total 2.0 credits) from two of the following three fields:
 - a. *Comparative Politics* - POL203Y5 or POL203H5 or POL218Y5 or POL354Y5 or POL300Y5 or POL302Y5 or POL303H5 or POL303Y5 or POL304Y5 or POL440Y5 or POL443H5 or POL443Y5 or POL438H5 or POL438Y5
 - b. *International Relations* - POL208Y5 or (POL209H5 and POL210H5) or POL310Y5 or POL311H5 or POL312H5 or POL327H5 or POL327Y5 or POL340Y5 or POL343Y5 or POL344H5 or POL345H5 or POL486Y5 or POL487H5
 - c. *Public Policy and Public Administration* - POL316Y5 or POL317Y5 or POL317H5 or POL318H5 or POL336H5 or POL336Y5 or POL346Y5 or POL353Y5 or POL355H5 or POL355Y5 or POL368H5 or POL368Y5 or POL369Y5 or POL370H5 or POL371H5 or JEP351H5 or JEP356H5 or JEP452H5 or JPE250Y5 or JPE251H5 or JPE252H5
3. 2.0 credits of POL

ERSPE0751

Financial Economics - Specialist (Science)

This program is intended for students planning careers in finance. It prepares students for jobs in banks, investment services, insurance companies, and finance departments of corporations and government agencies. This program will also prepare students for graduate studies in Economics or Financial Economics. Many courses in the program have a technical or analytical focus. This program has a stronger focus on courses related to Financial Economics than the Economics Specialist program (ERSPE1478).

Enrolment Requirements:

Limited Enrolment — Enrolment in this program is limited to students with:

- 70% in ECO100Y5 or (70% in each of ECO101H5 and ECO102H5)
- 70% in ECO206Y5 and 70% in ECO208Y5
- 70% in ECO227Y5 or [STA256H5 (70%) and STA260H5 (70%)] or [STA257H1 (70%) and STA261H1 (70%)]
- One of the following:
 - MAT135Y5 (minimum 63%) and MAT223H5 (minimum 63%)
 - MAT135H5 (minimum 63%) and MAT136H5 (minimum 63%) and MAT223H5 (minimum 63%)
 - MAT134Y5 (minimum 63%) and MAT223H5 (minimum 63%)
 - MAT132H5 (minimum 63%) and MAT134H5 (minimum 63%) and MAT223H5 (minimum 63%)
 - MAT137Y5 (minimum 60%) and MAT223H5 (minimum 63%)
 - MAT137H5 (minimum 60%) and MAT139H5 (minimum 60%) and MAT223H5 (minimum 63%)
 - MAT157Y1 (minimum 60%) and MAT223H5 (minimum 63%)
 - MAT133Y5 (minimum 80%) and MAT233H5 (minimum 63%)

There will be a limited number of spaces available to students with 8.0 credits (including the prerequisites listed above) and a CGPA of 3.30 or with the approval of the Chair or Associate Chair of the Economics Department.

Students enrolled in this program cannot be simultaneously enrolled in an Economics Specialist (ERSPE1478 or ERSPE0137), Economics Major (ERMAJ1478), Economics Minor (ERMIN1478), or in the Commerce and Finance Specialist (ERSPE2034) program.

Completion Requirements:

13.0 credits, including at least 1.0 credit at the 400 level.

First Year:

1. ECO100Y5 or (ECO101H5 and ECO102H5)
2. One of the following:
 - i. MAT133Y5 and MAT233H5; or
 - ii. MAT135H5 and MAT136H5 and MAT223H5

Note: (MAT135H5 and MAT136H5) can be replaced by MAT135Y5 or MAT134Y5 or (MAT132H5 and MAT134H5) or MAT137Y5 or (MAT137H5 and MAT139H5) or MAT157Y1

Higher Years:

1. ECO206Y5
2. ECO208Y5
3. ECO227Y5 or (STA256H5 and STA260H5)
4. ECO325H5 and ECO326H5
5. ECO375H5
6. ECO358H5 and ECO359H5
7. 5.0 credits of ECO at the 300/400-level of which at least 1.5 credits must be chosen from ECO348H5, ECO349H5, ECO356H1, ECO434H5, ECO440H5, ECO456H5, ECO460H5, ECO461H5, ECO462H1, ECO463H5, ECO475H5. Not more than 1.0 credit in Economic History.

ERSPE2722

Economics - Major (Arts)

Enrolment Requirements:

Limited Enrolment — Enrolment in the Major program is limited to students with 4.0 completed credits including:

- [ECO101H5 (63%) and ECO102H5 (63%)] or ECO100Y5(63%); and
- MAT133Y5 (63%) or (MAT135H5 and MAT136H5) or (MAT137H5 and MAT139H5) or MAT135Y5 or MAT137Y5

Students enrolled in this program cannot be simultaneously enrolled in the Economics Minor (ERMIN1478) program.

Completion Requirements:

First Year:

[ECO101H5(63%) and ECO102H5(63%)] or ECO100Y5;
and MAT133Y5(63%) or (MAT135H5 and MAT136H5) or (MAT137H5 and MAT139H5) or MAT135Y5 or MAT137Y5.

Second Year:

ECO200Y5 or ECO204Y5 or ECO206Y5;
 and ECO202Y5 or ECO208Y5 or ECO209Y5;
 and ECO220Y5 or ECO227Y5 or (1.0 credit from STA256H5, STA258H5, STA260H5)

Higher Years:

2.0 credits in 300/400 level ECO courses

NOTE:

- ECO205Y5, ECO244Y5 and ECO261H5 cannot be used to fulfill the requirements for this program.
- MGT437H5 can be used as an ECO 300/400 course to satisfy the program requirements for an Economics Major.

ERMAJ1478

Economics - Minor (Arts)

Enrolment Requirements:

Limited Enrolment — Enrolment in the Minor program is limited to students with:

- 63% in ECO100Y5 or (63% in each of ECO101H5 and ECO102H5)
- MAT133Y5 (63%) or MAT134Y5 or (MAT132H5 and MAT134H5) or MAT135Y5 or (MAT135H5 and MAT136H5) or MAT137Y5 or (MAT137H5 and MAT139H5)

Completion Requirements:

4.0 credits are required, including one ECO course at the 300/400 level.

First Year:

1. 63% in ECO100Y5 or (63% in each of ECO101H5 and ECO102H5)
2. (MAT133Y5(63%) or MAT134Y5 or (MAT132H5 and MAT134H5) or MAT135Y5 or (MAT135H5 and MAT136H5) or MAT137Y5 or (MAT137H5 and MAT139H5)).

Second Year: ECO200Y5 or ECO204Y5 or ECO206Y5

Higher Years: One additional ECO credit at the 300/400 level. Note: ECO205Y5, ECO244Y5 and ECO261H5 cannot be used to fulfill the requirements for this program.

ERMIN1478

Certificate in Advanced Economics

The Certificate in Advanced Economics is open to students who seek a more formal and deeper analysis of economic models and their application. The requirements include core advanced courses in the three main fields of economics: microeconomics, macroeconomics, and econometrics that will help prepare students for graduate and professional studies as well as provide valuable applicable skills for future careers.

Enrolment Requirements:

Limited Enrolment — Enrolment in the Certificate in Advanced Economics is limited to students who are:

1. In good academic standing with a min. CGPA of 1.50; and
2. Concurrently enrolled in a program or set of programs that fulfill the requirements of an HBA, HBSc, or BCom degree (see Section 7 Degree Requirements of the Academic Calendar).

Completion Requirements:

2.0 credits with average grade of 65% or higher are required.

Required courses:

- ECO325H5
- ECO326H5
- ECO375H5
- ECO475H5

ERCER1478

First year preparation: (ECO101H5 and ECO102H5) or ECO100Y5 and MAT133Y5 or MAT134Y5 or (MAT132H5 and MAT134H5) or MAT135Y5 or (MAT135H5 and MAT136H5) or MAT137Y5 or (MAT137H5 and MAT139H5).

Enrolment in Economics programs is based on grades in (ECO101H5 and ECO102H5) or ECO100Y5 and MAT133Y5 or MAT134Y5 or (MAT132H5 and MAT134H5) or MAT135Y5 or (MAT135H5 and MAT136H5) or MAT137Y5 or (MAT137H5 and MAT139H5).

Notes:

- The enrolment in most Economics courses above the 100 level and, therefore, in all Economics programs, is based on grades in (ECO101H5 and ECO102H5) or ECO100Y5 and MAT133Y5 or MAT134Y5 or (MAT132H5 and MAT134H5) or MAT135Y5 or (MAT135H5 and MAT136H5) or MAT137Y5 or (MAT137H5 and MAT139H5). ECO200Y5 or ECO204Y5 or ECO206Y5 and (ECO220Y5 or ECO227Y5 or (1.0 credit from STA256H5, STA258H5, STA260H5)), are required for most 300-level ECO courses.
- Students should consult this calendar and the U of T Mississauga Registration Guide (available at www.utm.utoronto.ca/reg) which set out the course enrolment criteria. Not all courses are offered each year.
- Academic performance requirements are necessary as a condition for enrolment into 200-level ECO courses. (See Prerequisites listed under each course).
- Prerequisites must be met before registering in Economics courses. These prerequisites are checked carefully by the department. It is the student's responsibility to ensure that the proper prerequisites have been met. Students may check with the Economics Undergraduate Advisor if they are not sure whether prerequisites are met.
- Students wishing to use courses from other institutions for prerequisite purposes must submit a copy of their transcript to the Economics Undergraduate Advisor before classes begin. Students who do not have the relevant prerequisites will be deregistered from those courses after classes have begun. It may then be too late to enrol in another course, consequently an additional term or year may be necessary to meet degree requirements.

Economics Courses

ECO101H5 • Principles of Microeconomics

An introduction to the basic concepts and techniques of microeconomic theory, including: price determination through supply and demand, market failure, microeconomic theories of households and firms, and market structure.

Exclusions: ECO100Y5 or ECO101H1 or ECO100Y1 or ECO105Y1 or MGEA01H3 or MGEA02H3

Distribution Requirements: Social Science
Total Instructional Hours: 26L/12T
Mode of Delivery: In Class

ECO102H5 • Principles of Macroeconomics

An introduction to the basic concepts and techniques of macroeconomic theory, including: the determination and measurement of national income, money and banking, monetary and fiscal policy in closed and open economies.

Prerequisites: ECO101H5 or ECO101H1
Exclusions: ECO100Y5 or ECO102H1 or ECO100Y1 or

ECO105Y1 or MGEA05H3 or MGEA06H3

Distribution Requirements: Social Science

Total Instructional Hours: 26L/12T

Mode of Delivery: In Class

ECO200Y5 • Microeconomic Theory

An intermediate treatment of the basic tools of economic analysis. Applications may include: choice under uncertainty, oligopoly, industrial organization, pricing, resource allocation, externalities, public goods, income distribution and welfare economics. ***ECO200Y5 is not open to Commerce or Management Specialist/Major students during Fall/Winter.**

Prerequisites: (ECO101H5(63%) and ECO102H5(63%)) or ECO100Y5(63%)

Corequisites: MAT133Y5 or MAT135H5 or MAT136H5 or MAT135Y5 or MAT137H5 or MAT139H5 or MAT137Y5

Exclusions: ECO204Y5 or ECO205Y5 or ECO206Y5 or ECO200Y1 or ECO204Y1 or ECO206Y1

Distribution Requirements: Social Science

Total Instructional Hours: 48L/24T

Mode of Delivery: In Class

ECO202Y5 • Macroeconomic Theory and Policy

Macroeconomics studies the economy as a whole. The issues it covers include: Why are some countries much richer than others? Why do most Canadians live much better than their ancestors? Why are there recessions in economic activity? What are the causes of inflation and unemployment? What are the consequences of opening up trade and investment with the rest of the world? This course develops a series of models to answer these and similar questions. ***ECO202Y5 is not open to Commerce students in Fall/Winter**

Prerequisites: (ECO101H5 (63%) and ECO102H5 (63%)) or ECO100Y5(63%)

Corequisites: MAT133Y5 or MAT135H5 or MAT136H5 or MAT135Y5 or MAT137H5 or MAT139H5 or MAT137Y5

Exclusions: ECO208Y5 or ECO209Y5 or ECO202Y1 or ECO208Y1 or ECO209Y1

Distribution Requirements: Social Science

Total Instructional Hours: 52L/24T

Mode of Delivery: In Class

ECO204Y5 • Microeconomic Theory and Applications (for Commerce and Management)

The course uses microeconomics to analyze a variety of issues from marketing and finance to organizational structure. Topics include consumer preferences and behaviour; demand, cost analysis and estimation; allocation of inputs, pricing and firm behaviour under

perfect and imperfect competition; game theory and public policy, including competition policy. Business cases are used to connect theory and practice and to highlight differences and similarities between economics and accounting, marketing and finance. **This course is restricted to students in a Commerce or Management program.**

Prerequisites: (ECO101H5 (63%) and ECO102H5 (63%)) or ECO100Y5(63%)

Corequisites: MAT133Y5 or MAT135H5 or MAT136H5 or MAT135Y5 or MAT137H5 or MAT139H5 or MAT137Y5

Exclusions: ECO200Y5 or ECO205Y5 or ECO206Y5

Enrolment Limits: Enrolment in a B.Com Specialist or Major program Enrolment in Management Specialist program

Distribution Requirements: Social Science

Total Instructional Hours: 52L/24T

Mode of Delivery: In Class

ECO206Y5 • Microeconomic Theory

A rigorous mathematical treatment of the basic tools of economic analysis regarding consumer and producer theory. Applications may include but are not limited to: choice under uncertainty, oligopoly, industrial organization, pricing, resource allocation, intertemporal consumption, labour supply, externalities, public goods, income distribution and welfare economics. This course is a requirement for certain Specialist Programs and is strongly recommended for students contemplating graduate school.

Prerequisites: [(ECO101H5 (70%) and ECO102H5 (70%)) or ECO100Y5(70%)] and [MAT133Y5 (80%) or MAT135Y5 (63%) or (MAT135H5 (63%) and MAT136H5 (63%)) or MAT137Y5 (60%) or (MAT137H5 (60%) and MAT139H5 (60%))]

Exclusions: ECO200Y5 or ECO204Y5 or ECO205Y5 or ECO200Y1 or ECO204Y1 or ECO206Y1

Distribution Requirements: Social Science

Total Instructional Hours: 48L/24T

Mode of Delivery: In Class

ECO208Y5 • Macroeconomic Theory

This course provides a rigorous discussion of models used in the study of macroeconomic phenomena, including business cycles, economic growth, unemployment, inflation, exchange rates, and international trade. This course is a requirement for certain Specialist Programs, and strongly recommended for students contemplating graduate school.

Prerequisites: [(ECO101H5 (70%) and ECO102H5 (70%)) or ECO100Y5 (70%)] and [MAT133Y5 (80%) or (MAT135H5 (63%) and MAT136H5 (63%)) or MAT135Y5 (63%) or MAT137Y5 (60%) or (MAT137H5 (60%) and MAT139H5 (60%))]

Exclusions: ECO202Y5 or ECO209Y5 or ECO202Y1 or ECO208Y1 or ECO209Y1

Distribution Requirements: Social Science
Total Instructional Hours: 48L/24T
Mode of Delivery: In Class

ECO209Y5 • Macroeconomic Theory and Policy (for Commerce)

This course covers macroeconomic topics relevant for commerce students. Analytical tools are used to examine various policy questions, including fiscal policy, monetary policy, exchange rate policy, foreign trade policy, labour market policy, and government regulation of financial intermediaries.

Prerequisites: [ECO101H5(63%) and ECO102H5(63%)] or ECO100Y5(63%)

Corequisites: MAT133Y5 or MAT135H5 or MAT136H5 or MAT135Y5 or MAT137H5 or MAT139H5 or MAT137Y5

Exclusions: ECO202Y5 or ECO208Y5 or ECO202Y1 or ECO208Y1 or ECO209Y1

Enrolment Limits: Enrolment in a B.Com Specialist or Major program

Distribution Requirements: Social Science

Total Instructional Hours: 48L/24T

Mode of Delivery: In Class

ECO220Y5 • Introduction to Data Analysis and Applied Econometrics

An introduction to the use of statistical analysis, including such topics as elementary probability theory, sampling distributions, tests of hypotheses, estimation; analysis of variance and regression analysis. Emphasis is placed on applications in economics and business problems.

Prerequisites: [(ECO101H5 (63%) and ECO102H5 (63%)) or ECO100Y5 (63%)] and [MAT133Y5 (63%) or (MAT135H5 and MAT136H5) or MAT135Y5 or (MAT137H5 and MAT139H5) or MAT137Y5]

Exclusions: ECO220Y1 or BIO360H5 or BIO361H5 or (MAT123H1 and MAT124H1) or (PSY201H5 and PSY202H5) or [1.0 credit from (STA218H5 or MGT218H5) or STA220H5 or STA221H5 or STA256H5 or STA258H5 or STA260H5]

Distribution Requirements: Social Science

Total Instructional Hours: 52L/24P

Mode of Delivery: In Class

ECO227Y5 • Foundations of Econometrics

This course provides students with a rigorous introduction to statistical analysis such as probability models, random variables, point and interval estimation, hypothesis testing, probability theory, estimation theory, sampling distributions, hypothesis testing, and simple regression analysis. By the end of the course, students should be familiar with the basic tools used to model uncertainty in economics and finance, to test hypotheses, and to

estimate model parameters. This course focuses on both the theory and application of these statistical methods. It provides a solid foundation for subsequent courses in econometrics. This course is recommended for students planning graduate studies in Economics.

Prerequisites: [(ECO101H5(70%) and ECO102H5(70%)) or ECO100Y5(70%)] and [MAT133Y5(80%) or (MAT135H5(63%) and MAT136H5(63%)) or MAT135Y5(63%) or (MAT137H5(60%) and MAT139H5(60%)) or MAT137Y5(60%)]

Exclusions: ECO227Y1 or BIO360H5 or BIO361H5 or (PSY201H5 and PSY202H5) or SOC350H5 or SOC351H5 or (1.0 credit from STA218H5 or STA220H5 or STA221H5 or STA256H5 or STA258H5 or STA260H5 or STA255H1)

Distribution Requirements: Social Science

Total Instructional Hours: 48L/24T

Mode of Delivery: In Class

ECO302H5 • World Economic History Prior to 1870

This course will focus on the economic success and failure of several key countries and regions from the start of the second millennium up to the early twentieth century. Topics include: pre-modern growth in China & India vs. Europe, the first industrial revolution, exploitation and international trade in the British Empire, the standards-of-living debate, the second industrial revolution. This course is part of the Certificate in Global Perspectives.

Prerequisites: (ECO200Y5 or ECO204Y5 or ECO206Y5) and (ECO202Y5 or ECO208Y5 or ECO209Y5)

Recommended Preparation: ECO220Y5 or ECO227Y5

Distribution Requirements: Social Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

ECO303H5 • World Economic History After 1870

This course will focus on the economic success and failure of several key countries and regions during the twentieth century. Topics include: globalization, causes and consequences of interwar instability, a history of modern development (Japan, the Asian Tigers, India & China vs. Latin America), new institutional economics & new economic geography: African atrophy. This course is part of the Certificate in Global Perspectives.

Prerequisites: (ECO200Y5 or ECO204Y5 or ECO206Y5) and (ECO202Y5 or ECO208Y5 or ECO209Y5)

Exclusions: ECO341H1 or ECO324H1 or ECO342Y1

Recommended Preparation: (ECO220Y5 or ECO227Y5) and ECO302H5

Distribution Requirements: Social Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

ECO311H5 • Pricing Strategies

The course studies firms' pricing decisions drawing on tools from economic theory. Some examples of the questions that are addressed are: How does a firm determine the price for a new product? How should it optimally price to different market segments? What form do these prices take? When and how should a firm change prices overtime? When should an auction be used to sell a product? What type of auction yields greater profits? The analysis is supplemented by real world examples and case studies from the business world.

Prerequisites: (ECO200Y5 or ECO204Y5 or ECO206Y5) and [(ECO220Y5 or ECO227Y5) or (1.0 credit from STA256H5 or STA258H5 or STA260H5)]

Exclusions: ECO310Y5 or ECO380H5

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

ECO312H5 • Firms and Markets

This course studies firms' strategies and the role of government regulators in different markets. Specifically, it studies strategic decisions that firms make when they interact with other firms. These include how to price in the face of competition, how much to invest in R&D or advertising, and whether to buy a rival (by merging, integrating). The course also analyzes the conditions under which firm's choices require intervention by market regulators due to a tension between firms' profits and consumer welfare. The course draws on tools from microeconomics and game theory, and the analysis is supplemented by real world examples and case studies from the business world.

Prerequisites: (ECO200Y5 or ECO204Y5 or ECO206Y5) and [(ECO220Y5 or ECO227Y5) or (1.0 credit from STA256H5 or STA258H5 or STA260H5)]

Exclusions: ECO310Y5 or ECO380H5 or ECO380H1

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

ECO313H5 • Environmental Economics

Application of economics to the field of environmental and natural resource economics. This course uses economic theory and empirical evidence to address important environmental issues, such as management of renewable and non-renewable resources, and different forms of environmental regulation and pollution control. The course will focus on market based instruments, such as tradeable pollution rights, and climate change problems.

Prerequisites: (ECO200Y5 or ECO204Y5 or ECO206Y5) and (ECO220Y5 or ECO227Y5 or 1.0 credit from STA256H5 or STA258H5 or STA260H5)

Distribution Requirements: Social Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

ECO315H5 • Economics of Poverty

This course will focus on the microeconomic analysis of the causes and consequences of poverty. The emphasis will be on developing countries but we will also draw parallels to poverty in industrialized countries such as Canada. Psychological, cultural, social, and institutional factors will be considered along with an exploration of policy solutions. Some of the topics we will cover include inequality, nutrition, health, education, fertility, credit, savings, and entrepreneurship.

Prerequisites: (ECO200Y5 or ECO204Y5 or ECO206Y5) and (ECO202Y5 or ECO208Y5 or ECO209Y5) and (ECO220Y5 or ECO227Y5 or (1.0 credit from STA256H5, STA258H5, STA260H5)).

Exclusions: ECO324Y5 (20149)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

ECO320H5 • Economic Analysis of Law: Part 1

This course examines the economic basis for law and legal institutions. The topics covered include the microeconomic analysis of property rights, contract law, tort law, crime, and the limitations of economic analysis. The appropriate economic measures of damages in tort and contract cases will be discussed. No previous familiarity with the law is assumed. (This is an economic analysis of legal issues, not a course in law.)

Prerequisites: ECO200Y5 or ECO204Y5 or ECO206Y5

Exclusions: ECO320Y5 or ECO320H1

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

ECO321H5 • Economic Analysis of Law: Part 2

This course is a continuation of ECO320H5 An Economic Analysis of Law: Part 1. The topics covered include the microeconomic analysis of corporate law, law and financial markets, bankruptcy law, intellectual property law, marriage and divorce law and the choice between regulation and the common law.

Prerequisites: ECO320H5

Exclusions: ECO320Y5

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

ECO322Y5 • History of Economic Thought

The course first explores the central ideas that have dominated controversies in the method and history of science in this century. With this material as background, several episodes in the development of economic theory are studied. The goal is an understanding of the structure of economics and its relation to the contemporary understanding of scientific method.

Prerequisites: ([ECO200Y5](#) or [ECO204Y5](#) or [ECO206Y5](#)) and ([ECO202Y5](#) or [ECO208Y5](#) or [ECO209Y5](#))

Exclusions: [ECO429Y1](#)

Recommended Preparation: [ECO220Y5](#) or [ECO227Y5](#) or (1.0 credit from [STA256H5](#) or [STA258H5](#) or [STA260H5](#))

Distribution Requirements: Social Science

Total Instructional Hours: 48L

Mode of Delivery: In Class

ECO324H5 • Economic Development

Economic development and transformation of the low-income countries of Latin America, Africa and Asia. Theory and policy analysis relating to the following economic issues in these countries: higher rates of economic growth, the role of the government in resource allocation, the industrial-agricultural sector interface, inward versus outward looking trade strategies, and the international debt problem. The following problems will also be addressed: food supply, domestic savings, tax revenue, foreign exchange, foreign direct investment, high rates of inflation, benefit-cost analysis and economic planning.

Prerequisites: ([ECO200Y5](#) or [ECO204Y5](#) or [ECO206Y5](#)) and ([ECO202Y5](#) or [ECO208Y5](#) or [ECO209Y5](#)) and [[ECO220Y5](#) or [ECO227Y5](#) or 1.0 credit from ([STA256H5](#) or [STA258H5](#) or [STA260H5](#))]

Exclusions: [ECO324Y5](#) or [ECO324Y1](#) or [ECO324H1](#) or [ECO352H5S](#): Special Topics Economics of Poverty (20161)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

ECO325H5 • Advanced Economic Theory - Macro

This course studies the economic foundations of macroeconomic theory and develops analytical skills in constructing and solving macroeconomic models. This course is recommended for students contemplating graduate studies. This course is part of the Certificate in Advanced Economics.

Prerequisites: ([ECO200Y5](#) or [ECO204Y5](#) or [ECO206Y5](#)) and [[ECO202Y5](#)(70%) or [ECO208Y5](#) or [ECO209Y5](#)(70%)] and [[ECO220Y5](#) or [ECO227Y5](#) or 1.0 credit from ([STA256H5](#) or [STA258H5](#) or [STA260H5](#))]

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

ECO326H5 • Advanced Economic Theory - Micro

This course is an advanced analysis of microeconomic theory, including the behaviour of consumers under uncertainty; issues in poverty, inequality and social welfare; game theory and its applications to economics and political economy. This course is recommended for students contemplating graduate studies. **This course is part of the Certificate in Advanced Economics.**

Prerequisites: [[ECO200Y5](#)(70%) or [ECO204Y5](#)(70%) or [ECO206Y5](#)] and [[ECO220Y5](#) or [ECO227Y5](#) or 1.0 credit from ([STA256H5](#) or [STA258H5](#) or [STA260H5](#))]

Exclusions: [ECO316H1](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

ECO333H5 • Urban Economics

This is a course on the application of economic analysis to four major areas of urban activity. The areas are land markets, housing and buildings, transportation, and public finance. In each area, we will consider the role of the government and attempt to understand the source of many current urban economic problems.

Prerequisites: ([ECO200Y5](#) or [ECO204Y5](#) or [ECO206Y5](#)) and [[ECO220Y5](#) or [ECO227Y5](#) or 1.0 credit from ([STA256H5](#) or [STA258H5](#) or [STA260H5](#))]

Exclusions: [ECO333Y5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

ECO335H5 • Public Economics I: Global Warming, Biodiversity Loss and Inequality

Public Economics I focuses on contemporary public policy questions. The goal of the course is to help students develop and apply analytical tools, such as cost-benefit analysis, to examine pressing policy issues of our time. Issues include responses to global warming, preserving biodiversity, combating growing inequality, and the regulation of addictive substances. Students will learn how to use empirical evidence to examine these issues. The course places a strong emphasis on discussion, debate, and effective writing about policy issues from an economics perspective.

Prerequisites: ([ECO200Y5](#) or [ECO204Y5](#) or [ECO206Y5](#)) and ([ECO220Y5](#) or [ECO227Y5](#) or (1.0 credit from [STA256H5](#) or [STA258H5](#) or [STA260H5](#))).

Exclusions: [ECO336Y5](#) or [ECO336H1](#) or [ECO337H1](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

ECO336H5 • Public Economics II: Advanced Policy Analysis

Public Economics II builds on Public Economics I (although the latter is not a prerequisite). The course focuses on externalities and market failure, and the appropriate role of government in response. Students will study the actual role of government in a variety of settings, with a view to identifying ways of improving economic efficiency and the quality of the environment (among other desirable ends) through different types of policy reform. The course should appeal to students who would like to learn more about applied microeconomic analysis and/or who are interested in public policy issues. The course will provide students with a useful set of microeconomic tools for analyzing public policy questions. Students will also learn basic empirical methods, develop effective writing skills, and apply the techniques learned to examine a variety of interesting current policy issues.

Prerequisites: ([ECO200Y5](#) or [ECO204Y5](#) or [ECO206Y5](#)) and [([ECO220Y5](#) or [ECO227Y5](#)) or (1.0 credit from [STA256H5](#) or [STA258H5](#) or [STA260H5](#))]

Exclusions: [ECO336Y5](#) or [ECO336H1](#) or [ECO337H1](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

ECO343H5 • Labour Economics and Public Policy

This course uses both applied microeconomic theory and empirical analysis to examine labour markets in Canada. The course is especially focused on the link between research and public policy. Topics to be covered include: labour supply and demand, minimum wages, immigration, human capital, education production, inter- and intra-generational equality, and peer effects. At the end of the course, students should have a firm grasp of key policy issues involving Canada's labour market and be able to critique the quality of other empirical studies.

Prerequisites: ([ECO200Y5](#) or [ECO204Y5](#) or [ECO206Y5](#)) and ([ECO220Y5](#) or [ECO227Y5](#) or (1.0 credit from [STA256H5](#), [STA258H5](#), [STA260H5](#))).

Exclusions: [ECO361Y5](#) or [ECO239Y1](#) or [ECO339Y1](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

ECO344H5 • Labour Economics and Market Frictions

This course studies the economic behaviour of employers and employees as they interact in the labour market. The class extends beyond basics of labour supply and demand to consider cases when markets are not always perfectly competitive. The course will cover such topics as segmented labour markets, unionization and collective bargaining, unemployment, monopsony, and discrimination.

Prerequisites: ([ECO200Y5](#) or [ECO204Y5](#) or [ECO206Y5](#)) and ([ECO220Y5](#) or [ECO227Y5](#) or (1.0 credit from [STA256H5](#), [STA258H5](#), [STA260H5](#))).

Exclusions: [ECO361Y5](#) or [ECO239Y1](#) or [ECO339Y1](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

ECO345H5 • Macroeconomics and the Labour Market

This course aims to provide students with an overview of recent macroeconomic research on the labour market. Discussion includes theoretical models as well as empirical evidence. Topics include: search frictions, labour market flows, sorting, inequality, occupational mobility, human capital accumulation, and intergenerational mobility.

Prerequisites: ([ECO200Y5](#) or [ECO204Y5](#) or [ECO206Y5](#)) and ([ECO202Y5](#) or [ECO208Y5](#) or [ECO209Y5](#)) and ([ECO220Y5](#) or [ECO227Y5](#) or (1.0 credit from [STA256H5](#), [STA258H5](#), [STA260H5](#))).

Exclusions: Students who completed [ECO352H5](#) Special Topics: Macroeconomics & the Labour Market are not eligible.

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

ECO348H5 • Foundations of Money and Banking

The strategy of the course is to develop a series of models to examine the importance of money and banks. The topics examined in this framework include: the role of money and the financial system, effects of inflation, public pensions and national debt, and the role and importance of banks.

Prerequisites: ([ECO200Y5](#) or [ECO204Y5](#) or [ECO206Y5](#)) and ([ECO202Y5](#) or [ECO208Y5](#) or [ECO209Y5](#)) and ([ECO220Y5](#) or [ECO227Y5](#) or (1.0 credit from [STA256H5](#), [STA258H5](#), [STA260H5](#))).

Exclusions: Students who have taken [ECO352H5](#) Special Topics: Fundamentals of Money, Banking & Financial Markets are not eligible for this course

Distribution Requirements: Social Science

Total Instructional Hours: 24L
Mode of Delivery: In Class

ECO349H5 • Money, Banking & Financial Markets

This course explores a wide range of topics on the theories of money and banking. The strategy of the course is to develop a series of models to examine the importance of money, banks, and other financial institutions in the way economies work. The topics examined in this framework include: the role of money and the financial system, effects of inflation, bond and stock markets, banks, control of the money supply, and international monetary systems.

Prerequisites: (ECO200Y5 or ECO204Y5 or ECO206Y5) and (ECO202Y5 or ECO208Y5 or ECO209Y5) and (ECO220Y5 or ECO227Y5 or (1.0 credit from STA256H5, STA258H5, STA260H5)).

Distribution Requirements: Social Science
Total Instructional Hours: 24L/12T
Mode of Delivery: In Class

ECO350Y5 • Special Topics in Economics

(Formerly Seminar on Selected Subjects) This course covers a special topic in Economics. Content relates to instructor's area of interest, thus the course varies in focus from year to year. Students require specific prerequisites for each course. Details are available from the student advisor or departmental web site. The contact hours for this course may vary in terms of contact type (L,S,T,P) from year to year, but will be between 48-60 contact hours in total. See the UTM Timetable.

Distribution Requirements: Social Science
Total Instructional Hours: 48L
Mode of Delivery: In Class

ECO351H5 • Special Topics in Economics

This course covers a special topic in Economics. Content relates to instructor's area of interest, thus the course varies in focus from year to year. Students require specific prerequisites for each course. Details are available from the academic advisor or departmental website. Limited Enrolment. The contact hours for this course may vary in terms of contact type (L,S,T,P) from year to year, but will be between 24-36 contact hours in total. See the UTM Timetable.

Distribution Requirements: Social Science
Total Instructional Hours: 24L
Mode of Delivery: In Class

ECO352H5 • Special Topics in Economics

(Formerly Seminar on Selected Subjects) This course covers a special topic in Economics. Content relates to instructor's area of interest, thus the course varies in focus from year to year. Students require specific prerequisites for each course. Details are available from the student advisor or departmental web site.

Distribution Requirements: Social Science
Total Instructional Hours: 24L
Mode of Delivery: In Class

ECO353H5 • Special Topics in Economics

This course covers a special topic in Economics. Content relates to instructor's area of interest, thus the course varies in focus from year to year. Students require specific prerequisites for each course. Details are available from the student advisor or departmental website. The contact hours for this course may vary in terms of contact type (L,S,T,P) from year to year, but will be between 24-36 contact hours in total. See the UTM Timetable.

Distribution Requirements: Social Science
Total Instructional Hours: 24L
Mode of Delivery: In Class

ECO358H5 • Financial Economics I

This course provides an introduction to capital markets and asset pricing. We will cover the role of financial markets, project valuation, expected utility and risk aversion, financial risk, general equilibrium pricing, the Capital Asset Pricing Model, Arbitrage Pricing Theory, derivatives, option pricing, term structure of interest rates, foreign exchange markets, and market efficiency.

Prerequisites: (ECO200Y5 or ECO204Y5 or ECO206Y5) and [(ECO220Y5 or ECO227Y5) or (1.0 credit from STA256H5 or STA258H5 or STA260H5)]

Exclusions: MGT231H5 or MGT331Y1 or MGT337Y5 or MGT338H5

Enrolment Limits: ECO358H5 is not open to Commerce students.

Distribution Requirements: Social Science
Total Instructional Hours: 24L
Mode of Delivery: In Class

ECO359H5 • Financial Economics II

This course provides an introduction to Corporate Finance. Topics covered include: project valuation, firm's capital structure, dividend policy, management control and agency problems, public share offerings, debt offerings and auctions, mergers and acquisition, bankruptcy costs, tax-influences and bank runs. This course is the sequel to ECO358H5.

Prerequisites: (ECO200Y5 or ECO204Y5 or ECO206Y5) and [(ECO220Y5 or ECO227Y5) or (1.0 credit from STA256H5 or STA258H5 or STA260H5)]

Exclusions: MGT231H5 or MGT232H5 or MGT331Y1 or MGT337Y5 or MGT338H5 or MGT339H5

Enrolment Limits: ECO359H5 is not open to Commerce students.

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

ECO362H5 • Economic Growth: Theory and Evidence

Differences in income per capita levels and growth rates across countries are large. Understanding the causes behind these differences is a fundamental question in economics. The main objective of this course is to apply economic theory to understand and interpret empirical observations on economic development and growth. By the end of this course students will have a basic knowledge of the main facts characterizing economic development and growth over time and across countries, as well as the ability of theoretical models to account for these facts. The topics that will be covered in the course include the role of physical and human capital accumulation in growth and income differences, the reallocation of factors across sectors (structural transformation) and aggregate productivity, the importance of the misallocation of resources across heterogeneous firms in aggregate productivity. Key empirical applications include the growth performance of industrialized countries since World War II and the productivity slowdown observed in recent decades, the stagnation of living standards in many developing countries, and the role of automation and artificial intelligence in growth and development.

Prerequisites: (ECO200Y5 or ECO204Y5 or ECO206Y5) and (ECO202Y5 or ECO208Y5 or ECO209Y5) and (ECO220Y5 or ECO227Y5 or (1.0 credit from STA256H5, STA258H5, STA260H5)) and (MAT133Y5 or MAT134Y5 or (MAT132H5 and MAT134H5) or MAT135Y5 or (MAT135H5 and MAT136H5) or MAT137Y5 or (MAT137H5 and MAT139H5))

Exclusions: ECO451H1

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

ECO364H5 • International Trade Theory

An analysis of the nature, effects and policy implications of international trade theory; the theories of comparative costs and reciprocal demands, factor reward equalization, international tariffs and customs unions.

Prerequisites: (ECO200Y5 or ECO204Y5 or ECO206Y5) and (ECO202Y5 or ECO208Y5 or ECO209Y5)

Exclusions: ECO328Y1 or ECO230Y1

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

ECO365H5 • International Monetary Economics

An analysis of the nature, effects and policy implications of international finance; balance-of-payments and foreign exchange analysis; liquidity problems and topics related to current problems in international finance.

Prerequisites: (ECO200Y5 or ECO204Y5 or ECO206Y5) and (ECO202Y5 or ECO208Y5 or ECO209Y5) and [ECO220Y5 or ECO227Y5 or 1.0 credit from (STA256H5 or STA258H5 or STA260H5)]

Exclusions: ECO328Y1 or ECO230Y1

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

ECO370Y5 • The Economics of Organizations

The determinants of the boundary between organizations and markets. Problems of centralization vs. decentralization, authority, coordination and motivation within organizations. Incentives, ownership and property rights. The nature of the employment relationship: explicit and implicit contracts, compensation, relative performance evaluation, career paths, job assignments and promotion.

Prerequisites: (ECO200Y5 or ECO204Y5 or ECO206Y5) and [ECO220Y5 or ECO227Y5 or 1.0 credit from (STA256H5 or STA258H5 or STA260H5)]

Exclusions: ECO381H5 or ECO426H1 or MGT310Y1

Distribution Requirements: Social Science

Total Instructional Hours: 48L/24T

Mode of Delivery: In Class

ECO373Y5 • The Environment: Perspectives from Economics and Ecology

(Formerly ECO373H5) The course examines the basic principles of environmental economics and ecology and the interaction between ecological and economic factors. It assesses alternative criteria and objectives for environmental policy. Problems associated with the implementation of environmental policy are analyzed and examined through case studies.

Prerequisites: ECO100Y5(63%) and (ECO200Y5 or ECO204Y5 or ECO206Y5) or by permission of instructor

Exclusions: ECO313H1 or ECO373H5

Recommended Preparation: ENV100Y5

Distribution Requirements: Social Science

Total Instructional Hours: 48L/10T

Mode of Delivery: In Class

ECO375H5 • Applied Econometrics I

(Formerly ECO327Y5) This course is an introduction to econometrics. Statistical foundations and the interpretation of multiple regression models, with an emphasis on cross-sectional data. Application of regressions to a wide variety of economic questions and data sources, including the use of statistical software. Problems in the identification of causality, and an introduction to methods of addressing common statistical issues. This course is recommended for students contemplating graduate studies. This course is part of the Certificate in Advanced Economics.

Prerequisites: (ECO200Y5 or ECO204Y5 or ECO206Y5) and (ECO202Y5 or ECO208Y5 or ECO209Y5) and (ECO220Y5(70%) or ECO227Y5 or (1.0 credit from STA256H5, STA258H5, STA260H5)).

Exclusions: ECO327Y5 or ECO327Y1 or ECO375H1

Distribution Requirements: Social Science

Total Instructional Hours: 24L/24P

Mode of Delivery: In Class

ECO380H5 • Managerial Economics: Competitive Strategy

This is a course in applied microeconomics. This course will use a series of real world examples, together with theoretical insights from game theory, to answer questions like, why are some industries more profitable than others? Why are some firms profitable while others are not? How can firms create, capture and maintain their profits in the face of competition? The first part of the course will be devoted to the building blocks of strategy, including industry analysis, positioning, and sustainability of competitive advantage. Next we will use game theoretical tools to analyze strategic interaction among firms, such as strategic pricing, entry and competitive bidding. Lastly, the course will cover the scope of the firm and technologic competition. Students shall learn from the course, the ability to identify and categorize major strategic problems, and suggest and evaluate candidate strategies.

Prerequisites: (ECO200Y5 or ECO204Y5 or ECO206Y5) and (ECO220Y5 or ECO227Y5 or 1.0 credit from (STA256H5 or STA258H5 or STA260H5))

Exclusions: ECO310Y5 or ECO311H5 or ECO312H5 or MGT310Y1

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

ECO381H5 • Managerial Economics: Personnel Economics

This course examines selected material on compensation and incentives in hierarchical organizations. Topics include recruitment and hiring, training, turnover, downsizing, motivating workers, teams, allocating authority and task assignment.

Prerequisites: (ECO200Y5 or ECO204Y5 or ECO206Y5) and (ECO220Y5 or ECO227Y5 or 1.0 credit from (STA256H5 or STA258H5 or STA260H5))

Exclusions: ECO370Y5 or ECO426H1 or MGT310Y1

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

ECO383H5 • Introduction to Empirical Methods of Microeconomics

(Formerly: Economics of Education) For students who would like to learn more about economics data analysis - this course provides an intuitive introduction to empirical methods in microeconomics. The class begins with a self-contained and intuitive treatment of modern methods used in microeconomic data analysis. We then go on to study some interesting current empirical research, focusing on the education field, to see how those methods are applied. The course should prepare you to read current empirical research in microeconomics -- without any preparation, empirical papers can seem rather impenetrable. This course serves as a complement to and a foundation for 'Applied Econometrics I' (ECO375H5).

Prerequisites: (ECO200Y5 or ECO204Y5 or ECO206Y5) and (ECO220Y5 or ECO227Y5 or 1.0 credit from (STA256H5 or STA258H5 or STA260H5)) and

(MAT133Y5 or MAT135Y5 or (MAT135H5 and MAT136H5) or (MAT137H5 and MAT139H5) or MAT137Y5)

Exclusions: ECO351H5 (Winter 2007) or ECO338H1

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

ECO385H5 • Economics of Information

This course analyses how markets function when market participants have asymmetric information. We will show how asymmetric information may lead to market breakdown and how an appropriately designed contract can help alleviate the adverse effect of asymmetric information on market efficiency. We will cover three types of models: moral hazard, screening and signaling. There are a wide variety of applications, including labour contracts, price discrimination, insurance markets, and marketing.

Prerequisites: (ECO200Y5 or ECO204Y5 or ECO206Y5) and (ECO220Y5 or ECO227Y5 or (1.0 credit from (STA256H5, STA258H5, STA260H5)).

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

ECO399H5 • Research Opportunity Program

This course provides senior undergraduate students who have developed some knowledge of a discipline and its research methods, an opportunity to work in the research project of a professor in return for course credit. Students enrolled have an opportunity to become involved in original research, develop their research skills and share in the excitement and discovery of acquiring new knowledge. Project descriptions for participating faculty members for the following summer and fall/winter sessions are posted on the ROP website (www.utm.utoronto.ca/rop/research-opportunity-program) in mid-February and students are invited to apply at that time. See [Experiential and International Opportunities](#) for more details.

Prerequisites: Minimum of 10.0 credits completed.

Course Experience: University-Based Experience

Distribution Requirements: Social Science

Mode of Delivery: In Class

ECO399Y5 • Research Opportunity Program

This course provides senior undergraduate students who have developed some knowledge of a discipline and its research methods, an opportunity to work in the research project of a professor in return for course credit. Students enrolled have an opportunity to become involved in original research, develop their research skills and share in the excitement and discovery of acquiring new knowledge. Project descriptions for participating faculty members for the following summer and fall/winter sessions are posted on the ROP website (www.utm.utoronto.ca/rop/research-opportunity-program) in mid-February and students are invited to apply at that time. See [Experiential and International Opportunities](#) for more details.

Prerequisites: Minimum of 10.0 credits

Course Experience: University-Based Experience

Distribution Requirements: Social Science

Mode of Delivery: In Class

ECO400Y5 • Economics Internship

Through a part time, unpaid, 200-hour work placement, fourth year students apply economics content and skills. Placements are made throughout the GTA in both the private and public sectors. Successful candidates gain an opportunity to enhance their University experience through on-site work placements providing the possibility to develop skill sets within a business setting. Monthly class meetings plus year-end and presentation are required. Normally, the 200 hours will be completed by attending the work placement one full day each week from September to April. Students interested in a finance-industry placement are strongly recommended to arrange their course schedule to allow for a two day a week work

placement in one semester. This arrangement increases the possibility of placement and enhances the experience although careful course planning is essential. More information is available on the Department of Economics website:

<https://www.utm.utoronto.ca/economics/experiential-learning>.

Prerequisites: Fourth year standing in an Economics Program and recommended CGPA to be determined annually. Acceptance will be based on a combination of CGPA, experience, qualifications and interview performance.

Exclusions: BIO400Y5 or CCT409H5 or CTE388H5 or ENV400Y5 or FSC481Y5 or HIS498Y5 or ITA400Y5 or JEG400Y5 or JEG401Y5 or MGT480H5 or (CCT410H5 or CCT411H5) or PSY442Y5 or SOC480Y5 or WGS435Y5

Course Experience: Partnership-Based Experience

Distribution Requirements: Social Science

Total Instructional Hours: 48L

Mode of Delivery: In Class

ECO401Y5 • Special Topics in Economics

This course covers special topics in Economics at an advanced level. Content relates to instructor's area of interest, thus the course varies in focus from year to year. Students require specific prerequisites for each course. Details are available from the student advisor or departmental website. The contact hours for this course may vary in terms of contact type (L,S,T,P) from year to year, but will be between 48-60 contact hours in total. See the UTM Timetable.

Distribution Requirements: Social Science

Total Instructional Hours: 48L

Mode of Delivery: In Class

ECO402H5 • Special Topics in Economics

This course covers a special topic in Economics. Content relates to instructor's area of interest, thus the course varies in focus from year to year. Students require specific prerequisites for each course. Details are available from the student advisor or departmental web site. The contact hours for this course may vary in terms of contact type (L,S,T,P) from year to year, but will be between 24-36 contact hours in total. See the UTM Timetable.

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

ECO406H5 • Advanced Public Economics

This course addresses empirical and theoretical issues in public economics. This course will be especially focused on issues related to poverty and inequality. Topics include minimum wage, social mobility, neighborhood effects, welfare, and social insurance. We will also discuss the tools economists use to measure the causal effects of policies, and consider how statistics often presented in policy debates may be biased. After this course, students should be comfortable reading research papers in economics.

Prerequisites: (ECO200Y5 or ECO204Y5 or ECO206Y5) and (ECO220Y5 or ECO227Y5 or (1.0 credit from STA256H5, STA258H5, STA260H5)).

Exclusions: ECO412Y5

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

ECO411H5 • Human Capital and Education in the Economy

(Formerly ECO412Y5) This course addresses empirical and theoretical issues in education economics. Topics will include the interaction of human capital with growth and inequality, teacher incentives and teacher quality, early childhood education, and the racial achievement gap. We will also discuss the tools economists use to measure the causal effects of policies, and consider how statistics often presented in policy debates may be biased. After this course, students should be comfortable reading research papers in economics.

Prerequisites: (ECO200Y5 or ECO204Y5 or ECO206Y5) and (ECO220Y5 or ECO227Y5 or (1.0 credit from STA256H5, STA258H5, STA260H5)).

Exclusions: ECO412Y5

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

ECO420Y5 • Reading Course, Seminar or Workshop

Primarily for advanced Specialist students who have exhausted course offerings in a particular subject area. Open only when a faculty member is willing and available to supervise. Students must obtain the written approval of the chair or associate chair before enrolling. See the student advisor for details.

Exclusions: ECO421H5 or ECO422H5

Distribution Requirements: Social Science

Mode of Delivery: In Class

ECO421H5 • Reading Course, Seminar or Workshop

Primarily for advanced Specialist students who have exhausted course offerings in a particular subject area. Open only when a faculty member is willing and available to supervise. Students must obtain the written approval of the chair or associate chair before enrolling. See the student advisor for details.

Exclusions: ECO420Y5 or ECO422H5.

Distribution Requirements: Social Science

Mode of Delivery: In Class

ECO422H5 • Reading Course, Seminar or Workshop

Primarily for advanced Specialist students who have exhausted course offerings in a particular subject area. Open only when a faculty member is willing and available to supervise. Students must obtain the written approval of the chair or associate chair before enrolling. See the student advisor for details.

Exclusions: ECO420Y5 or ECO421H5

Distribution Requirements: Social Science

Mode of Delivery: In Class

ECO433H5 • Gender and Family Economics

In this course, students will examine gender and the family within modern economics. Topics include: gender wage differentials in labour markets; labour force participation; marriage markets; intimate partner violence; fertility and the demand for children; divorce; and the life cycle of the family. Concepts are applied to current topics within the development and labour literatures.

Prerequisites: (ECO200Y5 or ECO204Y5 or ECO206Y5) and (ECO202Y5 or ECO208Y5 or ECO209Y5) and [ECO220Y5 or ECO227Y5 or 1.0 credit from (STA256H5 or STA258H5 or STA260H5)]

Exclusions: ECO332H1

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

ECO435H5 • Growth and Development of the Chinese Economy

Both the pace and scale of China's economic transformation over the last three decades are unprecedented in human history. Understanding the nature and the sources of this great transformation is important for at least two reasons. First, it may provide valuable lessons of economic development for other developing countries. Second, the Chinese economy has become increasingly integrated with the world economy.

The growth prospect of China is important for both China and the rest of the world. This course will examine China's growth and development through the lens of the modern macroeconomic theory. The topics that will be covered in the course include China's historical growth performance, structural transformation and growth since 1978, resource reallocation and aggregate productivity changes, financial sector development, inflation and business cycles in China. This course is part of the Certificate in Global Perspectives.

Prerequisites: (ECO200Y5 or ECO204Y5 or ECO206Y5) and (ECO202Y5 or ECO209Y5 or ECO208Y5) and (ECO220Y5 or ECO227Y5 or (1.0 credit from STA256H5, STA258H5, STA260H5)).

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

ECO436H5 • Measuring Well Being

The course concerns itself with measuring societal economic well being. The historical development of the subject is considered together with the conceptual issues (and objections) associated with representing the welfare of economic agents. Different notions of welfare (Poverty, Inequality, Polarization, Equality of Opportunity) and the various empirical techniques for examining them are critically explored and applied using existing datasets.

Prerequisites: (ECO200Y5 or ECO204Y5 or ECO206Y5) and (ECO202Y5 or ECO208Y5 or ECO209Y5) and [ECO220Y5 or ECO227Y5 or 1.0 credit from (STA256H5 or STA258H5 or STA260H5)]

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

ECO440H5 • Advanced Topics in Financial Economics

This course deals with the following topics in financial economics: (1) Theoretical and empirical issues concerning the relevance of corporate financial structure; (2) Interactions between corporate investment and financing decisions; and (3) The role of the financial system and the legal system in economic development and growth. There is no required textbook. The course will rely quite extensively on readings of journal articles. A recommended book is: T. Copeland, J. Weston, K. Shastri, Financial Theory and Corporate Policy, Addison-Wesley, 2005, fourth edition.

Prerequisites: ECO206Y5 (70%) and ECO208Y5 (70%) and ECO227Y5 (70%) and ECO358H5; or by permission of instructor.

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

ECO456H5 • Public Policy Analysis

(Formerly ECO356H5) This course provides an opportunity for students to work with real-world data to address current public policy questions. The course discusses issues that arise when analyzing non-experimental social science data and will teach students to recognize the types of research designs that can lead to convincing policy conclusions. A hands-on approach will be emphasized.

Prerequisites: (ECO200Y5 or ECO204Y5 or ECO206Y5) and (ECO202Y5 or ECO208Y5 or ECO209Y5) and (ECO220Y5(70%) or ECO227Y5 or (1.0 credit from STA256H5 or STA258H5 or STA260H5))

Corequisites: ECO375H5

Exclusions: ECO356H5

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

ECO460H5 • Introduction to Financial Risk Management

(Formerly ECO460Y5) This course provides an overview of financial risks which include market risk, credit risk and operational risk. It also discusses the importance of managing these risks and introduces students to basic tools for analyzing and managing them.

Prerequisites: [ECO200Y5(70%) or ECO204Y5(70%) or ECO206Y5] and [ECO220Y5(70%) or ECO227Y5 or 1.0 credit from (STA256H5(70%) or STA258H5(70%) or STA260H5)]

Exclusions: ECO460Y5 or ECO461H1

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

ECO461H5 • The Economics of Financial Risk Management

(Formerly ECO460Y5) This course focuses on how to use derivative securities to manage financial risks. It includes a discussion of why firms should hedge financial market risk, identification and quantification of financial risks; the value-at-risk (VaR) measure of risk; credit risk and capital allocation and difference between speculation and hedging.

Prerequisites: ECO460H5

Exclusions: ECO460Y5 or ECO461H1

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

ECO466H5 • Empirical Macroeconomics and Policy

Students will increase their data literacy and learn how to apply techniques to address policy issues. The topics covered will include the practical design of monetary policy, the rationale for current monetary policy in Canada, and statistical methods for predicting key macroeconomic variables. As part of the course, students will follow current global issues and will forecast how domestic and international events may alter the Bank of Canada's monetary policy in the short run. Students will team-up with their classmates, discuss their individual forecasts, and select one for a group presentation. Traditionally, at the end of the course, a team from [ECO466H5](#) is chosen to compete in the Bank of Canada Governor's Challenge.

Prerequisites: [ECO325H5](#) and [[ECO220Y5](#) or [ECO227Y5](#) or (1.0 credit from [STA256H5](#), [STA258H5](#), [STA260H5](#))] or Permission of Instructor/Department.

Exclusions: [ECO402H5](#) Special Topics: Empirical Macroeconomics and Policy (20199)

Recommended Preparation: [ECO375H5](#)

Course Experience: University-Based Experience

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

ECO475H5 • Applied Econometrics II

A research-oriented course continuing from [ECO375H5](#). The regression model is extended in several possible directions: time series analysis; panel data techniques; instrumental variables; simultaneous equations; limited dependent variables. Students will complete a major empirical term paper, applying the tools of econometrics to a topic chosen by the student.

Prerequisites: [ECO375H5](#)

Exclusions: [ECO327Y5](#) or [ECO327Y1](#) or [ECO376H1](#)

Course Experience: University-Based Experience

Distribution Requirements: Social Science

Total Instructional Hours: 24L/24P

Mode of Delivery: In Class

The Education Studies minor is for students interested in a variety of careers that involve educating and training others. Students will develop an understanding of the format and the rationale for particular instructional strategies, teaching methodologies, andragogy and pedagogy.

The minor will help students advance skills in teaching, corporate training, e-learning, second language instruction and other related areas. Students will immerse themselves in courses related to equity and diversity; communication and conflict resolution; child, adolescent, indigenous education, and adult development; learning design, and education within a global context.

Students will hone their leadership skills as they participate in field placements, community engagement activities, experiential learning, and apply training opportunities through real-world case studies. They will come to understand the importance of inclusivity/diversity both within an instructional framework and the community. Complementing these foundational courses are education-related and interdisciplinary course offerings.

Experiential learning is embedded within the program's courses and enables students to implement reflective practice based upon inquiry-based research, data gathering and assessment. Over 150 hours of experiential learning is embedded within program courses. Those interested in pursuing a career in teaching may wish to apply to a consecutive initial teaching program, a Human Resources (HR) certification program, an ESL and or Adult Ed program or a Master's program in education upon completion of their undergraduate degree. Completion of the Education Studies minor does not qualify a graduate for teaching certification through the Ontario College of Teachers. Students applying to the Education Studies minor must have a minimum CGPA of 2.30. There are numerous experiential learning opportunities and admission will be limited.

For more information regarding program requirements and admission, please contact the Undergraduate Co-ordinator.

It is strongly recommended that students interested in pursuing teacher training speak with the Undergraduate Co-ordinator before applying to the Education Studies minor. Such students should be aware of requirements related to teaching subjects. Further information regarding teaching subjects and specific requirements can be found through an accredited Faculty of Education.

Students should also review the [Degree Requirements](#) section prior to selecting courses

Education Studies Programs

Education Studies - Minor (Arts)

Enrolment Requirements:

Limited Enrolment — Enrolment into the Education Studies Minor is limited. To be considered for enrolment, students are required to have completed 4.0 credits with a minimum cumulative grade point average (CGPA) of at least 2.30. Meeting the minimum requirements does not guarantee enrolment into the program.

Completion Requirements:

4.0 credits are required.

First Year: 0.5 credit from [EDS100H5](#) or [EDS101H5](#) (Note these courses are open to all students. Highly recommended but not required for those applying to the EDS minor.)

Second Year: [EDS200H5](#), [EDS210H5](#) and [EDS220H5](#)

Third and Fourth Years:

1. [EDS300H5](#) and [EDS310H5](#)
2. 0.5 or 1.0 credits in experiential learning (for example, [EDS325H5](#), [EDS388H5](#), [EDS377H5](#)) or internship courses in other subject areas as approved by the Education Studies Program Coordinator.
3. 0.5 or 1.0 remaining credits from the following: [EDS250H5](#), [EDS275H5](#), [EDS285H5](#), [EDS291H5](#), [EDS345H5](#), [EDS399H5](#), [FAS453H5](#), [FAS455H5](#), [FRE225Y5](#), [FRE325H5](#), [FRE345H5](#), [FRE352H5](#), [FRE353H5](#), [FRE355H5](#), [FRE382H5](#), [FRE383H5](#), [LIN388H5](#), [LIN487H5](#), [LIN456H5](#), [LTL227H5](#), [LTL380H5](#), [LTL487H5](#), [LTL456H5](#), [LTL486H5](#), [LTL488H5](#), [MAT382H5](#), [MAT392H5](#), [PHL272H5](#), [PSY310H5](#), [PSY311H5](#), [PSY312H5](#), [PSY313H5](#), [PSY315H5](#), [PSY341H5](#), [PSY345H5](#), [PSY410H5](#), [PSY422Y5](#), [SOC224H5](#), [SOC480Y5](#); or additional appropriate courses as approved by the Education Studies Minor Coordinator.

NOTE: Students must check prerequisites and exclusions for courses listed above to ensure they meet the requirements for entry.

[ERMIN0605](#)

Education Studies Courses

EDS100H5 • Introduction to Education Studies

This course explores broad social and cultural issues in education. It will address questions about how we advance knowledge, who controls how and what we learn and what role education has in how societies are shaped, changed and reproduced. Students will evaluate the

influence education can have on who we are, how we

wish to live and what we aspire to as citizens in a global and digital community. This investigation will also consider how language, race, gender, class and culture intersect with teaching and learning.

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

EDS101H5 • Health and Education

This course serves as an introduction to theory and research in the related fields of health and education. Students will learn to identify, address, and

manage health-related risk in school environments by deepening their knowledge of holistic and brain-based theory. The course will explore health and wellness as a fundamental human right by addressing proactive approaches through the *Determinants of Health* and *Developmental Assets Framework*. Active research will include investigation of school-based policies and practices (e.g, the critique of a new fitness technology, examination of a school food and nutrition program, assessment of a school health campaign).

Note:

As this is an introductory course to the topic, students are encouraged to take this course in their first or second year as preparation for [EDS220H5](#) Equity and Diversity Studies and [EDS388H5](#) – Internship in the Community.

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

EDS200H5 • Learning Through the Lifespan

This course focuses on the physical skills, cognitive abilities, and socioemotional experiences that shape an individual's capacity to learn throughout the lifespan (i.e., infancy to late adulthood). It will address how learning is a lifelong process and how we are continually educating ourselves in different ways by incorporating strategies that best suit our lifespan stage. Critical research and theorists will be discussed to enhance the topics presented. Students are required to complete an 8-hour field experience, and obtain a valid vulnerable sector police check in advance of placement.

Exclusions: [CTE100H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

EDS210H5 • Communication and Conflict Resolution

This course focuses on principles and practices of conflict management and resolution, emphasizing interpersonal communication, including cross-cultural perspectives and communicating across different identities and worldviews, with emphasis on the relevance of these skills, principles and processes to teaching and learning.

Exclusions: [CTE250H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

EDS220H5 • Equity and Diversity in Education

This course focuses on raising awareness and sensitivity to equity and diversity issues facing teachers and students in diverse schools and cultural communities. It includes a field experience which entails observation of, and participation in, equity and diversity efforts in a community organization.

Exclusions: [CTE200H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

EDS250H5 • Indigenous Education

This course is open to all students from any discipline. Designed to increase opportunities to learn about education through a First Nation, Métis and Inuit perspective, the course will increase knowledge and awareness about pedagogies, learning approaches and educational experiences related to indigenous people living in Canada. In line with indigenous ways of knowing, this course will be structured with learning that involves reflecting on personal actions by looking at ways that indigenous models of education support social and community well-being.

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

EDS275H5 • Mass Media and Debunking the Myths of Education

This course explores prevailing myths about education. It invites students to critically examine consensus and controversy in the media while unpacking some of the research underpinning commonly held beliefs about curriculum, students, teachers, and education systems. The ability to interpret and assess the merits of news, fake news, research, and social media content is an increasingly important skill in a data rich world. This course will have a strong emphasis on critical reading, analysis and evaluation.

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

EDS285H5 • The Future of Ed Tech: Active Learning Classrooms and Artificial Intelligence

This course will explore research on emerging digital models, learning pods, platforms, apps and policies that seek to further customize, enhance and bring greater equity to education through technology. From the initiation

of open courseware, to the inception of virtual reality, artificial intelligence, ALC classrooms, makerspaces and the “shared economy”, this course will foster a culture of digital innovation to investigate, accelerate, test and study new possibilities and advancements in the field of educational technology.

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

EDS291H5 • Black Education

This course investigates first-hand experiences and contributions of black students and teachers in the Canadian education system. Historical, systemic barriers to access will be studied along with current policy, practice and teaching pedagogies that aim to produce systems of education without oppression. By looking specifically at research focused on black schooling in Ontario, students will engage in policy analysis and assess current Afrocentric schooling models to assess effectiveness in eliminating educational inequality. Drawing on principles of equity and diversity, Afrofuturist scholarship will be emphasized and provide the framework that seeks to understand and investigate the past to better inform education’s future.

Recommended Preparation: EDS220H5

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

EDS300H5 • Learning Design

This course provides an opportunity to study and practice the fundamental skills involved in designing learning opportunities, in schools and a variety of other settings. The skills required to organize and deliver engaging educational experiences, i.e., lesson and unit planning, will be practiced through a range of pedagogical and practical applications. A case studies approach will be taken, incorporating a field experience where students will apply their learning.

Exclusions: EDU310H5

Recommended Preparation: EDS200H5 (minimum 70%) and EDS210H5 (minimum 70%) and EDS220H5 (minimum 70%)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

EDS310H5 • Education in a Global Context

This course invites students to explore, analyze and compare educational themes and topics within a global context. Using leading frameworks of transformative

change, students develop knowledge, apply critical thinking, practice cultural proficiency and empathy as they conduct a comparative analysis of teaching and learning models in both an international and local setting.

Exclusions: EDU320H5

Recommended Preparation: EDS300H5

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

EDS325H5 • Supplemental Instruction in Higher Education: Peer-Facilitated Study Groups

Looking for an opportunity to become a facilitator of small group learning in a subject discipline in which you have expertise? This course will introduce students to the theory and practice of Supplemental Instruction (SI) in higher education. Particular focus will be on the history and evolution of SI and the rationale for its use in different university contexts. EDS325H5 course participants will complete a mandatory internship that involves developing and delivering 8-10 peer led study sessions through the Facilitated Study Group (FSG) Program run by the Robert Gillespie Academic Skills Centre. Class work will embed relevant pedagogical tools, resources and research to support the development, delivery and success of FSG sessions. Current research investigating the impact of Supplemental Instruction on student success will also be explored. This is a closed course open only to those students who have successfully secured an FSG leader position with the Robert Gillespie Academic Skills Centre.

Exclusions: Previous Peer Facilitated Study Group experience in courses like FRE491H5 or FRE492H5 or LIN495Y5

Recommended Preparation: Open to all students, but the completion of EDS100H5 or other EDS courses or experience that has directly supported an understanding of teaching and learning are recommended but not required.

Course Experience: Partnership-Based Experience

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12S

Mode of Delivery: In Class

EDS345H5 • Design Thinking Incubator: From Problem to Prototype

This course is open to all students on campus and provides an intellectual toolset for finding innovative solutions to complex problems. Students will learn to apply education theory to design thinking models in order to identify and solve real-world challenges facing their chosen discipline, whether in business, education, healthcare, etc. An iterative approach for testing, refining, and improving their idea will be used to create a working prototype of their proposed solution. This will demonstrate

the idea's sustainability, scalability and viability, while taking into account ethical and legal implications.

Course Experience: University-Based Experience

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

EDS377H5 • Why the First Year of University Matters: The Impact of Peer Mentoring

This course explores contemporary issues in higher education with a focus on experiences, issues and challenges commonly encountered by undergraduate students during their first year of university. Interdisciplinary in its focus, topics of exploration include an examination of adult and student development theories, models of student engagement and an investigation into mindset, levels of persistence, habits of mind and personality characteristics that impact student success. An internship component is required. Students taking the course will assume a peer-mentoring role to apply and contextualize theories and skills learned in the course. This is a closed course open only to those students who have successfully secured a peer-mentoring position with the First Year Peer Mentoring program

Course Experience: Partnership-Based Experience

Distribution Requirements: Humanities, Social Science

Total Instructional Hours: 24L/12S

Mode of Delivery: In Class

EDS388H5 • Experiential Learning Opportunity within the Community

This internship is a minimum 100-hour experiential learning opportunity. The internship connects the student's subject specialization to aspects of the teaching/training

development profession. It will integrate, extend, and deepen the learning experience as students begin to identify particular academic or professional insights. Prior to enrollment, internship proposals must be approved by the program coordinator. As part of this course, students may have the option of participating in an international learning experience that will have an additional cost and application process.

Exclusions: [CTE388H5](#) or [CTE388Y5](#)

Recommended Preparation: [EDS200H5](#) and [EDS210H5](#) and [EDS220H5](#) and [EDS300H5](#) (may be taken as a co-requisite).

Course Experience: Partnership-Based Experience

International Component: International - Optional

Distribution Requirements: Humanities

Mode of Delivery: In Class

EDS399H5 • Research Opportunity Program

This ROP provides the opportunity for students to join a research team and assist on projects currently underway in Education Studies. The work will include preparing an impact study, conducting interviews and using a data-informed approach to investigate the impact of a range of programs and educational interventions. The work will involve conducting pre and post surveys, leading qualitative observational data collection, and producing an analysis. Project descriptions for participating faculty members for the following summer and fall/winter sessions are posted on the ROP website in mid-February and students are invited to apply at that time. See [Experiential and International Opportunities](#) for more details.

Course Experience: University-Based Experience

Together with the visual arts and music, literature has for millennia provided humanity with the means to depict, reflect on, and understand our existence, from the most personal details of daily life to grand philosophical or religious efforts to comprehend the world as a whole. The literary arts are essential to what it means to be human; their study necessarily

plays a central role in the modern university. Our programs specifically focus on how literature in English has developed through the centuries, all over the world, and in a rich variety of different forms and modes, from oral recitations to digital media.

Our degree programs and courses introduce students to the full range of literary genres and traditions in English, from eleventh-century elegies written in Old English to contemporary postcolonial novels. Courses may focus on the development of particular forms (e.g., the lyrical poem), a particular period (e.g., the Victorian age), or a particular author (Shakespeare, for instance, or Jane Austen). Students receive in-depth training in critical reading and writing skills. Perceptive and attentive reading and clear and persuasive writing are key to the craft of literary criticism, and our programs are designed to make students better critics; but these skills are equally crucial in all areas of research, business, and professional activity, and are therefore of lasting value both within and beyond the university.

Courses are arranged in four levels. Courses at the 100-level are introductory; 200-level courses provide broad surveys of a genre, a national literary tradition, or an approach to literature; 300-level courses offer more detailed investigations of theories of literature and of texts written in particular historical moments or places, or by particular authors; and 400-level courses are small-group, discussion-based seminars on a specific subject.

Additional course and program information can be found on the [Department of English website](#). Guidance is available from the Undergraduate Advisor as well as from members of the English faculty.

English Programs

Enrolment in any English Program of Study requires completion of 4.0 previous courses or their equivalent. Students are responsible for completing all the requirements of the English Program in which they are enrolled.

No more than 1.5 credits can be double counted towards two programs of study in English, Drama, or Creative Writing.

Students should also review the [Degree Requirements](#) section prior to selecting courses

Program website: [Department of English](#)

English Programs

English - Specialist (Arts)

Enrolment Requirements:

Limited Enrolment — Students enrolling in the Specialist Program at the end of first year (4.0 credits) must obtain a CGPA of at least 2.0 and a mark of at least 70% in 1.0 ENG credit. Students applying to enrol after second year (8.0 credits), must obtain a CGPA of at least 2.30 and a mark of at least 70% in each of 2.0 ENG credits.

Completion Requirements:

At least 10.0 ENG credits, including at least 3.0 credits at the 300 level and 1.0 credit at the 400 level. Only 1.0 credit at the 100 level may be counted towards program requirements, and no more than 1.0 credit may be counted towards program requirements from the following courses: [ENG217H5](#), [ENG218H5](#), [ENG234H5](#), [ENG235H5](#), [ENG236H5](#), [ENG237H5](#), [ENG238H5](#), [ENG239H5](#), [ENG261H5](#), [ENG263H5](#), [ENG276H5](#), [ENG277H5](#), [ENG279H5](#), [ENG289H5](#), [ENG291H5](#), [ENG319H5](#), [ENG328H5](#), [ENG344H5](#), [ENG373H5](#), [ENG374H5](#), [ENG381H5](#), [ENG410](#), [ENG100H5](#) may not be counted towards program requirements. No course may be counted towards the program requirements of more than one of the 6 areas below. The specialist also requires the following courses:

- [ENG280H5](#) Critical Approaches to Literature
- [ENG202H5](#) and [ENG203H5](#), British Literature survey parts I and II
- 6.0 credits distributed among the following areas, as follows:
 - At least 1.0 credit in Literary Theory/Methods: [ENG101H5](#), [ENG201Y5](#), [ENG204H5](#), [ENG205H5](#), [ENG206H5](#), [ENG259H5](#), [ENG269H5](#), [ENG275H5](#), [ENG372H5](#), [ENG380H5](#), [ENG382Y5](#), [ENG384H5](#), [ENG396H5](#), [ENG400H5](#), [ENG414H5](#), [ENG415H5](#), [ENG416H5](#).

- At least 1.0 credit in Race, Ethnicity, Diaspora, Indigeneity: [ENG271H5](#), [ENG272H5](#), [ENG273H5](#), [ENG274H5](#), [ENG309H5](#), [ENG310H5](#), [ENG317H5](#), [ENG326H5](#), [ENG334H5](#), [ENG343H5](#), [ENG346H5](#), [ENG351H5](#), [ENG355H5](#), [ENG356H5](#), [ENG358H5](#), [ENG359H5](#), [ENG367H5](#), [ENG368H5](#), [ENG369H5](#), [ENG370H5](#), [ENG371H5](#), [ENG426H5](#), [ENG434H5](#).
- At least 1.5 credits in Literature pre-1700: [ENG220Y5](#), [ENG223H5](#), [ENG300Y5](#), [ENG301H5](#), [ENG303H5](#), [ENG304H5](#), [ENG307H5](#), [ENG311H5](#), [ENG312H5](#), [ENG313H5](#), [ENG320H5](#), [ENG321H5](#), [ENG322H5](#), [ENG326H5](#), [ENG327H5](#), [ENG330H5](#), [ENG331H5](#), [ENG335H5](#), [ENG336H5](#), [ENG339H5](#), [ENG460H5](#), [ENG461H5](#), [ENG462H5](#).
- At least 1.5 credits in Literature 1700-1900: [ENG305H5](#), [ENG306Y5](#), [ENG308Y5](#), [ENG314H5](#), [ENG315H5](#), [ENG318H5](#), [ENG322Y5](#), [ENG323H5](#), [ENG324Y5](#), [ENG325H5](#), [ENG332H5](#), [ENG337H5](#), [ENG338H5](#), [ENG345H5](#), [ENG383H5](#), [ENG385H5](#), [ENG386H5](#), [ENG387H5](#), [ENG395H5](#), [ENG463H5](#), [ENG470H5](#), [ENG471H5](#).
- At least 0.5 credits in Canadian Literature: [ENG215H5](#), [ENG252Y5](#), [ENG255H5](#), [ENG271H5](#), [ENG346H5](#), [ENG352H5](#), [ENG353Y5](#), [ENG354Y5](#), [ENG357H5](#), [ENG358H5](#), [ENG361H5](#), [ENG362H5](#), [ENG392H5](#), [ENG393H5](#), [ENG424H5](#), [ENG425H5](#).
- At least 0.5 credits in American Literature: [ENG250Y5](#), [ENG251H5](#), [ENG347H5](#), [ENG351H5](#), [ENG360H5](#), [ENG363Y5](#), [ENG364Y5](#), [ENG365H5](#), [ENG366H5](#), [ENG367H5](#), [ENG368H5](#), [ENG379H5](#), [ENG394H5](#), [ENG395H5](#), [ENG435H5](#), [ENG436H5](#).

[ERSPE1645](#)

English - Major (Arts)

Completion Requirements:

At least 7.0 ENG credits, including at least 2.0 credits at the 300 or 400 level. Only 1.0 ENG course at the 100 level may be counted towards program requirements, and no more than 1.0 credit may be counted towards program requirements from the following courses: [ENG217H5](#), [ENG218H5](#), [ENG234H5](#), [ENG235H5](#), [ENG236H5](#), [ENG237H5](#), [ENG238H5](#), [ENG239H5](#), [ENG261H5](#), [ENG263H5](#), [ENG276H5](#), [ENG277H5](#), [ENG279H5](#), [ENG289H5](#), [ENG291H5](#), [ENG319H5](#), [ENG328H5](#), [ENG344H5](#), [ENG373H5](#), [ENG374H5](#), [ENG381H5](#), [ENG410H5](#). [ENG100H5](#) may not be counted towards program requirements. No course may be counted towards the program requirements of more than one of the 6 areas below. The major also requires the following courses:

- [ENG280H5](#) Critical Approaches to Literature
- [ENG202H5](#) and [ENG203H5](#), British Literature survey parts I and II
- 3.0 credits distributed among the following areas, as follows:
 - At least 0.5 credits in Literary Theory/Methods: [ENG101H5](#), [ENG201Y5](#), [ENG204H5](#), [ENG205H5](#), [ENG206H5](#), [ENG259H5](#), [ENG269H5](#), [ENG275H5](#), [ENG372H5](#), [ENG380H5](#), [ENG382Y5](#), [ENG384H5](#), [ENG396H5](#), [ENG400H5](#), [ENG414H5](#), [ENG415H5](#), [ENG416H5](#).
 - At least 0.5 credits in Race, Ethnicity, Diaspora, Indigeneity: [ENG271H5](#), [ENG272H5](#), [ENG273H5](#), [ENG274H5](#), [ENG309H5](#), [ENG310H5](#), [ENG317H5](#), [ENG326H5](#), [ENG334H5](#), [ENG343H5](#), [ENG346H5](#), [ENG351H5](#), [ENG355H5](#), [ENG356H5](#), [ENG358H5](#), [ENG359H5](#), [ENG367H5](#), [ENG368H5](#), [ENG369H5](#), [ENG370H5](#), [ENG371H5](#), [ENG426H5](#), [ENG434H5](#).
 - At least 0.5 credits in Literature pre-1700: [ENG220Y5](#), [ENG223H5](#), [ENG300Y5](#), [ENG301H5](#), [ENG303H5](#), [ENG304H5](#), [ENG307H5](#), [ENG311H5](#), [ENG312H5](#), [ENG313H5](#), [ENG320H5](#), [ENG321H5](#), [ENG326H5](#), [ENG327H5](#), [ENG330H5](#), [ENG331H5](#), [ENG335H5](#), [ENG336H5](#), [ENG339H5](#), [ENG460H5](#), [ENG461H5](#), [ENG462H5](#).
 - At least 0.5 credits in Literature 1700-1900: [ENG305H5](#), [ENG306Y5](#), [ENG308Y5](#), [ENG314H5](#), [ENG315H5](#), [ENG318H5](#), [ENG322Y5](#), [ENG323H5](#), [ENG324Y5](#), [ENG325H5](#), [ENG332H5](#), [ENG337H5](#), [ENG338H5](#), [ENG345H5](#), [ENG383H5](#), [ENG385H5](#), [ENG386H5](#), [ENG387H5](#), [ENG395H5](#), [ENG463H5](#), [ENG470H5](#), [ENG471H5](#).
 - At least 0.5 credits in Canadian Literature: [ENG215H5](#), [ENG252Y5](#), [ENG255H5](#), [ENG271H5](#), [ENG346H5](#), [ENG352H5](#), [ENG353Y5](#), [ENG354Y5](#), [ENG357H5](#), [ENG358H5](#), [ENG361H5](#), [ENG362H5](#), [ENG392H5](#), [ENG393H5](#), [ENG424H5](#), [ENG425H5](#).
 - At least 0.5 credits in American Literature: [ENG250Y5](#), [ENG251H5](#), [ENG347H5](#), [ENG351H5](#), [ENG360H5](#), [ENG363Y5](#), [ENG364Y5](#), [ENG365H5](#), [ENG366H5](#), [ENG367H5](#), [ENG368H5](#), [ENG379H5](#), [ENG394H5](#), [ENG395H5](#), [ENG435H5](#), [ENG436H5](#).

ERMAJ1645

Creative Writing - Minor (Arts)

The Department of English and Drama's Minor in Creative Writing is designed to allow students to focus on either the literary or dramatic arts, or to integrate their work in both these areas of creative expression. In lectures and tutorials in two courses at the 200 level, they will learn about the artistic traditions that frame their own writing; and experiment with producing and sharing written work in a variety of genres, using a range of formal techniques. These introductory courses serve as a foundation for 300-level workshops, in which students develop a more specialised focus, e.g. playwriting, prose fiction, poetry, creative nonfiction, editing, or writing for interactive new media. Finally, all students in the Minor can apply for admittance to the department's selective, 400-level capstone Creative Writing Workshop, in which over the course of a year they will be encouraged to develop their portfolio of creative work towards publication. When students graduate with a Minor in Creative Writing they will have learned to use language creatively to develop observations, insights, and complex ideas. They will be able to write imaginatively, compellingly, clearly, and effectively, and to produce creative work in a range of literary and dramatic modes, genres, and forms. Courses in the Minor emphasize the way that how writers learn their craft from other writers, and the ways in which new modes of written expression emerge in the context of artistic tradition and historical circumstances. The Minor will also introduce students to the processes involved in editing and publishing creative work in print and other media.

Completion Requirements:

In order to complete the Minor in Creative Writing successfully, students will require a total of 4.0 credits, from the following courses: 0.5 credits in [ENG289H5](#) Creative Writing 0.5 credits in [ENG291H5](#) Reading for Creative Writing 1.0 credit in either [ENG489Y5](#) Creative Writing Workshop; or in two of the following courses: [ENG373H5](#) Creative Writing: Poetry; [ENG374H5](#) Creative Writing: Prose; [ENG375H5](#) Editing Literary Texts; [ENG376H5](#) Creative Writing: Nonfiction; [ENG377H5](#) Special Topic in Creative Writing; [ENG378H5](#) Special Topic in Writing for Performance; [DRE362H5](#) Playwriting 1.0 credit in [ENG201Y5](#) Reading Poetry; or 0.5 credits from the following courses: [ENG101H5](#) How to Read Critically; [ENG280H5](#) Critical Approaches to Literature; [DRE360H5](#) Developmental Dramaturgy; and 0.5 credits from the following courses: [ENG/ DRE121H5](#) Traditions of Theatre and Drama; [ENG202H5](#) British Literature in the World I; [ENG203H5](#) British Literature in the World II. 1.0 credit in other ENG or DRE courses. We strongly encourage students to take courses whose descriptions indicate that instructors set/allow assessed creative assignments. These are specially indicated on the departmental website each year.

No more than 1.5 credits can be double counted towards two programs of study in English, Drama, or Creative Writing.

ERMIN1497

English - Minor (Arts)

Completion Requirements:

At least 4.0 ENG credits, including at least 1.0 credit at the 300 or 400 level. Only 1.0 ENG course at the 100 level may be counted towards program requirements. [ENG100H5](#) may not be counted towards program requirements.

ERMIN1645

Game Studies - Minor (Arts)

The Game Studies Minor focuses on the analysis, history, and theory of games as cultural, artistic, and technological forms as well as on game design, with a strong emphasis on games as a narrative and world-making medium. Courses in the Minor adopt humanistic and social science approaches to studying the evolution of games, the game production industry, games as rhetorical devices, and the diverse communities who make and play games. As they become

sophisticated critics of games, students learn fundamental principles and methodologies in the creation and testing of tabletop, role-playing, and digital games and gain practice in the use of game engines.

Enrolment Requirements:

Enrolment in this program is limited. To qualify, students must have completed 4.0 credits and achieved a minimum 65% grade in each of the [ENG110H5](#) and [CCT109H5](#).

Completion Requirements:

4.0 credits are required, including 1.0 credit at the 300/ 400 level)

First Year: [ENG110H5](#) and [CCT109H5](#)

Second Year: [ENG263H5](#) and [CCT270H5](#)

Higher Years:

- 0.5 credit from [ENG218H5](#) or [ENG279H5](#) or [ENG317H5](#) or [ENG319H5](#) or [ENG328H5](#)
- 0.5 credit from [CCT285H5](#) or [CCT311H5](#) or [CCT334H5](#) or [CCT382H5](#) or [CCT398H5](#)
- 1.0 additional credit from the ENG and CCT courses listed above

Note:

1. Students must complete 1.5 credit of ENG courses and 1.5 credit of CCT courses as part of the Game Studies Minor.
2. As an additional course option, [CSC389H5](#) may be used toward program completion, depending on the course topic. Students interested in completing [CSC389H5](#) for the Minor must obtain permission from the Department of English & Drama in advance.

[ERMIN2023](#)

Not all of the courses listed are offered every year. For courses to be offered this year, please consult the UTM Timetable.

English Courses

ENG100H5 • Effective Writing

This course provides practical tools for writing in university and beyond. Students will gain experience in generating ideas, clarifying insights, structuring arguments, composing paragraphs and sentences, critiquing and revising their writing, and communicating effectively to

diverse audiences. This course does not count toward any English program.

Enrolment Limits: 100-level courses are designed to increase students' skills in close reading, interpretation, and effective writing; emphasize the development of

analytical and essay-writing skills; and build acquaintance with major literary forms and conventions that students need in more advanced courses. They are open to all students who have standing in no more than one full course in English.

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENG101H5 • How to Read Critically

This foundational course serves as an introduction to a wide range and variety of methods for literary and textual analysis, giving students a set of interpretive tools they can use to analyze texts in English classes and beyond. Emphasis will be on developing close, attentive reading skills as ways of thinking not just about, but through texts, and on deploying these skills effectively in essays and discussions. The class will draw on literary works from a variety of countries, centuries, genres, and media. We

recommend that students considering a Specialist, Major, or Minor in English take this course.

Enrolment Limits: 100-level courses are designed to increase students' skills in close reading, interpretation, and effective writing; emphasize the development of analytical and essay-writing skills; and build acquaintance with major literary forms and conventions that students need in more advanced courses. They are open to all students who have standing in no more than one full course in English.

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

ENG102H5 • How to Research Literature

This foundational course serves as an introduction to conducting research for English courses at the university level. Skills taught will be: reading and engaging with arguments about literature; incorporating the arguments of others into your own; locating and evaluating secondary sources; and conducting primary research. The class will draw on literary works from a variety of countries, centuries, genres, and media. The class will normally culminate in a longer research paper, developed over the course of the semester. We recommend that students considering a Specialist, Major, or a Minor in English take this course.

Enrolment Limits: 100-level courses are designed to increase students' skills in close reading, interpretation, and effective writing; emphasize the development of analytical and essay-writing skills; and build acquaintance with major literary forms and conventions that students need in more advanced courses. They are open to all students who have standing in no more than one full course in English.

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

ENG103H5 • Literature and Medicine

It has never been more essential to learn from the history of disease: how we have perceived it and how we have written it. This course introduces students to the important narratives about health, epidemics, and medicine from both non-Western and Western traditions and provides conceptual foundations for ethical thinking about justice, health, and disability in both science and the arts. The survey will cover prose narrative, film, media, non-fiction, and poetry, and will encourage students to think between the past and the present in their analyses and creative projects. Lectures and discussions will emphasize the interlocking relationships between medicine, language, race, empire, and power.

Note:

100-level courses are designed to increase students' skills in close reading, interpretation, and effective writing;

emphasize the development of analytical and essay-writing skills; and build acquaintance with major literary forms and conventions that students need in more advanced courses. They are open to all students who have standing in no more than one full course in English.

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

ENG105H5 • Introduction to World Literatures

Students will learn about contemporary creative writing in English from around the world. The course will cover the work of some famous writers, such as Toni Morrison or J.M. Coetzee, and also new and emerging authors, from Canada to New Zealand to Nigeria.

Exclusions: ENG140Y5

Enrolment Limits: 100-level courses are designed to increase students' skills in close reading, interpretation, and effective writing; emphasize the development of analytical and essay-writing skills; and build acquaintance with major literary forms and conventions that students need in more advanced courses. They are open to all students who have standing in no more than one full course in English.

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

ENG110H5 • Narrative

This course gives students skills for analyzing the stories that shape our world: traditional literary narratives such as ballads, romances, and novels, and also the kinds of stories we encounter in non-literary contexts such as journalism, movies, myths, jokes, legal judgments, travel writing, histories, songs, diaries, and biographies.

Exclusions: ENG110Y5

Enrolment Limits: 100-level courses are designed to increase students' skills in close reading, interpretation, and effective writing; emphasize the development of analytical and essay-writing skills; and build acquaintance with major literary forms and conventions that students need in more advanced courses. They are open to all students who have standing in no more than one full course in English.

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

ENG121H5 • Traditions of Theatre and Drama

An introductory survey of the forms and history of world drama in its performance context from the classical period to the nineteenth century. May include later works

influenced by historical forms and one or more plays in the Theatre Erindale schedule of production. May include a research performance component. This course is also listed as [DRE121H5](#).

Exclusions: [ENG125Y1](#)

Enrolment Limits: 100-level courses are designed to increase students' skills in close reading, interpretation, and effective writing; emphasize the development of analytical and essay-writing skills; and build acquaintance with major literary forms and conventions that students need in more advanced courses. They are open to all students who have standing in no more than one full course in English.

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

ENG122H5 • Modern and Contemporary Theatre and Drama

An introductory survey of the forms and history of world drama from the late nineteenth century to the present in its performance context. May include film adaptations and one or more plays in the Theatre Erindale schedule of productions. May include a research performance component. This course is also listed as [DRE122H5](#).

Exclusions: [ENG125Y1](#)

Enrolment Limits: 100-level courses are designed to increase students' skills in close reading, interpretation, and effective writing; emphasize the development of analytical and essay-writing skills; and build acquaintance with major literary forms and conventions that students need in more advanced courses. They are open to all students who have standing in no more than one full course in English.

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

ENG140Y5 • Contemporary World Literatures

An exploration of how late twentieth and twenty-first century literature in English responds to our world. Includes poetry, prose, and drama by major writers, such as Morrison, Munro, Coetzee, and Rushdie, and emerging writers.

Exclusions: [ENG105H5](#)

Enrolment Limits: 100-level courses are designed to increase students' skills in close reading, interpretation, and effective writing; emphasize the development of analytical and essay-writing skills; and build acquaintance with major literary forms and conventions that students need in more advanced courses. They are open to all students who have standing in no more than one full course in English.

Distribution Requirements: Humanities

Total Instructional Hours: 48L/24T

Mode of Delivery: In Class

ENG201Y5 • Reading Poetry

An introduction to poetry, through a close reading of texts, focusing on its traditional forms, themes, techniques, and uses of language; its historical and geographical range; and its twentieth-century diversity.

Prerequisites: Open to students who have successfully completed at least 4.0 full credits. Students who do not meet the prerequisite but are enrolled in any 100-level ENG or DRE course (except [ENG100H5](#)) may petition the department in writing for approval to take the course. See the guidelines for written petitions on the department website.

Exclusions: [ENG204H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 72L

Mode of Delivery: In Class

ENG202H5 • British Literature in the World I: Medieval to Eighteenth-Century

This course serves as an introduction to influential texts that have shaped British literary history from Beowulf and Chaucer to Shakespeare, from Milton and Behn to Burney. Students will focus on questions such as the range and evolution of poetic forms, the development of the theatre and the novel, and the emergence of women writers. The course will encourage students to think about the study of English literatures in relationship to history, including the history of world literatures.

Prerequisites: Open to students who have successfully completed at least 4.0 full credits. Students who do not meet the prerequisite but are enrolled in any 100-level ENG or DRE course (except [ENG100H5](#)) may petition the department in writing for approval to take the course. See the guidelines for written petitions on the department website.

Exclusions: [ENG202Y5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

ENG203H5 • British Literature in the World II: Romantic to Contemporary

An introduction to influential texts that have shaped British literary history from the Romantic period to the present, covering developments in poetry, drama, and prose, from William Wordsworth to Zadie Smith and beyond. The course will address topics such as revolution and war; the increasing diversity of poetic forms; the cultural dominance of the novel; romanticism, Victorianism, modernism, and postmodernism; feminism; colonialism and decolonization; the ethnic and cultural diversity of Anglophone literature in the twentieth and twenty-first centuries; literature and sexual identity; the AIDS epidemic; and technology and the digital age. The course

will encourage students to think about the study of English literatures in relationship to history, including the history of world literatures.

Prerequisites: Open to students who have successfully completed at least 4.0 full credits. Students who do not meet the prerequisite but are enrolled in any 100-level ENG or DRE course (except ENG100H5) may petition the department in writing for approval to take the course. See the guidelines for written petitions on the department website.

Exclusions: ENG203Y5

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

ENG204H5 • How to Read Poetry

This course gives students the tools they need to appreciate and understand poetry's traditional and experimental forms, specialized techniques, and diverse ways of using language. The course asks a fundamental question for literary studies: why is poetry such an important mode of expression in so many different time periods, locations, and cultures?

Prerequisites: Open to students who have successfully completed at least 4.0 full credits. Students who do not meet the prerequisite but are enrolled in any 100-level ENG or DRE course (except ENG100H5) may petition the department in writing for approval to take the course. See the guidelines for written petitions on the department website.

Exclusions: ENG201Y5

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENG205H5 • Rhetoric

An introduction to the rhetorical tradition from classical times to the present with a focus on prose as strategic persuasion. Besides rhetorical terminology, topics may include the discovery and arrangement of arguments, validity in argumentation, elements of style, and rhetorical criticism and theory.

Prerequisites: Open to students who have successfully completed at least 4.0 full credits. Students who do not meet the prerequisite but are enrolled in any 100-level ENG or DRE course (except ENG100H5) may petition the department in writing for approval to take the course. See the guidelines for written petitions on the department website.

Exclusions: WRI305H5

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENG206H5 • Rhetorical Criticism

This course will use the tools and perspectives of rhetoric, from the Sophists to the postmodern, to analyze and critique the texts and other cultural artifacts that surround us. Much of what we encounter in the cultural realm is an argument; the task in this course will be to understand and engage with those arguments. Students will analyze the rhetoric of poetry, fiction, and drama, as well as of news stories, speeches, video, images, and more.

Prerequisites: Open to students who have successfully completed at least 4.0 full credits. Students who do not meet the prerequisite but are enrolled in any 100-level ENG or DRE course (except ENG100H5) may petition the department in writing for approval to take the course. See the guidelines for written petitions on the department website.

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENG210Y5 • The Novel

An introduction to the novel through a reading of ten to twelve texts, representing a range of periods, techniques, regions, and themes.

Prerequisites: Open to students who have successfully completed at least 4.0 full credits. Students who do not meet the prerequisite but are enrolled in any 100-level ENG or DRE course (except ENG100H5) may petition the department in writing for approval to take the course. See the guidelines for written petitions on the department website.

Distribution Requirements: Humanities

Total Instructional Hours: 72L

Mode of Delivery: In Class

ENG211H5 • Introduction to the Novel

This course gives students a foundational understanding of the novel in English. It introduces them to the history of the novel, from medieval sagas and adventure stories to modern experiments with fragmentary narratives. The course covers novels from a range of geographical places; students will be asked to consider why the novel has been so successful in the past, and what its futures might be. Students will read at least one complete novel during the course and extracts from others.

Prerequisites: Open to students who have successfully completed at least 4.0 full credits. Students who do not meet the prerequisite but are enrolled in any 100-level ENG or DRE course (except ENG100H5) may petition the department in writing for approval to take the course. See the guidelines for written petitions on the department website.

Exclusions: ENG210Y

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENG213H5 • The Short Story

This course explores shorter works of nineteenth, twentieth and twenty first-century writers. Special attention will be paid to formal and rhetorical concepts for the study of fiction as well as to issues such as narrative voice, allegory, irony, and the representation of temporality.

Prerequisites: Open to students who have successfully completed at least 4.0 full credits. Students who do not meet the prerequisite but are enrolled in any 100-level ENG or DRE course (except ENG100H5) may petition the department in writing for approval to take the course. See the guidelines for written petitions on the department website.

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENG214H5 • The Short Story Cycle

This course explores collections of short stories. It examines individual stories, the relationships among and between stories, the dynamics of the collection as a whole, and the literary history of this genre, along with its narrative techniques and thematic concerns.

Prerequisites: Open to students who have successfully completed at least 4.0 full credits. Students who do not meet the prerequisite but are enrolled in any 100-level ENG or DRE course (except ENG100H5) may petition the department in writing for approval to take the course. See the guidelines for written petitions on the department website.

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENG215H5 • The Canadian Short Story

An introduction to the Canadian short story, this course emphasizes its rich variety of settings, subjects, and styles.

Prerequisites: Open to students who have successfully completed at least 4.0 full credits. Students who do not meet the prerequisite but are enrolled in any 100-level ENG or DRE course (except ENG100H5) may petition the department in writing for approval to take the course. See the guidelines for written petitions on the department website.

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENG217H5 • Writing about the Visual Arts

This course introduces students to various literary traditions of writing about the visual arts, from the close analysis of images in novels, poems, and essays to verbal forms (such as ekphrasis and calligrammes) that make poetry and fiction out of paintings, photographs, and sculptures. While the puzzle of translating between space-based and time-based arts will be at the centre of our inquiry, the course will also consider texts and books as visual objects; how writers create visual experiences and mental images; and how literary writing is inspired by museums and exhibitions. Students will have opportunities to practice writing about the arts in collaboration with the Blackwood Gallery at UTM and its featured artists, and, when possible, with other Peel Region and Greater Toronto Area artists and galleries.

Prerequisites: 4.0 credits Students who do not meet the prerequisite but are enrolled in any 100-level ENG or DRE course (except ENG100H5) may petition the department in writing for approval to take the course. See the guidelines for written petitions on the department website.

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENG218H5 • Interactive Storytelling and Worldmaking

This course examines the deep history and extraordinary diversity of interactive storytelling, with a focus on narrative art in digital games, transmedia/cross-platform projects, alternate reality and pervasive games, theme parks, and immersive performances, as well as literary texts and films. We will consider forms (e.g., riddles, parables, metafiction, branching narratives) that require participatory agency, choice-based and emergent storytelling, as well as genres (e.g., creation myths, planetary romances, travelogues, adventure fiction, Expressionist cinema) that discover or assemble a narrative by traversing a world. We will also explore the contexts and theoretical grounds of reader- and player-centric approaches.

Prerequisites: Open to students who have successfully completed a minimum of 4.0 credits. Students who do not meet the prerequisite but are enrolled in any 100-level ENG or DRE course (except ENG100H5) may petition the department in writing for approval to take the course.

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENG223H5 • Introduction to Shakespeare

This course introduces students to Shakespeare. Lectures equip them with historical knowledge about literature,

politics, and the theatre in Shakespeare's time. Tutorials help them to grapple with Shakespeare's language, versification, and stagecraft. By the end of the course students will have a new framework within which to understand - and interrogate - the enduring power of Shakespeare's work.

Prerequisites: Open to students who have successfully completed at least 4.0 full credits. Students who do not meet the prerequisite but are enrolled in any 100-level ENG or DRE course (except ENG100H5) may petition the department in writing for approval to take the course. See the guidelines for written petitions on the department website.

Exclusions: ENG220Y5 or DRE221Y5 or DRE224H5

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

ENG234H5 • Children's Literature

A critical and historical introduction to works written and created for or appropriated by children, from early didactic forms through the "Golden Era" to 20th-century fiction and contemporary works that centre non-white identities and experiences. The course may include fiction, poetry, drama, non-fiction, and visual media, and will cover works by authors such as John Bunyan, Robert Louis Stevenson, Lewis Carroll, Mark Twain, Lucy Maud Montgomery, A.A. Milne, Louise Fitzhugh, Salman Rushdie, Cherie Dimaline, Aviaq Johnston, Katherina Vermette, Audrey Thomas, Jason Reynolds, Hanna Alkaf, Namina Forna.

Prerequisites: Open to students who have successfully completed a minimum of 4.0 credits. Students who do not meet the prerequisite but are enrolled in any 100-level ENG or DRE course (except ENG100H5) may petition the department in writing for approval to take the course. See the guidelines for written petitions on the department website.

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENG235H5 • Comics and the Graphic Novel

An introduction to the writing and sequential art of comics and graphic novels, this course includes fictional and nonfictional comics by artists such as Will Eisner, Art Spiegelman, Frank Miller, Alan Moore, Chris Ware, Daniel Clowes, Julie Doucet, Marjane Satrapi, Chester Brown and Seth.

Prerequisites: Open to students who have successfully completed at least 4.0 full credits. Students who do not meet the prerequisite but are enrolled in any 100-level ENG or DRE course (except ENG100H5) may petition the department in writing for approval to take the course. See the guidelines for written petitions on the department

website.

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENG236H5 • Detective Fiction

At least 12 works by such authors as Poe, Dickens, Collins, Doyle, Chesterton, Christie, Sayers, Van Dine, Hammett, Chandler, Faulkner, P.D. James, Rendell.

Prerequisites: Open to students who have successfully completed at least 4.0 full credits. Students who do not meet the prerequisite but are enrolled in any 100-level ENG or DRE course (except ENG100H5) may petition the department in writing for approval to take the course. See the guidelines for written petitions on the department website.

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENG237H5 • Science Fiction

This course explores speculative fiction that invents or extrapolates an inner or outer cosmology from the physical, life, social, and human sciences. Typical subjects include AI, alternative histories, cyberpunk, evolution, future and dying worlds, genetics, space/time travel, strange species, theories of everything, utopias, and dystopias.

Prerequisites: Open to students who have successfully completed at least 4.0 full credits. Students who do not meet the prerequisite but are enrolled in any 100-level ENG or DRE course (except ENG100H5) may petition the department in writing for approval to take the course. See the guidelines for written petitions on the department website.

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENG238H5 • Fantasy Literature

This course focuses on fantasy literature, film, and television, and draws on a wide range of critical, cultural, and theoretical approaches. As it explores the magical and supernatural, it may consider such genres as alternative histories, animal fantasy, epic, fairy tales, magic realism, and swords and sorcery. Authors and texts covered will survey the history of fantasy across American, British, and Canadian literature, and may include Beowulf, Butler, Carroll, Gaiman, Le Guin, Lewis, Martin, Ovid, Rowling, Shakespeare, Sir Gawain and the Green Knight, Swift, and Tolkien.

Prerequisites: Open to students who have successfully completed at least 4.0 full credits. Students who do not meet the prerequisite but are enrolled in any 100-level

ENG or DRE course (except [ENG100H5](#)) may petition the department in writing for approval to take the course. See the guidelines for written petitions on the department website.

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENG239H5 • Horror Literature

A critical and historical critical introduction to gothic literature, film, and television covering such authors as Carter, King, Lovecraft, Matheson, Poe, Rice, Shelley, Stevenson, and Stoker. The course draws on diverse critical and theoretical approaches as it examines a wide range of national and cultural contexts. It focuses on the gothic in broad terms and such concepts and issues as fear, horror, terror, the monstrous, the mythological, and the supernatural.

Prerequisites: Open to students who have successfully completed at least 4.0 full credits. Students who do not meet the prerequisite but are enrolled in any 100-level ENG or DRE course (except [ENG100H5](#)) may petition the department in writing for approval to take the course. See the guidelines for written petitions on the department website.

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENG250Y5 • American Literature

An introductory survey of major works in American literature, this course explores works in a variety of genres, including poetry, fiction, essays, and slave narratives.

Prerequisites: Open to students who have successfully completed at least 4.0 full credits. Students who do not meet the prerequisite but are enrolled in any 100-level ENG or DRE course (except [ENG100H5](#)) may petition the department in writing for approval to take the course. See the guidelines for written petitions on the department website.

Mode of Delivery: In Class

ENG259H5 • Literature and Environmental Criticism

This course examines the relationship between writing and the environment. Students will examine the role of the written word in defining, thinking about, and acting in the interest of the planet and its climate, while considering literary genres, theoretical frameworks, and contemporary and multidisciplinary debates. Readings will vary but may include Wordsworth, Thoreau, Whitman, Carson, Glissant, Butler, Kincaid, and Ghosh.

Prerequisites: Open to students who have successfully completed at least 4.0 full credits. Students who do not meet the prerequisite but are enrolled in any 100-level

ENG or DRE course (except [ENG100H5](#)) may petition the department in writing for approval to take the course. See the guidelines for written petitions on the department website.

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENG261H5 • Music and Literature

This course introduces students to the intersection of music and literature. We will study how melody, rhythm and texture interact with language, story and performance using examples from folk ballads and blues, art-songs, popular songs, musical theatre, jazz and hip-hop, as well as poems inspired by musical styles and performers.

Works to be covered may include folksongs collected by Francis Child and Alan Lomax, Thomas Moore's Irish Melodies, popular songs by Bob Dylan, Leonard Cohen and Joni Mitchell, theatrical works by Bertolt Brecht, Stephen Sondheim and Lin-Manuel Miranda, performances by The Last Poets, hip-hop lyrics by Public Enemy, and poems by William Blake, William Wordsworth, Emily Dickinson, Langston Hughes and Don McKay.

Prerequisites: Open to students who have successfully completed at least 4.0 full credits. Students who do not meet the prerequisite but are enrolled in any 100-level ENG or DRE course (except [ENG100H5](#)) may petition the department in writing for approval to take the course. See the guidelines for written petitions on the department website.

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENG263H5 • Play and Games

Despite its reputation as a diversion from the serious activities of life, play has been understood by philosophers and social theorists as essential to human development and as the foundation of freedom, self-understanding, civic identity, social justice, and artistic contemplation. This course surveys the ways and reasons we play in relationship to the objects we play with, including things that are more normally thought of as games—card and board games, sports, toys, video games—as well as other sites of playful thought and action, like paintings, novels, dramatic texts, fashion, and conflict management.

Students in this course will encounter major scholars of play (Schiller, Huizinga, Caillois, Winnicott, Geertz, Flanagan, McGonigal, among others) and designers of rules (Emperor Yao, Magie and Darrow, Will Wright, Sid Meier, among others), key terms and concepts in the analysis of play and games, as well as games and ludic enterprises across a variety of cultures and media.

Students will also consider problems in play and games like cheating, addiction, and gamification.

Prerequisites: Open to students who have successfully completed a minimum of 4.0 credits. Students who do not

meet the prerequisite but are enrolled in any 100-level ENG or DRE course (except [ENG100H5](#)) may petition the department in writing for approval to take the course. See the guidelines for written petitions on the department website.

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

ENG269H5 • Queer Writing

Introducing a lesbian, gay, bisexual, trans, and queer tradition in literature and theory, this course may explore texts from a variety of historical periods, from the classical to the contemporary. It will focus on a variety of genres, potentially including poetry, drama, fiction, criticism, and popular culture.

Prerequisites: Open to students who have successfully completed at least 4.0 full credits. Students who do not meet the prerequisite but are enrolled in any 100-level ENG or DRE course (except [ENG100H5](#)) may petition the department in writing for approval to take the course. See the guidelines for written petitions on the department website.

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENG271H5 • Toronto's Multicultural Literatures

Toronto is one of the world's most diverse and multicultural cities. This course is a study of literature by writers with strong connections to Toronto who explore issues such as diasporas, identity, nationality, place, origin, and the multicultural experience. Writers may include: Judy Fong Bates, Dionne Brand, Austin Clarke, Pier Giorgio Di Cicco, Rohinton Mistry, Michael Ondaatje, M. Nourbese Philip, Shyam Selvadurai, M. G. Vassanji.

Prerequisites: Open to students who have successfully completed at least 4.0 full credits. Students who do not meet the prerequisite but are enrolled in any 100-level ENG or DRE course (except [ENG100H5](#)) may petition the department in writing for approval to take the course. See the guidelines for written petitions on the department website.

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENG273H5 • Literatures of Immigration and Exile

In this course we will study literary and non-literary texts in English from the nineteenth century to the present day that come from colonial and postcolonial contexts and that

speak to the experience of those affected by colonization, immigration, exile, war, and globalization. Students will be introduced to postcolonial theory and questions about race, ethnicity, religious difference, and diasporas in Anglophone literary studies. They may study texts by Conrad, James, Beckett, Joyce, Rhys, Pound, Ionesco, Nabokov, Koestler, Brodsky, Naipaul, Achebe, Kundera, Skvorecky, Rushdie, Gallant, Sebald, Ondaatje, Danticat, Ali, and Nafisi.

Prerequisites: Open to students who have successfully completed at least 4.0 full credits. Students who do not meet the prerequisite but are enrolled in any 100-level ENG or DRE course (except ENG100H5) may petition the department in writing for approval to take the course. See the guidelines for written petitions on the department website.

Exclusions: ENG253Y5 or ENG270Y1 or ENG270Y5 or ENG272H5

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENG274H5 • Indigenous Literature and Storytelling

An introduction to Indigenous literature and storytelling with emphasis on First Nations, Métis, and Inuit authors in Canada and Native American authors in the United States of America. In this course, students will review academic citation practices, apply Indigenous theory to storytelling, and engage with audio recordings, poetry, drama, novels, short stories, and non-fiction by writers such as Jeannette Armstrong, Billy-Ray Belcourt, Natalie Diaz, Michael Dorris, Tomson Highway, Basil Johnston, Daniel Heath Justice, Lee Maracle, Eden Robinson, Leslie Marmon Silko, and Tommy Orange.

Prerequisites: Open to students who have successfully completed at least 4.0 full credits. Students who do not meet the prerequisite but are enrolled in any 100-level ENG or DRE course (except ENG100H5) may petition the department in writing for approval to take the course. See the guidelines for written petitions on the department website.

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENG275H5 • Feminist Approaches to Literature

This course will consider the implications, for literary studies and for literary writing, of modern traditions of feminist and gender theory. Students will encounter the work of major feminist thinkers - e.g., Mary Wollstonecraft, Simone de Beauvoir, Alice Walker, Julie Kristeva, and Judith Butler - and texts by major women writers. The course will explore feminist approaches to literature, including those that borrow from post-structural,

psychoanalytic, and contemporary gender, race, and queer theories.

Prerequisites: Open to students who have successfully completed at least 4.0 full credits. Students who do not meet the prerequisite but are enrolled in any 100-level ENG or DRE course (except ENG100H5) may petition the department in writing for approval to take the course. See the guidelines for written petitions on the department website.

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENG276H5 • Fanfiction

This course investigates fanfiction from a variety of theoretical standpoints, including gender and sexuality studies, critical race studies, and affect theory. It considers the literary history of fanfiction- amateur, unauthorized stories about characters invented by canonical writers (e.g., Jane Austen and Arthur Conan Doyle); a wide selection of fanfiction stories; and the commercialization of the products of the modern fanfiction industry.

Prerequisites: Open to students who have successfully completed at least 4.0 full credits. Students who do not meet the prerequisite but are enrolled in any 100-level ENG or DRE course (except ENG100H5) may petition the department in writing for approval to take the course. See the guidelines for written petitions on the department website.

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENG277H5 • Bad Romance

This course covers romances of the eighteenth to the twenty-first century, ranging from the amatory (stories about love, longing, and desire) to the fantastic (the supernatural and fantasy). Students will consider issues of canonization, popularity, the text-author-reader relationship, definitions of high and low art, ideas about good and bad writing, and eroticism and desire. Texts may include Harlequin romances, paranormal romance, and works by Jane Austen, the Brontës, Daphne du Maurier, Stephenie Meyer, Nicholas Sparks, Sarah Waters, and E. L. James.

Prerequisites: Open to students who have successfully completed at least 4.0 full credits. Students who do not meet the prerequisite but are enrolled in any 100-level ENG or DRE course (except ENG100H5) may petition the department in writing for approval to take the course. See the guidelines for written petitions on the department website.

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENG279H5 • Video Games

What is the literary history of video games? This course considers how some novels and plays work like games; how games have evolved complex and often non-verbal means of conveying narratives; and whether narrative in fiction, theatre, and film can or should be a model for storytelling in the rule-bound, interactive worlds of video games.

Prerequisites: Open to students who have successfully completed at least 4.0 full credits. Students who do not meet the prerequisite but are enrolled in any 100-level ENG or DRE course (except [ENG100H5](#)) may petition the department in writing for approval to take the course. See the guidelines for written petitions on the department website.

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

ENG280H5 • Critical Approaches to Literature

An introduction to literary theory and its central questions, such as the notion of literature itself, the relation between literature and reality, the nature of literary language, the making of literary canons, and the roles of the author and the reader.

Prerequisites: Open to students who have successfully completed at least 4.0 full credits. Students who do not meet the prerequisite but are enrolled in any 100-level ENG or DRE course (except [ENG100H5](#)) may petition the department in writing for approval to take the course. See the guidelines for written petitions on the department website.

Exclusions: [ENG267H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

ENG289H5 • Creative Writing

Students will engage in a variety of creative exercises, conducted across a range of different genres of literary writing.

Prerequisites: Open to students who have successfully completed at least 4.0 full credits. Students who do not meet the prerequisite but are enrolled in any 100-level ENG or DRE course (except [ENG100H5](#)) may petition the department in writing for approval to take the course. See the guidelines for written petitions on the department website.

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

ENG291H5 • Reading for Creative Writing

This course will help students to see connections between their reading and their work as creative writers. They will read texts in a variety of literary and non-literary genres and consider the way that writers learn their craft from other writers. Practical assignments will encourage students to find creative ways to critique, imitate, speak to, and borrow responsibly from the work they read.

Prerequisites: Open to students who have successfully completed at least 4.0 full credits. Students who do not meet the prerequisite but are enrolled in any 100-level ENG or DRE course (except [ENG100H5](#)) may petition the department in writing for approval to take the course. See the guidelines for written petitions on the department website.

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

ENG299Y5 • Research Opportunity Program

This course provides a richly rewarding opportunity for students in their second year to work on the research project of a professor. Students enrolled have an opportunity to become involved in original research, learn research methods, and share in the excitement and discovery of creating new knowledge. Professors' project descriptions for the following fall-winter session are posted on the ROP website in mid-February and students are invited to apply at that time. See [Experiential and International Opportunities](#) for more details.

Prerequisites: Open to students who have successfully completed at least 4.0 full credits. Students who do not meet the prerequisite but are enrolled in any 100-level ENG or DRE course (except [ENG100H5](#)) may petition the department in writing for approval to take the course. See the guidelines for written petitions on the department website.

Distribution Requirements: Humanities

Mode of Delivery: In Class

ENG300Y5 • Chaucer

The foundation of English literature: in their uncensored richness and range, Chaucer's works have delighted wide audiences for over 600 years. Includes *The Canterbury Tales*, with its variety of narrative genres from the humorous and bawdy to the religious and philosophical, and *Troilus and Criseyde*, a profound erotic masterpiece.

Prerequisites: 1.0 credit in ENG and 3.0 additional credits.

Distribution Requirements: Humanities

Total Instructional Hours: 72L

Mode of Delivery: In Class

ENG301H5 • Making Love in the Sixteenth Century

In this course, students will follow the changing constructions of love and love poetry in the sixteenth century, starting with Wyatt and Surrey, passing through Tottel, to the Elizabethan court, and ending with the erotic love poetry that served as a backlash against the Petrarchanism of the early sixteenth century.

Prerequisites: 1.0 credit in ENG and 3.0 additional credits.

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENG303H5 • Milton

Selections from Paradise Lost and other works.

Prerequisites: 1.0 credit in ENG and 3.0 additional credits.

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENG304H5 • Seventeenth-Century Poetry

Considering literature during the reign of the early Stuarts and the Civil War, this course includes such poets as Donne, Jonson, Lanyer, Wroth, Herbert, and Marvell, and such prose writers as Bacon, Clifford, Donne, Wroth, Burton, Cary, Browne, Hobbes, Milton, and Cavendish.

Prerequisites: 1.0 credit in ENG and 3.0 additional credits.

Exclusions: [ENG304Y5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENG305H5 • Eighteenth-Century Satire and Print Culture

This course surveys what has been referred to as the 'golden age of satire', a period that witnessed a flourishing of satirical poetry, prose, drama, and illustration as powerful modes of critique. In the process of analyzing works by Swift, Pope, Montagu, Gay, Hogarth, and others, this course will explore concerns such as the rise of print culture, the legitimacy of satire, the gendering of satire, the role of criticism, the limits of humour, censorship, and the threat of seditious libel.

Prerequisites: 1.0 credit in ENG and 3.0 additional credits.

Exclusions: [ENG306Y5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENG306Y5 • Literature of the Restoration and 18th Century

Writers of this period grapple with questions of authority and individualism, tradition and innovation, in politics, religion, knowledge, society, and literature itself. Special attention to Dryden, Pope, Swift, Johnson, and at least six other authors.

Prerequisites: 1.0 credit in ENG and 3.0 additional credits.

Exclusions: [ENG305H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 72L

Mode of Delivery: In Class

ENG308Y5 • Romantic Poetry and Prose

This course provides a general survey of the poetry and prose of the British Romantic period (roughly from 1770 to 1830). Subjects to be explored may include political revolution, slavery and abolition, the expansion of the British empire, the flourishing of women writers and feminist thought, and experimentation with literary forms. Authors to be considered may include Anna Barbauld, William Cowper, William Blake, Olaudah Equiano, William Wordsworth, Samuel Taylor Coleridge, Hannah More, Mary Wollstonecraft, Lord Byron, Percy Shelley, Mary Shelley, Jane Austen, Walter Scott, John Clare, Henry Louis Vivian Derozio, and John Keats.

Prerequisites: 1.0 credit of ENG and 3.0 additional credits.

Distribution Requirements: Humanities

Total Instructional Hours: 72L

Mode of Delivery: In Class

ENG309H5 • Anishinaabe Storytelling and Oral Tradition

An introduction to the legends, beliefs, and values of the Anishinaabek Nation. Students will explore literary and non-literary texts, media, and/or performances, spanning traditional and innovative forms, genres, and mediums. Content may include contributions by Basil Johnston, Jane School Craft, George Copway, Richard Wagamese, Winona LaDuke, Margaret Noodin, Drew Hayden Taylor, Louise Erdrich, Waubgeshig Rice, Alan Corbiere, Isaac Murdoch, Leanne Betasamosake Simpson, Debajehmujig Theatre Group, and Aanmitaagzi.

Prerequisites: 1.0 credit in ENG and 3.0 additional credits.

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENG310H5 • Modern South Asian Literature in English

The English language belongs not just to the British conquerors, but also (and perhaps more so) to the artists and writers, the poets and politicians of the colonized world. From Rabindranath Tagore's mystical poetry to *Slumdog Millionaire*, the styles and aesthetics of South Asian English are as vast as the peninsula itself, and the literature that has emerged from this diverse region has utterly reshaped contemporary global culture. Additionally, we will take up select contemporary criticism on subaltern studies, postcolonialism, and narratology. Authors will include Anand, Naipaul, Narayan, Suleri, Rushdie, Roy, Lahiri, as well as select works of poetry, film, and visual art.

Prerequisites: 1.0 credit in ENG and 3 additional credits
Distribution Requirements: Humanities
Total Instructional Hours: 36L
Mode of Delivery: In Class

ENG311H5 • Medieval Literature

This course explores a selection of writings in from medieval Britain, excluding the works of Chaucer.

Prerequisites: 1.0 credit in ENG and 3.0 additional credits.
Distribution Requirements: Humanities
Total Instructional Hours: 36L
Mode of Delivery: In Class

ENG312H5 • Special Topic in Medieval Literature

A concentrated study of one aspect of medieval literature or literary culture, such as a particular genre or author, a specific theme, or the application of a particular critical approach. Topics may vary from year to year.

Prerequisites: 1.0 credit in ENG and 3.0 additional credits.
Distribution Requirements: Humanities
Total Instructional Hours: 36L
Mode of Delivery: In Class

ENG313H5 • Special Topic in Early Modern British Literature

A concentrated study of one aspect of early modern British literature or literary culture, such as a particular subgenre or author, specific theme, or the application of a particular critical approach. Topics may vary from year to year.

Prerequisites: 1.0 credit in ENG and 3.0 additional credits.
Distribution Requirements: Humanities

Total Instructional Hours: 36L
Mode of Delivery: In Class

ENG314H5 • Special Topic in Eighteenth-Century British Literature

A concentrated study of one aspect of eighteenth-century British literature or literary culture, such as a particular subgenre or author, specific theme, or the application of a particular critical approach. Topics may vary from year to year.

Prerequisites: 1.0 credit in ENG and 3.0 additional credits.
Distribution Requirements: Humanities
Total Instructional Hours: 36L
Mode of Delivery: In Class

ENG315H5 • Special Topic in Nineteenth-Century British Literature

A concentrated study of one aspect of nineteenth-century British literature or literary culture, such as a particular subgenre or author, specific theme, or the application of a particular critical approach. Topics may vary from year to year.

Prerequisites: 1.0 credit in ENG and 3 additional credits.
Distribution Requirements: Humanities
Total Instructional Hours: 36L
Mode of Delivery: In Class

ENG316H5 • Special Topic in Modern and Contemporary Literature

A concentrated study of one aspect of modern or contemporary literature or literary culture, such as a particular subgenre or author, specific theme, or the application of a particular critical approach. Topics may vary from year to year.

Prerequisites: 1.0 credit in ENG and 3.0 additional credits.
Distribution Requirements: Humanities
Total Instructional Hours: 36L
Mode of Delivery: In Class

ENG317H5 • Drama of the Global South

This course compares works of selected playwrights of the Global South in an effort to understand their refashioning of postcolonial perspectives and subaltern histories. Ranging beyond the West and its theatrical traditions, the course will explore innovative theatrical performances that focus on South-South affiliations and link discourses, places, and people positioned between peripheries. Students will learn about traditions of orality, cultural pluralities, and indigenous mythic/folk styles that

constitute the unique syncretism of South-South theatre cultures. Writers may include Padmanabhan, Nadeem, Jinghui, Taha, Fugard, Aidoo, Ngugi wa Thiong'o, Miri, Walcott, Triana, and Dorfman.

Prerequisites: 1.0 credit in ENG and 3 additional credits.

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENG318H5 • Eighteenth-Century Women Writers

A study of poems, novels, dramas, and prose works by British and American authors such as Mary Astell, Aphra Behn, Anna Laetitia Barbauld, Frances Burney, Maria Edgeworth, Eliza Haywood, Hannah More, Judith Sargent Murray, Mercy Otis Warren, Charlotte Smith, Phyllis Wheatley, and Mary Wollstonecraft. Topics may include professionalization and the literary marketplace; domestic labour; motherhood and children's literature; class and education; personal agency and political engagement; colonialism, slavery, and abolition; Bluestocking culture; and early feminist thought.

Prerequisites: 1.0 credit in ENG and 3.0 additional credits.

Exclusions: ENG307H5

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENG319H5 • Sexuality, Race, and Gender in Video Games and Gaming Culture

This course investigates representation and identity in and through digital games. Students will primarily consider gender, race, sexuality, and the non-human world in relation to the complex circuits of desire, projection, and disguise that exist among players, avatars, non-player characters, and other gamers. Students will interpret and critique both blockbuster AAA games with large development budgets and production teams as well as small-scale indie and experimental games and will learn about expressive, critical, and avant-garde design and play practices. The class will also discuss games as instruments of persuasion, protest, social change, and community formation.

Prerequisites: (1.0 credit of ENG, which must include 0.5 credit of 200-level ENG Game Studies and 3.0 additional credits) or permission from the department

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENG320H5 • Transforming Literature in the Sixteenth Century

This course focuses on transformations of major literary forms during the sixteenth century, especially on how these transformations involve engagements with medieval and earlier materials. It covers such topics as Petrarchan poetry in translation by Wyatt and Surrey; John Fox's and John Bale's repackaging of Anne Askew's biography; and the work of Ovid and other classical authors in translation and adaptation, as in the Shakespeare's *Venus and Adonis*.

Prerequisites: 1.0 credit in English and 3.0 additional credits.

Exclusions: ENG302Y5

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENG322Y5 • The Rise of the Novel in the Eighteenth Century

This course studies the emergence of prose fiction as a genre recognized in both a literary and a commercial sense. Authors may include Behn, Defoe, Richardson, Fielding, Sterne, Scott, and Austen.

Prerequisites: 1.0 credit in ENG and 3.0 additional credits.

Distribution Requirements: Humanities

Total Instructional Hours: 72L

Mode of Delivery: In Class

ENG323H5 • Austen and Her Contemporaries

A study of selected novels by Austen and of works by such contemporaries as Radcliffe, Godwin, Wollstonecraft, Wordsworth, Edgeworth, Scott, and Shelley, in the context of the complex literary, social, and political relationships of that time.

Prerequisites: 1.0 credit in ENG and 3.0 additional credits.

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENG325H5 • The Victorian Novel

This course surveys several major novels in order to understand the genre that came to dominate literary culture in the Victorian era. Topics may include realism, the marriage plot, the social-problem novel, feminism and sexual identity, novels of growing up, the city, and seriality. Authors may include Dickens, Thackeray, E. Bronte, C. Bronte, Gaskell, Trollope, Eliot, Collins, Hardy, Gissing, and Wilde, among others.

Prerequisites: 1.0 credit in ENG and 3.0 additional credits.

Exclusions: [ENG324Y5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENG326H5 • Premodern World Literatures

This course approaches the premodern period by examining early British literatures alongside literary works of the period c.500-1650 from the continents of Asia, Africa, Europe, and the Americas. Texts may include Tang dynasty poetry, the Tale of Genji, the Persian epic Shahnameh, the Italian Decameron, 1001 Nights, Old Norse sagas, Chaucer's Canterbury Tales, and Harriot's Briefe and True Report of the New Found Land of Virginia. Texts will be provided in translation where necessary.

Prerequisites: 1.0 credit in ENG and 3.0 additional credits.

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENG327H5 • Blame Chaucer

This course takes a close look at some of the bawdy, irreverent, and even dangerous texts written in fourteenth-century England by Geoffrey Chaucer. As he recounts erotic dreams, tells the story of a faithless woman in Troilus and Criseyde, and narrates tales told on a riotous, drunken pilgrimage in The Canterbury Tales, Chaucer repeatedly tells his readers not to blame him for what he writes. Students in this course will ask: who is to blame, if not the author himself?

Prerequisites: 1.0 credit in ENG and 3.0 additional credits.

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENG329H5 • Contemporary British Fiction

This course explores six or more works by at least four British contemporary writers of fiction.

Prerequisites: 1.0 credit in ENG and 3.0 additional credits.

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENG330H5 • Medieval Drama

Texts and performances preceding and underlying the plays of Shakespeare and his contemporaries, including creation-to-doomsday play cycles; plays performed in parishes, inns, great halls, outdoor arenas, and at court; religious and political propaganda plays; political pageants. Attention is given to social, political, and theatrical contexts.

Prerequisites: 1.0 credit in ENG and 3.0 additional credits.

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENG331H5 • Elizabethan Drama

This course explores English drama to the end of the reign of Queen Elizabeth I, with attention to such playwrights as Lyly, Kyd, Marlowe, and Shakespeare.

Prerequisites: 1.0 credit in ENG and 3.0 additional credits.

Exclusions: [ENG332Y5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENG332H5 • Restoration and Early Eighteenth-Century Literature

This course engages with British poetry, drama, and prose from the later seventeenth century through early eighteenth century—a period that saw the restoration of the monarchy, the Glorious Revolution, the Acts of Union, and the transition from Stuart to Hanoverian rule. Topics to be addressed may include religious and political dissent; colonialism and slavery; libertine culture; theatrical performance; female actors and women writers; the “birth” of the novel; and the establishment of the periodical press. Authors may include Aphra Behn, John Bunyan, Susanna Centlivre, Daniel Defoe, John Dryden, Anne Finch, Delarivier Manley, Samuel Pepys, and the Earl of Rochester.

Prerequisites: 1.0 credit in ENG and 3.0 additional credits

Exclusions: [ENG308Y5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENG333H5 • The Modernist Novel

This course explores novels by such writers as James, Conrad, Cather, Forster, Joyce, Woolf, Lawrence, and Faulkner.

Prerequisites: 1.0 credit in ENG and 3.0 additional credits.

Exclusions: ENG328Y5

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENG334H5 • Global Indigenous Literatures

This course studies Indigenous literatures from around the world. Regions may include the Americas, the Pacific Islands, New Zealand, Australia, Asia, Africa, Russia, and Scandinavia. Through these literatures, the course addresses topics such as: the specific and localized ways colonialism manifests and exerts power; UNDRIP (the United Nations Declaration on the Rights of Indigenous Peoples); the distinct experiences, histories, storytelling traditions, and decolonization processes of Indigenous peoples from different regions; how and why decolonization processes shift from one part of the world to another; and movements and experiences that bring Indigenous peoples from various regions together in solidarity.

Prerequisites: 1.0 credit in ENG and 3 additional credits

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENG335H5 • Jacobean Drama

This course explores English drama from the death of Queen Elizabeth I to the closing of the theatres, with attention to such playwrights as Jonson, Middleton, Shakespeare, and Webster. As part of this course, students may have the option of participating in an international learning experience that will have an additional cost and application process.

Prerequisites: 1.0 credit in ENG and 3.0 additional credits.

Exclusions: ENG332Y5

International Component: International - Optional

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENG336H5 • Special Topic in Shakespeare

A concentrated study of one aspect of Shakespeare's work, such as his use of a particular genre, a particular period of his work, a recurring theme, or the application of a particular critical approach. Topics may vary from year to year.

Prerequisites: 1.0 credit in ENG and 3.0 additional credits.

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENG337H5 • Restoration and Eighteenth-Century Drama

A study of drama and theatrical performance from 1660-1800, featuring works by authors such as Aphra Behn, Susannah Centlivre, William Congreve, Hannah Cowley, John Gay, George Lillo, Richard Brinsley Sheridan, Richard Steele, and William Wycherley. Students can expect to learn about the modes of drama practiced during this period and their intersection with sexuality and gender, class, economics, politics, colonialism, and national identity. Students will also learn about theatre history, including the advent of female performers, changing theatre construction, the Licensing Act and theatrical censorship, the rise of the celebrity actor, and the popularization of Shakespeare.

Prerequisites: 1.0 credit in ENG and 3.0 additional credits.

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENG338H5 • Eighteenth-Century British Literature

This course engages with British poetry, drama, and prose from the "Augustan Age" through the early Romantic period. Topics may include the flourishing of print culture; satirical and sentimental literature; the "rise" of the novel; art and aesthetics; science and technology; colonialism, slavery, and abolition; and women writers. Authors may include Frances Burney, Henry Fielding, Thomas Gray, Eliza Haywood, William Hogarth, Samuel Johnson, Lady Mary Wortley Montagu, Alexander Pope, Samuel Richardson, Mary Robinson, Richard Brinsley Sheridan, and Jonathan Swift.

Prerequisites: 1.0 credit in ENG and 3.0 additional credits.

Exclusions: ENG308Y5

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENG339H5 • Early Modern Women Writers

A study of poems, plays, prose fiction, and polemical works by medieval and early modern writers such as Anne Askew, Mary Wroth, Queen Elizabeth I, Mary Sidney, Amelia Lanyer, Lucy Hutchinson, Hester Pulter, and Margaret Cavendish. Topics may include race, women and science, love poetry from a female perspective, gender and trans studies, renarrations of the story of Eve, sexuality, and editorial history and practice.

Prerequisites: 1.0 credit in ENG and 3.0 additional credits.

Exclusions: ENG307H5

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENG340H5 • The Rise of Modern Drama

A study of plays in English by such dramatists as Wilde, Yeats, Shaw, Synge, Glaspell, Hughes, and O'Neill, as well as plays in translation by such dramatists as Ibsen, Chekhov, Strindberg, and Pirandello.

Prerequisites: 1.0 credit in ENG and 3.0 additional credits.

Exclusions: ENG338Y5

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENG341H5 • Modern Drama: Late Twentieth-Century to Present Day

A study of plays by such dramatists as Beckett, Miller, Williams, Pinter, Soyinka, and Churchill, with background readings from other dramatic literatures.

Prerequisites: 1.0 credit in ENG and 3.0 additional credits.

Exclusions: ENG338Y5

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENG342H5 • Contemporary Drama

A study of ten or more plays by at least six recent dramatists.

Prerequisites: 1.0 credit in ENG and 3.0 additional credits.

Exclusions: ENG339H5

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENG343H5 • World Drama

Students will read/watch screenings of drama in English and in translation from around the world, including Africa, East Asia, South Asia, the Middle East, the Caribbean, Latin America, and South America. Topics may include traditional forms (Kathakali dance, Noh and Kabuki, Beijing Opera, Nigerian masquerades) adapted for the modern stage; agit-prop and political drama; object performance; the place of drama within a global media ecology; and drama as a site of intercultural and transcultural appropriation, negotiation, and exchange.

Prerequisites: 1.0 credit in ENG and 3.0 additional credits.

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENG344H5 • Spy Fiction

This course examines the rise and popularization of spy fiction in the twentieth century. It focuses on authors such as Graham Greene and John le Carré within the context of the Cold War and the nuclear stand-off between the Soviet Union and the West.

Prerequisites: 1.0 credit in ENG and 3.0 additional credits.

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENG345H5 • Victorian Poetry

This course surveys the poetry of the Victorian era in Britain, with a focus on experiments in poetic genre and form, and on the social and political commitments of poetry in a period of colonialism, industrialization, and changing ideas about gender and sexuality. Topics may include lyric and the dramatic monologue, the poetry of political protest, love and sexuality, feminism and queerness, aestheticism and decadence, empire and the emergence of global poetry in English, and pastoral and the poetry of urban life. Poets may include Elizabeth Barrett Browning, Alfred Tennyson, Robert Browning, Matthew Arnold, Christina Rossetti, D. G. Rossetti, Gerard Manley Hopkins, A. C. Swinburne, Toru Dutt, George Meredith, Augusta Webster, Amy Levy, Oscar Wilde, Michael Field, Thomas Hardy, Sarojini Naidu, and many others.

Prerequisites: 1.0 credit in ENG and 3.0 additional credits.

Exclusions: ENG347Y5

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENG346H5 • Indigenous First Story Toronto

This course explores the history of Toronto/Tkaronto as it is documented in contemporary Indigenous texts and oral narratives. In addition to engaging with these works to provide a fuller understanding of Indigenous histories, treaties, and laws, this course may draw from archives such as First Story Toronto at the Native Canadian Centre of Toronto to shed light on present-day lived experiences. The course asks students to reflect on what it means to be treaty people within this territory, the responsibilities of living in the Toronto area, and how to be more mindful as treaty partners to Indigenous residents within this space.

and place. Course content may include audio recordings, fiction, non-fiction, poetry, visual art, film, and drama. The course may also include land-based and autoethnographic components.

Prerequisites: 1.0 credit in ENG and 3.0 additional credits

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENG347H5 • The Nineteenth-Century American Novel

This course will introduce students to historical and cultural concerns of nineteenth-century America through major subgenres of the novel, including the gothic, the sentimental, realism, and naturalism. Emphasis will be on shifts in the novel across the century as well as the relationship of the nineteenth-century novel to print culture, including serial publication in literary magazines and newspapers. We may also think about how non-fiction texts from this period draw on the conventions of fiction. Authors studied may include Charles Brockden Brown, Fanny Fern, George Lippard, Harriet Beecher Stowe, Charles Chesnutt, Mark Twain, Edith Wharton, and Pauline Hopkins.

Prerequisites: 1.0 credit in ENG and 3.0 additional credits

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENG348H5 • Special Topic in Indigenous Storywork

Applying decolonial and Indigenous methodologies, students will explore Indigenous texts, media, and/or performances, spanning traditional and innovative forms, genres, and mediums engaged by Indigenous writers and makers. Topics may vary from year to year.

Prerequisites: 1.0 credit in ENG and 3.0 additional credits.

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENG349H5 • Contemporary Poetry

This course examines works by a variety of contemporary poets, focusing on how their writing participates in contemporary dialogues about art, society, and the larger world.

Prerequisites: 1.0 credit in ENG and 3.0 additional credits.

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENG350H5 • Poetry and Modernism

Special study of Hopkins, Yeats, Pound, Eliot, Stevens; selections from other poets.

Prerequisites: 1.0 credit in ENG and 3.0 additional credits.

ENG351H5 • Toni Morrison: Texts and Contexts

In this advanced introduction to the work of Toni Morrison, we will encounter masterpieces such as *Sula*, *Song of Solomon*, and *Beloved* and pay particular attention to questions of literary tradition and inheritance, form and narrative voice, and ethics in contexts of oppression. We will read most of Morrison's novels, alongside major essays, in the chronological order in which they were published. Students will be introduced to major themes in African American literary criticism and theory through close engagement with Morrison's oeuvre and its critical legacy.

Prerequisites: 1.0 credit in ENG and 3.0 additional credits.

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENG352H5 • Canadian Drama

Canadian plays, with emphasis on major playwrights and on developments since 1940, but with attention also to the history of the theatre in Canada.

Prerequisites: 1.0 credit in ENG and 3.0 additional credits.

Exclusions: [ENG223H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENG353Y5 • Canadian Prose Fiction

A study of twelve or more Canadian works of fiction, primarily novels.

Prerequisites: 1.0 credit in ENG and 3.0 additional credits.

Exclusions: [ENG392H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 72L
Mode of Delivery: In Class

ENG354Y5 • Canadian Poetry

A study of major Canadian poets, modern and contemporary.

Prerequisites: 1.0 credit in ENG and 3.0 additional credits.

Exclusions: ENG393H5

Distribution Requirements: Humanities

Total Instructional Hours: 72L

Mode of Delivery: In Class

ENG355H5 • Black British Literature

This course is an advanced introduction to the concept and key texts of 'Black British literature.' A term arising directly in response to empire and the postcolonial, Black British literature indicates texts written by both African- and South Asian- descended writers from the Caribbean, Africa, and the subcontinent. Focused primarily on the twentieth-century, we will contextualize this literary tradition within wider questions of Britain in the world and how the idea of literary influence is challenged and re-formed. Writers may include: Sam Selvon, Hanif Kureishi, Derek Walcott, Stuart Hall, Buchi Emecheta, Caryl Philips, Zadie Smith, Helen Oyeyemi, and Warsan Shire.

Prerequisites: 1.0 credit in ENG and 3 additional credits

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENG356H5 • Caribbean Literature

A multi-lingual and multi-racial archipelago, the Caribbean has a rich literary and theoretical tradition: this course will introduce students to major figures in Caribbean Anglophone literature (including Jean Rhys, Kamau Brathwaite, George Lamming, Erna Brodber, V.S. Naipaul, Jamaica Kincaid, in addition to some texts read in English translation (including Aimé Césaire, Alejo Carpentier, Maryse Condé, *Marie Vieux Chauvet*)

Prerequisites: 1.0 credit in ENG and 3 additional credits

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENG357H5 • New Writing in Canada

Close encounters with recent writing in Canada: new voices, new forms, and new responses to old forms. Texts may include or focus on poetry, fiction, drama, non-fiction, or new media.

Prerequisites: 1.0 credit in ENG and 3.0 additional credits.

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENG358H5 • Special Topic in Canadian Literature

A concentrated study of one aspect of Canadian literature or literary culture, such as a particular subgenre, author, period, or theme, or the application of a particular critical approach. Topics may vary from year to year.

Prerequisites: 1.0 credit in ENG and 3.0 additional credits.

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENG359H5 • Land Back: Indigenous Voices and Narratives

This course examines how stories by Indigenous Peoples assert the inherent right to Indigenous sovereignty, self-determination, and self-government, with emphasis on settler colonialism in Canada and in the United States of America. This course engages with Indigenous narratives to understand the relationship between concepts of land rights, Indigenous resurgence, reconciliation, decolonization, and the politics of recognition. Topics may include Indigenous futurisms, digital sovereignty, treaty-making, Indigenous feminisms, sovereign eroticism, Indigenous political movements, land-based organizing, and environmental and climate justice. Texts may include the United Nations Declaration on the Rights of Indigenous Peoples and the UN Working Group on Indigenous Peoples, as well as film, music, literature, and non-literature from individuals such as Glen Coulthard, Winona Laduke, Alanis Obomsawin, Tracey Lindberg, Audra Simpson, Leanne Betasamosake Simpson, Joy Harjo, Leroy Little Bear, Snotty Nosed Rez Kids, and Taiaiake Alfred.

Prerequisites: 1.0 credit in ENG and 3.0 additional credits

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENG360H5 • Early American Literature

This course explores writing in a variety of genres produced in the American colonies in the seventeenth and eighteenth centuries, such as narratives, poetry, autobiography, journals, essays, sermons, and court transcripts.

Prerequisites: 1.0 credit in ENG and 3.0 additional credits.

Distribution Requirements: Humanities
Total Instructional Hours: 36L
Mode of Delivery: In Class

ENG361H5 • Canadian Literature, Beginnings to 1920

This course explores the origins of Canadian literature, with an emphasis upon the post-Confederation period. Students will examine work in a range of genres, which may include novels, short stories, life writing and poetry, and will consider how the nation is being created and debated in print. Topics may include settler colonialism, nationalism, and representation. Attention may also be paid to Canadian book history and print culture in the period.

Prerequisites: 1.0 credit in ENG and 3.0 additional credits
Distribution Requirements: Humanities
Total Instructional Hours: 36L
Mode of Delivery: In Class

ENG362H5 • Canadian Literature, 1920 to the Present

This course explores Canadian literature from the 1920s to the contemporary period. Students will examine the work of major authors in their cultural, social, and historical contexts. Topics may include the development of literary modernism in Canada, regional literary geographies, postmodern innovations, multiculturalism and hybridity, and Indigenous literary and cultural production in the part of Turtle Island that is called Canada.

Prerequisites: 1.0 credit in ENG and 3.0 additional credits
Distribution Requirements: Humanities
Total Instructional Hours: 36L
Mode of Delivery: In Class

ENG363Y5 • Nineteenth-Century American Literature

This course explores American writing in a variety of genres from the end of the Revolution to the beginning of the twentieth century.

Prerequisites: 1.0 credit in ENG and 3.0 additional credits
Exclusions: ENG394H5
Distribution Requirements: Humanities
Total Instructional Hours: 72L
Mode of Delivery: In Class

ENG364Y5 • Twentieth-Century American Literature

This course explores twentieth-century American writing in a variety of genres.

Prerequisites: 1.0 credit in ENG and 3.0 additional credits.
Exclusions: ENG395H5
Distribution Requirements: Humanities
Total Instructional Hours: 72L
Mode of Delivery: In Class

ENG365H5 • Contemporary American Fiction

This course explores six or more works by at least four contemporary American writers of fiction.

Prerequisites: 1.0 credit in ENG and 3.0 additional credits.
Distribution Requirements: Humanities
Total Instructional Hours: 36L
Mode of Delivery: In Class

ENG366H5 • Special Topic in American Literature

A concentrated study of one aspect of American literature or literary culture, such as a particular subgenre, author, period, or theme, or the application of a particular critical approach. Topics may vary from year to year.

Prerequisites: 1.0 credit in ENG and 3.0 other credits.
Distribution Requirements: Humanities
Total Instructional Hours: 36L
Mode of Delivery: In Class

ENG367H5 • African American Literature

This class is an advanced introduction to the field of African American literary studies, tracing its origins and emergence through the slave trade to the present day, with particular focus on nineteenth- and twentieth-century writing, and the criticism and theory to which it gives rise. Authors studied may include: Harriet Jacobs, Charles Chesnutt, Pauline Hopkins, James Baldwin, Gayl Jones, Toni Morrison.

Prerequisites: 1.0 credit in ENG and 3 additional credits
Distribution Requirements: Humanities
Total Instructional Hours: 36L
Mode of Delivery: In Class

ENG368H5 • Black Feminist Poetics

This course considers the relationship between poetry written by Black women (particularly June Jordan, Audre Lorde, and Lucille Clifton) and Black feminist theory (bell hooks, Angela Davis, the Combahee River Collective). In addition to a grounding in this 20th-century moment, the course will also consider nineteenth-century example (including Sojourner Truth and Ida B. Wells) and the contemporary moment, consider a wide arc of how Black feminism produces and arises from Black poetics.

Prerequisites: 1.0 credit in ENG and 3 additional credits

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENG369H5 • Black Women's Writing

This course takes as its focus the intersection of race and gender as explored and expressed in diasporic Black women's writing. With a focus on North America, we will ask about the relationships amongst self-expression and genre under conditions of disempowerment. This course introduces contemporary thinking about race and colonial encounters alongside fiction and life-writing by African American, Canadian, and Caribbean women from a range of historical periods. Authors may include: Mary Prince, Harriet Jacobs, Audre Lorde, Jamaica Kincaid, Edwige Danticat, Dionne Brand.

Prerequisites: 1.0 credit in ENG and 3 additional credits

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENG370H5 • Global Literatures in English

This course involves in-depth study, within the framework of postcolonial and transnational studies, of literatures in English from around the world. It includes fictional and non-fictional texts and contemporary films and media representations.

Prerequisites: 1.0 credit in ENG and 3.0 additional credits.

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENG371H5 • Special Topic in World Literatures

A concentrated study of one aspect of postcolonial literature or literary culture, such as a particular genre, author, period, regional or national context, or theme, or the application of a particular critical approach. Topics may vary from year to year.

Prerequisites: 1.0 credits in ENG and 3.0 additional credits.

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENG372H5 • Special Topic in Literary Theory

A concentrated study of one aspect of literary or critical theory, such as a particular school of theory, an important author, or a contemporary theoretical debate. Topics may vary from year to year.

Prerequisites: 1.0 credit in ENG and 3.0 additional credits.

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENG373H5 • Creative Writing: Poetry

This course will involve a wide variety of experiments with poetic expression and poetic forms.

Prerequisites: ENG289H5 or ENG291H5

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

ENG374H5 • Creative Writing: Prose

Students will experiment with fiction and non-fiction prose writing, including autobiography, biography, and narrative for new visual, digital, and interactive media.

Prerequisites: ENG289H5 or ENG291H5

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

ENG375H5 • Editing Literary Texts

Students will learn the basics of literary editing for different readerships: the course will cover such topics as the selection of a base text; treatment of variants; creation of paratext; design and layout; proofs and proofchecking; and the differences between print and digital media.

Prerequisites: 1.0 credit in ENG and 3.0 additional credits; or ENG289H5/ENG291H5

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENG376H5 • Creative Writing: Nonfiction

Students will experiment in a workshop environment with a variety of short, non-fictional forms, e.g. memoir, auto/biography, true crime.

Prerequisites: 1.0 credit in ENG and 3.0 other credits

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

ENG377H5 • Special Topic in Creative Writing

A concentrated study of one aspect of creative writing practice, such as a particular genre or theme, or the application of a particular formal technique. Topics may vary from year to year.

Prerequisites: 1.0 credit in ENG and 3.0 other credits

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

ENG378H5 • Special Topic in Writing for Performance

A concentrated study of one aspect of writing for performance such as a particular medium (e.g. digital), genre, or theme. Topics may vary from year to year.

Prerequisites: [ENG289H5](#) or [ENG291H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

ENG379H5 • American Literature in Global Contexts

We often categorize literature by its nation of origin when we study and teach, though we also recognize the limitations involved in doing so. Over the past several decades, the study of U.S. literature, in particular, has been shaped by transnational and global approaches that emphasize the porous nature of any “national” literature. In this course, students will study approaches to American Literature in global contexts. These may include hemispheric approaches to U.S. literatures that emphasize U.S. interactions with Central America and the Caribbean, engagements with Africa in U.S. literatures, or U.S. literatures and the Pacific from the eighteenth century through the present.

Prerequisites: 1.0 credit in ENG and 3.0 additional credits

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENG380H5 • History of Literary Theory

Literary theory from classical times to the nineteenth century. Topics include theories of the imagination, genre analysis, aesthetics, the relations between literature and reality and literature and society, and the evaluation and interpretation of literature.

Prerequisites: 1.0 credit in ENG and 3.0 additional credits.

Exclusions: [ENG367Y5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENG381H5 • Digital Texts

This course considers the ways in which digital technologies are transforming texts, reading, readerships, and the idea of the literary. Students will study a wide variety of digital texts, e.g., fanfiction, webcomics, viral Tumblr posts and tweets, and video games. They will also learn about the use of digital tools to read, study, and preserve texts. The course may include a practical project, e.g., the design of a narrative game using Twine; the curation of a digital exhibit using Omeka; or an argument about some text/s using visualization software.

Prerequisites: 1.0 credit in ENG and 3.0 additional credits.

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

ENG382Y5 • Contemporary Literary Theory

This course explores literary theory from the early twentieth century to the present. Schools or movements studied may include structuralism, formalism, phenomenology, Marxism, post-structuralism, reader-response theory, feminism, queer theory, new historicism, psychoanalysis, postcolonial theory, and cultural and race studies.

Prerequisites: 1.0 credit in ENG and 3.0 additional credits.

Exclusions: [ENG366Y5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 72L

Mode of Delivery: In Class

ENG383H5 • British Romanticism and Its Contexts

This course gives students a new perspective on the cultural contexts for British Romanticism: students will

learn about literature's relationship to philosophy, politics, religion, science, and colonialism in the Romantic period, as they examine works by some major authors such as William Wordsworth, Walter Scott, and Mary Shelley.

Prerequisites: 1.0 credit in ENG and 3.0 additional credits.

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENG384H5 • Literature and Psychoanalysis

An introduction to psychoanalysis for students of literature, this course considers major psychanalytic ideas through close readings of selected texts by Freud and related psychoanalytic thinkers. The course also explores critiques and applications of Freud's work and examines a selection of literary texts that engage psychoanalytic theory.

Prerequisites: 1.0 credit in ENG and 3.0 additional credits.

Exclusions: ENG384Y5

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENG385H5 • British Romanticism, 1770-1800

This course covers the early Romantic period in British Literature. Students may read novels such as Frances Burney's *Evelina*; plays such as Richard Brinsley Sheridan's *School for Scandal*; writing on the French and American Revolutions; William Blake's *Songs of Innocence and of Experience*; and ballads by William Wordsworth, Samuel Taylor Coleridge, Hannah More, and Mary Robinson.

Prerequisites: 1.0 credit in ENG and 3.0 additional credits.

Exclusions: ENG308Y5

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENG386H5 • British Romanticism, 1800-1830

This course covers the later Romantic period in British Literature. Authors studied may include Walter Scott, Mary Shelley, Percy Shelley, Jane Austen, Lord Byron, and John Keats.

Prerequisites: 1.0 credit in ENG and 3.0 additional credits.

Exclusions: ENG308Y5

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENG387H5 • Popular Novels in the Eighteenth Century

This course offers students a chance to read some early novels in English - from the scandalous to the sentimental to the Gothic. They will consider what made novels best-sellers in eighteenth-century Britain and why the popularization of novel reading was such a source of controversy at the time. Authors may include: Daniel Defoe, Samuel Richardson, Henry Fielding, Laurence Sterne, Frances Burney, and Ann Radcliffe.

Prerequisites: 1.0 credit in ENG and 3.0 additional credits.

Exclusions: ENG322Y5

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENG388H5 • Spaces of Fiction

Real or imagined geographical locations, landscapes, rooms and houses play an important role in literature. In addition to providing a narrative setting, fictional space might guide our interpretation of plot, serve as a metaphor for broader historical, sociological or psychological issues, or become a character in its own right. Ranging across a variety of literary periods and genres, this course will explore how works of fiction describe space and how these descriptions shape our responses. Authors and texts may range from the early English period to the present day, including Beowulf, Geoffrey Chaucer, William Shakespeare, Margaret Cavendish, Jane Austen, Edgar Allan Poe, Nathaniel Hawthorne, Henry James, Virginia Woolf, Daphne du Maurier, Shirley Jackson, Gloria Naylor, Toni Morrison, Arundhati Roy, Amitav Ghosh, V.S. Naipaul, and so on.

Prerequisites: 1.0 credit in ENG and 3.0 additional credits.

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENG390Y5 • Individual Studies

A scholarly project chosen by the student and supervised by a faculty member. The form of the project and the manner of its execution will be determined in consultation with the supervisor. All project proposals must be submitted to the Undergraduate Advisor, who can provide proposal forms.

Prerequisites: 1.0 credits in English and 3.0 additional credits.

Exclusions: ENG490Y5

Distribution Requirements: Humanities
Mode of Delivery: In Class

ENG391Y5 • Individual Studies (Creative)

A project in creative writing chosen by the student and supervised by a faculty member. The form of the project and the manner of its execution will be determined in consultation with the supervisor. All project proposals must be submitted to the Undergraduate Advisor who can provide proposal forms.

Prerequisites: 1.0 credits in English and 3.0 other credits.
Distribution Requirements: Humanities
Mode of Delivery: In Class

ENG392H5 • Canadian Fiction

Students will read novels and/or short stories of importance for Canadian literary history: these may include, for example, L.M. Montgomery's *Anne of Green Gables*, Hugh MacLennan's *Two Solitudes*, Lawrence Hill's *Book of Negroes*, and Alice Munro's *Hateship, Friendship, Courtship, Loveship, Marriage*.

Prerequisites: 1.0 credit in ENG and 3.0 additional credits.
Exclusions: ENG353Y
Distribution Requirements: Humanities
Total Instructional Hours: 36L
Mode of Delivery: In Class

ENG393H5 • Canadian Poetry in Context

This course gives students a chance to think about the social, historical, and personal circumstances that have produced the work of some major Canadian authors, from the poets of Canadian Confederation to contemporary Black and Indigenous writers such as M. NourbeSe Philip and Rita Joe.

Prerequisites: 1.0 credit in ENG and 3.0 additional credits.
Exclusions: ENG354Y5
Distribution Requirements: Humanities
Total Instructional Hours: 36L
Mode of Delivery: In Class

ENG394H5 • American Literature from the Revolution to 1900

Students will read a selection of American writings from the late eighteenth and nineteenth centuries; these may include the stories of Edgar Allan Poe, the poetry of Walt Whitman and Emily Dickinson, Harriet Beecher Stowe's novels, and slave narratives such as those of Frederick Douglass and Harriet Jacobs.

Prerequisites: 1.0 credit in ENG and 3.0 additional credits.

Exclusions: ENG363Y5

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENG395H5 • American Literature 1900 to the Present

Students will read a selection of works by American authors as diverse as Edith Wharton, Ernest Hemingway, T.S. Eliot, Sylvia Plath, Harper Lee, Thomas Pynchon, and Jhumpa Lahiri.

Prerequisites: 1.0 credit in ENG and 3.0 additional credits.

Exclusions: ENG364Y5

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENG396H5 • Literary Theory Now

This course will explore some of the most recent, provocative, and significant developments in literary theory, including work in such areas as eco-criticism, literary activism, critical race studies, Indigenous studies, queer and trans studies, and cognitive literary studies.

Prerequisites: 1.0 credit in ENG and 3.0 additional credits.

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENG397H5 • Individual Studies

A scholarly project chosen by the student and supervised by a faculty member. The form of the project and the manner of its execution will be determined in consultation with the supervisor. All project proposals must be submitted to the Undergraduate Advisor by May 15 who can provide the proposal form.

Prerequisites: 1.0 credit in ENG and 3.0 additional credits.

Distribution Requirements: Humanities

Mode of Delivery: In Class

ENG398H5 • Research Opportunity Program

This course provides a richly rewarding opportunity for upper-level students to work on the research project of a professor. Students enrolled have an opportunity to become involved in original research, learn research methods, and share in the excitement and discovery of

creating new knowledge. Professors' project descriptions for the following fall-winter session are posted on the ROP website in mid-February and students are invited to apply at that time. See [Experiential and International Opportunities](#) for more details.

Prerequisites: 1.0 credits in English and 3.0 additional credits.

Distribution Requirements: Humanities

Mode of Delivery: In Class

ENG399Y5 • Research Opportunity Program

For senior undergraduate students who have developed some knowledge of a discipline and its research methods, this course offers an opportunity to work on the research project of a professor. Students enrolled will become involved in original research, develop their research skills, and share in the excitement and discovery of creating new knowledge. Professors' project descriptions for the following fall-winter session are posted on the ROP website in mid-February and students are invited to apply at that time. See [Experiential and International Opportunities](#) for more details.

Prerequisites: 1.0 credit in ENG and 3.0 additional credits.

Environmental Geosciences

Environmental Geosciences Programs

Environmental Geosciences - Specialist (Science)

Completion of this program is intended to fulfill the knowledge requirements for certification as a Professional Geoscientist (P. Geo.) in conformity with the stipulations of the Association of Professional Geoscientists of Ontario (APGO) and the Canadian Council of Professional Geoscientists (CCPG).

Enrolment Requirements:

Limited Enrolment — Enrolment in this program is restricted. Selection will be based on completion of 4.0 credits including CHM110H5, CHM120H5, (PHY136H5, PHY137H5)/(PHY146H5, PHY147H5), (MAT132H5, MAT134H5)/(MAT135H5, MAT136H5)/ MAT134Y5/ MAT135Y5/ MAT137Y5 and ERS101H5/ ERS111H5/ ENV100Y5 and a minimum CGPA of 2.5.

Completion Requirements:

Within an Honours degree, 14.5 credits are required.

Year 1: BIO152H5, BIO153H5; CHM110H5, CHM120H5; ERS101H5/ ERS111H5/ ENV100Y5; (MAT132H5, MAT134H5)/(MAT135H5, MAT136H5)/ MAT134Y5/ MAT135Y5/ MAT137Y5; (PHY136H5, PHY137H5) / (PHY146H5, PHY147H5); STA107H5

Year 2: ERS201H5, ERS202H5, ERS203H5, ERS211H5; GGR201H5, GGR217H5, GGR278H5

Year 3 & 4: ERS312H5, ERS315H5, ERS325H5, ERS412H5, ERS471H5/ ERS472H5; GGR307H5, GGR315H5, GGR317H5, GGR321H5, GGR337H5, GGR338H5; JGE378H5

Notes:

1. Students are strongly advised to consult the Program Advisors in CPS and/or GGR regarding the program of study.
2. Additional 400-level courses include ERS470Y and GGR417Y

Students without pre- and co-requisites or written permission of the instructor can be de-registered from courses at any time.

ERSPE1253

Environmental Management

The Environmental Management programs (Specialist, Major, Minor, Sustainability Minor, Environmental Law and Policy Minor and Combined MScSM) focus on environment, society, and public policy. The cornerstone second-year course, ENV201H5 Environmental and Resource Management, provides students with an introduction to the political and socioeconomic framework of environmental management. Students then have the opportunity to develop specialized skills in resource management, environmental assessment and the social, economic and policy aspects of environmental change.

One possible pathway through Environmental Management would rely mainly on Social Science course selections (e.g., Environmental Politics in Canada, Sociology of the Environment, The Environment: Perspectives from Economics and Ecology). An alternative pathway would rely more heavily on Humanities course selections (e.g., Environmental Ethics, Canadian Environmental History, Literature and the Environment). Experiential learning and research opportunities are important to all of the Environmental Management programs.

No matter which pathway is followed, some basic Science courses are also required. Like the Environmental Science programs, the foundational and gateway course for Environmental Management is ENV100Y5 The Environment, a Science course. The premise is that those who will set environmental policy and lead society through our current environmental challenges must have some foundation in natural science. Students who have concerns about identifying which pathway is best for them are encouraged to visit the Program Advisors and Academic Counsellor early and often.

Professional Advancement for Geography and Environment Students (PAGES)

The program is based on a series of workshops, career events and related activities designed to help students develop: an awareness of research, career and graduate possibilities; skills required to apply successfully for employment and graduate studies; and personal skills to improve self-confidence and potential within the workplace, professional direction and self-awareness. On successful completion of the program students receive a transcript annotation. Please contact Professor Matthew Adams (md.adams@utoronto.ca) for details on registering for this program.

Combined Degree Programs in Environmental Management (HBA) and Master of Science in Sustainability Management (MScSM)

Students in either the Specialist or Major program in Environmental Management with an interest in pursuing a Master of Science in Sustainability Management (MScSM) (offered at the UTM campus) have the opportunity to participate in a Combined Degree Program. Combined Degree Programs in Environmental Management and MScSM will allow students to complete an undergraduate degree with an early admission offer to the MScSM program in their fourth year of study. Students will be able to complete 1.0 FCE of MScSM graduate level courses in their final undergraduate year, which will count as credit toward undergraduate degree requirements and the MScSM Program. At the end of the Combined Degree Program, students will have earned a four-year undergraduate degree and an MScSM.

Students interested in pursuing a Combined Degree Program will apply to the program at the end of their third year of study. As part of the application, students will be required to apply and interview for early conditional admission to the MScSM Program. Once accepted into the Combined Degree Program, students will work with the MScSM Director to choose appropriate graduate level courses to complete during their final undergraduate year.

Environmental Management Programs

Environmental Management - Specialist (Arts)

Enrolment Requirements:

Limited Enrolment ♦ Enrolment in this program is limited to students who have completed ENV100Y5 with a mark of 65% or higher, and who have a CGPA of at least 2.0.

Completion Requirements:

12.0 credits are required, of which at least 4.0 must be at the 300-400 level, including at least 1.0 at the 400 level.

First Year: 3.0 credits:

1. **Environment Foundation:** ENV100Y5
2. **Economics Foundations:** ECO100Y5 or (ECO101H5 and ECO102H5)
3. **Foundations in Related Disciplines:** 1.0 credit from: ANT102H5; GGR111H5; POL111H5; POL114H5; SOC100H5

Be sure to look ahead and plan to complete the prerequisites for any upper-level courses that are of interest to you.

Second Year: 4.5 credits:

1. **Environmental Management Core:** ENV201H5
2. **Environmental Policy Core:** JPE251H5 and JPE252H5 (formerly JPE250Y5)
3. **Social Science/Humanities Core:** 1.0 credits from: ANT241H5; ENG259H5; ENV210H5; GGR202H5; GGR207H5; GGR208H5; GGR209H5; GGR210H5; GGR252H5; GGR265H5; GGR288H5; PHL274H5; PHL284H5
4. **Science Core:** 1.0 credit from: ANT214H5; BIO201H5; BIO205H5; BIO211H5; ERS201H5; ERS202H5; ERS203H5; GGR201H5; GGR214H5; GGR217H5; GGR227H5;
5. **Quantitative, Digital, and Analytical Methods Core:** 1.0 credit from: GGR276H5; GGR277H5; GGR278H5; STA220H5; STA221H5

Upper Years: 4.5 credits:

1. **Environmental Management Perspectives:** 2.0 credit from: ENV311H5; ENV320H5; ENV393H5; ENV425H5; ENV430H5; ENV435H5; JEP452H5
2. **Social, Economic & Policy Perspectives:** 1.0 credits from: ANT357H5; ANT368H5; ANT370H5; ANT463H5; ANT464H5; ECO373Y5; ENV305H5; ENV311H5; ENV320H5; ENV425H5; ENV430H5; ENV435H5; GGR313H5; GGR318H5; GGR322H5; GGR325H5; GGR329H5; GGR333H5; GGR348H5; GGR349H5; GGR353H5; GGR361H5; GGR362H5; GGR363H5; GGR365H5; GGR370H5; GGR385H5; GGR415H5; GGR418H5; GGR419H5; GGR420H5; GGR426H5; GGR461H5; JEP351H5; JEP356H5; JEP452H5; JGE378H5; POL343Y5; POL346Y5; POL475H5; SOC349H5; SOC356H5; SOC465H5; WRI375H5
3. **Scientific Perspectives:** 0.5 credit from: ANT327H5; BIO311H5; BIO331H5; BIO333H5; BIO464H5; ENV495H5; ENV496H5; ERS312H5; ERS313H5; ERS315H5; ERS321H5; GGR304H5; GGR305H5; GGR307H5; GGR309H5; GGR311H5; GGR315H5; GGR316H5; GGR317H5; GGR322H5; GGR337H5; GGR338H5; GGR374H5; GGR375H5; GGR376H5; GGR377H5; GGR383H5; GGR384H5; GGR404H5; GGR406H5; GGR407H5; GGR440H5; GGR484H5; JGE378H5;
4. **Field, Project-based, Experiential, and Research Perspectives:** 1.0 credit from: ENV299Y5; ENV332H5; ENV399Y5; ENV496H5; ENV497H5; GGR335H5; GGR379H5; GGR389H5; JEG401Y5; JEG417Y5 or another program-relevant Field, Experiential, or Research course, with permission of the Program Advisor

Note: ENV490H5, ENV491H5 can substitute for #1, #2, #3, or #4 as course requirements, where appropriate, and with permission of the Program Advisor or Academic Counsellor.

Note: This is intended to be an interdisciplinary program. At least four different disciplines must be represented among the courses that are counted as program requirements. For example, a course list selected from ENV + GGR + ANT + POL is acceptable, but a course list selected only from ENV + GGR + HIS is not. Please contact the Program Advisors or Academic Counsellor if you have any questions about the validity of your course selections.

ERSPE1425

Environmental Management - Major (Arts)

Enrolment Requirements:

Limited Enrolment — Enrolment in this program is limited to students who have completed ENV100Y5 with a mark of 63% or higher.

Completion Requirements:

8.0 credits are required, of which at least 2.0 must be at the 300-400 level.

First Year: 2.0 credits:

1. **Environment Foundation:** ENV100Y5
2. **Foundation in Related Disciplines:** 1.0 credit from: ANT102H5; ECO100Y5 or (ECO101H5 and ECO102H5); GGR111H5; POL111H5, POL114H5; SOC100H5

Be sure to look ahead and plan to complete the prerequisites for any upper-level courses that are of interest to you.

Second Year: 3.0 credits:

1. **Environmental Management Core:** ENV201H5
2. **Environmental Policy Core:** JPE251H5 and JPE252H5 (formerly JPE250Y5)
3. **Social Science/Humanities Core:** 0.5 credit from: ANT241H5; ENG259H5; ENV210H5; GGR202H5, GGR207H5, GGR208H5, GGR209H5, GGR210H5, GGR252H5, GGR265H5, GGR288H5; PHL274H5, PHL284H5
4. **Science Core:** 0.5 credit from: ANT214H5; BIO201H5, BIO205H5, BIO211H5; ERS201H5; GGR201H5, GGR214H5, GGR217H5, GGR227H5;
5. **Quantitative, Digital, and Analytical Methods Core:** 0.5 credit from: GGR276H5, GGR277H5, GGR278H5; STA220H5; or another program-relevant 200/300-level Research Methods course, with permission of the Program Advisor

Upper Years: 3.0 credits:

1. **Environmental Management Perspectives:** 1.0 credit from: ENV311H5, ENV320H5, ENV393H5, ENV425H5, ENV430H5, ENV435H5; JEP452H5
2. **Social, Economic & Policy Perspectives:** 1.0 credit from: ANT357H5, ANT368H5, ANT370H5, ANT463H5, ANT464H5; ECO373Y5; ENV305H5, ENV311H5, ENV320H5, ENV425H5, ENV430H5, ENV435H5; GGR318H5, GGR322H5, GGR325H5, GGR329H5, GGR333H5, GGR348H5, GGR349H5, GGR353H5, GGR361H5, GGR362H5, GGR365H5, GGR370H5, GGR415H5, GGR418H5, GGR419H5, GGR420H5, GGR426H5, GGR461H5; JEP351H5, JEP356H5, JEP452H5; JGE378H5; POL343Y5, POL346Y5, POL475H5; SOC349H5, SOC356H5, SOC465H5; WRI375H5
3. **Scientific Perspectives:** 0.5 credit from: ANT327H5; BIO311H5, BIO331H5, BIO333H5, BIO464H5; ENV495H5, ENV496H5; ERS312H5, ERS313H5, ERS315H5, ERS321H5; GGR304H5, GGR305H5, GGR307H5, GGR309H5, GGR311H5, GGR315H5, GGR316H5, GGR317H5, GGR322H5, GGR337H5, GGR338H5, GGR374H5, GGR375H5, GGR376H5, GGR377H5, GGR383H5, GGR384H5, GGR404H5, GGR406H5, GGR407H5, GGR440H5, GGR484H5; JGE378H5
4. **Field, Project-based, Experiential, and Research Perspectives:** 0.5 credit from : ENV299Y5, ENV332H5, ENV399Y5, ENV496H5, ENV497H5; GGR335H5, GGR379H5, GGR389H5; JEG401Y5, JEG417Y5; or another program-relevant Field, Experiential, or Research course, with permission of the Program Advisor

Note: ENV490H5, ENV491H5 can substitute for #1, #2, #3, or #4 as course requirements, where appropriate, and with permission of the Program Advisor or Academic Counsellor.

Note: This is intended to be an interdisciplinary program. At least four different disciplines must be represented among the courses that are counted as program requirements. For example, a course list selected from ENV + GGR + ANT + POL is acceptable, but a course list selected only from ENV + GGR + ANT is not. Please contact the Program Advisors or Academic Counsellor if you have any questions about the validity of your course selections.

ERMAJ1425

Environmental Law and Policy - Minor (Arts)

The Minor in Environmental Law & Policy is designed to provide students with a solid foundation in the environmental issues, ethical principles, practices, and case studies relevant to legal, political, and social applications, both in Canada and internationally. The program is intended to prepare students for career paths in law, but also more broadly in the private sector, such as establishing and enforcing environmentally responsible business practices, and in the public sector, such as advising decision-makers and developing and assessing new environmental regulations.

Enrolment Requirements:

Limited Enrolment - Enrolment in this program is limited to students who have completed ENV100Y5 with a mark of 60% or higher.

Completion Requirements:

4.0 credits are required, with at least 1.0 credit at the 300-400 level.

First Year: ENV100Y5

Higher Years: ENV201H5; JPE251H5 and JPE252H5 1.5 additional credits from: ECO373Y5; ENV210H5, ENV311H5, ENV393H5, ENV430H5, ENV435H5; ENV422H1; GGR318H5; GGR329H5; GGR426H5; HIS318H5, HIS319H5; JEP351H5, JEP356H5, JEP452H5; PHL247H5, PHL271H5; POL346Y5

NOTE: Be sure to look ahead and plan to complete the prerequisites for any upper-level elective courses that are of interest to you. The ENV upper-level course electives typically rely only on the program's core courses as prerequisites, but upper-level electives from other departments could have different prerequisites, so be sure to check the Calendar listings for these courses and their prerequisites.

ERMIN1392

Environmental Management - Minor (Arts)

Enrolment Requirements:

Limited Enrolment — Enrolment in this program is limited to students who have completed ENV100Y with a mark of 60% or higher.

Completion Requirements:

4.0 credits are required, of which at least 1.0 must be at the 300-400 level.

First Year: 1.0 credit:

1. **Environment Foundation:** ENV100Y5

Be sure to look ahead and plan to complete the prerequisites for any upper-level courses that are of interest to you.

Second Year: 1.5 credits:

1. **Environmental Management Core:** ENV201H5

2. **Social Science/Humanities Core:** 0.5 credit chosen from this list: [ENG259H5](#); [ENV210H5](#); [GGR202H5](#), [GGR207H5](#), [GGR208H5](#), [GGR209H5](#), [GGR210H5](#), [GGR252H5](#), [GGR265H5](#), [GGR288H5](#); [JPE251H5](#), [JPE252H5](#);
3. **Science Core:** 0.5 credit chosen from this list: [ANT214H5](#); [BIO201H5](#), [BIO205H5](#), [BIO211H5](#); [ERS201H5](#); [GGR201H5](#), [GGR214H5](#), [GGR217H5](#), [GGR227H5](#);

Third Year: 1.5 credits:

1. **Environmental Management Perspectives:** 1.0 additional credit chosen from this list: [ANT357H5](#), [ANT368H5](#), [ANT370H5](#), [ANT463H5](#), [ANT464H5](#); [ECO373Y5](#); [ENV305H5](#), [ENV311H5](#), [ENV320H5](#), [ENV393H5](#), [ENV425H5](#), [ENV430H5](#), [ENV435H5](#); [GGR318H5](#), [GGR322H5](#), [GGR325H5](#), [GGR329H5](#), [GGR333H5](#), [GGR348H5](#), [GGR349H5](#), [GGR353H5](#), [GGR361H5](#), [GGR362H5](#), [GGR365H5](#), [GGR370H5](#), [GGR415H5](#), [GGR418H5](#), [GGR461H5](#); [JEP351H5](#), [JEP356H5](#), [JEP452H5](#); [JGE378H5](#); [POL475H5](#); [SOC465H5](#); [WRI375H5](#)
2. **Field, Project-based, Experiential, and Research Perspectives:** 0.5 credit chosen from this list: [ENV299Y5](#), [ENV332H5](#), [ENV399Y5](#), [ENV496H5](#), [ENV497H5](#); [GGR335H5](#), [GGR376H5](#), [GGR379H5](#), [GGR389H5](#); [JEG401Y5](#), [JEG417Y5](#); or another program-relevant Field, Project-Based, or Research course, with permission of the Program Advisor

Note This is intended to be an interdisciplinary program. At least three different disciplines must be represented among the courses that are counted as program requirements. For example, a course list selected from ENV + GGR + ANT is acceptable, but a course list selected only from ENV + GGR is not. Please contact the Program Advisors or Academic Counsellor if you have any questions about the validity of your course selections.

[ERMIN1425](#)

Sustainability - Minor (Arts)

The goal of this program is to give students an opportunity to explore the theory and practice of sustainability and sustainable development. There is growing interest in Sustainability among students from across the disciplines at UTM. The program speaks to the Mission and Values of UTM, which identify us as an institution that values sustainability as a core value. Courses address both the theoretical aspects of sustainability and its practical applications.

Enrolment Requirements:

Limited Enrolment — Enrolment in this program is limited to students who have completed [ENV100Y5](#) with a mark of 60% or higher.

Completion Requirements:

4.0 credits are required, with at least 1.0 credit at the 300-400 level.

First Year: [ENV100Y5](#)

Higher Years: [ENV201H5](#); [ENV210H5](#); [ENV305H5](#) 1.5 additional credits from: [ENV307H1](#), [ENV311H5](#), [ENV320H5](#), [ENV332H5](#), [ENV425H5](#), [ENV435H5](#); [ENV461H1](#); [GGR252H5](#), [GGR287H5](#), [GGR329H5](#), [GGR419H5](#); [JEP356H5](#), [JEP452H5](#); [JPE251H5](#), [JPE252H5](#); [POL346Y5](#), [POL475H5](#); [SOC459H5](#), [SOC465H5](#)

NOTE: Be sure to look ahead and plan to complete the prerequisites for any upper-level elective courses that are of interest to you. The ENV upper-level course electives typically rely only on the program's core courses as prerequisites, but upper-level electives from other departments could have different prerequisites, so be sure to check the Calendar listings for these courses and their prerequisites.

[ERMIN1287](#)

Certificate in Sustainability

**** This certificate program launches September 2024. ****

Sustainability means meeting our own needs without compromising the ability of future generations to meet their own needs. The Certificate in Sustainability will provide students the opportunity to develop a sustainability lens -- an interdisciplinary toolkit for examining societal, cultural, economic, political and environmental issues from a perspective that promotes ecological health, social equity and development.

Enrolment in the Certificate in Sustainability is open to all students completing programs at UTM. To complete the Certificate, a student must complete 2.0 credits, with 1.5 credits chosen from at least 2 of 4 Perspectives offered (Economic, Environmental, Political/Institutional, Social/Cultural). Upon completion "Certificate in Sustainability (U of T Sustainability Scholar)" will be recorded on the academic transcript as a component of the undergraduate degree. Students who complete the requirements of the Certificate in Sustainability are considered University of Toronto Sustainability Scholars. Students will not receive a separate parchment at Convocation.

Completion Requirements:

2.0 credits are required.

1. Foundation: ENV210H5 or ENV310H5.
2. 1.5 credits chosen from at least 2 of the following four Perspectives:
 - a. Economic Perspective: CCT433H5, ECO302H5, ECO303H5, ECO313H5, ECO315H5, ECO320H5, ECO321H5, ECO324H5, ECO326H5, ECO333H5, ECO335H5, ECO336H5, ECO343H5, ECO362H5, ECO373Y5, GGR202H5, GGR209H5, GGR252H5
 - b. Environmental Perspective: BIO412H5, ENV201H5, (ENV205H5 or ENV305H5), ENV320H5, ENV332H5, ENV425H5, ENV495H5, ENV496H5, ERS101H5, ERS111H5, ERS312H5, ERS315H5, ERS401H5, ERS412H5, GGR214H5, GGR227H5, JGE378H5
 - c. Political/Institutional Perspective: ENV430H5, GGR207H5, GGR461H5, HIS318H5, HIS319H5, JEP351H5, JEP356H5, JEP452H5, JPE251H5, JPE252H5, POL346Y5, POL475H5, SOC343H5, SOC463H5, SOC465H5
 - d. Social/Cultural Perspective: ANT357H5, ANT368H5, ANT370H5, ANT464H5, EDS220H5, EDS250H5, ENG259H5, ENV311H5, GGR265H5, GGR385H5, GGR415H5, JBH471H5, PHL273H5, SOC304H5, SOC356H5, VCC207H5, VCC236H5, VCC410H5, WRI375H5

Note:

Additional courses with sufficient sustainability content may be appropriate for the Certificate in Sustainability. Students must receive permission from the Academic Counsellor prior to course enrolment.

ERCER1287

Environmental Management Courses

ENV100Y5 • The Environment

This introductory environmental science course examines large-scale features of Earth, natural hazards, Earth's climate and weather systems, energy and mineral

resources, human population growth, extinction and biodiversity, environmental toxins, vanishing soils and expanding deserts, forests, urban environmental management, and food resources. Interdisciplinary interaction among Science, Social Science, and Humanities is a major theme.

Distribution Requirements: Science

Total Instructional Hours: 72L

Mode of Delivery: Online, In Class

ENV201H5 • Environmental Management

(Formerly GGR234H5) Environmental management builds on topics discussed in ENV100 and GGR111/112, by focusing on conceptual frameworks and specific tools that can be used to formulate environmental management goals and support decision-making. Case studies will be used throughout to highlight different approaches, focusing primarily on Canadian examples. Topics include ecosystem and adaptive management, environment impact assessments, and the role of stakeholders.

Prerequisites: GGR111H5 and GGR112H5 (formerly GGR117Y5) or ENV100Y5

Distribution Requirements: Social Science

Total Instructional Hours: 24L/9T

Mode of Delivery: In Class

ENV210H5 • Sustainability

The United Nations Commission on Environment and Development popularized the term sustainable development in its 1987 report, Our Common Future. How far have we come since then, as a global community, in implementing sustainability as a model for development? In this course we will examine the history, measurement, and present-day models and applications of sustainability and sustainable development in both the public and private spheres. Sustainability is an integrative concept that addresses social, cultural, political, and economic factors within the constraints of the biophysical environment.

Prerequisites: 9 credits including ENV100Y5 and ENV201H5

Exclusions: ENV310H5

International Component: International - Optional

Distribution Requirements: Social Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class, Hybrid

ENV299Y5 • Research Opportunity Program

This course provides a richly rewarding opportunity for students in their second year to work on a research project with a professor in return for 299Y course credit. Students enrolled have an opportunity to become involved in original research, learn research methods and share in the excitement and discovery of acquiring new knowledge. Based on the nature of the project, projects may satisfy the Sciences or Social Sciences distribution requirement. Participating faculty members post their project descriptions for the following summer and fall/winter sessions in early February and students are invited to apply in early March. See Experiential and International Opportunities for more details.

Mode of Delivery: In Class

ENV305H5 • Sustainable Tourism

Tourism has long been an important industry around the world, but increasingly questions are being raised regarding the social and environmental sustainability of tourism. This course will look at the impacts (both negative and positive) that tourism has on the natural environment, society, and local economies. It will explore how tourism relates to mobility, globalization, recreation and outdoor activity, planning, the environment, cultural identities, protected areas, and wildlife conservation. This course begins with an introduction to tourism more generally and then focuses in on critical perspectives and the development of eco-tourism, cultural tourism, and volunteer tourism. As part of this course, students may have the option of participating in an international learning experience that will have an additional cost and application process.

Exclusions: GGR356H1 and ENV205H5

Recommended Preparation: ENV100Y5 and ENV201H5

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

ENV311H5 • Environmental Issues in the Developing World

The Earth is one, but the world is not. We all depend on one biosphere for sustaining our lives. Yet each community, each country, strives for survival and prosperity with little regard for its impact on others. These are the opening words from the report of the UN World Commission on Environment and Development, which first popularized the concept of sustainable development. In this course we examine 'environment' and 'development' and 'human well-being' as inseparable challenges. We consider global, regional, and local environmental problems from the perspectives of developing nations, and investigate the economic, social, and political roots of these problems.

Prerequisites: Any 9.0 credits

Exclusions: ENV345H5

Distribution Requirements: Social Science

Total Instructional Hours: 24L/10T

Mode of Delivery: In Class, Hybrid

ENV320H5 • Managing Our Waste

Garbage archaeologist William Rathje once said, "Garbage isn't generic junk. It's elements of our behavior all thrown together." The history of human civilization is reflected in what societies have thrown away over the ages. But in recent decades both the quantity and types of waste generated by human activities have changed radically. In this course we will address the philosophical, social, and management challenges associated with

waste in Canadian and international contexts, as well as examining some of the technological and scientific aspects of specific waste management problems.

Prerequisites: 9.0 credits including [ENV100Y5](#) or ([GGR111H5](#) and [GGR112H5](#))

Distribution Requirements: Social Science

Total Instructional Hours: 24L/10T

Mode of Delivery: In Class

ENV330H5 • Experimental Design in Environmental Science

This hands-on course introduces students to field methods and integrative problem solving in environmental sciences. Topics will include sampling methods and protocols employed in terrestrial, aquatic and atmospheric assessment and monitoring, as well as experimental design, data analysis and presentation. Practical sessions will involve outdoor field experiences on campus and neighboring areas.

Prerequisites: 9.0 credits, including the completion of a 100-level quantitative and basic scientific credit, and completion of a 200/300-level quantitative methods course and enrolment in an Environmental Science program.

Distribution Requirements: Science

Total Instructional Hours: 12L/24P

Mode of Delivery: In Class

ENV332H5 • Practicum in Environmental Project Management

Solutions to environmental issues depend on interdisciplinary teamwork. This course mimics the practical, multidisciplinary, collaborative work that is highly valued in the environment sector. Students work in teams on semester-long projects addressing a specific environmental issue on campus or in the local community (e.g., conducting a waste audit; developing an educational module for a local NGO, etc.). Specific skills that are developed include; project management and workflow, data collection, report writing and formal presentations. This course is strongly recommended for Specialist and Major students in any of the Environment Programs.

Prerequisites: 9.0 credits and completion of a Research Methods course (e.g., [GGR277H5](#)).

Exclusions: [ENV232H5](#)

Course Experience: University-Based Experience

Distribution Requirements: Social Science, Science

Total Instructional Hours: 12P/24S

Mode of Delivery: In Class

ENV393H5 • Environmental Assessment

The course focuses on the methodologies for measuring and predicting the impact of development on the bio-

physical and socio-economic environments. Topics include environmental assessment, law and institutions, environmental mediation; Phase I, II, III environmental site assessment; monitoring; mitigation; evaluation; and risk assessment. The types of impact assessment (IA) methods examined vary from year to year (e.g. economic IA, ecological IA, social IA).

Prerequisites: [ENV100Y5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L/6P

Mode of Delivery: In Class

ENV399Y5 • Research Opportunity Program

This course provides a richly rewarding opportunity for students in their second year to work on a research project with a professor in return for 299Y course credit. Students enrolled have an opportunity to become involved in original research, learn research methods and share in the excitement and discovery of acquiring new knowledge. Based on the nature of the project, projects may satisfy the Sciences or Social Sciences distribution requirement. Participating faculty members post their project descriptions for the following summer and fall/winter sessions in early February and students are invited to apply in early March. See [Experiential and International Opportunities](#) for more details.

Mode of Delivery: In Class

ENV425H5 • Managing Urban Ecosystems

This course examines the ways people interact with and manage urban ecosystems. Socio-ecological systems, green infrastructure, environmental justice, ecosystems services, climate change mitigation and adaptation, and sustainability will be discussed in the context of urban ecosystems. Throughout the course, issues associated with bridging the gaps between the social and natural sciences, unique characteristics of urban ecosystems, and the role of individual decision-makers will be considered.

Prerequisites: 14 credits

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

ENV430H5 • Environmental Law and Policy

This course introduces students to the challenges and opportunities of environmental law and policy. Students will learn how legal systems can address increasingly complex environmental challenges. This course will include an in-depth look at the toolbox of legal and policy instruments that decision makers have at their disposal to

tackle major environmental problems. The focus is primarily Canada though international examples will also be touched upon. Case studies and examples will be used to connect theoretical and legal principals to real world situations.

Prerequisites: 14 credits including [GGR111H5](#) and [GGR112H5](#) or [ENV100Y5](#) or permission of instructor

Recommended Preparation: [JPE251H5](#) and [JPE252H5](#) or [ENV250Y5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

ENV435H5 • Governing the Commons: Communities and Conservation

Common-pool resources (CPRs) include pastures, forests, watersheds, ocean fisheries, traffic, the Internet, and the Earth's climate. CPRs present a variety of social dilemmas because it is difficult to exclude and prevent resources users from accessing, using, and polluting a resource. Individual self-interest may put CPRs at risk of overuse, overconsumption, and exploitation to result in a "tragedy of the commons" scenario. However resource users across the world, have devised rules and strategies to avoid such tragedies to sustain CPRs over centuries. In this course, through playing games in the classroom, we will learn whether and how theories of collective action, cooperation, and institutions provide insight into achieving conservation of CPRs that delivers on the twin goals of social and environmental justice.

Prerequisites: 14.0 credits including [GGR111H5](#) and [GGR112](#) or [ENV100Y5](#) or permission of instructor

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

ENV490H5 • Special Topics in Environmental Studies

These courses highlight various topics of special interest in environmental studies. The specific focus and format of the course will vary, depending on the chosen topic. The course will not be offered every year. Please check with the Academic Counsellor, Sabrina Ferrari (905-828-5465), for further information. The contact hours for this course may vary in terms of contact type (L,S,T,P) from year to year, but will be between 24-36 contact hours in total. See the UTM Timetable

Prerequisites: 14.0 credits including [ENV100Y5](#)

Distribution Requirements: Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

ENV491H5 • Special Topics in Environmental Studies

These courses highlight various topics of special interest in environmental studies. The specific focus and format of the courses will vary, depending on the chosen topic. The courses will not be offered every year. Please check with the Academic Counsellor, Sabrina Ferrari (905-828-5465), for further information. The contact hours for this course may vary in terms of contact type (L,S,T,P) from year to year, but will be between 24-36 contact hours in total. See the UTM Timetable.

Prerequisites: 14.0 credits including [ENV100Y5](#) and permission of instructor

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

ENV495H5 • Restoration Ecology I

Restoration ecology is an emerging cross-disciplinary field of study that concerns human activities undertaken to promote the recovery, health, integrity and sustainability of degraded ecosystems. This course introduces the fundamental concepts of ecological restoration, addressing topics such as assessing ecosystem health, resilience, resistance and stability; community structure and biodiversity; invasive species; ecosystem processes and functions; societal aspects of ecological restoration (e.g., the relationship between social, economic and environmental sustainability).

Prerequisites: 14 credits including [ENV100Y5](#) or [BIO205H5](#)

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENV496H5 • Restoration Ecology II

The follow-up course to Restoration Ecology I, [ENV496H5](#) will build on its theoretical foundations to focus on student involvement in a variety of restoration projects planned or underway by Credit Valley Conservation and other groups in Mississauga and the greater Credit Valley watershed. The emphasis here is on planning and implementation of restoration projects; good scientific design; understanding policies and procedures; identifying and working with stakeholders, etc. Occasional field exercises may be scheduled during regular class meeting times.

Prerequisites: 14.0 credits including [ENV495H5](#)

Course Experience: University-Based Experience

Distribution Requirements: Science

Total Instructional Hours: 12L/24P

Mode of Delivery: In Class

ENV497H5 • Environmental Research Project

This independent project course is designed to give students experience in the definition and execution of a one-term research study on an environmental topic, under the guidance of a member of the faculty. Students who wish to pursue this option with a specific faculty member or who have an idea for a research project should approach the faculty member early - before the start of the academic term - to negotiate the terms of the project.

Prerequisites: 14.0 credits towards an Environmental Specialist or Major program and permission of instructor

Course Experience: University-Based Experience

Distribution Requirements: Social Science, Science

Total Instructional Hours: 12P

Mode of Delivery: In Class

JEG400Y5 • Geography / Environment Science Internship

Through a part-time, unpaid work placement, students apply the natural science based environmental science/physical geography expertise gained through previous course work. Placements are made at local conservation authorities, municipalities, environmental consulting companies, corporations, provincial or federal agencies, and other organizations. Students must submit an application online. Instructions for the application can be found on the Geography Department home page: <https://utm.utoronto.ca/geography/field-internship-and-thesis-courses>

Prerequisites: 15.0-18.0 credits and permission of instructor

Exclusions: ENV400Y5 or GGR410Y5

Course Experience: Partnership-Based Experience

Distribution Requirements: Science

Mode of Delivery: In Class

JEG401Y5 • Geography / Environment Social Science Internship

Through a part-time, unpaid work placement, students apply the knowledge and expertise gained through previous course work in geography. Placements may be made in a range of settings. For example, placements may include municipal government, regional government, neighbourhood organizations and centres, corporations as well as with non-governmental organizations. Admission for this course will be through an online application. Instructions for the application can be found on the Geography Department home page: <https://utm.utoronto.ca/geography/field-internship-and-thesis-courses>

Prerequisites: 15.0-18.0 credits and permission of instructor

Exclusions: ENV400Y5 or GGR410Y5

Course Experience: Partnership-Based Experience

Distribution Requirements: Social Science
Mode of Delivery: In Class

JEG417Y5 • Honours Thesis

This course is designed to give students experience in the design and execution of an independent senior thesis under the supervision of a faculty member. **In order to register in the course, students must obtain approval from a supervisor, complete an application form and submit the form to the Department of Geography. Please refer to the Department of Geography website for details: <https://utm.utoronto.ca/geography/field-internship-and-thesis-courses>. This course may fulfill field day components. Please consult with your supervisor.**

Prerequisites: 14.0 credits

Course Experience: University-Based Experience

Distribution Requirements: Social Science, Science

Mode of Delivery: In Class

JEP351H5 • Comparative Environmental Policy

This course is an introduction to comparative environmental policy. The main focus of the course will be Canada-US-Mexico comparative policy around climate change, biodiversity, water resources, and pollution. Other countries may be examined as larger themes related to sustainable development and environmental justice will be covered in detail.

Prerequisites: 9.0 credits including (JP251H5 and JPE252H5) or JPE250Y5

Exclusions: ENV351H5

Recommended Preparation: This course is recommended for students with an interest in comparative politics and policy. Previous courses in comparative and international political science, geography and sociology will be an asset.

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

JEP356H5 • Environmental Justice

Environmental Justice is about the fair treatment of all people in the creation and implementation of environmental policies. It also provides a critical framework to analyze and understand inequalities of an environmental kind. These inequalities are often based around identities of race, class and gender, such that marginalized groups are made to bear the burden of environmental externalities like pollution. Why are First Nations in Canada less likely to have access to safe drinking water? Why are industrial plants often in low-income neighborhoods? After critical examinations of the theories and foundations of environmental justice, this course uses a case study approach to understanding the

concepts and the ways in which it has shaped modern society.

Prerequisites: 9.0 credits

Distribution Requirements: Social Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

JEP452H5 • Politics and Policy of Wildlife Conservation

This course is an in-depth analysis of conservation policy in Canada. The course begins with an overview biodiversity crisis facing the planet and then moves to an overview of Canada's approach to managing biodiversity across the country. We will carefully examine the federal Species at Risk Act as well as the provincial and territorial wildlife legislation. The remaining of the course will be aimed at making improvements to the Canadian strategy. During the course of the semester, the students will focus on the recovery of endangered species in Canada through the development of a recovery strategy for a specific species.

Prerequisites: 14.0 credits including ENV100Y5 and JPE251H5

Exclusions: ENV452H5

Course Experience: University-Based Experience

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

JGE378H5 • Natural Hazards

Earth is a dangerous place and risk is an inherent feature of life on this planet. Some of the events and processes that we call "hazardous," such as earthquakes, volcanic eruptions, floods, tsunamis, cyclones, and forest fires are natural environmental processes. We define them as hazards only when they pose a threat to human interests. In this course we will examine natural hazards as well as some technological hazards, their causes, their potential impacts on people, and their management and mitigation.

Prerequisites: 9.0 credits

Exclusions: GGR378H5 or ERS317H5

Recommended Preparation: ENV100Y5 and ERS103H5 and ERS120H5 and GGR112H5

Distribution Requirements: Social Science, Science

Total Instructional Hours: 24L/12T

Mode of Delivery: Online, In Class

JPE251H5 • Introduction to Canadian Environmental Law and Policy I

This course serves as an introduction to environmental policy and law in Canada. The primary intent is to provide an overview of the political context in which environmental policy and law is made and implemented. The emphasis in this course will be on environmental policy. The course

begins with an outline of the Canadian parliamentary system and policymaking process. A series of case studies, from biodiversity to climate change, are then explored as a way to see the policy process in action. [24L]

Prerequisites: 3.5 credits

Exclusions: JPE250Y5 or POL250Y5 or ENV250Y5 or ENV320H1

Distribution Requirements: Social Science

Total Instructional Hours: 24L/11T

Mode of Delivery: In Class

JPE252H5 • Introduction to Canadian Environmental Law and Policy II

This course builds on the themes and concepts introduced in JPE251H5. The primary intent is to provide an overview of the political context in which environmental policy and law is made and implemented. The emphasis in this course will be on environmental law. [24L]

Prerequisites: JPE251H5

Exclusions: JPE250Y5 or POL250Y5 or ENV250Y5 or ENV320H1

Distribution Requirements: Social Science

Total Instructional Hours: 24L/11T

Mode of Delivery: In Class

Environmental Science

Staff List

Academic Counselor

Director and Program Advisor

Monika Havelka
 Room 3291, William G. Davis Bldg
 905-828-5366
monika.havelka@utoronto.ca

The interdisciplinary programs are administered by the Department of Geography, Geomatics and Environment, which advises students and coordinates participating departments, faculty and programs.

The curriculum stresses the integrative nature of the study of the environment. Students will develop the environmental problem-solving skills required for some of the most dynamic areas of today's job market. Environment faculty members encourage students to become involved in basic enquiry and critical thinking, cross-disciplinary collaboration, and the application of concepts to real-life problems.

The Environment programs begin with a first-year Science course, ENV100Y5 (The Environment). The programs offer students abundant opportunities to become involved in environmental practice, research and fieldwork (e.g., ENV299Y5 Research Opportunity Program, ENV232H5 Environmental Sustainability Practicum, ENV497H5, Environmental Research Project). Students may also have the opportunity to complete a practical work placement course related to their specific area of interest (JEG400/401Y5 Geography/Environment Internship).

Professional Advancement for Geography and Environment Students (PAGES)

The program is based on a series of workshops, career events and related activities designed to help students develop: an awareness of research, career and graduate possibilities; skills required to apply successfully for employment and graduate studies; and personal skills to improve self-confidence and potential within the workplace, professional direction and self-awareness. On successful completion of the program students receive a transcript annotation. Please contact Professor Matthew Adams (md.adams@utoronto.ca) for details on registering for this program.

The **Environmental Science** programs offer an opportunity to study the interdisciplinary sciences that are required to understand complex environmental problems involving the natural world and human impacts. Students can tailor the scientific focus of the program to their own interests, by choosing courses from Geographical and Earth Science Perspectives; Biological/Ecological Perspectives; and Physical/Chemical Perspectives. For example, one possible pathway through Environmental Science focuses on the relationships among biota, land, water, and air, the structure and function of natural and managed ecosystems, and processes in the biogeochemical environment. This pathway would rely mainly on courses chosen from the Geographical and Ecological Perspectives. An alternative, more analytical pathway is better suited to students with a strong interest in laboratory sciences, who wish to apply their knowledge to problems of chemical, physical, and biotechnical remediation and the control of environmental problems. This pathway would involve more course choices in the Physical and Chemical Sciences. Fieldwork, experiential learning, and research opportunities are important to all of the Environmental Science programs. No matter which pathway is followed, some courses on Social and Policy Perspectives are also part of the program. The premise is that those who will develop our scientific knowledge and technological capacities must also have a basic understanding of environmental management, policy, and the human-environment relationship. Students who have concerns about identifying which pathway is best for them are encouraged to visit the Program Advisors and Academic Counselor early and often.

Combined Degree Programs in Environmental Science (HBSc) and Master of Science in Sustainability Management (MScSM)

Students in either the Specialist or Major program in Environmental Science with an interest in pursuing a Master of Science in Sustainability Management (MScSM) (offered at the UTM campus) have the opportunity to participate in a Combined Degree Program. Combined Degree Programs in Environmental Management and MScSM will allow students to complete an undergraduate degree with an early admission offer to the MScSM program in their fourth year of study.

Students will be able to complete 1.0 FCE of MScSM graduate level courses in their final undergraduate year, which will count as credit toward undergraduate degree requirements and the MScSM Program. At the end of the Combined Degree Program, students will have earned a four-year undergraduate degree and an MScSM.

Students interested in pursuing a Combined Degree Program will apply to the program at the end of their third year of study. As part of the application, students will be required to apply and interview for early conditional admission to the MScSM Program. Once accepted into the Combined Degree Program, students will work with the MScSM Director to choose appropriate graduate level courses to complete during their final undergraduate year.

Students should also review the [Degree Requirements](#) section prior to selecting courses

Environmental Science Programs

Environmental Science - Specialist (Science)

Enrolment Requirements:

Limited Enrolment ♦ Enrolment in this program is limited to students who have completed [ENV100Y5](#) with a mark of 65% or higher, and who have a CGPA of at least 2.0.

Completion Requirements:

12.0 credits are required, of which at least 4.0 credits must be at the 300-400 level, including at least 1.0 credit at the 400 level.

First Year: 4.0 credits:

- **Environment Foundation:** [ENV100Y5](#)
- **Quantitative and Basic Scientific Foundation:** 3.0 credits from [ANT101H5](#) or [BIO152H5](#) or [BIO153H5](#) or [CHM110H5](#) or [CHM120H5](#) or [CSC108H5](#) or [CSC148H5](#) or [ERS101H5](#) or [GGR112H5](#) or [ISP130H5](#) or ([MAT132H5](#) or [MAT135H5](#) or [MAT137H5](#) or [MAT157H5](#)) or ([MAT134H5](#) or [MAT136H5](#) or [MAT139H5](#) or [MAT159H5](#)) or [MAT137Y5](#) or [PHY136H5](#) or [PHY137H5](#) or [PHY146H5](#) or [PHY147H5](#)

Be sure to look ahead and plan to complete the prerequisites for any upper-level courses that are of interest to you.

Second Year: 4.0 credits:

- **Environmental Management Core:** [ENV201H5](#)
- **Life Science Core:** 1.0 credit from [BIO205H5](#) and [GGR227H5](#)
- **Physical Geographical and Earth Science Core:** 1.5 credits from [CHM211H5](#) or [CHM231H5](#) or [CHM242H5](#) or [GGR201H5](#) or [GGR214H5](#) or [GGR217H5](#) or [ERS201H5](#) or [ERS202H5](#) or [ERS203H5](#) or [JCP221H5](#)
- **Quantitative, Digital, and Analytical Methods Core:** 1.0 credit from [BIO360H5](#) or [BIO361H5](#) or [CHM211H5](#) or [GGR276H5](#) or [GGR278H5](#) or [STA220H5](#) or [STA221H5](#)

Upper Years: 4.0 credits:

- **Environmental Science Perspective:** [ENV330H5](#)
- **Field, Project-based, Experiential, and Research Perspectives:** 1.5 credits from [BIO416H5](#) or [CPS401Y5](#) or [ENV299Y5](#) or [ENV399Y5](#) or [ENV496H5](#) or [ENV497H5](#) or [ERS325H5](#) or [GGR335H5](#) or [GGR379H5](#) or [JEG400Y5](#) or [JEG417Y5](#)
- **Biogeochemical Perspectives:** 1.0 credit from [BIO311H5](#) or [BIO331H5](#) or [BIO333H5](#) or [BIO373H5](#) or [BIO406H5](#) or [ENV495H5](#) or [ENV496H5](#) or [ERS312H5](#) or [ERS315H5](#) or [ERS412H5](#) or [GGR304H5](#) or [GGR305H5](#)

or [GGR307H5](#) or [GGR309H5](#) or [GGR311H5](#) or [GGR315H5](#) or [GGR316H5](#) or [GGR317H5](#) or [GGR337H5](#) or [GGR338H5](#) or [GGR372H5](#) or [GGR374H5](#) or [GGR375H5](#) or [GGR376H5](#) or [GGR377H5](#) or [GGR383H5](#) or [GGR384H5](#) or [GGR404H5](#) or [GGR406H5](#) or [GGR407H5](#) or [GGR440H5](#) or [GGR479H5](#) or [GGR484H5](#)

- **Environmental Management Perspectives:** 0.5 credit from [BIO464H5](#) or [ENV311H5](#) or [ENV320H5](#) or [ENV393H5](#) or [ENV425H5](#) or [ENV430H5](#) or [JEP452H5](#)
- **Social, Economic and Policy Perspectives:** 0.5 credit from [ANT357H5](#) or [ANT368H5](#) or [ANT370H5](#) or [ECO373Y5](#) or [ENV305H5](#) or [ENV311H5](#) or [ENV320H5](#) or [ENV393H5](#) or [ENV425H5](#) or [ENV430H5](#) or [ENV435H5](#) or [GGR322H5](#) or [GGR325H5](#) or [GGR329H5](#) or [GGR333H5](#) or [GGR348H5](#) or [GGR349H5](#) or [GGR353H5](#) or [GGR361H5](#) or [GGR362H5](#) or [GGR365H5](#) or [GGR370H5](#) or [GGR419H5](#) or [JEP351H5](#) or [JEP356H5](#) or [JEP452H5](#) or [JGE378H5](#) or [JPE251H5](#) or [JPE252H5](#) or [POL343Y5](#) or [POL346Y5](#) or [POL475H5](#) or [SOC349H5](#) or [SOC356H5](#) or [SOC465H5](#) or [WRI375H5](#)

Note: [ENV490H5](#) or [ENV491H5](#) can substitute for #1 or #2 or #3 or #4 as course requirements, where appropriate, and with permission of the Program Advisor or Academic Counsellor.

Note:

This is intended to be an interdisciplinary program. At least four different disciplines must be represented among the courses that are counted as program requirements. For example, a course list selected from ENV + GGR + CHM + ERS is acceptable, but a course list selected only from ENV + GGR + ERS is not. Please contact the Program Advisors or Academic Counsellor if you have any questions about the validity of your course selections.

Note: ENV490H5, ENV491H5 can substitute for #1, #2, #3, or #4 as course requirements, where appropriate, and with permission of the Program Advisor or Academic Counsellor.

Note:

This is intended to be an interdisciplinary program. At least four different disciplines must be represented among the courses that are counted as program requirements. For example, a course list selected from ENV + GGR + CHM + ERS is acceptable, but a course list selected only from ENV + GGR + ERS is not. Please contact the Program Advisors or Academic Counsellor if you have any questions about the validity of your course selections.

ERMAJ1061

Environmental Science - Minor (Science)

Enrolment Requirements:

Limited Enrolment — Enrolment in this program is limited to student who have completed ENV100Y5 with a mark of 60% or higher.

Completion Requirements:

4.0 credits are required, of which at least 1.0 must be at the 300-400 level.

First Year: 1.0 credit:

1. **Environment Foundation:** ENV100Y5

Be sure to look ahead and plan to complete the prerequisites for any upper-level courses that are of interest to you.

Second Year: 2.0 credits:

1. **Environmental Management Core:** ENV201H5
2. **Life Sciences Core:** 0.5 credit chosen from this list: BIO201H5, BIO205H5, BIO211H5; GGR227H5
3. **Physical Geographical and Earth Sciences Core:** 1.0 credit chosen from this list: CHM211H5, CHM242H5; GGR201H5, GGR214H5, GGR217H5; ERS201H5, ERS202H5, ERS203H5; JCP221H5

Upper Years: 1.0 credit:

1. **Field, Project-based, Experiential, and Research Perspectives:** 0.5 credit chosen from this list: BIO416H5; ENV299Y5, ENV399Y5, ENV496H5; ENV497H5; ERS325H5; GGR335H5, GGR379H5; JEG400Y5
2. **Biogeochemical Perspectives:** 0.5 credit chosen from this list: BIO311H5, BIO331H5, BIO333H5, BIO373H5; ENV495H5, ENV496H5; ERS312H5, ERS315H5, ERS412H5; GGR304H5, GGR305H5, GGR307H5, GGR309H5, GGR311H5, GGR315H5, GGR316H5, GGR317H5, GGR337H5, GGR338H5, GGR372H5, GGR374H5, GGR375H5, GGR376H5, GGR377H5, GGR383H5, GGR384H5, GGR404H5, GGR406H5, GGR407H5, GGR440H5, GGR484H5; JGE378H5;

This is intended to be an interdisciplinary program. At least three different disciplines must be represented among the courses that are counted as program requirements. For example, a course list selected from ENV + BIO + ERS is acceptable, but a course list selected only from ENV + BIO is not. Please contact the Program Advisors or Academic Counsellor if you have any questions about the validity of your course selections.

ERMIN1061

Certificate in Sustainability

**** This certificate program launches September 2024. ****

Sustainability means meeting our own needs without compromising the ability of future generations to meet their own needs. The Certificate in Sustainability will provide students the opportunity to develop a sustainability lens -- an interdisciplinary toolkit for examining societal, cultural, economic, political and environmental issues from a perspective that promotes ecological health, social equity and development.

Enrolment in the Certificate in Sustainability is open to all students completing programs at UTM. To complete the Certificate, a student must complete 2.0 credits, with 1.5 credits chosen from at least 2 of 4 Perspectives offered (Economic, Environmental, Political/Institutional, Social/Cultural). Upon completion "Certificate in Sustainability (U of T Sustainability Scholar)" will be recorded on the academic transcript as a component of the undergraduate degree. Students who complete the requirements of the Certificate in Sustainability are considered University of Toronto Sustainability Scholars. Students will not receive a separate parchment at Convocation.

Completion Requirements:

2.0 credits are required.

1. Foundation: ENV210H5 or ENV310H5.
2. 1.5 credits chosen from at least 2 of the following four Perspectives:
 - a. Economic Perspective: CCT433H5, ECO302H5, ECO303H5, ECO313H5, ECO315H5, ECO320H5, ECO321H5, ECO324H5, ECO326H5, ECO333H5, ECO335H5, ECO336H5, ECO343H5, ECO362H5, ECO373Y5, GGR202H5, GGR209H5, GGR252H5
 - b. Environmental Perspective: BIO412H5, ENV201H5, (ENV205H5 or ENV305H5), ENV320H5, ENV332H5, ENV425H5, ENV495H5, ENV496H5, ERS101H5, ERS111H5, ERS312H5, ERS315H5, ERS401H5, ERS412H5, GGR214H5, GGR227H5, JGE378H5
 - c. Political/Institutional Perspective: ENV430H5, GGR207H5, GGR461H5, HIS318H5, HIS319H5, JEP351H5, JEP356H5, JEP452H5, JPE251H5, JPE252H5, POL346Y5, POL475H5, SOC343H5, SOC463H5, SOC465H5
 - d. Social/Cultural Perspective: ANT357H5, ANT368H5, ANT370H5, ANT464H5, EDS220H5, EDS250H5, ENG259H5, ENV311H5, GGR265H5, GGR385H5, GGR415H5, JBH471H5, PHL273H5, SOC304H5, SOC356H5, VCC207H5, VCC236H5, VCC410H5, WRI375H5

Note:

Additional courses with sufficient sustainability content may be appropriate for the Certificate in Sustainability. Students must receive permission from the Academic Counsellor prior to course enrolment.

ERCER1287

Students may take no more than 2.0 credits combined in ROP, individual project courses, or thesis courses at the 300/400 level for credit toward their Environment program.

Environmental Science Courses

ENV100Y5 • The Environment

This introductory environmental science course examines large-scale features of Earth, natural hazards, Earth's climate and weather systems, energy and mineral resources, human population growth, extinction and biodiversity, environmental toxins, vanishing soils and expanding deserts, forests, urban environmental management, and food resources. Interdisciplinary interaction among Science, Social Science, and Humanities is a major theme.

Distribution Requirements: Science

Total Instructional Hours: 72L

Mode of Delivery: Online, In Class

ENV201H5 • Environmental Management

(Formerly GGR234H5) Environmental management builds on topics discussed in ENV100 and GGR111/112, by focusing on conceptual frameworks and specific tools that can be used to formulate environmental management goals and support decision-making. Case studies will be used throughout to highlight different approaches, focusing primarily on Canadian examples. Topics include ecosystem and adaptive management, environment impact assessments, and the role of stakeholders.

Prerequisites: GGR111H5 and GGR112H5 (formerly GGR117Y5) or ENV100Y5

Distribution Requirements: Social Science

Total Instructional Hours: 24L/9T

Mode of Delivery: In Class

ENV210H5 • Sustainability

The United Nations Commission on Environment and Development popularized the term sustainable development in its 1987 report, Our Common Future. How far have we come since then, as a global community, in implementing sustainability as a model for development? In this course we will examine the history, measurement, and present-day models and applications of sustainability

and sustainable development in both the public and private spheres. Sustainability is an integrative concept that addresses social, cultural, political, and economic factors within the constraints of the biophysical environment.

Prerequisites: 9 credits including ENV100Y5 and ENV201H5

Exclusions: ENV310H5

International Component: International - Optional

Distribution Requirements: Social Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class, Hybrid

ENV299Y5 • Research Opportunity Program

This course provides a richly rewarding opportunity for students in their second year to work on a research project with a professor in return for 299Y course credit. Students enrolled have an opportunity to become involved in original research, learn research methods and share in the excitement and discovery of acquiring new knowledge. Based on the nature of the project, projects may satisfy the Sciences or Social Sciences distribution requirement. Participating faculty members post their project descriptions for the following summer and fall/winter sessions in early February and students are invited to apply in early March. See Experiential and International Opportunities for more details.

Mode of Delivery: In Class

ENV305H5 • Sustainable Tourism

Tourism has long been an important industry around the world, but increasingly questions are being raised regarding the social and environmental sustainability of tourism. This course will look at the impacts (both negative and positive) that tourism has on the natural environment, society, and local economies. It will explore how tourism relates to mobility, globalization, recreation and outdoor activity, planning, the environment, cultural identities, protected areas, and wildlife conservation. This course begins with an introduction to tourism more generally and then focuses in on critical perspectives and the development of eco-tourism, cultural tourism, and volunteer tourism. As part of this course, students may have the option of participating in an international learning experience that will have an additional cost and application process.

Exclusions: GGR356H1 and ENV205H5
Recommended Preparation: ENV100Y5 and ENV201H5
Distribution Requirements: Social Science
Total Instructional Hours: 24L
Mode of Delivery: In Class

ENV311H5 • Environmental Issues in the Developing World

The Earth is one, but the world is not. We all depend on one biosphere for sustaining our lives. Yet each community, each country, strives for survival and prosperity with little regard for its impact on others. These are the opening words from the report of the UN World Commission on Environment and Development, which first popularized the concept of sustainable development. In this course we examine 'environment' and 'development' and 'human well-being' as inseparable challenges. We consider global, regional, and local environmental problems from the perspectives of developing nations, and investigate the economic, social, and political roots of these problems.

Prerequisites: Any 9.0 credits
Exclusions: ENV345H5
Distribution Requirements: Social Science
Total Instructional Hours: 24L/10T
Mode of Delivery: In Class, Hybrid

ENV320H5 • Managing Our Waste

Garbage archaeologist William Rathje once said, "Garbage isn't generic junk. It's elements of our behavior all thrown together." The history of human civilization is reflected in what societies have thrown away over the ages. But in recent decades both the quantity and types of waste generated by human activities have changed radically. In this course we will address the philosophical, social, and management challenges associated with waste in Canadian and international contexts, as well as examining some of the technological and scientific aspects of specific waste management problems.

Prerequisites: 9.0 credits including ENV100Y5 or (GGR111H5 and GGR112H5)
Distribution Requirements: Social Science
Total Instructional Hours: 24L/10T
Mode of Delivery: In Class

ENV330H5 • Experimental Design in Environmental Science

This hands-on course introduces students to field methods and integrative problem solving in environmental sciences. Topics will include sampling methods and protocols employed in terrestrial, aquatic and atmospheric assessment and monitoring, as well as experimental design, data analysis and presentation. Practical sessions will involve outdoor field experiences on campus and neighboring areas.

Prerequisites: 9.0 credits, including the completion of a 100-level quantitative and basic scientific credit, and completion of a 200/300-level quantitative methods course and enrolment in an Environmental Science program.
Distribution Requirements: Science
Total Instructional Hours: 12L/24P
Mode of Delivery: In Class

ENV332H5 • Practicum in Environmental Project Management

Solutions to environmental issues depend on interdisciplinary teamwork. This course mimics the practical, multidisciplinary, collaborative work that is highly valued in the environment sector. Students work in teams on semester-long projects addressing a specific environmental issue on campus or in the local community (e.g., conducting a waste audit; developing an educational module for a local NGO, etc.). Specific skills that are developed include; project management and workflow, data collection, report writing and formal presentations. This course is strongly recommended for Specialist and Major students in any of the Environment Programs.

Prerequisites: 9.0 credits and completion of a Research Methods course (e.g., GGR277H5).
Exclusions: ENV232H5
Course Experience: University-Based Experience
Distribution Requirements: Social Science, Science
Total Instructional Hours: 12P/24S
Mode of Delivery: In Class

ENV393H5 • Environmental Assessment

The course focuses on the methodologies for measuring and predicting the impact of development on the bio-physical and socio-economic environments. Topics include environmental assessment, law and institutions, environmental mediation; Phase I, II, III environmental site assessment; monitoring; mitigation; evaluation; and risk assessment. The types of impact assessment (IA) methods examined vary from year to year (e.g. economic IA, ecological IA, social IA).

Prerequisites: ENV100Y5
Distribution Requirements: Social Science
Total Instructional Hours: 24L/6P
Mode of Delivery: In Class

ENV399Y5 • Research Opportunity Program

This course provides a richly rewarding opportunity for students in their second year to work on a research project with a professor in return for 299Y course credit. Students enrolled have an opportunity to become involved in original research, learn research methods and share in the excitement and discovery of acquiring new knowledge.

Based on the nature of the project, projects may satisfy the Sciences or Social Sciences distribution requirement. Participating faculty members post their project descriptions for the following summer and fall/winter sessions in early February and students are invited to apply in early March. See [Experiential and International Opportunities](#) for more details.

Mode of Delivery: In Class

ENV425H5 • Managing Urban Ecosystems

This course examines the ways people interact with and manage urban ecosystems. Socio-ecological systems, green infrastructure, environmental justice, ecosystems services, climate change mitigation and adaptation, and sustainability will be discussed in the context of urban ecosystems. Throughout the course, issues associated with bridging the gaps between the social and natural sciences, unique characteristics of urban ecosystems, and the role of individual decision-makers will be considered.

Prerequisites: 14 credits

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

ENV430H5 • Environmental Law and Policy

This course introduces students to the challenges and opportunities of environmental law and policy. Students will learn how legal systems can address increasingly complex environmental challenges. This course will include an in-depth look at the toolbox of legal and policy instruments that decision makers have at their disposal to tackle major environmental problems. The focus is primarily Canada though international examples will also be touched upon. Case studies and examples will be used to connect theoretical and legal principals to real world situations.

Prerequisites: 14 credits including ([GGR111H5](#) and [GGR112H5](#)) or [ENV100Y5](#) or permission of instructor

Recommended Preparation: ([JPE251H5](#) and [JPE252H5](#)) or [ENV250Y5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

ENV435H5 • Governing the Commons: Communities and Conservation

Common-pool resources (CPRs) include pastures, forests, watersheds, ocean fisheries, traffic, the Internet, and the Earth's climate. CPRs present a variety of social dilemmas because it is difficult to exclude and prevent resources users from accessing, using, and polluting a

resource. Individual self-interest may put CPRs at risk of overuse, overconsumption, and exploitation to result in a "tragedy of the commons" scenario. However resource users across the world, have devised rules and strategies to avoid such tragedies to sustain CPRs over centuries. In this course, through playing games in the classroom, we will learn whether and how theories of collective action, cooperation, and institutions provide insight into achieving conservation of CPRs that delivers on the twin goals of social and environmental justice.

Prerequisites: 14.0 credits including [GGR111H5](#) and [GGR112](#) or [ENV100Y5](#) or permission of instructor

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

ENV490H5 • Special Topics in Environmental Studies

These courses highlight various topics of special interest in environmental studies. The specific focus and format of the course will vary, depending on the chosen topic. The course will not be offered every year. Please check with the Academic Counsellor, Sabrina Ferrari (905-828-5465), for further information. The contact hours for this course may vary in terms of contact type (L,S,T,P) from year to year, but will be between 24-36 contact hours in total. See the UTM Timetable

Prerequisites: 14.0 credits including [ENV100Y5](#)

Distribution Requirements: Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

ENV491H5 • Special Topics in Environmental Studies

These courses highlight various topics of special interest in environmental studies. The specific focus and format of the courses will vary, depending on the chosen topic. The courses will not be offered every year. Please check with the Academic Counsellor, Sabrina Ferrari (905-828-5465), for further information. The contact hours for this course may vary in terms of contact type (L,S,T,P) from year to year, but will be between 24-36 contact hours in total. See the UTM Timetable.

Prerequisites: 14.0 credits including [ENV100Y5](#) and permission of instructor

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

ENV495H5 • Restoration Ecology I

Restoration ecology is an emerging cross-disciplinary field of study that concerns human activities undertaken to

promote the recovery, health, integrity and sustainability of degraded ecosystems. This course introduces the fundamental concepts of ecological restoration, addressing topics such as assessing ecosystem health, resilience, resistance and stability; community structure and biodiversity; invasive species; ecosystem processes and functions; societal aspects of ecological restoration (e.g., the relationship between social, economic and environmental sustainability).

Prerequisites: 14 credits including ENV100Y5 or BIO205H5

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

ENV496H5 • Restoration Ecology II

The follow-up course to Restoration Ecology I, ENV496H5 will build on its theoretical foundations to focus on student involvement in a variety of restoration projects planned or underway by Credit Valley Conservation and other groups in Mississauga and the greater Credit Valley watershed. The emphasis here is on planning and implementation of restoration projects; good scientific design; understanding policies and procedures; identifying and working with stakeholders, etc. Occasional field exercises may be scheduled during regular class meeting times.

Prerequisites: 14.0 credits including ENV495H5

Course Experience: University-Based Experience

Distribution Requirements: Science

Total Instructional Hours: 12L/24P

Mode of Delivery: In Class

ENV497H5 • Environmental Research Project

This independent project course is designed to give students experience in the definition and execution of a one-term research study on an environmental topic, under the guidance of a member of the faculty. Students who wish to pursue this option with a specific faculty member or who have an idea for a research project should approach the faculty member early - before the start of the academic term - to negotiate the terms of the project.

Prerequisites: 14.0 credits towards an Environmental Specialist or Major program and permission of instructor

Course Experience: University-Based Experience

Distribution Requirements: Social Science, Science

Total Instructional Hours: 12P

Mode of Delivery: In Class

JEG400Y5 • Geography / Environment Science Internship

Through a part-time, unpaid work placement, students apply the natural science based environmental science/physical geography expertise gained through

previous course work. Placements are made at local conservation authorities, municipalities, environmental consulting companies, corporations, provincial or federal agencies, and other organizations. Students must submit an application online. Instructions for the application can be found on the Geography Department home page: <https://utm.utoronto.ca/geography/field-internship-and-thesis-courses>

Prerequisites: 15.0-18.0 credits and permission of instructor

Exclusions: ENV400Y5 or GGR410Y5

Course Experience: Partnership-Based Experience

Distribution Requirements: Science

Mode of Delivery: In Class

JEG401Y5 • Geography / Environment Social Science Internship

Through a part-time, unpaid work placement, students apply the knowledge and expertise gained through previous course work in geography. Placements may be made in a range of settings. For example, placements may include municipal government, regional government, neighbourhood organizations and centres, corporations as well as with non-governmental organizations. Admission for this course will be through an online application. Instructions for the application can be found on the Geography Department home page: <https://utm.utoronto.ca/geography/field-internship-and-thesis-courses>

Prerequisites: 15.0-18.0 credits and permission of instructor

Exclusions: ENV400Y5 or GGR410Y5

Course Experience: Partnership-Based Experience

Distribution Requirements: Social Science

Mode of Delivery: In Class

JEG417Y5 • Honours Thesis

This course is designed to give students experience in the design and execution of an independent senior thesis under the supervision of a faculty member. **In order to register in the course, students must obtain approval from a supervisor, complete an application form and submit the form to the Department of Geography. Please refer to the Department of Geography website for details: <https://utm.utoronto.ca/geography/field-internship-and-thesis-courses>. This course may fulfill field day components. Please consult with your supervisor.**

Prerequisites: 14.0 credits

Course Experience: University-Based Experience

Distribution Requirements: Social Science, Science

Mode of Delivery: In Class

JEP351H5 • Comparative Environmental Policy

This course is an introduction to comparative environmental policy. The main focus of the course will be Canada-US-Mexico comparative policy around climate change, biodiversity, water resources, and pollution. Other countries may be examined as larger themes related to sustainable development and environmental justice will be covered in detail.

Prerequisites: 9.0 credits including (JP251H5 and JPE252H5) or JPE250Y5

Exclusions: ENV351H5

Recommended Preparation: This course is recommended for students with an interest in comparative politics and policy. Previous courses in comparative and international political science, geography and sociology will be an asset.

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

JEP356H5 • Environmental Justice

Environmental Justice is about the fair treatment of all people in the creation and implementation of environmental policies. It also provides a critical framework to analyze and understand inequalities of an environmental kind. These inequalities are often based around identities of race, class and gender, such that marginalized groups are made to bear the burden of environmental externalities like pollution. Why are First Nations in Canada less likely to have access to safe drinking water? Why are industrial plants often in low-income neighborhoods? After critical examinations of the theories and foundations of environmental justice, this course uses a case study approach to understanding the concepts and the ways in which it has shaped modern society.

Prerequisites: 9.0 credits

Distribution Requirements: Social Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

JEP452H5 • Politics and Policy of Wildlife Conservation

This course is an in-depth analysis of conservation policy in Canada. The course begins with an overview biodiversity crisis facing the planet and then moves to an overview of Canada's approach to managing biodiversity across the country. We will carefully examine the federal Species at Risk Act as well as the provincial and territorial wildlife legislation. The remaining of the course will be aimed at making improvements to the Canadian strategy. During the course of the semester, the students will focus on the recovery of endangered species in Canada through the development of a recovery strategy for a specific species.

Prerequisites: 14.0 credits including ENV100Y5 and JPE251H5

Exclusions: ENV452H5

Course Experience: University-Based Experience

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

JGE378H5 • Natural Hazards

Earth is a dangerous place and risk is an inherent feature of life on this planet. Some of the events and processes that we call "hazardous," such as earthquakes, volcanic eruptions, floods, tsunamis, cyclones, and forest fires are natural environmental processes. We define them as hazards only when they pose a threat to human interests. In this course we will examine natural hazards as well as some technological hazards, their causes, their potential impacts on people, and their management and mitigation.

Prerequisites: 9.0 credits

Exclusions: GGR378H5 or ERS317H5

Recommended Preparation: ENV100Y5 and ERS103H5 and ERS120H5 and GGR112H5

Distribution Requirements: Social Science, Science

Total Instructional Hours: 24L/12T

Mode of Delivery: Online, In Class

JPE251H5 • Introduction to Canadian Environmental Law and Policy I

This course serves as an introduction to environmental policy and law in Canada. The primary intent is to provide an overview of the political context in which environmental policy and law is made and implemented. The emphasis in this course will be on environmental policy. The course begins with an outline of the Canadian parliamentary system and policymaking process. A series of case studies, from biodiversity to climate change, are then explored as a way to see the policy process in action. [24L]

Prerequisites: 3.5 credits

Exclusions: JPE250Y5 or POL250Y5 or ENV250Y5 or ENV320H1

Distribution Requirements: Social Science

Total Instructional Hours: 24L/11T

Mode of Delivery: In Class

JPE252H5 • Introduction to Canadian Environmental Law and Policy II

This course builds on the themes and concepts introduced in JPE251H5. The primary intent is to provide an overview of the political context in which environmental policy and law is made and implemented. The emphasis in this course will be on environmental law. [24L]

Prerequisites: JPE251H5

Exclusions: JPE250Y5 or POL250Y5 or ENV250Y5 or

ENV320H1

Distribution Requirements: Social Science

Total Instructional Hours: 24L/11T

Mode of Delivery: In Class

Exceptionality in Human Learning

Faculty List

Faculty Advisor

Professor S.B. Kamenetsky

905-828-3958

stuart.kamenetsky@utoronto.ca

This program is designed to provide a broad scholarly foundation for addressing issues concerning children and adults who have disabilities and/or are gifted. Interested students might include:

1. those who at a later stage may wish to pursue more advanced work in psychology, special education, rehabilitation, social work, group home management, adult retraining, etc., or study in areas related to hearing or visual impairment, learning disabilities, developmental delay, physical disability, or related fields.
2. those wanting to know more about the psychology, sociology and biology of exceptional individuals, particularly as these become issues of public policy.

Students should also review the **Degree Requirements** section prior to selecting courses

Program WEB Page : <http://www.utm.utoronto.ca/psychology>

Exceptionality in Human Learning Programs

Exceptionality in Human Learning - Specialist (Science)

Enrolment Requirements:

Limited Enrolment — Enrolment is limited to students who have:

1. completed Gr. 12(4U) Biology and Advanced Functions or equivalent;
2. completed 8.0 credits;
3. completed PSY201H5 (or equivalent), PSY210H5, PSY240H5 and at least 1.0 credit of 200-level ANT/BIO/SOC courses with a minimum average of 75% across the 2.5 credits; and
4. a minimum CGPA of 2.70.

Students who do not meet these requirements and/or students who apply after third year must have a psychology average of at least 75% (based on a minimum of PSY201H5 and the next most recent 1.5 credits completed in psychology) as well as an AGPA of at least 2.7. These requirements are based on all courses taken during students' most recent academic year (including Summer, when applicable).

Completion Requirements:

13.0-14.5 credits are required, including at least 5.0 300/400-level credits of which 1.5 must be at the 400-level.

First Year: PSY100Y5; (ANT101H5, ANT102H5) / (BIO152H5, BIO153H5) / 1.0 credit from BIO202H5, BIO205H5, BIO206H5, BIO207H5/ SOC100H5

Second Year:

1. PSY201H5/ ECO220Y5/ ECO227Y5/ SOC350H5/ STA218H5/ STA220H5/
2. PSY210H5, PSY240H5
3. 0.5 credit from the following: PSY202H5 (or equivalent), PSY270H5, PSY280H5, PSY290H5, JLP285H5

Higher Years:

1. 3.0 credits from the following: PSY310H5, PSY311H5, PSY312H5, PSY313H5, PSY314H5, PSY316H5, PSY317H5, PSY318H5, PSY319H5, PSY321H5, PSY325H5, PSY330H5, PSY331H5, PSY333H5, PSY340H5, PSY341H5, PSY343H5, PSY344H5, PSY346H5, PSY353H5, PSY385H5, PSY391H5, PSY392H5, PSY393H5, JLP385H5, JLP388H5, JLP315H5, JLP383H5, LP384H5, JLP388H5,
2. PSY442Y5 and at least 0.5 credit from the following: PSY400Y5, PSY401H5, PSY403H5, PSY404H5, PSY405H5, PSY406H5, PSY410H5, PSY415H5, PSY440H5, PSY474H5, PSY495H5, PSY499H5, PSY499Y5, JLP481H5, JLP483H5
3. One of the following:
 - a. 2.0 credits from: ANT202H5, ANT203H5, ANT204H5, ANT205H5, ANT206H5, ANT207H5, ANT211H5, ANT212H5, ANT214H5, ANT215H5, ANT220H5, ANT241H5, ANT306H5, ANT322H5, ANT331H5, ANT332H5, ANT333H5, ANT334H5, ANT335H5, ANT337H5, ANT338H5, ANT341H5, ANT350H5, ANT352H5, ANT362H5, ANT364H5, ANT365H5, ANT401H5, ANT403H5, ANT434H5, ANT437H5, ANT460H5, ANT461H5, ANT462H5
 - b. 2.5 credits from: SOC205H5, SOC209H5, SOC211H5, SOC216H5, SOC219H5, SOC224H5, SOC227H5, SOC240H5, SOC244H5, SOC263H5, SOC275H5, SOC304H5, SOC307H5, SOC310H5, SOC316H5, SOC323H5, SOC332H5, SOC333H5, SOC341H5, SOC352H5, SOC356H5, SOC359H5, SOC371H5, SOC375H5, SOC380H5, SOC456H5, SOC457H5
 - c. 2.0 credits from: BIO202H5, BIO205H5, BIO206H5, BIO207H5, BIO210Y5, BIO315H5, BIO341H5, BIO370Y5, BIO371H5, BIO372H5, BIO375H5, BIO380H5, BIO403H5, BIO407H5, BIO434H5, BIO443H5, BIO476H5, BIO477H5; ANT202H5, ANT203H5, ANT331H5, ANT332H5, ANT333H5, ANT334H5
4. 2.5 additional credits to be selected from the following (no more than 1.0 credit from any one discipline):
ANT - Any course in 3(a) not counted previously
SOC - Any course in 3(b) not counted previously
BIO - Any course in 3(c) not counted previously
CHM - CHM242H5, CHM243H5, CHM341H5, CHM345H5, CHM347H5, CHM361H5, CHM362H5
ENG - ENG234H5, ENG384H5
FRE - FRE225Y5, FRE355H5
HIS - HIS310H5, HIS326Y5, HIS338H5
LIN - LIN101H5, LIN102H5, LIN200H5, LIN256H5, LIN258H5, LIN358H5, LIN380H5
JAL - JAL253H5, JAL355H5
PHL - PHL243H5, PHL244H5, PHL255H5, PHL267H5, PHL271H5, PHL272H5, PHL274H5, PHL277Y5, PHL282H5, PHL283H5, PHL290H5, PHL350H5, PHL355H5, PHL357H5, PHL358H5, PHL367H5, PHL370H5, PHL374H5, PHL376H5
RLG - RLG314H5
WGS - Any course

Note:

1. Students intending to complete Biology courses to satisfy Exceptionality in Human Learning Specialist requirements should thoroughly review Biology prerequisite requirements prior to enrolment to determine eligibility.

ERSPE1883

Exceptionality in Human Learning - Major (Science)

Enrolment Requirements:

Admissions to the Exceptionality in Human Learning Major are administratively suspended as of 2019-2020. Students currently enrolled in the program will be allowed to continue.

Limited Enrolment — Enrolment in this program is limited to students who have:

1. completed Gr. 12(4U) Biology and Advanced Functions or equivalent;
2. completed 4.0 credits;
3. a grade of at least 75% in PSY100Y5;
4. successfully completed 1.0 credit from BIO152H5/ BIO153H5/ BIO202H5/ BIO205H5/ BIO206H5/ BIO207H5; and
5. a minimum CGPA of 2.7

Completion Requirements:

7.0-7.5 credits are required, including at least 2.0 credit at the 300/400 level:

First Year: PSY100Y5; 1.0 credit from BIO152H5, BIO153H5, BIO202H5, BIO205H5, BIO206H5, BIO207H5

Higher Years:

1. PSY201H5/ ECO220Y5/ ECO227Y5/ SOC350H5/ STA215H5/ STA218H5/ STA220H5/
2. PSY210H5, PSY240H5
3. 2.5 credits from the following: PSY310H5, PSY311H5, PSY312H5, PSY313H5, PSY315H5, PSY316H5, PSY317H5, PSY318H5, PSY319H5, PSY321H5, PSY325H5, PSY331H5, PSY333H5, PSY340H5, PSY341H5, PSY343H5, PSY344H5, PSY345H5, PSY346H5, PSY353H5, PSY374H5, PSY376H5, PSY384H5, PSY391H5, PSY392H5, PSY393H5, PSY410H5, PSY440H5, PSY442Y5
4. 1.0 additional credit from the following: BIO202H5, BIO205H5, BOP206H5, BIO207H5, BIO210Y5, BIO315H5, BIO341H5, BIO370Y5, BIO371H5, BIO372H5, BIO375H5, BIO380H5, BIO403H5, BIO407H5, BIO434H5, BIO443H5, BIO476H5, BIO477H5; ANT202H5, ANT203H5, ANT331H5, ANT332H5, ANT333H5, ANT334H5

ERMAJ1883

Forensic Science

Faculty and Staff List

Professors Emeriti

W.R. Cummins, B.Sc., Ph.D.

U.J. Krull, B.Sc., M.Sc., Ph.D., FCIC

Professors

M. Dryer, B.A., M.Sc., M.Sc.BMC

Forensic Anthropology

T.L. Rogers, B.A., M.A., Ph.D.

Forensic Biology

N. Novroski, B.Sc., M.Sc., Ph.D.

Forensic Chemistry

V. Luk, BSc, MSc, PhD

Forensic Epistemology

R.R. Larsen, B.A., M.A., Ph.D.

Forensic Genomics

F. Wendt, B.Sc., Ph.D.

Forensic Psychology

D. Urbzat, B.Sc., LL.B., M.A., Ph.D.

Forensic Toxicology

K. Woodall, B.Sc., Ph.D.

Adjunct Professors

E. Liscio, P.Eng.

Part-time Faculty Lecturer – Criminal Law

C. Pakosh, J.D.

Part-Time Faculty Lecturer - Forensic Identification Specialist

Wade Knaap

Detective Constable (Retired)

Academic Advisor

Emily Nanjad-Griffith

murray.clayton@utoronto.ca

Program Director and Faculty Advisor

T.L. Rogers

tracy.rogers@utoronto.ca

Forensic Science is the study of physical evidence in a modern legal context. It is best defined as "science in service to the courts."

There are many subfields of Forensic Science including Forensic Anthropology, Forensic Biology, Forensic Chemistry, Forensic Psychology, etc. The single, unifying paradigm of Forensic Science is the search for truth and the meaning of evidence in both criminal investigations and through courts of law.

U of T Mississauga's Forensic Science BSc program, the first of its kind in Canada, is designed to provide the student with an understanding of scientific analyses, theories, laboratory skills, applications, and field techniques -- while allowing the student to emphasize one particular area in greater detail. This is accomplished through the requirement of either a Forensic Science Major program -- which must be pursued together with a second science major program in an approved area of study (see below for listings of approved second science majors) OR a Forensic Science Specialist program where students pursue one of the streams of specialization (see below for listings of areas of specializations).

ALL students contemplating Forensic Science as their intended area of study **MUST** first complete the required introductory university level courses (see specific FSC program for min. requirements) before they can apply to be considered for admission into the program.

The selection of the second science major is limited. While other majors must be approved by the FSC Faculty Advisor, the following are approved:

- **Anthropology B.Sc.** with emphasis on forensic and biological anthropology
- **Biology** with emphasis on forensic biology and molecular biology
- **Chemistry** with emphasis on forensic chemistry
- **Psychology** with emphasis on forensic psychology

Each of these approved second science majors has basic departmental requirements that must be fulfilled (students must check individual departmental listings for specific second science major program requirements). In addition to these basic requirements, there are provisions for a number of options.

Program website: <http://www.utm.utoronto.ca/forensic>

Forensic Science Programs

Forensic Anthropology - Specialist (Science)

Enrolment Requirements:

Limited Enrolment — Admission into the Forensic Anthropology program is by special application ONLY. To be considered for admission into the program, ALL students, including students admitted into the 1st year Forensic Science category, **MUST** submit a direct online FSC Application, upon completing the minimum program entry requirements. **Meeting the minimum requirements does not guarantee admission into the program.**

Minimum Requirements:

1. Completion of 4.0 credits; including 3.0 science credits.
2. Completion of **ANT101H5** with **75% or better** and **ANT102H5** with **75% or better** and **FSC239Y5** with a **70% or better**. (Students applying to enroll after second year must have completed **8.0 credits** and achieved at least **75% in each of ANT200H5, ANT202H5, ANT203H5 and ANT205H5**) and **FSC239Y5** with a **70% or better**.
3. A minimum Cumulative Grade Point Average of at least **3.0** *The actual minimum CGPA varies from year to year but is never lower than 3.0*

*** Students applying to this program in the 2024-2025 Academic Year (for program entry in the 2025-2026 Academic Year) will be required to have Grade 12(4U) Advanced Functions or equivalent.**

Application for admission into the program for ALL students can be found at: www.utm.utoronto.ca/forensic

Forensic Science Applications Open: **March 1 of each year**

Forensic Science Application Deadline: **May 1 of each year**

Completion Requirements:

A minimum of 15.5 credits are required.

First Year: ANT101H5, ANT102H5; BIO152H5, BIO153H5; FSC239Y5

Second Year: ANT200H5, ANT202H5, ANT203H5, ANT205H5; FSC271H5; STA215H5/ ANT407H5

Third Year: ANT306H5, ANT312H5/ ANT317H5, ANT334H5, ANT340H5; (FSC300H5, FSC302H5)/(FSC210H5, FSC303H5), FSC316H5, FSC330H5, FSC335H5, FSC340H5, FSC360H5

Fourth Year: ANT415H5, ANT436H5/ FSC307H5; ANT439H5, ANT441H5; FSC401H5, FSC439H5, FSC481Y5/(FSC482H5, FSC483H5/ FSC485H5)

NOTES:

1. The program requirements in effect at the time the student is admitted to the program must be met in order to fulfill the degree requirements.
2. Prospective students already holding a degree in Anthropology may not complete the Forensic Anthropology Specialist Program due to the overlap of course content for courses already completed in their first specialty.
3. **Students without pre- and co-requisites or written permission of the instructor can be de-registered from courses at any time.** Once a student has been admitted into a FSC program stream, written authorization from the Forensic Science program advisor **MUST** be obtained for any request of change in a student's area of study within the Forensic Science program.

ERSPE1338

Forensic Biology - Specialist (Science)

Enrolment Requirements:

Limited Enrolment — Admission into the Forensic Biology program is by special application ONLY. To be considered for admission into the program, ALL students, including students admitted into the 1st year Forensic Science category, **MUST** submit a direct online FSC application, upon completing the minimum program entry requirements. **Meeting the minimum requirements does not guarantee admission into the program.**

Minimum Requirements:

1. Completion of 4.0 credits; including 3.0 science credits
2. Completion of BIO152H5 with **65% or better** and BIO153H5 with **65% or better**
3. Completion of CHM110H5 with **65% or better** and CHM120H5 with **65% or better**
4. Completion of (MAT132H5, MAT134H5) / (MAT135H5, MAT136H5) / MAT134Y5 / MAT135Y5 / MAT137Y5 / MAT157Y5
5. Completion of FSC239Y5 with **70% or better**.
6. A minimum Cumulative Grade Point Average of at least **3.0**. **The actual minimum CGPA requirement varies from year to year but is never lower than 3.0**

Application for admission into the program for ALL students can be found at: www.utm.utoronto.ca/forensic

Forensic Science Applications Open: **March 1 of each year**

Forensic Science Application Deadline: **May 1 of each year**

Completion Requirements:

A minimum of 16.0 credits are required.

First Year: BIO152H5, BIO153H5; CHM110H5, CHM120H5; FSC239Y5; (MAT132H5, MAT134H5) / (MAT135H5, MAT136H5) / MAT134Y5 / MAT135Y5 / MAT137Y5 / MAT157Y5; PHY136H5, PHY137H5

Second Year: BIO206H5, BIO207H5, BIO259H5, (BIO208H5, BIO209H5) / FSC316H5; CHM242H5, CHM243H5; FSC271H5

Third and Fourth Years:

1. BIO362H5; CHM361H5; (FSC300H5, FSC302H5) / (FSC210H5, FSC303H5); FSC315H5, FSC330H5, FSC335H5, FSC340H5, FSC360H5
2. BIO458H5 / BIO372H5 / BIO341H5; FSC415H5, FSC416H5, FSC481Y5 / (FSC482H5, FSC483H5 / FSC485H5)
3. **0.5 additional credits from:** BIO341H5, BIO374H5, FSC307H5, FSC350H5, FSC370H5, FSC371H5, FSC401H5, FSC402H5, FSC406H5, FSC407H5

NOTES:

1. The program requirements in effect at the time the student is admitted to the program must be met in order to fulfill the degree requirements.
2. Prospective students already holding a degree in Biology, may not complete the Forensic Biology Specialist Program due to the overlap of course content already completed in their first specialty.
3. **Students without pre- and co-requisites or written permission of the instructor can be de-registered from courses at any time.**
4. Once a student has been admitted into a FSC program, written authorization from the Forensic Science program advisor **MUST** be obtained for any request of change in a student's area of study within the Forensic Science program.

ERSPE1410

Forensic Chemistry - Specialist (Science)

This program is accredited by the Canadian Society for Chemistry.

Enrolment Requirements:

Limited Enrolment — Admission into the Forensic Science-Chemistry program is by special application ONLY. To be considered for admission into the program, ALL students, including students admitted into the 1st year Forensic Science category, **MUST** submit a direct online FSC application, upon completing the minimum program entry requirements.

Meeting the minimum requirements does not guarantee admission into the program.

Minimum Requirements:

1. Completion of 4.0 credits; including 3.0 science credits.
2. Completion of CHM110H5 with **65% or better** and CHM120H5 with **65% or better**.
3. Completion of FSC239Y5 with **70% or better**.
4. Completion of (MAT132H5, MAT134H5) / (MAT135H5, MAT136H5) / MAT134Y5 / MAT135Y5 / MAT137Y5 / MAT157Y5.
5. A minimum Cumulative Grade Point Average of at least **3.0**. **The actual minimum CGPA requirement varies from year to year but is never lower than 3.0**

Application for admission into the program for ALL students can be found at: www.utm.utoronto.ca/forensic

Forensic Science Applications Open: **March 1st of each year**

Forensic Science Application Deadline: **May 1st of each year**

Completion Requirements:

A Minimum of 17.0 credits are required.

First Year: CHM110H5, CHM120H5, BIO152H5, FSC239Y5; (MAT132H5, MAT134H5) / (MAT135H5, MAT136H5) / MAT134Y5 / MAT135Y5 / MAT137Y5 / MAT157Y5; PHY136H5, PHY137H5

Higher Years:

1. BIO200H5, CHM211H5; JCP221H5, CHM231H5, CHM242H5, CHM243H5; FSC271H5
2. CHM311H5, CHM331H5/ CHM333H5, CHM361H5, CHM396H5, CHM397H5, STA220H5
3. (FSC300H5, FSC302H5) / (FSC210H5 / FSC370H5, FSC303H5), FSC311H5, FSC330H5, FSC340H5, FSC360H5, FSC402H5, FSC403H5
4. CHM414H5, CHM416H5
5. FSC481Y5/ (FSC482H5, FSC483H5/ FSC485H5) (with chemistry focus)

Note:

1. Students are strongly advised to consult the program advisor regarding their program of study.
2. Corequisite for CHM372H5 is CHM361H5.
3. Students are strongly urged to take as many forensic sciences courses as possible from the following list: ANT205H5, ANT306H5; FSC315H5, FSC316H5, FSC350H5, FSC406H5, FSC407H5; PSY328H5, PSY344H5.
4. The program requirements in effect at the time the student is admitted to the program must be met in order to fulfill the degree requirements.
5. Prospective students already holding a degree in Chemistry, cannot complete a Forensic Chemistry Specialist Program due to the overlap of course content for courses already completed in their first specialty.
6. **Students without pre- and co-requisites or written permission of the instructor can be de-registered from courses at any time.**
7. Once a student has been admitted into a FSC program stream, written authorization from the Forensic Science program advisor **MUST** be obtained for any request of change in a student's area of study within the Forensic Science program.

ERSPE1009

Forensic Psychology - Specialist (Science)

Enrolment Requirements:

Limited Enrolment — Admission into the Forensic Psychology Specialist Program is limited and admission is by special application ONLY. To be considered for admission into the program, ALL students, including students admitted into the 1st year Forensic Science category, **MUST** submit a direct online FSC application, upon completing the minimum program entry requirements. **Meeting the minimum requirements does not guarantee admission into the program. Minimum Requirements:**

1. Completion of any Gr.12(4U) Biology and Advanced Functions or equivalent*;
2. Completion of 4.0 credits, including 3.0 science credits
3. Completion of PSY100Y5 with a minimum average of **75%** or better
4. Completion of FSC239Y5 with a minimum average of **70%** or better
5. A minimum cumulative Grade Point Average of at least **3.0**. **The actual minimum CGPA requirement varies from year to year but is never lower than 3.0**

Students applying to enroll after second year must also have:

1. Completed **8.0 credits**.
2. Completed PSY201H5, PSY202H5 (or equivalent), FSC220H5, and at least an additional 1.0 credit in 200 series PSY courses with a minimum average of **77%** for those five half courses
3. A minimum cumulative Grade Point Average of at least **3.0**. ***The actual minimum CGPA requirement varies from year to year but is never lower than 3.0***

Application for admission into the program for ALL students can be found at: www.utm.utoronto.ca/forensic

Forensic Science Applications Open: **March 1 of each year** Forensic Science Application Deadline: **May 1 of each year**

Completion Requirements:

At least 15.5 credits are required.

First Year: PSY100Y5, FSC239Y5, BIO152H5, BIO153H5

Second Year:

1. PSY201H5, PSY202H5/equivalent
2. FSC271H5, FSC220H5
3. PSY210H5, PSY220H5, PSY230H5, PSY240H5, PSY270H5/ PSY274H5/ PSY280H5/ PSY290H5

Third and Fourth Year:

1. (FSC300H5, FSC302H5)/(FSC303H5, FSC316H5), FSC320H5, FSC330H5, FSC335H5, FSC360H5, FSC370H5; PSY309H5, PSY328H5/ PSY340H5/ PSY341H5/ PSY393H5, PSY344H5/ PSY346H5;
2. One laboratory course from: PSY329H5, PSY369H5
3. 0.5 credits from the following: FSC350H5, FSC351H5, FSC361H5, FSC371H5, FSC401H5, FSC402H5, FSC403H5, FSC406H5, FSC407H5
4. 0.5 credit from PSY 400 level series courses
5. FSC420H5, FSC481Y5/(FSC482H5, FSC483H5/ FSC485H5)

NOTES:

1. The program requirements in effect at the time the student is admitted to the program must be met in order to fulfill the degree requirements.
2. Prospective students already holding a degree in Psychology may not complete a Forensic Psychology Specialist Program due to the overlap of course content for courses already completed in their first specialty .
3. **Students without pre- and co-requisites or written permission of the instructor can be de-registered from courses at any time.**
4. Once a student has been admitted into a FSC program stream, written authorization from the Forensic Science program advisor **MUST** be obtained for any request of change in a student's area of study within the Forensic Science program.

ERSPE1505

Forensic Science - Major (Science)

Enrolment Requirements:

Limited Enrolment — Admission into the Forensic Science Major program is by special application ONLY and **MUST** be completed in conjunction with a second approved Science Major (see Notes 'Second Major' below). To be considered for admission into the program, ALL students, including students admitted into the 1st year Forensic Science category, **MUST** submit a direct online FSC Application, upon completing the Minimum Program Requirements listed below. **Meeting the minimum requirements does not guarantee admission into the program. Minimum Requirements:**

1. Completion of 4.0 credits; including 3.0 science credits.
2. Completion of FSC239Y5 with **70%** or better.
3. Completion of CHM110H5, CHM120H5 with **65%** or better.
4. Completion of (MAT132H5, MAT134H5) or (MAT135H5, MAT136H5) or MAT134Y5 or MAT135Y5 or MAT137Y5
5. A minimum Cumulative Grade Point Average of at least **2.7** The actual CGPA requirement in any particular year may exceed this value, in order to achieve a proper balance between enrolments and teaching resources.
6. Enrolment in an Approved Second Major (See Second Major Notes: 1).

Application for admission into the program for ALL students can be found at: www.utm.utoronto.ca/forensic

Forensic Science Applications Open: **March 1 of each year**

Forensic Science Application Deadline: **May 1 of each year**

Completion Requirements:

Note: This program must be taken concurrently with a second Major program (see notes below).

9.0 credits are required including at least 2.0 at the 300/400 level.

First Year: BIO152H5, BIO153H5; CHM110H5, CHM120H5; FSC239Y5; (MAT132H5, MAT134H5) / (MAT135H5, MAT136H5) / MAT134Y5 / MAT135Y5 / MAT137Y5; PHY136H5, PHY137H5

Second Year: CHM242H5, CHM243H5; FSC271H5; ANT407H5/ STA215H5/ STA220H5/ PSY201H5

Third Year: FSC303H5/ FSC300H5; FSC330H5; FSC360H5;

Fourth Year: 0.5 credit from the following: FSC302H5, FSC307H5, FSC311H5, FSC314H5, FSC315H5, FSC316H5, FSC320H5, FSC335H5, FSC340H5, FSC350H5, FSC351H5, FSC361H5, FSC370H5, FSC401H5, FSC402H5, FSC403H5, FSC406H5, FSC407H5, FSC416H5, FSC430H5, FSC489H5

NOTES:

1. The Forensic Science Major **MUST** be completed in conjunction with one of the following approved second major programs: **Anthropology (Science)**, **Biology**, **Chemistry**, **Computer Science** or **Psychology** (Other 2nd Majors may be possible with permission of the Forensic Science program director).
2. Students intending to complete the Forensic Science Major with an Anthropology Major **MUST** select the **ERMAJ0105 Anthropology (Science) Major**. As part of the ANT (SCI) Major requirement of 3.0 additional ANT credits, students are recommended to choose from the following: ANT205H5; ANT306H5, ANT334H5, ANT340H5, ANT415H5, ANT436H5, ANT439H5.
3. For information on program requirements and enrolment procedures for each of the second major programs, students should consult the individual departmental faculty advisor or the departmental program descriptions listed within this calendar.
4. In each of the 2nd majors, certain courses are compulsory and where a choice of courses is available, students should consult the Forensic Science Student Advisor for the most appropriate selection.
5. The program requirements in effect at the time the student is admitted to the program must be met in order to fulfill the degree requirements.
6. Once a student has been admitted into a FSC program stream, written authorization from the Forensic Science program advisor **MUST** be obtained for any request of change in a student's area of study within the Forensic Science program, **including the second science major**.
7. Prospective students already holding a degree in Biology, Chemistry, Psychology or Anthropology may not complete a Forensic Science program in their first specialty due to the overlap of course content for courses already completed.

ERMAJ0205

Forensic Science - Minor (Science)

A minor program that can be taken in combination with any specialist or major program, including from the Social Sciences and Humanities. The minor program introduces students to the core tenets of Forensic Science: evidence recovery; scientific analysis; quality assurance; evidence-based interpretation; peer review; and communication of results as they relate to the Canadian legal system. Students will be exposed to forensic techniques and approaches, helping them to understand how they can be utilized in other fields of study. This program will complement degrees in criminology, sociology, geography, political science, and any other field that intersects with the legal system. Students will learn forensic theory and at least one applied skill set through lectures and labs.

Enrolment Requirements:

Limited Enrolment — A final grade of 75% is required in [FSC239Y5](#).

Completion Requirements:

4.0 credits are required.

First Year: [FSC239Y5](#)

Second Year: [FSC271H5](#)

Third Year: [FSC303H5](#), [FSC360H5](#) and 0.5 credit from [FSC210H5](#), [FSC220H5](#), [FSC307H5](#), [FSC311H5](#), [FSC314H5](#), [FSC315H5](#), [FSC316H5](#), [FSC320H5](#), [FSC330H5](#), [FSC335H5](#), [FSC350H5](#), [FSC351H5](#), [FSC361H5](#), [FSC370H5](#),

Fourth Year:

- [FSC430H5](#)
- 0.5 credit from [FSC401H5](#), [FSC402H5](#), [FSC403H5](#), [FSC406H5](#), [FSC415H5](#), [FSC416H5](#), [FSC420H5](#)

Some third-year and fourth-year courses listed above have additional pre-requisites. Students interested in these courses should plan their courses appropriately to ensure that the stated pre-requisites are met. Students without pre- and co-requisites or written permission of the instructor can be de-registered from courses at any time.

[ERMIN0205](#)

Students are strongly advised to consult with the Forensic Science program advisor who can provide recommended courses among these options to direct student preparation for a career in their chosen field of interest. Students are also advised to consult with the individual departmental faculty student advisor for recommended guidelines for course selection within their second science major.

In addition to the Forensic Science (Double) Major program, the following Forensic Science Specialist programs are available for more directed study: Forensic Anthropology; Forensic Biology; Forensic Chemistry and Forensic Psychology.

Notes:

Entry into the Forensic Science programs is limited. **Students are urged to read program information in this calendar very carefully.** Entry into all Forensic Science Programs is by special application only. Forensic Science programs direct on-line application and application procedures are available at: www.utm.utoronto.ca/forensic

- **Applications open:** March 1 of each year.
- **Application deadline:** May 1 of each year.

Forensic Science Courses

ANT205H5 • Introduction to Forensic Anthropology

Introduction to the field of forensic anthropology. Outlines the areas in which forensic anthropologists may contribute to a death investigation and introduces basic concepts relating to the recovery and analysis of human remains.

Prerequisites: [ANT101H5](#) or [BIO152H5](#)

Distribution Requirements: Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

ANT439H5 • Advanced Forensic Anthropology

Forensic anthropologists are responsible for the search, recovery, and analysis of human skeletal remains in modern contexts. This course will explore the knowledge and skills used by forensic anthropologists to reconstruct the biological profile of the deceased, make an identification, contribute to the determination of manner and mode of death, understand the events that took place at the scene, and to provide an estimate of time since death.

Prerequisites: [ANT205H5](#) and [ANT334H5](#)

Corequisites: [ANT340H5](#)

Recommended Preparation: [ANT306H5](#)

Distribution Requirements: Science

Total Instructional Hours: 12L/36P

Mode of Delivery: In Class

FSC100H5 • The Real CSI

This class introduces the science of Crime Scene Investigation and related forensic specialties. Students will learn about the latest scientific developments in the field, contrasting these to popular portrayals of CSI in the media, and addressing the impact of popular portrayals on juror expectations, knowledge and misconceptions. Note: This is a general first year course open to everyone. PLEASE NOTE: The required FSC Program 1st year introductory course is: [FSC239Y5](#) Introduction to Forensic Science

Exclusions: [FSC239Y5](#)

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

FSC101H5 • The Real Law & Order

As a compliment to FSC100, this class transports students from the crime scene to the courtroom, to learn how forensic evidence and scientific methods hold up in court to become admissible. Students will discover the differences between approved and junk science, and see how emerging forensic sciences contribute to exonerations, addressing the impact of popular media portrayals on juror expectations, knowledge and misconceptions. Note: This is a general first year course open to everyone. PLEASE NOTE: The required FSC Program 1st year introductory course is: [FSC239Y5](#) Introduction to Forensic Science

Prerequisites: [FSC100H5](#)

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

FSC210H5 • Physical Evidence and Microscopy

Forensic Science examines physical evidence in relation to the law. There are a number of scientific techniques used to characterize physical evidence, but perhaps the most utilized technique is microscopy. In this course, students will practice how to process and characterize trace evidence using a number of different microscopy techniques, such as stereomicroscope, polarized light microscope (PLM), comparison microscope, scanning electron microscope (SEM), and confocal microscope. The theory and operation behind each microscopy technique will be discussed during lecture, while students will have the opportunity to operate the different microscopes during laboratory sessions.

Prerequisites: [FSC239Y5](#)

Distribution Requirements: Science

Total Instructional Hours: 24L/24P

Mode of Delivery: In Class

FSC220H5 • Introduction to Forensic Psychology

This course provides an introductory overview of the many ways psychological research and theories (i.e. behavioural science) can deliver useful information in collecting and assessing evidence for criminal investigation, trial, and prevention. Topics may include: eyewitness testimony, deception, criminal profiling, false confession, mental illness, victim trauma, criminal responsibility, risk assessment, serial killing, hate crimes, sexual offending, prejudiced policing, and jury decision-making. The aim of this course is to give students general insight into the various applied specializations of forensic psychologists.

Prerequisites: [PSY100Y5](#)

Distribution Requirements: Science

Total Instructional Hours: 36L
Mode of Delivery: In Class

FSC239Y5 • Introduction to Forensic Science

Forensic science is the application of any scientific inquiry into criminal investigation. The results of such inquiry are ultimately for presentation in courts of law. Specialists in forensic science will lecture on a variety of topics that will include crime scene investigation, the role of the coroner, forensic pathology, forensic chemistry, forensic botany, forensic entomology, forensic anthropology, forensic dentistry, psychology and toxicology. Case studies will be reviewed, and the role of the expert witness will be examined.

Enrolment Limits: Priority given first to Forensic Science Specialists and Majors; then Minors.

Distribution Requirements: Science

Total Instructional Hours: 48L/8T

Mode of Delivery: In Class

FSC271H5 • Ethics and Professionalism in Forensic Science

This course covers the importance of professionalism and ethical behaviour for Forensic Scientists. It looks at the role of the Forensic Scientist and the expert witness and the consequences when ethical guidelines are not followed.

Prerequisites: FSC239Y5

Enrolment Limits: Priority given first to Forensic Science Specialists and Majors; then Minors.

Distribution Requirements: Science

Total Instructional Hours: 24L/12S

Mode of Delivery: In Class

FSC300H5 • Forensic Identification

Focusing on the scene of the crime and evidence found there, this course is an introduction to the field of forensic identification. Topics include: crime scene protocols, management and reconstruction; image collection, storage and enhancement; recognition collection; and chain of custody and preservation of evidence.

Prerequisites: FSC239Y5 and FSC271H5

Enrolment Limits: Priority given first to Forensic Science Specialists and Majors

Distribution Requirements: Science

Total Instructional Hours: 24L/24P

Mode of Delivery: In Class

FSC302H5 • Advanced Forensic Identification

Continuing from FSC300H5, this course focuses on advanced crime scene examination and the use of evidence detection techniques. Topics include: advanced fingerprint development techniques, footwear collection and identification, analysis report writing, bloodstain pattern interpretation and crime scene plan drawing. Additional topics discuss biometrics, examiner bias, the expert witness, crime scene examination protocols and courtroom testimony.

Prerequisites: FSC300H5

Enrolment Limits: Priority given first to Forensic Science Specialists and Majors.

Distribution Requirements: Science

Total Instructional Hours: 24L/24P

Mode of Delivery: In Class

FSC303H5 • Techniques of Crime Scene Investigation

This course will provide students with an introduction to forensic photography, crime scene processing, and forensic identification. Topics include, but are not limited to: fingerprint identification, chance impression evidence, physical evidence, crime scene and victim photography, and proper documentation of a crime scene. Students will gain an understanding of the basic "toolkit" required for crime scene processing, and learn the fundamentals of proper collection and analysis of physical evidence. As an alternative to (FSC300H5, FSC302H5), this course satisfies the third year IDENT requirement needed for enrolment in FSC481Y5, FSC482H5, FSC483H5, and FSC485H5. Note: This course **does not** satisfy the IDENT requirement for FSC407H5.

Prerequisites: FSC239Y5 and FSC271H5

Exclusions: FSC300H5 or FSC302H5

Distribution Requirements: Science

Total Instructional Hours: 12L/24P

Mode of Delivery: In Class

FSC307H5 • Missing Persons DVI and Unidentified Human Remains

The goal of this course is to gain a basic understanding of the case management involved in missing persons, disaster victim identification, and unidentified human remains cases. Topics covered will include the interdisciplinary interactions between anthropology, odontology, fingerprinting and forensic genetics in the identification and databasing of both missing persons and recovered unidentified human remains.

Prerequisites: (ANT202H5 or BIO207H5). Priority given first to students enrolled in the Forensic Specialist Program and Forensic Science Majors.

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

Total Instructional Hours: 36L/36P
Mode of Delivery: In Class

FSC311H5 • Forensic Chemistry

This course focuses on the analysis of physical evidence based on the principles of analytical chemistry. Students will gain knowledge in the theory and operation of forensically relevant chemical and instrumental techniques used for the analysis of evidentiary items, including drug/alcohol analysis, gunshot residue, explosives, paint analysis, etc. Students will also develop skills relating to the interpretation, limitation, and implications of analytical results in a forensic context. (Priority given first to Forensic Science Specialists and Majors; then Minors.)

Prerequisites: CHM211H5 and (CHM110H5 and CHM120H5) or CHM140Y5

Recommended Preparation: FSC239Y5 and CHM311H5

Distribution Requirements: Science

Total Instructional Hours: 36L/36P

Mode of Delivery: In Class

FSC314H5 • Current Trends in Forensic Biology

A lecture-based course examining contemporary topics in forensic biology. The course will emphasize group discussion where students will examine, review, criticize, and present on current trends and fundamental topics within forensic biology, which could include evidence screening and serology, DNA analysis methodology, forensic technological developments/enhancements as well as current ethical and/or political changes in the field. The implications and applications of forensic biology research advances will also be explored. The theme of the course is expected to be topical and current, and to vary from year to year to accommodate the interests of both the students enrolled in the course and the faculty member(s) teaching the course.

Prerequisites: BIO152H5, FSC239Y5, FSC271H5

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

FSC315H5 • Forensic Biology

This course focuses on the analysis and interpretation of biological evidence in a forensic context. Students will gain knowledge in the theory and operation of forensically relevant biological and instrumental techniques used for the analysis of evidentiary items, including DNA, bodily fluids, hair, etc. Students will also develop skills relating to the interpretation, limitation, and implications of analytical results in a forensic context. (Priority given first to Forensic Science Specialists and Majors; then Minors.)

Prerequisites: BIO206H5 and BIO207H5

Distribution Requirements: Science

FSC316H5 • Forensic Anatomy

This course examines the body as forensic evidence. Human gross anatomy and histology will be examined from the perspective of forensic pathology, students will learn about the role of the body in crime scene analysis, autopsy procedures such as fingerprinting and forensic imaging of the deceased, and address anatomical anomalies useful for forensic purposes such as identification. Other topics include bodily decomposition, disease, and injuries.

Prerequisites: FSC239Y5 and FSC271H5

Corequisites: FSC360H5

Enrolment Limits: Preference given to FSC Specialists and Majors.

Distribution Requirements: Science

Total Instructional Hours: 12L/24P

Mode of Delivery: In Class

FSC320H5 • Forensic Psychopathology

Pathology is the study of disease and psychopathology is the study of mental illness. In Forensic Psychopathology, then, we make inquiries about mental illness in the context of forensic practices. In this course, we will explore multiple topics in the field providing the student with a general insight into its history, scientific merits, and practical relevance. We will survey prevailing theories on mental health, illness, and treatment. Investigate psychiatric diagnoses such as (juvenile) Conduct Disorder, Antisocial Personality Disorder, and Psychopathy, hereunder their application and relevance in risk assessment, behavior prediction, and offender rehabilitation. We will also discuss methodological, ethical, and legal issues in the field, for example, the scientific validity of psychiatric diagnostics, the ethical implications of using psychiatric assessments in forensic institutions, and the legal responsibility of mentally ill offenders.

Prerequisites: FSC220H5 and FSC271H5

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

FSC330H5 • Best Practices in Forensic Science

This course will guide students through the common fundamentals of quality assurance, health & safety, resiliency and post-traumatic stress disorder (PTSD) training and report writing in forensic science professions.

Prerequisites: FSC271H5

Distribution Requirements: Science

Total Instructional Hours: 24L/12S

Mode of Delivery: In Class

FSC335H5 • Forensic Epistemology and Theory

This course will explore and discuss the basic role of a forensic scientist and what it means to be scientifically informed.

Prerequisites: FSC239Y5 and FSC271H5

Enrolment Limits: Priority given to FSC Specialists, Majors and then Minors.

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

FSC340H5 • Research Design

This course introduces students to common methods of research design and the nature of data collection. Students will learn how to pose a meaningful research questions, to select appropriate data types, to define variables, examine bias, confounding factors, and select appropriate statistics that address their purpose.

Prerequisites: FSC271H5

Distribution Requirements: Science

Total Instructional Hours: 12L/24P

Mode of Delivery: In Class

FSC341H5 • Applied Forensic Statistics

Designed as a companion course to FSC340H5, Forensic Statistics will introduce students to basic analytic methods necessary to evaluate quantitative data in forensic science. Students will learn methods of visualizing and analyzing univariate, bivariate, and multivariate data in forensic science, with emphasis on practical applications of statistics in various forensic sub-disciplines. No prior knowledge of statistics and mathematics is required.

Prerequisites: FSC239Y5

Distribution Requirements: Science

Total Instructional Hours: 12L/24P

Mode of Delivery: In Class

FSC350H5 • Special Topics in Forensic Science

A survey of recent developments in theory and applications of forensic science with particular attention to case studies in a particular branch of forensic science. The contact hours for this course may vary in terms of contact type (L,S,T,P) from year to year, but will be between 24-36 contact hours in total. See the UTM Timetable.

Prerequisites: FSC239Y5 or permission of instructor

Enrolment Limits: Priority given to Forensic Science

Specialists and Majors.

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

FSC351H5 • Advanced Topics in Forensic Science

A survey of recent developments in theory and applications of forensic science with particular attention to case studies in a particular branch of forensic science. The contact hours for this course may vary in terms of contact type (L,S,T,P) from year to year, but will be between 24-36 contact hours in total. See the UTM Timetable.

Prerequisites: FSC239Y5 or permission of instructor

Enrolment Limits: Priority given to Forensic Science Specialists and Majors.

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

FSC360H5 • Evidence, Law and Forensic Science in Canada

This course will explore the position of forensic science within the law in Canada. The focus will be on the evolution of the acceptance of forensic science in Canadian criminal law and its current position within the legal system. Topics include: Evidence law, expert evidence law, defining the expert, differing standards of legal acceptance for police sciences and others. Important historical documents and legal advancements will be surveyed.

Prerequisites: FSC239Y5 and FSC271H5

Enrolment Limits: Priority given first to Forensic Science Specialists and Majors; then Minors.

Distribution Requirements: Social Science

Total Instructional Hours: 24L/12S

Mode of Delivery: In Class

FSC361H5 • Mental Illness and the Criminal Justice System

This course will develop students' knowledge of forensic mental health issues throughout the criminal justice system, including the nature and extent of mental illness in our society and the various legal, social and ethical issues that arise when a mentally disordered individual comes into contact with the criminal justice system. Topics to be explored include: the medical and legal definitions of mental disorder and their relationship to each other; the criteria for state-compelled treatment and how it impinges upon individual autonomy; the changing views of the justice system's duty to accommodate victims and witnesses with mental health issues; fitness to stand trial

and the defense of not criminally responsible; and the Review Board process.

Prerequisites: FSC271H5

Enrolment Limits: Priority is given to FSC Specialists, FSC Majors and FSC Minors

Distribution Requirements: Social Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

FSC370H5 • Forensic Psychopharmacology

This course introduces students to the area of psychopharmacology (drug induced changes in mood, thinking and behaviour). The mechanisms of action of drugs in the nervous system and their effects on the brain and on behaviour will be explored and the significance of psychopharmacology in criminal investigations and trials will be discussed.

Prerequisites: FSC239Y5 and FSC271H5 and BIO152H5

Distribution Requirements: Science

Total Instructional Hours: 24L/12S

Mode of Delivery: In Class

FSC371H5 • The Science of Cannabis

This course introduces students to the science of cannabis. Students will learn about the constituents of cannabis, methods of analysis and the pharmacology of cannabinoids. In addition, the role of cannabis in forensic case work will be explored.

Prerequisites: FSC370H5

Distribution Requirements: Science

Total Instructional Hours: 24L/12S

Mode of Delivery: In Class

FSC399Y5 • Research Opportunity Program

This course provides senior undergraduate students who have developed some knowledge of a discipline and its research methods an opportunity to work in a research project. Students enrolled have an opportunity to become involved in original research, develop their research skills and share in the excitement and discovery of acquiring new knowledge. This course is aimed at facilitating International Research Opportunities offered at U of T's partner institutions and coordinated through the Centre for International Experience. See Experiential and International Opportunities for more details.

Distribution Requirements: Science

Mode of Delivery: In Class

FSC401H5 • Forensic Pathology

This is a general introduction of the scientific and medical basis of forensic pathology. The scientific aspects of death investigation will be emphasized including cause, manner, and time of death. Emphasis will be placed in developing skills to critically examine the published forensic scientific and medical literature. Also included are human rights death investigation, and custodial death.

Prerequisites: FSC239Y5 and (FSC316H5 or BIO210Y5)

Recommended Preparation: FSC271H5

Enrolment Limits: Priority given first to Forensic Science Specialists and Majors; then Minors.

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

FSC402H5 • Forensic Toxicology

Forensic toxicology involves the study of the adverse effects of drugs, alcohol and poisons on biological systems in a medicolegal context. This course will include a review of pharmacokinetics, analytical techniques and quality assurance measures used in forensic toxicology, the effects of drugs on human performance and post-mortem toxicology of illicit drugs, pharmaceutical drugs and other poisons. The major focus of this course will be the role that a forensic toxicologist plays in criminal and death investigations.

Prerequisites: FSC239Y5 and [(CHM110H5 and CHM120H5) or CHM140Y5]

Recommended Preparation: FSC271H5

Enrolment Limits: Priority given first to Forensic Science Specialists and Majors; then Minors.

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

FSC403H5 • Forensic Analytical Toxicology

Analytical toxicology is the isolation, detection, identification, and quantitation of foreign compounds (xenobiotics) in biological and other specimens. This course integrates theoretical and practical aspects of analytical chemistry with forensic toxicology. General aspects of method development, implementation, validation, and laboratory operation will be explored.

Prerequisites: FSC239Y5 and CHM211H5

Recommended Preparation: CHM311H5 and FSC402H5

Distribution Requirements: Science

Total Instructional Hours: 24L/15P

Mode of Delivery: In Class

FSC406H5 • Introduction To 3D Crime Scene Mapping And Reconstruction

This course introduces students to both standard and innovative methods of documenting, mapping, analyzing, and visualizing/reconstructing a crime scene for investigative purposes, including: total stations; laser scanners; panoramic images; and photogrammetry. Course topics range from basic measurement theory and statistics, to legal considerations such as admissibility and preparing courtroom-ready visualizations. Students will learn to use forensic mapping software to create courtroom-ready graphics.

Prerequisites: FSC300H5 or FSC303H5

Enrolment Limits: Priority given first to Forensic Science Specialists and Majors; then Minors.)

Distribution Requirements: Science

Total Instructional Hours: 12L/24P

Mode of Delivery: In Class

FSC407H5 • Forensic Identification Field School

A field course to complement the material covered in both FSC300H, Forensic Identification & FSC302H, Advanced Forensic Identification. The field school will be held on the U of T Mississauga Campus over a 2-week period during the summer term and during weekly two hour labs in the fall term. In these classes, students will experience practical exposure to field and laboratory methods related to evidence recognition, collection and interpretation. Emphasis will be placed on the types of evidence collected, processed, and analyzed by forensic identification specialists. General evidence and small object photography techniques will be an important component of the course.

Prerequisites: [FSC239Y5 and (FSC300H5 and FSC302H5)] or Permission of Instructor

Enrolment Limits: Priority given to Forensic Science Specialists and Majors. Limited Enrolment and Course Application required. Application Process see:

<https://www.utm.utoronto.ca/forensic/applications>

Distribution Requirements: Science

Total Instructional Hours: 104P

Mode of Delivery: In Class

FSC415H5 • Advanced Methods in Forensic Biology

This advanced course explores the methodologies and data interpretation of forensic DNA typing, and other forensic biology techniques. The course will cover the principles, protocols, and current practices in an effort to understand the “what”, “how” and “why” of DNA analysis in a forensic context. Students will also learn about new and future trends in the field of forensic DNA typing, where discussion and evaluation of the primary literature is a key component of this course. Practical sessions will focus on the advanced techniques discussed in lecture.

Prerequisites: FSC315H5

Distribution Requirements: Science

Total Instructional Hours: 36L/36P

Mode of Delivery: In Class

FSC416H5 • Population Genetics

This course introduces students to the genetic variation between and within populations. The topics include evolutionary forces, quantitative genetics, and Bayesian statistics as it applies to forensic biology.

Prerequisites: (ANT202H5 or BIO207H5) and BIO259H5

Exclusions: EEB459H1

Distribution Requirements: Science

Total Instructional Hours: 24L/12S

Mode of Delivery: In Class

FSC420H5 • Field and Lab Methods in Forensic Psychology

This course introduces students to field practices and research procedures in Forensic Psychology. The topics in field practice may include, but are not limited to: administering risk assessment; conducting semi-structured patient interviews; fitness to stand trial assessment; mental health diagnostics; psychological profiling in criminal investigation; administering patient records; trial preparation. The tasks related to research procedures may include, but are not limited to: research literature searches and citation management; writing ethics proposals; data collection, annotation, analysis, and storage; writing abstracts, critical analysis, and methods; writing peer-review responses; formalizing and executing research theory, hypotheses and design.

Prerequisites: FSC220H5 and PSY344H5

Distribution Requirements: Social Science

Total Instructional Hours: 12L/36P

Mode of Delivery: In Class

FSC430H5 • Seminar in Forensic Science

As a capstone course, FSC430H5 is intended to apply the unique interdisciplinary perspectives acquired by students enrolled in the Forensic Science Minor. This course will address key themes in forensics, and culminate in a collaborative course project, informed and shaped by these perspectives. Students can expect to work in partnerships, groups, or teams to investigate and discuss major issues, hot topics, historical events or growing bodies of knowledge that contribute to a broader understanding of forensic science and how it is relevant across many, if not all disciplines. Restricted to students enrolled in the Forensic Science Minor.

Prerequisites: FSC360H5

Enrolment Limits: Restricted to students enrolled in the Forensic Science Minor.

Distribution Requirements: Science, Social Science
Total Instructional Hours: 36S
Mode of Delivery: In Class

FSC439H5 • Forensic Anthropology Case Analysis

This course offers a case-based approach to forensic anthropology. Students will critically evaluate real forensic anthropological cases, in addition to completing their own mock cases - from the transfer of evidence to a mock trial.

Prerequisites: ANT439H5

Enrolment Limits: Priority is given to Forensic Anthropology Specialists

Distribution Requirements: Science

Total Instructional Hours: 12L/36P

Mode of Delivery: In Class

FSC481Y5 • Internship in Forensic Science

As the capstone experience for the Forensic Science Specialist Programs, this course provides students with professional practice and research experience. Students are required to attend classes that address proper research design and methodology, as well as issues of professional practice in the forensic sciences including: ethics; research protocols; written and verbal communication skills; professional communication (interviews, letters, emails, reports, presentations, and publications); and expert witness testimony. Students will also be placed with a participating forensic agency to conduct research and gain an understanding of the unit's daily operations. In addition to practice presentations, critiques, an ethics approval application, a 10-15 page research proposal, and a mock interview, students are required to formally present the results of their research at the annual Forensic Science Day symposium and submit a publication quality manuscript of their work. Note: Internship Placements are arranged by the FSC Program. Students MUST apply for this course and the Course Application is due in the February preceding the placement. Course Application, Information & Procedures: <https://www.utm.utoronto.ca/forensic/applications> There will be an information session regarding Internship Placements, preceding the application period. Students must have one free day (Monday - Friday) to work at their internship placement site and must be in the final year before graduation. Students are expected to provide their own transportation to placement work site.

Prerequisites: Enrolment in a Forensic Science Specialist Program and completion of the forensic program statistics course(s) requirement and any third-level IDENT course, and permission of instructor.

Exclusions: FSC482H5 or FSC483H5 or FSC485H5

Distribution Requirements: Science

Mode of Delivery: In Class

FSC482H5 • Professional Practice in Forensic Science

This course will address practical considerations of professional practice, including professional writing, ethics in research, interviews, mock trial, and journal publication. Students MUST apply for this course. Course Application & Procedures:

<https://www.utm.utoronto.ca/forensic/applications>

Prerequisites: Enrolment in a Forensic Science Specialist Program and completion of the forensic program statistics course(s) requirement and any third level IDENT course and permission of instructor.

Corequisites: FSC483H5 or FSC485H5

Exclusions: FSC481Y5

Enrolment Limits: Restricted to Forensic Science Specialists.

Distribution Requirements: Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

FSC483H5 • Collaborative Research Internship

As the alternative capstone experience, this course provides students the opportunity to work in a cross-disciplinary collaborative environment to address case-based research questions. Note: Topics will be made available at the time of application. Students MUST apply for this course and the course application is due in the February preceding the internship. Course Application & Procedures:

<https://www.utm.utoronto.ca/forensic/applications> There will be an information session regarding this course, preceding the application period. Students must have one free day (Monday - Friday) to work on their collaborative research internship and must be in the final year before graduation.

Prerequisites: Enrolment in a Forensic Science Specialist Program and completion of the forensic program statistics course(s) requirement and any third-level IDENT course and permission of instructor.

Corequisites: FSC482H5

Exclusions: FSC481Y5 or FSC489Y5 or FSC485H5

Distribution Requirements: Science

Mode of Delivery: In Class

FSC485H5 • Professional Opportunity in Forensic Science

This course provides students with the opportunity to engage in, and reflect on, a professional forensic experience that contributes to their employment eligibility after graduation. They will develop networking skills, enhance professional competencies, and are given the opportunity to locate and select their own experience relevant to their career goals, which may include (but is not limited to) a possible: work-study position, conference workshop, professional certification, field school, paid or

unpaid internship or agency co-op. All opportunities must be approved by the program director in the term prior to enrolment.

Prerequisites: Completion of the forensic program statistics course(s) requirement and any third-level IDENT course and permission of instructor.

Corequisites: FSC482H5

Exclusions: FSC483H5 or FSC481Y5

Enrolment Limits: Restricted to Forensic Science Specialists. Course Application required.

Distribution Requirements: Science

Mode of Delivery: In Class

FSC489H5 • Advanced Independent Project

For students wishing to complete original research, a feasibility study, critical review of the literature or position paper leading towards a publishable report.

Prerequisites: Permission of Program Director.

Recommended Preparation: (Restricted to Forensic Science Specialists and Majors.)

Distribution Requirements: Social Science, Science

Mode of Delivery: In Class

HSC403H5 • Visualization of Forensic Demonstrative Evidence

This course examines the visual representation of forensic demonstrative evidence in Canadian courtrooms. A case-based approach simulates professional practice. Forensic

anthropology, biology and visual communication theory are explored in new media for presentation. Visual problem solving skills are developed through collaboration. In class, presentations and practica are combined with critical analysis of visualizations.

Prerequisites: 10.0 credits, including ANT205H5 or ANT306H5 or (BIO208H5 and BIO209H5) or BIO210Y5 or FSC239Y5

Distribution Requirements: Science

Total Instructional Hours: 12L/24P

Mode of Delivery: In Class

HSC405H5 • Digital Forensic Facial Reconstruction

This course examines the technical, anatomical, and sociological considerations involved in the three-dimensional digital forensic facial reconstruction. Human facial anatomy, traditional reconstruction techniques, and the use of 3D animation software are the core areas of study. Using this knowledge, students reconstruct the facial identity of an individual known only from cranial skeletal remains.

Prerequisites: (HSC200H5 and one of the following courses: HSC300H5 or HSC301H5 or HSC302H5 or HSC307H5) or permission of instructor

Distribution Requirements: Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

The French programs at U of T Mississauga offer students a wide range of courses designed to provide the basis for the study of French in Canada and throughout the French-speaking world. These courses focus on language learning, linguistics (e.g., structure of the language, bilingualism), literary & cultural studies, and the teaching of French.

At the core of all of our programs are two series of language courses: 1) FSL105H5, FSL106H5, FSL205Y5, FSL305Y5, FSL405H5, FSL406H5 for the Minor in Functional French; 2) FRE180H5, FRE181H5, FRE280Y5, FRE382H5, FRE383H5, for the Minor, Major and Specialist in French Studies and the Major & Specialist in Language Teaching & Learning.

****Before enrolling in a French language course for the first time all students MUST complete the Placement Test (<https://frenchpt.utm.utoronto.ca>)****

Native speakers of French are not permitted to take FSL105H5, FSL106H5, FSL205Y5, FSL305Y5, FSL405H5, FSL406H5, FRE180H5, FRE181H5. Such students, however, may take any FRE course for which FRE181H5 is a prerequisite.

Native or native-like speakers of French are encouraged to take FRE 200-level courses in French Linguistics, French Literary and Cultural Studies and Teaching and Learning (FRE225Y5, FRE240H4, FRE241H5, FRE272Y5). They may also take FRE382H5, FRE442H5 & FRE482H5 if recommended by the Placement Test.

U of T Mississauga's French graduates have moved on to graduate studies and to careers in business, teaching, government, translation, and other fields where skills in French are a necessity.

Notes

1. Courses with an FSL designator cannot be counted towards a Major or Specialist program in French Studies.
2. Students who have attended French-language schools and/or who hold a French or International Baccalaureate CANNOT enrol in any FSL course and MUST consult with the French Program Coordinator PRIOR to enrolling in any FRE course.
3. Students wishing to take a non-credit French course (e.g., Canada's Explore program) and who wish to request that this course be considered for credit toward their degree should contact the French Program Coordinator before beginning their course. They should take the French Placement Test both before and after the course.

Students should also review the [Degree Requirements](#) section prior to selecting courses

French Programs

French and Italian - Specialist (Arts)

Admissions to the French and Italian Specialist Program (ERSPE0815) are administratively suspended as of 2017-2018. Students currently enrolled in the program will be allowed to continue.

Enrolment Requirements:

Limited Enrolment – Final grade of 63% in [FRE180H5](#) and [FRE181H5](#) (or equivalent) is required.

Completion Requirements:

14.0 credits are required. The program must include a minimum of 4.0 300/400 level credits (2.0 in French and 2.0 in Italian) and 1.0 credit at the 400 level (either in French or in Italian).

French

7.0 credits are required.

First Year: [FRE180H5](#) and [FRE181H5](#) (minimum grade of 63% is required) or equivalent. Students exempted from these courses may replace them with a higher level 1.0 credit in FRE.

Higher Years:

1. [FRE240Y5](#) (or [FRE240H5](#) and [FRE241H5](#))
2. [FRE280Y5](#), [FRE382H5](#), [FRE383H5](#)
3. 1.0 credit from French Linguistics
4. 1.0 credit from French Literary and Cultural Studies
5. 1.0 additional credit in French linguistics or literature

Course Categories:

- **French Linguistics:** [FRE372H5](#), [FRE373H5](#), [376H5](#), [378H5](#), [387H5](#), [474H5](#), [476H5](#), [489H5](#)
- **French Literary and Cultural Studies:** [FRE312H5](#), [FRE316H5](#), [FRE317H5](#), [FRE319H5](#); [FRE320H5](#), [FRE356H5](#), [FRE357H5](#); [FRE363H5](#), [FRE364H5](#), [FRE365H5](#), [FRE367H5](#), [FRE368H5](#), [FRE369H5](#); [FRE391H5](#), [FRE393H5](#), [FRE397H5](#); [FRE445H5](#), [FRE446H5](#), [FRE474H5](#)
- **Language Teaching & Learning:** [FRE325H5](#), [FRE345H5](#), [FRE352H5](#), [FRE353H5](#), [FRE355H5](#), [FRE474H5](#), [LTL380H5](#), [LTL417H5](#), [LTL456H5](#), [LTL486H5](#), [LTL488H5](#)

Italian

7.0 credits are required. Written work will be done in Italian in all courses.

1. ITA200Y5
2. ITA350Y5
3. 1.0 credit from ITA237H5, 239H5, 354Y5
4. ITA231H5/ ITA232H5, ITA420Y5
5. 2.0 additional credits in ITA, excluding ITA100Y5/101H5/ 102H5. Courses not used in #1 above may be used. At least 1.0 credit must be in Italian literature (excluding those in item #2 above).

ERSPE0815

French Studies - Specialist (Arts)

Enrolment Requirements:

Limited Enrolment — Minimum grade of 63% required in FRE180H5 and FRE181H5 (or equivalent course).

Completion Requirements:

10.0 credits are required, including at least 5.0 300/400 level credits in literature/linguistics, 1.0 of which must be a 400 level credit.

First Year: FRE180H5, FRE181H5 (or equivalent). Students exempted from these courses must replace them with a higher level 1.0 credit in FRE.

Second Year: FRE240H5, FRE227H5, FRE272H5, FRE282H5, FRE283H5

Third and Fourth Years:

1. FRE382H5, FRE380H5/ FRE383H5, FRE442H5/ FRE482H5
2. 4.5 FRE credits to be completed within ONE area of concentration:
 - French Linguistics
 - French & Francophone Literary and Cultural Studies
3. FRE491H5/ FRE492H5
- 1.

Course Categories:

French Linguistics: FRE325H5, FRE355H5, FRE376H5, FRE377H5, FRE378H5, FRE385H5, FRE387H5, FRE389H5, FRE399Y5, JFL388H5, JFL389H5, JFL454H5, FRE487H5, FRE488H5, FRE489H5.

French & Francophone Literary and Cultural Studies: FRE312H5, FRE316H5, FRE340H5, FRE342H5, FRE343H5, FRE356H5, FRE363H5, FRE364H5, FRE367H5, FRE368H5, FRE370H5, FRE391H5, FRE393H5, FRE395H5, FRE397H5, FRE399Y5, FRE398H5, FRE440H5, FRE445H5, FRE446H5, FRE467H5, FRE482H5

NOTE: No more than 1.0 FRE credits taught in English (such as FRE342H5, FRE388H5, JFL389H5, FRE454H5) can be counted towards a Specialist program in French.

ERSPE1295

French Studies - Major (Arts)

Enrolment Requirements:

Limited Enrolment — 63% required in FRE180H5 and FRE181H5 or equivalent.

Completion Requirements:

8.0 credits are required, of which 0.5 credit must be a 400-level FRE linguistics/literature course.

First Year: FRE180H5, FRE181H5 (or equivalent). Students exempted from these courses must replace them with a higher level 1.0 credit in FRE.

Second Year: FRE240H5, FRE272H5, FRE282H5, FRE283H5

Third and Fourth Years:

1. FRE382H5 and FRE380H5/ FRE383H5/ FRE442H5
2. 4.0 credits to be completed in **ONE** area of concentration (French Linguistics or French & Francophone Literary and Cultural Studies)

Course Categories

- a. **French Linguistics:** FRE325H5, FRE355H5, FRE376H5, FRE377H5, FRE378H5, FRE385H5, FRE387H5, FRE389H5, FRE399Y5, JFL388H5, JFL389H5, JFL454H5, FRE474H5, FRE487H5, FRE488H5, FRE489H5.
- b. **French & Francophone Literary and Cultural Studies:** FFRE312H5, FRE316H5, FRE340H5, FRE342H5, FRE343H5, FRE356H5, FRE363H5, FRE364H5, FRE367H5, FRE368H5, FRE370H5, FRE391H5, FRE393H5, FRE395H5, FRE397H5, FRE399Y5, FRE398H5, FRE440H5, FRE445H5, FRE446H5, FRE467H5, FRE482H5

NOTE: No more than 1.0 credit in FRE taught in English (such as FRE342H5, JFL388H5, JFL389H5, JFL454H5) can be counted towards a Major program in French.

ERMAJ1295

Language Teaching and Learning: French - Major (Arts)

Enrolment Requirements:

Limited Enrolment — Minimum grade of 63% required in FRE180H5 and FRE181H5 (or equivalent course).

Completion Requirements:

8.0 credits are required, of which 0.5 credit must be a 400-level FRE language teaching and learning course.

First Year: FRE180H5, FRE181H5 (or equivalent). Students exempted from these courses must replace them with a higher level 1.0 credit in FRE.

Second Year: FRE227H5, FRE240H5, FRE272H5, FRE282H5, FRE283H5.

Note: FRE227H5 **MUST** be completed in the second year OR prior to enrolling in 300/400 level courses in Language Teaching and Learning.

Third & Fourth Year:

- [FRE382H5](#), [FRE380H5](#)/ [FRE383H5](#)/ [FRE442H5](#)
- 2.0 credits to be chosen among the FRE Language Teaching and Learning courses: [FRE325H5](#), [FRE345H5](#), [FRE352H5](#), [FRE354H5](#), [FRE355H5](#), [FRE389H5](#), [FRE453H5](#), [JFL454H5](#); [JFL388H5](#), [JFL389H5](#)
- 1.5 credits to be chosen among the LTL Language Teaching and Learning courses: [LTL380H5](#), [LTL382H5](#), [LTL382H5](#), [LTL456H5](#), [LTL486H5](#), [LTL487H5](#), [LTL488H5](#), [LTL495Y5](#), [LTL496H5](#)

[ERMAJ1056](#)

Francophone Studies - Minor (Arts)

For students wishing to develop an understanding and appreciation of the mentality and diversity that Francophone cultures express.

Admissions to the Francophone Minor Program (ERMIN1054) are administratively suspended as of 2017-2018. Students currently enrolled in the program will be allowed to continue.

Completion Requirements:

2.0 FSL credits plus 2.0 FRC credits including 1.0 at the 300 level.

[ERMIN1054](#)

French Studies - Minor (Arts)

For students wishing to choose a combination of language, literature and/or linguistic offerings with limited access to core French courses.

Completion Requirements:

4.0 credits of FRE are required, which must include:

1. A minimum 2.0 credits of FRE language from the following: [FRE180H5](#)/ [FRE181H5](#)/ [FRE282H5](#)/ [FRE283H5](#)/ [FRE382H5](#)/ [FRE383H5](#)/ [FRE442H5](#)/ [FRE482H5](#)
2. 1.0 credit of FRE at the 300/400 level.
3. Additional FRE credits to fulfill 4.0 credits.

Note: Courses offered in English are excluded (FRE and LTL).

[ERMIN1135](#)

Functional French - Minor (Arts)

For students seeking a level of linguistic and cultural competence necessary for using the French language in professional Francophone environments.

Completion Requirements:

4.0 credits in either FSL or FRE with at least 2.0 credits at the 300/400 level.

The obligatory core series courses ([FSL105H5](#), [FSL106H5](#), [FSL205Y5](#), [FSL305Y5](#)) must be included in the student's program, unless exemptions are approved by the Department.

To complete the minor in Functional French program, students can choose from courses such as [FSL466H5](#), [FSL405H5](#), [FSL406H5](#), or any other FRE/FSL course (excluding those offered in English-LTL) providing that the prerequisite requirements have been met.

Courses offered in English are excluded (LTL).

For any exemption received, the student must replace the course(s) in question with other suitable FSL/FRE courses in order to complete the required minimum 4.0 courses.

[ERMIN1000](#)

Students must complete the Placement Test.

French Courses

FRE180H5 • French Language Skills and Learning Strategies for University Study

This course provides students with a solid grounding in the French language skills and language learning strategies required for successful completion of a French Major or Specialist program. Students will discover vocabulary and grammatical structures in a variety of authentic written and spoken texts, connect form to meaning, participate in spoken and written interactions, and complete tasks on topics centered on student life in Montreal. **All students are REQUIRED to complete the French Placement Test (<https://frenchpt.utm.utoronto.ca/>) before enrolling in ANY FSL or FRE language course for the FIRST time.**

Prerequisites: [FSL205Y5](#) or the equivalent as determined by the department's French Placement Test. All students are REQUIRED to complete the French Placement Test (<https://frenchpt.utm.utoronto.ca/>) before enrolling in ANY FSL or FRE language course for the FIRST time.

Exclusions: [FSL221Y1](#) and [FSL305Y5](#). Not open to native speakers of French and high school graduates of Extended French or French Immersion programs.

Distribution Requirements: Humanities

Total Instructional Hours: 24L/24T

Mode of Delivery: In Class

FRE181H5 • Introduction to French Studies

This course provides an introduction to French studies with a focus on expanding students' French language proficiency. It also introduces basic notions in French linguistics, literary & cultural studies, and language teaching & learning. Students will practise processing authentic texts in a variety of written and spoken formats through the guided discovery of new vocabulary and through the consolidation of grammatical structures. They will learn to connect form to meaning and to develop their spoken and written skills via an investigation of global French-speaking cultures. **All students are REQUIRED to complete the French Placement Test (<https://frenchpt.utm.utoronto.ca/>) before enrolling in ANY FSL or FRE language course for the FIRST time.**

Prerequisites: [FRE180H5](#) or the equivalent as determined by the department's French Placement Test. All students are REQUIRED to complete the French Placement Test (<https://frenchpt.utm.utoronto.ca/>) before enrolling in ANY FSL or FRE language course for the FIRST time.

Exclusions: [FSL221Y1](#) or [FSL305Y5](#). Not open to native speakers of French and high school graduates of Extended French or French Immersion programs.

Distribution Requirements: Humanities

Total Instructional Hours: 24L/24T

Mode of Delivery: In Class

FRE227H5 • Teaching and Learning a Second/Foreign Language

This course provides an introduction to second language pedagogy with a particular focus on French. Students will learn key concepts in pedagogy and compare the teaching and learning processes and experiences of first and second language learners as well as the roles of classroom teachers and learners via the creation of linguistic portraits and pedagogical materials.

Prerequisites: FRE181H5

Exclusions: FRE225Y5

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

FRE240H5 • Interpreting French Narratives

This course provides an introduction to French & Francophone literary and cultural studies, providing students with a set of interpretive tools that they can use to analyze narrative texts and movies in French classes and beyond. Particular emphasis will be placed on developing attentive and critical reading skills about and through narrative texts and movies, and on deploying these skills accurately in written and oral productions and discussions.

Prerequisites: FRE181H5

Exclusions: FRE240Y5

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

FRE272H5 • A Linguistic Introduction to the French Language

This course provides a linguistic introduction to the French language and French-language phenomena. Students will learn to analyze meaning, word, sound, and sentence structure; describe linguistic phenomena including first and second language acquisition, bilingualism, and creoles; and identify the linguistic variation observed among French speakers and speech communities.

Prerequisites: FRE181H5

Exclusions: FRE272Y5

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

FRE280Y5 • Language Practice: Written

This course develops writing skills at an intermediate level in the areas of vocabulary, grammar and style. Emphasis will be put on practice and error correction. All students are REQUIRED to complete the French Placement Test

(<https://frenchpt.utm.utoronto.ca/>) before enrolling in ANY FSL or FRE language course for the FIRST time.

Prerequisites: FRE181H5 or equivalent as determined by the department's French Placement Test. All students are REQUIRED to complete the French Placement Test (<https://frenchpt.utm.utoronto.ca/>) before enrolling in ANY FSL or FRE language course for the FIRST time.

Exclusions: FSL321Y1

Distribution Requirements: Humanities

Total Instructional Hours: 48L/24T

Mode of Delivery: In Class

FRE282H5 • Intermediate Language Practice: Written French

This course develops writing skills at an intermediate level in the areas of vocabulary, grammar, and style. Students will acquire practical tools for understanding and producing French written texts for their university studies and beyond. Emphasis will be placed on developing descriptive, narrative, and argumentative writing skills. All students are REQUIRED to complete the French Placement Test (<https://frenchpt.utm.utoronto.ca/>) before enrolling in ANY FSL or FRE language course for the FIRST time.

Prerequisites: FRE181H5 or FSL305Y5 or equivalent as determined by the department's French Placement Test. All students are REQUIRED to complete the French Placement Test (<https://frenchpt.utm.utoronto.ca/>) before enrolling in ANY FSL or FRE language course for the FIRST time.

Exclusions: FRE280Y5 or FSL321Y1

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

FRE283H5 • Intermediate Language Practice: Spoken French

This course provides students with intensive practice in listening and spoken French at the intermediate level. Students will acquire the skills and vocabulary necessary for daily conversations and understanding of Francophone culture through exposure to various media and authentic documents such as songs, storytelling, videos, games, and interviews and other media. Particular attention is paid to spontaneous speech, formal and informal interactions, as well as presentation skills. **All students are REQUIRED to complete the French Placement Test** (<https://frenchpt.utm.utoronto.ca/>) before enrolling in ANY FSL or FRE language course for the FIRST time.

Prerequisites: FRE181H5 or FSL305Y5 or or the equivalent as determined by the department's French Placement Test (<https://frenchpt.utm.utoronto.ca/>).

Exclusions: Not open to native or near native speakers of French.

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T
Mode of Delivery: In Class

FRE299Y5 • Research Opportunity Program

This course provides a richly rewarding opportunity for students in their second year to work in the research project of a professor in return for 299Y course credit. Students enrolled have an opportunity to become involved in original research, learn research methods and share in the excitement and discovery of acquiring new knowledge. Participating faculty members post their project descriptions for the following summer and fall/winter sessions in early February and students are invited to apply in early March. See [Experiential and International Opportunities](#) for more details.

Distribution Requirements: Humanities
Mode of Delivery: In Class

FRE312H5 • Modernity, Tradition, and Resistance in Quebec Literature

This course explores the tension between modernity and tradition in a range of fiction and non-fiction written in Quebec from the 19th century to the present day. Students will apply previous knowledge in literature, and their oral and written competences in French to the study of multiple literary genres including the novel, short story, essay and journalistic texts. Particular emphasis will be placed on extending attentive reading skills as ways of reflecting on texts and their relationship to gender, freedom, identity, space and history.

Prerequisites: ([FRE240H5](#) and [[FRE280Y5](#) or ([FRE282H5](#) and [FRE283H5](#))]) or a minimum grade of 77% in [FSL406H5](#)

Exclusions: [FRE310Y5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

FRE316H5 • Comedy and Tragedy in Quebec Theatre

This course explores topics in Quebec theatre, from the 19th century to the present day. Students will apply previous knowledge in literature, and their oral and written competences in French to the study of a variety of plays. Particular emphasis will be placed on extending attentive reading skills as ways of reflecting on dramatic texts and their relationship to space, language, and society.

Prerequisites: ([FRE240H5](#) and [[FRE280Y5](#) or ([FRE282H5](#) and [FRE283H5](#))]) or a minimum grade of 77% in [FSL406H5](#).

Distribution Requirements: Humanities

Total Instructional Hours: 24L
Mode of Delivery: In Class

FRE325H5 • Talking like a child: language acquisition of French

We might not remember how we learned our first language(s) but we know it/them so well... Or do we? We take the child's perspective in language learning, focusing on the following topics: the acquisition of grammar, the development of communicative skills, the development of a language in a multilingual environment (as a majority language versus a heritage language), the differences and similarities between simultaneous and successive language acquisition.

Prerequisites: (([FRE272H5](#) or [FRE272Y5](#)) and [[FRE280Y5](#) or ([FRE282H5](#) and [FRE283H5](#))]) or a minimum grade of 77% in [FSL406H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

FRE342H5 • History of Quebec and French Canada

This course examines the history of French Canada, focusing in particular on the period from the 1830s to the present. It explores questions of culture, political community, language, and geography, looking to these aspects of historical experience to situate Quebec and French Canada with respect to North America's English-speaking majority as well as to the French-speaking nations of Europe, Africa, and elsewhere in the Americas. The course is taught in English but students will work with French-language material and will be required to write all tests and assignments in French. This course is taught in conjunction with [HIS342H5](#).

Prerequisites: [FRE280Y5](#) or ([FRE282H5](#) and [FRE283H5](#)) or a minimum grade of 77% in [FSL406H5](#)

Exclusions: [HIS342H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

FRE343H5 • Indigenous Literatures in Quebec and Francophone Canada

The course explores Indigenous literatures in Francophone Canada including Indigenous texts and authors from Quebec. The works discussed engage with issues of sovereignty, anti-racism, Native identity and gender, and span multiple genres including fiction, theatre, poetry and essay.

Prerequisites: [[FRE240Y5](#) or ([FRE240H5](#) and [FRE241H5](#))] and ([FRE280Y5](#) or a minimum grade of 77% in [FSL406H5](#))

Distribution Requirements: Humanities
Total Instructional Hours: 24L
Mode of Delivery: In Class

FRE352H5 • Teaching French Grammar

This course examines practical and theoretical issues surrounding grammar in the language curriculum such as various approaches to the implementation of grammar in language curricula, such as in grammar-translation or task-based learning; the role and limitations of descriptive grammar, including pedagogical grammar; form focus versus meaning focus; interference and error analysis; feedback on errors. Students will be asked to critique and create teaching materials.

Prerequisites: (FRE227H5 and (FRE272H5 or FRE272Y5) and [FRE280Y or (FRE282H5 and FRE283H5)]) or a minimum grade of 77% in FSL406H5
Distribution Requirements: Humanities
Total Instructional Hours: 24L
Mode of Delivery: In Class

FRE354H5 • Teaching French in a Plurilingual Context

This course allows students to explore innovative pedagogical approaches such as the Action Oriented and Plurilingual & Pluricultural Approaches, building on knowledge and skills acquired in FRE227H5 Teaching and Learning a Second/Foreign Language. This is accomplished through the examination of the linguistic and cultural diversity observed in French Language classes today, and the discovery of innovative and current teaching approaches followed by the creation of pedagogical materials. Particular emphasis is placed on students' abilities to transfer knowledge into practice.

Prerequisites: FRE227H5 or FRE272Y5
Distribution Requirements: Humanities
Total Instructional Hours: 24L
Mode of Delivery: In Class

FRE355H5 • Psycholinguistics: multilingual learners in action

This course provides an introduction to real-time language interaction in multilingual comprehension and production. A primary focus will be on language development, spoken and written language processing, the organisation of multilingual memory, and the main experimental methods in psycholinguistics.

Prerequisites: ((FRE272H5 or FRE272Y5) and [FRE280Y5 or (FRE282H5 and FRE283H5)]) or a minimum grade of 77% in FSL406H5
Distribution Requirements: Humanities
Total Instructional Hours: 24L/12T
Mode of Delivery: In Class

FRE356H5 • Versailles and the Classical Age

This course explores topics in 17th century French culture and Versailles as the expression of the major cultural achievements of this period. Students will apply their oral and written competences in French to the study of a variety of texts, art forms, and media. Particular emphasis will be placed on extending attentive interpretive skills as ways to reflect on the development of 17th century classical taste and its relationship to its political, social, and artistic context.

Prerequisites: (FRE240H5 and [FRE280Y5 or (FRE282H5 and FRE283H5)]) or a minimum grade of 77% in FSL406H5
Distribution Requirements: Humanities
Total Instructional Hours: 24L
Mode of Delivery: In Class

FRE363H5 • Love and Pain in French Literature

This course explores the tension between love and pain in a range of French literary works from 1800 to the contemporary era. Students will apply their previous knowledge in literature, and oral and written competences in French, to the study of multiple autobiographical and literary genres. Particular emphasis will be placed on extending attentive reading skills as ways of reflecting on first- and third-person writing and its relationship to love, social context and expectations, and gender.

Prerequisites: (FRE240H5 and [FRE280Y5 or (FRE282H5 and FRE283H5)]) or a minimum grade of 77% in FSL406H5
Distribution Requirements: Humanities
Total Instructional Hours: 24L
Mode of Delivery: In Class

FRE364H5 • Society through the French Novel

This course explores the representation of social issues in French literature, from the 19th century to the contemporary era. Students will apply previous knowledge in literature, and their oral and written competences in French to the study of social exclusion and marginality, class consciousness, and social identities as literary themes. Particular emphasis will be on extending attentive reading skills as ways of thinking about storytelling and its relationship to character, the interplay between documentary and fictional genres, and commitment through authorship.

Prerequisites: (FRE240H5 and [FRE280Y5 or (FRE282H5 and FRE283H5)]) or a minimum grade of 77% in FSL406H5
Exclusions: FRE364Y5
Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

FRE367H5 • French Fiction of the 20th Century

This course allows students to explore French fiction of the 20th Century. Students apply previous knowledge in literature and cultural studies, and their oral and written competences in French to the study of works. Particular emphasis will be placed on extending attentive reading skills as ways of reflecting on memory and the telling of war experiences, the lives of women, and crime and guilt in the French context.

Prerequisites: (FRE240H5 and [FRE280Y5 or (FRE282H5 and FRE283H5)]) or a minimum grade of 77% in FSL406H5

Exclusions: FRE467H5

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

FRE369H5 • The French Novel Today

This course explores contemporary French literature. Students will apply previous knowledge in literature, and their oral and written competences in French to the study of key trends in contemporary fiction and autobiography. Particular emphasis will be placed on extending attentive reading skills as ways of reflecting on storytelling and its relationship to critical social commentary, the creative power of language, and testimony.

Prerequisites: (FRE240H5 and [FRE280Y5 or (FRE282H5 and FRE283H5)]) or a minimum grade of 77% in FSL406H5

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

FRE370H5 • Voices from No-Man's Land: Diaspora Writings in the 21st Century Francophone Literature

Contemporary literature written in the French language offers a rich and fertile ground for writers of various origins, cultures and languages who are united by several common factors: exile, immigration, transculturation, identity and alterity, and relationship with French, among others. This course explores these topics while relating them to literary and cultural contexts as well as students' real life through extensive reading and analysis of ultra contemporary novels and short stories by authors such as Dany Laferrière, Ying Chen, Aki Shimazaki, Kim Thúy, Marco Micone, Abba Farhoud, Sergio Kokis, Agota Kristof, Dai Sijie, or Nancy Huston.

Prerequisites: (FRE240H5 and [FRE280Y5 or (FRE282H5 and FRE283H5)]) or a minimum grade of 77% in FSL406H5

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

FRE376H5 • French Phonology and Phonetics

A study of the phonological system of modern French based on actual samples of speech taken from different regional varieties and socio-economic groups.

Prerequisites: ((FRE272H5 or FRE272Y5) and [FRE280Y5 or (FRE282H5 and FRE283H5)]) or a minimum grade of 77% in FSL406H5

Exclusions: FRE376H1

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

FRE377H5 • Phonetics & Phonology of French Foreign Accent

This course explores the phonetic and phonological properties of second language French learners' speech. Particular emphasis is placed on students' ability to summarize typical characteristics and phenomena of second language speech learning, identify segmental and prosodic features of non-native French including inter-learner variability, and conduct acoustic analyses of real learner speech.

Prerequisites: ((FRE272H5 or FRE272Y5) and [FRE280Y5 or (FRE282H5 and FRE283H5)]) or a minimum grade of 77% in FSL406H5

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

FRE378H5 • French syntax and the multilingual speaker

This course explores the sentential structure of French through the lens of language learners. The focus is first and foremost on the learning of French grammar including relative clauses, negation, pronominals and the agreement system.

Prerequisites: ((FRE272H5 or FRE272Y5) and [FRE280Y5 or (FRE282H5 and FRE283H5)]) or a minimum grade of 77% in FSL406H5

Exclusions: FRE378H1

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

FRE380H5 • Plurilingual Theatre : Developing Writing and Oral Skills in French

The use of drama or theatre-based activities is a proven way to motivate and support learners in a foreign language classroom. Through observation, active participation, and reflection on the processes involved when learning French language and culture, students will use their knowledge of French, and other languages, to enhance communicative skills through drama (ranging from improvisation to full-length plays).

Prerequisites: (FRE240H5 and [FRE280Y5 or (FRE282H5 and FRE283H5)]) or a minimum grade of 77% in FSL406H5

Distribution Requirements: Humanities

Total Instructional Hours: 12L/24T

Mode of Delivery: In Class

FRE382H5 • Advanced Language Practice: Written French

This course develops writing skills at an advanced level in the areas of vocabulary, grammar and style. Emphasis will be put on practice and error correction. **All students are REQUIRED to complete the French Placement Test (<https://frenchpt.utm.utoronto.ca/>) before enrolling in ANY FSL or FRE language course for the FIRST time.**

Prerequisites: FRE282H5 or a minimum grade of 77% in FSL406H5 or the equivalent as determined by the department's French Language Placement Test.

Exclusions: Not normally open to francophones and/or holders of the French baccalaureat but contingent on the results of the French Language Placement Test.

Distribution Requirements: Humanities

Total Instructional Hours: 12L/24P

Mode of Delivery: In Class

FRE383H5 • Advanced Language Practice: Spoken French

This course provides students with intensive practice in listening and spoken French at the advanced level. Students will acquire competences and vocabulary necessary for authentic academic and professional settings. Formal and informal interactions, projects and tasks are designed to enhance various types of oral communication skills. **All students are REQUIRED to complete the French Placement Test (<https://frenchpt.utm.utoronto.ca/>) before enrolling in ANY FSL or FRE language course for the FIRST time.**

Prerequisites: FRE283H5 or FSL406H5.

Exclusions: Not open to native speakers of French and holders of the French baccalaureat.

International Component: International - Optional

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

FRE385H5 • Decoding French Language Games

This course explores the phonological properties of French language games such as Verlan and Louchèrberm. Adopting a comparative approach with standard French, particular emphasis will be placed on students' ability to identify and model phonological patterns of segmental and syllable structure modification using both descriptive and theoretical phonological tools.

Prerequisites: (FRE272H5 or FRE272Y5) and [FRE280Y5 or (FRE282H5 and FRE283H5)] or a minimum grade of 77% in FSL406H5

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

FRE386H5 • French Semantics

Various approaches to the notion of meaning; its functioning at all levels of representation.

Prerequisites: [(FRE272H5 or FRE272Y5) and (FRE282H5 and FRE283H5)] or a minimum grade of 77% in FSL406H5 or equivalent.

Exclusions: FRE386H1

Distribution Requirements: Humanities

Total Instructional Hours: 12L/12T

Mode of Delivery: In Class

FRE387H5 • French Morphology

A study of the morphological system of modern French, its relationship to syntax and phonology; theoretical notions derived from the analysis of specific data. Special attention will be given to the methods of analysis and classification, as well as selected morphological categories (verbs, nouns, etc.).

Prerequisites: [(FRE272H5 or FRE272Y5) and (FRE282H5 and FRE283H5)] or a minimum grade of 77% in FSL406H5 or equivalent.

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

FRE389H5 • Individual Differences in Second Language Acquisition

This course examines the effects of cognitive (e.g., aptitude, working memory) and affective differences (e.g., motivation, L2 anxiety) on second language acquisition. Students will come to understand the nature of these differences via empirical studies on learners of French

and the use of assessment instruments including questionnaires and on-line tests. Particular emphasis is placed on students' ability to discuss between-learner differences in comprehension and production, identify relevant individual differences capable of explaining such variability, and conduct their own individual differences research.

Prerequisites: ((FRE225Y or FRE227H or FRE272H5 or FRE272Y5) and [FRE280Y5 or (FRE282H5 and FRE283H5)]) or a minimum grade of 77% in FSL406H5

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

FRE391H5 • Women and LGBTQ+ Writers and Filmmakers of the Francophone World

This course invites students to explore women and LGBTQ+ writers and filmmakers from France and the Francophone world. Students will apply their previous knowledge in literature and cultural studies, and their oral and written competences in French to the study of works by French, Quebecois, Caribbean and African authors and directors. Particular emphasis will be placed on extending attentive reading skills as ways of thinking about gender representation, feminism, and identity in fiction, non-fiction, and films.

Prerequisites: (FRE240H5 and [FRE280Y5 or (FRE282H5 and FRE283H5)]) or a minimum grade of 77% in FSL406H5

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

FRE393H5 • French Society through Film

This course explores the representation of social issues in French cinema, from the Sixties to the contemporary era. Students will develop knowledge in cultural studies, and their oral and written competences in French, through the study of social exclusion and marginality, class conflict, and social identities as cinematographic themes. Particular emphasis will be placed on extending attentive interpretive skills as ways of reflecting on storytelling and its relationship to the cinematic medium, the interplay between documentary and fictional genres, and authorship.

Prerequisites: (FRE240H5 and [FRE280Y5 or (FRE282H5 and FRE283H5)]) or a minimum grade of 77% in FSL406H5

Distribution Requirements: Humanities

Total Instructional Hours: 24L/24T

Mode of Delivery: In Class

FRE395H5 • Francophone Media and Global Culture

This course explores media and culture in the Francophone world through textual, graphic, musical and cinematographic content. Students will apply previously acquired knowledge in cultural studies, and their oral and written competences in French to the study of multiple cultural and mediatic forms including movies, graphic novels and songs. Particular emphasis will be placed on extending attentive reading skills as ways of thinking about texts, images and music, and on deploying these skills to better understand the relationship between different Francophone cultures within our contemporary world.

Prerequisites: (FRE240H5 and [FRE280Y5 or (FRE282H5 and FRE283H5)]) or a minimum grade of 77% in FSL406H5

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

FRE397H5 • Francophone African and Caribbean Cinema

This course provides an introduction to Francophone African and Caribbean cinema studies, tracing its origins and emergence to the present day. Students will apply previous knowledge in cultural studies, and their oral and written competences in French to the study of works by North-African, Sub-Saharan African, and Caribbean male and female directors. Particular emphasis will be placed on extending attentive reading skills as ways of thinking about colonialism, gender, space, and identity in narrative movies and documentaries.

Prerequisites: (FRE240H5 and [FRE280Y5 or (FRE282H5 and FRE283H5)]) or a minimum grade of 77% in FSL406H5

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

FRE398H5 • The Culture of Paris

This course explores the city of Paris as it developed into a cultural beacon of excellence in French culture throughout the 19th and 20th centuries. Students will expand and apply previous knowledge in cultural studies, and their oral and written competences in French, to the study of the events that have shaped the Paris of today. Particular emphasis will be placed on extending attentive interpretive skills to the impact of historical events, city planning and promotion, and artistic celebration, and on deploying these skills to think critically about heritage in the French context. As part of this course, students have the option of participating in an international learning experience that will have an additional cost and application process.

Prerequisites: (FRE240H5 and [FRE280Y5 or (FRE282H5 and FRE283H5)] or a minimum grade of 77% in FSL406H5

International Component: International - Optional

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

FRE399Y5 • Research Opportunity Program

This course provides senior undergraduate students who have developed some knowledge of research methods used in the discipline of French studies to work in the research project of a U of T Mississauga professor for course credit. Enrolled students have the opportunity to become involved in original research, develop their research skills, and share in the excitement and discovery of acquiring new knowledge. Project descriptions for participating faculty members for the following summer and fall/winter sessions are posted on the ROP website in mid-February and students are invited to apply at that time. See Experiential and International Opportunities for more details.

Prerequisites: FRE227H5 and (FRE240H5 or FRE272H5)

Course Experience: University-Based Experience

Distribution Requirements: Humanities

Mode of Delivery: In Class

FRE400H5 • French Studies Internship

Students enrolled in a French Studies program of study will have the opportunity, through work placement, to apply the knowledge and expertise gained throughout their studies in French. The work placement will take place in corporations, local media or community organizations. Application deadline is February 28th. Students will be required to include a letter of interest highlighting their qualifications as suitable candidates for an internship opportunity. Applicants who meet minimum criteria (must be in 4th year of studies, number of courses completed in FRE and CGPA) will be selected for an interview. Final decisions will be based on a combination of academic qualifications, experience, and the interview.

Prerequisites: FRE382H5 and FRE383H5 and an additional 1.0 credit at the 300 level in FRE

Course Experience: Partnership-Based Experience

Distribution Requirements: Humanities

Mode of Delivery: In Class

FRE440H5 • Francophone Periodical Studies

This advanced research course provides students a theoretical and practical background in periodical studies, exploring the interaction of literature and journalism from the beginning of the 19th century to the present day in

France and Quebec. Students work under the supervision of the instructor to prepare, collect, and analyze data from periodicals, newspapers and magazines, and to present findings in the form of a research report.

Prerequisites: 1.0 credit from among 300-level French and Francophone Literary & Cultural studies courses category.

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

FRE442H5 • Advanced Language Practice IV: Written

Consolidation of writing skills in the areas of vocabulary, grammar and style. This writing intensive course focuses on improving persuasiveness in writing, in part by reading and analyzing a variety of texts to learn to recognize strategies that work in written communications. **All students are REQUIRED to complete the French Placement Test (<https://frenchpt.utm.utoronto.ca/>) before enrolling in ANY FSL or FRE language course for the FIRST time.**

Prerequisites: FRE382H5 or permission of the instructor. Also open to francophones and/or holders of the French or international baccalauréat but contingent on the results of the Online French language placement test (<https://frenchpt.utm.utoronto.ca/>).

Distribution Requirements: Humanities

Total Instructional Hours: 12L/24T

Mode of Delivery: In Class

FRE445H5 • Special Topics in French & Francophone Literary and Cultural Studies I

A study of fiction, non-fiction or theoretical approaches in French and Francophone literature and culture.

Prerequisites: (0.5 credit at the 300-level from the French & Francophone Literary and Cultural Studies category) and (0.5 credit of FRE at the 300-level, determined annually contingent on course content)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

FRE446H5 • Special Topics in Literature II

A study of fiction, non-fiction or theoretical approaches in French & Francophone literature and culture.

Prerequisites: (0.5 credit from the 300-level French and Francophone Literary & Cultural Studies category) and (0.5 credit of FRE at the 300-level, determined annually contingent on course content)

Distribution Requirements: Humanities
Total Instructional Hours: 24L
Mode of Delivery: In Class

FRE453H5 • Teaching French Culture

This advanced research course deepens students' theoretical and practical background in language pedagogy, exploring research questions related to issues surrounding the integration of culture in the language curriculum including the relationship between authentic language and culture, and the role of linguistic and cultural diversity in education. Students will learn to critique and create teaching materials and undertake an independent research project.

Prerequisites: [FRE354H5](#) and 0.5 credit at the 300-level from among the FRE Language Teaching and Learning courses.

Exclusions: [FRE353H5](#)

Distribution Requirements: Humanities
Total Instructional Hours: 24L
Mode of Delivery: In Class

FRE482H5 • Creative Writing

This course allows students to develop their French writing skills with a variety of short imaginative and first-person genres. Students will extend their knowledge of language creativity and written competences in French to the production of a range of creative texts based on examples and using generative techniques. Particular emphasis will be placed on developing precision and a diversity of expressive skills, especially varied vocabulary and standard idiomatic turns.

Prerequisites: [FRE382H5](#)

Exclusions: [FSL482H5](#)

Distribution Requirements: Humanities
Total Instructional Hours: 12L/12T
Mode of Delivery: In Class

FRE487H5 • Advanced Topics in Experimental French Linguistics

An advanced study (or in-depth examination) of a specific topic in experimental French linguistics. Content in any given year depends on the instructor. Contact the department for details.

Prerequisites: 0.5 credit from the French Linguistics category plus 0.5 FRE 300-level credit determined annually contingent on course content.

Distribution Requirements: Humanities
Total Instructional Hours: 24S
Mode of Delivery: In Class

FRE488H5 • Advanced Topics in Theoretical French Linguistics

An advanced study (or in-depth examination) of a specific topic in theoretical French linguistics. Content in any given year depends on the instructor. Contact the department for details.

Prerequisites: 0.5 credit from the French Linguistics category plus 0.5 FRE 300-level credit determined annually contingent on course content.

Distribution Requirements: Humanities
Total Instructional Hours: 24S
Mode of Delivery: In Class

FRE489H5 • The Structure of the Syllable in Romance Languages

A comparative approach to the study of various phonological processes of contemporary Romance languages. Current issues on the representation of syllable structure and problems of syllabification in reference to phenomena such as liaison, elision, definite and indefinite article selection et cetera.

Prerequisites: [FRE376H5](#) and [FRE377H5](#) and ([FRE385H5](#) or [LIN229H5](#)) and any 0.5 credit of FRE Linguistics or LIN at the 300-level

Distribution Requirements: Humanities
Total Instructional Hours: 24L
Mode of Delivery: In Class

FRE490Y5 • Senior Essay

An independent research paper on either a literary or linguistic topic to be proposed by the student and supervised by an instructor, culminating in a major research paper. For Specialists who wish to fulfill the requirements for their fourth year Literature courses. A maximum of 1.0 credit can be taken in both Senior Essay ([FRE490Y5](#)) and Independent Study ([FRE491H5](#), [FRE492H5](#))

Prerequisites: 1.0 credit of FRE at the 300-level relevant to the topic of study

Distribution Requirements: Humanities
Mode of Delivery: In Class

FRE491H5 • Independent Study

A scholarly project supervised by a Faculty member on a literary or linguistic topic of common interest, including readings, discussions and papers.

Prerequisites: 1.0 credit of FRE at the 300-level relevant to the topic of study

Distribution Requirements: Humanities
Mode of Delivery: In Class

FRE492H5 • Independent Study

A scholarly project supervised by a Faculty member on a literary or linguistic topic of common interest, including readings, discussions and papers.

Prerequisites: 1.0 credit of FRE at the 300-level relevant to the topic of study

Distribution Requirements: Humanities

Mode of Delivery: In Class

FSL105H5 • Functional French-Novice

The objective of this course, which serves as a starting point in our series of FSL courses, is to introduce students to the phonetic system of the French language, to teach basic vocabulary and to develop awareness of the functions of language in different situations and contexts. An awareness of various francophone cultures and communities will be developed. All students are **REQUIRED** to complete the French Placement Test (<https://frenchpt.utm.utoronto.ca/>) before enrolling in ANY FSL or FRE language course for the **FIRST** time.

Prerequisites: All students are **REQUIRED** to complete the French Placement Test (<https://frenchpt.utm.utoronto.ca/>) before enrolling in ANY FSL or FRE language course for the **FIRST** time.

Exclusions: FSL100H1. Not open to students who have previously studied French and not open to native speakers of French.

Distribution Requirements: Humanities

Total Instructional Hours: 36L/12P

Mode of Delivery: In Class

FSL106H5 • Functional French-Advanced Beginner

Through the use of teaching materials adapted to their level, students will continue to develop their linguistics abilities and to use them in specific situations. For instance, students will learn how to ask for information, how to refuse or accept an offer. On completion of this course, a linguistic system of basic but useful structures will have been assimilated. An awareness of various francophone cultures and communities will be developed. **All students are REQUIRED to complete the French Placement Test (<https://frenchpt.utm.utoronto.ca/>) before enrolling in ANY FSL or FRE language course for the FIRST time.**

Prerequisites: FSL105H5 or the equivalent as determined by the department's Placement Test. Before enrolling in a French language course for the first time all students **MUST** complete the Placement Test (<https://frenchpt.utm.utoronto.ca/>).

Exclusions: FSL102H1. Grade 11 and Grade 12 Core French and all grade levels in French Immersion, Extended French, and French Secondary Schools.

Distribution Requirements: Humanities

Total Instructional Hours: 36L/12P

Mode of Delivery: In Class

FSL205Y5 • Functional French-Intermediate

Course will focus on nuancing acquired oral and written skills and on further developing their fluency and accuracy through the production and understanding of increasingly complex sentences and messages, refined and broadened lexical forms and expressions, and the development of discourse-oriented abilities to create meaning. Students will learn to participate in broader interpersonal interactions and to communicate emotion, opinion, value, and abstraction, while using some idiomatic expressions and a greater breadth and subtlety of vocabulary. An awareness of various francophone cultures and communities will be developed. **All students are REQUIRED to complete the French Placement Test (<https://frenchpt.utm.utoronto.ca/>) before enrolling in ANY FSL or FRE language course for the FIRST time.**

Prerequisites: FSL106H5 or the equivalent as determined by the department's French Placement Test. All students are **REQUIRED** to complete the French Placement Test (<https://frenchpt.utm.utoronto.ca/>) before enrolling in ANY FSL or FRE language course for the **FIRST** time.

Exclusions: FSL121Y1. Grade 12 Core French and all high school grade levels in French Immersion, Extended French, and French Secondary Schools.

Distribution Requirements: Humanities

Total Instructional Hours: 72L/24P

Mode of Delivery: In Class

FSL305Y5 • Functional French-High Intermediate

Course will focus on analyzing and synthesizing information, comparing and reformulating types of discourse, developing fluency and spontaneity, accuracy and complexity in proficiently discussing or writing about current and cultural affairs and contentious topics, using different registers and tone in a broad range of situations as well as documents encountered in daily life. An awareness of various francophone cultures and communities will be developed. Formerly FSL305H and FSL306H. All students are **REQUIRED** to complete the French Placement Test (<https://frenchpt.utm.utoronto.ca/>) before enrolling in ANY FSL or FRE language course for the **FIRST** time.

Prerequisites: FSL205Y5Y or equivalent as determined by the department's French Placement Test. All students are **REQUIRED** to complete the French Placement Test (<https://frenchpt.utm.utoronto.ca/>) before enrolling in ANY FSL or FRE language course for the **FIRST** time.

Exclusions: (FRE180H5 and FRE181H5) or FSL221Y1. All high school grade levels in French Immersion, Extended French, and French Secondary Schools.

Distribution Requirements: Humanities

Total Instructional Hours: 72L/24P
Mode of Delivery: In Class

FSL405H5 • Functional French-Advanced I

Course will focus on developing both oral and written skills in the production and understanding of complex discourse (including organization, cohesion, nuanced lexical forms and expressions) in order to participate in varied, sustained and unscripted situations. An awareness of various francophone cultures and communities will be developed. All students are REQUIRED to complete the French Placement Test (<https://frenchpt.utm.utoronto.ca/>) before enrolling in ANY FSL or FRE language course for the FIRST time.

Prerequisites: FSL305Y5 or the equivalent as determined by the department's Placement Test. All students are REQUIRED to complete the French Placement Test (<https://frenchpt.utm.utoronto.ca/>) before enrolling in ANY FSL or FRE language course for the FIRST time.

Exclusions: FSL321Y1 or FRE180H5 or FRE181H5 or FRE280Y5 or FRE283H5 or FRE383H5. Not open to francophones and/or holders of the French baccalauréat but contingent on the results of the French Placement Test.

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

FSL406H5 • Functional French-Advanced II

Students will focus on developing both oral and written skills in the production and understanding of complex discourse (including organization, cohesion, nuanced lexical forms and expressions) in order to initiate and sustain varied and unscripted exchanges. An awareness of various francophone cultures and communities will be developed. All students are REQUIRED to complete the French Placement Test (<https://frenchpt.utm.utoronto.ca/>) before enrolling in ANY FSL or FRE language course for the FIRST time.

Prerequisites: FSL405H5 or the equivalent as determined by the department's French Placement Test. All students are REQUIRED to complete the French Placement Test (<https://frenchpt.utm.utoronto.ca/>) before enrolling in ANY FSL or FRE language course for the FIRST time.

Exclusions: FSL321Y1 or FRE180H5 or FRE181H5 or FRE280Y5 or FRE283H5 or FRE383H5. Not open to francophones or holders of the French baccalauréat but contingent on the results of the Placement Test.

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

FSL466H5 • French for Business Communication

This project-based course advances practical uses of written and spoken French in business contexts. Activities and assignments are scaffolded to privilege deeper level of learning and simulate an authentic job search process in order to improve and strengthen reading comprehension, communication, writing and presentation skills that students can directly apply in the workplaces.

Corequisites: FSL406H5 or FRE280Y5

Exclusions: FSL366H5

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

JFL388H5 • Bilingualism and Multiple Language Acquisition

This course examines simultaneous and successive second (and multiple) language acquisition. We will look at topics such as the bilingual brain, the nature of the input, age constraints on language acquisition, language separation and cross-linguistic influences, the status of the heritage language, schooling in a second language (for example French immersion programs), and various methods used in the study of bilingualism in individuals. Bilingual/multilingual corpora will be examined. The language of instruction will be English. Students will have the option to write assignments in either English or French. Written work to be completed in French for credit towards a Specialist (French) or Major (French).

Prerequisites: [(LIN102H5 or FRE227H5 or FRE225Y5 or FRE272H5 or FRE272Y5) and 0.5 credit from LIN288H5 or LIN231H5 or LIN232H5 or LIN233H5] or 0.5 credit of FRE linguistic at the 300-level.

Exclusions: LIN358H5 or LIN388H5 or FRE388H5

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

JFL389H5 • Second Language Assessment

This course provides an introduction to the principles and frameworks of second language assessment as well as to the practices of standardized testing and classroom assessment. We begin by discussing models of linguistic competence and frameworks for second language assessment as well as test design including language benchmarking. In the second part of the course, the focus turns to best practices in the assessment of vocabulary, grammar, comprehension, production, and socio-pragmatic competence.

Prerequisites: FRE272H5 and (FRE282H5 or FRE283H5) or LIN101H5 and (LIN102H5 or LIN205H5)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T
Mode of Delivery: In Class

JFL454H5 • Teaching and Learning Varieties of Canadian French

(Offered in English) This course offers students the opportunity to become familiar with the primary research methods used in sociolinguistic studies, with how sociolinguistics helps to understand the properties of Canadian French, and with the pedagogical implications arising from sociolinguistic research on Canadian French. This course will contain a research-based component. Written work to be completed in French for credit towards a Specialist (French) or Major (French).

Prerequisites: [(1.0 credit of FRE Linguistics at the 300-level or [LIN256H5](#)) and 0.5 credit of LIN at the 300-level and reading ability in French] or permission of instructor.

Exclusions: [FRE454H5](#) or [FRE474H5](#) or [LIN454H5](#) or [LIN474H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

LTL380H5 • Theoretical Issues In Second Language Teaching and Learning

This course examines theoretical research on adult second language learning and the resultant implications for second language teaching. Topics include age, affect, communicative competence, and sociolinguistics. Links are drawn to pedagogical practices, including error correction, materials selection, and order and method of presentation. This course is taught in English and is open to students from other disciplines. Written work to be completed in French/Italian for credit towards a Specialist (French or Italian) or Major (French/Italian).

Prerequisites: [FRE227H5](#) and ([FRE282H5](#) and [FRE283H5](#)) or ([ITA200Y5](#) and an additional 0.5 credit in ITA at the 200-level or higher).

Exclusions: [LIN380H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

LTL381H5 • Methodologies for Teaching English as a Second Language

This course provides an overview of classroom teaching methods, techniques and strategies for English as a second language, as well as ways of creating and adapting materials to particular teaching contexts such as English-as-a-second-language (ESL) in Canada, English for Academic Purposes (EAP), English for Specific Purposes (ESP), English-as-a-Foreign-Language (EFL) abroad, and blended teaching. Theoretical issues and

classroom implications for teaching and learning with technology will be discussed. Classroom management techniques will also be examined, along with ways to access and work with classroom management and technology-related resources.

Prerequisites: ([LIN101H5](#) and [LIN102H5](#) and a minimum of 0.5 credit in LIN or LTL at the 200-level or higher) or [([FRE282H5](#) and [FRE283H5](#)) and [FRE227H5](#)] or ([ITA200Y5](#) and an additional 0.5 credit in ITA at the 200-level or higher)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

LTL382H5 • Teaching Second Language Speaking and Listening

This course examines theories and practices related to the teaching and learning of speaking and listening in a second language, particularly with reference to English. The course will focus on the theoretical and research-based underpinnings of second language speaking and listening on the ways in which instruction can facilitate the development of these skills. The relationship of pronunciation to listening and listening skills will be explored, and an overview of teaching pronunciation to second language learners will be provided (particularly with reference to English).

Prerequisites: ([LIN101H5](#) and [LIN102H5](#) and a minimum of 0.5 credit in LIN or LTL at the 200-level or higher) or [([FRE282H5](#) and [FRE283H5](#)) and [FRE227H5](#)] or ([ITA200Y5](#) and an additional 0.5 credit in ITA at the 200-level or higher)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

LTL383H5 • Teaching Second Language Reading and Writing

This course examines theories and practices related to the teaching and learning of reading and writing in a second language, particularly with reference to English. The course will focus on the theoretical and research-based underpinnings of second language reading and writing and on the ways in which instruction can facilitate the development of these skills. The relationship of vocabulary to second language reading and writing will be examined (particularly with reference to English).

Prerequisites: ([LIN101H5](#) and [LIN102H5](#) and a minimum of 0.5 credit in LIN or LTL at the 200-level or higher) or [([FRE282H5](#) and [FRE283H5](#)) and [FRE227H5](#)] or ([ITA200Y5](#) and an additional 0.5 credit in ITA at the 200-level or higher)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

LTL456H5 • Sociolinguistics and Second Language Teaching and Learning

This course considers the impact on variant use by second language learners exerted by linguistic and extra-linguistic factors, such as the surrounding linguistic context, age, sex, style, and curricular and extra-curricular exposure. Implications are drawn for second language teaching, including deciding what registers and variants to teach and what activities to employ. Written work to be completed in French/Italian for credit towards a Specialist (French or Italian) or Major (French/Italian).

Prerequisites: [FRE225Y5](#) and [FRE280Y5](#)

Exclusions: [LIN456H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

LTL486H5 • Teaching and Learning Cross-cultural Communication

This course examines cross-cultural language use by second language learners from both a theoretical and pedagogical perspective. Topics addressed include the role of pragmatic transfer between native and target languages, individual differences, learning context, and instruction in the development of second language pragmatic competence. Written work to be completed in French/Italian for credit towards a Specialist (French or Italian) or Major (French/Italian).

Prerequisites: [FRE280Y5](#) and [FRE225Y5](#) plus one additional course from Language Teaching and Learning Group.

Exclusions: [LIN486H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

LTL487H5 • Second Language Pedagogy

This course offers a comprehensive survey and analysis of fundamental concepts and issues related to second, bilingual, and foreign language instruction by developing students' knowledge of second language acquisition, approaches to language teaching, computer-assisted teaching, and pedagogical design and implementation in the language classroom. Written work to be completed in

French/Italian for credit towards a Specialist (French or Italian) or Major (French/Italian).

Prerequisites: [FRE225Y5](#) and [FRE280Y5](#)

Exclusions: [LIN417H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

LTL488H5 • Principles and Strategies for Online Second Language Course Design

This course will conduct a critical appraisal of online course materials, and formulate appropriate pedagogical strategies for their exploitation. This course is taught in English and is open to students from other disciplines. Written work to be completed in French/Italian for credit towards a Specialist (French or Italian) or Major (French/Italian).

Prerequisites: [FRE225Y5](#) and [FRE280Y5](#)

Recommended Preparation: [FRE225Y5](#) and [FRE280Y5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

LTL495Y5 • Individual Project

A research or reading project undertaken by the student under the supervision of a faculty member. Written work to be completed in French/Italian for credit towards an LTL program in French or Italian.

Prerequisites: 0.5 credit at the 300 or 400 level in LTL

Distribution Requirements: Humanities

Mode of Delivery: In Class

LTL496H5 • Individual Project

A research or reading project undertaken by the student under the supervision of a faculty member. Written work to be completed in French/Italian for credit towards an LTL program in French or Italian.

Prerequisites: 0.5 credit at the 300- or 400-level in LTL

Distribution Requirements: Humanities

Mode of Delivery: In Class

Geographical Information Systems

Staff List

Academic Counselor

Ferzeen Sammy
advisor.gge.utm@utoronto.ca

Program Advisor

Matt Adams

The Geographical Information Systems program offers an analytical perspective on geographical information, and is applicable to employment in public and private sectors including but not limited to healthcare, urban and transportation planning, natural resource management, and conservation agencies. In-depth studies — beyond basic geography — include mapping, spatial analysis, digital databases with specializations in modelling, statistical analysis and remote sensing.

The Department of Geography, Geomatics and Environment offers both BA and BSc programs in Geography, a BSc program in Geographical Information Systems (GIS), and it is closely integrated with the spectrum of Environment programs.

The general structure for each program is the foundation course (1st year), the core stream courses (2nd year) and specializations in upper years. The programs, particularly in the first two years, integrate various elements of the human-social-cultural and the biogeophysical traditions with environmental perspectives and analytical methods. After the foundation course(s), students are required to take two courses from their selected core stream and two courses from the other three core streams before they can choose their specialization.

The Geography, Geomatics and Environment curriculum stresses the integrative nature of the discipline as well as the development of skills in geographical information analysis. We expect students to develop the high levels of geographical problem-solving skills required for some of the most dynamic areas of today's job market. Field studies complement lectures by providing material for workshops, developing skills in geographical information analysis, encouraging student involvement in basic enquiry, and building cooperation.

Geography, Geomatics and Environment has close links with other disciplines and interdisciplinary programs. Students in other fields will find many courses within Geography that complement their interests and expertise. From Literature to Geology, Chemistry to History, Fine Art to Economics, Geography offers new ways of combining and developing knowledge about the environment in which we all live.

Professional Advancement for Geography and Environment Students (PAGES)

The program is based on a series of workshops, career events and related activities designed to help students develop: an awareness of research, career and graduate possibilities; skills required to apply successfully for employment and graduate studies; and personal skills to improve self-confidence and potential within the workplace, professional direction and self-awareness. On successful completion of the program students receive a transcript annotation. Please contact Professor Matthew Adams (md.adams@utoronto.ca) for details on registering for this program.

Geographical Information Systems Programs

Geographical Information Systems - Major (Science)

The GIS BSc offers an analytical perspective on geographical information. In-depth studies, beyond basic geography, include mapping, spatial analysis, digital databases with specializations in modeling, statistical analysis and remote sensing.

Completion Requirements:

7.5 credits are required.

First Year (1.0 credit):

- 1.0 credit at the 100-level

Second Year (2.0 credits):

- (GGR276H5 or STA256H5) and GGR278H5
- 1.0 credit from any other 200-level GGR or ENV courses

Third/Fourth Year (4.5 credits):

- GGR321H5 and GGR337H5 and GGR382H5
- 2.5 credits from the following (limited to 1.0 credit from ERS and CSC courses): CSC311H5 or CSC343H5 or CSC413H5 or CSC477H5 or ERS304H5 or GGR311H5 or GGR322H5 or GGR335H5 or GGR370H5 or GGR372H5 or GGR376H5 or GGR437H5 or GGR440H5 or GGR442H5 or GGR444H5 or GGR463H5 or GGR494H5
- 0.5 credit from any other 300/400-level GGR or ENV courses

Note:

Students may take no more than 2.0 credits combined in ROP, individual project courses, or thesis courses at the 300/400 level for credit toward their GIS program. Students must receive permission from Faculty Program Advisor and Academic Counsellor prior to taking GGR courses on other U of T campuses toward their program requirement. No more than 1.0 non-U of T Mississauga credit is accepted in the Geography Specialist program; and no more than 0.5 non-U of T Mississauga credit in the Geography and GIS Major programs. No substitution is allowed for GGR276H5, GGR272H5, GGR278H5, GGR321H5, GGR337H5, GGR382H5.

ERMAJ0305

Geographical Information Systems - Minor (Science)

Completion Requirements:

4.0 credits are required.

Second Year: 1.0 credit:

- GGR276H5 and GGR278H5

Third/Fourth Year: 3.0 credits

- GGR382H5
- 2.5 credits from the following (limited to 0.5 credits from ERS or CSC courses): CSC311H5 or CSC343H5 or CSC413H5 or CSC477H5 or ERS304H5 or GGR311H5 or GGR321H5 or GGR322H5 or GGR335H5 or GGR337H5 or GGR370H5 or GGR372H5 or GGR376H5 or GGR437H5 or GGR440H5 or GGR442H5 or GGR444H5 or GGR463H5 or GGR494H5

Note:

Students may take no more than 2.0 credits combined in ROP, individual project courses, or thesis courses at the 300/400 level for credit toward their GIS program. Students must receive permission from Faculty Program Advisor and Academic Counsellor prior to taking GGR courses on other U of T campuses toward their program requirement. No more than 1.0 non-U of T Mississauga credit is accepted in the Geography Specialist program; and no more than 0.5 non-U of

T Mississauga credit in the Geography and GIS Major programs. No substitution is allowed for [GGR276H5](#), [GGR272H5](#), [GGR278H5](#), [GGR321H5](#), [GGR337H5](#)

[ERMIN0305](#)

Geographical Information Systems Courses

GGR276H5 • Spatial Data Science I

Introduction to the study of geographical phenomena using descriptive and inferential statistics. Fundamentals of geographic data and statistical problem solving using non-spatial and spatial descriptive statistics. Decision making using evidence gathered from inferential statistical analysis. Graphical summary, geographic visualization and mapping of analytical results. Application of state of the art software for statistical analysis. Provides background for future studies in geographic information systems and advanced statistical analysis. The course strikes a balance between developing an understanding of core non-spatial and spatial statistical concepts, while demonstrating technical proficiency in the application of software to the study of geographical questions.

Prerequisites: 4.0 credits

Exclusions: [GGR270H1](#)

Distribution Requirements: Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

GGR278H5 • Geographical Information Systems

Introduction to models of representation and management of geographical data for scientific analysis. Basic quantitative methods and techniques for geographic data analysis, including collection, manipulation, description and interpretation. Practical exercises using GIS and statistical software packages with examples drawn from both physical and human geography.

Prerequisites: 4.0 credits

Distribution Requirements: Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

GGR311H5 • Landscape Biogeography

A geographical, multi-scale perspective on the relationship between the physical landscape and the distribution, movement, dispersal, and abundance of select animal species. Landscape measures including (but not limited to) fragmentation indices, habitat metrics, and estimates of animal movement will be considered. Emphasis is placed on understanding the biology of the species being

studied, the physical structure of the landscape, and the intricacies of various modeling software. Students should expect to develop a well-rounded set of skills in analyzing animal movement, and producing relevant and usable results towards the management of varied landscapes and the conservation of species.

Prerequisites: 9.0 credits

Distribution Requirements: Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

GGR321H5 • Geographic Information Processing

Problem solving using geographic information systems (GIS). Essential distributed computing aspects of GIS are presented. Among topics covered are the use of logic in spatial analysis, line-of-sight analysis, route selection, site selection, and landscape analysis. Hands-on assignments are emphasized.

Prerequisites: 8.5 credits and [GGR278H5](#)

Recommended Preparation: [GGR276H5](#)

Distribution Requirements: Science

Total Instructional Hours: 24L/24P

Mode of Delivery: In Class

GGR322H5 • GIS and Population Health

The purpose of this course will be to develop an appreciation for the conceptual and methodological intersections that exist between geographical information systems and population health. While population health can include incidence and prevalence of disease and ill-health, as well as concerns about service provision, this course will focus mainly on disease, injury, illness more broadly. The course will include both lectures, where foundational concepts will be introduced and related to practical lab sessions, where students will gain experience using GIS to map and study health information. Topics will include: spatial databases for population health, mapping health data, analyzing the spatial clustering of disease and/or injury, mapping and analyzing environmental and social risk factors.

Prerequisites: (8.5 credits and [GGR278H5](#)) or permission of instructor

Recommended Preparation: [GGR276H5](#)

Distribution Requirements: Social Science, Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

GGR335H5 • Remote Sensing Applications

The purpose of this course is to familiarize students with the various ways in which remote sensing images have been used for environmental applications among the sectors of government, industry, and academia. A part of the course will be devoted to application projects employing remote sensing and spatial data analysis in natural resources and environmental assessments.

Prerequisites: 8.5 credits and ([GGR276H5](#) or [GGR278H5](#) or [GGR337H5](#))

Distribution Requirements: Science

Total Instructional Hours: 24L/24P

Mode of Delivery: In Class

GGR337H5 • Environmental Remote Sensing

This introductory course emphasizes mastering fundamental remote sensing concepts and utilizing remotely sensed data for monitoring land resources and environmental change. Topics include surface-energy interactions, sensor systems, image interpretation, and applications for examining soil, vegetation and water resources. Upon completion of this course, students should have the necessary knowledge and skills to pursue more advanced work in digital image processing and remote sensing applications.

Prerequisites: 9.0 credits

Exclusions: [GGR337H1](#)

Distribution Requirements: Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

GGR338H5 • Environmental Modeling

An application of environmental models to contemporary problems of decision-making. The course demonstrates the relevance of techniques of data management (statistics, computer systems) to issues facing Canada and the global community.

Prerequisites: 9.0 credits including [GGR276H5](#)

Distribution Requirements: Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

GGR370H5 • The Geography of Transportation

Transportation is an integral aspect of our daily lives and plays a key role in shaping the economy and the environment. Through this course, students will explore the geography of transportation. Topics will include, mobility and accessibility, transportation networks and

flows, Geographic Information Systems in Transport (GIS-T), planning and policy, environmental and human health impacts, and other current issues.

Prerequisites: 9.0 credits including [GGR278H5](#)

Recommended Preparation: [GGR276H5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

GGR372H5 • Geographical Analysis of Land Resources

This course focuses on the nature of land resources information and its analysis. Emphasis is on use of geographic information systems to model and analyze a variety of land resources. Topics such as terrain analysis and interpolation will be covered.

Prerequisites: 9.0 credits including [GGR278H5](#) or permission of instructor

Distribution Requirements: Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

GGR376H5 • Spatial Data Science II

This course builds on quantitative methods introduced in GGR276, and aims to provide a broad study of advanced statistical methods and their use in a spatial context in physical, social, and environmental sciences. The course covers theories, methods, and applications geared towards helping students develop an understanding of the important theoretical concepts in spatial data analysis, and gain practical experience in application of spatial statistics to a variety of physical, social and environmental problems using advanced statistical software.

Prerequisites: (9.0 credits including [GGR276H5](#) or [STA256H5](#)) or permission of instructor

Distribution Requirements: Science

Total Instructional Hours: 24L/24P

Mode of Delivery: In Class

GGR381H5 • Spatial Database

Students will gain basic knowledge of spatial database design, implementation, query, and sharing. Playing with real-world datasets, students will create, edit, and manage geospatial databases using a variety of commercial and open-source software such as ArcGIS and PostgreSQL.

Prerequisites: [GGR278H5](#) or [CSC263H5](#)

Distribution Requirements: Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

GGR382H5 • Digital Mapping and Principles of Cartography

This course will cover foundational concepts in mapmaking (cartography) using geographical information systems (GIS). The course will also explore map rendering in the digital and mobile worlds where the power of geography and cartography are leveraged through development of location based services used increasingly in everyday life. Topics covered will include but are not limited to: coordinate systems and map projections, measurement and classification, making maps using GIS, critical appraisal of mapped information. The course will combine lectures with practical sessions where foundational concepts will be applied using GIS and related technologies and software.

Prerequisites: 9.0 credits including [GGR278H5](#)

Exclusions: [GGR272H5](#)

Recommended Preparation: [GGR276H5](#) and [STA256H5](#)

Distribution Requirements: Social Science, Science

Total Instructional Hours: 12L/24P

Mode of Delivery: In Class

GGR437H5 • Cloud-based Image Analysis

This course builds on the fundamental remote sensing concepts, techniques, and applications introduced in [GGR337H5](#), and aims to provide an advanced study of digital image processing and remote sensing applications. In specific, this course will use a cloud-based platform for large-scale analysis of satellite imagery, including mapping ground features, detecting changes, and identifying trends on the Earth's surface.

Prerequisites: 14.0 credits including [GGR337H5](#) or permission of instructor

Distribution Requirements: Science

Total Instructional Hours: 12L/24P

Mode of Delivery: In Class

GGR440H5 • Drone Remote Sensing

Industries from agriculture through to defense and mining are investing in Unmanned Aerial Vehicles (UAV) technology to support operational and strategic objectives. This course will cover the adoption of UAV technologies as a remote sensing tool and the impact of logistical, regulatory, and technical hurdles on UAV technology now and in the future. Through the course, students will gain the knowledge requirements to operate a UAV following Transport Canada guidelines and develop skills in processing UAV imagery into information assets that support applications where high resolution, spatial accuracy, and high detail is required.

Prerequisites: 14.0 credits including [GGR337H5](#)

Distribution Requirements: Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

GGR444H5 • Space Time Data Analysis

This course is designed for senior undergraduate students in a workshop format with a specific focus on application. Topics include space-time data collection, processing, analysis, and visualization. Widely used space-time analysis tools and newly developed data mining techniques will be introduced and discussed with examples and hands-on practices in the class. With practical experience on real-world space-time datasets, students will learn the basic knowledge and various tools for analyzing spatiotemporal datasets. The course encompasses practical instruction and training in ArcGIS Pro to use multiple public available space-time datasets. The primary outcome for students taking this course will be an independent analysis of a substantial space-time dataset, a formal report of the analysis, and a professional oral presentation.

Prerequisites: 13.5 credits and [GGR321H5](#)

Distribution Requirements: Science

Total Instructional Hours: 12L/24P

Mode of Delivery: In Class

GGR463H5 • Geographic Information Analysis and Processing

This course focuses on the digital representation and analysis of geospatial phenomena using open source software. Class discussions cover the foundational methods, algorithms, and scripting languages used in GIS analysis, which are reinforced in lab using current, widely used open source software. The course is structured as a series of modules that culminate in a final project. Students are encouraged to incorporate individual areas of interest into class discussion and assignments. Successful students will broaden their GIS toolset, increasing the flexibility of their work.

Prerequisites: 14.0 credits including [GGR321H5](#)

Distribution Requirements: Science

Total Instructional Hours: 12L/24P

Mode of Delivery: In Class

GGR494H5 • Special Topics in GIS

(Formerly [GGR394H5](#)) Studies of selected topics in Geographic Information Systems not covered in regular courses. The contact hours for this course may vary in terms of contact type (L,S,T,P) from year to year, but will be between 24-36 contact hours in total. See the UTM Timetable.

Prerequisites: 14.0 credits or permission of instructor

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

Geography (Science)

Laura Brown

The Department of Geography, Geomatics and Environment offers both BA and BSc programs in Geography, as well as a BSc program in Geographical Information Systems (GIS), and it is closely integrated with the spectrum of Environment programs.

The general structure of the programs is the **foundation course** (1st year), **the core stream courses** (2nd year) and **specializations** in upper years. The programs, particularly in the first two years, integrate various elements of the human-social-cultural and the biogeophysical traditions with environmental perspectives and analytical methods. After the foundation course(s), students are required to take two courses from their selected core stream and two courses from the other three core streams before they can choose their specialization.

Students enrolled in major and specialist programs are required to complete a minimum number of field days over the course of their programs. Field days may be accumulated either through a field course and/or through courses with field day components as indicated in course descriptions.

The curriculum stresses the integrative nature of the discipline as well as the development of skills in geographical information analysis. We expect students to develop the high levels of geographical problem-solving skills required for some of the most dynamic areas of today's job market. Field studies complement lectures by providing material for workshops, developing skills in geographical information analysis, encouraging student involvement in basic enquiry, and building cooperation.

The Geography, Geomatics and Environment has close links with other disciplines and interdisciplinary programs. Students in other fields will find many courses within the department that complement their interests and expertise. From Literature to Geology, Chemistry to History, Fine Art to Economics, Geography offers new ways of combining and developing knowledge about the environment in which we all live.

Professional Advancement for Geography and Environment Students (PAGES)

The program is based on a series of workshops, career events and related activities designed to help students develop: an awareness of research, career and graduate possibilities; skills required to apply successfully for employment and graduate studies; and personal skills to improve self-confidence and potential within the workplace, professional direction and self-awareness. On successful completion of the program students receive a transcript annotation. Please contact Professor Matthew Adams (md.adams@utoronto.ca) for details on registering for this program.

Geography Programs

Geography - Specialist (Arts)

The Geography BA program brings together many subjects of interest, ranging from community health issues, urban form and globalization to electoral politics, transportation and economic development. The program emphasizes the development of quantitative and qualitative analytical skills, including cartography, analysis of spatial data, social theory and archival work, which it supplements with field work and collaborative research opportunities. Through their training, geography BA students will become highly skilled and flexible problem solvers, preparing them for some of today's most dynamic areas of the job market.

Students enrolled in the specialists Geography Arts program are required to complete a minimum of **six field days** over the course of their program. Field days may be accumulated either through a geography field course and/or through geography courses with field day components as indicated in course descriptions.

Enrolment Requirements:

Limited Enrolment — Enrolment in this program is limited to students who have completed [GGR111H5](#) and [GGR112H5](#) and have a Cumulative Grade Point Average of 2.7 (B-) in 2nd year program courses.

Completion Requirements:

10.0 credits and 6 Field Days are required.

First Year: 1.0 credit:

1. GGR111H5 and GGR112H5

Second Year: 3.0 credits:

1. GGR277H5
2. 2.5 credits from GGR202H5 or GGR207H5 or GGR208H5 or GGR209H5 or GGR210H5 or GGR252H5 or GGR265H5 or GGR276H5 or GGR278H5 or GGR288H5

Third Year: 4.5 credits:

1. 4.5 credits from ENV311H5 or GGR313H5 or GGR318H5 or GGR319H5 or GGR322H5 or GGR325H5 or GGR329H5 or GGR333H5 or GGR348H5 or GGR349H5 or GGR353H5 or GGR361H5 or GGR362H5 or GGR363H5 or GGR365H5 or GGR370H5 or GGR382H5 or GGR385H5 or GGR387H5 or GGR389H5 or JGE378H5

Fourth Year: 1.5 credits:

1. 1.0 credit from GGR417Y5 or JEG401Y5
2. 0.5 credit from GGR415H5 or GGR418H5 or GGR419H5 or GGR420H5 or GGR426H5 or GGR461H5 or GGR489H5

Field Days: 6 Days

Six days accumulated either through a geography field course and/or through geography courses with field day components as indicated in course descriptions.

ERSPE1666

Geography - Specialist (Science)

The Geography BSc offers a broad perspective on physical geography. In-depth studies include climatology, hydrology and ecosystems, with possible specialization in biogeochemistry, glaciology, landscape ecology, natural resources and urban climate. Students enrolled in the specialist Geography Science program are required to complete a minimum of **eight field days** over the course of their program. Field days may be accumulated either through a geography field course and/or through geography courses with field day components as indicated in course descriptions.

Enrolment Requirements:

Limited Enrolment ♦ Enrolment in this program is limited to students who have completed GGR111H5 and GGR112H5 and a Cumulative Grade Point Average of 2.7 (B-) in 2nd year program courses.

Completion Requirements:

12.0 credits and 8 Field Days are required.

First Year: 3.0 credits:

- GGR111H5 and GGR112H5

- 2.0 credits from BIO152H5 or BIO153H5 or CHM110H5 or CHM120H5 or ERS101H5 or ISP130H5 or (MAT132H5 or MAT135H5 or MAT137H5 or MAT157H5) or (MAT134H5 or MAT136H5 or MAT139H5 or MAT159H5) or MAT137Y5 or PHY100H5 or PHY136H5 or PHY137H5

Second Year: 3.0 credits:

- GGR276H5 and GGR278H5
- 1.5 credits from GGR201H5 or GGR214H5 or GGR217H5 or GGR227H5
- 0.5 credit from GGR202H5 or GGR207H5 or GGR208H5 or GGR209H5 or GGR210H5 or GGR265H5 or GGR288H5

Third Year: 4.5 credits:

- 3.5 credits from GGR304H5 or GGR305H5 or GGR307H5 or GGR309H5 or GGR315H5 or GGR316H5 or GGR317H5 or GGR338H5 or GGR374H5 or GGR377H5 or GGR379H5 or GGR383H5 or GGR384H5 or JGE378H5
- 1.0 credit from the list above or from the following: GGR311H5 or GGR312H5 or GGR321H5 or GGR322H5 or GGR335H5 or GGR337H5 or GGR372H5 or GGR375H5 or GGR376H5

Fourth Year: 1.5 credit:

- GGR417Y5 or JEG400Y5
- 0.5 credit from GGR404H5 or GGR406H5 or GGR407H5 or GGR479H5 or GGR484H5

Field Days: 8 days

Eight days accumulated either through a geography field course or through geography courses with field day components as indicated in course descriptions.

ROP/Project courses: Maximum 2.0 credits

Students may take no more than 2.0 credits combined in ROP, individual project courses, or thesis courses at the 300/400 level for credit toward a Geography Specialist program.

ERSPE2070

Geography - Major (Arts)

Students enrolled in the major Geography Arts program are required to complete a minimum of six field days over the course of their program. Field days may be accumulated either through a geography field course and/or through geography courses with field day components as indicated in course descriptions.

Completion Requirements:

7.0 credits and 6 Field Days are required.

First Year: 1.0 credit:

- GGR111H5 and GGR112H5

Second Year: 2.5 credits:

- GGR277H5
- 2.0 credits from GGR202H5 or GGR207H5 or GGR208H5 or GGR209H5 or GGR210H5 or GGR252H5 or GGR265H5 or GGR276H5 or GGR278H5 or GGR288H5

Third/Fourth Year: 3.5 credits:

- 3.5 credits from ENV311H5 or GGR313H5 or GGR318H5 or GGR319H5 or GGR322H5 or GGR325H5 or GGR329H5 or GGR333H5 or GGR348H5 or GGR349H5 or GGR353H5 or GGR361H5 or GGR362H5 or GGR363H5 or GGR365H5 or GGR370H5 or GGR382H5 or GGR385H5 or GGR387H5 or GGR389H5 or GGR415H5 or GGR418H5 or GGR419H5 or GGR420H5 or GGR426H5 or GGR461H5 or GGR489H5 or JEG401Y5 or JEG417Y5 or JGE378H5.

Field Days: 6 days

Six days accumulated either through a geography field course and/or through geography courses with field day components as indicated in course descriptions.

ERMAJ1666

Geography - Major (Science)

Students enrolled in the specialist Geography Science program are required to complete a minimum of eight field days over the course of their program. Field days may be accumulated either through a geography field course and/or through geography courses with field day components as indicated in course descriptions.

Completion Requirements:

8.0 credits and 8 Field Days are required.

First Year: 2.0 credits:

- GGR111H5 and GGR112H5
- 1.0 credit from BIO152H5 or BIO153H5 or CHM110H5 or CHM120H5 or ERS101H5 or ISP130H5 or (MAT132H5 or MAT135H5 or MAT137H5 or MAT157H5) or (MAT134H5 or MAT136H5 or MAT139H5 or MAT159H5) or MAT137Y5 or PHY100H5 or PHY136H5 or PHY137H5

Second Year: 2.5 credits:

- GGR276H5
- 1.5 credits from GGR201H5 or GGR214H5 or GGR217H5 or GGR227H5
- 0.5 credit from GGR202H5 or GGR207H5 or GGR208H5 or GGR209H5 or GGR210H5 or GGR265H5

Third Year: 3.0 credits:

- 2.5 credits from GGR304H5 or GGR305H5 or GGR307H5 or GGR309H5 or GGR315H5 or GGR316H5 or GGR317H5 or GGR338H5 or GGR374H5 or GGR377H5 or GGR379H5 or GGR383H5 or GGR384H5 or JGE378H5
- 0.5 additional credit from the list above or from the following: GGR311H5 or GGR321H5 or GGR322H5 or GGR335H5 or GGR337H5 or GGR372H5 or GGR375H5 or GGR376H5

Fourth Year: 0.5 credit:

- 0.5 credit from GGR404H5 or GGR406H5 or GGR407H5 or GGR417Y5 or GGR479H5 or GGR484H5 or JEG400Y5

Field Days: 8 days:

Eight days accumulated either through a geography field course and/or through geography courses with field day components as indicated in course descriptions.

ROP/Project courses: Maximum 2.0 credits:

Students may take no more than 2.0 credits combined in ROP, individual project courses, or thesis courses at the 300/400 level for credit toward a Geography Major program.

ERMAJ2070

Geography - Minor (Arts)

Completion Requirements:

4.0 credits are required, of which 1.0 credit must be at the 300/400 level:

- 4.0 credits from GGR111H5 or GGR202H5 or GGR207H5 or GGR208H5 or GGR209H5 or GGR210H5 or GGR252H5 or GGR265H5 or GGR267H5 or GGR287H5 or GGR288H5 or ENV311H5 or GGR313H5 or GGR318H5 or GGR319H5 or GGR322H5 or GGR325H5 or GGR329H5 or GGR333H5 or GGR348H5 or GGR349H5 or GGR353H5 or GGR361H5 or GGR362H5 or GGR365H5 or GGR370H5 or GGR382H5 or GGR385H5 or GGR387H5 or GGR389H5 or GGR415H5 or GGR417Y5 or GGR418H5 or GGR419H5 or GGR420H5 or GGR426H5 or GGR461H5 or GGR489H5 or JEG401Y5 or JGE378H5.

ERMIN1666

Geography - Minor (Science)

Completion Requirements:

4.0 Credits are required:

- 1.0 credit from: GGR201H5, GGR214H5, GGR217H5, GGR227H5
- 3.0 credits from: GGR304H5, GGR305H5, GGR307H5, GGR309H5, GGR315H5, GGR316H5, GGR317H5, GGR338H5, GGR374H5, GGR376H5, GGR377H5, GGR379H5, GGR383H5, GGR384H5, GGR404H5, GGR406H5, GGR407H5, GGR417Y5, GGR479H5, GGR484H5; JEG400Y5; JGE378H5

ERMIN2070

Certificate in Sustainability

**** This certificate program launches September 2024. ****

Sustainability means meeting our own needs without compromising the ability of future generations to meet their own needs. The Certificate in Sustainability will provide students the opportunity to develop a sustainability lens -- an interdisciplinary toolkit for examining societal, cultural, economic, political and environmental issues from a perspective that promotes ecological health, social equity and development.

Enrolment in the Certificate in Sustainability is open to all students completing programs at UTM. To complete the Certificate, a student must complete 2.0 credits, with 1.5 credits chosen from at least 2 of 4 Perspectives offered (Economic, Environmental, Political/Institutional, Social/Cultural). Upon completion "Certificate in Sustainability (U of T Sustainability Scholar)" will be recorded on the academic transcript as a component of the undergraduate degree.

Students who complete the requirements of the Certificate in Sustainability are considered University of Toronto Sustainability Scholars. Students will not receive a separate parchment at Convocation.

Completion Requirements:

2.0 credits are required.

1. Foundation: ENV210H5 or ENV310H5.
2. 1.5 credits chosen from at least 2 of the following four Perspectives:
 - a. Economic Perspective: CCT433H5, ECO302H5, ECO303H5, ECO313H5, ECO315H5, ECO320H5, ECO321H5, ECO324H5, ECO326H5, ECO333H5, ECO335H5, ECO336H5, ECO343H5, ECO362H5, ECO373Y5, GGR202H5, GGR209H5, GGR252H5
 - b. Environmental Perspective: BIO412H5, ENV201H5, (ENV205H5 or ENV305H5), ENV320H5, ENV332H5, ENV425H5, ENV495H5, ENV496H5, ERS101H5, ERS111H5, ERS312H5, ERS315H5, ERS401H5, ERS412H5, GGR214H5, GGR227H5, JGE378H5
 - c. Political/Institutional Perspective: ENV430H5, GGR207H5, GGR461H5, HIS318H5, HIS319H5, JEP351H5, JEP356H5, JEP452H5, JPE251H5, JPE252H5, POL346Y5, POL475H5, SOC343H5, SOC463H5, SOC465H5
 - d. Social/Cultural Perspective: ANT357H5, ANT368H5, ANT370H5, ANT464H5, EDS220H5, EDS250H5, ENG259H5, ENV311H5, GGR265H5, GGR385H5, GGR415H5, JBH471H5, PHL273H5, SOC304H5, SOC356H5, VCC207H5, VCC236H5, VCC410H5, WRI375H5

Note:

Additional courses with sufficient sustainability content may be appropriate for the Certificate in Sustainability. Students must receive permission from the Academic Counsellor prior to course enrolment.

ERCER1287

Notes:

1. Students may take no more than 2.0 credits combined in ROP, individual project courses, or thesis courses at the 300/400 level for credit toward a Geography Specialist or Major program.
2. Students must receive permission from Faculty Program Advisor and Academic Counsellor prior to taking GGR courses on other U of T campuses toward their program requirement.
3. No more than 1.0 non-U of T Mississauga credit is accepted in the Geography Specialist program; and no more than 0.5 non-U of T Mississauga credit in the Geography and GIS Major programs.

Geography Courses

GGR111H5 • Human Geography

The course introduces human geography through an exploration of the evolution of geography to modern traditions, the measurement of geographic space and phenomena and the spatial interactions of people with the environment. Students gain an understanding of geographic principles through lectures and course material and develop fieldwork skills through practical sessions and field exercises. This course fulfills 1 field day.

Exclusions: GGR117Y5

Distribution Requirements: Social Science

Total Instructional Hours: 24L/6P

Mode of Delivery: In Class

GGR112H5 • Physical Geography

This physical geography course provides a broad introduction to the Earth System, involving the atmosphere, lithosphere, hydrosphere, and biosphere and their interactions, at local to planetary spatial scales. It examines natural and anthropogenic origins of environmental change. Key methods and techniques used by physical geographers to study the Earth System are

covered in lectures, readings, practical sessions and field work. Fieldwork is integral to all sub-disciplines of geography, and a major component of this course. There is no substitute for direct, hands-on exploration of the natural world. This course fulfills 1 field day.

Exclusions: GGR117Y5

Distribution Requirements: Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

GGR201H5 • Introduction to Geomorphology

This course provides an introduction to the principles and concepts of geomorphology, the study of the processes that shape the surface of the earth. The course adopts a process-oriented approach to the study of the variety of landforms found in the natural environment. Topics are mainly taken from a Canadian perspective and include energy flows through the land, weathering and erosion (fluvial, coastal, chemical, aeolian, and glacial), hillslope materials, drainage basin morphology, periglacial environments, and human modification of the landscape.

Prerequisites: GGR112H5 or ENV100Y5

Exclusions: GGR201H1

Distribution Requirements: Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

GGR202H5 • Geography of Canada

This course will spotlight how Canada, as a nation, is constructed through historical and contemporary systems of inclusions and exclusions. Taking a geographic approach to Canada means taking a look at the social construction of 'Canada' through the politics and production of spaces. We will explore how landscape, borders, regions, territory, land, and environment are imagined, organized, contested and fought for by individuals and communities.

Prerequisites: 4.0 credits

Exclusions: GGR228Y5 or GGR246H1

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

GGR207H5 • Cities, Urbanization and Development

This course will introduce students to urban social processes, urban form and urban history. A particular emphasis will be placed on global urbanization, internal spatial and social structure of cities, as well as past and contemporary urban problems.

Prerequisites: 4.0 credits

Exclusions: GGR124H1 or a combination of any two

of: GGRA03H3 or GGRB05H3 or GGRC10H3

Distribution Requirements: Social Science

Total Instructional Hours: 36L/12T

Mode of Delivery: In Class

GGR208H5 • Population Geography

This course examines the link between people and places from a global perspective. The course will cover topics related to population patterns and processes, geographic theories related to population and sustainability, as well as the tools used by geographers to study population size, composition and migration. This course fulfills 1 field day.

Prerequisites: 4.0 credits

Exclusions: GGR255H5 or GGR323H1 or GGR320H1 or GGRC02H3

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

GGR209H5 • Economic Geography

An introduction to the interaction of the economic, social and political institutions that determine the quality of life in a particular place. Subjects covered range from economic efficiency and social equity to the location dynamics of value chains. The emphasis of the course is on Canadian examples.

Prerequisites: 4.0 credits

Exclusions: GGR220H1 or GGR221H1 or GGRA02H3 or GGRC27H3

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

GGR210H5 • Social Geographies

Social geography is concerned with the ways in which social relations, identities and inequalities are produced across space. This course examines social geography in the North American context with a specific focus on identity/difference and inequalities in cities. We will explore cities as sites of both cosmopolitan inclusion and exclusion.

Prerequisites: 4.0 credits

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

GGR214H5 • Global Weather and Climate

The climates of the globe are created from the kinds of weather systems which usually occur. This course surveys the weather systems of the globe and the geography which helps to transform them into regional

climates. It uses just enough physics to show you how it all works and how we can make informed assessments about ideas on climatic change.

Prerequisites: 4.0 credits including GGR112H5 or ENV100Y5

Distribution Requirements: Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

GGR217H5 • Fundamentals of Hydrology

Hydrology is the study of the quantity, quality, storage, and transfer of the world's freshwater. The presence of water on and in the continents and atmosphere sustains the terrestrial biosphere, including human life. This course focuses on the central concepts of hydrology by taking a systems approach to the movement and storage of water on and in a watershed. Based on the framework of the water cycle, the course emphasizes the physical processes that control the stores and transfers of water and energy in the Earth system. This course serves as a gateway to the more advanced treatment of hydrology in upper levels, as well as providing a solid understanding of the fundamentals of the science of water for students in other streams of physical geography, environmental science, earth science, and biology.

Prerequisites: 4.0 credits including GGR112H5 or ENV100Y5

Distribution Requirements: Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

GGR227H5 • Ecosystems and Environmental Change

This course introduces the rapidly advancing fields of ecosystem science through the exploration of how ecosystems respond to climate change, pollution, and intensive natural resource management. The impacts from anthropogenic stressors on ecosystem functioning are often complex, with interactions occurring among plants, microorganisms, and physical and chemical environments. Lecture topics and case studies focus primarily on important representative Canadian ecosystems that also play vital roles in the resource sector including forests, agricultural land, wetlands and aquatic ecosystems.

Prerequisites: 4.0 credits including GGR112H5 or ENV100Y5

Distribution Requirements: Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

GGR252H5 • Retail Geography

Commercial activities are a significant and visible part of our social system. We are what we consume, and our consumption priorities describe our society. Consumption practices are mediated through the action of retailers and the preference of consumers. The course examines the organization of the retail economy and considers relationships between retail practices and environmental, ethical and social justice concerns. Likewise it explores how social, environmental and ethical beliefs of consumers influence their purchasing practices, the connections between consumer behaviour and the practices of retailers and the possibilities for developing a retail economy that better aligns with societal concerns for social justice, ethical production and environmental sustainability.

Prerequisites: 4.0 credits

Exclusions: GGR252H1

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

GGR265H5 • (Under)development and Health

In this course students will be introduced to contemporary development and health issues by examining historical experiences, social, political, economic and environmental processes. This approach will help highlight the vast diversity and address some of the many questions about the region including: What processes underlie famine and food insecurity? What are the underlying causes of the conflict and genocide in some regions? What processes explain spatial disparities in health, or regional and gender differences in HIV rates and the outbreak of rare diseases like Ebola? The course will rely on case studies from the Sub-Saharan (SSA), one of the most diverse and intriguing regions in the world, to provide an understanding of the complexity in each topic.

Prerequisites: 4.0 credits

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

GGR276H5 • Spatial Data Science I

Introduction to the study of geographical phenomena using descriptive and inferential statistics. Fundamentals of geographic data and statistical problem solving using non-spatial and spatial descriptive statistics. Decision making using evidence gathered from inferential statistical analysis. Graphical summary, geographic visualization and mapping of analytical results. Application of state of the art software for statistical analysis. Provides background for future studies in geographic information systems and advanced statistical analysis. The course strikes a balance between developing an understanding of core non-spatial and spatial statistical concepts, while

demonstrating technical proficiency in the application of software to the study of geographical questions.

Prerequisites: 4.0 credits

Exclusions: GGR270H1

Distribution Requirements: Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

GGR277H5 • Social Research Methods in Geography

This course introduces students to the range of social research methods and approaches used in the field of human geography. The course will cover research design, research ethics, data collection methods including interviews, focus groups, surveys, etc., ethics in conducting research with human subjects, and data analysis and interpretation. This course fulfills 1 field day.

Prerequisites: 4.0 credits

Exclusions: GGR271H1 or GGRC31H3

Distribution Requirements: Social Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class, Hybrid

GGR278H5 • Geographical Information Systems

Introduction to models of representation and management of geographical data for scientific analysis. Basic quantitative methods and techniques for geographic data analysis, including collection, manipulation, description and interpretation. Practical exercises using GIS and statistical software packages with examples drawn from both physical and human geography.

Prerequisites: 4.0 credits

Distribution Requirements: Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

GGR300H5 • Special Topics in Human Geography

This course explores a particular area within human geography. Topics will vary from year to year. See department website for details. The contact hours for this course may vary in terms of contact type (L,S,T,P) from year to year, but will be between 24-36 contact hours in total. See the UTM Timetable.

Prerequisites: 9.0 credits including GGR277H5 and permission of instructor

Distribution Requirements: Social Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

GGR304H5 • Dendrochronology

Tree rings are a powerful natural archive for addressing research questions across a range of spatial and temporal scales, owing to the fact that they are annually resolved, long-lived (e.g., multi-century) and cover a large portion of the Earth's surface. Tree-rings reflect changes in their local environment, and they are sensitive to factors that limit biological processes such as light, soil moisture, temperature and disturbance. Environment changes are 'encoded' in the physical properties of tree-rings (e.g., ring-width, wood density or isotopes). This course will provide students with the theoretical background and technical skills needed to cross-date, measure, analyse and interpret tree-ring data, and use this information to address practical research questions.

Prerequisites: 9.0 credits including [GGR276H5 and (GGR214H5 or GGR227H5) or permission of instructor]

Distribution Requirements: Science

Total Instructional Hours: 12L/24P

Mode of Delivery: In Class

GGR305H5 • Biogeography

Analysis of past and present plant and animal distributions, and of the environmental and biological constraints involved. The course emphasizes the impact of continental drift, Quaternary climatic changes and human interference on contemporary patterns.

Prerequisites: 9.0 credits

Exclusions: GGR305H1

Distribution Requirements: Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

GGR307H5 • Environmental Soil Science

Soils play critical roles in sustaining life. They support plants and agriculture, serve as home to a plethora of organisms, recycle organic matter and nutrients, provide materials for construction, art, and medicine, preserve paleoecological and archaeological records, regulate global climate through the exchange of greenhouse gasses, and filter contaminants in water and waste. This course introduces fundamentals of soil formation, physical, chemical and biological characteristics, and classification schemes. It explores the role of, and how humans interact with, soils in Canadian forests, wetlands, agricultural systems, and industrial and urban settings. Aspects of carbon, nutrient, and pollutant biogeochemistry in soils are explored in detail. This course fulfills 2 field days.

Prerequisites: 9.0 credits

Distribution Requirements: Science

Total Instructional Hours: 24L/36P

Mode of Delivery: In Class

GGR309H5 • Wetland Ecosystems

Wetlands are an integral part of our biosphere, playing fundamental roles in the modification of water quality, biodiversity, and the global carbon cycle. This course focuses on the classification, hydrology, biogeochemistry, and ecology of wetland systems. The latter part of the course builds on this physical foundation by introducing management issues associated with wetland preservation, restoration and creation. This course fulfills 4 field days.

Prerequisites: 9.0 credits

Distribution Requirements: Science

Total Instructional Hours: 24L/36P

Mode of Delivery: In Class

GGR311H5 • Landscape Biogeography

A geographical, multi-scale perspective on the relationship between the physical landscape and the distribution, movement, dispersal, and abundance of select animal species. Landscape measures including (but not limited to) fragmentation indices, habitat metrics, and estimates of animal movement will be considered. Emphasis is placed on understanding the biology of the species being studied, the physical structure of the landscape, and the intricacies of various modeling software. Students should expect to develop a well-rounded set of skills in analyzing animal movement, and producing relevant and usable results towards the management of varied landscapes and the conservation of species.

Prerequisites: 9.0 credits

Distribution Requirements: Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

GGR313H5 • Gender and the City

In this course students will be introduced to approaches in social geography that examine the links between gender and urban environments. Specific topics and issues to be covered include, for example, poverty, work, sex trade, human trafficking and safety. Topics will be explored across multiple scales including bodies, home, neighbourhood and community. This course fulfills 1 field day.

Prerequisites: 9.0 credits

Exclusions: GGR327H1

Recommended Preparation: GGR277H5 and GGR278H5

Distribution Requirements: Social Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

GGR315H5 • Physical Hydrology

This course centres on the advanced treatment of the physical principles involved in the occurrence and

movement of water on and beneath the Earth's surface. Watershed-scale hydrologic systems are investigated, along with basic principles of fluid mechanics. Open channel hydraulics, soil water, and groundwater processes are investigated. The importance of understanding water movement in the environment by exploring the relationship of hydrology to other environmental sciences is stressed. This course fulfills 2 field days.

Prerequisites: 9.0 credits including GGR214H5 or GGR217H5

Distribution Requirements: Science

Total Instructional Hours: 24L/36P

Mode of Delivery: In Class

GGR316H5 • Landforms

Systems approach to hillslope geomorphology studies; processes of erosion and deposition; mass wasting; slope forms of humid and arid regions; process-response models; applied aspects.

Prerequisites: 9.0 credits including GGR201H5 or Permission of Instructor

Distribution Requirements: Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

GGR317H5 • The Cryosphere: Canada's Frozen Environments

Snow and ice dominate the Canadian landscape. There is virtually no area in Canada that escapes the influence of snow and ice. We skate on frozen ponds, ski down snow covered mountains, drive through snow blizzards and watch how ice jams in rivers cause rivers to swell and floods to occur. The duration and the thickness of snow and ice increase rapidly northwards, and glaciers are found in mountainous areas and in large parts of the Arctic region. Given that snow and ice impact heavily on the Canadian way of life, this course seeks to understand the dynamics of snow and ice in a hydrological context. This course will examine snow properties, snow cover distribution, glacier hydrology, melt runoff, and ice in its many forms (lake ice, river ice, sea ice, and ground ice). This course will also examine some of the recent observed changes occurring in the cryosphere regions of Canada. This course includes an off campus field trip. This course fulfills 2 field days.

Prerequisites: 9.0 credits including GGR214H5 or GGR217H5

Distribution Requirements: Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

GGR318H5 • Political Geography

Political geography is concerned with the spatial expression of political entities and events. It involves analysis at a variety of scales ranging from the local to the global. The control and manipulation of territory and the imposition of political boundaries and political ideas are central to this analysis. The course provides discussion on nation building, the emergence of the state system, theories on the state, and the role of the state as provider of services and regulator of activities, and electoral geography and governance. This course fulfills 1 field day.

Prerequisites: 9.0 credits

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

GGR319H5 • Landscapes of Belonging

Grounded in human geography and qualitative methods, this course investigates the meaningful non-tangible relationships between humankind and environment. These relationships include emotional attachment (to place), aesthetics (of landscape), ethics (of environment), and relationships (to place and to other species). We will examine these ideas through exploration of the geohumanities; ways of seeing or apprehending the world; ways of being in place; ways of translating or reproducing the world; and possible paths forward in the relationship between us and the landscapes around us. This course fulfills 1 field day

Prerequisites: 9.0 credits of which 1.0 credit must be GGR or ENV

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

GGR321H5 • Geographic Information Processing

Problem solving using geographic information systems (GIS). Essential distributed computing aspects of GIS are presented. Among topics covered are the use of logic in spatial analysis, line-of-sight analysis, route selection, site selection, and landscape analysis. Hands-on assignments are emphasized.

Prerequisites: 8.5 credits and [GGR278H5](#)

Recommended Preparation: [GGR276H5](#)

Distribution Requirements: Science

Total Instructional Hours: 24L/24P

Mode of Delivery: In Class

GGR322H5 • GIS and Population Health

The purpose of this course will be to develop an appreciation for the conceptual and methodological intersections that exist between geographical information

systems and population health. While population health can include incidence and prevalence of disease and ill-health, as well as concerns about service provision, this course will focus mainly on disease, injury, illness more broadly. The course will include both lectures, where foundational concepts will be introduced and related to practical lab sessions, where students will gain experience using GIS to map and study health information. Topics will include: spatial databases for population health, mapping health data, analyzing the spatial clustering of disease and/or injury, mapping and analyzing environmental and social risk factors.

Prerequisites: (8.5 credits and [GGR278H5](#)) or permission of instructor

Recommended Preparation: [GGR276H5](#)

Distribution Requirements: Social Science, Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

GGR325H5 • Business and Industrial Geography

This course uses economic principles and geographical analysis to help you understand the global economic map of the early 21st century. It aims to show the way in which economic activities are organized within and across countries and how this affects people and communities. Both broad patterns of economic organization and specific case studies will be discussed. Topics covered range from the impact of public policy on regional growth to a case study of the financial services industries. In short, the course attempts to answer the following question about the global economic map: "What is where, and why? and so what?".

Prerequisites: 9.0 credits

Exclusions: [GGR326H1](#) or [GGR378H1](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

GGR329H5 • Environment and the Roots of Globalization

A critical discussion of how geographical factors, such as landscape, flora and fauna, might help explain why history unfolded differently on different continents. How geography might have impacted the development of agriculture, complex technologies, writing, centralized government and how, in the process, it has shaped the current world economic map.

Prerequisites: 9.0 credits

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

GGR333H5 • Energy and Society

A broad survey of humankind's ability to control and manipulate energy. Forms of energy and use; energy eras and transitions; past and present economic and policy debates. Understanding of technical terms, physical principles, creation of resources and trade-offs will be emphasized as a basis for discussions about current energy options.

Prerequisites: 9.0 credits

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

GGR335H5 • Remote Sensing Applications

The purpose of this course is to familiarize students with the various ways in which remote sensing images have been used for environmental applications among the sectors of government, industry, and academia. A part of the course will be devoted to application projects employing remote sensing and spatial data analysis in natural resources and environmental assessments.

Prerequisites: 8.5 credits and ([GGR276H5](#) or [GGR278H5](#) or [GGR337H5](#))

Distribution Requirements: Science

Total Instructional Hours: 24L/24P

Mode of Delivery: In Class

GGR337H5 • Environmental Remote Sensing

This introductory course emphasizes mastering fundamental remote sensing concepts and utilizing remotely sensed data for monitoring land resources and environmental change. Topics include surface-energy interactions, sensor systems, image interpretation, and applications for examining soil, vegetation and water resources. Upon completion of this course, students should have the necessary knowledge and skills to pursue more advanced work in digital image processing and remote sensing applications.

Prerequisites: 9.0 credits

Exclusions: [GGR337H1](#)

Distribution Requirements: Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

GGR338H5 • Environmental Modeling

An application of environmental models to contemporary problems of decision-making. The course demonstrates the relevance of techniques of data management (statistics, computer systems) to issues facing Canada and the global community.

Prerequisites: 9.0 credits including [GGR276H5](#)

Distribution Requirements: Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

GGR349H5 • Cities in Transition

The internal geography of contemporary cities is in the midst of a series of transitions related to new settlement patterns, immigration, workplace location, transportation and communication technologies, globalization, and shifts in urban governance. This course will examine these transitions and their effects on the social and political geography of the city. Themes include gentrification, spatial mismatch, concentrated poverty, political fragmentation, and the emergence of new urban forms and of the post-modern city.

Prerequisites: 9.0 credits

Exclusions: [GGR339H1](#)

Recommended Preparation: [GGR207H5](#) and [GGR361H5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 36L/12T

Mode of Delivery: In Class

GGR353H5 • Disease and Death

This course will provide a geographical perspective on patterns of mortality, morbidity and access to health care among populations. It will outline current theoretical and empirical underpinnings in health geography and emphasize the links between health and place. The course covers some traditional themes in health geography including spatial dissuasion of diseases and access to health care. Using illustrations from evolving fields such as Global Health, Aboriginal Health, and Immigrant Health the course delves into the important theme of health inequalities.

Prerequisites: 9.0 credits

Exclusions: [GGR450H1](#) or [GGR451H1](#)

Recommended Preparation: [GGR111H5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

GGR361H5 • City Planning and Development

This course outlines important concepts and historical milestones involved in the planning and development of cities. It involves examination of urban sprawl, urban intensification efforts, and of the evolution of urban form and the interplay of private and public forces that shape the built-form of Canadian cities. This course fulfills 2 field days.

Prerequisites: 9.0 credits

Exclusions: [JGI346H1](#)

Recommended Preparation: GGR207H5 and GGR349H5

Distribution Requirements: Social Science

Total Instructional Hours: 36L/10T

Mode of Delivery: In Class

GGR362H5 • Exploring Urban Neighbourhoods

With a majority of the world's population living in urban areas, nearly all of the problems and possibilities of society and human-environment relations are becoming urban questions. The city is the setting in which broad social, cultural, political, and economic processes unfold, mediated and shaped by local context. Our focus in this course is the internal structure of the city. We examine the ways in which local experiences and conditions of urban life are shaped by social differentiation and processes of change. Our examination includes considerations of race, class, gender, and ethnicity in the context of urban life as a way of exploring how identity and place shape one another. We consider different theoretical frameworks that researchers utilize to make sense of both the persistence of old problems and the emergence of new ones. Instruction will adopt a blended approach in which students will connect the concepts covered in class discussion through field work based exploration of local urban neighbourhoods. This course fulfills 5 field days.

Prerequisites: 9.0 credits

Distribution Requirements: Social Science

Total Instructional Hours: 24P

Mode of Delivery: In Class

GGR363H5 • Global Migration and Health

International migration is an important global issue. Hundreds of millions of individuals currently live outside their country of origin. Most migrants leave their country of origin in search of better economic and social opportunities while others are forced to flee crises including political unrest, violence, and natural disasters. Migration poses numerous challenges for individuals, families, communities and governments including those related to health and access to health care services. This course examines contemporary international migration from a geographic perspective with a specific focus on the complex relationships among global (im)migration, health, and broader social determinants of health. Topics covered may include: migration theories, immigration trends and policies, integration and citizenship, social determinants of health, and health care policy.

Prerequisites: 9.0 credits including GGR353H5

Recommended Preparation: GGR210H5

Distribution Requirements: Social Science

Total Instructional Hours: 24L/6T

Mode of Delivery: In Class

GGR365H5 • Trade and Globalization

This course uses economic and geographical principles to help students understand the advent of the current period of globalization. In this context, globalization refers to international trade liberalization which results in increased contacts across borders, migration, trade, and investment. Topics covered will include the history of globalization, the environment, sweatshops, development and inequalities. By the end of the course, students should have gained a deeper understanding of current controversies surrounding international trade and globalization.

Prerequisites: 9.0 credits

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

GGR370H5 • The Geography of Transportation

Transportation is an integral aspect of our daily lives and plays a key role in shaping the economy and the environment. Through this course, students will explore the geography of transportation. Topics will include, mobility and accessibility, transportation networks and flows, Geographic Information Systems in Transport (GIS-T), planning and policy, environmental and human health impacts, and other current issues.

Prerequisites: 9.0 credits including GGR278H5

Recommended Preparation: GGR276H5

Distribution Requirements: Social Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

GGR372H5 • Geographical Analysis of Land Resources

This course focuses on the nature of land resources information and its analysis. Emphasis is on use of geographic information systems to model and analyze a variety of land resources. Topics such as terrain analysis and interpolation will be covered.

Prerequisites: 9.0 credits including GGR278H5 or permission of instructor

Distribution Requirements: Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

GGR374H5 • Water Quality and Stream Ecosystems

Flowing water courses (streams and rivers) are unique ecosystems from lake, terrestrial, and wetland environments, and are integral in regulation of land-borne solutes to larger water bodies. This course provides a holistic treatment of the stream ecosystem, with particular

emphasis on nutrient and contaminant transformation, in-stream hydraulics and morphology, the hyporheic, parafluvial, and riparian zones, as well as hillslope hydrological processes responsible for transfer of water to the stream. Variability in stream biota, community interactions, and ecosystem-level processes are also discussed. Weekly field and lab exercises provide the student with hands-on experience with the lecture material. This course fulfills 4 field days.

Prerequisites: 9.0 credits including GGR217H5 or GGR227H5 or BIO205H5

Distribution Requirements: Science

Total Instructional Hours: 24L/36P

Mode of Delivery: In Class

GGR375H5 • Physical Environment of the City

The physical structure of the city results in a distinctive local climate that is linked to air and water quality, as well as to energy use. A geographical information system is used to assemble physical information from which to model the urban climatic environment, taking the example of Mississauga. Particular emphasis is placed upon the role of field measurements and satellite data as sources of geographical information.

Prerequisites: 9.0 credits

Recommended Preparation: GGR214H5 or GGR217H5 or GGR272H5, GGR276H5 or GGR278H5

Distribution Requirements: Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

GGR376H5 • Spatial Data Science II

This course builds on quantitative methods introduced in GGR276, and aims to provide a broad study of advanced statistical methods and their use in a spatial context in physical, social, and environmental sciences. The course covers theories, methods, and applications geared towards helping students develop an understanding of the important theoretical concepts in spatial data analysis, and gain practical experience in application of spatial statistics to a variety of physical, social and environmental problems using advanced statistical software.

Prerequisites: (9.0 credits including GGR276H5 or STA256H5) or permission of instructor

Distribution Requirements: Science

Total Instructional Hours: 24L/24P

Mode of Delivery: In Class

GGR377H5 • Global Climate Change

The main focus of this course is upon the climatic aspects of environmental change which affect Great Lakes water levels, disappearing glaciers, sea level rise, desertification and dwindling water resources in an ever more populous

world. These changes to the earth surface environment are explored in the context of themes and issues which were introduced in first year, with a view to answering an important question: whether policy action on climate change must wait for more science, or whether action is merely delayed by failure to appreciate science.

Prerequisites: 9.0 credits including GGR112H5 or ENV100Y5

Exclusions: ENV377H5

Distribution Requirements: Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

GGR379H5 • Field Methods in Physical Geography

This course is structured around one major field trip that will occur before fall-term courses begin, preparatory work, and approximately bi-weekly course meetings during the regular academic term to complete complementary work in computer and/or wet laboratories. Field projects will involve analyses and mapping of vegetation, soils, aquatic systems, hydrology, and/or geomorphology, and subsequent data analysis. Students will be required to write one major research paper and present projects to the class. Each student is required to pay the costs of his/her transportation and accommodation. Students must register on ACORN, on a first-come first-serve and non-refundable deposit basis. The deposit must be received by the Department within one week from the first day of enrollment or the student will be dropped automatically from the course. Students should contact the Department to find out more details about the specific fieldtrip plans. This course fulfills 7 field days.

Prerequisites: 1.0 credits from: (GGR201H5 or GGR214H5 or GGR217H5 or GGR227H5) and 1.0 credits from any other GGR/ENV SCi course(s) and 2.0 credits from any science courses and permission of instructor

Distribution Requirements: Science

Mode of Delivery: In Class

GGR381H5 • Spatial Database

Students will gain basic knowledge of spatial database design, implementation, query, and sharing. Playing with real-world datasets, students will create, edit, and manage geospatial databases using a variety of commercial and open-source software such as ArcGIS and PostgreSQL.

Prerequisites: GGR278H5 or CSC263H5

Distribution Requirements: Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

GGR382H5 • Digital Mapping and Principles of Cartography

This course will cover foundational concepts in mapmaking (cartography) using geographical information systems (GIS). The course will also explore map rendering in the digital and mobile worlds where the power of geography and cartography are leveraged through development of location based services used increasingly in everyday life. Topics covered will include but are not limited to: coordinate systems and map projections, measurement and classification, making maps using GIS, critical appraisal of mapped information. The course will combine lectures with practical sessions where foundational concepts will be applied using GIS and related technologies and software.

Prerequisites: 9.0 credits including [GGR278H5](#)

Exclusions: [GGR272H5](#)

Recommended Preparation: [GGR276H5](#) and [STA256H5](#)

Distribution Requirements: Social Science, Science

Total Instructional Hours: 12L/24P

Mode of Delivery: In Class

GGR383H5 • Contaminants in the Environment

This course discusses various types of contaminants (metal, organic pollutants, pesticides, pharmaceuticals, flame-retardants, micro-plastics, nano-materials) and their impact on the environment. Lectures will cover sources, transport and fate of these contaminants in various environmental media (air, water), degradation mechanisms, uptake into biological systems, and toxicity. Case studies such as pollutants in Arctic ecosystems and the potential risks they pose to the health of indigenous people will be examined. Tutorial discussions of current scientific articles will complement lectures.

Prerequisites: [8.0 credits and (1.0 credit from [GGR201H5](#) or [GGR214H5](#) or [GGR217H5](#) or [GGR227H5](#))] or permission of instructor

Distribution Requirements: Science

Total Instructional Hours: 12L/12T

Mode of Delivery: In Class

GGR384H5 • Climatology of Canadian Landscapes

This course will focus on the natural surface climates of Canada. Topics covered will include Alpine and forest environments; ocean and wetland regions; and both arctic and subarctic climates. Surface energy processes will be examined, and how the behavior of energy exchange varies by climate region. This course fulfills 4 field days.

Prerequisites: 9.0 credits including [GGR214H5](#) or [GGR217H5](#)

Distribution Requirements: Science

Total Instructional Hours: 24L/36P

Mode of Delivery: In Class

GGR385H5 • Indigenizing Space and Place

This course looks critically at how places and people are come to be labelled as indigenous and how this labelling is tied to political, social, economic, and environmental systems that shape the spaces in which we all live. Furthermore, this course asks how spaces and places can be indigenized and what this means for social relations. We will study these processes at multiple scales - from international solidarity networks to nationalist claims on territory to an individual's sense of belonging. We will examine a wide range of topics related to these processes such as the geographies of education, the Truth and Reconciliation Commission, resource conflicts, media representations, identity formation and well-being. While we will be focusing on indigenizing geographies within the context of Canada as a settler nation, we will also engage with how indigenous geographies shape and are shaped by nationalisms in other parts of the world. As part of this course, students may have the option of participating in an international learning experience that will have an additional cost and application process. This course fulfills 1-5 field day (to be adjusted according to student activity) .

Prerequisites: 9.0 credits

Recommended Preparation: [GGR111H5](#) and [GGR210H5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

GGR387H5 • Food and Globalization

A broad overview of the historical development of the global food economy and a survey of recent trends and controversies. Topics discussed range from basic food staples, food markets and trade liberalization to food security, environmental sustainability and alternative agricultural systems.

Prerequisites: 9.0 credits

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

GGR389H5 • Field Studies in Human Geography

This course will provide students with a first-hand exposure to the social, urban, historical and cultural geography of a North American city. During a 5-7 day stay in a city, students will apply basic field methods, such as observation and field note taking, to gain an in-depth understanding of the landscape and build environment. Students will participate in collecting primary observational data as well as gathering information gleaned from guided

tours, lectures and group discussion. Admission to course will be through application due by end of March. The student's application must be submitted to Sabrina Ferrari and must include a current transcript, a current curriculum vita, and a letter of application explaining why their qualifications and interest make them suitable candidates for this field course opportunity. Applicants who meet minimum criteria will be selected for an interview. Acceptance will be based on a combination of GPA, experience, qualifications and interview performance. There is a nonrefundable fee associated with this course beyond tuition, for which the accepted students are responsible. This course fulfills 6 field days.

Prerequisites: 8.0 credits including GGR111H5 and GGR207H5 and GGR210H5 and GGR277H5

Exclusions: GGR382H1

Distribution Requirements: Social Science

Mode of Delivery: In Class

GGR399Y5 • Research Opportunity Program

This course provides senior undergraduate students who have developed knowledge of geography and have studied its research methods the chance to work as part of a research team, under the direction of a professor, in exchange for course credit. Students have the opportunity to be involved in original research, enhance their research skills and participate in the excitement and discovery of facilitating new knowledge. Based on the nature of the project, projects may satisfy the Sciences or Social Sciences distribution requirement. Participating faculty members post project descriptions for the following summer and fall/winter semesters on the ROP website (www.utm.utoronto.ca/rop) in mid-February and students are invited to apply at that time. This course may fulfill field day components. Please consult with your supervisor.

Prerequisites: 9.0 credits

Recommended Preparation: GGR276H5 or GGR277H5 or GGR278H5

Mode of Delivery: In Class

GGR404H5 • Paleoenvironmental Change

Knowledge of paleo (past) climate and environmental change is crucial to understanding Earth System dynamics and predicting future change. Students will be exposed to a spectrum of traditional and frontier methods employed in past global change research, with a focus on the Cenozoic Era (~66 million years). This course will examine varied topics such as sea level rise; climate change over geologic and societal time; the Anthropocene, onset of Northern Hemisphere glaciations; and radiometric dating. More broadly, this course aims to provide students with an understanding of how paleoenvironmental studies contribute to advancing knowledge of the Earth System.

Prerequisites: 14.0 credits including 0.5 credit from: GGR214H5 or GGR304H5 or GGR305H5 or GGR384H5 or ERS321H5 or permission of instructor

Distribution Requirements: Science

Mode of Delivery: In Class

GGR406H5 • Environmental Biogeochemistry

Environmental biogeochemistry provides an introduction to the biological, chemical, and geological processes that regulate the flow of energy and matter in the environment. This seminar course explores the processes underlying biogeochemical cycles of major elements such as carbon and nutrients, and examines how these key cycles have been altered during the Anthropocene, an era of unprecedented human-induced environmental and climate change. Topics covered include biogeochemical processes in atmospheric, ocean, freshwater and terrestrial compartments; emerging techniques (eg., stable-isotopes and paleo-proxies) used in biogeochemistry; and how disruptions to biogeochemical processes are at the root of many environmental issues such as eutrophication, climate change, ozone depletion, ocean acidification and toxic metal contamination.

Prerequisites: 14.0 credits or permission of instructor

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

GGR407H5 • Ecohydrology

Ecohydrology explores the feedback between biological, hydro-logical and biogeochemical processes that help shape ecosystem form and function. These feedbacks are central to the regulation of the global climate and water resources. With pronounced and rapid human modification to the landscape and climate system this field of study is increasingly relevant to formulate mitigation strategies. This seminar and research course explores the feedback processes most crucial to climate change and water resources. Topics include ecosystem control on the water balance, the role of peat-lands in ameliorating climate change, hydro-logic controls on species diversity, and the role of the watershed in mitigating human pollutants. Students are expected to conduct independent and collaborative study.

Prerequisites: GGR315H5 or a combination of GGR217H5 plus one of (GGR305H5 or GGR307H5 or GGR309H5 or GGR374H5 or BIO311H5 or BIO330H5)

Distribution Requirements: Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

GGR415H5 • Geographies of Indigenous Health

Indigenous people of Canada - the First Nations, Metis and Inuit peoples - have very rich and diverse histories. However, common to most are large disparities in health compared to the non-Indigenous population. This seminar course will examine the health conditions of Indigenous peoples in Canada including a focus on the geographic, historic, and contemporary factors leading to health disparities and inequalities. The course will also examine health and well-being through an Indigenous worldview.

Prerequisites: 14.0 credits including [GGR353H5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

GGR418H5 • Geopolitics

The course focus is classical and contemporary geopolitical theories. We examine different and competing ideas and consider how and if geographic logic of the international (or global) political order has changed. Discussion will initially focus on the historical progression of geopolitical reasoning and then will proceed to discuss imperial rivalries, concepts of hegemony and world order and the geopolitics of the Cold War and the post-Cold War eras. The final section of the course will consider theoretical struggles surrounding the geopolitics in the early 21st. century and the challenges posed by critical geopolitics, social movements, environmental changes and feminist theory. Throughout, the primary concern is how the effects of scale, space and power in global politics is understood and experienced.

Prerequisites: 14.0 credits

Exclusions: [GGR439H1](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

GGR420H5 • Geography of Finance and Financial Crisis

The global financial crisis brought to mainstream attention the important role played by finance, and new and strange terms such as subprime, derivatives, ABCP, libor, CDS, CDOs. The aftermath of crisis also witnessed mortgage foreclosures and evictions, factory closures, bailouts of large banks and hedge funds, and the implosion of public finances in a number of European nations. This course seeks to understand the spatial organization of financial flows, intermediaries, and instruments, and how these may be related to the apparently disparate phenomenon cited above. It explores how this geography of finance might be related to the production of financial crisis, and how the global geography of international finance relates to the public finances of nations and municipalities, pension and hedge funds, and individual investors. This course begins by exploring the workings of international

finance, and examining the history of financial crisis, including both the current crisis and the great depression. We consider the different theories of financial crisis emanating from disparate political-economic-geographical perspectives, as well as the divergent policy implications that flow from such theories. The course then explores on the literature regarding the localized effects of the geography of finance, from the geography of sub-prime lending and foreclosures, to unemployment in selected European cities, the geography of new start-ups in developing nations, and the geography of credit card debt, bankruptcies and defaults.

Prerequisites: 14.0 credits

Recommended Preparation: [GGR207H5](#) and [GGR209H5](#) and [GGR325H5](#) and [GGR329H5](#) and [GGR349H5](#) and [GGR365H5](#)

Distribution Requirements: Social Science

Mode of Delivery: In Class

GGR426H5 • The Geographies of Human Rights

This course examines the promises, problems and paradoxes of human rights. We will study the local, national and global aspects of human rights enforcement and violation. By examining specific case studies, we shall examine how so-called 'universal' human rights are articulated and practiced differently in different places. Throughout this course, we shall explore human rights as means of empowerment as well as oppression.

Prerequisites: 14.0 credits

Recommended Preparation: [GGR202H5](#) and [GGR208H5](#) and [GGR313H5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

GGR437H5 • Cloud-based Image Analysis

This course builds on the fundamental remote sensing concepts, techniques, and applications introduced in [GGR337H5](#), and aims to provide an advanced study of digital image processing and remote sensing applications. In specific, this course will use a cloud-based platform for large-scale analysis of satellite imagery, including mapping ground features, detecting changes, and identifying trends on the Earth's surface.

Prerequisites: 14.0 credits including [GGR337H5](#) or permission of instructor

Distribution Requirements: Science

Total Instructional Hours: 12L/24P

Mode of Delivery: In Class

GGR440H5 • Drone Remote Sensing

Industries from agriculture through to defense and mining are investing in Unmanned Aerial Vehicles (UAV) technology to support operational and strategic objectives. This course will cover the adoption of UAV technologies as a remote sensing tool and the impact of logistical, regulatory, and technical hurdles on UAV technology now and in the future. Through the course, students will gain the knowledge requirements to operate a UAV following Transport Canada guidelines and develop skills in processing UAV imagery into information assets that support applications where high resolution, spatial accuracy, and high detail is required.

Prerequisites: 14.0 credits including [GGR337H5](#)

Distribution Requirements: Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

GGR442H5 • GIS Capstone Project

Students apply prerequisite knowledge and techniques to real-world GIS projects requested by external clients. Through background research, proposal, data management, and implementation, students develop GIS professional competencies, which will be demonstrated through collaboration, presentations and reports.

Prerequisites: [12.0 credits and [GGR276H5](#) and [GGR278H5](#) and (1.0 credit from [GGR321H5](#) or [GGR335H5](#) or [GGR337H5](#) or [GGR376H5](#) or [GGR382H5](#) or [GGR463H5](#)) and (1.0 credit from [GGR311H5](#) or [GGR370H5](#) or [GGR372H5](#) or [GGR384H5](#) or [GGR437H5](#) or [GGR440H5](#))] or permission of instructor.

Course Experience: Partnership-Based Experience

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

GGR444H5 • Space Time Data Analysis

This course is designed for senior undergraduate students in a workshop format with a specific focus on application. Topics include space-time data collection, processing, analysis, and visualization. Widely used space-time analysis tools and newly developed data mining techniques will be introduced and discussed with examples and hands-on practices in the class. With practical experience on real-world space-time datasets, students will learn the basic knowledge and various tools for analyzing spatiotemporal datasets. The course encompasses practical instruction and training in ArcGIS Pro to use multiple public available space-time datasets. The primary outcome for students taking this course will be an independent analysis of a substantial space-time dataset, a formal report of the analysis, and a professional oral presentation.

Prerequisites: 13.5 credits and [GGR321H5](#)

Distribution Requirements: Science

Total Instructional Hours: 12L/24P

Mode of Delivery: In Class

GGR461H5 • Advanced Urban Planning

This course will build on the material taught in [GGR361H5](#), City Planning. This course will delve deeper into the scholarship related to urban planning and urban development more broadly such as planning for multicultural cities, ethics in planning and planning ethics, contemporary scholarly theories of planning (collaborative planning theory etc.), planning for more equal cities and planning for sustainability.

Prerequisites: 14.0 credits including any one of:

[GGR207H5](#) or [GGR361H5](#) or [GGR349H5](#)

Recommended Preparation: [GGR361H5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

GGR463H5 • Geographic Information Analysis and Processing

This course focuses on the digital representation and analysis of geospatial phenomena using open source software. Class discussions cover the foundational methods, algorithms, and scripting languages used in GIS analysis, which are reinforced in lab using current, widely used open source software. The course is structured as a series of modules that culminate in a final project. Students are encouraged to incorporate individual areas of interest into class discussion and assignments. Successful students will broaden their GIS toolset, increasing the flexibility of their work.

Prerequisites: 14.0 credits including [GGR321H5](#)

Distribution Requirements: Science

Total Instructional Hours: 12L/24P

Mode of Delivery: In Class

GGR479H5 • Special Topics in Physical Geography

An advanced seminar dealing with topics in physical geography, to be selected according to staff and student interests. The contact hours for this course may vary in terms of contact type (L,S,T,P) from year to year, but will be between 24-36 contact hours in total. See the UTM Timetable.

Prerequisites: 14.0 credits or permission of instructor

Distribution Requirements: Science

Total Instructional Hours: 24S

Mode of Delivery: In Class

GGR484H5 • The Climate of the Arctic

High latitude environments are becoming the focus of increasing scientific attention because of their role in global environmental change. The implications of changes occurring to the sea ice and snowcover are far reaching and can have impacts on physical, biological and human systems both within and beyond the region. This course will provide a comprehensive examination of climates of high latitudes. Topics that will be covered include the Arctic energy budget and atmospheric circulation, the hydrologic cycle in the Arctic, the ocean-sea ice-climate interactions and feedbacks, modeling the Arctic climate system as well as an evaluation of recent climate variability and trends.

Prerequisites: 14.0 credits including GGR214H5 or GGR317H5 or permission of instructor

Distribution Requirements: Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

GGR489H5 • Special Topics in Human Geography

An advanced seminar dealing with topics in human geography, to be selected according to staff and student interests. The contact hours for this course may vary in terms of contact type (L,S,T,P) from year to year, but will be between 24-36 contact hours in total. See the UTM Timetable.

Prerequisites: 14.0 credits or permission of instructor

Distribution Requirements: Social Science

Total Instructional Hours: 24S

Mode of Delivery: In Class

GGR494H5 • Special Topics in GIS

(Formerly GGR394H5) Studies of selected topics in Geographic Information Systems not covered in regular courses. The contact hours for this course may vary in terms of contact type (L,S,T,P) from year to year, but will be between 24-36 contact hours in total. See the UTM Timetable.

Prerequisites: 14.0 credits or permission of instructor

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

GGR497H5 • Human Geography Independent Research Project

This independent project course is designed to give students experience in the definition and execution of a one-term research study on a human geography topic, under the guidance of a member of the faculty. Students who wish to pursue this option with a specific faculty member or who have an idea for a research project

should approach the faculty member early - before the start of the academic term - to negotiate the terms of the project.

Prerequisites: 14.0 credits and permission of instructor

Distribution Requirements: Social Science

Mode of Delivery: In Class

GGR498H5 • Physical Geography Independent Research Project

This independent project course is designed to give students experience in the definition and execution of a one-term research study on a physical geography topic, under the guidance of a member of the faculty. Students who wish to pursue this option with a specific faculty member or who have an idea for a research project should approach the faculty member early - before the start of the academic term - to negotiate the terms of the project.

Prerequisites: 14.0 credits and permission of instructor

Distribution Requirements: Science

Mode of Delivery: In Class

JEG400Y5 • Geography / Environment Science Internship

Through a part-time, unpaid work placement, students apply the natural science based environmental science/physical geography expertise gained through previous course work. Placements are made at local conservation authorities, municipalities, environmental consulting companies, corporations, provincial or federal agencies, and other organizations. Students must submit an application online. Instructions for the application can be found on the Geography Department home page: <https://utm.utoronto.ca/geography/field-internship-and-thesis-courses>

Prerequisites: 15.0-18.0 credits and permission of instructor

Exclusions: ENV400Y5 or GGR410Y5

Course Experience: Partnership-Based Experience

Distribution Requirements: Science

Mode of Delivery: In Class

JEG401Y5 • Geography / Environment Social Science Internship

Through a part-time, unpaid work placement, students apply the knowledge and expertise gained through previous course work in geography. Placements may be made in a range of settings. For example, placements may include municipal government, regional government, neighbourhood organizations and centres, corporations as well as with non-governmental organizations. Admission for this course will be through an online application. Instructions for the application can be found on the

Geography Department home page:
<https://utm.utoronto.ca/geography/field-internship-and-thesis-courses>

Prerequisites: 15.0-18.0 credits and permission of instructor

Exclusions: ENV400Y5 or GGR410Y5

Course Experience: Partnership-Based Experience

Distribution Requirements: Social Science

Mode of Delivery: In Class

JEG417Y5 • Honours Thesis

This course is designed to give students experience in the design and execution of an independent senior thesis under the supervision of a faculty member. **In order to register in the course, students must obtain approval from a supervisor, complete an application form and submit the form to the Department of Geography. Please refer to the Department of Geography website for details: <https://utm.utoronto.ca/geography/field-internship-and-thesis-courses>. This course may fulfill field day components. Please consult with your supervisor.**

Prerequisites: 14.0 credits

Course Experience: University-Based Experience

Distribution Requirements: Social Science, Science

Mode of Delivery: In Class

JGE378H5 • Natural Hazards

Earth is a dangerous place and risk is an inherent feature of life on this planet. Some of the events and processes that we call "hazardous," such as earthquakes, volcanic eruptions, floods, tsunamis, cyclones, and forest fires are natural environmental processes. We define them as hazards only when they pose a threat to human interests. In this course we will examine natural hazards as well as some technological hazards, their causes, their potential impacts on people, and their management and mitigation.

Prerequisites: 9.0 credits

Exclusions: GGR378H5 or ERS317H5

Recommended Preparation: ENV100Y5 and ERS103H5 and ERS120H5 and GGR112H5

Distribution Requirements: Social Science, Science

Total Instructional Hours: 24L/12T

Mode of Delivery: Online, In Class

German Courses

GER100Y5 • Introductory German

An intensive language course for students with no previous knowledge of German. Practice in listening, reading, writing and speaking while cultivating an awareness of German culture. This is an interactive course with an emphasis on communicative expression and authentic materials. The Department reserves the right to place students in the appropriate course in the series ([GER100Y5](#), [GER200Y5](#), [GER300Y5](#)).

Exclusions: Exclusions: [GER101H1](#) or equivalent

Distribution Requirements: Humanities

Total Instructional Hours: 72L/24P

Mode of Delivery: In Class

GER200Y5 • Intermediate German

Taught in German. This language course is a continuation of work done in [GER100Y5](#). Expansion of grammar and vocabulary, practice in listening, reading, composition, and conversation while cultivating an introductory awareness of German culture. This is an interactive course with an emphasis on communicative expression and authentic materials. The Department reserves the right to place students in the appropriate course in the series ([GER100Y5](#), [GER200Y5](#), [GER300Y5](#)).

Prerequisites: [GER100Y5](#) or [GER101H1](#) or permission of department.

Exclusions: [GER200H1](#) or [GER201H1](#)

Enrolment Limits: This course is not open to fluent speakers of German.

Distribution Requirements: Humanities

Total Instructional Hours: 96L

Mode of Delivery: In Class

GER204H5 • Masterpieces in German Literature in Translation

Taught in English and open to all students. Readings offered in both English and, as a comparative option, German. A survey of selected themes and topics on masterpieces of German literature. Students should check with the department and/or instructor regarding the course focus in the term it is being offered.

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

GER205H5 • Introduction to German Literature

Taught in German. An introduction to the study of German literature and literary concepts using original German texts.

Prerequisites: [GER100Y5](#) or [GER101H1](#) or permission of department.

Exclusions: [GER204H1](#)

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

GER250H5 • Introduction to German Culture

Taught in English and open to all students. How can we define "Germany" both historically and in its modern and increasingly multicultural context? How did Germany become the political and economic powerhouse of the European Union? How can we reflect on the Holocaust using identity, nationality and memory? These and other broad questions are examined in their cultural, social and intellectual context from the Middle Ages to the present. As part of this course, students may have the option of participating in an international learning experience that will have an additional cost and application process.

Exclusions: [GER150H5](#)

International Component: International - Optional

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

GER299Y5 • Research Opportunity Program

This course provides a richly rewarding opportunity for students in their second year to work in the research project of a professor in return for 299Y course credit. Students enrolled have an opportunity to become involved in original research, learn research methods and share in the excitement and discovery of acquiring new knowledge. Participating faculty members post their project descriptions for the following summer and fall/winter sessions in early February and students are invited to apply in early March. See [Experiential and International Opportunities](#) for more details.

Distribution Requirements: Humanities

Mode of Delivery: In Class

GER300Y5 • Advanced German

Taught in German. Building on materials introduced in [GER100Y5](#) and [GER200Y5](#), this language course provides students with a deeper understanding of German by developing communicative proficiency in all four language skills, emphasizing effective oral and written expression, aural and reading comprehension, and in-depth reviews and expansion of grammatical structures. The Department reserves the right to place students in the appropriate course in the series ([GER100Y5](#), [GER200Y5](#), [GER300Y5](#)).

Prerequisites: [GER200Y5](#) or [GER201H1](#)

Exclusions: [GER301H1](#)

Distribution Requirements: Humanities

Total Instructional Hours: 72L

Mode of Delivery: In Class

GER303H5 • German Current Events Through Print and Online News Media

The study of important political, social, and cultural issues in contemporary Germany on the basis of print and online sources is studied. Topics are typically selected by the instructor with the input of students. The course provides further refinement of writing style, reading strategies, vocabulary, and conversation skills.

Prerequisites: [GER300Y5](#)

Corequisites: [GER300Y5](#) with permission of department

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

GER305H5 • German Literature: From the 18th to the 21st century

Taught in German. Building on the work of [GER205H5](#), this course explores texts from the 18th to the 21st century.

Prerequisites: [GER100Y5](#) or [GER205H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

GER320H5 • Topics in German Literature

Topic, genre, period, and author studies. This course may be repeated for credit with different content.

Prerequisites: [GER205H5](#), [GER305H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

GER330H5 • Topics in German Cultural Studies

This course covers various topics in the culture of German-speaking countries. Such topics may include Berlin, Weimar culture, unification and the politics of memory in postwar Germany. This course may be repeated for credit with new content.

Prerequisites: [GER204H5](#), [GER205H5](#)

Recommended Preparation: [GER150H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

GER335H5 • Post-War German Culture and Literature: Memory and the Holocaust

Taught in English and open to all students. Examines representations of the Holocaust in post-WWII German culture and literature across multiple generations and perspectives using a variety of media, including literature, film, architecture, photography and memoir.

Recommended Preparation: GER250H5 and 0.5 of 300/400 level literature or culture course.

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

GER353H5 • German National Cinemas

An introductory survey of the history of German cinemas from the silent period to the present. Counts toward the Minor in Cinema Studies. Knowledge of German is not required.

Exclusions: GER351H5, GER352H5

Distribution Requirements: Humanities

Total Instructional Hours: 24L/24P

Mode of Delivery: In Class

GER354H5 • Topics in German Cinema Studies

This course will cover various topics that may include genre studies, a period focus (Weimar, New German Cinema, Nazi Cinema, GDR Cinema), directors (Fritz Lang, Wim Wenders), or themes (transnational cinema, cinema and the city, film and history, film and literature, etc.). This course may be repeated for credit with different content. It counts toward the Minor in Cinema Studies. Knowledge of German is not required.

Exclusions: GER351H5, GER352H5

Recommended Preparation: GER353H5

Distribution Requirements: Humanities

Total Instructional Hours: 24L/24P

Mode of Delivery: In Class

GER355H5 • The Theatre of Bertolt Brecht

This course will study selected plays by Brecht and investigate his dramatic theories and stage techniques. All readings will be in German.

Prerequisites: GER205H5 and GER305H5.

Exclusions: GER355Y5

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

GER370H5 • German for a Global Context: Business and International Relations I

Taught in German. An introduction to the use of German in a global and professional context, focusing on German for business and international relations. Emphasis on oral and written communication.

Prerequisites: GER200Y5 or GER201H1 or permission of the department.

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

GER371H5 • German for a Global Context: Business and International Relations II

Taught in German. An introduction to the use of German in a global and professional context, focusing on German for business and international relations. Emphasis on oral and written communication.

Prerequisites: GER370H5 or permission of the department

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

GER450H5 • Advanced Seminar in German Literature

Topic, genre, period, and author studies. This course may be repeated for credit with different content.

Prerequisites: GER204H5 and GER205H5, and 0.5 of 300/400 level literature or culture course

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

GER475H5 • Advanced Seminar in German Cultural Studies

This course is an in-depth study of different topics in the cultures of German-speaking countries. It may be repeated for credit with different content.

Prerequisites: GER205H5 and GER305H5, and 0.5 of 300/400 level literature or culture course.

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

GER490H5 • Independent Study

An independent research paper or scholarly project supervised by a member of staff on a literary or cultural topic. Students must submit a written proposal that includes a provisional project or paper title, plan of study and preliminary bibliography. Open only to students in their fourth year of study.

Prerequisites: Written permission of the instructor and of the Department to be obtained by May 1st for the Fall Session; by November 1st for the Winter Session.

Distribution Requirements: Humanities

Mode of Delivery: In Class

Greek

Greek Courses

GRK211H5 • Introductory Ancient Greek I

An introduction to Ancient Greek for students who have no knowledge of the language. This course also serves as a preparation for Intermediate Greek courses.

Exclusions: GRK100Y1 or GRK101H1

Distribution Requirements: Humanities

Total Instructional Hours: 24L/24P

Mode of Delivery: In Class

GRK212H5 • Introductory Ancient Greek II

An introduction to Ancient Greek for students who have no knowledge of the language. This course also serves as a preparation for Intermediate Greek courses.

Prerequisites: GRK211H5 or GRK101H1

Exclusions: GRK100Y1 or GRK102H1

Distribution Requirements: Humanities

Total Instructional Hours: 24L/24P

Mode of Delivery: In Class

GRK213H5 • Introductory Ancient Greek III

The final course of the introduction to Ancient Greek for students who have some training in the language. This course also serves as a preparation for Intermediate Greek courses.

Prerequisites: GRK212H5 or GRK102H1

Exclusions: GRK200Y1 or GRK201H1

Distribution Requirements: Humanities

Total Instructional Hours: 24L/24P

Mode of Delivery: In Class

GRK221H5 • Intermediate Ancient Greek

Reading of selections of Ancient Greek prose and verse with a systematic study of the Greek Language.

Prerequisites: GRK213H5 or GRK201H1

Exclusions: GRK200H1 or GRK202H1

Distribution Requirements: Humanities

Total Instructional Hours: 24T/24P

Mode of Delivery: In Class

Hindi Courses

HIN211H5 • Introductory Hindi I

This course is for students with no prior knowledge of the Hindi language. Students will learn to read and write Hindi in Devanagari script with basic rules of Hindi grammar. Introduction to phonology, grammar, syntax of modern Hindi; emphasis on basic writing and reading.

Prerequisites: All students who are enrolling in an HIN language course for the first time are required to complete the Hindi Language Assessment Questionnaire. Students who have not completed an assessment cannot be approved for course enrolment. Please visit

<https://www.utm.utoronto.ca/language-studies/language-course-assessment-questionnaires>

Exclusions: HIN212Y5 or LGGA70H3 or LGGA71H3

Distribution Requirements: Humanities

Total Instructional Hours: 24L/24P

Mode of Delivery: In Class

HIN212H5 • Introductory Hindi II

This course focuses on further developing grammatical structures from HIN211H5 and continues to the next level of Hindi grammar. Students will be introduced to vocabulary of next level to advance their speaking and writing skills by writing compositions and short essay.

Prerequisites: HIN211H5 or appropriate language level as indicated by the Hindi Language Assessment

Questionnaire (<https://www.utm.utoronto.ca/language-studies/language-course-assessment-questionnaires>).

Exclusions: HIN212Y5 or LGGA70H3 or LGGA71H3

Distribution Requirements: Humanities

Total Instructional Hours: 24L/24P

Mode of Delivery: In Class

HIN311H5 • Readings in Hindi

This course is designed for students who have a fair knowledge of Hindi. In this course children's stories from Indian classical writings Panchtantra, Jataka and other folk stories will be discussed.

Prerequisites: HIN212Y5 or the permission of the instructor.

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

HIN312H5 • Intermediate Hindi I

This course focuses on the further development of grammatical structures from Introduction to Hindi and continues to next level of Hindi grammar and communicative skills. Students will be introduced to the vocabulary of intermediate level to advance. Their speaking and writing skills will be developed by writing compositions and short essays.

Prerequisites: HIN212Y5 or as indicated by results from language assessment questionnaire.

Exclusions: HIN312Y5

Distribution Requirements: Humanities

Total Instructional Hours: 24L/24P

Mode of Delivery: In Class

HIN313H5 • Intermediate Hindi II

As a continuation of Intermediate Hindi I (HIN312H5), this course aims at developing student's language to the next level, focusing on specific problems of grammar and essay writing. It also includes simple Hindi readings that introduce Hindi literature. Samples of modern Hindi writings will be discussed.

Prerequisites: HIN212Y5 or as indicated by language assessment questionnaire.

Exclusions: HIN312Y5

Distribution Requirements: Humanities

Total Instructional Hours: 24L/24P

Mode of Delivery: In Class

HIN411H5 • Hindi Culture and Media

The course is designed for students who have completed intermediate Hindi. The course enhances all four language skills through a focus on culture delivered via various forms of the media. The teaching material for the

course will largely include segments from Hindi films, soap operas, Music TV, cine magazines or related items from newspapers in Hindi. **Students who take this course for Language Citation (in Hindi) notation must complete written course work in Hindi.**

Prerequisites: HIN313H5 or permission of instructor.

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

HIN412Y5 • Advanced Hindi

This course is designed for students who already have a good knowledge of Hindi; it offers them an opportunity to effectively use the knowledge attained in previous years to read and understand advanced texts in sociocultural and literary studies, and engage in discussing issues pertaining to modern Indian society.

Prerequisites: HIN312Y5

Distribution Requirements: Humanities

Total Instructional Hours: 72L/24P

Mode of Delivery: In Class

The U of T Mississauga History program is designed to give its students a wide-ranging perspective on Canada and the world through reflection on the past, both recent and distant. The department provides a diverse and global curriculum, with faculty offering a range of specialized expertise on Africa, the Americas, Asia and Europe. The curriculum is also characterized by sets of thematic emphases that include imperialism, colonialism and nationalism, culture and society, religion, the environment, source criticism, labour, gender, ethnicity, war and politics.

History is an ancient discipline, but its modern practitioners are often by necessity interdisciplinary and are frequently positioned at the crossroads of the humanities and social sciences. U of T Mississauga's historians actively participate in a variety of interdisciplinary programs, including Canadian Studies, Diaspora and Transnational Studies, European

Studies, Industrial Relations, Medieval Studies, Near and Middle Eastern Civilizations, and the Study of Women and Gender.

A concentration in history can provide students with the critical-thinking and communication skills required to excel in a number of professions. The student of history is in a position to pursue a diversity of career paths from academic research and teaching to media, law, journalism and government service.

A fuller description of the History program is available online at www.utm.utoronto.ca/historicalstudies. This website provides detailed information on course outlines, timetabling and program requirements. It also contains faculty profiles with research interests and publications.

100 and 200 entry-level courses provide intensive introductions to the history of areas and periods; these are typically conducted as a combination of lecture and tutorial; 300- and 400-level courses focus on more specialized or thematic topics. 400-level courses are offered as seminars, allowing students opportunities for collaborative discussion, independent research, and oral presentations.

The department encourages students to take advantage of the various study abroad opportunities available at UTM.

In the major and specialist programs, language courses offered by the Department of Language Studies at U of T Mississauga and by the various departments teaching languages on the St. George campus may be substituted for up to 1.0 History credits. These courses must be relevant for the student's coursework in History, and will be substituted at the same level as they are offered (e.g., a language at the 200-level will be substituted for a History credit at the 200-level, and a language at the 300-level will be substituted for a History credit at the 300-level). Students are invited to contact the Academic Counsellor for further information.

For more information, refer to the Department of Historical Studies website at www.utm.utoronto.ca/historicalstudies/

Program website: <http://www.utm.utoronto.ca/historicalstudies/>

History Programs

History - Specialist (Arts)

Enrolment Requirements:

Limited Enrolment — Students applying to enroll at the end of first year (4.0 credits) must have a CGPA of at least 2.00 and a mark of at least 70% in each of 1.0 HIS credits. Students applying to enroll after second year (8.0 credits) must have a CGPA of at least 2.30 and a mark of at least 70% in each of 2.0 HIS credits.

Completion Requirements:

10.0 HIS credits are required meeting the following requirements:

First Year: 0.5 credit from [HIS101H5](#) or [HIS102H5](#) or [HIS103H5](#) or [HIS104H5](#) or [HIS105H5](#) or [HIS106H5](#) or [HIS107H5](#) or [HIS108H5](#).

Higher Years:

At least 1.5 credits at the 200+level. They must be chosen from at least three different geographical areas below:

1. Africa, Latin America, & the Caribbean
2. Asia and the Middle East
3. Canada & U.S.A. 4. Europe

At least 1.5 credits at the 200+level. They must be chosen from at least three different topical areas below:

1. Ancient History and Culture
2. Medieval History
3. History of Religion
4. Gender History
5. Ideas, Culture, and Society

3.0 HIS credits at the 300+level.

1.0 HIS credits at the 400-level.

2.5 additional HIS credits at the 200+level

NOTES:

- Specialists are permitted to substitute non-HIS courses for up to 2.0 HIS credits. All Classical Civilization and History of Religions courses in the Department of Historical Studies are suitable substitutions. Other substitutions will be considered on a case-by-case basis after the submission of the relevant syllabus.
- In the specialist program, language courses offered by the Department of Language Studies at U of T Mississauga and by the various departments teaching languages on the St. George campus may be substituted for up to 1.0 History credits. These courses must be relevant for the student's coursework in History, and will be substituted at the same level as they are offered (e.g., a language at the 200-level will be substituted for a History credit at the 200-level, and a language at the 300-level will be substituted for a History credit at the 300-level). Students are invited to contact the Academic Counsellor for further information.
- For a current list of courses falling under the various geographical and topical areas of study, see the Departmental Handbook.

ERSPE0652

History and Political Science - Specialist (Arts)

Enrolment Requirements:

Limited Enrolment — Enrolment in this program is limited.

For students applying in 2021-2022 for program entry in the 2022-2023 Academic Year, 4.0 credits are required, including the following:

- 1.0 credit of POL (with a minimum grade of at least 70% in each course)
- 1.0 credit of HIS (with a minimum grade of at least 70% in each course)
- A CGPA of at least 2.00

Students enrolling at the end of second year (8.0 credits) must obtain the following:

- 2.0 credits of POL (with a minimum grade of at least 70% in each course)
- 2.0 credits of HIS (with a minimum grade of at least 70% in each course)
- A CGPA of 2.30.

For students applying in 2022-2023 (and beyond) for program entry in the 2023-2024 Academic Year (and beyond), 4.0 credits are required, including the following:

- 1.0 credit of POL (with a minimum grade of at least 70% in each course)
- 1.0 credit of HIS (with a minimum grade of at least 70% in each course)
- ISP100H5
- A CGPA of at least 2.00

Students enrolling at the end of second year (8.0 credits) must obtain the following:

- 2.0 credits of POL (with a minimum grade of at least 70% in each course)
- 2.0 credits of HIS (with a minimum grade of at least 70% in each course)
- ISP100H5
- A CGPA of 2.30.

Completion Requirements:

14.0-14.5 credits are required.

For students entering the program in 2023-2024 (and beyond): ISP100H5 (0.5 credit)

History: 7.0 credits

First Year:

1. 0.5 credit from HIS101H5 or HIS102H5 or HIS103H5 or HIS104H5 or HIS105H5 or HIS106H5 or HIS107H5 or HIS108H5.
2. 0.5 credit of HIS at the 200-level.

Higher Years:

1. 1.0 credit at the 200-level or above from two different geographical regions:
 - a. Africa, Latin America, & the Caribbean: HIS203H5 or HIS290H5 or HIS295H5 or HIS301H5 or HIS323H5 or HIS325H5 or HIS330H5 or HIS390H5 or HIS391H5 or HIS403H5 or HIS425H5 or HIS454H5 or HIS463H5 or HIS464H5 or HIS490H5 or HIS494H5
 - b. Asia and the Middle East: HIS201H5 or HIS204H5 or HIS250H5 or HIS282H5 or HIS284H5 or HIS285H5 or HIS378H5 or HIS382H5 or HIS384H5 or HIS385H5 or HIS386H5 or HIS387H5 or HIS388H5 or HIS389H5 or HIS394H5 or HIS397H5 or HIS398H5 or HIS425H5 or HIS431H5 or HIS448H5 or HIS480H5 or HIS483H5 or HIS484H5
 - c. Canada & U.S.A.: HIS203H5 or HIS255H5 or HIS261H5 or HIS263Y5 or HIS271H5 or HIS272H5 or HIS311H5 or HIS312H5 or HIS313H5 or HIS314H5 or HIS315H5 or HIS318H5 or HIS319H5 or HIS326Y5 or HIS342H5 or HIS355H5 or HIS358H5 or HIS367H5 or HIS368H5 or HIS369H5 or HIS370H5 or HIS371H5 or HIS372H5 or HIS373H5 or HIS374H5 or HIS393H5 or HIS402H5 or HIS403H5 or HIS416H5 or HIS438H5 or HIS440H5 or HIS452H5 or HIS453H5 or HIS461H5 or HIS462H5 or HIS479H5 or HIS487H5 or HIS494H5
 - d. Europe: HIS203H5 or HIS204H5 or HIS221H5 or HIS222H5 or HIS230H5 or HIS236H5 or HIS241H5 or HIS242H5 or HIS300H5 or HIS306H5 or HIS308H5 or HIS309H5 or HIS310H5 or HIS321H5 or HIS327Y5 or HIS336H5 or HIS338H5 or HIS339H5 or HIS340H5 or HIS357H5 or HIS401H5 or HIS403H5 or HIS407H5 or HIS409H5 or HIS420H5 or HIS435H5 or HIS438H5 or HIS475H5 or HIS486H5 or HIS495H5
2. 2.0 credits at the 300-level or above
3. 1.0 credit of HIS at the 400-level
4. 2.0 additional credits of HIS at the 200-level or above (which must correspond in region or field to the 2.0 credits of POL chosen)

Political Science: 7.0 credits

7.0 credits in POL are required, including at least 1.0 credit at the 300 level and 1.0 credit at the 400 level and no more than 1.0 credit at the 100 level.

1. POL200Y5 and POL215H5 and POL216H5
2. 1.0 credit from two of the following three fields:
 1. **Comparative Politics** - POL203Y5 or POL218Y5 or POL354Y5 or POL300Y5 or POL302Y5 or POL303Y5 or POL304Y5 or POL309Y5 or POL332Y5 or POL440Y5 or POL443H5 or POL443Y5 or POL438H5 or POL438Y5
 2. **International Relations** - POL209H5 and POL210H5 or POL310Y5 or POL327Y5 or POL340Y5 or POL343Y5 or POL486Y5 or POL487H5
 3. **Public Policy and Public Administration** - POL316Y5 or POL317Y5 or POL317H5 or POL318H5 or POL336Y5 or POL346Y5 or POL353Y5 or POL355Y5 or POL368H5 or POL368Y5 or POL369Y5 or JEP351H5 or JEP356H5 or JEP452H5 or JPE250Y5 or JPE251H5 or JPE252H5

3. 4.0 additional credits of POL

Note:

Specialists may substitute acceptable non-HIS courses at UTM for up to 1.0 credit of HIS. The Department of Historical Studies Handbook identifies substitutions, courses satisfying departmental requirements. It is available online at: www.utm.utoronto.ca/historicalstudies

ERSPE1045

History - Major (Arts)

Completion Requirements:

7.0 HIS credits are required meeting the following requirements:

First Year: 0.5 credit from HIS101H5 or HIS102H5 or HIS103H5 or HIS104H5 or HIS105H5 or HIS106H5 or HIS107H5 or HIS108H5.

Higher Years:

At least 1.5 credits at the 200+level. They must be chosen from at least three different geographical areas below:

1. Africa, Latin America, & the Caribbean
2. Asia and the Middle East
3. Canada & U.S.A. 4. Europe

At least 1.5 credits at the 200+level. They must be chosen from at least three different topical areas below:

1. Ancient History and Culture
2. Medieval History
3. History of Religion
4. Gender History
5. Ideas, Culture, and Society

3.0 HIS credits at the 300+level.

0.5 HIS credits at the 400-level.

NOTES:

- Majors are permitted to substitute non-HIS courses for up to 1.0 HIS credits. All Classical Civilization and History of Religions courses in the Department of Historical Studies are suitable substitutions. Other substitutions will be considered on a case-by-case basis after the submission of the relevant syllabus.
- In the major program, language courses offered by the Department of Language Studies at U of T Mississauga and by the various departments teaching languages on the St. George campus may be substituted for up to 1.0 History credits. These courses must be relevant for the student's coursework in History, and will be substituted at the same level as they are offered (e.g., a language at the 200-level will be substituted for a History credit at the 200-level, and a language at the 300-level will be substituted for a History credit at the 300-level). Students are invited to contact the Academic Counsellor for further information.
- For a current list of the courses falling under the various geographical and topical areas of study, see the Departmental Handbook.

ERMAJ0652

History - Minor (Arts)

Completion Requirements:

4.0 HIS credits are required meeting the following requirements:

First year: 0.5 credit from [HIS101H5](#) or [HIS102H5](#) or [HIS103H5](#) or [HIS104H5](#) or [HIS105H5](#) or [HIS106H5](#) or [HIS107H5](#) or [HIS108H5](#). It is recommended that this course be taken in the first year.

Higher years: At least 1.0 credits at the 200+level. They must be chosen from at least two different geographical areas below:

1. Africa, Latin America, & the Caribbean
2. Asia and the Middle East
3. Canada & U.S.A.
4. Europe

1.0 HIS credits at the 300+level.

1.5 HIS credits at the 200+level.

For a current list of the courses falling under the various geographical and topical areas of study, see the Departmental Handbook.

[ERMIN0652](#)

History Courses

HIS101H5 • Introduction to History

This writing-intensive course introduces students to world history as well as to the research and writing skills that are part of the historian's craft.

Exclusions: [HIS102H5](#) and [HIS103H5](#) and [HIS104H5](#) and [HIS105H5](#) and [HIS106H5](#) and [HIS107H5](#) and [HIS108H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

HIS102H5 • A History of Discoveries and Inventions in the Ancient, Medieval, and Early Modern World.

This course challenges us to reconsider what we think we know about discoveries and inventions, and to reassess

how they have shaped our world. It outlines debates around theories of progress, significance, continuity and change, and cause and consequence; guides students through the interpretation of primary and secondary

sources; and introduces the discipline of history while helping students develop the research and writing skills that are part of the historian's craft.

Exclusions: [HIS101H5](#) and [HIS103H5](#) and [HIS104H5](#) and [HIS105H5](#) and [HIS106H5](#) and [HIS107H5](#) and [HIS108H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

HIS103H5 • Revolutions in History

Revolutions are sudden, violent, and capable of changing the structure of societies and nations. They are some of the most dramatic events in history because they raise all kinds of questions about how society should be structured, maintained, and organized. Over the course of the term, students will learn about the principle theories of revolution, their impact, and they will reflect on the ways in which our own assumptions and ideologies have been influenced by them.

Exclusions: [HIS101H5](#) and [HIS102H5](#) and [HIS104H5](#) and [HIS105H5](#) and [HIS106H5](#) and [HIS107H5](#) and [HIS108H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

HIS104H5 • A History of Here

This course focuses on the University of Toronto, its region, and the land on which it operates. Paying particular attention to the University's relationship with Indigenous peoples and with critical attention to both primary and secondary sources, it explores local and institutional archives, questioning and complicating narratives of institutional pride that tend to attach themselves to the University and its campuses.

Exclusions: HIS101H5 and HIS102H5 and HIS103H5 and HIS104H5 and HIS105H5 and HIS106H5 and HIS107H5 and HIS108H5

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

HIS105H5 • A Brief History of Capitalism

This course offers a history of capitalism. In twelve weeks, we study nearly six hundred years of human history, examining how the profit motive has reshaped lives, landscapes, and values. We consider how the drive to accumulate capital has given rise to distinctive legal, racial, and religious regimes.

Exclusions: HIS101H5 and HIS102H5 and HIS103H5 and HIS104H5 and HIS106H5 and HIS107H5 and HIS108H5

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

HIS106H5 • A History of Sex

This course examines the history of sex, the history of the body, and the history of sexuality from the past to the present. Topics include the construction of sexual identities (including non-normative sexualities); desire and its regulation; and the porous boundaries between sex and gender, especially in relationship to trans history.

Exclusions: HIS101H5 and HIS102H5 and HIS103H5 and HIS104H5 and HIS105H5 and HIS107H5 and HIS108H5

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

HIS107H5 • Critical Historiography

This writing-intensive course introduces students to critical historical thinking and writing in the humanities and social sciences and explores the emergence of History as a field of academic inquiry. By learning to reason and to write historically, students in this course will acquire the foundational skills that are essential for their educational success in higher level courses.

Exclusions: HIS101H5 and HIS102H5 and HIS103H5 and HIS104H5 and HIS105H5 and HIS106H5 and HIS108H5

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

HIS108H5 • Encounters Across the Atlantic

The movement of people, goods, and ideas across the Atlantic Ocean changed the world and shaped the modern age. This course considers how contact among Indigenous Americans, Africans, and Europeans between 1000 and 1800 contributed to ideologies of conquest and colonization; the development of a global economy; forced and voluntary migration on an unprecedented scale; and new forms of resistance.

Exclusions: HIS101H5 and HIS102H5 and HIS103H5 and HIS104H5 and HIS105H5 and HIS106H5 and HIS107H5

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

HIS200H5 • Topics in History

An in-depth examination of historical issues. Content in any given year depends on instructor. See Department of Historical Studies web site at <https://www.utm.utoronto.ca/historical-studies/students/courses/topic-c...> for details.

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

HIS201H5 • Introduction to Middle Eastern History

An introduction to the history of Islamic culture from its beginnings to modern times.

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

HIS203H5 • The Making of the Atlantic World (1000-1800)

An introduction to African, European, and American peoples around and across the Atlantic Ocean between 1000 and 1800. Themes include ideologies and practices of exploration, conquest, and colonization; perceptions and misunderstandings; forced and voluntary migration; effects of disease; resistance and revolt; and the "Atlantic World" as a field of study.

Distribution Requirements: Humanities
Total Instructional Hours: 24L/12T
Mode of Delivery: In Class

HIS204H5 • History of the Ottoman Empire, 1299-1923

This course provides an overview of the history of the Ottoman Empire, the longest lasting Muslim superpower and a major player in world history, from its inception in 1299 until its dissolution after World War I. Among current members of the United Nations, close to 40 member states were, for periods ranging from 50 to 600 years, integral parts of the Ottoman state. Present-day conflicts in political hot-spots, such as the Middle East, Bosnia, Kosovo, Cyprus and the Caucasus can only be understood through exploring their origin in the Ottoman past. At the same time in many cases the Ottoman Empire was an example of tolerance and accommodation of various ethnic and religious groups.

Distribution Requirements: Humanities
Total Instructional Hours: 24L/12T
Mode of Delivery: In Class

HIS210H5 • Introduction to Digital Humanities

What is Digital Humanities? We explore the field's debates, platforms, tools, projects, and critical perspectives, as well as its current core practices: digital exhibits, digital mapping, text analysis, information visualization, and network analysis. We discuss the relationship between technology and knowledge production in historical and critical perspective.

Distribution Requirements: Humanities
Total Instructional Hours: 24L
Mode of Delivery: In Class

HIS211H5 • Screening History

This course explores the relationship of media - film, television and new visual technologies - to history: as historical representations, as sources of history, and as history itself. The course examines the impact of popular representations of history on screen and the controversies that emerge over these constructions of the past.

Distribution Requirements: Humanities
Total Instructional Hours: 24L/24P
Mode of Delivery: In Class

HIS212H5 • The History of Capitalism

This course historicizes capitalism and all of the subcategories that derive from this mode of production: labour, management, the commodity chain, marketing,

advertising, finance, exchange value, and the multinational corporation, to name but a few. Students will be introduced to classic texts as well as to more recent work that uses historical methods to study the social, cultural, environmental, gendered, and ethical aspects of economic life under capitalism. The course takes a global perspective, and the focus will range from examining the historical development of capitalism in Canada, the United States, Latin America, Asia, Africa, and Europe.

Distribution Requirements: Humanities
Total Instructional Hours: 24L
Mode of Delivery: In Class

HIS213H5 • A History of the Present

This course takes as its starting point current world events of global significance. We focus on 3-4 flashpoints/crises/events shaping contemporary global politics and culture, and move back in time to understand how current events have been shaped by longer histories of power, inequality, conflict and contestation.

Distribution Requirements: Humanities
Total Instructional Hours: 24L
Mode of Delivery: In Class

HIS214H5 • Comparative Genocide

What are the historical circumstances through which mass killings emerge? An introduction to the history of genocide in comparative perspective, with an emphasis on the 20th century case studies. Course themes include denial and forgetting; justice and truth; and public memory.

Distribution Requirements: Humanities
Total Instructional Hours: 24L/12T
Mode of Delivery: In Class

HIS221H5 • Themes in Medieval History

This course is a brief survey of European history from the late Roman Empire to the fifteenth century emphasizing select themes that created the shape of medieval civilization and influenced developments in subsequent centuries.

Exclusions: May not be taken with or after HIS220Y5.
Distribution Requirements: Humanities
Total Instructional Hours: 24L/12T
Mode of Delivery: In Class

HIS230H5 • Introduction to European History 1300-1815

European history from the late Middle Ages to the end of the Napoleonic Wars, emphasizing the major political, cultural, economic and social changes that created early modern Europe.

Distribution Requirements: Humanities
Total Instructional Hours: 24L/12T
Mode of Delivery: In Class

HIS236H5 • Introduction to British History

An introduction to some of the major themes in British history. Depending on the year, these might include examples from prehistoric, Roman, medieval, early modern, modern, and contemporary periods. Both developments within Britain itself, and connections between Britain and the wider world, are considered.

Distribution Requirements: Humanities
Total Instructional Hours: 24L/12T
Mode of Delivery: In Class

HIS241H5 • Revolution and Social Conflict in Europe: 1789-1890

Nineteenth-Century Europe is arguably the most revolutionary century in human history. Around 1800, Europe was a relative backwater characterized by agricultural economies and monarchical government. By 1900 a new decidedly modern world emerged, shaped by the priorities of industry, capitalism, and democracy. What caused these dramatic changes?

Exclusions: [HIS241H1](#)
Distribution Requirements: Humanities
Total Instructional Hours: 24L/12T
Mode of Delivery: In Class

HIS242H5 • Nations, Ideologies, and Conflict in Contemporary European History

Nations, Ideologies, and Conflict offers a sweeping overview of European history from the eve of WWI to the present with attention to the key ideas--Liberalism, Communism, Fascism, Nazism, Populism, and Globalization--that drive social, political and cultural change.

Exclusions: [HIS242H1](#)
Distribution Requirements: Humanities
Total Instructional Hours: 24L/12T
Mode of Delivery: In Class

HIS250H5 • Introduction to Russian History

An introductory survey that examines the political, social, and cultural developments that shaped the Russian empire from the settlement of Kiev in the 9th century to the collapse of the Romanov dynasty in 1917.

Exclusions: [HIS250Y1](#)
Recommended Preparation: [HIS101H5](#) or [HIS102H5](#) or [HIS103H5](#) or [HIS104H5](#) or [HIS105H5](#) or [HIS106H5](#) or [HIS107H5](#) or [HIS108H5](#)
Distribution Requirements: Humanities
Total Instructional Hours: 24L/12T
Mode of Delivery: In Class

HIS255H5 • Introduction to Histories of Extraction and the Environment

An introduction to the historical and ongoing disruptions of colonial extraction in Canada and their treatment within the historical record. From natural resources to Indigenous lands and knowledges, this course will deepen students' understandings of the processes, industries and technologies responsible for settler colonial extraction in Canada.

Distribution Requirements: Humanities, Social Science
Total Instructional Hours: 24L/12T
Mode of Delivery: In Class

HIS261H5 • Introduction to Canadian History

A survey of the political, social, and economic history of Canada, topically treated from the beginning to the present. This course is intended for students from disciplines outside of History looking for a broad-ranging approach to Canadian history.

Exclusions: [HIS263Y1](#) and may not be taken with or after [HIS263Y5](#).
Distribution Requirements: Humanities
Total Instructional Hours: 24L
Mode of Delivery: In Class

HIS262H5 • What is Canada?

A broad survey of the history of Canada from the beginning to the present focused on changing notions of the country, its territory, and peoples. We will question widely held beliefs about Canada, both in the past and the present, through deep engagement with primary sources and historiography.

Exclusions: [HIS263H5](#) and [HIS263Y5](#)
Distribution Requirements: Humanities
Total Instructional Hours: 24L/12T
Mode of Delivery: In Class

HIS271H5 • US History, Colonial Era to 1877

A survey of the main developments and themes of U.S. history from the colonial period to the end of Reconstruction.

Exclusions: [HIS271Y1](#) or [HIS272Y5](#)

Recommended Preparation: [HIS101H5](#) or [HIS102H5](#) or [HIS103H5](#) or [HIS104H5](#) or [HIS105H5](#) or [HIS106H5](#) or [HIS107H5](#) or [HIS108H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

HIS272H5 • US History, 1877-present

How did the US move from the Civil War to a world power? What have been the tensions between national ideals of "liberty for all" and US market expansion? Topics covered include: Jim Crow South; immigration and urbanization; Populism and the Progressivism; consumerism; many wars; post-45 social movements; Reaganism and after.

Exclusions: [HIS272Y5](#) and [HIS271Y1](#)

Recommended Preparation: [HIS101H5](#) or [HIS102H5](#) or [HIS103H5](#) or [HIS104H5](#) or [HIS105H5](#) or [HIS106H5](#) or [HIS107H5](#) or [HIS108H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

HIS282H5 • Introduction to South Asian History

A critical introduction to the main themes and questions defining South Asian history from its beginnings to the present. Emphasis will be placed particularly on the period after the 1750s, which saw the emergence of British imperialism, anti-colonial struggles, and the formation of new nation states after 1947.

Exclusions: [HIS282Y1](#) and [HISB57H3](#)

Recommended Preparation: [HIS101H5](#) or [HIS102H5](#) or [HIS103H5](#) or [HIS104H5](#) or [HIS105H5](#) or [HIS106H5](#) or [HIS107H5](#) or [HIS108H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

HIS284H5 • Introduction to East Asian History

A survey of East Asian civilization and history from antiquity to modernity. It particularly explores the interrelations of Chinese, Japanese, and Korean cultural and political development.

Exclusions: [HIS107Y1](#)

Recommended Preparation: [HIS101H5](#) or [HIS102H5](#) or [HIS103H5](#) or [HIS104H5](#) or [HIS105H5](#) or [HIS106H5](#) or [HIS107H5](#) or [HIS108H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

HIS285H5 • War and Memory in Modern East Asia

This course examines how Japan, China, Taiwan, Korea and the US try to remember the Asian Pacific War. It focuses particularly on the bitterly contested representations of war atrocities such as the Nanjing Massacre, the comfort women system, and the bombings of Hiroshima and Nagasaki.

Exclusions: [HIS381H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

HIS290H5 • Introduction to Latin American History

An introduction to the history of Latin America from pre-conquest indigenous empires to the end of the 20th century. Lectures, films, readings, and tutorials explore a set of themes in historical context: nationalism, authoritarianism, religion, racism, patriarchy, and Latin America's multiple interactions with the outside world.

Exclusions: [HIS291H1](#) and [HIS292H1](#)

Recommended Preparation: [HIS101H5](#) or [HIS102H5](#) or [HIS103H5](#) or [HIS104H5](#) or [HIS105H5](#) or [HIS106H5](#) or [HIS107H5](#) or [HIS108H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

HIS295H5 • Introduction to African History

A survey of African civilization and history from antiquity to modernity. The course also examines the transformation of Africa from colonial domination to postcolonial states, social movements, and ideologies.

Exclusions: [HIS295Y1](#)

Recommended Preparation: [HIS101H5](#) or [HIS102H5](#) or [HIS103H5](#) or [HIS104H5](#) or [HIS105H5](#) or [HIS106H5](#) or [HIS107H5](#) or [HIS108H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

HIS299Y5 • Research Opportunity Program

This courses provides a richly rewarding opportunity for students in their second year to work in the research project of a professor in return for 299Y course credit. Students enrolled have an opportunity to become involved in original research, learn research methods and share in the excitement and discovery of acquiring new knowledge. Participating faculty members post their project

descriptions for the following summer and fall/winter sessions in early February and students are invited to apply in early March. See [Experiential and International Opportunities](#) for more details.

Prerequisites: Completion of at least 4.0 and not more than 9.0 credits.

Distribution Requirements: Humanities

Mode of Delivery: In Class

HIS301H5 • North Africa and Western Asia Before World War I

A cultural history of North Africa and Western Asia from the 1870s to World War I. This late Ottoman period, known in Europe as the *fin de siècle*, was marked by imperialisms, nationalisms, and revolutions, as well as anxiety and alienation, environmental degradation, famine, and genocide.

Prerequisites: [HIS201H5](#)

Exclusions: [HIS392H5](#) (Winter 2019 and Fall 2020)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

HIS305H5 • 1898: Empires and Conflict in Global History

The Klondike Gold Rush, imperial conflict in North Africa, and the Spanish American War: 1898 is a pivotal year in global history. This course investigates the circuits of empire, capitalism, and environmental extraction in a rapidly industrializing and increasingly interconnected world.

Recommended Preparation: [HIS101H5](#) or [HIS102H5](#) or [HIS103H5](#) or [HIS104H5](#) or [HIS105H5](#) or [HIS106H5](#) or [HIS107H5](#) or [HIS108H5](#).

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

HIS306H5 • The Cold War

This course will review the alliance systems and conflicts that dominated international relations in the period 1945-1991. It will examine specific incidents such as the Berlin Blockade and Airlift of 1948-49, the Hungarian uprising of 1956, the Cuban Missile Crisis, the Vietnam War, and the Prague Spring, as well as the broader strategies and tactics that followed by the two superpowers and their allies. Particular attention will be given to the documentary evidence that has been declassified in the past two decades, and the light it sheds on earlier developments.

Exclusions: [HIS401H1](#) and [HIS401Y1](#)

Recommended Preparation: ([HIS101H5](#) or [HIS102H5](#) or [HIS103H5](#) or [HIS104H5](#) or [HIS105H5](#) or [HIS106H5](#) or [HIS107H5](#) or [HIS108H5](#)) and ([HIS242H5](#) or [HIS250H5](#)).

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

HIS307H5 • The Russian Revolutions of 1917

The fall of the Romanovs and the coming to power of the Bolsheviks have been controversial. This course examines interpretations of the 1917 events using original sources from 1917 in English.

Prerequisites: A course in modern European history.

Recommended Preparation: [HIS101H5](#) or [HIS102H5](#) or [HIS103H5](#) or [HIS104H5](#) or [HIS105H5](#) or [HIS106H5](#) or [HIS107H5](#) or [HIS108H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

HIS308H5 • Themes in the History of Women Before 1800

This course focuses on the history of women before the 19th century emphasizing select themes in ancient, medieval, and early modern history.

Recommended Preparation: [HIS101H5](#) or [HIS102H5](#) or [HIS103H5](#) or [HIS104H5](#) or [HIS105H5](#) or [HIS106H5](#) or [HIS107H5](#) or [HIS108H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

HIS310H5 • The History of Women Since 1800

This course is a brief survey of the history of women in since 1800 emphasizing select themes in modern history.

Recommended Preparation: [HIS101H5](#) or [HIS102H5](#) or [HIS103H5](#) or [HIS104H5](#) or [HIS105H5](#) or [HIS106H5](#) or [HIS107H5](#) or [HIS108H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

HIS315H5 • Indigenous Peoples and Immigrants in Canada

This course examines the intertwined social, cultural, economic, and political histories of Indigenous peoples and immigrants in Canada. It explores the influence on lived experience of a wide variety of phenomena and ideas including community, place, indigeneity, ethnicity, gender, colonialism, empire, and mobility from the distant to the present.

Recommended Preparation: [HIS262H5](#) or [HIS263Y5](#)
Distribution Requirements: Humanities
Total Instructional Hours: 24L
Mode of Delivery: In Class

HIS318H5 • Canadian Environmental History: Contact to Conservation

This course focuses on the interaction of people and the environment. Themes include environmental change as a result of: European exploration and settlement; the transfer of animals, plants and diseases; the impact of contact and the "Columbian exchange" on indigenous peoples; the fur trade; the lumber industry; the destruction of the bison, the reserves system, and immigrant settlers in the West; the emergence of the conservation movement in Canada.

Prerequisites: 8.0 credits
Recommended Preparation: ([HIS101H5](#) or [HIS102H5](#) or [HIS103H5](#) or [HIS104H5](#) or [HIS105H5](#) or [HIS106H5](#) or [HIS107H5](#) or [HIS108H5](#)) and ([HIS261H5](#) or [HIS262H5](#) or [HIS263Y5](#))
Distribution Requirements: Humanities
Total Instructional Hours: 24L
Mode of Delivery: In Class

HIS319H5 • Canadian Environmental History: Conservation to the Modern Environmental Movement

This course focuses on the interaction of people and the environment in the 20th Century. Themes include the environmental impact of industrialization, urbanization, and the revolution in transportation, and of resource development in the mining, oil, and gas industries; the destruction and preservation of wildlife; parks and the wilderness idea; the modern environmental movement; the contested world of modern agriculture and the food industry; the collapse of the fisheries; Canadian public policy, environmental law, and Canada's international role concerning the environment.

Prerequisites: 8.0 credits
Recommended Preparation: ([HIS101H5](#) or [HIS102H5](#) or [HIS103H5](#) or [HIS104H5](#) or [HIS105H5](#) or [HIS106H5](#) or [HIS107H5](#) or [HIS108H5](#)) and ([HIS261H5](#) or [HIS262H5](#) or [HIS263Y5](#) or [HIS318H5](#))
Distribution Requirements: Humanities

Mode of Delivery: In Class

HIS321H5 • Medieval and Early Modern Scotland

This course examines the political, social, cultural, and religious history of Scotland during the medieval and early modern periods. Topics include the Anglo-Norman impact, the Wars of Independence, Stewart monarchy, the growth

of towns and trade, Highlands and Lowlands, the medieval Church, the Protestant Reformation, and Union with England.

Prerequisites: 0.5 HIS credit
Exclusions: [HIS413H5](#)
Recommended Preparation: ([HIS101H5](#) or [HIS102H5](#) or [HIS103H5](#) or [HIS104H5](#) or [HIS105H5](#) or [HIS106H5](#) or [HIS107H5](#) or [HIS108H5](#)) and ([HIS220Y5](#) or [HIS221H5](#) or [HIS230H5](#))
Distribution Requirements: Humanities
Total Instructional Hours: 24L
Mode of Delivery: In Class

HIS323H5 • The Rwandan Genocide: History, Violence, and Identity

This course examines the 1994 Rwandan Genocide, situated within larger historical frameworks of the nature of precolonial polities, the impact of colonialism, and the crises of postcolonial state building. Through a close examination of primary sources and historical arguments, this course will explore history and memory, violence and trauma, identity and belonging, justice and reconciliation.

Distribution Requirements: Humanities
Total Instructional Hours: 24L
Mode of Delivery: In Class

HIS324H5 • Settler Colonialism, Violence, and Revolution: The Mau Mau Rebellion in Kenya

This course examines colonial violence and revolution through the case of the Mau Mau Rebellion in Kenya. Through an examination of primary sources and historical arguments, this course explores settler colonialism; local moral economies and land; gender and generational conflict; propaganda and revolutionary thought; and decolonization, memory, and contemporary legacies of Mau Mau.

Exclusions: [HIS395H5](#) (Fall 2021)
Distribution Requirements: Humanities
Total Instructional Hours: 24L
Mode of Delivery: In Class

HIS325H5 • Modern African History

Looking at the last one hundred years of modern African history, this course will examine the consolidation of colonial societies; transformations in gender, sexuality and identity politics; the roots of ethnic patriotisms, racial ideologies and African nationalisms; the role of violence in colonial and postcolonial governance; and the contemporary in historical perspective.

Recommended Preparation: [HIS101H5](#) or [HIS102H5](#) or [HIS103H5](#) or [HIS104H5](#) or [HIS105H5](#) or [HIS106H5](#) or

HIS107H5 or HIS108H5

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

HIS326H5 • History of Women in Canada

A course on the experiences of women in what is now Canada, from the deep past through the twentieth century. It addresses questions related to the many roles women occupied in Indigenous and settler societies and how these have changed over time. The course explores political, social, and cultural movements alongside personal relationships and lives.

Exclusions: HIS326Y5

Recommended Preparation: HIS101H5 or HIS102H5 or HIS103H5 or HIS104H5 or HIS105H5 or HIS106H5 or HIS107H5 or HIS108H5

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

HIS327H5 • The Early Medieval World

Disorder, destruction, the dissolution of old and the creation of new societies, and a cultural revival that continues to influence intellectual and literary traditions: these are the big themes examined in this history of the early medieval world.

Prerequisites: CLA231H5 or CLA370H5 or HIS221H5.

Recommended Preparation: HIS101H5 or HIS102H5 or HIS103H5 or HIS104H5 or HIS105H5 or HIS106H5 or HIS107H5 or HIS108H5

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

HIS330H5 • Politics and Political Change in Latin America

Examines major movements and cultures in Latin American politics from independence to present day. Topics include: nineteenth-century militarism; revolutionary socialism in Cuba and Nicaragua; military dictatorships in Argentina, Brazil and Chile; and recent grassroots and transnational political movements. Emphasizes the integral roles of gender, race and the United States in the region's political processes.

Recommended Preparation: (HIS101H5 or HIS102H5 or HIS103H5 or HIS104H5 or HIS105H5 or HIS106H5 or HIS107H5 or HIS108H5) and HIS290H5

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

HIS336H5 • The Imperial Victorian World

This course investigates the development of British politics and the emergence of its global empire from the early nineteenth century to 1900. It engages with key historical issues such as the development of representative government, imperialism, colonial relationships, the industrial revolution, and new political ideologies (i.e. conservatism, liberalism, socialism).

Recommended Preparation: HIS101H5 or HIS102H5 or HIS103H5 or HIS104H5 or HIS105H5 or HIS106H5 or HIS107H5 or HIS108H5

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

HIS337H5 • History of Information and Media

In (mis)information age, it seems that the more we know, the less we understand. This course examines how data, fact, and information all have their own history, and that their production and circulation are shaped by politics, emotion, capital, as well as mediated by technology.

Exclusions: HIS392H5 (Fall 2019 and Fall 2020)

Recommended Preparation: HIS101H5 or HIS102H5 or HIS103H5 or HIS104H5 or HIS105H5 or HIS106H5 or HIS107H5 or HIS108H5

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

HIS338H5 • The Holocaust in Nazi Germany and Occupied Europe

This course provides an expansive survey of the Nazi extermination of European Jews, including the ideological underpinnings of the genocide; the policies leading up to the "Final Solution" in Germany and the rest of Europe, a broad overview of the varied reactions and policies of many countries throughout Europe, the role of the Vatican and the response of the Jews themselves as well as the international community; the motivation of the perpetrators; and the complexities of survival in the ghettos and concentration camps.

Exclusions: HIS361H1 or HIS338H1

Recommended Preparation: (HIS101H5 or HIS102H5 or HIS103H5 or HIS104H5 or HIS105H5 or HIS106H5 or HIS107H5 or HIS108H5) and a course in modern European history.

Distribution Requirements: Humanities

Total Instructional Hours: 24L/10T

Mode of Delivery: In Class

HIS339H5 • Postwar Germany, 1945-present

This course will explore the history of Germany beginning in 1945. We will examine the evolution of Germany from a dictatorship to a divided state by looking at Allied Policies in the 1940s, the economic wonder of the 1950s, and the tensions between East and West Germany until the fall of the Berlin wall in 1989. This course will look at both East and West Germany's very different confrontations with the Nazi past, the student movement of the 1960s, domestic terrorism in the 1970s, the breakdown of communism in the 1980s, and the growing pains of reunification that exist to the present day. All of these developments will be seen through legal, political, cultural, and media trends.

Recommended Preparation: HIS101H5 or HIS102H5 or HIS103H5 or HIS104H5 or HIS105H5 or HIS106H5 or HIS107H5 or HIS108H5) and (HIS242H5 or HIS338H5)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

HIS340H5 • The Reformation in Europe

The focus of this course will be the religious movements of sixteenth century that are described collectively as the Reformation: Lutheranism, Calvinism, the Radical Reformation and the Counter-Reformation.

Exclusions: RLG346H5 and HIS309H1

Recommended Preparation: HIS101H5 or HIS102H5 or HIS103H5 or HIS104H5 or HIS105H5 or HIS106H5 or HIS107H5 or HIS108H5

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

HIS341H5 • England in the Age of Reformation and Revolution

Tudor and Stuart England (1485-1714) is a transformative period in English history. From the reign of Henry VIII, the Reformation, and the Scientific Revolution, to the execution of Charles I and the Glorious Revolution, this course charts out England's dramatic development from peripheral backwater to emerging world superpower.

Exclusions: HIS395H5 (Fall 2019)

Recommended Preparation: HIS101H5 or HIS102H5 or HIS103H5 or HIS104H5 or HIS105H5 or HIS106H5 or HIS107H5 or HIS108H5.

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

HIS342H5 • History of Quebec and French Canada

This course examines the history of French Canada, focusing in particular on the period from the 1830s to the present. It explores questions of culture, political community, language, and geography, looking to these aspects of historical experience to situate Quebec and French Canada with respect to North America's English-speaking majority as well as to the French-speaking nations of Europe, Africa, and elsewhere in the Americas. Proficiency in French is not required for students enrolled in HIS342H5, though those with French-language skills will be given the opportunity to work with French-language material. This course is taught in conjunction with FRE342H5.

Exclusions: FRE342H5

Recommended Preparation: HIS262H5 or HIS263Y5

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

HIS355H5 • Histories of Extraction and the Future of the Environment

This course uses Indigenous, transnational and feminist frameworks to examine colonialism's impact on the environment. From Turtle Island (Canada/U.S.) to Aotearoa (New Zealand), this course dismantles colonial histories, extractive industries and the state apparatuses that govern our relationship to the environment to form alternative understandings of environmental histories and futures.

Recommended Preparation: HIS255H5

Distribution Requirements: Humanities, Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

HIS357H5 • The Renaissance

A cultural history of the 15th and 16th centuries set against the socio-economic background. The course will concentrate upon the development of the Renaissance in Italy and will deal with its manifestations in Northern Europe.

Recommended Preparation: HIS101H5 or HIS102H5 or HIS103H5 or HIS104H5 or HIS105H5 or HIS106H5 or HIS107H5 or HIS108H5

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

HIS358H5 • Canada Since World War Two

This course examines Canadian developments in the post-war period. It explores the tremendous economic expansion in that period. It surveys trends in immigration and urban development. The course also examines social movements and social change, as well as the growth of nationalism in Canada and Quebec.

Exclusions: [HISB41H3](#)

Recommended Preparation: ([HIS101H5](#) or [HIS102H5](#) or [HIS103H5](#) or [HIS104H5](#) or [HIS105H5](#) or [HIS106H5](#) or [HIS107H5](#) or [HIS108H5](#)) and ([HIS262H5](#) or [HIS263Y5](#))

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

HIS366H5 • Diasporic Histories & Cultures

This course explores a number of significant historic diasporas - and sites of diaspora - from Constantinople to Al-Andalus to Shanghai, to the United States and the United Kingdom, and to Tel Aviv and the West Bank, through historical record, fiction, memoir and film.

Recommended Preparation: [HIS101H5](#) or [HIS102H5](#) or [HIS103H5](#) or [HIS104H5](#) or [HIS105H5](#) or [HIS106H5](#) or [HIS107H5](#) or [HIS108H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

HIS367H5 • Diasporic Canada

This course explores the history of Canada as a recipient of diasporic communities, arriving from many parts of the world and bringing a great variety of cultures and experiences.

Exclusions: [HIS266H5](#)

Recommended Preparation: ([HIS101H5](#) or [HIS102H5](#) or [HIS103H5](#) or [HIS104H5](#) or [HIS105H5](#) or [HIS106H5](#) or [HIS107H5](#) or [HIS108H5](#)) and ([HIS262H5](#) or [HIS263Y5](#))

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

HIS369H5 • Great Lakes Aboriginal History

Algonkian and Iroquoian history from the eve of European contact to the present in the Great Lakes region of today's Canada and the United States. Algonkian and Iroquoian societies in the 16th century, change over time, material culture, and inter-cultural relations among natives and between natives and Euroamericans.

Exclusions: [HIS366H1](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

HIS371H5 • The Americas: Interaction and Inequality

An introduction to the history of Americas (the present-day territories of the Caribbean, Canada, Latin America and the United States) from pre-conquest indigenous societies to the end of the 20th century. This course will explore the Americas as a zone of connection and interaction between people of distinct environments, cultures and experiences. It surveys the historical continuities and transformations within the region and its linkages to increasingly globalized networks of culture, communication and commerce.

Exclusions: [HIS391Y1](#), [HISC70H3](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

HIS372H5 • The United States in the 20th Century

Major developments in the economic, social, political, and cultural life of the United States during the past century as it grew from a burgeoning industrial nation to the leading Superpower.

Exclusions: [HIS372H1](#) and [HISD36H3](#)

Recommended Preparation: [HIS101H5](#) or [HIS102H5](#) or [HIS103H5](#) or [HIS104H5](#) or [HIS105H5](#) or [HIS106H5](#) or [HIS107H5](#) or [HIS108H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

HIS374H5 • Gender and Sexuality in the US, 1945-present

This class historicizes the intersectional analysis of gendered and sexed bodies after 1945. We explore topics such as normative gender expectations; reproductive freedom; masculinities; second-wave feminism; race, class and poverty; conservative backlash; media and gender/sexuality; LGBTQ social movements; trans histories. In terms of methods, I look forward to introducing students to experiments in digital history.

Recommended Preparation: [HIS101H5](#) or [HIS102H5](#) or [HIS103H5](#) or [HIS104H5](#) or [HIS105H5](#) or [HIS106H5](#) or [HIS107H5](#) or [HIS108H5](#) or [HIS272H5](#) or [HIS272Y5](#) or [WGS101H5](#) or any course in U.S. History

Distribution Requirements: Humanities
Total Instructional Hours: 24L
Mode of Delivery: In Class

HIS378H5 • East Asian Cities

An examination of the historical transformation of East Asian cities from the imperial to modern times. The course focuses especially on how cities have been planned, depicted, experienced.

Recommended Preparation: (HIS101H5 or HIS102H5 or HIS103H5 or HIS104H5 and or HIS105H5 or HIS106H5 or HIS107H5 or HIS108H5) and HIS284H5

Distribution Requirements: Humanities
Total Instructional Hours: 24L
Mode of Delivery: In Class

HIS382H5 • Nations, Borders and Citizenship in South Asia

This course examines the emergence of the connected histories of nation-states, space and border-making in modern South Asia. It is especially interested in engaging the changing political languages, practices and contested visions of citizenship that have animated and shaped languages of space, place and belonging in South Asia.

Prerequisites: HIS282H5
Recommended Preparation: HIS101H5 or HIS102H5 or HIS103H5 or HIS104H5.
Distribution Requirements: Humanities
Total Instructional Hours: 24L
Mode of Delivery: In Class

HIS384H5 • International Relations in the Middle East - Regional Perspectives on the 20th Century

The discovery of oil, the establishment of the state of Israel and subsequent wars for Palestine, Pan-Arabism and Political Islam were the over-riding factors in the regional balance of power. This course examines international relations as they were shaped by state- and non-state actors in 20th Century Egypt, Saudi Arabia, Israel/Palestine, Iraq, Iran, Lebanon and Syria.

Prerequisites: (HIS101H5 or HIS102H5 or HIS103H5 or HIS104H5 or HIS105H5 or HIS106H5 or HIS107H5 or HIS108H5) and (HIS201H5 or HIS236H5 or HIS282H5 or HIS290H5 or HIS295H5 or HIS306H5)
Exclusions: HIS307H1
Distribution Requirements: Humanities
Total Instructional Hours: 24L
Mode of Delivery: In Class

HIS385H5 • Orientalism and Occidentalism

This course reflects on Edward W. Said's seminal Study Orientalism. The first part focuses on the debates around academic representations of the Orient before and after Said's intervention: his critics, alternative perspectives and methodological elaborations. The second part dissects the ways in which Orientalism inhabits political forms of belonging such as romantic nationalism or Islamic fundamentalism, as well as colonial constructions of liberalism, race, gender and sexuality. The third part examines the ramifications of Orientalist knowledge production in the media and in visual culture. The course also raises questions of strategic reversals of Orientalism, and to what extent Occidentalism can be considered the non-Western equivalent to Western constructions of Otherness.

Prerequisites: HIS201H5
Recommended Preparation: HIS101H5 or HIS102H5 or HIS103H5 or HIS104H5 or HIS105H5 or HIS106H5 or HIS107H5 or HIS108H5
Distribution Requirements: Humanities
Total Instructional Hours: 24L
Mode of Delivery: In Class

HIS386H5 • Gender and History in South Asia

This course seeks to understand the manifold ways in which gender has shaped South Asian history, with a particular emphasis on the period from the colonial era to contemporary times. The themes will include the relationship between gender, kinship, society and politics on the one hand and race, imperialism, nationalism, popular movements and religion on the other.

Prerequisites: HIS282H5
Recommended Preparation: HIS101H5 or HIS102H5 or HIS103H5 or HIS104H5 or HIS105H5 or HIS106H5 or HIS107H5 or HIS108H5
Distribution Requirements: Humanities
Total Instructional Hours: 24L
Mode of Delivery: In Class

HIS388H5 • Histories of Modern Hinduism in South Asia

This course examines the social, cultural and political history of Hinduism since 1800. Themes include Hindu socio-reform and political movements, public and popular engagements with Hinduism, and the role of religious institutions, sites, beliefs and rituals in crafting contestatory Hindu 'publics' and ideologies. It emphasizes the nexus between gender, class, caste, region and the language of religion in shaping national and transnational political and cultural identities.

Prerequisites: HIS282H5 or RLG205H5
Recommended Preparation: (HIS101H5 or HIS102H5 or

HIS103H5 or HIS104H5 or HIS105H5 or HIS106H5 or HIS107H5 or HIS108H5) and RLG308H5

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

HIS389H5 • Localities, Regions and Nations in South Asia

This course foregrounds and examines the role of localities and regions in forging social, cultural and political identities and cartographies in South Asian history before and after colonial rule. The course examines the shifting relationship between localities, regions and empires from 1200-1800, and thereafter in the era of colonialism, nationalism and post colonial nation-states. The course is especially interested in how social groups from the margins shaped, or alternatively contested political and spatial articulations of region, locality and nations.

Prerequisites: HIS282H5

Exclusions: HIS382H5

Recommended Preparation: HIS101H5 or HIS102H5 or HIS103H5 or HIS104H5 or HIS105H5 or HIS106H5 or HIS107H5 or HIS108H5

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

HIS390H5 • Revolutions and Nations in Latin America

Examines social revolutions in Guatemala, Bolivia, Cuba and Nicaragua. It emphasizes the historical linkages between these revolutions and national identity, and stresses the roles of gender, race and the United States in revolutionary processes. This course considers as well the counterrevolutionary politics of the 1970s and 1980s in Central America and the Southern cone.

Recommended Preparation: (HIS101H5 or HIS102H5 or HIS103H5 or HIS104H5 or HIS105H5 or HIS106H5 or HIS107H5 or HIS108H5) and a course in Latin-American history or politics.

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

HIS391H5 • Mexico from Aztec to Zapatista

This course examines the origins and evolution of Mexican society, from its prehispanic empires to the Mexican Revolution (1910-1940). Drawing on primary sources, literature, films and secondary texts, the course will track a set of historical themes, including ethnic identity, Catholicism, economic development and migration.

Prerequisites: HIS290H5

Recommended Preparation: HIS101H5 or HIS102H5 or HIS103H5 or HIS104H5 or HIS105H5 or HIS106H5 or HIS107H5 or HIS108H5

Distribution Requirements: Humanities

Mode of Delivery: In Class

HIS392H5 • Topics in Global History

An examination of global historical issues. Content in any given year depends on instructor. See Department of Historical Studies web site at <http://www.utm.utoronto.ca/historical-studies> for details.

Prerequisites: HIS101H5 or HIS102H5 or HIS103H5 or HIS104H5 or HIS105H5 or HIS106H5 or HIS107H5 or HIS108H5

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

HIS393H5 • Slavery and the American South

An examination of the role of slavery in the development of the American South from the early colonial period through the Civil War. Among the topics to be dealt with are: the origins of slavery, the emergence of a plantation economy, the rise of a slaveholding elite, the structure of the slave community, and the origins of the war.

Prerequisites: HIS271H5 or HIS272H5 or HIS272Y5

Recommended Preparation: HIS101H5 or HIS102H5 or HIS103H5 or HIS104H5 or HIS105H5 or HIS106H5 or HIS107H5 or HIS108H5

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

HIS395H5 • Topics in History

An in-depth examination of historical issues. Content in any given year depends on instructor. See Department of Historical Studies web site at www.utm.utoronto.ca/historicalstudies for details.

Recommended Preparation: HIS101H5 or HIS102H5 or HIS103H5 or HIS104H5 or HIS105H5 or HIS106H5 or HIS107H5 or HIS108H5

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

HIS396H5 • Modernity and Islam

The aim of this course is to engage students in the ongoing historiographical debates on modernity and Islam. Students will critically explore recent public

discussions concerning "Islamic Fundamentalism," "Islamic Feminism," and "What Went Wrong" in the Islamic world.

Prerequisites: HIS101H5 or HIS102H5 or HIS103H5 or HIS104H5 or HIS105H5 or HIS106H5 or HIS107H5 or HIS108H5 and HIS201H5

Recommended Preparation: HIS282H5

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

HIS397H5 • Iran's Islamic Revolution

This course explores the making of the Iranian Revolution of 1978-79 and the subsequent establishment of the Islamic Republic. Framed in a comparative perspective, it explains the cultural and political peculiarities that shaped the Islamist outcome of the Revolution. It examines the staging of the hostage crisis, the Iran-Iraq War, and the secularization of private lives.

Prerequisites: HIS201H5

Recommended Preparation: HIS101H5 or HIS102H5 or HIS103H5 or HIS104H5 or HIS105H5 or HIS106H5 or HIS107H5 or HIS108H5

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

HIS398H5 • South Asia in Motion: Circulation, Mobility, Histories

This course examines how the movement of peoples, goods and ideas across land and sea has shaped South Asia's history. In particular it analyses how far-reaching networks based on trade, pilgrimage, patronage, politics and labour that passed through the Indian Ocean, Bay of Bengal, and the Himalayas connected South Asia to Southeast Asia, and East Asia, amongst other spaces. It also foregrounds how these histories of mobility changed under colonial rule and its aftermath. The course focuses on the period from 1200 until the present.

Prerequisites: HIS282H5

Recommended Preparation: HIS382H5

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

HIS399Y5 • Research Opportunity Program

For senior undergraduate students who have developed some knowledge of a discipline and its research methods, this course offers an opportunity to work on the research project of a professor. Students enrolled have an opportunity to become involved in original research, develop their research skills and share in the excitement and discovery of acquiring new knowledge. Project

descriptions for the following fall-winter session are posted on the ROP website in mid-February and students are invited to apply at that time. See Experiential and International Opportunities for more details.

Prerequisites: Completion of a minimum of 8.0 to 10.0 credits. (Amended)

Distribution Requirements: Humanities

Mode of Delivery: In Class

HIS401H5 • Missionaries and Colonization in New France

The relationship between missionaries and colonization in New France was complicated and contested. This course will explore the links between missionary activities and colonial designs through late medieval and early modern European ideas of religion and expansion; early encounters between Indigenous peoples and Europeans; French attempts at settlement; cooperation and conflict between missionaries and the Crown; similarities and differences among different missionary groups; and Indigenous responses to missionary efforts.

Prerequisites: HIS101H5 or HIS102H5 or HIS103H5 or HIS104H5 or HIS105H5 or HIS106H5 or HIS107H5 or HIS108H5 and HIS230H5 or HIS261H5 or HIS262H5 or HIS263Y5.

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

HIS402H5 • Topics in the History of French Canada

An in-depth examination of historical issues in French Canadian history. Content in any given year depends on the instructor. Details of each year's offering will be on the Department web site.

Prerequisites: HIS101H5 or HIS102H5 or HIS103H5 or HIS104H5 or HIS105H5 or HIS106H5 or HIS107H5 or HIS108H5 and HIS261H5 or HIS262H5 or HIS263Y5

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

HIS405H5 • Microhistory

Microhistory focuses on a small part of the past to address big questions. By encouraging us to examine evidence up close, it provides a powerful way to investigate the rich texture of earlier societies and think about connections with our own time. This course considers classic microhistorical studies as well as more recent works, balancing theories with examples of the approach.

Prerequisites: HIS101H5 or HIS102H5 or HIS103H5 or HIS104H5 or HIS105H5 or HIS106H5 or HIS107H5 or HIS108H5

Exclusions: HIS420H5 (Fall 2020)
Distribution Requirements: Humanities
Total Instructional Hours: 24S
Mode of Delivery: In Class

HIS407H5 • Imperial Germany 1871-1918

This course will explore Germany's history beginning with its unification and trace the events that led to the First World War and the end of the Imperial era. We will examine the Imperial period through various different focal points including unification and the legacy of Bismarck and Kaiser Wilhelm II, the Sonderweg debate, gender, nationalism, German Jews and the birth of modern antisemitism, German's brief colonial era, the path to war and the revolution of 1918. By reading historical texts, articles, and novels, and by addressing numerous historiographical debates, we will attempt to understand Germany's foundational period in the context of this country's troubled history.

Prerequisites: HIS101H5 or HIS102H5 or HIS103H5 or HIS104H5 or HIS105H5 or HIS106H5 or HIS107H5 or HIS108H5

Recommended Preparation: A course in modern European history

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

HIS409H5 • The Life Cycle in Medieval and Early Modern Europe

This course examines the daily lives of medieval and early modern Europeans as they moved through birth, infancy, childhood, adolescence, marriage, adulthood, old age and death. Special attention is given to the ways in which gender, social status and local custom shaped thoughts and experiences throughout the life cycle.

Prerequisites: (HIS101H5 or HIS102H5 or HIS103H5 or HIS104H5 or HIS105H5 or HIS106H5 or HIS107H5 or HIS108H5) and 0.5 credit in medieval or early modern Europe.

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

HIS410H5 • Doing Digital History

How have Web 2.0 technologies changed the practice of history? Students learn by doing in this course: researching and writing for the digital medium; learning about the theory and practice of digital history; experimenting with new technologies; and creating a digital history project.

Prerequisites: HIS101H5 or HIS102H5 or HIS103H5 or HIS104H5 or HIS105H5 or HIS106H5 or HIS107H5 or HIS108H5

Recommended Preparation: HIS210H5
Distribution Requirements: Humanities
Total Instructional Hours: 24S
Mode of Delivery: In Class

HIS420H5 • Topics in Medieval History

Critical evaluation of selected legal, literary and narrative sources. Thematic content will vary from year to year, but there will be an emphasis on social history.

Prerequisites: HIS101H5 or HIS102H5 or HIS103H5 or HIS104H5 or HIS105H5 or HIS106H5 or HIS107H5 or HIS108H5

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

HIS431H5 • Global China

A critical examination of the making and remaking of China from the eighteenth century to the present. Emphasis will be given to historical literature on colonialism, nationalism, revolution, and global connections.

Prerequisites: (HIS101H5 or HIS102H5 or HIS103H5 or HIS104H5 or HIS105H5 or HIS106H5 or HIS107H5 or HIS108H5) and HIS284H5

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

HIS435H5 • The Viking Age

A seminar on the history of Europe from the eighth to the eleventh centuries with emphasis upon the Scandinavians and their relations with western European civilization. Readings will be in both primary and secondary sources.

Prerequisites: HIS101H5 or HIS102H5 or HIS103H5 or HIS104H5 or HIS105H5 or HIS106H5 or HIS107H5 or HIS108H5

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

HIS438H5 • Remembering Atrocity: The Holocaust and Historical Memory in Europe and North America

This course will examine how Europe and North America confronts the Holocaust through the law, literature, left wing agitation, film, memorials and museums, and political debates. Among the focal points: the Nuremberg and postwar West German trials of Nazis, the fascination with Anne Frank, anti-fascist terror in 1970s Germany, The

Berlin Memorial and the US Holocaust Museum, and films such as *The Pianist* and *Schindler's List*.

Prerequisites: [HIS101H5](#) or [HIS102H5](#) or [HIS103H5](#) or [HIS104H5](#) or [HIS105H5](#) or [HIS106H5](#) or [HIS107H5](#) or [HIS108H5](#) and ([HIS242H5](#) or [HIS338H5](#) or [HIS339H5](#))

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

HIS448H5 • Memory, History and South Asia's Contested Pasts

This course focuses on the relationship between memory and the "traditions" of historical writing and remembering in the sub continent from 1200 to the present. It also focuses on the role of politics in mediating the region's multiple, often contesting histories in our period of study.

Prerequisites: [HIS101H5](#) or [HIS102H5](#) or [HIS103H5](#) or [HIS104H5](#) or [HIS105H5](#) or [HIS106H5](#) or [HIS107H5](#) or [HIS108H5](#)

Recommended Preparation: [HIS382H5](#) or [HIS386H5](#) or [HIS394H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

HIS453H5 • The Klondike Gold Rush

This course investigates the Klondike Gold Rush (Alaska-Yukon, 1896-1900) through the lenses of North American borderlands, environmental, and indigenous history. By viewing the gold rush in the context of growing national and imperial expansion, we will see it was an essential component of a much larger historical process centering on settlement, development, and dispossession.

Prerequisites: [HIS101H5](#) or [HIS102H5](#) or [HIS103H5](#) or [HIS104H5](#) or [HIS105H5](#) or [HIS106H5](#) or [HIS107H5](#) or [HIS108H5](#)

Recommended Preparation: [HIS262H5](#) or [HIS263Y5](#) or [HIS272H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

HIS454H5 • Race, Gender and Nation in Modern Latin America

This seminar examines the interconnected histories of race, gender and nation in Latin America. It studies the significance of race/racism and gender/patriarchy in the construction of national societies in Latin America during the nineteenth and twentieth centuries. Subtopics include: slavery and Indian servitude; acculturation and eugenics; immigration and urbanization; machismo and marianismo; and current Indian and women's movements.

Prerequisites: [HIS101H5](#) or [HIS102H5](#) or [HIS103H5](#) or [HIS104H5](#) or [HIS105H5](#) or [HIS106H5](#) or [HIS107H5](#) or [HIS108H5](#) and [HIS290H5](#)

Exclusions: [HIS441H1](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

HIS462H5 • Indigenous North America

This reading and research-based course focuses on the history of Indigenous peoples in Canada and the United States, while also considering Mexico and the Caribbean. It explores a wide variety of methodologies and topics, examining Indigenous social structures, cultures, and economies alongside the influence of colonialism, capitalism, and nation states.

Prerequisites: [HIS101H5](#) or [HIS102H5](#) or [HIS103H5](#) or [HIS104H5](#) or [HIS105H5](#) or [HIS106H5](#) or [HIS107H5](#) or [HIS108H5](#)

Recommended Preparation: [HIS262H5](#) or [HIS263Y5](#) or [HIS271H5](#) or [HIS272H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

HIS463H5 • Memory and Memorialization in South African History

This course examines the histories of South Africa through the lens of memory and memorialization. Major themes include gender and sexuality, race and nationalisms, youth and resistance, violence and trauma, the intersections and disconnections between different forms of memory (historical, collective, social) and their relationship to historical methodology and practice.

Prerequisites: [HIS101H5](#) or [HIS102H5](#) or [HIS103H5](#) or [HIS104H5](#) or [HIS105H5](#) or [HIS106H5](#) or [HIS107H5](#) or [HIS108H5](#)

Recommended Preparation: [HIS295H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

HIS464H5 • Decolonizing Africa

This research-intensive seminar looks at alternative histories of decolonization in Africa, including revolutionary nationalisms, secessionist movements, and pan-Africanism— as well as ongoing debates over boundaries, citizenship, and sovereignty in postcolonial Africa.

Prerequisites: [HIS101H5](#) or [HIS102H5](#) or [HIS103H5](#) or [HIS104H5](#) or [HIS105H5](#) or [HIS106H5](#) or [HIS107H5](#) or [HIS108H5](#)

Exclusions: [HIS493H5](#) (Winter 2020)

Recommended Preparation: [HIS295H5](#) or [HIS325H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

HIS475H5 • The French Revolution

A topical survey of the French Revolution dealing with the uprising in France and its repercussions elsewhere by examining such subjects as its causes, its effect on nations, classes and gender, and its relation to nationalism, socialism and democracy.

Prerequisites: [HIS101H5](#) or [HIS102H5](#) or [HIS103H5](#) or [HIS104H5](#) or [HIS105H5](#) or [HIS106H5](#) or [HIS107H5](#) or [HIS108H5](#)

Recommended Preparation: A course in European history

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

HIS479H5 • Cold War America

An examination of significant political, economic, social and intellectual developments, including Cold War Foreign policies, economic and social reforms, McCarthyism, the Civil Rights movement, women's liberation, the "counter-culture," and the Indochina Wars.

Prerequisites: [HIS101H5](#) or [HIS102H5](#) or [HIS103H5](#) or [HIS104H5](#) or [HIS105H5](#) or [HIS106H5](#) or [HIS107H5](#) or [HIS108H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

HIS480H5 • Partition and its Aftermath in South Asia

This course examines the everyday effects of the partition of 1947, and its aftermath, when British India gained independence and was also crafted into new nation states. Amongst other issues, it engages with sexual violence, nation-making, territoriality, rehabilitation, citizenship, and spatiality. More broadly it connects these issues to space, place and historical memory.

Prerequisites: [HIS101H5](#) or [HIS102H5](#) or [HIS103H5](#) or [HIS104H5](#) or [HIS105H5](#) or [HIS106H5](#) or [HIS107H5](#) or [HIS108H5](#) and [HIS282H5](#).

Recommended Preparation: [HIS382H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

HIS483H5 • Colonialism in East Asia

This course examines the ideologies and practices of colonialisms, both internal and external, in modern East Asia.

Prerequisites: [HIS101H5](#) or [HIS102H5](#) or [HIS103H5](#) or [HIS104H5](#) or [HIS105H5](#) or [HIS106H5](#) or [HIS107H5](#) or [HIS108H5](#)

Recommended Preparation: [HIS284H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

HIS484H5 • Religion and Public Culture in South Asian History

The course examines the role played by religion in shaping public culture and everyday practice in South Asian history. It studies key themes on the subject against a longue-duree perspective.

Prerequisites: [HIS101H5](#) or [HIS102H5](#) or [HIS103H5](#) or [HIS104H5](#) and [HIS282H5](#)

Recommended Preparation: [HIS382H5](#) or [HIS386H5](#) or [HIS394H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

HIS489Y5 • History Honours Thesis

Working closely with a faculty member, students choose a topic, develop a research question, conduct original and independent research using both primary and secondary sources, and write a thesis of approximately 60 pages.

Prerequisites: Students must obtain a mark of 77% in each of 4.0 History credits and permission of the instructor.

Distribution Requirements: Humanities

Mode of Delivery: In Class

HIS490H5 • Religion and Society in Latin America

An interdisciplinary seminar that examines religion and its historical role in shaping culture, society, and politics in Latin America. It considers both the formal institutional practice of religion as well as informal and popular religiosities. A framing theme of the course is the complex relationship between Church and State - and more broadly, between religion and politics - in the region.

Prerequisites: [HIS101H5](#) or [HIS102H5](#) or [HIS103H5](#) or [HIS104H5](#) or [HIS105H5](#) or [HIS106H5](#) or [HIS107H5](#) or [HIS108H5](#)

Recommended Preparation: [HIS290H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24S
Mode of Delivery: In Class

HIS493H5 • Advanced Topics in Global History

An in-depth examination of historical issues. Content in any given year depends on instructor. See Department of Historical Studies website at www.utm.utoronto.ca/historicalstudies for details.

Prerequisites: HIS101H5 or HIS102H5 or HIS103H5 or HIS104H5 or HIS105H5 or HIS106H5 or HIS107H5 or HIS108H5

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

HIS494H5 • Advanced Topics in the History of the Americas

An in-depth examination of historical issues. Content in any given year depends on instructor. See Department of Historical Studies website at www.utm.utoronto.ca/historicalstudies for details.

Prerequisites: HIS101H5 or HIS102H5 or HIS103H5 or HIS104H5 or HIS105H5 or HIS106H5 or HIS107H5 or HIS108H5

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

HIS495H5 • Advanced Topics in European History

An in-depth examination of historical issues. Content in any given year depends on instructor. See Department of Historical Studies website at www.utm.utoronto.ca/historicalstudies for details.

Prerequisites: HIS101H5 or HIS102H5 or HIS103H5 or HIS104H5 or HIS105H5 or HIS106H5 or HIS107H5 or HIS108H5

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

HIS497Y5 • Independent Reading

Student-initiated project of reading and research, supervised by a member of the Department. Primarily intended for students in Specialist or Major programs. After obtaining a supervisor, a student must apply to the Department of Historical Studies. A maximum of 1.0 credit in a reading course is permitted.

Distribution Requirements: Humanities
Mode of Delivery: In Class

HIS498Y5 • Internship in History

Through a part-time, unpaid work placement, a limited number of advanced history students may enrol for field experience relating to expertise they have gained in the program. Placements are made at local libraries, historic sites and foundations, media outlets, public and private institutions. Five previous history courses and a cumulative GPA of 3.0 are required. For application to admission contact the Department of Historical Studies before June 1.

Prerequisites: (HIS101H5 or HIS102H5 or HIS103H5 or HIS104H5 or HIS105H5 or HIS106H5 or HIS107H5 or HIS108H5) and 5.0 additional HIS credits and a CGPA of 3.0.

Course Experience: Partnership-Based Experience

Distribution Requirements: Humanities

Mode of Delivery: In Class

HIS499H5 • Independent Reading

Student-initiated project of reading and research, supervised by a member of the Department. Primarily intended for students in History Specialist, Joint Specialist or Major programs. After obtaining a supervisor, a student must apply to the Department of Historical Studies. A maximum of 2 reading courses, amounting to 1.0 credit, is permitted.

Distribution Requirements: Humanities

Mode of Delivery: In Class

HIS499Y5 • Research Opportunity Program

For senior undergraduate students who have developed some knowledge of a discipline and its research methods, this course offers an opportunity to work on the research project of a professor. Students enrolled have an opportunity to become involved in original research, develop their research skills and share in the excitement and discovery of acquiring new knowledge. Project descriptions for the following fall-winter session are posted on the ROP website in mid-February and students are invited to apply at that time. See [Experiential and International Opportunities](#) for more details.

Prerequisites: Completion of a minimum of 8.0 to 10.0 credits. (Amended)

Distribution Requirements: Humanities

Mode of Delivery: In Class

JBH471H5 • Worlds Colliding: The History and Ecology of Exploration, Contact, and Exchange

An examination of contact in world history through both an ecological and a historical lens. Precise topics will depend on the year, but the focus will be on the creation of global systems and ecological challenges that continue to shape our world. In some years, students may have the option of participating in an international learning experience during Reading Week that will have an additional cost and

application process. Students interested in this course will need to be approved for enrollment by the department and course instructors.

Prerequisites: 2.0 HIS credits or 1.0 BIO credit at the 300 level and permission of instructor.

Exclusions: UTM290H5 Winter 2018 or Winter 2019

International Component: International - Optional

Distribution Requirements: Humanities, Science

Total Instructional Hours: 24S

Mode of Delivery: In Class

The History of Religions explores the importance of religion in the historical processes that make up world history. It situates religion in its historical and socio-political contexts as part of the interplay of forces that constitute the story of humankind, and acknowledges the role of religion in shaping and being shaped by that story. Its approach often involves (but is not limited to) the study of particular religious traditions, the comparative study of religion, and the study of the religious dimension of human experience and of common historical phenomena. Its subject includes all religions throughout the world, from ancient times to the present day. The History of Religions is therefore an excellent preparation for living and working in a cosmopolitan and multiconfessional world. As an academic subject, it is intrinsically rewarding and can lead to graduate work in a variety of disciplines in the humanities and social sciences. It also provides the reading, writing, and analytical skills demanded by a wide range of careers in ministry, government, business, library and museum science, law, teaching, journalism, and community services, such as counselling and social services.

The department encourages students to take advantage of the various study abroad opportunities available at UTM.

Students should also review the [Degree Requirements](#) section prior to selecting courses

Program website: <http://www.utm.utoronto.ca/historicalstudies>

History of Religions Programs

History of Religions - Specialist (Arts)

Enrolment Requirements:

Limited Enrolment — Students applying to enroll at the end of first year (4.0 credits) must have a CGPA of at least 2.00 and a mark of at least 70% in each of 1.0 RLG credits. Students applying to enroll after second year (8.0 credits) must have a CGPA of at least 2.00 and a mark of at least 70% in each of 2.0 RLG credits.

Completion Requirements:

10.0 RLG credits are required.

First Year: 0.5 credit in RLG101H5. It is recommended that this course be taken in the first year.

Higher Years:

- 2.0 RLG credits at the 200-level
- RLG312H5 *How to Study Religion*
- 3.5 RLG credits at the 300+level
- 1.0 RLG credits at the 400-level
- 0.5 RLG Independent Reading courses
- 2.0 additional RLG credits at any level

NOTES:

- Specialists are permitted to substitute non-RLG courses for up to 1.0 RLG credits. A list of courses suitable as substitutions is available in the Department of Historical Studies Handbook. Other substitutions will be considered on a case-by-case basis after the submission of the relevant syllabus.
- In the specialist program, language courses offered by the Department of Language Studies at U of T Mississauga and on the St. George campus relevant for a student's coursework in the History of Religions may be substituted for 300-level RLG credits. In this substitution, a language course of 1.0 credits corresponds to an RLG course of 1.0 credits at the 300 level only for a primary source language related to the student's coursework (Arabic, Persian, Pahlavi, Latin, Greek, Hebrew, Avestan, Sanskrit, Pali, Hindi, Urdu, Chinese, etc.). Students are invited to contact the Academic Counsellor for further information.
- Students intending to pursue graduate studies are strongly encouraged to complete at least 1.0 language courses in consultation with the Academic Counsellor.

ERSPE0151

History of Religions - Major (Arts)

Completion Requirements:

7.5 RLG credits are required.

First Year: 0.5 credit in RLG101H5. It is recommended that this course be taken in the first year.

Higher Years:

- 1.5 RLG credits at the 200-level
- RLG312H5 *How to Study Religion*
- 3.0 RLG credits at the 300+level
- 1.0 RLG credits at the 400-level
- 1.0 additional RLG credit at any level

NOTES:

- Majors are permitted to substitute non-RLG course for up to 1.0 RLG credits. A list of courses suitable as substitutions is available in the Department of Historical Studies Handbook. Other substitutions will be considered on a case-by-case basis after the submission of the relevant syllabus.
- In the major program, language courses offered by the Department of Language Studies at U of T Mississauga and on the St. George campus relevant for a student's coursework in the History of Religions may be substituted for 300-level RLG credits. In this substitution, a language course of 1.0 credits corresponds to an RLG course of 1.0 credits at the 300 level only for a primary source language related to the student's coursework (Arabic, Persian, Latin, Greek, Hebrew, Avestan, Sanskrit, Hindi, Urdu, Chinese, etc.). Students are invited to contact the Academic Counsellor for further information.

ERMAJ0151

History of Religions - Minor (Arts)

Completion Requirements:

4.0 RLG credits are required.

First Year: 0.5 credit in RLG101H5. It is recommended that this course be taken in the first year.

Higher Years:

- 1.5 RLG credits at the 200-level
- 1.0 RLG credits at the 300+level
- 1.0 additional RLG credits at any level

History of Religions Courses

JBH471H5 • Worlds Colliding: The History and Ecology of Exploration, Contact, and Exchange

An examination of contact in world history through both an ecological and a historical lens. Precise topics will depend on the year, but the focus will be on the creation of global systems and ecological challenges that continue to shape our world. In some years, students may have the option of participating in an international learning experience during Reading Week that will have an additional cost and application process. Students interested in this course will

need to be approved for enrollment by the department and course instructors.

Prerequisites: 2.0 HIS credits or 1.0 BIO credit at the 300 level and permission of instructor.

Exclusions: UTM290H5 Winter 2018 or Winter 2019

International Component: International - Optional

Distribution Requirements: Humanities, Science

Total Instructional Hours: 24S

Mode of Delivery: In Class

RLG101H5 • Introduction to the Study of Religion

Theories about the variety and nature of religious experience, personal and collective. How religious life is expressed in such forms as myth, narrative and ritual, systems of belief and value, morality and social institutions.

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

RLG201H5 • Introduction to Religion in the Literary, Visual, and Performing Arts

An examination of the interplay between religion and aesthetics, as expressed through the literary, visual, and performing arts. Structured thematically rather than by religious tradition, this course covers topics such as the creative word, visual representation of the divine through icons and iconography, sacred space and religious architecture, religion and the book arts, religious music, dance, and drama, visual narrativization, and religious ritual as performance.

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

RLG202H5 • Introduction to Judaism

This course studies Jewish religious thought and activity in both ancient and modern times through selected biblical, rabbinic, medieval, and modern Jewish writings. It explores the roots of Jewish religion, the variety of Jewish traditions, and how these traditions worldwide have been transformed throughout history.

Exclusions: [RLG202Y1](#)

Recommended Preparation: [RLG101H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

RLG203H5 • Introduction to Christianity

An introduction to the diverse history of Christianity, ranging from the origins of the Jesus Movement in the Roman Empire to the development of the largest religious tradition in the world with over two billion adherents and thousands of denominations spread across the globe.

Exclusions: [RLG203Y1](#)

Recommended Preparation: [RLG101H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: Online, In Class

RLG204H5 • Introduction to Islam

What does it mean to be Muslim? This course explores the cultural and historical development of Muslim life and religious expression. Topics and themes addressed in the course include the Prophet Muhammad, the Qur'an and hadith, law, arts and architecture, material devotion, Sufism, Shi'ism, ritual, and modern movements.

Exclusions: [RLG204Y1](#)

Recommended Preparation: [RLG101H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

RLG205H5 • Key Themes in South Asian Religions

How do we approach the extraordinary diversity of South Asian religious history? Students will explore key terms cutting across religious traditions: sacrifice, worship, ritual, practice, duty, scripture, canon, and doctrine. This course is a general introduction and presupposes no prior knowledge about South Asia.

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

RLG206H5 • Introduction to Buddhism

Philosophy of peaceful meditation or ideology of late capitalism? Both or neither? In this course you will learn through texts, images, objects, voices, and events how Buddhists through history have expressed their aspirations and anxieties, their thoughts and devotion, to find out what this religion may mean to us.

Exclusions: [RLG206Y1](#)

Recommended Preparation: [RLG101H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

RLG207H5 • Introduction to Sikhism

This course surveys the history of Sikhism from its beginnings as a devotional movement in late medieval Punjab to its transformation during the colonial period. Students will learn about the historical development of core Sikh doctrines, practices, and institutions.

Recommended Preparation: [RLG101H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

RLG208H5 • Iran before Islam: Introduction to Zoroastrianism

This course studies the history of Zoroastrianism, a religion born in Iran over 3,000 years ago. It analyzes its main doctrines and practices, provides an overview of its sacred literature and arts, and explores its interactions with other religions of the eastern and of the western world through the millennia.

Recommended Preparation: [RLG101H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

RLG209H5 • Introduction to Indigenous Traditions

Indigenous traditions constitute the majority of the world's religions. They encompass the whole earth, and are incredibly diverse. So: where to begin? This course will introduce students to the vast array of global Indigenous traditions in both historic and contemporary contexts by looking comparatively at selected beliefs and practices. Attention will also be paid to Indigenous responses to colonialism and to the ways in which many communities are reviving their traditions.

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

RLG210H5 • Introduction to Hinduism

Hinduism is today the world's third largest religion, with over one billion practitioners. In this course, students will learn about Hindu philosophy, literature, music, art, architecture, and ritual practices. A special focus will be on interactions between Hinduism and other South Asian religious traditions.

Exclusions: [RLG205H1](#)

Recommended Preparation: [RLG101H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

RLG211H5 • Introduction to Religion, Media, and Popular Culture

How does religion shape popular culture? How does popular culture shape religion? This course traces a history of these questions from the early modern period through the twenty-first century by looking at fairs and folk culture; mass broadcast media like radio, film, and television; and the rise of digital culture. Topics covered vary by semester, but could include religious comic books, televangelism, mass-mediated religious violence, online pilgrimage, digital occultism, etc.

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

RLG299Y5 • Research Opportunity Program

This courses provides a richly rewarding opportunity for students in their second year to work in the research project of a professor in return for 299Y course credit. Students enrolled have an opportunity to become involved in original research, learn research methods and share in the excitement and discovery of acquiring new knowledge. Participating faculty members post their project descriptions for the following summer and fall/winter sessions in early February and students are invited to apply in early March. See [Experiential and International Opportunities](#) for more details.

Distribution Requirements: Humanities

Mode of Delivery: In Class

RLG300H5 • Religion at the Edge of Tomorrow

What will religion look like in 2100? This course asks how early twenty-first century society is using religion to imagine its future around such questions as climate change, neoliberalism, authoritarian capitalism, pandemics, artificial intelligence, etc. Readings pair history, anthropology, and critical theory with science fiction, news media, and visual culture.

Recommended Preparation: [RLG101H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

RLG301H5 • Stranger Things: Religious Objects in Theory and Practice

This course surveys major theories of religious objects and icons from the 18th through the 21st century in order to problematize the categories of fetish, totem, and idol. It presents the study of material religion as integral to the broader study of religion, media, and culture.

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

RLG302H5 • Sufism

This course focuses on the history, institutions, and practices of Sufism, popularly referred to as Islam's "mystical" dimension. This course will examine the origins of Sufism, the development of metaphysical and theoretical thought, poetry, the emergence of Sufi orders,

and shrine-based practices from the Middle East, South Asia, Africa, China, and the West.

Recommended Preparation: RLG204H5

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

RLG303H5 • Islam in South Asia

This course focuses on the history of Islam in South Asia from the 8th century to the present with an emphasis on religio-politics, the role of Sufism, Shi'ism, ritual, devotional and material practices, and questions of Islamic identity. Students will read primary sources in translation and examine art, architecture and material culture reflecting the historical depth and religious diversity of Muslims in South Asia.

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

RLG304H5 • Islamic Spiritual Traditions

An investigation of the spiritual traditions in Islam, covering the development of Sufism and other esoteric schools of Islamic thought. The historical evolution of devotional traditions, philosophical schools and scriptural hermeneutics are explored.

Recommended Preparation: RLG204H5 or permission of the instructor.

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

RLG305H5 • Islamic Aesthetic Traditions

This course explores aesthetic traditions in the Muslim world, including art, architecture, music and literature. Case studies may range from the majestic Taj Mahal to the sonorous voice of Umm Kulthum, from the enthralling worlds of the 1001 Arabian Nights to the lilting lyricism of poets like Hafiz and Rumi.

Recommended Preparation: RLG204H5 or permission of the instructor.

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

RLG306H5 • Shi'i Islam

An exploration of the history, thought and institutions of the Shi'i interpretation of Islam. The early Shi'i milieu, Zaidi, Ismaili and Twelver Shi'ism and the development of

the Shi'i school of thought from early to modern times will be studied in this course.

Recommended Preparation: RLG204H5 or permission of the instructor.

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

RLG307H5 • Indian Scholasticism

A general introduction to Indian scholasticism through the organizing rubric of the human ends (purusharthas): pleasure, power, moral order, and liberation. Intellectual traditions covered may include the science of desire, aesthetics, the science of power, analysis of the socio-moral order, hermeneutics, and metaphysics.

Recommended Preparation: RLG205H5 or RLG210H5

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

RLG308H5 • Monuments, Inscriptions, and Narratives in South Asia

How do we interpret traces from the past? In the study of South Asia, we have access to a range of material data, inscriptions, legendary accounts, and historiographic poetry. This course explores the use of these sources in different periods and regions.

Recommended Preparation: RLG205H5 or RLG210H5

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

RLG309H5 • Muslim Lives, Ritual Practices

This course will introduce students to topics including aspects of how Islam shapes life-cycle rituals, pilgrimage practices, cycles of fasting and feasting, healing practices, foodways, and votive offerings. Using primary sources, including ethnographic studies, documentaries, images, and food, we will examine case studies drawn from Sunni, Shi'i, and Sufi traditions in the Middle East, South Asia, North Africa, and beyond.

Prerequisites: RLG204H5

Exclusions: RLG205H5 and RLG303H5

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

RLG310H5 • The Ramayana

A study of the Ramayana of Valmiki in translation. Themes include aesthetic, ethical, and socio-political issues in the text, as well as commentary and the rise of Rama worship.

Recommended Preparation: [RLG205H5](#) or [RLG210H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

RLG311H5 • Religion and Ecology

This course explores how ecological concerns have influenced and challenged contemporary religious traditions and non-traditional forms of religious expression. We will also consider how religious traditions themselves have shaped or contributed to the environmental crisis.

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

RLG312H5 • How to Study Religion

What is religion? How should we study it? This course gives students the opportunity to ask the big, messy questions about religion, and to see how scholars know what they know about it. Students will learn key theoretical ideas and research methods, and then apply them in their own projects.

Prerequisites: [RLG101H5](#) and 1.0 additional RLG credits

Exclusions: [RLG312Y5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

RLG313H5 • The Literature of Ancient Israel

The Hebrew Bible (i.e. the Old Testament) is not a single book, but an anthology selected from a larger body of ancient Jewish literature reflecting different authors, historical circumstances, literary genres, and religious agendas. This course familiarizes the student with critical study of the Hebrew Bible and related literature of ancient Jewish communities (Apocrypha, Pseudepigrapha, Dead Sea Scrolls). Among the topics to be examined are the basic forms of ancient Hebrew literature, the issues of textual development, the process of canonization, and the ancient Near Eastern cultural environment from which this literature emerged.

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

RLG314H5 • Religion and Gender

This course focuses on the interaction of gender and religion from a comparative and multidisciplinary perspective; topics include creation myths, authority and leadership, sainthood, expressions of the divine, and gendered ritual.

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

RLG315H5 • Biblical Wisdom and Poetry

Ancient Jewish sages understood wisdom as a "skill in living." Wisdom for them was an approach to life, a way of looking at the world, and a quest for meaning and purpose in the relationships with God and fellow human beings. Some of history's most enduring collections of ancient wisdom are included in the Hebrew Bible (i.e., Old Testament) books of Job, Proverbs and Ecclesiastes. Wisdom perspectives are also found in the Song of Songs and many of the Psalms. Sometimes joyful and exultant, at other times cynical and fatalistic, the ancient sages wrestled with the ups and downs of life, and grappled with them rationally from the perspective of experience and community wisdom. This course investigates the genre of wisdom literature - its style, language, and historical and theological backgrounds - and explores the pluriformity of the biblical heritage.

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

RLG316H5 • Religion and Violence

Is violence inherent in religion? Most religious traditions include teachings that profess a love of peace, and yet these same traditions have motivated some of the most atrocious acts of violence in human history. This course will explore this issue through a critical and comparative examination of theories of different forms of religious violence (e.g., terrorism, sacrifice, patriarchy, colonialism). This examination will in turn involve considering violence in various historical and contemporary religious texts, practices, beliefs, and events.

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

RLG317H5 • Religion and Science

Are scientific and religious practices and ways of understanding unrelated? Contradictory? Complementary? What assumptions are made when we practice religion or science? And what do we assume when we attempt to interpret these practices? This course

explores the relationships between religion, science, and academic interpretation in the contemporary world.

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

RLG318H5 • Jainism

This course offers students a historical glimpse at an ancient religion that has had a key influence on values that shape our world today: that not-harming should inform all our actions, that the truth consists in the awareness of contradictory views, or that the main quality of personality is self-improvement.

Recommended Preparation: [RLG205H5](#) or [RLG206H5](#) or [RLG210H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

RLG319H5 • Magic, Astrology, and Religion

This course studies the interplay between religion, magic, and astrology. It analyzes how magic and astrology have been viewed in history by different world religions, and how these religions have integrated, or excluded, magical practices and astrological beliefs in their mainstream practices and beliefs.

Recommended Preparation: [RLG101H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

RLG323H5 • Jesus of Nazareth

Analytic and comparative study of the earliest accounts of the life of Jesus of Nazareth in the canonical and non-canonical Gospels with a supplementary focus on historical reconstructions of Jesus using broader textual, cultural, and archaeological data.

Exclusions: [RLG323H1](#)

Recommended Preparation: [RLG203H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

RLG324H5 • Paul and Earliest Christianity

An exploration of the literary form and theological content of Paul's letters in the New Testament, including analyses of the importance of Paul in the rise, spread, and development of what would become earliest Christianity.

Exclusions: [RLG324H1](#)

Recommended Preparation: [RLG203H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

RLG325H5 • Visions and Revelations

Apocalyptic literature, concerned with the expectation of imminent, radical and transforming intervention of the divine into human history, flourished between 200 BCE and 200 CE. This course provides an introduction to the study of the origin, form and function of ancient Jewish and related apocalyptic literature understood in its cultural and literary contexts.

Recommended Preparation: [RLG202H5](#) or [RLG203H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

RLG326H5 • Early Christianity and Rabbinic Judaism

This course examines how Rabbinic Judaism and Christianity interacted in late antiquity. It explores the processes by which each community (in competition with the other and shaped by a wider social context) formed an identity for itself by establishing an "orthodox" set of beliefs, rituals, moral guidelines, and spiritual ideals.

Recommended Preparation: [RLG202H5](#) or [RLG203H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

RLG330H5 • Topics in Judaism

A detailed study of selected aspects of Judaism.

Recommended Preparation: [RLG202H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

RLG331H5 • Religion on Screen

How have screen-based media technologies (cinema, television, computers, smart phones, video games, etc.) shaped the practice and representation of religion from 1890s till today? What is the relationship between screen cultures and visual religion? Topics may include: magic shows and early cinema; religion in classical Hollywood; devotional websites or zombies.

Recommended Preparation: [RLG211H5](#) or [RLG332H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/24P

Mode of Delivery: In Class

RLG332H5 • Reel Religion

This course uses theories and methods from the study of religion to understand narrative and visual aspects of films that are not explicitly religious. Genres of films may include comedy, horror, action, drama, and sci-fi. Approaches may include the study of rituals, symbols, myth, gender, politics, sacred figures, and psychology.

Exclusions: [RLG232H1](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/24P

Mode of Delivery: In Class

RLG333H5 • Biblical Themes in Modern Literature

This course examines the role and representation of various biblical traditions, teachings, and themes in a few selected works of fiction. Topics may include: covenant, freedom, evil, conquest, love, power, suffering, parables, education, and grace. No previous knowledge of the Bible is required.

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

RLG337H5 • Christmas: A History

A broad historical survey of Christmas ranging from the earliest accounts of Jesus' birth in the New Testament up to contemporary debates about the place of Christmas and its celebration in the public sphere.

Recommended Preparation: [RLG203H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

RLG340H5 • Topics in Christianity

A detailed study of selected aspects of Christianity.

Recommended Preparation: [RLG203H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

RLG346H5 • Early Modern Christianity

A study of the ways in which Protestant and Catholic Christians contributed to and reacted against the complex intellectual, political, and social changes in Europe from the sixteenth to the eighteenth century.

Exclusions: [HIS340H5](#)

Recommended Preparation: [RLG203H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

RLG347H5 • Zoroastrian Religious Writings

The course studies passages of Zoroastrian texts, principally from pre-Islamic times, in English translation. These passages are studied from the doctrinal point of view, and placed in the context of the history of Zoroastrianism. In addition, their points of contact with the texts of other religious literatures are analyzed.

Exclusions: [RLG381H5](#)

Recommended Preparation: [RLG208H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

RLG348H5 • Zoroastrian Customs and Ceremonies

The course analyzes the religious practices and the daily practices having a religious background, performed by the Zoroastrians in modern times. Their historical development is analyzed, considering, for the medieval and modern times, the influence of the environment of the countries where Zoroastrians lived, and where they represented a minority. Also highlighted is the significance of these practices in relationship to the Zoroastrian doctrinal system.

Recommended Preparation: [RLG208H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

RLG349H5 • Medieval Christianity

Spanning a millennium from the fall of Rome to the Protestant Reformation, this course explores the many ways in which the western branch of Christianity, based in Rome, shaped the religion, society, culture, and politics of emerging Europe.

Recommended Preparation: [RLG203H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

RLG350H5 • Topics in Islam

A detailed study of selected aspects of Islam.

Recommended Preparation: [RLG204H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L
Mode of Delivery: In Class

RLG351H5 • Major Themes in the Study of the Quran

An introduction to the Quran, the scripture of Islam. Surveys of the history of the text and the development of traditions of Quranic interpretation and commentary, including tafsir and ta'wil, from early to modern times.

Distribution Requirements: Humanities
Total Instructional Hours: 24L
Mode of Delivery: In Class

RLG352H5 • Jews and Muslims: The Medieval Encounter

This course examines the encounter between Jews and Muslims during the Middle Ages, when a large majority of the Jewish people subsisted under Muslim rule: an overview of the religious, political, communal, material and intellectual settings of the Judaeo-Muslim experience.

Recommended Preparation: [RLG202H5](#) or [RLG204H5](#)
Distribution Requirements: Humanities
Total Instructional Hours: 24L
Mode of Delivery: In Class

RLG356H5 • Persia and Beyond: Christianity in Asia to 1300

This course will examine the origins of Syriac-speaking Christianity on the eastern fringes of the Roman world, and chart its spread into Persia, Central Asia, China, and India. In contrast to the situation in Byzantium and in the Latin West, Christians in Asia lived (with few exceptions) as religious minorities under Zoroastrian, Muslim, Confucian, or Hindu rulers. We shall consider how these Christians adapted to regional cultures, engaged the political structures of the day, and developed their own unique theological and spiritual traditions.

Distribution Requirements: Humanities
Total Instructional Hours: 24L
Mode of Delivery: In Class

RLG357H5 • Contemporary Global Christianity

An exploration of the changing face of Christianity in the twentieth and twenty-first centuries focusing on such topics as: Christianity in the Global South; new religious movements within Christianity; and intra- / inter-religious debates and conflicts in contemporary Christianity.

Recommended Preparation: [RLG203H5](#)
Distribution Requirements: Humanities

Total Instructional Hours: 24L
Mode of Delivery: In Class

RLG358H5 • Christianity in Late Antiquity: From Persecuted Sect to Imperial Religion

Beginning at the end of the Apostolic Age and continuing up to the seventh-century confrontation with early Islam, this course examines the evolution of Christianity from a persecuted sect to the predominant religion of the Roman and Byzantine Empires, with a particular focus on the Eastern Mediterranean and Mesopotamian contexts.

Recommended Preparation: [RLG203H5](#)
Distribution Requirements: Humanities
Total Instructional Hours: 24L
Mode of Delivery: In Class

RLG359H5 • The Orthodox Church of the Byzantine Empire

By the end of the fourth century, Constantinople was becoming the centre of a distinct branch of the Christian Church. This course will explore the formation and development of this "Eastern Orthodox" Christianity, including its theology, religious practices, social and cultural impact, and relationship to political power.

Distribution Requirements: Humanities
Total Instructional Hours: 24L
Mode of Delivery: In Class

RLG360H5 • Topics in South Asian Religions

A detailed study of selected aspects of South Asian Religions.

Recommended Preparation: [RLG101H5](#) or [RLG205H5](#) or [RLG210H5](#)
Distribution Requirements: Humanities
Total Instructional Hours: 24L
Mode of Delivery: In Class

RLG361H5 • Encounters Between Indo-Islamic and Hindu Cultures

This course explores historical encounters between Indo-Islamic and Hindu cultures in pre-colonial South Asia, including narratives of conquest and resistance, iconoclasm and the reuse of images, patterns of courtly dress, translations of Sanskrit sources into Persian, indigenous Islamic practices, and sufi and bhakti poetry.

Recommended Preparation: [RLG204H5](#) or [RLG205H5](#) or [RLG210H5](#)

Distribution Requirements: Humanities
Total Instructional Hours: 24L
Mode of Delivery: In Class

RLG362H5 • Hindu and Muslim Worlds in Modern South Asia

Using primary texts as well as films, art, and architecture, this course explores the interbraided cultures of Islam and Hinduism in South Asia from the early modern period through the present day. It examines colonialism and nationalism's effect on Hinduism and Islam and religion's role in modern South Asian culture.

Recommended Preparation: [RLG204H5](#) or [RLG205H5](#) or [RLG210H5](#)
Distribution Requirements: Humanities
Total Instructional Hours: 24L
Mode of Delivery: In Class

RLG365H5 • Mediating Hinduism

How have mass media shaped modern Hinduism? How has Hindu devotional culture shaped mass-mediated visual culture in South Asia and beyond? This course pursues these questions through a series of case studies, including units on topics such as poster art, comic books, the film mythological, monumental statues, e-puja and virtual pilgrimage.

Recommended Preparation: [RLG205H5](#) or [RLG211H5](#)
Distribution Requirements: Humanities
Total Instructional Hours: 24L
Mode of Delivery: In Class

RLG366H5 • Icon and Iconoclasm in South Asia

This course focuses on the history of the image in Hinduism, Buddhism, Christianity, Sikhism, and Islam in South Asia. What is an icon, an image, a representation, and what is the ritual function of each form? When is the destruction of an icon and act of "iconoclasm"? In this course we consider acts of political plunder, reuse and rebuilding (spolia), and the power of the visual in shaping South Asian religious lives.

Recommended Preparation: [RLG205H5](#) or [RLG206H5](#) or [RLG207H5](#) or [RLG210H5](#)
Distribution Requirements: Humanities
Total Instructional Hours: 24L
Mode of Delivery: In Class

RLG370H5 • Topics in Buddhism

A detailed study of selected aspects of Buddhism.

Recommended Preparation: [RLG206H5](#)
Distribution Requirements: Humanities

Total Instructional Hours: 24L
Mode of Delivery: In Class

RLG371H5 • Buddhist Thought

The course deals with the historical development of doctrines and controversies pertaining to the most important schools of Buddhist thought up to the end of the first millennium CE. It discusses the relationship of reason, belief and practice while giving a closer look at Buddhist positions on specific philosophical questions.

Exclusions: [RLG371H1](#)
Recommended Preparation: [RLG206H5](#)
Distribution Requirements: Humanities
Total Instructional Hours: 24L
Mode of Delivery: In Class

RLG373H5 • Buddhist Practices and Institutions

The course will help understand the historical importance of alms giving and devotion in Buddhism and will look at different traditions of meditation. It will also introduce to the literature of monastic discipline and confront it with both archeological remains of Buddhist institutions and their political and economic role today.

Recommended Preparation: [RLG206H5](#)
Distribution Requirements: Humanities
Total Instructional Hours: 24L
Mode of Delivery: In Class

RLG374H5 • Buddhist Literatures

The course looks at popular Buddhist educational storytelling, courtly dramas, Buddhist poetry or the life-histories of the buddhas, bodhisattvas and Buddhist holy men and women. It reflects on how popular motifs, aesthetic styles and literary media have helped transport Buddhist doctrines across various times, regions and languages.

Recommended Preparation: [RLG206H5](#)
Distribution Requirements: Humanities
Total Instructional Hours: 24L
Mode of Delivery: In Class

RLG378H5 • Museums and Material Religion

Museums have long collected and curated religious objects for public audiences, with missionaries as a primary collections source. Multiple visits to the Royal Ontario Museum and other museums will enable students to think critically about how museums received and presented these objects, while engaging with the challenges of museum curation.

Exclusions: [RLG307H1](#)

Recommended Preparation: [RLG101H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

RLG380H5 • Topics in Comparative Religions

An in-depth study of the main teachings, practices and institutions of the major, and several of the minor, religious traditions: namely, Buddhism, Christianity, Confucianism, Hinduism, Islam, Jainism, Judaism, Shinto, Sikhism, Taoism and Zoroastrianism.

Recommended Preparation: 1.0 credit from ([RLG202H5](#) or [RLG203H5](#) or [RLG204H5](#) or [RLG205H5](#) or [RLG206H5](#) or [RLG208H5](#))

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

RLG381H5 • Topics in Zoroastrianism

A detailed study of selected aspects of Zoroastrianism.

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

RLG382H5 • The Divine Comedy: A Spiritual Journey

This course studies the “Divine Comedy” by Dante Alighieri (1265–1321), a poem describing the author’s journey through the afterlife. It analyzes the religious themes of the text, highlighting how different traditions, such as Christianity, Judaism, Islam and Paganism, contributed to Dante’s shaping of the imaginary structure of the otherworldly spaces.

Recommended Preparation: [RLG325H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

RLG388H5 • Special Topics

A comprehensive study of special topics in the history of religions.

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

RLG399Y5 • Research Opportunity Program

For senior undergraduate students who have developed some knowledge of a discipline and its research methods, this course offers an opportunity to work on the research project of a professor. Students enrolled have an opportunity to become involved in original research, develop their research skills and share in the excitement and discovery of acquiring new knowledge. Project descriptions for the following fall-winter session are posted on the ROP website in mid-February and students are invited to apply at that time. See [Experiential and International Opportunities](#) for more details.

Prerequisites: Completion of a minimum of 8.0 to 10.0 credits. (Amended)

Distribution Requirements: Humanities

Mode of Delivery: In Class

RLG401H5 • Advanced Topics in Religion and the Literary, Visual, and Performing Arts

A critical exploration of selected topics concerning the relationship between religion and aesthetics, as expressed through the literary, visual, and performing arts. The focus in any given year may be on a particular tradition, or on broader, comparative understandings of “religion.” Similarly, the course may concern one specific art form or a variety of forms, including architecture, dance, film, literature, music, visual art, etc.

Prerequisites: [RLG101H5](#) and 1.5 RLG credits

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

RLG402H5 • Religion and Stories

Stories are central to sacred texts and to creating meaning generally. This course examines different types of stories using approaches from the study of religion. Stories may come from religious traditions or anywhere else, and may involve various media such as books, films, video games, popular music, graphic novels, podcasts, etc.

Prerequisites: [RLG101H5](#) and 1.5 RLG credits.

Exclusions: [RLG401H5](#) (Winter 2020 and Fall 2020 and Fall 2021)

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

RLG411H5 • Advanced Topics in Religion, Media, and Culture

A critical exploration of selected topics concerning the relationships among religion, media and culture. The focus in any given year may be on a particular religious tradition or on a broader thematic question. Assigned readings typically include a combination of visual and written cultural texts, as well as works of cultural and social theory. Content in any given year depends on instructor. See Department of Historical Studies website at www.utm.utoronto.ca/historicalstudies for details.

Prerequisites: 2.0 RLG credits
Distribution Requirements: Humanities
Total Instructional Hours: 24S
Mode of Delivery: In Class

RLG412H5 • Theorizing Religion

This course gives advanced students the opportunity to pursue in-depth study of major classic and contemporary texts in critical theory, cultural studies, and the philosophy of religion. Topics may include: religion and politics; crises of faith; psychology of religion.

Prerequisites: RLG101H5 and 1.5 RLG credits.
Distribution Requirements: Humanities
Total Instructional Hours: 24S
Mode of Delivery: In Class

RLG415H5 • Advanced Topics in the Study of Religion

A critical exploration of selected topics in the study of religion. As part of this course, students may have the option of participating in an international learning experience that will have an additional cost and application process.

Prerequisites: 2.0 RLG credits
International Component: International - Optional
Distribution Requirements: Humanities
Total Instructional Hours: 24S
Mode of Delivery: In Class

RLG420H5 • Women and Gender in Early and Medieval Christianity

This course combines lecture and seminar approaches to understand how ideas about women, gender, and the body were constructed and naturalized in ancient and medieval Christianity.

Prerequisites: RLG203H5 and 1.5 RLG credits
Distribution Requirements: Humanities
Total Instructional Hours: 24S
Mode of Delivery: In Class

RLG421H5 • South Asian Epics

An exploration of South Asian literary and oral epics moving across boundaries of language and genre. Students will engage with a variety of performative and aesthetic traditions including the Ramayana and the Mahabharata, Buddhist narratives, Sufi poetry, and vernacular epics. We will situate heroic, sacrificial, and romance genres in their social and performative contexts.

Prerequisites: (RLG205H5 or RLG210H5) and 1.5 RLG credits
Distribution Requirements: Humanities
Total Instructional Hours: 24S
Mode of Delivery: In Class

RLG422H5 • Religion and the Senses in South Asia

This course focuses on Hindu, Muslim, Buddhist, and Sikh objects and rituals, and we will read primary sources and scholarship in religious studies, anthropology, and ritual theory. Topics may include the gaze in the formation of icons and images, votive offerings, feasts and fasts, smells (perfumery and corpse disposal), and the aesthetics of religious architecture.

Prerequisites: (RLG204H5 or RLG205H5 or RLG207H5 or RLG210H5) and 1.5 RLG credits
Recommended Preparation: RLG206H5 and RLG303H5
Distribution Requirements: Humanities
Total Instructional Hours: 24S
Mode of Delivery: In Class

RLG423H5 • Ritual and Material Practice in South Asian Islam

In this course we examine the intersection of material practices and senses in South Asian Islamic rituals in how religious worlds are experienced. The course also focuses on the role of ritual and material culture in shaping South Asian Muslim identities (Sunni, Shi'i, Sufi).

Prerequisites: RLG205H5 or RLG303H5 and 1.5 RLG credits
Recommended Preparation: RLG204H5
Distribution Requirements: Humanities
Total Instructional Hours: 24S
Mode of Delivery: In Class

RLG430H5 • Advanced Topics in Judaism

A critical exploration of selected topics in the history of Judaism.

Prerequisites: (RLG202H5 or RLG330H5) and 1.5 RLG credits.
Distribution Requirements: Humanities

Total Instructional Hours: 24S
Mode of Delivery: In Class

RLG435H5 • The Dead Sea Scrolls

This course provides a survey of the Dead Sea Scrolls, a brief history of the period in which the Scrolls were written, and a presentation of the various ways in which scholars have interpreted them. The course also includes in-depth study of selected texts and themes illuminating the formation of the Hebrew Bible, ancient Judaism, and the historical and theological background of the New Testament and early Christianity.

Prerequisites: (RLG202H5 or RLG203H5) and 1.5 RLG credits
Distribution Requirements: Humanities
Total Instructional Hours: 24S
Mode of Delivery: In Class

RLG440H5 • Advanced Topics in Christianity

A critical exploration of selected topics in the history of Christianity.

Prerequisites: (RLG203H5 or RLG340H5) and 1.5 RLG credits
Distribution Requirements: Humanities
Total Instructional Hours: 24S
Mode of Delivery: In Class

RLG445H5 • Making Martyrs: From Socrates to the Suicide Bomber

Comparative study of martyrdom and the idea of the martyr beginning with Greco-Roman philosophical concepts of 'noble death' and continuing through Judaism, Christianity, and Islam in ancient, medieval, and contemporary contexts.

Prerequisites: 2.0 RLG credits
Distribution Requirements: Humanities
Total Instructional Hours: 24S
Mode of Delivery: In Class

RLG448H5 • Approaches to the Academic Study of Islam

This seminar introduces advanced undergraduate students to the history, genealogies, theories, and methods that have shaped the academic study of Islam and Muslims in the discipline of religious studies.

Prerequisites: RLG204H5 or RLG303H5 and 1.5 RLG credits
Distribution Requirements: Humanities

Total Instructional Hours: 24S
Mode of Delivery: In Class

RLG449H5 • Islamic Sexualities

This course focuses on the diverse attitudes and expressions of sexuality in Islam. Taking a broad approach, this course examines issues of sexuality, including homosexuality, fe/male sexuality, birth control, divorce, marriage, transgender identity and performance, and feminist sexual ethics.

Prerequisites: RLG204H5 and 1.5 RLG credits
Distribution Requirements: Humanities
Total Instructional Hours: 24S
Mode of Delivery: In Class

RLG450H5 • Advanced Topics in Islam

A critical exploration of selected topics in the history of Islam.

Prerequisites: (RLG204H5 or RLG350H5) and 1.5 RLG credits
Distribution Requirements: Humanities
Total Instructional Hours: 24S
Mode of Delivery: In Class

RLG451H5 • Islamic Literatures

This course is an in depth exploration of the literary traditions of the Islamic world. The course examines the influence of religion in the writings of Muslim authors, as well as the role of symbols, philosophy, mystical practice, ideologies, rituals and history in the creation of literary works such as poetry, novels, biographies, court chronicles, epics, and more.

Prerequisites: 2.0 RLG credits
Exclusions: RLG451Y5
Recommended Preparation: RLG204H5
Distribution Requirements: Humanities
Total Instructional Hours: 24S
Mode of Delivery: In Class

RLG452H5 • Anthropology of Islam

This course focuses on the everyday lived experience of Muslims in different parts of the world. We will read ethnographic studies and analyze films, which highlight important issues in everyday Muslim life: gender, modernity and piety, the role of ritual in everyday practice. This course has an ethnographic field project.

Prerequisites: RLG204H5 or RLG350H5 and 1.5 RLG credits.
Recommended Preparation: RLG306H5 or WGS301H5
Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

RLG453H5 • Researching Islam: Entering the World of Scholarly Investigation

How do academics research Islam? Students in this course learn about and gain hands-on experience with essential scholarly tools for discovering and disseminating new knowledge in this field. Both individually and collaboratively, students will work on original projects concerning academic literature, scholarly communication, or primary sources.

Prerequisites: 2.0 RLG credits

Recommended Preparation: RLG204H5

Course Experience: University-Based Experience

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

RLG460H5 • Advanced Topics in South Asian Religions

A critical exploration of selected topics in the history of South Asian religions.

Prerequisites: (RLG205H5 or RLG210H5 or RLG360H5) and 1.5 RLG credits

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

RLG461H5 • Religion and Aesthetics in South Asia

South Asian religious traditions are suffused with aesthetic elements and processes -- Hindu temple worship, for example, abounds in music, song, dance, and iconography. In this course we examine the close relationship between religion and aesthetics in South Asia through study of poetics, courtly poetry, visual culture, music, and performance traditions.

Prerequisites: (RLG205H5 or RLG210H5) and 1.5 RLG credits

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

RLG462H5 • Sex and Gender in South Asian Religions

This course examines ideas, roles, and regulation of sexuality and gender in South Asian religious traditions, paying attention to sexual abstinence and promiscuity as

forms of piety, and we will examine performances of the gendered body that transcend and/or problematize the binary construction of masculine and feminine.

Prerequisites: (RLG101H5 or RLG205H5 or RLG210H5) and 1.5 RLG credits

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

RLG463H5 • Genealogies of South Asian Religions

This course looks at debates surrounding central concepts in the study of South Asian religions. We will look at theories of asceticism, devotion, renunciation, caste, kingship, ritual, and state that animate the discussion of Hinduism, Buddhism, and Islam. Students will learn to place their ideas in conversation with larger intellectual genealogies.

Prerequisites: (RLG204H5 or RLG205H5 or RLG206H5 or RLG210H5) and 1.5 RLG credits

Recommended Preparation: RLG101H5

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

RLG464H5 • Saints, Royalty, and the State in South Asian Religions

This course focuses on the relationship between religious ideologies, saints, and state power in ancient, medieval, and precolonial Hindu, Buddhist, Sikh, and Muslim states in South Asia. We will read primary sources in translation and examine art, architecture, and material culture to examine how kings and saints/ascetics negotiated politics and power.

Prerequisites: (RLG205H5 or RLG210H5 or RLG303H5) and 1.5 RLG credits

Recommended Preparation: RLG206H5 or RLG207H5

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

RLG465H5 • Sex and Renunciation in Sanskrit Poetry

This course examines the paradoxical relationship of the erotic in Sanskrit poetry with its opposite—renunciation and the technologies of asceticism involving a rejection of sexuality. While the treatment of these themes reflects a deeper civilizational history emblemized by the figure of Śiva, the erotic ascetic, Sanskrit courtly poetry allows us to examine problems peculiar to courtly life and kingship. Did the aestheticization of power in Sanskrit poetry conflict with transcendental ideals? How was the legitimacy of pleasure seen as both autonomous from and concurrent

with other legitimate human ends? We will read all works in translation, and no familiarity with Sanskrit is presumed.

Prerequisites: ([RLG205H5](#) or [RLG210H5](#)) and 1.5 RLG credits

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

RLG466H5 • The Sasanian Empire: Religions at the Crossroads in Ancient Iran

This course studies the religious life of the Sasanian empire that ruled over Iran between 224 and 651 CE. It analyzes how different religions coexisted and interacted in the territory of the empire, including Zoroastrianism (the official religion of the empire), Manichaeism, Christianity, Judaism, and Mazdakism.

Prerequisites: ([RLG202H5](#) or [RLG203H5](#) or [RLG208H5](#)) and 1.5 RLG credits

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

RLG470H5 • Advanced Topics in Buddhism

A critical exploration of selected topics in the history of Buddhism.

Prerequisites: ([RLG206H5](#) or [RLG370H5](#)) and 1.5 RLG credits

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

RLG497Y5 • Independent Reading

Student-initiated project of reading and research, supervised by a member of the Department. Primarily

intended for students in Specialist or Major programs. After obtaining a supervisor, a student must apply to the Department of Historical Studies. A maximum of 1.0 credit in a reading course is permitted.

Prerequisites: 2.0 RLG credits

Distribution Requirements: Humanities

Mode of Delivery: In Class

RLG499H5 • Independent Reading

Student-initiated project of reading and research, supervised by a member of the Department. Primarily intended for students in Religion Specialist or Major programs. After obtaining a supervisor, a student must apply to the Department of Historical Studies. A maximum of 2 reading courses, amounting to 1.0 credit, is permitted.

Prerequisites: 2.0 RLG credits

Distribution Requirements: Humanities

Mode of Delivery: In Class

RLG499Y5 • Research Opportunity Program

For senior undergraduate students who have developed some knowledge of a discipline and its research methods, this course offers an opportunity to work on the research project of a professor. Students enrolled have an opportunity to become involved in original research, develop their research skills and share in the excitement and discovery of acquiring new knowledge. Project descriptions for the following fall-winter session are posted on the ROP website in mid-February and students are invited to apply at that time. See [Experiential and International Opportunities](#) for more details.

Prerequisites: Completion of a minimum of 8.0 to 10.0 credits. (Amended)

Distribution Requirements: Humanities

Mode of Delivery: In Class

International Affairs

Faculty and Staff List

Faculty Advisor

Professor M. Duarte (Economics)

Undergraduate Advisor

advisor.utmeconomics@utoronto.ca

The International Affairs program provides background and training in the combination of analytical and linguistic skills demanded of individuals who wish to work in an increasingly globalized economy. We offer a combination of courses that allow the student to acquire full interactive capability in a chosen language, while simultaneously studying institutional and theoretical issues pertaining to political, commercial and economic relationships between nations.

International Affairs Programs

International Affairs - Specialist (Arts)

Enrolment Requirements:

Limited Enrolment - enrolment in this program is limited to students who have completed at least 4.0 credits, including:

- [(ECO101H5 (63%) and ECO102H5 (63%)] or ECO100Y5(63%); and
- MAT133Y5 (63%) or (MAT135H5 and MAT136H5) or MAT135Y5; and
- 1.0 credit of introductory (100/200-level) language.

Students enrolled in this program cannot be simultaneously enrolled in the Economics Specialist program (ERSPE1478) or Economics & Political Specialist program (ERSPE0751).

Completion Requirements:

Within an honours degree, 14.5 credits are required, of which at least 1.0 must be at the 400 level.

- **7.0 credits are required from the following list:**
 - (ECO101H5 and ECO102H5) or ECO100Y5;
 - MAT133Y5 or (MAT135H5 and MAT136H5) or MAT135Y5;
 - ECO200Y5 or ECO206Y5;
 - ECO202Y5 or ECO208Y5;
 - ECO220Y5 or ECO227Y5;
 - POL209H5 and POL210H5;
 - ECO364H5;
 - ECO365H5.
- **3.5 language credits from one language discipline, with at least 1.0 credit at the 300/400 level:**
 - a. French: FSL106H5, FSL205Y5, FSL305Y5, FSL405H5, FSL406H5, FSL466H5, FRE283H5, FRE382H5, FRE383H5.

- b. Italian: ITA100Y5, ITA200Y5, ITA231H5, ITA232H5, ITA315Y5, ITA350H5, ITA371Y5, ITA413Y5, ITA420Y5, ITA437Y5, ITA450H5.
- c. Spanish: SPA100Y5, SPA220Y5, SPA259H5, SPA320Y5, SPA323H5, SPA410H5, SPA420H5.

Note: An alternate language option can be taken with the approval of the Department. Contact the Economics Academic Advisor for more information.

- **3.0 credits from:** ENV311H5, GGR325H5, GGR333H5, GGR365H5, (HIS311H5 or ECO302H5 or ECO303H5), POL302Y5, POL311H5, POL312H5, POL327Y5, POL327H5, POL340Y5, POL343Y5, POL344H5, POL345H5, POL362H5, or an alternate 300/400-level course with approval of the Department. A list of approved alternates is available on the Economics website - <https://www.utm.utoronto.ca/economics/undergraduate-studies/course-information/course-notice>.
- **1.0 credit from:** ECO400Y5, ECO406H5, ECO411H5, ECO433H5, ECO435H5, ECO436H5, ECO439Y5, ECO456H5, ECO460H5, ECO461H5, ECO463H5, ECO419H1, ECO459H1, POL475H5, or an alternate 400-level course with approval of the Department.

Note: Contact the Economics Academic Advisor to request course alternates for approval

The Italian program at U of T Mississauga is designed to provide a comprehensive study of the many facets of Italy, a country whose culture continues to be a significant force in the shaping of Western civilization. Literature and cinema courses are organized around major figures, movements or genres, as well as Italian life and civilization. Language is studied from all points of view -- practical, stylistic, philological and historical -- at all levels of instruction.

In Canada, the strong presence of large Italian communities provides a social, intellectual and practical incentive for the study of Italian.

Students are free to design for themselves the program of study best suited to their interests and needs, and they can choose from available courses at U of T Mississauga and at the St. George campus. There are conditions, however, which must be satisfied:

1. for specialization in Italian alone or in Language Teaching and Learning;
2. for a major in Italian alone or Italian and French;
3. for a major in Language Teaching and Learning in Italian alone or Italian and French;
4. for a minor in Italian alone or in Cinema Studies;
5. for a specialist in International Affairs, which requires a language component.

Knowledge of another language and culture is regarded favourably by other disciplines (i.e. Art History, Art and Art History) and is frequently required for graduate-level studies.

Graduates in Italian are in demand and will continue to be. U of T Mississauga's Italian graduates have moved on to advanced studies and to careers in business, journalism, teaching, translation, transportation, foreign affairs, government, social services, trade, law, and other fields where skills in Italian are a necessity.

In case of uncertainty with regard to the program of study, course content, graduate studies requirements, or any related matter, students are strongly advised to consult the Program Advisor for Italian at U of T Mississauga.

Courses offered every year: ITA100Y5, ITA200Y5, ITA350H5

Study in Florence Program

The Study in Florence program is an intensive language and cultural experience that allows students to study in Florence, Italy while simultaneously obtaining up to 3.0 University of Toronto Mississauga credits. Classes are taught in tandem by faculty from the Department of Language Studies, U of T Mississauga, and the Accademia Fiorentina di Lingua e Cultura Italiana. This unique opportunity also includes:

- an experiential learning component which further enhances cultural competency and adds context to one's studies
- a communication agreement, wherein students commit to speaking exclusively in Italian for the duration of the program

For further information regarding the program and how to apply, please see www.utm.utoronto.ca/study-florence.

Enrolling in Italian courses outside of UTM

Students MUST consult with the department Undergraduate Counsellor or obtain approval from the Italian Studies Undergraduate Coordinator before enrolling in any course that they wish to use for credit toward any Italian Studies program at UTM. Requests must be made prior to the first day of classes. Students must provide descriptions or outlines of the courses in consideration.

Students should also review the Degree Requirements section prior to selecting courses

Italian Programs

French and Italian - Specialist (Arts)

Admissions to the French and Italian Specialist Program (ERSPE0815) are administratively suspended as of 2017-2018. Students currently enrolled in the program will be allowed to continue.

Enrolment Requirements:

Limited Enrolment – Final grade of 63% in FRE180H5 and FRE181H5 (or equivalent) is required.

Completion Requirements:

14.0 credits are required. The program must include a minimum of 4.0 300/400 level credits (2.0 in French and 2.0 in Italian) and 1.0 credit at the 400 level (either in French or in Italian).

French

7.0 credits are required.

First Year: FRE180H5 and FRE181H5 (minimum grade of 63% is required) or equivalent. Students exempted from these courses may replace them with a higher level 1.0 credit in FRE.

Higher Years:

1. FRE240Y5 (or FRE240H5 and FRE241H5)
2. FRE280Y5, FRE382H5, FRE383H5
3. 1.0 credit from French Linguistics
4. 1.0 credit from French Literary and Cultural Studies
5. 1.0 additional credit in French linguistics or literature

Course Categories:

- **French Linguistics:** [FRE372H5](#), [FRE373H5](#), [376H5](#), [378H5](#), [387H5](#), [474H5](#), [476H5](#), [489H5](#)

Some written work will be done in Italian for students enrolled in any Italian Minor, Major or Specialist Program.

Any student exempted from a course should speak with the program coordinator about suitable substitutions.

Italian Courses

ITA100Y5 • Beginner Italian

An introduction to the language for those with no prior knowledge of Italian. Students learn and practice basic rules of grammar and theme-based vocabulary, and they engage with various aspects of Italian culture.

Exclusions: ITA101Y1 or Grade 12 Italian or higher.

Distribution Requirements: Humanities

Total Instructional Hours: 48L/24T

Mode of Delivery: In Class

ITA102H5 • Italian for Musicians

(Offered in Sulmona, Italy; Faculty of Music's Centre for Opera Studies in Italy program) An introduction to the Italian language for students whose primary area of study is Music. Beginner language proficiency (grammar practice, oral communication, pronunciation, cultural fluency, etc.) are acquired through close readings of select librettos, depending on the pieces pre-selected for performance. In this course, students have the option of participating in co- and extra-curricular learning experiences. When those are offered, additional costs and application processes may apply.

Exclusions: Prior knowledge of Italian.

International Component: International - Required

Distribution Requirements: Humanities

Total Instructional Hours: 12L/12T

Mode of Delivery: In Class

ITA200Y5 • Beginner - Intermediate Italian

A beginner to intermediate-level language course. The course provides a thorough review of grammatical structures designed to improve the students' self-expressiveness in Italian. Selections from contemporary authors and passages dealing with present-day issues are also introduced as a basis for discussion in Italian.

Prerequisites: ITA00Y5 or Grade 12 Italian

Exclusions: ITA201Y5.

Distribution Requirements: Humanities

Total Instructional Hours: 48L/24T

Mode of Delivery: In Class

ITA201Y5 • Beginner - Intermediate Italian (Offered in Florence, Italy)

(Offered in Florence) A beginner to intermediate-level language course. The course provides a thorough review of grammatical structures designed to improve the students' self-expressiveness in Italian. Selections from contemporary authors and passages dealing with present-day issues are also introduced as a basis for discussion in Italian. In this course students will be participating in an international learning experience that will have an additional cost and application process. Students have the option of participating in co- and extra-curricular learning experiences. When those are offered, additional costs and application processes may apply.

Prerequisites: ITA100Y5 or permission of the department.

Exclusions: ITA200Y5 or ITA251Y1 or higher.

International Component: International - Required

Distribution Requirements: Humanities

Total Instructional Hours: 48L/24T

Mode of Delivery: In Class

ITA218H5 • Writings on Love and Sex (Medieval to Early Italian Renaissance)

(Offered in English) An exploration of literary representations of love and sex in Medieval and Renaissance Italy. Writers studied include Dante Alighieri, Francesco Petrarca, Giovanni Boccaccio. Texts will be available in Italian and English.

Prerequisites: Open to all students. If enrolled in an Italian Minor, Major or Specialist program, ITA100Y5 or permission of the department.

Exclusions: ITA219Y5

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

ITA221H5 • Italian Authors (20th Century Italy)

(Offered in English) An introduction to 20th-century Italian literature. Writers studied include Italo Calvino, Dacia Maraini, Elsa Morante, and Alberto Moravia. Texts will be available in Italian and English.

Prerequisites: Open to all students. If enrolled in an Italian Minor, Major or Specialist program: [ITA100Y5](#) or permission of department

Exclusions: [ITA221Y5](#) or [ITA220Y5](#).

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

ITA222H5 • Italian Authors (Late 20th to 21st Century Italy)

(Taught bilingually: English and Italian) A study of late 20th- to 21st-century Italian literature. Writers studied include Niccolò Ammaniti, Andrea Camilleri, Elena Ferrante, and Margaret Mazzantini.

Prerequisites: [ITA100Y5](#) or permission of department.

Exclusions: [ITA220Y5](#) and [ITA221Y5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

ITA227H5 • Teaching and Learning a Second/Foreign Language

(Offered in English) This course provides an introduction to second language pedagogy with a particular focus on Italian. Students will learn key concepts in pedagogy and compare the teaching and learning processes and experiences of first and second language learners as well as the roles of classroom teachers and learners via the creation of linguistic portraits and pedagogical materials.

Exclusions: [FRE225Y5](#) or [FRE227H5](#) or [LTL227H5](#)

Recommended Preparation: [ITA100Y5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

ITA231H5 • Italian Authors (Medieval to Renaissance Italy)

(Offered in English) A survey of foundational authors, such as Dante, Petrarca, Boccaccio, Machiavelli, Tasso, Ariosto, Guicciardini, and their works, from the Medieval Period to the Renaissance. Texts will be available in Italian and English.

Prerequisites: [ITA100Y5](#) or permission of department.

Exclusions: [ITA229Y5](#) or [ITA230Y5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

ITA232H5 • Italian Authors (Baroque to Present Italy)

(Offered in English) A survey of foundation authors, such as Manzoni, Marino, Goldoni, Alfieri, Eco, Ginzburg, Levi, Ferrante, and their works, from the Baroque to present times. Texts will be available in Italian and English.

Prerequisites: [ITA100Y5](#) or permission of department

Exclusions: [ITA229Y5](#) or [ITA230Y5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

ITA233H5 • Italian Culture through Fashion

(Offered in English) An exploration of Italian fashion throughout the centuries, its presence in Italian literature (e.g. Dante, Castiglione, Leopardi), politics (e.g. Medici dynasty, fascism), movies (e.g. *Roman Holiday*, *La dolce vita*), television, and the influence of the "Made in Italy" brand globally. In this course, students have the option of participating in co- and extra-curricular learning experiences. When those are offered, additional costs and application processes may apply.

Prerequisites: Open to all students.

International Component: International - Optional

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

ITA235H5 • Italian Culture through Food

(Offered in English) History through an examination of influential work in Italian literature (e.g. Artusi, Guerrini), art (e.g. Bellini, Caravaggio), and cinema (movements such as Neorealism, Comedy, Italian-Style). The course explores the relationship between the representation of food and questions of identity and diaspora and ponders a redefinition of authenticity. Students explore their own culinary patterns to discover links between history, food, culture, and identity. Students have the option of participating in local and international field trips (to restaurants, factories, farms). When travel experiences are offered, additional costs and application processes apply.

Enrolment Limits: Open to all students.

International Component: International - Optional

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

ITA237H5 • Italy, from 1815 to 1960

(Offered in English) This course addresses key aspects of contemporary Italy by exploring the foundational events that shaped it, such as Unification, World War I, World War II, and the Economic Boom of the 1950s-60s. Investigative sources include short stories, novels, sociological and historical documents, and popular articles. In this course, students have the option of participating in co- and extra-curricular learning experiences. When those are offered, additional costs and application processes may apply. Texts will be available in Italian and English.

Prerequisites: Open to all students. If enrolled in an Italian Minor, Major or Specialist program: [ITA100Y5](#) or permission of department.

Exclusions: [ITA234Y5](#) or [ITA235Y5](#) or [ITA236H5](#)

International Component: International - Optional

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

ITA238H5 • Italian Civilization (1960 to Present)

(Offered in English and Italian) An overview of key events in Italian civilization, from 1960 to present times, through a selection of various written materials and media. Topics include economy, the arts, media, and others. In this course, students have the option of participating in co- and extra-curricular learning experiences. When those are offered, additional costs and application processes may apply.

Prerequisites: None; [ITA100Y5](#) or [ITA101Y5](#) required for students enrolled in an ITA Major or Specialist program only, as some written work will be submitted in Italian.

Exclusions: [ITA234Y5](#) or [ITA235Y5](#) or [ITA239H5](#)

International Component: International - Optional

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

ITA242H5 • Italian Award-Winners, Box-Office Hits

(Offered in English) A study of the most critically acclaimed and/or financially successful Italian films. Students also consider the differences and similarities in audience reception, depending on where (in Italy or abroad) films are released. Films analyzed include *Bicycle Thieves*, *The Great Beauty*, *Life Is Beautiful*, *The Postman*. In this course, students have the option of participating in co- and extra-curricular learning experiences. When those are offered, additional costs and application processes may apply.

Prerequisites: None; [ITA100Y5](#) or [ITA101Y5](#) required for students enrolled in an ITA Major or Specialist program only, as some written work will be submitted in Italian.

Exclusions: [ITA241H5](#) or [ITA242Y5](#) or [ITA243Y5](#) or [ITA240Y1](#) or [ITA340H1](#) or [ITA341H1](#) or [ITA342H1](#) or [ITA345H1](#) or [ITA347H1](#) or [ITA441H1](#)

International Component: International - Optional

Distribution Requirements: Humanities

Total Instructional Hours: 24L/24T

Mode of Delivery: In Class

ITA247H5 • Contemporary Italian Cinema

(Offered in English) A study of Italian cinema and key themes that have emerged from the silver screen since the 1980s (e.g. family matters, celebrity culture, the crisis of cinema and the cinema of the crisis, identity and immigration, religion, crime, politics). Films analyzed include *Il divo*, *Habemus Papam*, *Mediterranea*, *Nuovo cinema paradiso*, *Reality*, *The Son's Room*, *Suburra*, *Videocracy*.

Prerequisites: Open to all students, however, if enrolled in an Italian Minor, Major or Specialist program, [ITA100Y5](#) is required.

Exclusions: [ITA248H5](#) or [ITA246Y5](#) or [ITA247Y5](#) or [ITA240Y1](#) or [ITA340H1](#) or [ITA341H1](#) or [ITA342H1](#) or [ITA345H1](#) or [ITA347H1](#) or [ITA441H1](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/24T

Mode of Delivery: In Class

ITA255H5 • Italian-Canadian Studies: Historical and Socio-Linguistic Perspectives

(Offered in English) A portrait of Italian immigration through Diaspora Studies, history, and sociolinguistics. Students will also explore the journeys of their own communities. Texts will be available in Italian and English.

Prerequisites: Open to all students. If enrolled in an Italian Minor, Major or Specialist program: [ITA100Y5](#) or permission of department.

Exclusions: [ITA233H1](#) or [ITA255Y5](#) or [ITA445H1](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

ITA256H5 • Italian-Canadian Studies: Literature, Theatre, Cinema

(Offered in English) A portrait of Italian immigration through artistic expression in the works of, for example, De Cicco, De Michele, Patriarca, Ricci, and others, to highlight the voices that helped to establish/shape Italian-Canadian Studies. Students will have the opportunity to interact with writers, directors, and artists from the Italian-Canadian community.

Prerequisites: Open to all students. If enrolled in an Italian Minor, Major or Specialist program: [ITA100Y5](#).

Exclusions: [ITA255Y5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

ITA272H5 • Italian Linguistics

(Offered in English) An introduction to Italian Linguistics through a study of modern Italian phonetics and phonology, morphology, syntax and semantics. Comparisons are also made between current trends in Italian linguistics and other languages with which students are familiar. Texts will be available in Italian and English.

Prerequisites: Open to all students. If enrolled in an Italian Minor, Major or Specialist program: [ITA100Y5](#).

Corequisites: Corequisite only for students enrolled in an Italian Major or Specialist program: [ITA200Y5](#) or [ITA201Y5](#).

Exclusions: [ITA360H1](#) or [ITA363H1](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

ITA299Y5 • Research Opportunity Program

An opportunity to conduct in-depth original research with a supervising professor. Students learn research methods and share in the excitement and discovery of acquiring new knowledge. Students are invited to visit [Research Opportunity Program](#) for a list of participating faculty projects and for application details.

Prerequisites: [ITA100Y5](#)

Course Experience: University-Based Experience

Distribution Requirements: Humanities

Mode of Delivery: In Class

ITA307H5 • Italian Novels on the Big Screen

(Offered in English) A study of various onscreen adaptations of modern Italian novels, short stories, and plays. Authors and film directors studied include Giorgio Bassani, Bernardo Bertolucci, Eduardo De Filippo, Vittorio De Sica, Alberto Moravia, Ettore Scola, Giovanni Verga, Luchino Visconti.

Prerequisites: None; [ITA200Y5](#) or [ITA201Y5](#) required for students enrolled in an ITA Major or Specialist program only, as some of their written work will be submitted in Italian.

Exclusions: [ITA306H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/24T

Mode of Delivery: In Class

ITA309H5 • Mafia Movies

(Offered in English) A study of organized crime and crime bosses and their representation onscreen, in American gangster films and in Italian movies about the mafia. Films analyzed include *Donnie Brasco*, *The Godfather Trilogy*, *Gomorrah*, *Goodfellas*, *The Mafia Only Kills in Summer*, *Placido Rizzotto*.

Prerequisites: None; [ITA100Y5](#) or [ITA101Y5](#) will be required for students enrolled in an ITA Major or Specialist program only, as some of their written work will be submitted in Italian.

Exclusions: [ITA310H5](#)

Recommended Preparation: Minimum 0.5 credits in any ITA cinema course.

Distribution Requirements: Humanities

Total Instructional Hours: 24L/24T

Mode of Delivery: In Class

ITA311H5 • Italian Cinema: Comedies and Comedians

(Offered in English) This course examines an integral part of Italian cinema - *Commedia all'italiana* (Comedy, Italian Style) of the 1950s, and the ways in which it continues to influence film comedies today. As the subgenre is deeply rooted in the external contexts that surround a film's release, discussions will attempt to answer whether laughter can indeed be the best medicine. Films analyzed include *Divorce Italian-Style*, *The Easy Life*, *Life Is Beautiful*, *Marriage Italian-Style*, *Quo vado?*.

Prerequisites: Open to all students. If enrolled in an Italian Minor, Major or Specialist program: [ITA200Y5](#) or [ITA201Y5](#) or permission of department.

Exclusions: [ITA312H5](#)

Recommended Preparation: Minimum 0.5 credits in any ITA cinema course.

Distribution Requirements: Humanities

Total Instructional Hours: 24L/24T

Mode of Delivery: In Class

ITA313H5 • Italian Cinema: The Effect of Spaghetti Westerns on the Films of Quentin Tarantino

(Offered in English) This course explores the influence that Spaghetti Westerns and, in particular, the works of Sergio Leone had on the Italian-American auteur, Quentin Tarantino. Works, from both Leone and Tarantino, are analyzed through a variety of lenses (cinematographic, cultural, theoretical). Films include *A Fistful of Dollars*, *The Good, the Bad and the Ugly*, *The Hateful Eight*, *Kill Bill*, *Once Upon a Time in America*, *Once Upon a Time in Hollywood*, *Pulp Fiction*.

Prerequisites: Open to all students. If enrolled in an Italian Minor, Major or Specialist program: [ITA200Y5](#) or permission of department.

Exclusions: [ITA240Y1](#) or [ITA340H1](#) or [ITA341H1](#) or [ITA342H1](#) or [ITA345H1](#) or [ITA347H1](#) or [ITA441H1](#).

Recommended Preparation: Minimum 0.5 credits in any ITA cinema course.

Distribution Requirements: Humanities

Total Instructional Hours: 24L/24T

Mode of Delivery: In Class

ITA315Y5 • Italian Theatre (19th to 21st Century)

(Offered in English, performances in Italian) A study of 19th- to 21st-century Italian plays and playwrights, culminating in the staging of a play from one of those eras. Students may take on acting and/or stage production roles.

Prerequisites: Open to all students. If enrolled in an Italian Minor, Major or Specialist program: [ITA200Y5](#) or [ITA201Y5](#) or permission of department.

Exclusions: [ITA314Y5](#)

Course Experience: University-Based Experience

Distribution Requirements: Humanities

Total Instructional Hours: 24L/48T/48P

Mode of Delivery: In Class

ITA339Y5 • Exploring Italian Culture

(Offered in English) A study of key aspects of Italy's past and present, contextualized within historical, political, and artistic frameworks. Topics of study include World Wars, Economic Booms and Crises, Organized Crime, and Gastronomy. In this course, students have the option of participating in co- and extra-curricular learning experiences. When those are offered, additional costs and application processes may apply. Please note that when this course is offered in Siena (Woodsworth - Study Abroad), the international learning experience will have an additional cost and application process.

Prerequisites: Open to all students.

Exclusions: [ITA245Y1](#) and ([ITA247H1](#) or [ITA248Y1](#)) and [ITA358Y0](#) and [ITA359Y0](#)

International Component: International - Optional

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

ITA342H5 • Italian Cinema: Neorealism

(Offered in English) A study of the Golden Age of Italian cinema, Neorealism, and its relation to the political and social climate of post-war Italy. Consideration is also given to how these films were received in the 1940s versus how they are screened and felt by today's viewer. Films

analyzed include *Bicycle Thieves*, *The Children Are Watching Us*, *Rome Open City*, *Shoeshine*.

Prerequisites: Open to all students. If enrolled in an Italian Minor, Major or Specialist program: [ITA200Y5](#) or [ITA201Y5](#) or permission of department.

Exclusions: [ITA342Y5](#) or [ITA343Y5](#) or [ITA341H5](#).

Recommended Preparation: Minimum 0.5 credit in any ITA cinema course.

Distribution Requirements: Humanities

Total Instructional Hours: 24L/24T

Mode of Delivery: In Class

ITA343H5 • Italian Cinema: The Neorealist Effect

(Offered in English) An examination of the evolution and influence of Italian neorealism on films released in the 1950s and 1960s. Films analyzed include *Miracle in Milan*, *La Strada*, *Two Women*, *Umberto D*.

Prerequisites: Open to all students. If enrolled in an Italian Minor, Major or Specialist program: [ITA200Y5](#) or [ITA201Y5](#) or permission of department.

Exclusions: [ITA342Y5](#) or [ITA343Y5](#) or [ITA344H5](#)

Recommended Preparation: [ITA342H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/24T

Mode of Delivery: In Class

ITA350H5 • Intermediate - Advanced Italian

(Offered in Italian) An intermediate to advanced-level language course. Students enrich their proficiency in Italian through practical experiences (e.g., interviewing guest speakers, writing articles for online media outlets).

Prerequisites: [ITA200Y5](#) or [ITA201Y5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

ITA351H5 • Creative Writing in Italian Studies

(Offered in Italian) An intermediate-advanced-level language course designed to promote creative expression in Italian. Students examine various genres and writing styles (argumentative and descriptive article-writing, screenplays, etc.) as well as write their own original pieces.

Prerequisites: [ITA200Y5](#) or [ITA201Y5](#) or permission of the department.

Exclusions: [ITA354Y5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

ITA352H5 • Italian Media and Social Media Production

(Offered in Italian) An intermediate-advanced-level language course designed to enhance students' Italian skills through media production (subtitles, dubbing, etc.), digital analyses of primary texts, and comparisons between human-generated and computer-generated translations. Students collaborate with industry leaders in film, publishing and editing, and reference collection.

Prerequisites: [ITA200Y5](#) or [ITA201Y5](#) or permission of department.

Exclusions: [ITA371Y5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

ITA370H5 • Machiavelli's The Prince

(Offered in English) An in-depth analysis of Machiavelli's The Prince, from historical, social, and political perspectives.

Prerequisites: Open to all students. If enrolled in an Italian Minor, Major or Specialist program: [ITA200Y5](#) or [ITA201Y5](#) or permission of department.

Exclusions: [ITA370Y5](#) and [ITA400H1](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

ITA371H5 • Writings on Politics, Power, and Success (Italian Renaissance)

(Offered in Italian) An in-depth analysis of Renaissance writings on politics, power, and success. Writers studied include Pietro Aretino, Michelangelo Buonarroti, Baldassare Castiglione, Lorenzo de' Medici.

Prerequisites: [ITA200Y5](#) or [ITA201Y5](#) or permission of the department.

Exclusions: [ITA370Y5](#) and [ITA370H1](#) and [ITA400H1](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

ITA373H5 • Italian Sociolinguistics

(Offered in Italian) A study of Italian dialects, regional variants, and the effect that immigration and emigration have had on the language as we read, hear, and speak it today.

Prerequisites: [ITA200Y5](#) or [ITA201Y5](#) or permission of the department.

Exclusions: [ITA363H5](#) or [ITA360H1](#)

Recommended Preparation: [LIN101H5](#) or [LIN102H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

ITA374H5 • Language Teaching Methodology I

(Offered in Italian) A theoretical-practical approach to language teaching and learning. Based on relevant scholarship, students evaluate existing materials and create their own original exercises which they have the opportunity to implement in another Italian language course.

Corequisites: [ITA200Y5](#) or [ITA201Y5](#) or permission of the department.

Exclusions: [ITA375Y5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

ITA375H5 • Language Teaching Methodology II

(Offered in Italian) A theoretical-practical approach to language teaching and learning. Based on relevant scholarship, students evaluate existing materials and create their own original exercises which they have the opportunity to implement in another Italian language course.

Prerequisites: [ITA200Y5](#) or [ITA201Y5](#) or permission of department.

Exclusions: [ITA375Y5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

ITA388H5 • Education Internship in Italian Studies

(Taught bilingually: English and Italian) An internship opportunity (minimum 100-hours) for students interested in gaining experience in a branch of Education such as teaching, curriculum, administration, etc. Placements, determined in consultation with the student, may include elementary, secondary, or college/university classes, units, and departments. To request an internship placement, write to the program coordinator of Italian prior to course enrolment.

Prerequisites: [ITA200Y5](#) or [ITA201Y5](#) or permission of department.

Exclusions: [CTE388H5](#) or [CTE388Y5](#) or [EDS388H5](#)

Course Experience: Partnership-Based Experience

Distribution Requirements: Humanities

Mode of Delivery: In Class

ITA390H5 • Writings on Self, Gender, Society (19th Century Italy)

(Offered in Italian) An examination of the notions of self, gender and society amidst the emergence of new social consciences and technologies in the 19th century. Writers studied include Giacomo Leopardi, Alessandro Manzoni, Giovanni Verga, and the works of the first Italian woman recipient of the Nobel Prize for Literature, Grazia Deledda.

Prerequisites: [ITA200Y5](#) or [ITA201Y5](#)

Exclusions: [ITA395H5](#) or [ITA397Y5](#) or [ITA398Y5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

ITA391H5 • Writings on Anxiety and Identity in Italian Literature

(Offered in English) An analysis of the masterpieces of Italian fiction (in English translation), examined against the backdrop of modern-day Italy and centred on issues of national and individual identity. Writers studied include Sibilla Aleramo, Alberto Moravia, Pier Paolo Pasolini, Cesare Pavese, Umberto Saba, Italo Svevo, and Elio Vittorini. Texts will be available in Italian and English.

Prerequisites: Open to all students. If enrolled in an Italian Minor, Major or Specialist program: [ITA200Y5](#) or [ITA201Y5](#) or permission of department.

Exclusions: [ITA390Y5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

ITA392H5 • Queer Italy: Literature and Cinema

(Offered in English) An exploration of expressions of gender diversity in Italian culture through time. Particular attention will be paid to issues of persecution, social struggle and activism, censorship, and marginalization of LGBTQ+ individuals and works. Texts will be available in Italian and English.

Prerequisites: Open to all students. If enrolled in an Italian Minor, Major or Specialist program: [ITA200Y5](#) or [ITA201Y5](#) or permission of department.

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

ITA395H5 • Topics in Italian Studies

(Offered in English) Students will develop a deeper and more nuanced understanding of key theories and practices as they relate to the central topics investigated

in the course. The course may have a historic, literary, cinematic, cultural, or other focus. Students should contact the Department for the topic when course is offered. Texts will be available in Italian and English.

Prerequisites: [ITA200Y5](#) or [ITA201Y5](#) or permission from the department.

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

ITA399Y5 • Research Opportunity Program

An opportunity to conduct in-depth original research, with a supervising professor. Students learn research methods and share in the excitement and discovery of acquiring new knowledge. Students are invited to visit [Research Opportunity Program](#) for a list of participating faculty projects and for application details.

Prerequisites: [ITA200Y5](#) or [ITA201Y5](#)

Course Experience: University-Based Experience

Distribution Requirements: Humanities

Mode of Delivery: In Class

ITA400Y5 • Internship in Italian Studies (Private or Public Sector)

An internship opportunity for students interested in gaining work-place experience, in private or public sectors. Placements, determined in consultation with the student, may include corporations, local media, non-profit community organizations. To request an internship placement, write to the undergraduate coordinator of Italian prior to course enrolment.

Prerequisites: (1.0 credit from [ITA350H5](#) or [ITA351H5](#) or [ITA352H5](#)) or permission from the undergraduate coordinator of Italian.

Course Experience: Partnership-Based Experience

Distribution Requirements: Humanities

Mode of Delivery: In Class

ITA415Y5 • Italian Theatre (15th to 18th Century Italy)

(Offered in English, performances in Italian) A study of 15th- to 18th-century Italian plays and playwrights, culminating in the staging of a play from one of those eras. Students may take on acting and/or stage-production roles.

Prerequisites: Open to all students. If enrolled in an Italian Minor, Major or Specialist program: [ITA350H5](#) or [ITA351H5](#) or [ITA352H5](#) or permission of department.

Exclusions: [ITA413Y5](#) or [ITA412Y5](#).

Course Experience: University-Based Experience

Distribution Requirements: Humanities

Total Instructional Hours: 24L/48T/48P

Mode of Delivery: In Class

ITA420H5 • Dante's Inferno

(Offered in English). An in-depth study of the Inferno, in Dante's *Divine Comedy*. Texts will be available in Italian and English.

Prerequisites: [ITA350H5](#) or [ITA351H5](#) or [ITA352H5](#)

Exclusions: [ITA420Y5](#) and [ITA320H1](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

ITA421H5 • Dante's Purgatory and Paradise

(Offered in English) An in-depth study of Purgatory and Paradise, in Dante's *Divine Comedy*. Texts will be available in Italian and English.

Prerequisites: [ITA350H5](#) or [ITA351H5](#) or [ITA352H5](#)

Exclusions: [ITA321H1](#) and [ITA420Y5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

ITA436Y5 • The 18th Century in Italy

An investigation of the intellectual trends and literary forms in Italy from the pre-enlightenment to Romanticism. Readings from the works of Vico, Muratori, Gravina, Metastasio, Rolli, Parini, Verri, Beccaria, Goldoni, Alfieri and others.

Prerequisites: [ITA200Y5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 48L

Mode of Delivery: In Class

ITA437H5 • History of the Italian Language (Medieval Period to the 1700s)

(Offered in Italian) A study of the foundations of the Italian language. Topics/key figures in focus include the transition from Latin to Italian, Dante Alighieri, the "Questione della lingua," during the Renaissance. Students will explore those and other topics through pertinent readings and linguistic analyses of representative texts.

Prerequisites: [ITA350H5](#) or [ITA351H5](#) or [ITA352H5](#)

Exclusions: [ITA437Y5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

ITA450H5 • Advanced Italian

(Offered in Italian) An advanced-level language course. Emphasis is given to enhancing oral proficiency, including pronunciation, and acquiring and practicing nuances and subtleties of the language.

Prerequisites: 1.0 credit from [ITA350H5](#) or [ITA351H5](#) or [ITA352H5](#)

Exclusions: [ITA450H1](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

ITA451H5 • History of the Italian Language (19th Century to Present)

(Offered in Italian) A study of the Italian language, from the 19th century to the present, with a focus on contemporary varieties as spoken and written within and outside of national borders. Changes in the language will be analyzed through syntactic, lexical, and morphological perspectives as well as by looking at factors which affect those adjustments (contact with other languages, media, etc.).

Prerequisites: [ITA350H5](#) or [ITA351H5](#) or [ITA352H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

ITA491H5 • Senior Project

A directed-research project, facilitated by a supervising faculty member in the Italian Studies program. Research may be in cinema, culture, linguistics, literature, or theatre.

Prerequisites: (1.0 credit from [ITA350H5](#) or [ITA351H5](#) or [ITA352H5](#)) or permission from the program coordinator of Italian.

Distribution Requirements: Humanities

Mode of Delivery: In Class

ITA491Y5 • Independent Studies in Italian

A project supervised by a member of the Italian Department on a topic of Italian language, literature or linguistics.

Prerequisites: [ITA350Y5](#) (or equivalent) and written permission of the undergraduate co-ordinator in Italian.

Distribution Requirements: Humanities

Mode of Delivery: In Class

ITA492H5 • Senior Project

A directed-research project, facilitated by a supervising faculty member in the Italian Studies program. Research may be in cinema, culture, linguistics, literature, or theatre.

Prerequisites: (1.0 credit from [ITA350H5](#) or [ITA351H5](#) or [ITA352H5](#)) or permission from the program coordinator of Italian.

Distribution Requirements: Humanities

Mode of Delivery: In Class

ITA493H5 • Senior Project: Teaching and Learning Language

A close, practical study in which students observe, actively participate in, and reflect on the teaching and learning processes in an Italian language course, under the supervision of a member of the Italian Studies program. Students develop and implement strategies for the successful delivery of lesson plans and grammatical and communicative activities.

Prerequisites: (1.0 credit from [ITA350H5](#) or [ITA351H5](#) or [ITA352H5](#)) or permission from the program coordinator of Italian.

Distribution Requirements: Humanities

Mode of Delivery: In Class

ITA494H5 • Senior Project: Teaching and Learning Cinema, Literature, or Theatre

A close, practical study in which students observe, actively participate in, and reflect on the teaching and learning processes in an Italian cinema, literature, or theatre course, under the supervision of a member of the Italian Studies program. Students develop and implement strategies for the successful delivery of lesson plans and discussion-based activities.

Prerequisites: (1.0 credit from [ITA350H5](#) or [ITA351H5](#) or [ITA352H5](#)) or permission from the program coordinator of Italian.

Distribution Requirements: Humanities

Mode of Delivery: In Class

ITA498H5 • Senior Project (Florence Program)

(Offered in Italian) A directed-research project for students registered in the UTM Florence Program. Projects are facilitated by a supervising faculty member in the Italian Studies program.

Prerequisites: (1.0 credit from [ITA350H5](#) or [ITA351H5](#) or [ITA352H5](#)) or permission from the program coordinator of Italian.

Distribution Requirements: Humanities

Mode of Delivery: In Class

ITA499H5 • Research Opportunity Program

An opportunity to conduct in-depth original research, with a supervising professor. Students learn research methods and share in the excitement and discovery of acquiring new knowledge. Students are invited to visit [Research Opportunity Program](#) for a list of participating faculty projects and for application details.

Prerequisites: 1.0 credit from [ITA350H5](#) or [ITA351H5](#) or [ITA352H5](#) or [ITA450H5](#)

With the endeavor of enhancing the undergraduate academic experience of U of T Mississauga students, the Department of Language Studies offers a variety of undergraduate level language courses that can be taken as electives. These language courses offer the opportunity to expand students' professional skills, and to better prepare them for graduate study as well as a competitive global market.

Students can request a notation on their academic record of language proficiency. The Language Citation at the University of Toronto Mississauga is official recognition on a student's transcript that the student has progressed to an advanced level in the study of a language, and has been assessed as achieving "good" results in that study. For further information see [Experiential and International Opportunities](#) or visit the Department of Language Studies website at www.utm.utoronto.ca/language-studies/language-courses/language-citation.

All students who are enrolling in an ARA, CHI, HIN, PUN, SPA, and URD course for the first time are required to complete a language assessment questionnaire. Students who have not completed an assessment cannot be approved for course enrolment. Please visit the department website www.utm.utoronto.ca/language-studies/elective-languages for further details.

Language Studies Programs

Global Leadership – Minor (Arts)

Now, more than ever, the world needs principled, inclusive, and empathetic global leaders. The Minor in Global Leadership, facilitated in partnership between multiple Faculties across all three U of T campuses, develops students' collaborative global leadership skills and capacity to critique what is global leadership and how this concept is understood and challenged in diverse disciplines and global cultures. The Minor integrates theory and practice, and provides a forum for students to engage across disciplines and geographical contexts. The Minor includes interdivisional student experience, community engagement and completion of a globally partnered capstone project.

Enrolment Requirements:

Enrolment in the Minor in Global Leadership is limited. Students will be able to apply to the program after completing 4.0 credits (but no more than 6.0 credits) and must have achieved a minimum average GPA of 2.7 across their best 3.0 credits completed.

In addition, students must submit a separate application. Please see the Minor in Global Leadership website for more information.

NOTE: The GPA cut-off for admission is determined annually in relation to the number and quality of the applicants. It is never below 2.7 across the best 3.0 credits. Meeting the minimum requirements does not guarantee admission.

Completion Requirements:

4.0 credits are required.

- [GLB201H5](#)
- [GLBC01H3](#) (offered at the UTSC campus)
- [GLB401Y1](#) (offered at the St. George campus)
- 2.0 credits, as follows:
 - One course (0.5-1.0 credit) from the Communication and Cultural Competencies course list (below); and
 - Remaining credits to total 2.0 credits (1.0-1.5 credits) from Leadership; Global Issues; and/ or Ethics/ Equity, Diversity, and Inclusion course lists (below).

**** The Communication & Cultural Competencies requirement must be fulfilled in a language that is not the student's first/ native language.**

[ERMIN0134](#)

Certificate in Global Perspectives

The Certificate in Global Perspectives will provide students the opportunity to examine issues from different cultural, economic and socio-political perspectives, and provide an interdisciplinary or disciplinary global lens through which to interpret and evaluate our interconnected world.

Enrolment in the Certificate in Global Perspectives is open to all students completing programs at UTM. To complete the Certificate, a student must complete 2.0 credits, with 1.0 credit taken from a single region (the Americas, Asia, Africa & the Middle East, Europe) defined in the Area Studies group of courses and 1.0 credit from the Global Perspectives group of courses. Students will complete the certificate within their degree credit requirements. Upon completion "Certificate in Global Perspectives (U of T Global Scholar)" will be recorded on the academic transcript as a component of the undergraduate degree. Students who complete the requirements of the Certificate in Global Perspectives are considered University of Toronto Global Scholars. Students will not receive a separate parchment at Convocation.

Enrolment Requirements:

Enrolment in the Certificate in Global Perspectives is open to all students completing programs at UTM.

Completion Requirements:

2.0 credits are required.

- 1.0 credit to be chosen from the following Global Perspective group of courses:
ANT102H5, ANT206H5, ANT207H5, ANT208H5, ANT209H5, ANT215H5, ANT217H5, ANT322H5, ANT335H5, ANT350H5, ANT351H5, ANT352H5, ANT354H5, ANT357H5, ANT360H5, ANT362H5, ANT365H5, ANT368H5, ANT369H5, ANT370H5, ANT462H5, ANT463H5, ANT464H5, CIN303H5, CIN308H5, CIN207H5, CIN208H5, CIN305H5, DRE121H5, DTS201H5, DTS202H5, ECO302H5, ECO303H5, ECO435H5, EDS220H5, EDS310H5, ENV205H5, ERS111H5, FAH343H5, FAH356H5, FAH282H5, FAH281H5, FAH215H5, FAH216H5, FAH274H5, FAH279H5, FAH287H5, FAH385H5, GGR207H5, GGR208H5, GGR214H5, GGR288H5, GGR287H5, GGR377H5, JAL355H5, JGE378H5, LIN233H5, LIN357H5, LIN486H5, POL114H5, POL218Y5, POL327Y5, POL340Y5, POL303Y5, SOC202H5, SOC206H5, SOC236H5, SOC253H5, SOC304H5, SOC322H5, SOC327H5, SOC335H5, SOC343H5, SOC349H5, SOC354H5, SOC375H5, SOC382H5, SOC403H5, SOC417H5, SOC425H5, SOC432H5, SOC454H5, SOC465H5, SOC485H5, VCC306H5.
- 1.0 credit to be chosen from only ONE of the following Area Studies groups:

Africa & Middle East - ARA210H5, CIN208H5, ENG270Y5, FAH281H5, FRE391H5, FRE397H5, HIS201H5, HIS295H5, HIS323H5, HIS325H5, HIS384H5, HIS203H5, RLG204H5.

Americas - ANT241H5, ANT317H5, EDS250H5, ENG274H5, ENG250Y5, FAH282H5, FRE241H5, FRE361H5, HIS263Y5, HIS367H5, HIS370H5, HIS390H5, HIS393H5, POL111H5, POL203Y5, POL214H5, POL355Y5, RLG209H5, SPA235H5, SPA275H5, VCC236H5, WGS335H5.

Asia - ANT313H5, ANT316H5, CHI308H5, CIN207H5, CIN215H5, CIN305H5, ECO435H5, FAH385H5, GGR267H5, HIS282H5, HIS283H5, HIS284H5, HIS378H5, HIS387H5, POL304Y5, RLG205H5, RLG360H5, RLG310H5, RLG207H5, RLG210H5, VCC360H5, WGS345H5.

Europe - CLA231H5, CLA230H5, FAH215H5, FAH216H5, FAH274H5, FAH279H5, FAH287H5, FRE240H5, HIS230H5, HIS236H5, HIS250H5, HIS338H5, HIS339H5, ITA246H5, ITA307H5, LIN369H5.

ERCER2019

Language Studies Courses

GLB201H5 • Global Leadership: Past, Present, Futures

The evolution and exercise of leadership is examined in the context of globalization. Terminology, case studies, and practical examples are used to consider questions such as: Why did globalization become a dominant frame? How have narratives of globalization changed over time? How does late 20th century globalization differ from earlier processes of colonization? What are expectations going forward? The assumed scale of globalization and how it manifests differently in various geographies, societies, and contexts is assessed. Students reflect on the uneven experiences of globalization in their own lives,

communities, and worlds they observe and pass through. Students challenge ideas of how good leadership is conceived, the dynamics that are assumed (e.g., leaders

and followers), and who/what might be left out (e.g., gender, race, class), today and in the future.

Note:

This course may include one required in-person meeting for all students. This will occur outside of the normal schedule at the beginning of the course.

Prerequisites: Completion of 4.0 credits.

Enrolment Limits: Priority is given to students enrolled in the tri-campus Global Leadership Minor program.

Distribution Requirements: Social Science, Humanities

Total Instructional Hours: 14L/24T

Mode of Delivery: Online, Hybrid

PUN212Y5 • Introductory Punjabi

An introduction to the Punjabi language and is designed for students with little or no prior knowledge of Punjabi. Basic grammatical structures and conversational skills will be introduced as well as the gurmukhi script in which Punjabi is most commonly written. Contextual background about the history of Punjabi and the various contexts in which it has been used will also be discussed in class.

Distribution Requirements: Humanities
Total Instructional Hours: 72L/24P
Mode of Delivery: In Class

SAN291Y5 • Introductory Sanskrit

This course introduces students to the basic grammar of the classical Sanskrit language. Students will engage with its phonology (including pronunciation, sandhi, and metrics) and morphology (including word formation, nominal declension, and verbal conjugation). Students will apply their grammatical knowledge and analytic skills to the reading of basic Sanskrit texts. By the end of the course, students will be able to read simple, narrative Sanskrit.

Exclusions: SAN390H5 or SAN391H5 or RLG260Y1 or RLG260H1 or RLG263H1

Distribution Requirements: Humanities
Total Instructional Hours: 72L/24P
Mode of Delivery: In Class

SAN392Y5 • Intermediate Sanskrit

This course is a continuation of Introductory Sanskrit. It deepens students' knowledge of the phonology, morphology, and syntax of classical Sanskrit using both western and Indian linguistic terminology as descriptive devices. Students will apply their deeper grammatical knowledge and sharpened analytic skills to the reading of a variety of Sanskrit genres. This course counts towards LIN Major and Minor programs.

Prerequisites: (SAN291Y5 or RLG260Y1) and RLG260H1 and RLG263H1.

Exclusions: (SAN390H5 and SAN391H5) or (RLG359H1 and RLG360H1)

Distribution Requirements: Humanities
Total Instructional Hours: 72L/24P
Mode of Delivery: In Class

URD212Y5 • Introduction to Urdu

This course is for students who have no background knowledge in Urdu. The course provides students with

basic information about the Urdu language paying particular attention to literacy skills, i.e. reading and writing in Urdu. Students start by learning how to write and pronounce the alphabet and how to connect letters to form new words. Then, they learn basic vocabulary in Urdu in order to express basic ideas orally and in writing. By the end of the course, students should be able to write simple sentences to express basic information, and they should be able to conduct basic conversations in Urdu. **All students MUST complete the Urdu Language Assessment Questionnaire (<https://www.utm.utoronto.ca/language-studies/language-course-assessment...>) before enrolling in URD course for the FIRST time.**

Prerequisites: All students who are enrolling in an URD language course for the first time MUST complete the Urdu Language Assessment Questionnaire (<https://www.utm.utoronto.ca/language-studies/language-course-assessment...>).

Distribution Requirements: Humanities
Total Instructional Hours: 72L/24P
Mode of Delivery: In Class

URD312Y5 • Intermediate Urdu

In this course, students will continue developing skills in spoken and written Urdu with the study of more complex grammar. Students will continue to build vocabulary and advance their ability in literary and colloquial forms of the language. **Students who have not completed the listed prerequisite of URD212Y5 are REQUIRED to complete the Urdu Language Assessment Questionnaire (<https://www.utm.utoronto.ca/language-studies/language-course-assessment...>) by no later than August 29th. Late assessment submissions will not be accepted.**

Prerequisites: URD212Y5 or appropriate language level as indicated by the Urdu Language Assessment Questionnaire (<https://www.utm.utoronto.ca/language-studies/language-course-assessment...>).

Distribution Requirements: Humanities
Total Instructional Hours: 72L/24P
Mode of Delivery: In Class

The Language Teaching and Learning programs offered by the Department of Language Studies at UTM are specially designed to provide a comprehensive study of how languages are taught and learned, whether in a second or foreign language context. The programs develop expertise in the areas of pedagogy and skills development, psycholinguistics and language acquisition, bilingualism and multilingualism, sociolinguistics and cross-cultural communication, and teaching and learning through theatre, drama, and culture. Certain courses focus on the teaching and learning of particular languages, while others are not language specific.

The programs in Language Teaching and Learning provide a solid foundation for students who intend to continue their studies at the graduate level in education, apply to teacher education programs/teachers colleges, complete a TESOL certificate or other related certificate, or for those students who intend to enter the workforce or continue their academic studies in fields that involve employee-training and other forms of workplace education.

Students should also review the [Degree Requirements](#) section prior to selecting courses

Language Teaching and Learning Programs

Language Teaching and Learning: French and Italian - Specialist (Arts)

Enrolment Requirements:

Limited Enrolment --A final grade of 63% is required in FRE180H5 and FRE181H5 (or equivalent).

Completion Requirements:

14.0 credits are required. The program must include a minimum of 4.0 300/400 level credits (2.0 in French and 2.0 in Italian), 1.0 credit at the 400 level (either in French or Italian).

French

7.0 credits are required.

First Year: FRE180H5, FRE181H5 (or equivalent). Students exempt from these courses must replace them with a higher level 1.0 credit in FRE.

Higher Years:

1. FRE227H5, FRE240H5, FRE272H5, FRE282H5, FRE283H5. Note: FRE227H5 MUST be completed in the second year OR prior to enrolling in 300/400-level courses in Language Teaching and Learning.
2. FRE382H5 and FRE383H5.
3. 1.0 credit to be chosen among the **FRE** courses in Teaching and Learning: FRE325H5, FRE345H5, FRE352H5, FRE354H5, FRE355H5, FRE389H5, FRE453H5; JFL454H5; JFL389H5, JFL388H5)

Italian

7.0 credits are required. Some written work will be done in Italian in all courses.

1. ITA200Y5/ ITA201Y5
2. ITA350H5
3. 0.5 credit from ITA351H5, ITA352H5, ITA450H5
4. ITA388H5
5. ITA437Y5
6. 2.0 additional credits in Italian Language; Linguistics; Teaching and Learning.
7. 1.5 additional credits in any of the other Italian course categories (excluding those listed above).

Note:

COURSE CATEGORIES IN ITA:

Italian Cinema - ITA242H5; ITA246H5; ITA247H5; ITA307H5; ITA309H5; ITA311H5; ITA313H5; ITA342H5; ITA343H5

ERSPE1092

Language Teaching and Learning: French - Major (Arts)

Enrolment Requirements:

Limited Enrolment — Minimum grade of 63% required in FRE180H5 and FRE181H5 (or equivalent course).

Completion Requirements:

8.0 credits are required, of which 0.5 credit must be a 400-level FRE language teaching and learning course.

First Year: FRE180H5, FRE181H5 (or equivalent). Students exempted from these courses must replace them with a higher level 1.0 credit in FRE.

Second Year: FRE227H5, FRE240H5, FRE272H5, FRE282H5, FRE283H5.

Note: FRE227H5 **MUST** be completed in the second year OR prior to enrolling in 300/400 level courses in Language Teaching and Learning.

Third & Fourth Year:

- FRE382H5, FRE380H5/ FRE383H5/ FRE442H5
- 2.0 credits to be chosen among the FRE Language Teaching and Learning courses: FRE325H5, FRE345H5, FRE352H5, FRE354H5, FRE355H5, FRE389H5, FRE453H5, JFL454H5; JFL388H5, JFL389H5
- 1.5 credits to be chosen among the LTL Language Teaching and Learning courses: LTL380H5, LTL382H5, LTL382H5, LTL456H5, LTL486H5, LTL487H5, LTL488H5, LTL495Y5, LTL496H5

ERMAJ1056

Language Teaching and Learning: Italian - Major (Arts)

Completion Requirements:

8.0 credits are required including at least 2.0 credits at the 300/400 level. Some written work and readings will be done in Italian in all courses.

1. ITA100Y5
2. ITA200Y5/ ITA201Y5
3. ITA350H5
4. 0.5 credit from ITA351H5, ITA352H5, ITA450H5
5. ITA388H5
6. ITA437H5 and ITA451H5
7. 0.5 credit from LTL380H5, LTL456H5, LTL487H5, LTL488H5
8. 1.5 additional credits in Italian Language; Linguistics; Language Teaching.
9. 1.5 additional credits in any of the other Italian course categories (excluding those listed above).

Note:

COURSE CATEGORIES:

Italian Cinema - ITA242H5; ITA247H5; ITA307H5; ITA309H5; ITA311H5; ITA313H5; ITA342H5; ITA343H5

ERMAJ1249

Language Teaching and Learning Courses

FRE227H5 • Teaching and Learning a Second/Foreign Language

This course provides an introduction to second language pedagogy with a particular focus on French. Students will learn key concepts in pedagogy and compare the teaching and learning processes and experiences of first and second language learners as well as the roles of classroom teachers and learners via the creation of linguistic portraits and pedagogical materials.

Prerequisites: [FRE181H5](#)

Exclusions: [FRE225Y5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

FRE325H5 • Talking like a child: language acquisition of French

We might not remember how we learned our first language(s) but we know it/them so well... Or do we? We take the child's perspective in language learning, focusing on the following topics: the acquisition of grammar, the development of communicative skills, the development of a language in a multilingual environment (as a majority language versus a heritage language), the differences and similarities between simultaneous and successive language acquisition.

Prerequisites: (([FRE272H5](#) or [FRE272Y5](#)) and [[FRE280Y5](#) or ([FRE282H5](#) and [FRE283H5](#))]) or a minimum grade of 77% in [FSL406H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

FRE352H5 • Teaching French Grammar

This course examines practical and theoretical issues surrounding grammar in the language curriculum such as various approaches to the implementation of grammar in language curricula, such as in grammar-translation or task-based learning; the role and limitations of descriptive grammar, including pedagogical grammar; form focus versus meaning focus; interference and error analysis; feedback on errors. Students will be asked to critique and create teaching materials.

Prerequisites: ([FRE227H5](#) and ([FRE272H5](#) or [FRE272Y5](#)) and [[FRE280Y5](#) or ([FRE282H5](#) and [FRE283H5](#))]) or a minimum grade of 77% in [FSL406H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

FRE354H5 • Teaching French in a Plurilingual Context

This course allows students to explore innovative pedagogical approaches such as the Action Oriented and Plurilingual & Pluricultural Approaches, building on knowledge and skills acquired in [FRE227H5](#) Teaching and Learning a Second/Foreign Language. This is accomplished through the examination of the linguistic and cultural diversity observed in French Language classes today, and the discovery of innovative and current teaching approaches followed by the creation of pedagogical materials. Particular emphasis is placed on students' abilities to transfer knowledge into practice.

Prerequisites: [FRE227H5](#) or [FRE272Y5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

FRE355H5 • Psycholinguistics: multilingual learners in action

This course provides an introduction to real-time language interaction in multilingual comprehension and production. A primary focus will be on language development, spoken and written language processing, the organisation of multilingual memory, and the main experimental methods in psycholinguistics.

Prerequisites: (([FRE272H5](#) or [FRE272Y5](#)) and [[FRE280Y5](#) or ([FRE282H5](#) and [FRE283H5](#))]) or a minimum grade of 77% in [FSL406H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

FRE453H5 • Teaching French Culture

This advanced research course deepens students' theoretical and practical background in language pedagogy, exploring research questions related to issues surrounding the integration of culture in the language curriculum including the relationship between authentic language and culture, and the role of linguistic and cultural diversity in education. Students will learn to critique and create teaching materials and undertake an independent research project.

Prerequisites: [FRE354H5](#) and 0.5 credit at the 300-level from among the FRE Language Teaching and Learning courses.

Exclusions: [FRE353H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

ITA493H5 • Senior Project: Teaching and Learning Language

A close, practical study in which students observe, actively participate in, and reflect on the teaching and learning processes in an Italian language course, under the supervision of a member of the Italian Studies program. Students develop and implement strategies for the successful delivery of lesson plans and grammatical and communicative activities.

Prerequisites: (1.0 credit from [ITA350H5](#) or [ITA351H5](#) or [ITA352H5](#)) or permission from the program coordinator of Italian.

Distribution Requirements: Humanities

Mode of Delivery: In Class

ITA494H5 • Senior Project: Teaching and Learning Cinema, Literature, or Theatre

A close, practical study in which students observe, actively participate in, and reflect on the teaching and learning processes in an Italian cinema, literature, or theatre course, under the supervision of a member of the Italian Studies program. Students develop and implement strategies for the successful delivery of lesson plans and discussion-based activities.

Prerequisites: (1.0 credit from [ITA350H5](#) or [ITA351H5](#) or [ITA352H5](#)) or permission from the program coordinator of Italian.

Distribution Requirements: Humanities

Mode of Delivery: In Class

LTL100H5 • Introduction to Language Teaching, Learning and Assessment

This course provides students with foundational knowledge and skills for the study of second language teaching, learning, and assessment. Students will learn to describe language structure and use including among learners, identify major phenomena of non-native language learning, and discuss principles and best practices in second language teaching and assessment.

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

LTL227H5 • Teaching and Learning a Second/Foreign Language

This course provides an introduction to second language pedagogy. Students will learn key concepts in pedagogy and compare the teaching and learning processes and experiences of first and second language learners as well as the roles of classroom teachers and learners via the creation of linguistic portraits and pedagogical materials.

Prerequisites: [LTL100H5](#)

Exclusions: [FRE225Y5](#) or [FRE227H5](#) or [ITA227H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

LTL380H5 • Theoretical Issues in Second Language Teaching and Learning

This course examines theoretical research on adult second language learning and the resultant implications for second language teaching. Topics include age, affect, communicative competence, and sociolinguistics. Links are drawn to pedagogical practices, including error correction, materials selection, and order and method of presentation. This course is taught in English and is open to students from other disciplines. Written work to be completed in French/Italian for credit towards a Specialist (French or Italian) or Major (French/Italian).

Prerequisites: [FRE227H5](#) and ([FRE282H5](#) and [FRE283H5](#)) or ([ITA200Y5](#) and an additional 0.5 credit in ITA at the 200-level or higher).

Exclusions: [LIN380H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

LTL381H5 • Methodologies for Teaching English as a Second Language

This course provides an overview of classroom teaching methods, techniques and strategies for English as a second language, as well as ways of creating and adapting materials to particular teaching contexts such as English-as-a-second-language (ESL) in Canada, English for Academic Purposes (EAP), English for Specific Purposes (ESP), English-as-a-Foreign-Language (EFL) abroad, and blended teaching. Theoretical issues and classroom implications for teaching and learning with technology will be discussed. Classroom management techniques will also be examined, along with ways to access and work with classroom management and technology-related resources.

Prerequisites: ([LIN101H5](#) and [LIN102H5](#) and a minimum of 0.5 credit in LIN or LTL at the 200-level or higher) or ([FRE282H5](#) and [FRE283H5](#)) and [FRE227H5](#) or ([ITA200Y5](#) and an additional 0.5 credit in ITA at the 200-

level or higher)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

LTL382H5 • Teaching Second Language Speaking and Listening

This course examines theories and practices related to the teaching and learning of speaking and listening in a second language, particularly with reference to English. The course will focus on the theoretical and research-based underpinnings of second language speaking and listening on the ways in which instruction can facilitate the development of these skills. The relationship of pronunciation to listening and listening skills will be explored, and an overview of teaching pronunciation to second language learners will be provided (particularly with reference to English).

Prerequisites: (LIN101H5 and LIN102H5 and a minimum of 0.5 credit in LIN or LTL at the 200-level or higher) or [(FRE282H5 and FRE283H5) and FRE227H5] or (ITA200Y5 and an additional 0.5 credit in ITA at the 200-level or higher)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

LTL383H5 • Teaching Second Language Reading and Writing

This course examines theories and practices related to the teaching and learning of reading and writing in a second language, particularly with reference to English. The course will focus on the theoretical and research-based underpinnings of second language reading and writing and on the ways in which instruction can facilitate the development of these skills. The relationship of vocabulary to second language reading and writing will be examined (particularly with reference to English).

Prerequisites: (LIN101H5 and LIN102H5 and a minimum of 0.5 credit in LIN or LTL at the 200-level or higher) or [(FRE282H5 and FRE283H5) and FRE227H5] or (ITA200Y5 and an additional 0.5 credit in ITA at the 200-level or higher)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

LTL387H5 • Theoretical Issues in Teaching and Learning Second Language Vocabulary

This course provides an overview of second language vocabulary acquisition research and the resultant implications for second language teaching. Topics include dimensions of vocabulary knowledge, incidental and

intentional vocabulary learning, textbook analysis, learning strategies, and teacher beliefs about vocabulary teaching and learning. Implications are drawn for pedagogical practices, including best vocabulary teaching practices, materials selection, and measuring vocabulary knowledge. This course is taught in English and is open to students from other disciplines. Written work to be completed in French/Italian for credit towards a Specialist (French or French & Italian) or Major (French/Italian).

Prerequisites: (FRE282H5 and FRE283H5 and FRE227H5) or (ITA200Y5 and an additional 0.5 credit in ITA at the 200-level or higher)

Exclusions: LIN387H5

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

LTL399H5 • Research Opportunity Program

This course provides senior undergraduate students who have developed some knowledge of research methods used in the discipline of Language Teaching and Learning to work in the research project of a U of T Mississauga professor for course credit. Enrolled students have the opportunity to become involved in original research, develop their research skills, and share in the excitement and discovery of acquiring new knowledge. Project descriptions for participating faculty members for the following summer, fall, or winter sessions are posted on the ROP website in mid-February and students are invited to apply at that time. See Experiential and International Opportunities for more details

Prerequisites: LTL100H5 and (LTL227H5 or EDS200H5 or EDS285H5)

Distribution Requirements: Humanities

Mode of Delivery: In Class

LTL456H5 • Sociolinguistics and Second Language Teaching and Learning

This course considers the impact on variant use by second language learners exerted by linguistic and extra-linguistic factors, such as the surrounding linguistic context, age, sex, style, and curricular and extra-curricular exposure. Implications are drawn for second language teaching, including deciding what registers and variants to teach and what activities to employ. Written work to be completed in French/Italian for credit towards a Specialist (French or Italian) or Major (French/Italian).

Prerequisites: FRE225Y5 and FRE280Y5

Exclusions: LIN456H5

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

LTL486H5 • Teaching and Learning Cross-cultural Communication

This course examines cross-cultural language use by second language learners from both a theoretical and pedagogical perspective. Topics addressed include the role of pragmatic transfer between native and target languages, individual differences, learning context, and instruction in the development of second language pragmatic competence. Written work to be completed in French/Italian for credit towards a Specialist (French or Italian) or Major (French/Italian).

Prerequisites: FRE280Y5 and FRE225Y5 plus one additional course from Language Teaching and Learning Group.

Exclusions: LIN486H5

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

LTL487H5 • Second Language Pedagogy

This course offers a comprehensive survey and analysis of fundamental concepts and issues related to second, bilingual, and foreign language instruction by developing students' knowledge of second language acquisition, approaches to language teaching, computer-assisted teaching, and pedagogical design and implementation in the language classroom. Written work to be completed in French/Italian for credit towards a Specialist (French or Italian) or Major (French/Italian).

Prerequisites: FRE225Y5 and FRE280Y5

Exclusions: LIN417H5

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

LTL488H5 • Principles and Strategies for Online Second Language Course Design

This course will conduct a critical appraisal of online course materials, and formulate appropriate pedagogical strategies for their exploitation. This course is taught in English and is open to students from other disciplines. Written work to be completed in French/Italian for credit towards a Specialist (French or Italian) or Major (French/Italian).

Prerequisites: FRE225Y5 and FRE280Y5

Recommended Preparation: FRE225Y5 and FRE280Y5

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

LTL495Y5 • Individual Project

A research or reading project undertaken by the student under the supervision of a faculty member. Written work to be completed in French/Italian for credit towards an LTL program in French or Italian.

Prerequisites: 0.5 credit at the 300 or 400 level in LTL

Distribution Requirements: Humanities

Mode of Delivery: In Class

LTL496H5 • Individual Project

A research or reading project undertaken by the student under the supervision of a faculty member. Written work to be completed in French/Italian for credit towards an LTL program in French or Italian.

Prerequisites: 0.5 credit at the 300- or 400-level in LTL

Distribution Requirements: Humanities

Mode of Delivery: In Class

Latin

Latin Courses

LAT211H5 • Introductory Latin I

An introduction to Latin for students who have no knowledge of the language. This course also serves as a preparation for Intermediate Language courses.

Exclusions: LAT211H5 or LAT100Y5 or LAT101H1

Distribution Requirements: Humanities

Total Instructional Hours: 24L/24T

Mode of Delivery: In Class

LAT212H5 • Introductory Latin II

A continuation of the introduction to Latin for students who have some training in the language, but have not completed a whole credit course at university or a final-year (Grade 12) course in secondary school. This course also serves as a preparation for Intermediate Language courses.

Prerequisites: LAT211H5 or LAT101H1

Exclusions: LAT100Y5 or LAT102H1

Distribution Requirements: Humanities

Total Instructional Hours: 24L/24T

Mode of Delivery: In Class

LAT213H5 • Introductory Latin III

The final course of the introduction to Latin for students who have some training in the language. This course also serves as a preparation for Intermediate Latin courses.

Prerequisites: LAT212H5 or LAT102H1

Exclusions: LAT200Y5 or LAT201H1

Distribution Requirements: Humanities

Total Instructional Hours: 24L/24T

Mode of Delivery: In Class

LAT221H5 • Intermediate Latin

Reading of selections of Latin prose and verse with a systematic study of the Latin Language.

Prerequisites: LAT213H5 or LAT201H1 or Grade 12 Latin (with permission of instructor)

Exclusions: LAT200Y5 or LAT202H1

Distribution Requirements: Humanities

Total Instructional Hours: 24L/24T

Mode of Delivery: In Class

This program offers an exploration of Latin America and the Caribbean and their diasporas, drawing on a range of disciplinary approaches. Through diverse course offerings, students can study Latin American and Caribbean history, languages, politics, societies, cultures, religions and geographies. The program is geared toward building an engagement with the region(s) as well as with their communities in Canada and the United States. Students may take courses offered by a number of departments that focus on Latin America and the Caribbean. As a complement to the student's other chosen programs, the Minor in Latin American and Caribbean Studies can prepare students for careers in a competitive global context in which the greater part of the Western Hemisphere plays an increasingly important role.

Students should also review the [Degree Requirements](#) section prior to selecting courses

Latin American and Caribbean Studies Programs

Latin American and Caribbean Studies - Minor (Arts)

Completion Requirements:

4.0 total credits, including 1.0 at the 300/400 level. While study of a relevant language is encouraged, the minor program does not have a language requirement.

First Year: 0.5 credit in [HIS290H5](#). It is recommended that this course be taken in the first year.

Higher Years: Courses that can be counted toward this program are drawn from a range of offerings in the Humanities and Social Sciences at UTM. In order to complete the program, students will be required to take a total of 3.5 credits in at least two distinct disciplines selected from the list below:

- **Art History (FAH):** [FAH356H5](#)
- **History (HIS):** [HIS290H5](#), [HIS330H5](#), [HIS390H5](#), [HIS391H5](#), [HIS454H5](#), [HIS490H5](#),
- **Language Studies (FRE, FSL, SPA):** [FRE282H5](#), [FRE283H5](#), [FSL205Y5](#), [SPA100Y5](#), [SPA219H5](#), [SPA319H5](#), [SPA220Y5](#), [SPA235H5](#), [SPA259H5](#), [SPA275H5](#), [SPA323H5](#).

- **Linguistics (LIN):** LIN366H5, LIN466H5
- **Political Science (POL):** POL438Y5
- **Sociology (SOC):** SOC253H5, SOC427H5

In consultation with the Academic Counsellor of the Department for Historical Studies and depending on the focus of the course, the following courses may qualify on a year-to-year basis:

- **Anthropology (ANT):** ANT310H5, ANT320H5
- **Diaspora and Transnational Studies (DTS):** DTS201H5
- **English (ENG):** ENG370H5, ENG435H5, ENG436H5
- **History (HIS):** HIS494H5
- **Language Studies (FRE, FSL, SPA):** FRE391H5
- **Political Science (POL):** POL112H5, POL113H5, POL114H5, POL200Y5, POL218Y5, POL320Y5, POL487H5
- **Visual Studies (VCC):** VCC306H5, VCC406H5
- **Women and Gender Studies (WGS):** WGS200Y5, WGS368H5, WGS369Y5, WGS350H5, WGS370H5, WGS450H5

Why does "blick" sound like it could be a word in English but "bnick" does not? Are young people really destroying language? Why is Siri bad at understanding different accents and the speech of young children? Can the structures of all of the languages of the world be explained by a universal set of abstract operations? How can young children acquire languages so effortlessly, while it is often very difficult to learn a second language as an adult?

These are just some of the questions that you might encounter in a linguistics course. Linguistics is the scientific study of language, and the field is very broad, encompassing topics such as the internal structure of language, how infants and adults learn language(s), how language is used to express identity, and commonalities and differences among speakers of the world.

The linguistics programs at UTM provide a solid foundation in the core theoretical fields of linguistics, covering the structure of sounds, words, sentences, and meaning, as well as a wide selection of courses in areas such as language variation and change, experimental linguistics, first and second language acquisition, psycholinguistics, language teaching and learning, and computational linguistics.

Along with providing a foundation for future research and graduate studies in linguistics, the specific knowledge and skills acquired in linguistics courses can be relevant to diverse career paths, including the following:

- education (language teaching, teacher education, or educational research)
- clinical applications (audiology, speech therapy)
- language preservation and documentation
- communications (publishing, advertising, marketing/branding)
- language technology (speech recognition, natural language processing, computer mediated language learning)

Students should also review the [Degree Requirements](#) section prior to selecting courses

Linguistics Programs

Linguistic Studies - Major (Arts)

Enrolment Requirements:

Limited Enrolment - Enrolment in the Major program is limited to students who have achieved at least 63% in both [LIN101H5](#) and [LIN102H5](#). Second year entry requirements (for those students who have not met the enrolment requirement in the first year): A minimum grade of 67% in at least two of the following seven courses: [LIN228H5](#), [LIN229H5](#), [LIN231H5](#), [LIN232H5](#), [LIN237H5](#), [LIN240H5](#), [LIN256H5](#), [JLP285H5](#) (formerly [LIN288H5](#)).

Students cannot be enrolled simultaneously in the Linguistics Studies Major and the Linguistics Studies Minor programs.

Completion Requirements:

8.0 credits are required.

First Year: [LIN101H5](#) and [LIN102H5](#)

Upper Years:

1. Core requirement:
 - (a) [LIN228H5](#), [LIN229H5](#), [LIN232H5](#), ([LIN231H5](#) or [LIN237H5](#))
 - (b) 1.0 credit from [LIN240H5](#), [LIN256H5](#), [JLP285H5](#) (formerly [LIN288H5](#))
2. Language requirement: 1.0 credit in a language course. This credit must involve the same language and must be taken either concurrently with [LIN101H5](#) and [LIN102H5](#) or after their completion. The language must be one other than the student's first language; English language courses are excluded.
3. Upper Year requirements: 1.5 credits total to be chosen from 3 different categories below:
 - a. Method and analysis: [LIN318H5](#), [LIN374H5](#), [LIN375H5](#), [LIN411H5](#), [LIN418H5](#), [LIN419H5](#), [LIN475H5](#), [LIN479H5](#)
 - b. Phonetics/Phonology: [JLP384H5](#) (formerly [LIN327H5](#)), [LIN328H5](#), [LIN329H5](#), [LIN421H5](#)
 - c. Syntax and Morphology: [LIN332H5](#), [LIN476H5](#)
 - d. Semantics/Pragmatics: [LIN337H5](#), [LIN338H5](#), [LIN441H5](#)
 - e. Language teaching, learning, and acquisition: [JFL389H5](#), [LIN380H5](#), [JFL454H5](#), [LIN456H5](#), [LIN486H5](#), [LIN487H5](#)
 - f. Language contact, and change: [LIN357H5](#), [LIN360H5](#), [LIN366H5](#), [LIN369H5](#), [LIN460H5](#), [LIN466H5](#), [LIN469H5](#)
 - g. Computational Linguistics: [LIN340H5](#), [LIN341H5](#), [LIN447H5](#)
 - h. Language acquisition and psycholinguistics: [JLP315H5](#) (formerly [PSY315H5](#)), [JLP383H5](#) (formerly [PSY374](#)), [LIN385H5](#), [JLP388H5](#) (formerly [JFL388H5](#)), [JLP481H5](#), [JLP483H5](#)

i. Sociolinguistics and sociocultural linguistics: [JAL351H5](#), [JAL355H5](#), [JAL453H5](#), [LIN458H5](#)

4. The remaining 1.5 credits to be chosen from those courses not yet taken from the list above, or from the following: [LIN299H5](#) or [LIN299Y5](#), any 300/400 level LIN/JAL/JFL/JLP course, [FRE489H5](#), [ITA437H5](#), [ITA451H5](#), [ITA373H5](#), [LTL488H5](#), [SAN392Y5](#).

Students must have a minimum of 0.5 credits at the 400-level. No more than 1.0 credits outside of LIN/JAL/JFL/JLP offerings (excluding language courses in requirement #2 can be used towards program requirements.

NOTE: No more than 1.5 credits can be double counted towards two programs of study in Linguistics.

No more than 1.0 ROP course credit may count toward requirement 4.

[ERMAJ1850](#)

English Language Linguistics - Minor (Arts)

Enrolment Requirements:

Limited Enrolment - Enrolment in the Minor program is limited to students who have achieved at least 63% in both [LIN101H5](#) and [LIN205H5](#). Second year entry requirements (for those students who have not met the enrolment requirement in the first year): A grade of 67% in at least **two** of the following ten courses: [JAL253H5](#), [LIN208H5](#), [LIN228H5](#), [LIN229H5](#), [LIN231H5](#), [LIN233H5](#), [LIN232H5](#), [LIN237H5](#), [LIN240H5](#), [LIN256H5](#), [JLP285H5](#) (formerly [LIN288H5](#)).

Completion Requirements:

4.0 credits are required.

First Year: [LIN101H5](#), [LIN204H5](#), [LIN205H5](#)

Upper Years:

- 1.5 credits: [LIN233H5](#), [LIN208H5](#), [JAL253H5](#)
- 1.0 credit at the 300 or 400 level to be selected from the following list: [LIN310H5](#), [LIN325H5](#), [LIN352H5](#), [LIN353H5](#), [LIN357H5](#), [LIN372H5](#), [JAL355H5](#), [JFL389H5](#), [LIN452H5](#), [LIN486H5](#), [CHI411H5](#)

NOTE: No more than 1.5 credits can be double counted towards two programs of study in Linguistics.

[ERMIN1200](#)

Linguistic Studies - Minor (Arts)

Enrolment Requirements:

Limited Enrolment — Enrolment in the Minor program is limited to students who have achieved at least 63% in both [LIN101H5](#) and [LIN102H5](#). Second year entry requirements (for those students who have not met the enrolment requirement in the first year): A grade of 67% in at least two of the following seven courses: [LIN228H5](#), [LIN229H5](#), [LIN231H5](#), [LIN232H5](#), [LIN237H5](#), [LIN240H5](#), [LIN256H5](#), [JLP285H5](#) (formerly [LIN288H5](#)).

Students cannot be enrolled simultaneously in the Linguistic Studies Major and the Linguistic Studies Minor programs.

Completion Requirements:

4.0 credits are required.

First Year: LIN101H5 and LIN102H5

Upper Years: The remaining courses to be chosen from the following list:

1. Minimum 1.0 credit from the following list: LIN228H5, LIN229H5, LIN231H5, LIN232H5, LIN237H5, LIN240H5, LIN256H5, JLP285H5 (formerly LIN288H5).
2. Minimum 1.0 credit from the following list: any 300 and 400 level LIN, JAL, JFL, or JLP courses.
3. 1.0 credit from any remaining courses listed in (1) or (2) or from the following list: FRE489H5, ITA373H5, ITA437H5, ITA451H5, and SAN392Y5.

Some of the courses listed above have prerequisites which would not count towards this program.

No more than 1.5 credits can be double counted towards two programs of study in Linguistics.

ERMIN0506

Certificate in Computational Linguistics

**** This certificate program launches September 2024. ****

The Certificate in Computational Linguistics is open to students who seek a deeper understanding of the diverse ways in which Linguistics and the Computing Sciences interact. The requirements include two core advanced courses in which students will learn about theoretical and practical aspects of the intersection between Linguistics and the Computing Sciences, and a 0.5 FCE elective from a set of topically fitting LIN and CSC courses.

While enrolment in the Certificate in Computational Linguistics is open to all students completing any programs at UTM program, interested students should note that there are significant pre-requisites which must be met before enrolment in the required foundational courses. It is expected that this Certificate will be of most interest to students in Computer Science and Linguistics programs.

Completion Requirements:

1.5 credits are required.

1. Foundation: LIN340H5 and LIN341H5
2. 0.5 credit to be chosen from the following list: JLP384H5 or LIN318H5 or LIN441H5 or CSC311H5 or CSC384H5 or CSC363H5 or CSC428H5

ERCER2021

Linguistics Courses

JAL253H5 • Language and Society

This course offers an introduction to the study of the relationship between language and society with the goal

of understanding language use through social structures. Working within this socially-informed perspective, topics covered will include language, perception, and identity development; verbal and non-verbal communication; speaking across cultures; language use and social networks; and language and power. While this course fulfills a requirement for the Minor program in English

Language Linguistics, it does not count towards the Major or Minor programs in Linguistic Studies.

Prerequisites: [LIN101H5](#) or [LIN102H5](#) or [LIN204H5](#) or [ANT206H5](#)

Exclusions: [JAL251H1](#) or [LINB20H3](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

JAL351H5 • Language and Culture: Area study

This course offers an in-depth study of a particular region or language from a linguistic and anthropological perspective. In some cases this will involve focusing on a particular language or speech community (e.g., Vietnamese) including its historical development and the ways in which its boundaries have been defined. In other cases, it will involve a broader, regional approach (e.g., mainland Southeast Asia). Topics vary from year to year but may include semantic and grammatical structure, language variation and use, language pragmatics, poetry and poetics, literacy and orality, political discourse, historical linguistics and comparative reconstruction, language contact and shift.

Prerequisites: [ANT204H5](#) or [ANT206H5](#) or [JAL253H5](#) or [LIN256H5](#) or permission of department

Exclusions: [ANT361H5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

JAL355H5 • Language and Gender

Ways in which gender influences the use of language and behaviour in conversational interaction: ways in which language reflects cultural beliefs about gender.

Prerequisites: [LIN256H5](#) or [JAL253H5](#) or [ANT204H5](#) or [WGS200Y5](#)

Exclusions: [JAL355H1](#) or [LINC28H3](#) or [WSTC28H3](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

JAL453H5 • Language and Social Theory

This seminar course considers the intersection of linguistics and anthropology, bringing ideas from contemporary and classical social theory to bear on questions central to both fields of study. Topics vary from year to year but may include any of the following: linguistic relativity; register formation; language variation; linguistic ideologies; racialization; political discourse; pragmatic and semiotic theory; language reform.

Prerequisites: [ANT204H5](#) or [ANT206H5](#) or [JAL253H5](#) or [LIN256H5](#) or permission of department

Exclusions: [ANT425H1](#) and [ANT466H5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24S

Mode of Delivery: In Class

JFL388H5 • Bilingualism and Multiple Language Acquisition

This course examines simultaneous and successive second (and multiple) language acquisition. We will look at topics such as the bilingual brain, the nature of the input, age constraints on language acquisition, language separation and cross-linguistic influences, the status of the heritage language, schooling in a second language (for example French immersion programs), and various methods used in the study of bilingualism in individuals. Bilingual/multilingual corpora will be examined. The language of instruction will be English. Students will have the option to write assignments in either English or French. Written work to be completed in French for credit towards a Specialist (French) or Major (French).

Prerequisites: [([LIN102H5](#) or [FRE227H5](#) or [FRE225Y5](#) or [FRE272H5](#) or [FRE272Y5](#)) and 0.5 credit from [LIN288H5](#) or [LIN231H5](#) or [LIN232H5](#) or [LIN233H5](#)] or 0.5 credit of FRE linguistic at the 300-level.

Exclusions: [LIN358H5](#) or [LIN388H5](#) or [FRE388H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

JFL389H5 • Second Language Assessment

This course provides an introduction to the principles and frameworks of second language assessment as well as to the practices of standardized testing and classroom assessment. We begin by discussing models of linguistic competence and frameworks for second language assessment as well as test design including language benchmarking. In the second part of the course, the focus turns to best practices in the assessment of vocabulary, grammar, comprehension, production, and socio-pragmatic competence.

Prerequisites: [FRE272H5](#) and ([FRE282H5](#) or [FRE283H5](#)) or [[LIN101H5](#) and ([LIN102H5](#) or [LIN205H5](#))]

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

JFL454H5 • Teaching and Learning Varieties of Canadian French

(Offered in English) This course offers students the opportunity to become familiar with the primary research methods used in sociolinguistic studies, with how

sociolinguistics helps to understand the properties of Canadian French, and with the pedagogical implications arising from sociolinguistic research on Canadian French. This course will contain a research-based component. Written work to be completed in French for credit towards a Specialist (French) or Major (French).

Prerequisites: [(1.0 credit of FRE Linguistics at the 300-level or [LIN256H5](#)) and 0.5 credit of LIN at the 300-level and reading ability in French] or permission of instructor.
Exclusions: [FRE454H5](#) or [FRE474H5](#) or [LIN454H5](#) or [LIN474H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

JLP285H5 • Language, Mind, & Brain

Language is often described as a quintessentially human trait. What is the mental machinery underlying this ability? In this course, you will explore questions such as: Do animals have language? How do children learn language? How do we understand and produce language in real time? How does bilingualism work? What can neuroscience tell us about language abilities? What is the relationship between language and thinking?

Prerequisites: ([LIN101H5](#) and [LIN102H5](#)) OR [PSY100Y5](#)

Exclusions: [JLP374H1](#), [PLIC55H3](#), [PSY374H5](#)

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

JLP315H5 • Language Development

By three years of age, children have mastered many of the complexities of human language. How do they do this so rapidly, and with such ease? In this course, you will examine language acquisition from a cognitive perspective. Topics include the acquisition of speech sounds, sentence structure, and conversational abilities, as well as patterns of development in special populations. You will also learn about childhood bilingualism and social aspects of language development. Hands-on experience analyzing recordings of children will be provided.

Prerequisites: [PSY201H5](#) (or equivalent) or ([LIN288H5](#) or [PSY274H5](#) or [JLP285H5](#)) and ([PSY210H5](#) or [PSY270H5](#) or [PSY274H5](#)) or ([LIN101H5](#) and [LIN102H5](#)) or [LIN200H5](#)

Exclusions: [JLP315H1](#), [PSY315H5](#)

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

JLP383H5 • Adult Language Processing

Language is a key element in our social interactions, our ability to share information, and aspects of human culture. In this course you will engage in an advanced exploration

of the cognitive machinery underlying language in adulthood. Key themes include: incremental interpretation and predictive processing; the relationship between language comprehension and production; and the nature of processing in bilinguals and speakers of less-studied languages. Practical activities address experimental methodology and aspects of data analysis.

Prerequisites: [PSY201H5](#) (or equivalent) or ([LIN288H5](#) or [PSY274H5](#) or [JLP285H5](#)) and ([PSY270H5](#) or [PSY274H5](#)) or ([PSY315H5](#) or [JLP315H5](#)) or ([LIN328H5](#) or [PSY384H5](#) or [JLP384H5](#)) or ([LIN101H5](#) and [LIN102H5](#) or [LIN200H5](#))

Exclusions: [PSY374H5](#)

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

JLP384H5 • Speech Communication

Imagine an animal species where one creature can generate thoughts in other creatures' minds simply by causing the air molecules around them to vibrate. Although this sounds exotic, it is what we as humans do every time we speak and listen. In this course, we explore the perception and production of spoken language from an interdisciplinary perspective. Sample topics include perceptual and cognitive aspects of speech communication, speech signal acoustics, audio-visual speech integration, speech sound articulation, artificial speech recognition, multilingualism, and contextual influences on speech communication. Through laboratory exercises, students will replicate classic experimental findings and gain hands-on experience with acoustic and behavioural data analysis

Prerequisites: ([PSY201H5](#) or [LIN228H5](#)) and one of [LIN229H5](#) or [LIN288H5](#) or [LIN318H5](#) or [PSY270H5](#) or [PSY274H5](#) or [PSY280H5](#) or [PSY374H5](#)

Exclusions: [LIN328H5](#) and [PSY384H5](#) and [PLID50H3](#)

Distribution Requirements: Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

JLP388H5 • Bilingualism and Multiple Language Acquisition

What are the linguistic and psychological implications of knowing more than one language? This course will explore topics such as the bilingual brain, the nature of bilingual language input, effects of age-of-acquisition and language similarity, the status of heritage languages, schooling in a second language (for example French Immersion programs), and research methodologies used in the study of bilingualism. Bilingual/multilingual corpora will be examined.

Prerequisites: [LIN288H5](#) or [PSY274H5](#) or [PSY315H5](#)

Exclusions: [FRE388H5](#) and [JFL388H5](#) and [LIN388H5](#) and [PSY376H5](#)

Distribution Requirements: Science

Total Instructional Hours: 24L/12T
Mode of Delivery: In Class

JLP481H5 • Topics in Developmental Psycholinguistics

How do children's language comprehension and production abilities differ from adults? What can research on language acquisition tell us about why language looks the way it does? Developmental psycholinguists use experimental techniques to explore a range of topics in the area of child language comprehension and production. Drawing on cutting-edge interdisciplinary research, we will explore contemporary issues and debates in this area.

Prerequisites: ([LIN288H5](#) or [PSY274H5](#)) and 1.0 credit from the following list: [LIN318H5](#) or [LIN328H5](#) or [LIN329H5](#) or [LIN332H5](#) or [LIN385H5](#) or [LIN418H5](#) or [LIN421H5](#) or [PSY315H5](#) or [PSY374H5](#) or [PSY384H5](#) or any JLP course.

Distribution Requirements: Science

Total Instructional Hours: 36S

Mode of Delivery: In Class

JLP483H5 • Topics in Adult Psycholinguistics

What is the connection between comprehending, producing, and thinking about language? How do the properties of different languages influence the nature of language processing? How is processing affected by differences across individuals? Drawing on a variety of perspective and methodologies, we will explore contemporary issues and debates in these and other topics.

Prerequisites: ([LIN288H5](#) or [PSY274H5](#) or [JLP285H5](#)) and 1.0 credit from the following list: ([PSY315H5](#) or [JLP315H5](#)) or ([PSY374H5](#) or [JLP383H5](#)) or ([PSY384H5](#) or [JFL388H5](#) or [JLP388H5](#)) or ([LIN318H5](#) or [LIN418H5](#)) or [JLP384H5](#) or [JLP481H5](#).

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

LIN101H5 • Introduction to General Linguistics: The Sounds of Language

Lectures on fundamental principles of phonetics, phonology, and morpho-phonology with illustrations from English and a broad spectrum of other languages. Practice in elementary analytic techniques and applications from acquisition, historical linguistics, psycholinguistics, and sociolinguistics. REQUIRED COURSE FOR ANY PROGRAM IN LINGUISTICS.

Prerequisites: This course has no prerequisites. It can be taken independently, before, or after [LIN102H5](#).

Exclusions: [LIN100Y5](#) or [LIN100Y1](#) or [LIN101H1](#) or

[LINA01H3](#) or [LINA02H3](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

LIN102H5 • Introduction to General Linguistics: Words, Sentences, their Structure and Meaning

Lectures on fundamental principles of morpho-syntax, syntax, and semantics with illustrations from English and a broad spectrum of other languages. Practice in elementary analytic techniques and applications from acquisition, historical linguistics, psycholinguistics, and sociolinguistics. REQUIRED COURSE FOR ANY PROGRAM IN LINGUISTICS.

Prerequisites: This course has no prerequisite. It can be taken independently, before, or after [LIN101H5](#).

Exclusions: [LIN100Y5](#) or [LIN100Y1](#) or [LIN102H1](#) or [LINA01H3](#) or [LINA02H3](#).

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

LIN200H5 • Introduction to Language

A general-interest course on language. The structure of language; the social and psychological aspects of language; how language changes over time, with special reference to the history of English. Also origin of language, writing systems, and language acquisition. Note: This course will not count towards any Linguistics program of study. It will only count as an elective.

Exclusions: [LIN100Y5](#) or [LIN101H5](#) or [LIN102H5](#) or [LIN100Y1](#) or [LINA01H3](#) or [LINA02H3](#) or [LIN200H1](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

LIN204H5 • English Grammar I

Students will learn about fundamental grammatical concepts, focusing on the major grammatical categories in English and how they interact at the phrase level. They will be introduced to the main constituents of English sentences and learn about the basic relationship between tense, aspect, and modality. Students will learn to apply this knowledge as a tool to think analytically about English, evaluating various registers and styles, and gaining an awareness of their own style of speaking and writing. Depending on the instructor, this course may be delivered fully or partially online. Students are required to take the final exam at the UTM campus. Arrangements will be made for proctored exam writing for students who are registered at Ontario university locations outside of the GTA. This course counts towards only the English Language Linguistics Minor (ERMIN1200); it does NOT

count towards the Linguistic Studies Minor (ERMIN0506) nor the Linguistic Studies Major (ERMAJ1850).

Exclusions: [LIN204H1](#) or [LINB18H3](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class, Hybrid

LIN205H5 • English Grammar II

This course examines complex methods of sentence construction that will enable a critical analysis of English sentence structure, word and sentence meanings, and language function in communicative contexts. This course is particularly suitable for students who wish to improve their academic writing skills or who wish to teach English. This course counts towards only the English Language Linguistics Minor (ERMIN1200); it does NOT count towards the Linguistic Studies Minor (ERMIN0506) nor the Linguistic Studies Major (ERMAJ1850).

Prerequisites: [LIN204H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

LIN208H5 • English Sounds

A description of the phonetic and phonological systems of varieties of English, as well as discussion of topics including dialectal variation, socio-phonetics, historical developments, and/or prosody. This course counts towards only the English Language Linguistics Minor (ERMIN1200); it does NOT count towards the Linguistic Studies Minor (ERMIN0506) nor the Linguistic Studies Major (ERMAJ1850).

Prerequisites: [LIN101H5](#)

Exclusions: [LIN228H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

LIN228H5 • Phonetics

Investigation of the sounds most commonly used in languages from an articulatory and acoustic point of view, with practice in transcription and analysis.

Prerequisites: [LIN101H5](#)

Exclusions: [LIN228H1](#) or [LINB09H3](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

LIN229H5 • Phonological Patterns in Language

This course explores the nature and organization of phonological systems (ie. the sound structure of languages) with practical work in analysis.

Prerequisites: [LIN101H5](#) and [LIN228H5](#)

Exclusions: [LIN229H1](#) or [LINB04H3](#).

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

LIN231H5 • Morphological Patterns in Languages

This course explores the nature and organization of morphological systems (word formation rules, organization of paradigms, etc.) with practical work in analysis.

Prerequisites: ([LIN101H5](#) and [LIN102H5](#)) or [LIN100Y5](#).

Exclusions: [LIN231H1](#) or [LINB10H3](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

LIN232H5 • Syntactic Patterns in Language

This course is an introduction to generative syntax focusing on the Government and Binding framework. Problem sets will be used for practicing argumentation and analytical skills.

Prerequisites: [LIN102H5](#) or [LIN100Y5](#).

Exclusions: [LIN232H1](#) or [LINB06H3](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

LIN233H5 • English Words through Space and Time

An analysis of English words, the history of their development and the variation in their use across the English-speaking world. Topics include the history and structure of words, the relation between sound and spelling, dialect variation and the development of dictionaries. This course does not count towards the Linguistic Studies minor or major program. Formerly [LIN203H5](#).

Corequisites: [LIN101H5](#)

Exclusions: [LGGB18H3](#) or [LIN203H1](#) or [LIN203H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

LIN237H5 • Semantics

This course offers an introduction to Semantics, the subfield of linguistics that considers the different ways meaning is encoded in human language and the context within which language is used. The aim of the course is to introduce students to some of the basic concepts and central issues and scholars in the field. The course examines possible ways of describing and formalizing meaning at the level of the word, phrase, and sentence. The course naturally incorporates students' understanding of syntax and morphology thereby fostering a more holistic understanding of linguistic analysis. It also provides the foundation for more specialised studies in Semantics and Pragmatics. Topics include: sense and reference, compositionality, lexical relations, entailment, presupposition, event types, thematic roles, deixis, implicature, predicate logic, and quantification.

Prerequisites: [LIN102H5](#) or [LIN100Y5](#).

Exclusions: [LIN241H1](#) or [LINC12H3](#) or [LIN247H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

LIN240H5 • Computer Programming for Linguists

We live in a world of language technology – who can imagine life without search engines, translation software and automated captioning? At the same time, more and more linguists use computational methods in their research. For example, this methodology can allow us to find all the ways the adverb actually is actually used, or to generate all monosyllabic six-character words for a psycholinguistic experiment. At the heart of this is computer programming: giving precise instructions for your computer to carry out – repeatedly and accurately. This course introduces the basic components of computer programming in Python for linguists.

Prerequisites: [LIN101H5](#) or [LIN102H5](#)

Exclusions: [CSC108H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 12L/24P

Mode of Delivery: In Class

LIN256H5 • Sociolinguistics

An introduction to linguistic variation and its social implications, especially the quantitative study of phonological and grammatical features and their correlations with age, sex, ethnicity and other social variables.

Prerequisites: ([LIN101H5](#) and [LIN102H5](#)) or [LIN100Y5](#) or [ANT206H5](#)

Exclusions: [LINB20H3](#) and [LIN251H1](#).

Distribution Requirements: Social Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

LIN271Y5 • Introduction to Sanskrit

This course introduces students to the basic grammar of classical Sanskrit. Students will engage with its phonology (including pronunciation, sandhi, and metrics) and morphology (including word formation, nominal declension and verbal conjugation, and dissolving compounds). Students will apply their grammatical knowledge and analytic skills to the reading of basic Sanskrit texts. By the end of the course, students will be able to read simple, narrative Sanskrit. This course is cross-listed with [SAN291Y5](#) and can be used to count toward the Major Program's Language Requirement.

Exclusions: [SAN291Y5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 72L/24P

Mode of Delivery: In Class

LIN299H5 • Research Opportunity Program

This course provides a richly rewarding opportunity for students in their second year to work in the research project of a professor in return for 299H course credit. Students enrolled have an opportunity to become involved in original research, learn research methods and share in the excitement and discovery of acquiring new knowledge. Participating faculty members post their project descriptions for the following summer and fall/winter sessions in early February and students are invited to apply in early March. See [Experiential and International Opportunities](#) for more details.

Distribution Requirements: Humanities

Mode of Delivery: In Class

LIN299Y5 • Research Opportunity Program

This courses provides a richly rewarding opportunity for students in their second year to work in the research project of a professor in return for 299Y course credit. Students enrolled have an opportunity to become involved in original research, learn research methods and share in the excitement and discovery of acquiring new knowledge. Participating faculty members post their project descriptions for the following summer and fall/winter sessions in early February and students are invited to apply in early March. See [Experiential and International Opportunities](#) for more details.

Course Experience: University-Based Experience

Distribution Requirements: Humanities

Mode of Delivery: In Class

LIN310H5 • Contrastive Linguistics

An introductory survey of the theory and practice of contrastive analysis. How are languages compared with respect to their phonological, morphological, syntactic and semantic structure? How are lexicons compared? Focusing on contrastive procedures, students will examine a number of case studies and will then apply this knowledge to produce their own analysis. Some consideration will be given to the usefulness of contrastive analysis to foreign language teaching.

Prerequisites: [LIN101H5](#) and ([LIN102H5](#) or [LIN205H5](#)) and 1.0 credit in LIN at the 200-level (excluding [LIN204H5](#)).

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

LIN311H5 • Linguistics and Poetics

Developments in linguistic theory sprouted diverse approaches to linguistic analysis of literature, from early formalism and structuralism to cognitive linguistics and functional linguistics. Survey of major trends and issues in linguistic poetics includes essential readings, such as works of R. Jakobson, M.A.K. Halliday, R. Barthes, and practice in linguistic analysis of literary texts.

Prerequisites: [LIN101H5](#) and [LIN102H5](#) and ([LIN228H5](#) or [LIN229H5](#))

Exclusions: [LIN211H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

LIN318H5 • Talking Numbers: Interpretation and Presentation of Quantitative Linguistic Data

Do numbers and statistics make your vision go blurry? Do you avoid making eye contact with charts and tables? From measuring vowel formants to gradient grammaticality judgments to frequencies and patterns in natural language corpora, research in linguistics is becoming increasingly dependent on quantitative data and argumentation... but fear not! In this course, students with no prior background in statistics will learn the fundamentals of quantitative reasoning through hands-on experience with contemporary statistical tools and will be equipped with the basic numeracy skills necessary to critically evaluate quantitative arguments in a range of subfields of linguistics. Formerly [LIN368H5](#).

Prerequisites: ([LIN256H5](#) or [LIN288H5](#)) and ([LIN229H5](#) or [LIN232H5](#) or [LIN231H5](#) or [LIN237H5](#)).

Exclusions: [LIN305H1](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

LIN325H5 • Topics in the Phonetics and Phonology of English

This course examines current issues in phonetics and/or phonology specific to English. Depending on the instructor, the focus of the course may be oriented towards topics such as socio-phonetics; acquisition; dialectal variation; historical developments. This course counts towards only the English Language Linguistics Minor (ERMIN1200); it does NOT count towards the Linguistic Studies Minor (ERMIN0506) nor the Linguistic Studies Major (ERMAJ1850).

Prerequisites: [LIN208H5](#) or [LIN228H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

LIN328H5 • Acoustic Phonetics

This course provides an overview of the fundamentals of acoustics, as well as the acoustic properties of vowels and consonants. Students will gain hands-on experience with primary acoustic data analysis through laboratory work, and will be exposed to classic and current research in the field. Additional topics that may be addressed include speech perception, second-language phonetics, and clinical applications.

Prerequisites: [LIN228H5](#) and (one of [LIN229H5](#) or [LIN318H5](#) or [LIN327H5](#) or [PSY270H5](#), [PSY274H5](#)).

Exclusions: [LIN323H1](#)

Distribution Requirements: Humanities

Total Instructional Hours: 12L/24P

Mode of Delivery: In Class

LIN329H5 • Phonological Theory

Basic issues in current phonological theory. Problems focusing on analysis and theory. (Students who want to pursue graduate studies in linguistics are strongly advised to include this course in their program.)

Prerequisites: [LIN229H5](#)

Exclusions: [LIN322H5](#) or [LIN322H1](#) or [LINC02H3](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

LIN332H5 • Syntactic Theory

An introduction to the foundations and formal framework of current generative grammar, concentrating on Chomsky's Minimalist theory. (Students who want to pursue graduate studies in linguistics are strongly advised to include this course in their program.) Formerly [LIN331H5](#).

Prerequisites: [LIN232H5](#)

Exclusions: [LIN331H5](#) or [LIN331H1](#) or [LINC11H3](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

LIN337H5 • Lexical Semantics: What is (or is not) in a Word?

25,000 is a modest estimate of the number of verbs with distinct meanings in English, but there are more likely upwards of 75,000 verbs. The number of nouns is three to four times this number. But how do we know what they all mean and how to use them appropriately? What is the nature of this knowledge? The meaning of words has been central to the study of language since the Ancient Greek and Sanskrit grammarians and philosophers, and it remains central to contemporary approaches to natural language. In this course, students will investigate basic issues and concepts in the linguistic study of word meaning, with a special focus on the relation between the semantics of words and their syntactic behaviour. Depending on the instructor, topics discussed in the course may include componential analysis; Lexical Conceptual Semantics; Cognitive Semantics; lexicalization patterns and differences cross-linguistically; categorization; compositionality; child language acquisition; computational applications.

Prerequisites: [LIN237H5](#) and [LIN232H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

LIN338H5 • Pragmatics

This course examines the sub-field of linguistics known as pragmatics, an area concerned not only with what is said but, more importantly, with what is meant. Depending on the instructor, topics in this course may include implicature, reference, presupposition, speech acts, information structure, inferential relations, and static versus dynamic approaches to meaning. The course objectives are to i) explore in depth the concepts necessary to understand the theory of pragmatics, ii) define key terms used by linguists carrying out research in this area, and iii) connect theoretical and methodological concepts to every-day experiences of language in use.

Prerequisites: [LIN237H5](#) and ([LIN256H5](#) or [LIN232H5](#))

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

LIN340H5 • Computing with Natural Language

How is a search engine able to answer so many of your questions? Why does your phone know which word you're about to type next in your message? Such technologies rely on computational linguistics, the intersection of Linguistics and the Computing Sciences. In this course,

students with a background in either discipline will be introduced to this field. The course has a practical focus: how to get computers to analyze and process natural language? Through lectures and scaffolded programming assignments, students will be introduced to the tools and resources of Computational Linguistics (and their limitations). We will look at techniques used by computational linguists to process large amounts of text to answer practical and theoretical research questions. Topics may include part of speech tagging, parsing, machine translation, sentiment analysis, visualization, and corpus linguistics. While no programming skills are required at the outset, students should expect to develop them through the practicums of the course.

Prerequisites: [([LIN100Y5](#) or ([LIN101H5](#) and [LIN102H5](#))) and any 200-level LIN course] or [([CSC108H5](#) and [CSC148H5](#)) and any 200-level CSC course]

Exclusions: [CSC485H1](#) or [CSC401H1](#)

Distribution Requirements: Humanities

Total Instructional Hours: 12L/24P

Mode of Delivery: In Class

LIN341H5 • Linguistics and Computation

How can you get a computer to tell grammatical and ungrammatical sentences apart? How does it know whether 'cricket' refers to the game or the insect in a sentence like "The cricket jumped over the fence"? This course is designed to introduce students with either a background in Linguistics or in the Computing Sciences to the intersection of linguistics and computing, with a focus on the question of how computational algorithms and data structures can be used as a formal model of language. Topics may include finite-state automata for phonology and morphology, context-free grammars, semantic parsing, vector space semantics, computational cognitive modelling, and computational sociolinguistics. No programming skills are required to take the course.

Prerequisites: [([LIN101H5](#) and [LIN102H5](#)) and any 200-level LIN course] or [([CSC108H5](#) and [CSC148H5](#)) and any 200-level CSC course]

Exclusions: [CSC485H1](#) or [CSC401H1](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

LIN352H5 • English Language Linguistics in the Public Sphere

This course prepares students to engage with English language linguistics in public settings. Students will critically analyze what role the English language has in society, and learn how linguists can help answer the public's questions about the English language. Topics may include: what common misconceptions the general public has about language; the disconnect between what linguistics is and what the public wants to know about language, and how to bridge between this gap;

dismantling English-supremacist attitudes and linguistic prejudices around the world; designing research to assess public attitudes about language.

Prerequisites: [LIN204H5](#) and [LIN205H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

LIN353H5 • Discourse Analysis

This course introduces students to the nature and uses of discourse analysis, notably the types of data on which it draws and its descriptive and critical goals. Topics addressed include discourse structures, participants in discourse, links across texts, the role of medium, and the importance of intention and interpretation.

Prerequisites: [LIN256H5](#) or [JAL253H5](#) or [ANT206H5](#) or [LIN237H5](#)

Exclusions: [JAL353H5](#) or [JAL353H1](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

LIN357H5 • English Worldwide

The best estimate of linguists suggests that English is spoken (natively and non-natively) by around one billion people today. This makes it the most widely spoken language in the world. Within this language exists a high degree of global dialect diversity. In this course, we will examine the structure and history of Englishes around the world including British, North American, Antipodean, Caribbean, African, and Asian varieties. Students will also consider structural and sociolinguistic issues associated with English as a global language including creolization, post-creolization, the diffusion of innovation, language policy, and the linguistic effects of colonialism.

Prerequisites: [LIN101H5](#) and ([LIN102H5](#) or [LIN205H5](#)) and ([LIN256H5](#) or [JAL253H5](#))

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

LIN360H5 • Historical Linguistics

The grammars of living languages are constantly changing, never so obviously than when we compare different stages of a language over a long period of time: words change form and are sometimes repurposed; new words enter and others are lost; morphology rises and falls; syntactic possibilities can change dramatically. How do such changes arise, and what does it mean for a language to change? The aim of this course is to introduce students to the field of diachronic linguistics: its relationship to general linguistics, its primary research methods, and its major achievements. Students will gain practical experience solving classic language change

problems, performing their own analyses, and reading contemporary literature in the field.

Prerequisites: [LIN229H5](#) and (one of [LIN231H5](#) or [LIN232H5](#) or [LIN237H5](#))

Exclusions: [LIN362H1](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

LIN366H5 • Contact Languages: Pidgins, Creoles and Mixed Languages

This course examines languages recently created by means of contact between languages of different socio-economical status. Analysis of these new languages is of particular interest to linguistic theory since it offers insight on the construction of linguistic systems, language evolution and on how language is acquired in such a context. Emphasis is given to the description and analysis of French-based pidgins and Creoles spoken in the Caribbean and Indian Ocean region.

Prerequisites: 1.0 credit from any of the following: [LIN228H5](#) or [LIN229H5](#) or [LIN231H5](#) or [LIN232H5](#) or [LIN247H5](#) or ([LIN256H5](#) or [JAL253H5](#)) or [LIN258H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

LIN369H5 • Romance Linguistics

This course explores the linguistic properties characteristic of the Romance language family. We examine the major languages as well as understudied varieties by comparing their phonological, morphological and syntactic properties. A historical perspective allows us to consider how many of the common features of this family evolved from spoken Latin, while their distinctive properties have arisen through both internal and external forces. No prior knowledge of Latin or a Romance language is necessary. For students in either a French Specialist or Major Program and/ or an Italian Specialist or Major Program, written work must be completed in the language of study.

Prerequisites: ([LIN229H5](#) or [FRE376H5](#)) and (one of [LIN231H5](#) or [LIN232H5](#) or [LIN237H5](#) or [LIN256H5](#), or [FRE378H5](#) or [FRE386H5](#) or [FRE387H5](#) or [FRE388H5](#) or [ITA373H5](#) or [ITA437Y5](#))

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

LIN372H5 • The Great Debates: Critical Reading and Writing in Linguistics

Students develop critical reading and writing skills through the analysis of influential articles that broach broad and controversial topics in linguistics. One goal of the course

is to develop skill in understanding how a text “works”, to form a reasoned evaluation of it, and to appreciate its place in a larger debate. Another goal is to develop skill in communicating complex ideas through a variety of means relevant to the academic community.

Prerequisites: [LIN101H5](#) and [LIN102H5](#) and 1.0 credit of LIN at the 200-level

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

LIN374H5 • African Linguistics

This course explores the linguistic features and characteristics of African languages. Attention will be given to the phonetic, phonological, morphological, and syntactic components of the languages to be studied, with emphasis on examining under-represented and under-studied languages. No prior knowledge of an African language is necessary.

Prerequisites: [LIN229H5](#) and ([LIN231H5](#) or [LIN232H5](#))

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

LIN375H5 • Chinese Linguistics

This course offers a linguistic introduction to the features and characteristics of the Chinese languages. Attention will be given to the phonological, morphological and syntactic patterns of the language family, set against the backdrop of its linguistic and sociolinguistic history. The course not only examines the characteristics of Mandarin but also various other varieties of Chinese. No prior knowledge of a Chinese language is necessary.

Prerequisites: [LIN229H5](#) and [LIN232H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

LIN380H5 • Theoretical Issues in Second Language Teaching and Learning

This course examines theoretical research on adult second language learning and the resultant implications for second language teaching. Topics include learning styles and strategies, age, affect, communicative competence, and sociolinguistics. Links are drawn to teaching practices, including error correction, materials selection, and order and method of presentation.

Prerequisites: 1.0 credit of any of the following: [LIN228H5](#) or [LIN229H5](#) or [LIN231H5](#) or [LIN232H5](#) or [LIN237H5](#) (formerly [LIN247H5](#)) or ([LIN256H5](#) or [JAL253H5](#)) or [LIN288H5](#) (formerly [LIN258H5](#)).

Exclusions: ([FGI380H5](#) or [LTL380H5](#))

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

LIN385H5 • The Acquisition of Grammar in Different Contexts

This course examines language acquisition by different populations: first language acquisition by normal, deaf and impaired children; first language re-acquisition by aphasic patients; second language acquisition by children and adults. The question that we will ask is the following: what are the similarities and differences across acquisition contexts? Comparative theoretical approaches will be examined in order to gain an insight into the following topics: evidence for innate linguistic endowment, the stages in the development of grammar, the role of input. An important component will be the analysis of both spontaneous corpora and experimental work.

Prerequisites: [LIN101H5](#) and [LIN102H5](#) and [(0.5 credit from [LIN288H5](#) or [LIN229H5](#) or [LIN231H5](#) or [LIN232H5](#) or [LIN237H5](#) or [LIN256H5](#)) or (0.5 credit of PSY at the 300-level)].

Exclusions: [LIN356H5](#)

Recommended Preparation: [LIN288H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

LIN387H5 • Theoretical Issues in Teaching and Learning Second Language Vocabulary

This course provides an overview of second language vocabulary acquisition research and the resultant implications for second language teaching. Topics include dimensions of vocabulary knowledge, incidental and intentional vocabulary learning, textbook analysis, learning strategies, and teacher beliefs about vocabulary teaching and learning. Implications are drawn for pedagogical practices, including best vocabulary teaching practices, materials selection, and measuring vocabulary knowledge.

Prerequisites: 1.0 credit from [LIN228H5](#) or [LIN229H5](#) or [LIN231H5](#) or [LIN232H5](#) or [LIN237H5](#) or ([LIN256H5](#) or [JAL253H5](#)) or [LIN288H5](#).

Exclusions: [LTL387H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

LIN399H5 • Research Opportunity Program

This course provides senior undergraduate students who have developed some knowledge of research methods used in the discipline of Linguistics to work in the research

project of a U of T Mississauga professor for course credit. Enrolled students have the opportunity to become involved in original research, develop their research skills, and share in the excitement and discovery of acquiring new knowledge. Project descriptions for participating faculty members for the following summer and fall/winter sessions are posted on the ROP website in mid-February; students are invited to apply at that time. See [Experiential and International Opportunities](#) for more details.

Prerequisites: [LIN101H5](#) and [LIN102H5](#) and [1.0 credit from [JAL253H5](#) or [LIN228H5](#) or [LIN229H5](#) or [LIN231H5](#) or [LIN232H5](#) or [LIN237H5](#) or [LIN256H5](#) or [JLP285H5](#) (formerly [LIN288H5](#))]

Distribution Requirements: Humanities

Mode of Delivery: In Class

LIN399Y5 • Research Opportunity Program

This course provides senior undergraduate students who have developed some knowledge of research methods used in the discipline of Linguistics to work in the research project of a U of T Mississauga professor for course credit. Enrolled students have the opportunity to become involved in original research, develop their research skills, and share in the excitement and discovery of acquiring new knowledge. Project descriptions for participating faculty members for the following summer and fall/winter sessions are posted on the ROP website in mid-February; students are invited to apply at that time. See [Experiential and International Opportunities](#) for more details.

Prerequisites: [LIN101H5](#) and [LIN102H5](#) and (1.0 credit from [JAL253H5](#) or [LIN228H5](#) or [LIN229H5](#) or [LIN231H5](#) or [LIN232H5](#) or [LIN237H5](#) or [LIN256H5](#) or [LIN288H5](#))

Course Experience: University-Based Experience

Distribution Requirements: Humanities

Mode of Delivery: In Class

LIN411H5 • Introduction to Analysis and Argumentation

This course examines several topics which have created controversy in linguistics, topics about which various scholars have expressed opposing views through published articles. By reading and discussing these debates, students will learn how to critically analyze linguistics articles. The aim of this course is for students to develop skills in identifying the authors' assumptions, assessing their argumentation and recognizing how linguists build arguments for opposing views on a certain issue. The topics may range from big picture questions like the validity of Universal Grammar to more specific questions about a linguistic phenomenon. By the end of the course, students will have developed more acute reading skills, thereby also improving their ability to write academically, and more particularly in linguistics. The title of the course might sound scary, but the course itself is not at all! Formerly [LIN481H5](#).

Prerequisites: [LIN 229H5](#) and [LIN 232H5](#) and ([LIN231H5](#) or [LIN237H5](#) or [LIN247H5](#) or [LIN256H5](#) or [LIN288H5](#) or [LIN258H5](#)) and 0.5 credit in a 300-level LIN course.

Exclusions: [LIN481H1](#) or [LIN481H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

LIN418H5 • Research Methods in Linguistics

Introduction to the main methods, tools and techniques used in the analysis, interpretation and presentation of linguistic data. Topics may include research in the areas of general linguistics, language acquisition, psycholinguistics, sociolinguistics and dialectology. This course involves a practical component where students will apply skills learned in order to carry out their own study. Note that a background in statistics is NOT required for this course. Formerly [LIN468H5](#)

Prerequisites: ([LIN256H5](#) or [LIN288H5](#) or [LIN258H5](#)) and 0.5 credit in a 300-level LIN course.

Exclusions: [LIN468H5](#)

Recommended Preparation: [LIN318H5](#) or [LIN368H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

LIN419H5 • Field Methods: A Language Unlocked

This course provides experience in language analysis based on elicited data from a native speaker of an understudied language. It emphasizes procedures and techniques and provides an opportunity for first-hand appreciation of linguistic unity and diversity.

Prerequisites: [LIN229H5](#) and [LIN231H5](#) and [LIN232H5](#)

Corequisites: One of [LIN327H5](#) or [LIN328H5](#) or [LIN329H5](#) or [LIN332H5](#) or [LIN337H5](#) or [LIN338H5](#) or [LIN360H5](#) or [LIN366H5](#) or [LIN369H5](#) or [LIN375H5](#) or [LIN411H5](#) or [LIN418H5](#) or [LIN476H5](#) or [LIN479H5](#)

Exclusions: [JAL401H1](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

LIN421H5 • Speaking and Hearing with an Accent

Much of linguistic theory assumes the existence of an "ideal speaker/hearer" of a given language. However, in the real world, particularly in linguistically diverse communities such as the GTA, there is an enormous amount of variability driven by differences in language background, regional affiliation, and social factors. This course examines the many factors contributing to accentedness, and how listeners adapt their perception

when confronted with different accents. It also explores how models of language development, processing, and production account for accent-related variability.

Prerequisites: [LIN327H5](#) or [LIN328H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

LIN441H5 • Computing Meaning

How can we get a computer system to carry out meaningful tasks, such as determining if a restaurant review is positive? How can computational experiments help linguists understand meaning and its use better? This course will introduce students to computational linguistic concepts and techniques pertaining to meaning, such as vector space semantics and sentiment analysis. The course combines a theoretical perspective on meaning and computation with hands-on lab work.

Prerequisites: [LIN237H5](#) and [LIN340H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 12L/24P

Mode of Delivery: In Class

LIN447H5 • Topics in Computational Linguistics

In this course, students will develop a computational understanding of text and language. This course is cross-disciplinary, tools and project based; it teams Linguistics and Computer Science students in projects exploring novel applications of Natural Language Processing. Example topics include text summarization, bias detection, and sentiment analysis using Python and text processing and machine learning libraries. Topics and applications will vary by instructor.

Prerequisites: For LIN program students: ([LIN340H5](#) or [LIN341H5](#)) plus 1.0 additional credit at the 300 level. For CS program students: [CSC207H5](#) and [STA256H5](#) and/or permission from the instructor.

Exclusions: [LIN477H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

LIN452H5 • Communicating English Language Linguistics

This course teaches students advanced skills for engaging with English language linguistics in public settings. Topics may include: how to talk to a general audience about linguistics; navigating common public myths about language; presentation skills to make complex topics accessible; incorporating linguistics in language courses; public outreach and interview skills in linguistics; designing research to answer public questions about English. In this capstone course, students will output innovative projects for educating the public about

English language linguistics. This course includes an experiential learning component where students will get hands-on experience talking to various audiences about linguistics.

Prerequisites: [LIN352H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

LIN456H5 • Sociolinguistics and Second Language Teaching and Learning

This course considers the impact on variant use by second language learners exerted by linguistic and extra-linguistic factors, such as the surrounding linguistic context, age, sex, style, and curricular and extra-curricular exposure. Implications are drawn for second language teaching, including deciding what registers and variants to teach and what activities to employ.

Prerequisites: [LIN256H5](#) (or permission from instructor), plus 0.5 credit in a 300-level LIN course.

Exclusions: ([FGI456H5](#) or [LTL456H5](#))

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

LIN458H5 • Analyzing Sociolinguistic Variation

All languages, in all linguistic domains, exhibit variation - more than one way of saying the same thing. This variation is not random but dependent on various linguistic, social, and cognitive conditioning factors. This course explores the theory and practice of analyzing such sociolinguistic variation. Students will receive hands-on instruction in fieldwork methods for collecting natural speech data and quantitative methods for analyzing patterns in that data.

Prerequisites: [LIN256H5](#), plus 0.5 credit in a 300-level LIN course

Exclusions: [LIN456H1](#)

Distribution Requirements: Humanities

Total Instructional Hours: 12L/12P

Mode of Delivery: In Class

LIN460H5 • Special Topics in Language Change

This course examines current issues of theoretical and/or empirical relevance in linguistics with special reference to phenomena involving language change. Depending on the instructor, the focus of the course may be more oriented towards phonology, morpho-syntax, semantics, or the lexicon. The contact hours for this course may vary in terms of contact type (L, S, T, P) from year to year, but will

be between 24-36 contact hours in total. See the UTM Timetable.

Prerequisites: [LIN229H5](#) and [LIN232H5](#) and [LIN256H5](#) and (one of [LIN310H5](#) or [LIN318H5](#) or [LIN327H5](#) or [LIN328H5](#) or [LIN329H5](#) or [LIN332H5](#) or [LIN337H5](#) or [LIN338H5](#) or [LIN357H5](#) or [LIN360H5](#) or [LIN366H5](#) or [LIN369H5](#) or [LIN375H5](#) or [LIN411H5](#) or [LIN419H5](#) or [LIN458H5](#) or [LIN476H5](#) or [LIN479H5](#) or [JFL454H5](#))

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

LIN466H5 • Topics in Creole Linguistics

An advanced seminar on current issues of theoretical relevance in linguistics with special reference to Creole languages, in particular their emergence and their linguistic properties compared to those of the contributing languages. Depending on the instructor, the course may emphasize on French-based, English-based or Portuguese-based Creoles.

Prerequisites: [LIN229H5](#) and ([LIN231H5](#) or [LIN232H5](#) or [LIN366H5](#)), plus 0.5 credit in a 300-level LIN course.

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

LIN469H5 • Topics in Romance Linguistics

We examine current issues of theoretical and/or empirical relevance in linguistics with special reference to the Romance family, including both well-known and understudied varieties. In this course, student can engage deeply with specific properties of the Romance family from the point of view of micro-comparative analysis, sociolinguistic variation, and/or diachronic change depending on student interests and the expertise of the instructor. The contact hours for this course may vary in terms of contact type (L, S, T, P) from year to year, but will be between 24-36 contact hours in total. See the UTM Timetable.

Prerequisites: [LIN229H5](#) and [LIN232H5](#) and [LIN256H5](#) and (one of [LIN310H5](#) or [LIN318H5](#) or [LIN327H5](#) or [LIN328H5](#) or [LIN329H5](#) or [LIN332H5](#) or [LIN337H5](#) or [LIN338H5](#) or [LIN357H5](#) or [LIN360H5](#) or [LIN366H5](#) or [LIN369H5](#) or [LIN375H5](#) or [LIN411H5](#) or [LIN419H5](#) or [LIN458H5](#) or [LIN476H5](#) or [LIN479H5](#) or [JFL454H5](#))

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

LIN475H5 • Topics in Chinese Linguistics

An advanced seminar that explores topics and issues concerning the Chinese languages. Depending on the

instructor, focus of the course may be oriented toward structural properties, language and society, bilingualism, the languages of China, or historical issues.

Prerequisites: [LIN375H5](#) or permission of the instructor.

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

LIN476H5 • Language Diversity and Language Universals

This course examines cross-linguistic typological features found in the languages of the world. Special attention is given to investigating the remarkable range of phonological, morphological and syntactic diversity found in the world's languages. One of the primary goals of the course is to examine the notion of language universals in light of such diversity.

Prerequisites: [LIN232H5](#) and [LIN231H5](#) and (one of [LIN310H5](#) or [LIN327H5](#) or [LIN328H5](#) or [LIN329H5](#) or [LIN332H5](#) or [LIN337H5](#) or [LIN338H5](#) or [LIN360H5](#) or [LIN366H5](#) or [LIN369H5](#) or [LIN375H5](#) or [LIN411H5](#) or [LIN419H5](#) or [LIN479H5](#))

Exclusions: [LIN402H1](#) or [LIN456H1](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

LIN479H5 • The Structure of a Specific Language

An introduction to the structure of a featured language other than English. Topics of analysis may include the phonological, morphological, syntactic, or semantic systems; the writing system; historical aspects; variation. Students will use the tools of linguistic analysis learned in prior courses to examine the structural properties of this language. No prior knowledge of the language is necessary.

Prerequisites: [LIN228](#) and [LIN229](#) and [LIN232](#), plus 0.5 credit in a 300-level LIN course.

Exclusions: [LIN409H1](#) or [LIN409H5](#) or [LINC61H3](#) if the same language was analyzed.

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

LIN486H5 • Teaching and Learning Cross-cultural Communication

This course examines cross-cultural language use by second language learners from both a theoretical and pedagogical perspective. Topics addressed include the role of pragmatic transfer between native and target languages, individual differences, learning context, and

instruction in the development of second language pragmatic competence.

Prerequisites: LIN256H5 or JAL253H5 or LIN288H5 or LIN258H5

Exclusions: LTL486H5

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

LIN487H5 • Second Language Pedagogy

This course offers a comprehensive survey and analysis of fundamental concepts and issues related to second, bilingual, and foreign language instruction by developing students' knowledge of second language acquisition, approaches to language teaching, computer-assisted teaching, and pedagogical design and implementation in the language classroom.

Prerequisites: (LIN101H5 and LIN102H5) or LIN100Y5 and 0.5 credit at the 300-level in a LIN course.

Exclusions: LTL417H5 or LIN417H5

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

LIN495Y5 • Individual Project

A research or reading project undertaken by the student under the supervision of a staff member. Open only when a faculty member is willing and available to supervise.

Prerequisites: One half course at the 300 level in LIN.

Distribution Requirements: Humanities

Mode of Delivery: In Class

LIN496H5 • Individual Project

A research or reading project undertaken by the student under the supervision of a staff member.

Prerequisites: One half course at the 300 level in LIN.

Distribution Requirements: Humanities

Mode of Delivery: In Class

LIN498H5 • Individual Project

A research or reading project undertaken by the student under the supervision of a staff member.

Prerequisites: One half course at the 300 level in LIN.

Distribution Requirements: Humanities

Mode of Delivery: In Class

There are three Management programs offered at the University of Toronto at Mississauga: the Management Specialist, the Human Resources Management Specialist and Management Major. For information on the Commerce program offered by the Department of Management, please visit the [Commerce program page](#).

The Management Specialist and Human Resources Specialist Program (BBA)

The Management and Human Resources Specialist program leads to a Bachelor of Business Administration (BBA). The programs prepares students to become effective members of organizations. Drawing on a balanced offering of rigorous intellectual frameworks from the social sciences, it covers the nature and working of organizations, and managerial functions. The programs provide students with a good understanding of the major aspects of management and helps them to acquire an integrated set of management skills. **The Human Resource Management (HRM) Specialist** provides students with a good grounding in the management disciplines and a specialized education in HRM. It will allow students to complete the prerequisites for the CHRP designation.

The Management Major Program (HBA/HBSc)

The Management Major program leads to either an Honours BA or an Honours BSc degree, depending on your second discipline. For example, Chemistry and Management will prepare you for a career in the chemical industry; English and Management for publishing, Psychology and Management or Sociology and Management for a wide range of careers in business or commerce, etc.

Management is a deregulated fees program and, therefore, tuition fees for students enrolled in this program are higher than for other regulated fee programs. Fees are charged on a program and not a per course basis. See the [Student Accounts website](#) for more information on fee structures.

Professional Skills Development Program (PSDP)

The Professional Skills Development Program (PSDP) has been created exclusively for Commerce and BBA/Management students as a way to encourage skill development beginning in the second year through to final year. The information and skills gained through participation in this program will help students to:

- Strengthen technical and soft skills necessary for workplace success.
- Increase awareness of marketability on the job market and confidence in abilities
- Effectively make the transition from school to the workplace
- Manage their career by navigating through the working world more effectively

By participating in the program, students will be officially recognized and rewarded for their co-curricular activities through a transcript notation. Students will need to earn a minimum of at least 46 PSDP skill points over the course of their academic program. Upon completion of this requirement, students can submit an application to the PSDP Advisory Committee for transcript notation consideration. For more information and program details, please visit www.utm.utoronto.ca/management

Students should also review the [Degree Requirements](#) section prior to selecting courses

Program website <http://www.utm.utoronto.ca/management>

Management Programs

Human Resource Management - Specialist (BBA)

This program leads to a Bachelor of Business Administration (BBA) degree. This Specialist program cannot be combined with the Commerce (Specialist or Major), Digital Enterprise Management Specialist, or Human Resource Management Specialist.

Enrolment Requirements:

Limited Enrolment — Admission to this program is based on the following criteria:

- Completion of at least 4.0 credits
- A final mark of at least 63% in each of the following courses:
 - MGM101H5 and MGM102H5
 - (ECO101H5 and ECO102H5) or ECO100Y5
 - MAT133Y5 or MAT135Y5 or MAT137Y5 or MAT157Y5 or (MAT132H5 and MAT134H5) or (MAT135H5 and MAT136H5) or (MAT137H5 and MAT139H5)
- A weighted average of the grades earned in the courses above that meets the program's annual admission cutoff, which is determined annually by the Department of Management. This will vary from year to year and is based on capacity and the applicant pool.

Note:

- Applicants with transfer credits in any of the courses listed above will be assigned a 63% for each applicable transfer credit for program admission. Students can choose to retake these courses at UofT and their UofT grade will be considered in their weighted average instead.
- Application for admission to the program is made during the Subject POST request periods for all students.
- Please see the full list below for equivalent UTSG and UTSC courses.

Completion Requirements:

This program has a total of 15.5 credits.

First Year:

For students who began studies prior to September 2018 (2.0 credits):

- MGM101H5 and MGM102H5; and
- ECO100Y5 or (ECO101H5 and ECO102H5)

For students who began studies in September 2018 and onwards (3.0 credits):

- MGM101H5 and MGM102H5
- (ECO101H5 and ECO102H5) or ECO100Y5
- MAT133Y5 or MAT135Y5 or MAT137Y5 or MAT157Y5 or (MAT132H5 and MAT134H5) or (MAT135H5 and MAT136H5) or (MAT137H5 and MAT139H5)

It is recommended that students interested in pursuing this program consider completing SOC100H5 to ensure access to some upper year SOC courses to fulfill the 1.5 Electives Program Requirement listed below.

Higher Years (12.5 credits):

- Core courses (1.5 credits): MGT262H5 and MGT270H5 and MGT492H5
- Management Disciplines (9.5 credits): (MGT120H5 or MGM221H5) and ECO220Y5 and MGT223H5 and MGT231H5 and MGM360H5 and MGM364H5 and MGM365H5 and MGM390H5 and MGM464H5 and MGM465H5 and MGM466H5 and MGT252H5 and MGT260H5 and MGT363H5 and MGT371H5 and MGT480H5 and (ECO200Y5 or ECO205Y5)
- 1.0 credit from: ANT350H5 or HIS313H5 or HIS314H5 or SOC227H5 or SOC236H5 or SOC263H5 or SOC361H5 or WGS210H5 or MGT461H5 or MGT463H5 or MGT467H5
- 0.5 credit in MGT or MGM at the 200/300/400 level

* STA218H5 and MGT218H5 will no longer be accepted as an appropriate course for this program AFTER the 2022-2023 Academic year. Beginning in the 2023-2024 Academic year all students will be required to complete ECO220Y5 as the statistics course for this program.

** MGM222H5 will no longer be accepted as an appropriate course for this program AFTER the 2022-2023 Academic year. Beginning in the 2023-2024 Academic year, all students will be required to complete MGT223H5 as a course for this program.

Note: enough space is reserved each year in MGT480H5 to accommodate the full HRM cohort.

Note:

- It is strongly recommended that MGT120H5 is taken in first year or the Fall term of the second year,
- Management and Commerce students can only use 1.0 ROP credit towards program completion.

Please note the following list of acceptable equivalents for application to the POST:

<u>MGT120H5</u>	UTSC: <u>MGAB01H3</u> and <u>MGAB02H3</u> UTSG: <u>RSM219H1</u>
<u>MGM101H5</u>	UTSC: <u>MGTA05H3</u> or (<u>MGTA01H3</u> and <u>MGTA02H3</u>) UTSG: <u>RSM100H1</u>
<u>ECO101H5</u> and <u>ECO102H5</u>	UTSG: <u>ECO100Y1</u> or (<u>ECO101H1</u> and <u>ECO102H1</u>) UTSC: <u>MGEA02H3</u> and <u>MGEA06H3</u> UTM: <u>ECO100Y5</u>
<u>MAT133Y5</u>	UTSC: <u>MATA32H3</u> and <u>MATA33H3</u> UTSG: <u>MAT133Y1</u> or (<u>MAT135H1</u> and <u>MAT136H1</u>) UTM: <u>MAT135Y5</u> or (<u>MAT135H5</u> and <u>MAT136H5</u>) or (<u>MAT132H5</u> and <u>MAT134H5</u>) or <u>MAT137Y5</u> or <u>MAT157Y5</u>

ERSPE1882

Management - Specialist (BBA)

This program leads to a Bachelor of Business Administration (BBA) degree. This Specialist program cannot be combined with the Commerce (Specialist or Major), Digital Enterprise Management Specialist, or Human Resource Management Specialist.

Enrolment Requirements:

Limited Enrolment — Admission to this program is based on the following criteria:

- Completion of at least 4.0 credits
- A final mark of at least 63% in each of the following courses:
 - ([ECO101H5](#) and [ECO102H5](#)) or [ECO100Y5](#)
 - [MGM101H5](#) and [MGM102H5](#)
 - [MAT133Y5](#) or [MAT135Y5](#) or [MAT137Y5](#) or [MAT157Y5](#) or ([MAT132H5](#) and [MAT134H5](#)) or ([MAT135H5](#) and [MAT136H5](#)) or ([MAT137H5](#) and [MAT139H5](#))
- A weighted average of the grades earned in the courses above that meets the program's annual admission cutoff, which is determined annually by the Department of Management. This will vary from year to year and is based on capacity and the applicant pool.

Note:

- Applicants with transfer credits in any of the courses listed above will be assigned a 63% for each applicable transfer credit for program admission. Students can choose to retake these courses at UofT and their UofT grade will be considered in their weighted average instead.
- Application for admission to the program is made during the Subject POST request periods for all students.
- Please see the full list below for equivalent UTSG and UTSC courses.

Completion Requirements:

This program has a total of 14.0 credits

First Year:

For students who began studies prior to September 2018 (2.0 credits):

- [MGM101H5](#) and [MGM102H5](#); and
- ([ECO101H5](#) and [ECO102H5](#)) or [ECO100Y5](#)

For students who began studies in September 2018 and onwards (3.0 credits):

- [MGM101H5](#) and [MGM102H5](#); and
- ([ECO101H5](#) and [ECO102H5](#)) or [ECO100Y5](#); and
- [MAT133Y5](#) or [MAT135Y5](#) or [MAT137Y5](#) or [MAT157Y5](#) or ([MAT132H5](#) and [MAT134H5](#)) or ([MAT135H5](#) and [MAT136H5](#)) or ([MAT137H5](#) and [MAT139H5](#))

Higher Years (11.0 credits):

- Core courses (2.0 credits): [MGT260H5](#) and [MGT262H5](#) and [MGT270H5](#) and [MGT492H5](#)
- Management Disciplines (7.5 credits): ([MGT120H5](#) or [MGM221H5](#)) and * [ECO220Y5](#) and ** [MGT223H5](#) and [MGM320H5](#) and [MGM390H5](#) and [MGT231H5](#) and [MGT232H5](#) and [MGT252H5](#) and [MGT353H5](#) and [MGT363H5](#) and [MGT371H5](#) and [MGT374H5](#) and ([ECO200Y5](#) or [ECO204Y5](#) or [ECO205Y5](#))
- Electives (1.5 credits): Any 300/400-level MGT or MGM courses. Cannot include any courses already used above.

* [STA218H5](#) or [MGT218H5](#) will no longer be accepted as an appropriate course for this program AFTER the 2022-2023 Academic year. Beginning in the 2023-2024 Academic year, all students will be required to complete [ECO220Y5](#) as the statistics course for this program.

** [MGM222H5](#) will no longer be accepted as an appropriate course for this program AFTER the 2022-2023 Academic year. Beginning in the 2023-2024 Academic year, all students will be required to complete [MGT223H5](#) as a course for this program.

Note:

- It is strongly recommended that MGT120H5 is taken in first year or the Fall term of the second year.
- Students in the Management Specialist with the required prerequisites should consider complementing their studies with an Economics Minor program.
- Management and Commerce students can only use 1.0 ROP credit towards program completion.

Please note the following list of acceptable equivalents for application to the POST:

ERMAJ2431

Certificate in Effective Business Practices & Leadership Skills

The Certificate in Effective Business Practices & Leadership Skills provides eligible students the opportunity to participate in a 4-month (non-credit) paid work placement while completing their program of study. Through the certificate, students will gain authentic learning experiences and apply what they are learning in the classroom to workplace environments. This certificate must be completed concurrently with any Department of Management program.

Although every effort is made to support students in securing a paid work placement, students must receive an offer of employment to complete the certificate. The Department of Management cannot guarantee that students will secure a paid work placement.

Enrolment Requirements:

Limited Enrolment: Enrolment in the Certificate in Effective Business Practices & Leadership Skills is limited due to the experiential learning component. Students wishing to enrol at the end of their second year of study (minimum 7.0 credits) must have a minimum CGPA of 2.5. Please note that the CGPA requirement varies from year to year, based on the applicant pool, but will not fall below 2.5. Additionally, students must meet the following enrolment criteria:

1. Concurrent enrolment in one of the following programs:
 - Human Resource Management, Specialist (BBA);
 - Management, Specialist (BBA);
 - Management, Major (HBA);
 - Commerce, Specialist (BCom);
 - Commerce: Accounting, Specialist (BCom);
 - Commerce: Finance, Specialist (BCom);
 - Commerce: Marketing, Specialist (BCom); or
 - Commerce, Major (HBA)
2. Completion of the following courses prior to request for enrolment:
 - **MGT231H5 - Business Finance I**
3. Completion of at least 5 points prior to the admission deadline in the Professional Skills Development Program (must include Resume Critique or Mock Interview)
4. Submission of an application to the Department of Management.
5. Participation in an enrolment interview.

Completion Requirements:

- MGT231H5, MGT262H5, MGT300H5, MGT010H5 (**NOTE:** This is a zero-credit course)
- 0.5 credit from 400-level course list: MGM464H5 or MGT430H5 or MGT433H5 or MGT434H5 or MGT437H5 or MGT455H5 or MGT463H5 or MGT491H5 or MGT492H5 or MGT493H5 or MGT494H5
- 15 Professional Skills Development Program points (must include Resume Critique or Mock Interview and Career Investment Planning Session)
- Workplace Preparation Workshops
- Work-Integrated Learning Experience (minimum 10-week internship in the Summer term)

To earn the Certificate students must concurrently be enrolled in a Commerce or Management program.

ERCER2020

Notes

1. **The program requirements in effect at the time the student is admitted to the program must be met in order to fulfill the Degree requirements.**
2. Enrolment in Commerce and Management programs, and all 200+ level Management courses, is **restricted** to students in program.
3. "MGD" Management Courses are available to students in the Digital Enterprise Management (CCIT) program and, if all prerequisites have been met and pending availability, Marketing Stream program students.
4. "MGM" Management Courses at the 200+ level are available only to students in the Management programs.
5. "MGT" Management Courses at the 200, 300, and 400 levels are available only to students in the Commerce programs. Management students may be eligible to enrol in MGT courses as well. Please refer to the enrolment controls listed on the Timetable website at: <https://student.utm.utoronto.ca/timetable>
6. For the Minor in Business, Science and Entrepreneurship please see the [Institute for Management and Innovation](#)

Management Courses

MGM101H5 • Introduction to Management Functions

This course shows how the principal management disciplines provide analytical tools for understanding organizations and their management, how the disciplines inter-relate and how they underpin the activities of organizations.

Exclusions: [MGTA05H3](#) or [MGTA01H3](#) and [MGTA02H3](#) or [RSM100Y1](#) or [MGT100H1](#)

Distribution Requirements: Social Science

Total Instructional Hours: 25L

Mode of Delivery: In Class

MGM102H5 • Management in a Changing Environment

This course introduces the environment in which managers operate, and to the managerial role. It explores the Canadian business system, the economic,

technological and social trends that are bringing about change in the system, and the basic principles of managing in this environment. Not open to students enrolled in the 3rd or 4th year of the Commerce Major or Specialist program.

Distribution Requirements: Social Science

Total Instructional Hours: 25L

Mode of Delivery: In Class

MGM320H5 • Financial Statement Analysis and Interpretation

This course will provide an understanding of financial reports, and their use for investment and management decisions. Cases will be used to enhance problem-solving skills and will integrate ideas from finance, management and financial accounting and other areas of study. The course focuses on the interpretation and use of financial statement data for the purpose of assessing the financial performance of a business operation, not on the technical details of accounting rules.

Prerequisites: [MGT120H5](#) or [MGM221H5](#)

Exclusions: [MGT224H5](#) or [MGT322H5](#) or [MGT225H5](#) or [RSM221H1](#) or [MGAC01H3](#)

Distribution Requirements: Social Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

MGM360H5 • Compensation

This course explores the theory and process of developing compensation systems as part of an organization's larger system for managing human potential. The course focuses on the major components of compensation strategy design such as legislation, principles of equity and fairness, job analysis, job evaluation, compensation surveys, benefits and incentives. Current events in relation to compensation are explored. Students will also acquire hands-on experience in building a compensation strategy.

Prerequisites: [MGT260H5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

MGM364H5 • Labour Relations

The role, structure, and performance of industrial relations within the framework of Canada's socio-economic-political system. Growth and history of the Canadian Labour movement: its philosophy and structure. Management's strategies and tactics in collective bargaining; public policy in the field of industrial relations; strikes in so-called emergency situations: the role of unions and collective bargaining in inflation.

Prerequisites: MGT260H5

Exclusions: ECO244Y5 or IRE244H1 or MGHC53H3

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

MGM365H5 • HR Planning

During Human Resource Planning, organizations identify changes in human resources required to meet their future goals. In this course, students will learn about the steps involved in HR Planning including labour market forecasting, goal setting and strategic planning, and program implementation and evaluation.

Prerequisites: MGT260H5

Exclusions: IRE346H1

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

MGM390H5 • Business Law

(Formerly MGM290H5). This course provides an overview of the public institutions, laws and regulations that affect the structure and management of Canadian organizations.

Prerequisites: MGM101H5 and MGM102H5

Exclusions: MGM290H5 or MGT393H5 or RSM225H1 or MGSC32H3

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

MGM464H5 • Recruitment and Selection

An organization's success depends on its ability to recruit and select top talent. This course is designed to provide students with a deep understanding of the methods and application of various recruitment and selection techniques within organizations. Students will learn to recognize and create effective, resource-efficient recruitment programs, and how to identify the most qualified individuals from a pool of applicants.

Prerequisites: MGT260H5

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

MGM465H5 • Occupational Health & Safety

As individuals spend more and more time at work, it becomes increasingly important for organizations to protect their employees from harm and to support their physical, psychological, emotional, and social welfare. Students in this course will gain the knowledge and skills necessary to design and foster healthy and safe working environments.

Prerequisites: MGT260H5

Exclusions: IRE378H1 or MGHD24H3

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

MGM466H5 • Training & Development

The goal of training and development is to grow the potential of employees within an organization. This course is designed to provide students with an understanding of how to improve job-related competencies through training and how to prepare employees for future job responsibilities through development. Topics covered include needs assessment, design, implementation, and evaluation of training and development programs.

Prerequisites: MGT260H5

Exclusions: IRE347H1 or MGHD26H3

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

MGT010H5 • Effective Business Practices and Leadership Skills Capstone

This culminating course offers students in the Effective Business Practices and Leadership Skills Certificate an opportunity to integrate and synthesize their academic learning with their work-integrated learning experience. Students will engage with other students in the certificate program to share their experiences, complete their final workplace reflection exercises, produce a written report of their workplace experience, and exhibit their experience in the form of a final poster presentation. This course is required for all students in the Certificate in Effective Business Practices and Leadership Skills. No credit is awarded for this course.

Prerequisites: Admission to the Certificate in Effective Business Practices and Leadership Skills

Distribution Requirements: Social Science

Total Instructional Hours: 8L

Mode of Delivery: Online, In Class

MGT120H5 • Introduction to Financial Accounting

Introduction to the theory and concepts of financial accounting. Students learn how to construct and interpret financial statements. Topics include an introductory understanding of accounting and the context within which accounting occurs.

Exclusions: MGM221H5 or MGAB01H3 and MGAB02H3 or RSM219H1

Distribution Requirements: Social Science

Total Instructional Hours: 24L/20T

Mode of Delivery: In Class

MGT150H5 • Financial Planning for Individuals

This course will cover personal finance topics for individuals at all stages of life. Topics include budgeting, borrowing, investing, insurance and retirement planning. Tax issues associated with these topics is also covered including the basics of personal income tax. Case studies are used extensively to illustrate the material.

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

MGT201H5 • Coding for Business

Targeted to business students with little or no programming experience, the course provides an understanding of the role computation has in solving business problems and to help students be able to write small programs to accomplish practical tasks in the business world.

Exclusions: CSC108H5 or CSC108H1

Distribution Requirements: Social Science

Total Instructional Hours: 36P

Mode of Delivery: In Class

MGT211H5 • Special Topics for Management

Topics and issues in Management. Content in any given year will depend on the instructor. The contact hours for this course may vary in terms of contact type (L,S,T,P) from year to year, but will be between 24-36 contact hours in total. See the UTM Timetable.

Distribution Requirements: Social Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

MGT212H5 • Special Topics for Management

Topics and issues in Management. Content in any given year will depend on the instructor. The contact hours for this course may vary in terms of contact type (L,S,T,P) from year to year, but will be between 24-36 contact hours in total. See the UTM Timetable.

Distribution Requirements: Social Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

MGT218H5 • Quantitative Analysis for Management

Acquaints students with the statistical principles that managers need in order to extract information from numerical data, and to understand the formal principles of decision-making under conditions of uncertainty. Covers descriptive statistics, elementary probability, expected values, sampling distributions, point and interval estimation, hypothesis testing for normal and binomial data.

Prerequisites: MGM101H5 and MGM102H5

Exclusions: ECO220Y5 and STA218H5

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

MGT220H5 • Intermediate Accounting I

Expands the analysis of financial accounting beyond MGT120H5. Cases are used to develop critical thinking and communication skills. Topics include accounting's conceptual framework, analysis of business and financial statements, accounting for assets, and valuation of bonds.

Prerequisites: At least a "C" in MGT120H5

Exclusions: RSM220H1 or MGAB02H3

Distribution Requirements: Social Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

MGT223H5 • Managerial Accounting I

Covers conceptual and analytical foundations of cost accounting and uses of accounting by management. Cost concepts for product costing and decision making provide an understanding of the uses of accounting information by management. Costing and control concepts are analyzed to equip students with tools for establishing costing systems and to make decisions.

Prerequisites: MGT120H5

Exclusions: RSM222H1 or MGAB03H3 or MGM222H5

Distribution Requirements: Social Science

Total Instructional Hours: 24L/24T

Mode of Delivery: In Class

MGT225H5 • Intermediate Accounting II

Expands the analysis of financial accounting beyond MGT220H5. Technical topics include liabilities, shareholders' equity, complex financial instruments, accounting for leases, measuring and reporting pensions and earnings per share. The emphasis is on analysis and developing judgment.

Prerequisites: MGT220H5

Exclusions: RSM221H1 or MGAC01H3 or RSM320H1 or MGAC02H3 or MGT224H5 or MGT322H5

Distribution Requirements: Social Science

Total Instructional Hours: 25L/12T

Mode of Delivery: In Class

MGT231H5 • Business Finance I

(Formerly MGT338H5) This course analyzes the financial investment decision-making process of individuals and firms. It provides an introduction to present-value techniques, capital budgeting decision-rules, the problem of investment under uncertainty, and portfolio theory.

Exclusions: MGT338H5 or CCT321H5 or ECO358H5 or ECO358H1 or RSM332H1 or MGFB10H3

Distribution Requirements: Social Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

MGT232H5 • Business Finance II

(Formerly MGT339H5) This course extends material learned in MGT231H5, which is a prerequisite. Topics include the concept of efficiency of financial markets, the optimal financing decisions of firms, and the characteristics of debt, equity and other financial instruments such as options.

Prerequisites: MGT231H5

Exclusions: MGT339H5 or CCT321H5 or ECO359H5 or ECO359H1 or RSM333H1 or MGFC10H3

Distribution Requirements: Social Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

MGT252H5 • Principles of Marketing

An introduction to the basic concepts of market definition, consumer behaviour, and the principal marketing functions: product line development, pricing, distribution, promotion, salesforce management, advertising, research, and planning.

Exclusions: MGM252H5 or CCT221H5 or RSM250H1 or MGIA01H3

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

MGT260H5 • Managing Human Potential

(Formerly MGT460H5) Human resource management is studied from the perspective of the manager/practitioner. The course focuses on current theory and practices in the major functions of human resource management. Class exercises and projects are used to provide students with some practical HR experience.

Exclusions: MGIB12H3 or MGT460H5 or RSM361H1

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

MGT262H5 • Psychology at Work

Theoretical ideas and practical applications concerning individual and group behaviour in organizations. We explore relevant problems confronting management: motivation, influence, communication, supervision, decision-making, and work force diversity.

Exclusions: CCT324H5 or ERI260H5 or IRE260H1 or MGM300H5 or MGIB02H3 or PSY332H1 or RSM260H1 or WDW260H1

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

MGT270H5 • Data Analytics for Management

This course introduces the analytical mindset and data analytics skills that business professionals need to analyze and evaluate a variety of data to create insights for making decisions. In particular, you will learn to ask the right questions, prepare relevant data, apply appropriate data analytics methods, and interpret results to answer questions. You will also learn to use common data analytics tools, such as Excel, Access (SQL), and Tableau/Power BI to prepare, analyze, and model financial data. Finally, you will apply the analytical mindset and data analytics skills to address various business problems using financial and general business data.

Prerequisites: MGM101H5 and (MGM102H5 or MGT120H5)

Corequisites: MGT218H5 or STA218H5 or ECO220Y5 or ECO227Y5 or STA250H1 or (STA256H5 and STA258H5) or (STA256H5 and STA260H5)

Exclusions: MGM200H5 or MGOC10H3 or MGM301H5

Distribution Requirements: Social Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

MGT299H5 • Research Opportunity Program

This course provides second year undergraduate students, who have developed some knowledge of a discipline and its research methods, an opportunity to work in the research project of a professor in return for course credit. Students enrolled have an opportunity to become involved in original research, develop their research skills and share in the excitement and discovery of acquiring new knowledge. Project descriptions for participating faculty members for the following summer and fall/winter sessions are posted on the ROP website in mid-February and students are invited to apply at that time. See [Experiential and International Opportunities](#) for more details.

Course Experience: University-Based Experience
Distribution Requirements: Social Science
Mode of Delivery: In Class

MGT299Y5 • Research Opportunity Program

This course provides a richly rewarding opportunity for students in their second year to work in the research project of a professor in return for 299Y course credit. Students enrolled have an opportunity to become involved in original research, learn research methods and share in the excitement and discovery of acquiring new knowledge. Participating faculty members post their project descriptions for the following summer and fall/winter sessions in early February and students are invited to apply in early March. See [Experiential and International Opportunities](#) for more details.

Course Experience: University-Based Experience
Distribution Requirements: Social Science
Mode of Delivery: In Class

MGT300H5 • Presentation Skills for Management

The ability to verbally communicate effectively is an important skill in both business and life. Through various avenues such as impromptu speeches, group presentations and debates, students will work on improving their communication and networking skills as well as reflect on opportunities for further improvement via journaling and self-reflection.

Prerequisites: [MGM101H5](#)
Exclusions: [MGT200H5](#)
Distribution Requirements: Social Science
Total Instructional Hours: 24L
Mode of Delivery: In Class

MGT301H5 • Coding and Data Management for Business Analytics

Targeted to business students with some programming experience, the course provides the foundation to take more advanced courses in the Department of Management that requires programming and database knowledge. Topics in this accelerated course will include data structures, algorithms, analytics (i.e. descriptive, predictive, and prescriptive) and structured query language. Students will be expected to integrate concepts from statistics as well.

Prerequisites: [MGT201H5](#)
Exclusions: [MGT458H5](#)
Distribution Requirements: Social Science
Total Instructional Hours: 24L/12P
Mode of Delivery: In Class

MGT311H5 • Special Topics for Management

Topics and issues in Management. Content in any given year will depend on the instructor. This course may include 24 practical hours. See timetable for schedule. The contact hours for this course may vary in terms of contact type (L,S,T,P) from year to year, but will be between 24-36 contact hours in total. See the UTM Timetable.

Distribution Requirements: Social Science
Total Instructional Hours: 24P
Mode of Delivery: In Class

MGT312H5 • Special Topics for Management

Topics and issues in Management. Content in any given year will depend on the instructor. The contact hours for this course may vary in terms of contact type (L,S,T,P) from year to year, but will be between 24-36 contact hours in total. See the UTM Timetable.

Distribution Requirements: Social Science
Total Instructional Hours: 24L/12P
Mode of Delivery: In Class

MGT321H5 • Audit & Assurance

A study of the concepts and theory underlying audit practice. Students are introduced to the CICA Handbook recommendations and guidelines for assurance. Practical examples are used to help students develop skills in exercising professional judgment.

Prerequisites: [MGT224H5](#) or [MGT225H5](#)
Exclusions: [RSM323H1](#)
Distribution Requirements: Social Science

Total Instructional Hours: 24L
Mode of Delivery: In Class

MGT322H5 • Financial Accounting Theory and Policy II

Examines several current measurement and disclosure issues in financial reporting, within a "quality of earnings" framework. Topics include: financial instruments, measuring and reporting pensions, financial reporting of corporate income taxes, corporate reporting via the Internet, etc. The emphasis is on developing judgment. Please note: This course will be phased out as of Summer 2022. Students admitted to the Accounting program in Fall 2020 and onward should enrol in MGT225H5 Intermediate Accounting II.

Prerequisites: MGT224H5
Exclusions: RSM320H1 or MGAC02H3 or MGT225H5
Distribution Requirements: Social Science
Total Instructional Hours: 24L/12T
Mode of Delivery: In Class

MGT323H5 • Managerial Accounting II

Introduction to the different contexts in which costs need to be determined for goods sold internally, externally, domestically, and internationally. Other topics include appropriate cost structures for centralized, decentralized, and matrix forms of organizations and costs for long-term capital projects. Cases are used to promote understanding of the theories.

Prerequisites: MGT223H5 and ECO220Y5 or ECO227Y5 or (STA256H5 and STA258H5) or (STA256H5 and STA260H5)
Exclusions: RSM322H1 or MGAC03H3
Distribution Requirements: Social Science
Total Instructional Hours: 24L
Mode of Delivery: In Class

MGT324H5 • Equity Valuation and Analysis

This course will provide a framework for analyzing a firm's past performance, estimating its future performance, and valuing its equity. You will understand how to interpret financial statements, analyze cash flows, make judgments about earnings quality and uncover hidden assets and liabilities. It helps you become a sophisticated user of financial accounting data.

Prerequisites: MGT220H5 and MGT231H5
Exclusions: MGM320H5
Distribution Requirements: Social Science
Total Instructional Hours: 24L/11T
Mode of Delivery: In Class

MGT325H5 • Critical Thinking, Analysis and Decision Making I

(Formerly MGT320H5) This course introduces students to integration of different areas of studies, stressing the pervasive competencies and critical thinking skills required from business school graduates, future professional accountants and advisors. This course focuses on developing students' decision-making and written communication skills.

Prerequisites: MGT220H5 and MGT223H5 and (MGT224H5 or MGT225H5) and MGT231H5 and MGT232H5
Corequisites: MGT321H5 and MGT322H5* and MGT323H5 *Students who have completed MGT224H5 are required to enrol in MGT322H5 as corequisite or prerequisite. Students who have completed MGT225H5 do not require MGT322H5 as corequisite or prerequisite.
Exclusions: MGT320H5
Distribution Requirements: Social Science
Total Instructional Hours: 36L
Mode of Delivery: In Class

MGT326H5 • Advanced Accounting

The emphasis in this course is on accounting issues and practices relating to intercompany investments, foreign currency transactions and investments, agriculture, cryptocurrencies, and not-for-profit organizations. Assigned material includes cases to ensure that the user impact of accounting choices is appreciated.

Prerequisites: MGT322H5 or MGT225H5
Exclusions: MGT426H5 and RSM321H1
Distribution Requirements: Social Science
Total Instructional Hours: 36L
Mode of Delivery: In Class

MGT330H5 • Investments

Security analysis and portfolio management. Emphasis is placed on an analysis of bonds and common stocks.

Prerequisites: MGT231H5 and MGT232H5
Exclusions: RSM330H1 or MGFD10H3
Distribution Requirements: Social Science
Total Instructional Hours: 24L
Mode of Delivery: In Class

MGT336H5 • Business Valuation

This is a rigorous course on valuing securities, primarily equities, targeted at students interested in careers involving the analysis of financial statements. We will discuss how managerial discretion and accounting rules influence financial statements and how to analyze financial information to reveal a firm's true performance accurately. We will discuss the mechanics of forecasting and how to become adept at it. We will discuss the

intricacies of different valuation models and understand the nuances that link them. Learning will be through lectures, case analyses, in-class exercises, and homework assignments. Almost all classes will involve an Excel-based activity, case discussion, and real-time data. At the end of the course, students can expect to gain significant expertise in all facets of valuation.

Prerequisites: MGT231H5

Distribution Requirements: Social Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

MGT341H5 • Financial Modeling and Data Analytics

This course studies applications in corporate finance, investments and risk management. Finance lab software tools will be used to work through problems on topics such as Capital Budgeting and Valuation, Portfolio Analysis, Firm Valuation, Valuing Securities and Risk Management.

Prerequisites: MGT231H5 and MGT232H5

Exclusions: MGT441H5

Recommended Preparation: MGT330H5

Distribution Requirements: Social Science

Total Instructional Hours: 36P

Mode of Delivery: In Class

MGT353H5 • Introduction to Marketing Management

An applications-oriented course intended to develop the analytic skills required of marketing managers. The course is designed to improve skills in analyzing marketing situations, identifying market opportunities, developing marketing strategies, making concise recommendations, and defending these recommendations.

Prerequisites: MGT252H5 or MGM252H5

Exclusions: RSM251H1

Recommended Preparation: ECO220Y5 or ECO227Y5 or (STA256H5 and STA260H5)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

MGT354H5 • Consumer Behaviour

Formulating successful marketing strategies requires an understanding of consumers' cultures, motivations, cognitions, and emotions. Students will learn how to use theoretical perspectives from psychology, economics, anthropology, and other disciplines to generate predictions about consumers, interpret consumer reactions to marketing stimuli, and develop rigorous skills in marketing analysis.

Prerequisites: MGT252H5

Exclusions: RSM353H1

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

MGT355H5 • Pricing

Approaches pricing decision as an intersection of economics and psychology. Using product categories as diverse as financial services, healthcare, industrial products and consumer packaged goods, students study dynamic pricing, value pricing, price customization, price bundling and multi-part tariffs, menu costs and price stickiness, sales promotions, and pricing in two-sided markets. (24L)

Prerequisites: MGT252H5

Exclusions: RSM455H1

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

MGT363H5 • Designing Effective Organizations

The course covers the relationship between design and effectiveness; the impact and determinants (environment, technology, competitiveness, size, life-cycle, communication needs) of an organization's form as well as the difficulties of re-framing organizations.

Exclusions: WDW260H1

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

MGT371H5 • Business Technology Management

This course covers key management decisions based on the impact of sustainable and disruptive technology and their role in strategy, profitable growth, and modern work environments. Unlike programming courses, the focus is on knowledge to help students contribute to technology based decisions in the organizations that they join.

Exclusions: CCT225H5 or MGM371H5 or MGAC70H3 or RSM327H1

Distribution Requirements: Social Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

MGT373H5 • Predictive Analytics

Delve into machine learning and its technical applications, obtain a conceptual understanding of prediction problems and algorithms, learn to interpret results using statistical software, and complete a challenging prediction project using real data that will put your knowledge to the test.

This course will introduce students to a diverse collection of big data and machine learning techniques. These techniques are often aimed at identifying and quantifying various structures in data to answer business problems and provide managerial insights.

Prerequisites: MGT201H5 and [ECO220Y5 or MGT218H5 or STA218H5 or (1.0 credit from STA256H5 or STA258H5 or STA260H5)]
Exclusions: MGT311H5 (Winter 2021 or Winter 2022) or MGT417H5 (Winter 2021 or Winter 2022 or Winter 2023)
Distribution Requirements: Social Science
Total Instructional Hours: 24L
Mode of Delivery: In Class

MGT374H5 • Operations Management

Operations management is concerned with the facilities and their operation to deliver the goods and services of the organization. The course develops this theme and gives a theoretical framework for managing operations. Some of the major themes include aggregate planning, materials management, and inventory control. This course introduces students to modern quantitative and computing tools necessary for in-depth operational analysis and planning.

Note:
STA218H5 will no longer be accepted as an appropriate course for this program AFTER the 2022-2023 Academic year. Beginning in the 2023-2024 Academic year all students will be required to complete MGT218H5 as the statistics course for this program.

Prerequisites: ECO220Y5 or ECO227Y5 or MGT218H5 or (STA256H5 and STA260H5) or STA218H5 or (STA256H5 and STA258H5)
Exclusions: MGOC20H3 or RSM270H1
Distribution Requirements: Social Science
Total Instructional Hours: 24L
Mode of Delivery: In Class

MGT393H5 • Legal Environment of Business I

An introduction for commerce students to the Canadian legal system focusing on business entities, the structure of the Canadian court system, the various elements of contract law and the law of negligence.

Exclusions: MGM290H5 or MGSC30H3 or RSM225H1 or MGM390H5
Distribution Requirements: Social Science
Total Instructional Hours: 24L
Mode of Delivery: In Class

MGT394H5 • Legal Environment of Business II

This course builds on the legal principles developed in Legal I and canvasses other areas of law that impact a business entity. The course deals with the Sales of Goods Act and relevant consumer protection legislation, employment law, environmental law, the Personal Property Security Act and the rights of the secured creditor.

Prerequisites: MGM390H5 or MGT393H5
Exclusions: MGSC32H3 or RSM325H1
Distribution Requirements: Social Science
Total Instructional Hours: 24L
Mode of Delivery: In Class

MGT399H5 • Research Opportunity Program

This course provides senior undergraduate students who have developed some knowledge of a discipline and its research methods an opportunity to work in the research project of a professor in return for course credit. Students enrolled have an opportunity to become involved in original research, develop their research skills and share in the excitement and discovery of acquiring new knowledge. Project descriptions for participating faculty members for the following summer and fall/winter sessions are posted on the ROP website in mid-February and students are invited to apply at that time. See Experiential and International Opportunities for more details.

Prerequisites: A minimum of 10.0 credits
Course Experience: University-Based Experience
Distribution Requirements: Social Science
Mode of Delivery: In Class

MGT399Y5 • Research Opportunity Program

This course provides senior undergraduate students who have developed some knowledge of a discipline and its research methods an opportunity to work in the research project of a professor in return for course credit. Students enrolled have an opportunity to become involved in original research, develop their research skills and share in the excitement and discovery of acquiring new knowledge. Project descriptions for participating faculty members for the following summer and fall/winter sessions are posted on the ROP website in mid-February and students are invited to apply at that time. See Experiential and International Opportunities for more details.

Prerequisites: A minimum of 10.0 credits
Course Experience: University-Based Experience
Distribution Requirements: Social Science
Mode of Delivery: In Class

MGT401H5 • Supervised Reading Course on an Approved Subject

Open when a faculty member is willing and able to supervise. Students must obtain the approval of the Director of Commerce and the supervising faculty member before enrolling.

Prerequisites: Cumulative GPA of at least 2.70

Distribution Requirements: Social Science

Mode of Delivery: In Class

MGT402H5 • Supervised Reading Course on an Approved Subject

Open when a faculty member is willing and able to supervise. Students must obtain the approval of the Director of Commerce and the supervising faculty member before enrolling.

Prerequisites: Cumulative GPA of at least 2.70

Distribution Requirements: Social Science

Mode of Delivery: In Class

MGT411H5 • Special Topics in Management

Topics and issues in Management. Content in any given year will depend on the instructor. The contact hours for this course may vary in terms of contact type (L,S,T,P) from year to year, but will be between 24-36 contact hours in total. See the UTM Timetable.

Distribution Requirements: Social Science

Total Instructional Hours: 24L

MGT420H5 • Critical Thinking, Analysis and Decision Making II

(Formerly MGT419H5) This is a capstone case course stressing the pervasive competencies and critical thinking skills required from business school graduates, future professional accountants and advisors. This course provides students with an opportunity to integrate the technical and practical knowledge obtained in the prerequisite and other University courses and to apply this knowledge to case type situations. Because of the integrative nature and content of the course, the course

will be directed towards students who have completed most of their required courses and who are seeking an accounting designation.

Prerequisites: MGT321H5 and (MGT322H5 or MGT225H5) and MGT323H5 and MGT325H5 and MGT423H5. Open only to 4th year Commerce students.

Corequisites: Highly Recommended: MGT421H5 and MGT422H5 and (MGT326H5 or MGT426H5) and MGT429H5

Exclusions: RSM426H1 or MGAD70H3

Distribution Requirements: Social Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

MGT421H5 • Advanced Audit & Assurance

The course focuses on the reasoning and evidence theory underlying audit decision making. Coverage includes professional judgement, statistical auditing, assurance engagements, and public sector auditing.

Prerequisites: MGT321H5

Exclusions: RSM423H1

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

MGT422H5 • Advanced IT Audit and Data Analytics

This course is an extension of the study of areas covered in the introductory audit course and will include the application of risk and materiality to more advanced topic areas with a focus on digitized information. Other topics include special reports, future-oriented financial information and prospectuses. The course will incorporate the use of data analytics in auditing and will explore how to analyze financial data in order to assist in audit engagements.

Prerequisites: MGT321H5

Exclusions: RSM427H1

Distribution Requirements: Social Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

MGT423H5 • Canadian Income Taxation I

This is the first of two courses in federal income tax law. It is designed to give the student a basic understanding of the Income Tax Act and its administration. This is achieved by applying the law to practical problems and cases. Topics covered include administration of the tax system, employment income, business and property income, capital gains, other income and deductions, computation of taxable income and taxes payable for

individuals. The GST/HST implications, where relevant, will also be discussed. The two course sequence (MGT423H5 and MGT429H5) have been designed to provide participants with coverage of the tax content required by the professional accounting bodies.

Prerequisites: MGT220H5 and MGT231H5 and (MGT393H5 or MGM390H5)

Exclusions: MGAC50H3 or RSM324H1

Distribution Requirements: Social Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

MGT428H5 • Management Control

Management control includes all the processes and systems, many accounting-based, by which key managers allegedly ensure that resources are acquired and used effectively and efficiently in the accomplishment of an organization's goals. The case method is used to provide an understanding of the issues and environment of management control.

Prerequisites: MGT323H5

Exclusions: MGAD40H3 or RSM422H1

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

MGT429H5 • Canadian Income Taxation II

This is the second of two courses in federal income tax law. It is designed to give the student an understanding of more complex issues of Canadian Income Tax law and tax planning. This is achieved through a combination of lectures and the application of the law to practical problems and case settings. Topics include computation of corporate taxes, integration, corporate reorganizations, surplus distributions, partnerships and trusts.

Prerequisites: MGT423H5

Exclusions: MGAC60H3 or RSM424H1

Distribution Requirements: Social Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

MGT430H5 • Behavioural Finance

This interdisciplinary course considers the ways in which human psychology influences financial decision making. Topics may include prospect theory, overconfidence, mental accounting, emotions, and neurofinance.

Prerequisites: MGT231H5 and MGT232H5

Exclusions: MGFD40H3

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: Online, In Class

MGT431H5 • Advanced Topics in Corporate Finance

Application and development of the ideas in [MGT231H5](#), [MGT232H5](#) to corporate finance problems such as initial public offerings and project evaluation.

Prerequisites: [MGT231H5](#) and [MGT232H5](#)

Exclusions: [RSM433H1](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

MGT434H5 • Mergers and Acquisitions

The main focus is to develop a solid understanding of the valuation of mergers and acquisitions from the perspective of a variety of stakeholders including: acquiring and target firm management, directors, and shareholders; financiers; consumers, and; competition regulators and policymakers. Themes to be explored include M&A and corporate strategy, motivations for M&A, corporate restructuring and divestitures, financing of M&A activity, dealing with competition authorities, and M&A 'waves' over the past century.

Prerequisites: [MGT231H5](#) and [MGT232H5](#)

Exclusions: [MGFD60H3](#) or [RSM433H1](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

MGT435H5 • Financial Market Trading

This Li Koon Chun Finance Learning Centre (FLC) lab-based course will provide a hands-on introduction to the functioning of security markets and the trading of financial instruments. Students will learn how the market prices financial securities, how to use the Python programming language and finance theory to develop trading strategies, and how to identify and manage risks of trading strategies. Cases will cover various securities, such as fixed income securities, equities, futures and options. Students will further learn how to deal with various kinds of risks, such as liquidity risk, market risk, downside risk, crash risk, and credit risk.

Prerequisites: [MGT231H5](#) and [MGT232H5](#) and [MGT330H5](#)

Exclusions: [MGFD60H3](#) or [RSM434H1](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24P

Mode of Delivery: In Class

MGT437H5 • Strategy and Governance

This course covers concepts in strategic management and focuses on the role of corporate governance in formulating, implementing and monitoring a firm's strategic objectives. Although the course will cover economic

foundations of strategy, market, industry and competitive analysis, the main focus will be on the internal operations of an organization. Corporate governance will be examined in the broad sense of the term and will include an overview of country-level legal environment, regulatory agencies, stock market, and the firm's board of directors. The objective of the course is to enhance students' understanding the operating tensions facing firms and the means of addressing such tensions through country-level and firm-level corporate governance systems.

Prerequisites: ([MGT322H5](#) or [MGT225H5](#)) and [MGT231H5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

MGT438H5 • Futures and Options Markets

Analysis of derivative instruments such as futures contracts, put and call options and swaps. Emphasis is placed on the valuation of these instruments as a foundation for valuing complex securities.

Prerequisites: a minimum of 63% in both [MGT231H5](#) and [MGT232H5](#)

Exclusions: [MGFC30H3](#) or [RSM435H1](#)

Recommended Preparation: [MGT330H5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

MGT440H5 • Fixed Income Markets

This is a capital markets course that describes important fixed income securities and markets. It will emphasize traditional bond and term structure concepts as well as current events and/or securities affecting the functioning of these markets.

Prerequisites: [MGT231H5](#) and [MGT232H5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

MGT442H5 • Financial Distress and Insolvency

Traditional business courses often deal with financially healthy firms. However, failure is an inevitable reality for many businesses. The problems currently being witnessed by the retail sector are a case in point. According to official Canadian government statistics, 3580 businesses filed for insolvency in 2018 alone, with more than a quarter of these businesses being from Ontario. This course aims to study the reasons why some firms find themselves in financial distress, alternative courses of action (including legal options) in response to financial

distress, and the role of various stakeholders in the process.

Prerequisites: MGT231H5 and 0.5 credit in MGT/MGM at the 300/400 level

Exclusions: MGT411H5 Special Topics in Management: Financial Distress and Insolvency (Fall 2018 and Fall 2019)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

MGT443H5 • Quantitative Finance

This course represents a hands-on introduction to modern quantitative finance and risk-management models. The course will enable students to build computer algorithms tailored to financial problems. Emphasis is placed on high-frequency trading data, portfolio optimization and factor models for security pricing, machine learning and prediction, risk quantification and management, and option pricing algorithms.

Prerequisites: ECO220Y5 or STA256H5

Exclusions: MGT412H5 Special Topics in Management: Computational Finance (Winter 2020 & Winter 2021)

Recommended Preparation: STA258H5 and MGT201H5 and MGT330H5

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

MGT444H5 • FinTech, Blockchain, & Decentralized Finance

This course provides students with a solid understanding of the technologies, tools, and applications that will transform and define the financial industry over the next decade. Students will study the technological and economic mechanisms that make blockchain work, the services it hosts, how it disrupts the financial industry, the risks, how a decentralized protocol can be governed and regulated, and what problems Decentralized Finance (DeFi) solves. Students will also learn about smart contracts, types of tokens and their uses, digital money, oracles, stablecoins, DeFi-lending and DeFi-trading, crypto-regulation, and central-bank-issued digital currencies. This course is geared to Commerce and Management students and does not require engineering or computer science knowledge.

Prerequisites: MGT120H5 and ECO204Y5 and MGT330H5 (or equivalent)

Exclusions: MGT411H5 (Fall 2020 or Fall 2021 or Fall 2022) or MGT415H5 (Fall 2017 or Fall 2018 or Fall 2020)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

MGT445H5 • Enterprise Risk Management and Analytics

This course studies risk management from a holistic perspective for various institutions (i.e. non-financial and financial). Various risk categories will be considered such as investment risk, financial risk, cyber risk, operational risk, market risk, energy risk, technology risk, etc. Cases, models, and frameworks will be integrated into the course. Depending on current market issues, the data and cases may cover various areas from energy (i.e. weather), sports, accounting, finance, government (public), arts/entertainment, health, technology, etc. Special topics may also be considered such as environmental, social, and corporate governance (ESG) issues.

Prerequisites: ECO220Y5 and STA218H5 and MGT231H5 and MGT232H5

Exclusions: MGT416H5 (Winter 2019 and Winter 2020 and Winter 2021 and Winter 2022)

Enrolment Limits: 44

Distribution Requirements: Social Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

MGT450H5 • Digital Marketing

This course explores various digital marketing strategies in the context of online and mobile advertising platforms, and will provide a comprehensive understanding of both existing marketing strategies and emerging trends. Various domains will be covered in this course (search, display, mobile, social, etc.) to enable students to explore how emerging technologies are used to facilitate B2B and B2C transactions. This class will explore the strengths and weaknesses of different approaches to digital marketing while helping students develop a better understanding of various elements of marketing campaigns from formulation to integration and assessment.

Prerequisites: MGT252H5

Exclusions: CCT354H5 or MGT414H5 (Winter 2022)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

MGT451H5 • Business Strategy for the Digital Economy

Learn about the fastest growing sector of the economy and develop tools to analyze strategic problems within a business, and train rigorously, using theory and data, to think about new strategic opportunities for businesses in the digital age.

Prerequisites: MGT120H5 and ECO204Y5

Exclusions: MGT412H5 (Fall 2021 or Winter 2022 or Winter 2023)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

MGT452H5 • Marketing and Behavioural Economics

The emphasis in this course is on marketing decision making in a dynamic environment using behavioural economics and insights. The course focuses on the major decisions facing individuals in many different contexts in marketing, as well as economics, finance, and other areas of management. In turn, these insights help us to understand how managers can make more behaviourally informed decisions and create behaviourally informed organizations.

Prerequisites: MGT252H5 and 1.0 credit in MGT or MGM credit at the 300 or 400 level.

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

MGT453H5 • Marketing Research

Marketing research is studied from the perspective of the marketing manager. The course focuses on the initiation, design, and interpretation of research as an aid to marketing decision making. Case studies and projects are used to provide students with some practical research experiences.

Note:

STA218H5 will no longer be accepted as an appropriate course for this program AFTER the 2022-2023 Academic year. Beginning in the 2023-2024 Academic year all students will be required to complete MGT218H5 as the statistics course for this program.

Prerequisites: MGT353H5 and [MGT218H5 or ECO220Y5 or ECO227Y5 or STA218H5 or (STA256H5 and STA260H5) or (STA256H5 and STA258H5)]

Exclusions: MGMC01H3

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

MGT454H5 • Special Topics in Marketing

This course focuses on a specific theoretical or functional area of marketing. The area of concentration depends on the instructor. Examples of areas that may be covered include current issues in consumer behaviour, advertising, industrial marketing, or retailing. The contact hours for this course may vary in terms of contact type (L,S,T,P) from year to year, but will be between 24-36 contact hours in total. See the UTM Timetable.

Prerequisites: MGT353H5

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

MGT455H5 • Marketing Consulting: Models for Analysis

This course reviews the science side of marketing by studying multiple models used by companies and consulting firms in the different steps of the marketing process. The marketing consulting approach provides a deeper understanding of the process that supports marketing management decisions. This is of benefit not only for students following a marketing consulting path, but also for students joining marketing departments of Canadian firms. To enhance the learning experience the course will be strongly based on software applications that offer hands on exposure to real life corporate applications.

Note:

STA218H5 will no longer be accepted as an appropriate course for this program AFTER the 2022-2023 Academic year. Beginning in the 2023-2024 Academic year all students will be required to complete MGT218H5 as the statistics course for this program.

Prerequisites: (MGT252H5 or MGM252H5) and (MGT218H5 or ECO220Y5 or STA221H5 or STA218H5)

Exclusions: MGMD01H3

Distribution Requirements: Social Science

Total Instructional Hours: 24P

Mode of Delivery: In Class

MGT456H5 • Marketing Ethics

There is a growing public awareness of (and interest in) the ethics of marketing. Therefore, it is increasingly important for marketing practitioners to be attuned to the many ethical challenges that they will inevitably confront. This class explores these issues from a managerial perspective by reviewing relevant conceptual frameworks for ethics-based decision-making and extending them to real-world examples faced by marketers. In particular, we will explore ethical issues in pricing, product development, promotions, market segmentation, targeting, and market research, with an emphasis on how technological advancements have brought new considerations to the forefront of marketing ethics.

Prerequisites: MGT353H5

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

MGT457H5 • Business to Business Marketing

Business to business (B2B) marketing dwarfs business to consumer (B2C) marketing in terms of total transaction value. In this course we will focus on how B2B marketing is different from B2C marketing and how demand in the business market is derived from demand in the consumer market. We will also discuss customer and supplier relationships, supply chain development, and the impact of globalization on B2B marketing.

Prerequisites: MGT353H5

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

MGT458H5 • Big Data and Marketing Analysis

Recent advances in computer technology have led to an explosion in the amount of data available for companies to use for market research. In order to be effective as a marketing manager today, it is necessary to understand how to apply cutting edge statistical models to large databases, such as scanner data, loyalty program data, or internet marketing data, and to be able to obtain managerial insights from model results. This course will introduce students to marketing analytics driven by big data, using applications from real world business problems.

Prerequisites: 1.0 credit in MGT or MGM at the 300 or 400 level.

Exclusions: MGT301H5 and RSM456H1

Recommended Preparation: MGT201H5

Distribution Requirements: Social Science

Total Instructional Hours: 24P

Mode of Delivery: In Class

MGT461H5 • Negotiations

We negotiate every day - with potential employers, coworkers, roommates, landlords, parents, bosses, merchants, service providers, and even our friends and romantic partners. Negotiation is the art and science of securing agreements between two or more interdependent parties. It is a craft that must hold cooperation and competition in creative tension. It can be very difficult to do well. Even the most experienced negotiators often fall prey to common biases and errors in judgment. This course is highly experiential - students will practice, reflect, analyze, and practice again - and draws its insights from research in the cognitive, behavioral and social sciences.

Prerequisites: 3.0 credits of MGM or MGT at the 200-level

Exclusions: MGHC52H3 or RSM461H1

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: Online, In Class

MGT463H5 • Managing Global Organizations

Understanding the global context of organizations is essential to surviving the competitive business environment while creating value in a sustainable and responsible way. This course provides a broad overview of the global environment and introduce critical perspectives in international business, as well as the key

management challenges of operating across nations and cultures. It will also consider ways in which management theories and practices should be adapted to transcend as well as be responsive to diverse business, social, and governmental settings. The course weaves together conceptual and practical considerations to create a balanced and exciting learning experience. It also includes an optional International Learning Experience component that involves travel to a country(s) outside of Canada to gain firsthand exposure to management practices in a different setting.

Prerequisites: 3.0 credits in MGM/MGT at the 200-level

Exclusions: MGT491H5

International Component: International - Optional

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

MGT480H5 • Internship

Students will be provided with an opportunity to apply, in a practical business setting, the management knowledge they have gained through previous course work. This is accomplished through part-time unpaid work placements, or "internships." The internship will provide students with a valuable opportunity to make personal contacts in the public or private sector. The course is also intended to help students acquire practical skills that will serve them well in the workplace. An application is required.

Prerequisites: 1.0 credit in MGT at the 300/400 level and 2.5 CGPA and 14.0 credits.

Exclusions: ECO400Y5

Course Experience: Partnership-Based Experience

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

MGT491H5 • Introduction to International Business

Focuses on developing an understanding of the fundamentals of doing business in an international environment. Based on the application of management theory, (trade theory, modes of entry, foreign direct investment, theory of the multinational) to the strategic management problems of organizing business in the international arena.

Prerequisites: 1.0 credit in MGT/MGM at the 300/400 level

Exclusions: MGT463H5 or RSM490H1

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

MGT492H5 • Introduction to Strategic Management

Focuses on industry analysis and different models of the firm. The key questions addressed are: "why do some firms succeed where others fail?" and "what strategy should a firm employ to reach its goals?"

Prerequisites: 1.0 credit in MGT/MGM at 300/400 level

Exclusions: MGM400H5 or MGSC01H3 or RSM392H1

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

executing the business plan, and ends with harvesting the venture's success.

Prerequisites: MGT231H5 and MGT232H5

Exclusions: RSM439H1

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

MGT493H5 • Small Business Management

Skills needed to set up and run a small business. Development of a business plan. Securing financing. Finding and keeping customers. Operations management. Aspects of legal, financial and taxation concerns of smaller businesses.

Prerequisites: MGT231H5 and MGT232H5 and 1.0 credit of MGT/MGM at the 300/400 level

Exclusions: RSM493H1

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

MGT494H5 • Entrepreneurial Strategy

This course introduces students to the challenges an entrepreneur faces when starting a business: assessing his/her goals and ability, attracting financial and human resources, competing in the marketplace, and dealing with laws and regulations. Readings and discussion material will include actual business cases as well as academic articles and book chapters. The class is of relevance to students interested in starting new businesses, working in consulting or finance, and pursuing research and graduate studies.

Prerequisites: Open to 3rd and 4th year Commerce and Management students.

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

MGT495H5 • Entrepreneurial Finance and Private Equity

This course is designed to introduce students to the challenges and pitfalls of financing new enterprises. We can think of entrepreneurial financing decisions in terms of a life cycle. The cycle begins with identifying opportunities and refining the business plan, moves to marshaling resources to take advantage of these opportunities and

The Institute for Management & Innovation (IMI) is the centre for trans-disciplinary education focused on innovation and innovation management at the University of Toronto Mississauga (UTM). The Institute's mission is to develop innovation-focused leaders, from all academic backgrounds, with a strong link to the external community. IMI also serves as a platform for fostering inter- and trans-disciplinary research and scholarship in areas relevant to its associated programs.

As a collaborative institute, IMI provides students with access to professional masters programs in biotechnology, accounting, innovation and sustainability, and undergraduate courses in accounting, finance, marketing and human resource management.

Certificate of Completion in Global Sustainability

The Certificate of Completion in Global Sustainability offers a greatly expanded opportunity for all UTM undergraduate students to learn about global sustainability, which is not limited to environmental conservation and includes all aspects of human wellbeing covered by the United Nations' 17 Sustainable Development Goals (SDGs). The SDGs include poverty, hunger, health, education, gender equality, social equities, clean water, clean energy, decent work, sustainable cities and communities, sustainable consumption, economic growth, climate change, peaceful societies, and environmental conservation.

The main objectives of the Certificate of Completion are: (i) to provide an intellectual and practical understanding of the holistic nature of global sustainability to transform the student's ability to engage in systems and integrative thinking; (ii) to develop applied and managerial skills to address real-life sustainability issues; and (iii) to enhance the opportunities for summer as well as regular full-time employment after graduation.

The Certificate of Completion will be available to all actively enrolled UTM undergraduate students who have completed 4.0 credits. Completion of the Certificate of Completion in Global Sustainability will require successful completion of 3 required modules and 3 elective modules. Each module will be approximately 10 hours (most will be five 2-hour sessions), and will include a set of workshops, group discussions, analyses of real-life sustainability problems/ issues, and exploration of diverse approaches to potential solutions. Students must participate in all 10 hours to receive credit for the module. Most modules will be offered on evenings or weekends or during special events (such as UTM's Sustainability Week) to reduce scheduling conflicts. Students can plan their own schedules to complete the six modules over their program length.

Required Global Sustainability Modules

Students must complete all three modules:

1. **Inter-disciplinary Perspectives on Global Sustainability:** The module will focus on inter- disciplinary perspectives and approaches (including natural science, social science, and humanities approaches) related to global sustainability. The module will also include complementarities and conflicts between the United Nations' 17 Sustainable Development Goals, and their global implications.

2. **Systems Thinking and Global Sustainability:** This module will focus on transforming the typical student's lens from reductionist thinking to systems, integrative, and critical thinking. The module will include the concepts of systems analysis and design, integrative thinking, and critical thinking, and their applications to analyze and design local and global sustainable systems.
3. **Sustainable Consumption:** This module will be "about doing more and better with less" and it will examine sustainable consumption from a variety of different perspectives, including the marketing view, the policy maker's view, the corporation's view, and the ethical view. Students will evaluate various theories of consumer behaviour, such as social influence, social dilemma, and collective effort. Finally, students will investigate the need for proactive consumer social

Elective Global Sustainability Modules

Students must complete three (3) modules of their choice. Each year, 3-5 elective modules will be offered on rotation. Check Quercus for the complete and up-to-date listing of module offerings.

1. **Sustainability Engagement and Reporting:** This module will focus on developing applied skills related to stakeholders' engagement in sustainability decision making and sustainability reporting at global, national, sub-national, and corporate scales. The module will include frameworks related to stakeholders' classification, stakeholders' materiality analysis, and sustainability reporting. The module will include the Global Reporting Initiative (GRI) Framework, Integrated Reporting, and ESG Reporting.
2. **Greenhouse Gas (GHG) Inventories:** This module will focus on developing applied skills related to measurement, reporting, and checking greenhouse gas inventories at a global, national, sub-national, corporate, and organizational level. The module will also cover global frameworks, standards and protocols related to GHG inventories.
3. **Waste Management Systems:** This module will focus on developing applied skills in designing waste management systems, for different types of waste, and in different contexts such as educational institutions, multi-unit buildings, and government offices.
4. **Global Sustainability Culture:** This module will develop the basic foundations of sustainability culture, and will include the role of Aboriginal culture, Equity, Diversity, and Inclusion (EDI), Love and Respect, and Humanistic Leadership in sustainability culture.
5. **Global Sustainability Communication:** This module highlights research at the intersection of fields like communication, media studies, journalism, cinema studies, visual studies, and science and technology studies. Sustainability communication draws attention to how media systems represent issues like climate change, sustainability, conservation, pollution, ecosystems, environmental health, food and agriculture, and energy.

Management and Innovation Courses

IMI201H5 • Fundamentals of Marketing

An introduction to the fundamentals of market definition, consumer behaviour, and the principal marketing functions: product line development, pricing, distribution,

promotion, salesforce management, advertising, research, and planning.

Recommended Preparation: [ECO101H5](#) or [ECO100Y5](#)

Enrolment Limits: Please note that this course is restricted to students enrolled in the Minor in Business, Science & Entrepreneurship.

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

IMI202H5 • Principles of Human Resource Management

Human Resource Management involves everything related to the employer-employee relationship and is

about supporting and managing the organisation's people and associated processes.

Recommended Preparation: ECO101H5 or ECO100Y5

Enrolment Limits: Please note that this course is restricted to students enrolled in the Minor in Business, Science & Entrepreneurship.

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

IMI203H5 • Essentials of Accounting: Financial & Managerial

Financial accounting revolves around the preparation and understanding of financial statements, including income statements, and balance sheets which help management and other stakeholders understand the state of affairs within an organization. Managerial accounting provides management with information, analysis and reports that support management's decision making.

Recommended Preparation: ECO101H5 or ECO100Y5

Enrolment Limits: Please note that this course is restricted to students enrolled in the Minor in Business, Science & Entrepreneurship.

Distribution Requirements: Social Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

IMI299H5 • Research Opportunity Program

This course provides a rewarding opportunity for students in their second year to work in the research project of a professor in return for IMI299H5 course credit. Based on the nature of the project, projects may satisfy the Social Sciences or Sciences distribution requirement. Students enrolled have an opportunity to become involved in original research, learn research methods and share in the excitement and discovery of acquiring new knowledge. Participating faculty members post their project descriptions for the following summer and fall/winter sessions in early February and students are invited to apply in early March. See Experiential and International Opportunities for more details.

Exclusions: Concurrent enrolment in IMI399H5 or IMI499H5.

Mode of Delivery: In Class

IMI301H5 • Essentials of Finance

The two main fields of finance are investments and the financing of corporations. In the investments segment, students first learn how individual investors decide on their investments based on the time value of money and risk and return trade-offs. In the corporate finance segment students will build on the insights from the investments

segment to understand the financing of firms within the context of capital markets.

Prerequisites: IMI203H5

Recommended Preparation: ECO101H5 or ECO100Y5

Enrolment Limits: Please note that this course is restricted to students enrolled in the Minor in Business, Science & Entrepreneurship.

Distribution Requirements: Social Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

IMI302H5 • Managing Projects, Operations & Preparing a Business Plan

Every business needs to formulate the strategies by which it will compete successfully in the market place, and plan for the implementation of these strategies, which may include joint ventures, strategic alliances, etc. This requires operational capabilities, the preparation of business plans and project management skills.

Recommended Preparation: ECO101H5 or ECO100Y5

Enrolment Limits: Please note that this course is restricted to students enrolled in the Minor in Business, Science & Entrepreneurship.

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

IMI303H5 • Technology Strategy

Businesses typically want to grow and compete. Science oriented businesses rely on innovation, protected by intellectual property rights and patents, to gain and sustain competitive advantage. Entrepreneurial science-based start-up ventures especially need a strong intellectual foundation, and they need to raise capital.

Prerequisites: ECO101H5 or ECO100Y5

Enrolment Limits: Please note that this course is restricted to students enrolled in the Minor in Business, Science & Entrepreneurship.

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

IMI399H5 • Research Opportunity Program

This course provides a rewarding opportunity for students in their third or fourth year to undertake relatively advanced work in the research project of a professor in return for IMI399H5 course credit. Based on the nature of the project, projects may satisfy the Social Sciences or Sciences distribution requirement. Students enrolled have an opportunity to become involved in original research, learn research methods and share in the excitement and

discovery of acquiring new knowledge. Participating faculty members post their project descriptions for the following summer and fall/winter sessions in early February and students are invited to apply in early March. See [Experiential and International Opportunities](#) for more details.

Prerequisites: 8.0 credits and permission of instructor

Exclusions: Concurrent enrolment in [IMI299H5](#) or [IMI499H5](#)

Mode of Delivery: In Class

IMI400H5 • Innovation and Entrepreneurship

Students in this course will analyze business cases, read academic studies, and interact with guest lecturers to gain familiarity with the major challenges that entrepreneurs encounter in successfully bringing innovations to market. Topics to be addressed include market and industry analysis, managing value chains, competing and positioning in the marketplace, negotiating for and obtaining financial resources, defining a business model, writing a business plan, and growth and exit strategies. In addition to more "traditional" lectures, there will be a number of guest lectures, especially in the second half of the course, provided from practitioners in different areas of interest, including current entrepreneurs, technologists, early-stage investors, and IP lawyers. The course is open to 2nd-, 3rd- and 4th-year students in all programs and does not require any prerequisites.

Exclusions: [MGT494H5](#)

Enrolment Limits: Please note that preference will be given to students enrolled in the Minor in Business, Science & Entrepreneurship.

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

IMI499H5 • Research Opportunity Program

This course provides a rewarding opportunity for students in their fourth year to undertake relatively advanced work in the research project of a professor in return for [IMI499H5](#) course credit. Based on the nature of the project, projects may satisfy the Social Sciences or Sciences distribution requirement. Students enrolled have an opportunity to become involved in original research, learn research methods and share in the excitement and discovery of acquiring new knowledge. Participating faculty members post their project descriptions for the following summer and fall/winter sessions in early February and students are invited to apply in early March. See [Experiential and International Opportunities](#) for more details.

Prerequisites: 14.0 credits and permission of instructor

Exclusions: Concurrent enrolment in [IMI299H5](#) or [IMI399H5](#)

Mode of Delivery: In Class

www.utm.utoronto.ca/math-cs-stats

Mathematics teaches one to think analytically and creatively. It is a foundation for advanced careers in a knowledge-based economy. The past century has been a remarkable one for discovery in mathematics. Problems in computer science, physics, biology, and economics have opened new fields of mathematical inquiry, and discoveries at the most abstract level, for example in number theory, have led to breakthroughs in applied areas.

The Mathematical Sciences Specialist Program at U of T Mississauga provides students with a solid foundation in the fundamental theoretical aspects of the mathematical sciences along with a broad range of techniques for applying this theory. The Major and Minor Programs in Mathematical Sciences consist largely of MAT courses, and may be combined with programs in other subjects.

First-year Courses

Most first-year students at U of T Mississauga take courses in calculus. This could be either a year-long Y course (MAT133Y5) or two one-term H courses (MAT132H5 and MAT134H5) or (MAT135H5 and MAT136H5) or (MAT137H5 and MAT139H5) or (MAT157H5 and MAT159H5).

MAT133Y5 serves students in Commerce, Economics or Management who do not wish to take courses in Mathematics or Statistics beyond the 100 level. It cannot be used as a prerequisite for any other MAT course, except for students who have also completed MAT233H5. MAT133Y5 counts as a Science course for distribution purposes.

Students in the above subjects who wish to do a Major in Statistics or Mathematics should take (MAT135H5 and MAT136H5) or (MAT137H5 and MAT139H5) or (MAT157H5 and MAT159H5) instead.

(MAT132H5 and MAT134H5) and (MAT135H5 and MAT136H5) are comparable in terms of mathematical content and difficulty, but differ in the nature of applications. (MAT132H5 and MAT134H5) are specifically designed for students in the Life Sciences, and are often taken at the same time as (BIO152H5 and BIO153H5). (MAT135H5 and MAT136H5) give a sense of the wide-ranging applications of calculus to the physical, biological and social sciences.

(MAT137H5 and MAT139H5) and (MAT157H5 and MAT159H5) are for students who know when they enter university that they wish to study Mathematics or Computer Science). Students in Statistics, Physics or Economics who are mathematically inclined will also enjoy these courses. (MAT157H5 and MAT159H5) offer the rigour and depth needed to prepare students for advanced studies in mathematics. Students with a very serious interest in mathematics, including those who wish to pursue graduate-level studies in mathematics, should therefore consider taking (MAT157H5 and MAT159H5).

***Note:** Effective September 1, 2023, in the Fall 2023 – Winter 2024 academic session, MAT137Y5 and MAT157Y5 will be split into two one-semester H courses. MAT137Y5 will be split into MAT137H5 and MAT139H5, and MAT157Y5 will be split into MAT157H5 and MAT159H5.

MAT102H5 is a special course for beginning Mathematical Sciences students. It is intended to bridge the gap between high school mathematics, where mathematical proofs and logical arguments are often omitted, and university-level mathematics, where proofs are critical to a full understanding of the material.

A wide variety of upper-level courses is available to students who have the proper prerequisites. Students should feel free to consult the department regarding course selection.

Students should also review the [Degree Requirements](#) section prior to selecting courses

Program website: www.utm.utoronto.ca/math-cs-stats

Mathematical Sciences Programs

Mathematical Sciences - Specialist (Science)

The Specialist Program in Mathematical Sciences is primarily directed toward students who hope to pursue graduate studies in, or related to mathematics.

Enrolment Requirements:

Limited Enrolment — Enrolment in the Specialist program is limited to students with a minimum of 4.0 credits, including:

1. MAT102H5 (minimum 65%);
2. MAT137Y5 or MAT139H5 (minimum 60%) or MAT157Y5 or MAT159H5; and
3. A minimum cumulative grade point average (CGPA), to be determined annually.
4. All students must complete 4.0 U of T credits before requesting this program. Courses with a grade of CR/NCR will not count as a part of the 4.0 credits required for program entry.

Completion Requirements:

13.5 credits are required.

First Year:

1. CSC108H5 and CSC148H5
2. MAT102H5 and MAT240H5
3. [(MAT137H5 or MAT157H5) and (MAT139H5 or MAT159H5)] or MAT137Y5 or MAT157Y5

Second Year:

1. CSC236H5
2. MAT202H5 and MAT244H5 and MAT247H5 and MAT257Y5
3. STA256H5 and (STA258H5 or STA260H5)

Higher Years:

1. MAT301H5 and (MAT334H5 or MAT354H5) and MAT392H5
2. MAT302H5 or MAT315H5
3. 2.0 additional credit from MAT302H5 or MAT309H5 or MAT311H5 or MAT315H5 or MAT332H5 or (MAT337H5 or MAT378H5) or MAT344H5
4. 1.0 additional credits in MAT at the 400 level (MAT401H5 is recommended)
5. 1.0 additional credits at the 300/400 level in CSC or MAT/ STA, except MAT322H5
6. 0.5 additional credits in MAT at the 300+level, except MAT322H5

NOTES:

1. Mathematical Science Specialists are strongly encouraged to enroll in MAT157H5, MAT159H5, MAT257Y5, and MAT354H5.
2. Students are strongly encouraged to familiarize themselves with the 100-level calculus pre-requisites to select the correct courses.
3. Students may replace MAT257Y5 with [(MAT232H5 or MAT233H5) and MAT236H5], but if they do then MAT337H5 AND MAT405H5 are required as part of "Higher Years".
4. Students who do not feel ready for MAT257Y5 in their Second Year, may wish to take MAT232H5 that year, and then take MAT257Y5 in their Third Year.

ERSPE2511

Mathematical Sciences - Major (Science)

Enrolment Requirements:

Limited Enrolment — Enrolment in the Major program is limited to students with a minimum of 4.0 credits, including:

1. MAT102H5 (minimum 60%);
2. MAT134H5 or MAT136H5 or MAT139H5 or MAT134Y5 or MAT135Y5 or MAT233H5 (minimum 60%) or MAT159H5 or MAT137Y5 or MAT157Y5; and
3. A minimum cumulative grade point average (CGPA), to be determined annually.
4. All students must complete 4.0 U of T credits before requesting this program. Courses with a grade of CR/NCR will not count as a part of the 4.0 credits required for program entry.

Completion Requirements:

8.0 credits are required.

First Year:

1. MAT102H5
2. [(MAT132H5 or MAT135H5 or MAT137H5 or MAT157H5) and (MAT134H5 or MAT136H5 or MAT139H5 or MAT159H5)] or MAT134Y5 or MAT135Y5 or MAT137Y5 or MAT157Y5
3. MAT223H5 or MAT240H5

Second Year:

1. MAT202H5 and MAT244H5
2. [(MAT232H5 or MAT233H5) and MAT236H5] or MAT257Y5
3. MAT224H5 or MAT247H5

Higher Years:

1. MAT301H5 and (MAT334H5 or MAT354H5)
2. MAT337H5 or MAT378H5 or MAT392H5 or MAT405H5
3. MAT305H5 or MAT311H5 or MAT332H5
4. MAT302H5 or MAT315H5 or MAT344H5
5. STA256H5 or 0.5 credit of MAT at the 300/ 400 level, except MAT322H5
6. 0.5 additional credits in MAT at the 400 level

NOTES:

1. MAT137H5 and MAT139H5 are recommended.
2. Students are strongly encouraged to familiarize themselves with the 100-level calculus pre-requisites to select the correct courses.
3. Mathematical Majors are strongly encouraged to enroll in MAT240H5 followed by MAT247H5.

ERMAJ2511

Mathematical Sciences - Minor (Science)

Completion Requirements:

4.0 credits in MAT are required, including 1.0 credit of MAT at the 300/400 level.

First Year:

1. MAT102H5
2. [(MAT132H5 or MAT135H5 or MAT137H5 or MAT157H5) and (MAT134H5 or MAT136H5 or MAT139H5 or MAT159H5)] or MAT134Y5 or MAT135Y5 or MAT137Y5 or MAT157Y5

Second Year:

1. MAT223H5 or MAT240H5
2. [MAT232H5 and (MAT202H5 or MAT224H5 or MAT236H5 or MAT240H5 or MAT244H5 or MAT247H5 or CSC236H5)] or MAT257Y5

Higher Years:

1. 1.0 credit of MAT at the 300+ level

NOTES:

1. MAT223H5 or MAT240H5 may be taken in the first year.
2. Students may replace the combination [(MAT132H5 or MAT135H5 or MAT137H5 or MAT157H5) and (MAT134H5 or MAT136H5 or MAT139H5 or MAT159H5)] or MAT134Y5 or MAT135Y5 or MAT137Y5 or MAT157Y5 and MAT232H5 with the combination (MAT133Y5 and MAT233H5)
3. Students are strongly encouraged to familiarize themselves with the 100-level calculus pre-requisites to select the correct courses.

ERMIN2511

Mathematical Sciences Courses

MAT102H5 • Introduction to Mathematical Proofs

Understanding, using and developing precise expressions of mathematical ideas, including definitions and theorems. Set theory, logical statements and proofs, induction, topics chosen from combinatorics, elementary number theory, Euclidean geometry.

Prerequisites: Minimum 70% in Grade 12 Advanced Functions (MHF4U)

Exclusions: MAT138H1 or MAT246H1 or CSC165H1 or CSCA67H3

Recommended Preparation: Minimum 70% in Grade 12 Calculus and Vectors (MCV4U)

Distribution Requirements: Science

Total Instructional Hours: 41L/12T

Mode of Delivery: In Class

MAT132H5 • Differential Calculus for Life Sciences

Review of functions and their graphs, trigonometry, exponentials and logarithms. Limits and continuity of functions of a single variable. Derivatives and differentiation techniques. Applications of differentiation, including extreme values, related rates and optimization. Life science applications are emphasized.

Prerequisites: Minimum 70% in Grade 12 Advanced Functions (MHF4U)

Exclusions: MAT133Y5 or MAT134Y5 or MAT135H5 or MAT135Y5 or MAT137H5 or MAT137Y5 or MAT157H5 or MAT157Y5 or MAT133Y1 or MAT135Y1 or MAT135H1 or MAT137Y1 or MAT157Y1 or MATA29H3 or MATA30H3 or MATA31H3 or MATA32H3

Recommended Preparation: Highly Recommended: Minimum 70% in Grade 12 Calculus and Vectors (MCV4U)

Enrolment Limits: Restricted to students in a Life Science Program.

Distribution Requirements: Science

Total Instructional Hours: 40L/12T

Mode of Delivery: In Class

MAT133Y5 • Calculus and Linear Algebra for Commerce

Mathematics of finance, matrices and linear equations. Review of differential calculus; applications. Integration and fundamental theorem; applications. Introduction to partial differentiation; applications. NOTE: This course cannot be used as the calculus prerequisite for any 200-level MAT or STA course, except in combination with MAT233H5.

Prerequisites: Minimum 70% in Grade 12 Advanced Functions (MHF4U).

Exclusions: MAT132H5 or MAT134H5 or MAT135H5 or MAT136H5 or MAT137H5 or MAT139H5 or MAT157H5 or MAT159H5 or MAT134Y5 or MAT135Y5 or MAT137Y5 or MAT157Y5 or MAT135H1 or MAT136H1 or MAT133Y1 or MAT135Y1 or MAT137Y1 or MAT157Y1 or MATA30H3 or MATA31H3 or MATA32H3 or MATA33H3 or MATA35H3 or MATA36H3 or MATA37H3

Recommended Preparation: Highly Recommended: Minimum 70% in Grade 12 Calculus and Vectors (MCV4U).

Enrolment Limits: This course cannot be used for the specialist or major programs in Mathematics, Statistics or Computer Science, except in combination with MAT233H5. Restricted to students admitted into Management or Commerce.

Distribution Requirements: Science

Total Instructional Hours: 80L/24T

Mode of Delivery: In Class

MAT134H5 • Integral Calculus for Life Sciences

Continuation of MAT132H5. Antiderivatives and indefinite integrals in one variable, definite integrals and the fundamental theorem of calculus. Integration techniques and applications of integration. Infinite sequences, series and convergence tests. Power series, Taylor and Maclaurin series. Life science applications are emphasized.

Prerequisites: MAT132H5 or MAT135H5 or MAT137H5 or MAT157H5 or MAT135H1 or MATA29H3 or MATA30H3 or MATA31H3

Exclusions: MAT133Y5 or MAT134Y5 or MAT135Y5 or MAT137Y5 or MAT139H5 or MAT133Y1 or MAT135Y1 or MAT136H1 or MAT136H5 or MAT137Y1 or MAT157Y1 or MAT157Y5 or MAT159H5 or MATA33H3 or MATA35H3 or MATA36H3 or MATA37H3

Enrolment Limits: Restricted to students in a Life Science Program.

Distribution Requirements: Science

Total Instructional Hours: 40L/12T

Mode of Delivery: In Class

MAT135H5 • Differential Calculus

Review of functions and their graphs, trigonometry, exponentials and logarithms. Limits and continuity of functions of a single variable. Derivatives and differentiation techniques. Applications of differentiation, including extreme values, related rates and optimization. A wide range of applications from the sciences will be discussed.

Prerequisites: Minimum 70% in Grade 12 Advanced Functions (MHF4U)

Exclusions: MAT132H5 or MAT133Y5 or MAT134Y5 or MAT135Y5 or MAT137Y5 or MAT137H5 or MAT133Y1 or MAT135Y1 or MAT135H1 or MAT137Y1 or MAT157Y1 or MAT157Y5 or MAT157H5 or MATA29H3 or MATA30H3 or MATA31H3 or MATA32H3

Recommended Preparation: Highly Recommended: Minimum 70% in Grade 12 Calculus and Vectors (MCV4U)

Distribution Requirements: Science

Total Instructional Hours: 40L/12T

Mode of Delivery: In Class

MAT136H5 • Integral Calculus

Continuation of MAT135H5. Antiderivatives and indefinite integrals in one variable, definite integrals and the fundamental theorem of calculus. Integration techniques and applications of integration. Infinite sequences, series and convergence tests. Power series, Taylor and Maclaurin series. A wide range of applications from the sciences will be discussed.

Prerequisites: MAT132H5 or MAT135H5 or MAT137H5 or MAT157H5 or MAT135H1 or MATA29H3 or MATA30H3 or MATA31H3

Exclusions: MAT133Y5 or MAT134Y5 or MAT135Y5 or MAT137Y5 or MAT139H5 or MAT133Y1 or MAT135Y1 or MAT136H1 or MAT134H5 or MAT137Y1 or MAT157Y1 or MAT157Y5 or MAT159H5 or MATA33H3 or MATA35H3 or MATA36H3 or MATA37H3

Distribution Requirements: Science

Total Instructional Hours: 40L/12T

Mode of Delivery: In Class

MAT137H5 • Differential Calculus for Mathematical Sciences

A conceptual approach to calculus. A focus on theoretical foundations and proofs as well as some emphasis on geometric and physical intuition. Limits and continuity, differentiation, the mean value, extreme value and inverse function theorems. Applications typically include related rates and optimization.

Prerequisites: Minimum 70% in Grade 12 Advanced Functions (MHF4U) and Minimum 70% in Grade 12 Calculus and Vectors (MCV4U).

Exclusions: MAT132H5 or MAT133Y5 or MAT134Y5 or MAT135H5 or MAT137Y5 or MAT135Y5 or MAT157H5 or MAT157Y5 or MAT133Y1 or MAT135Y1 or MAT135H1 or MAT137Y1 or MAT157Y1 or MATA30H3 or MATA31H3 or MATA32H3 or MATA33H3 or MATA35H3 or MATA36H3 or MATA37H3

Distribution Requirements: Science

Total Instructional Hours: 40L/24T

Mode of Delivery: In Class

MAT139H5 • Integral Calculus for Mathematical Sciences

A conceptual sequel to MAT137H5. Integration, the fundamental theorem of calculus, sequences and series, power series and Taylor's theorem. Applications typically include approximation, integration techniques, areas and volumes.

Prerequisites: MAT137H5 or MAT157H5

Exclusions: MAT133Y5 or MAT134H5 or MAT134Y5 or MAT135Y5 or MAT136H5 or MAT137H5 or MAT157H5 or MAT157Y5 or MAT133Y1 or MAT135Y1 or MAT135H1 or MAT137Y1 or MAT157Y1 or MATA30H3 or MATA31H3 or MATA32H3 or MATA33H3 or MATA35H3 or MATA36H3 or MATA37H3

Distribution Requirements: Science
Total Instructional Hours: 40L/24T
Mode of Delivery: In Class

MAT157H5 • Analysis I

A rigorous and proof-intensive introduction to the analysis of single variable real-valued functions for students with a serious interest in mathematics. Topics typically include the construction of the real numbers, the epsilon-delta definition of the limit, continuity, and differentiation.

Prerequisites: [Minimum 70% in Grade 12 Advanced Functions (MHF4U)] and [Minimum 70% in Grade 12 Calculus and Vectors (MCV4U)]

Corequisites: MAT102H5 (strongly recommended in the Fall term for students taking MAT157H5 in their first year).

Exclusions: MAT157Y5 or MAT157Y1 or MATA37H3

Distribution Requirements: Science

Total Instructional Hours: 36L/24T

Mode of Delivery: In Class

MAT159H5 • Analysis II

A rigorous and proof-intensive sequel to MAT157H5 for students with a serious interest in mathematics. Topics typically include sequences, series, and integration of single variable real-valued functions.

Prerequisites: MAT157H5

Exclusions: MAT157Y5 or MAT157Y1 or MATA37H3

Distribution Requirements: Science

Total Instructional Hours: 36L/24T

Mode of Delivery: In Class

MAT202H5 • Introduction to Discrete Mathematics

Mathematics derives its great power from its ability to formulate abstract concepts and techniques. In this course, students will be introduced to abstraction and its power through a study of topics from discrete mathematics. The topics covered will include: Sets, relations and functions; Basic counting techniques: subsets, permutations, finite sequences, inclusion-exclusion; Discrete probability: random variables paradoxes and surprises; Basic number theory: properties of the integers and the primes. The course will emphasize active participation of the students in discussion and written assignments.

Prerequisites: MAT102H5 and (MAT134H5 or MAT134Y5 or MAT135Y5 or MAT136H5 or MAT137Y5 or MAT139H5 or MAT157Y5 or MAT159H5 or MAT233H5)

Enrolment Limits: Priority is given to students enrolled in the Mathematics, Computer Science and Statistics Specialist or Major programs.

Distribution Requirements: Science

Total Instructional Hours: 36L/12T

Mode of Delivery: In Class

MAT223H5 • Linear Algebra I

Systems of linear equations, matrix algebra, determinants. Vector geometry in R^2 and R^3 . Complex numbers. R^n : subspaces, linear independence, bases, dimension, column spaces, null spaces, rank and dimension formula. Orthogonality, orthonormal sets, Gram-Schmidt orthogonalization process, least square approximation. Linear transformations from R^n to R^m . The determinant, classical adjoint, Cramer's rule. Eigenvalues, eigenvectors, eigenspaces, diagonalization. Function spaces and applications to a system of linear differential equations. The real and complex number fields.

Prerequisites: Grade 12 Advanced Functions (MHF4U) and Grade 12 Calculus and Vectors (MCV4U or MAT102H5).

Exclusions: MAT223H1 or MATA22H3 or MATA23H3 or MAT240H1 or MAT240H5

Distribution Requirements: Science

Total Instructional Hours: 40L/12T

Mode of Delivery: In Class, Hybrid

MAT224H5 • Linear Algebra II

Abstract vector spaces: subspaces, dimension theory. Linear mappings: kernel, image, dimension theorem, isomorphisms, matrix of a linear transformation. Change of basis, invariant subspaces, direct sums, cyclic subspaces, Cayley-Hamilton theorem. Inner product spaces, orthogonal transformations, orthogonal diagonalization, quadratic forms, positive definite matrices. Complex operators: Hermitian, unitary and normal. Spectral Theorem. Isometries of R^2 and R^3 .

Prerequisites: MAT102H5 and MAT223H5

Exclusions: MAT240H5 or MAT224H1 or MATB24H3

Distribution Requirements: Science

Total Instructional Hours: 36L/12T

Mode of Delivery: In Class

MAT232H5 • Calculus of Several Variables

Differential and integral calculus of several variables: partial differentiation, chain rule, extremal problems, Lagrange multipliers, classification of critical points. Multiple integrals, Green's theorem and related topics.

Prerequisites: MAT134H5 or MAT134Y5 or MAT135Y5 or MAT136H5 or MAT137Y5 or MAT139H5 or MAT157Y5 or MAT159H5

Exclusions: MAT233H5 or MAT235Y1 or MAT237Y1 or MAT257Y5 or MAT257Y1 or MATB41H3

Recommended Preparation: MAT223H5 or MAT240H5

Distribution Requirements: Science

Total Instructional Hours: 40L/12T

Mode of Delivery: In Class

MAT233H5 • Calculus of Several Variables

"Bridging Course"; accepted as prerequisite for upper level courses in replacement of [MAT232H5](#). Limited Enrolment. Sequences and series, power series, Taylor series, trigonometric and inverse trigonometric functions and their use in integrations. Differential and integral calculus of several variables; partial differentiation, chain rule, extremal problems, Lagrange multipliers, classification of critical points. Multiple integrals, Green's theorem and related topics.

Prerequisites: [MAT134H5](#) or [MAT134Y5](#) or [MAT135Y5](#) or [MAT136H5](#) or [MAT137Y5](#) or [MAT139H5](#) or [MAT157Y5](#) or [MAT159H5](#) or 65% in [MAT133Y5](#)

Exclusions: [MAT232H5](#) or [MAT235Y1](#) or [MAT237Y1](#) or [MAT257Y1](#) or [MAT257Y5](#) or [MATB41H3](#)

Recommended Preparation: [MAT223H5](#) or [MAT240H5](#)

Distribution Requirements: Science

Total Instructional Hours: 48L/12T

Mode of Delivery: In Class

MAT236H5 • Vector Calculus

The implicit function theorem, vector fields. Transformations. Parametrized integrals. Line, surface and volume integrals. Theorems of Gauss and Stokes with applications.

Prerequisites: [MAT102H5](#) and ([MAT223H5](#) or [MAT240H5](#)) and ([MAT232H5](#) or [MAT233H5](#))

Exclusions: [MAT235Y1](#) or [MAT237Y1](#) or [MAT257Y1](#) or [MAT257Y5](#) or [MATB42H3](#)

Enrolment Limits: Priority is given to students enrolled in Mathematics, Computer Science and Statistics Specialist or Major programs; Astronomical Sciences Specialist (ERSPE1025) and Astronomy Major (ERMAJ2204) programs.

Distribution Requirements: Science

Total Instructional Hours: 36L/12T

Mode of Delivery: In Class

MAT240H5 • Algebra I

A theoretical approach to Linear Algebra and its foundations, aimed at students with a serious interest in Mathematics. Topics to be covered: Vector spaces over arbitrary fields (including \mathbb{C} and finite fields), linear equations and matrices, bases and linear independence, linear transformations, determinants, eigenvalues and eigenvectors, similarity, change of basis, diagonalization, the characteristic and minimal polynomials, the Cayley-Hamilton theorem.

Prerequisites: 65% in [MAT102H5](#)

Exclusions: [MAT224H5](#) or [MAT224H1](#) or [MAT240H1](#)

Distribution Requirements: Science

Total Instructional Hours: 36L/24T

Mode of Delivery: In Class

MAT244H5 • Differential Equations I

Ordinary differential equations of the first and second order, existence and uniqueness; solutions by series and integrals; linear systems of first order; linearization of non-linear systems. Applications in life and physical sciences. Power series solutions, boundary value problems, Fourier series solutions, numerical methods.

Prerequisites: ([MAT134H5](#) or [MAT134Y5](#) or [MAT135Y5](#) or [MAT136H5](#) or [MAT137Y5](#) or [MAT139H5](#) or [MAT157Y5](#) or [MAT159H5](#) or [MAT233H5](#)) and ([MAT223H5](#) or [MAT240H5](#)).

Exclusions: [MAT322H5](#) or [MAT244H1](#) or [MAT267H1](#) or [MATB44H3](#)

Enrolment Limits: Priority is given to students enrolled in Mathematics, Computer Science and Statistics Specialist or Major programs; Astronomical Sciences Specialist (ERSPE1025), Astronomy Major (ERMAJ2204), Biophysics Specialist (ERSPE1944), and Physics Major (ERMAJ1944).

Distribution Requirements: Science

Total Instructional Hours: 36L/12T

Mode of Delivery: In Class

MAT247H5 • Algebra II

Continuation of [MAT240H5](#). A theoretical approach to real and complex inner product spaces, isometries, orthogonal and unitary matrices and transformations. The adjoint. Hermitian and symmetric transformations. Spectral theorem for symmetric and normal transformations. Polar representation theorem. Primary decomposition theorem. Rational and Jordan canonical forms. Additional topics including dual spaces, quotient spaces, bilinear forms, quadratic surfaces, multilinear algebra.

Prerequisites: [MAT240H5](#) or [MAT240H1](#)

Exclusions: [MAT247H1](#)

Distribution Requirements: Science

Total Instructional Hours: 36L/12T

Mode of Delivery: In Class

MAT257Y5 • Analysis III

A rigorous and proof-intensive course in multivariable calculus for students with a serious interest in mathematics. Topology of metric spaces; compactness, functions and continuity, the extreme value theorem. Derivatives; inverse and implicit function theorems, maxima and minima. Integration; Fubini's theorem, partitions of unity, change of variables. Integration on manifolds; Stokes' theorem.

Prerequisites: ([MAT157Y5](#) or [MAT159H5](#)) and [MAT240H5](#)

Exclusions: [MAT237Y1](#) or [MAT257Y1](#)

Distribution Requirements: Science

Total Instructional Hours: 72L/48T

Mode of Delivery: In Class

MAT299Y5 • Research Opportunity Program

This course provides a richly rewarding opportunity for students in their second year to work in the research project of a professor in return for 299Y course credit. Students enrolled have an opportunity to become involved in original research, learn research methods and share in the excitement and discovery of acquiring new knowledge. Participating faculty members post their project descriptions for the following summer and fall/winter sessions in early February and students are invited to apply in early March. See [Experiential and International Opportunities](#) for more details.

Prerequisites: Departmental permission.

Distribution Requirements: Science

Mode of Delivery: In Class

MAT301H5 • Groups and Symmetries

Permutations and permutation groups. Linear groups. Abstract groups, homomorphisms, subgroups. Symmetry groups of regular polygons and platonic solids, wallpaper groups. Group actions, class formula. Cosets, Lagrange's theorem. Normal subgroups, quotient groups. Classification of finitely generated Abelian Groups. Emphasis on examples and calculations.

Prerequisites: [MAT102H5](#) and ([MAT202H5](#) or [MAT224H5](#) or [MAT240H5](#))

Exclusions: [MAT301H1](#) or [MAT347Y1](#) or [MATC01H3](#)

Enrolment Limits: Priority is given to students enrolled in the Mathematics, Computer Science and Statistics Specialist or Major programs.

Distribution Requirements: Science

Total Instructional Hours: 36L/12T

Mode of Delivery: In Class

MAT302H5 • Introduction to Algebraic Cryptography

(Cross list with [CSC322H5](#)) The course will take students on a journey through the methods of algebra and number theory in cryptography, from Euclid to Zero Knowledge Proofs. Topics include: block ciphers and the Advanced Encryption Standard (AES); algebraic and number-theoretic techniques and algorithms in cryptography, including methods for primality testing and factoring large numbers; encryption and digital signature systems based on RSA, factoring, elliptic curves and integer lattices; and zero-knowledge proofs.

Prerequisites: ([MAT224H5](#) or [MAT240H5](#)) and [MAT301H5](#)

Exclusions: [CSC322H5](#) or [MATD16H3](#)

Enrolment Limits: Priority is given to students enrolled in the Mathematics, Computer Science and Statistics Specialist or Major programs.

Distribution Requirements: Science

Total Instructional Hours: 36L/12T

Mode of Delivery: In Class

MAT305H5 • Elementary Lie Theory

This course is an introduction to the theory of matrix groups with a particular emphasis on applications and examples. This course will cover orthogonal transformations in two and three dimensions, quaternions, isometries of Euclidean space, Lie algebras and matrix exponentials.

Prerequisites: [([MAT224H5](#) or [MAT240H5](#)) and [MAT236H5](#)] or [MAT257Y5](#)

Enrolment Limits: Priority is given to students enrolled in the Mathematics, Computer Science and Statistics Specialist or Major programs.

Distribution Requirements: Science

Total Instructional Hours: 36L/12T

Mode of Delivery: In Class

MAT307H5 • Curves and Surfaces

This course is an introduction to the theory of curves and surfaces with a particular emphasis on applications and computational techniques. This course will cover curves in R^2 and R^3 , curvature, torsion, differential of maps, First Fundamental Form, Parallel transport, Bishop Frames, Geodesics, Gauss-Bonnet Theorem, and Gaussian curvature.

Prerequisites: [([MAT224H5](#) or [MAT240H5](#)) and ([MAT232H5](#) or [MAT233H5](#))] or [MAT257Y5](#)

Exclusions: [MAT363H1](#) or [MAT367H1](#) or [MATC63H3](#) or [MATD26H3](#) or [MATD67H3](#)

Enrolment Limits: Priority is given to students enrolled in the Mathematics, Computer Science and Statistics Specialist or Major programs.

Distribution Requirements: Science

Total Instructional Hours: 36L/12T

Mode of Delivery: In Class

MAT309H5 • Introduction to Mathematical Logic

The relationships among axioms, proofs, consistency and truth in mathematics. Soundness and Completeness. Introductions to model theory, set theory, and computability; arithmetic as a central example. Gödel's incompleteness theorems; outlines of their proofs. This course emphasizes rigour.

Prerequisites: [MAT257Y5](#) or [[MAT236H5](#) and ([MAT202H5](#) or [MAT224H5](#) or [MAT240H5](#))] and 0.5 additional credit of MAT at the 300+ level]

Exclusions: [CSC438H1](#) or [MAT309H1](#) or [MAT409H1](#) or [MAT357Y1](#) or [MATC09H3](#)

Enrolment Limits: Priority is given to students enrolled in the Mathematics and Computer Science Specialist or

Major programs.

Distribution Requirements: Science

Total Instructional Hours: 36L/12T

Mode of Delivery: In Class

MAT311H5 • Partial Differential Equations

Partial differential equations of applied mathematics, mathematical models of physical phenomena, basic methodology.

Prerequisites: MAT257Y5 or (MAT236H5 and MAT244H5)

Exclusions: APM346H1 or APM351Y1 or MAT351Y1 or MATC46H3

Enrolment Limits: Priority is given to students enrolled in Mathematics, Computer Science and Statistics Specialist or Major programs; Astronomical Sciences Specialist (ERSPE1025), Astronomy Major (ERMAJ2204).

Distribution Requirements: Science

Total Instructional Hours: 36L/12T

Mode of Delivery: In Class

MAT315H5 • Introduction to Number Theory

Elementary topics in number theory such as: prime numbers; arithmetic with residues; Gaussian integers, quadratic reciprocity law, representation of numbers as sums of squares. (This course emphasizes rigour).

Prerequisites: MAT102H5 and [MAT134H5 or MAT134Y5 or MAT135Y5 or MAT136H5 or MAT137Y5 or MAT139H5 or MAT157Y5 or MAT159H5 or (MAT133Y5 and MAT233H5)] and (MAT224H5 or MAT240H5) and MAT301H5

Exclusions: MAT315H1 or MATC15H3

Enrolment Limits: Priority is given to students enrolled in the Mathematics, Computer Science and Statistics Specialist or Major programs.

Distribution Requirements: Science

Total Instructional Hours: 36L/12T

Mode of Delivery: In Class

MAT322H5 • Mathematical Modelling in Biology

The course will serve as an introduction to mathematical modelling of biological processes. It will cover a selection of the following topics: Difference equations and applications. Linear differential equations and systems; phase plane analysis; nonlinear systems of differential equations and linearization; Poincaré-Bendixson Theorem. Applications of differential equations to biology, including a logistic population with harvesting; predator-prey model; competing species; epidemic models. Examples of partial differential equations; reaction-diffusion equation; pattern formation.

Prerequisites: MAT102H5 and (MAT134H5 or MAT136H5 or MAT139H5 or MAT159H5 or MAT134Y5 or MAT135Y5 or MAT137Y5 or MAT157Y5 or MAT233H5) and (MAT223H5 or MAT240H5)

Exclusions: MAT388H5 (Fall 2019 and Fall 2020) or MAT244H5 or MAT244H1 or MATB44H3 or MATC58H3
Enrolment Limits: Restricted at all times to students in the Math Minor program.

Distribution Requirements: Science

Total Instructional Hours: 36L/12T

Mode of Delivery: Online, In Class

MAT332H5 • Introduction to Nonlinear Dynamics and Chaos

Stability in nonlinear systems of differential equations, bifurcation theory, chaos, strange attractors, iteration of nonlinear mappings and fractals. This course will be geared towards students with interest in sciences.

Prerequisites: MAT257Y5 or [MAT236H5 and (MAT223H5 or MAT240H5) and MAT244H5]

Exclusions: MAT335H1 or MATC35H3

Enrolment Limits: Priority is given to students enrolled in the Mathematics or Statistics Specialist or Major programs and Bioinformatic Specialist.

Distribution Requirements: Science

Total Instructional Hours: 36L/12T

Mode of Delivery: In Class

MAT334H5 • Complex Variables

Theory of functions of one complex variable: analytic and meromorphic functions; Cauchy's theorem, residue calculus. Topics from: conformal mappings, analytic continuation, harmonic functions.

Prerequisites: MAT257Y5 or [MAT232H5 or MAT233H5] and (MAT202H5 or MAT240H5 or 0.5 additional credit of MAT at the 300+ level with a mark of at least 60%)

Exclusions: MAT334H1 or MAT354H5 or MAT354H1 or MATC34H3

Enrolment Limits: Priority is given to students enrolled in Mathematics, Computer Science and Statistics Specialist or Major programs; Astronomical Sciences Specialist (ERSPE1025), Astronomy Major (ERMAJ2204).

Distribution Requirements: Science

Total Instructional Hours: 36L/12T

Mode of Delivery: In Class

MAT337H5 • Introduction to Real Analysis

(Formerly MAT378H5) The real numbers; Sequences and series; Functional limits; Topology in \mathbb{R}^n ; Differentiation and Integration; Power Series; Metric Spaces; Integrability and sets of measure zero. The course emphasizes rigour and theory.

Prerequisites: MAT257Y5 or [(MAT224H5 or MAT240H5) and MAT236H5 and MAT244H5]
Exclusions: MAT378H5 or MAT337H1 or MAT357H1 or MATB43H3 or MATC37H3
Enrolment Limits: Priority is given to students enrolled in the Mathematics or Statistics Specialist or Major programs.
Distribution Requirements: Science
Total Instructional Hours: 36L/24T
Mode of Delivery: In Class

MAT344H5 • Introduction to Combinatorics

Basic counting principles, generating functions, permutations with restrictions. Fundamentals of graph theory with algorithms; applications (including network flows).

Prerequisites: MAT102H5 and (MAT223H5 or MAT240H5)
Exclusions: MAT344H1 or MATC44H3
Enrolment Limits: Priority is given to students enrolled in the Mathematics or Statistics Specialist or Major programs.
Distribution Requirements: Science
Total Instructional Hours: 36L/12T
Mode of Delivery: In Class

MAT354H5 • Complex Analysis

Complex numbers, the complex plane and Riemann sphere, Möbius transformations, elementary functions and their mapping properties, conformal mapping, holomorphic functions, Cauchy's theorem and integral formula. Taylor and Laurent series, maximum modulus principle, Schwarz' lemma, residue theorem and residue calculus.

Prerequisites: MAT257Y5 or [(MAT137Y5 or MAT139H5 or MAT157Y5 or MAT159H5) and (MAT202H5 or MAT240H5 or MAT337H5) and (MAT232H5 or MAT233H5)]
Exclusions: MAT334H1 or MAT334H5 or MAT354H1 or MATC34H3 or MATD34H3
Enrolment Limits: Priority is given to students enrolled in the Mathematics or Statistics Specialist or Major programs.
Distribution Requirements: Science
Total Instructional Hours: 36L/24T
Mode of Delivery: In Class

MAT382H5 • Mathematics for Teachers

The course discusses the Mathematics curriculum (K-12) from the following aspects: the strands of the curriculum and their place in the world of Mathematics, the nature of the proofs, applications of Mathematics, and the connection of Mathematics to other subjects. Restricted to students in the MAT major and specialist programs.

Prerequisites: (Minimum 60% in MAT134H5 or MAT134Y5 or MAT135Y5 or MAT136H5 or MAT137Y5 or MAT139H5 or MAT157Y5 or MAT159H5 or MAT233H5) and [minimum 60% in MAT102H5 and (MAT223H5 or MAT240H5)] and 0.5 additional credit of MAT at the 200+ level.
Exclusions: MAT329Y1 or MATC82H3
Distribution Requirements: Science
Total Instructional Hours: 36L/12T
Mode of Delivery: In Class

MAT387H5 • Topics in Mathematics

Introduction to a topic of current interest in mathematics. Content will vary from year to year. The contact hours for this course may vary in terms of contact type (L, T) from year to year, but will be between 36-60 contact hours in total. See the UTM Timetable.

Prerequisites: Appropriate prerequisite requirement(s) will be available on the UTM timetable along with the topic title prior to course registration.
Enrolment Limits: Priority is given to students enrolled in the Mathematics or Statistics Specialist or Major programs.
Distribution Requirements: Science
Total Instructional Hours: 36L/24T
Mode of Delivery: In Class

MAT388H5 • Topics in Mathematics

Introduction to a topic of current interest in mathematics. Content will vary from year to year. This course may include a tutorial and/or practical section in some years. The contact hours for this course may vary in terms of contact type (L, T) from year to year, but will be between 36-60 contact hours in total. See the UTM Timetable.

Prerequisites: Appropriate prerequisite requirement(s) will be available on the UTM timetable along with the topic title prior to course registration.
Enrolment Limits: Priority is given to students enrolled in the Mathematics Specialist or Major programs.
Distribution Requirements: Science
Total Instructional Hours: 36L/24T
Mode of Delivery: In Class

MAT392H5 • Ideas of Mathematics

This is a one-term course to give students extensive practice in the writing of mathematics. The format will be to study excellent expositions of important ideas of mathematics and then to assign short writing assignments based on them.

Prerequisites: MAT202H5 and MAT244H5 and (MAT236H5 or MAT257Y5) and (MAT224H5 or MAT247H5)
Exclusions: MATC90H3
Enrolment Limits: Limited enrolment. The course is open

only to students in the MAT major/specialist programs, with priority to students in the specialist program.

Distribution Requirements: Science

Total Instructional Hours: 36L/12T

Mode of Delivery: In Class

MAT397H5 • Further Studies in Mathematics

Students explore a topic in mathematics under the supervision of a faculty member. Interested students must consult with mathematics faculty at least two months prior to registration, to determine the topic and scope.

Prerequisites: Departmental permission and a minimum CGPA of 2.5

Enrolment Limits: Priority is given to students enrolled in the Mathematics Specialist or Major programs.

Course Experience: University-Based Experience

Distribution Requirements: Science

Mode of Delivery: In Class

MAT398H5 • Further Studies in Mathematics

Students explore a topic in mathematics under the supervision of a faculty member. Interested students must consult with mathematics faculty at least two months prior to registration, to determine the topic and scope.

Prerequisites: Departmental permission and a minimum CGPA of 2.5

Enrolment Limits: Priority is given to students enrolled in Mathematics Specialist or Major programs.

Course Experience: University-Based Experience

Distribution Requirements: Science

Mode of Delivery: In Class

MAT399Y5 • Research Opportunity Program

This course provides a richly rewarding opportunity for students in their third year to work in the research project of a professor in return for 399Y course credit. Students enrolled have an opportunity to become involved in original research, learn research methods and share in the excitement and discovery of acquiring new knowledge. Participating faculty members post their project descriptions for the following summer and fall/winter sessions in early February and students are invited to apply in early March. See [Experiential and International Opportunities](#) for more details.

Prerequisites: Departmental permission.

Distribution Requirements: Science

Mode of Delivery: In Class

MAT401H5 • Polynomial Equations and Fields

Commutative rings; quotient rings. Construction of the rationals. Polynomial algebra. Fields and Galois theory: Field extensions, adjunction of roots of a polynomial. Constructibility, trisection of angles, construction of regular polygons. Galois groups of polynomials, in particular cubics, quartics. Insolvability of quintics by radicals.

Prerequisites: (MAT224H5 or MAT240H5) and (MAT236H5 or MAT257Y5) and MAT301H5

Exclusions: MAT347Y1 or MAT401H1 or MATD01H3

Enrolment Limits: Priority is given to students enrolled in the Mathematics, Computer Science and Statistics Specialist or Major programs.

Distribution Requirements: Science

Total Instructional Hours: 36L/12T

Mode of Delivery: In Class

MAT402H5 • Classical Geometries

Euclidean and non-Euclidean plane and space geometries. Real and complex projective space. Models of the hyperbolic plane. Connections with the geometry of surfaces.

Prerequisites: MAT102H5 and (MAT232H5 or MAT233H5 or MAT257Y5) and (MAT224H5 or MAT240H5) and 0.5 additional credit of MAT at the 300+ level.

Exclusions: MAT402H1 or MATD02H3

Enrolment Limits: Priority is given to students enrolled in the Mathematics, Computer Science and Statistics Specialist or Major programs.

Distribution Requirements: Science

Total Instructional Hours: 36L/12T

Mode of Delivery: In Class

MAT405H5 • Introduction to Topology

Sets and functions; Topology in \mathbb{R}^n ; Topological spaces; Open and closed sets; Closure and interior; Continuous functions; Quotient spaces; Connectedness and compactness; Separation axioms and related theorems.

Prerequisites: MAT257Y5 or [(MAT224H5 or MAT240H5) and MAT236H5 and at least 0.5 additional credit of MAT at the 300+ level with a mark of at least 65%]

Exclusions: MAT327H1 or MATC27H3

Recommended Preparation: MAT337H5

Enrolment Limits: Priority is given to students enrolled in the Mathematics, Computer Science and Statistics Specialist or Major programs.

Distribution Requirements: Science

Total Instructional Hours: 36L/12T

Mode of Delivery: In Class

MAT406H5 • Mathematical Introduction to Game Theory

Combinatorial games: Nim and other impartial games; Sprague-Grundy value; existence of a winning strategy in partisan games. Two-player (matrix) games: zero-sum games and Von-Neuman's minimax theorem; general sum-matrix games, prisoner's dilemma, Nash equilibrium, cooperative games, asymmetric information. Multi-player games: coalitions and the Shapley value. Possible additional topics: repeated (stochastic) games; auctions; voting schemes and Arrow's paradox. Mathematical tools that may be introduced include hyperplane separation of convex sets and Brouwer's fixed point theorem. Numerous examples will be analyzed in depth, to offer insight to the mathematical theory and its relation with real life situations.

Prerequisites: MAT102H5 and (MAT223H5 or MAT240H5) and (STA246H5 or STA256H5)

Exclusions: ECO316H1 or MATD50H3

Enrolment Limits: Priority is given to students enrolled in the Mathematics, Computer Science and Statistics Specialist or Major programs.

Distribution Requirements: Science

Total Instructional Hours: 36L/12T

Mode of Delivery: In Class

MAT478H5 • Topics in Mathematics

Introduction to a topic of current interest in mathematics. Content will vary from year to year. This course may include a tutorial and/or practical section in some years. The contact hours for this course may vary in terms of contact type (L, T) from year to year, but will be between 36-60 contact hours in total. See the UTM Timetable.

Prerequisites: Appropriate prerequisite requirement(s) will be available on the UTM timetable along with the topic title prior to course registration.

Enrolment Limits: Priority is given to students enrolled in the Mathematics Specialist or Major programs.

Distribution Requirements: Science

Total Instructional Hours: 36L/24T

Mode of Delivery: In Class

MAT488H5 • Topics in Mathematics

Introduction to a topic of current interest in mathematics. Content will vary from year to year. This course may include a tutorial and/or practical section in some years. The contact hours for this course may vary in terms of contact type (L, T) from year to year, but will be between 36-60 contact hours in total. See the UTM Timetable.

Prerequisites: Appropriate prerequisite requirement(s) will be available on the UTM timetable along with the topic title prior to course registration.

Enrolment Limits: Priority is given to students enrolled in the Mathematics Specialist or Major programs.

Distribution Requirements: Science

Total Instructional Hours: 36L/24T

Mode of Delivery: In Class

MAT492H5 • Senior Thesis

An exposition on a topic in mathematics written under the supervision of a faculty member. Open to students in Mathematical Sciences Specialist program.

Prerequisites: MAT392H5 and 2.0 additional credits in MAT at the 300 level and a minimum CGPA of 2.5

Enrolment Limits: Only open to students in the MAT major/specialist programs.

Course Experience: University-Based Experience

Distribution Requirements: Science

Mode of Delivery: In Class

MAT497H5 • Further Studies in Mathematics

Students explore a topic in mathematics under the supervision of a faculty member. Interested students must consult with mathematics faculty at least two months prior to registration, to determine the topic and scope.

Prerequisites: Departmental permission and a minimum CGPA of 2.5

Enrolment Limits: Priority is given to students enrolled in the Mathematics Specialist or Major programs.

Course Experience: University-Based Experience

Distribution Requirements: Science

Mode of Delivery: In Class

MAT498H5 • Further Studies in Mathematics

Students explore a topic in mathematics under the supervision of a faculty member. Interested students must consult with mathematics faculty at least two months prior to registration, to determine the topic and scope.

Prerequisites: Departmental permission and a minimum CGPA of 2.5

Enrolment Limits: Priority is given to students enrolled in the Mathematics Specialist or Major programs.

Course Experience: University-Based Experience

Distribution Requirements: Science

Mode of Delivery: In Class

MAT499Y5 • Research Opportunity Program

This courses provides a richly rewarding opportunity for students in their fourth year to work in the research project of a professor in return for 499Y course credit. Students enrolled have an opportunity to become involved in original research, learn research methods and share in the excitement and discovery of acquiring new knowledge.

Participating faculty members post their project descriptions for the following summer and fall/winter sessions in early February and students are invited to apply in early March. See [Experiential and International Opportunities](#) for more details.

Prerequisites: Departmental permission.

Distribution Requirements: Science

Mode of Delivery: In Class

Neuroscience

Faculty List

Program Advisors

Professor Brett Beston
905-569-5697
brett.beston@utoronto.ca

Neuroscience is a multidisciplinary approach to understanding the structures and functions of the brain and nervous system. Students will have the opportunity to combine knowledge of behavioural, physiological, and cellular/molecular processes through lecture and laboratory courses, and to carry out research projects with faculty members. This program provides an excellent theoretical and empirical background for students interested in pursuing graduate studies in neuroscience and related fields.

Students should also review the **Degree Requirements** section prior to selecting courses

Neuroscience Programs

Neuroscience - Specialist (Science)

Enrolment Requirements:

Limited Enrolment — Enrolment is limited to students who have:

1. completed 8.0 credits;
2. successfully completed PSY100Y5, BIO152H5, BIO153H5, CHM110H5, CHM120H5 and (MAT132H5, MAT134H5) / (MAT135H5, MAT136H5) / MAT135Y5 / MAT137Y5 (or equivalent);
3. completed PSY201H5, PSY202H5 (or equivalent), PSY290H5, and at least 0.5 credit from: BIO202H5 / BIO205H5 / BIO206H5 / BIO207H5 / PSY210H5 / PSY270H5 / PSY274H5 / PSY280H5 with a minimum average of 77%; and
4. a minimum AGPA of 3.0.

Students who do not meet these requirements and/or students who apply after third year must have a psychology and biology average of at least 77% (based on a minimum of PSY201H5, PSY202H5, and the next most recent 1.5 credits completed in psychology and biology courses listed in the Neuroscience Specialist program) as well as an AGPA of at least 3.0. These requirements are based on all courses taken during students' most recent academic year (including Summer, when applicable).

Completion Requirements:

11.5-12.0 credits are required, including at least 3.0 credits at the 300/400 level and 1.0 credit at the 400 level.

First Year: PSY100Y5; BIO152H5, BIO153H5; CHM110H5, CHM120H5; (MAT132H5, MAT134H5) / (MAT135H5, MAT136H5) / (or equivalent)

Second Year:

1. (PSY201H5, PSY202H5) / (STA220H5, STA221H5) / (BIO259H5, BIO360H5) or equivalent

2. BIO202H5; BIO206H5; BIO207H5; PSY290H5
3. one of the following: PSY210H5, PSY270H5, PSY280H5, JLP285H5

Third Year: 1.0 credit from each of the following three areas:

- a. **Behavioural Neuroscience area:** BIO318Y5, BIO320H5, BIO328H5, PSY316H5, PSY318H5, PSY346H5, PSY352H5, PSY353H5, PSY354H5, PSY355H5, PSY368H5, PSY369H5, PSY385H5, PSY389H5, PSY391H5, PSY392H5, PSY393H5, PSY395H5, PSY397H5, PSY398H5
- b. **Molecular/Cellular Biology area:** BIO314H5, BIO315H5, BIO341H5, BIO347H5, BIO372H5, BIO407H5, BIO476H5, PSY355H5, PSY392H5
- c. **Neurobiology area:** BIO304H5, BIO310H5, BIO380H5, BIO404H5, BIO409H5, PSY318H5, PSY346H5, PSY369H5, PSY393H5, PSY397H5

Fourth Year:

1. One seminar from the following: BIO403H5, BIO404H5, BIO406H5, BIO407H5, BIO408H5, PSY471H5, PSY480H5, PSY490H5, PSY495H5
2. One thesis/ research project from the following: BIO481Y5, PSY400Y5, PSY401H5, PSY403H5/ PSY404H5/ PSY405H5/ PSY406H5, PSY499H5/ PSY499Y5

NOTES:

1. Students intending to pursue the Neuroscience Specialist program should be aware of minimum grade prerequisite requirements for entry to BIO152H5 (minimum grade of 70% in Grade 12 SBI4U) and CHM110H5 (minimum grade of 70% in Grade 12 SCH4U)
2. In second year, students are encouraged to consider taking the following courses depending on their planned course of study:
 - BIO202H5 - required for several courses in the Neurobiology area.
 - PSY210H5 - required for several courses in the Behavioural Neuroscience area.
3. Students interested in taking PSY400Y5 in their last year are advised to take PSY309H5 in their third year.

ERSPE2470

Important notes about Psychology programs and courses.

1. **Access to courses.** PSY309H5, PSY319H5, PSY329H5, PSY379H5, PSY369H5 and all 400 level courses have limited enrolments and are normally restricted. Access to all other 300 level courses will be controlled by the Department. Priority is given to students enrolled in programs offered by the Psychology Department. Spaces are allotted on the basis of CGPA. Highest priority is given to students enrolled in one of the Specialist Programs. Consult the UTM Registration Guide (available at www.utm.utoronto.ca) for specific information.
2. Students may take no more than 2.0 credits combined in ROP, Individual Projects or Thesis courses (contact Undergraduate Advisor for exemptions).
3. **Students who wish to take Psychology courses at the St. George campus may do so provided that they have completed the prerequisite courses and have obtained permission from the Psychology Undergraduate Advisor at the St. George Campus.** If they wish to use these courses to fulfill UTM program requirements, they must also consult the undergraduate advisor at UTM.

Persian Courses

PRS210H5 • Introductory Persian I

This course is for students who have minimal or no prior knowledge of Persian. The course provides students with basic information about the Persian language with the special focus on literacy skills, i.e. reading and writing. Students start by learning how to write and pronounce the alphabet and how to connect letters to form new words. Then, they learn basic vocabulary in Persian in order to express basic ideas orally and in writing. By the end of the course, students should be able to write simple sentences to express basic information, and they should be able to conduct basic conversations in Persian.

Exclusions: PRS210Y5 or NML260Y1

Distribution Requirements: Humanities

Total Instructional Hours: 24L/24P

Mode of Delivery: In Class

PRS211H5 • Introductory Persian II

This course is for students who passed PRS210H or demonstrate commensurate Persian skills. As a continuation of introductory Persian I, this course continues to develop students' language comprehension, expand their vocabulary and grammar, and improve their skills in listening, speaking, reading, writing, and translation at an intermediate low level.

Prerequisites: PRS210H5

Exclusions: PRS210Y5 or NML260Y1

Distribution Requirements: Humanities

Total Instructional Hours: 24L/24P

Mode of Delivery: In Class

PRS310H5 • Intermediate Persian I

This course is for students who passed PRS211H or demonstrate commensurate Persian skills. As a continuation of introductory Persian II, this course continues to develop students' language comprehension, expand their vocabulary and grammar, and improve their skills in listening, speaking, reading, writing, and translation at an intermediate high level.

Prerequisites: PRS211H5 or permission of the instructor.

Exclusions: PRS310Y5

Distribution Requirements: Humanities

Total Instructional Hours: 24L/24P

Mode of Delivery: In Class

PRS311H5 • Intermediate Persian II

This course is for students who passed PRS310H5 or demonstrate commensurate Persian skills. As a continuation of intermediate Persian I, this course continues to develop students' language comprehension, expand their vocabulary and grammar, and improve their skills in listening, speaking, reading, writing, and translation at an advance level.

Prerequisites: PRS310H5 or permission of the instructor.

Exclusions: PRS310Y5

Distribution Requirements: Humanities

Total Instructional Hours: 24L/24P

Mode of Delivery: In Class

Philosophy has a distinctive place in a university education. In philosophy class we ask, and try to answer, some of the deepest questions confronting us as human beings. For example: What is knowledge? What is justice? Who am I? What am I? Am I a physical thing, or something more? What makes me me? What sort of thing is an artwork? What makes an artwork good or bad? Where is the line between art and propaganda?

In order to address these questions, we learn certain reflective ways of thinking, arguing, and writing. We employ concepts and strategies of reasoning and explanation that have themselves been critically assessed within philosophy for their clarity, soundness and cogency. Our philosophical reflections are also guided by critical engagement with the views of great thinkers like Plato, Aristotle, Descartes, Hume, Kant, Hegel, Nietzsche, Quine, Kripke, and many others.

Specialists, Majors and Minors can look forward to substantial interaction with these authors.

Philosophy class is not only for Specialists, Majors and Minors, however. It can have a much broader impact, in at least two ways. First, the different branches of philosophy span a broad range of subjects that intersect with topics studied in history, the arts, the social sciences, biology, physics, and mathematics, among others. Second, the intellectual skills and virtues acquired in philosophy class are extremely beneficial to our thinking generally, no matter what subject or issue we are thinking about. Philosophy cultivates general intellectual virtues of critical thinking, clarity of thought, writing and communication, and creativity in approaching difficult problems. As a result, the study of philosophy provides excellent preparation for graduate study in the intersecting fields mentioned above, and also for a variety of non-academic careers. Philosophy students go on to successful careers in law, medicine, journalism, government, technology, and business. Clear thinking and expression, and creative problem-solving, are essential to success in all of these fields.

Students should also review the **Degree Requirements** section prior to selecting courses

Philosophy Programs

Philosophy - Specialist (Arts)

Enrolment Requirements:

Limited Enrolment — Enrolment in the Specialist Program in Philosophy is limited to students who have completed 4.0 credits including 2.0 credits of PHL with a grade of 73% or higher.

Completion Requirements:

10.0 credits in PHL are required, including at least 3.0 credits at the 300 level and at least 1.0 credits at the 400 level.

The program must include:

1. **3.0 credits in the History of Philosophy from:**
 - a. [PHL200H5](#) and [PHL210Y5](#)
 - b. 1.5 additional credits from [PHL220H5](#) or [PHL300H5](#) or [PHL301H5](#) or [PHL302H5](#) or [PHL307H5](#) or [PHL310H5](#) or [PHL311H5](#) or [PHL314H5](#) or [PHL315H5](#) or [PHL324H5](#) or [PHL325H5](#) or [PHL327H5](#) or [PHL400H5](#) or [PHL410H5](#) or [PHL420H5](#)
2. **1.0 credit in Logic and Philosophy of Language from:**
 - a. [PHL245H5](#)
 - b. 0.5 additional credit from [PHL246H5](#) or [PHL340H5](#) or [PHL345H5](#) or [PHL346H5](#) or [PHL347H5](#) or [PHL348H5](#) or [PHL350H5](#) or [PHL445H5](#) or [PHL447H5](#) or [PHL450H5](#) or [PHL451H5](#)
3. **1.5 credits in Metaphysics and Epistemology from:** [PHL332H5](#) or [PHL333H5](#) or [PHL341H5](#) or [PHL342H5](#) or [PHL355H5](#) or [PHL358H5](#) or [PHL360H5](#) or [PHL430H5](#)
4. **1.0 credits in Ethics and Political Philosophy from:**
 - a. [PHL265H5](#) or [PHL275H5](#)
 - b. 0.5 additional credit from [PHL265H5](#) or [PHL275H5](#) or [PHL365H5](#) or [PHL370H5](#) or [PHL374H5](#) or [PHL376H5](#) or [PHL475H5](#) (courses cannot be double counted)
5. **3.5 additional credits in PHL**

Note:

- Students cannot use more than 1.0 credits from 100-level PHL courses for program completion credit.
- Students also cannot use [PHL204H5](#) or [PHL277Y5](#) (or in combination with either [PHL265H5](#) or [PHL275H5](#)) for program completion credit.
- Where courses exclude each other, at most one of them may be counted for credit toward philosophy program completion.

- It is recommended that all students discuss their course selection requirements with the Undergraduate Advisor.
- All **200-level courses**, with the exception of PHL204H5, PHL245H5 and PHL247H5, have the prerequisite that the student has completed at least 4.0 credits at the university. This prerequisite is waived for students who are taking (or have taken) a 100-level course in Philosophy. There are no other prerequisites for any 200-level courses.
- All **300-level courses**, with the exception of PHL344H5, 347H5, have a prerequisite of 1.5 credits in Philosophy. It is strongly recommended that students prepare for 300-level courses by taking two of the following: PHL103H5 or 113H5 or 200H5 or 210Y5 or 245H5 or PHL265H5 or PHL275H5. Some 300-level courses have specific prerequisites or recommended preparation, as described in the course descriptions. Students who do not meet the prerequisite for a particular course but believe that they have adequate preparation should consult the Undergraduate Advisor concerning entry to the course.
- The prerequisite for **400-level courses**, except PHL451H5, is 4.5 credits in Philosophy.

When choosing your courses, keep in mind that not all courses listed are offered every year. Some courses required to complete a program might be offered only every other year. For courses offered during the current year, consult the UTM Timetable website.

ERSPE0231

Philosophy - Major (Arts)

Completion Requirements:

7.0 credits are required, including at least 3.0 credits at the 300 level and 0.5 credit at the 400-level.

The program must include:

1. **2.0 credits in the History of Philosophy from:**
 - a. PHL200H5 and PHL210Y5
 - b. 0.5 additional credit from PHL220H5 or PHL300H5 or PHL301H5 or PHL302H5 or PHL307H5 or PHL310H5 or PHL311H5 or PHL314H5 or PHL315H5 or PHL324H5 or PHL325H5 or PHL327H5 or PHL400H5 or PHL410H5 or PHL420H5;
2. **0.5 credit in Logic:** PHL245H5
3. **1.0 credits in Metaphysics and Epistemology from:** PHL240H5 or PHL258H5 or PHL332H5 or PHL333H5 or PHL340H5 or PHL341H5 or PHL342H5 or PHL350H5 or PHL355H5 or PHL358H5 or PHL360H5 or PHL430H5
4. **1.0 credits in Ethics and Political Philosophy from:**
 - a. PHL265H5 or PHL274H5 or PHL275H5
 - b. 0.5 additional credit from PHL265H5 or PHL274H5 or PHL275H5 or PHL365H5 or PHL370H5 or PHL374H5 or PHL376H5 or PHL475H5 (courses cannot be double counted)
5. **2.5 additional credits in PHL**

Note:

- Students cannot use more than 1.0 credits from 100-level PHL courses for program completion credit.
- Students also cannot use PHL204H5 or PHL277Y5 (or in combination with either PHL275H5 or PHL265H5) for program completion credit.
- Where courses exclude each other, at most one of them may be counted for credit toward philosophy program completion.
- It is recommended: that students begin their study of Philosophy with PHL103H5 or PHL113H5; and that students planning to enrol in the Major Program in Philosophy complete at least 2.0 credits of PHL200H5 or PHL210Y5 or PHL245H5 or PHL265H5 or PHL275H5 by the end of their second year.
- All **200-level courses**, with the exception of PHL204H5, PHL245H5 and PHL247H5, have the prerequisite that the student has completed at least 4.0 credits at the university. This prerequisite is waived for students who are taking (or have taken) a 100-level course in Philosophy. There are no other prerequisites for any 200-level courses.

- All **300-level courses**, with the exception of [PHL344H5](#), [347H5](#), have a prerequisite of 1.5 credits in Philosophy. It is strongly recommended that students prepare for 300-level courses by taking two of the following: [PHL103H5](#) or [113H5](#) or [200H5](#) or [210Y5](#) or [245H5](#) or [PHL265H5](#) or [PHL275H5](#). Some 300-level courses have specific prerequisites or recommended preparation, as described in the course descriptions. Students who do not meet the prerequisite for a particular course but believe that they have adequate preparation should consult the Undergraduate Advisor concerning entry to the course.
- The prerequisite for **400-level courses**, except [PHL451H5](#), is 4.5 credits in Philosophy.

When choosing your courses, keep in mind that not all courses listed are offered every year. Some courses required to complete a program might be offered only every other year. For courses offered during the current year, consult the UTM Timetable website.

[ERMAJ0231](#)

Ethics, Law and Society - Minor (Arts)

This program provides students with a deeper understanding of ethical theories and their application in various social contexts; for example, it examines particular ethical issues concerning health care, the environment, legal systems, and political institutions. Students are required to take courses in philosophy and social sciences. Courses should be selected in consultation with the Faculty Advisor.

Completion Requirements:

4.0 credits are required including at least 1.0 credit at the 300/400 level, of which 0.5 credit must be PHL.

1. **1.0 credit from:** [PHL101H5](#) or [PHL102H5](#) or [PHL103H5](#) or [PHL105Y5](#) or [PHL113H5](#) or [PHL210Y5](#) or [PHL235H5](#) or [PHL240H5](#) or [PHL241H5](#) or [PHL244H5](#) or ([PHL239H5](#) or [PHL247H5](#)) or [PHL255H5](#) or [PHL258H5](#) or [PHL284H5](#) or [PHL285H5](#)
2. **0.5 credit from:** [PHL265H5](#) or [PHL271H5](#) or [PHL275H5](#)
3. **1.0 credit from:** [PHL267H5](#) or [PHL273H5](#) or [PHL274H5](#) or [PHL277Y5](#) or [PHL283H5](#) or [PHL284H5](#) or [PHL365H5](#) or [PHL367H5](#) or [PHL370H5](#) or [PHL374H5](#) or [PHL376H5](#) or [PHL475H5](#) or from courses listed in #2 above;
4. **1.0 credit from:** ANT or ECO or POL or SOC
5. **0.5 credit from:** ANT or ECO or POL or SOC or from courses listed in #2 or #3 above.

Note:

Students cannot use more than 1.0 credits from 100-level PHL courses for program completion credit.

Students also cannot use [PHL204H5](#) or [PHL277Y5](#) (or in combination with either [PHL265H5](#) or [PHL275H5](#)) for program completion credit.

Where courses exclude each other, at most one of them may be counted for credit toward philosophy program completion.

PHL courses completed in requirements 2, 3 and 5 may not be double counted to fulfill other program requirements in this minor.

All **200-level courses**, with the exception of [PHL204H5](#), [PHL245H5](#) and [PHL247H5](#), have the prerequisite that the student has completed at least 4.0 credits at the university. This prerequisite is waived for students who are taking (or have taken) a 100-level course in Philosophy. There are no other prerequisites for any 200-level courses.

All **300-level courses**, with the exception of [PHL344H5](#), [347H5](#), have a prerequisite of 1.5 credits in Philosophy. It is strongly recommended that students prepare for 300-level courses by taking two of the following: [PHL103H5](#) or [113H5](#) or [200H5](#) or [210Y5](#) or [245H5](#) or [PHL265H5](#) or [PHL275H5](#). Some 300-level courses have specific prerequisites or recommended preparation, as described in the course descriptions. Students who do not meet the prerequisite for a

particular course but believe that they have adequate preparation should consult the Undergraduate Advisor concerning entry to the course.

The prerequisite for **400-level courses**, except [PHL451H5](#), is 4.5 credits in Philosophy.

When choosing your courses, keep in mind that not all courses listed are offered every year. Some courses required to complete a program might be offered only every other year. For courses offered during the current year, consult the UTM Timetable website.

Philosophy Courses

PHL103H5 • Introduction to Philosophy: Knowledge and Reality

This introductory course takes up philosophical questions about knowledge, reality, language, and the mind. A variety of traditional and contemporary perspectives will be considered. **Note:** Students may take either or both [PHL103H5](#) and [PHL113H5](#), in any order or simultaneously. The two courses differ only in the philosophical topics they cover.

Exclusions: [PHL105Y5](#) or [PHL101H5](#) or [PHL100Y1](#) or [PHL101Y1](#) or [PHL201H1](#) or [PHLA10H3](#)
Distribution Requirements: Humanities
Total Instructional Hours: 24L/12T
Mode of Delivery: In Class

PHL105Y5 • Introduction to Philosophy

An introduction to philosophy, covering such topics as conceptions of human nature and the good life, the foundation of morality, the relation of the individual to the state, arguments for the existence of God, debates about the meaning and possibility of free will, the theory of knowledge and the nature of reality.

Exclusions: [PHL100Y5](#) or [PHL101Y5](#)
Distribution Requirements: Humanities
Total Instructional Hours: 48L/24T
Mode of Delivery: In Class

PHL113H5 • Introduction to Philosophy: Persons and Value

This introductory course explores philosophical theories of human nature, morality, justice, the good life, freedom, and responsibility. A variety of traditional and contemporary perspectives will be considered. **Note:** Students may take either or both [PHL113H5](#) and [PHL103H5](#), in any order or simultaneously. The two courses differ only in the philosophical topics they cover.

Exclusions: [PHL105Y5](#) or [PHL102H5](#) or [PHL100Y1](#) or [PHL101Y1](#) or [PHL201H1](#) or [PHLA10H3](#)
Distribution Requirements: Humanities
Total Instructional Hours: 24L/12T
Mode of Delivery: In Class

PHL200H5 • Ancient Philosophy

Some core texts of ancient philosophy, concentrating on the work of Plato and Aristotle. Topics include the good life, the soul, knowledge, virtue and the nature of reality.

Prerequisites: [PHL101H5](#) or [PHL102H5](#) or [PHL103H5](#) or [PHL105Y5](#) or [PHL113H5](#) or 4.0 credits.

Exclusions: [PHL200Y5](#) or [PHL202H5](#) or [PHLB31H3](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

PHL204H5 • Philosophy in Everyday Life

This one-semester course covers philosophical topics that most people talk about, or at least think about, in their everyday lives,—e.g., during conversations with friends, or while watching the news, or when deciding how to vote in an election. Such topics include, for example, the difference between art and pornography, the possibility of life after death, the evolution vs. creationism debate, the ethics of abortion and doctor-assisted suicide, and the possibility of intelligent robots. Each topic will be introduced via relevant public media (e.g., articles from the New York Times series “The Stone” and similar pieces from The Guardian, CBC news, NPR) and other popular sources (e.g., Ted Talks, youtube videos)) and then pursued in several accessible readings from the philosophical literature. A shared “library” of readings for the course will be built up (e.g., on Blackboard) by the instructors and students and updated as new issues of popular interest arise. **Note:** [PHL204H5](#) does not count for credit toward any minor, major, or specialist program in philosophy, but can be taken to fulfill the Humanities breadth/ distribution requirement.

Distribution Requirements: Humanities
Total Instructional Hours: 36L
Mode of Delivery: In Class

PHL210Y5 • 17th and 18th Century Philosophy

Classic texts by European philosophers (e.g., Hobbes, Descartes, Spinoza, Leibniz, Locke, Berkeley, Hume and Kant). Their attitudes toward science and religion, and their theories about the nature of the world and of human knowledge, culminating in the “Copernican Revolution” of Kant.

Prerequisites: [PHL101H5](#) or [PHL102H5](#) or [PHL103H5](#) or [PHL105Y5](#) or [PHL113H5](#) or 4.0 credits.

Exclusions: [PHLB35H3](#)

Recommended Preparation: [PHL103H5](#) or [PHL113H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 48L/24T

Mode of Delivery: In Class

PHL220H5 • Existentialism

Human perception and knowledge of reality; freedom and the meaning of human life; sexuality and the body. Authors include Heidegger, Buber, Marcel, Camus, Sartre, de Beauvoir, Merleau-Ponty.

Prerequisites: [PHL101H5](#) or [PHL102H5](#) or [PHL103H5](#) or [PHL105Y5](#) or [PHL113H5](#) or 4.0 credits.

Exclusions: [PHLB30H3](#)

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

PHL221H5 • Philosophy at the Movies

This course considers fundamental philosophical themes - the meaning of life and death, the nature of responsibility, fate and agency, knowledge and illusion, personal identity, alienation and belonging, love and sex, politics, ethics, and morality, among others - through film. The course also considers some questions about film as a philosophical genre: of the medium of film as an alternative medium (an alternative to language and explicit argument) of philosophical expression; of whether and how film may convey philosophical insight otherwise unavailable; and of the role of interpretation in understanding film philosophically.

Prerequisites: [PHL101H5](#) or [PHL102H5](#) or [PHL103H5](#) or [PHL105Y5](#) or [PHL113H5](#) or 4.0 credits.

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

PHL235H5 • Philosophy of Religion

A philosophical analysis of some basic theological questions; the nature of religious belief and experience, the relationship between religion and morality, or religion and science, the role of religion in a pluralistic society.

Prerequisites: [PHL101H5](#) or [PHL102H5](#) or [PHL103H5](#) or [PHL105Y5](#) or [PHL113H5](#) or 4.0 credits.

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

PHL237H5 • Introduction to East Asian Philosophy

An introduction to the main systems of East Asian philosophy, including Confucianism, Taoism, Buddhism, Shintoism, and Neo-Confucianism; the challenge of Western thought; the development of modern East Asian Philosophy.

Prerequisites: [PHL101H5](#) or [PHL102H5](#) or [PHL103H5](#) or [PHL113H5](#) or 4.0 credits

Exclusions: [EAS241H1](#) and [PHL237H1](#)

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

PHL238H5 • Introduction to South Asian Philosophy

An introduction to the main philosophical traditions of South Asia, focusing on their historical development and treatment of topics such as devotion, duty, ethics, consciousness, selfhood, suffering, meditation, enlightenment, knowledge, and reality. Readings may include the early Rig Veda, the Upanishads, early Buddhist thought, Jainism, Samkhya-Yoga Philosophy, and Classical Vedanta, among others.

Prerequisites: [PHL101H5](#) or [PHL102H5](#) or [PHL103H5](#) or [PHL113H5](#) or 4.0 credits

Exclusions: [PHL390H5](#) (Winter 2020) and [PHL293H5](#) (Fall 2020)

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

PHL239H5 • Critical Reasoning

The course covers the area of informal logic--the logic of ordinary language. Topics include: criteria for the critical assessment of arguments as strong or merely persuasive; different types of argument and techniques of refutation; their use and abuse.

Exclusions: ([PHL145H5](#) and [PHL247H5](#)) or [TRN200Y1](#)

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

PHL240H5 • Minds and Machines

Can machines think and feel? Are human beings simply very complicated organic machines? These questions are discussed in the light of recent work on the simulation of intelligence and purposive behaviour.

Prerequisites: [PHL101H5](#) or [PHL102H5](#) or [PHL103H5](#) or [PHL105Y5](#) or [PHL113H5](#) or 4.0 credits. .

Exclusions: [PHL342H5](#) or [PHLB81H3](#)

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

PHL242H5 • Science Fiction and Philosophy

Science fiction is a rich resource for philosophical thinking. Are we in a matrix? Are there alternative realities? Is teleportation, or telepathy, or telekinesis, or time travel, possible? In addition, philosophical thought experiments often include elements of science fiction, like twin-earths, zombies, swamp people, inverted spectra, brain-splitting, eternal recurrences, and evil demons. This course considers these topics -- both some philosophy of science fiction and some science fiction in philosophy.

Prerequisites: PHL101H5 or PHL102H5 or PHL103H5 or PHL105Y5 or PHL113H5 or 4.0 credits.

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

PHL243H5 • Philosophy of Human Sexuality

Philosophical issues about sex and sexual identity in the light of biological, psychological, and ethical theories of sex and gender. The concept of gender; male and female sex roles; theories of psycho-sexual development; sexual morality; "natural," "normal," and "perverse" sex; sexual liberation; love and sexuality.

Prerequisites: PHL101H5 or PHL102H5 or PHL103H5 or PHL105Y5 or PHL113H5 or 4.0 credits.

Exclusions: PHLB12H3

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

PHL244H5 • Human Nature

Theories of human nature, e.g., psychoanalysis, behaviourism, sociobiology. Current issues, e.g., egoism and altruism, instincts, I.Q., rationality, sanity and mental illness.

Prerequisites: PHL101H5 or PHL102H5 or PHL103H5 or PHL105Y5 or PHL113H5 or 4.0 credits.

Exclusions: PHLB91H3

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

PHL245H5 • Modern Symbolic Logic

An introduction to formal deductive logic. Semantics, symbolization, and techniques of natural deduction in sentential logic. Symbolization, natural deduction, and models in monadic predicate logic. Symbolization and natural deduction with polyadic predicates. Introduction to advanced concepts in first-order logic, such as operations, identity, and models.

Exclusions: PHL245H1 and PHLB50H3

Recommended Preparation: PHL103H5 or PHL113H5

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class, Hybrid

PHL246H5 • Probability and Inductive Logic

The elements of axiomatic probability theory, and its main interpretations (frequency, logical, subjective). Reasoning with probabilities in decision making and science.

Prerequisites: PHL101H5 or PHL102H5 or PHL103H5 or PHL105Y5 or PHL113H5 or 4.0 credits.

Recommended Preparation: PHL101H5 or PHL102H5 or PHL103H5 or PHL113H5 or PHL105Y5 or PHL245H5

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

PHL255H5 • Philosophy of Science

The nature of science and its development. Topics may include: the contrast between science and religion, between science and pseudo-science; the nature of scientific reasoning; scientific reality; science and objectivity; scientific revolutions; and the interaction between science, society, and values.

Prerequisites: PHL101H5 or PHL102H5 or PHL103H5 or PHL105Y5 or PHL113H5 or 4.0 credits.

Exclusions: PHL252H5 or PHL355H1 or PHLC72H3

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

PHL258H5 • Puzzles and Paradoxes

Philosophy often begins with a puzzle or paradox. Zeno once convincingly argued that motion was impossible, but people continue to move. The "liar's paradox" seems to show that everything is both true and false, but that cannot be right. In this course, we will examine these and related issues.

Prerequisites: PHL101H5 or PHL102H5 or PHL103H5 or PHL105Y5 or PHL113H5 or 4.0 credits.

Exclusions: PHLB55H3

Recommended Preparation: PHL245H5

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

PHL265H5 • Social and Political Philosophy

A survey of the major political theorists/theories of the Western philosophical tradition. Questions to be addressed include: Why obey the law? What is justice? What is the best form of government?

Prerequisites: PHL101H5 or PHL102H5 or PHL103H5 or PHL105Y5 or PHL113H5 or 4.0 credits.

Exclusions: PHL277Y5 or PHLB16H3 or PHLB17H3

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

PHL267H5 • Feminism

Main types of feminist theory: liberal, Marxist, Existential and "Radical." A number of ethical, political and psychological issues are considered.

Prerequisites: PHL101H5 or PHL102H5 or PHL103H5 or PHL105Y5 or PHL113H5 or 4.0 credits.

Exclusions: PHL277Y5 or PHL367H1 or PHLB13H3

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

PHL271H5 • Ethics and the Law

Moral issues in the law, such as civil liberties and police powers, censorship, civil disobedience, the death penalty, inequality, paternalism and the constitutional protection of human rights. Case studies from Canadian law.

Prerequisites: PHL101H5 or PHL102H5 or PHL103H5 or PHL105Y5 or PHL113H5 or 4.0 credits.

Exclusions: PHLB11H3

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

PHL272H5 • Philosophy of Education

The nature, aims, and content of education; learning theory; education and indoctrination; the teaching of morals and the morality of teaching; the role and justification of educational institutions, their relation to society and to individual goals; authority and freedom in the school.

Prerequisites: PHL101H5 or PHL102H5 or PHL103H5 or PHL105Y5 or PHL113H5 or 4.0 credits.

Exclusions: PHLB15H3

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

PHL273H5 • Environmental Ethics

Environmental ethics is a relatively new development in philosophical thinking which focuses on the ethical and value questions arising from our relation to nature. Focal question of the area asks: Is the non-human world of ethical significance only insofar as it is connected with human well-being, or is ethically significant in itself? This course investigates and evaluates anthropocentrism, ecofeminism and radical biocentric theories of the deep ecologists.

Prerequisites: PHL101H5 or PHL102H5 or PHL103H5 or PHL105Y5 or PHL113H5 or 4.0 credits.

Exclusions: PHLB02H3

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

PHL274H5 • Ethics and Society

The course explores ethical problems posed by social issues such as inequality, poverty, war, corporate responsibility, the treatment of animals, and social media, against the background of major ethical and political theories.

Prerequisites: PHL101H5 or PHL102H5 or PHL103H5 or PHL105Y5 or PHL113H5 or 4.0 credits.

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

PHL275H5 • Ethics and Moral Philosophy

A survey of the major moral theorists/theories of the Western philosophical tradition. Questions to be addressed include: Why be moral? What makes certain actions right or wrong? Can we know what is morally right or wrong?

Prerequisites: PHL101H5 or PHL102H5 or PHL103H5 or PHL105Y5 or PHL113H5 or 4.0 credits.

Exclusions: PHL277Y5 or PHLA11H3

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

PHL277Y5 • Moral, Social and Political Philosophy Through Its History

Classics in moral, social and political philosophy from Plato to the present. Likely readings include Plato on justice in the state and in the individual, Aristotle's ethics, Hume's moral psychology, Hobbes on the social contract, Kant on the fundamental principle of morality, Mill's utilitarianism, Locke on rights, Marx on Capitalism, Nietzsche on the origins of modern morality, and Rawls and Nozick on distributive justice.

Prerequisites: PHL101H5 or PHL102H5 or PHL103H5 or PHL105Y5 or PHL113H5 or 4.0 credits.

Exclusions: PHL265H or PHL275 or PHLB17H3

Distribution Requirements: Humanities

Total Instructional Hours: 48L/24T

Mode of Delivery: In Class

PHL282H5 • Ethics: Death and Dying

(Formerly PHL382H5) An intermediate-level study of moral and legal problems, including the philosophical significance of death, the high-tech prolongation of life, definition and determination of death, suicide, active and passive euthanasia, the withholding of treatment, palliative care and the control of pain, living wills; recent judicial decisions.

Prerequisites: PHL101H5 or PHL102H5 or PHL103H5 or PHL113H5 or PHL105Y5 or 4.0 credits.

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

PHL283H5 • Bioethics

Moral implications of recent developments in medicine and the life sciences; related legal and social issues. Euthanasia, health care priorities, abortion, fertility control, against the background of some major ethical theories.

Prerequisites: PHL101H5 or PHL102H5 or PHL103H5 or PHL105Y5 or PHL113H5 or 4.0 credits.

Exclusions: PHL281Y1 or PHL281H1 or PHLB09H3

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

PHL284H5 • Ethics of Eating

What obligations do we have in light of the effects of our food choices? Do we have any obligations to non-human animals; are we obliged to spare them painful lives and deaths? Are we obligated to spare their lives altogether? What about our obligations to our fellow humans, and to the environment that future humans will live in? Are we obligated to choose foods that minimize harm to the environment and to other communities? We will explore these questions at both the individual and the social-policy levels. For example, should we as a society have laws that ban certain foods, or certain treatments of animals? Or do such laws trample the freedom of individual choice? Whatever laws we do have, are we as individuals obliged to take responsibility for what we eat? Or are the effects of our choices just an insignificant drop in the bucket, since they make no real difference given what everyone else is doing?

Prerequisites: PHL101H5 or PHL102H5 or PHL103H5 or PHL113H5 or PHL105Y5 or 4.0 credits

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

PHL285H5 • Philosophy of Art

A study of some of the most important philosophical questions about art. For example, what exactly is a work

of art? Can any object whatsoever be, or become, an artwork? Who or what determines whether something is art? Does each person decide for themselves, or does a certain community (the "art world") decide? Can one interpretation or evaluation of a work be better, or more justified, than another? If so, how do we tell which one is better?

Prerequisites: PHL101H5 or PHL102H5 or PHL103H5 or PHL105Y5 or PHL113H5 or 4.0 credits.

Exclusions: PHLB03H3

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

PHL290H5 • Philosophical Issues in Psychoanalysis

An introduction to dream psychology, the psychology of errors, instinct theory, mechanisms of defence, the structure of personality. Philosophical topics include: freedom and determinism, consciousness, the nature of conscience, the status of psychoanalysis.

Prerequisites: PHL101H5 or PHL102H5 or PHL103H5 or PHL105Y5 or PHL113H5 or 4.0 credits.

Exclusions: PHL319H1

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

PHL293H5 • Special Topics in Philosophy

Topic to vary from year to year. The contact hours for this course may vary in terms of contact type (L,S,T,P) from year to year, but will be between 24-36 contact hours in total. See the UTM Timetable.

Prerequisites: PHL103H5 or PHL113H5 or 4.0 credits

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

PHL295H5 • Philosophy of Business

Philosophical issues in ethics, social theory, and theories of human nature insofar as they bear on contemporary conduct of business. Issues include: Does business have moral responsibilities? Can social costs and benefits be calculated? Does modern business life determine human nature of the other way around? Do political ideas and institutions such as democracy have a role within business?

Prerequisites: PHL101H5 or PHL102H5 or PHL103H5 or PHL113H5 or PHL105Y5 or 4.0 credits.

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

PHL299Y5 • Research Opportunity Program

This course provides a rewarding opportunity for students in their second year to work in the research project of a professor in return for 299Y course credit. Students enrolled have an opportunity to become involved in original research, learn research methods and share in the excitement and discovery of acquiring new knowledge. Participating faculty members post their project descriptions for the following summer and fall/winter sessions in early February and students are invited to apply in early March. See [Experiential and International Opportunities](#) for more details.

Prerequisites: (PHL101H5 or PHL102H5 or PHL103H5 or PHL105Y5 or PHL113H5) (may be taken as a corequisite) or 4.0 credits

Distribution Requirements: Humanities

Mode of Delivery: In Class

PHL300H5 • Topics in Ancient Philosophy

A study of some topic or thinker in the ancient period.

Prerequisites: 1.5 credits in PHL

Recommended Preparation: [PHL200H5](#) or [PHL202H5](#) or [PHL210Y5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

PHL301H5 • The Philosophy of Plato

This course explores major themes in Plato's philosophy through a selective reading of his dialogues. Among the areas tackled are the human good, the nature of the soul, knowledge, and the ultimate constitution of reality.

Readings may include, though will not necessarily be confined to, the Euthyphro, Protagoras, Euthydemus, Meno, Gorgias, Republic, Phaedo, Phaedrus and Theaetetus.

Prerequisites: 1.5 credits in PHL

Recommended Preparation: [PHL200H5](#) or [PHL202H5](#) and [PHL210Y5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

PHL302H5 • The Philosophy of Aristotle

This course explores major themes in Aristotle's philosophy belonging to the fields of natural philosophy, metaphysics, ethics and epistemology. Readings may include, though are not necessarily confined to the Ethics,

Physics, Metaphysics, Categories, On the soul and Analytics.

Prerequisites: 1.5 credits in PHL

Recommended Preparation: [PHL200H5](#) or [PHL202H5](#) and [PHL210Y5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

PHL307H5 • Topics in Mediaeval Philosophy

A study of some of the principal figures and intellectual problems in the period from the first century to the sixteenth. Figures such as Philo, Augustine, Abelard, Avicenna, Maimonides, Aquinas, Duns Scotus, Ockham and Suarez will be studied on topics in metaphysics, epistemology, ethics and philosophy of nature.

Prerequisites: 1.5 credits in PHL

Exclusions: [PHL309H1](#)

Recommended Preparation: [PHL200Y5](#) or [PHL210Y5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

PHL310H5 • Topics in 17th and 18th Century Philosophy

A study of a topic or thinker in the 17th or 18th century.

Prerequisites: 1.5 credits in PHL

Exclusions: [PHL309H5](#) or [PHL310H1](#) or [PHL311H1](#) or [PHL313H5](#)

Recommended Preparation: [PHL210Y5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

PHL311H5 • South Asian Philosophy

An intermediate-level course on one or more philosophical traditions from the South Asian world, including orthodox Indian schools (Nyaya, Vaisheshika, Samkhya, Yoga, Mimamsa, and Vedanta) and non-orthodox schools such as Buddhism and Jainism, with a focus on their theories of religion, ethics, epistemology, or metaphysics.

Prerequisites: 1.5 credits in PHL

Exclusions: [PHL293H5](#) (Fall 2020) and [PHL390H5](#) (Fall 2019) and [PHL339H1](#)

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

PHL314H5 • Kant

A systematic study of The Critique of Pure Reason.

Prerequisites: PHL210Y5 and 1.5 additional credits in PHL

Exclusions: PHL312H5 or PHLC37H3

Recommended Preparation: PHL245H5 or PHL310H5

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

PHL315H5 • Topics in Nineteenth Century Philosophy

A study of some topic or thinker in the 19th century.

Prerequisites: 1.5 credits in PHL

Exclusions: PHL317H5

Recommended Preparation: PHL210Y5 or PHL310H5 or PHL312H5

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

PHL324H5 • The Continental Tradition

A study of recent traditions of continental philosophy such as phenomenology, existentialism, hermeneutics, critical theory, structuralism and post-structuralism. Figures such as Husserl, Heidegger, Sartre, the Frankfurt school, Lacan, Foucault, Deleuze and Derrida.

Prerequisites: 1.5 credits in PHL

Exclusions: PHL320H1 or PHL321H1

Recommended Preparation: PHL210Y5 or PHL310H5 or PHL312H5 or PHL317H5

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

PHL325H5 • Early Analytic Philosophy

An examination of some of the classic texts of early analytic philosophy, concentrating on the work of Frege, Russell and Wittgenstein. Central topics to be covered include: the development of logic and its relation to arithmetic; the nature of language and meaning; truth and objectivity; the distinction between sense and reference; logical analysis; the relation between language and thought; and the bounds of intelligibility.

Prerequisites: PHL245H5 and 1.5 additional credits in PHL

Exclusions: PHLC43H3

Recommended Preparation: PHL210Y5

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

PHL327H5 • Later Analytic Philosophy

An examination of the later analytic tradition from logical positivism to Kripke. The course will cover some of the following topics: meaning and verifiability; the relation between science and philosophy; ordinary language and philosophy; the nature and status of the analytic-synthetic distinction; meaning and theories of meaning; theories of truth; the nature of necessity; and reference and identity.

Prerequisites: PHL 245H5 and 1.5 additional credits in PHL

Recommended Preparation: PHL325H5

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

PHL332H5 • Metaphysics

Typical topics: ontological categories; ontological commitment; the objectivity of space and time: causality and determinism; mind and body.

Prerequisites: 1.5 credits in PHL

Exclusions: PHL330Y1 or PHL331H1 or PHLC60H3

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

PHL333H5 • Epistemology

Typical topics: knowledge and belief, perception, the analytic-synthetic distinction, theories of truth, necessity and the a priori.

Prerequisites: 1.5 credits in PHL

Exclusions: PHL330Y1 or PHL332H1

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

PHL340H5 • Philosophy of Mind

Typical topics: the brain-mind identity theory; consciousness intentionality and the mental; personal identity; the nature of human action.

Prerequisites: 1.5 credits in PHL

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

PHL341H5 • Practical Reason and Human Action

(Formerly: Freedom, Responsibility, and Human Action)
The course will cover various topics in action theory and the nature of practical reason, such as the nature of intentional action and intentional explanations, the relation

between morality and practical reason, the distinction between theoretical and practical reasoning, and the relation between motivation and evaluation.

Prerequisites: 1.5 credits in PHL
Distribution Requirements: Humanities
Total Instructional Hours: 36L
Mode of Delivery: In Class

PHL343H5 • Freedom and Determinism

This course will examine the question of whether determinism is true, and to which extent and whether, determinism is compatible with the possibility that our will is free as well as the relation between freedom and responsibility. In particular, we will look at the plausibility of views such as compatibilism, hard determinism and libertarianism.

Prerequisites: 1.5 credits in PHL.
Exclusions: [PHL241H5](#)
Distribution Requirements: Humanities
Total Instructional Hours: 36L
Mode of Delivery: In Class

PHL345H5 • Intermediate Logic

A continuation of PHL245, requiring no other prior knowledge of philosophy or mathematics. Symbolization, natural deduction, and models in polyadic predicate logic with operations and identity. Symbolization, natural deduction, and models for theories of descriptions. Introduction to metatheory, such as soundness and completeness.

Prerequisites: [PHL245H5](#) and 1.0 credits on PHL
Exclusions: [PHL345H1](#) and [PHLC51H3](#)
Distribution Requirements: Humanities
Total Instructional Hours: 36L
Mode of Delivery: In Class

PHL346H5 • Choice and Chance

An intermediate level look at reasoning and decision making in the face of uncertainty. Topics may include: decision theory, game theory, social choice theory, confirmation theory, foundations of probability and statistics, puzzles of infinity and self-location, and the relationship between knowledge and uncertainty.

Prerequisites: 1.5 PHL credits
Recommended Preparation: [PHL246H5](#) or any first course in probability/statistics/decision-making
Distribution Requirements: Humanities
Total Instructional Hours: 36L
Mode of Delivery: In Class

PHL347H5 • Modality in Logic and Philosophy

Study of the concepts of necessity and possibility using extensions of classical logic: modal sentential logic, modal quantification logic, possible-world semantics, the metaphysics of modality. Other possible topics include: counterfactuals, epistemic logic, temporal logic, deontic logic, many-valued logic, and supervaluations.

Prerequisites: [PHL245H5](#) and 1.0 credit in PHL
Exclusions: [PHL347H1](#)
Recommended Preparation: [PHL345H5](#)
Distribution Requirements: Humanities
Total Instructional Hours: 36L
Mode of Delivery: In Class

PHL350H5 • Philosophy of Language

Topics may include: Different approaches to the study of language; the analysis of central theoretical notions in the descriptions of language; the relation between thought and language; the relation between philosophy of language and metaphysics.

Prerequisites: [PHL245H5](#) and 1.5 additional credits in PHL
Exclusions: [PHL351H1](#) or [PHLC80H3](#)
Distribution Requirements: Humanities
Total Instructional Hours: 36L
Mode of Delivery: In Class

PHL354H5 • Philosophy of Mathematics

Platonism versus nominalism, the relation between logic and mathematics, implications of Godel's and Church's theorems, formalism and intuitionism.

Prerequisites: [PHL103H5](#) and [PHL245H5](#) and (0.5 credit in PHL or CSC or MAT)
Exclusions: [PHL344H5](#) and [PHL354H1](#)
Recommended Preparation: [PHL255H5](#)
Distribution Requirements: Humanities
Total Instructional Hours: 36L
Mode of Delivery: In Class

PHL355H5 • Issues in Philosophy of Science

Central problems and contemporary issues. Topics may include: scientific inference and method; explanation; under-determination; the pessimistic induction; constructive empiricism; entity realism; structural realism; laws of nature.

Prerequisites: 1.5 credits in PHL
Exclusions: [PHL355H1](#)
Recommended Preparation: [PHL245H5](#) or [PHL255H5](#)
Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

PHL357H5 • Philosophy of Biology

Conceptual issues in modern biology. Topics may include natural selection, biological kinds, the role of evolution in explaining human attributes such as rationality, cooperation, and communication, reductionism in molecular biology, and functional explanation in biology.

Prerequisites: [PHL255H5](#) or [PHL355H5](#) and 1.5 PHL credits

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

PHL358H5 • Philosophical Issues in Cognitive Science

An examination of philosophical issues that arise in cognitive science, such as: the nature of consciousness, alternative models of computation in theories of cognition, the nature and function of perception and the emotions, the evolution of mind and language, and the relation among various fields of cognitive science such as psychology, linguistics, and neuroscience.

Prerequisites: ([PHL340H5](#) or [PHL345H5](#) or [PHL350H5](#)) and 1.5 additional credits in PHL

Exclusions: [COG250Y1](#)

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

PHL365H5 • Issues in Political Philosophy

A study of some of the best recent work by political philosophers on topics such as justice, rights, welfare and political authority.

Prerequisites: 1.5 credits in PHL

Exclusions: [PHL366H1](#)

Recommended Preparation: [PHL265H5](#) or [PHL277Y5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

PHL367H5 • Issues in Philosophy and Feminism

This course will examine selected philosophical topics in feminism, such as multiculturalism and women's rights, feminist epistemologies, ethics of care, the intersection between sexism and other forms of oppression, pornography.

Prerequisites: 1.5 credits in PHL

Recommended Preparation: [PHL267H5](#) or [PHL274H5](#) or [PHL277Y5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

PHL370H5 • Issues in Philosophy of Law

Major issues in philosophy of law, e.g., responsibility and punishment, the obligation to obey the law, legal positivism, law and morality.

Prerequisites: 1.5 credits in PHL

Recommended Preparation: [PHL271H5](#) or [PHL277Y5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

PHL374H5 • Issues in Normative Ethics

Normative Ethics concerns general questions about what makes actions right or wrong. Topics include, among others, the plausibility of various ethical theories such as consequentialism, deontology, and virtue ethics, and questions about the moral significance of distinctions such as doing vs allowing and intending vs foreseeing.

Prerequisites: 1.5 credits in PHL

Exclusions: [PHL375H5](#) or [PHL376H1](#) or [PHLC05H3](#) or [PHLC06H3](#)

Recommended Preparation: [PHL275H5](#) or [PHL277Y5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

PHL376H5 • Issues in Metaethics

Metaethics concerns the place of values in the world, and the status of ethics as a field of inquiry. Topics may include: the objectivity of morality; moral psychology; the possibility of ethical knowledge; and meanings of ethical concepts.

Prerequisites: 1.5 credits in PHL

Exclusions: [PHL375H5](#) or [PHLC05H3](#) or [PHLC06H3](#)

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

PHL390H5 • Special Topics in Philosophy

A course primarily for Specialists and Majors in Philosophy. Topic to vary from year to year. The contact hours for this course may vary in terms of contact type

(L,S,T,P) from year to year, but will be between 24-36 contact hours in total. See the UTM Timetable.

Prerequisites: 1.5 credits in PHL

Exclusions: [PHL395H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 36S

Mode of Delivery: In Class

PHL400H5 • Seminar in Ancient and Medieval Philosophy

Advanced discussion of principal figures and themes in ancient or medieval philosophy.

Prerequisites: ([PHL200H5](#) and 3.0 credits of PHL) or by permission of the Instructor or Department.

Distribution Requirements: Humanities

Total Instructional Hours: 36S

Mode of Delivery: In Class

PHL410H5 • Seminar in 17th and 18th Century Philosophy

Advanced discussion of principal figures and themes in 17th or 18th century philosophy.

Prerequisites: ([PHL210Y5](#) and 2.5 credits of PHL) or by permission of the Instructor or Department.

Exclusions: [PHL416H5](#) or [PHL402H1](#)

Distribution Requirements: Humanities

Total Instructional Hours: 36S

Mode of Delivery: In Class

PHL420H5 • Seminar in 19th and 20th Century Philosophy

Advanced discussion of principal figures and themes in 19th and 20th century philosophy.

Prerequisites: 3.5 credits of PHL or by permission of the Instructor or Department.

Distribution Requirements: Humanities

Total Instructional Hours: 36S

Mode of Delivery: In Class

PHL432H5 • Seminar in Metaphysics

Advanced topics in metaphysics.

Prerequisites: 3.5 credits of PHL or by permission of the Instructor or Department.

Exclusions: [PHL430H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 36S

Mode of Delivery: In Class

PHL433H5 • Seminar in Epistemology

Advanced topics in epistemology.

Prerequisites: 3.5 credits of PHL or by permission of the Instructor or Department.

Exclusions: [PHL430H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 36S

Mode of Delivery: In Class

PHL440H5 • Seminar in the Philosophy of Mind

Advanced topics in Philosophy of Mind.

Prerequisites: 3.5 credits of PHL or by permission of the Instructor or Department.

Distribution Requirements: Humanities

Total Instructional Hours: 36S

Mode of Delivery: In Class

PHL445H5 • Metalogic

A continuation of [PHL345H5](#), this is a course in the mathematical study of logic, also known as meta-logic. We will investigate and prove theorems about logical systems. Topics covered will include: basic set theory and recursion theory, completeness, compactness, and the Loewenheim-Skolem theorems for first-order logic, and Gödel's incompleteness theorems.

Prerequisites: ([PHL345H5](#) or [MAT309H5](#)) and 1.0 credit in PHL

Exclusions: [PHL348H1](#) and [PHL348H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

PHL447H5 • Seminar in Philosophy of Logic

Study of advanced topics in logic or the philosophy of logic.

Prerequisites: ([PHL345H5](#) and 3.0 credits of PHL) or by permission of the Instructor or Department.

Exclusions: [PHL451H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 36S

Mode of Delivery: In Class

PHL450H5 • Seminar in Philosophy of Language

Study of advanced topics in philosophy of language.

Prerequisites: ([PHL245H5](#) and 3.0 credits of PHL) or by permission of the Instructor or Department.

Exclusions: PHL451H5

Distribution Requirements: Humanities

Total Instructional Hours: 36S

Mode of Delivery: In Class

PHL455H5 • Seminar in Philosophy of Science

Study of advanced topics in the philosophy of science.

Prerequisites: [(PHL355H5 or PHL357H5) and 3.0 credits of PHL] or by permission of the Instructor or Department.

Distribution Requirements: Humanities

Total Instructional Hours: 36S

Mode of Delivery: In Class

PHL475H5 • Seminar in Moral and Political Philosophy

Advanced topics in moral, social, or political philosophy.

Prerequisites: 3.5 credits of PHL or by permission of the Instructor or Department.

Distribution Requirements: Humanities

Total Instructional Hours: 36S

Mode of Delivery: In Class

PHL489Y5 • The Socrates Project

The Socrates Project (PHL489Y) is a full-year course with 3 components. First, you will serve as a TA for a section of PHL103H/PHL113H during the Fall and Winter terms. During the Fall semester, you will attend two 1-hour PHL103H/PHL113H lectures each week, and teach one tutorial of 20-25 students, meeting with them for 1 hour each week. You will grade their papers, hold office hours, and meet with the relevant professor as needed. You will be paid for approximately 100 hours of work each semester, for a total of 200 hours, at the current hourly wage for CUPE Unit 1. The second component of the course is a seminar that meets once per week for 3 hours each time, during the fall term. Most of the seminar will be devoted to more in-depth study of the topics taken up in the PHL103H/PHL113H; but you will also discuss the methods and challenges of teaching philosophy-grading papers, prompting and guiding discussion, and so forth. Third, during the winter term you will write a seminar paper, on a topic of your choosing, under the supervision of a UTM Philosophy faculty member working in the relevant area. You will also present your work orally at an undergraduate research conference held jointly with the Socrates students from the St. George campus. Admittance to the Socrates Project is by application only. Instructions and the application form are available on the web at: <http://philosophy.utoronto.ca/employment/cupe-3902-unit-1>

Distribution Requirements: Humanities

Mode of Delivery: In Class

PHL495H5 • Special Seminar: Philosophical Problems

A seminar for advanced students in Specialist and Major Programs in Philosophy. Topic to vary from year to year.

Prerequisites: 3.5 credits of PHL or by permission of the Instructor or Department.

Distribution Requirements: Humanities

Total Instructional Hours: 36S

Mode of Delivery: In Class

PHL496H5 • Individual Studies

Contact Undergraduate Advisor. Individual study courses are aimed at highly motivated students. They are not intended to duplicate course offerings already available. A student seeking to do an independent course must secure a faculty supervisor. Regular meetings between student and supervisor are required, and the workload should be the same as a fourth-year philosophy seminar.

Prerequisites: Permission of Instructor

Distribution Requirements: Humanities

Mode of Delivery: In Class

PHL497H5 • Individual Studies

Contact Undergraduate Advisor. Individual study courses are aimed at highly motivated students. They are not intended to duplicate course offerings already available. A student seeking to do an independent course must secure a faculty supervisor. Regular meetings between student and supervisor are required, and the workload should be the same as a fourth-year philosophy seminar.

Prerequisites: Permission of Instructor

Distribution Requirements: Humanities

Mode of Delivery: In Class

PHL498H5 • Individual Studies

Contact Undergraduate Advisor. Individual study courses are aimed at highly motivated students. They are not intended to duplicate course offerings already available. A student seeking to do an independent course must secure a faculty supervisor. Regular meetings between student and supervisor are required, and the workload should be the same as a fourth-year philosophy seminar.

Prerequisites: Permission of Instructor

Distribution Requirements: Humanities

Mode of Delivery: In Class

PHL499Y5 • Individual Studies

Contact Undergraduate Advisor. Individual study courses are aimed at highly motivated students. They are not intended to duplicate course offerings already available. A student seeking to do an independent course must secure a faculty supervisor. Regular meetings between student

and supervisor are required, and the workload should be the same as a fourth-year philosophy seminar.

Prerequisites: Permission of Instructor

Distribution Requirements: Humanities

Mode of Delivery: In Class

The domain of physics ranges from its origins in natural philosophy to the investigations of complex biological systems. Combining the power of mathematics with the art of precision experiments, Physics discovers the mechanisms that interconnect many different aspects of nature. An increasing number of activities in modern science and technology have arisen from a fundamental basis in physics. Physicists are interested in all systems that can be studied by experimental measurements, and described by mathematical models. Physicists at U of T Mississauga interact closely with astronomers, biologists, chemists, geologists and other scientists to study complex problems in these disciplines.

Students of physics develop flexible skills in experimentation, problem-solving, analytical thinking, and modeling. We offer a Specialist Program in Biophysics that combines fundamental courses in physics, mathematics, chemistry, and biology together with specialized courses in biophysics. This program has been introduced in response to the growing demand for specialists with physics background in the areas of biology and medicine. We also offer Physics Major and Minor programs. A Major or Minor in physics, in combination with another major, can strongly enhance studies in the other discipline. Besides mathematics and the other natural sciences, a major in another quantitative discipline such as computer science, management/finance, or economics is ideally suited to be combined with a Physics Major or Minor. A physics background with its emphasis on quantitative problem solving enhances future employment opportunities in scientific research and teaching, biomedical professions, biotech and environmental organizations, industrial research and development, electronics and engineering companies, informatics and computer-related enterprises, or financial institutions.

Students should also review the [Degree Requirements](#) section prior to selecting courses

Physics Programs

Biophysics - Specialist (Science)

Enrolment Requirements:

Limited Enrolment – Enrolment in this program is based on completion of 4.0 credits, including:

1. PHY146H5 (with a minimum grade of 65%) or PHY136H5 (with a minimum grade of 80%);
2. PHY147H5 (with a minimum grade of 65%) or PHY137H5 (with a minimum grade of 80%); and
3. [(MAT132H5 or MAT135H5 or MAT137H5 or MAT157H5) and (MAT134H5 or MAT136H5 or MAT139H5 or MAT159H5)] or MAT135Y5 or MAT137Y5 or MAT157Y5
4. A minimum CGPA of 2.5

Completion Requirements:

14.0 credits are required.

First Year:

1. (PHY146H5 and PHY147H5) or (PHY136H5 and PHY137H5)
2. BIO152H5
3. CHM110H5 and CHM120H5
4. [(MAT132H5 or MAT135H5 or MAT137H5 or MAT157H5) and (MAT134H5 or MAT136H5 or MAT139H5 or MAT159H5)] or MAT135Y5 or MAT137Y5 or MAT157Y5
5. ISP100H5

Second Year:

1. PHY241H5 and PHY245H5 and PHY255H5
2. JCP221H5 and JCP265H5
3. MAT223H5 and MAT232H5 and MAT244H5
4. BIO206H5

Third Year:

1. PHY324H5 and PHY332H5 and PHY333H5 and PHY347H5
2. JCP321H5 and JCP322H5
3. BIO314H5 or PHY325H5

Fourth Year:

1. (PHY426H5 or PHY433H5 or JCP463H5) and JCP421H5
2. 1.0 credit from PHY473H5 or JCP410H5 or JCP422H5 or CPS489Y5 or CPS400Y5 or JCB487Y5 or PHY399Y5

NOTES:

1. At least 65% mark in PHY146H5 and PHY147H5
2. At least 80% in PHY136H5 and PHY137H5

ERSPE1944

Physics - Major (Science)

Enrolment Requirements:

Limited Enrolment – Enrolment in this program is based on completion of 4.0 credits, including:

- ONE of the following:
 - [PHY146H5](#) and [PHY147H5](#) (with a minimum grade of 60%)
 - [PHY136H5](#) and [PHY137H5](#) (with a minimum grade of 80%)
- [([MAT132H5](#) or [MAT135H5](#) or [MAT137H5](#) or [MAT157H5](#)) and ([MAT134H5](#) or [MAT136H5](#) or [MAT139H5](#) or [MAT159H5](#))] or [MAT135Y5](#) or [MAT137Y5](#) or [MAT157Y5](#)

Completion Requirements:

8.5 credits are required.

First Year:

1. ([PHY146H5](#) and [PHY147H5](#)) or ([PHY136H5](#) or [PHY137H5](#))
2. [([MAT132H5](#) or [MAT135H5](#) or [MAT137H5](#) or [MAT157H5](#)) and ([MAT134H5](#) or [MAT136H5](#) or [MAT139H5](#) or [MAT159H5](#))] or [MAT135Y5](#) or [MAT137Y5](#) or [MAT157Y5](#)
3. [ISP100H5](#)

Second Year:

1. [PHY241H5](#) and [PHY245H5](#)
2. [JCP221H5](#)
3. [MAT232H5](#) and [MAT244H5](#)

Third & Fourth Years:

3.5 credits from the following list of courses [PHY324H5](#), [PHY325H5](#), [PHY332H5](#), [PHY333H5](#), [PHY343H5](#), [PHY347H5](#), [PHY351H5](#), [PHY399Y5](#), [PHY451H5](#), [JCP265H5](#), [JCP321H5](#), [JCP322H5](#), [JCP421H5](#)

Note:

1. At least 60% mark in [PHY147H5](#)
2. At least 80% in [PHY137H5](#)
3. Check prerequisites for all courses

[ERMAJ1944](#)

Physics - Minor (Science)

Enrolment Requirements:

Limited Enrolment — Enrolment in this program is based on completion of 4.0 credits including:

1. ([PHY146H5](#) and [PHY147H5](#)); or ([PHY136H5](#) and [PHY137H5](#))
2. [([MAT132H5](#) or [MAT135H5](#) or [MAT137H5](#) or [MAT157H5](#)) and ([MAT134H5](#) or [MAT136H5](#) or [MAT139H5](#) or [MAT159H5](#))] or [MAT135Y5](#) or [MAT137Y5](#) or [MAT157Y5](#)

Completion Requirements:

5.0 credits are required including at least 1.5 credits at the 300/400 level. Please note that a number of these courses have MAT pre-requisites and/ or co-requisites.

First Year: [([PHY146H5](#) and [PHY147H5](#)) or ([PHY136H5](#) and [PHY137H5](#))] and [([MAT132H5](#) or [MAT135H5](#) or [MAT137H5](#) or [MAT157H5](#)) and ([MAT134H5](#) or [MAT136H5](#) or [MAT139H5](#) or [MAT159H5](#))] or [MAT135Y5](#) or [MAT137Y5](#) or [MAT157Y5](#)

Second Year:

1.5 credits from: PHY241H5, PHY242H5, PHY245H5, PHY255H5, PHY299Y5, JCP221H5, JCP265H5.

Higher Years:

1.5 credits from: JCP321H5, JCP322H5, JCP410H5, JCP421H5, JCP422H5, JCP463H5, PHY324H5, PHY325H5, PHY332H5, PHY333H5, PHY343H5, PHY347H5, PHY351H5, PHY399Y5, PHY426H5, PHY433H5, PHY451H5, PHY473H5

NOTES:

1. Not all 300 and 400 level courses are offered every year. Please check the course timetable carefully each academic year.
2. Check all prerequisites and corequisites when registering for 200+ level courses.

ERMIN1944

Physics Courses

CPS400Y5 • Chemical and Physical Sciences Internship

This internship opportunity will allow students to apply theoretical and practical skills acquired during their undergraduate education in order to gain vital industry experience. Students will be trained in effective job searching skills (writing a CV and a Cover Letter, participating in job interviews) and will gain valuable experiences that are sought after by employers in both public and private sectors. Students will be placed with various employers in the GTA based on their interest and skill set, and on the employer needs and availability. The placement is a 200 h unpaid internship. The Course Coordinator/Instructor(s) will schedule biweekly meetings to discuss the setup and progress of the student projects. Student attendance is mandatory. At the end of the term, students must submit a written report and prepare an oral presentation about the outcomes of their work experience. In order to be considered for the internship, students must apply for the course. The Course Coordinator will approve enrolment in the course based on the number of internship opportunities available, which will vary from year-to-year, and student qualifications (e.g. GPA, experience, qualifications related to the requirements of the available placement(s), and interview performance).

Prerequisites: For Chemistry Internships (CHM372H5 or CHM394H5 or CHM396H5) and an additional 1.0 credit from any 300/400 level CHM/JCP/JBC/BCH/FSC courses. For Earth Science/Geology Internships: (ERS301H5 and ERS303H5) and an additional 1.0 credit from any 300/400 level courses. For Physics Internships: (PHY324H5 and PHY347H5) and an additional 1.0 credit from any 300 or 400 level PHY/JCP courses.

Recommended Preparation: For Chemistry Internships: (CHM373H5 or CHM395H5 or CHM397H5) For Earth Science & Geology Internships: ERS302H5 and ERS311H5 and ERS401H5 For Physics Internships PHY325H5 and PHY332H5 and PHY333H5

Enrolment Limits: Students must be in their fourth year of study and registered in one of following Programs: Chemistry Major, Chemistry Specialist, Biological Chemistry Specialist, Earth Science Major, Earth Science Specialist, Geology Specialist, Physics Major, Biomedical Physics Specialist.

Course Experience: Partnership-Based Experience

Distribution Requirements: Science

Mode of Delivery: In Class

CPS489Y5 • Introduction to Research in the Chemical and Physical Sciences

Students will work toward the completion of an experimental or theoretical research project in an area of study within the chemical and physical sciences, namely, astronomy, chemistry, earth sciences or physics. Projects will be based on current trends in research and students will work to complete their projects with guidance provided by a team of facilitators and faculty advisors consisting of course coordinators and a researcher from the Department of Chemical and Physical Sciences. In addition to the rigorous development of research skills, the course will also provide students with training and practical experience in project management techniques and practical research, literary and communications skills development. CPS489Y5 requires submitting an application to the department Application forms may be found at <http://uoft.me/cpsforms>. Applications should be submitted to the CPS Undergraduate Assistant.

Prerequisites: (2.0 credits at the 300 level from BIO or CHM or JBC or JCP or ERS or ESS or PHY) and (1.0 credit from BIO206H5 or BIO314H5 or CHM372H5 or CHM373H5 or CHM394H5 or CHM395H5 or CHM396H5 or CHM397H5 or ERS201H5 or ERS202H5 or PHY324H5 or PHY347H5 or JCP321H5 or JCP322H5 or PHY325H5

or PHY332H5 or PHY333H5 or PHY343H5 or PHY351H5)
Exclusions: BIO400Y5 or BIO481Y5 or CBJ481Y5 or CHM489Y5 or ERS470Y5 or ERS471H5 or ERS472H5 or PHY489Y5 or BCH472Y1 or BCH473Y1 or CHM499Y1 or CSB497H1 or CSB498Y1 or CSB499Y1 or ESS491H1 or ESS492Y1 or MGY480Y1 or PHY478H1 or PHY479Y1 or BIOD98Y3 or CHMD90Y3 or CHMD91H3 or ESSD09H3 or ESSD10H3 or PSCD10H3

Course Experience: University-Based Experience

Distribution Requirements: Science

Total Instructional Hours: 240P

Mode of Delivery: In Class

JCB487Y5 • Advanced Interdisciplinary Research Laboratory

Students will work together as members of a multidisciplinary team toward the completion of an interdisciplinary experimental or theoretical research project. Teams will be comprised of at least three students, with representation from at least three areas of specialization, namely, astronomy, biology, chemistry, earth sciences or physics. The interdisciplinary projects will be based on current trends in research and student teams will work to complete their projects with guidance provided by a team of faculty advisors from the Biology Department and the Department of Chemical and Physical Sciences. In addition to the rigorous development of research skills, the course will also provide students with training and practical experience in project management techniques and teamwork skills development. JCB487Y5 requires submitting an application to the department before the end of June for Fall enrolment. Application forms may be found at <http://uoft.me/cpsforms>. Application should be submitted to the CPS Undergraduate Assistant. Registration on ACORN is also required.

Prerequisites: (2.0 credits at the 300 level from BIO or CHM or JBC or JCP or ERS or ESS(G) or PHY) and (1.0 credit from BIO206H5 or BIO314H5 or CHM372H5 or CHM373H5 or CHM394H5 or CHM395H5 or CHM396H5 or CHM397H5 or ERS201H5 or ERS202H5 or PHY324H5 or PHY347H5). Normally taken in 4th year. Students must obtain approval from the faculty member(s) who will serve as the supervisor(s) in advance of the start of the course.

Exclusions: BIO400Y5 or BIO481Y5 or CBJ481Y5 or CHM489Y5 or ERS470Y5 or ERS471H5 or ERS472H5 or PHY489Y5 or BCH472Y1 or BCH473Y1 or CHM499Y1 or CSB497H1 or CSB498Y1 or CSB499Y1 or ESS491H1 or ESS492Y1 or MGY480Y1 or PHY478H1 or PHY479Y1 or BIOD98Y3 or CHMD90Y3 or CHMD91H3 or ESSD09H3 or ESSD10H3 or PSCD10H3

Course Experience: University-Based Experience

Distribution Requirements: Science

Total Instructional Hours: 240P

Mode of Delivery: In Class

JCP221H5 • Thermodynamics

An introduction to equilibrium thermodynamics with application to ideal and non-ideal systems: covering the

concepts of work and heat, the laws of thermodynamics, internal energy, enthalpy and entropy, the chemical potential, states of matter, phase rules and phase diagrams, and chemical equilibria. Kinetics topics include rate laws, both differential and integrated, rate constants, activated complex theory, and temperature effects.

Prerequisites: [(CHM110H5 and CHM120H5 with a minimum grade of 60% in CHM120H5) or (PHY136H5 and PHY137H5) or (PHY146H5 and PHY147H5)] and [(MAT132H5 and MAT134H5) or (MAT135H5 and MAT136H5) or (MAT137H5 and MAT139H5) or (MAT157H5 and MAT159H5) or MAT134Y5 or MAT135Y5 or MAT137Y5 or MAT157Y5]

Exclusions: CHM220H1 or CHM221H1 or CHM225Y1 or CHMB20H3 or CHMB23H3

Recommended Preparation: MAT212H5 or MAT223H5 or MAT232H5 or MAT233H5 or MAT236H5 or MAT240H5 or MAT242H5 or MAT244H5

Distribution Requirements: Science

Total Instructional Hours: 36L/12T

Mode of Delivery: In Class

JCP265H5 • Introduction to Scientific Computing

This course is an introduction to computing in the physical sciences. Students will gain experience utilizing numerical software tools used in both academic and industrial settings. A variety of numerical techniques will be covered, with topics to include: curve fitting, numerical approximations of derivatives and integrals, root finding, solutions of differential equations, Fourier series, Monte Carlo methods, and more. Students will also acquire skills in data analysis and visualization. No prior experience in computer programming is required.

Prerequisites: [PHY146H5 or PHY136H5 (minimum grade of 80%)] and [PHY147H5 or PHY137H5 (minimum grade of 80%)] and [(MAT135H5 and MAT136H5) or (MAT137H5 and MAT139H5) or (MAT135Y5 or MAT137Y5)]

Exclusions: CSC108H5 or CSC108H1 or CSC120H1 or CSC148H1 or CSCA08H3

Distribution Requirements: Science

Total Instructional Hours: 24L/24P

Mode of Delivery: In Class

JCP321H5 • Quantum Mechanics I: Foundations

A first course covering basic concepts of quantum chemistry and physics. Topics include: de Broglie waves and wave-particle duality, the postulates of quantum mechanics, the Schrödinger equation, the square potential well and potential barriers, the harmonic oscillator, the rigid rotor, atoms, molecules and solids.

Prerequisites: (PHY136H5 and PHY137H5) or (PHY146H5 and PHY147H5) and (JCP221H5 or PHY245H5) and (MAT212H5 or MAT223H5 or

MAT232H5 or MAT242H5 or MAT244H5)

Exclusions: CHM326Y1 or PHY256H1 or PHY356H1 or PHYB56H3 or PHYC56H3

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

JCP322H5 • Statistical Mechanics

Statistical methods for bridging the quantum behaviour of atoms and molecules to their macroscopic properties in solid, liquid and gaseous states. The course introduces partition functions, canonical ensembles, and their application to thermodynamic properties such as entropy, heat capacity, equilibrium constants, reaction rates, and Bose-Einstein/Fermi-Dirac distribution functions.

Prerequisites: JCP321H5

Exclusions: CHM328H1 or CHMC20H3 or PHY452H1

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

JCP410H5 • Modelling of Biochemical Systems

An introduction to mathematical modelling of complex biological systems, with a focus on biochemical kinetic models, their numerical simulation, and methods for analytically and computationally studying their behaviour. This is a one-term independent-study project course: students will be given a set of directed readings, then assisted in selecting an existing model from the literature. After reproducing existing results, students will be tasked with extending the model in a direction of their own choosing; this can include exploring different parameter regimes, incorporating new or different aspects of the underlying biology, or applying different analytical techniques. Students will work with the instructor to select a suitable project, matching their background and interests. Formal lectures will be replaced with a series of weekly meetings with the instructor to discuss progress and plans.

Prerequisites: (JCP221H5 or PHY241H5) and PHY245H5 and (MAT212H5 or MAT223H5 or MAT232H5 or MAT242H5 or MAT244H5)

Distribution Requirements: Science

Total Instructional Hours: 24S

Mode of Delivery: Online, In Class

JCP421H5 • Quantum Mechanics II: Applications

The course offers an in-depth examination of the fundamental principles of quantum theory and a guide to its applications. Topics may vary but will include: time-independent Schrodinger equation, quantum dynamics in Heisenberg and Schrodinger pictures, time-independent perturbation theory, WKB approximation, variational

method, spin, addition of angular momentum, time-dependent perturbation theory, scattering.

Prerequisites: JCP321H5 and PHY325H5

Exclusions: PHYC563H3 or PHY456H1

Distribution Requirements: Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

JCP422H5 • NMR Spectroscopy

Fundamentals of NMR spectroscopy including classical and quantum descriptions, NMR parameters and relaxation times, product operators, multi-dimensional NMR, and solid-state techniques.

Prerequisites: (JCP221H5 or PHY241H5) and PHY245H5 and (MAT212H5 or MAT223H5 or MAT232H5 or MAT242H5 or MAT244H5)

Recommended Preparation: JCP321H5 and CHM361H5

Distribution Requirements: Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

JCP463H5 • Techniques in Structural Biology

Biochemical and biophysical approaches to studies of protein interactions, structures, and dynamics. Theory and practice of specific experimental approaches will provide a fundamental understanding on information potential and technique limitations. Specific applications from the current literature will be discussed. Student evaluations will include oral presentations describing studies using the techniques.

Prerequisites: CHM361H5 or (PHY332H5 or PHY333H5)

Recommended Preparation: CHM362H5 and JCP221H5

Distribution Requirements: Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

PHY100H5 • What's Physics Got to Do With It?

Stephen Hawking once said: "We are just an advanced breed of monkeys on a minor planet of a very average star. But we can understand the Universe. That makes us something very special." The magic of Physics, with its ambitious goals of pushing the boundaries of knowledge, from finding the "God particle" to predicting the fate of the Universe, will be the focus of this course. The course is intended for those who are not trained in Physics and Mathematics but who nevertheless want to gain insight into this interesting and important field in a non-intimidating way. We will discover important concepts and theories through applications to everyday phenomena, including new energy sources, laser surgery, flat-screen

TVs, wireless communications, GPS, etc. More advanced, but nevertheless fascinating and popular topics, will also be covered: time travel, relativity, ultracold atoms, quantum entanglement, black holes and the Higgs boson. No previous background in Physics is expected; high school algebra is recommended.

Exclusions: Any PHY or JCP course, taken previously or concurrently, or [PHY100H1](#) or [PHY197H1](#) or [PHY205H1](#)

Distribution Requirements: Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

PHY136H5 • Introductory Physics I

A first year introductory Physics course for students who do not intend to pursue a Physics or an Astronomy program. This course is focused on providing students with conceptual understanding and problem solving skills through the study of physical phenomenon that include: Forces and Newton's Laws of Motion; Rotational Dynamics; Simple Harmonic Motion and Waves.

Prerequisites: [Grade 12 Advanced Functions (MHF4U) or Grade 12 Calculus & Vectors (MCV4U)] or a minimum grade of 70% in [PHY100H5](#)

Exclusions: [PHY131H1](#) or [PHY151H1](#) or [PHYA10H3](#) or [PHYA11H3](#)

Recommended Preparation: Grades 12 Physics (SPH4U) is recommended.

Distribution Requirements: Science

Total Instructional Hours: 36L/12T/15P

Mode of Delivery: In Class

PHY137H5 • Introductory Physics II

A second introductory Physics course for students who do not intend to pursue a Physics or an Astronomy program. This course is focused on providing students with conceptual understanding and problem solving skills through the study of physical phenomenon that include: Electric Forces and Fields; Electric Circuits; Magnetic Forces and Field; Optics.

Prerequisites: [PHY136H5](#) or [PHY146H5](#) or a minimum grade of 70% in [PHY100H5](#)

Exclusions: [PHY132H1](#) or [PHY152H1](#) or [PHYA21H3](#) or [PHYA22H3](#)

Recommended Preparation: Grade 12 Physics (SPH4U) is recommended.

Distribution Requirements: Science

Total Instructional Hours: 36L/12T/15P

Mode of Delivery: In Class

PHY146H5 • Principles of Physics I

Physics is the scientific study of the laws governing all forms of matter and energy, from sub-atomic particles to stars and galaxies. The goal of physics is to develop physical laws based upon the results of experimental

inquiry, and usually expressed in the language of mathematics, to predict phenomena within our natural world. This first course in classical physics is intended for students pursuing any of the Physics or Astronomy programs, although it is highly recommended for anyone in the Sciences. Topics include Newton's Laws of motion, conservation of energy and momentum, inertia, circular motion, simple harmonic motion, waves and vibrations, thermal motion, and more.

Prerequisites: Grade 12 Physics (SPH4U) and Grade 12 Advanced Functions (MHF4U) and Grade 12 Calculus & Vectors (MCV4U)

Corequisites: [MAT135H5](#) or [MAT137H5](#) or [MAT157H5](#)

Exclusions: [PHY131H1](#) or [PHY151H1](#) or [PHYA10H3](#) or [PHYA11H3](#)

Distribution Requirements: Science

Total Instructional Hours: 36L/12T/15P

Mode of Delivery: In Class

PHY147H5 • Principles of Physics II

The second physics course for students intending to pursue any of the Physics or Astronomy programs and highly recommended for some of the other programs in the Department of Chemical and Physical Sciences. The concept of a field and its mathematical description in terms of vector calculus will be introduced as a way to provide a description of gravity and electromagnetism. The wave-particle duality will be introduced as way to address issues with the classical view of the behavior of sub-atomic phenomena.

Prerequisites: [PHY146H5](#) or [PHY136H5](#) (minimum grade of 80%) and [[MAT135H5](#) or [MAT137H5](#) or [MAT157H5](#)]

Corequisites: [MAT136H5](#) or [MAT139H5](#) or [MAT159H5](#)

Exclusions: [PHY132H1](#) or [PHY152H1](#) or [PHYA21H3](#) or [PHYA22H3](#)

Distribution Requirements: Science

Total Instructional Hours: 36L/12T/15P

Mode of Delivery: In Class

PHY241H5 • Electromagnetism

Topics in electricity and magnetism, beginning with vector analysis and culminating in Maxwell's equations. Electric fields and Gauss' law, conductors, capacitors and dielectrics. Magnetic fields, magnetic materials and devices, induction and Faraday's law. Maxwell's equations and electromagnetic waves are introduced.

Prerequisites: [([PHY146H5](#) or [PHY136H5](#)) and ([PHY147H5](#) or [PHY137H5](#))] and [([MAT135H5](#) and [MAT136H5](#)) or ([MAT137H5](#) and [MAT139H5](#)) or ([MAT157H5](#) and [MAT159H5](#)) or [MAT135Y5](#) or [MAT137Y5](#) or [MAT157Y5](#)]

Corequisites: [MAT232H5](#)

Exclusions: [PHY250H1](#)

Distribution Requirements: Science

Total Instructional Hours: 24L/8T/16P

Mode of Delivery: In Class

PHY242H5 • Thermal Physics and Fluid Mechanics

An introduction to the basic concepts and modern analysis of thermal-fluid sciences. Topics include: Mechanisms of Heat Transfer; Heat Conduction; Forced and Natural Heat Convection; Radiation Heat Transfer; Fluid Statics; Fluid Kinematics; Fluid Dynamics; Bernoulli and Energy Equations; Internal Flow; Transport Processes and Diffusion; and Biomedical Applications of Thermal Physics and Fluid Mechanics.

Prerequisites: [(PHY146H5 or PHY136H5 (minimum grade of 80%)) and (PHY147H5 or PHY137H5 (minimum grade of 80%))] and [(MAT135H5 and MAT136H5) or (MAT135Y5 or MAT137Y5)]

Exclusions: PHY252H1

Distribution Requirements: Science

Total Instructional Hours: 24L/8T/16P

Mode of Delivery: In Class

PHY245H5 • Vibrations and Waves

The analysis of vibrating systems and wave motion, introducing mathematical techniques such as complex numbers, eigenvalue problems, and Fourier series. Topics include: simple and coupled oscillators; dispersion relations and boundary conditions; travelling waves; propagation of electromagnetic waves in materials; reflection and transmission of waves at interfaces.

Prerequisites: [(PHY146H5 or PHY136H5) and (PHY147H5 or PHY137H5)] and [(MAT135H5 or MAT137H5 or MAT157H5) and (MAT136H5 or MAT139H5 or MAT159H5)] or MAT135Y5 or MAT137Y5 or MAT157Y5]

Corequisites: MAT244H5

Distribution Requirements: Science

Total Instructional Hours: 24L/8T/15P

Mode of Delivery: In Class

PHY255H5 • Introduction to Biomedical Physics

The course focuses on applying principles from introductory Physics to biomedical phenomena. The goal is to illustrate the application of physical principles in life sciences and how this enhances one's understanding of biology. Topics may vary but they will include: the elasticity of muscles, the flow of blood, the electrical signal propagation in nerve cells, the optical properties of the eye, and the sound generation in vocal cords. In addition, the physical basis of medical techniques such as ultrasound imaging, endoscopy, electrocardiography, magnetic resonance imaging, laser surgery, and radiation therapy will be treated quantitatively.

Prerequisites: (PHY136H5 and PHY137H5) or (PHY146H5 and PHY147H5) or Permission of Instructor

Exclusions: PHY231H1

Distribution Requirements: Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

PHY299Y5 • Research Opportunity Program

This course provides a rewarding opportunity for students in their second year to work in the research project of a professor in return for 299Y course credit. Students enrolled have an opportunity to become involved in original research, learn research methods and share in the excitement and discovery of acquiring new knowledge. Participating faculty members post their project descriptions for the following summer and fall/winter sessions in early February and students are invited to apply in early March. See [Experiential and International Opportunities](#) for more details.

Course Experience: University-Based Experience

Distribution Requirements: Science

Mode of Delivery: In Class

PHY324H5 • Advanced Physics Laboratory

A modular practical course that develops the experimental and computational skills necessary to get deeper insight in physical phenomena. Selected physics experiments and modeling that illustrate important principles of physics are applied: Experimental measurements and skills, data and uncertainty analysis, mathematical models, computational simulations and solutions.

Prerequisites: PHY241H5 or PHY242H5 or PHY245H5 or JCP221H5

Exclusions: PHY327H1

Distribution Requirements: Science

Total Instructional Hours: 48P

Mode of Delivery: In Class

PHY325H5 • Mathematical and Computational Physics

The theory and application of mathematical methods for the physical sciences. Topics may include: vector calculus, linear algebra applied to coordinate transformations, probability distributions, systems of linear ordinary and partial differential equations and boundary value problems, Fourier analysis and orthogonal functions, the Heat and Wave equations in various coordinate systems, and the use of Legendre polynomials and Spherical Bessel functions. Computational methods and standard software tools will be used to solve complex physics problems.

Prerequisites: [PHY241H5](#) and [PHY245H5](#) and [MAT232H5](#) and [MAT244H5](#)

Distribution Requirements: Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

PHY332H5 • Molecular Biophysics

A physicist's perspective on the building blocks of the living world. Topics may vary but will include: levels of structural complexity in biomolecules, molecular thermodynamics, molecular forces, the stability of biological structures, and the interaction of radiation with molecules. A rigorous treatment of commonly used biophysical techniques, such as calorimetry, optical spectroscopy, light/X-ray/neutron scattering, and single-molecule methods, will be accompanied by research applications.

Prerequisites: [PHY241H5](#) and [PHY255H5](#) and [JCP221H5](#)

Corequisites: [JCP321H5](#)

Exclusions: [PHY331H1](#)

Distribution Requirements: Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

PHY333H5 • Physics of the Cell

A biophysical description of the structural properties and biological processes of the cell. The course will focus on: membrane biophysics, osmosis and transport through membranes, cell division, differentiation and growth, cell motility and muscular movement, cellular communication, cellular signal transduction and control, nerve impulses, action potential, synaptic signal transmission, free energy transduction in biological systems and bioenergetics of the cell, photosynthesis and respiration, photobiophysics, photoreception, and bioluminescence.

Prerequisites: [PHY255H5](#) and [JCP221H5](#)

Exclusions: [PHY431H1](#)

Distribution Requirements: Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

PHY343H5 • Classical Mechanics

A mathematical treatment of Newtonian mechanics. Topics include: variational principles, Lagrangian mechanics, Noether's theorem, symmetry and conservation laws, applications (orbits, oscillators, scattering), introduction to Hamiltonian mechanics.

Prerequisites: [PHY146H5](#) and [MAT244H5](#)

Exclusions: [PHY354H1](#)

Distribution Requirements: Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

PHY347H5 • Optics

The course will focus on wave optics and introduce students to modern optics and the quantum nature of light. Topics may vary but will include: electromagnetic waves and the propagation of light, basic coherence concepts and the interference of light, Fraunhofer and Fresnel diffraction, Fresnel equations, polarization of light, birefringence, blackbody radiation and principles of laser operation.

Prerequisites: [PHY241H5](#) and [PHY245H5](#) and [MAT232H5](#) and [MAT244H5](#)

Exclusions: [PHY385H1](#)

Distribution Requirements: Science

Total Instructional Hours: 24L/12T/15P

Mode of Delivery: In Class

PHY351H5 • Climate Physics

This course presents the physics of Earth's climate. Emphasis will be placed on the basic principles and processes involved in physical and dynamic climatology and the physical interactions between the atmosphere, oceans, and land surface. Topics may include components of the climate system and global energy balance, atmospheric radiative transfer, surface energy balance, the hydrological cycle, general circulation of the atmosphere, ocean circulation and climate, climate modeling, and climate change. In the lab practicals, students will gain hands-on experience in analyzing climate data and simple climate modeling.

Prerequisites: ([PHY242H5](#) or [JCP221H5](#) or [PHY245H5](#)) and [JCP265H5F](#)

Exclusions: [PHY392H1](#)

Distribution Requirements: Science

Total Instructional Hours: 24L/24P

Mode of Delivery: In Class

PHY399Y5 • Research Opportunity Program

This course provides third-year undergraduate students (after completion of at least 8 to 10 credits) who have developed some knowledge of Physics and its research methods, an opportunity to work in the research project of a professor in return for course credit. Students enrolled have the opportunity to become involved in original research, enhance their research skills and share in the excitement of acquiring new knowledge and in the discovery process of science. Participating faculty members post their project descriptions for the following summer and fall/winter sessions in early February and students are invited to apply in early March. See [Experiential and International Opportunities](#) for more details.

Course Experience: University-Based Experience

Distribution Requirements: Science

Mode of Delivery: In Class

PHY426H5 • Computational Modeling in Physics

In this advanced course in computational modeling and physical simulation, students will apply numerical techniques to study a range of physical phenomena. Topics may include: chaotic and nonlinear systems, mean-field and Monte Carlo methods, variational and spectral methods, stochastic processes, molecular dynamics simulations, protein folding, self-organized criticality, neural networks, clustering and percolation, and so on.

Prerequisites: JCP265H5 and PHY325H5

Exclusions: PHY407H1

Distribution Requirements: Science

Total Instructional Hours: 24L/24P

Mode of Delivery: In Class

PHY433H5 • Medical Physics

An introduction to key physical principles applied to medical diagnostics, imaging and radiation therapy. Topics include: electrophysiology, electrocardiogram and encephalogram; biomagnetism, magnetocardiogram and magnetoencephalogram; atomic and nuclear physics, ionizing radiation, radioactivity, nuclear medicine; theory of image formation and analysis, X- and gamma-ray imaging, positron emission tomography; lasers, optical light-matter interactions, optical imaging and therapy; physics of ultrasound, Doppler scanning and imaging with ultrasound; principles of nuclear magnetic resonance, contrast in magnetic resonance imaging.

Prerequisites: PHY332H5 or PHY333H5

Distribution Requirements: Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

PHY451H5 • Classical Electrodynamics

An overview of electromagnetism leading to the study of radiation. A review of electrostatics, magnetostatics, and Maxwell's equations is followed by a discussion of propagating, non-propagating and guided waves; interactions with dielectric boundaries; multipole radiation fields, and simple models of optical dispersion.

Prerequisites: PHY241H5 and PHY325H5

Exclusions: PHY350H1 or PHYC50H3

Distribution Requirements: Science

Total Instructional Hours: 24L/24T

Mode of Delivery: In Class

PHY473H5 • Supervised Readings

A program of individual study chosen by the student with the advice of, and carried out under the direction of, a Physics professor. This course requires the student to submit a completed application to the CPS Undergraduate Assistant. Registration in the course is required. The application form can be downloaded from <http://uoft.me/cpsforms>.

Prerequisites: Permission of the course co-ordinator.

Distribution Requirements: Science

Mode of Delivery: In Class

Political science is fundamentally a study of power. Political science scholars and students focus on core concepts like authority, legitimacy, liberty, equality, citizenship, governance and justice. Building on philosophical and theoretical foundations, political scientists are able to shed light on pressing questions about nationalism and globalization, the sources of political conflict, the outcomes of distributive justice and the role of collaboration at all orders of governance from local to global. At UTM, political science students learn to tackle key concepts and learn skills through five subfields of the discipline: Political Theory, Canadian Politics, International Relations, Comparative Politics and Public Policy & Administration.

In line with UTM's core values, the Department of Political Science at UTM embraces community, creativity,

communication, innovation and sustainability.
These values are foundational and essential in our teaching and research.

Department of Political Science Program Objectives

- Enable students to understand and navigate the changing political world around them.
- Expose students to the main subfields of political science and provide opportunities for specialization.
- Enable students to be more reflective and engaged local and global citizens using the analytical tools and knowledge they get from a political science education.

Department of Political Science Core Concepts

- Diversity (gender, race, inclusion, minority rights, etc.)
- Justice (rule of law, authority, procedural justice, equity, distribution, etc.)
- Democracy (freedom of speech, free press, elections, etc.)
- Institutions (Parliament, NGOs, courts, etc.)
- Ideologies (liberalism, communism, populism, socialism, etc.)
- Non-institutional politics (social movements, public opinion, markets, norms, etc.)

Department of Political Science Core Skills

- ability to write clearly and communicate ideas and arguments
- gather, interpret and present evidence
- search and find appropriate sources in response to a research question or problem
- read critically and evaluate arguments
- oral presentation/public speaking
- experiential learning

Notes:

- 200-level POL courses require standing in either 1.0 POL credit or in at least 4.0 credits.
- 400-Level Topics Courses. The number of courses and the actual content of the courses will vary from year to year.

Program website: www.utm.utoronto.ca/political-science

Political Science Programs

Economics and Political Science - Specialist (Arts)

Enrolment Requirements:

Limited Enrolment — Enrolment in this program is limited. Students enrolling at the end of first year (4.0 credits) must obtain:

- A mark of at least 70% in 1.0 credit of POL;
- A mark of at least 63% in [ECO100Y5](#) or (63% in each of [ECO101H5](#) and [ECO102H5](#));
- [MAT133Y5](#) (with a mark of at least 63%) or [MAT134Y5](#) or ([MAT132H5](#) and [MAT134H5](#)) or [MAT135Y5](#) or ([MAT135H5](#) and [MAT136H5](#)) or [MAT137Y5](#) or ([MAT137H5](#) and [MAT139H5](#));
- [ISP100H5](#); and
- A minimum CGPA of 2.00

Students enrolling at the end of second year (8.0 credits) must obtain:

- 2.0 credits of POL (with a mark of at least 70% in each course);
- A mark of at least 63% in ECO100Y5 or (63% in each of ECO101H5 and ECO102H5);
- MAT133Y5 (with a mark of at least 63%) or MAT134Y5 or (MAT132H5 and MAT134H5) or MAT135Y5 or (MAT135H5 and MAT136H5) or MAT137Y5 or (MAT137H5 and MAT139H5);
- ISP100H5; and
- A minimum CGPA of 2.30

Completion Requirements:

14.5 credits are required.

ISP100H5 (0.5 credit)

Economics: 7.0 credits

1. ECO100Y5 or (ECO101H5 and ECO102H5)
2. MAT133Y5 or MAT134Y5 or (MAT132H5 and MAT134H5) or MAT135Y5 or (MAT135H5 and MAT136H5)
3. (ECO200Y5 or ECO204Y5 or ECO206Y5) and (ECO202Y5 or ECO208Y5 or ECO209Y5) and [ECO220Y5 or ECO227Y5 or (1.0 credit from STA256H5 or STA258H5 or STA260H5)]
4. (ECO302H5 and ECO303H5) or ECO322Y5 or ECO323Y5
5. 1.0 credit of ECO at the 300/400-level

Political Science: 7.0 credits in POL, including at least 1.0 credit at the 400 level and no more than 1.0 credit at the 100 level.

1. POL200Y5 and (POL215H5 and POL216H5) and POL309Y5
2. 1.0 credit each (total 2.0 credits) from two of the following three fields:
 - a. *Comparative Politics* - POL203Y5 or POL203H5 or POL218Y5 or POL354Y5 or POL300Y5 or POL302Y5 or POL303H5 or POL303Y5 or POL304Y5 or POL440Y5 or POL443H5 or POL443Y5 or POL438H5 or POL438Y5
 - b. *International Relations* - POL208Y5 or (POL209H5 and POL210H5) or POL310Y5 or POL311H5 or POL312H5 or POL327H5 or POL327Y5 or POL340Y5 or POL343Y5 or POL344H5 or POL345H5 or POL486Y5 or POL487H5
 - c. *Public Policy and Public Administration* - POL316Y5 or POL317Y5 or POL317H5 or POL318H5 or POL336H5 or POL336Y5 or POL346Y5 or POL353Y5 or POL355H5 or POL355Y5 or POL368H5 or POL368Y5 or POL369Y5 or POL370H5 or POL371H5 or JEP351H5 or JEP356H5 or JEP452H5 or JPE250Y5 or JPE251H5 or JPE252H5
3. 2.0 credits of POL

ERSPE0751

History and Political Science - Specialist (Arts)

Enrolment Requirements:

Limited Enrolment — Enrolment in this program is limited.

For students applying in 2021-2022 for program entry in the 2022-2023 Academic Year, 4.0 credits are required, including the following:

- 1.0 credit of POL (with a minimum grade of at least 70% in each course)
- 1.0 credit of HIS (with a minimum grade of at least 70% in each course)
- A CGPA of at least 2.00

Students enrolling at the end of second year (8.0 credits) must obtain the following:

- 2.0 credits of POL (with a minimum grade of at least 70% in each course)
- 2.0 credits of HIS (with a minimum grade of at least 70% in each course)
- A CGPA of 2.30.

For students applying in 2022-2023 (and beyond) for program entry in the 2023-2024 Academic Year (and beyond), 4.0 credits are required, including the following:

- 1.0 credit of POL (with a minimum grade of at least 70% in each course)
- 1.0 credit of HIS (with a minimum grade of at least 70% in each course)
- ISP100H5
- A CGPA of at least 2.00

Students enrolling at the end of second year (8.0 credits) must obtain the following:

- 2.0 credits of POL (with a minimum grade of at least 70% in each course)
- 2.0 credits of HIS (with a minimum grade of at least 70% in each course)
- ISP100H5
- A CGPA of 2.30.

Completion Requirements:

14.0-14.5 credits are required.

For students entering the program in 2023-2024 (and beyond): ISP100H5 (0.5 credit)

History: 7.0 credits

First Year:

1. 0.5 credit from HIS101H5 or HIS102H5 or HIS103H5 or HIS104H5 or HIS105H5 or HIS106H5 or HIS107H5 or HIS108H5.
2. 0.5 credit of HIS at the 200-level.

Higher Years:

1. 1.0 credit at the 200-level or above from two different geographical regions:
 - a. Africa, Latin America, & the Caribbean: HIS203H5 or HIS290H5 or HIS295H5 or HIS301H5 or HIS323H5 or HIS325H5 or HIS330H5 or HIS390H5 or HIS391H5 or HIS403H5 or HIS425H5 or HIS454H5 or HIS463H5 or HIS464H5 or HIS490H5 or HIS494H5
 - b. Asia and the Middle East: HIS201H5 or HIS204H5 or HIS250H5 or HIS282H5 or HIS284H5 or HIS285H5 or HIS378H5 or HIS382H5 or HIS384H5 or HIS385H5 or HIS386H5 or HIS387H5 or HIS388H5 or HIS389H5 or HIS394H5 or HIS397H5 or HIS398H5 or HIS425H5 or HIS431H5 or HIS448H5 or HIS480H5 or HIS483H5 or HIS484H5
 - c. Canada & U.S.A.: HIS203H5 or HIS255H5 or HIS261H5 or HIS263Y5 or HIS271H5 or HIS272H5 or HIS311H5 or HIS312H5 or HIS313H5 or HIS314H5 or HIS315H5 or HIS318H5 or HIS319H5 or HIS326Y5 or HIS342H5 or HIS355H5 or HIS358H5 or HIS367H5 or HIS368H5 or HIS369H5 or HIS370H5 or HIS371H5 or HIS372H5 or HIS373H5 or HIS374H5 or HIS393H5 or HIS402H5 or HIS403H5 or HIS416H5 or HIS438H5 or HIS440H5 or HIS452H5 or HIS453H5 or HIS461H5 or HIS462H5 or HIS479H5 or HIS487H5 or HIS494H5
 - d. Europe: HIS203H5 or HIS204H5 or HIS221H5 or HIS222H5 or HIS230H5 or HIS236H5 or HIS241H5 or HIS242H5 or HIS300H5 or HIS306H5 or HIS308H5 or HIS309H5 or HIS310H5 or HIS321H5 or HIS327Y5 or HIS336H5 or HIS338H5 or HIS339H5 or HIS340H5 or HIS357H5 or HIS401H5 or HIS403H5 or HIS407H5 or HIS409H5 or HIS420H5 or HIS435H5 or HIS438H5 or HIS475H5 or HIS486H5 or HIS495H5
2. 2.0 credits at the 300-level or above
3. 1.0 credit of HIS at the 400-level

4. 2.0 additional credits of HIS at the 200-level or above (which must correspond in region or field to the 2.0 credits of POL chosen)

Political Science: 7.0 credits

7.0 credits in POL are required, including at least 1.0 credit at the 300 level and 1.0 credit at the 400 level and no more than 1.0 credit at the 100 level.

1. POL200Y5 and POL215H5 and POL216H5
2. 1.0 credit from two of the following three fields:
 1. **Comparative Politics** - POL203Y5 or POL218Y5 or POL354Y5 or POL300Y5 or POL302Y5 or POL303Y5 or POL304Y5 or POL309Y5 or POL332Y5 or POL440Y5 or POL443H5 or POL443Y5 or POL438H5 or POL438Y5
 2. **International Relations** - POL209H5 and POL210H5 or POL310Y5 or POL327Y5 or POL340Y5 or POL343Y5 or POL486Y5 or POL487H5
 3. **Public Policy and Public Administration** - POL316Y5 or POL317Y5 or POL317H5 or POL318H5 or POL336Y5 or POL346Y5 or POL353Y5 or POL355Y5 or POL368H5 or POL368Y5 or POL369Y5 or JEP351H5 or JEP356H5 or JEP452H5 or JPE250Y5 or JPE251H5 or JPE252H5
3. 4.0 additional credits of POL

Note:

Specialists may substitute acceptable non-HIS courses at UTM for up to 1.0 credit of HIS. The Department of Historical Studies Handbook identifies substitutions, courses satisfying departmental requirements. It is available online at: www.utm.utoronto.ca/historicalstudies

Political Science Courses

JEP351H5 • Comparative Environmental Policy

This course is an introduction to comparative environmental policy. The main focus of the course will be Canada-US-Mexico comparative policy around climate change, biodiversity, water resources, and pollution. Other countries may be examined as larger themes related to sustainable development and environmental justice will be covered in detail.

Prerequisites: 9.0 credits including (JP251H5 and [JPE252H5](#)) or [JPE250Y5](#)

Exclusions: [ENV351H5](#)

Recommended Preparation: This course is recommended for students with an interest in comparative politics and policy. Previous courses in comparative and international political science, geography and sociology will be an asset.

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

JEP356H5 • Environmental Justice

Environmental Justice is about the fair treatment of all people in the creation and implementation of environmental policies. It also provides a critical framework to analyze and understand inequalities of an environmental kind. These inequalities are often based

around identities of race, class and gender, such that marginalized groups are made to bear the burden of environmental externalities like pollution. Why are First Nations in Canada less likely to have access to safe

drinking water? Why are industrial plants often in low-income neighborhoods? After critical examinations of the theories and foundations of environmental justice, this course uses a case study approach to understanding the concepts and the ways in which it has shaped modern society.

Prerequisites: 9.0 credits

Distribution Requirements: Social Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

JEP452H5 • Politics and Policy of Wildlife Conservation

This course is an in-depth analysis of conservation policy in Canada. The course begins with an overview biodiversity crisis facing the planet and then moves to an overview of Canada's approach to managing biodiversity across the country. We will carefully examine the federal Species at Risk Act as well as the provincial and territorial wildlife legislation. The remaining of the course will be aimed at making improvements to the Canadian strategy. During the course of the semester, the students will focus on the recovery of endangered species in Canada through the development of a recovery strategy for a specific species.

Prerequisites: 14.0 credits including [ENV100Y5](#) and [JPE251H5](#)

Exclusions: [ENV452H5](#)

Course Experience: University-Based Experience

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

JPE251H5 • Introduction to Canadian Environmental Law and Policy I

This course serves as an introduction to environmental policy and law in Canada. The primary intent is to provide an overview of the political context in which environmental policy and law is made and implemented. The emphasis in this course will be on environmental policy. The course begins with an outline of the Canadian parliamentary system and policymaking process. A series of case studies, from biodiversity to climate change, are then explored as a way to see the policy process in action. [24L]

Prerequisites: 3.5 credits

Exclusions: JPE250Y5 or POL250Y5 or ENV250Y5 or ENV320H1

Distribution Requirements: Social Science

Total Instructional Hours: 24L/11T

Mode of Delivery: In Class

JPE252H5 • Introduction to Canadian Environmental Law and Policy II

This course builds on the themes and concepts introduced in JPE251H5. The primary intent is to provide an overview of the political context in which environmental policy and law is made and implemented. The emphasis in this course will be on environmental law. [24L]

Prerequisites: JPE251H5

Exclusions: JPE250Y5 or POL250Y5 or ENV250Y5 or ENV320H1

Distribution Requirements: Social Science

Total Instructional Hours: 24L/11T

Mode of Delivery: In Class

POL111H5 • Canada in Comparative Perspective

Examines major facets of Canadian government and politics within a broad comparative context asking what is different or unique about Canada and what resembles political systems elsewhere in the world, primarily western industrialized countries. Comparative analysis is used to foster a deeper understanding of Canada and its politics.

Exclusions: POL224Y1 or POL224H1

Distribution Requirements: Social Science

Total Instructional Hours: 24L/11T

Mode of Delivery: In Class

POL112H5 • Democracy in Theory and Practice

Examines current ideas about what constitutes 'democracy' and how real-world political systems measure up to democratic ideals. Through examination of formal government institutions and informal political practices,

assessments will be made of the strengths and weaknesses in modern democracies. Case studies may be drawn from Canada or from other countries which claim to be democratic.

Exclusions: POLA51H3

Distribution Requirements: Social Science

Total Instructional Hours: 24L/11T

Mode of Delivery: In Class

POL113H5 • Ideas and Ideologies

In this course students are introduced to basic concepts in politics such as authority, sovereignty, legitimacy, citizenship, jurisdiction, civil rights and civil liberties. These concepts are then used to examine the fundamental differences between major political ideologies, such as democracy, liberalism, socialism, fascism, conservatism, anarchism and communism.

Distribution Requirements: Social Science

Total Instructional Hours: 24L/11T

Mode of Delivery: In Class

POL114H5 • Politics in a Global World

Examines the politics of globalization in its various forms (economics, cultures, environmental and military) as well as the consequences of, management of and resistance to, globalization. Address topics such as whether globalization challenges the capacity of national societies and their governments to deal with global issues such as the environment, redistribution of wealth, security and human rights, both within countries and across borders.

Exclusions: POLA83H3

Distribution Requirements: Social Science

Total Instructional Hours: 24L/11T

Mode of Delivery: In Class

POL115H5 • Evidence and Argument in the Study of Politics

To understand politics in our information-abundant world, we need ways to make sense of the political information that surrounds us. In this course, we ask what makes for good evidence and what makes for convincing argument. We do so by raising a series of weekly topics on which there is a mass of available information - topics like climate change, political correctness, populism, and democracy promotion, among others - and discussing fundamentally different perspectives on each topic. In the end, students will develop a fuller sense of what constitutes a well-argued and evidence-supported analysis of the political.

Prerequisites: n/a

Distribution Requirements: Social Science

Total Instructional Hours: 24L/11T

Mode of Delivery: In Class

POL116H5 • Politics & Social Justice

In this course students are introduced to the concept of social justice as a political issue. The course is designed to develop modes of analysis that focus on human rights, economic and social (in)equity, fairness and inclusion. Key concepts may include power, identity, conflict, community, consent, advocacy, inequality, solitary, structural racism, and intersectionality. Specific issues to be considered may include gender equality, racism, justice between generations, spatial inclusion, wealth distribution, and equity in the international realm. The substantive themes and perspective may vary from year to year.

Distribution Requirements: Social Science
Total Instructional Hours: 24L/12T
Mode of Delivery: In Class

POL200Y5 • Justice and Power in Political Life

Studies the themes of power and justice in the history of political thought, from the ancient world until the 1700s. Readings may include work from Plato, Aristotle, Machiavelli, and Locke.

Prerequisites: 1.0 POL credit or 4.0 credits
Exclusions: POL200Y1 or POLB72H3 or POLC70H3 or POLC71H3
Distribution Requirements: Social Science
Total Instructional Hours: 48L/23T
Mode of Delivery: In Class

POL203H5 • Politics and Government of the United States

A comparative study of the development of American government and the main elements of the American political tradition; the structure and functioning of executives, legislatures, courts, bureaucracies, parties and pressure groups in federal and state government; characteristic processes of American politics such as voting, bargaining and regulation; and resultant patterns of public policy.

Prerequisites: 1.0 POL credit or 4.0 credits
Exclusions: POL203Y5 or POL203Y1 or POLC92H3 or POLC93H3
Distribution Requirements: Social Science
Total Instructional Hours: 24L/11T
Mode of Delivery: In Class

POL209H5 • Introduction to International Relations

This course provides a general overview of the study of international relations. It builds a theoretical, conceptual, and empirical foundation for understanding the actors, processes, and structures that shape and constrain global politics.

Prerequisites: 1.0 POL credit or 4.0 credits
Exclusions: POL208Y5 or POL208H1 or POL208Y1 or POLB80H3 or POLB81H3

Distribution Requirements: Social Science
Total Instructional Hours: 24L/11T
Mode of Delivery: In Class

POL210H5 • Contemporary Challenges in International Relations

This course explores contemporary challenges in the study of international relations. Building off of theoretical foundations, it provides an analytic exploration of key puzzles and topical issues that currently confront international relations scholarship.

Prerequisites: POL209H5
Exclusions: POL208Y5 or POL208Y1 or POLB80H3 or POLB81H3
Distribution Requirements: Social Science
Total Instructional Hours: 24L/11T
Mode of Delivery: In Class

POL215H5 • Canadian Government

This course will focus on Canadian Institutions, the Constitution, Federalism, the Courts, the Charter of Rights and Freedoms, etc. This course will contribute to the students' understanding of their immediate political surroundings. This course will enhance the students' ability to engage and participate in the democratic system by teaching them about the foundations of the Canadian system of government.

Prerequisites: 1.0 POL credit or 4.0 credits
Exclusions: POL214Y5 or POL214H1 or POL214Y1 or POL224Y1 or POLB50Y3

Distribution Requirements: Social Science
Total Instructional Hours: 24L/11T
Mode of Delivery: In Class

POL216H5 • Canadian Politics

This course will focus on political parties, elections, gender, cleavages, etc. This course will enhance the knowledge of the Canadian system of politics to give students better skills and objectives.

Prerequisites: [POL215H5](#)

Exclusions: [POL214Y5](#) or [POL214Y1](#) or [POL224Y1](#) or [POLB50Y3](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L/11T

Mode of Delivery: In Class

POL218H5 • Introduction to Comparative Politics: Institutions

Comparative politics compares the ways people and institutions interact, in different countries and regions of the world (including both developing and developed), to produce what we call "politics." This course focuses on political institutions. Topics include: the formation, development and eventual decay of political institutions such as the nation-state, political regimes, parties, party systems and local governments; the power of the state; the emergence and dynamics of democratic and authoritarian institutions; the emergence and dynamics of capitalist institutions.

Prerequisites: 1.0 POL credit or 4.0 credits

Exclusions: [POL218Y5](#) or [POL219H1](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

POL219H5 • Introduction to Comparative Politics: Processes and Identities

Comparative politics compares the ways people and institutions interact, in different countries and regions of the world (including both developing and developed), to produce what we call "politics." This course focuses on political processes and identities. Topics include: the ideas and interests shaping political behaviour; the causes of and dynamics of political mobilization, social mobilization, and revolution; the relationship between identity categories such as ethnicity, gender, sexuality, and class and political processes.

Prerequisites: 1.0 POL credit or 4.0 credits

Exclusions: [POL218Y5](#) or [POL218H1](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

POL243H5 • Research Methods for Political Science I

This course offers an introduction into scientific inquiry and research in the field of politics. It explores a wide range of quantitative and qualitative methods with the aim of providing basic literacy and comprehension of methods important in encountering -and eventually, conducting – research in political science.

Prerequisites: 1.0 POL credit or 4.0 credits

Exclusions: [POL242Y5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L/11T

Mode of Delivery: In Class

POL244H5 • Research Methods for Political Science II

In this course, students learn to conduct political analysis using methods common in the social sciences. This includes data such as surveys, international or social media datasets, and methods such as crosstabs and regression. Rather than stressing mathematical concepts, the emphasis of the course is on application, interpretation, and data visualization.

Prerequisites: [POL243H5](#)

Exclusions: [POL242Y5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L/11T

Mode of Delivery: In Class

POL300H5 • Topics in Comparative Politics

Topics will vary from term to term.

Prerequisites: 2.0 credits in POL

Recommended Preparation: [POL218Y5](#) or [POL218H5](#) or [POL219H5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

POL301H5 • Topics in Political Theory

Content of course will vary from year to year. Consult the Political Science Handbook.

Prerequisites: [POL200Y5](#) or [POL200Y1](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

POL302H5 • Topics in Comparative Politics

Topics will vary from term to term.

Prerequisites: 2.0 credits in POL

Recommended Preparation: [POL218Y5](#) or [POL218H5](#) or [POL219H5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

POL303H5 • The Politics of Islam

The course examines the theory and practice of Islamic politics in the modern era. It also looks at Western foreign policy and Western cultural reactions to politics in the Muslim world. The aim is to acquaint students with the diversity within the Muslim world and help them better understand some of the most pressing political issues raised by contemporary Islam.

Prerequisites: 2.0 POL credits

Exclusions: POL300Y5 or POL303Y5 or POL300Y1 or POLC96H3 or POLC97H3

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

POL304Y5 • Politics of South Asia

This course surveys systems of government and political processes across South Asia, with attention to state formation, nationalism, ethnicity, democracy vs. authoritarian forms of governance, social movements, political violence, insurgencies, political economy, corruption, and other important issues affecting South Asian states currently. The focus will be mostly on India and Pakistan and possibly some of the other countries in South Asia.

Prerequisites: 2.0 credits in POL or permission of instructor

Exclusions: POL328H1

Distribution Requirements: Social Science

Total Instructional Hours: 48L

Mode of Delivery: In Class

POL305H5 • Topics in International Relations

Content of course will vary year to year. Consult with the Political Science Handbook.

Prerequisites: POL208Y5 or POL208Y1 or (POL209H5 and POL210H5) or (POL218H1 and POL219H1)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

POL307H5 • Topics in International Relations

Topics will vary from term to term.

Prerequisites: 2.0 credits in POL

Recommended Preparation: POL208Y5 or POL209H5 or POL210H5

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

POL309Y5 • The State, Planning and Markets

A study of the political economy of planning and markets, the history of both forms of organization, the political philosophies of liberalism and Marxism upon which they have been based, and the issues of economic efficiency, justice and democratic control in capitalism and socialism.

Prerequisites: POL200Y5 or POL200Y1

Distribution Requirements: Social Science

Total Instructional Hours: 48L

Mode of Delivery: In Class

POL311H5 • Military Power

This course explores the foundations, application, and limits of military power in the international system. It examines theories about the use of force, military effectiveness, and the relationships between military power, politics, and technology.

Prerequisites: 2.0 credits in POL

Recommended Preparation: POL208Y5 or POL209H5 or POL210H5

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

POL312H5 • Managing Military Conflict

Analysis of different aspects of conflict management, including security regimes, U.N. peacekeeping, mediation, bilateral as well as multilateral techniques.

Prerequisites: 2.0 credits in POL

Exclusions: POL310Y5 or POLC09H3

Recommended Preparation: POL208Y5 or POL209H5 or POL210H5

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

POL313H5 • European Politics I

This course introduces students to the political foundations of democratic government and capitalism in Western Europe. The course covers the historical origins of the modern nation state in Europe and the region's bumpy road to democracy and prosperity. It also focuses on key similarities and differences in the political institutions, political development, and economic and social models of major European countries.

Prerequisites: 2.0 credits in POL

Exclusions: POL302Y5 or POL207Y1 or POL324H1 or POLB93H3

Recommended Preparation: POL218Y5 or POL218H5 or POL219H5

Distribution Requirements: Social Science

Total Instructional Hours: 24L
Mode of Delivery: In Class

POL314H5 • European Politics II

This course explores the functions (and dysfunctions) of the European Union, a regional organization shaping the political life of its 27 European member states. The course also covers contemporary challenges to democracy and prosperity in Europe, such as populism, economic crises, Brexit, and geopolitical conflicts.

Prerequisites: 2.0 credits in POL
Exclusions: POL302Y5 or POL207Y1 or POL324H1 or POLB93H3
Recommended Preparation: POL218Y5 or POL218H5 or POL219H5 or POL313H5
Distribution Requirements: Social Science
Total Instructional Hours: 24L
Mode of Delivery: In Class

POL317H5 • Comparative Public Policy and Administration

Major theories and concepts in the fields of public administration and public policy, drawing on the experience of advanced industrialized nations.

Prerequisites: 3.0 POL credits, including 1.0 credit in comparative politics or public policy
Exclusions:
POL317Y5 or POL317H1

Distribution Requirements: Social Science
Total Instructional Hours: 24L
Mode of Delivery: In Class

POL318H5 • Power and Conflict in Federalism

This course looks at how Canadian federalism has evolved and adapted to policy-making challenges, including urbanization, regionalism, and demographic changes among the Canadian population. In addition to the Constitution and the role of federal and provincial governments, we also examine the involvement of municipalities, First nations, and non-governmental actors including private and third sector groups.

Prerequisites:
POL111H5 or POL214Y5 or POL214H1 or POL215H5 or POL216H5

Exclusions: POL316H1 or POL428H1
Distribution Requirements: Social Science
Total Instructional Hours: 24L
Mode of Delivery: In Class

POL320Y5 • Modernity and Resistance

This course covers the history of political thought in the 18th and 19th centuries.

Prerequisites: POL200Y5 or POL200Y1
Exclusions: POL320Y1 or POL320H1 or POL321H1 or POLC73H3
Distribution Requirements: Social Science
Total Instructional Hours: 48L/23T
Mode of Delivery: In Class

POL327H5 • Comparative Foreign Policy

Comparative study of the foreign policies of Russia/USSR, the United States, Great Britain, France and Germany.

Prerequisites: POL208Y5 or (POL209H5 and POL210H5) or POL218Y5 or POL208Y1 or (POL218H5 and POL219H5)
Exclusions: POL327Y5 or POL326Y1 or POLC82H3 or POLC83H3
Distribution Requirements: Social Science
Total Instructional Hours: 24L
Mode of Delivery: In Class

POL340Y5 • International Law

International law as an instrument of conflict resolution. Recognition, sovereign immunity, subjects of international law, and jurisdiction are some of the subjects examined.

Prerequisites: POL208Y5 or (POL209H5 and POL210H5) or POL218Y5 or (POL218H5 and POL219H5)
Exclusions: POL340Y1
Distribution Requirements: Social Science
Total Instructional Hours: 48L
Mode of Delivery: In Class

POL343H5 • Qualitative Methods

This course focuses on the research process with attention to writing research proposals and qualitative research methods.

Prerequisites: POL242Y5 or POL243H5
Recommended Preparation: POL115H5
Distribution Requirements: Social Science
Total Instructional Hours: 24L/11T
Mode of Delivery: In Class

POL344H5 • Concepts, Actors, & Challenges in Global Governance

An introduction to the study of Global Governance. It presents Global Governance both as an area of study within International Relations theory, and as a set of norms and procedures that guide ongoing practices within international politics. The course will take students

through the early development of the concept in the 1990s to present times. It will also cover key challenges to Global Governance.

Prerequisites: POL208Y5 or (POL209H5 and POL210H5) or POL208Y1 or (POL218H1 and POL219H1)
Exclusions: POL343Y5 or POL343Y1 or POLC87H3
Distribution Requirements: Social Science
Total Instructional Hours: 24L
Mode of Delivery: In Class

POL345H5 • Global Governance in Practice

This course builds on earlier conceptual discussions in POL344H5, to illustrate how Global Governance is practiced within specific empirical contexts. Students will take a deep dive into pressing examples of Global Governance practices and challenges (e.g., the United Nations, the World Health Organization, the global political economy).

Prerequisites: POL344H5
Exclusions: POL343Y5 or POL343Y1 or POLC87H3
Distribution Requirements: Social Science
Total Instructional Hours: 24L
Mode of Delivery: In Class

POL346Y5 • Urban Politics

This course examines urban politics and policy problems in both a Canadian and comparative context. Students will be introduced to the key theories and concepts of urban politics scholarship as well as the important policy issues facing contemporary cities such as globalization, sustainability, immigration, and regionalism.

Prerequisites: Any 2.0 POL credits
Exclusions: POL349H1 or POL349Y1
Distribution Requirements: Social Science
Total Instructional Hours: 48L
Mode of Delivery: In Class

POL354H5 • Russian Politics

After covering crucial background on tsarist Russia and the Soviet system, the course considers the legacies of Soviet rule. We then address questions of identity politics in Russia, the country's changing political economy, the shape of authoritarian institutions, the dynamics of protest and repression, how the authoritarian regime in Russia manages flows of information, and the nature of colonialism in the Russian context.

Prerequisites: 3.0 POL credits or relevant coursework in Russian history, society, or culture
Exclusions: POLC58H3 or POL354Y5 or POL354H1
Recommended Preparation: POL218Y5 or POL218H5 or POL219H5
Distribution Requirements: Social Science

Total Instructional Hours: 24L
Mode of Delivery: In Class

POL355H5 • Multiculturalism and Citizenship

How are laws, policies, and social norms affected by the overwhelmingly multicultural character of contemporary societies? This course examines how the realities of contemporary multiculturalism have reshaped civic life, both in Canada and in other societies. The course will attempt to cover both empirical and theoretical-normative approaches to these issues.

Prerequisites: 2.0 POL credits
Exclusions: POL355Y5 or POLC58H3
Distribution Requirements: Social Science
Total Instructional Hours: 24L
Mode of Delivery: In Class

POL360H5 • State, Nation and Regime Change in Latin America

This course offers a comparative and transnational analytical approach to the historical foundations of nation and state building as well as patterns of regime change in Latin America. Specific topics may include revolutions, populism, (neo)colonialism, "racial democracy," *Indigenismo*, dependency, among others.

Prerequisites: 2.0 POL credits or 8.0 credits
Exclusions: POL305Y1 or POLC91H3
Distribution Requirements: Social Science
Total Instructional Hours: 24L
Mode of Delivery: In Class

POL361H5 • Democracy and its interruptions in Latin America

This course surveys a range of important issues in contemporary Latin America with a focus on the promises and failures of democracy under neoliberalism and post-neoliberalism. Specific topics may include Indigenous politics, Black politics, feminist politics, class conflict, "iron fist" regimes, the War on Drugs, among others.

Prerequisites: 2.0 POL credits or 8.0 credits
Exclusions: POLC91H3
Distribution Requirements: Social Science
Total Instructional Hours: 24L
Mode of Delivery: In Class

POL362H5 • Borders, Migrants and Refugees

This course exposes students to the tensions between the mobility of people across international borders, and the hardening regimes of governance facing migrants. The

course pays special attention to the intersections of class, race and gender at stake in the politics of migration.

Prerequisites: POL114H5 or POL218Y5 or (POL218H5 and POL219H5) or POL209H5

Exclusions: POL390H5 (Summer 2020) or POL377H1 (Summer 2021)

Recommended Preparation: POL116H5

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

POL367H5 • Feminist Political Theory

This course examines the various interventions that have marked the development of feminist political thought from the mid-20th century onward. These include efforts to complicate the category 'woman', to understand gender in its intersections with race and class, to develop queer feminist accounts of 'sex' and 'sexuality', and to investigate the meaning of 'feminism' as a political project in and of itself.

Prerequisites: 3.0 POL credits

Exclusions: PHL267H5 or PHL367H5 or WGS200Y5 or POLC79H3 or PHLB13H3 or PHL367H1

Recommended Preparation: POL200Y5 or relevant coursework in WGS

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

POL368H5 • Gender and Politics

An introduction to gender and politics that examines women as political actors and their activities in formal and grassroots politics.

Prerequisites: 2.0 credits in POL

Exclusions:

POL351H1 or POL351Y1 or POL368Y5 or POL450H1

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

POL370H5 • Resource Politics in Postcolonial Africa

This course identifies natural resource exploitation as a prominent focus in discourses and policies concerned with African countries in the post-independence era (~1960s onwards), particularly when dealing with issues of conflict, democratization, economic development, poverty and regime crisis.

Prerequisites: A minimum 1.0 POL credit at the 200-level

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

POL371H5 • Contemporary Mediated Politics

This course examines the contemporary relationship between politics and media.

Prerequisites: 2.0 POL credits or (2.0 CCT or VCC credits)

Exclusions: POL369Y5 or POL213Y1

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

POL372H5 • Communicating Politics

This course explores how political actors such as political parties, pressure groups and governments use media to secure their political objectives.

Prerequisites: 2.0 POL credits or (2.0 CCT or VCC credits)

Exclusions: POL369Y5 or POL213Y1

Recommended Preparation: POL371H5

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

POL373H5 • Introduction to Politics of the Middle East and North Africa

Students will examine the political dynamics of selected states in the Middle East and North Africa. Issues to be covered include: state-building; Arab nationalism; Zionism; Islamism; tribalism; gender; the politics of oil. Specific themes relevant to contemporary politics will vary from year to year.

Prerequisites: POL218Y5 or (POL218H5 and POL219H5)

Recommended Preparation: NMC278H1

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

POL390H5 • Topics in Comparative Politics

Content of course will vary from year to year. Consult with the Political Science Handbook.

Prerequisites: 3.0 POL credits

Recommended Preparation: POL218Y5 or POL218H5 or POL219H5

Distribution Requirements: Social Science

Total Instructional Hours: 24L
Mode of Delivery: In Class

POL391H5 • Topics in Comparative Politics

Content of course will vary from year to year. Consult with the Political Science Handbook.

Prerequisites: POL218Y5
Distribution Requirements: Social Science
Total Instructional Hours: 24L
Mode of Delivery: In Class

POL392H5 • Topics in Political Theory

Content of course will vary from year to year. Consult the Political Science Handbook.

Prerequisites: 3.0 POL credits
Recommended Preparation: POL200Y5
Distribution Requirements: Social Science
Total Instructional Hours: 24L
Mode of Delivery: In Class

POL393H5 • Topics in Canadian Politics

Content of course will vary from year to year. Consult the Political Science Handbook.

Prerequisites: 3.0 POL credits or 8.0 credits
Recommended Preparation: POL214Y5 or POL215H5 or POL216H5
Distribution Requirements: Social Science
Total Instructional Hours: 24L
Mode of Delivery: In Class

POL394H5 • Topics in Political Science

Content of course will vary from year to year. Consult the Political Science Handbook.

Prerequisites: 3.0 POL credits or 8.0 credits
Distribution Requirements: Social Science
Total Instructional Hours: 24L
Mode of Delivery: In Class

POL399H5 • Research Opportunity Program

This course provides a richly rewarding opportunity for students in their third year to work in the research project of a professor in return for POL399H course credit. Students enrolled have an opportunity to become involved in original research, learn research methods and share in the excitement and discovery of acquiring new knowledge. Participating faculty members post their project

descriptions for the following summer and fall/winter sessions in early February and students are invited to apply in early March. See Experiential and International Opportunities for more details.

Prerequisites: 1.0 POL credit
Exclusions: students are not allowed to take POL399Y5 and POL399H5 concurrently
Distribution Requirements: Social Science
Mode of Delivery: In Class

POL399Y5 • Research Opportunity Program

This course provides a richly rewarding opportunity for students in their third year to work in the research project of a professor in return for POL399Y course credit. Students enrolled have an opportunity to become involved in original research, learn research methods and share in the excitement and discovery of acquiring new knowledge. Participating faculty members post their project descriptions for the following summer and fall/winter sessions in early February and students are invited to apply in early March. See Experiential and International Opportunities for more details.

Prerequisites: 1.0 POL credit
Distribution Requirements: Social Science
Mode of Delivery: In Class

POL401Y5 • Senior Major Research Paper

This course provides students with the basic skills and knowledge necessary to complete a major independent research paper. The course will have a broad theme (power, equality, justice, federalism, etc.) and students will pursue a research project of their own interest that relates to the course theme. This Y course will meet weekly in the first semester and every other week in the winter semester. Under the course instructors' supervision, students will identify potential research questions, acquire methodological and research skills appropriate for addressing the research questions, and conduct primary research. Students will present their paper in an open forum late in the second term. This course is intended for students with a strong academic background who intend to pursue graduate studies.

Prerequisites: a minimum of 6.0 POL credits and 3.3 minimum CGPA and permission of instructor
Enrolment Limits: Enrolment is limited to Political Science Specialists, Joint Specialists and Political Science Majors.
Course Experience: University-Based Experience
Distribution Requirements: Social Science
Total Instructional Hours: 48L
Mode of Delivery: In Class

POL402H5 • Topics in Political Science

Content of course will vary from year to year. Consult the Political Science Handbook. The contact hours for this course may vary in terms of contact type (L,S,T,P) from year to year, but will be between 24-36 contact hours in total. See the UTM Timetable.

Prerequisites:

3.0 POL credits including 1.0 POL credit at the 300-level

Enrolment Limits: Enrolment is limited to Political Science Specialists, Joint Specialists and Political Science Majors.

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

POL403H5 • Topics in Political Science

Content of course will vary from year to year. Consult the Political Science Handbook. The contact hours for this course may vary in terms of contact type (L,S,T,P) from year to year, but will be between 24-36 contact hours in total. See the UTM Timetable.

Prerequisites:

3.0 POL credits including 1.0 POL credit at the 300-level

Enrolment Limits: Enrolment is limited to Political Science Specialists, Joint Specialists and Political Science Majors.

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

POL404H5 • Political Theory for the Present

Covers 20th- and 21st-century political theory. Topics will vary by faculty offering the course and may include but are not limited to topics in feminist political theory, post-colonial and de-colonial political theory, and political economy.

Prerequisites: POL200Y5

Recommended Preparation: POL320Y5 or other 300-level coursework relevant to the course theme

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

POL405Y5 • Political Science Internship

Through a part-time, unpaid internship (150 hours), students apply the knowledge and skills gained through previous coursework in political science. Participants will develop skill sets through a professional setting combined with class meetings that include workshops, writing, oral presentations, reading and reflection. Placements are made in both the public and private sectors, such as local

or regional government offices, law firms, civil society organizations or non-profit agencies. Normally, the 150 hours will be completed by attending the work placement one full day each week from September to April. Students must confirm internship arrangements well in advance and secure departmental approval for their internship position prior to the start of term. Students will be admitted to through an online application.

Prerequisites: 6.0 credits in POL

Exclusions: Other department's internship courses, including HIS498Y5 or ECO400Y5 or SOC480Y5 or JEG401Y5

Enrolment Limits: Enrolment is limited to Political Science Specialists, Joint Specialists and Political Science Majors

Course Experience: Partnership-Based Experience

Distribution Requirements: Social Science

Total Instructional Hours: 150P/18S

Mode of Delivery: In Class

POL406H5 • Insurgents, Criminals, and Warlords

This course provides a theoretical and empirical overview of the role played by violent non-state actors in international politics. Examining insurgents, criminals, and warlords, the course explores why these actors resort to violence, the strategies and tactics they employ, and the connections that link them together.

Prerequisites: POL209H5

Distribution Requirements: Social Science

Total Instructional Hours: 24S

Mode of Delivery: In Class

POL407H5 • The Politics of Oil & Mining Extraction: Contracts, Conflict, Consent

What can we learn about global politics from an oil or a mining contract? Who are the main actors in such contracts? What are key differences between oil and mining contracts? What is the future of oil and mining contracts? This course addresses these questions, by examining the complex politics of oil and mining contracts. Key theoretical concepts and themes explored in this course are sovereignty, ownership, resistance, and the future of resource extraction.

Prerequisites: A minimum 1.0 POL credit at the 300-level

Recommended Preparation: POL370H5

Distribution Requirements: Social Science

Total Instructional Hours: 24S

Mode of Delivery: In Class

POL414H5 • The Future of Work

This course is a critical study of the meaning and value of work in social and political life. Sources include both

historical and contemporary political theories of work and labour.

Prerequisites: [POL200Y5](#)

Exclusions: [POL485H5](#) (Winter 2021)

Recommended Preparation: [POL320Y5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24S

Mode of Delivery: In Class

POL438H5 • Topics in Comparative Politics

Content of course will vary from year to year. Consult with the Political Science Handbook. The contact hours for this course may vary in terms of contact type (L,S,T,P) from year to year, but will be between 24-36 contact hours in total. See the UTM Timetable.

Prerequisites: 3.0 POL credits including 1.0 POL credit at the 300-level

Enrolment Limits: Enrolment is limited to Political Science Specialists, Joint Specialists and Political Science Majors.

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

POL440Y5 • Politics and Governments of Eastern Europe

Comparative analysis of the former Communist states of Eastern Europe and the post-Communist successor states.

Prerequisites: [POL208Y5](#) or ([POL209H5](#) and [POL210H5](#)) or [POL218Y5](#) or ([POL218H5](#) and [POL219H5](#)) or permission of instructor

Recommended Preparation: [POL354Y5](#) or [POL354H5](#)

Enrolment Limits: Enrolment is limited to Political Science Specialists, Joint Specialists and Political Science Majors.

Distribution Requirements: Social Science

Total Instructional Hours: 48L

Mode of Delivery: In Class

POL444H5 • Protest and Revolution in the Middle East and North Africa

Looking at uprisings and protests in the Middle East and North Africa, students will examine different theories of contentious politics to better understand why and how uprisings happen in the region. The course will focus on the 2011 Arab Spring uprisings/revolutions in addition to recent uprisings in countries that did not experience the Arab Spring.

Prerequisites: [POL218Y5](#) or ([POL218H5](#) and [POL219H5](#)) or [POL390H5](#) or [POL391H5](#) and [POL373H5](#)

Exclusions: [POL438H5](#) (Winter 2021 and Winter 2022)

Recommended Preparation: [NMC278H1](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24S

Mode of Delivery: In Class

POL445H5 • The Politics of Queer and Trans Migrations

This course offers a critical perspective about migration studies by centering the experiences of queer and trans migrants, and by adopting a feminist, queer and trans theory lens. Sources foreground intersections of gender, sexuality, race, class and nation.

Prerequisites: [POL362H5](#) or [POL390H5](#) (Summer 2020) or [POL377H1](#) (Summer 2021)

Recommended Preparation: [POL116H5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24S

Mode of Delivery: In Class

POL446H5 • Politics of the South Asian Diaspora in Comparative Perspective

This course examines the politics of South Asian diasporas in Canada, scaled at local, provincial, and national levels. Major themes include democratic representation, multiculturalism, social mobilization, and dilemmas of cultural autonomy. Other diasporic groups globally - both South Asian and otherwise - are examined for the purpose of comparison.

Prerequisites: 4.0 credits in POL including 1.0 POL credit at the 300-level

Recommended Preparation: [POL304Y5](#)

Enrolment Limits: Enrolment is limited to Political Science Specialists, Joint Specialists and Political Science Majors.

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

POL447H5 • Collective Action and Political Change

This course introduces students to the study of collective action, the conditions under which it is possible, and its role in bringing about political change. It addresses foundational concepts and theories, as well as cases of collective action with a focus on the experiences of subaltern groups in the Americas and beyond.

Prerequisites: 4.0 POL credits, including 1.0 POL credit at the 300-level

Exclusions: [POL443Y5](#) (2018-2019; Winter 2020; 2020-2021; 2021-2022; 2023-2024)

Recommended Preparation: [[POL218Y5](#) or ([POL218H5](#) and [POL219H5](#))] and [[POL242Y5](#) or [POL243H5](#)]

Distribution Requirements: Social Science
Total Instructional Hours: 24L
Mode of Delivery: In Class

POL448H5 • Protest and Social Movements in Comparative and Transnational Perspective

This course focuses on key threads of subaltern collective action in comparative and transnational perspective, with a focus on Latin America. It delves into revolutionary, feminist, solidarity, decolonial, anti-racist, body-centered, anti-extractivist struggles, among others, from the late 20th Century to the present day.

Prerequisites: 4.0 POL credits, including 1.0 POL credit at the 300-level
Exclusions: POL443Y5 (2018-2019; Winter 2020; 2020-2021; 2021-2022; 2023-2024)
Recommended Preparation: POL447H5 or POL116H5 or POL218Y5 or [POL218H5 and POL219H5]
Distribution Requirements: Social Science
Total Instructional Hours: 24L
Mode of Delivery: In Class

POL475H5 • Global Environmental and Sustainability Politics

This course examines the challenges faced by humanity in dealing with global environmental and sustainability problems and the politics of addressing them. Focuses on both the underlying factors that shape the politics of these problems - such as scientific uncertainty, North-South conflict, equity concerns, globalization and production and consumption patterns - and explores attempts at the governance of specific global or transnational environmental and sustainability issues by state and non-state actors.

Prerequisites: 3.0 POL credits, including 1.0 POL credit at the 300-level
Recommended Preparation: POL208Y5 or (POL209H5 and POL210H5)
Enrolment Limits: Enrolment is limited to Political Science Specialists, Joint Specialists and Political Science Majors.
Distribution Requirements: Social Science
Total Instructional Hours: 24L
Mode of Delivery: In Class

POL476H5 • Moral Reason and Economic History I

A study of the interaction between political philosophy and economic history. The course involves alternative conceptions of the relation between individuals and the community, between the economy and the political order, between what 'is' and what 'ought to be.'

Prerequisites: POL309Y5 or POL320Y5 or permission of the instructor
Exclusions: POL478Y5
Distribution Requirements: Social Science
Total Instructional Hours: 24L
Mode of Delivery: In Class

POL477H5 • Moral Reason and Economic History II

A study of the interaction between political philosophy and economic history. The course involves alternative conceptions of the relation between individuals and the community, between the economy and the political order, between what 'is' and what 'ought to be.'

Prerequisites: POL476H5
Exclusions: POL478Y5
Distribution Requirements: Social Science
Total Instructional Hours: 24L
Mode of Delivery: In Class

POL483H5 • Postcolonial Visions and the Americas

This course seeks to reconstruct the category of American Political Thought through a postcolonial lens that centres the political investments of Black, Indigenous, Mestizo, and Creole communities. Drawing on political texts, poems, songs, and archival documents, students will engage with revolutionary thinking from Mexico, Venezuela, Colombia, Cuba, Haiti, Canada, and the United States, among others.

Prerequisites: POL200Y5 and POL320Y5
Exclusions: POL485H5 (Fall 2022) or POL484H1 (Winter 2023)
Distribution Requirements: Social Science
Total Instructional Hours: 24S
Mode of Delivery: In Class

POL484H5 • Topics in Political Thought

Topics will vary from term to term.

Prerequisites: 3.0 credits in POL, including 1.0 POL credit at the 300-level.
Recommended Preparation: POL200Y5 and POL320Y5
Distribution Requirements: Social Science
Total Instructional Hours: 24L

POL485H5 • Topics in Political Thought

Content of course will vary from year to year. Consult the Political Science Handbook. The contact hours for this course may vary in terms of contact type (L,S,T,P) from year to year, but will be between 24-36 contact hours in total. See the UTM Timetable.

Prerequisites: [POL320Y5](#) or permission of the instructor
Enrolment Limits: Enrolment is limited to Political Science Specialists, Joint Specialists and Political Science Majors.
Distribution Requirements: Social Science
Total Instructional Hours: 24L
Mode of Delivery: In Class

POL486H5 • Topics in International Relations

Content of course will vary from year to year. Consult the Political Science Handbook. The contact hours for this course may vary in terms of contact type (L,S,T,P) from year to year, but will be between 24-36 contact hours in total. See the UTM Timetable.

Prerequisites: 3.0 POL credits, including 1.0 POL credit at the 300-level
Recommended Preparation: [POL208Y5](#) or [POL208Y1](#) or [POL209H5](#) or [POL210H5](#)
Distribution Requirements: Social Science

Mode of Delivery: In Class

POL487H5 • Topics in International Relations

Content of course will vary from year to year. Consult the Political Science Handbook. The contact hours for this course may vary in terms of contact type (L,S,T,P) from year to year, but will be between 24-36 contact hours in total. See the UTM Timetable.

Prerequisites: [POL208Y5](#) or [POL208Y1](#) or ([POL209H5](#) and [POL210H5](#)) or ([POL218H1](#) and [POL219H1](#))
Enrolment Limits: Enrolment is limited to Political Science Specialists, Joint Specialists and Political Science Majors.
Distribution Requirements: Social Science
Total Instructional Hours: 24L
Mode of Delivery: In Class

POL490H5 • Topics in Canadian Politics

Content of course will vary from year to year. Consult the Political Science Handbook. The contact hours for this course may vary in terms of contact type (L,S,T,P) from year to year, but will be between 24-36 contact hours in total. See the UTM Timetable.

Prerequisites: 3.0 POL credits, including 1.0 POL credit at the 300-level
Recommended Preparation: [POL214Y5](#) or [POL215H5](#) or [POL216H5](#)
Enrolment Limits: Enrolment is limited to Political Science Specialists, Joint Specialists and Political Science Majors.
Distribution Requirements: Social Science

Total Instructional Hours: 24L
Mode of Delivery: In Class

POL493H5 • Social Risk and Social Protection

This class is a study of the welfare state. We will study old and new social risks, such as poverty, homelessness, and unemployment, and consider the types of social protections that are offered against those risks. The class will cover broad theories of the welfare state and social policy, and will also consider specific areas of policy and what governments and non-governmental groups are doing to protect against old and new risks.

Prerequisites: [POL215H5](#) and [POL216H5](#)
Recommended Preparation: [POL111H5](#) and [POL318H5](#)
Distribution Requirements: Social Science
Total Instructional Hours: 24S
Mode of Delivery: In Class

POL494H5 • Topics in Canadian Politics

Content of course will vary from year to year. Consult the Political Science Handbook. The contact hours for this course may vary in terms of contact type (L,S,T,P) from year to year, but will be between 24-36 contact hours in total. See the UTM Timetable.

Prerequisites: 3.0 POL credits, including 1.0 POL credit at the 300-level
Recommended Preparation: [POL214Y5](#) or [POL215H5](#) or [POL216H5](#)
Distribution Requirements: Social Science
Total Instructional Hours: 24L
Mode of Delivery: In Class

POL495Y5 • Undergraduate Reading Course

This is a student-initiated course of reading and research on a specialized topic of interest to the student. It is normally only open to students enrolled in Political Science Specialist and Major programs. Students wishing to enrol must find a faculty member willing to supervise the course, develop a program of study in consultation with the supervisor and obtain written approval for the course from the chair.

Prerequisites: Permission of Instructor and of the Chair
Enrolment Limits: Enrolment is limited to Political Science Specialists, Joint Specialists and Political Science Majors.
Distribution Requirements: Social Science
Total Instructional Hours: 48L
Mode of Delivery: In Class

POL496H5 • Undergraduate Reading Course

This is a student-initiated course of reading and research on a specialized topic of interest to the student. It is normally only open to students enrolled in Political Science Specialist and Major programs. Students wishing to enrol must find a faculty member willing to supervise the course, develop a program of study in consultation with the supervisor and obtain written approval for the course from the chair.

Prerequisites: Permission of Instructor and of the Chair

Enrolment Limits: Enrolment is limited to Political Science Specialists, Joint Specialists and Political Science Majors.

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

Science Specialists, Joint Specialists and Political Science Majors.

Distribution Requirements: Social Science

Mode of Delivery: In Class

POL499H5 • Research Opportunity Program

This course provides a richly rewarding opportunity for students in their third year to work in the research project of a professor in return for POL499H5 course credit. Students enrolled have an opportunity to become involved in original research, learn research methods and share in the excitement and discovery of acquiring new knowledge. Participating faculty members post their project descriptions for the following summer and fall/winter sessions in early February and students are invited to apply in early March. See Experiential and International Opportunities for more details.

Exclusions: students are not allowed to take POL499Y5 and POL499H5 concurrently

Enrolment Limits: Enrolment is limited to Political Science Specialists, Joint Specialists and Political Science Majors.

Distribution Requirements: Social Science

Mode of Delivery: In Class

POL499Y5 • Research Opportunity Program

This course provides a richly rewarding opportunity for students in their third year to work in the research project of a professor in return for POL499Y5 course credit. Students enrolled have an opportunity to become involved in original research, learn research methods and share in the excitement and discovery of acquiring new knowledge. Participating faculty members post their project descriptions for the following summer and fall/winter sessions in early February and students are invited to apply in early March. See Experiential and International Opportunities for more details.

Exclusions: students are not allowed to take POL499Y5 and POL499H5 concurrently

Psychology is the science that examines the structure and function of behaviour in humans and animals. It is concerned with the processes by which behaviour is acquired, maintained, and developed through adaptive interaction with the physical and social aspects of the environment. Emphasis is on the genetic, physiological, sensory, cognitive, developmental, and social structures that mediate behaviour.

Among the topics covered by Psychology courses are life-span developmental changes in behaviour, modes of sensing, perceiving and responding to the environment, language and cognition, the origins and implications of drives, motives, conflicts and emotions, and the wide variety of individual and species differences that are produced by differences in genetic background, physiology and past experience.

Psychological science strives to achieve the highest levels of rigor and objectivity in its study of behaviour by relying upon an extensive array of scientific methodologies and instrumentation. Because Psychology is concerned with the behaviour of all organisms, the study of animal behaviour constitutes an important part of many Psychology courses. An intensive examination of empirical research findings is paramount in the Psychology curriculum.

Students who are interested in Psychology as a career must be prepared for several years of graduate study. Persons who hold a PhD in Psychology find employment in universities, research institutes, educational organizations, hospitals and clinics, government agencies, research and development units in industry, data science fields, and as self-employed professionals. The BSc with a concentration in Psychology is not in itself a professional qualification. People holding bachelor's degrees in Psychology typically find employment in business, technical, educational or social-service areas. Formal or on-the-job training is usually required. Generally undergraduate courses in Psychology may be valuable to students planning professional careers in medicine, law, nursing and education, for example, and to anyone who wishes to acquire the fundamentals of modern society's understanding of behaviour.

Further information is available from the Undergraduate Director.

Students should also review the [Degree Requirements](#) section prior to selecting courses

Program website: <http://www.utm.utoronto.ca/psychology>

Psychology Programs

Exceptionality in Human Learning - Specialist (Science)

Enrolment Requirements:

Limited Enrolment — Enrolment is limited to students who have:

1. completed Gr. 12(4U) Biology and Advanced Functions or equivalent;
2. completed 8.0 credits;
3. completed [PSY201H5](#) (or equivalent), [PSY210H5](#), [PSY240H5](#) and at least 1.0 credit of 200-level ANT/BIO/SOC courses with a minimum average of 75% across the 2.5 credits; and
4. a minimum CGPA of 2.70.

Students who do not meet these requirements and/or students who apply after third year must have a psychology average of at least 75% (based on a minimum of [PSY201H5](#) and the next most recent 1.5 credits completed in psychology) as well as an AGPA of at least 2.7. These requirements are based on all courses taken during students' most recent academic year (including Summer, when applicable).

Completion Requirements:

13.0-14.5 credits are required, including at least 5.0 300/400-level credits of which 1.5 must be at the 400-level.

First Year: PSY100Y5; (ANT101H5, ANT102H5) / (BIO152H5, BIO153H5) / 1.0 credit from BIO202H5, BIO205H5, BIO206H5, BIO207H5/ SOC100H5

Second Year:

1. PSY201H5/ ECO220Y5/ ECO227Y5/ SOC350H5/ STA218H5/ STA220H5/
2. PSY210H5, PSY240H5
3. 0.5 credit from the following: PSY202H5 (or equivalent), PSY270H5, PSY280H5, PSY290H5, JLP285H5

Higher Years:

1. 3.0 credits from the following: PSY310H5, PSY311H5, PSY312H5, PSY313H5, PSY314H5, PSY316H5, PSY317H5, PSY318H5, PSY319H5, PSY321H5, PSY325H5, PSY330H5, PSY331H5, PSY333H5, PSY340H5, PSY341H5, PSY343H5, PSY344H5, PSY346H5, PSY353H5, PSY385H5, PSY391H5, PSY392H5, PSY393H5, JLP385H5, JLP388H5, JLP315H5, JLP383H5, LP384H5, JLP388H5,
2. PSY442Y5 and at least 0.5 credit from the following: PSY400Y5, PSY401H5, PSY403H5, PSY404H5, PSY405H5, PSY406H5, PSY410H5, PSY415H5, PSY440H5, PSY474H5, PSY495H5, PSY499H5, PSY499Y5, JLP481H5, JLP483H5
3. One of the following:
 - a. 2.0 credits from: ANT202H5, ANT203H5, ANT204H5, ANT205H5, ANT206H5, ANT207H5, ANT211H5, ANT212H5, ANT214H5, ANT215H5, ANT220H5, ANT241H5, ANT306H5, ANT322H5, ANT331H5, ANT332H5, ANT333H5, ANT334H5, ANT335H5, ANT337H5, ANT338H5, ANT341H5, ANT350H5, ANT352H5, ANT362H5, ANT364H5, ANT365H5, ANT401H5, ANT403H5, ANT434H5, ANT437H5, ANT460H5, ANT461H5, ANT462H5
 - b. 2.5 credits from: SOC205H5, SOC209H5, SOC211H5, SOC216H5, SOC219H5, SOC224H5, SOC227H5, SOC240H5, SOC244H5, SOC263H5, SOC275H5, SOC304H5, SOC307H5, SOC310H5, SOC316H5, SOC323H5, SOC332H5, SOC333H5, SOC341H5, SOC352H5, SOC356H5, SOC359H5, SOC371H5, SOC375H5, SOC380H5, SOC456H5, SOC457H5
 - c. 2.0 credits from: BIO202H5, BIO205H5, BIO206H5, BIO207H5, BIO210Y5, BIO315H5, BIO341H5, BIO370Y5, BIO371H5, BIO372H5, BIO375H5, BIO380H5, BIO403H5, BIO407H5, BIO434H5, BIO443H5, BIO476H5, BIO477H5; ANT202H5, ANT203H5, ANT331H5, ANT332H5, ANT333H5, ANT334H5
4. 2.5 additional credits to be selected from the following (no more than 1.0 credit from any one discipline):
ANT - Any course in 3(a) not counted previously
SOC - Any course in 3(b) not counted previously
BIO - Any course in 3(c) not counted previously
CHM - CHM242H5, CHM243H5, CHM341H5, CHM345H5, CHM347H5, CHM361H5, CHM362H5
ENG - ENG234H5, ENG384H5
FRE - FRE225Y5, FRE355H5
HIS - HIS310H5, HIS326Y5, HIS338H5
LIN - LIN101H5, LIN102H5, LIN200H5, LIN256H5, LIN258H5, LIN358H5, LIN380H5
JAL - JAL253H5, JAL355H5
PHL - PHL243H5, PHL244H5, PHL255H5, PHL267H5, PHL271H5, PHL272H5, PHL274H5, PHL277Y5, PHL282H5, PHL283H5, PHL290H5, PHL350H5, PHL355H5, PHL357H5, PHL358H5, PHL367H5, PHL370H5, PHL374H5, PHL376H5
RLG - RLG314H5
WGS - Any course

Note:

1. Students intending to complete Biology courses to satisfy Exceptionality in Human Learning Specialist requirements should thoroughly review Biology prerequisite requirements prior to enrolment to determine eligibility.

ERSPE1883

Neuroscience - Specialist (Science)

Enrolment Requirements:

Limited Enrolment — Enrolment is limited to students who have:

1. completed 8.0 credits;
2. successfully completed PSY100Y5, BIO152H5, BIO153H5, CHM110H5, CHM120H5 and (MAT132H5, MAT134H5) / (MAT135H5, MAT136H5) / MAT135Y5 / MAT137Y5 (or equivalent);
3. completed PSY201H5, PSY202H5 (or equivalent), PSY290H5, and at least 0.5 credit from: BIO202H5 / BIO205H5 / BIO206H5 / BIO207H5 / PSY210H5 / PSY270H5 / PSY274H5 / PSY280H5 with a minimum average of 77%; and
4. a minimum AGPA of 3.0.

Students who do not meet these requirements and/or students who apply after third year must have a psychology and biology average of at least 77% (based on a minimum of PSY201H5, PSY202H5, and the next most recent 1.5 credits completed in psychology and biology courses listed in the Neuroscience Specialist program) as well as an AGPA of at least 3.0. These requirements are based on all courses taken during students' most recent academic year (including Summer, when applicable).

Completion Requirements:

11.5-12.0 credits are required, including at least 3.0 credits at the 300/400 level and 1.0 credit at the 400 level.

First Year: PSY100Y5; BIO152H5, BIO153H5; CHM110H5, CHM120H5; (MAT132H5, MAT134H5) / (MAT135H5, MAT136H5) / (or equivalent)

Second Year:

1. (PSY201H5, PSY202H5) / (STA220H5, STA221H5) / (BIO259H5, BIO360H5) or equivalent
2. BIO202H5; BIO206H5; BIO207H5; PSY290H5
3. one of the following: PSY210H5, PSY270H5, PSY280H5, JLP285H5

Third Year: 1.0 credit from each of the following three areas:

- a. **Behavioural Neuroscience area:** BIO318Y5, BIO320H5, BIO328H5, PSY316H5, PSY318H5, PSY346H5, PSY352H5, PSY353H5, PSY354H5, PSY355H5, PSY368H5, PSY369H5, PSY385H5, PSY389H5, PSY391H5, PSY392H5, PSY393H5, PSY395H5, PSY397H5, PSY398H5
- b. **Molecular/Cellular Biology area:** BIO314H5, BIO315H5, BIO341H5, BIO347H5, BIO372H5, BIO407H5, BIO476H5, PSY355H5, PSY392H5
- c. **Neurobiology area:** BIO304H5, BIO310H5, BIO380H5, BIO404H5, BIO409H5, PSY318H5, PSY346H5, PSY369H5, PSY393H5, PSY397H5

Fourth Year:

1. One seminar from the following: BIO403H5, BIO404H5, BIO406H5, BIO407H5, BIO408H5, PSY471H5, PSY480H5, PSY490H5, PSY495H5
2. One thesis/ research project from the following: BIO481Y5, PSY400Y5, PSY401H5, PSY403H5 / PSY404H5 / PSY405H5 / PSY406H5, PSY499H5 / PSY499Y5

NOTES:

1. Students intending to pursue the Neuroscience Specialist program should be aware of minimum grade prerequisite requirements for entry to BIO152H5 (minimum grade of 70% in Grade 12 SBI4U) and CHM110H5 (minimum grade of 70% in Grade 12 SCH4U)

2. In second year, students are encouraged to consider taking the following courses depending on their planned course of study:

- BIO202H5 - required for several courses in the Neurobiology area.
- PSY210H5 - required for several courses in the Behavioural Neuroscience area.

3. Students interested in taking PSY400Y5 in their last year are advised to take PSY309H5 in their third year.

ERSPE2470

Psychology - Specialist (Science)

Enrolment Requirements:

Limited Enrolment — Enrolment in this program is limited to students who have:

1. completed Gr. 12(4U) Biology and Advanced Functions or equivalent;
2. completed 8.0 credits;
3. completed PSY201H5 and PSY202H5 (or equivalent) and at least 1.5 credits in 200-level PSY courses with a minimum average of 77% across the 2.5 credits; and
4. a minimum CGPA of 3.0.

Students who do not meet these requirements and/or students who apply after third year must have a psychology average of at least 77% (based on a minimum of PSY201H5 and PSY202H5 and the next most recent 1.5 credits completed in psychology) as well as an AGPA of at least 3.0. These requirements are based on all courses taken during students' most recent academic year (including Summer, when applicable).

Please see the Psychology Department website (www.utm.utoronto.ca/psychology) for full enrolment requirement details.

Completion Requirements:

10.0-10.5 credits in Psychology are required.

First Year: PSY100Y5

Second Year:

1. PSY201H5 and PSY202H5 (or equivalent)
2. PSY210H5 and PSY290H5
3. PSY270H5 or PSY280H5 or JLP285H5
4. PSY220H5 or PSY230H5 or PSY240H5
5. 0.5 additional PSY credit at the 200-level

Third Year:

1. PSY309H5
2. One laboratory course from the following: PSY319H5 or PSY329H5 or PSY368H5 or PSY369H5 or PSY379H5 or PSY389H5
3. 3.0 credits from the following courses (with a min. 0.5 credits from each grouping):
 - a. **Biological Bases of Behaviour:** PSY318H5, PSY346H5, PSY351H5, PSY352H5, PSY353H5, PSY354H5, PSY355H5, PSY362H5, PSY372H5, PSY391H5, PSY392H5, PSY393H5, PSY395H5, PSY397H5, PSY398H5; BIO304H5, BIO310H5, BIO318Y5, BIO328H5
 - b. **Perception/Cognition/Communication:** PSY312H5, PSY316H5, PSY362H5, PSY371H5, PSY372H5, PSY385H5, PSY387H5, PSY393H5, PSY397H5, JLP315H5, JLP383H5, JLP384H5, JLP388H5
 - c. **Developmental/Abnormal/Social/Personality:** PSY310H5, PSY311H5, PSY312H5, PSY313H5, PSY314H5, PSY316H5, PSY317H5, PSY318H5, PSY320H5, PSY321H5, PSY324H5, PSY325H5,

PSY327H5, PSY328H5, PSY330H5, PSY331H5, PSY333H5, PSY340H5, PSY341H5, PSY343H5, PSY344H5, PSY345H5, PSY346H5, PSY353H5, JLP315H5

Fourth Year:

1. PSY400Y5 or PSY401H5 or PSY403H5 or PSY404H5 or PSY405H5 or PSY406H5 or PSY499H5 or PSY499Y5
2. 1.0 credit from the following courses: PSY402H5 or PSY410H5 or PSY415H5 or PSY420H5 or PSY424H5 or PSY430H5 or PSY435H5 or PSY440H5 or PSY442Y5 or PSY471H5 or PSY480H5 or PSY490H5 or PSY495H5 or JLP481H5 or JLP483H5 or BIO403H5 or BIO407H5 or STA441H5

NOTE: A single course can be used to satisfy only one Psychology program requirement.

ERSPE1160

Exceptionality in Human Learning - Major (Science)

Enrolment Requirements:

Admissions to the Exceptionality in Human Learning Major are administratively suspended as of 2019-2020. Students currently enrolled in the program will be allowed to continue.

Limited Enrolment — Enrolment in this program is limited to students who have:

1. completed Gr. 12(4U) Biology and Advanced Functions or equivalent;
2. completed 4.0 credits;
3. a grade of at least 75% in PSY100Y5;
4. successfully completed 1.0 credit from BIO152H5/ BIO153H5/ BIO202H5/ BIO205H5/ BIO206H5/ BIO207H5; and
5. a minimum CGPA of 2.7

Completion Requirements:

7.0-7.5 credits are required, including at least 2.0 credit at the 300/400 level:

First Year: PSY100Y5; 1.0 credit from BIO152H5, BIO153H5, BIO202H5, BIO205H5, BIO206H5, BIO207H5

Higher Years:

1. PSY201H5/ ECO220Y5/ ECO227Y5/ SOC350H5/ STA215H5/ STA218H5/ STA220H5/
2. PSY210H5, PSY240H5
3. 2.5 credits from the following: PSY310H5, PSY311H5, PSY312H5, PSY313H5, PSY315H5, PSY316H5, PSY317H5, PSY318H5, PSY319H5, PSY321H5, PSY325H5, PSY331H5, PSY333H5, PSY340H5, PSY341H5, PSY343H5, PSY344H5, PSY345H5, PSY346H5, PSY353H5, PSY374H5, PSY376H5, PSY384H5, PSY391H5, PSY392H5, PSY393H5, PSY410H5, PSY440H5, PSY442Y5
4. 1.0 additional credit from the following: BIO202H5, BIO205H5, BOP206H5, BIO207H5, BIO210Y5, BIO315H5, BIO341H5, BIO370Y5, BIO371H5, BIO372H5, BIO375H5, BIO380H5, BIO403H5, BIO407H5, BIO434H5, BIO443H5, BIO476H5, BIO477H5; ANT202H5, ANT203H5, ANT331H5, ANT332H5, ANT333H5, ANT334H5

ERMAJ1883

Psychology - Major (Science)

Enrolment Requirements:

Limited Enrolment — All students must have completed Ontario Grade 12 Biology (SBI4U) and Advanced Functions (MHF4U) or equivalents.

Students applying at the end of their first year (minimum 4.0 completed credits), must have a grade of at least 64% in PSY100Y5 and a CGPA of at least 2.0.

Students who do not meet these requirements and/or students who apply after second year must have a psychology average of at least 64% (based on a minimum of 1.5 completed credits in psychology) as well as an AGPA of at least 2.0. Both these requirements are based on all courses taken during students' most recent academic year (including Summer, when applicable).

Completion Requirements:

6.5-7.0 credits in Psychology are required, including 2.0 at the 300/400 level.

First Year: PSY100Y5

Higher Years:

1. PSY201H5/ ECO220Y5/ ECO227Y5/ SOC350H5/ STA218H5/ STA220H5
2. PSY210H5, PSY290H5
3. one of the following: PSY270H5, PSY280H5, JLP285H5
4. one of the following: PSY220H5, PSY230H5, PSY240H5
5. 1.5 credits from the following courses: 0.5 credit must be taken from each group:
 - a. Biological Bases of Behaviour: PSY318H5, PSY346H5, PSY351H5, PSY352H5, PSY353H5, PSY354H5, PSY355H5, PSY362H5, PSY372H5, PSY391H5, PSY392H5, PSY393H5, PSY395H5, PSY397H5, PSY398H5, BIO304H5, BIO310H5, BIO318Y5, BIO328H5
 - b. Perception/Cognition/Communication: PSY312H5, PSY316H5, PSY362H5, PSY371H5, PSY372H5, PSY385H5, PSY387H5, PSY393H5, PSY397H5, JLP315H5, JLP383H5, JLP384H5, JLP388H5
 - c. Developmental/Abnormal/Social/Personality: PSY310H5, PSY311H5, PSY312H5, PSY313H5, PSY314H5, PSY316H5, PSY317H5, PSY318H5, PSY320H5, PSY321H5, PSY324H5, PSY325H5, PSY327H5, PSY328H5, PSY330H5, PSY331H5, PSY333H5, PSY340H5, PSY341H5, PSY343H5, PSY344H5, PSY345H5, PSY346H5, PSY353H5, JLP315H5
6. 1.5 additional credits in Psychology. At least 0.5 must be at the 300/400 level

NOTE: A single course can be used to satisfy only one Psychology program requirement.

ERMAJ1160

Psychology - Minor (Science)

Enrolment Requirements:

Limited Enrolment — All students must have completed Ontario Grade 12 Biology (SBI4U) and Advanced Functions (MHF4U) or out of province equivalents.

Students applying at the end of their first year (minimum 4.0 completed credits) must have a grade of at least 61% in PSY100Y5 and a CGPA of at least 2.0.

Students who do not meet these requirements and/or students who apply after second year must have a psychology average of at least 61% (based on a minimum of 1.5 completed credits in psychology) as well as an AGPA of at least 2.0. Both these requirements are based on all courses taken during student's most recent academic year (including Summer, when applicable).

Completion Requirements:

4.0-4.5 credits are required, including 1.0 credit at the 300 level or above.

First Year: PSY100Y5

Higher Years:

1. PSY201H5 or ECO220Y5 or ECO227Y5 or SOC350H5 or STA218H5 or STA220H5
2. PSY290H5
3. PSY270H5 or PSY280H5 or JLP285H5
4. PSY210H5 or PSY220H5 or PSY230H5 or PSY240H5
5. 1.0 credit in PSY at the 300 level or above, excluding PSY399H5 and PSY399Y5

1.

ERMIN1160

Psychology Courses

JLP285H5 • Language, Mind, & Brain

Language is often described as a quintessentially human trait. What is the mental machinery underlying this ability? In this course, you will explore questions such as: Do animals have language? How do children learn language? How do we understand and produce language in real time? How does bilingualism work? What can neuroscience tell us about language abilities? What is the relationship between language and thinking?

Prerequisites: (LIN101H5 and LIN102H5) OR PSY100Y5

Exclusions: JLP374H1, PLIC55H3, PSY374H5

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

JLP315H5 • Language Development

By three years of age, children have mastered many of the complexities of human language. How do they do this so rapidly, and with such ease? In this course, you will examine language acquisition from a cognitive perspective. Topics include the acquisition of speech sounds, sentence structure, and conversational abilities, as well as patterns of development in special populations. You will also learn about childhood bilingualism and social aspects of language development. Hands-on experience analyzing recordings of children will be provided.

Prerequisites: PSY201H5 (or equivalent) or (LIN288H5 or PSY274H5 or JLP285H5) and (PSY210H5 or PSY270H5 or PSY274H5) or (LIN101H5 and LIN102H5) or LIN200H5

Exclusions: JLP315H1, PSY315H5

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

JLP383H5 • Adult Language Processing

Language is a key element in our social interactions, our ability to share information, and aspects of human culture. In this course you will engage in an advanced exploration of the cognitive machinery underlying language in adulthood. Key themes include: incremental interpretation and predictive processing; the relationship between language comprehension and production; and the nature of processing in bilinguals and speakers of less-studied languages. Practical activities address experimental methodology and aspects of data analysis.

Prerequisites: PSY201H5 (or equivalent) or (LIN288H5 or PSY274H5 or JLP285H5) and (PSY270H5 or PSY274H5) or (PSY315H5 or JLP315H5) or (LIN328H5 or PSY384H5 or JLP384H5) or (LIN101H5 and LIN102H5) or LIN200H5

Exclusions: PSY374H5

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

JLP384H5 • Speech Communication

Imagine an animal species where one creature can generate thoughts in other creatures' minds simply by causing the air molecules around them to vibrate. Although this sounds exotic, it is what we as humans do every time we speak and listen. In this course, we explore the perception and production of spoken language from an interdisciplinary perspective. Sample topics include perceptual and cognitive aspects of speech communication, speech signal acoustics, audio-visual speech integration, speech sound articulation, artificial speech recognition, multilingualism, and contextual influences on speech communication. Through laboratory exercises, students will replicate classic experimental findings and gain hands-on experience with acoustic and behavioural data analysis

Prerequisites: (PSY201H5 or LIN228H5) and one of LIN229H5 or LIN288H5 or LIN318H5 or PSY270H5 or PSY274H5 or PSY280H5 or PSY374H5

Exclusions: LIN328H5 and PSY384H5 and PLID50H3

Distribution Requirements: Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

JLP388H5 • Bilingualism and Multiple Language Acquisition

What are the linguistic and psychological implications of knowing more than one language? This course will explore topics such as the bilingual brain, the nature of bilingual language input, effects of age-of-acquisition and language similarity, the status of heritage languages, schooling in a second language (for example French Immersion programs), and research methodologies used in the study of bilingualism. Bilingual/multilingual corpora will be examined.

Prerequisites: LIN288H5 or PSY274H5 or PSY315H5

Exclusions: FRE388H5 and JFL388H5 and LIN388H5 and PSY376H5

Distribution Requirements: Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

JLP481H5 • Topics in Developmental Psycholinguistics

How do children's language comprehension and production abilities differ from adults? What can research on language acquisition tell us about why language looks the way it does? Developmental psycholinguists use experimental techniques to explore a range of topics in the area of child language comprehension and production. Drawing on cutting-edge interdisciplinary research, we will explore contemporary issues and debates in this area.

Prerequisites: (LIN288H5 or PSY274H5) and 1.0 credit from the following list: LIN318H5 or LIN328H5 or LIN329H5 or LIN332H5 or LIN385H5 or LIN418H5 or

LIN421H5 or PSY315H5 or PSY374H5 or PSY384H5 or any JLP course.

Distribution Requirements: Science

Total Instructional Hours: 36S

Mode of Delivery: In Class

JLP483H5 • Topics in Adult Psycholinguistics

What is the connection between comprehending, producing, and thinking about language? How do the properties of different languages influence the nature of language processing? How is processing affected by differences across individuals? Drawing on a variety of perspective and methodologies, we will explore contemporary issues and debates in these and other topics.

Prerequisites: (LIN288H5 or PSY274H5 or JLP285H5) and 1.0 credit from the following list: (PSY315H5 or JLP315H5) or (PSY374H5 or JLP383H5) or (PSY384H5 or JFL388H5 or JLP388H5) or (LIN318H5 or LIN418H5) or JLP384H5 or JLP481H5.

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

PSY100Y5 • Introductory Psychology

An examination of the science of behaviour, and use of the scientific method in the study of human and animal behaviour. This course, which includes 10 two-hour computer labs, is a prerequisite for all other Psychology courses except for PSY201H5 and PSY202H5.

Exclusions: PSY100H1 or PSYA01H3 or PSYA02H3

Distribution Requirements: Science

Total Instructional Hours: 48L/20P

Mode of Delivery: In Class

PSY201H5 • Introduction to Quantitative Research in Psychology I

In this course, you will develop a conceptual understanding of statistics that will improve your data-driven decision-making processes and critical assessment of research findings. Using statistical programming, you will learn practical skills that will help you visualize data, draw insights from graphs, describe data to others, and test predictions using statistics.

Prerequisites: Grade 12 (4U) Advanced Functions

Exclusions: ECO220Y5 or ECO227Y5 or SOC300Y5 or SOC350H5 or STA215H5 or STA218H5 or STA220H5 or STA246H5 or STA256H5 or STA258H5 or PSY201H1 or PSYB07H3 or STAB22H3

Distribution Requirements: Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

PSY202H5 • Introduction to Quantitative Research in Psychology II

This course builds on the foundation of [PSY201H5](#) to explore a variety of statistical procedures used in psychology research, understand the factors that maximize the validity of research findings, and to develop effective strategies to communicate research findings.

Prerequisites: [PSY201H5](#)

Exclusions: [ECO220Y5](#) or [ECO227Y5](#) or [STA221H5](#) or [STA256H5](#) or [STA258H5](#) or [BIO360H5](#) or [PSY202H1](#) or [PSYC08H3](#) or [STAB27H3](#)

Distribution Requirements: Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

PSY210H5 • Introduction to Developmental Psychology

How do children learn to interact with the world around them; to communicate, solve problems, establish moral principles, form meaningful relationships, and develop a sense of self? In this course, you will take an interdisciplinary approach to understanding how a child's mind and brain develop through exploration of cognitive, biological, social, and cultural factors. At the end of this course, you will have developed an understanding of the theoretical, experimental, ethical, and psychological foundations of developmental psychology.

Prerequisites: [PSY100Y5](#)

Exclusions: [PSY210H1](#) or [PSYB20H3](#) or [PSYB21H3](#)

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

PSY220H5 • Introduction to Social Psychology

A survey of classic and contemporary research in social psychology. Topics include the self, social cognition, attitudes, social influence, relationships, emotions, culture, stereotyping, altruism and aggression.

Prerequisites: [PSY100Y5](#)

Exclusions: [PSY220H1](#) or [PSYB10H3](#)

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

PSY230H5 • Introduction to Personality Science

Personality science examines human diversity in behaviours, thoughts, and emotions. A primary learning objective is for students to think scientifically about human diversity in personality traits. The course focuses primarily on empirical results that have accumulated since the

1970s. Students learn about the measurement of personality, biological and social causes of human diversity, and the influence of personality on major life outcomes. The course focuses on variation in personality that is normal, although the relationship between personality and health – both physical and mental – is examined.

Prerequisites: [PSY100Y5](#)

Exclusions: [PSY230H1](#) or [PSYB30H3](#)

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

PSY240H5 • Introduction to Abnormal Psychology

A survey of contemporary issues in theory and research on abnormal behaviour and its treatment. Topics include the definition of abnormal behaviour, causes and treatment of disorders, diagnosis and assessment, incidence and prevalence, biological and psychological interventions, prevention, as well as legal and ethical issues.

Prerequisites: [PSY100Y5](#)

Exclusions: [PSY240H1](#) or [PSYB32H3](#)

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

PSY270H5 • Cognition: The Machinery of the Mind

In your everyday life, you are constantly bombarded with information from the external world. How does your mind select important information, remember it, and use it to govern your behaviour? Cognition is the study of the mechanisms involved in the processing of information. In this course, you will learn how your mind allows you to pay attention, create mental representations, remember information, manipulate knowledge, and express thoughts.

Prerequisites: [PSY100Y5](#)

Exclusions: [PSY270H1](#) or [PSYB57H3](#)

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

PSY280H5 • Sensation and Perception: Where the World Meets the Brain

What you see, hear, taste, and smell is not only a product of sensory stimulation, but also your brain's attempt to make sense of that information. Perception is the gateway between the external world and your internal representation of what is going on around you. In this course, you will be introduced to current empirical research in perceptual science. You will develop a greater

awareness of the biological underpinnings of how you perceive the world and how your brain actively interprets information from the environment.

Prerequisites: PSY100Y5

Exclusions: PSY280H1 or PSYB51H3

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

PSY290H5 • Introduction to Neuroscience

The human brain is made up of billions of cells and trillions of connections that give rise to our ability to perceive, act, think, and learn. Neuroscience, the scientific exploration of the brain, is beginning to unravel how this amazing structure works. In this course, you will learn the fundamental anatomical organization and physiological properties of the brain. You will develop a greater understanding of the structures of the brain, how neurons communicate, and the processes that give rise to perception, learning, and memory.

Prerequisites: PSY100Y5

Exclusions: PSY290H1 or PSYB64H3

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

PSY299H5 • Research Opportunity Program

This course provides a richly rewarding opportunity for students in their second year to participate in the research project of a professor in return for 299H course credit. Students enrolled have an opportunity to become involved in original research, learn research methods and share in the excitement and discovery of acquiring new knowledge. Participating faculty members post their project descriptions for the following summer and fall/winter sessions in early February and students are invited to apply in early March. See Experiential and International Opportunities for more details.

Prerequisites: 4.0 credits including PSY100Y5

Exclusions: PSY299Y1

Course Experience: University-Based Experience

Distribution Requirements: Science

Mode of Delivery: In Class

PSY299Y5 • Research Opportunity Program

This course provides a richly rewarding opportunity for students in their second year to participate in the research project of a faculty member in return for 299Y course credit. Students enrolled have an opportunity to become involved in original research, learn methods and share in

the excitement and discovery of acquiring new knowledge. Participating faculty members post their project descriptions for the following summer and fall/winter sessions in early February and students are invited to apply in early March. See Experiential and International Opportunities for more details.

Prerequisites: Completion of 4.0 FCE including PSY100Y5

Exclusions: PSY299Y1

Distribution Requirements: Science

Mode of Delivery: In Class

PSY309H5 • Experimental Design and Theory

You will learn how to interpret and critically evaluate psychological research, including the strengths and limitations of different research designs. You will learn to propose new research, including literature review, hypothesis formulation, anticipated results, and pre-specified analysis planning. Finally, you will also practice presenting your work in a virtual conference setting.

Prerequisites: PSY202H5 (or equivalent) and 1.0 credit in PSY at the 200 level

Exclusions: PSY309H1

Distribution Requirements: Science

Total Instructional Hours: 36P

Mode of Delivery: In Class

PSY310H5 • Adolescence and Emerging Adulthood

A survey of research findings and theories concerning the physical, cognitive, personality, and social growth of adolescents and emerging adults. Topics include pubertal development, changes in parent/adolescent relationships, role of peers, identity development, high-risk behaviours, and development through transitional periods.

Prerequisites: PSY201H5 (or equivalent) and PSY210H5

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

PSY311H5 • Social Development

A survey of contemporary research and theory in social development during infancy and childhood with consideration of the cultural context of development. Topics include interactional development, attachment, understanding self and others, sex role development, parenting and socialization, and outcome of development.

Prerequisites: PSY201H5 (or equivalent) and PSY210H5

Exclusions: PSY311H1 or PSYC23H3

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

PSY312H5 • Children's Thinking: Cognitive Development in a Social World

This course seeks to answer two questions about the development of children's thinking: (1) What develops? (2) How does this development occur? Students will develop an understanding of theory and research in cognitive development across a range of topics including perception, social cognition, language, conceptual development, and problem solving.

Prerequisites: PSY201H5 (or equivalent) and PSY210H5 and PSY270H5

Exclusions: PSY312H1

Distribution Requirements: Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

PSY313H5 • Adult Development and Aging

An introduction to current research in human development from young adulthood through old age. Adult development will be examined in terms of the interplay of biological, socio-cultural, and psychological determinants, with special emphasis on psychological factors. Topics include the demographics of aging, research methods and problems, developmental changes in sensory-perceptual systems, memory, intelligence, personality, as well as issues related to mental health, dying and bereavement.

Prerequisites: PSY201H5 (or equivalent) and one additional second year course in PSY

Exclusions: PSY213H5 or PSY313H1

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

PSY314H5 • Educational Psychology: The Science of Learning

In this class we will review key findings from cognitive development, cognitive psychology, and educational psychology that have implications for the development of learning experience inside and outside the classroom.

Prerequisites: PSY201H5 and PSY210H5 and PSY270H5

Distribution Requirements: Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

PSY316H5 • Infant Perception and Cognition

This course focuses primarily on human perceptual and cognitive development during the first 2 years of life. A heavy emphasis is placed on experimental work with normally developing infants. Topics include but are not limited to face recognition, colour and depth perception, auditory localization, object categorization, speech and language processing, learning and memory, intelligence and social influences on development.

Prerequisites: (PSY201H5 or equivalent) and (PSY210H5 or PSY270H5 or PSY280H5)

Exclusions: PSY316H1

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

PSY317H5 • Gender and Sexual Development

Gender and sexuality influence how we think about ourselves and relate to others. This course explores the development of these aspects with emphasis on cognitive, social and cultural processes. Topics include gender stereotypes and the emergence of gender differences, gender and education, gender bias, gender identity, sexual development in children and youth, and sexual partner preferences.

Prerequisites: (PSY201H5 or equivalent) and PSY210H5

Exclusions: PSY323H1

Distribution Requirements: Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

PSY318H5 • Developmental Neuropsychology

A survey of brain development, its relation to normal cognitive and behavioural development, the effects of early brain damage on development, and specific neurological disorders of childhood.

Prerequisites: PSY201H5 (or equivalent) and PSY210H5 and PSY290H5

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

PSY319H5 • Developmental Psychology Laboratory

In this course, students will learn how to develop and design experiments to answer scientific questions of their interest in the study of Developmental Psychology. Students will learn research methods relevant to research with infants and children, and apply these advanced

methods. Students will also learn to code and analyze real data using advanced computational and statistical software.

Prerequisites: PSY201H5 and PSY202H5 (or equivalent) and PSY210H5 and PSY309H5

Exclusions: PSY319H1 or PSYC26H3

Distribution Requirements: Science

Total Instructional Hours: 36P

Mode of Delivery: In Class

PSY320H5 • Social Psychology: Attitudes

Attitudes are persistent evaluations (preferences, likes and dislikes). This course examines the measurement of attitudes, the formation of attitudes to new objects, and the change of existing attitudes. General principles are illustrated with examples from various domains, such as propaganda and advertising, stereotyping and prejudice, attitudes towards health behaviours, and self-evaluations (self-esteem, life-satisfaction)

Prerequisites: (PSY201H5 or equivalent) and PSY220H5

Exclusions: PSY320H1

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

PSY321H5 • Cross-cultural Psychology

Culture influences our daily experience and has far-reaching implications for psychological development. This course explores the origins of culture as well as human cultural universals and cultural diversity through consideration of multiculturalism and the various ways culture influences people's self-concepts, perceptual and cognitive processes, social and emotional lives, concepts of morality, and health.

Prerequisites: PSY210H5 or PSY220H5 or PSY230H5 or PSY240H5 or PSY270H5 or PSY274H5

Exclusions: PSY321H1 or PSYC14H3

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

PSY324H5 • The Science of Wellbeing

What makes people happy? Does money buy happiness or do unhappy people not know where to shop? Are people in California happier than people in Ontario? Does marriage make men happier and women unhappier? This course reviews the scientific evidence regarding these and other questions about the determinants of happiness from an interdisciplinary perspective (psychology, economics, sociology, philosophy, & biology) that ranges from molecular genetics to cross-national comparisons.

Prerequisites: PSY201H5 (or equivalent) and (PSY220H5 or PSY230H5)

Exclusions: PSY336H1

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

PSY325H5 • Psychology of the Self

An examination of theory and research on the self from the perspectives of personality, developmental, and social psychology. Examples of topics associated with self development that will be covered are relationships, motivations, psychological stages, individual differences, cognition, culture, autobiographical memory, and narrative perspectives on the self.

Prerequisites: PSY201H5 (or equivalent) and (PSY210H5 or PSY220H5 or PSY230H5)

Exclusions: PSYD12H3

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

PSY327H5 • Psychology of Intimate Relationships

The objective of this course is to review what relationship science can tell us about close relationships, with a particular focus on romantic relationships. We will explore questions such as: Why do we want to be in relationships, what informs our choice of relationship partners, what predicts satisfaction and stability in relationships, and what is the role of sexuality in relationships? These and other questions will be examined from a variety of theoretical perspectives and will be applied to better understand real-world relationship functioning. General topics include theory and methods of relationships, attraction, social cognition, interdependence, attachment, sexuality, culture and gender, jealousy, and thriving relationships.

Prerequisites: PSY201H5 (or equivalent) and (PSY220H5 or PSY230H5)

Exclusions: PSY424H1 or PSYD11H3

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

PSY328H5 • Psychology and the Law

An examination of relevant research and contemporary methodologies examining phenomena encountered in the justice system. Topics include jury decision-making, violence and risk assessment, eye-witness evidence, insanity, psychopathy and anti-social personality disorder, sentencing, treatment of special offender groups, and criminal profiling. Students will learn how to apply the scientific method to examine behaviours that occur in a legal context.

Prerequisites: PSY201H5 (or equivalent) and (PSY220H5 or PSY240H5)

Exclusions: PSY328H1 or PSYC39H3

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

PSY329H5 • Social/Personality Laboratory

Readings, laboratory exercises, and research projects designed to familiarize students with methodologies relevant to empirical research in social/personality psychology.

Prerequisites: PSY201H5 and PSY202H5/ (or equivalent) and (PSY220H5 or PSY230H5) and PSY309H5

Exclusions: PSY329H1 or PSYC11H3

Distribution Requirements: Science

Total Instructional Hours: 36P

Mode of Delivery: In Class

PSY330H5 • The Basics of Measurement in Social and Personality Psychology

In psychology, we often talk about people in relation to concepts like attachment, happiness, and need to belong. But, how do we actually measure these psychological constructs when we cannot see and touch them? Importantly, how can we be sure that research findings are based on good measurement practices and therefore seen as trustworthy? This course explores basic issues of psychometrics – the measurement of psychological constructs -- in social and personality psychology. We will read scholarly literature on psychometrics, discuss good practices for conceptualizing and assessing psychological constructs, and learn about how we can provide evidence for the validity and reliability of people's responses to measures. We will practice using analytic techniques that examine measurement properties. The student should leave the course with a practical "measurement toolbox" which will allow them to conduct their own psychometric analyses, and better evaluate measurement practices used in social and personality psychology.

Prerequisites: PSY201H5 (or equivalent)

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

PSY331H5 • Psychology of Emotion

In this course you will develop an in-depth understanding of the role of emotions in human psychology. You will learn theories of emotion, emotional regulation, expression and experience, the role of emotion in decision-making, and the relationship between emotion, cognition and behaviour.

Prerequisites: PSY201H5 (or equivalent) and (PSY220H5 or PSY230H5 or PSY240H5)

Exclusions: PSY331H1

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

PSY333H5 • Health Psychology

Examines research evidence concerning the impact of psychological factors on physical health and illness.

Prerequisites: PSY201H5 (or equivalent) and (PSY230H5 or PSY240H5)

Exclusions: PSY333H1

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

PSY340H5 • Abnormal Psychology: Adult Disorders

This advanced course provides an in-depth examination of current theory and research related to the origin, diagnosis, classification and treatment of adulthood psychological disorders. Readings and discussion will provide a biopsychosocial framework from which to explore contemporary explanations of psychopathology. Students will investigate how culture, societal norms, and environmental factors may shape what is considered to be abnormal adult behaviour.

Prerequisites: PSY201H5 (or equivalent) and PSY240H5

Exclusions: PSY342H1 or PSYB32H3

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

PSY341H5 • Abnormal Psychology: Disorders of Children and Adolescents

Considers concepts of normal, abnormal and delayed development. Schemes of classification and diagnosis, approaches to identification of causes, antecedents, and consequences, as well as contemporary treatment methods are critically evaluated. In addition, resilience in the face of adversity will be addressed, since risk and traumatic events often do not lead to disorders. The emphasis is on rigorous research as a primary source of knowledge about psychological disorders and empirically supported treatment.

Prerequisites: PSY201H5 (or equivalent) or PSY210H5 and PSY240H5

Exclusions: PSY341H1

Recommended Preparation: PSY340H5

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

PSY343H5 • Theories of Psychotherapy

Considers the theories and techniques of the major classic and contemporary approaches to psychological treatment (psychotherapy) for personality and behavioural disorders, research supporting and/or growing out of the theories, and critical examination of these theories.

Prerequisites: PSY201H5 (or equivalent) and (PSY230H5 or PSY240H5)

Exclusions: PSY343H1 or PSYC36H3

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

PSY344H5 • Forensic Psychology

An exploration of the role of psychology in forensic science (the application of scientific inquiry into criminal investigation). Topics, which will vary from year to year, could include the assessment of criminal responsibility, competency issues, psychiatric disorders associated with crime, criminal profiling, behavioural analysis of a crime scene, prediction of dangerousness, workplace and family violence, sexual assault/abuse/rape, recovered memories, detection of malingering and deception, deindividuation and bystander intervention, social psychology of the jury, use of psychological tests in legal cases, witness preparation/interrogation, and the psychologist as expert witness.

Prerequisites: PSY240H5

Exclusions: PSYC39H3

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

PSY345H5 • Exceptionality: Disability and Giftedness

A survey of contemporary theory and research related to exceptionality with a special emphasis on disability and educational issues. Topics include controversial psychosocial issues, legal, family, and multicultural issues, disability across the lifespan, communication disorders, hearing and visual impairment, autism, and acquired brain injury.

Prerequisites: PSY210H5

Exclusions: PSY442Y5

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

PSY346H5 • Abnormal Psychology: Neuroscience Perspectives

An examination of contemporary theory and research related to the origin, prevention, and treatment of psychological disorders from a biological perspective. The

course will focus on the role of behaviour genetics, structures in the brain, and biochemistry in the nervous system in specific disorders (e.g., schizophrenia, mood and anxiety disorders, aggression, premenstrual syndrome, sleep disorders) and will discuss alternative approaches to their treatment (e.g., psychopharmacologic versus behaviourally-oriented therapies).

Prerequisites: PSY201H5 (or equivalent) and PSY240H5 and PSY290H5

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

PSY351H5 • Evolutionary Psychology

Application of the theory of biological evolution to understanding the origins and structure of the human mind.

Prerequisites: PSY201H5 (or equivalent) and PSY290H5

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

PSY352H5 • Animal Behaviour

An introduction to animal behaviour from a biological perspective, stressing ecological and evolutionary aspects of behaviour. The course will review the neural, endocrine and physiological mechanisms mediating animals' natural behaviours, as well as how gene-environment interactions during development modify these behavioural mechanisms.

Prerequisites: PSY201H5 (or equivalent) and PSY290H5

Exclusions: BIO318Y5 or BIO328H5 or PSY252H5

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

PSY353H5 • Social Neuroscience

The course will focus on the development and adult organization of brain mechanisms underlying the perception of social information and production of diverse social behaviours in mammalian species. Circumstances and events that can lead to diminished function and psychopathology in humans will be considered.

Prerequisites: PSY201H5 (or equivalent) and PSY290H5

Exclusions: PSY473H1 or PSYC23H3 or PSYD17H3

Distribution Requirements: Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

PSY354H5 • The Biopsychology of Sex

This course is an introduction to the scientific study of human sexuality. Topics covered may include sexual development, sexual orientation, sex practices, sexuality across the lifespan, sexual dysfunction and sexually transmitted diseases.

Prerequisites: PSY201H5 (or equivalent) and PSY290H5

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

PSY355H5 • Animal Behaviour Genetics

An introduction to the genetic analysis of behaviour. The concepts and methods of classical Mendelian genetics, quantitative genetics, and recombinant DNA technology-based reverse and forward genetic approaches will be discussed as they relate to the analysis of animal behaviour.

Prerequisites: PSY201H5 (or equivalent) and PSY290H5

Exclusions: PSY390H1

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

PSY362H5 • Animal Cognition

A comparative survey of cognitive processes in animals from an ecological and evolutionary perspective. The course will examine topics including perception, working and reference memory, simple associative and complex relational learning, and concept formation.

Prerequisites: PSY201H5 (pr equivalent) and PSY270H5 and PSY290H5

Exclusions: BIO320H5 or PSY362H1

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

PSY368H5 • Neuroimaging Laboratory

In this course, you will become familiar with theory and principles underpinning approaches to measuring the brain. The course will focus on techniques used in human neuroscience research. Students will gain skills relevant to the processing, visualization, analysis, interpretation, and reporting of brain data.

Prerequisites: PSY201H5 and PSY202H5 and PSY290H5

Distribution Requirements: Science

Total Instructional Hours: 36P

Mode of Delivery: In Class

PSY369H5 • Behavioural Neuroscience Laboratory

In this course, you will be guided through hands-on laboratory exercises to learn how behavioural paradigms, along with anatomical, genetic, and physiological methods, can be used to answer questions relevant to behavioural neuroscience research.

Prerequisites: PSY202H5 (or equivalent) and PSY290H5

Exclusions: PSY369H1 and PSYC06H3

Distribution Requirements: Science

Total Instructional Hours: 14L/22P

Mode of Delivery: In Class

PSY371H5 • Higher Cognitive Processes

This course covers selected topics pertaining to higher cognitive processes including expertise, consciousness, creativity, and human and artificial intelligence.

Prerequisites: PSY201H5 (or equivalent) and PSY270H5

Exclusions: PSY371H1

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

PSY372H5 • Human Memory: The World within your Mind

Your everyday life hinges on the ability to encode perceptual information around you (what's in the fridge?) and build a model of the world in your mind (need to buy milk) so that you can retrieve information later when you need it (at the grocery store). How does your mind and brain support this fundamental yet complex mental ability? In this course, you will learn how human memory works, drawing on key findings in cognitive psychology and recent advances in neuroscience.

Prerequisites: PSY201H5 (or equivalent) and PSY270H5 and PSY290H5

Exclusions: PSY372H1

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

PSY379H5 • Cognitive Psychology Laboratory

In this course, students will learn how to design and propose original experiments to answer scientific questions of their interest in the field of cognitive psychology. Students will discover the mechanisms involved in the processing of information by engaging with various methodologies used by cognitive psychologists and learn to analyze real data using advanced computational and statistical software.

Prerequisites: PSY201H5 and PSY202H5 (or equivalent) and (PSY270H5 or PSY274H5) and PSY309H5

Exclusions: PSY379H1 or PSYC58H3

Distribution Requirements: Science

Total Instructional Hours: 36P

Mode of Delivery: In Class

PSY385H5 • Human Factors: Applying Perceptual and Cognitive Research to the World

How can understanding perception help to explain what we do in the world? In this course, we will consider questions from engineering and human factors through the lens of perceptual research, tackling the human side of design and engineering problems. Topics include driver behaviour, interface design, data visualization and the perceptual and psychological foundations that dictate their success or failure.

Prerequisites: PSY270H5 or PSY272H5 or PSY280H5 or PSY290H5.

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

PSY387H5 • Psychology of Music

An examination of the psychological foundations of music perception and performance. Consideration of processing differences between naive and experienced listeners, biological foundations of music processing, cultural contributions to music processing, theoretical perspectives on the origins of music, music and emotion, and the non-musical implications of musical training.

Prerequisites: PSY201H5 (or equivalent) and (PSY210H5 or PSY270H5 or PSY274H5 or PSY280H5)

Exclusions: CCT371H or PSYC56H3

Recommended Preparation: Basic ability to read music.

Distribution Requirements: Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

PSY389H5 • Perception Laboratory

In this course, students will learn how to develop and design experiments to answer scientific questions of their interest in the study of perception. Students will learn psychophysical methods, which relate the physical properties of the world to perceptual experience, and apply these advanced methods by carrying out experiments and analyzing data.

Prerequisites: PSY202H5 (or equivalent) and PSY280H5

Distribution Requirements: Science

Total Instructional Hours: 36P

Mode of Delivery: In Class

PSY391H5 • Psychology of Pain

An introduction to the biological and psychological aspects of pain, as a multidimensional bodily sensation, an adaptive solution to threatening stimuli and a clinical problem. Pain will be introduced from a phenomenological perspective, focusing on the ways in which social, situational, psychological and organismic factors can alter pain. An awareness of the current challenges and unanswered questions in pain research and management will be fostered.

Prerequisites: PSY201H5 (or equivalent) and PSY290H5

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

PSY392H5 • Behavioural Epigenetics

Epigenetics encompasses the study of stable alterations in gene activity that occur independent of changes to genetic sequence. Epigenetics has been implicated in all aspects of behaviour, from responding to maternal behaviour in early life to mediating cognitive function in aging and dementia. This course will describe how epigenetics shapes development, learning, memory, stress response, and mental illness in animal and human models.

Prerequisites: PSY201H5 (or equivalent) and PSY290H5

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

PSY393H5 • Human Neuropsychology

This course will review major topics in cognitive neuroscience, with an emphasis on human function. Sample topics include issues such as memory disorders and models of memory, split brain research, language and aphasia, attention, emotion, and executive functions.

Prerequisites: PSY201H5 (or equivalent) and PSY270H5 and PSY290H5

Exclusions: PSY493H1 or PSYC31H3 or PSYC55H3

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

PSY395H5 • Hormones and Behaviour

An evaluation of relations between the hormonal system and brain/behaviour in a variety of species (including humans). Behavioural/functional systems to be considered include the reproductive behaviours (sexual and maternal), aggression, circadian rhythms, seasonal rhythms, eating, affective states, learning and memory.

Prerequisites: PSY201H5 (or equivalent) and PSY290H5

Distribution Requirements: Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

PSY397H5 • Neuroplasticity and Behaviour

An examination of experimental findings and theory documenting the plasticity of the brain and its relationship to behaviour. The course will discuss the molecular, synaptic, cellular and circuitry components of neural plasticity in relation to learning and experience.

Prerequisites: PSY201H5 (or equivalent) and PSY290H5

Distribution Requirements: Science

Total Instructional Hours: 36L

Mode of Delivery: In Class

PSY399H5 • Research Opportunity Program

This course provides third year undergraduate students who have developed an understanding of psychological research methods with an opportunity to participate in the research program of a faculty member in return for course credit. Enrolled students will have the opportunity to become involved in original research, enhance their research skills and share in the excitement of acquiring new knowledge and in the discovery process of science. Participating faculty members post their project descriptions for the following summer and fall/winter sessions in early February and students are invited to apply in early March. See Experiential and International Opportunities for more details.

Prerequisites: Completion of 8.0 credits and 1.0 credit of PSY at 200-level and last AGPA of 3.0 or above.

Exclusions: PSY399Y1

Course Experience: University-Based Experience

Distribution Requirements: Science

Mode of Delivery: In Class

PSY399Y5 • Research Opportunity Program

This course provides third year undergraduate students who have developed an understanding of psychological research methods with an opportunity to participate in the research program of a faculty member in return for course credit. Enrolled students will have the opportunity to become involved in original research, enhance their research skills and share in the excitement of acquiring new knowledge and in the discovery process of science. Participating faculty members post their project descriptions for the following summer and fall/winter sessions in early February and students are invited to apply in early March. See Experiential and International Opportunities for more details.

Prerequisites: Completion of 8.0 FCE and 1.0 200-level credit in Psychology and last AGPA of 3.0 or above.

Exclusions: PSY399Y1

Distribution Requirements: Science

Mode of Delivery: In Class

PSY400Y5 • Thesis

Independent research supervised by individual faculty members. Seminars on general topics relevant to the conduct of independent research, student research proposals, and the presentation of findings. To register in the course, students must obtain approval from a faculty supervisor, and apply for and obtain approval from Department of Psychology (see the Psychology department website for details). Advanced-level students who do not meet the stated course prerequisites but who possess relevant research experience may be admitted at the discretion of the course instructor. In addition to the seminar component, students complete at least 72 hours of research in the laboratory of their supervisor. **Note:** Entry to the course is competitive. Satisfaction of minimum requirements does not guarantee admission to the course.

Prerequisites: PSY202H (or equivalent) and at least 0.5 credits in advanced laboratory or research courses in Psychology at the 300 or 400 level (e.g., PSY courses ending in "9" at the 300 or 400 level, and PSY403) and last AGPA of 3.2 (varies from year to year and is rarely below 3.4).

Exclusions: PSY400Y1 or PSYD98Y3

Course Experience: University-Based Experience

Distribution Requirements: Science

Total Instructional Hours: 72S

Mode of Delivery: In Class

PSY401H5 • Knowledge Translation: Delivering Scientific Discovery to the Real-World

As a science, psychology investigates why and how humans and nonhuman animals feel, think, and behave in the ways they do. Our discoveries can be harnessed for societal good when the insights gained from psychological research are communicated accurately to the public. In this course, students will participate in seminars to learn to communicate effectively about scientific discoveries and engage in the process of knowledge translation. Students will also work with a Psychology faculty supervisor to create and deliver knowledge translation products. **Note:** To register in the course, students must obtain approval from a faculty supervisor, and apply for and obtain approval from the Department of Psychology (see the Psychology department website for details).

Prerequisites: 1.0 credits in 300-level psychology courses. Commitment from a faculty supervisor via application process.

Distribution Requirements: Science

Total Instructional Hours: 36S
Mode of Delivery: In Class

PSY402H5 • Roots of Psychology: A history of the field from the 19th century to the present day

Where did the field of psychology come from, and where is it going? In this course we will explore these questions through the lens of theoretical frameworks, experimental methods, ideas that have (or have not) endured, recent advances, and promising new directions.

Prerequisites: 1.0 credit of PSY at 300 level
Distribution Requirements: Science
Total Instructional Hours: 36S
Mode of Delivery: In Class

PSY403H5 • Individual Project

Independent research on a specific aspect of human or animal behaviour. Students arrange for a Faculty supervisor during the preceding term.

Prerequisites: PSY201H5 equivalent and 1.0 credit of PSY at 300-level and minimum last AGPA of 3.0 or above
Course Experience: University-Based Experience
Distribution Requirements: Science
Mode of Delivery: In Class

PSY404H5 • Individual Project

Independent research on a specific aspect of human or animal behaviour. Students arrange for a Faculty supervisor during the preceding term.

Prerequisites: PSY201H5 (or equivalent) and 1.0 credit of PSY at the 300-level and minimum last AGPA of 3.0
Course Experience: University-Based Experience
Distribution Requirements: Science
Mode of Delivery: In Class

PSY405H5 • Individual Project

Independent research on a specific aspect of human or animal behaviour. Students arrange for a Faculty supervisor during the preceding term.

Prerequisites: PSY201H5 (or equivalent) and 1.0 credit of PSY at the 300-level and minimum last AGPA of 3.0
Course Experience: University-Based Experience
Distribution Requirements: Science
Mode of Delivery: In Class

PSY406H5 • Individual Project

Independent research on a specific aspect of human or animal behaviour. Students arrange for a Faculty supervisor during the preceding term.

Prerequisites: PSY201H5 (or equivalent) and 1.0 credit of PSY at the 300-level and minimum last AGPA of 3.0
Course Experience: University-Based Experience
Distribution Requirements: Science
Mode of Delivery: In Class

PSY410H5 • Special Topics in Developmental Psychology

In depth examination of selected topics in developmental psychology. Topics change periodically. The contact hours for this course may vary in terms of contact type (L, S, T, P) from year to year, but will always be 36 hours in total. See the UTM Timetable.

Prerequisites: PSY210H5 and 1.0 credit from (PSY311H5 or PSY312H5 or PSY315H5 or PSY316H5 or PSY317H5 or PSY318H5 or PSY319H5 or PSY341H5 or PSY345H5 or PSY442Y5)
Exclusions: PSY410H1 or PSYD22H3
Distribution Requirements: Science
Total Instructional Hours: 36S
Mode of Delivery: In Class

PSY415H5 • Special Topics in Adult Development and Aging

In depth examination of selected topics in adult development and aging. Topics change periodically. The contact hours for this course may vary in terms of contact type (L, S, T, P) from year to year, but will always be 36 hours in total. See the UTM Timetable.

Prerequisites: PSY313H5 and 1.0 credit from (PSY311H5 or PSY312H5 or PSY316H5 or PSY319H5 or PSY320H5 or PSY321H5 or PSY325H5 or PSY343H5 or PSY333H5 or PSY340H5 or PSY345H5 or PSY374H5 or PSY442Y5)
Exclusions: PSY417H1
Distribution Requirements: Science
Total Instructional Hours: 36S
Mode of Delivery: In Class

PSY420H5 • Special Topics in Social Psychology

In depth examination of selected topics in social psychology. Topics change periodically. The contact hours for this course may vary in terms of contact type (L, S, T, P) from year to year, but will always be 36 hours in total. See the UTM Timetable.

Prerequisites: PSY220H5 and 1.0 credit from (PSY311H5 or PSY319H5 or PSY320H5 or PSY321H5 or PSY325H5 or PSY329H5 or PSY343H5 or PSY333H5 or PSY340H5 or PSY341H5)

Exclusions: PSY420H1 or PSYD12H3 or PSYD15H3 or PSYD16H3

Distribution Requirements: Science

Total Instructional Hours: 36S

Mode of Delivery: In Class

PSY424H5 • Special Topics in Well-Being

In depth examination of selected topics in well-being. Topics change periodically. The contact hours for this course may vary in terms of contact type (L, S, T, P) from year to year, but will always be 36 hours in total. See the UTM Timetable.

Prerequisites: PSY320H5 or PSY321H5 or PSY324H5 or PSY325H5 or PSY327H5 or PSY331H5 or PSY343H5 or PSY340H5 or PSY333H5 or PSY341H5 or PSY344H5 or PSY345H5 or PSY346H5 or PSY442Y5

Distribution Requirements: Science

Total Instructional Hours: 36S

Mode of Delivery: In Class

PSY430H5 • Special Topics in Personality

In depth examination of selected topics in personality. Topics change periodically. The contact hours for this course may vary in terms of contact type (L, S, T, P) from year to year, but will always be 36 hours in total. See the UTM Timetable.

Prerequisites: (PSY220H5 or PSY230H5) and 1.0 credit from (PSY311H5 or PSY320H5 or PSY321H5 or PSY324H5 or PSY325H5 or PSY327H5 or PSY331H5 or PSY333H5)

Exclusions: PSY430H1 or (PSYD30H3 or PSYD32H3)

Distribution Requirements: Science

Total Instructional Hours: 36S

Mode of Delivery: In Class

PSY440H5 • Special Topics in Abnormal Psychology

In depth examination of selected topics in abnormal psychology. Topics change periodically. The contact hours for this course may vary in terms of contact type (L, S, T, P) from year to year, but will always be 36 hours in total. See the UTM Timetable.

Prerequisites: PSY340H5 and one of (PSY320H5 or PSY321H5 or PSY331H5 or PSY343H5 or PSY333H5 or PSY341H5 or PSY344H5 or PSY345H5 or PSY346H5 or PSY442Y5)

Exclusions: PSY440H1 or PSYD33H3

Distribution Requirements: Science

Total Instructional Hours: 36S

Mode of Delivery: In Class

PSY442Y5 • Practicum in Exceptionality in Human Learning

Seminar and practicum on issues relating to the life-long development of individuals with disabilities. Seminar at UTM; practicum involves supervised placements in schools or social service agencies (80 hours). Course is required for students enrolled in the Exceptionality in Human Learning Specialist program and is available to Psychology Specialists, Majors and Minors on a competitive basis. Course fulfills the 400-level seminar requirement for the Psychology Specialist Program. Admission by academic merit. Interested students should submit an application to the Psychology office by mid-April. Application procedures:

<http://www.utm.utoronto.ca/psychology/undergraduate-studies/course-info...>

Prerequisites: 10.0 credits including PSY210H5 and 1.0 credit of PSY at the 300 level

Exclusions: PSY345H5

Course Experience: Partnership-Based Experience

Distribution Requirements: Science

Total Instructional Hours: 72S

Mode of Delivery: In Class

PSY471H5 • Special Topics in Cognition

In-depth examination of selected topics in cognition. Topics change periodically. The contact hours for this course may vary in terms of contact type (L, S, T, P) from year to year, but will always be 36 hours in total. See the UTM Timetable.

Prerequisites: PSY270H5 and 1.0 credit from (PSY312H5 or PSY315H5 or PSY360H5 or PSY362H5 or PSY372H5 or PSY374H5 or PSY379H5 or PSY393H5 or PSY397H5)

Exclusions: PSY471H1 or PSYD50H3

Distribution Requirements: Science

Total Instructional Hours: 36S

Mode of Delivery: In Class

PSY474H5 • Special Topics in Human Communication

In-depth examination of selected topics in the psychology of human communication. Topics change periodically. The contact hours for this course may vary in terms of contact type (L, S, T, P) from year to year, but will always be 36 hours in total. See the UTM Timetable.

Prerequisites: 1.0 300 level credit in Psychology including (PSY315H5 or PSY374H5) and one of (PSY312H5 or PSY315H5 or PSY316H5 or PSY319H5 or PSY374H5 or PSY379H5 or PSY384H5)

Distribution Requirements: Science
Total Instructional Hours: 36S
Mode of Delivery: In Class

PSY480H5 • Special Topics in Perception

In-depth examination of selected topics in perception. Topics change periodically. The contact hours for this course may vary in terms of contact type (L, S, T, P) from year to year, but will always be 36 hours in total. See the UTM Timetable.

Prerequisites: PSY280H5 and 1.0 300 level credit in Psychology
Exclusions: PSY480H1 or PSYD51H3
Distribution Requirements: Science
Total Instructional Hours: 36S
Mode of Delivery: In Class

PSY490H5 • Advanced Topics in Neuroscience

In depth examination of selected topics in biological psychology. (Topics change periodically.)

Prerequisites: (PSY270H5 or PSY290H5) and 1.0 credit from (PSY346H5 or PSY351H5 PSY352H5 or PSY353H5 or PSY354H5 or PSY355H5 or PSY362H5 or PSY369H5 or PSY372H5 or PSY391H5 or PSY392H5 or PSY393H5 PSY395H5 or PSY397H5 or PSY398H5 or BIO304H5).
Exclusions: PSY490H1 or PSYD66H3
Distribution Requirements: Science
Total Instructional Hours: 36S
Mode of Delivery: In Class

PSY495H5 • Special Topics in Neuropsychology

In depth examination of selected topics in neuropsychology. Topics change periodically. The contact hours for this course may vary in terms of contact type (L, S, T, P) from year to year, but will always be 36 hours in total. See the UTM Timetable.

Prerequisites: PSY290H5 and 1.0 credit from (PSY315H5 or PSY318H5 or PSY346H5 or PSY362H5 or PSY372H5 or PSY374H5 or PSY379H5 or PSY393H5 or PSY397H5)
Distribution Requirements: Science
Total Instructional Hours: 36S
Mode of Delivery: In Class

PSY499H5 • Research Opportunity Program

This course provides a rewarding opportunity for students in their fourth year to undertake relatively advanced work

in the research project of a faculty member in return for PSY499H course credit. Participating faculty members post their project descriptions for the following summer and fall/winter sessions in early February and students are invited to apply in early March. See Experiential and International Opportunities for more details.

Prerequisites: Completion of 13.0 FCE and 1.0 300-level credit in Psychology and minimum last AGPA of 3.0 or above.
Distribution Requirements: Science
Mode of Delivery: In Class

PSY499Y5 • Research Opportunity Program

This course provides a rewarding opportunity for students in their fourth year to undertake advanced work in the research project of a faculty member in return for PSY499Y5 course credit. Participating faculty members post their project descriptions for the following summer and fall/winter sessions in early February and students are invited to apply in early March. See Experiential and International Opportunities for more details.

Prerequisites: Completion of 13.0 credits and 1.0 300-level credit in Psychology and minimum last AGPA of 3.0 or above.
Course Experience: University-Based Experience
Distribution Requirements: Science
Mode of Delivery: In Class

Sociologists study how families work; how individuals change over the life course; how norms and laws are made, broken, enforced, and changed; how inequalities of gender, class, and race emerge, continue, and change; how cities, regions, nations, and international institutions work as organized sets of relationships; how power is exercised and resisted; how individuals, groups, and organizations communicate or fail to communicate; how cultural meanings relate to patterned social relationships; and more. Sociology thus creates theories about a broad range of human activity. Sociologists study these questions in two complementary ways. First, they gather data about large numbers of individuals to discover patterns of behaviour and interpret them through statistical analysis. Second, they gather in-depth data by interviewing and observing individuals and groups, and interpret these data through qualitative methods.

The Department offers Specialist, Major, and Minor programs in Sociology, and Specialist and Major programs in Criminology, Law and Society.

Students may select from a variety of special areas of interest in their Specialist or Major programs. They may also consult with the department for other combinations of courses such as those emphasizing Canadian society, interpersonal relations, or research methods.

A degree in Sociology leads to careers in social policy, government, education, health, public opinion research, community and social services, non-governmental, cooperative, business and non-profit organizations, criminology and corrections, industrial and labour relations, evaluation research, and environment.

Students should also review the [Degree Requirements](#) section prior to selecting courses

Sociology Programs

Sociology - Specialist (Arts)

Enrolment Requirements:

Limited Enrolment - Space in the Specialist Program in Sociology is limited. To be considered for enrolment, students must meet the following minimum criteria. **Meeting the minimum requirements does not guarantee admission.**

For students applying in 2022-2023 for program entry in the 2023-2024 Academic Year

1. **Registration Status:** Current enrolment in the Sociology Major program.
2. **Credits:** A minimum of 8.0 credits.
3. **Prerequisite Courses:** [SOC100H5](#) and [SOC221H5](#) and [SOC222H5](#) and [SOC231H5](#) with a minimum average of 73% across all courses.
4. **Cumulative Grade Point Average (CGPA):** The Department of Sociology determines the minimum CGPA annually in relation to the number of applicants. It is never below 2.00.

For students applying in 2023-2024 (and beyond) for program entry in the 2024-2025 Academic Year (and beyond):

1. **Registration Status:** Current enrolment in the Sociology Major program.
2. **Credits:** A minimum of 8.0 credits.
3. **Prerequisite Courses:** [SOC100H5](#) and [SOC221H5](#) and [SOC222H5](#) and [SOC231H5](#) and [ISP100H5](#) with a minimum average of 73% across all courses.

4. **Cumulative Grade Point Average (CGPA):** The Department of Sociology determines the minimum CGPA annually in relation to the number of applicants. It is never below 2.00.

Completion Requirements:

10.0-10.5 credits are required.

First Year:

- SOC100H5
- *For students entering the program in 2024-2025 (and beyond):* ISP100H5

Higher Years:

- SOC221H5 and SOC222H5 and SOC231H5
- SOC350H5 and SOC387H5 and SOC439Y5
- 5.0 credits of SOC, of which 3.0 credits must be at the 300/400-level
- 1.0 credit from SOC230H5 or SOC299H5 or SOC299Y5 or SOC382H5 or SOC399H5 or SOC399Y5 or SOC401H5 or SOC403H5 or SOC406H5 or SOC410H5 or SOC411H5 or SOC412H5 or SOC413H5 or SOC414H5 or SOC415H5 or SOC416H5 or SOC417H5 or SOC418H5 or SOC419H5 or SOC420H5 or SOC421H5 or SOC423H5 or SOC440Y5 or SOC450H5 or SOC452H5 or SOC456H5 or SOC467H5 or SOC480Y5 or SOC485H5 or SOC499H5 or SOC499Y5

Note:

Students are not permitted to take any of the following courses elsewhere:

1. SOC100H5
2. SOC109H5
3. SOC205H5
4. SOC221H5
5. SOC222H5
6. SOC231H5
7. SOC350H5
8. SOC387H5
9. SOC440Y5

If any of the above credits are completed outside of UTM, students will be required to complete the UTM version of the course and it will be designated as an EXT course. Special consideration may be given to new students assessed for transfer credit at UTM.

ERSPE1013

Sociology - Major (Arts)

Enrolment Requirements:

Limited Enrolment: Space in the Major program in Sociology is limited. To be considered for enrolment, students must meet the following minimum criteria. **Meeting the minimum requirements does not guarantee admission.**

For students applying in 2022-2023 for program entry in the 2023-2024 Academic Year:

1. **Credits:** A minimum of 4.0 credits.

2. **Prerequisite Course(s):** Students must have a final mark of at least 67% in SOC100H5 OR a final mark of at least 70% in each of two 0.5 credit SOC courses at the 200 level or above.
3. **Cumulative Grade Point Average (CGPA):** The Department of Sociology determines the minimum CGPA annually in relation to the number of applicants. It is never below 2.00.

For students applying in 2023-2024 (and beyond) for program entry in the 2024-2025 Academic Year (and beyond):

1. **Credits:** A minimum of 4.0 credits.
2. **Prerequisite Course(s):** Students must have a final mark of at least 67% in SOC100H5 OR a final mark of at least 70% in each of two 0.5 credit SOC courses at the 200 level or above.
3. **ISP100H5**
4. **Cumulative Grade Point Average (CGPA):** The Department of Sociology determines the minimum CGPA annually in relation to the number of applicants. It is never below 2.00.

Completion Requirements:

7.0-7.5 credits are required.

First Year:

- SOC100H5
- *For students entering the program in 2024-2025 (and beyond):* ISP100H5

Higher Years:

- SOC221H5 and SOC222H5 and SOC231H5
- 1.0 credit of SOC at the 300 level
- 1.0 credit of SOC at the 400 level
- 1.0 credit of SOC at the 300/400 level
- 2.0 credits of SOC

Note:

Students are not permitted to take any of the following courses elsewhere:

1.
 1. SOC100H5
 2. SOC109H5
 3. SOC205H5
 4. SOC221H5
 5. SOC222H5
 6. SOC231H5
 7. SOC350H5
 8. SOC387H5
 9. SOC440Y5

If any of the above credits are completed outside of UTM, students will be required to complete the UTM version of the course and it will be designated as an EXT course. Special consideration may be given to new students assessed for transfer credit at UTM.

ERMAJ1013

Sociology - Minor (Arts)

Enrolment Requirements:

Limited Enrolment: — Admission is based on the following criteria:

1. **Credits:** Students must have a minimum of 4.0 credits.
2. **Prerequisite Course(s):** Students must have a minimum final mark of 65% in SOC100H5, OR a final mark of 67% in each of two 0.5 credit SOC courses at the 200 level or above.
3. **Cumulative Grade Point Average (CGPA):** The Department of Sociology determines the CGPA requirement each admission period in relation to the number of applicants and it is never below 2.00.

Note: Meeting the minimum requirements does not guarantee admission.

Completion Requirements:

4.0 credits in Sociology are required.

Year 1

- SOC100H5

Year 2

- 2.5 SOC credits at the 200 level

Year 3

- 1.0 SOC credit at the 300 level

Note:

Students are not permitted to take any of the following courses elsewhere:

1. SOC100H5
2. SOC109H5

If any of the above credits are completed outside of UTM, students will be required to complete the UTM version of the course and it will be designated as an EXT course. Special consideration may be given to new students assessed for transfer credit at UTM.

ERMIN1013

Sociology Courses

SOC100H5 • Introduction to Sociology

An introduction to the conceptual and empirical foundations of the discipline intended on providing a foundation for subsequent Sociology and Criminology,

Law and Society courses and programs. Students will learn the sociological approach of theory and inquiry to a range of topics.

Exclusions: SOC100H1 or SOC101Y1 or SOC102H1 or SOC103H1 or SOCA01H3 or SOCA02H3 or SOCA03Y3

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC109H5 • Introduction to Criminology, Law & Society

This course provides an introduction to the overlapping areas of “criminology” and “law and society” within the Criminology, Law & Society (CLS) stream. The goal of the course is to provide a sociological foundation for subsequent CLS courses. In addition to a criminological/socio-legal introduction to theory and methods, topics may include law, inequality, intersectionality, legal institutions, legal professions, crime, criminal justice, and punishment.

Note: This course is required for Criminology, Law and Society Major and Specialist programs.

Exclusions: SOC209H5

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC202H5 • Cultural Sociology

This course introduces students to the field of cultural sociology, which seeks to understand how ideas, meanings, values and beliefs are created, and how they are also implicated in foundational sociological issues such as inequality, identity, social change, and social organization. These linkages are examined through topics such as popular culture, the mass media, science, religion, art, language, knowledge, public opinion, food, advertising and consumerism.

Prerequisites: SOC100H5

Exclusions: SOC280H1 or SOCB58H3

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC205H5 • Theories in Criminology

This course will cover major theoretical paradigms in the field of criminology included, among others, classical, positivist, strain, control, social learning, critical, feminist, postmodern and critical race theories. Students are required to take this course upon entry to the Criminology, Law and Society Major and Specialist programs.

Prerequisites: SOC100H5 and (SOC109H5 or SOC209H5)

Distribution Requirements: Social Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

SOC206H5 • Introduction to the Sociology of Genocide

This lecture course will lead students through an in-depth consideration of why genocides occur.

Prerequisites: SOC100H5

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC208H5 • Crime and Organizations

An analysis of the intersection between crime and organizations. This course introduces students to various organizational theories and examines crime by organizations, crime within organizations, and crime that is "organized."

Prerequisites: SOC100H5 and (SOC109H5 or SOC209H5)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC210H5 • Canadian Criminal Justice

This course provides an introduction to sociological and criminological analyses of crime, law, and the operation of the Canadian criminal justice system, with emphasis on how law and criminal justice are shaped by social, political and economic considerations. It will also consider how social identities such as race, class and gender influence individuals' perceptions of, and experiences in, the Canadian criminal justice system.

Prerequisites: SOC100H5 and SOC109H5

Exclusions: CRI205H1 or CRI210H1 or SOC209H5

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC211H5 • Law and Social Control

This course investigates the role of law in shaping social norms and regulating behavior.

Prerequisites: SOC100H5 and (SOC109H5 or SOC209H5)

Exclusions: SOC212H1 or SOCB50H3 or SOCB51H3

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC216H5 • Sociology of Law

Major theoretical and substantive debates in the sociology of law. How race, gender and social inequality shape legal institutions, the law and the broader social context.

Prerequisites: SOC100H5 and (SOC109H5 or SOC209H5)

Exclusions: CRI215H1

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC219H5 • Gender and Crime

This course explores how masculinity and femininity shape and are shaped by offending, violence, and victimization. Possible topics may include the gender gap in crime, intersectionality, gender diversity, victimless crimes, survival crimes, gender-based violence, and missing and murdered Indigenous women.

Prerequisites: SOC100H5 and (SOC109H5 or SOC209H5)

Exclusions: CRI380H1 or SOC365H5 Special Topics in Criminology: Gender, Violence and Offending (Fall 2019 and Winter 2020)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC221H5 • The Logic of Social Inquiry

Logic of Social Inquiry compares the logic of quantitative and qualitative research. Key topics include the relationship between theory and research, conceptualization and measurement of sociological concepts and sampling strategies in the quantitative and qualitative traditions. Students are introduced to a range of data collection methods. Students are required to take this course upon entry to the Sociology and Criminology, Law and Society Major and Specialist programs.

Prerequisites: SOC100H5

Exclusions: SOC200H1 or SOCB05H3 or SOC150H1 or SOC204H1

Distribution Requirements: Social Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

SOC222H5 • Measuring the Social World

This course addresses how we are able to measure social concepts such as social characteristics, social attitudes, and social actions. Descriptive statistics and their presentation in tables and graphs will be presented in some detail. A very basic introduction to inferential statistics and sampling will also be presented. Students are required to take this course upon entry to the Sociology and Criminology, Law and Society Major and Specialist programs.

Prerequisites: SOC100H5

Exclusions: SOC202H1

Distribution Requirements: Social Science

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

SOC224H5 • Sociology of Education

This course examines what some of our key sociological thinkers have said about the role of education in society, from socialization to sorting students into different opportunities, including along the lines of race, class and gender. The course also covers the development of the education system in Canada, the career of teaching, curriculum development, and standardized testing. Students will have the opportunity to apply sociological insights to contemporary issues in education.

Prerequisites: SOC100H5

Exclusions: SOCB26H3

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC227H5 • Sociology of Work and Occupations

This course covers work and post-industrialization in Canada today. It considers labour force participation, and social differences and inequalities across different groups, including gender, class, and ethnicity/race. It also examines managerial cultures and styles, and workers' responses and resistance to managerial control.

Prerequisites: SOC100H5

Exclusions: SOC207H1 or SOCB54H3

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC228H5 • Introduction to Indigenous Studies

This survey course introduces students to the interdisciplinary field of Indigenous Studies. Students will explore the themes, theories and methods of the discipline, and develop a foundational knowledge about Indigenous history, peoples, cultures and societies in Canada.

Prerequisites: 0.5 SSC credit

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC230H5 • Thinking Like a Sociologist

This course builds on SOC100H5 through a deep engagement with 4-5 significant new publications in Sociology, typically books by department faculty and visiting scholars. By developing reading and writing skills

through a variety of assignments, including reflections, and experiential learning in classroom debates and simulations with the researchers who produced the publications, students will learn to "think like a sociologist". Possible topics covered include race/ethnicity, gender, work, immigration, political sociology, cultural sociology, and criminology, as well as other major subfields within the discipline.

Prerequisites: [SOC100H5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC231H5 • Classical Sociological Theory

This course presents a discussion and analysis of classical sociological theory including such luminaries as Marx, Durkheim, Weber and Dubois among others. Students are required to take this course upon entry to the Sociology Major and Specialist programs and the Criminology, Law and Society Specialist program.

Prerequisites: [SOC100H5](#)

Exclusions: [SOC201H1](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC236H5 • Globalization

How do individuals relate to the complex and over-used concept of "globalization"? This course will explore major theories and controversies in the field of globalization scholarship, looking at the phenomena from the perspective of global capitalists, anti-globalization social movements, consumers, states, and citizens. Students will critically evaluate common claims made about globalization, and acquire tools to assess the validity of competing perspectives.

Prerequisites: [SOC100H5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC239H5 • Sociology of Health and Illness

This course examines the social causes of illness and disease, the sociology of illness experience, and the sociology of risks to health. The course addresses only peripherally issues related to formal health care provision, health care work, and the structure of health care systems.

Prerequisites: [SOC100H5](#)

Exclusions: [SOC243H1](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC240H5 • Introduction to Social Policy

This course will examine how human needs are met by states. It focuses on the sociological, political and economic forces that help create new policies and reshape existing social policies. The course will provide a survey of welfare state policies, economic policies and family policies. It will also focus on the outcomes of social policy as these affect various constituencies and social groups such as the economically underprivileged and disadvantaged, racial and ethnic minority groups, and people with disabilities.

Prerequisites: [SOC100H5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC244H5 • Sociology of Families

The development and variation in contemporary families will be presented. Topics may include cross-cultural comparisons, the impact of legal, economic and political factors as well as change in the meaning of the term "family".

Prerequisites: [SOC100H5](#)

Exclusions: [SOC214H1](#) or [SOCB49H3](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC253H5 • Social History of Race and Ethnicity

This course examines how ideas about "race" and "ethnicity" evolved and became institutionalized on a global scale, as well as systems of exploitation, exclusion and inequality that have given rise to today's patterns of racial and ethnic inequality in the world. We focus on examples from different regions of the world, as well as examine large-scale historical events such as colonialism, slavery and immigration.

Prerequisites: [SOC100H5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC263H5 • Social Inequality

Examines the causes, prevalence and manifestations of social, political and economic inequalities, internationally and within Canada. The effects of gender, age, ethnicity-

race, among other characteristics, are carefully analyzed in Canada and cross-culturally.

Prerequisites: SOC100H5

Exclusions: SOC363H5 or SOC220H1 or SOCB47H3

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC275H5 • Sociology of Gender

This course introduces students to the sociology of gender showing how gender is a relationship of power that structures our everyday lives from intimate relationships through global political and economic forces. We will focus on gender and gender differences as produced in historically and locally specific ways where gender differences intersect with those of race, ethnicity, class, religion, sexuality and other structures of inequality.

Prerequisites: SOC100H5

Exclusions: SOC265H1 or SOCB22H3 or SOCC24H3

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC299H5 • Research Opportunity Program

This course provides a richly rewarding opportunity for students in their second year to work in the research project of a professor in return for SOC299H5 course credit. Students enrolled have an opportunity to become involved in original research, learn research methods and share in the excitement and discovery of acquiring new knowledge. Participating faculty members post their project descriptions for the following summer and fall/winter sessions in early February and students are invited to apply in early March. See Experiential and International Opportunities for more details.

Prerequisites: SOC100H5 and 2nd Year Standing and permission of instructor

Exclusions: Students may not take SOC299H5 and SOC299Y5 concurrently.

Distribution Requirements: Social Science

Mode of Delivery: In Class

SOC299Y5 • Research Opportunity Program

This course provides a richly rewarding opportunity for students in their second year to work in the research project of a professor in return for SOC299Y5 course credit. Students enrolled have an opportunity to become involved in original research, learn research methods and share in the excitement and discovery of acquiring new knowledge. Participating faculty members post their project descriptions for the following summer and fall/winter sessions in early February and students are

invited to apply in early March. See Experiential and International Opportunities for more details.

Prerequisites: SOC100H5 and 2nd Year Standing and permission of instructor

Exclusions: Students may not take SOC299H5 and SOC299Y5 concurrently.

Distribution Requirements: Social Science

Mode of Delivery: In Class

SOC301H5 • Canadian Prisons

This course will examine trends and approaches within the correctional system in Canada. It will explore the historical and contemporary context of correctional practices. Attention will be paid to the differential impact of Canadian corrections on Aboriginal people and other minority groups.

Prerequisites: (SOC109H5 or SOC209H5) and (SOC205H5 or SOC231H5) and SOC221H5 and SOC222H5

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC302H5 • Indigenous-Canada Relations

This course analyzes Indigenous-Canada relations. Topics may include nationhood, diplomatic relations, trade, military relationships, assimilation/civilization policy, land claims, self-government, and/or education.

Prerequisites: 1.0 SSC credit

Exclusions: SOC345H5 (Fall 2018)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC303H5 • White-collar and Corporate Crime

This course explores the individual, organizational, and ecological dimensions of white-collar and corporate crime. Topics generally include financial and environmental crime, workplace safety, and organizational deviance. As well, the social, political, and criminal justice responses to these crimes will be examined.

Prerequisites: (SOC109H5 or SOC209H5) and (SOC205H5 or SOC231H5) and SOC221H5 and SOC222H5

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC304H5 • Environmental Sociology

This course focuses on human-nature interactions, and the social processes that modify and threaten the natural world. Students develop a better understanding of environmental issues, the interrelationship between social problems and environmental problems, as well as the ways that humans themselves are part of nature.

Prerequisites: SOC100H5 and 1.0 SSC credit at the 200-level

Exclusions: SOC336H5S Special Topics in Sociology: Environmental Sociology (Winter 2020)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC305H5 • Asian Canada and Asian Diaspora

The course will introduce students to the core and cutting-edge sociological and interdisciplinary scholarship on Asian Canada and Asian diaspora from transnational perspectives. We will examine the history of Asian migration to North America on the context of colonialism, the Cold War, and capitalist development, as well as the experiences of various Asian immigrant communities in the contemporary era.

Prerequisites: (SOC205H5 or SOC231H5) and SOC221H5 and SOC222H5

Recommended Preparation: 200-level course on race and ethnicity

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC306H5 • Education and Social Control

This course explores the intersections of education and social control. In particular, we focus on moments when social control is evident in schooling, including how that control is used on some populations more than others. Topics include zero-tolerance policies, police/security presence in schools, education programming in prison, and the school-to-prison pipeline.

Prerequisites: (SOC205H5 or SOC231H5) and SOC221H5 and SOC222H5

Recommended Preparation: SOC224H5

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC308H5 • Law and Crime in Asia and Asian Diasporas

This course introduces students to the core and cutting-edge sociological and interdisciplinary scholarship on law and crime in Asia and Asian diasporas across the world. It examines major topics in criminology, law and society in various Asian contexts (e.g., legal consciousness, legal pluralism, dispute resolution, policing, rights mobilization, etc.), as well as the experiences of Asian immigrant communities with legal and criminal justice systems.

Prerequisites: (SOC109H5 or SOC209H5) and (SOC205H5 or SOC231H5) and SOC221H5 and SOC222H5

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC309H5 • Sociology of Mass Communication

This course examines the theories, methods, and findings of sociological studies of media production, content, and reception. The focus is on understanding how communication theories are adjudicated by empirical findings. Topics include race and gender in the media, bias in the news, media ownership, the film industry, and the role of the media in politics.

Prerequisites: (SOC205H5 or SOC231H5) and SOC221H5 and SOC222H5

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC310H5 • Youth Justice

The youth criminal justice system in Canada. Topics include historical and contemporary shifts in the youth justice system, young offender legislation, public perceptions and media representations of juvenile delinquency, current research and theories on youth crime and crime prevention strategies. Particular attention is paid to the treatment of specific groups.

Prerequisites: (SOC109H5 or SOC209H5) and (SOC205H5 or SOC231H5) and SOC221H5 and SOC222H5

Exclusions: CRI370H1 or SOC310H1

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC311H5 • Special Topics in Law

This course will provide an in-depth exploration of a specific topic in law. Topics vary from year to year and are noted on the timetable once confirmed. The contact hours for this course may vary in terms of contact type (L,S,T,P)

from year to year, but will be between 24-36 contact hours in total. See the UTM Timetable.

Prerequisites: ([SOC109H5](#) or [SOC209H5](#)) and ([SOC205H5](#) or [SOC231H5](#)) and [SOC221H5](#) and [SOC222H5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC312H5 • Law, Race and Racism

The course investigates the relationship between law, race, and racism and the societal implications. Students will gain a stronger understanding of how law creates race for the purposes of legitimating and perpetuating racism and the ways that law can, under some conditions, generate social change that reduces racial inequality.

Prerequisites: ([SOC109H5](#) or [SOC209H5](#)) and ([SOC205H5](#) or [SOC231H5](#)) and [SOC221H5](#) and [SOC222H5](#)

Exclusions: SOC311H5S Special Topics in Law: Law, Race and Racism (Winter 2020)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC316H5 • Crime Prevention and Security

The growth of political, economic, community and academic interest in crime prevention and security. How segments of society or particular physical sites are constructed as security risks in need of regulation. The regulation of security, including crime prevention, community safety, risk reduction and surveillance. These issues are then examined in relation to specific empirical developments such as private policing, restorative justice, community policing and gated communities.

Prerequisites: ([SOC109H5](#) or [SOC209H5](#)) and ([SOC205H5](#) or [SOC231H5](#)) and [SOC221H5](#) and [SOC222H5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC317H5 • Shopping and Society

This course provides an overview of the Sociology of Consumption. The study of consumption provides an entry point for examining the intersection between culture, economics, and the environment. Potential topics include the following: the shopping experience, consumption as status, the environmental impact of consumerism, fashion cycles, and identity construction through consumption.

Prerequisites: [SOC100H5](#) and 1.0 SOC credit at the 200 level.

Recommended Preparation: [SOC202H5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC318H5 • Sociology of Mental Health and Mental Disorders

An overview of the link between social inequality and inequality in distress, focusing on differences in mental health across social groups and the role of stress and coping resources in explaining group differences.

Prerequisites: ([SOC205H5](#) or [SOC231H5](#)) and [SOC221H5](#) and [SOC222H5](#)

Exclusions: [SOC363H1](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC320H5 • Criminal Justice Organizations

This course uses organizational theory to examine major criminal justice institutions--including police, courts, and prisons. It examines the role of organizational goals, structure, resources, legitimacy, culture, and front-line workers in shaping organization-level decisions about policy and practice. It also examines the interactions, mutual influence, and competition between government, interest groups, and criminal justice institutions that help to initiate and sustain field-wide change.

Prerequisites: ([SOC109H5](#) or [SOC209H5](#)) and ([SOC205H5](#) or [SOC231H5](#)) and [SOC221H5](#) and [SOC222H5](#)

Exclusions: [SOC300H5](#) Special Topics in Criminology: Criminal Justice Organizations (Fall 2016, Winter 2017)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC321H5 • Law & Rights

This course investigates the promise and limitations of rights as a legal framework to safeguard citizens and residents of Canada and abroad. Topics include the framing and implementation of novel rights claims, the relationship between formal rights and social norms, and the impact of rights frameworks on civic and community ties.

Prerequisites: ([SOC109H5](#) or [SOC209H5](#)) and ([SOC205H5](#) or [SOC231H5](#)) and [SOC221H5](#) and [SOC222H5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC322H5 • Criminal Justice and Inequality

This course examines the intersections between social inequality and the criminal justice system in Canada and internationally. The course will explore the impact of practices and policies on race, class, gender and other forms of social inequality.

Prerequisites: (SOC109H5 or SOC209H5) and (SOC205H5 or SOC231H5) and SOC221H5 and SOC222H5

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC323H5 • Law, Culture and Social Problems

This course explores contemporary social problems related to law with an emphasis on cultural dynamics such as perception, group and community culture, stereotyping, and meaning-making. Topics covered may include law in everyday life, gun carrying by gun owners, workplace discrimination lawsuits, the #MeToo movement, and the Canadian government's marginalization of Indigenous legal orders.

Prerequisites: (SOC109H5 or SOC209H5) and (SOC205H5 or SOC231H5) and SOC221H5 and SOC222H5

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC324H5 • Carceral Feminisms: Race, Gender and State Violence

This course explores how different strains of feminism shape practices of punishment. Course topics may include: intersectional debates in the regulation of domestic violence, gender-responsive policing, state regulation of gender-based violence, and prison abolition theory and praxis.

Prerequisites: (SOC109H5 or SOC209H5) and (SOC205H5 or SOC231H5) and SOC221H5 and SOC222H5

Exclusions: SOC447H5S (Winter 2019)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC325H5 • Law and Social Theory

This course examines the writings on law-related topics in classical and contemporary social theories. At the intersection between socio-legal studies and sociological theory, the course traces how different generations of

social theorists approach law, from classical theorists such as Montesquieu, Tocqueville, Marx, Durkheim, and Weber to contemporary socio-legal theorists across the world.

Prerequisites: (SOC205H5 or SOC231H5) and SOC221H5 and SOC222H5

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC326H5 • Policing

This course will examine the nature of policing, its structure and function. Attention is given to the theoretical analyses of policing, the history of policing and to its public and private forms. The course will focus on the objectives and domain, as well as the strategies, powers, and authority of contemporary policing; including decision-making, wrong-doing, accountability, and the decentralization of policing.

Prerequisites: (SOC109H5 or SOC209H5) and (SOC205H5 or SOC231H5) and SOC221H5 and SOC222H5

Exclusions: CRI335H1 or SOCC11H3

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC327H5 • Drugs and the Modern World

The course examines how "drugs", as well as attempts to police and control their use, have been implicated in the making of the modern world. Instead of taking drugs as inherently criminal and deviant, the course will look at how drugs have played a central role in the development of capitalism, colonialism and global inequality in the past 200 years.

Prerequisites: (SOC109H5 or SOC209H5) and (SOC205H5 or SOC231H5) and SOC221H5 and SOC222H5

Exclusions: SOC300H5 (Winter 2019)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC328H5 • Drugs in the City

This course will explore illegal urban drug markets in Canada and the United States. Specifically, it will focus on how urban drug markets and drug use are influenced by drug cycles, moral panics, the economy, and criminal justice policy. Moreover, it will sociologically analyze the business practices, subcultures, and gendered interactions of drug market participants.

Prerequisites: ([SOC109H5](#) or [SOC209H5](#)) and ([SOC205H5](#) or [SOC231H5](#)) and [SOC221H5](#) and [SOC222H5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC329H5 • Law & Social Movements

This course focuses on how popular movements and legal institutions influence efforts to produce or prevent social change. Taking a comparative approach, it examines the social conditions that mobilize and sustain popular movements, factors that contribute to movement success, and the receptivity of courts to pressure from below.

Prerequisites: ([SOC109H5](#) or [SOC209H5](#)) and ([SOC205H5](#) or [SOC231H5](#)) and [SOC221H5](#) and [SOC222H5](#)

Exclusions: [SOC446H5](#) Advanced Topics in Criminology, Law and Society: Law and Social Movements (Winter 2020)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC330H5 • Criminology and Immigration

This course examines the intersection between immigration and crime control. More specifically, it examines immigration detention and deportation, concerns with immigrant risk, security and terrorism, as well as the impact of public policy on immigration and crime.

Prerequisites: ([SOC109H5](#) or [SOC209H5](#)) and ([SOC205H5](#) or [SOC231H5](#)) and [SOC221H5](#) and [SOC222H5](#)

Exclusions: [CRI383H1](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC331H5 • Gender and Criminal Justice

This course explores how gender impacts criminalization and how gender shapes the way criminal justice is conceptualized and delivered. Possible topics may include masculinity & criminalization; gender & policing; gender & court outcomes; women's prisons, and trans issues in prisons.

Prerequisites: ([SOC109H5](#) or [SOC209H5](#)) and ([SOC205H5](#) or [SOC231H5](#)) and [SOC221H5](#) and [SOC222H5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC332H5 • Race and Ethnicity in Canada

This course deals with the social construction of racial and ethnic categories in the Canadian context, as well as with how Canadian institutions have used racial and ethnic categories to generate inequality and exclusion. It also addresses how individuals, social movements and institutions have at times worked to resist, challenge or modify these practices of categorization and exclusion.

Prerequisites: ([SOC205H5](#) or [SOC231H5](#)) and [SOC221H5](#) and [SOC222H5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC333H5 • Criminal Groups and Organizations

An analysis of the intersection between criminal groups and crime and organizations. This course introduces students to various organizational theories and examines how criminal groups and organizations form, crime by organizations, and crime that is "organized".

Prerequisites: ([SOC109H5](#) or [SOC209H5](#)) and ([SOC205H5](#) or [SOC231H5](#)) and [SOC221H5](#) and [SOC222H5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC334H5 • Aging and Society

This course will examine (1) theoretical and empirical issues regarding demographic, economic, and social processes of aging as they affect individuals, families, and societies; (2) the variations in the process and meaning of aging across gender, ethnicity, and class; and (3) public policy issues concerning aging with regard to the process of public policy-making and effectiveness of relevant programs and services.

Prerequisites: ([SOC205H5](#) or [SOC231H5](#)) and [SOC221H5](#) and [SOC222H5](#)

Exclusions: [SOC246H1](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC335H5 • Political Sociology

This course will introduce students to the classic and contemporary view of political processes in small groups, organizations, institutions, communities and societies. Specific topics to be covered may include revolutions, state formation, ethnic nationalism, social capital and civic participation, gender politics, the various varieties, causes

and effects of welfare states and social movements. The course will have both a Canadian and international focus.

Prerequisites: ([SOC205H5](#) or [SOC231H5](#)) and [SOC221H5](#) and [SOC222H5](#)

Exclusions: [SOC260H1](#) or [SOCC39H3](#) or [SOCB30H3](#)

Recommended Preparation: [SOC263H5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC336H5 • Special Topics in Sociology

This course explores a particular area within sociology. Topics vary from year to year and are noted on the timetable once confirmed. The contact hours for this course may vary in terms of contact type (L,S,T,P) from year to year, but will be between 24-36 contact hours in total. See the UTM Timetable.

Prerequisites: ([SOC205H5](#) or [SOC231H5](#)) and [SOC221H5](#) and [SOC222H5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC337H5 • Special Topics in Criminology, Law and Society

This course will explore a particular area within criminology, law and society. Topics vary from year to year and are noted on the timetable once confirmed. The contact hours for this course may vary in terms of contact type (L,S,T,P) from year to year, but will be between 24-36 contact hours in total. See the UTM Timetable.

Prerequisites: ([SOC109H5](#) or [SOC209H5](#)) and ([SOC205H5](#) or [SOC231H5](#)) and [SOC221H5](#) and [SOC222H5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC338H5 • Legal Developments in Criminology

This course will survey new legal developments in the field of criminology and criminal law. It will explore the intersections between criminal law and other forms of regulation in society.

Prerequisites: ([SOC109H5](#) or [SOC209H5](#)) and ([SOC205H5](#) or [SOC231H5](#)) and [SOC221H5](#) and [SOC222H5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC339H5 • The Indian Act: Canadian Law, Sovereignty and Indigenous Womxn

In discussions about Indigenous Peoples and law, the Indian Act is one of the most cited pieces of Canadian legislation. From explaining the history of residential schooling to violence against Indigenous womxn, critical and Indigenous scholars turn to the Indian Act as a key source and problem space. We will center the work of Indigenous feminist scholarship to understand why scholars argue that the act is still both required and a site of contestation, violence, and genocide, and how we are each affected by its governance.

Prerequisites: 1.0 SSC credit

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC340H5 • Social Change

Understanding social transformation is at the heart of sociological inquiry. This course introduces students to the sociological analysis of social change - particularly how societies evolve into complex systems. The course examines how social, political and economic institutions are transformed by social change, as well as how these institutions can themselves promote social change. We also examine how citizens can affect change through social and political participation. In addition to classical foundations, the course covers a range of contemporary themes including inequality and stratification, social movements, globalization, and law and justice.

Prerequisites: ([SOC205H5](#) or [SOC231H5](#)) and [SOC221H5](#) and [SOC222H5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC341H5 • Contemporary Issues in the Sociology of Work

This course will focus on key changes in the world of work since the 1970s and their implications for different groups. We will engage different sides of debates about such issues as women in the workforce, recent immigrant and migrant workers, unions and mobility. Throughout the course, emphasis will be placed on how class, gender, ethnic and race relations shape work and occupations.

Prerequisites: ([SOC205H5](#) or [SOC231H5](#)) and [SOC221H5](#) and [SOC222H5](#)

Exclusions: [SOCC15H3](#)

Recommended Preparation: [SOC227H5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC342H5 • Sociology of Scandals

This course takes up scandals as sociological events: What are the causes of scandals? How are scandals 'made'? How are scandals represented? and What are the consequences of scandals? The course will pay attention to how scandals are made public: Leaks, investigations, whistleblowers, and media reporting, and the framing of events as scandals worth of public condemnation. To do so, this course will focus on scandals among professionals, in the private corporate sector and in government, domestically and worldwide, both current and past. By understanding scandals as sociological events, students will learn to trace how scandals may lead to new organizational, professional, social, cultural, and political responses.

Prerequisites: SOC100H5 and 1.0 SOC credit at the 200 level

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC343H5 • Urban Sociology

The course will introduce students to the core and cutting-edge scholarship in urban sociology. We will discuss theories and empirical studies related to the issue of urban politics, including the issues of food, housing, gentrification, and neighborhood change. Despite the focus on Canadian and American cities, this course also highlights global and transnational perspectives, such as immigrant experiences, "ethnic" restaurants, and forces of globalization that are intricately tied to urban lives. This course aims to open this discussion about how we connect the micro-level of our social interactions, consumption, and daily lives to macro-levels of progress, global economic forces, politics and culture.

Prerequisites: (SOC205H5 or SOC231H5) and SOC221H5 and SOC222H5

Exclusions: SOC205H1 or SOCB44H3

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC344H5 • Sociological Approaches to Social Psychology

This course provides an overview of sociological approaches to social psychology, with an emphasis on how individuals' thoughts, behaviors, and emotions are influenced by both situations and larger social structures. Theoretical perspectives including symbolic interaction, group processes, and social structure and personality will be examined in depth and applied to understanding various topics; these may include self and identities, socialization, attitudes, emotions, deviance, mental health, and collective behavior.

Prerequisites: (SOC205H5 or SOC231H5) and SOC221H5 and SOC222H5

Exclusions: SOC213H1

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC345H5 • Special Topics in Sociology

This course explores a particular area within sociology. Topics vary from year to year and are noted on the timetable once confirmed. The contact hours for this course may vary in terms of contact type (L,S,T,P) from year to year, but will be between 24-36 contact hours in total. See the UTM Timetable.

Prerequisites: (SOC205H5 or SOC231H5) and SOC221H5 and SOC222H5

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC346H5 • Special Topics in Criminology, Law and Society

This course will explore a particular area within criminology, law and society. Topics vary from year to year and are noted on the timetable once confirmed. The contact hours for this course may vary in terms of contact type (L,S,T,P) from year to year, but will be between 24-36 contact hours in total. See the UTM Timetable.

Prerequisites: (SOC109H5 or SOC209H5) and (SOC205H5 or SOC231H5) and SOC221H5 and SOC222H5

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC347H5 • Sociology of Masculinities

In this course students will engage with foundational material on the intersections of gender, sex, and sexuality as they relate to masculinity. This includes foundational work on hegemonic masculinity and multiple masculinities.

Prerequisites: (SOC205H5 or SOC231H5) and SOC221H5 and SOC222H5

Exclusions: SOC345H5 Special Topics in Sociology: Sociology of Masculinities (Winter 2017)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC348H5 • Indigenous Rights, Resistance, and Resurgence

This course explores Indigenous people's confrontations with colonization through an examination of rights-based processes, resistance movements, and community-led resurgence efforts. Topics may include: rights, courts, and legal action; land reoccupation; political organizing; everyday acts of resistance and resurgence such as petitioning, social media, arts-based movements, and community initiatives.

Prerequisites: 1.0 SSC credit

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC349H5 • Sociology of Food

Sociological analysis of food in global, regional and intimate contexts. It links cultural and structural aspects of the food system, historically and in the present. Students will investigate and report on inter-cultural food practices in Canada.

Prerequisites: (SOC205H5 or SOC231H5) and SOC221H5 and SOC222H5

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC350H5 • Quantitative Analysis

The course is a continuation of SOC222H5 (Measuring the Social World)) and introduces students to more advanced applications of regression analysis. In addition to producing and interpreting regression models, this course also focuses on diagnostic tools for addressing outliers and multicollinearity, as well as regression with categorical independent variables and dependent variables (including a basic introduction to logistic regression). This course is mainly project based. Students will develop their own research questions and hypotheses and use statistical software to analyze data in order to provide evidence for their hypotheses. All students in the Sociology and Criminology, Law and Society Specialist programs are required to take this course.

Prerequisites: (SOC205H5 or SOC231H5) and SOC221H5 and SOC222H5

Exclusions: SOC300H1 or SOC252H1

Distribution Requirements: Social Science, Science

Total Instructional Hours: 24L/11P

Mode of Delivery: In Class

SOC351H5 • Politics and Violence: Spot the Difference

This course aims to develop a critical approach to the study of violence. We will examine the linkages between

politics and crime, between violence and democracy and the political context of specific forms of violence, such as vigilantism, state, collective and, structural violence.

Prerequisites: (SOC109H5 or SOC209H5) and (SOC205H5 or SOC231H5) and SOC221H5 and SOC222H5

Exclusions: SOC346H5 Special Topics in Crime and Law: Politics and Violence: Spot the Difference (Fall 2017, Winter 2018)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC352H5 • Gender and Care

This course will examine how gender shapes the work of care, and its value in society. It will look at both unpaid and paid care and the relationship between them. It will compare how care is organized and its value in different countries, and institutions (ranging from hospitals to homes) and consider care provided to children, elderly people and adults with disabilities. Contemporary topics include care from the recipient's perspective, and new efforts to value care work.

Prerequisites: SOC100H5 and 1.0 SOC/WGS credit at the 200 level

Recommended Preparation: SOC263H5 or SOC275H5 or WGS200Y5

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC353H5 • Borders and Human Rights

This course focuses on the legal construction of international borders, with an emphasis on human rights. The course investigates a range of issues, including but not limited to, the 1951 Refugee Convention and refugee movements, the limits of citizenship rights, and the merging of criminal justice and migration enforcement, including the use of detention as a migration management tool.

Prerequisites: (SOC109H5 or SOC209H5) and (SOC205H5 or SOC231H5) and SOC221H5 and SOC222H5

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC354H5 • Global Sociology

Approaches to transnational networks, structures and processes, such as diasporic networks, transnational corporations, and social movements.

Prerequisites: (SOC205H5 or SOC231H5) and SOC221H5 and SOC222H5

Distribution Requirements: Social Science
Total Instructional Hours: 24L
Mode of Delivery: In Class

SOC355H5 • Sociology of the Professions

Becoming a professional (doctor, accountant, lawyer, engineer, nurse, etc...) remains a coveted goal for many young adults and their parents. But what is a profession, and what do these disparate groups have in common? This course lays the groundwork for understanding how the "professional projects" define professions, limit entry, create internal inequalities and try to maintain their prestige. The role of policy is key to our understanding of the professions, and we will focus on the role of policies in the creation of professions, in the substance of professional work such as ethics, autonomy and commercialism, and on the role of policies in addressing social concerns of inequality and diversity in the professions.

Prerequisites: ([SOC205H5](#) or [SOC231H5](#)) and [SOC221H5](#) and [SOC222H5](#)
Distribution Requirements: Social Science
Total Instructional Hours: 24L
Mode of Delivery: In Class

SOC356H5 • Population and Society

This course will discuss interrelationship between human population and societal issues such as aging, reproductive health, gender, environment, and social policy. It will examine population structure and dynamics in relation to social, economic, political, and cultural elements of change in both developing and developed world. It will also examine historical population policy developments and the diversified national policies in relation to policy formulation, implementation, and effectiveness.

Prerequisites: [SOC100H5](#) and 1.0 SOC credit at the 200 level
Exclusions: [SOC312H1](#) or [SOC325H1](#)
Distribution Requirements: Social Science
Total Instructional Hours: 24L
Mode of Delivery: In Class

SOC357H5 • The Legal Profession

This course introduces the legal profession from a sociological perspective. Focussing on the social structure of the legal profession, the course draws on the sociology of professions and the sociology of law and covers topics such as the creation of the profession, competition from inside and outside, historical and modern challenges to professional boundaries, and structural transformations and shifts. The course will provide examples from global legal professions. It does not teach how to think like a lawyer, nor does it provide the perspective of legal practitioners, but instead it provides social science

perspectives for understanding how the legal profession is organized, differentiated, and transformed over space and time.

Prerequisites: ([SOC109H5](#) or [SOC209H5](#)) and ([SOC205H5](#) or [SOC231H5](#)) and [SOC221H5](#) and [SOC222H5](#)

Distribution Requirements: Social Science
Total Instructional Hours: 24L
Mode of Delivery: In Class

SOC358H5 • Indigenous People: Legal Orders and Law

This course examines Indigenous people's traditional and contemporary legal orders and confrontations and interactions with non-Indigenous legal systems. Topics may include: treaties; land and resource rights and laws; rights; self-government; governance; restorative justice; colonial legal systems; criminalization and criminal law; and/or international law.

Prerequisites: 1.0 SSC credit
Distribution Requirements: Social Science
Total Instructional Hours: 24L
Mode of Delivery: In Class

SOC359H5 • Gendered Identities

This course will focus on the production of gendered selves, femininity and masculinity, sexuality and sexual identities. We will draw from theoretical and empirical work in the sociology of gender and related disciplines, emphasizing the ways in which gender intersects with class, ethnicity, race, religion and other forces of difference in the production of identities.

Prerequisites: ([SOC205H5](#) or [SOC231H5](#)) and [SOC221H5](#) and [SOC222H5](#)
Recommended Preparation: [SOC263H5](#) or [SOC275H5](#) or [WGS200Y5](#)
Distribution Requirements: Social Science
Total Instructional Hours: 24L
Mode of Delivery: In Class

SOC361H5 • Sociology of Organizations

This course examines the structure and culture of organizations, including the range of management cultures, and how relationships among unions, management, and employees are affected by the social structure and culture of both the employer and the union as organizations.

Prerequisites: [SOC100H5](#) and 1.0 SOC credit at the 200 level
Recommended Preparation: [SOC227H5](#)
Distribution Requirements: Social Science
Total Instructional Hours: 24L
Mode of Delivery: In Class

SOC362H5 • Sex, Gender and Work

This course will look at the situation faced by women in the workplace and workforce, and the implications for male employees. We will focus on classic and current research, theory and debates about sex segregation in jobs and occupations, the wage and earnings gap, and access to and exercise of authority by women in management positions.

Prerequisites: ([SOC205H5](#) or [SOC231H5](#)) and [SOC221H5](#) and [SOC222H5](#)

Exclusions: [SOCC09H3](#)

Recommended Preparation: [SOC227H5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC363H5 • Sexuality and Crime

This course focuses on the socio-legal origins, regulations, and consequences of sexuality, reproduction, and sexual violence. Possible topics may include historical and contemporary sexual and reproductive regulations, sexual violence, sex offenders, sex work, pornography, trafficking, and hate crimes against sexual minorities.

Prerequisites: ([SOC109H5](#) or [SOC209H5](#)) and ([SOC205H5](#) or [SOC231H5](#)) and [SOC221H5](#) and [SOC222H5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC364H5 • New Directions in Social Inequality

This course reviews current ways of viewing and researching social inequality. Particular attention will be paid to how foundational work on social inequality connects to contemporary patterns, especially as demonstrated through current research.

Prerequisites: ([SOC205H5](#) or [SOC231H5](#)) and [SOC221H5](#) and [SOC222H5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC365H5 • Special Topics in Criminology

This course will explore a particular area within criminology. Topics vary from year to year and are noted on the timetable once confirmed. The contact hours for this course may vary in terms of contact type (L,S,T,P)

from year to year, but will be between 24-36 contact hours in total. See the UTM Timetable.

Prerequisites: ([SOC109H5](#) or [SOC209H5](#)) and ([SOC205H5](#) or [SOC231H5](#)) and [SOC221H5](#) and [SOC222H5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC366H5 • Special Topics in Criminology

This course will explore a particular area within criminology. Topics vary from year to year and are noted on the timetable once confirmed. The contact hours for this course may vary in terms of contact type (L,S,T,P) from year to year, but will be between 24-36 contact hours in total. See the UTM Timetable.

Prerequisites: ([SOC109H5](#) or [SOC209H5](#)) and ([SOC205H5](#) or [SOC231H5](#)) and [SOC221H5](#) and [SOC222H5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC371H5 • Sociology of Punishment

Punishment cannot be analyzed outside of its historical, cultural, economic, political and social context. This course offers students a critical, multidisciplinary approach to the study of punishment in Canadian society.

Prerequisites: ([SOC109H5](#) or [SOC209H5](#)) and ([SOC205H5](#) or [SOC231H5](#)) and [SOC221H5](#) and [SOC222H5](#)

Exclusions: [CRI340H1](#) or [SOC413H1](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC373H5 • Economic Sociology

How is the worth of an item determined? What do financial crises reveal about social life? How do financial traders make decisions? Economic questions, and facts, are inherently sociological. This course teaches you to connect the economy to society by examining a range of phenomena that are more readily related to the economy, such as financial crises, CEO compensation, Silicon Valley innovation, markets and firms, but also those that are not, such as love, art, doormen, the organs of dead bodies, and nature. This course will emphasize how economic transactions create, legitimate, and transform social relations, how economic behaviour needs to be understood within its social context, and how economic principles permeate aspects of social life that seem to resist or lie outside of the economic realm.

Prerequisites: ([SOC205H5](#) or [SOC231H5](#)) and [SOC221H5](#) and [SOC222H5](#)

Exclusions: [SOC323H1](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC375H5 • Sociology of International Migration

This course will analyze the forces that cause people to leave the country of their birth. We will look at why some countries become predominantly leaving countries, and other immigrant receiving countries. Possible topics include the politics of integration, multiple citizenships, refugee and settlement policies, the development of transnational social spaces and transnational governance structures. Attention will also be given to the dynamics of race, ethnicity, class, and gender in structuring international growth.

Prerequisites: ([SOC205H5](#) or [SOC231H5](#)) and [SOC221H5](#) and [SOC222H5](#)

Exclusions: [SOC311H1](#) or [SOC342H1](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC378H5 • Law, Crime and Justice

This course draws on case law to explore a particular area within law and justice. Topics will vary from year to year.

Prerequisites: ([SOC109H5](#) or [SOC209H5](#)) and ([SOC205H5](#) or [SOC231H5](#)) and [SOC221H5](#) and [SOC222H5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC379H5 • Criminology, Urban Life, and Social Policy

The city is an important site of human interaction, characterized by crisis and promise. Through the lens of the city, this course will examine the nature of various social problems, including their causes and impacts. In particular, we will consider how criminological scholarship can analyze and inform policy responses to these issues. Course topics will include a diverse array of issues related to criminalization, youth justice, neighbourhood-level inequality, violence, and the criminal justice system.

Prerequisites: ([SOC205H5](#) or [SOC231H5](#)) and [SOC221H5](#) and [SOC222H5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC380H5 • Gender, Politics and Society

This course analyzes the social structural forces that produce gender and the ways in which gender affects political and social change. Possible topics include: migration, social movements, social policy and the welfare state, and globalization. We will also pay special attention to the ways in which gender intersects with class, ethnicity, race, religion and other forces of difference.

Prerequisites: ([SOC205H5](#) or [SOC231H5](#)) and [SOC221H5](#) and [SOC222H5](#)

Recommended Preparation: [SOC263H5](#) or [SOC275H5](#) or [WGS200Y5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC382H5 • Genocide and Memory

This research-based course will engage students with the following two questions: Why does genocide happen? How do we construct, present, and maintain our memories of these terrible social phenomena? Students will spend the first part of the course learning about the sociology of genocide. Students will also be exposed to general theories of culture and the social construction of memory, and will be trained in qualitative methods, with a focus on basic field observation and field note writing. Students will take this knowledge and training into the field, using a sociological lens to look at genocide museums and memorials, and the people who visit them. The course will culminate in a final project based on the students' observations and analysis during one of several course field trips. The specific cultural and historical sites for the course will vary from year to year. As part of this course, students may have the option of participating in an international learning experience that will have an additional cost and application process. An interview may be required, with priority going to UTM Sociology and Criminology Majors and Specialists.

International Component: International - Optional

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC384H5 • Media Ethics and Policy: Controversies in Mass Communication

This course examines conflicts and controversies in the media. The goal of the course is to analyze power struggles within the realm of the media in order to understand how they both reflect and can reinforce broader social inequalities. Special emphasis is paid to the role of media policies and regulations. Topics include censorship, violence, pornography, marketing, social media and privacy.

Prerequisites: ([SOC205H5](#) or [SOC231H5](#)) and [SOC221H5](#) and [SOC222H5](#)

Recommended Preparation: [SOC202H5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC387H5 • Qualitative Analysis

This course surveys various qualitative methods sociologists use. Students gain insight into the craft of sociology through reading examples of the different qualitative methods, discussing the theories behind the methods, conducting hands-on research exercises and analyzing qualitative data. The objective of this course is to learn to design and conduct a qualitative research project and to analyze qualitative sociological data. All students in the Sociology and Criminology, Law and Society Specialist programs are required to take this course.

Prerequisites: ([SOC205H5](#) or [SOC231H5](#)) and [SOC221H5](#) and [SOC222H5](#)

Exclusions: [SOC302H1](#) or [SOC204H1](#) or [SOCC23H3](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L/10P

Mode of Delivery: In Class

SOC388H5 • Race and Indigeneity

This course examines how the concept of race, and the ideologies that inform it, impacts identity politics for Indigenous peoples. Special attention will be paid to the socio-cultural and legal effects of racialized knowledge production. Topics may include: human genome projects, museums, recognition politics, legal definitions, criminalization, access to resources, stereotypes and personhood.

Prerequisites: 1.0 SSC credit

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC391H5 • Independent Research in Sociology

This course is intended for Sociology Specialists and Majors who wish to explore a specific Sociology topic in depth. To enrol, a student must prepare a proposal form in consultation with a faculty supervisor and submit the approved form to the academic counsellor. Note: Professors have discretion whether to take on an independent study; they are not required to serve as faculty supervisors.

Prerequisites: [SOC221H5](#) and [SOC222H5](#) and [SOC231H5](#) and 3rd Year Standing and permission of instructor

Exclusions: Students may take a maximum of 1.0 credits

of independent studies.

Distribution Requirements: Social Science

Mode of Delivery: In Class

SOC392H5 • Independent Research in Sociology

This course is intended for Sociology Specialists and Majors who wish to explore a specific Sociology topic in depth. To enrol, a student must prepare a proposal form in consultation with a faculty supervisor and submit the approved form to the academic counsellor.

Note: Professors have discretion whether to take on an independent study; they are not required to serve as faculty supervisors.

Prerequisites: [SOC221H5](#) and [SOC222H5](#) and [SOC231H5](#) and 3rd Year Standing and permission of instructor

Exclusions: Students may take a maximum of 1.0 credits of SOC independent studies.

Distribution Requirements: Social Science

Mode of Delivery: In Class

SOC393H5 • Independent Research in Criminology, Law and Society

This course is intended for Criminology, Law and Society Specialists and Majors who wish to explore a specific Criminology, Law and Society topic in depth. To enrol, a student must prepare a proposal form in consultation with a faculty supervisor and submit the approved form to the academic counsellor.

Note: Professors have discretion whether to take on an independent study; they are not required to serve as faculty supervisors.

Prerequisites: ([SOC109H5](#) or [SOC209H5](#)) and ([SOC205H5](#) or [SOC231H5](#)) and [SOC221H5](#) and [SOC222H5](#) and 3rd Year Standing and permission of instructor

Exclusions: Students may take a maximum of 1.0 credits of SOC independent studies.

Distribution Requirements: Social Science

Mode of Delivery: In Class

SOC394H5 • Independent Research in Criminology, Law and Society

This course is intended for Criminology, Law and Society Specialists and Majors who wish to explore a specific Criminology, Law and Society topic in depth. To enrol, a student must prepare a proposal form in consultation with a faculty supervisor and submit the approved form to the academic counsellor.

Note: Professors have discretion whether to accept students wishing to pursue an independent studies course; they are not required to serve as faculty supervisors.

Prerequisites: ([SOC109H5](#) or [SOC209H5](#)) and ([SOC205H5](#) or [SOC231H5](#)) and [SOC221H5](#) and [SOC222H5](#) and 3rd Year Standing and permission of instructor

Exclusions: Students may take a maximum of 1.0 credits of SOC independent studies.

Distribution Requirements: Social Science

Mode of Delivery: In Class

SOC399H5 • Research Opportunity Program

This course provides a richly rewarding opportunity for students in their third or fourth year to work in the research project of a professor in return for [SOC399H5](#) course credit. Students enrolled have an opportunity to become involved in original research, learn research methods and share in the excitement and discovery of acquiring new knowledge. Participating faculty members post their project descriptions for the following summer and fall/winter sessions in early February and students are invited to apply in early March. See [Experiential and International Opportunities](#) for more details.

Prerequisites: [SOC221H5](#) and [SOC222H5](#) and 3rd Year Standing and permission of instructor

Exclusions: Students may not take [SOC399H5](#) and [SOC399Y5](#) concurrently.

Distribution Requirements: Social Science

Mode of Delivery: In Class

SOC399Y5 • Research Opportunity Program

This course provides a richly rewarding opportunity for students in their third or fourth year to work in the research project of a professor in return for [SOC399Y5](#) course credit. Students enrolled have an opportunity to become involved in original research, learn research methods and share in the excitement and discovery of acquiring new knowledge. Participating faculty members post their project descriptions for the following summer and fall/winter sessions in early February and students are invited to apply in early March. See [Experiential and International Opportunities](#) for more details.

Prerequisites: [SOC221H5](#) and [SOC222H5](#) and 3rd Year Standing and permission of instructor

Exclusions: Students may not take [SOC399H5](#) and [SOC399Y5](#) concurrently.

Distribution Requirements: Social Science

Mode of Delivery: In Class

SOC401H5 • Doing Public Sociology

In this seminar course, students learn to communicate insights based in sociological research to a broader audience, beyond the university. Student design and execute projects (essays, creating a podcast or video, and/or public speaking) on sociological topics of their

choosing related to law and/or crime. The course also provides students with guidance on how to locate sociological research through library resources and how to incorporate that research into their public sociology projects. Priority may be given to Criminology, Law and Society students.

Prerequisites: ([SOC109H5](#) or [SOC209H5](#)) and ([SOC205H5](#) or [SOC231H5](#)) and [SOC221H5](#) and [SOC222H5](#) and 0.5 SOC credit at the 300 level and 4th Year Standing and permission of instructor

Exclusions: [SOC456H5](#) (Winter 2018)

Course Experience: University-Based Experience

Distribution Requirements: Social Science

Total Instructional Hours: 24S

Mode of Delivery: In Class

SOC402H5 • Understanding Human Action

This course addresses a fundamental question in the social sciences: "Why do people do what they do?" Readings and discussion focus on classic and current sociological approaches to understanding human action, giving attention to topics such as rational calculation, decisions, cultural processes, values, attitudes, identities, perception, interaction, situational influences, and automatic cognitive processing. A recurring theme is the tension between individual and situational explanations of behavior.

Prerequisites: ([SOC205H5](#) or [SOC231H5](#)) and [SOC221H5](#) and [SOC222H5](#) and 1.0 SOC credit at the 300 level

Recommended Preparation: [SOC350H5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC403H5 • Prisons, Punishment & Surveillance Across the Globe

This seminar course will focus on possible solutions for issues related to prisons, punishment and surveillance across the globe. Along with this surveillance you have a rise in prisons and other forms of state sponsored punishment.

Prerequisites: ([SOC109H5](#) or [SOC209H5](#)) and ([SOC205H5](#) or [SOC231H5](#)) and [SOC221H5](#) and [SOC222H5](#) and 0.5 SOC credit at the 300 level and 4th Year Standing and permission of instructor

Distribution Requirements: Social Science

Total Instructional Hours: 24S

Mode of Delivery: In Class

SOC404H5 • Special Topics in Social Policy

This lecture course will explore a particular area within Social Policy. Topics vary from year to year and are noted on the timetable once confirmed. The contact hours for this course may vary in terms of contact type (L,S,T,P) from year to year, but will be between 24-36 contact hours in total. See the UTM Timetable.

Prerequisites: (SOC205H5 or SOC231H5) and SOC221H5 and SOC222H5 and 1.0 SOC credit at the 300 level

Recommended Preparation: SOC240H5

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC405H5 • Surveillance in a Digital World

This course introduces students to theories of surveillance and risk in the digital era. The era of big data has given rise to smart policing, preventative security measures, and data driven solutions which are producing new knowledge about risk. It focuses on how surveillance is shifting institutional risk practices within law and criminal justice systems and how marginalized populations and particular geographical spaces are constructed as security risks.

Prerequisites: (SOC109H5 or SOC209H5) and (SOC205H5 or SOC231H5) and SOC221H5 and SOC222H5 and 0.5 SOC credit at the 300 level

Exclusions: SOC448H5 Advanced Topics in Criminology, Law and Society: Surveillance in a Digital World (Fall 2019)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC406H5 • Vigilantism on the Margins of the State

This seminar examines the social problem of “vigilantism”. It focuses on how the act is defined in terms of scholarly works on punishment and policing, as well as mainstream popular opinion. The course looks at questions such as how vigilantism manifests in different geographic spaces (e.g. the “global north” and the “global south”), in rich and poor areas, and in different historical periods.

Prerequisites: (SOC109H5 or SOC209H5) and (SOC205H5 or SOC231H5) and SOC221H5 and SOC222H5 and 0.5 SOC credit at the 300 level

Exclusions: SOC421H5S Senior Seminar in Criminology: Vigilantism on the Margins of the State (Winter 2020)

Distribution Requirements: Social Science

Total Instructional Hours: 24S

Mode of Delivery: In Class

SOC407H5 • Development and Social Change: The Case of China

This course introduces concepts, theories, and policies of development and underdevelopment. With China as a case, it focuses on social, economic, political, and cultural factors shaping the nature and meaning of social change.

Prerequisites: (SOC205H5 or SOC231H5) and SOC221H5 and SOC222H5 and 1.0 SOC credit at the 300 level

Exclusions: SOC444H5 Advanced Topics in Sociology: Contemporary Chinese Society (Fall 2017, Fall 2018, Fall 2019)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC408H5 • The Sociology of Anti-Muslim Racism

This reading-intensive course explores historical and contemporary manifestations of anti-Muslim racism through a transnational lens, while paying special attention to scholarship from and about Canada and the United States. Issues related to gender and sexuality, race, citizenship status, Orientalism, colonialism, and military intervention cut across the readings.

Prerequisites: (SOC205H5 or SOC231H5) and SOC221H5 and SOC222H5 and 1.0 SOC credit at the 300 level

Exclusions: SOC444H5 Advanced Topics in Sociology: The Sociology of Anti-Muslim Racism (Fall 2018, Winter 2020)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC409H5 • Masculinity and the Internet

In this course we will take an in-depth look at a number of topics related broadly to masculinity and the internet, including such things as the “manosphere”, incels, and representations of masculinity on social media. These topics will be examined through the lens of the sociological literature on gender and masculinities. A recurring theme relates to the questions: “Is masculinity changing?” Students will be encouraged to critically examine and evaluate these topics and the sociological literature in multiple ways.

Prerequisites: (SOC205H5 or SOC231H5) and SOC221H5 and SOC222H5 and 0.5 SOC credit at the 300 level

Distribution Requirements: Social Science

Total Instructional Hours: 24S

Mode of Delivery: In Class

SOC410H5 • Senior Seminar in Inequality

This course offers an in-depth examination of selected topics in the sociology of inequality.

Prerequisites: ([SOC205H5](#) or [SOC231H5](#)) and [SOC221H5](#) and [SOC222H5](#) and 1.0 SOC credit at the 300 level and 4th Year Standing and permission of instructor

Distribution Requirements: Social Science

Total Instructional Hours: 24S

Mode of Delivery: In Class

SOC411H5 • Senior Seminar in Social Institutions

This course offers an in-depth examination of selected topics in the sociology of social institutions.

Prerequisites: ([SOC205H5](#) or [SOC231H5](#)) and [SOC221H5](#) and [SOC222H5](#) and 1.0 SOC credit at the 300 level and 4th Year Standing and permission of instructor

Distribution Requirements: Social Science

Total Instructional Hours: 24S

Mode of Delivery: In Class

SOC412H5 • Senior Seminar in the Sociology of Work

This course offers an in-depth examination of selected topics in the sociology of work.

Prerequisites: ([SOC205H5](#) or [SOC231H5](#)) and [SOC221H5](#) and [SOC222H5](#) and 1.0 SOC credit at the 300 level and 4th Year Standing and permission of instructor

Recommended Preparation: [SOC227H5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24S

Mode of Delivery: In Class

SOC413H5 • Senior Seminar in the Sociology of Gender

This course offers an in-depth examination of selected topics in the sociology of gender.

Prerequisites: ([SOC205H5](#) or [SOC231H5](#)) and [SOC221H5](#) and [SOC222H5](#) and 1.0 SOC credit at the 300 level and 4th Year Standing and permission of instructor

Recommended Preparation: [SOC275H5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24S

Mode of Delivery: In Class

SOC414H5 • Senior Seminar in Political Sociology

This course offers an in-depth examination of selected topics in political sociology.

Prerequisites: ([SOC205H5](#) or [SOC231H5](#)) and [SOC221H5](#) and [SOC222H5](#) and 1.0 SOC credit at the 300 level and 4th Year Standing and permission of instructor

Recommended Preparation: [SOC335H5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24S

Mode of Delivery: In Class

SOC415H5 • Senior Seminar in Indigenous Studies

This course offers an in-depth examination of selected topics in Indigenous Studies.

Prerequisites: 1.0 SSC credit, including 0.5 credit at the 300-level

Distribution Requirements: Social Science

Total Instructional Hours: 24S

Mode of Delivery: In Class

SOC416H5 • Senior Seminar in the Sociology of Culture

This course offers an in-depth examination of selected topics in the sociology of culture.

Prerequisites: ([SOC205H5](#) or [SOC231H5](#)) and [SOC221H5](#) and [SOC222H5](#) and 1.0 SOC credit at the 300 level and 4th Year Standing and permission of instructor

Recommended Preparation: [SOC202H5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24S

Mode of Delivery: In Class

SOC417H5 • Senior Seminar in the Sociology of Globalization

This course offers an in-depth examination of selected topics in the sociology of globalization.

Prerequisites: ([SOC205H5](#) or [SOC231H5](#)) and [SOC221H5](#) and [SOC222H5](#) and 1.0 SOC credit at the 300-level and 4th Year Standing and permission of instructor

Recommended Preparation: [SOC236H5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24S

Mode of Delivery: In Class

SOC418H5 • Senior Seminar in the Sociology of Health

This course offers an in-depth examination of selected topics in the sociology of health.

Prerequisites: (SOC205H5 or SOC231H5) and SOC221H5 and SOC222H5 and 1.0 SOC credit at the 300 level and 4th Year Standing and permission of instructor

Distribution Requirements: Social Science

Total Instructional Hours: 24S

Mode of Delivery: In Class

SOC419H5 • Senior Seminar in Race and Ethnicity

This course offers an in-depth examination of selected topics in Race and Ethnicity.

Prerequisites: (SOC205H5 or SOC231H5) and SOC221H5 and SOC222H5 and 1.0 SOC credit at the 300 level and 4th Year Standing and permission of instructor

Distribution Requirements: Social Science

Total Instructional Hours: 24S

Mode of Delivery: In Class

SOC420H5 • Senior Seminar in Punishment

Restricted to Criminology, Law and Society Specialists and Majors. Topics vary from year to year and are noted on the timetable once confirmed.

Prerequisites: (SOC109H5 or SOC209H5) and (SOC205H5 or SOC231H5) and SOC221H5 and SOC222H5 and 0.5 SOC credit at the 300 level and 4th Year Standing and permission of instructor

Distribution Requirements: Social Science

Total Instructional Hours: 24S

Mode of Delivery: In Class

SOC421H5 • Senior Seminar in Criminology

Restricted to Criminology, Law and Society Specialists and Major. Topics vary from year to year and are noted on the timetable once confirmed.

Prerequisites: (SOC109H5 or SOC209H5) and (SOC205H5 or SOC231H5) and SOC221H5 and SOC222H5 and 0.5 SOC credit at the 300 level and 4th Year Standing and permission of instructor

Distribution Requirements: Social Science

Total Instructional Hours: 24S

Mode of Delivery: In Class

SOC422H5 • Sociology of the Body

The body is an inevitable part of our existence, but it has not always played a central role in sociology. This course aims to bring the body into sociology by drawing on multiple approaches to theorizing and researching the body as a fundamental element of social interactions. We will work to connect the body to power, social problems and diverse forms of exploitation, but we also examine how the body serves as a source of pleasure, joy, and resistance. Fundamentally, we will study the processes by which bodies are shaped, and in turn, shape our social life. Body topics that may be covered include, but are not limited to, the following: health and illness, fatness, fitness and sport, diet culture, taste, aging, disability, sexuality, beauty, cosmetic surgery, and eating disorders.

Prerequisites: SOC100H5 and (SOC205H5 or SOC231H5)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC423H5 • Identity Crime

This interactive course concentrates on identity theft and fraud. It provides a critical examination of definitions of, sociological explanations for, and responses to identity crime. Identity crime is examined in the broader context of privacy, national security and organized crime.

Prerequisites: (SOC109H5 or SOC209H5) and (SOC205H5 or SOC231H5) and SOC221H5 and SOC222H5 and 0.5 SOC credit at the 300 level.

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC424H5 • Law, Emotions and Justice

This course investigates emotional dynamics in law and justice. Topics will include public attitudes towards crime and punishment, the rights of victims in criminal proceedings, and restorative justice.

Prerequisites: (SOC109H5 or SOC209H5) and (SOC205H5 or SOC231H5) and SOC221H5 and SOC222H5 and 0.5 credit of SOC credit at the 300 level

Exclusions: SOC420H5 Senior Seminar in Punishment: Emotions and Punishment (Fall 2019)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC425H5 • Gender in Global Contexts

This lecture course looks at gender relations from a global perspective, focusing on how the social, political and economic aspects of globalization affect gender relations within various (local) contexts. Possible topics include

gender and international migration, women's activism in local/global perspective and post-colonialism.

Prerequisites: [\(SOC205H5 or SOC231H5\)](#) and [SOC221H5](#) and [SOC222H5](#) and 1.0 SOC credit at the 300 level

Recommended Preparation: [SOC263H5](#) or [SOC275H5](#) or [WGS200Y5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC426H5 • Social Theory and Third Cinema

This course is an exploration of the societies of Asia, Africa, and Latin America through films created by directors living and working in the Global South. Each week, we'll pair a social theory reading with a film made in the Global South to explore themes of colonialism, political economy, race, class, gender, power, and history.

Prerequisites: [SOC100H5](#) and ([SOC205H5](#) or [SOC231H5](#))

Distribution Requirements: Social Science

Total Instructional Hours: 24S

Mode of Delivery: In Class

SOC427H5 • Politics, Violence, Democracy and Human Rights in Latin America

This course examines the transnational, national and local historical, social and political contexts that produce, and is in turn affected by, criminal, state and other forms of violence in Latin America, and the challenges that this poses for the functioning of Latin American democracies and for the everyday life of people in the region, whose human and civil rights are frequently violated. Examples of transnational factors examined may include the legacies of the Cold War, the impact of the U.S. war on drugs, and the circulation of ideas about punishment throughout the hemisphere. We also contextualize the presence of violence into the historical and contemporary political and social realities of particular Latin American countries.

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC428H5 • Health, Disability, and Crisis

This course will apply sociological theories of inequality, health, and disability to contemporary problems associated with economic and health crises, including the COVID-19 pandemic. This course integrates both quantitative and qualitative methods across substantive

themes, providing an opportunity for students to link theories to data.

Prerequisites: [SOC221H5](#) and [SOC222H5](#)

Recommended Preparation: [SOC350H5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24S

Mode of Delivery: In Class

SOC429H5 • Disability, Politics and Society

This course situates disability within a social and political context. We focus on how disability serves as a basis for exclusion from social, legal, political and economic institutions as well as the ways in which actors (policymakers, activists, etc.) have sought to undermine this system of discrimination. We will investigate a variety of related themes including the "social model of disability," policy and judicial transformations, the evolution of the disability rights movement (including the use of legal mobilization), disability identity, intersectionality, and the future of disability politics and the law.

Prerequisites: ([SOC205H5](#) or [SOC231H5](#)) and [SOC221H5](#) and [SOC222H5](#) and 1.0 SOC credit at the 300 level

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC430H5 • Developments in Sociological Theory

This course presents a discussion and in-depth analysis of strands in contemporary sociological theory from the 1920s to the present day. Topics may include race and ethnicity, gender, class, post-colonial theory, queer theory, intersectionality, symbolic interactionism, new institutionalism, post-structuralism, and culture.

Prerequisites: ([SOC205H5](#) or [SOC231H5](#)) and [SOC221H5](#) and [SOC222H5](#) and 1.0 SOC credit at the 300-level

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC431H5 • Museums & Indigenous Peoples

This seminar in Indigenous Studies focuses on the evolving relationship between Indigenous peoples and museums. It explores changes to museum policy and practice, the repatriation of Indigenous bodies, objects, and knowledges, the development of Indigenous museums, and the contributions of Indigenous artists to a new museology.

Prerequisites: 1.0 SSC credit, including 0.5 credit at the 300-level

Distribution Requirements: Social Science

Total Instructional Hours: 24S

Mode of Delivery: In Class

SOC432H5 • Contemporary Issues in Genocide and State Violence

This advanced lecture course will provide students with the analytical tools necessary to engage in deep analysis of contemporary genocides and state violence.

Prerequisites: (SOC205H5 or SOC231H5) and SOC221H5 and SOC222H5 and SOC206H5 and 1.0 SOC credit at the 300 level.

Exclusions: SOC445H5 (Fall 2009, Winter 2010)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC433H5 • Power and Cultural Politics

This lecture course will ask students to engage with classic and contemporary views on power and its relation to the social bases of politics and social movements.

Prerequisites: (SOC205H5 or SOC231H5) and SOC221H5 and SOC222H5 and 1.0 SOC credit at the 300 level

Exclusions: SOC324H5

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC434H5 • Race, Class, Gender in the Global South

Three of the most fundamental cleavages in the contemporary world-economy are those between whites and people of colour, men and women, and capital and labour. This seminar course focuses on these cleavages and analyzes each through both an historical and global south perspective.

Prerequisites: (SOC205H5 or SOC231H5) and SOC221H5 and SOC222H5 and 1.0 SOC credit at the 300 level and 4th Year Standing and permission of instructor

Exclusions: SOC444H5 Advanced Topics in Sociology: Global Perspectives on Race, Class and Gender (Winter 2018)

Distribution Requirements: Social Science

Total Instructional Hours: 24S

Mode of Delivery: In Class

SOC435H5 • Sociology of Environmental Health

This course will examine environmental health with an emphasis on environmental justice, contested illness, and the politics of scientific knowledge production. We will study the politics of environmental health through case studies on activism in response to hazards, the tactics of corporate "product defense," and the challenges of policy response.

Prerequisites: SOC100H5 and (SOC205H5 or SOC231H5)

Distribution Requirements: Social Science

Total Instructional Hours: 24S

Mode of Delivery: In Class

SOC439Y5 • Research Project in Sociology

This is a seminar course where students engage in an independent research project supervised by a faculty member in Sociology. Students develop a research proposal, conduct independent research, analyze data and present findings. Admission by academic merit. Preference given to eligible Sociology Specialists.

Prerequisites: (SOC205H5 or SOC231H5) and SOC221H5 and SOC222H5 and 4th Year Standing and permission of instructor

Course Experience: University-Based Experience

Distribution Requirements: Social Science

Total Instructional Hours: 48S

Mode of Delivery: In Class

SOC440Y5 • Research Project in Criminology, Law and Society

This is a seminar course where students pursue advanced research supervised by a faculty member in Criminology, Law and Society. Students develop a research proposal, conduct independent research, analyze data and present findings. Admission by academic merit. Preference given to eligible Criminology, Law and Society Specialists.

Prerequisites: (SOC109H5 or SOC209H5) and (SOC205H5 or SOC231H5) and SOC221H5 and SOC222H5 and 4th Year Standing and permission of instructor

Course Experience: University-Based Experience

Distribution Requirements: Social Science

Total Instructional Hours: 48S

Mode of Delivery: In Class

SOC444H5 • Advanced Topics in Sociology

An in-depth examination of selected topics in Sociology. Topics vary from year to year and are noted on the

timetable once confirmed. The contact hours for this course may vary in terms of contact type (L,S,T,P) from year to year, but will be between 24-36 contact hours in total. See the UTM Timetable.

Prerequisites: ([SOC205H5](#) or [SOC231H5](#)) and [SOC221H5](#) and [SOC222H5](#) and 1.0 SOC credit at the 300 level

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC445H5 • Advanced Topics in Sociology

An in-depth examination of selected topics in Sociology. Topics vary from year to year and are noted on the timetable once confirmed. The contact hours for this course may vary in terms of contact type (L,S,T,P) from year to year, but will be between 24-36 contact hours in total. See the UTM Timetable.

Prerequisites: ([SOC205H5](#) or [SOC231H5](#)) and [SOC221H5](#) and [SOC222H5](#) and 1.0 SOC credit at the 300 level

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC446H5 • Advanced Topics in Criminology, Law and Society

An in-depth examination of selected topics in Criminology, Law and Society. Restricted to Criminology, Law and Society Specialists and Major. Topics vary from year to year and are noted on the timetable once confirmed. The contact hours for this course may vary in terms of contact type (L,S,T,P) from year to year, but will be between 24-36 contact hours in total. See the UTM Timetable.

Prerequisites: ([SOC109H5](#) or [SOC209H5](#)) and ([SOC205H5](#) or [SOC231H5](#)) and [SOC221H5](#) and [SOC222H5](#) and 0.5 SOC credit at the 300 level

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC447H5 • Advanced Topics in Criminology, Law and Society

An in-depth examination of selected topics in Criminology, Law and Society. Restricted to Criminology, Law and Society Specialists and Major. Topics vary from year to year and are noted on the timetable once confirmed. The contact hours for this course may vary in terms of contact type (L,S,T,P) from year to year, but will be between 24-36 contact hours in total. See the UTM Timetable.

Prerequisites: ([SOC109H5](#) or [SOC209H5](#)) and ([SOC205H5](#) or [SOC231H5](#)) and [SOC221H5](#) and [SOC222H5](#) and 0.5 SOC credit at the 300 level

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC448H5 • Advanced Topics in Criminology, Law and Society

An in-depth examination of selected topics in Criminology, Law and Society. Restricted to Criminology, Law and Society Specialists and Major. Topics vary from year to year and are noted on the timetable once confirmed. The contact hours for this course may vary in terms of contact type (L,S,T,P) from year to year, but will be between 24-36 contact hours in total. See the UTM Timetable.

Prerequisites: ([SOC109H5](#) or [SOC209H5](#)) and ([SOC205H5](#) or [SOC231H5](#)) and [SOC221H5](#) and [SOC222H5](#) and 0.5 SOC credit at the 300 level

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC450H5 • Walls to Bridges: Carceral Seminar

Based on the Walls to Bridges Program model, this seminar course matches a group of University of Toronto Mississauga students ("outside" students) with an approximately equal number of incarcerated students ("inside" students) who study together as peers at an off-campus setting. Topics vary from term to term. All class sessions are held inside the institution (e.g., penitentiary, detention centre, halfway house, etc.). Inside and outside students work together on small teams to develop and present a final project. Interested students should submit an application to the Department of Sociology (see website for details), and an interview may be required. Preference given to eligible Criminology, Law and Society Specialists and Majors. Note: Once students are accepted into this course a criminal record check (CPIC) may be required to access the offsite location for classes. Students are advised to schedule approximately seven hours for class time (to allow time sufficient time for travel, institution check-in and -out in addition to the seminar time).

Prerequisites: ([SOC109H5](#) or [SOC209H5](#)) and ([SOC205H5](#) or [SOC231H5](#)) and [SOC221H5](#) and [SOC222H5](#) and 4th Year Standing and permission of instructor

Course Experience: Partnership-Based Experience

Distribution Requirements: Social Science

Total Instructional Hours: 36S

Mode of Delivery: In Class

SOC452H5 • Contemporary Issues in Higher Education

This course explores the debates and discussions centered on a selection of contemporary issues in postsecondary education in Canada and elsewhere. This may include topics such as the massification and corporatization of higher education, the reliance on sessional labour for instruction, and trends towards credentialism. The course combines instructor- and student-led discussions and inquiry.

Prerequisites: (SOC205H5 or SOC231H5) and SOC221H5 and SOC222H5 and 1.0 SOC credit at the 300 level

Recommended Preparation: SOC224H5

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC454H5 • Sociology of the Global South

This course examines the causes and consequences of empire, imperialism, and colonization to help better understand contemporary inequalities across the globe. The first part of the course focuses on theories of the Global South and the second part of the course applies those theories to the practice of social science research.

Prerequisites: (SOC205H5 or SOC231H5) and SOC221H5 and SOC222H5 and 1.0 SOC credit at the 300 level

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC455H5 • Comparative Indigenous Politics

Using a comparative approach, this course explores the politics of Indigeneity in settler colonial contexts. It centers critical analyses of settler colonialism and decolonization, and focuses on examples from Canada, the USA, New Zealand, and Australia to examine the differences and similarities between Indigenous peoples and politics in these places.

Prerequisites: 1.0 SSC credit, including 0.5 credit at the 300-level

Exclusions: SOC445H5 (L0101) Advanced Topics in Sociology: Comparative Indigenous Politics (Fall 2018), SOC445H5 (L0102) Advanced Topics in Sociology: Comparative Indigenous Politics (Winter 2019)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC456H5 • Senior Seminar in Law and Society

The course will examine substantive debates in law and society. Restricted to Criminology, Law and Society Specialists and Major. Topics vary from year to year and are noted on the timetable once confirmed.

Prerequisites: (SOC109H5 or SOC209H5) and (SOC205H5 or SOC231H5) and SOC221H5 and SOC222H5 and 0.5 SOC credit at the 300 level

Distribution Requirements: Social Science

Total Instructional Hours: 24S

Mode of Delivery: In Class

SOC457H5 • Sociology of Race and Ethnicity

This course offers an overview of some of the major theories and research programs in the sociology of race and ethnicity.

Prerequisites: (SOC205H5 or SOC231H5) and SOC221H5 and SOC222H5 and 1.0 SOC credit at the 300 level

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC459H5 • Science, Technology and Society

The focus of this lecture course will be on the varied social contexts of the emergence, development and consequences of science and technology in the modern world. In addition to critical sociological perspectives on science and technology, possible topics could include genomics, reproductive technologies, surveillance, the internet and social media, domestic technology, warfare, nuclear technologies, etc.

Prerequisites: (SOC205H5 or SOC231H5) and SOC221H5 and SOC222H5 and 1.0 SOC credit at the 300 level

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC460H5 • Migrant Labour

This lecture course will focus on the intersection of citizenship status and class by examining the position and experiences of various categories of migrant labour in North America, Europe and other regions. Migrant groups include those with temporary status who come to work for a specific time frame in a particular job, those with no status (the undocumented) who work mainly in an informal, unregulated economy, and immigrants with permanent resident status who work in a range of

industries and occupations. We will read and write about theoretical and empirical work in the sociology of migration and related fields.

Prerequisites: ([SOC205H5](#) or [SOC231H5](#)) and [SOC221H5](#) and [SOC222H5](#) and 1.0 SOC credit at the 300 level

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC463H5 • The Sociology of Disasters

The modern world leans heavily on the assumption that organizations run smoothly, but often they do not and sometimes the consequences are disastrous. This course draws on a variety of sociological theories and explanatory frameworks to better understand how any why large scale disasters occur. The class will investigate high risk technologies, issues and problems related to organizational culture, deviance and misconduct, community dynamics and resilience, environmental justice, and social problems related to racialization, gender, class, and other inequalities.

Prerequisites: ([SOC205H5](#) or [SOC231H5](#)) and [SOC221H5](#) and [SOC222H5](#) and 1.0 SOC credit at the 300 level

Exclusions: [SOC444H5](#) Advanced Topics in Sociology: Sociology of Disasters (Fall 2016, Winter 2017)

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC465H5 • Climate Change and Society

In this course a variety of classical and contemporary sociological perspectives will be deployed to understand the social context, factors and consequences of climate change. Possible topics include the political economy of the environment, environmental refugees, environmental movements, media representations of climate change, the social context and consequences of fracking, the politics of global protocols on carbon emissions, climate justice and social inequality, etc.

Prerequisites: ([SOC205H5](#) or [SOC231H5](#)) and [SOC221H5](#) and [SOC222H5](#) and 1.0 SOC credit at the 300 level

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC467H5 • Peel Social Lab Seminar: Translating Research for the Wider Public

This is a seminar course where students work on data from the Peel Social Lab to produce various media to translate sociological findings for a broader audience.

Prerequisites: ([SOC205H5](#) or [SOC231H5](#)) and [SOC221H5](#) and [SOC222H5](#) and 4th Year Standing and permission of instructor

Distribution Requirements: Social Science

Total Instructional Hours: 24S

Mode of Delivery: In Class

SOC475H5 • Sociology of Legal Careers

This course examines legal careers from the sociological perspective. As one of the most elite and influential professions, lawyers are key players in economic, political, and social life. This course traces the various careers of lawyers from their experiences in law school to their jobs in law firms, courts, and other professional settings. In so doing the course will also focus on structures of inequality, such as gender, race and class.

Prerequisites: ([SOC109H5](#) or [SOC209H5](#)) and ([SOC205H5](#) or [SOC231H5](#)) and [SOC221H5](#) and [SOC222H5](#) and 0.5 SOC credit at the 300 level

Distribution Requirements: Social Science

Total Instructional Hours: 24L

Mode of Delivery: In Class

SOC480Y5 • Internship in Sociology, Criminology, Law and Society

Through a part-time, unpaid, 200-hour internship, students apply sociological knowledge gained primarily through previous coursework. Students can seek internship opportunities at municipal social service departments or non-profit agencies providing social services, social movement or community-based organizations working for social change, courts or parole offices, for-profit workplaces, or other organizations. This experiential learning course also includes class meetings, written assignments and oral presentations, as well as an assessment by the internship employer. An application/interview may be required (see Department of Sociology website for details). **Note:** International students should visit the International Education Centre to ensure they have the appropriate documentation required to work in Canada well before the start of the course/internship.

Prerequisites: ([SOC205H5](#) or [SOC231H5](#)) and [SOC221H5](#) and [SOC222H5](#) and 4th Year Standing and minimum CGPA 3.0 and permission of instructor

Course Experience: Partnership-Based Experience

Distribution Requirements: Social Science

Mode of Delivery: In Class

SOC485H5 • Investigation through Study Abroad

An in-depth examination of selected topics in sociology as part of a UTM Study Abroad experience. Topics vary from year to year and are noted on the timetable once confirmed. During the international experience, students will collect data and observations to use as the basis for a final analytical project. As part of this course, students will have the option of participating in an international learning experience that will have an additional cost and application process. An interview may be required, with priority given to Sociology and Criminology, Law and Society Specialists and Majors.

International Component: International - Optional

Distribution Requirements: Social Science

Mode of Delivery: In Class

SOC491H5 • Independent Research in Sociology

This course is intended for Sociology Specialists and Majors who wish to explore a specific Sociology topic in depth. To enrol, a student must prepare a proposal form in consultation with a faculty supervisor and submit the approved form to the academic counsellor.

Note: Professors have discretion whether to take on an independent study; they are not required to serve as faculty supervisors.

Prerequisites: (SOC205H5 or SOC231H5) and SOC221H5 and SOC222H5 and 0.5 SOC credit at the 300 level and 4th Year Standing and permission of instructor

Exclusions: Students may take a maximum of 1.0 credits of SOC independent studies.

Distribution Requirements: Social Science

Mode of Delivery: In Class

SOC492H5 • Independent Research in Sociology

This course is intended for Sociology Specialists and Majors who wish to explore a specific Sociology topic in depth. To enrol, a student must prepare a proposal form in consultation with a faculty supervisor and submit the approved form to the academic counsellor.

Note: Professors have discretion whether to take on an independent study; they are not required to serve as faculty supervisors.

Prerequisites: (SOC205H5 or SOC231H5) and SOC221H5 and SOC222H5 and 0.5 SOC credit at the 300 level and 4th Year Standing and permission of instructor

Exclusions: Students may take a maximum of 1.0 credits of SOC independent studies.

Distribution Requirements: Social Science

Mode of Delivery: In Class

SOC493H5 • Independent Research in Criminology, Law and Society

This course is intended for Criminology, Law and Society Specialists and Majors who wish to explore a specific Criminology, Law and Society topic in depth. To enrol, a student must prepare a proposal form in consultation with a faculty supervisor and submit the approved form to the academic counsellor. Note: Professors have discretion whether to take on an independent study; they are not required to serve as faculty supervisors.

Prerequisites: (SOC109H5 or SOC209H5) and (SOC205H5 or SOC231H5) and SOC221H5 and SOC222H5 and 0.5 SOC credit at the 300-level and 4th Year Standing and permission of instructor

Exclusions: Students may take a maximum of 1.0 credits of SOC independent studies.

Distribution Requirements: Social Science

Mode of Delivery: In Class

SOC494H5 • Independent Research in Criminology, Law and Society

This course is intended for Criminology, Law and Society Specialists and Majors who wish to explore a specific Criminology, Law and Society topic in depth. To enrol, a student must prepare a proposal form in consultation with a faculty supervisor and submit the approved form to the academic counsellor.

Note: Professors have discretion whether to take on an independent study; they are not required to serve as faculty supervisors.

Prerequisites: (SOC109H5 or SOC209H5) and (SOC205H5 or SOC231H5) and SOC221H5 and SOC222H5 and 0.5 SOC credit at the 300 level and 4th Year Standing and permission of instructor

Exclusions: Students may take a maximum of 1.0 credits of SOC independent studies.

Distribution Requirements: Social Science

Mode of Delivery: In Class

SOC499H5 • Research Opportunity Program

This course provides a rewarding opportunity for students in their fourth year to undertake relatively advanced work in the research project of a professor in return for SOC499H5 course credit. Participating faculty members post their project descriptions for the following summer and fall/winter sessions in early February and students are invited to apply in early March. See [Experiential and International Opportunities](#) for more details.

Prerequisites: SOC221H5 and SOC222H5, 4th Year Standing and permission of instructor

Exclusions: Students may not take SOC499H5 and SOC499Y5 concurrently.

Distribution Requirements: Social Science

Mode of Delivery: In Class

SOC499Y5 • Research Opportunity Program

This course provides a rewarding opportunity for students in their fourth year to undertake relatively advanced work in the research project of a professor in return for SOC499Y5 course credit. Participating faculty members post their project descriptions for the following summer

and fall/winter sessions in early February and students are invited to apply in early March. See Experiential and International Opportunities for more details.

Prerequisites: SOC221H5 and SOC222H5 and 4th Year Standing and permission of instructor

Exclusions: Students may not take SOC499H5 and SOC499Y5 concurrently.

Distribution Requirements: Social Science

This program offers a comprehensive exploration of South Asia and the South Asian diaspora, drawing on a range of disciplinary approaches. Through diverse course offerings, students can study South Asian history, religion, politics, languages, societies, and cultures. The program is geared toward building an engagement with the South Asian region as well as with South Asian diasporic contexts. Students may take courses in a number of departments that focus on South Asia. As a complement to the students other chosen programs, the Minor in South Asian Humanities can prepare students for careers in a competitive global context in which South Asia plays an important role.

Students should also review the [Degree Requirements](#) section prior to selecting courses

South Asian Humanities Programs

South Asian Humanities - Minor (Arts)

Completion Requirements:

4.0 credits, including at least 1.0 credits at the 300/400 level. Students wishing to complete a South Asian Humanities Minor Program must successfully complete 4.0 credits from the courses listed below. These must include courses from two of the following disciplines: History (HIS), History of Religions (RLG) or Women, Gender and Sexuality Studies (WGS) within the Department of Historical Studies, Philosophy (PHL), Political Science (POL), Language Studies (LAN), Visual Studies (VCC, FAH), and Anthropology (ANT).

- [SAH200H5](#)
- 1.0 credit from the following list of courses: [CIN215H5](#) or [HIS282H5](#) or [RLG205H5](#) or [RLG207H5](#) or [RLG210H5](#) or [RLG303H5](#) or [POL304Y5](#) or [HIN211H5](#) or [HIN212H5](#) or [URD212Y5](#) or [PUN212Y5](#) or [SAN291Y5](#)
- 2.5 credits from the list of electives below

South Asian Humanities Courses

SAH200H5 • Being Human in South Asia

What does it mean to be human? We will explore South Asian food, music, poetry, and objects to understand human experience through the lived practice of South Asian communities in historical and contemporary contexts. This course uses South Asian texts and practices as theory--as usable tools that help us become better readers of the cultures we study and of ourselves.

Distribution Requirements: Humanities

Spanish Courses

SPA100Y5 • Spanish for Beginners

Introduction to the Spanish language for beginning students; overview of basic grammatical structures, development of vocabulary and oral and written expression.

Exclusions: Grade 12 Spanish or [SPA100Y1](#) or [LGA30H3](#) or [LGA31H3](#) or equivalent beginner knowledge. Students are REQUIRED to complete the Spanish Language Assessment Questionnaire at <https://www.utm.utoronto.ca/language-studies/language-course-assessment-questionnaires> if they have any prior experience with the language.

Distribution Requirements: Humanities

Total Instructional Hours: 48L/24T

Mode of Delivery: In Class

SPA219H5 • Spanish for Heritage and Native Speakers I

This course is designed for heritage and native speakers with little to no knowledge of written Spanish who have basic to fluent speaking and comprehension abilities. The course provides foundations in understanding the Spanish grammatical system, opportunities to increase vocabulary and to develop writing skills and the ability to use the language across different contexts including in more formal situations. Students MUST complete the Spanish

Language Assessment Questionnaire before enrolling in this course. Please visit

<https://www.utm.utoronto.ca/language-studies/language-course-assessment-questionnaires>

Prerequisites: As determined by the Spanish Language Assessment (<https://www.utm.utoronto.ca/language-studies/language-course-assessment...>).

Exclusions: [SPA100Y5](#) or [SPA219Y5](#) or [SPA219Y1](#) or [SPA220Y5](#) or [SPA220Y1](#) or [SPA319H5](#) or [SPA320Y5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

SPA220Y5 • Intermediate Spanish

Intermediate Spanish for non-natives. Intensive grammar review of the structures of Spanish integrated with an introduction to reading authentic Spanish material, with practice designed to build vocabulary and to improve oral and written expression. As part of this course, students may have the option of participating in an international learning experience that will have an additional cost and application process.

Prerequisites: [SPA100Y5](#) or [SPA100Y1](#)

Exclusions: [SPA219Y1](#) or [SPA219Y5](#)

International Component: International - Optional

Distribution Requirements: Humanities

Total Instructional Hours: 48L/24P

Mode of Delivery: In Class

SPA235H5 • Music and Dance in Hispanic Culture

This course will explore the heritage and the modern manifestations of some Latin American, Caribbean, and Spanish musical styles and their accompanied dance forms. This course highlights the historical evolution of several prominent genres of music and dance, the place of music and dance in modern culture and their contribution in national identity and shows how European colonization and the slave trade impact on indigenous sounds and rhythms. The course is organized thematically and geographically and will be taught in English. Students who take this course for Spanish Language Citation must complete written course work in Spanish. As part of this course, students may have the option of participating in an international learning experience that will have an additional cost and application process.

Prerequisites: Open to all students.

Recommended Preparation: SPA100Y5 and SPA220Y5 or SPA259H5

International Component: International - Optional

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

SPA259H5 • Introduction to Hispanic Culture

Forms of cultural expression in Spain, Latin America and Spanish-speaking North America, with study of representative media, including literature, journalism, film, visual art, and the urban environment. Introduction to methods of cultural analysis.

Prerequisites: SPA100Y5

Corequisites: SPA220Y5

Exclusions: SPA323Y1 or SPA323H1

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

SPA275H5 • Latin American Cinema

A survey of Latin American cinema, analyzed within historical, social, political, and cultural contexts. Aesthetic and social forms and questions of identity will also be studied. Throughout the course, the cinema of various Spanish speaking nations, regions, and historical periods will be highlighted. The course is taught in English. Students who take this course for Spanish Language Citation must complete written course work in Spanish.

Exclusions: SPA375H1

Recommended Preparation: SPA100Y5 and SPA220Y5 or SPA259H5.

Distribution Requirements: Humanities

Total Instructional Hours: 24L/24P

Mode of Delivery: In Class

SPA319H5 • Spanish for Heritage and Native Speakers II

This course is designed for heritage and native speakers with solid reading and writing abilities in Spanish as well as fluent speaking and listening skills. The course provides opportunities to develop a complex Spanish grammatical system as well as opportunities to increase vocabulary, and develop writing skills and the ability to use the language across different contexts including in more formal situations.

Prerequisites: As determined by the Spanish Language Assessment Questionnaire (<https://www.utm.utoronto.ca/language-studies/language-course-assessment...>).

Exclusions: SPA100Y5 or SPA219Y5 or SPA219Y1 or SPA219H5 or SPA220Y5 or SPA220Y1 or SPA320Y5 or higher

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12P

Mode of Delivery: In Class

SPA320Y5 • Advanced Spanish

Advanced Spanish for non-natives. Selective review of grammar with emphasis on the complex sentence; intensive practice in written and oral expression to improve proficiency. As part of this course, students may have the option of participating in an international learning experience that will have an additional cost and application process.

Prerequisites: SPA220Y5

Exclusions: SPA320Y1 or SPA319Y1

International Component: International - Optional

Distribution Requirements: Humanities

Total Instructional Hours: 48L/24P

Mode of Delivery: In Class

SPA323H5 • Business Spanish

Practical uses of spoken and written Spanish for business contexts. This course builds on grammar and vocabulary knowledge already acquired at the intermediate level.

Prerequisites: SPA220Y5

Exclusions: SPA323Y1, SPA323H1

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

SPA390H5 • Crosscultural Communication and Pragmatics in the Spanish-speaking World

The course introduces students to the different ways in which speakers communicate across the diverse Spanish-speaking world. Students will analyze how culturally

defined politeness, social norms, and speaker identities impact how language is used in diverse Spanish-speaking countries. Students will also explore, identify, and solve problems resulting from cultural differences between Spanish and other languages. Furthermore, students will develop pragmatic competence in Spanish and will compare variation in pragmatic norms among different Spanish-speaking communities.

Corequisites: SPA219Y5 or SPA319H5 or SPA320Y5

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

SPA420H5 • Advanced Topics on Spanish Grammar

Study of traditional topics of Spanish grammar from a linguistic perspective with the goal of improving students' knowledge and usage of Spanish grammar and language understanding in general. Topics include (but are not limited to): word order variation patterns, subject types, the verbal system, and the Spanish copulas. This course employs a cross-linguistic approach, as some of these topics are discussed from a comparative perspective. This course is taught in Spanish.

Prerequisites: SPA219Y5 or SPA320Y5 or as indicated by Spanish Language Assessment Questionnaire (<https://www.utm.utoronto.ca/language-studies/language->

[course-assessment-questionnaires](#)).

Exclusions: SPA420H1 and SPA421H1

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

SPA443H5 • Studies in Spanish Linguistics: Pragmatics

This course introduces students to the discipline of linguistics through a focus on Spanish-speaking communities and the linguistic diversity amongst them. This advanced task-based course focuses on developing students' pragmatic competence in Spanish, or the ability to use the language appropriately in different social contexts. To do so, students will analyze how culturally confined politeness norms, contextual elements, and speakers' identities impact how language is used to carry out different speech acts such as requests, invitations, and apologies, among others, and will compare variation in pragmatic norms among different Spanish-speaking communities.

Prerequisites: SPA320Y5 or (SPA219Y5 and permission of the instructor)

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

Statistical methods have applications in almost all areas of science, medicine, engineering, business, politics, psychology, law, and the environment. A practicing statistician is involved in a diversity of projects: testing the effectiveness of a new vaccine, working on the human genome project, forecasting stock yields, examining the effectiveness of television advertising, predicting election results.

Today we are bombarded with information from quantitative studies, information generated from the application of statistical methodologies. While much of this information is valid, some of it is not. An understanding of applied statistics will make you a critical consumer of numbers presented by the media. A basic knowledge of statistics should be an integral part of everyone's education.

The Applied Statistics Specialist Program at U of T Mississauga provides students with a solid foundation in the fundamental aspects of probability and introduces students to a broad range of applied statistics methodologies. The Major and Minor Programs in Applied Statistics consist largely of STA courses, and may be combined with programs in other subjects.

Introductory Applied Statistics Courses: Non-Calculus Based

U of T Mississauga Statistics courses, STA220H5 and STA221H5 are non-calculus entry-level introductions to statistics. Rough equivalents to these courses are offered by the Biology, Economics, Psychology and Sociology department. These courses are not intended for students planning to pursue a degree in statistics, mathematics, or computer sciences. Some

departments have changed which statistics courses they allow for program requirements (such as Biology). To learn more, please consult with the respective departments.

Introductory Statistics and Probability Courses: Calculus-Based

U of T Mississauga Statistics courses STA246H5, STA256H5, STA258H5 and STA260H5 form a calculus-based introduction to probability and applied statistics. STA256H5, STA258H5 and STA260H5 are intended for students planning to pursue a degree in statistics, mathematics, or computer science. Various other departments accept these courses in place of a non-calculus based introduction to applied statistics course. **IMPORTANT NOTE:** STA246H5 cannot be used towards any program(s) in Applied Statistics or Mathematics. This course is intended only for students in Computer Science programs who will not need STA256H5 for other program requirements. STA246H5 will not be permitted as a pre-requisite for any other 200+ level STA courses.

A wide variety of upper-level courses is available to students who have the proper prerequisites. Students should feel free to consult the department regarding course selection.

Students should also review the [Degree Requirements](#) section prior to selecting courses

Program website: <https://www.utm.utoronto.ca/math-cs-stats>

Statistics, Applied Programs

Applied Statistics - Specialist (Science)

Enrolment Requirements:

Limited Enrolment — Enrolment in the Specialist program is limited to students with a minimum of 4.0 credits, including:

1. [STA107H5](#) (with a minimum grade of 60%) or [STA256H5](#);
2. [MAT134H5](#) or [MAT136H5](#) or [MAT134Y5](#) or [MAT135Y5](#) or [MAT137Y5](#) or [MAT139H5](#) or [MAT233H5](#) (minimum 60%) or [MAT157Y5](#) or [MAT159H5](#);
3. A minimum cumulative grade point average, to be determined annually.
4. All students must complete 4.0 U of T credits before requesting this program. Courses with a grade of CR/NCR will not count as a part of the 4.0 credits required for program entry.

Completion Requirements:

12.0-12.5 credits are required.

First Year:

1. [CSC108H5](#)
2. [MAT102H5](#)
3. [([MAT132H5](#) or [MAT135H5](#) or [MAT137H5](#) or [MAT157H5](#)) and ([MAT134H5](#) or [MAT136H5](#) or [MAT139H5](#) or [MAT159H5](#))] or [MAT134Y5](#) or [MAT135Y5](#) or [MAT137Y5](#) or [MAT157Y5](#)
4. [MAT223H5](#) or [MAT240H5](#)

Second Year:

1. [MAT232H5](#) or [MAT233H5](#) or [MAT257Y5](#)
2. [MAT244H5](#)
3. [STA256H5](#) and [STA258H5](#) and [STA260H5](#)

Higher Years:

1. STA302H5 and STA304H5 and STA305H5 and STA348H5
2. 2.0 credits of STA at the 300/400 level STA course
3. 2.0 credits from CSC322H5 or (CSC311H5 or CSC411H5) or MAT302H5 or MAT311H5 or MAT332H5 or MAT334H5 or MAT344H5 or (MAT337H5 or MAT378H5)
4. 1.0 credit of STA

NOTES:

1. MAT133Y5 is included in the credit count only if the student also completes MAT233H5 (in which case MAT232H5 is not required).
2. Students are strongly encouraged to familiarize themselves with the 100-level calculus pre-requisites to select the correct courses.
3. ECO220Y5 cannot be substituted for STA256H5 or STA258H5 or STA260H5.
4. ECO227Y5 can be substituted for STA256H5 and STA258H5, but not for STA260H5.
5. STA107H5 is highly recommended in first year, but it is not required.
6. MAT337H5 or MAT378H5 is highly recommend for students intending to pursue graduate level studies in statistics.
7. STA246H5 will not be permitted as a pre-requisite for any other 200+ level STA courses. In addition, STA246H5 cannot be used towards any program(s) in Applied Statistics or Mathematics. The course is intended only for students in Computer Science programs who will not need STA256H5 for other program requirements.

ERSPE1540

Applied Statistics - Major (Science)

Enrolment Requirements:

Limited Enrolment — Enrolment in the Major program is limited to students with a minimum of 4.0 credits, including:

1. STA107H5 (with a minimum grade of 60%) or STA256H5;
2. MAT134H5 or MAT136H5 or MAT139H5 or MAT159H5 or MAT134Y5 or MAT135Y5 or MAT137Y5 or MAT157Y5 or MAT233H5; and
3. A minimum cumulative grade point average, to be determined annually.
4. All students must complete 4.0 U of T credits before requesting this program. Courses with a grade of CR/NCR will not count as a part of the 4.0 credits required for program entry.

Completion Requirements:

7.0-7.5 credits are required.

First Year:

1. CSC108H5
2. MAT102H5
3. [(MAT132H5 or MAT135H5 or MAT137H5 or MAT157H5) and (MAT134H5 or MAT136H5 or MAT139H5 or MAT159H5)] or MAT134Y5 or MAT135Y5 or MAT137Y5 or MAT157Y5
4. MAT223H5 or MAT240H5

Second Year:

1. MAT232H5 or MAT233H5 or MAT257Y5
2. STA256H5 and STA258H5 and STA260H5

Higher Years:

1. STA302H5 and STA304H5 and STA305H5
2. 1.0 credit from any 300/400 level STA course or CSC322H5 or (CSC311H5 or CSC411H5) or MAT302H5 or MAT311H5 or MAT332H5 or MAT334H5 or MAT344H5 or (MAT337H5 or MAT378H5)

NOTES:

1. MAT133Y5 is included in the credit count only if the student also completes MAT233H5 (in which case MAT232H5 is not required).
2. Students are strongly encouraged to familiarize themselves with the 100-level calculus pre-requisites to select the correct courses.
3. ECO220Y5 cannot be substituted for STA256H5 or STA258H5 and/or STA260H5.
4. ECO227Y5 can be substituted for STA256H5 and STA258H5, but not for STA260H5.
5. STA107H5 is highly recommended in first year, but it is not required.
6. MAT337H5 or MAT378H5 is highly recommended for students intending to pursue graduate level studies in statistics.
7. STA246H5 will not be permitted as a pre-requisite for any other 200+ level STA courses. In addition, STA246H5 cannot be used towards any program(s) in Applied Statistics or Mathematics. The course is intended only for students in Computer Science programs who will not need STA256H5 for other program requirements.

ERMAJ1540

Applied Statistics - Minor (Science)

Completion Requirements:

4.5 -5.0 credits are required.

First Year: MAT133Y5 or [(MAT132H5 or MAT135H5 or MAT137H5 or MAT157H5) and (MAT134H5 or MAT136H5 or MAT139H5 or MAT159H5)] or MAT134Y5 or MAT135Y5 or MAT137Y5 or MAT157Y5

Higher Years:

1. 1.0 credit made up of any combination of (PSY201H5 and PSY202H5) or (BIO360H5 and BIO361H5) or SOC350H5 or ECO220Y5 or any STA courses other than STA256H5 and STA258H5
2. MAT232H5 or MAT233H5 or MAT257Y5
3. STA256H5 and STA258H5
4. 1.0 additional credit of STA at the 300/400 level

NOTES:

1. Students are strongly encouraged to familiarize themselves with the 100-level calculus pre-requisites to select the correct courses.
2. ECO220Y5 cannot be substituted for STA256H5 and/or STA258H5 and/or STA260H5.
3. ECO227Y5 can be substituted for STA256H5 and STA258H5, but not for STA260H5.
4. Students who include any of PSY201H5 or PSY202H5 or BIO360H5 or BIO361H5 or SOC350H5 or ECO220Y5 in this program are responsible for ensuring that these courses are completed prior to enrolling in STA256H5 and that all STA course prerequisites and exclusions are met.
5. STA246H5 will not be permitted as a pre-requisite for any other 200+ level STA courses. In addition, STA246H5 cannot be used towards any program(s) in Applied Statistics or Mathematics. The course is intended only for students in Computer Science programs who will not need STA256H5 for other program requirements.

ERMIN1540

Statistics, Applied Courses

STA107H5 • An Introduction to Probability and Modelling

Introduction to the theory of probability, with emphasis on the construction of discrete probability models for applications. After this course, students are expected to understand the concept of randomness and aspects of its mathematical representation. Topics include random variables, Venn diagrams, discrete probability distributions, expectation and variance, independence, conditional probability, applications such as queues.

Exclusions: [STA256H5](#) or [STA257H1](#) or [STAB52H3](#) or [STA246H5](#) or [STA237H1](#) or [STA247H1](#) or [ECO227Y5](#)

Distribution Requirements: Science

Total Instructional Hours: 39L/12T

Mode of Delivery: In Class

STA218H5 • Statistics for Management

Acquaints students with the statistical principles that managers need in order to extract information from numerical data, and to understand the formal principles of decision-making under conditions of uncertainty. Covers descriptive statistics, elementary probability, expected values, sampling distributions, point and interval estimation, hypothesis testing for normal and binomial data, and multiple regression analysis.

Exclusions: [STA215H5](#) or [STA220H5](#) or [STA220H1](#) or [STA256H5](#) or [STA257H1](#) or [STAB52H3](#) or [STAB22H3](#) or [STA246H5](#) or [STA237H1](#) or [STA247H1](#) or [ECO220Y5](#) or [ECO227Y5](#) or [PSY201H5](#) or [PSYB07H3](#) or [SOC350H5](#)

Enrolment Limits: This course is open only to students accepted into Management Specialist (ERSPE2431), Management Major (ERMAJ2431) or Human Resource Management and Industrial Relations Specialist (ERSPE1882).

Distribution Requirements: Science

Total Instructional Hours: 36L/12T

Mode of Delivery: In Class

STA220H5 • The Practice of Statistics I

An introductory course in statistical concepts and methods, emphasizing exploratory data analysis for univariate and bivariate data, sampling and experimental designs, basis probability models, estimation and tests of

hypothesis in one-sample and comparative two-sample studies. A statistical computing package is used but no prior computing experience is assumed.

Exclusions: [STA215H5](#) or [STA218H5](#) or [STA256H5](#) or [STA257H1](#) or [STAB52H3](#) or [STA220H1](#) or [STAB22H3](#) or

[STA246H5](#) or [STA237H1](#) or [STA247H1](#)

Distribution Requirements: Science

Total Instructional Hours: 36L/12T

Mode of Delivery: In Class

STA221H5 • The Practice of Statistics II

A sequel to [STA220H5](#), emphasizing major methods of data analysis such as analysis of variance for one factor and multiple factor designs, regression models, categorical and non-parametric methods.

Prerequisites: [STA215H5](#) or [STA220H5](#)

Exclusions: [STA221H1](#) or [STA258H5](#) or [STA248H1](#) or [STAB27H3](#) or [STA302H5](#) or [STA302H1](#) or [STAC67H3](#) or [BIO360H5](#) or [ECO220Y5](#) or [ECO227Y5](#) or [PSY202H5](#) or [PSYB08H3](#)

Distribution Requirements: Science

Total Instructional Hours: 36L/12T

Mode of Delivery: In Class

STA246H5 • Computational Probability and Statistics

This course covers probability including its role in statistical and computational modeling. Topics include classical and computational perspectives on cumulative, mass and distribution functions, random variables, expectation, limiting results, the normal distribution. Computational topics include generating and sampling random numbers, combinatorial objects and probability functions for simulation and statistical analysis. Additional techniques include resampling, hypothesis testing, model fit and cross validation. IMPORTANT NOTE: [STA246H5](#) will not be permitted as a pre-requisite for any other 200+ level STA courses. In addition, [STA246H5](#) cannot count towards any program(s) in Mathematics or Applied Statistics. The course is intended only for students in Computer Science programs who will not need [STA256H5](#) for other program requirements.

Prerequisites: [CSC148H5](#) and ([MAT134H5](#) or [MAT134Y5](#) or [MAT135Y5](#) or [MAT136H5](#) or [MAT137Y5](#) or [MAT139H5](#) or [MAT157Y5](#) or [MAT159H5](#) or a minimum 65% in [MAT133Y5](#))

Exclusions: [STA256H5](#) or [STA237H1](#) or [STA247H1](#) or [STA257H1](#) or [STAB52H3](#) or [ECO227Y5](#)

Recommended Preparation: [MAT232H5](#) or [MAT233H5](#)

Distribution Requirements: Science

Total Instructional Hours: 36L/12P

Mode of Delivery: In Class

STA256H5 • Probability and Statistics I

This course covers probability including its role in statistical modeling. Topics include probability distributions, expectation, discrete and continuous random variables and vectors, distribution functions, distributions

of functions of random variables, limit theorems, the central limit theorem.

Prerequisites: MAT134H5 or MAT134Y5 or MAT135Y5 or MAT136H5 or MAT137Y5 or MAT139H5 or MAT157Y5 or MAT159H5 or a minimum 65% in MAT133Y5

Exclusions: STA257H1 or ECO227Y5 or STAB52H3

Recommended Preparation: MAT232H5 or MAT233H5

Distribution Requirements: Science

Total Instructional Hours: 39L/12T

Mode of Delivery: In Class

STA258H5 • Statistics with Applied Probability

A survey of statistical methodology with emphasis on the relationship between data analysis and probability theory. Topics covered include descriptive statistics, limit theorems, sampling distribution, point and interval estimation, hypothesis testing, contingency tables and count data. A statistical computer package will be used.

Prerequisites: STA256H5

Exclusions: ECO227Y5 or STA248H1 or STA255H1

Distribution Requirements: Science

Total Instructional Hours: 39L/12T

STA260H5 • Probability and Statistics II

A sequel to STA256H5 introducing current statistical theory and methodology. Topics include: Sampling distributions, point estimation, confidence intervals, testing (Neyman-Pearson Theorem, uniformly most powerful test, likelihood ratio tests), unbiasedness, consistency, sufficiency, complete statistics, and exponential family; Fisher Information and the Cramer-Rao inequality; simple linear models.

Prerequisites: STA256H5 or ECO227Y5

Exclusions: STAB57H3 or STA261H5 or STA261H1 or STAC58H3 or STA238H1

Distribution Requirements: Science

Total Instructional Hours: 39L/12T

STA302H5 • Regression Analysis

Analysis of the multiple regression model by least squares; statistical properties of the least square analysis, including estimation of error; residual and regression sums of squares; distribution theory under normality of the observations; confidence regions and intervals; tests for normality; variance stabilizing transformations, multicollinearity, variable search methods.

Prerequisites: STA260H5 and (MAT223H5 or MAT240H5)

Exclusions: STA302H1 or STAC67H3

Recommended Preparation: STA258H5

Enrolment Limits: Priority is given to students enrolled in Statistics Specialist or Major programs.

Distribution Requirements: Science

Total Instructional Hours: 39L/12T

Mode of Delivery: In Class

STA304H5 • Surveys, Sampling and Observational Data

The sample survey is a widely used technique for obtaining information about a large population at relatively small cost. Only probability samples can provide both an estimator and a measure of sampling error from the data itself. In addition to sampling error, non-sampling errors (refusals, not-at-home, lies, inaccuracies, etc.) are always present, and can produce serious biases. The course covers: design of surveys, sources of bias, randomized response surveys. Techniques of sampling; stratification, clustering, unequal probability selection. Sampling inference, estimates of population mean and variances, ratio estimation, observational data; correlation vs. causation, missing data, sources of bias.

Prerequisites: STA258H5 or STA260H5 or STA238H1 or STA255H1 or ECO227Y5

Exclusions: STA304H1 or STAC50H3 or STAC53H3

Enrolment Limits: Priority is given to students enrolled in Statistics Specialist or Major programs.

Distribution Requirements: Science

Total Instructional Hours: 39L/12T

Mode of Delivery: In Class

STA305H5 • Experimental Design

This course covers topics in the design and analysis of experiments. The topics covered include analysis of variance, randomization, confounding, block designs, factorial designs, orthogonal polynomials and response surface methods. Applications include agricultural experiments, laboratory experiments, and industrial experiments, including quality control techniques.

Prerequisites: STA302H5 or ECO375H5

Exclusions: STA305H1

Enrolment Limits: Priority is given to students enrolled in Statistics Specialist or Major programs.

Distribution Requirements: Science

Total Instructional Hours: 39L/12T

STA312H5 • Topics in Statistics: Applied Statistical Modelling

Introduction to a topic of current interest in statistics. Content will vary from year to year. Computer packages are used. The contact hours for this course may vary in terms of contact type (L, T) from year to year, but will be between 36-48 contact hours in total. See the UTM Timetable.

Prerequisites: Appropriate prerequisite requirement(s) will be available on the UTM timetable along with the topic title prior to course registration.

Enrolment Limits: Priority is given to students enrolled in Statistics Specialist or Major programs.

Distribution Requirements: Science

Total Instructional Hours: 36L/12T

Mode of Delivery: In Class

STA313H5 • Topics in Statistics: Applications of Statistical Models

Introduction to a topic of current interest in statistics. Content will vary from year to year. Computer packages are used. The contact hours for this course may vary in terms of contact type (L, T) from year to year, but will be between 36-48 contact hours in total. See the UTM Timetable.

Prerequisites: Appropriate prerequisite requirement(s) will be available on the UTM timetable along with the topic title prior to course registration.

Enrolment Limits: Priority is given to students enrolled in Statistics Specialist or Major programs.

Distribution Requirements: Science

Total Instructional Hours: 36L/12T

Mode of Delivery: In Class

STA314H5 • Introduction to Statistical Learning

A thorough introduction to the basic ideas in supervised statistical learning with a focus on regression and a brief introduction to classification. Methods covered will include multiple linear regression and its extensions, k-nn regression, variable selection and regularization via AIC, BIC, Ridge and lasso penalties, non-parametric methods including basis expansions, local regression and splines, generalized additive models, tree-based methods, bagging, boosting and random forests. Content will be discussed from a statistical angle, putting emphasis on uncertainty quantification and the impact of randomness in the data on the outcome of any learning procedure. A detailed discussion of the main statistical ideas behind crossvalidation, sample splitting and re-sampling methods will be given. Throughout the course, R will be used as software, a brief introduction will be given in the beginning.

Prerequisites: (MAT223H5 or MAT240H5) and (STA258H5 or ECO375H5) and STA260H5

Corequisites: STA302H5

Exclusions: STA314H1

Enrolment Limits: Priority is given to students enrolled in Statistics Specialist or Major programs.

Distribution Requirements: Science

Total Instructional Hours: 36L/12T

Mode of Delivery: In Class

STA315H5 • Advanced Statistical Learning

The second part of the course will focus on basic ideas in classification problems including discriminant analysis and support vector machine, and unsupervised learning techniques such as clustering, principal component analysis, independent component analysis and multidimensional scaling. The course will also cover the modern statistics in the "big data" area. The high dimensional problems when $p \gg n$ and $n \gg p$ will be introduced. In addition, the students will be formed as groups to do data analysis projects on statistical machine learning and present their findings in class. This will prepare them for future careers in industry or academia.

Prerequisites: STA314H5

Enrolment Limits: Priority is given to students enrolled in Statistics Specialist or Major programs.

Distribution Requirements: Science

Total Instructional Hours: 36L/12T

Mode of Delivery: In Class

STA348H5 • Introduction to Stochastic Processes

Discrete Markov chains with a finite number of states, random walks, single-server queues, continuous-time Markov chains, Poisson processes, branching processes, birth and death process, M/M/n queues, Monte-Carlo simulation may be introduced.

Prerequisites: STA260H5 and (MAT223H5 or MAT240H5)

Exclusions: STA347H1 or STAC63H3

Enrolment Limits: Priority is given to students enrolled in Statistics Specialist or Major programs.

Distribution Requirements: Science

Total Instructional Hours: 36L/12T

Mode of Delivery: In Class

STA360H5 • Introduction to Bayesian Statistics

A thorough introduction to statistics from a Bayesian perspective. Methods covered will include: the rules of probability, including joint, marginal, and conditional probability; discrete and continuous random variables; discrete and continuous random variables; Bayesian inferences for means and proportions; the simple linear regression model analyzed in a Bayesian manner; and (time permitting) a brief introduction to numerical methods such as the Gibbs sampler. Throughout the course, R will be used as software, a brief introduction will be given in the beginning.

Prerequisites: STA246H5 or STA258H5 or STA260H5 or STA238H1 or STA255H1 or ECO227Y5 or ECO227Y1

Exclusions: STA313H5 (Winter 2020 and Winter 2022) or STA365H1

Enrolment Limits: Priority is given to students enrolled in

Statistics Specialist or Major programs.

Distribution Requirements: Science

Total Instructional Hours: 36L/12T

Mode of Delivery: In Class

STA378H5 • Statistics Research Project

Students explore a topic in statistics under the supervision of a faculty member. Interested students must consult with statistics faculty at least two months prior to registration, to determine the topic and scope.

Prerequisites: Departmental permission and a minimum CGPA of 2.5.

Enrolment Limits: Priority is given to students enrolled in Statistics Specialist or Major programs.

Course Experience: University-Based Experience

Distribution Requirements: Science

STA380H5 • Computational Statistics

Computational methods play a central role in modern statistics and machine learning. This course aims to give an overview of some of the computational techniques that are useful in statistics. Topics include methods of generating random variables, Monte Carlo integration and variance reduction, Monte Carlo methods in inference, bootstrap and jackknife, resampling application, permutation tests, probability density estimation, and optimization.

Prerequisites: [STA260H5](#) or [STA238H1](#)

Exclusions: [STA312H5](#) (Winter 2020 and Winter 2022) or [STA410H1](#)

Enrolment Limits: Priority is given to students enrolled in Statistics Specialist or Major programs.

Distribution Requirements: Science

Total Instructional Hours: 36L/12T

STA388H5 • Topics in Statistics

Introduction to a topic of current interest in statistics. Content will vary from year to year. Enrolment by permission of instructor only.

Prerequisites: Appropriate prerequisite requirement(s) will be available on the UTM timetable along with the topic title prior to course registration.

Enrolment Limits: Priority is given to students enrolled in Statistics Specialist or Major programs.

Distribution Requirements: Science

Total Instructional Hours: 36L/12T

Mode of Delivery: In Class

STA398H5 • Statistics Research Project

Students explore a topic in statistics under the supervision of a faculty member. Interested students must consult with

statistics faculty at least two months prior to registration, to determine the topic and scope.

Prerequisites: Departmental permission and a minimum CGPA of 2.5.

Enrolment Limits: Priority is given to students enrolled in Statistics Specialist or Major programs.

Course Experience: University-Based Experience

Distribution Requirements: Science

STA399Y5 • Research Opportunity Program

This course provides a richly rewarding opportunity for students in their second year to work in the research project of a professor in return for 299Y course credit. Students enrolled have an opportunity to become involved in original research, learn research methods and share in the excitement and discovery of acquiring new knowledge. Participating faculty members post their project descriptions for the following summer and fall/winter sessions in early February and students are invited to apply in early March. See [Experiential and International Opportunities](#) for more details.

Prerequisites: Permission of instructor and department.

Corequisites: [STA302H5](#) or [STA302H1](#)

Enrolment Limits: Priority is given to students enrolled in Statistics Specialist or Major programs.

Distribution Requirements: Science

Mode of Delivery: In Class

STA413H5 • Estimation and Testing

This course covers advanced topics in probability and mathematical statistics. Topics include convergence in probability, convergence in distribution, and convergence with probability one, sufficiency, completeness, Rao-Blackwell and Lehmann-Sheffe theorems, and asymptotics.

Prerequisites: [STA260H5](#)

Exclusions: [STA452H1](#) or [STA442H1](#) or [STAC58C3](#)

Enrolment Limits: Priority is given to students enrolled in Statistics Specialist or Major programs.

Distribution Requirements: Science

Total Instructional Hours: 36L/12T

Mode of Delivery: In Class

STA431H5 • Structural Equation Models

Random vectors and matrices, univariate and multivariate regression with measurement error, latent variables, model identification, the LISREL model, path analysis, confirmatory factor analysis, longitudinal data analysis, robustness of the normal model. A statistical computing package will be used.

Prerequisites: [STA302H5](#) or [STA302H](#)

Enrolment Limits: Priority is given to students enrolled in

Statistics Specialist or Major programs.

Distribution Requirements: Science

Total Instructional Hours: 36L/12T

Mode of Delivery: In Class

STA437H5 • Applied Multivariate Statistics

Practical techniques for the analysis of multivariate data; fundamental methods of data reduction with an introduction to underlying distribution theory; basic estimation and hypothesis testing for multivariate means and variances; regression coefficients; principal components and the partial multiple and canonical correlations; multivariate analysis of variance; profile analysis and curve fitting for repeated measurements; classification and the linear discriminant function. There will be extensive use of statistical computing packages.

Prerequisites: [STA302H5](#) or [ECO375H5](#)

Exclusions: [STA437H1](#) or [STAD37H3](#)

Enrolment Limits: Priority is given to students enrolled in Statistics Specialist or Major programs.

Distribution Requirements: Science

Total Instructional Hours: 36L/12T

Mode of Delivery: In Class

STA441H5 • Data Analysis

Vocabulary of data analysis, Tests of statistical significance, Principles of research design, Applications of statistical methods such as Multiple regression, Factorial ANOVA, Mixed linear models, Multivariate analysis of variance, Repeated measures, Logistic regression, Generalized linear models, Permutation tests and Bootstrapping.

Prerequisites: [STA302H5](#) or [STA302H1](#) or [STAC67H3](#) or [STA221H5](#) or [BIO360H5](#) or [ECO357H5](#) or [GGR376H5](#) or [PSY202H5](#) or [SOC350H5](#) or permission of the instructor

Enrolment Limits: Priority is given to students enrolled in Statistics Specialist or Major programs.

Distribution Requirements: Science

Total Instructional Hours: 36L/12T

Mode of Delivery: In Class

STA457H5 • Applied Time Series Analysis

This course develops the theory and methodology for the statistical analysis of time series. The methods may be broadly characterized as time domain methods based on correlation (Box-Jenkins), or frequency domain methods based on a decomposition of the series into cycles (Fourier). The course develops both of these to the point where they may be applied using standard statistical software. Model identification, estimation and forecasting are discussed. Applications in social and physical sciences are used.

Prerequisites: [STA302H5](#) or [ECO227Y5](#)

Exclusions: [STA457H1](#) or [STAD57H3](#)

Enrolment Limits: Priority is given to students enrolled in Statistics Specialist or Major programs.

Distribution Requirements: Science

Total Instructional Hours: 36L/12T

Mode of Delivery: In Class

STA478H5 • Statistics Research Project

Students explore a topic in statistics under the supervision of a faculty member. Interested students must consult with statistics faculty at least two months prior to registration, to determine the topic and scope.

Prerequisites: Departmental permission and a minimum CGPA of 2.5.

Enrolment Limits: Priority is given to students enrolled in Statistics Specialist or Major programs.

Course Experience: University-Based Experience

Distribution Requirements: Science

STA488H5 • Topics in Statistics

Introduction to a topic of current interest in statistics. Content will vary from year to year. Enrolment by permission of instructor only.

Prerequisites: Appropriate prerequisite requirement(s) will be available on the UTM timetable along with the topic title prior to course registration. The contact hours for this course may vary in terms of contact type (L, T) from year to year, but will be between 36-48 contact hours in total. See the UTM Timetable.

Enrolment Limits: Priority is given to students enrolled in Statistics Specialist or Major programs.

Distribution Requirements: Science

Total Instructional Hours: 36L/12T

Mode of Delivery: In Class

STA498H5 • Statistics Research Project

Students explore a topic in statistics under the supervision of a faculty member. Interested students must consult with statistics faculty at least two months prior to registration, to determine the topic and scope.

Prerequisites: Departmental permission and a minimum CGPA of 2.5.

Enrolment Limits: Priority is given to students enrolled in Statistics Specialist or Major programs.

Course Experience: University-Based Experience

Distribution Requirements: Science

Laura Cesario
isup.advisor@utoronto.ca

The Institute for the Study of University Pedagogy (ISUP) is the centre for research on teaching and learning at the University of Toronto Mississauga. ISUP advances the study of university pedagogy, and in collaboration with interdisciplinary faculty, staff, and students across UTM, we support the development of students' academic skills through courses, consultations, workshops and programs. These offerings are all informed by our commitment to innovative, inclusive, and accessible pedagogy.

Study of University Pedagogy Courses

ISP010H5 • Basics of Writing in English (BoWiE)

This non-credit ten week course is specifically designed to help students build skills that will assist in the completion of their written academic course work. Students in the

course will learn to communicate their ideas in written form, applying skills in English mechanics and usage through in-course practice. Students who wish to improve their basic English writing skills, or who do not reach the threshold score on the competency assessment delivered in the first week of ISP100H5 Writing for University and Beyond, should take this course to develop their skills for university work and ensure successful completion of ISP100H5. No credit is awarded for this course, and it begins in week 3 of the academic term, following the competency assessment for ISP100H5.

Total Instructional Hours: 20S
Mode of Delivery: Online, In Class

ISP100H5 • Writing for University and Beyond

This course teaches writing- and reading-related skills that are necessary for success in the transition to university work. The course uses a 'Writing About Writing' approach to help students understand the writing process, with an emphasis on the concepts of discourse communities, genre, rhetoric, argument, and audience. Rather than focusing on discipline-specific writing skills, the course helps students develop transferable writing skills.

ISP100H5 is delivered from the perspective that all writers can improve their writing, so that students with diverse writing skills will benefit by taking it. There is a required writing assessment in the first week of classes, and students must pass the threshold mark to continue in the course. Those below the threshold should enrol in ISP010H5, Basics of Writing in English.

Total Instructional Hours: 36S

Mode of Delivery: In Class

ISP130H5 • Numeracy for University and Beyond

This course teaches quantitative literacy and numeracy skills in order to develop core competencies identified as essential for university and beyond. ISP130H5 enhances students' ability and confidence to engage with quantitative information in a variety of contexts, by applying mathematical, statistical, and computational approaches to make informed decisions, to problem-solve, to effectively communicate and express quantitative information, and to create logical, evidence-based arguments. Rather than focusing on math specific skills, the course explores relevant concepts as they appear in diverse disciplines and authentic real-life situations, such as numbers and magnitude, patterns and relationships, financial literacy, health, probabilistic reasoning, chance and risk, and interpreting data presented in various forms.

Total Instructional Hours: 36S

Mode of Delivery: In Class

ISP200H5 • Advanced Writing for University and Beyond

This course advances the writing- and reading-related skills that are necessary for success within the academic setting. The course builds on the 'Writing About Writing' approach to help students develop their understanding of the writing process and writing related theory, especially within the university context. The class will involve writing in and out of class, as well as exercises in effective and constructive critique of one another's work.

Prerequisites: ISP100H5

Distribution Requirements: Social Science, Humanities

Total Instructional Hours: 36S

Mode of Delivery: In Class

ISP250H5 • Special Topics in Writing Studies

This course covers a special topic in Writing Studies. Content relates to instructor's area of interest, thus the course varies in focus from year to year. This course may satisfy either the Humanities or Social Sciences distribution requirement, depending on the topic offered. The contact hours for this course may vary in terms of contact type (L,S,T,P) from year to year, but will be between 24-36 contact hours in total. See the UTM Timetable.

Prerequisites: ISP100H5

Total Instructional Hours: 24L

Mode of Delivery: In Class

ISP251H5 • Special Topics in University Pedagogy

This course covers a special topic in University Pedagogy. Content relates to instructor's area of interest, thus the course varies in focus from year to year. This course may satisfy either the Humanities, Sciences, or Social Sciences distribution requirement, depending on the topic offered. The contact hours for this course may vary in terms of contact type (L,S,T,P) from year to year, but will be between 24-36 contact hours in total. See the UTM Timetable.

Prerequisites: ISP100H5

Distribution Requirements: Social Science, Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

ISP299H5 • Research Opportunity Program

This course provides a richly rewarding opportunity for students in their second year to participate in the research project of a faculty member in return for 299H course credit. Based on the nature of the project, projects may satisfy the Humanities, Sciences or Social Sciences distribution requirement. Students enrolled have an opportunity to become involved in original research, learn methods and share in the excitement and discovery of acquiring new knowledge. Participating faculty members post their project descriptions for the following summer and fall/winter sessions in early February and students are invited to apply in early March. See Experiential and International Opportunities for more details.

Exclusions: ISP299Y5

Mode of Delivery: In Class

ISP299Y5 • Research Opportunity Program

This course provides a richly rewarding opportunity for students in their second year to participate in the research project of a faculty member in return for 299Y course credit. Based on the nature of the project, projects may satisfy the Humanities, Sciences or Social Sciences distribution requirement. Students enrolled have an opportunity to become involved in original research, learn methods and share in the excitement and discovery of acquiring new knowledge. Participating faculty members post their project descriptions for the following summer and fall/winter sessions in early February and students are invited to apply in early March. See [Experiential and International Opportunities](#) for more details.

Exclusions: [ISP299H5](#)

Mode of Delivery: In Class

ISP350H5 • Special Topics in Writing Studies

This course covers an in-depth special topic in Writing Studies. Content relates to instructor's area of interest, thus the course varies in focus from year to year. This course may satisfy either the Humanities or Social Sciences distribution requirement, depending on the topic offered. The contact hours for this course may vary in terms of contact type (L,S,T,P) from year to year, but will be between 24-36 contact hours in total. See the UTM Timetable.

Mode of Delivery: In Class

ISP490Y5 • Independent Reading

This course is intended to offer students advanced supervised reading and research experience within the areas of writing studies, numeracy, and pedagogy. Based on the nature of the project, projects may satisfy the Humanities, Sciences or Social Sciences distribution requirement. Students interested in this course should obtain a supervisor before applying directly to the Institute for the Study of University Pedagogy.

Mode of Delivery: In Class

ISP491H5 • Independent Reading

This course is intended to offer students advanced supervised reading and research experience within the areas of writing studies, numeracy, and pedagogy. Based on the nature of the project, projects may satisfy the Humanities, Sciences or Social Sciences distribution requirement. Students interested in this course should obtain a supervisor before applying directly to the Institute for the Study of University Pedagogy.

Mode of Delivery: In Class

UTM LAUNCH

UTM101H5 • LAUNCH: Business, Commerce and Management

These are informative weekly sessions taught by academically successful upper-year students enrolled in Business, Commerce and/or Management. Through engaging pedagogy you will develop strong study habits, discover the wide range of resources available to you as a student at UTM, and build a strong community with other first-year students in your academic discipline. LAUNCH is free to all new students. No credit is awarded for LAUNCH.

Mode of Delivery: In Class

UTM102H5 • LAUNCH: Science, Mathematics and Psychology

These are informative weekly sessions taught by academically successful upper-year students enrolled in Science, Mathematics, and/or Psychology. Through engaging pedagogy you will develop strong study habits, discover the wide range of resources available to you as a student at UTM, and build a strong community with other first-year students in your academic discipline. LAUNCH is free to all new students. No credit is awarded for LAUNCH.

Mode of Delivery: In Class

UTM103H5 • LAUNCH: Humanities and Social Science

These are informative weekly sessions taught by academically successful upper-year students enrolled in Humanities and/or Social Science. Through engaging pedagogy you will develop strong study habits, discover the wide range of resources available to you as a student at UTM, and build a strong community with other first-year students in your academic discipline. LAUNCH is free to all new students. No credit is awarded for LAUNCH.

Mode of Delivery: In Class

utmONE

UTM108H5 • utmONE: Special Topics at the Intersection of Science and Social Science

This course brings together first-year students to explore a current topic or problem at the intersection of science and social science in a small-group environment. The focus of each section will depend on the instructor's areas of expertise and will provide students with the opportunity to develop foundational learning strategies and sharpen their academic skills to support the transition into university.

Exclusions: UTM109H5 or UTM110H5 or UTM111H5 or UTM112H5 or UTM113H5 or UTM114H5 or UTM115H5 or UTM116H5 or UTM117H5 or UTM118H5 or UTM119H5 or UTM190H5 or UTM191H5 or UTM192H5 or UTM193H5 or UTM194H5 or UTM195H5 or UTM196H5 or UTM197H5

Distribution Requirements: Science, Social Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

UTM109H5 • utmONE: Special Topics at the Intersection of Science and Humanities

Distribution Requirements: Social Science, Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

UTM111H5 • utmONE: Tools of the Trade

This course is an introduction to the common problem-solving tools used in the sciences and social sciences. It is designed to address the fundamental skills needed for comprehension and effective communication in these areas. The skills being addressed may include critical analysis of texts (primary literature, review papers, textbooks), use of databases to gather, manipulate and visualize data; interpretation and presentation of data; information gathering and writing skills (lab reports, critical essays); and oral presentations. Specific examples will be drawn from a variety of current research topics in both the sciences and social sciences. As part of this course

students will participate in a series of tutorials that will help them build foundations for academic success (such as understanding the value of higher education, developing a growth mindset, and finding passion).

Exclusions: UTM110H5 or UTM112H5 or UTM114H5 or UTM115H5 or UTM116H5 or UTM117H5 or UTM118H5 or UTM119H5 or UTM190H5 or UTM191H5 or UTM192H5 or UTM193H5 or UTM194H5 or UTM195H5 or UTM196H5 or UTM197H5

Distribution Requirements: Social Science, Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

UTM112H5 • utmONE: Power of Expression

This course asks big questions about what creative expression is, how it influences society, and what role it plays in people's lives. Students will explore expression as social and cultural production, as intervention, and as a tool for social dialogue through assignments and small group activities that develop and refine key skills relevant to the humanities and social sciences. As part of this course students will participate in a series of tutorials that will help them build foundations for academic success (such as understanding the value of higher education, developing a growth mindset, and finding passion).

Exclusions: UTM110H5 or UTM111H5 or UTM114H5 or UTM115H5 or UTM116H5 or UTM117H5 or UTM118H5 or UTM119H5 or UTM190H5 or UTM191H5 or UTM192H5 or UTM193H5 or UTM194H5 or UTM195H5 or UTM196H5 or UTM197H5

Distribution Requirements: Humanities, Social Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

UTM114H5 • utmONE: Technology and Innovation: Historical, Social and Economic Perspectives

This course will explore the enormous opportunities and the complex challenges presented by technological development. Topics discussed will include the history of technological changes over the last decades, their effects on the social and economic environment, including new opportunities in different industries (from publishing, to education, to information technology and pharmaceuticals), the impact on income distribution, the ethical challenges related to scientific progress and its application, and the effect on the participation of women and minorities in the workforce (especially in high-tech industries). In this course, students will interact with local technology companies as well as policymakers. As part of this course students will participate in a series of tutorials that will help them build foundations for academic success (such as understanding the value of higher education, developing a growth mindset, and finding passion).

Exclusions: [UTM110H5](#) or [UTM111H5](#) or [UTM112H5](#) or [UTM115H5](#) or [UTM116H5](#) or [UTM117H5](#) or [UTM118H5](#) or [UTM119H5](#) or [UTM190H5](#) or [UTM191H5](#) or [UTM192H5](#) or [UTM193H5](#) or [UTM194H5](#) or [UTM195H5](#) or [UTM196H5](#) or [UTM197H5](#)

Distribution Requirements: Social Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

UTM115H5 • utmONE: Communication Among Cultures

This course is an introduction to inter-cultural communication primarily in the areas of writing and speaking. It is designed to address fundamental skills related to language use in the academic setting by focusing on topics such as customs, attitudes, beliefs, and values. Specific examples will be drawn from real-life university situations, and multiple viewpoints on the nature of diversity in communication will be discussed. As part of this course students will participate in a series of tutorials that will help them build foundations for academic success (such as understanding the value of higher education, developing a growth mindset, and finding passion).

Exclusions: [UTM110H5](#) or [UTM111H5](#) or [UTM112H5](#) or [UTM114H5](#) or [UTM116H5](#) or [UTM117H5](#) or [UTM118H5](#) or [UTM119H5](#) or [UTM190H5](#) or [UTM191H5](#) or [UTM192H5](#) or [UTM193H5](#) or [UTM194H5](#) or [UTM195H5](#) or [UTM196H5](#) or [UTM197H5](#)

Distribution Requirements: Humanities, Social Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

UTM116H5 • utmONE: Happiness

This course investigates the concept of happiness from its earliest articulations in the ancient world to today. Drawing on a wide array of sources in disciplines in the social sciences and humanities, we will investigate "happiness" across time and place. Throughout the semester students will reflect on the concept as it relates to their own lives as well as how it shapes society as a whole. As part of this course students will participate in a series of tutorials that will help them build foundations for academic success (such as understanding the value of higher education, developing a growth mindset, and finding passion).

Exclusions: [UTM110H5](#) or [UTM111H5](#) or [UTM112H5](#) or [UTM114H5](#) or [UTM115H5](#) or [UTM117H5](#) or [UTM118H5](#) or [UTM119H5](#) or [UTM190H5](#) or [UTM191H5](#) or [UTM192H5](#) or [UTM193H5](#) or [UTM194H5](#) or [UTM195H5](#) or [UTM196H5](#) or [UTM197H5](#)

Distribution Requirements: Humanities, Social Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

UTM117H5 • utmONE: Individualism, The Development Of An Idea

Through an interdisciplinary lens, this course investigates the concept of individualism from its beginnings in antiquity through today. Students will explore the relationships as well as the tensions between the individual and society. As part of this course students will participate in a series of tutorials that will introduce them to essential elements of a holistic student experience (such as career exploration, health and wellness, and co-curricular engagement).

Exclusions: [UTM110H5](#) or [UTM111H5](#) or [UTM112H5](#) or [UTM114H5](#) or [UTM115H5](#) or [UTM116H5](#) or [UTM118H5](#) or [UTM119H5](#) or [UTM190H5](#) or [UTM191H5](#) or [UTM192H5](#) or [UTM193H5](#) or [UTM194H5](#) or [UTM195H5](#) or [UTM196H5](#) or [UTM197H5](#)

Distribution Requirements: Humanities, Social Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

UTM118H5 • utmONE: Science of Learning

This interdisciplinary course encourages students to take ownership of their education through a focus on the process of learning how to learn and by cultivating the habits of mind for lifelong achievement and success. Students will explore theories of learning and research on the strategies students should employ to reach deep understanding. "Science of Learning" is designed to help students develop their critical thinking, university-level oral and written communication, critical reading, and other foundational academic skills. As part of this course students will participate in a series of tutorials that will help them build foundations for academic success (such as understanding the value of higher education, developing a growth mindset, and finding passion).

Exclusions: [UTM110H5](#) or [UTM111H5](#) or [UTM112H5](#) or [UTM114H5](#) or [UTM115H5](#) or [UTM116H5](#) or [UTM117H5](#) or [UTM119H5](#) or [UTM190H5](#) or [UTM191H5](#) or [UTM192H5](#) or [UTM193H5](#) or [UTM194H5](#) or [UTM195H5](#) or [UTM196H5](#) or [UTM197H5](#)

Distribution Requirements: Social Science, Science

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

UTM119H5 • utmONE: Lights, Camera, Culture: Exploration of Cinema

This course will explore how cinematic movies represent time capsules. They tell stories that embody historical events, describe political ideas, represent race and gender roles, disseminate propaganda, display economic class difference, demonstrate the technological sophistication of its day, capture styles of fashion, music and art, and propagate culturally important ideas. As movies are watched by everyone across the whole socioeconomic spectrum (both historically and currently),

students will have an opportunity to evaluate and discuss how this powerful form of media has had and will continue to play an important role in representing and shaping society. As part of this course students will participate in a series of tutorials that will introduce them to essential elements of a holistic student experience (such as career exploration, health and wellness, and co-curricular engagement).

Exclusions: UTM110H5 or UTM111H5 or UTM112H5 or UTM114H5 or UTM115H5 or UTM116H5 or UTM117H5 or UTM118H5 or UTM190H5 or UTM191H5 or UTM192H5 or UTM193H5 or UTM194H5 or UTM195H5 or UTM196H5 or UTM197H5

Distribution Requirements: Humanities, Social Science

Mode of Delivery: In Class

utmONE Scholars

UTM190H5 • utmONE Scholars: Special Topics at the Intersection of Social Science and Humanities

This course brings together first-year students who have demonstrated outstanding academic achievement to explore a current topic or problem at the intersection of social science and humanities in a small-group environment. The focus of each section will depend on the instructor's areas of expertise and will provide students with the opportunity to develop university-level research and critical thinking skills to support the transition into university. Note: All interested students must apply and a select group of academically successful students will be accepted into utmONE Scholars. The application can be found here: <https://uoft.me/utmone-scholars>

Exclusions: UTM110H5 or UTM111H5 or UTM112H5 or UTM114H5 or UTM115H5 or UTM116H5 or UTM117H5 or UTM118H5 or UTM119H5 or UTM191H5 or UTM192H5 or UTM193H5 or UTM194H5 or UTM195H5 or UTM196H5 or UTM197H5

Enrolment Limits: This course is open to first-year students only.

Distribution Requirements: Humanities, Social Science

Total Instructional Hours: 24S

Mode of Delivery: In Class

UTM191H5 • utmONE Scholars: Special Topics at the Intersection of Science and Social Science

This course brings together first-year students who have demonstrated outstanding academic achievement to explore a current topic or problem at the intersection of science and social science in a small-group environment. The focus of each section will depend on the instructor's areas of expertise and will provide students with the opportunity to develop university-level research and critical thinking skills to support the transition into

university. Note: All interested students must apply and a select group of academically successful students will be accepted into utmONE Scholars. The application can be found here: <https://uoft.me/utmone-scholars>

Exclusions: UTM110H5 or UTM111H5 or UTM112H5 or UTM113H5 or UTM114H5 or UTM115H5 or UTM116H5 or UTM117H5 or UTM118H5 or UTM119H5 or UTM190H5 or UTM192H5 or UTM193H5 or UTM194H5 or UTM195H5 or UTM196H5 or UTM197H5

Enrolment Limits: This course is open to first-year students only.

Distribution Requirements: Science, Social Science

Total Instructional Hours: 24S

Mode of Delivery: In Class

UTM192H5 • utmONE Scholars: Special Topics at the Intersection of Science and Humanities

This course brings together first-year students who have demonstrated outstanding academic achievement to explore a current topic or problem at the intersection of science and humanities in a small-group environment. The focus of each section will depend on the instructor's areas of expertise and will provide students with the opportunity to develop university-level research and critical thinking skills to support the transition into university. Note: All interested students must apply and a select group of academically successful students will be accepted into utmONE Scholars. The application can be found here: <https://uoft.me/utmone-scholars>

Exclusions: UTM110H5 or UTM111H5 or UTM112H5 or UTM113H5 or UTM114H5 or UTM115H5 or UTM116H5 or UTM117H5 or UTM118H5 or UTM119H5 or UTM190H5 or UTM191H5 or UTM193H5 or UTM194H5 or UTM195H5 or UTM196H5 or UTM197H5

Enrolment Limits: This course is open to first-year students only.

Distribution Requirements: Science, Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

UTM193H5 • utmONE Scholars: Nations Colliding?

This course investigates the complexity of our global interconnectedness through the lens of a substantive topic. Questions vary annually, but may include: Do all nations benefit equally from this increasing connectivity? How do global connections affect culture? What strategies offer long-term sustainability? What are the impacts of interconnectedness, both to individual citizens and to societies at large? Questions will be explored using a multidisciplinary approach. Note: All interested students must apply and a select group of academically successful students will be accepted into utmONE Scholars. The application can be found here: <https://uoft.me/utmone-scholars>

Exclusions: UTM110H5 or UTM111H5 or UTM112H5 or UTM113H5 or UTM114H5 or UTM115H5 or UTM116H5 or UTM117H5 or UTM118H5 or UTM119H5 or UTM190H5 or UTM191H5 or UTM192H5 or UTM194H5 or UTM195H5 or UTM196H5 or UTM197H5

Enrolment Limits: This course is open to first-year students only.

Distribution Requirements: Humanities, Social Science

Total Instructional Hours: 24S

Mode of Delivery: In Class

UTM194H5 • utmONE Scholars: Religion and Politics

This course aims to engage with the current political challenges that religion in its diverse manifestations poses to secular society and political systems. This seminar will encourage students to become more thoughtful and self-critical about how society responds socially and politically to these challenges in the 21st-century. Note: All interested students must apply and a select group of academically successful students will be accepted into utmONE Scholars. The application can be found here: <https://uoft.me/utmone-scholars>

Exclusions: UTM110H5 or UTM111H5 or UTM112H5 or UTM113H5 or UTM114H5 or UTM115H5 or UTM116H5 or UTM117H5 or UTM118H5 or UTM119H5 or UTM190H5 or UTM191H5 or UTM192H5 or UTM193H5 or UTM195H5 or UTM196H5 or UTM197H5

Enrolment Limits: This course is open to first-year students only.

Distribution Requirements: Humanities, Social Science

Total Instructional Hours: 24S

Mode of Delivery: In Class

UTM195H5 • utmONE Scholars: Curiosity and Control: Voyages of Discovery to North America

Students will investigate how both a curiosity for novelty and a desire for control motivated the so-called "Age of Discovery" and shaped the experiences of First Nations, Africans, and Europeans in medieval and early modern North America. With a focus on how people adapted to new environments, this course will provide opportunities for students to explore historical questions with contemporary resonance from the perspectives of both science and the humanities. Note: All interested students must apply and a select group of academically successful students will be accepted into utmONE Scholars. The application can be found here: <https://uoft.me/utmone-scholars>

Exclusions: UTM110H5 or UTM111H5 or UTM112H5 or UTM113H5 or UTM114H5 or UTM115H5 or UTM116H5 or UTM117H5 or UTM118H5 or UTM119H5 or UTM190H5 or UTM191H5 or UTM192H5 or UTM193H5 or UTM194H5 or UTM196H5 or UTM197H5

Enrolment Limits: This course is open to first-year

students only.

Distribution Requirements: Humanities, Science

Total Instructional Hours: 24S

Mode of Delivery: In Class

UTM196H5 • utmONE Scholars: Building Global Justice

This course focuses on themes of social justice, global change, and conflict through the lens of multiple disciplines. Through the exploration of concepts such as class, race, gender, religion, culture, and power on a global level, students will be involved in assignments and small group activities that develop and refine key skills that contribute to student success in university courses. Note: All interested students must apply and a select group of academically successful students will be accepted into utmONE Scholars. The application can be found here: <https://uoft.me/utmone-scholars>

Exclusions: UTM110H5 or UTM111H5 or UTM112H5 or UTM113H5 or UTM114H5 or UTM115H5 or UTM116H5 or UTM117H5 or UTM118H5 or UTM119H5 or UTM190H5 or UTM191H5 or UTM192H5 or UTM193H5 or UTM194H5 or UTM195H5 or UTM197H5

Enrolment Limits: This course is open to first-year students only.

Distribution Requirements: Humanities, Social Science

Total Instructional Hours: 24S

Mode of Delivery: In Class

UTM197H5 • utmONE Scholars: Humans in Nature: Interactions and Impacts

This course will explore how humans have utilized the natural world and the impacts it has had on both the global environment and human societies. We will focus on topics such as human and natural history, conservation, sustainability, resource exploitation, domestication, GMOs, and our fascination with nature. The course will include a field walk in our campus environment.

Exclusions: UTM110H5 or UTM111H5 or UTM112H5 or UTM114H5 or UTM115H5 or UTM116H5 or UTM117H5 or UTM118H5 or UTM119H5 or UTM190H5 or UTM191H5 or UTM192H5 or UTM193H5 or UTM194H5 or UTM195H5 or UTM196H5

Distribution Requirements: Social Science, Science

Total Instructional Hours: 24S

Mode of Delivery: In Class

The study of Theatre, Drama and Performance examines the relationship between the artists who create written texts intended for production, the artists who turn scripts into performances, and the audiences who experience the resulting theatrical event. It is the study of the event itself, and the acts of creation involved in producing that event. Understanding Theatre, Drama and Performance involves the study of plays, actors, theatres, designers and audiences from the classical Greek stage to the most modern experimental performance.

The focus of Theatre, Drama and Performance Studies at U of T Mississauga, both curricular and extra-curricular, is the Erindale Studio Theatre and the Multi-Media Studio Theatre. The Erindale Studio Theatre is used for performances of Theatre Erindale, the production company of the Specialist Program, and for performances of the U of T Mississauga Drama Club. MiST is used for teaching and co-curricular and extra-curricular performances by all programs.

Courses in related topics are given in many disciplines. A list of these courses is given in the General Notes for All Programs below, and students interested in the field are advised to consider taking some of them. No more than a combination of 15.0 Drama-related courses may be taken.

No more than 1.5 credits can be double counted towards two programs of study in English, Drama, or Creative Writing.

Students should also review the Degree Requirements section prior to selecting courses

Theatre, Drama and Performance Studies Programs

Theatre and Drama Studies - Specialist (Arts)

The study of Theatre, Drama and Performance examines the relationship between the artists who create written texts intended for production, the artists who turn scripts into performances, and the audiences who experience the resulting theatrical event. It is the study of the event itself and the acts of creation involved in producing that event. Theatre, Drama and Performance involves the study of plays, actors, directors, theatres, designers, and audiences from the classical stage to contemporary plays and performances from around the world.

The focus of Theatre, Drama and Performance Studies at U of T Mississauga, both curricular and extra-curricular, is the Erindale Studio Theatre and the Multi-Media Studio Theatre in the CCT Building (or MiST). The Erindale Studio Theatre is used for performances of Theatre Erindale, the production company of the Specialist Program, and for performances of the English and Drama Student Society (EDSS). MiST is used for teaching and co-curricular and extra-curricular performances by all programs. We also have several rehearsal halls in Deerfield Hall that are used for classes, performances, and other program activities.

Courses in related topics are given in many disciplines. A list of these courses is given in the general notes for All Programs below and students interested in the field are advised to consider taking some of them.

No more than 1.5 credits can be double counted towards two programs of study in English, Drama, or Creative Writing.

==

The Specialist Honours Program in Theatre & Drama Studies, offered jointly with Sheridan College, involves the study of plays, actors, theatres, designers and audiences from the classical stage to contemporary plays and performances from around the world. We give students the opportunity to earn a two-year (equivalent) conservatory diploma in professional actor training from Sheridan within a Specialist degree in performance history and theory and dramatic literature from U of T Mississauga. This high-powered combined program prepares students for a career on the stage or behind the scenes in the professional theatre world, or for drama teaching at the high school or university level.

Enrolment Requirements:

Limited Enrolment — Enrolment in this program is limited to students who are successful in an audition, conducted in the spring of each year. For audition requirements, please see the website www.utm.utoronto.ca/reg/audition. Enrolment in all studio courses (DRS) is restricted to students in the Specialist Program. Students applying to proceed to the second year of the Theatre and Drama Studies program must have completed 4.0 credits with a minimum CGPA of 2.0.

TDS students must enroll in the Specialist Subject POST at the end of the first year. Check your email and ACORN for further information about your Subject POST or contact your undergraduate advisor.

Completion Requirements:

12.0 credits are required.

First Year:

1. DRE121H5 or ENG121H5
2. DRS121H5 and DRS122H5
3. DRE122H5 or ENG122H5

Second Year:

1. DRE200H5 and DRE222H5
2. DRS221H5 and DRS222H5

Third & Fourth Year:

1. DRS321H5 and DRS322H5
2. DRS325H5 and DRS326H5
3. DRS421H5 and DRS422H5
4. DRS425H5 and DRS426H5
5. 1.5 DRE credit at the 300/400-level
6. 0.5 DRE credit at the 400-level
7. 2.0 additional credits of drama-related courses (see course list below)

NOTES:

1. Additional DRE courses and the following drama-related courses can be used to fulfill the requirements for any Theatre, Drama and Performance Studies program: CIN206H5 or CIN207H5 or CIN208H5 or CIN215H5 or CIN308H5 or CIN403H5 or CLA300H5 or DRE226H5 or ENG218H5 or ENG261H5 or ENG263H5 or ENG317H5 or ENG330H5 or ENG331H5 or ENG335H5 or ENG336H5 or ENG337H5 or ENG340H5 or ENG341H5 or ENG342H5 or ENG343H5 or ENG352H5 or ENG424H5 or ENG425H5 or ENG426H5 or ENG434H5 (when drama related) or ENG435H5 or ENG436H5 (when drama related) or ENG460H5 or ENG461H5 or ENG462H5 or ENG463H5 or ENG470H5 or ENG471H5 or ENG472H5 or ENG473H5 (when drama related) or FAH475H5 or FRE315Y5 or FRE393H5 or FRE397H5 or FRE417H5 or GER353H5 or GER355H5 or ITA242H5 or ITA246H5 or ITA247H5 or ITA307H5 or ITA309H5 or ITA311H5 or ITA313H5 or ITA315Y5 or ITA342H5 or ITA343H5 or ITA413Y5 or ITA490Y5 or ITA495Y5 or VCC427H5. Many of these courses have **departmental prerequisites**. **You should consult the academic calendar before enrolling or contact the Undergraduate Advisor for assistance.**
2. ENG100H5 does not count toward the TDS Specialist program.
3. DRE201H5 is not intended for Specialists and does not count towards program requirements.
4. "Taking a year off" from this program is possible, if difficult, after the first and second year, problematic and nearly impossible after the third year. *Returning at any point requires consultation with the Director of Drama Studies at UTM and the Program Coordinator at Sheridan College* and also depends on the availability of space in the class you wish to join. Likewise, students considering time away should also consult the *Director of Drama Studies at UTM and the Program Coordinator at Sheridan College*.

ERSPE1880

Dramaturgy and Drama Studies - Major (Arts)

Dramaturgy and Drama Studies (DDS) integrates creative and scholarly approaches to theatre through a common emphasis on dramaturgy. In addition to specific courses in developmental and production dramaturgy, the DDS program includes courses that examine theatre history, dramatic literature, critical theory, playwriting, devising, and intermedial performance, among others. DDS provides students with first-rate academic experience and credentials, while offering them ample opportunities for creative application of acquired knowledge and skills through practical components and practice-based research projects. All courses are taken at U of T Mississauga (UTM). Any courses taken outside of UTM should be pre-approved for credit by the Director of Drama Studies and the Undergraduate Advisor on a course-by-course basis.

Completion Requirements:

7.0 credits are required, as follows:

First and Second Years: ([DRE121H5](#) or [ENG121H5](#)) and ([DRE122H5](#) or [ENG122H5](#)) and [DRE200H5](#) and [DRE222H5](#)

Higher Years: 1.0 DRE at the 300 level and 4.0 credits from the drama-related courses, at least 1.0 at the 300+ level.

Note:

1. Additional DRE courses and the following drama-related courses can be used to fulfill the requirements for any Theatre, Drama and Performance Studies program: [CIN206H5](#) or [CIN207H5](#) or [CIN208H5](#) or [CIN215H5](#) or [CIN308H5](#) or [CIN403H5](#) or [CLA300H5](#) or [ENG218H5](#) or [ENG261H5](#) or [ENG263H5](#) or [ENG317H5](#) or [ENG330H5](#) or [ENG331H5](#) or [ENG335H5](#) or [ENG336H5](#) or [ENG337H5](#) or [ENG340H5](#) or [ENG341H5](#) or [ENG342H5](#) or [ENG343H5](#) or [ENG352H5](#) or [ENG424H5](#) or [ENG425H5](#) or [ENG426H5](#) or [ENG434H5](#) (when drama related) or [ENG435H5](#) or [ENG436H5](#) (when drama related) or [ENG460H5](#) or [ENG461H5](#) or [ENG462H5](#) or [ENG463H5](#) or [ENG470H5](#) or [ENG471H5](#) or [ENG472H5](#) or [ENG473H5](#) (when drama related) or [FAH475H5](#) or [FRE315Y5](#) or [FRE393H5](#) or [FRE397H5](#) or [FRE417H5](#) or [GER353H5](#) or [GER355H5](#) or [ITA242H5](#) or [ITA246H5](#) or [ITA247H5](#) or [ITA307H5](#) or [ITA309H5](#) or [ITA311H5](#) or [ITA313H5](#) or [ITA315Y5](#) or [ITA342H5](#) or [ITA343H5](#) or [ITA413Y5](#) or [ITA490Y5](#) or [ITA495Y5](#) or [VCC427H5](#). Many of these courses have **departmental prerequisites**. **You should consult the academic calendar before enrolling or contact the Undergraduate Advisor for assistance.**
2. Students enrolled in Specialist and Major programs in Drama who have completed 2.0 DRE credits may enrol in [ENG317H5](#) or [ENG330H5](#) or [ENG331H5](#) or [ENG335H5](#) or [ENG336H5](#) or [ENG340H5](#) or [ENG341H5](#) or [ENG342H5](#) or [ENG343H5](#).
3. DRS courses cannot be counted toward this program.

Dramaturgy and Drama Studies - Minor (Arts)

Dramaturgy and Drama Studies (DDS) integrates creative and scholarly approaches to theatre through a common emphasis on dramaturgy. In addition to specific courses in developmental and production dramaturgy, the DDS program includes courses that examine theatre history, dramatic literature, critical theory, playwriting, devising, and intermedial performance, among others. DDS provides students with first-rate academic experience and credentials, while offering them ample opportunities for creative application of acquired knowledge and skills through practical components and practice-based research projects. All courses are taken at U of T Mississauga (UTM). Any courses taken outside of UTM should be pre-approved for credit by the the Director of Drama Studies and the Undergraduate Advisor on a course-by-course basis.

Completion Requirements:

4.0 credits are required, as follows:

First and Second Years: (DRE121H5 or ENG121H5) and (DRE122H5 or ENG122H5) and DRE200H5 and DRE222H5

Higher years: 1.0 300/400 DRE credit and 1.0 further DRE from the drama-related courses.

Note:

1. Additional DRE courses and the following drama-related courses can be used to fulfill the requirements for any Theatre, Drama and Performance Studies program: CIN206H5 or CIN207H5 or CIN208H5 or CIN215H5 or CIN308H5 or CIN403H5 or CLA300H5 or ENG218H5 or ENG261H5 or ENG263H5 or ENG317H5 or ENG330H5 or ENG331H5 or ENG335H5 or ENG336H5 or ENG337H5 or ENG340H5 or ENG341H5 or ENG342H5 or ENG343H5 or ENG352H5 or ENG424H5 or ENG425H5 or ENG426H5 or ENG434H5 (when drama related) or ENG435H5 or ENG436H5 (when drama related) or ENG460H5 or ENG461H5 or ENG462H5 or ENG463H5 or ENG470H5 or ENG471H5 or ENG472H5 or ENG473H5 (when drama related) or FAH475H5 or FRE315Y5 or FRE393H5 or FRE397H5 or FRE417H5 or GER353H5 or GER355H5 or ITA242H5 or ITA246H5 or ITA247H5 or ITA307H5 or ITA309H5 or ITA311H5 or ITA313H5 or ITA315Y5 or ITA342H5 or ITA343H5 or ITA413Y5 or ITA490Y5 or ITA495Y5 or VCC427H5. Many of these courses have **departmental prerequisites**. **You should consult the academic calendar before enrolling or contact the Undergraduate Advisor for assistance.**
2. Students enrolled in Specialist and Major programs in Drama who have completed 2.0 DRE credits may enrol in ENG317H5 or ENG330H5 or EBG331H5 or ENG335H5 or ENG336H5 or ENG340H5 or ENG341H5 or ENG342H5 or ENG343H5.
3. DRS courses cannot be counted toward this program.

ERMIN2468

NOTES FOR ALL PROGRAMS

1. Enrolment in any program of study, including the second year of the Theatre and Drama Studies program, requires completion of 4.0 previous credits or their equivalent.
2. Additional DRE courses and the following drama-related courses can be used to fulfill the requirements for any Theatre, Drama and Performance Studies program:
 - CIN202H5, 301H5*, 302H5*, 303H5*, CLA300H5;
 - ENG220Y5, 330H5, 331H5*, 335H5*, 336H5*, 337H5, 340H5*, 341H5*, 342H5*, 352H5*, 424H5*/425H5*/426H5* (when drama related), 434H5*/435H5*/436H5* (when drama related), 460H5*/461H5*/462H5*/463H5* (when drama related); 470H5*/471H5*/472H5*/473H5* (when drama related);
 - FAH475H5;
 - FRE317H5, 393H5, 397H5;
 - GER353H5, 355H5*;
 - ITA242H5, 243H5, 246H5, 247H5, 307H5, 315Y5, 342H5, 343H5, 413Y5, 490Y5, 495Y5.

*= Departmental prerequisites
3. Students enrolled in Specialist and Major programs in Drama who have completed 2.0 DRE credits may enrol in ENG330H5, 331H5, 335H5, 336H5, 340H5, 341H5, 342H5
4. DRE courses are offered at University of Toronto Mississauga. DRS courses are offered at Sheridan College.

Theatre, Drama and Performance Studies Courses

Drama

DRE121H5 • Traditions of Theatre and Drama

An introductory survey of the forms and history of world drama from the classical period to the nineteenth century

in its performance context. May include later works influenced by historical forms and one or more plays in the Theatre Erindale schedule of production. May include a research performance component. This course is also listed as ENG121H5.

Exclusions: DRM100Y1 or ENG125Y1
Distribution Requirements: Humanities
Total Instructional Hours: 24L/12T
Mode of Delivery: In Class

DRE122H5 • Modern and Contemporary Theatre and Drama

An introductory survey of the forms and history of world drama from the late nineteenth century to the present in its performance context. May include film adaptations and one or more plays in the Theatre Erindale schedule of productions. May include a research performance component. This course is also listed as [ENG122H5](#).

Exclusions: [DRM100Y1](#) or [ENG125Y1](#)
Distribution Requirements: Humanities
Total Instructional Hours: 24L/12T
Mode of Delivery: In Class

DRE200H5 • Canadian Theatre History

A survey of the history of theatre in Canada, with particular emphasis on developments since the mid-twentieth century.

Prerequisites: [DRE/ENG121H5](#) and [ENG122H5](#), or permission of the U of T Mississauga program director.
Exclusions: [DRM268H1](#)
Distribution Requirements: Humanities
Total Instructional Hours: 36L
Mode of Delivery: In Class

DRE201H5 • Acting

A practical introduction to the art and craft of performance, intended for students with little or no previous experience or training. The course uses a range of acting exercises to

teach critical thinking, active listening, specificity of action, intention of thought, and team building. Students will engage in text analysis, collective creation, storytelling, physical and vocal exercises, and character development, in the process cultivating skills transferable to their chosen career path. This course is ideally suited for any student seeking to enhance their interpersonal and presentation skills.

Exclusions: [DRS121H5](#) or [DRS122H5](#)
Distribution Requirements: Humanities
Total Instructional Hours: 12L/24P
Mode of Delivery: In Class

DRE221Y5 • Shakespeare

A study of about twelve plays by Shakespeare, representing the different periods of his career and the different genres he worked in (comedy, history, tragedy). Such plays as: *Romeo and Juliet*; *A Midsummer Night's Dream*; *Richard II*; *Henry IV*, parts I and II; *Henry V*; *Twelfth Night*; *Measure for Measure*; *Hamlet*; *King Lear*; *Antony and Cleopatra*; *The Tempest*. The course provides an in-depth theatre-historical and practical introduction to Shakespeare's work and gives students the opportunity to

engage with a wide range of approaches to the staging of his plays.

Prerequisites: [DRE121H5](#) or [ENG121H5](#), and [DRE122H5](#) or [ENG122H5](#) Students who do not meet the prerequisite may petition the department in writing for approval to take the course. See the guidelines for written petitions on the department website.
Exclusions: [ENG220Y5](#) or [DRE224H5](#) or [DRE226H5](#) or [DRE370H5](#)
Distribution Requirements: Humanities
Total Instructional Hours: 48L/24T
Mode of Delivery: In Class

DRE222H5 • The Performance Text

An introduction to the techniques of dramaturgical analysis, through the study of a range of texts to which students might be exposed as theatre practitioners and audience members. Focus will be on the relationship between the performance event and its associated written text. Examples will emphasize modern and contemporary drama, as well as a range of styles, and will include one or more Theatre Erindale productions, and other appropriate productions, as well as a practical workshop component.

Prerequisites: ([DRE121H5](#) or [ENG121H5](#)) and ([DRE122H5](#) or [ENG122H5](#)) or permission of U of T Mississauga program director
Exclusions: [DRE240H5](#) or [DRE242H5](#) or [DRE244H5](#) or [DRE246H5](#)
Distribution Requirements: Humanities
Total Instructional Hours: 36L
Mode of Delivery: In Class

DRE224H5 • Introduction to Shakespeare

This course introduces students to Shakespeare. Lectures equip them with historical knowledge about literature, politics, and the theatre in Shakespeare's time. Tutorials help them to grapple with Shakespeare's language, versification, and stagecraft. By the end of the course students will have a new framework within which to understand - and interrogate - the enduring power of Shakespeare's work.

Prerequisites: Open to students who have successfully completed at least 4.0 full credits. Students who do not meet the prerequisite but are enrolled in any 100-level ENG or DRE course (except [ENG100H5](#)) may petition the department in writing for approval to take the course. See the guidelines for written petitions on the department website.
Exclusions: [ENG220Y5](#) or [DRE221Y5](#) or [ENG223H5](#)
Distribution Requirements: Humanities
Total Instructional Hours: 24L/12T
Mode of Delivery: In Class

DRE226H5 • Shakespeare in the Theatre

This course introduces students to Shakespeare's plays as works of theatre. We will study the spaces and performance practices for which these texts were originally written and explore how subsequent generations of theatre makers approached, adapted, and repurposed them for different performance venues and styles, and from different aesthetic, cultural, and political perspectives, from the seventeenth century to our own time, in Britain, North America, and beyond the English-speaking world. The course will include screenings of select landmark productions.

Prerequisites: Open to students who have successfully completed ([DRE121H5](#) or [ENG121H5](#)) and ([DRE122H5](#) or [ENG122H5](#)).

Exclusions: [DRE221Y5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/24P

Mode of Delivery: In Class

DRE299Y5 • Research Opportunity Program

This course provides a richly rewarding opportunity for students in their second year to work in the research project of a professor. Students enrolled have an opportunity to become involved in original research, learn research methods and share in the excitement and discovery of acquiring new knowledge. Project descriptions for the following fall-winter session are posted on the ROP website in mid-February and students are invited to apply at that time. See [Experiential and International Opportunities](#) for more details.

Prerequisites: 4.0 credits.

Distribution Requirements: Humanities

Mode of Delivery: In Class

DRE305H5 • Studies in Indigenous Performance

Topic for this course vary from year to year, depending on faculty research interests. The course may cover such matters as interdisciplinary approaches to Indigenous storytelling in experimental film, new media, digital arts and performance, including community collaboration, public spaces, archival or historical content, participatory performance, and decentralized theatre. It may include a practical workshop component and attending a rehearsal for an Indigenous lead production in Toronto.

Prerequisites: 4.0 full credits, including ([DRE121H5](#) or [ENG121H5](#)) and ([DRE122H5](#) or [ENG122H5](#)) or permission of the UTM program director

Recommended Preparation: [DRE200H5](#) and [DRE222H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

DRE342H5 • Studies in Twentieth Century Performance Styles

A seminar on a topic chosen by the instructor, having a particular focus on twentieth century theories of performance. Includes optional practical workshop component.

Prerequisites: 4.0 full credits, including [DRE/ENG121H5](#) and [DRE/ENG122H5](#); or permission of the UTM program director.

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

DRE344H5 • Studies in Theatre and Drama 1

Topic varies from year to year, depending on faculty research interests.

Prerequisites: 4.0 full credits, including [DRE/ENG121H5](#) and [DRE/ENG122H5](#); or permission of the UTM program director.

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

DRE346H5 • Studies in Theatre and Drama 2

Topic varies from year to year, depending on faculty research interests.

Prerequisites: 4.0 full credits, including [DRE/ENG121H5](#) and [DRE/ENG122H5](#); or permission of the UTM program director.

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

DRE347H5 • Studies in Theatre and Drama 3

Topic varies from year to year, depending on faculty research interests.

Prerequisites: 4.0 full credits, including [DRE/ENG121H5](#) and [DRE/ENG122H5](#); or permission of the UTM program director.

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

DRE348H5 • Production Dramaturgy

Plays from the Western theatrical tradition in contemporary productions.

Prerequisites: (DRE121H5 or ENG121H5) and (DRE122H5 or ENG122H5) and (DRE200H5 or DRE220H5) and DRE222H5 or permission of the U of T Mississauga program director.

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

DRE352H5 • Stage to Screen

A theoretical and historical study of the relationship between live and recorded media, with special consideration of the translation/adaption from theatrical production to film and television production. Discussion will focus on case studies. Includes optional practical workshop component.

Prerequisites: 4.0 full credits, including DRE/ENG121H5 and DRE/ENG122H5; or permission of the UTM program director.

Distribution Requirements: Humanities

Total Instructional Hours: 24P/24S

Mode of Delivery: In Class

DRE356H5 • Theory of Drama

A study of theories of drama, theatre and performance, with a special emphasis on semiotics. Topics will include the relationship between theatre and other modes of social interaction (the fashion show, the political convention), theatre and other performing arts, and theatre/drama as a literary genre. May include one or more Theatre Erindale and other productions in the syllabus.

Prerequisites: 4.0 full credits, including DRE/ENG121H5 and DRE/ENG122H5; or permission of the UTM program director.

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

DRE358H5 • The Audience and the Theatre

A theoretical and historical examination of the theatrical performance with a focus on the role of the audience. Topics will include the shifting relationship with performers, both collaborative and manipulative, a reflection on what makes theatre audiences different from other audiences, and what precisely happens at various stages of the playgoing experience. The second part of the semester will be devoted to a series of historical case studies, ranging from ancient Greece through

Shakespearian England to 17th-century Spain and 20th-century Germany.

Prerequisites: 4.0 full credits, including DRE/ENG121H5 and DRE/ENG122H5; or permission of the UTM program director.

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

DRE360H5 • Developmental Dramaturgy

A theoretical, historical, and practical study of the process of developmental dramaturgy. The course will include a survey and analysis of historical and contemporary interpretations of the role of dramaturgy in the creation of new work. Students will also participate in the practical application of dramaturgical strategies and techniques.

Prerequisites: (DRE121H5 or ENG121H5) and (DRE122H5 or ENG122H5) and (DRE200H5 or DRE220H5) and DRE222H5

Course Experience: Partnership-Based Experience

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

DRE362H5 • Playwriting

An introduction to the art and craft of writing for the stage. Through a variety of practical exercises, students will be encouraged to explore the unique properties of the theatrical environment. Topics for investigation will include general issues (such as language, plot structure, characterization, metaphor, and symbolism, etc.) as well as issues specific to the theatrical context (such as theatrical time and space, movement, engagement with an audience, relationship to other theatre practitioners, etc.). The class will involve writing in and out of class, as well as exercises in effective and constructive critique of one another's work.

Prerequisites: [4.0 full credits, including (DRE121H5 or ENG121H5) and (DRE122H5 or ENG122H5)] or permission of instructor. In some years, a portfolio submission will be required. Contact the undergraduate advisor for details.

Distribution Requirements: Humanities

Total Instructional Hours: 36S

Mode of Delivery: In Class

DRE363H5 • Workshop in Playwriting

This course is a continued exploration in writing for the stage for students who have already written one act or solo plays. Participant playwrights will complete a full-length play, incorporate complex structures and anti-structure, and advance their voices and skills as playwrights. The class will workshop scenes and prepare staged readings of participant work. A major focus of this

course will be processes of development and revision while working with directors, actors, dramaturgs, and other collaborators.

Prerequisites: A minimum of 4.0 credits, including (DRE121H5 or ENG121H5) and (DRE122H5 or ENG122H5) and DRE362H5 and permission of instructor. A portfolio submission may be required at the instructor's discretion, contact the undergraduate advisor for portfolio requirements and submission deadlines.

Distribution Requirements: Humanities

Total Instructional Hours: 36L

Mode of Delivery: In Class

DRE366H5 • Women in Theatre

Topics in the history of women in English-language theatre. Topics will vary from year to year, depending on available faculty. May include a practical workshop component.

Prerequisites: 4.0 full credits, including DRE/ENG121H5 and DRE/ENG122H5; or permission of the UTM program director.

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

DRE370H5 • Exploring Shakespeare in Performance

In this course, students will be introduced to contemporary theatrical approaches to the most canonical of dramatists. Through selected theoretical readings, interviews, practical exercises, and screenings of recent productions, we will explore tensions between reverential and radical treatments of the Shakespearean text, including topics such as the politics of casting, the role of the director, and the authority of the actor. The course will ask what it means to stage Shakespeare now and will equip students to develop their own and conceptual and theatrical responses to that question.

Prerequisites: Open to students who have successfully completed at least 4.0 full credits, including (DRE121H5 or ENG121H5) and (DRE122H5 or ENG122H5) and DRE226H5.

Exclusions: DRE221Y5

Distribution Requirements: Humanities

Total Instructional Hours: 24L/24T

Mode of Delivery: In Class

DRE380H5 • Repertory Theatre in Practice: The Shaw Festival

A study of the role of repertory theatre in the historical and current development of dramatic literature and performance practices, held-on-site at the Shaw Festival in Niagara-on-the-Lake, Ontario. Students will attend productions and lectures, interview actors, directors, designers, and administrators, and collaborate on a

staged reading with the assistance of company members. Topics may include the performance history of plays by Shaw, Chekhov, Ibsen, Wilde, and other playwrights within the Festival's mandate, the analysis of production elements from the perspectives of directors, actors, and designers, and the relevance of "classical" drama for the modern world. There is a nonrefundable fee associated with this course beyond tuition, for which the accepted students are responsible.

Prerequisites: 6.0 credits, including DRE121H5 and DRE122H5 and DRE200H5, and DRE222H5 or approved equivalent courses.

Recommended Preparation: Any DRE course on the 300- or 400-level and ENG340H5 and ENG341H5

Distribution Requirements: Humanities

Mode of Delivery: In Class

DRE392H5 • Independent Study 1

An independent project in theatre and drama studies, chosen by the student and supervised by a member of the faculty. The form of the project will be determined in consultation with the supervisor. A written proposal, signed by the supervisor, must be submitted for approval to the Program Director by May 15 if an "F" course, by November 1 if an "S" course. Proposal forms are available from the Undergraduate Advisor. Independent Study courses may not be taken simultaneously.

Prerequisites: Permission of the U of T Mississauga program director, and completion of three DRM/DRE/DRS credits.

Exclusions: DRM390Y5 or DRE390Y5

Distribution Requirements: Humanities

Mode of Delivery: In Class

DRE394H5 • Independent Study 2

An independent project in theatre and drama studies, chosen by the student and supervised by a member of the faculty. The form of the project will be determined in consultation with the supervisor. A written proposal, signed by the supervisor, must be submitted for approval to the Program Director by May 15 if an "F" course, by November 1 if an "S" course. Proposal forms are available from the Undergraduate Advisor. Independent Study courses may not be taken simultaneously.

Prerequisites: Permission of the U of T Mississauga program director, and completion of three DRM/DRE/DRS credits.

Exclusions: DRM390Y5 or DRE390Y5

Distribution Requirements: Humanities

Mode of Delivery: In Class

DRE399Y5 • Research Opportunity Program

For senior undergraduate students who have developed some knowledge of a discipline and its research methods, this course offers an opportunity to work on the research project of a professor. Students enrolled have an opportunity to become involved in original research, develop their research skills and share in the excitement and discovery of acquiring new knowledge. Project descriptions for the following fall-winter session are posted on the ROP website in mid-February and students are invited to apply at that time. See [Experiential and International Opportunities](#) for more details.

Prerequisites: permission of instructor

Distribution Requirements: Humanities

Mode of Delivery: In Class

DRE405H5 • Topics in Indigenous Performance

This senior research and creation seminar will explore topics in contemporary Indigenous performance. These topics will vary with faculty research interests; course may cover such matters as intergenerational cross-cultural collaboration, Anishinaabe star and land knowledge, working with culturally-codified objects, contextualizing projects in non-institutional spaces, international inter-indigenous productions, community outreach, and Indigenous feminisms and futurisms. The course may include a practical workshop component or a capstone research or performance project.

Prerequisites: 9 credits including ([DRE121H5](#) or [ENG121H5](#)) and ([DRE122H5](#) or [ENG122H5](#)) and either ([DRE200H5](#) or [DRE222H5](#)). Students who do not meet the prerequisite may petition the department in writing for approval to take the course. See the guidelines for written petitions on the department website.

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

DRE420H5 • Senior Seminar 1

A senior research seminar in Theatre and Performance. Topic will vary with instructor.

Prerequisites: 9 credits, including ([DRE121H5](#) or [ENG121H5](#)) and ([DRE122H5](#) or [ENG122H5](#)) and ([DRE200H5](#) or [DRE222H5](#)) or permission of the U of T Mississauga program director

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

DRE422H5 • Senior Seminar II

A senior research seminar in Theatre and Performance. Topic will vary with instructor.

Prerequisites: 9 credits, including ([DRE121H5](#) or [ENG121H5](#)) and ([DRE122H5](#) or [ENG122H5](#)) and ([DRE200H5](#) or [DRE222H5](#)); or permission of the U of T Mississauga program director

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

DRE463H5 • Senior Seminar III

A senior research seminar in performance and popular culture. Topic will vary with instructor.

Prerequisites: 9 credits, including ([DRE121H5](#) or [ENG121H5](#)) and ([DRE122H5](#) or [ENG122H5](#)) and ([DRE200H5](#) or [DRE222H5](#)); or permission of the U of T Mississauga program director

Distribution Requirements: Humanities

Drama Studio

DRS121H5 • Acting 1

Campus: Sheridan

(Offered at Sheridan College) This course will introduce the elements of practical Vocal, Physical, Textual, and Improvisational training for the novice actor, together with an Introduction to Theatre Organization, with an emphasis on releasing the natural impulse. In addition, the student will spend a minimum of 3 hours per week (averaged) in Stagecraft Labs gaining basic backstage and front-of-house skills, and in production-related duties. Typical production tasks are concentrated in 3- to 9-week periods and may include evenings and/or Saturdays.

Corequisites: [DRE121H5](#) or [ENG121H5](#)

Enrolment Limits: Studio courses are limited by audition to those in the Theatre and Drama Studies Program.

Distribution Requirements: Humanities

Total Instructional Hours: 108P

Mode of Delivery: In Class

DRS122H5 • Acting 2

Campus: Sheridan

(Offered at Sheridan College) The continuation of Acting 1. Stagecraft Labs are replaced, outside class hours, by a minimum of 3 hours per week (average) of production-related duties over the term.

Prerequisites: [DRS121H5](#) and ([DRE121H5](#) or [ENG121H5](#))

Corequisites: DRE122H5 or ENG122H5

Enrolment Limits: Studio courses are limited by audition to those in the Theatre and Drama Studies Program.

Distribution Requirements: Humanities

Total Instructional Hours: 108P

Mode of Delivery: In Class

DRS221H5 • Acting 3

Campus: Sheridan

(Offered at Sheridan College) Half of this course will continue and build upon the work begun in first year in Voice, Text, and Movement. The other half will be an Introduction to Scene Study, including character analysis for the actor, with realistic material from the Canadian and International repertoire. The student will be assigned a minimum of 75 hours of production-related duties outside class time over the year; typical tasks are concentrated in 3- to 9-week periods and may include evenings and/or Saturdays.

Prerequisites: At least 4.0 credits including DRS121H5 and DRS122H5 and (DRE121H5 or ENG121H5) and (DRE122H5 or ENG122H5)

Corequisites: At least one of DRE200H5 or DRE220H5 or DRE222H5 or DRE240H5 or DRE242H5 or DRE244H5 or DRE246H5

Enrolment Limits: Studio courses are limited by audition to those in the Theatre and Drama Studies Program.

Distribution Requirements: Humanities

Total Instructional Hours: 108P

Mode of Delivery: In Class

DRS222H5 • Acting 4

Campus: Sheridan

(Offered at Sheridan College) The continuation of DRS221H5 Acting 3.

Prerequisites: DRS221H5

Enrolment Limits: Studio courses are limited by audition to those in the Theatre and Drama Studies Program.

Distribution Requirements: Humanities

Total Instructional Hours: 108P

Mode of Delivery: In Class

DRS321H5 • Acting 5

Campus: Sheridan

(Offered at Sheridan College) Vocal, Physical, and Interpretive Techniques for the developing actor now become more specialized. Unarmed Combat, Period Movement, Contact Improvisation, Ensemble Singing, Intermediate Voice, Professional Practice, and various classical and contemporary styles are included (components may vary with the availability of Guest Instructors). In addition, each student will be scheduled regularly for a half-hour Tutorial to work on acting problems in a one-on-one situation.

Prerequisites: DRS222H5 and (DRE200H5 or DRE220H5) and DRE222H5

Corequisites: DRS325H5

Enrolment Limits: Studio courses are limited by audition to those in the Theatre and Drama Studies Program.

Distribution Requirements: Humanities

Total Instructional Hours: 108P

Mode of Delivery: In Class

DRS322H5 • Acting 6

Campus: Sheridan

(Offered at Sheridan College) The continuation of DRS321H5, Acting 5. Tutorials culminate in the major solo performance and dramaturgy exercise called the Junior Project.

Prerequisites: DRS321H5

Corequisites: DRS326H5

Enrolment Limits: Studio courses are limited by audition to those in the Theatre and Drama Studies Program.

Distribution Requirements: Humanities

Total Instructional Hours: 108P

Mode of Delivery: In Class

DRS325H5 • Production 1

Campus: Sheridan

(Offered at Sheridan College) The student will be cast in a public production, involving 12-33 hours of rehearsal and performance evenings and Saturdays for up to 9 weeks of the term. (Note that, at this level, evening classes in other departments are not possible.)

Prerequisites: DRS222H5 and (DRE200H5 or DRS220H5) and DRE222H5

Corequisites: DRS321H5

Enrolment Limits: Studio courses are limited by audition to those in the Theatre and Drama Studies Program.

Distribution Requirements: Humanities

Total Instructional Hours: 144P

Mode of Delivery: In Class

DRS326H5 • Production 2

Campus: Sheridan

(Offered at Sheridan College) The student will be cast in a second public production, involving 12-33 hours of rehearsal and performance evenings and Saturdays for up to 10 weeks of the term. (Note that, at this level, evening classes in other departments are not possible.)

Prerequisites: DRS325H5

Corequisites: DRS322H5

Enrolment Limits: Studio courses are limited by audition to those in the Theatre and Drama Studies Program.

Distribution Requirements: Humanities

Total Instructional Hours: 144P

Mode of Delivery: In Class

DRS421H5 • Acting 7

Campus: Sheridan

(Offered at Sheridan College) Work on Voice, Text, and Movement continues at an advanced level. Solo Singing, Senior Voice, Character Mask, Dance for Actors, and an Introduction to Sword are included (components may vary with the availability of Guest Instructors). Regular half-hour Tutorials continue, with emphasis on the development of individual audition material. Professional Practice classes include cold reading, mock auditions, and the realities of acting as a business. Styles include Acting for the Camera and other Media Workshops, as well as classes that could range from the Greeks to the Absurdist.

Prerequisites: [DRS322H5](#) and [DRS326H5](#) and 1.0 DRE credit at 300 level

Corequisites: [DRS425H5](#)

Enrolment Limits: Studio courses are limited by audition to those in the Theatre and Drama Studies Program.

Distribution Requirements: Humanities

Total Instructional Hours: 108P

Mode of Delivery: In Class

DRS422H5 • Acting 8

Campus: Sheridan

(Offered at Sheridan College) The continuation of [DRS421H5](#), Acting 7.

Prerequisites: [DRS421H5](#)

Corequisites: [DRS426H5](#)

Enrolment Limits: Studio courses are limited by audition to those in the Theatre and Drama Studies Program.

Distribution Requirements: Humanities

Total Instructional Hours: 108P

Mode of Delivery: In Class

DRS425H5 • Production 3

Campus: Sheridan

(Offered at Sheridan College) The student will be cast in a third public production, involving 12-33 hours of rehearsal and performance evenings and Saturdays for up to 9 weeks of the term. (Note that, at this level, evening classes in other departments are not possible.)

Prerequisites: [DRS326H5](#) and 1.0 DRE credit at 300 level.

Corequisites: [DRS421H5](#)

Enrolment Limits: Studio courses are limited by audition to those in the Theatre and Drama Studies Program.

Distribution Requirements: Humanities

Total Instructional Hours: 156P

Mode of Delivery: In Class

DRS426H5 • Production 4

Campus: Sheridan

(Offered at Sheridan College) The student will be cast in a fourth public production, involving 12-33 hours of rehearsal and performance evenings and Saturdays for up to 10 weeks of the term. (Note that, at this level, evening classes in other departments are not possible.)

Prerequisites: [DRS425H5](#)

Corequisites: [DRS422H5](#)

Enrolment Limits: Studio courses are limited by audition to those in the Theatre and Drama Studies Program.

Distribution Requirements: Humanities

Total Instructional Hours: 156P

Visual Culture and Communication (VCC) is an interdisciplinary undergraduate curriculum that provides students with a foundation in both visual cultural and communication studies (history, theory, and criticism) and digital communication practices (with courses taught at Sheridan Institute). The Specialist Program offers grounding in both the analysis of visual culture and the practices of visual communication. Students also take courses that are drawn from the Communication, Culture, Information & Technology program. Students graduate with an Honours Bachelor of Arts from the University of Toronto and a Certificate in Digital Communications from Sheridan College.

Increasingly, global cultures are dominated by visual communication, from art to advertising, propaganda to documentary photography, and film to websites. People of all generations are becoming active producers and consumers of visual culture. As digital technology expands, expertise in visual communication and design becomes essential for meeting the challenges of the global culture. VCC will prepare students to take an active and informed role in shaping 21st-century visual culture by bringing historical and theoretical study from multidisciplinary perspectives to bear on contemporary practice and debate.

Program website: www.utm.utoronto.ca/dvs

Visual Culture and Communication Programs

Visual Culture and Communication - Specialist (Arts)

Enrolment Requirements:

Limited Enrolment – Enrolment in this program is highly competitive and will be limited as follows (meeting the minimum requirements does not guarantee admission):

1. A minimum of 4.0 credits, including ISP100H5 and CCT109H5 and CCT110H5 and FAH101H5 and VCC101H5;
2. A minimum CGPA determined annually. It is generally between 2.7 and 3.0 and never lower than 2.2; and
3. A minimum 65% average among CCT109H5 and CCT110H5 and FAH101H5 and VCC101H5; with at least 60% in each course.

Tuition fees for students enrolling in this Department of Visual Studies program will be higher than for other Arts and Sciences programs.

Completion Requirements:

13.0 credits are required, including at least 1.0 credit of VCC at the 400 level.

Specialists in VCC are strongly urged to structure their studies as follows:

First Year: CCT109H5 and CCT110H5 and FAH101H5 and VCC101H5 and CIN101H5 and ISP100H5

Second Year:

1. 1.0 credit from CCT204H5 or CCT250H5 or CCT270H5
2. 1.0 credit from CCT200H5 or CCT206H5 or CCT210H5
3. 1.0 credit from VCC205H5 or VCC236H5 or VCC290H5

Third Year:

1. 2.0 credit from CCT310H5 or CCT311H5 or CCT336H5 and CCT351H5 and CCT352H5 and CCT353H5
2. 1.5 credits of VCC at the 300/400 level
3. 1.0 credit from VST410H5 or any CIN or FAH course at the 300/400 level

Fourth Year:

1. VCC400H5 and 0.5 additional credit of VCC at the 400 level
2. CCT357H5 and CCT417H5 and CCT434H5 (with permission and the appropriate prerequisites, up to 1.0 credit can be replaced with FAS246H5 or FAS346Y5 or FAS347Y5)

Note:

Students admitted to the program prior to 2022 must follow the program requirements in the 2021 academic calendar if they wish to receive the Certificate in Digital Communications from Sheridan College. The Certificate in Digital Communications will no longer be available for students enrolling in 2022 and beyond.

ERSPE1200

Visual Culture - Minor (Arts)

Completion Requirements:

4.0 total credits are required, including at least 1.0 credit at the 300/400 level.

First Year: VCC101H5

Second Year: At least 1.0 credit at the 200 level in VCC/CIN

Upper Years: 2.5 credits at the 300/400 level in VCC/CIN/VST, ENG235H5, ANT208H5, WGS336H5, WGS375H5. In consultation with the undergraduate counsellor HIS494H5 may qualify on a year-to-year basis.

ERMIN1210

Visual Culture and Communication Courses

VCC101H5 • Introduction to Visual Culture

(Formerly CCT201H5/VCC201H5) Introduces the ways in which we use and understand images across the realms of art, advertising, mass media, and science, with examples drawn from painting, photography, film, television, and new media. Presents a diverse range of recent approaches to visual analysis and key theories of visual culture.

Exclusions: FAH201H5 or CCT201H5 or VCC201H5

Recommended Preparation: CCT109H5 or (FAH101H5 or FAH202H5)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

VCC205H5 • Monsters

This course examines monster movies and television shows alongside readings from monster literature, comics, and critical essays. It considers the social significance of the monster in order to learn something about how the threat of the monster relates to historical anxieties concerning mass-media technologies, social deviance, and the hybrid forms of visual media culture that we typically associate with the era of 21st-century convergence culture but define the genre of monster media from its ancient beginnings.

Exclusions: VCC340H5

Recommended Preparation: VCC101H5 or VCC201H5

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T/24P

Mode of Delivery: In Class

VCC207H5 • Urban Sites and Sounds

Introduces students to histories and theories of urban spaces emphasizing the modern city. Drawing from history, architecture, geography, and media studies, the course explores how urban change is evident in the

spaces, forms, and sounds of the modern city. Case studies of specific urban environments depending on instructor's research emphasis.

Recommended Preparation: VCC101H5 or VCC201H5

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

VCC236H5 • North American Consumer Culture: 1890-Present

Examines the history and theoretical treatments of mass consumerism in North American society. We will look at the relationship between the market and cultural politics, cultural production, and mass consumption. Specific topics include: the shift from mass production to mass consumption; the growth of department stores; the rise of advertising; the relationship of race, class, and gender to consumer capitalism; the development of product brands; and the emergence of global marketing.

Exclusions: HIS336H5 or VCC336H5

Recommended Preparation: VCC101H5 or VCC201H5

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

VCC290H5 • Topics in Visual Culture and Communication

An examination of a topic in Visual Culture. Topics vary from year to year; the content in any given year depends on the instructor. This will be a lecture course.

Recommended Preparation: VCC101H5 or VCC201H5

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

VCC292H5 • Topics in Visual Culture and Communication

An in-depth examination of topics in visual and media culture, from both historical and contemporary perspectives. Topics vary from year to year, and the content in any given year depends upon the instructor.

Recommended Preparation: VCC101H5 or VCC201H5
Distribution Requirements: Humanities
Total Instructional Hours: 24L/12T
Mode of Delivery: In Class

VCC304H5 • Visual Culture and the Politics of Identity

Examines the ways in which social-cultural identities are constructed by, and at times disrupt, various visual technologies, logics, and representational strategies. Issues and problems to be addressed include nationality, stereotyping, invisibility, and surveillance. Course materials will be drawn from modern and contemporary art and visual culture, and will also include readings from the fields of feminism, race studies, queer theory, and performance studies.

Prerequisites: CCT200H5 or VCC101H5 or VCC201H5
Distribution Requirements: Humanities
Total Instructional Hours: 24L
Mode of Delivery: In Class

VCC306H5 • Visual Culture and Colonialism

Many of our most popular and influential image technologies, visual forms, and ways of thinking about images first developed in the second half of the 19th century: the heyday of European colonialism. This course re-examines the visual culture of modernity in the light of this deeply colonial genealogy, through forms such as photography, colour printing, film, exhibitions, postcards, maps, scientific illustrations, and the body as image.

Prerequisites: VCC101H5 or VCC201H5
Exclusions: VCC302H5
Distribution Requirements: Humanities
Total Instructional Hours: 24L
Mode of Delivery: In Class

VCC308H5 • Activism in Visual and Media Culture

This course will examine political and social activism in visual and media culture focusing on the role that visual representation has played in social movements and how artists/activists have employed visual media to achieve specific ends that challenge and resist dominant visual representations and political formations.

Prerequisites: VCC101H5 or VCC201H5
Distribution Requirements: Humanities
Total Instructional Hours: 24L
Mode of Delivery: In Class

VCC309H5 • Society and Spectacle

Spectacles have been vehicles of social and political power at varying historical moments and locations. Since Guy Debord's *Society of the Spectacle* was published in 1967 the term has been deployed as a critical concept for thinking about visual culture. This course takes up a number of historical case studies in order to locate and situate phenomena associated with spectacle and spectacular visual entertainments. Topics may include the role of images in mediating contemporary social relations and the connection between spectacle and violence.

Prerequisites: VCC101H5 or VCC201H5
Exclusions: VCC209H5
Distribution Requirements: Humanities
Total Instructional Hours: 24L/36P
Mode of Delivery: In Class

VCC334H5 • Media Realities

This course examines the relationship between mass media technologies and the idea of "reality" with an emphasis on the electronic and digital forms that dominate the discourse of "reality" in contemporary media culture, television, and the Internet. It will explore such questions as: How do shifting aesthetic conventions of realism, "reality" programming, and documentary inflect both theoretical and historical understandings of what constitutes reality? And how do our ideas of media technology inform these conventions and the understandings they produce?

Prerequisites: VCC101H5 or VCC201H5
Distribution Requirements: Humanities
Total Instructional Hours: 24L/24P
Mode of Delivery: In Class

VCC338H5 • Picturing the Suburbs

This course considers how images of suburbia circulate between two interrelated but often counter-posed realms of visual culture: the popular genres of film, television, and new media entertainment and the iconography of "high" art practices such as painting, photography, and avant-garde film. In the process it addresses such fundamental issues as the relation between art and mass production, the aesthetics of private and public space, and the role that visual media play in constructing the socio-political space of the built environment.

Prerequisites: VCC101H5 or VCC201H5
Distribution Requirements: Humanities
Total Instructional Hours: 24L/24P
Mode of Delivery: In Class

VCC360H5 • South Asian Visual Culture

Popular imagery from the Indian subcontinent is now increasingly visible in the global arena, particularly via the

West's discovery of 'Bollywood.' But what have these images meant to South Asians themselves, what are their histories, what traditions and practices do they draw on? This course introduces key concepts for understanding South Asian visual culture and its multifaceted postcolonial modernity. Images examined include popular prints, film, photography, comic books, urban environments, advertisements, crafts, art, propaganda, rituals, television, and the internet.

Prerequisites: VCC101H5 or VCC201H5

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

VCC390H5 • Topics in Visual Culture and Communication

An in-depth examination of topics in visual and media culture, from both historical and contemporary perspectives. Topics vary from year to year, and the content in any given year depends upon the instructor.

Prerequisites: VCC101H5 or VCC201H5

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

VCC392H5 • Topics in Visual Culture and Communication

An in-depth examination of topics in visual and media culture, from both historical and contemporary perspectives. Topics vary from year to year, and the content in any given year depends upon the instructor.

Prerequisites: VCC101H5 or VCC201H5

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

VCC399Y5 • Research Opportunity Program (ROP)

This course provides a richly rewarding opportunity for third or higher year students who have developed some knowledge of visual culture and communication to work on the research project of a professor in return for 399Y course credit. Students enrolled have an opportunity to become involved in original research, enhance their research skills, and share in the excitement and discovery of acquiring new knowledge. Participating faculty members post their project descriptions for the following summer and fall/winter session on the ROP website in mid-February and students are invited to apply at that time. See Experiential and International Opportunities for more details.

Prerequisites: (VCC101H5 or VCC201H5) and a minimum of 10.0 credits.

Exclusions: CCT299Y5 or CCT399Y5

Distribution Requirements: Humanities

Mode of Delivery: In Class

VCC400H5 • Advanced Project

This course is designed to serve as a capstone course for VCC specialists. Students engage with advanced readings in the field and refine skills in critical analysis of selected topics in VCC. A major focus is the design and implementation of an advanced research project selected in consultation with an instructor.

Prerequisites: (VCC101H5 or VCC201H5) and

completion of 13.0 credits. Open only to VCC specialists.

Exclusions: CCT400H5 or HSC400H5

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

VCC405H5 • Individual Project

A research project carried out under the supervision of a faculty member. Students will carry out a research project on a selected topic related to VCC. Students must obtain signed permission from the faculty member they would like to have as their supervisor.

Prerequisites: Completion of 13.0 credits including VCC400H5

Distribution Requirements: Humanities

Mode of Delivery: In Class

VCC406H5 • Post-Colonialism and the Image

How has the legacy of modern colonialism across the globe impacted how we see images, how we think about them, and how we make them? And how do images perpetuate or overturn the legacy of colonial power relations? This course introduces students to the key concepts and debates in post-colonial theory as they relate to visual studies.

Prerequisites: (VCC101H5 or VCC201H5) and VCC306H5

Recommended Preparation: VCC304H5

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

VCC407H5 • Architectures of Vision

Based upon Michel Foucault's work on modern architectures of surveillance, control, and discipline, this course examines such modern and contemporary architectural-visual formations as the museum, domestic

interior, cinema, and the residential and commercial skyscraper. Ways in which these sites have come to define notions of citizenship, privacy and publicity, and community will be of particular focus and concern.

Prerequisites: 13.0 credits including a minimum of 1.0 VCCcredit and (VCC101H5 or VCC201H5)
Recommended Preparation: FAH289H5 and VCC304H5
Distribution Requirements: Humanities
Total Instructional Hours: 24S
Mode of Delivery: In Class

VCC409H5 • Capital, Spectacle, War

This course investigates the conjunction of contemporary global capitalism, spectacle, and militarized neo-liberal governmentality in order to develop a critical understanding of the inter-related forces that constitute the most current and politically and ethically pressing events in the world today. These may include the war on terror, the disaster film genre, technologies of surveillance, politics of humiliation and scandal, and theological and financial speculation and visions of the future. Readings will draw upon both historical and in many cases the latest work in political theory, cinema and new media studies, critical philosophy, and religious studies.

Prerequisites: VCC101H5 and VCC309H5 and an additional 1.0 credit in VCC
Distribution Requirements: Humanities
Total Instructional Hours: 24S
Mode of Delivery: In Class

VCC410H5 • The Collective Afterlife of Things

This fourth-year interdisciplinary seminar provides students with an opportunity to examine theories of art and artistic practice in the context of contemporary visual culture, environmental devastation, global warming, climate injustice, and species extinction. Readings are drawn from eco-criticism and philosophy, visual studies and political theory, accompanied by contemporary art, film, literature in order to critically examine the concepts of “collective,” “afterlife,” and “things.”

Prerequisites: VCC101H5 and a minimum of 1.0 credit in VCC at the 300/400 level.
Distribution Requirements: Humanities
Mode of Delivery: In Class

VCC411H5 • Real Space to Cyberspace

This course examines the re-conception of traditional understandings of architecture and space -- public and private -- brought about by digital technologies. Notions of space affect our conceptions of political, social and inner life; this course investigates the impact of hyperspace and

virtual reality on real and imagined space in a global context.

Prerequisites: FAH101H5 and VCC101H5 and an additional 1.0 credit in VCC
Distribution Requirements: Humanities
Total Instructional Hours: 24S
Mode of Delivery: In Class

VCC415H5 • Theory and Criticism of New Media

Introduces a variety of approaches for interpreting, criticizing, evaluating, and theorizing digital media with a particular emphasis on visual cultural phenomena including augmented reality and virtual reality. Examines how the thinking of new media is conditioned and altered via major theoretical models.

Prerequisites: VCC101H5 and a minimum of 1.0 credit in VCC at 300/400 level
Distribution Requirements: Humanities
Total Instructional Hours: 24S
Mode of Delivery: In Class

VCC419H5 • Animals in Visual Culture

In 1977 the influential critic John Berger wrote an essay called “Why Look at Animals?” which framed humans’ relationship with animals as a matter of vision or, as we now say, of visual culture. More recently the humanities have been described as taking an “animal turn,” influenced by posthumanist thought and the idea that we are living in a period of unprecedented human impact on the planet, commonly (yet controversially) known as the Anthropocene. How has visual culture studies developed on or challenged Berger’s insights since he wrote that essay? Building on critiques of the category of “nature” as something that somehow pre-exists “culture” and is outside of it, which in turn challenges the terms of our distinctions between humans and animals, how does recent scholarship approach the place of images and vision in human-animal relations, and indeed the very idea of the animal itself? This seminar investigates these questions through texts that discuss key theoretical questions and examine representations of animals across a variety of media, species, historical or geographical contexts, and disciplinary approaches.

Prerequisites: (VCC101H5 or FAH101H5) and a minimum of 1.0 VCC credit.
Exclusions: VCC490H5 - Animals in Visual Culture Fall 2018
Recommended Preparation: FAH275H5 or FAH375H5
Distribution Requirements: Humanities
Total Instructional Hours: 24S
Mode of Delivery: In Class

VCC420H5 • The Visual Culture of Automobility

Cars are the quintessential mass-produced commodities, and as such are central to the spread of capitalism and to the forms, spaces, affects, and imaginaries of modernity, postmodernity and beyond. Drawing on anthropology, geography, architectural theory and cinema studies as well as visual studies, art history and critical theory, this seminar examines the visual cultures of automobility over a range of historical periods and cultural contexts.

Prerequisites: 13.0 credits including (VCC101H5 or VCC201H5) and a minimum of 1.0 VCC credit at the 300/400 level

Exclusions: VCC490H5 topics course - The Visual Culture of Automobility.

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

VCC425H5 • Art and Media Culture

Explores intersections of art, pop culture and mass media in Europe and North America between World War II and 1970. Reviews how the definition of art moved into an expanded field of media culture.

Prerequisites: 13.0 credits including (VCC101H5 or VCC201H5) and a minimum of 1.0 VCC credit

Recommended Preparation: FAH289H5 and VCC308H5

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

VCC427H5 • Participatory Media

In order to explore the complex social and political issues surrounding the discourse of democratic participation in today's "new media" culture, this course provides a historical and theoretical survey of "old" media technologies that embrace the aesthetics of participation, running from popular theatre forms (including vaudeville and Chautauqua) to call-in radio shows, avant-garde and novelty films, activist video art, and the audience-based talk and game shows of fifties television that most directly prefigure the participatory genres of contemporary media programming.

Prerequisites: (VCC101H5 or VCC201H5) and at least 1.0 credit in VCC

Distribution Requirements: Humanities

Total Instructional Hours: 24P/24S

Mode of Delivery: In Class

VCC490H5 • Topics in Visual Culture and Communication

An in-depth examination of topics in visual and media culture, from both historical and contemporary

perspectives. Topics vary from year to year, and the content in any given year depends upon the instructor.

Prerequisites: 13.0 credits including (VCC101H5 or VCC201H5) and a minimum of 1.0 VCC credit.

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

VCC492H5 • Topics in Visual Culture and Communication

An in-depth examination of topics in visual and media culture, from both historical and contemporary perspectives. Topics vary from year to year, and the content in any given year depends upon the instructor.

Prerequisites: VCC101H5 or VCC201H5

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

VST410H5 • Internship in Visual Studies

This internship course provides an opportunity for students to gain practical experience at an institution or business closely related to the arts and to visual studies. This is especially tailored for mature and self-disciplined students in their final year of study, who are ready to apply knowledge acquired in previous courses and are planning a career in the arts and cultural sector. Students registered in any DVS program are eligible to apply. Students work closely with the DVS internship coordinator to establish suitability. Regular updates and a final report and presentation will be required. The final grade for the course will be based on these, along with the assessment of the employer.

Prerequisites: Minimum completion of 5.5 credits in DVS Programs and 8.0 additional credits and minimum CGPA 2.5 and permission of internship coordinator.

Course Experience: Partnership-Based Experience

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

VST410Y5 • Internship in Visual Studies

This internship course provides an opportunity for students to gain practical experience at an institution or business closely related to the arts and to visual studies. Transnational relations of gender and sexuality affect every aspect of society. Women Gender and Sexuality Studies (WGSS) provides a rich and complex understanding of a range of socially informed experiences as they relate to race, gender, class, indigeneity and sexuality. The program prepares students to critically intervene in the complexities of the world around them, and find careers in a range of academic and professional areas including policy, law, health, social justice, social service, government, technology, media, and culture.

Students should also review the [Degree Requirements](#) section prior to selecting courses

[ERMIN1443](#)

Women, Gender and Sexuality Studies Courses

WGS101H5 • Introduction to Women and Gender Studies

This foundation course introduces the core ideas students will explore throughout their studies in Women and Gender Studies. It immerses students in a highly participatory and provocative encounter with history, social theory, politics, policy, art and culture seen through a gender lens. It provides an interdisciplinary overview of the historical 'waves' of women's movements for equality in a global context and background to the development of Women/Gender Studies as a site of learning and feminist inquiry.

Exclusions: [WGS160Y5](#) or [WSTA01H3](#) or [WSTA03H3](#).

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

WGS102H5 • Reading and Writing in Women and Gender Studies

Using key feminist texts, this course advances students thinking, reading and writing in the discipline of Women and Gender Studies. The emphasis is placed on the development and application of interdisciplinary skills in the interpretation, analysis, criticism, and advocacy of ideas encountered in Women and Gender Studies.

Recommended Preparation: [WGS101H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

WGS200Y5 • Theories in Women, Gender, and Sexuality Studies

This course provides an opportunity to engage in an in-depth examination of specialized and scholarly work within women, gender, and sexuality studies with a focus on the diverse and multidisciplinary expressions of feminist thought from the perspective of postcolonial, transnational, intersectional, diasporic, Black feminist, indigenous, and queer theories. This course situates the

importance of praxis, the relationship between theory and social practice, to women, gender, and sexuality studies. Students will engage throughout with the relationship

between theories of gender and sexuality as they relate to, and are inseparable from, an understanding of race and racial formations. It incorporates study of the themes and debates concerning the socially constructed categories of gender and sexuality in historical and contemporary contexts.

Prerequisites: [WGS101H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 48L/24T

Mode of Delivery: In Class

WGS202H5 • Fundamentals of Research in Women and Gender Studies

This interdisciplinary course focuses on the visions and methods that feminist scholars use to study women's and gender issues within and across a range of traditional disciplines. The course explores feminist epistemologies and research methods to understand how to carry out feminist research. We will focus on how feminist scholars challenge dominant theories of knowledge and the major methodologies employed in the social sciences and humanities.

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

WGS205H5 • Introduction to Feminism and Popular Culture

This course explores the forms and functions of popular culture and its representation and understanding of the social category of women. It examines specific media forms including, but not limited to, film, song, visual arts, music, video, television, advertising and new media forms. It critically analyzes the impact of these portrayals on women in society while examining the cultural constructions of race, sexuality, class and ability.

Exclusions: [WGS271Y1](#) or [WSTB13H3](#). May not be taken with or after [WGS470H5](#).

Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T

Mode of Delivery: In Class

WGS210H5 • Women, Gender and Labour

This course covers a wide range of issues relating to female participation in public and private sectors of the today's Canadian workforce. It examines the relevance of

education, perceptions, sexuality and family issues. Services and infrastructure, as well as collective bargaining are also addressed.

Distribution Requirements: Humanities
Total Instructional Hours: 24L/12T
Mode of Delivery: In Class

WGS211H5 • Gender, Technology and the Body

This course engages with feminist theories of embodiment to explore the body's intersections with gender and technology. Drawing on the interdisciplinary fields of feminist studies, science and technology studies and disability studies, it explores a range of technological and scientific policies and processes that shape and affect bodies in transnational contexts.

Recommended Preparation: [WGS101H5](#)
Distribution Requirements: Humanities
Total Instructional Hours: 24L/12T
Mode of Delivery: In Class

WGS215H5 • Introduction to Women, Public Policy and the Law

This course introduces students to women's position in Canada as political actors and provides gender-based analysis in relation to public policy and law in Canada. Students will study women's historical participation in and exclusion from policy decision-making processes, and evaluate the impact of feminism and women's activism on Canadian public policies. Using intersectional framework, the course will also examine different ways in which public policies can be made more responsive to gender and diversity concerns as well as the role public policy can play in overcoming gender inequalities. We will investigate key historical changes in public policies affecting Canadian women in such areas as family, workplace, education, poverty-welfare, sexuality and reproductive laws, immigration and refugee laws, and global issues. The course concludes with women's achievements in this area.

Exclusions: [WSTC14H3](#)
Recommended Preparation: [WGS101H5](#)
Distribution Requirements: Humanities
Total Instructional Hours: 24L/12T
Mode of Delivery: In Class

WGS250H5 • Women in Families

This course studies how the notion of family is conceptualized and organized transnationally and historically and examines the multiple familiar roles of women in diverse contexts.

Recommended Preparation: [WGS200Y5](#)
Distribution Requirements: Humanities

Total Instructional Hours: 24L/12T
Mode of Delivery: In Class

WGS299Y5 • Research Opportunity Program

This course provides a richly rewarding opportunity for students in their second year to work in the research project of a professor in return for 299Y course credit. Students enrolled have an opportunity to become involved in original research, learn research methods and share in the excitement and discovery of acquiring new knowledge. Participating faculty members post their project descriptions for the following summer and fall-winter sessions in early February and students are invited to apply in early March. See [Experiential and International Opportunities](#) for more details.

Prerequisites: Completion of at least 4.0 and not more than 9.0 credits
Distribution Requirements: Humanities
Mode of Delivery: In Class

WGS301H5 • Representing Islam

The course explores historical and contemporary debates regarding the construction of gender in Islam. It examines historic and literary representations, ethnographic narratives, legal and human rights discourses, the politics of veiling, and Islamic feminism. This course situates Muslim women as complex, multidimensional actors engaged in knowledge production and political and feminist struggles, as opposed to the static, victim-centered, Orientalist images that have regained currency in the representation of Muslim women in the post 9/11 era.

Prerequisites: [WGS200Y5](#)
Exclusions: [NEW368H1](#) or [WSTC13H3](#)
Recommended Preparation: [WGS202H5](#)
Distribution Requirements: Humanities
Total Instructional Hours: 24L
Mode of Delivery: In Class

WGS325H5 • Sustainability: Society and Feminist Praxis

Sustainability considers humanity's relationship to the environment. It reflects on a feminist politics of care and the specific ways people are affected along lines of race, gender, class, sexuality and citizenship. It explores how feminist scholarship seeks to direct policy change and respond to ecological and climatic crises.

Recommended Preparation: [WGS101H5](#) or [WGS200Y5](#)
Distribution Requirements: Humanities
Total Instructional Hours: 24L
Mode of Delivery: In Class

WGS335H5 • Women, Migration and Diaspora

This course examines the process of migration to Canada from a gender perspective, noting the interplay between structural impediments and women's own agency. Historical perspectives on migration and government policy, and on ways women have rebuilt lives and shaped communities.

Exclusions: [ERI335H5](#) or [NEW335H1](#) or [WGS380H1](#) or [WSTB06H3](#)

Recommended Preparation: [WGS202H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

WGS336H5 • Political Aesthetics and Feminist Representation

This course engages with feminist theoretical models and approaches to examine the ways in which the "body" has been constructed, enacted, and embodied through aesthetic forms like photography, cinema, music, performance, film and to understand how women, queer, and racialized artists use aesthetics as a response to social and political crises. This course considers what constitutes the relationship between the *political* and the *aesthetic* and approaches aesthetics as important sites of ideological and political tension.

Exclusions: [JNV300H1](#)

Recommended Preparation: [WGS200Y5](#) or [WGS202H5](#) or [WGS205H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

WGS337H5 • Special Topics in Women and Gender Studies

A special topic by guest instructor. Topics vary from year to year. Check the web site for current offerings.

Recommended Preparation: [WGS200Y5](#) or [WGS202H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

WGS340H5 • Black Feminisms: Diasporic Conversations on Theory and Practice

This course examines how Black Feminisms are theorized, produced and practiced, by predominantly Black women scholars, activists and cultural producers located in the diaspora - Canada, the United States and the Caribbean.

Prerequisites: [WGS101H5](#) or [WGS200Y5](#)

Recommended Preparation: [WGS202H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

WGS341H5 • Black Queer Cinema and Visual Culture

This course introduces students to LGBTIQ themed films and visual culture from Africa and the diaspora. It analyzes gender and sexuality from the perspective of black/African filmmakers, visual artists, and theorists.

Prerequisites: [WGS200Y5](#) or [WGS205H5](#)

Recommended Preparation: [WGS336H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L/24P

Mode of Delivery: In Class

WGS343H5 • The Montreal Experience: Sex and Gender in la Cité

This course examines how gender and sexuality intersect with factors such as nationhood, race, language, politics, religion, geography, and the arts in Quebec. After six classroom sessions, the class will travel to Montreal for 4-5 days, where they will visit museums, cultural institutions and attend guest lectures at various institutions. This experiential learning opportunity allows students to engage in deeper learning to see the issues and histories they have been studying come to life. Ancillary fees apply for this course.

Recommended Preparation: [WGS101H5](#) or [WGS200Y5](#) or [WGS202H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

WGS345H5 • Genealogies of South Asian Feminisms

This course examines the histories of activism for and by women in South Asia (India, Pakistan, Bangladesh, Sri Lanka) from the colonial period to the present. Topics include colonialism, the Partition of 1947, war, religion, development, labour, nationalism, and the family/reproductive rights.

Prerequisites: [WGS101H5](#) or [WGS200Y5](#)

Recommended Preparation: [WGS202H5](#)

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

WGS347H5 • Indigenous Feminisms and Decolonization

This course explores themes related to Indigenous feminist scholarship and activism in North America. The course centres on how Indigenous women engage in decolonial practices as a response to histories of colonialism and genocide. Themes include status and tribal nations; oral history and narrative; violence and resistance, knowledge construction and pedagogy, community, self-governance and freedom.

Prerequisites: WGS101H5 or WGS200Y5

Recommended Preparation: WGS202H5

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

WGS348H5 • Sex, Gender, and the Environment

This course discusses, historicizes, and theorizes the undeniable connection between the health of our bodies and the health of our planet. This course engages with Indigenous feminisms, Black feminisms, and queer/decolonial/anticolonial thought to build a response to historic and ongoing colonial, gender-based, and environmental violence through grounded justice practices.

Prerequisites: WGS101H5 or WGS200Y5

Recommended Preparation: ANT241H5 or GGR202H5 or SOC228H5 or WGS102H5

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

WGS350H5 • Critical Race Theory in Women and Gender Studies

This course's central focus is an examination of the way race and gender operate together in structuring social inequality. It offers the analytical tools for exploring the interconnections between race and gender, along with other systems of domination, and incorporates perspectives from women of colour and from women in the global "South."

Prerequisites: WGS200Y5

Exclusions: WSTB11H3

Recommended Preparation: WGS202H5 or WGS368H5

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

WGS351H5 • Gender, Race, and Surveillance

From forced sterilization and sex-selective abortion, to selfies, prisons, and biosecurity, this course conceptualizes suspicion and technologies of surveillance in transnational perspectives. Informed by a range of interdisciplinary scholarship, namely critical transnational feminist and Black feminist texts, it interrogates how surveillance has long enacted racialized, gendered, and biopolitical injustices.

Prerequisites: WGS200Y5

Exclusions: WGS337H5 (Fall 2017)

Recommended Preparation: WGS101H5 or WGS202H5

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

WGS353H5 • Theories of Masculinity

Working with gender studies' theories, this course draws on social and cultural constructions and practices to offer a complex reading of masculinities. It explores contemporary debates of the ways in which masculinities have been theorized and experienced in practices and identity formation.

Exclusions: WGS275H1

Recommended Preparation: WGS101H5 or WGS200Y5 or WGS202H5

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

WGS354H5 • Gender, Sexuality and Sport

This course explores how gender, sexuality and other intersectional identity markers work within and against structures of privilege and oppression in the world of sport. It takes up topics and themes that inform popular culture and influence the construction of social norms.

Recommended Preparation: WGS101H5 or WGS200Y5 or WGS202H5

Distribution Requirements: Humanities

Total Instructional Hours: 24L

Mode of Delivery: In Class

WGS355H5 • Wired Women: Gender, Cyberspace and New Information Technology

The course examines how computer technologies facilitate women's participation in cyberspace and how women define and construct their involvement. It studies the simultaneous generation of new modalities of empowerment and disempowerment including language,

role-playing, communication, gaming, and networking and conduits for sex trafficking, harassment and other forums of exploitation.

Recommended Preparation: WGS200Y5 or WGS202H5
Distribution Requirements: Humanities
Total Instructional Hours: 24L
Mode of Delivery: In Class

WGS365H5 • Gender, Justice and the Law

This course discusses the construction and representation of women in Canadian and International law. It analyzes specific contexts and historical issues including employment, sexuality, reproduction, deviance and a variety of justice theories relating to gender.

Exclusions: WGS365H1 or WSTC16H3
Recommended Preparation: WGS200Y5 or WGS202H5
Distribution Requirements: Humanities
Total Instructional Hours: 24L
Mode of Delivery: In Class

WGS366H5 • Women and Psychology

An interdisciplinary analysis of the relationship of women to a variety of psychological and psychoanalytical theories and practices. Topics include gender development, stereotyping and gender roles, the impact of gender on intimate relationships, women and the psychological establishment, women's mental health issues and feminist approaches to psychoanalysis.

Prerequisites: WGS200Y5
Exclusions: PSYD18H or WGS372H1
Recommended Preparation: WGS202H5 or WGS367H5
Distribution Requirements: Humanities
Total Instructional Hours: 24L
Mode of Delivery: In Class

WGS367H5 • Women and Health

Feminist theories and frameworks examining the interconnections between women, health and biomedicine in North America and transnationally.

Exclusions: NEW367H1 or WGS367H1 or WSTC21H3
Recommended Preparation: WGS200Y5 or WGS202H5
Distribution Requirements: Humanities
Total Instructional Hours: 24L
Mode of Delivery: In Class

WGS368H5 • Women in World Cultures

Examines the diversity and shared experiences of women in western and non-western societies. This is primarily a history course, supplemented with some contemporary perspectives. It compares women in diverse economic,

cultural and religious settings. As part of this course, students may have the option of participating in an international learning experience that will have an additional cost and application process.

Exclusions: ERI368H5 or NEW368H1 or WGS368H1
Recommended Preparation: WGS202H5
International Component: International - Optional
Distribution Requirements: Humanities
Total Instructional Hours: 24L
Mode of Delivery: In Class

WGS369H5 • Women in Science, Technology, Engineering and Mathematics

Women in Science, Technology, Engineering, Mathematics (S.T.E.M.) analyzes how society, culture, education, and intersectional power relationships shape women's lives and their career choices and studies the underlying gendered issues in these professions.

Recommended Preparation: WGS101H5 or WGS200Y5
Distribution Requirements: Humanities
Total Instructional Hours: 24L
Mode of Delivery: In Class

WGS369Y5 • Gender, Colonialism and Postcolonialism

An examination of the complexities and the processes of colonialism/postcolonialism. Emphasis is placed on writings by feminists in the Global South, and the diaspora, to explore how subordination was forged and resisted in specific colonial and postcolonial settings.

Exclusions: NEW369Y1 or WGS369H1
Recommended Preparation: WGS200Y5 or WGS202H5
Distribution Requirements: Humanities
Total Instructional Hours: 48L
Mode of Delivery: In Class

WGS370H5 • On Love: Gender, Sexuality, Identity

This course considers the construction and mobilization of the gendered, sexed and sexualized subject within its historical, cultural and geographical contexts and seeks to understand the role of love in the construction of gendered identity and sexuality. Through its examination of texts on love, passion and desire, it investigates the lives and treatment of selected women in feminist scholarship in order to think through how ideas about race, class, sexuality, desire and danger are mediated in and through the body.

Prerequisites: WGS200Y5
Exclusions: WGS374H1
Recommended Preparation: WGS202H5

Distribution Requirements: Humanities
Total Instructional Hours: 24L
Mode of Delivery: In Class

WGS372H5 • Theories of Sexuality

This course offers a critical overview of contemporary theories of sexuality, focusing on transnational discussions by feminists and queer theorists.

Exclusions: WGS450H5 or WSTD03H3
Recommended Preparation: WGS101H5 or WGS202H5 or WGS200Y5
Distribution Requirements: Humanities
Total Instructional Hours: 24L
Mode of Delivery: In Class

WGS373H5 • Gender, Violence and Resistance

This course will focus on how gender and violence shapes and impacts the lives of women and LGBT persons. The course will explore the concept of gender and the myriad of ways in which it has been shaped by historical, and contextual relations of power and privilege. The course will explore how scholars in the feminist/women's movement have defined the concept of violence as it impacts women and girls.

Exclusions: WGS373H1 or WSTB12H3
Recommended Preparation: WGS200Y5 or WGS202H5
Distribution Requirements: Humanities
Total Instructional Hours: 24L
Mode of Delivery: In Class

WGS375H5 • The Aesthetics of Sexuality

What is the relationship between aesthetic form and sexuality? Drawing on theories and methods from feminist and sexuality studies, this course engages this question to understand the emergence of queer aesthetics as a response to social and political crisis, whilst comprehending how LGBTIQ+ artists create livable worlds by imagining otherwise.

Prerequisites: WGS200Y5 or WGS205H5
Distribution Requirements: Humanities
Total Instructional Hours: 24L/12P
Mode of Delivery: In Class

WGS410H5 • Independent Project in Study of Women & Gender

An opportunity to carry out an extended research project under the supervision of a faculty member. A proposal must be presented to the faculty member and consent obtained before the end of the July registration period.

Prerequisites: WGS200Y5 and 2.0 WGS 300+ level credits.
Exclusions: ERI410H5 or WGS411Y5
Distribution Requirements: Humanities
Mode of Delivery: In Class

WGS411Y5 • Independent Project in Study of Women & Gender

An opportunity to carry out an extended research project under the supervision of a faculty member. A proposal must be presented to the faculty member and consent obtained before the end of the July registration.

Prerequisites: WGS200Y5 and 2.0 WGS 300+ level credits.
Exclusions: ERI411Y5 or WGS410H5
Distribution Requirements: Humanities
Mode of Delivery: In Class

WGS415H5 • Black Feminist Performance in Popular Culture and Everyday Life

This course provides students with an understanding of how Black Feminist Performance is read, interpreted and experienced in popular culture and everyday life. The course focuses on texts and cultural work produced by feminist scholars, critics and artists who engage with race, gender and sexuality across multiple sites.

Prerequisites: WGS200Y5 and 1.0 WGS credit at the 300/400 level
Exclusions: WGS434H5 (Winter 2020)
Distribution Requirements: Humanities
Total Instructional Hours: 24S
Mode of Delivery: In Class

WGS418H5 • Feminist Cultural Studies of Biomedicine

From vaccines and contraception, to erectile dysfunction drugs and clinical trials, biomedicine and biotechnologies are increasingly powerful and transformative modalities transnationally. Incorporating methods from feminist postcolonial, cultural, media and technoscience studies, this course examines biomedicine by critically attending to its intersections with gender, race, sexuality, colonialism, capitalism and culture.

Prerequisites: WGS200Y5 and 1.0 WGS 300+ level credits
Recommended Preparation: WGS202H5
Distribution Requirements: Humanities
Total Instructional Hours: 24S
Mode of Delivery: In Class

WGS419H5 • Gender and Disability

A critical interdisciplinary investigation of how gender impacts on central topics in disability studies: the normalized body and cultural representations; sexuality; violence; the cognitive and social roles of medicine; transnational perspectives on disability; and disability rights and issues of social justice including the experience of people with disabilities and responses of resistance.

Prerequisites: WGS200Y5 and 1.0 WGS 300+ level credits.

Exclusions: WGS366H1

Recommended Preparation: WGS202H5

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

WGS420H5 • Engendering Human Rights

This seminar analyzes human rights responses to particular gendered sites of historical repression including examples of genocide, torture and war. It includes reactions generated from government and international organizations as well as remedies developed by victims/survivors. As part of this course, students may have the option of participating in an international learning experience that will have an additional cost and application process.

Prerequisites: WGS200Y5 and 1.0 WGS 300+ level credits or (HIS338H5 or HIS438H5)

Exclusions: WSTD04H3

Recommended Preparation: WGS202H5

International Component: International - Optional

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

WGS421H5 • Engendering Ethics

This course situates feminist ethics within the context of Western moral theories, and will consider the challenges that have been posed to this tradition from careful consideration of the category of women's experience. It will examine foundational texts in the history of ethics as well as more recent feminist interventions in such paradigms. The course complements the study of the theoretical texts with analysis and discussion of contemporary social and political issues pertaining to gendered selves.

Prerequisites: WGS200Y5 and 1.0 WGS 300+ level credits

Recommended Preparation: WGS202H5

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

WGS425H5 • Decolonial Feminist Archival Practices

This course challenges the notion of the archives as institutions and repositories of historical truths. It develops students' archival analytical skills using critical feminist intersectional, decolonial, diasporic, and queer approaches. Students learn to reimagine and rethink archival spaces.

Prerequisites: WGS200Y5 and 1.0 WGS credit at the 300/400 level

Recommended Preparation: WGS372H5

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

WGS430H5 • Diasporic Sexualities

What can diaspora studies teach us about sexuality studies? And, what can sexuality studies teach us about diaspora studies? This class examines the relationship between diaspora studies, sexuality studies, and feminist studies by focusing on how diasporic movements of bodies have altered and transformed modern conceptualizations of gender and sexuality. It will investigate how diasporic subjects negotiate their relationship to constructs of home and (un)belonging.

Prerequisites: WGS200Y5 and 1.0 WGS300+ level credits

Exclusions: WGS430H1

Recommended Preparation: WGS202H5 or WGS205H5 or DTS201H5 or DTS202H5 or DTS301H5 or DTS401H5

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

WGS434H5 • Special Topics in Women & Gender Studies

A special topic by a guest instructor. Topics vary from year to year. Check the web site for information about this offering each term.

Prerequisites: WGS200Y5 and 1.0 WGS 300+ level credits.

Recommended Preparation: WGS202H5

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

WGS435Y5 • Women and Gender Studies Practicum

The practicum allows advanced WGS students to combine theory and practice through part-time unpaid placement with a community agency, government body, educational or social change organization.

Prerequisites: WGS200Y5

Exclusions: WGS470Y1 or WSTC23H3

Recommended Preparation: 1.0 credit of WGS at the 300-level or higher

Course Experience: Partnership-Based Experience

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

WGS455H5 • Queer Theory

This course examines the theories, histories and experiences of 'queer' in Canada and transnationally. It incorporates the diversity of emergent cultural expressions of LGBTQ sexuality understood beyond definitions of social identities.

Prerequisites: WGS200Y5 and 1.0 WGS 300+ level credits

Exclusions: WGS376H1

Recommended Preparation: WGS202H5 or WGS370H5

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

WGS470H5 • Politicizing Culture: Pop Feminism and Representation

This course examines the intricate relationships among feminism, culture, power and representation. Major themes include: the construction of gendered, sexualized, and racialized subjectivities; ideologies and the media; bio-and communication technologies; neoliberalism and neocolonialism; and counter interpretations, reclamations, and remixes of hegemonic cultural forms.

Prerequisites: WGS200Y5 and 1.5 WGS 300+ level credits

Recommended Preparation: WGS101H5 or WGS202H5 or WGS205H5

Distribution Requirements: Humanities

Total Instructional Hours: 24S

Mode of Delivery: In Class

WGS497Y5 • Independent Reading

Student-initiated project of reading and research, supervised by a member of the Department. Primarily intended for students in a Major program. After obtaining a supervisor, a student must apply to the Department of Historical Studies. A maximum of 1.0 credit in a reading course is permitted.

Distribution Requirements: Humanities

Mode of Delivery: In Class
